MINNESOTA HISTORICAL SOCIETY

THAW'S ATTORNEYS SPRING FIRST SURPRISE OF TRIAL

Have Subpoenaed Expert Witnesses of the Prosecution

To Testify for Defense in Regard to Prisoner's Sanity.

Little Progress is Being Made in Securing a Jury.

New York, Jan. 8.—The defense in the case of Harry K. Thaw sprung the first great surprise of the second trial today by announcing that it had issued subpoenaes for several of the expert witnesses who testified for the prosecution at the first hearing a year ago, and who, when District Attorney Jerome applied for a lunacy commission, made affidavit that in their opinion Thaw at the time of the inquiry was suffering from an incurable form of insanity.

These same doctors, however, had previously testified, on the witness stand, in response to Mr. Jerome's famous hypothetical question, that they believed Thaw knew what he was about when he shot and killed Stanford White on the Madison Square Roof garden. This move is intended by the defense as a block to the prosecution in putting these same doctors on the stand, and is taken by some as showing a determination that Thaw shall not be convicted, even with the danger of a stay in the asylum for the criminal insane at Matteawan as the alternative.

The alienists who were the mainstay of the prosecution at the first trial were Doctors William Maben, Carlos MacDonald and Austin Flint. They were present at the former hearing, from the

SPIRITS IN THIS SUIT

Parallel to Pepper-Vanderbilt Case Found in Chicago.

J. H. Lesher, Millionaire Club Man, Sued for Support.

Chicago, Jan. 8.—J. H. Lesher, who is a millionaire woolen manufacturer and resident member of the Chicago Atheletic club, was made defendant last evening in a separate maintenance suit, which, in some respects, is a parallel to the celebrated Vanderbilt-May Pepper case in New York. The Lesher suit brings out the fact that Mr. Lesher claims as his wife May Bangs, one of the Bangs sisters, whoe "spirit portraits" Dr. I. K. Funk investigated unavallingly. The plaintiff, whom Mr. Lesher acknowledges as having been sent to Europe by him and having been given by him an interest in one of his enterprises, but whom he declares he never married, is known as Mrs. Belle Scramlin. It is alleged by Mrs. Scramlin that May Bangs and Mr. Lesher committed bigamy in marrying, and that Lesher was inveigled into the marriage through the instrumentality of a "spirit portrait" of his dead mother.

NOT GUILTY, HEINZE PLEA

When Arraigned, Charged With Over-Certification of Checks.

Reserves Right to Withdraw and Demur Before Jan. 20.

New York, Jan. 8.—F. Augustus Heinze, who was arrested yesterday, charged with the over-certification of checks while president of the Mercantile National bank, today entered a plea of not guilty, when arraigned before Judge Chatfield, in the United States court. Through his counsel, Heinze reserved the right to withdraw the plea of not guilty, and demur to the indictment any time before Jan. 20. The bail bond of $50,000, which Mr. Heinze furnished after his arrest yesterday, was allowed to stand.

After an examination of the indictments, which contains thirty counts, Counsel Edward Lauterbach made the following statement:

"The indictment is based upon certification of fifteen checks, amounting to something over $400,000, drawn by Otto Heinze & Co. on the 14th day of October last. Before the certification was made, F. Augustus Heinze obtained the discount of a note of $500,000, secured by abundant stock exchange collateral, worth, at the market rates of that day, more than $800,000, and drew his check for $500,000 to the credit of Otto Heinze & Co., the amount of which should have been passed to their credit, as I think it was. There cer-

NEW YORK BROKER ENDS HIS LIFE

Charles W. Whitney Shoots Himself at His Home.

New York, Jan. 8.—Charles W. Whitney, a member of the stock exchange firm of H. N. Whitney & Sons, committed suicide today at his home in West Seventy-second street by shooting. The cause for his act has not yet been learned. Mr. Whitney was 38 years old.

The firm of H. N. Whitney & Sons is well known on the New York stock exchange. It is composed of H. N. Whitney, H. F. Whitney, A. F. Whitney and Henry L. Maxwell. Charles W. Whitney was also a member of the firm. With the exception of A. E. Whitney and Mr. Maxwell, all the members of the firm hold memberships in the exchange. The firm in 1901 succeeded Kissam, Whitney & Co., who were brokers for the old Vanderbilt interests.

Mr. Whitney had been manager of the company's branch office in Madison avenue. He had not been active in business in several months, however, having suffered a sunstroke early last October.

TRAIN CARRIES AWAY THE VILLAGE JAIL

Atlantic City, N. J., Jan. 8.—Justice of the Peace Carver of Ellwood will hereafter look for something more substantial to use for a jail than a freight car. The justice is a terror to motorists, and yesterday a speeding driver was arrested. A friend was allowed to run the machine into the city to obtain money to pay the fine and the motorist was locked up in a freight car, the village having no lock-up. When the justice came back from dinner he found the car gone. It had been picked up by a passing train and run to Camden. The motorist telephoned his thanks for his escape to the justice.

JOHN B. WINSLOW,
Member of the Supreme Bench of Wisconsin, Who Becomes Chief Justice by Reason of Seniority.

GRAND JURY IS STILL PROBING

Investigating Transactions Similar to Those of Augustus Heinze.

New York, Jan. 8.—Through the arrest yesterday of F. Augustus Heinze, the promoter and former president of the Mercantile National bank, on a charge of over certifying checks to the amount of $400,000, it has developed that a federal grand jury is still engaged in a searching investigation into other transactions of a similar nature in this city. While none of the federal officials will make any statements as to the possible result or even the extent to which the inquiry will go, United States District Attorney Stimson said today that the work of the jury has not been complete. "It would be improper for me to reveal the evidence I have, lest I give away my case," said Mr. Stimson, "but I can say that the investigation is not yet over."

To the straight question as to whether there was a likelihood of other arrests the district attorney refused to answer.

ENGLISH NOTEHOLDERS ASK FOR TEMPORARY RECEIVER

LOWRY IS A CANDIDATE

For Delegate at Large to Republican National Convention.

Brings Out Other Aspirants and Warm Fight is Likely.

Minneapolis, Jan. 8.—(Special to The Herald.)—Thomas Lowry, the street car magnate, has practically announced himself as a candidate for delegate-at-large from Minnnesota to the national Republican convention, to be held at Chicago. He says he would be willing to allow the use of his name.

Mr. Lowry's candidacy brings to the front three Mill City Republicans who aspire to this particular honor, and the politicians in consequence are hugging themselves with joy over the fight that is in prospect. The other two candidates are Thomas Shevlin, the lumberman, and James Peterson.

Mr. Lowry wants the state to send an uninstructed delegation, Mr. Shevlin is a Taft man, and James Peterson stands for La Follette. Andrew Ronn is supposed to be caring for the Shevlin interests; C. E. Goodrich is looked upon as the main spoke in the Lowry candidacy, and Peterson is playing his own game. The state senators, among them Ed Peterson and Calhoun, are understood to be pushing the Lowry candidacy.

There is nothing outside of custom that entitles Hennepin county to one of the delegates-at-large, and the fight now on here may result in the custom being abolished altogether. It is said that those interested are even trying to extend the fight to Ramsey county, with a view of getting the scalp of Frank Kellogg, who has a clear track as far as the Fourth district is concerned.

It is said in Minneapolis that the federal office holders in Ramsey county are opposed to Mr. Kellogg. This is denied in St. Paul.

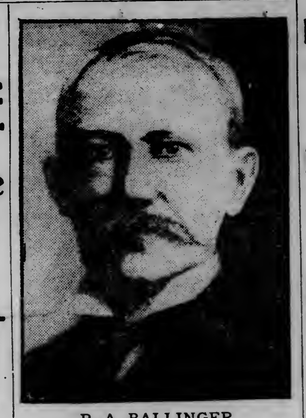
STOLE BANK'S MONEY.

Former Messenger Arrested on His Return From England.

New York, Jan. 8.—Isaac Kushneroff, 17 years old, is under arrest, charged with stealing $390 from the Bank of North America last September. It is said the boy, who was a messenger, was sent out to make collections but disappeared with $890 of the bank's money. The police say the boy visited several American cities and then went to England, where he became destitute. He wrote home for money and his parents sent him enough to bring him back in the steerage.

NORTHERN PACIFIC DIVIDEND.

New York, Jan. 8. Directors of the Northern Pacific railway, today, declared a quarterly dividend of 1¾ per cent on the common stock. This is unchanged from the last previous quarter.



R. A. BALLINGER,
Commissioner of the General Land Office, Who Has Resigned His Position.

FIVE MEN ARE LOST

In Wreck of an Unknown Schooner on the Diamond Shoals.

Vessel in Pieces in Thirty Minutes—Two Men Saved.

Norfolk, Va., Jan. 8.—A broken message received here over the United States Sea Coast telegraph wires today from Cape Hatteras, on the North Carolina coast, reports the stranding and loss on the treacherous Diamond shoals, yesterday, of an unknown schooner, out of whose crew of seven men, five perished and two were saved. The message, which fails to give the name of the lost vessel, reports her to have been a schooner bound from Longpoint, Me., to Charleston, S. C., laden with fish scrap. The captain of the vessel was among those who were lost.

Schooner Was Forty-two Years Old.

The two men who escaped are reported to be foreigners, who heard those aboard say that the vessel was forty-two years old.

The schooner, according to the dispath, went to pieces within thirty minutes after she struck on the shoals during the fierce gale which swept the coast, registering a wind velocity off Hatteras of 75 miles an hour, and declared to have been the worst storm in Eastern Carolina since 1879. The storm today completely passed from this coast, and the weather is clear.

The launch from the quarantine ship Jamestown, supposed to have been lost in Hampton Roads during yesterday's storm, with the coxswain and engineer aboard, was picked up by a passing vessel after the launch had been abandoned by the steamship Kelvingrove, and was towed to Old Point Comfort, where Coxswain Silt and Engineer Boyd were safely landed.

MANY FOR NAVY; FEW FOR ARMY

Land Forces of Country Are Becoming Mere Skeletons.

Washington, Jan. 8.—The hard times in the industrial world that have driven into the marine corps and the navy nearly all of the men needed to fill the authorized quotas, have not helped the army so far in the matter of recruitment. Reports still flow in upon the war department of failure to secure recruits; of privates buying their discharges; of non-commissioned officers refusing to re-enlist, and of resulting skeleton organizations that are little more than travesties upon fighting forces. A typical report, just at hand, is one from Fort McIntosh, Tex., in which the commanding officer of a battalion of the Nineteenth infantry, says: "I have present today in the four companies, fifty-six men and twenty-nine of these are to be discharged this month. At the end of this month, if we get no recruits, one company will have three men and another four. The other two companies will have eleven and twelve men, respectively."

The report is one of a number being collected for the enlightenment of congress in dealing with the great question of "What is wrong with the army."

PRESIDENT ELIOT TO VISIT MIDDLE WEST.

Cambridge, Mass., Jan. 8.—It was announced at Harvard today that President Charles W. Eliot had planned an itinerary of a trip through the Middle West next April, including visits to Chicago, Evanston, Ill., and Des Moines, Iowa. President Eliot will be entertained by other university presidents and by Harvard clubs. He plans a number of addresses, a majority of which will be upon municipal government by commission, an experiment in which President Eliot has shown keen interest. Mrs. Eliot will accompany him.

Pending Readjustment of Great Western's Financial Trouble.

English Capitalists Meet With President Stickney in London.

Receiver Will be Named by Judge Sanborn at St. Paul.

London, Jan. 8.—The expected meeting of the note holders of the Chicago Great Western Railway company with A. B. Stickney, president of the company, was held this afternoon. It was decided to appoint a receiver for the company to maintain the status quo during the time necessary to prepare a first mortgage bond covering all the indebtedness of the road and to obtain a vote of the stockholders on this measure. There were many note holders at the meeting.

St. Paul, Minn., Jan. 8.—(Special to The Herald.)—Frank B. Kellogg and other attorneys, representing the creditors of the Chicago Great Western railroad, had a conference with Judge Sanborn of the United States circuit court at 10 o'clock today, and at its close Mr. Kellogg announced that he would appear before Judge Sanborn this afternoon with an application for a receiver for the Chicago Great Western railroad.

"We have not yet decided who will be receiver," said he, "as that will come up when the application is before the court. We have merely decided that the receiver shall be asked for as it had to come sooner or later."

The hearing will be held about 2:30 p. m.

Cause of Receivership.

The following statement regarding the reason for the receivership was given by Mr. Kellogg this afternoon: "The receivership is not the result of the action of any single creditor or stockholder, but has been taken after careful consideration by all parties interested, many of the creditors, and the board of directors. The immediate reason for the receivership is the failure to obtain an extension of the notes now due and coming due during 1908, which were given for money borrowed for improvements and betterments of the property. The company has spent about $15,000,000 during the past ten years in lowering grades, constructing new bridges, culverts, acquiring additional terminals and equipment, double-tracking, and in general improvements and betterments of the railway, and has outstanding notes for this purpose, to the amount of about $10,000,000. During last spring a plan for financing the road was agreed to by the board of directors and the finance committee, but owing to the stringency in the money market and other unforeseen causes, they have been unable to carry it out.

"The earnings of the company were very materially decreased during the autumn by a strike at the shops, which tied up the equipment. The strike was won by the company, but the damage had been done.

"The receivership will be temporary, pending the time required to carry through the plan of financing the road. Everything possible has been done to avoid a receivership, but it could not be prevented."

TWO INDICTED.

St. Joseph, Mo., Jan. 8.—Walter C. Stewart, superintendent of the municipal lighting plant, with which he has been connected twenty-one years, has been indicted by the grand jury, charged with obtaining money by false pretenses and on false certificates. Charles W. Walter foreman, also an old employe, is under arrest and other indictments are out.

PRISONER ESCAPES

Thomas Nee, Who Killed Deputy McCall, Gets Away.

Knocked His Jailer Down at Shakopee and Skipped.

St. Paul, Minn., Jan. 8.—(Special to The Herald.)—One blow of his fist gained freedom from the Shakopee jail Tuesday night, for Thomas Nee, aged 18, accused of the murder of Dan McCall, deputy sheriff, at Pryor's Lake, a few days ago.

Nee was permitted to eat in the jail corridor Tuesday evening. As a guard removed the dishes, Nee sprang at him, hit him on the jaw, knocked him down, rushed to the doors and escaped.

An alarm was immediately given. The surrounding country was closely searched, but no trace of the fugitive found. Police of St. Paul and Minneapolis were notified to keep a sharp lookout for Nee, who is considered desperate.

Nee shot McCall twice when the latter tried to arrest him for an alleged burglary. McCall, mortally wounded, clung to his prisoner, however, and traveling fourteen miles, succeeded in lodging him in the Shakopee jail.

McCall was later removed to a Minneapolis hospital, where he died of his wounds.

JAPANESE TOO BUSY

With China and Korea to Fight the United States.

Troubles in Asia Giving Tokio Greatest Concern.

Paris, Jan. 8.—The Echo de Paris today prints an interview emanating, it says, from an "authorized Japanese source," with the object of showing that Japan is so absorbed with the mainland of Asia that war with America is impossible.

"The entire attention of Japan," says the interview, "is occupied with China and Korea, where developments are occurring which are giving Tokio the greatest concern. China has just dismissed a number of Japanese instructors, who have been replaced with Germans. The Manchurian situation is full of complications. China demands the immediate integral application of the treaty of Portsmouth, which would deprive Japan of the possibility of excercising an efficacious influence in Manchuria.

Oppose Railroad.

"Japan opposes the extension of the Pekin railroad to Foukoumen, by way of Hsinmintun, on the ground that the Pekin agreement of 1905 stipulated that China should not construct a parallel line injurious to Japanese interests. The Japanese occupation of Korea also is meeting with much opposition, and for this and other reasons Japan is actively pushing the work of increasing her armaments. The message of the emperor of Japan clearly indicates that the country is looking to the Far East, and not in the direction of America."

DISAPPEARANCE OF $276,000,000

From Banks Noted During the Financial Disturbance.

New York, Jan. 8.—According to the monthly circular of the National City bank, $276,000,000 in cash disappeared between the call for the condition of the national banks responded to last August and the one last month.

This includes a net reduction of $41,000,000 in the cash holdings of all the national banks in the country and a loss of $13,000,000 cash reported by the New York city trust companies, together with the known additions to the circulating medium during this period, including $160,000,000 of gold imported from abroad and $72,000,000 cash released by the United States treasury.

REGULAR ARMY FOR MILITIAMEN

Members of National Guard May Become Second Lieutenants.

Washington, Jan. 8.—At the instance of the president, Assistant Secretary Oliver of the war department has notified the governors of the various states and territories, and the commissioners of the District of Columbia, of his desire that they designate a single representative from the National Guard of each state and territory, to take the competitive examination for appointment as second lieutenant in the regular army, under the conditions and limitations prescribed in the case of all civilian appointees in the army. These National Guard candidates will be appointed according to their standing in the examination, and to the extent that vacancies may exist in the army. This action is taken both with the view of encouraging members of the militia and of securing good material for the regulars. The only conditions imposed on the governors are that the militiamen nominated by them shall have had at least two years' service in the National Guard, and have been recommended by their immediate commanding officers.

CALLS FOR A BRIDGE ACROSS MISSISSIPPI.

Washington, Jan. 8.—(Special to The Herald.)—Representative Lindbergh yesterday introduced a bill authorizing the construction of a bridge across the Mississippi river at the village of Rice, Benton county, Minn.

MAN HURT; HORSE KILLED.

Winnebago, Minn., Jan. 8.—William Young of this place was badly injured in a runaway. He had driven to Blue Earth when his rig was run into by a team going in the opposite direction. Young was thrown out on his head, rendering him unconscious. His horses broke loose and ran away, one of them being killed by striking a telephone pole.

$3.75 For $5.00 kinds medium and heavy weight Underwear.

HEADING WAS MISLEADING

County's Expenses Last Year Were Under $300,000.

A heading in The Herald yesterday, inadvertently written, carried the idea that the running expenses of St. Louis county last year totalled something over $2,000,000. The heading was over an article relative to the auditor's annual statement. As a matter of fact, it cost the county only $213,459 for running expenses, as shown by the county revenue fund. This was something of an increase over the expenses for the preceding year, and was due to the fact that an addition was built to the courthouse and the increased court work has necessitated the attendance of a great many more witnesses and jurors at every term of the district court. The money paid out on bonds and interest, to school districts and to the state do not come under the heading of the county's running expenses, and to include them as such is misleading.

SENTENCE OF COOK ORDERED ENFORCED.

Chicago, Jan. 8.—A mandate of the state supreme court ordering that a sentence of the criminal court be enforced against John A. Cooke, formerly a clerk of the circuit court, convicted seventeen months ago of having falsified the court records, reached the state's attorney's office today from Springfield. Cooke was found guilty of having conspired with others to obtain by fraud funds belonging to Cook county. He was sentenced to serve a term of one to five years in the penitentiary and to pay a fine of $2,000. Cooke is now at liberty on bonds aggregating $35,000 and was said to be out of the city.

There is a reason why Grape-Nuts should correct a weak physical, or a sluggish mental condition. The food is highly nutritious and is pre-digested so that it helps the digestive organs to assimilate other food.

It is also rich in the "vital phosphates" that go directly to make up the deligate gray matter of brain and nerve centers. Read "The Road to Wellville," in pkgs.

Hundreds of good housewives in the Twin Cities unite in indorsing WHITE LILY as the BEST soap for laundry or bath. Try it ONCE! and you will always use it.

You don't need to pay cash in order to get the discounts either. You can see where you will be wise in buying now.

WALSH TESTIFIES IN HIS OWN BEHALF.

Chicago, Jan. 8.—John R. Walsh, on trial in the United States district court on a charge of misapplication of funds of the Chicago National bank, testified in his own behalf today. After recounting, in reply to questions by Assistant District Attorney Dobyns, his early business career, Mr. Walsh told of the founding by him in 1884 of the bank in question. As its president, he said, he purchased in 1897 and 1898 certain receiver's certificates of the Centralia & Chester railroad at 35. Prior to their purchase, he said, a careful inspection of the property was made by himself, F. M. Blount, then vice president of the bank, and others. The legal status of the road was also investigated by H. F. Hatch, attorney for the bank, the witness asserted.

Buying Crowds.

Duluth's greatest white sale is in full swing at Gray-Tallant company's. Share in the good things offered there.

GREEN AND GAYNOR TAKEN TO ATLANTA.

Macon, Ga., Jan. 8.—Benjamin Green and John F. Gaynor were taken to Atlanta today to be placed in the federal penitentiary, there to begin four years' sentences for embezzlement of government funds in connection with government work in Savanah harbor. The men have been in jail here for eighteen months pending a decision on an appeal to the supreme court of the United States.

HINDU ASKS FOR WORK

First Appearance in Duluth of New Race Problem.

Applies at Several of the Employment Offices for Work.

The first Hindu laborer to make his appearance in this part of the Northwest, as far as is known to labor agencies, appeared on Michigan street today. This is the first instance of the appearance in the Middle West of a new labor problem that is absorbing the attention not only of the Western labor world, but also of the British cabinet.

In British Columbia they are engaged in a desperate struggle against the invasion of the most undesirable of British subjects. On the southern side of the international boundary line they are also beginning to feel the effects of the cheapest labor in the world.

Work was inquired for at several of the local employment agencies. The man speaks broken English and is of medium size. Jobs were scarce this morning, except for certain kinds of work, and the son of Mahomet did not succeed in finding any employment in the woods.

The invasion of the Hindu threatens to stir up national action between Canada and the mother country. The invasion of the Japanese laborers on the coast was considered a menace to the interests of white labor, but the coming of the Hindu has added another evil to the labor troubles of the coast country.

They eat neither beef or pork, and they will work on a wage that it would be impossible for a white man to exist upon. They are filthy, and live in squalid quarters. They come to this country with the express purpose of hording up $200, with which they will return to India comparatively rich.

Canada has protested vigorously against the importation of this class of labor. They are coming to this country, too. They are coming into Bellingham, Wash., across from Vancouver. So far their field of labor has been confined to the coast country. As far as known the Hindu seen here today is the first Hindu laborer to apply for work in either a Twin City or Duluth labor agency.

In broken English, he said he had shipped from Bellingham, because the feeling against the Hindus is so intense on the coast. Every man's hand in the coast country is turned against them, if the story of this man is to be believed. And so, like others in different ages, he has sought a new field of endeavor.

In appearance the man does not appear greatly different from an Italian, except that he is much more swarthy. He has already experienced the troubles of competition, for the landing of the ship that bore the Hindus from their native country was the cause of a riot in Vancouver last summer. He has been working in a logging mill at a wage that would seem a pittance to a white man, and now he is seeking employment here.

Kodol is the best remedy known today for dyspepsia, indigestion and all troubles arising from a disordered stomach. It is pleasant, prompt and thorough. Sold by all druggists.

NEW ROADS

Must be Built Under Supervision of Highway Commission.

St. Paul, Jan. 8.—(Special to The Herald.)—The state highway commission, at its annual meeting yesterday, discussed new rules relating to work on state roads, part of the cost of which the state contributes. The new rules provide that the construction of such roads shall be in accordance with the requirements and under the direct supervision of the commission. In the past the commission has exercised very little authority in these matters, but i nthe future a more active interest will be taken.

The president, Gustav Scholle, and secretary and engineer, George W. Cooley, were re-elected.

ROCKEFELLER WILL SETTLE CHICAGO SUIT.

Cleveland, Ohio, Jan. 8.—John D. Rockefeller has agreed to settle the suit for $25,000, brought against him by Mrs. Martha Condee, a Chicago woman, who owns Saunder's hotel building at 638 Superior avenue, N. W. Mrs. Condee, an heir of the late P. L. Johnson, sued Rockefeller, charging that the excavation for the big Rockefeller skyscraper had undermined the hotel building. Mrs. Condee's attorney told Judge Sohwan that Mr. Rockefeller had agreed to settle. The case was passed to Feb. 3.

PHYSICIANS ARE ANGRY

Believe That Profession Was Slandered by the Morning Paper.

Discuss the Problem of Smallpox Quarantine and Vaccination.

Local physicians are up in arms over the statements made editorially this morning by the Duluth News Tribune regarding the medical profession and its attitude on the smallpox question, and every physician seen this morning denounced the article in question.

Dr. C. A. Stewart said:

"The insinuation that the medical profession of Duluth will uphold another physician whether he is right or wrong is surprising when applied to men who have lived in Duluth and whose integrity has been unchallenged for a period of more than twenty years.

"We know that vaccination is a preventative so far as any one measure is a preventative. It is as defenite as any known in medicine. The fact that there are variations in effects of vaccination are not due so much to variations in the strength or purity of the virus as they are to individual susceptibility and peculiarity. Were all people alike, we could definitely determine in short order what the effects would be; still if we were all alike we might be like the fellow who wrote that editorial and that would be a misfortune.

"As far as the value of vaccination compared with quarantine is concerned, it might be expressed in this way: Fifty cents expended in vaccination would probably bring $500 in results; $500 expended in quarantine would bring about 50 cents in results.

"Mr. Wilson, in his remarks to the city council, said there were some who would not observe quarantine, others who would, and he thought quarantine should be continued for the benefit of those who would be benefitted by it. To that, I have to say that those who have observed don't need to have restrictions imposed; those who will not, cannot be restrained by any measures in force at present.

"The only difference between the new rules and the old is that with the new rules it is known that other inmates of the house than the person afflicted with smallpox are allowed to go out. Under the old rules they are not supposed to go out, but most generally do.

"As regards to Dr. Bracken, he has made a life study of this matter and is an acknowledged authority throughout the country. He is perfectly honest and sincere and his conclusions represent the latest conclusions in relation to quarantine among experts. Neither Dr. Bracken nor the medical profession in Duluth believe that efficient quarantine is not a help, and when Dr. Bracken said that if Duluth wanted quarantine it should have it, it simply meant that they should have the genuine and not the spurious article, and he was endeavoring to accommodate the honorable gentlemen of the council.

"Moreover, as a citizen and a taxpayer, I object to the expenditure of money without an adequate return for the same, and that if we have quarantine, I want a real quarantine and not a pretense.

"I do not see why they cant leave such matter as this quarantine problem to the medical profession, and not interfere.

"Personally, I am in favor of compulsory vaccination and to do away with any suspicion that I say that from mercenary motives, I say that I would favor being done by a physician employed by the city; that there should be no charge for doing the same and that under no circumstauces would I accept the position of public vaccinator."

"The editorial in the News Tribuno this morning was the most scurrilous, vile attack ever made on the medical profession by any newspaper in the state," said Dr. W. H. Magie. "I have frequently noticed, in recent months, slurs in the News Tribune aimed at the medical profession, and I have been at a loss to account for them. This more recent attack, however, is one of such a serious nature that, in justice to the public, it demands an answer.

"An interview of this kind is not the proper way in which to discuss the matter in its details. I do not care for the News Tribune, nor its writers, but I do want to prevent the people from being misled by untruths. Tomorrow evening, in The Herald, I will have a letter which will treat with the editorial in detail and the matters which it covers. I will show that the medical profession does know something of smallpox, its quarantine, prevention and cure, and of other diseases as well. Nobody but one who was absolutely ignorant of medicine and its practice could make such absurd statements as those contained in this morning's editorial."

What's the Use?

To you, of a sale where the first prices were above par. You know that our regular price is low, but to that we are making a 20 per cent discount, until Jan. 22. Nothing excepted from our big stock, and you had best join the run on our goods.

Of the Duluth Ski club will be held at Chester Creek hill Sunday p. m., Jan. 12.

HIS ADVICE.

Chicago News: "How are you fixed today, Uncle Jim?" asked the bright young man. "Do you think you could stand for a light touch?"

"I'm sorry to say that I couldn't," replied the veteran. "This money stringency has affected me to some extent. I am sorry to see that you are needing money again. It seems to me that a young—"

"Bless you! I'm not needing money," said the young man, cheerfully. "It's true that I haven't any great amount laid by for investment as yet, but I have sufficient to carry me along and satisfy my frugal wants. I'm sorry to hear that you aren't attending to business diligently."

"What!" gasped the senior.

"Business is a thing that nobody can afford to neglect," said the bright young man. "You've got to watch it or it's bound to get away from you. 'Keep thy shop and thy shop will keep thee.' Industry is the key to success. You may smile, but you may live to find that there is truth in what I am saying."

"You don't tell me that!" said the elder man, sarcastically.

"That's indubitably what," said the bright young man. "I know that sometimes it's hard to overcome a natural indolence of disposition, but it can be done. A little self-denial and a little effort will do wonders and you'll soon see the results."

"Of course, I don't mean to lecture," said the bright young man. "And I can make allowances. It's very pleasant to lie abed in the morning and then mosey down to the office at about 10 o'clock and go out to lunch at 1 and stay till 3 and then knock off at 4. I know how that is myself. All the same, you'll find that when you want a thing done you must attend to it yourself and not leave it to a subordinate. Business hours are for working and not for loafing. Get through with your work and then you may indulge in a little harmless recreation with a clear conscience and actual benefit. 'All work and no play makes Jack a dull boy,' but all play and no work puts Jack's business into the hands of a receiver. You've got to hustle and remember that nothing worth while was ever gained without effort."

"Is this costing you much of an effort?" asked the senior.

"I am quite willing to make it," returned the bright young man. "I'm just talking for your good. It isn't because I like to talk, because I'm naturally reserved, as you know. At the same time, I feel it my duty to warn you against the evils of sloth and extravagance. I've got what is termed a 'hunch' that you are spending more money than you ought. You will say, perhaps, that it's none of my business if you are. That's where I take issue with you. It we have an interest in anybody it is decidedly our business to speak plainly to them on occasions when we feel that they need it."

"Don't apologize. Go ahead."

"You've got to remember that people don't think any more of you for throwing away money," said the bright young man. "There's a saying that 'fools make feasts and wise men eat them.' I don't mean to imply that you are a fool, Uncle Jim. I think that you have a streak of good, hard sense in you somewhere. But you might consider the proverb just the same. Another thing to remember is that it's the small things that count. 'Many a nickle makes a muckle,' you know. Take care of the pennies and the pounds will take care of themselves. If you've got 25 cents don't spend 30. It's a good idea to keep within your income. And save.

"That's the great thing. If it isn't more than a few cents every week you will find by the end of the year that it has mounted up to quite a tidy little sum and if you keep it up and get the habit it won't be very long before you will be a capitalist. On a small scale, perhaps, but a capitalist, I'd like you to try to remember all this, uncle."

"Will you kindly tell me why I'm favored with this excellent counsel?" inquired the veteran.

"Certainly, sir," replied the bright young man. "I saw just as soon as I struck you that you were preparing to hand it to me and I thought I'd head you off, and at the same time show you that your former kind advice hasn't fallen on deaf ears."

The senior put his hand in his pocket and drew forth a bill book. "How much is it you want this time?" he asked.

Independent Cigar Company

CIGARS OF QUALITY

If you are smoking poor cigars, it is not our fault. And it is certain that you are not one of our steady patrons. A cigar, to deserve a place in our stock, must be above the average in quality and be uniform at all times. We always delight in giving a man "cigars of quality."

Several Lines of Slightly Soiled Wear Go at From 25 to 50% Reductions

This includes Misses' and Girls' White Dresses, in a variety of styles and materials. Also the undermuslins, which are somewhat "mussed."

MARAUDERS DENOUNCED

In the First Message of Governor Willson of Kentucky.

Promises That Laws Will be Enforced and People Protected.

Frankfort, Ky., Jan. 8.—The first message of Governor A. E. Willson to the general assembly was read today in both houses. In addition to recommendations covering the reforms to which he pledged himself during the campaign, a large portion of the document is devoted to a stirring recital of the lawlessness which has developed in the tobacco war, accompanied by a vigorous denunciation of the malefactors, and two specific recommendations having for their object the breaking up of the trouble. After recounting the various outrages, the governor sums up as follows:

"In the meantime, not a benefit has resulted to the oppressed farmers from those acts of violence and intimidation. Even those who were members of the association have their property tied up, and liberty, in places, threatened by these bands, is an idle theory and farce. Factories and warehouses, which the farmers warmly welcomed, have been burned and many others closed forever.

"Our market, not only for tobacco, but for other products is paralyzed and in many cases ruined. In large districts the law has been wholly overthrown and the people are deprived of the protection of the people's laws, have lost their liberty and are helpless. Thousands of people wish to move out of Kentucky to states where they hope it is safer to live, as thousands have done before. It has been necessary in order to allay the fears of frightened people, even in a large city like Hopkinsville, to keep a company of militia on duty. Lawless and unprincipled men have been constantly ready to break out in several counties, unrestrained by law or public sentiment. The people of Kentucky are suddenly and squarely to face the question, whether the laws of more than two millions, or the violence of a few hundreds will prevail.

People Demand Protection.

"Our people demand the full protection of the law, and love their liberty, and feel that they had better lose not only part of the value of their tobacco, but even their farms, rather than lose their liberties.

"The executive will faithfully uphold the people's law and its strength is in the support of their own laws."

The message then makes specific recommendations for amending the statutes governing change of venue so that the granting of such a change of venue becomes imperative upon any judge where lawlessness or intimidation hinder prompt and fair trials.

The governor further recommends the immediate appointment of a commission with full power to investigate the economic causes leading up to the tobacco troubles—that is, to ascertain whether there has actually been an over-production or whether the prices have been forced down by a trust or combination of buyers.

On temperance the message recommends the passage of a uniform local option law with the county as the unit, and declares for a law compelling publicity for campaign contributions.

It is not necessary to have the cash to get your 20 or 50 per cent discounts. You can get the discounts and pay by the month.

WANTED FRESH FUNDS FOR HIS WEDDING DAY.

Chicago, Jan. 8. — Rather than be "broke" on his wedding day, Robert A. Ward, a clerk for the American Express company, tried forgery, and as a result found himself in a cell at the Harrison street station.

He confessed that he had forged the name of Mrs. Julia Marwstein, Hamberg, Germany, to a certificate of stock for twenty-five shares of Swift & Co., valued at $2,500.

He said he did it so he could use the money as security for a loan of $250, which he was compelled to make in order that he was about to be married to Miss Theresa Desmond, 5624 Carpenter street, and wished to start out clear of debts.

ITALIANS IN FIGHT.

Pittsburg, Jan. 8.—During a quarrel between five Italians at Stowe township late last night three of the foreigners were perhaps fatally shot. The two uinjured men are under arrest. The cause of the fight is unknown.

The Flower of America's Clothes Product!

It is not amiss to describe "Fitwell" clothes as the "Flower of America's Clothes Product" since they have no equals in Duluth and possess few anywhere in the country.

FINISHES ITS WORK

County Board Awards Contracts for Printing and Supplies.

Adjourns Until Jan. 15, When It Will Pass on Bonds.

The county board, this morning, awarded the contracts for the extension of the auditor's office and vault; for the county offices and printed supplies, for the coming year; designated The Duluth Evening Herald as the official paper for the county this year, with the county printing; made the customary appointments of various county officers and deputies in the various offices, and made several appropriations in accordance with the plan usually pursued at the annual meeting of the commissioners.

• • •

There will be no change in the personnel of the board, its officers, committees, nor in the appointments made by the board this year. A few slight increases have been made in salaries of deputies in some of the offices where the increased work has merited it. Commissioner E. M. Patterson will continue chairman of the board, Commissioner Charles Kauppi will remain in the office of vice chairman. Dr. R. E. Cavanaugh was re-elected county jail physician and Dr. E. L. Tuohy was re-elected chairman of the county board of health. Commissioners McInnis and McMahon were reappointed members of the board of health.

• • •

An appropriation of $1,000 was made for a contingent fee for the county attorney, to be expended this year in a manner prescribed by law. The Duluth Humane society was given an appropriation of $1,200 to aid in its work this year. An appropriation of $600 was made to assist the local branch of the laboratory of the state board of health. Appropriations for clerk hire in the offices of the auditor and the treasurer for six months, aggregating $12,500, were also made by the board.

• • •

Benjamin F. Howard was reappointed appraiser of state lands in St. Louis county, W. F. McKay was appointed supervisor of assessors and George H. Scully was named as the county assessor in the unorganized towns. Other reappointments were as follows: George K. Swan, janitor of the courthouse; R. S. Cowdin, fireman, and John T. Russell, watchman.

• • •

John A. Johnson was awarded the contract for the construction of the extension to the auditor's office and vault on his bid of $3,347.70. Other contracts awarded were as follows: Chamberlain & Taylor, office supplies, $1,162.83; Wendlandt Bros. & Co., printed books and blanks, $3,604; F. H. Lounsberry, court calendars, 85 cents per folio page. The contract for the printed stationery and envelopes, etc., will be awarded at the next meeting.

• • •

Praznick & O'Merza were granted a license to sell liquor on the new townsite of Gilbert, in Missabe Mountain township.

• • •

The county treasurer's report showing the county's cash on hand and the auditor's financial statement were received and filed. During the session the board counted the cash in the treasurer's hands, as required by law, and found the accounts to be in good condition.

• • •

The board adjourned until Jan. 15, when it will approve of the several bonds and dispose of one of the contracts not yet awarded.

A Great Event.

People have grown to look forward with eagerness to the big discount sale that French & Bassett have every year.

This year's sale is a wonder. You will find furniture at prices you can easily afford during this sale. You don't need all cash either.

AN EXCLUSIVE SUITE

Front room—unobstructed view of lake. Two bed rooms and private bath, en suite, at 1123 London road. Hot water heat; hot water at all times. Prefer to rent unfurnished. Old 'phone, 1014.

SEARCHING FOR HIS LOST SON

Aged Missouri Farmer Comes to Duluth on Sad Mission.

Burdened with the weight of years and the added sorrow of a parent's grief for a lost son, and carrying the memory of the anguish of an aged mother,—whose last entreaty, as she bade goodbye to her husband, was to bring back her son, James Whitehead, an aged farmer of Sumner, Mo., reached Duluth this morning to search for his son, who has been missing since last June.

"Ma thought it better for me to come and find the boy," is the plaintive sentence that contains the secret of the grief of a mother's heart. It was in response to the entreaties of his wife, who has shared his joys and sorrows, back on the Missouri farm for years, that the old farmer has started on an uncertain search for a son who left after a few harsh words with his father.

"The boy left without saying goodbye to ma," says the old gentleman, with a pathos that the quaint Missouri drawl cannot conceal. "Went while we was to town. We haven't heard from the boy in three months; last we heard was when he went somewhar with a man named Miller. Miller was a kind of tramp. I don't suppose he would hurt the boy, but ma is worried, and I thought I'd better come and try to find him."

Mr. Whitehead is the kind of man who doesn't tell all he feels, but the blue eyes, that are a little dimmed by age, have a tender look when he talks of the boy who forsook his parents without saying even a word of goodbye.

CASES OF INTEREST.

REPEAL OF THE ELKINS LAW.—The question whether or not the Hepburn law operated to repeal the Elkins law so as to bar prosecutions commenced after the enactment of the Hepburn law, for acts committed prior thereto and in violation of the Elkins law, has been up for consideration in several federal courts, and it has been held that such prosecutions were not barred, in United States vs. Standard Oil company, 148 Federal Reporter, 719; United States vs. Chicago, etc., R. Co., 151 Federal Reporter, 84; United States vs. Delaware, Lackawanna & Western R. Co., 152 Federal Reporter, 269, and United States vs. New York Central & Hudson River R. Co., 153 Federal Reporter, 630.

INTERSTATE COMMERCE. — Judge Hazel of the United States district court for the Western district of New York, in United States vs. New York Central & Hudson River Railroad company, 153 Federal Reporter, 630, holds that a railroad company which has entered into an arrangement with other railroad companies for the continuous interstate carriage of oil, is bound to comply with the interstate commerce act as to the publication of rates, even though the line operated by the railroad company itself is wholly within one state.

DETERMINATION OF REASONABLENESS OF RAILROAD RATES.—In determining the reasonableness of railroad rates, expenditures for permanent improvements and equipment should not be charged to the current or operating expenses of a single year, according to a recent decision of the United States supreme court in Illinois Central Railroad company vs. Interstate Commerce Commission, 27 Supreme Court Reporter, 700, 206 U. S. 441, 51 L. Ed. —. The court is of the opinion that such expenditures should be reimbursed by all of the traffic they accommodate during the period of their duration, and not by the revenues of a single year.

TAXATION OF NOTE OF NON-RESIDENT.—A perplexing and novel question relating to the taxing power of a state was decided by the United States supreme court in Buck vs. Beach, 27 Supreme Court Reporter, 712, 206 U. S. 392, 51 L. Ed. —. In this case it appears that a resident of New York had made loans to residents of Ohio on notes given and payable in Ohio and secured by mortgages on land in the latter state. The payee of the notes had an agent in Ohio to look after his interests there, and another in Indiana to take charge of his investments in that state. For some reason it appears that the notes given and payable in Ohio were, for a considerable length of time, kept in the possession of the Indiana agent. While the notes were in the possession of this agent, the Indiana authorities assessed them for taxation and attempted to collect taxes thereon, principally on the ground that the notes were transferred from the Ohio agency to the Indiana agency in order to escape taxation in Ohio. But the court denies the right of Indiana to collect taxes on such notes, Mr. Justice Day, however, filing a dissenting opinion.

LICENSING DRUMMERS SELLING INTOXICATING LIQUORS.—The right of a state to impose a license tax on the business of selling intoxicating liquors within the state by traveling salesmen, who solicit orders for wholesale houses in their state, is upheld by the United States supreme court, in Dalamater vs. South Dakota, 27 Supreme Court Reporter, 447. The regulation by a state of the business carried on within its borders to solicit proposals to sell intoxicating liquors, even though such liquors are situated in other states, cannot be held to be repugnant to the commerce clause of the Constitution because directly or indirectly burdening the right to sell in the state—a right which, by virtue of the Wilson act, does not exist.

STARE DECISIS—A case forcibly illustrating the legislative department's reluctance to remedy defects in the law disclosed by judicial decisions is that of People vs. Tomplins, 72 Northeastern Reporter, 226. In this case the court of appeals of New York reaffirms the doctrine of McCord vs. People, 46 New York, 470, that a prosecution for larceny by false pretenses cannot be sustained where the person parting with his property or money does so for any legal purposes. The court admits that the weight of authority is to the contrary, but feels bound to follow the doctrine as settled by the earlier decision, the duty of making a change resting with the legislature, and says that to change the existing rule would, in effect, be enacting an ex posto facto law.

LIABILITY OF MASTER FOR NEGLIGENCE OF SERVANTS IN HOSPITAL UNDER ITS CONTROL.—The Kentucky court of appeals in Illinois Central Railway company vs. Buchanan, 103 Southwestern Reporter, 272, holds that a railroad company which reserves to itself the right to appoint the directors of a hospital, otherwise maintained as an independent organization for the benefit of its employes, is liable to its employes for unskillful and improper treatment received in the hospital.

MANAGEMENT OF POLITICAL PARTIES.—As the Democratic state committee of New York is, under the laws of the state, elected by delegates from the respected senatorial districts, and has no constitution or by-laws regulating its actions, the supreme court of New York, in Cummings vs. Bailey, 104 New York Supplement, 283, holds that a majority of the state committee cannot expel the representatives of a county therein, and that an attempted expulsion will be enjoined. The court is of the opinion that no such extreme arbitrary power as to expel members of the committee and elect others in their places shall be asserted without express authority.

TRAINED NURSE NOT SERVANT.—A trained nurse performing her usual duties, and exercising the skill which is the result of training in her profession, does not, according to the decision of the United States circuit court for the district of Rhode Island, in Parker vs. Seasongood, 152 Federal Reporter, 583, come within the definition of a "servant," but rather is one who renders personal service to an employer in an independent calling.

CIVIL JUDGMENT AS EVIDENCE IN PROSECUTION FOR EMBEZZLEMENT.—A nice point as to the admissibility of evidence is decided by the Texas court of criminal appeals in Busby vs. State, 103 Southwestern Reporter, 638. This was a prosecution for embezzlement of state funds by an employe of the state. Prior to the trial of the criminal case, the state had obtained a judgment in a civil action by it against accused and his bondsmen. This judgment was admitted in evidence against accused in the criminal case. On the original hearing the court held that the judgment was admissible, but on rehearing it arrives at a different conclusion; Judge Brooks, however, dissenting. As principal authorities for the decision on rehearing the court cites Queen vs. Moreau, 11 A. & E. 128; Britton vs. State, 77 Alabama, 262.

ABSENCE OF ATTORNEY FROM COURT AS CONTEMPT.—The St. Louis court of appeals in the case of In re Clark, 103 Southwestern Reporter, 1165, holds that the absence of an attorney from the court in which he has business, and when he should be there to attend to it, and when his absence delays or impedes the court's business, constitutes a contempt of court. An attorney at law is an officer of the court, and it is as much incumbent on him to attend the sittings of the court when a case in which he is of counsel is on trial, and which trial cannot proceed in his absence, as it is for the sheriff or the clerk of the court to be present.

INTERSTATE COMMERCE.—The United States Circuit court for the Southern district of New York, in United States vs. Delaware, Lackawanna & Western Railroad company, 152 Federal Reporter, 269, holds that a shipment from New York City to Buffalo by way of New Jersey and Pennsylvania is interstate commerce, and that, therefore, the giving of rebates on such shipment violated the interstate commerce act. As supporting authorities are cited Hanley vs. Kansas, etc., R. Co., 187 U. S. 617, 23 Supreme Court Reporter, 214, 47 L. Ed. 333; Lord vs. Steamship Co., 102 U. S. 541, 26 L. Ed. 224; Pacific Coast Steamship Co. vs. Railroad Commissioners, 18 Federal Reporter, 10.

PROCEEDINGS FOR THE REMOVAL OF CORPORATE OFFICES. — By the laws in force in the Indian Territory an action at law may be instituted against a person usurping an office, either by the state or by the party entitled to the office. This is in lieu of scire facias and quo warranto or an information in the nature of a quo warranto. But according to the decision of the Court of Appeals of the Indian Territory in Re Le Bosquet vs. Myers, 103 Southwestern Reporter, 775, the statutory provisions apply only to public officers, and not to proceedings for the ouster of officers of a private corporation.

SUMMARY DESTRUCTION OF NOXIOUS HOGS.—In order to protect the levees in the Desha Levee district against the well known proclivities of hogs to root, and thus weaken the levees, the Arkansas legislature has provided for the summary destruction of hogs running at large on such levees. This law is in Ross vs. Desha Levee board, 103 Southwestern Reporter, 386, by the Arkansas Supreme court, held to be a valid exercise of the police power of the state. The court says: "The state, where it has the power to provide for destruction of property, may authorize this to be done summarily in cases where the property is of no great value and the emergency is such as not to admit of delay."

VALIDITY OF A LEASE TO A MONOPOLY.—According to the decision of the New York supreme court in Brooklyn Distilling company vs. Standard Distilling & Distributing company, 105 New York anti-trust law does not invalidate a lease of a distillery to a corporation organized to create a monopoly in the manufacture and sale of alcoholic and spirituous liquors, even though the lessor knew that the motive of the lessee in taking the lease was to create a monopoly. The court takes the position that the law does not prevent a person from buying or leasing property in furtherance of the creation of a monopoly. The controlling point with the court was that the lessor did not in any way become a party to the illegal combination or participate to any extent in the scheme to avoid the law.

Full reports of any case cited from the Reporters can be supplied by the West Publishing company, St. Paul, for 25 cents.

D. E. H., 1-8-'08.

This picture is upside down.

The artist drew it to show how wool has climbed up step by step.

We use it to show how our January Clearing Sale has altered the natural course of prices.

Every suit, overcoat and undergarment in the Columbia store is being retailed at wholesale cost or less.

Now, we wouldn't make this assertion if we didn't mean what we say.

It's not the Columbia way to promise you the blue from heaven in ads and then hand you a yellow lemon, because you may not know the difference.

Our Stein-Bloch Suits and Overcoats are all-wool—tested and guaranteed by these famous wholesale tailors.

The Columbia Clothing Co. Duluth

LEAP YEAR GIRL WINS A HUSBAND

Gains Sweetheart's Consent to an Elopement and Marriage.

Philadelphia, Jan. 8.—Taking advantage of a woman's leap year rights, Miss Ethel Mae Parsons proposed to Thomas L. Rogers and dared him to elope to Wilmington and have the nuptial knot tied. For some time Mr. Rogers had desired to propose marriage to Miss Parsons, but could not muster sufficient courage. He accepted the young woman on the spot.

MAYORS OF NORTHWEST ATTACK TRAMP PROBLEM.

Portland, Or., Jan. 8.—Mayor Harry Lane of this city, not satisfied with the notoriety received from his story of Japanese spies making maps of the city, leaps into the limelight again with his call for a meeting of the mayors of all Northwestern cities to consider the tramp question.

Lane wants co-operation among the cities, that laws may be passed in Oregon, Idaho and Washington looking to a real solution of the question. He suggests that the punishmenet for vagrancy be increased so that every tramp will have to work from twenty to a hundred days on public highways.

He wants every vagrant photographed and the pictures sent to every city, and when arrested a second time, the vagrant will get six months on county roads.

Silberstein & Bondy Company.

The Sale of Muslin Underwear.

The lowest-priced garment in our Underwear stock is of good, generous planning and of careful make. Take nightgowns, for instance—note their width and roominess, compare with those of other stores, and see if ours are not wider by several inches. We like you to feel that in every way you are getting the best when you buy undermuslins here.

Cambric and Nainsook Corset Covers, embroidery and lace trimmed, **50c.**

Muslin Nightgowns, ample of width and length, **$1.00.**

Ruffle trimmed, long, White Petticoats, **$1.00.**

Cambric Drawers, ruffle trimmed, **50c.**

Nainsook Chemises, lace and ribbon trimmed, **$1.00.**

These seem to be the least expensive garments that could be safely chosen for the sale to maintain a standard of daintiness and quality. Cheaper, trashy grades were offered for less. We discarded such.

And In Addition Entire Muslin Underwear Stock Reduced 10 Per Cent.

Waists Must Go.

All of these values are from regular stock, and combine beauty and daintiness with remarkably low prices.

$1.75 for $3.75 Lingerie Waists, trimmed both in lace and embroidery, in numerous styles, all sizes.

$2.50 for $4.50 and $5 Waists of China silk, some Peter Pans, baby tuckt, and others tailored.

$3.75 for $8.75 Waists of white satin, box pleated.

$3.75 for $10 Waists of white chiffon, taffeta, Val. lace trimmed.

$3.75 for $12.50 Waists of pearl gray chiffon taffeta.

$3.75 for $6.75 Waists in lingerie models, several styles.

$3.75 for $13.50 Waists of white messaline, also light blue taffeta, with fancy yokes.

$6.75 for $19.50 Waists, black and white chiffon over silk.

$6.75 for $9.75 to $12.50 Waists, black lace and net over China silk.

Every other waist in stock reduced—none reserved.

MRS. OELRICHS AIDS FISH.

Endeavors to Secure I. C. Proxies During Her California Trip.

San Francisco, Jan. 8.—One of the objects of the visit of Mrs. Herman Oelrichs to San Francisco is to obtain proxies for 600 shares of Illinois Central stock. In this state 1,600 shares of Illinois Central stock are owned. Of these, as nearly as can be ascertained, the Harrimans already have proxies for 600 and Stuyvesant Fish has proxies for 400.

"If there is any Illinois Central stock here in California that I can get for Mrs. Fish and her husband, I shall certainly do so," Mrs. Oelrichs said.

SAGER AGAIN PRESIDENT.

Unanimously Re-Elected as Head of Chicago Board of Trade.

Chicago, Jan. 8.—Hiram N. Sager was unanimously re-elected president of the board of trade to serve during 1908. A few weeks ago Mr. Sager expressed unwillingness to serve another term, but general pressure resulted in his acceptance of a renomination. When he agreed to run again all other names suggested were withdrawn. James Bradley of the Nye-Jenks Grain company was unanimously chosen second vice president. The following directors were elected: Edward Andrew, Allen M. Clement, Ben B. Bryan, Harry Samuel P. Arnot.

Make Your Selections Early.

Every article at a big discount. Not necessary to pay all cash, and a splendid stock to choose from. These are the advantages of patronizing the French & Bassett sale.

The firm don't select a few shop-worn pieces and offer them at reduced prices. The big reductions apply to every department in the store.

WIFE OF JUDGE ARRESTED.

Woman Librarian Has Mrs. Bourquin Cited to Court.

Butte, Mont., Jan. .—Mrs. Mary G. Haggerty, law librarian, has caused the arrest of Mrs. George M. Bourquin, wife of District Judge Bourquin, on a charge of disturbance. Miss Haggerty's name was brought into connection with a suit for separate maintenance, which was brought recently by Mrs. Bourquin against his honor and which she won. The two women met Sunday evening in one of the big mercantile stores, Mrs. Bourquin calling the pretty librarian all kinds of unpleasant names and raising a scene that caused Miss Haggerty to scurry to the street for safety.

Complies with the pure food laws of every state

CALUMET BAKING POWDER

HEALTH Calumet is made of the finest materials possible to select, and makes light, easily digested Bread, Biscuits or Pastry; therefore, it is recommended by leading physicians and chemists.

ECONOMY In using Calumet you are always assured of a good baking; therefore, there is no waste of material or time. Calumet is put up in air-tight cans; it will keep longer than any other Baking Powder on the market and has more raising power.

CALUMET is so carefully and scientifically prepared that the neutralization of the ingredients is absolutely perfect. Therefore, Calumet leaves no Rochelle Salts or Alum in the food. It is chemically correct.

GRAND JURY VERY BUSY

Another Batch of Thirteen Indictments Returned to Court.

Rumored That Several Blind Piggers Have Been Indicted.

The grand jury made a return of thirteen indictments in the district court this noon, only one of which was made public, the persons accused in the remaining twelve indictments not yet being in custody.

While nothing is definitely known about the twelve indictments, and they will not be made public until arrests are made, it is generally surmised, from the character of the witnesses before the grand jury, that they are accusations against persons suspected of running blind pigs on the range.

The grand jury, it is understood, has also been investigating alleged election frauds in the city of Duluth during the recent primary election, but as yet there have been no indictments made public relating to the same, if any have been returned.

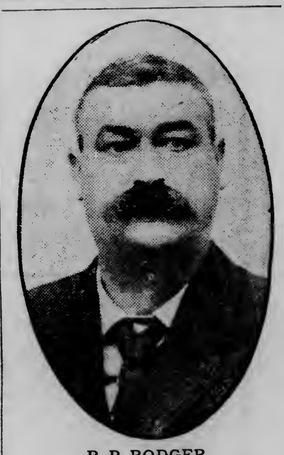
This noon the grand jury notified the court that there were some other matters to be investigated and that the final report would not be made until later. It is probable that the work of the grand jury will be completed by this evening or tomorrow morning.

The indictment returned this morning and which was made public, is that accusing Fred Taylor of burglary. Taylor was formerly a bartender for John Hollen in the Ideal Beer hall. It is claimed that the proprietor had a secret place where the night man at the bar planted the receipts for the day man to secure the following morning. Taylor, it is alleged, broke into the saloon last Saturday night and robbed the "plant" of $78.

R. P. RODGER DIES.

Well-Known Duluthian Succumbs to Attack of Appendicitis.

Robert P. Rodger of 705 East Third street, known to probably half of the men in Duluth as "Bob" Rodger, died this



R. P. RODGER.

morning at St. Luke's hospital of appendicitis.

Mr. Rodger was 47 years old at the time of his death, and had been for some time employed as city salesman and collector for the Duluth Brewing & Malting company. He leaves a wife and three children, a son and two daughters.

BRIEF TELEGRAMS.

August Conrad, a saloonkeeper, was shot and killed at St. Louis, Tuesday following his refusal to serve a drink to James McLaughlin, brother-in-law of Former Chief of Detectives Desmond. McLaughlin was captured only after he had robbed another saloon.

Robert Caldwell, the witness in the famous Druce case in London, who is accused of perjury by the British government, was too ill to be arraigned on that charge Tuesday, and the hearing was postponed until Friday.

The Texas & Pacific freight depot at Fort Worth, Tex., was totally destroyed by fire Tuesday night. The building was isolated and switch engines succeeded in dragging hundreds of cars out of danger. The depot was of brick and steel construction and cost $150,000. It is estimated that it contained $100,000 worth of freight which was entirely destroyed.

J. W. Flock of Chicago reported to the police Tuesday night that he had been held up by two masked men and robbed of $700 and $500 in checks. Flocks is a collector for Libby, McNeil & Libby.

Malcolm McClelland of Beatrice, Ala., shot and instantly killed his cousin, Miss May Hawthorne, at Pineapple, Ala., Tuesday, and then took his own life. It is said McClelland proposed marriage to Miss Hawthorne and when she refused he began shooting.

Governor Hoch of Kansas has announced that he will call an extra session of the legislature Jan. 16 to consider the enactment of currency, primary election and rate regulation measures.

ADDITIONAL HARBORS

On North Shore of Lake Superior Not Deemed Advisable.

Washington, Jan. 8. — The war department has advised congress that the construction of additional harbors on the north shore of Lake Superior, from Duluth to the Canadian boundary, is not advisable.

It is claimed that the commerce along the north shore is not sufficient at Beaver Bay or Two Islands.

The harbor at Two Harbors and the Grand Marais harbor are the only good harbors on the north shore.

CHARGED WITH HERESY.

New York, Jan. 8.—Rev. John R. Brauer of the English Lutheran church, of Jersey City Heights, is on trial before a committee of the synod of the church on charges of heresy. The congregation is largely with the pastor, who is accused of saying that it was not necessary to believe the entire Lutheran creed as the church was "free and independent."

ENTERTAINMENT ARRANGEMENTS

For American Fleet's Reception at Rio Janeiro Completed.

Rio Janeiro, Jan. 8.—The program for the entertainment of the officers of the American battleship fleet, under Rear Admiral Evans, has been practically completed. The fleet is expected Jan. 11, and will remain here ten days.

Jan. 11 and 12 the officers of the fleet will visit the ministry of marine and the naval club. On the 13th they will be given a breakfast by the minister of marine, Admiral Alencar, at the Hotel on the Summit of Mount Corcovado. The 14th the American ambassador, Irving B. Dudley, will give a banquet at Petropolis, the suburb of this city, where the diplomats reside. On the 15th the visiting naval officers will be entertained at breakfast by the president of the republic, Dr. Penna. A reception and fete at the Crystal palace at Petropolis will be held on the 16th, and on the 19th there will be a big banquet in honor of the visitors by the foreign minister, Baron de Rio Branco, in the Monroe pavilion.

The date for an entertainment by the naval club has not yet been fixed, nor has the day for a reception on board one of the American battleships by Ambassador Dudley.

DeWitt's Carbolized Witch Hazel Salve is especially recommended for piles. Sold by all druggists.

WHITE LILY SOAP contains nothing but the best and purest soap materials to be had.

MILLIONS FOR AUTOS.

New York, Jan. 8.—Nearly $8,000,000 was spent in the United States during 1907 for motor cars, according to the estimates made by the Association of Licensed Automobiles. The association has decided to hold its next show at Madison Square Garden in January, instead of November, as heretofore.

It is absolutely necessary to health that we give relief to the stomach promptly at first signs of trouble. Take something once in a while; especially after meals; something like KODOL For Dyspepsia and Indigestion. Sold by all druggists.

TOWN HALF BURNED.

Brentford, S. D., Badly Scorched by Flames.

Conde, S. D., Jan. 8.—The new town of Brentford, on the Missouri river extension of the Minneapolis & St. Louis railroad, was about half destroyed by fire early Monday morning. The fire started from the heating apparatus in H. A. Miller's dry goods store, and fanned by a brisk northwest wind spread to George B. Mann's hardare store, in which were the postoffice and telephone station, B. A. Esty's store and Stanley hall, all of which were destroyed, involving a loss of about $35,000, nearly covered by insurance.

The town has no fire protection and that it was not entirely destroyed was due to the efforts of the amateur firemen, who fought the march of the flames like veteran firefighters.

No chance for dirt or greasy adulterants in WHITE soaps. WHITE LILY is the WHITEST and PUREST of the WHITE soaps. All grocers.

CALUMET DRUGGIST WEDS.

Calumet, Mich., Jan. 8.—(Special to The Herald.—Monday evening, at the Calumet M. E. parsonage, Rev. E. Sedweek married Mrs. Evelyn Whipple and Harry E. Algire. Miss Genevieve Van attended the bride and Moses Miller supported the groom. Mr. Algire has been manager of the Metropolitan pharmacy on Oak street for some time and has a large circle of friends. Mrs. Algire formerly had charge of one of the departments in the Glass Block store. The newly married couple will reside in Calumet.

KILLED BY BRICK.

Jackson, Minn., Jan. 8.—While Andrew Wolf, aged about 35 years, was hauling a load of brick, his wagon slid off the road and down an embankment and he was caught under the load and instantly killed. He was a single man.

ROUTINE SESSION.

County Printing Bids Considered by the County Board.

The afternoon session of the county board yesterday was devoted mostly to the opening and the consideration of bids for the county's printing and supplies and for an addition to the auditor's office and vault.

John A. Johnson will probably get the contract for the extension, his bid being the lowest out of six submitted. The bids were as follows: J. Jacobson, $3,698; J. A. Johnson, $3.342.70; Schleunes & Dauplaise, $3,818; E. M. Olson, $4,879; Hugh Fawcett, $4,222; J. A. Roberts, $4,200. The architect's estimate on the cost was $3,800.

The board received about fifteen bids for the office supplies, printed blanks, court calendars, books, etc. The amounts ranged from a little over $1,000 to nearly $6,000, according to the amount of material to be furnished. The contracts for the supplies will also be awarded today.

The county auditor petitioned the board for an appropriation of $7500 for clerk hire in his office for the first six months of this year and the treasurer asked for $5,000 for the same purpose.

The annual report of the register of deeds and registrar of titles, published in full in The Herald yesterday, was read and many favorable comments were made by the commissioners on the showing of the two offices. The report was filed by M. C. Palmer.

ANOTHER ONE QUITS.

Madison, Wis., Jan. 8.—The Minnesota Mutual Life Insurance company has filed notice with the insurance commissioner that it would cease writing new business in Wisconsin after March 1. The company ascribes its action to recent insurance agitation.

SOLD INDIANS LIQUOR.

Fargo, N. D., Jan. 8.—Edwin Carter, found guilty in federal court, was sentenced by Judge Amidon to sixty days in the Cando jail and fined $100. Carter is alleged to have sold liquor to Indians of the Turtle Mountain Indian reservation.

Those delicious tea cakes that were served at the afternoon club entertainment were made with Hunt's Perfect Baking Powder and Extracts.

"THE" White Sale of All White Sales in Duluth

BEST Every Year Before This and BEST in 1908.

We have None of the "Sweat Shop" Made Garments.

The Best of Lovely Undermuslins

The Kinds You'd Have if Made At Home.

Are a Money-Saving Feature of This White Sale

'TIS NOT ALL SAID when you're told we have by far the largest and most varied stock of muslin underwear in the Northwest. Beyond that, and more important, are these facts: They're the BEST undermuslins that years of skillful search through all markets have brought to light—made in clean sanitary shops, by trained and skilled workmanship, scientifically constructed to give the best of service, fit and comfort. Every garment we offer in this sale is fresh, clean, crisp and new—direct from manufacturers—the cream of their output for the season of 1908. The prices for this sale are only less wonderful than the remarkable superiority of the qualities of the goods themselves

French, Swiss and Convent

Hand-Made Underwear

In all the other Duluth stores combined, there's no showing of exquisite handmade and hand-embroidered undermuslins to compare with what we show in our French white room on the second floor. Every garment daintily and skillfully wrought by the deft fingers of needlewomen in the convents of France and Switzerland, and beautifully embroidered.

ECHOES.

Evidently the friends of Mr. Haven, the Republican candidate for mayor, have pinned all their hopes on the lid issue, as they are striving with might and main to make it the chief consideration in the present contest. As a matter of fact it is no consideration at all, and cannot be made an issue.

Both the candidates have declared themselves on the subject. Mr. Tessman announced his views on Nov. 26. Mr. Haven announced his on Jan. 5. Their views are the same. Mr. Tessman, if anything, made his declaration with more vigor, more clearness and more certainty than did Mr. Haven in his echo. Echoes are naturally fainter than the original sound.

But to come down to brass tacks, it makes little difference what either of the candidates think or say. If Mr. Tessman had declared for the lid, and Mr. Haven had announced himself as opposed to it, the result would be the same: the lid would stay right where it is, because it has gone out of the hands of the city authorities. Many a Minnesota mayor is sitting today, in great gloom and discontent, under a tightly adjusted lid of which he disapproves. But the lid is on in Minnesota, and it is on to stay.

Suppose that Mr. Haven had failed to echo Mr. Tessman's firm and decided declaration in favor of the lid, and were elected mayor. Suppose, after he was elected, that he tilted the lid ever so little. What would be the result?

Any citizen—member of civic league, anti-saloon league, church, labor union, member of anything else or just plain citizen—could bring the matter to the attention of the attorney general. Poof! Off would go the head of the offending mayor.

In short, there is no lid issue, and can be none. Instead of merely taking up one of Mr. Tessman's platform planks—all of which Mr. Haven has echoed—the Republican candidate should have contrived, in the time he has had since Mr. Tessman declared himself, to think up something original.

Instead of that, this is what has happened:

On Nov. 26 Mr. Tessman said that he believed that laws were made to enforce; that small lawlessness leads to large lawlessness, and neglect of small laws to neglect of large ones; that therefore, if elected, he would stand for the strict enforcement of the law, without compromise and without favoritism.

On Jan. 5 Mr. Haven said "Me too."

On Nov. 26 Mr. Haven said that he believed the operation of a city to be a business matter, and that he should, if elected, see to it that the taxpayers are not called upon for unnecessary levies, that they shall get value received for all taxes paid, and that each individual shall contribute according to his means to the support of city government.

On Jan. 5 Mr. Haven said "Me too."

On Nov. 26 Mr. Tessman said that as municipal government is a business matter, he should expect all city employes to give the same attention to the public service, without regard to politics, that would be required of them in private employ.

On Jan. 5 Mr. Haven said "Me too."

On Nov. 26 Mr. Tessman said he would work for a Greater Duluth; a Duluth greater in size, population, industry and wealth, and a Duluth clean and sightly and pleasant to live in.

On Jan. 5 Mr. Haven faintly echoed "Me too."

And that is the situation to date.

INDUSTRIAL DEPENDENTS.

When a state provides for the gathering of statistics relating to accidents and injuries incident to industrial pursuits, it does not do it merely to gratify the curiosity of statisticians. It does not aim simply to provide figures for useless compilation, to be entombed in a volume of annual reports. Its aim, whether the legislators that provided for the figures realized it or not, is to awaken the people to the fact that here is a problem worthy of their consideration, because of its deep interest to society.

An employe injured in pursuing his occupation may mean simply a single man forced to a few weeks of idleness, or it may mean the support of a family incapacitated from earning wages for the remainder of his life. If it means the latter case, or if the employe is killed, in many cases society becomes burdened with a helpless family to be supported, while the employer who reaped the profits of that laborer gets another man and goes on without interruption.

First, these figures mean that every possible safeguard shall be thrown about conditions of labor, so that the risk to life and limb shall be reduced to the lowest possible percentage. The appreciation of this has come in most states, and the result has been laws, more or less well enforced, providing for factory inspection.

But the next consideration, though it is a greater one still, has not yet received the attention that it deserves. This is whether the employe who does well if he receives enough to house, warm, feed, clothe and educate his family, shall be forced to bear the burden of the risk of employment, or whether that burden shall be borne by the employer, who reaps the profits from the laborer's production. At present, the law gives little heed to the claims of the producer, and surrounds the beneficiary of production with ample protection. There is no provision requiring employers to take care of injured employes, and the victim of an accident in a factory has to take his slender chances in a court of law, where he finds himself surrounded by limitations provided in the interest of his employer. If his injury is due to his own negligence, he can recover nothing, under most statutes; under many laws, if the negligence is that of a fellow-servant he loses his suit. In this state, if death results from the accident, the recovery is limited to $5,000, as though any legislator had the right to set a limit to the value of a human life.

Some employers, when an injured employe has a cause of action, make haste to settle for a pitifully small sum. Others consistently throw all such cases into the courts, trusting to the ingenuity of their lawyers to get them off entirely. At best, the injured employe has but a slender chance, and in most cases, if his capacity to work is destroyed, he and his family must face a bitter future.

What is needed in every state is a system of industrial insurance whereby the employers, who profit by the productiveness of labor, shall be compelled to assume the risks of employment, and shall be prohibited from throwing aside the useless employe, who has been accorded for his labor but little more than the bare means of livelihood when he was in his strength, and who gets, as a rule, no consideration at all when his power to produce is gone.

PROTECTING THE DEPOSITOR.

Mention has been made of the fact that Oklahoma, the only state in the Union with real popular government, has started out with a law providing for a state guaranty fund to protect depositors in banks.

That is not the only good thing in the banking laws of this infant state.

For instance, according to those laws nobody is eligible to be a bank director unless he owns at least $500 of the bank's stock, which cannot be pledged for any loan or debt. This would prevent the chain system of acquiring control of banks for speculative purposes. Furthermore, any person who violates any of the banking laws of Oklahoma is made liable for all damages which the banks or its stockholders or depositors shall suffer in consequence of such violation.

Again, it is made unlawful for any active managing officer to borrow the bank's funds, either directly or indirectly. The officer authorizing such a loan, as well as the person that receives it, is to be deemed guilty of larceny of the amount borrowed; in plain terms, of stealing it.

Any president, director, cashier, teller, clerk, officer or agent of any bank who wilfully embezzles, abstracts or misapplies any of the money or securities of his bank, or who makes use of the bank to defraud the bank or any individual, or to deceive any bank or individual, is to be deemed guilty of larceny of the amount involved.

Oklahoma banks will not be allowed to loan to any one person, firm or corporation at any one time more than 20 per cent of the paid-up capital of the bank, except that under proper restrictions loans up to 75 per cent may be made in assisting agricultural products to market. These restrictions include the requirement that the loans must be limited to 75 per cent of the market value of such products, and must be secured by elevator receipts, warehouse certificates, etc., with fire insurance policies to guarantee the bank against loss.

In short, the Oklahoma legislature has profited by the lessons in finance that were provided during the panic of last October. The new law, which was approved Dec. 17, is intended to prohibit and punish the banking methods that led to much of the trouble in New York, and to protect the banking system of the state from the effects of panics by guarding against "runs" through the state deposit insurance plan.

Furthermore, when these laws are violated and the guilty ones brought to justice, it will be difficult for them to dodge behind the plea that the law is "unconstitutional," because in Oklahoma the constitution is a very flexible document, which is subject to easy changes by the use of the principle of the initiative and referendum, which can be used to control the statutes as well.

Other states might study these laws with profit, and especially that feature which, by guaranteeing depositors against loss, will prevent disastrous runs and hoarding of money in times of alarm, leaving the money in the banks to be used in restoring confidence and in enabling business to continue.

THE FEDERAL CENSUS.

The introduction in congress of a bill providing for the census of 1910 calls attention to the fact that the time for a new taking of national stock is drawing very close. The federal census is held every ten years, the last being that of 1900. From a mere enumeration of population the census has grown into a very complicated institution which now embraces the collection of data on manufacturing and other industries, vital statistics, commerce, debt and taxation, municipal expenditures, and practically every phase of human activity.

The enumeration of the population, which is still the main function of the census, is made at a fixed date every ten years, and the other work is done in the intervening years, as rapidly as may be with the facilities provided by congress. Where the census bureau used to be a temporary affair, reorganized every ten years, it is now a permanent institution, which keeps busy all the year around and every year.

Director North recommended that the census of the population be done in April this year, instead of in June, and his recommendation will probably be adopted. He argues that the census will then be more complete, because June is the beginning of the vacation season, while April as a rule finds everybody at work. Besides, by taking the census two months earlier, it will be possible to transmit the results to congress in December, instead of early in the following year, as the rule has been.

Speculation as to what population the census of 1910 will show is already in vogue. The population of the United States in 1900, including Alaska but no faraway islands, was 76,303,387. Since then separate census reports have been made by ten states, and experts have estimated the population at the beginning of this year at about 88,000,000. At the present rate of progress they guess that in 1910 the total will be about 91,000,000.

The gain is expected to be about 20 per cent. The population increased 20 per cent in 1820 over 1810; 23 per cent in 1870 over 1860, notwithstanding the intervening civil war; 30 per cent in 1880 over 1870; 24 per cent in 1890 over 1880; and a little more than that in 1900 over 1890.

The increase in wealth and industry will probably be in greater proportion than the increase in population, so amazingly have the resources of the country been developed in recent years. The breathing spell caused by the "panic" of the fall of 1907 should not materially affect the ratio of increase, for long before the census is taken every industry that has slowed up, no matter how much or how little, should be in full swing, and should have made up in its new vigor for any temporary loss in production caused by the slight depression of this winter.

The Aldrich currency bill will be scanned anxiously by western bankers to see what plums it provides for Wall street banks.

HOTEL GOSSIP.

Out at Laredo, a little jerkwater town on the Denver & Rio Grande, there once occurred a funny episode. It reminds one of the "little drops of water and little grains of sand" theory, in that it shows how the infinitesimal forms of animal life sometimes hang the kibosh on things established by man, and for a brief length of time show modern invention that old [illegible] Nature was pretty wise.

Although Laredo is a little town, such as the Cherry Sisters and Julia Marlowe would refuse to show in, yet it is on the main line of travel, for a train is stopped at Laredo for an undue length of time the system on that division is naturally effected. So it was upon this day.

The operator at Laredo was basking in the sunlight, according to the story of Peter Emery, a former resident of Colorado, but now a mining man of Arizona, who is at the St. Louis. The last train had just brought a letter from his steady, over in Dover, Colo., and the bright sunlight was greatly enhanced by the bon mots and assurance of undying love that came over from Dover way. Altogether, the day was one to be remembered in the placid round of events of the Laredo operator.

It might have been the honey sweetness of the letter that attracted the trouble that was even then on its way to disturb th lazy basking of the operator and to tie up the operations of the division for the space of ten hours.

Suddenly the operator was awakened from his reverie by a vicious sting. Let it be explained that nothing the letter contained was responsible for the operator being stung; it was a bee, and not a pointed sentence bristling with subtle innuendos or blunt sarcas. It was a physical sting not one of those mental shaft that burn and cut.

The first bee was but the precursor of the laggers. It was the fastest one in the bunch, and therefore got in the first sting, but there were others on the way. They swarmed around the operator like women around a new corset model, driving him, fighting to the last ditch, from the station. Then they took possession of the small depot. They buzzed and flew around the new possession, bidding the drones get busy with the homelike things that bees dearly love. They had come to stay.

Shortly the wire from the next point began calling the Laredo operator. There was no response. The Laredo operator knew that he would be called shortly, yet could not gain his keys. He endeavored to fight his way into the room, but the fight was unequal and he was forced to retire, leaving the room in possession of the swarm of insects.

Again the wire called the Laredo operator. Again it failed to get an answer. The Laredo operator summoned assistance from the village. The village smithy, the postmaster and the milliner turned out en masse to drive the bees from the room. They, too, were driven from the attack with colors trailing in the alkali dust of Laredo.

A small boy was hired to run the blockade and set a smudge in the room, but history only repeated itself, and the urchin was driven, yelling with pain, away from the vicinity of the station. In despair they gave up the fight.

For ten long hours the bees held possession of the operator's room. Every effort to drive them from their retreat met with failure. Finally their activity was relaxed and one of the village dare-devils ran the gauntlet of deadly stings and succeeded in placing a burning brand in the room.

He was the hero of Laredo for two whole days. What cared he for the stinging he had received; he had made it possible for trains to once more resume operations. So the train, thanks to the village dare-devil, came into Laredo ten hours late. The story of the taking of the station was told to the engineer, the conductor and passengers. It was quite the most startling thing that had occurred in Laredo for the past twelve months.

And so after the excitement of ten long continuous hours, when feeling had run riot, and brave deeds were planned and carried out, the little town of Laredo a gain resumed the even tenor or its ways. The operator again read the letter from the girl over Dover way; the village smithy returned to the shoeing of his nags, and the little milliner, her face fanned to a most violent red by the fire of excitement and the exertions of fighting the enemy, returned to her shop and vainly endeavored to concentrate her mind on the latest edition of the New York fashion plate.

For ten hours they missed the diversion of a train, but Laredo had something to talk about for the next two months.

• • •

Honesty, or virtue, rather, are commonly supposed to have intrinsic values of their own. In other words they are their own rewards. Yesterday morning a man applied at the desk of the Lenox and inquired if any money had been found in his room. He had slept in the room the night before and had come away and forgotten his wallet. His purse, containing $140, was given to him with the explanation that it was found by the chambermaid, who had brought it down to the desk. Without so much as a thank you, the individual grabbed at the purse, like a flash at a fly on a rainy day, and walked out of the hotel. A couple of nickels, or a new silk handkerchief, with a picture of the statue of liberty upon it, or a simple thank you, would have proved a fitting reward to the honesty of the girl. She could have easily gone south with the lucre.

• • •

It is hard to make a traveling man blush. One did yesterday at the Lenox, though. One of the Rihnack brothers was just looking over some new linen. In butted the traveling gentleman with the advice that if the name Lenox was placed on the towels the hotel would not lose so many.

"People won't take them if they have the name of the hotel on them," he volunteered.

A moment later he had occasion to open his grip and about the first thing that peeped forth was a towel bearing the name of the Ryan hotel.

"I just took that to wrap up something," he stammered in confusion.

"I guess I won't have the towels marked after all," came the information from Mr. Ribenack.

Pearson, Rush City; A. J. Weber, Mount Iron.

THE WEATHER.

A little more seasonably sharp this morning; that was all. Last night's lowest temperature was 6 degs. above zero, and tonight it may be down to zero, the weather man says. It was clear, brilliant and bracing today. The weather man says it will be milder and says nothing whatever of the snow that the ski tournament needs.

A year ago today it was mildly chilly, with a light snowfall.

The sun rose this morning at 7:55 and set tonight at 4:37, making 8 hours and 43 minutes of sunlight.

Says Mr. Richardson of conditions: "The eastern storm is central over New England states, having advanced from the Carolina coast during the past twenty-four hours, the barometer continuing very low. This disturbance caused rain or snow in the lake region, upper Ohio valley and North Atlantic states and strong westerly winds in the latter districts during Tuesday or last night. The southwestern high pressure remained about tationary, but a rise in the barometer throughout the Northwest has been attended by much colder weather in the Dakotas and Manitoba with zero temperatures in the Red River valley. The barometer is falling throughout the extreme West due to a disturbance developing over British Columbia. This depression, as it moves eastward during the ensuing twenty-four to thirty-six hours, will cause milder weather in this locality during Thursday and Thursday night."

Following were last night's lowest temperatures:

Abilene	36	Medicine Hat	24
Asheville	26	Memphis	42
Atlanta	32	Miles City	24
Battleford	8	Milwaukee	24
Bismarck	12	Minnedosa	12
Boston	38	Modena	14
Buffalo	28	Montgomery	58
Cairo	34	Moorhead	0
Calgary	20	New Orleans	44
Charleston	38	New York	36
Chicago	26	Norfolk	36
Cincinnati	30	Northfield	26
Concordia	26	North Platte	16
Davenport	26	Oklahoma	34
Denver	28	Omaha	24
Detroit	28	Phoenix	36
Devils Lake	4	Pierre	20
Dodge	24	Pittsburg	26
Duluth	6	Port Arthur	8
Edmonton	14	Portland, Or	44
El Paso	38	Rapid City	20
Escanaba	18	Regina	0
Galveston	50	St. Louis	32
Grand Haven	28	St. Paul	10
Green Bay	18	San Antonio	42
Havre	16	San Francisco	42
Helena	24	Santa Fe	20
Houghton	16	S. Ste. Marie	24
Huron	12	Shreveport	40
Jacksonville	40	Spokane	32
Kamloops	24	Swift Current	14
Kansas City	32	Washington	34
Knoxville	36	Wichita	20

Lander	12	Winnemucca	22
Little Rock	42	Winnipeg	12
Los Angeles	50	Yellowstone	16
Marquette	16		

Department of Agriculture, Weather Bureau, Duluth, Jan. 8.—Local forecast for twenty-four hours ending at 7 p. m. Thursday: Duluth, Superior and vicinity, including the Mesaba and Vermilion ranges—Fair tonight and Thursday; low est temperatures tonight will vary from about zero to 5 degs. above. Warmer weather Thursday. Variable winds, becoming southerly.

H. W. RICHARDSON,
Local Forecaster.

Chicago, Jan. 8—Forecasts until 7 p. m. Thursday: Upper Michigan—Partly cloudy tonight with snow in north and colder in east portions. Thursday fair.

Wisconsin—Generally fair tonight and Thursday, slightly colder tonight in extreme southeast portion, rising temperature Thursday.

Minnesota—Fair tonight and Thursday, rising temperature Thursday and in west portion tonight.

Reflections of a Bachelor.

New York Press: The man who can make enough money to be able to afford a valet has too much sense to.

The most happiness a woman gets out of being married is she can't be called an old maid.

What a woman likes about going to church is she can talk about anybody who stays away.

A wife can be very useful to her husband by going to bed first and warming up the sheets for him.

When you go to put your arm around a girl and she isn't there, she expects she probably will be next time, or she would have been the first.

Is It Necessary?

Law Notes: The new law in Minnesota perinitting a person accused of crime to plead guilty at once without waiting for the action of the grand jury is said to operate in a highly satisfactory manner in that it gives him an opportunity to begin to "do time" without unnecessary delay. It might well be doubted that any great number of criminals are in a special hurry to expiate their crimes, but they might improve in this respect if the encouragement given by the Minnesota law should be afforded by other states. After all, is such a statute necessary? It is true that the state constitutions generally provide that no person shall be held to answer a criminal charge except on an indictment or presentment by a grand jury, but since this provision is designed for the benefit of the person by giving him definite information as to the charge he is required to answer, it would seem that his rights would be fully protected by permitting him to specify the crime with which he charges himself and to plead guilty to such self-made accusation. As to the technical requirement of an indictment or presentment by a grand jury, no reason is perceived why that could not be waived as effectually as a trial by jury is waived when a prisoner pleads guilty to an indictment.

An Acute Observer.

St. Louis Republic: A one-armed man sat down to his noonday luncheon in a little restaurant the other day, and seated on the right of him was a big, sympathetic individual from the rural district.

The big fellow noticed his neighbor's left sleeve hanging loose and kept eyeing him in a sort of how-did-it-happen way. The one-armed man failed to break the ice, but continued to keep busy with his one hand supplying the inner man.

At last the inquisitive one on the right could stand it no longer. He changed his position a little, cleared his throat, and said: "I see, sir, you have lost an arm."

Whereupon the unfortunate man picked up the empty sleeve with his right hand, peered into it, looked up with a surprised expression and said: "By George, sir, you're right."

A Roosevelt Magazine.

Charleston News and Courier: It is said that Mr. Roosevelt, upon retiring from office, may establish a magazine. Something Uncommoner, we suppose.

TWENTY YEARS AGO.

Taken From the Columns of The Herald of This Date, 1888.

***Capt. Ira F. Holt, the well known vessel man, who is the owner of Holt's Duluth & North Shore line of steamboats, had a fight with burglars at Detroit, Mich., a few nights ago and was shot in the right leg and cut on the head. The burglars took his $300 gold watch, but missed a large sum of money which he had on his person.

***McGregor, Clark & How, the well known real estate men, have enlarged their quarters and now occupy the three rooms in the Metropolitan block, just vacated by the Lakeside Land company and W. C. Sargent.

***Another German newspaper is about to be established in Duluth.

***Simon Clark sailed from New York yesterday on the Cunard steamer Etruria for Liverpool and will spend a short time visiting his old home in Scotland.

***The engagement is announced of T. H. Hawkes, Jr., to Miss Curtis of Marietta, Ohio.

***Willis A. Gorman Post, G. A. R., held a public installation last night, when the following officers were installed: C. H. Graves, post commander; James K. Magie, senior vice-commander; Joseph H. Wood, junior vice-commander; E. B. Force, adjutant; Asa Daily, quartermaster; J. J. Barnes, sergeant; S. R. Norris, chaplain; G. H. Holden, officer of the day; J. E. Taft, officer of the guard.

***At a meeting of the Ladies' Library association, the following were chosen on its executive board: Mrs. W. R. Stone, Mrs. J. D. Ray, Mrs. W. S. Woodbridge, Mrs. Culver, Mrs. Geggie, Mrs. Barber, Mrs. Hale, Mrs. Birch, Mrs. Norton, Mrs. Simonds and Mrs. J. H. Upham. The officers are: President, Mrs. Stone; vice president, Mrs. Ray; secretary, Mrs. Woodbridge; assistant secretary, Mrs. Culver; treasurer, Mrs. Hale. The association now has 1,000 books in its library.

***The following real estate transfers have been recorded:

J. Anderson to F. and O. Sanderstedt, lot 5, block 106, Second divsion, $1,100.

Western Land association to Peter Olson, lot 230, block 125, Second division, $600.

Thomas J. Davis to Benjamin F. Smith, part of lots 9 and 10, block 43, Endion division, $3,000.

***Dr. Robert Taylor returned yesterday from St. Paul, where he passed his medical examination, entitling him to practice in this state.

***John Lannigan, the head bartender of the St. Louis hotel, has returned from the East with his bride.

***Hon. W. K. Rodgers, president of the State bank, has returned after a long absence at his home in Columbus, Ohio.

***The marriage is announced of Edward Keeler of Duluth and Miss Marie E. Haynes, preceptress of the high school at Cassopolis, Mich.

MINNESOTA OPINIONS.

Aitkin Independent: It would seem that Governor Johnson is looming up large all over the country as a possibility for a place on the national ticket, and from indications there is a fighting chance that the governor may be the top of the ticket instead of the tail. There is no real reason why the next president should not come from the Middle West, and no man commands the respect and loyalty of his party in a higher degree than Governor Johnson of Minnesota.

Walker Pilot: Jim Hill says Minneapolis can be a big city if it takes care of the agricultural possibilities of the Northwest. Then Minneapolis better start right in on Northern Minnesota. We can't furnish big crops and a high stage of water for Minneapolis flour mills at the same time.

Hendrum Review: Thomas W. Lawson has a new political party and to head it he has selected Roosevelt for president and Governor Johnson for vice president. The trouble with this selection is that neither of the old parties can afford to spare its ablest man.

Virginia Enterprise: Spend what you can afford, pay promptly, and put what money you do not need in the bank. By following this plan you will satisfy your own wants, promote general trade, help along the restoration of confidence and furnish your share in giving prosperity another boost.

Anoka Free Press: The vice presidency of the United States has been fitly described as a position where ambitious statesmen may be chloroformed to death. Consequently, the recommending of a man for the vice presidency, instead of implying the conferring of an honor, implies a desire to shelve diplomatically a troublesome rival or antagonist.

Anoka Union: The Union favors any man for governor on the Republican ticket, who can be elected.

Appleton Press: In these times when the politician finds it "profitable to be just," it is necessary for the public to be unusually discerning to detect the agent of Beelzebub who is masquerading in the mantle of the reformer.

Hibbing Tribune: Scylla and Charybdis—the devil and the deep sea, are nothing at all compared to the lid and county option.

Paynesville Press: We don't care a rap who Hart is, but we would like to know what office he is going to run for.

Cannon Falls Beacon: The trend is upward and the end inevitable; it is law. An era of better things for men and women who work and strive and bear and hope and pray dawns above the horizon of the new year. Faith in the race and its high destiny, faith in the beneficence of the laws of the eternal God is the anchor of their hope. Let them not be dismayed.

The East Seeks a Moses in the West.

Detroit Journal: There are sinister mutterings among the Jeffersonians and preparations for a new Jove on the Democratic Olympus. Obviously Mr. Bryan, after all, must do something more than merely "speak for it" and pen the extemporaneous speech that is to accept the unanimous nomination of the Denver delegates. It may be sacrilege. It may be heresy, second only to that of '96. It may be but the foreshadowing of the Democratic party's presidential choice in 1912, but the boom of John A. Johnson, Democratic governor of Minnesota, is certainly taking on form and substance. Out of the state of Minnesota, which has never yet been permitted to contribute a presidential candidate to either national ticket, there comes the name of a country editor in a town of less than 5,000 people and within a year that name has become so well known in this country that John A. Johnson is impressively, if not seriously, urged as Democracy's nomination to restore the party to power.

Col. Watterson has already nominated Johnson eloquently and enigmatically with a conundrum that was more elusive and much better advertising than "How Old Is Ann." Parts of the Southern Johnson suggestion is unquestionably taking well. The Pacific slope is beginning to talk. Indeed, Mr. Bryan's journalistic foes, and they are many, are making it clear that Governor Johnson could carry every state that Mr. Bryan has ever carried and in addition would have a fighting chance in states in which Mr. Bryan's defeat is practically inevitable.

Thus far the Minnesota Moses has contented himself with a tentative platform in which he makes the tariff "the paramount and dominant issue" of the Democratic party. He makes the point that the party has always won with the tariff and it is about time to try it again. Aside from his remarkable and new-born popularity much can be said to Mr. Johnson's credit. His private life and public career are both as clean as a whistle. He is a clean-cut, progressive, masterful, productive American. With the schisms, blunders, feuds and brawls of the Democratic party he is in no way identified. He is a brand new idea. He typifies the new era of the party that cleans the slate and forgets the past. What will happen to this new Democratic idol in the Denver convention remains to be seen. So much is clear: Mr. Bryan is to have company if not competition on the Democratic Olympus.

A Timely Greeting.

Joseph G. Cannon.

Charles E. Hughes.
William J. Bryan.
Joseph W. Bailey.
Charles J. Bonaparte.
George B. Cortelyou.

John A. Johnson.
Joseph B. Forakker.
Charles Warren Fairbanks.

George Gray.
Philand'er C. Knox.
William H. Taft.
Theodore Roosevelt.
—Boston Globe.

Waiting on the Court.

Cleveland Leader: It may be that the third-term boomers won't believe it until Justice Brewer hands down an opinion pronouncing it genuine.

WHITTLED TO A POINT.

Chicago Tribune: Little Clarence—Mamma, how did papa make his first thousand?

His Mother—He made it, dear, by marrying your grandfather's daughter. Now run out and play.

Baltimore American: First Bridesmaid—Dear Mabel is nothing if not consistent.

Second Ditto—Well?

First Bridesmaid—You know she was the president of the Rainy Daisies, so she insisted at her wedding on carrying a shower bouquet.

Philadelphia Press: "But," said Miss Gusch, "were you never frightened, captain, when you saw the enemy advancing?"

"No," replied Capt. Bright. "I felt safe so long as I had a couple of life-preservers with me."

"Life-preservers?"

"Yes; my legs."

Philadelphia Ledger: "Thank you very much," said the lady, smilingly accepting the proffered seat.

"Madam," said the man, tipping his hat, "you surprise and pain me."

"I do not understand you."

"Well, you've lost me a bet."

Washington Star: "A physician's profession is an exceedingly trying one."

"Yes," answered the doctor, "The worst thing is that you can't own up to being under the weather yourself without exciting suspicion."

Houston Post: "I wonder how she ever came to accept him?"

"Accept him! Why, she ran him down!"

"Why in the world?"

"His nose just matches her pugs."

Baltimore American: Musical Manager—Now, candidly, talking of the performance of Vagrian opera, what do you think of our company's execution?

Candid Critic—It is not execution, my friend; it is assassination.

Chicago Tribune: "Isn't he a cute little darling?" said the fond mother, proudly exhibiting the cherub.

"Yes," answered her bachelor brother. "He's funnier than some of these mechanical toys. You don't have to wind him up."

Governor Johnson on the Tariff.

Atlanta Constitution: John A. Johnson, governor of Minnesota, and at least a picturesque presidential possibility, is one Democrat of national prominence who has not undervalued the importance of tariff reform as a campaign issue. If all the leaders of his political faith are able to incubate ideas of like vigor, the task of the platform committee at the approaching convention will be vastly simplified and chances for success in the approaching contest appreciably enhanced.

The following conclusion of an article he recently contributed to the New York World has all the fire and the penetrating boldness which characterized Democratic attacks of old upon the "mother of the trusts:"

"It must be apparent that our present tariff, while mainly responsible for the existence of the trusts, is, in addition, a tax upon the masses for the benefit of the few. The farming of taxes in France before the revolution was no more iniquitous than is our present tariff system. Nineteen hundred and eight will be a memorable year for the struggle of equal rights and American ideals; this year will see tariff reform accomplished or well under way, for if the present congress does not at the present session make substantial reductions the people in November will elect those pledged so to do."

Governor Johnson is merely speaking facts which are known to all the business men of the country, irrespective of political affiliation. They represent conditions which find no supporters outside of the immediate interests that are benefited. The manufacturers of the country, from the Far East, through the middle states and into New England, have time and again gone on record as demanding a revision of many of the schedules. They receive little comfort from the dominant standpat element; even the president dismissed their pleas with an evasive paragraph in his recent annual message.

Meanwhile, the abuses of which Governor Johnson speaks multiply to restriction of our foreign trade, and what is of vastly more importance, the increased cost of living at home.

Does not the patent indifference of the Republican party in this direction point Democracy's most practical opportunity next year?

AMUSEMENTS.

LYCEUM | Fri., Sat. and Sat. Mat.

ITALIAN GRAND OPERA CO.

Friday, Jan. 10—"Carmen."
Saturday Matinee—"Il Trovatore."
Sat. Night—Lucia de Lammamoor.

METROPOLITAN

"THE HOUSE OF MIRTH."

TONIGHT and All Week,

TOM, DICK AND HARRY

EXTRA—Mme. Loraine, "The Statue of Gold."

Next Week—SAM DEVERE CO.

DEFECTIVE PAGE

CONCERNING WOMAN.

"I'm planning revenge," said the girl with the pucker on her brow, "and it's going to cost almost $10. But revenge is sweet, I think, and although, as a rule, I shall try to get it at a marked down figure, for this once I am going to simply luxuriate in the uncharitable but happy and human emotion. I," she continued in the firm tone of one who expects to be gainsaid, "am going to take a man to the grand opera. I don't expect to enjoy anything so much this whole year. He is a man who has been entertained a great deal by many people. He has accepted the hospitality offered him and he has never, to my knowledge, made a call of five minutes' duration on his hostess as a slight recognition of her kindness. He has had mysterious calls out of town when a really good theater attraction has been in town, and has sat in the front row of the parquet with other youths during the musical comedies. In fact, he has assumed a lord of creation attitude and allowed us to offer him all the gracious kindnesses that we chose. And for some unnameable reason we chose to offer him a good many. Well he has already received my note of invitation asking him to go to grand opera. The carriage has been engaged and I am hesitating about sending him a bunch of violets. I would like to make him as uncomfortable as possible. I am thinking of nothing this whole week but interesting subjects of conversation to use during the acts. I don't know whether to do that or to shuffle down in my seat and answer in monosyllables any attempt he might to talk. In fact, it is a rather delicate thing I have attempted. I don't care much whether he recognizes it as a piece of irony or whether he thinks that leap year has placed him on the danger line, and that is simply another case of a desirable man being pleasantly purusued. I am almost positive that he will accept it all just in a line with other hospitalities he has enjoyed, and complacently consider what a good thing it is to be a man in Duluth. I don't believe anything could jolt him out of his self sufficiency. But leap year is mine and the fullness thereof, and I shall try at least."

"Well, I don't know said her confidante, "but that the fault lies principally with the girls. Why don't they let men alone. If they don't want to make calls—"

"Then they shouldn't come to dinner," interjected the irritable one.

"Or take you to the theater, why in the name of Shakespeare should they? I would want revenge pretty badly when I'd spend ten whole dollars which might otherwise be invested, to secure it. Of course, he'll not know its revenge, or if it is, he'll ask that his cup may be filled to the brim and running over with revenge the rest of the year. Invitations to the opera and a carriage at the door and violets—revenge—well, say!"

"I don't know that I think the idea is so very good myself," said the originator weakly. "Maybe he'd realize it better if I wrote another note to tell him I was called out of town and deeply regretted, etc."

"Maybe he would," said the other.

Leap Year Party.

The first of the leap year parties will be given this evening, at the rooms of the Duluth Gymnasium club, when Miss McFadden and Miss McLaughlin will entertain at a dancing party in honor of the members of the club, and the necessary dancing partners.

Engagement.

Word has been received in the city of the engagement of Miss Jessie La Salle and Ernest E. Rackle of Cleveland. Miss LaSalle is a daughter of the late Capt. F. N. LaSalle of this city, and is well known here, although she has lived in Cleveland for the last few years. Miss LaSalle will arrive in the city next week, to be the guest of Mrs. F. N. LaSalle of Chester terrace.

Theater Party.

The members of the DyWyk club were hosts at a theater party last evening at the Lyceum to see "Happyland," followed by an after-theater supper. The chaperones were Mr. and Mrs. Ray H. Hall. Those in the party were:

Misses—
Lillian Morey, Irene Reau, Nell Brown, Du Selle, Ellen Anderson, Florence Moran of Superior, Roberts, Nellie Reau, Lauru Parker, Pearl Hopkins, Sadie McCoy, Velma Hoover of Superior.

Messrs.—
R. C. McGonagle, Val H. Hawkins, Sherman A. Paddock, E. A. McConville, Arthur McConville, O. W. Anderson, George C. Cowing, Ross J. MacDonald, Stewart Poirier, George D. McCarthy, Fred Hall, Frank Fenstermacher, Duncan Dingwall.

Aid Society.

The Ladies' Aid society of St. Paul's German Evangelical church will meet Thursday afternoon with Mrs. A. W. Lane of 9 East Fourth street.

Cecilian Society.

The regular meeting of the Cecilian society will be held tomorrow afternoon with Miss Dora Swan of 2016 East Superior street. The meeting tomorrow will be the first after the holiday recess. The compositions of Sphor, Marchner and Flotow of the Romantic school, will be given. The program has been arranged by Miss Swan and is as follows:

Overture to "Stradella" .. ..Flotow
Mrs. H. C. Strong and Miss Fee.
Synopsis of opera "Jessonda"....Spohr
Mrs. K. A. Ostergren.
Duet from "Jessonda" .. ..
Mrs. Leo Ball and Miss Swan.
Adagio from Concerto .. ..Sphor
Mrs. Carl Sheldon.
Accompanist, Miss Fee.
Aria from "Jessonda" .. ..
Miss Florence Hyland.
Synopsis of opera "Hans Heiling"..
.. ..Marchner
Mrs. A. M. Gow.

Y. W. C. A. Notes.

The course of Bible lessons at the rooms of the Young Women's Christian association, of which Rev. Campbell Coyle was leader, will be resumed Tuesday evening of next week. Three of the lessons were studied when the course was interrupted. A short review of the three preceding lessons will be given at the next meeeting, and the course continued, with the "New Birth" as the subject. The meetings are open to anyone interested.

* * *

The annual meeting of the Y. W. C. A. will be held Wednesday evening of next week at the association rooms. The election of board members will take place, and the reports of the executive officers will be heard.

* * *

The regular January board meeting of the association will be held next Tuesday morning. Beside the routine business, the date for the February meeting will probably be decided upon.

Personal Mention.

Miss Anna Sutter of 214 East Fourth street has returned from a few days' visit at the Twin Cities.

* * *

Capt. and Mrs. John Monaghan of 424 East First street left this morning for the West. They will visit their daughter, Mrs. William Berg, of Portland, Or., and in California before they return.

* * *

Mr. and Mrs. Luther Mendenhall will leave Sunday for New Orleans and from there will go to Cuba.

* * *

Mr. and Mrs. Norman Leach, who were the guests of friends in the city, have returned to their home at Sudbury, Canada.

* * *

Rev. N. L. Upham and daughter, Miss Upham and Miss Abbie Upham left this afternoon for California to remain the rest of the winter.

* * *

Miss May Morris has gone to Portland, Or., to be the guest of Mrs. Wells Gilbert.

What Retail Markets Offer.

Potatoes, 65 cents a bushel.
New potatoes, 2 lbs for 25 cents.
Sweet potatoes, 3 lbs for 25 cents.
Mushrooms, 60 cents a lb.
Crab apples, 50 cents a peck.
Lamb chops, 35 cents a lb.
Ham, 30 cents a lb.

Just plain, common potatoes are delivered to your door for 65 cents a bushel. New potatoes, the kind which are so delicious creamed, may be received at the same place for 25 cents for two lbs, and sweet potatoes, which are so nice baked, cost 25 cents for three meager lbs. Most people, needless to say, are having the plain variety sent home.

Lamb chops are delicious bits of tenderness, and they don't cost much more than ham.

THE EVENING STORY

WHEN THE LIGHT DAWNED

By L. Robbins.

(Copyright, 1907, by Joseph B. Bowles.)

"We have been married just six months today," said Mrs. Singleton, as she passed the cup of fragrant coffee across the table to her husband.

"So we have," he answered, as he took the cup.

"Don't you repent?" questioned Mrs. Singleton.

"Repent! Well, I guess not," answered Mr. Singleton, with emphasis. "Why, I never really lived before."

"But the expense," said Mrs. Singleton.

"Expense!" echoed Mr. Singleton. "Why, the expense for both of us isn't as large as it used to be for myself alone."

"But it is going to cost you more to live now," said Mrs. Singleton. She spoke with an effort, and the natural pink of her cheeks had deepened into red.

"How so?" demanded Mr. Singleton, with a surprised lifting of his eyebrows.

"I have got to have—I mean I need —some new clothes. It is almost May, and my winter things are beginning to look unseasonable. You know I went without new hats and dresses last summer so as to have more money to spend on my wedding clothes, and—and so I have hardly anything that is fit to wear now," explained Mrs. Singleton.

Mr. Singleton made no answer to this, and his wife fancied he was not pleased, for he continued his breakfast in silence.

When he had finished eating he took out his pocketbook, examined the bills with which it seemed well filled, hesitated, then extracted one, and folding it, tossed it across the table.

"Guess it isn't best to give you too much at a time; it might make you wasteful," he said, with an attempt at jocularity, as he returned his pocketbook to his pocket. "Spend that carefully, and if it isn't enough, you can ask for more."

Mrs. Singleton's lips quivered and her blue eyes flashed fire, as she held the bill irresolutely between her fingers.

"Must I ask you for every dollar I need for myself, and have it doled out to me this way, with an admonition not to squander it?" she asked, trying unsuccessfully to hide her indignation and speak lightly.

"Of course, you will have to ask for it. How am I to know you want money if you don't ask for it?" retorted Mr. Singleton, his face flushing. "As for 'doling it out,' and 'admonitions,' why, it is an established fact that all women are naturally inclined to be extravagant—"

"You can keep your paltry $10," his wife broke in hotly. "This is the first time I have asked you for money, and it will be the last, for I will never again ask you for so much as 1 cent as long as I live."

"Very well," returned Mr. Singleton, telly, "you will please yourself about that. Only, let me tell you, you will never get so much as 1 cent unless you do ask. You may find it a trifle inconvenient, after awhile, and change your mind."

Singleton decided that the best way to bring Ethel around was to act as though nothing had happened, so that very soon the two seemed to be on perfectly friendly terms.

Ethel knew if she went about even a little people would soon begin to notice that she always wore the same clothes, and she wasn't going to have them say or hint unkind things about Arthur's liberality to her. So she ceased attending church, except on cool or cloudy Sundays, made no more calls, and always had some plausible excuse ready when her husband invited her to go to entertainments.

After awhile it began to dawn on Singleton why she so seldom went anywhere with him, and it made him unhappy. Why, he asked himself, when she was always so yielding about everything else, should she persist in being so stubborn on this one matter of asking for money?

So the summer passed.

Singleton never for an instant contemplated the possibility of owning that he was wrong. Didn't the Bible say expressly that a woman should be subject to her husband? Meantime it was all very annoying and uncomfortable.

In December the firm for which Singleton worked wished him to go West for them on a certain business venture. It promised to be a fine chance, for if he did well he would doubtless be promoted, with an increase of salary, on his return.

So Singleton journeyed West. He made a stop at Cleveland on the way, for he had arranged to spend a few days with his two brothers there, neither of whom he had seen for several years.

Frank Singleton was the oldest of the three, and Arthur had always looked up to him. He was a prosperous business man, lived well, and had a fashionable wife.

Singleton on the lookout for anything that would justify him in the position he had taken with Ethel, kept an observant eye on the home life of these two. The kindest feeling seemed to exist between them, and only one difference of opinion arose during his stay. This was in regard to the color of a carpet which was to be selected for the library. The discussion was rather warm, but it ended in Frank's giving in good naturedly to his wife's wishes, rather to Singleton's disgust.

"How do you manage with your wife about money matters?" he ventured later on. "If she wants money, you require her to make her wants known, I suppose?"

"Require her to ask me for her own!" exclaimed Frank, in good-natured scorn. "Not much. I should think well of myself to subject my wife to such humiliation! She has as much right to what I make as I have. It would look pretty, wouldn't it, for me to require her to get down on her knees and beg humbly for a dollar every time she happened to want one? Besides, no woman of spirit would stand such nonsense. My wife knows where I keep my money, and when she wants any she goes and helps herself. We no longer live in the dark ages, my boy."

An angry retort rose to Singleton's lips, but he reflected that it was his last day with Frank, and so he held his peace.

At Sam Singleton's there was a different state of things. Sam was not rich. He had a rather meager salary and lived in a small house. His wife was a delicate little lady, and there were three children.

Singleton found the atmosphere of this house peculiarly delightful. Sam was a large man, and his soul matched his body. His children adored him. He had a thoughtful, protecting consideration of his wife, and she in turn seemed to lean and depend on him.

"Here," he told himself, "I'll wager there's no foolish pride about asking for money.

At dinner time, on the last day of ...s stay, Sam suddenly looked across the table at his wife. "Oh, Ellen," he said in the most matter-of-fact way, "can you let me have five dollars?" And Ellen left the room for a minute and returned with the money, which she gave him.

"Metaphorically speaking," explained Sam, with a laugh at Arthur's look of astonishment, 'my pockets all have holes in them, so I let Ellen have the handling of the cash, and it goes twice as far as it would with me. She is a born financier, which, sad to say, I am not."

The business on which Singleton had come prospered and the months slipped away with tolerable swiftness. Once on his way home, however, he was seized with a fever of homesickness, and the cars seemed almost to creep.

He had written brief letters to Ethel during his absence, and she had also written, but less often and more briefly, saying that as nothing happened there was nothing to write. His last two letters had not been answered at all, and he felt a vague uneasiness.

The long journey was at last ended, and Singleton found himself running up the walk of his own yard. There were no lights in the house, but he thought little of that, for it was barely dark yet. He hastily unlocked the door with his latch key and entered. To his dismay, there was nobody in any of the rooms.

Half beside himself with dread, he hurried to the nearest neighbor's. Mrs. Allen responded to his imperative ring of the bell.

"What! Haven't they written?" she asked. "That's strange.'

"Do tell me what has happened?" implored Singleton, his heart standing still with a nameless fear.

"Mrs. Singleton has been sick—quite sick," said Mrs. Allen. "But she's getting better now," she hastened to add.

Singleton breathed again.

"She got your letter" asking her to see about the fire insurance on the house and on looking at the policy she found it ran out that very night at 12 o'clock. So she set out in a pouring rain to have it renewed, and her shoes were very thin and her overshoes leaky—"

"Where is she now?" demanded Singleton.

"Her mother came and nursed her until she was able to travel, and then took her home with her."

"How long since?"

"About a week ago."

Singleton thanked her and turned away. His first impulse was to take the next train to his wife. Then he reflected that as the journey would be four hours long, he would arrive in the middle of the night. It would not be prudent, either, to bring Ethel to a cold house.

So he built up the furnace fire, tried unsuccessfully to get a little sleep, and started in the early morning.

It was in the middle of the forenoon when he entered his mother-in-law's house.

Ethel started up with a joyful cry, and Singleton's heart smote him as he saw how thin and pale she was. He folded her in his arms and held her there as if he never meant to let her go.

"Ethel," he said at length, drawing her down on the sofa beside him, "I have a confession to make. You have been the best and dearest wife a man ever had, and I have treated you abominably. In that disagreement of ours I was wrong—entirely and inexcusably wrong. And I have been in the wrong ever since you married me. I have wanted to have my own way in everything, and to domineer over you and be your master. But while I have been away I have had time for thinking, and I have come to see the marriage relation in a very different light. When a man comes to love his wife more than himself, he no longer wants to lord it over her. He only wants to make her happy."

Ethel's eyes were full of tears.

"Do you forgive me?"

"I don't feel as though there was anything to forgive," she answered, smiling.

Corsets

All ladies interested are cordially invited, even though they do not intend to purchase.

NAME SCHEDULE DATES.

Season of Big Leagues Will Probably Open April 14.

Cincinnati, Jan. 8. — Although the schedule committee of the National and American leagues adjourned late last night and no official report was given out, it was learned, last night, that the committee had decided upon Tuesday, April 14, as the opening date and Wednesday, Oct. 7, as the closing day of the season. The schedule of each league will call for 154 championship games.

Immediately after the close of the regular season the world's championship games are to start, probably on Oct. 9. In the National league, Chicago will open at Cincinnati, Pittsburg at St. Louis, Boston at Brooklyn and New York at Philadelphia.

The opening of the American league was not ascertained, although it is probable that the season will open in Chicago and Detroit in the West and New York and Washington in the East.

The official schedules of both leagues will be announced next month.

Gray-Tallant Co — 117-119 W. Superior St., Duluth, Minn. — Gray-Tallant Co

THIS WHITE SALE BEATS ANY WE HAVE EVER KNOWN!

Yesterday was the best day yet—we are getting the business of Duluth's keenest shoppers—every comparison favors this store! And already today, the crowds are gathering here—the day will surely be another record breaker!

People Expect us to Undersell All Other Stores, and We Do!

Most people know that we have undersold other stores in every White Sale for three years past—they take it as a matter of fact that we'll do so right along—and so we do!

We Undersell All on Sheetings Just as We Did Last Year!
Likewise on Linens, White Goods. Laces, Embroideries, Undermuslins and White Draperies.

Better planning brings us better assortments and better qualities—and enables us to make you better prices! These are facts—undeniable facts—that's why crowds are greatest here!

Come and Compare—compare goods—compare prices—then you'll realize that you can't afford to buy outside of this store!

Send Your Mail Orders Right Away To

WHERE TO GO TONIGHT.

METROPOLITAN—Burlesque.

GRAND OPERA.

Italian Company Will Give Three Performances in Duluth.

The only season of grand opera which Duluth will see this winter will open Friday evening for three performances.

Manager Marshall of the Lyceum is taking long chances on the engagement. The company is not well known in Duluth, and the engagement was made on such short notice that there has been little opportunity to advertise its coming. The expense of bringing the company to Duluth is very heavy.

"I investigated the company thoroughly," said Mr. Marshall, "before closing the contract. It was not well known in this part of the country, but it has a splendid reputation in Chicago, and the Chicago critics have been most enthusiastic in its praises. The company carries 110 people and an orchestra of thirty musicians. It is coming to Duluth without any great flare of trumpets, but I believe that it will prove to be a very meritorious organization." The program is as follows: Friday night, "Carman;" Saturday matinee, "Il Trovatore;" Saturday night, "Lucia de Lammamoor."

The Burlesquers.

Libby Blondell, who is certainly nice looking, and her four English Johnnies have a specialty that is a very pleasing part of the entertainment of the Avenue Girls, who are playing, "Tom, Dick and Harry" at the Metropolitan, this week. Miss Blodell has a very sweet voice and her Johnnies are good singers. They stand in an upper box, singing, and Miss Blodell sings from the stage, with a spot light thrown upon her. The effect is very pleasing. There will be a ladies' matinee at the Metropolitan tomorrow.

Maude Fealy.

Maude Fealy will be the attraction at the Lyceum next Monday evening.

WHISKY AND CIGARETTES

Theo Beck Said to be Physical and Mental Wreck.

Whisky and cigarettes have caused the downfall of Theodore Beck, a West end boy, who was acquitted of a charge of vagrancy by Judge Cutting in municipal court this morning. Although the testimony tended to show that Beck's mind was deranged to some extent, the judge held that the evidence was not sufficient to commit him for vagrancy, and he was dismissed.

Beck is well known in the West end, where he lived for several years. At one time he worked steadily, but more recently booze began to get the better of him and he began floating around the country. Now, it is said, he refuses to work, saying he is possessed of a devil, which will not let him work, but demands that he drift from place to place. In his own words, he has been "tramping around the country like a d—d fool."

Beck arrived in Duluth last week, and a friend in the West end, who found him without work, with little clothing, and no inclination to earn his living, took him in. He reported the case to the police and Beck was arrested.

* * *

Mike Sullivan was a sight when he was arraigned in court this morning on a charge of disorderly conduct. His left eye was cut, bloody and closed. His face was badly scratched and he blinked dolefully at the judge with the good eye as he pleaded guilty to the charge. Dick Adams, his pal, also leaded guilty, and both drew $25 and costs or thirty days.

The two men went into the Vienna restaurant on West Superior street about 6:30 last evening. According to the statement of the proprietor, Sullivan was pretty drunk, but Adams was able to handle himself. They ordered a meal, disposed of it, and then started to walk away without paying. The proprietor called a policeman and stood guard at the door in the meantime. The men attempted to rush him, and he pushed Sullivan. The man stumbled and went through a showcase.

* * *

John Flannigan was ordered out of town a few days ago. He went to Superior, and yesterday returned to do some work in a saloon. He said he was on his way back to Superior when arrested. He promised to get out of town immediately, and was released on suspended sentence.

* * *

You'll be healthy and happy if your liver and bowels work naturally. Hollister's Rocky Mountain Tea keeps these organs working right, brings robust heath to all. Try it now. 35 cents, Tea or Tablets. Ask your druggist.

Follow the Crowds.

Again today. Most buyers are at the Gray-Tallant company white sale. Better come here tomorrow, but come as early as you can!

GOOD FEELING BETWEEN TOWNS

Fire Departments of Duluth and Superior Help Each Other.

There may be a great rivalry between the cities of Duluth and Superior in some matters, but it is certain that no bad feeling exists between the fire departments of the two cities, as is shown by the action of Chief Black of the Duluth department in declining the gift of $300, in recognition of services rendered at the big fire in Superior in November, from the council of the city across the bay.

Chief Black's letter, replying to the kind offer of Superior, was read at the meeting of the council in that city last evening. Previously, the Superior city fathers had written to Chief Black saying that $300 had been awarded the Duluth fire fighters, and asking for directions as to how the check should be made out.

After conferring with the Duluth fire commissioners, Chief Black wrote a letter to the Superior council, thanking the Wisconsin people most heartily for their kind tender and appreciating its spirit, but declining to accept the money, on the ground that the Duluth department's services were too slight to warrant the acceptance of such a gift and because it was always ready to respond to a call from help from its sister city without any thought of remuneration.

Chief Black also said, that while he hoped that it would never be necessary, that if Duluth should need assistance from the Superior fire department, the department of this city would have no hesitancy in calling upon their Superior friends for aid, and that he knew that it would be cheerfully given.

WILLIAM OPIE DEAD.

Popular Young Man of Calumet Victim of Tuberculosis.

Calumet, Mich., Jan. 8.—(Special to The Herald.)—William Opie, son of Capt. and Mrs. John Opie, died Tuesday at the home of his parents. The deceased was one of Calumet's most worthy young men and very popular among the young people. He was 22 years of age and had suffered with tuberculosis for the past three years. He spent the last two winters in Arizona, but was too weak this year to travel. He is survived by his father, mother, three brothers and four sisters. One brother, Frank, is at Leadville, Colo., and will be here for the funeral, which takes place Saturday with services at the Christ Episcopal church, Rev. J. A. Ten Broeck officiating. Mr. Opie was born and raised in Calumet.

Take De Witt's Kidney and Bladder Pills. They promptly relieve backache and weak back. Sold by all druggists.

PAYS FOR STOLEN CANDY.

Cedar Rapids Convert, Conscience Stricken, Sends 5 Cents Back.

Fort Dodge, Iowa, Jan. 8.—Diogenes would certainly have paused and set down his lantern had he ever met up with a certain Cedar Rapids man who wrote the following conscience-stricken letter to a local druggist:

"Cedar Rapids, Jan. 3, 1908.—As I have begun a Christian life, I have to pay for a 5-cent sack of candy which I took from your store without paying for it, about two years ago, when I was there on a visit. So, now, I ask your forgiveness and send the money to pay for it."

ON THE IRON RANGES

NEW ONES TAKE HOLD

Change in City Administration is Effected in Virginia.

Walsh New Chief of Police, and Other Lucky Ones Named.

Virginia, Minn., Jan. 8.—(Special to The Herald.)—The slate of appointive officers as agreed upon by the members of the new council at their meeting Sunday afternoon went through without a hitch at their first meeting held last evening. Following is the roster.

President of council—A. C. Osborn.
Vice president—Edward C. A. Johnson.
City clerk—Albert E. Bickford.
City attorney—George F. Shea.
Assessor—J. H. Fleming.
Health officer—Dr. J. H. Crowe.
City engineer—E. F. Johnson.
Chief of police—Ellis A. Walsh.
Patrolmen—Gust Frederickson, George Harding, George Patosnok and John Pertula.

The members of the old council changed their mind and held another meeting last evening. After roll call the city clerk was requested to again read his annual report. He was then given a vote of thanks and the old council adjourned sine die.

Retiring President J. L. Kimball wielded the gavel until the new president and vice president were chosen, when he resigned his seat and made a happy little address, wishing the new council the utmost success in its labors.

When he stepped down Judge J. M. Martin said on behalf of the citizens, of which he was a self-appointed representative, that the outgoing mayor and council deserved the hearty thanks of the community for the splendid work they had performed during the past two years.

Next in order was the election of city clerk. An informal ballot resulted: A. E. Bickford, 3; A. C. Thurston, 1. The ballot was made formal.

For the office of city attorney there were five candidates: J. M. Martin, Geo. F. Shea, Frank McGray, E. L. Osborne and R. E. Pickering. The first informal ballot stood: Martin, 2; McGray, 2; Shea, 1; Osborne, 1. Second ballot: McGray, 3; Shea, 2; Martin, 1. Third and fourth ballots: McGray, 3; Shea, 3. Fifth ballot: Shea, 4; McGray, 2.

J. H. Fleming was chosen city assessor by unanimous vote, there being no opposing candidate.

E. F. Johnson and C. M. Dorway were candidates for city engineer, and the former won by a vote of 4 to 2 three times repeated.

Andrew Dahl, P. A. Gannon and C. Christopherson were applicants for the office of street commissioner. The first vote stood: Dahl, 4; Gannon, 1; Christopherson, 1. Second vote, Dahl, 2; Christopherson, 4. Third vote, Christopherson 5; Dahl, 1.

The salaries for the ensuing two years were fixed as follows: Mayor, $150 per annum; councilmen, $100 per annum; city clerk, $75 per month, a raise of $15; treasurer, $50 per month, a raise of $5; chief of police, $75 per month; patrolmen, $65 per month; street commissioner, $75 per month; city attorney, $55 per month, an advance of $10; health officer, $25 per month.

The city clerk and treasurer were required to give surety bonds in the sum of $500 and $30,000 respectively, the premiums to be paid by the city.

Mayor Hawkinson named the following council committees, which were confirmed:

Ways and means—Osborn, Trezona and Johnson.
Finance—Laviollette, Mattson and Osborn.
Fire and fire department—Johnson, Laviollette and Boylan.
Ordinance—Boylan, Trezona and Mattson.
License—Osborn, Mattson and Laviollette.
Printing—Johnson, Trezona and Boylan.
Rules and regulations—Trezona, Laviollette and Osborn.
Police—Osborn, Mattson and Trezona.
City property and buildings—Johnson, Laviollette and Mattson.
Railroads—Trezona, Osborn and Boylan.
Elections — Laviollette, Johnson and Mattson.
Streets, alleys and sewers—Trezona, Boylan and Johnson.

The mayor then made his appointments of police officers and health officer.

President Osborn named as board of health, Aldermen Mattson, Laviolette and Johnson.

After adjournment, the members of the old and new councils and all city officers proceeded to the European hotel, where lunch was served and a love feast held.

FIRE IS EXTINGUISHED

Before It Spreads, Causing Little Damage at Spruce Location.

Eveleth, Minn., Jan. 8.—(Special to The Herald.)—Leo Finn, aged 12, was run over by a team belonging to the Blatz Brewing company, while running to the fire at the No. 4 Spruce shafthouse yesterday noon. He was seriously injured, the wheels going over his shoulders and legs.

The fire was caused by an overheated stove in the Landere shanty on the No. 4 shaft at the Spruce. The fire was confined to the shanty. Efficient work on the part of the mining employes kept the fire from attackling the trestle and from going down into the mine proper. At the call for help, the local department responded, but there was little for them to do after they arrived. Their prompt response was appreciated by the officials.

CHISHOLM MOURNS DEATH

Of Judge Bateson Who Figured in Development of That Section.

Chisholm, Minn., Jan. 8.—(Special to The Herald.)—Judge Bateson, an old and respected citizen of Chisholm, died Saturday after about five months of acute suffering. An exploratory operation was made last July, and it was discovered that he was suffering from a malignant form of cancerous growth.

Judge Bateson was closely identified with the development of Chisholm and was well known throughout the range. The funeral service was held from the M. E. church, where a large concourse of friends and relatives gathered to pay their last tribute of respect to the departed. He leaves a wife, five sons and daughters and many grandchildren.

BROWN'S BRONCHIAL TROCHES FOR COUGHS AND COLDS
Soothe the throat and stop a hacking cough. A safe and simple remedy. In boxes only.

ALD. DOYLE PRESIDENT

Youngest Presiding Officer in State is Given Gavel.

New Eveleth Council in Charge of Municipal Affairs.

Eveleth, Minn., Jan. 8.—(Special to The Herald.)—The following officers were elected for the coming two years by the new city council last night: President of the council M. J. Doyle; city attorney, T. P. Ferry; city clerk, Ed Skeel; superintendent of the water works, C. E. Vandell; assessor, J. J. Murnik; street commissioner, John Warn; city hall janitor, C. Wahlman. The election for chief of the fire department was postponed until the next meeting of the council. The same hold true of the fire wardenship.

Mayor Maxwell announced the appointment of Nick Kent as chief of the police.

The old council met for its last session and audited and placed on file the report of the city treasurer, W. J. Davey.

On taking his place as president, Alderman Doyle yas presented with a beautiful gavel by Judge Prince, who complimented him on being the youngest man holding a like office in the state. President Doyle responded in an equally happy manner.

City Treasurer Davey's report, among other things, was as follows:

F. F. COLVIN PRESIDENT

Of Biwabik Commercial Club, F. F. Vane, Secretary.

Biwabik, Minn., Jan. 8.—(Special to The Herald.)—At the annual meeting of the Biwabik Commercial club, the following officers were elected: President, F. F. Colvin; vice president, F. F. Vane; secretary, I. R. Gilpatrick; treasurer, H. G. Seeley; directors, H. G. Seeley, A. W. Bray, J. E. Riley, N. B. Shanks and William Carmichael.

Messrs. Colvin, Shanks and Koen were appointed a committee to wait upon the county commissioners and to urge an appropriation for the improvement of old Vermilion road south of town. The club will ask the village council to establish a free skating rink. It was also decided to send two delegates to the convention of Commercial clubs of the state to be held in St. Paul Jan. 16. President Colvin will make the appointment later in the week.

SUNDAY SCHOOL PROSPERS.

Increase in Membership and Good Financial Showing Made.

Chisholm, Minn., Jan. 8.—(Special to The Herald.)—The annual election of officers in the Myers Sunday school, at one of the Chisholm locations, took place Jan. 6. The report showed an increase in membership during the year from 45 to 75. The receipts were $107, with an expenditure of $91. The following officers were elected for the ensuing year: Superintendent, Capt. Harry Tallou; assistant superintendent, Mrs. Charles Strick; treasurer, Miss Maud Tallou; secretary, Ben Butler; chorister, R. Jones, Sr.; teachers, No. 1 Bible class, Mrs. Hoskins; class No. 2, Mrs. Strick; class No. 3, Mrs. Watson; class No. 4, Mrs. Jones; class No. 5, Miss Lizzie Strick; primary, Miss Tallou.

BALL AND INSTALLATION BY CHISHOLM K. OF P.

Chisholm, Minn., Jan. 8.—(Special to The Herald.)—The annual ball and installation of officers of the K. of P. lodge took place Monday evening in Circle hall. The exercises were public and were enjoyed by a large gathering of people. The new hall is one of the finest on the range, and the members are justly proud of it.

TWO TRAINS DAILY.

Coleraine, Minn., Jan. 8.—(Special to The Herald.)—Coleraine has two trains and two mails daily to and from Duluth on the D. M. & N., the second train having been put on Monday. The new train leaves here at 12:01 noon, connecting with the train from Hibbing. Returning it arrives here at 7:35 p. m.

SKI CLUB TOURNAMENT AT BOVEY JANUARY 26.

Bovey, Minn., Jan. 8.—(Special to The Herald.)—The Bovey Amateur Ski club turnament will be held on Sunday, Jan. 26, at the club's hill north of the Bovey school. The boys have a new scaffold and, having repaired their hill, expect to break all amateur records. This tournament will be restricted to Bovey riders only. The riders will be composed of three classes, A, B, and C., according to age, etc. There will be a collection solicited about the 10th to defray the expense of the tournament.

TRAPS BIG WOLF.

Eveleth, Minn., Jan. 8.—(Special to The Herald.)—Erick Johnson, a homesteader, located between here and Mountain Iron, has arrived in town with a forty-five-pound brush wolf he trapped.

The animal had evidently been sought by various hunters, but had eluded all save Johnson.

THAW'S ATTORNEYS SPRING SURPRISE

(Continued from page 1.)

first day, and their absence this year has been commonly noted.

Present Defense Is Insanity.

The defense in the present trial is insanity at the time Stanford White was killed. In making out this case it will require delicate handling to show Thaw so mentally deranged at that time as not to know the nature or quality of his act, and at the same time show that he is now mentally sound.

Drs. Maben, MacDonald and Flint stated that in their opinion Thaw is a paranaoic, whose case is incurable. It is undoubtedly the intention of Mr. Littleton, the new chief counsel for the defense, to interrogate and draw from these men the opinion that Thaw was also insane at the time of the homicide, and then to limit all testimony as to the defendant's mental condition to the immediate period of the tragedy. If successful in this the defense would force a trial of the case strictly on Thaw's mental condition in the summer of 1906.

This, in turn, would force District Attorney Jerome again to apply for a lunacy commission, and Thaw's attorneys are confident of his ability to successfully fight out his claim of present sanity before such a board.

Just what steps District Attorney Jerome will take to combat this unexpected move by the defense is not known.

The work of jury building went forward today, but progress was slow.

No Jury Before Next Week.

New York, Jan. 8.—Predictions were freely made at the beginning of this, the third day of the trial of Harry K. Thaw, for the killing of Stanford White, that a jury will not be secured before the middle or latter part of next week. There were but three sworn jurors in the box when court convened at 10:45 a. m., and they represented the net proceeds of the first two panels of 100 talesmen each. The third and last panel of the 300 originally summoned reported today and there was no thought that it would furnish all of the material needed to complete the twelve.

As a result the court ordered that 200 additional talesmen be summoned to report tomorrow and Friday. At the first trial some 370 talesmen were examined before a satisfactory jury was empanelled.

The jury box was filled late yesterday afternoon when the court took a recess until evening. It did not last long, however, when the court assembled.

Peremptorily challenging one after another of the conditional jurors, Attorney Jerome and Mr. Littleton, for the defense, emptied the box of all but three. These were accepted and sworn, and thus are finally accepted for the trial panel. They re-arranged their seats, and are:

No. 1—Charles E. Gremmeles, ship broker, foreman.
No. 2—Arthur R. Naething, baker.
No. 3—George W. Cary, dry goods.

By consent, Juror Roberts, who was No. 10 in the tentative list, was excused. District Attorney Jerome then challenged Jurors Hatchett, Goss, Welss and Frazier. The defense challenged Jurors Morewood, Sanford, Bouvier and Pitcher.

Thaw rose and faced the three accepted as they were sworn. It was decided to fill the nine vacant places before exercising any more challenges.

In addition to the trio who are oathbound, there were in the jury box at the close of the night sitting four tentative jurors, who are subject still to peremptory challenges by either side.

Talesmen Quickly Disposed Of.

The first batch of talesmen called to the witness chair were quickly disposed of, as every man had to fixed an opinion to serve as a fair juror, until John H. Holbert, an elderly man and president of a spring water company, was reached. Mr. Holbert said he had formed something of an opinion, but he was sure he could lay it aside. He was closely questioned by District Attorney Jerome and Mr. Littleton, and was finally accepted.

Phillip J. Goodhart, a stock broker, who was absent yesterday, when his name was called, appeared today and made his excuses. The fine of $250 imposed upon him was remitted by Justice Dowling.

Goodhart was then examined for juror and when he declared he held an opinion which could not be changed, he got a lecture from the court, ending with the order that his name be stricken from the special list and put upon the ordinary jury panel. Similar action has been taken in the cases of several other talesmen.

Ambrose Shea passed through all the disqualifying questions put to him by the opposing counsel, but was peremptorily challenged by the district attorney. The next half dozen talesmen were excused by consent for various causes.

John Entwitle, a builder, born in England, was accepted as a temporary juror. Mr. Entwitle said he had no prejudice against insanity as a defense.

It Does the Business.

Mr. E. E. Chamberlain, of Clinton, Maine, says of Bucklen's Arnica Salve: "It does the business; I have used it for piles and it cured them. Used it for chapped hands and it cured them. Applied it to an old sore and it healed it without leaving a scar behind." 25c at all drug stores.

COST OF COPPER

Under Calumet & Hecla Methods to be Explained in Court.

Grand Rapids, Mich., Jan. 8.—Judge Knappen, in the United States court, yesterday, issued an order directing Col. L. T. Livermore, James B. Cooper and Maurice B. Patch of the Calumet & Hecla Mining company to appear and submit to cross-examination on the subject of the cost of producing copper under Calumet & Hecla methods. The order is granted on motion of the Osceola company, and it is the first decisive order in the present case. James B. McNaughton is excused from further examination, his answers being held to be sufficient.

MANY WOLVES ARE KILLED

Eighteen Pelts Presented at Auditor's Office for Bounty.

Albert Kitto, a dealer in furs at Tower, Minn., brought thirteen wolf pelts to the county auditor's office yesterday afternoon, and received bounties aggregating $195. The wolves were all killed in or near the town of Breitung by Indians. Charles Goosegrease killed three of the wolves, John Sky killed three, William Burnside killed three, and Henry Wood killed four.

Another bunch of three pelts were brought in by Henry Barber of 2930 West Superior street. He killed the animals near Trout lake, where he has a homestead. Another homesteader brought in two pelts, swelling the total for the day to eighteen pelts.

DULUTH STATUE MAY BE BOUGHT

Captain Lewis Will Discuss Matter With Italian Sculptor.

When Capt. Ray T. Lewis, who leaves tonight accompanied by Mrs. Lewis, for a trip abroad, visits Florence, Italy, he will call upon Prof. G. Trentanove, the sculptor, and discuss with him the making of a statue of Jean DuLuth, the explorer, after whom the city of Duluth is named.

Capt. Lewis carries with him a letter of introduction to the sculptor from James Bardon of Superior. Mr. Bardon and a number of others at the Head of the Lakes are agitating the matter of the erection of a statue of Jean DuLuth, and upon the return of Capt. Lewis, the proposition will be pushed.

Professor Trentanove has made some famous statues, and his work is well known in this country. He designed the statue of Pere Marquettte, and the soldiers' and sailors' monuments at Oshkosh.

COST OF DYING IS ON INCREASE

Funeral Directors Boost Charges for Burying County's Paupers.

If the cost of living has gone up, the cost of dying has increased proportionately.

At least the expense of burial is more than it used to be. Yesterday the board of county commissioners received notice from the Northern Minnesota Funeral Directors' association that the charge for burying county charges in the future would be $25, instead of the $17.50 which previously prevailed.

The undertakers declare that the additional cost of materials, and their general expenses, has made this boost necessary. They say that coffins, and their equipment, have gone up considerably in price.

GRAIN CHARGES ARE RAISED

Wisconsin Commission Charges More for Weighing and Inspecting.

The fact that the new Wisconsin grain inspection commission has already raised the scale of prices on weighing and inspecting grain, has caused no little unfavorable comment among grain shippers.

The Minnesota scale calls for a charge of 30 cents a car for weighing grain, and 20 cents for inspection. The Minnesota inspection has a standing in all the markets of the world, and the charge is considered reasonable and just. The new Wisconsin commission, however, is charging 40 cents a car for weighing and 30 cents a car for inspecting the grain.

The commission is doubtless trying to make a showing during the first few months it is in existence, and report as small a deficit as possible. During the months of January, February, March and April the business of grain inspecting is not very active, and there is not enough work to enable the commission to meet expenses. By raising the price of weighing and inspecting grain, the commission may be able, however, to cut down its deficit for that period and make a fairly favorable showing.

F. R. LESLIE SHOT THROUGH FOOT

Former Duluthian Suffers Painful Accident on Chicago Train.

Frank R. Leslie, president of the Zenith Paper company, accidentally shot and severely injured his foot Monday morning while on a train just pulling into Chicago from St. Paul.

Mr. Leslie had been to St. Paul on business and was on his way back to Chicago, where he and his family have lately taken up their residence in Hyde Park. He was packing up his bag preparatory to leaving the train, when a .38 Colts revolver, which he had in the bag, slipped from the chair, where he had laid it in packing. Mr. Leslie tried to catch it before it hit the floor, but was not quick enough. In striking the floor the gun must have lit on the hammer, for it discharged, the ball glancing across his foot, breaking two toes and some bones in the instep.

When the train arrived in Chicago Mr. Leslie was taken to the Grand Pacific hotel, being unable to continue to his home in Hyde Park. Medical attention was obtained. The doctors say that although the injury is not serious enough to lame Mr. Leslie permanently, it will lay him up for a month or more.

NOT GUILTY, HEINZE PLEA

(Continued from Page 1.)

tainly was no wilful intent within the statute to over-certify any check. On the contrary, there was far more than the amount of the checks standing to the credit of the account of the drawers of the checks when they were certified."

Specific Charges.

The indictments specifically charge that Heinze, while president of the Mercantile National bank, over-certified fifteen checks. That is, that he guaranteed by the bank signature that the sums indicated in the checks were held by the institution to the credit of the drawer. To over-certify bank paper is, under the federal statute, an offense punishable by imprisonment of not less than five years, and not more than ten years.

F. Augustus Heinze was born in Brooklyn, about forty years ago, and was graduated with honors from the Columbia School of Mines. He went West, where he made a success of working out abandoned mines. He also went into British Columbia, where he obtained land and timber rights from the Canadian government. Later he returned to Montana and developed the famous Minnie Healy mine, after Marcus Daly had abandoned it as worthless. He also engaged with the Amalgamated Copper company in long litigation over claims which were finally settled.

The firm of Otto Heinze & Co. is made up of Otto Heinze and Arthur P. Heinze, two brothers of F. Augusta Heinze, and one or two other members.

LOST THEIR BABY.

Odd Experience of Couple Which Brought Out the Sheriff.

Fort Dodge, Iowa, Jan. 8.—"Is this the sheriff's office?" "Yes."

"Well this is Barnum, and the devil is to pay out here. A couple in a buggy just drove through here at top speed and when about a half mile out of town threw something out of the buggy. It was picked up soon after and found to be a 4-months-old baby. It lit in some soft snow when it fell and wasn't hurt any. The couple drove on as fast as they could."

Further investigation found the town in a state of great excitement, and a searching party was being organized to overtake the couple when a man and woman drove into town very much excited over something. It proved to be the parents of the baby who were overjoyed at finding it alive and uninjured. They explained that while they were driving fast in a hurry to get home the buggy struck a bump in the road and the baby rolled out without their knowing it.

As the days are growing shorter, don't neglect your eyes any longer.

We test eyes in the very best manner and grind our own lenses. Come in mornings if possible and avoid afternoon rush.

Why I Lost My Job.

Reasons Why Thousands Like Me Cannot Satisfy Their Employers.

"I believe my fate is not unlike that of thousands of other workers who daily lose their places for reasons they do not know, and probably would not believe. When their last pay envelope comes along, it is usually "Your services no longer required." If the truth were known, the reason for their unceremonious removal would probably be that their usefulness was destroyed because of some mental worry, bodily ailment or general indisposition. These things, as we all know, are the most fruitful causes of failure in all walks of life. The battle of Waterloo was lost because of a headache. In this quick age our minds must be clear, rapid, active, and free from outside influence or worry, or else we go down to failure with the throng of "floaters" who go from one place of employment to another, giving no satisfaction to others or to themselves, constantly growing older and less useful, with no ambition, no will power, and no hope.

Every man requires from every other man the best that is in him. But no man can use or get the best that is in himself until he is first free from all fretful indispositions and worries.

That was my trouble. I was full of troubles. That's why I lost my job. My stomach in the first place was always out of order, and I was worrying about it and my mind grew cloudy, and slow. I made mistakes, and grew grouchy. That was the end.

There are thousands like me, going about with "quick lunch" faces, dyspeptic manners, and repulsive atmospheres. No employer wants such men's services.

Take my advice. A healthy stomach is half the battle, for it keeps your mind clear, and your face rosy. I have a healthy stomach now and hold a good position, and my employer is satisfied, and so am I.

I started in to take Stuart's Dyspepsia Tablets which I was told were good for the worst cases of indigestion and dyspepsia. The first two tablets made a wonderful difference in my condition.

One ingredient of Stuart's Dyspepsia Tablets digests 3,000 grains of food. The stomach doesn't have to work at all. The Tablets do all the work, no matter how heavy your meal.

Stuart's Dyspepsia Tablets cure brash, eructations, burning sensations, bloat, irritations, loss of appetite, nausea, heartburn, lack of energy, loss of memory, and dyspepsia and indigestion in their very worst forms.

No other little tablets in the world can do so much. You should carry them around with you wherever you go and take them regularly after meals. Then you will realize what it is to be freed from stomach torment, and have a clear mind, a quick memory, a happy disposition, comfort and rest. Get Stuart's Dyspepsia Tablets at any drug store for 50 cents a package.

Send us your name and address today and we will at once send you by mail a sample package, free. Address F. A. Stuart Co., 150 Stuart Building, Marshall, Mich.

TAFT ENDORSED.

Guthrie, Okla., Jan. 8.—W. H. Taft was unanimously endorsed for president by the Republican members of the legislature, in joint caucus here, last night. The caucus asked the state committee to declare for an instructed Taft delegation to the national convention from Oklahoma.

SPORTS OF THE DAY

SCORES IN TWO HEATS

Belle Patch Comes Up Strong and Wins Free-for-All.

Kitty Birchwood and Luxon Trot Two Fast Heats on Ice.

Belle Patch, Dr. John McKay's big bay mare showed her class yesterday afternoon in the races on the ice track at the foot of Twentieth avenue west when, after finishing third in the first two heats, she recovered and led the field in the two final heats, winning the free-for-all nace for the Henderson cup. Tomango, winner of the free-for-all New Year's afternoon, showed consistent form, winning the second heat and landing second in the others.

There was a large crowd out for the races, which were usually well managed. The weather was fine and the track in fairly good condition. Every heat was pulled off in good time and without a hitch. The exhibition was all that could be desired for speed and close running for places and the promoters of racing on the ice are well pleased with the outlook.

The first heat of the free-for-all pace went to Captain C., with Ole Boy and Tomango in second place, Belle Patch, third, and Kitty D. bringing up the rear. In the heat, Ole Boy showed good form, running close to Captain C., but he broke a small blood-vessel in his head and had to be drawn. In the second heat Captain C got away well, but was overhauled by Tomango. In the third, Belle Patch raced to the front and won without a struggle, Tomango finishing second, Kitty D, third, and Captain C. in the rear. The fourth heat was a repetition of the third.

Kitty Birchwood and Luxon were the only entries for the free-for-all trot. They went two fast heats, both of which were won by Kitty Birchwood.

The summary follows:

FREE-FOR-ALL PACE.

Belle Patch, b. m. (McKay)	3	3	1
Tomango, b. g. (Smith)	2	1	2
Captain C, gr. g (McCullough	1	4	4
Kitty D, b. m. (Duplaise)	5	2	3
Ole Boy, b. g. (Mattson)	4	dr	

Time—1:12, 1:13, 1:10½, 1:11.

FREE-FOR-ALL TROT.

Kitty Birchwood, b. m. (Cannon)	1	1
Luxon, blk. g. (Peterson)	2	2

Y. M. C. A. LEAGUE SEASON IS ON

Horak's Class and Night Class Teams Win First Games.

Last night at the Y. M. C. A. gymnasium, Mapp's night class defeated Dr. Jones' 5:15 class by a score of 18 to 17 in the second game of the Y. M. C. A. Basketball league series.

The game was close and exciting all the way through. The first half ended with the night class in the lead of a 7 to 6 score. In the second half, the play warmed up, and close checking and frequent shooting for baskets kept the small crowd on edge. Each side scored 11 points and the game ended with the score of 18 to 17.

Denny and Deighton, the centers, starred in the forward work and throwing baskets. Both sets of guards played a good game, and the entire play was up to a high standard. The teams lined up as follows:

Night Class.	Position.	5:15 Class.
George Johnson	guard	Jones
Gilbert Johnson	guard	Potts
Denney	center	Deighton
Honiman	forward	Sorenson
Mapp	forward	Anderson

Next Saturday night the noon class will meet Dr. Jones' 5:15 class and next Tuesday night, Joe Horak's 5:15 class will meet the night class. Last Saturday night, Joe Horak's 5:15 class team defeated the noon class and next Tuesday night's game will give somebody a lead in the race for honors.

Y. M. C. A. basketball enthusiasts are taking great interest in the game tomorrow night at Superior when the Y. M. C. A. team will meet the Blaine high school. The Blaine boys are out this year for the high school championship of Wisconsin and the championship of the Head of the Lakes as well. The team is said to be unusually strong, but the Y. M. C. A. five this year is one of the strongest that has yet represented the association and will give a good account of itself.

FUNERAL OF HANLAN.

People of Toronto Do Honor to the Dead Oarsman.

Toronto, Ont., Jan. 8.—Edward Hanlan, former champion oarsman of the world, was buried yesterday afternoon, the city according him a public funeral. In the morning the remains lay in state in St. Andrew's church. On the brow of the dead champion was a laurel wreath, placed there by his two sons, and banked about the platform were many floral tributes, among them being a magnificent wreath from the city.

From 11:15 until 1:30 thousands thronged the church for a last glance at the dead athlete.

WALCOTT STILL FIGHTS.

Jimmy Gardner Gets Decision From Black at Boston.

Boston, Jan. 8.—Joe Walcott of Boston was easily defeated by Jimmy Gardner of Lowell, in a twelve-round bout before the members of the new Armory Athletic association here. Both men weighed 142 pounds.

PENN-MICHIGAN RENEWAL.

Eastern and Western Universities Sign for Two Games.

Philadelphia, Pa., Jan. 8.—The University of Pennsylvania and the University of Michigan yesterday renewed their two-year agreement under which they will play two games of football, one this year and one in 1909.

HARRY WEBB SENDS DEFI

Former Duluth Skater is Champion of North Dakota.

Would Meet Alroth, Rankin, Smith or Anyone Else.

Harry Webb wants to race again. He is covetous of the honors of Carl Alroth, who is now champion of Duluth. Charley Rankin and Ed Smith, and from thet arid areas of North Dakota comes a doleful plaint for recognition.

Harry isn't altogether forgotten in Duluth. Once there was a time when he was one of the king pins, and it wasn't so very long ago either. As late as last winter he was flying around here, although he didn't do any thing in the racing line, but the season before he was as busy as a colored gentleman with a line of "nexts" for his shining chair.

Harry's present abode is Cavalier, N. D. How he got there, what he's doing there, and what Cavalier is doing to Harry aren't mentioned in the letter to a Duluth friend, which contains a sweeping challenge to the near-champions of the steel runners.

Already Webb has won fame. Without regard for the feelings of any speeding skater in the great commonwealth of North Dakota, he signs himself champion of that state, and thinks the title might also be extended to Duluth.

Webb is a pretty fast boy on the runners. Two years ago he made a hit down around the Copper country, meeting the local amateurs. In a tournament there he was defeated in the mile event by Norval Baptie, the professional champion, and Charley Rankin trailed Webb by a good margin.

Just what is to be done in the way of speed skating on ice in Duluth this year is a mystery. It is possible the Athletic park people will get up a tournament later in the winter, when all will be invited to get in the enclosure and fight it out for the prizes and the honors.

WAHLSTROM IS ALL CONFIDENCE

Freak Wrestling Match Scheduled for Next Saturday Night.

Final arrangements have been made for the handicap wrestling match between Sten Wahlstrom, the West end giant, and Andrew Danielson, also of the West end. The men will meet at Columbia hall, Twentieth avenue west and Superior street, next Saturday night. The match is to be catch-as-catch-can, pin falls, Wahlstrom to throw Danielson three times in an hour.

The bout is attracting considerable attention in wrestling circles on account of its incongruous nature. Wahlstrom weighs 332 pounds, stripped, while Danielson will tip the beam at about 168. Wahlstrom's ability has never been proven in Duluth, while Danielson is well up in the list of local heavyweights. If Wahlstrom can throw Danielson three times in an hour, he must show more than ordinary wrestling ability, and Danielson's friends doubt that he can do it. The match is a freak affair and will draw a good crowd, who are anxious to see if the big fellow can really wrestle.

Wahlstrom is but 23 years of age and is a giant in stature. He appears to be a little too fat to wrestle, but says his superfluous flesh doesn't bother him at all on the mat. He has been working out for some months with Martin Johnson, had done some wrestlin gin Sweden, and knows a good deal of the game. He isn't in the best of condition, but thinks he is good enough to take care of any of the heavyweights in Duluth. He isn't worrying much about the heavy handicap under which he is to meet the West end man, but Danielson is confident. The match is for a side bet of $25 and the men will split the gate receipts.

HOPPE IN RUNAWAY.

Young Billiardist Gets Good Lead in 2,000 Point Match.

Phildelphia, Pa., Jan. 8.—William Hoppe secured a big lead here yesterday in the 2,000-point 18.2 billiard match with Albert G. Cutler of Boston. At the conclusion of the third game in the match Hoppe had a total of 1,200 points to Cutler's 798.

In the afternoon game Hoppe, whose previous score was 242, succeeded in making 558 points to complete his 800, while Cutler made but 257. Last night Hoppe made his 400 points to Cutler's 141.

Grippe!

There is said to be 50,000 cases in New York.

Scott's Emulsion

will strengthen and fortify you against the Grippe, and if you have had it, it will build you up quicker than any other known remedy.

All Druggists

HALPIN GOES BEFORE BOARD

Manager of the Olympic Team Gives Testimony Against Ewry.

New York, Jan. 8.—Matthew P. Halpin, who is to manage the American team at the Olympic games in London next summer, and against whom a storm of protest has been raised, appeared before a committee of the Amateur Athletic union last night to substantiate his charges against Ray Ewry, the jumper, whom Halpin accused of participating in unsanctioned athletic meetings. This Ewry has denied.

Halpin forced Ewry to admit last night that he had appeared at meetings without taking the trouble to find out whether or not they had been authorized by the union, but declared it was only in exhibitions for branches of the Young Men's Christian association. He produced cards to show that he had participated in a number of such exhibitions and seven or eight of them, it is said, were not sanctioned.

Chairman Hughes of the registration committee of the union, stated, however, that he was in a measure responsible for this, as he had made a statement that Ewry could compete in these meetings. Halpin stated that Ewry had given an exhibition at a circus at Atlantic City and had received prizes. Ewry stated that he had appeared under the impression that the permission of the union had been obtained, but denied that he had received any prizes. The committee reserved its decision on the charges.

WHAT CAUSES HEADACHE

From October to May? Colds are the most frequent cause of Headache. LAXATIVE BROMO QUININE removes cause. E. W. Grove on box 25c

SLANDER SUIT IS DISMISSED

Evidence Against Pastor Not Sufficient to Warrant Action.

Holding that the statement alleged in the complaint and the words attributed by witnesses to Rev. J. A. McGaughey were too much at variance for the case to hold, Judge Windom, in municipal court, yesterday afternoon, dismissed the damage suit brought by A. J. McGee to recover $500 from Rev. McGaughey, pastor of the Presbyterian church of Two Harbors, for alleged slanderous statements in the course of a sermon. The motion to dismiss the case was made oy Charles Baldwin, attorney for Mr. McGaughey, after the plaintiff had rested his case.

Mr. McGee, the plaintiff in the suit, was a member of a jury in a trial at Two Harbors, in which a baseball player was charged with playing ball on Sunday. The complaint charged that the Sunday following the trial, Rev. McGaughey said, in the course of his sermon: "The twelve men on the baseball jury raised their right hands before God and perjured themselves." Two witnesses were examined. They were asked to give the exact words of the minister and neither put the word "baseball" in the statement. Mr. McGaughehy had referred to three juries in his sermon, and Judge Windom held that the variance between the alleged statement and the witnesses' testimony gave cause for dismissing the suit.

M'MANUS ARGUES FOR DISMISSAL

Defendant in Clark Case Claims No Cause of Action.

A motion for a dismissal of the action brought by Fred B. Clark against A. E. McManus, to recover $2,000 on a stock deal, was argued before Judge Cant this morning.

The trial of the case began yesterday. Mr. Clark, on the witness stand, admitted that he was anxious to get some of the stock of the Apache Development company, and frequently visited the office of Mr. McManus, the latter being one of the parties interested in the development company. Mr. Clark claimed that his visits were of a purely social nature. Mr. McManus claims that the visits were made by Mr. Clark to importune him, McManus, for some of the stock. The defendant claims that he finally got some stock from John Pemberthy and gave it to Mr. Clark, the latter paying $2,000 for it. The defense maintains Mr. Clark got and paid for just what he wanted.

TOM JOHNSON MUST PAY $20,000 COAL BILL.

Cincinnati, Ohio, Jan. 8.—Mayor Tom Johnson of Cleveland must Pay a $20,000 coal bill to the Charles D. Norton company, coal dealers of Philadelphia, according to a decision by the United States circuit court of appeals handed down yesterday. The company supplied the Philadelphia & Lehigh Valley Traction company coal, and Johnson guaranteed the payment of the traction company's bills up to $20,000. The road was later thrown into the hands of a receiver, and the Norton Coal company sued Johnson for the $20,000. Johnson objected, claiming the neglect of the Norton company to collect the bill from the traction company released him from liability on the guarantee, inasmuch as the company did not exhaust its resources against the original debtor. The federal court at Cleveland decided against him and he appealed. The circuit court of appeals upholds the Cleveland court.

PROVISIONS OF MEASURE

Introduced by Senator Aldrich for Emergency Currency.

Provides That Varied Bonds May be Used as Security.

Washington, Jan. 8.—Following are the first three sections of the currency bill introduced by Senator Aldrich in the senate, Tuesday.

"That any national banking association which has circulation notes outstanding, secured by the deposit of United States bonds to an amount of not less than 50 per cent of its capital stock, and which has a surplus of not less than 20 per cent, may make application to the comptroller of the currency for authority to issue additional circuating notes to be secured by the deposit of bonds other than bonds of the United States.

"The comptroller of the currency, if in his judgment business conditions demands such additional circulation and the condition of the circulation making the application warrants the issue, may approve such application, and shall determine the time of issue and shall fix the amount, within the limitations hereinafter imposed, of such additional circulating notes to be issued. Whenever after receiving notice of such deposit with the treasurer or any assistant treasurer of the United States such of the bonds described in section two of this act as shall be approved in character and amount by the treasurer of the United States and the secretary of the treasury, shall be entitled to receive, upon the order of the comptroller of the currency, circulating notes in black, registered and countersigned as provided by law, equal in amount to 75 per centum of the market value, as fixed by the treasurer of the United States of the bonds so deposited, such additional notes of national banking associations heretofore issued and secured by a deposit of United States bonds, and shall be subject to all the provisions of law affecting such notes.

Safeguarding Provisions.

"Provided, that the amount of such additional circulating notes, delivered at any time to any association shall not in any case exceed the limit fixed for such issue by the comptroller of the currency; and provided further, that the total amounts of circulating notes outstanding of any national banking association secured by United States bonds or otherwise, shall not at any time exceed the amount of its unimpaired capital and surplus.

"And provided further, that there shall not be outstanding at any time circulating notes issued under the provisions of this act to an amount of more than $250,000,000. And provided, further, that all acts and orders of the comptroller of the currency and the treasurer of the United States authorized by this section shall have the approval of the secretary of the treasury.

To Accept State or Municipal Bonds.

"Section 2.—That the treasurer of the United States, with the approval of the secretary of the treasury, may accept as security for the additional circulating notes provided for in the preceding section, bonds or other interest-bearing obligations of any state of the United States or any legally authorized bonds issued for municipal purposes by any city or county in the United States, which has been in existence as a city or county for a period of fifteen years, and which for a period of ten years previous to such deposit has not defaulted in the payment of any part of either principal or interest of any funded debt authorized to be contracted by it, and which has at such date more than 20,000 inhabitants as established by the last census, and whose net indebtedness shall not exceed 10 per centum of the valuation of the taxable property therein, to be ascertained by the last preceding valuation of property for the assessment of taxes; or the first mortgage bonds of any railway company, not including street railway bonds, which has paid dividends of not less than 4 per centum per annum regularly and continuously on its entire capital stock for a period of not less than five years previous to the deposit of the bonds. The treasurer of the United States, with the approval of the secretary of the treasury, may accept, for the purpose of this act, securities therein enumerated in such proportions as he may from time to time determine, and he may at any time require the deposit of additional securities or require any association to change the character of the security al-

Treasurer Will Hold Bonds.

"Section 3.—That all bonds deposited to secure circulating notes in accordance with the terms of this act shall be transferred to the treasurer of the United States in trust for the association depositing them, with a memorandum to that effect, attached to or written or printed on each bond and signed by the cashier or some other officer of the association making the deposit. A receipt shall be given to the association by the comptroller of the currency, or by a clerk authorized by him for that purpose, stating that such bond is held in trust for the association on whose behalf the transfer is made, and as security for the redemption and payment of any circulating notes that have been or may be delivered to such association. No assignment or transfer of any such bond by the treasurer shall be deemed valid unless countersigned by the comptrolled of the currency. The provisions of sections 5163, 5164, 5165, 5166 and 5167 of the revised statutes respecting United States bonds deposited to secure circulating notes shall, except as hereln modified, be applicable to all bonds deposited under the terms of this act."

The remaining portions of the bill consist of additions to the existing law. These additions provide for a tax on the average amount of such notes of a bank's circulation as are based upon the deposit of bonds other than bonds of the United States, provision being made in this section for a tax on notes secured by Panama bonds amounting to one-fourth of 1 per cent each half year on notes secured by 2 per cent bonds. Associations having on deposit bonds bearing interest at a higher rate than 2 per cent per annum are required to pay a tax of 1½ per cent each half year on notes thus secured.

Monthly Tax Imposed.

A monthly tax of 1½ per cent is imposed upon the average amount of notes issued on bonds other than bonds of the United States and monthly returns, under oath, are required of an association to show the average monthly amount of notes so secured in circulation.

Exempting United States bonds called for redemption by the secretary of the treasury it is permitted by the bill that national banking associations may withdraw their bonds held for circulation security by the deposit of lawful money to a proportionate amount.

Provision is made for the engraving of suitable notes in convenient denominations. Thees notes are to state upon their face that they will be redeemed upon presentation at the department and they are required also to express upon their face the promise of the association receiving them to pay on demand circulating notes in blank to a certain amount; may upon request be prepared by the government and placed for an association in a convenient sub-treasury and be held for that association subject to the order of the comptroller of the currency.

A section of the bill provides that "circulating notes of national banking associations when presented to the treasury for redemption as provided in Section 3 of the act approved June 20, 1874, shall be redeemed in lawful money of the United States."

The bill also requires: "That national banking associations located outside of reserve or central cities, which are now required by law to keep a reserve equal to 15 per centum of their deposit liabilities shall hereafter hold at all times at least two-thirds of such reserve in lawful money."

Warning to Parents!

Do you realize the danger that menaces your children when they play in the streets on which there are car tracks?

Do you realize the danger they court by sliding down the steep avenues and across the car tracks along which cars are running at frequent intervals?

Do you realize there is a city ordinance which expressly forbids that practice because of its danger?

Do you caution your children often enough about the danger?

Are you sure YOUR CHILDREN are not daily exposing themselves to the danger of a collision with a street car—in fact jeopardizing their lives?

Remember that children become so engrossed with their play that they do not, sometimes, note approaching cars and run heedlessly in front of them.

ASSIST US IN THE PREVENTION OF ACCIDENTS

Duluth Street Railway Co.

INSURANCE NEWS

Insurance Commissioner Hartigan has issued the following bulletin from the office of the department at St. Paul:

The Fidelity Mutual Aid Association of San Francisco, Cal., has reinsured the the National Casualty Company of Detroit, Mich., and has withdrawn from this state. The reinsurance became effective Oct. 24, 1907.

• • •

The attorney general has rendered an opinion to this department to the effect that co-partnerships or corporations may not be licensed as insurance agents or brokers. Licenses will be issued to individuals only.

• • •

An examination by this department of the Citizens' Fire Association of Mankato, shows the following condition: Total admitted assets, $20,782.69; total liabilities, $23,419.84; deficit, $2,626.15. The deficit arises from the fact that premiums more than three months due are not allowed as an asset. The amount of these premiums outstanding was $4,590. The unusual size of this amount is partly explained by the existing financial stringency. It seems quite probable that in its annual statement the company will show a surplus.

• • •

The following companies withdrew from the state Dec. 31, 1907: The United States Life Insurance Company of New York, the Michigan Mutual Life Insurance Company of Detroit, Mich., and the Des Moines Life Insurance Company of Des Moines, Iowa.

• • •

An examination by this department of the Consolidated Fire & Marine Insurance Company of Albert Lea, Minn., shows the following condition: Total admitted assets, except capital, $243,841.23; total liabilities, except capital, $114,443.72; capital paid in cash, $128,980; surplus over all liabilities, $471.51; surplus as regards policyholders, $129,397.51. The report states that the company is prompt in its adjustment and payment of losses.

• • •

The National Mutual Fire Insurance Company of Omaha, Neb., which was refused a license by this department at the beginning of 1907, has just gone into the hands of a receiver.

• • •

Laws enacted by the Minnesota legislature of 1907, becoming effective on Jan. 1, 1908, require that:

Life insurance policies must contain the entire contract, and no inducement of any kind may be offered with the policy.

No campany may issue a deferded dividend contract.

Life insurance companies must apportion accumulations to existing policies by classes.

No form of life insurance policy may be issued in this state that has not been approved by the insurance department.

The above laws do not apply to assessment life companies, of which there are still a few in the state.

• • •

Commissioner Rittenhouse of Colorado expresses so well the policy concerning unauthorized companies, constantly urged by this department, that we quote from his bulletin as follows:

"In order to get the full protection of the insurance laws, of the insurance department and of the courts, the people of this state should do no business with companies that are not licensed to do business in the state."

Every agent of any company organized outside of the state has a license from the insurance department, and every prospective policyholder should insist upon seeing it before paying any money or signing any contract.

Any interested person may learn the standing of any domestic or foreign company at the cost of a 1-cent postal card inquiry addressed to this department.

SHOE COMPANY MEN AT DINNER

Northern Officials and Salesmen Gather at a Spread.

The Northern Shoe company, which recently celebrated its removal to a fine new and up-to-date building, had another celebration last evening at the Commercial club, when the officials and salesmen were its guests at a dinner.

The past year has been a good one and the shoe company workers got together to review it, to discuss business in general, and to make plans for the coming year's business campaign. The salesmen are all in the city now and the management of the company thought it a good time to get the staff together.

L. D. Stickles treasurer and general manager of the company, presided as toastmaster, and short talks were given by O. C. Hartman, vice president of the company, G. L. Hargraves, secretary and buyer, F. E. Church, credit man, Supt. McMahon and a number of the salesmen.

E. L. Millar of the Duluth Trade News and B. P. Neff, secretary and sales manager of F. A. Patrick & Co., were guests at the dinner, and they responded to toasts. Mr. Millar spoke on "Duluth as a Business Center" and Mr. Neff's subject was "The Salesman and His Relations to the House."

Regrets were received from A. W. Hartman, president of the company, whose illness prevented him from attending last evening's festivities.

THREE END LIVES.

Men Tired of Living, Commit Suicide in Various Ways.

Defiance, Ohio, Jan. 8.—Despondent because of ill health and financial difficulties, it is said, M. A. Horn, 48 years old, a merchant, councilman, bank director and stockholder in local manufacturing concerns, yesterday leaped into the Maumee river and was drowned.

Cleveland, Ohio, Jan. 8.—Harry Gordon, formerly president of the Tippecanoe club, committed suicide last night by shooting himself in the head after swallowing morphine. Ill health and despondency over financial matters are said to have been the cause.

Norfolk, Va., Jan. 8—G. W. R. Wilkins, general manager of the Virginia club, a fashionable club of this city, committed suicide here last night. President J. L. Hubbard of the club, while admitting that an expert accountant is auditing Mr. Wilkins' books, declares he knows of no irregularity.

SCROFULA AN INHERITANCE OF DISEASE AND SUFFERING

No truth is more forcibly manifested in physical life than the old saying "like begets like;" for just as the offspring of healthy ancestry are blessed with pure, rich blood, insuring health and strength, so the children of blood tainted parentage inherit a polluted circulation to burden their existence with disease and suffering. Swollen glands about the neck, brittle bones, weak eyes, pale, waxy complexions, running sores and ulcers and general poor health, are the usual ways in which Scrofula is manifested. In some cases the blood is so filled with the scrofulous germs and tubercular matter that from birth life is made miserable with suffering. Others who inherit the disease succeed in holding the trouble in check during young, vigorous life, but when the system has begun to weaken and lose its natural vitality, and especially after a spell of sickness, the ravages of the disease will commence, and in a great many cases terminate in Consumption. S. S. S. is the very best treatment for Scrofula. It renovates the entire circulation and drives out the scrofulous and tubercular deposits. S. S. S. is the greatest of all blood purifiers, and it not only goes to the very bottom of the trouble and removes the cause and cures the disease, but it supplies the weak, anaemic blood with the healthful properties it is in need of. S. S. S. is made entirely of healing, cleansing roots, herbs and barks, and is an absolutely safe remedy for young or old. Book on the blood and any medical advice about Scrofula given free of charge.

TRAPPERS FORTUNATE

Fur Buyers Say They Are Meeting With Success.

D. L. Hawkins Finds Many Homesteaders in the Business.

D. L. Hawkins, a Minneapolis fur buyer, passed through the city yesterday, returning home from a trip through the Northern Minnesota forests. He started in at the Big Fork river, and wound up at Tower, traveling most of the distance by dog team. Mr. Hawkins bought up quite a bunch of pelts, and found the trappers enjoying a very successful season.

"The fact that there is not much snow in the woods is of assistance to the trappers," he said. "They can carry on operations more easily, and with less loss than if the snow were two or three feet deep. When there is a snow storm every few days, as is the case some seasons, the traps become quickly buried. Most of the men in the business are meeting with fair success through Northern Minnesota, and some of them will make good stakes before the season is ended.

"It is not so easy to pick up good furs cheap as it was a few years ago. More buyers are in the field, and the greater the competition the more one has to pay for the raw product. I have always made it a practice to pay a fair price, but others were not so scrupulous, and in the old days they treated the Indians shamefully, often buying a $10 pelt for perhaps a dollar, or giving something in exchange of less value than a dollar. The Indians and white men alike are now pretty well educated up to the market price on furs, and there is no opportunity to cheat, even if one wants to.

"Quite a number of Indians are engaged in trapping through the northern part of the state. While there are numerous professional trappers, there are also many amateurs, who live on homesteads and trap a little as a side line. They pick up enough money in this manner to carry them through the summer. One advantage about the business is that living expenses are next to nothing, especially with the professional, who moves about from place to place. He carries with him only the actual necessities of life, such as flour, corn meal, salt and coffee. All his meat he shoots himself. The simple fare, and being constantly out of doors, keeps him in perfect health, and it really isn't such a bad sort of a life as one might suppose.

"While there are districts in Northern Minnesota where trapping is still pretty good, it will not be many years before fur-bearing animals are so scarce as to make trapping decidedly unprofitable, except in the cases of homesteaders, who, as I say, do it as a side line."

WERE TOWED BY BIG SEA LION

Thrilling Experience of Italian Fishermen at San Francisco.

San Francisco, Jan. 8.—The Italian fishermen of San Francisco sometimes have very thrilling experiences and narrow escapes from the monsters of the deep in following their vocation. By monsters of the deep are meant, principally, whales, sharks and sea lions. Very recently two Italian fishermen had an experience with a monster sea lion which reads more like a "blood and thunder" story than actual fact.

Dragged out past leering harbor lights to sea, Nicolai Stotezo and Guiseppi Cassonelli fought desperately for several hours in the clutches of an unknown terror while out fishing recently. Despairing of overcoming a power they felt but could not see, they were about to give up, when a strange deliverance came to them. The tide turned from ebb to flow, and obeying some unknown law, or freak of fancy, the terrifying thing which had been gripping their net and dragging them to destruction, turned with it and towed them straight back through the shifting sea mist to shore and safety.

Had to Be Shot.

The early morning's sun was yellowing the fishermen's big bight near the old Meiggs wharf, when a monster that was not a myth by any means was slowly and with great efforts drawn in with the net. Cassonelli, Stotezo and the amazed knot of Italian fishermen they had summoned to assist them, suddenly saw a large sea lion, which measured nearly fifteen feet in length, snorting, growling and struggling desperately, enmeshed in hundreds of feet of the strong netting. The only way to secure such a savage and powerful creature was to shoot it, and this was done. When finally drawn ashore it was found that the lion weighed about 800 pounds.

It was about midnight when Cassonelli and Stotezo put out in their sail launch bound for Lime Point to begin fishing for rock cod and sea bass. At the point they let down their net and had just begun to fill their pipes, when suddenly their boat began to rock violently. Both thought that they had caught a shark, and they began with all haste to pull in the long net, shaking it vigorously as they did so.

Then the unseen creature in the net began straining until the lines tore through their hands. The prow of the boat was almost submerged, and for a time Cassonelli and his companion feared they would be dragged under water.

Towed Out to Sea.

Suddenly the lines became slack. The thing enmeshed was coming toward the surface. They prayed that it would free itself and so escape; but they were sorely disappointed. The lines remained slack for only a few seconds, and then they found that they were being towed rapidly out toward the open sea.

At first the boat moved slowly, but in the course of a few minutes it was moving at the rate of ten miles an hour. The kedge anchor was as good as useless. Old Fort Point was passed, and later the light on Mile Rock was twinkling astern. Then both men began to shout wildly for help. Nets are valuable things that fishermen cannot well afford to throw away, and for this reason they did not cut it loose from their boat.

Vainly they endeavored to row in the opposite direction, but found that useless. They could not even slacken the speed of their craft. Out of the Heads they thought that the wind might aid them, and so set the sails so that they might turn around as they moved forward; but that did them no good whatever. Finally, when they thought they would never again reach the shore, the tide came to their relief.

The as yet unseen monster evidently concluded that dragging the heavy boat against the strong tide was no easy task, so it gradually worked around and started back, to the inexpressible joy of the two fishermen. They managed to steer the craft to the "Fisherman's Wharf," where the sea lion revealed itself and met its fate.

COMB SET ON FIRE

By Stove Heat in Church, Burns Woman Worshiper.

Burlington, Wis., Jan. 8—The ignition of a celluloid comb from the heat of a nearby stove set on fire the hair of Mrs. William Runzler, while she was in church, and she was severely burned before the flames were extinguished. Mrs. Runzler was attending services at St. John's Lutheran church, and sat near the stove. In an instant her hair was a mass of flames. The sight nearly created a panic among the worshipers, but cooler heads restrained the audience and put out the fire. It is feared that Mrs. Runzler inhaled the flames. She will be marked for life, even if she recovers.

DEATH ENDS LAUGHTER

Of Farmer Who is Enjoying Antics of Two Colts.

Willow City, N. D., Jan. 8.—While laughing at the playful antics of a couple of colts, which he had just turned into the barnyard, Mr. Bellrose was suddenly stricken down by heart disease and died before medical aid could be summoned. Mr. Bellrose live near Tarsus with his wife and two children, but had rented one of J. R. Robertson's farms just north of the city, and expected to farm it next summer.

HAVE FINE ICE RINK

Lester Park Residents Boast of Their Free Rink.

Extends From Railroad Bridge to Mouth of River.

Lester Park residents have a free skating rink, which they claim is a little bit the best thing of its sort in the city.

Through the ingenuity of Dr. W. S. Storer a scheme has been devised for flooding the ice on Lester river from the railroad bridge to its mouth, a distance of about two blocks, giving a splendid skating surface fully 250 feet wide from bank to bank.

By means of a wooden pipe the water is taken out of the river near the railroad bridge and used to flood the ice for the remaining two blocks and, in freezing weather the new ice forms very quickly. It takes but a short time to flood this outdoor rink and the rink is nicely protected by the high banks on either side from the winds.

Steps are being taken by interested citizens to have some electric lights put in at convenient locations, and the people of Lester Park are getting out their skates and having them sharpened in anticipation of a good time on the ice during the remaining months of winter.

Dr. Storer has made soundings all over the river and finds that the water is not more than two feet deep anywhere, except at one pool near the fish hatchery, and at that point the ice is about fourteen inches thick. The rink provides a safe place for children of all ages, and the area of the ice is so large that there is no danger of crowding, and of accidents, were all the people residing in the neighborhood of the river to turn out at the same time.

When the lights are established, the Lester Park rink should be a popular rendezvous for not only the skaters of Lester Park, but of other portions of the city.

SPEED OF ONE MILE A MINUTE

Attained by Use of New Explosive Invention of Maxim.

New York, Jan. 8.—A new torpedo boat that will hurl itself at a battleship's hull faster than a mile a minute, a new submarine torpedo boat that will bore a path beneath the surface of the water at as rapid a rate, and a new motive power motorite—to propel the torpedo and the torpedo boat so powerfully that if necessary it will shoot rocket-like out of the sea.

This trinity of inventions, evolved together, patented side by side by Hudson Maxim and announced by the inventor himself, will put at the disposal of the United States government the most destructive means of naval warfare possessed by any nation of the world.

This is what Mr. Maxim says of his latest invention in his statement:

"My motorite-driven torpedo will easily carry sufficient motorite to drive it a moderate rate of speed of more than a mile a minute, as against thirty-five miles an hour, the speed of the best Whitehead torpedoes now in use, and also to a distance more than double the range of the present torpedoes driven by compressed air.

"My semi-submarine torpedo boat will have a speed of about sixty miles an hour when driven by motorite and going into action."

The narrative of his triply-crowned achievement reads like a classic romance of adventure, for Mr. Maxim, starting out with the sole intention of designing a torpedo that would surpass in speed the slow-moving Whitehead, found that he had invented not only what he sought, but also a motive power so tremendous that it should revolutionize submarine warfare, transpose the despised torpedo boat into the most dreaded fighting monster of the sea and, later, may even be expected to send a trans-Atlantic liner between New York and Southampton faster than the fastest trains move on the land.

A delicate blend of nitro-glycerin, gun cotton and one other drug, and the application of a new system of "jet propulsion"—the same principle on which automobiles are run—is the secret of it all.

STAMP FROM LOVE LETTER

Will Furnish the Future Trousseau for a Granddaughter.

Philadelphia, Jan. 8.—A little touch of sentiment was injected into the ordinary prosaic stamp sale at the Freeman building, when an old local "provisional" stamp of the early '50s was sold for $3,000, providing money for the future trousseau of a little 12-year-old girl of Alexandria, Va. The stamp was taken from one of the love letters written by her grandfather to her grandmother.

The Fawcetts of Alexandria are one of the oldest families in Virginia, and were well-to-do before the war. They have become so poor of late years that Mrs. Janette Fawcett, 76 years old, has been in despair of keeping her promise of providing the wedding outfit of her little granddaughter, Janette.

Just before Christmas, in going through some things in an old trunk, she came across a bundle of letters. On one of the envelopes was an old "provisional" stamp. She realized that it was valuable, and it was brought to this city by a friend and placed on sale, and, to the surprise of every one, a collector from Cleveland paid $3,000 for it.

Very few of the "provisional" stamps were issued, and this particular stamp is different from any others that have come to light. It was issued by the postmaster of Alexandria in 1847 and is printed in black ink on light blue paper. All the other stamps of the kind that are known to be extant are printed in black on buff paper. The stamp is circular in shape and the size of a half dollar. In the center is the word "paid," with a "5" underneath. This is encircled with the words "Postoffice Alexandria," and around the whole is a circle of stars.

Rank Foolishness.

"When attacked by a cough or a cold or when your throat is sore, it is rank foolishness to take any other medicine than Dr. King's New Discovery," says C. O. Eldridge, of Empire, Ga. "I have used New Discovery seven years and I know is is the best remedy on earth for coughs and colds, croup, and all throat and lung troubles. My children are subject to croup, but New Discovery quickly cures every attack." Known the world over as the King of throat and lung remedies. Sold under guarantee at all drug stores 50c and $1. Trial bottle free.

FAVORS JOHNSON FOR PRESIDENCY

Senator Works is Candidate for Delegate to National Convention.

Mankato, Minn., Jan. 8.—State Senator S. D. Works of this city has issued a statement of his candidacy for delegate to the Democratic national convention from the Second congressional district. He says:

"As I believe in taking the public into confidence in matters of this character, will state frankly that I am in favor of John A. Johnson for president, and if chosen as delegate will do all in my power to secure his nomination. I believe that he is not only the logical candidate, but because of his sterling worth and ability he would command support and confidence of the people of Minnesota and every state in the Union, and would be triumphantly elected.

"I believe that the great issue before the American people is a careful revision of the tariff, and Governor Johnson has recently declared himself in favor of such revision. Believing that he is right on all great questions before the people, and that he would do more than any other man to unite the somewhat divided Democracy, it is with pleasure that I pledge myself to support him to the best of my ability."

DEPOSITORY INSURANCE

Department Provided in Bill by Davidson of Wisconsin.

Washington, Jan. 8.—A bill creating a depository insurance department, under the supervision of the comptroller of the currency, was introduced in the house yesterday by Mr. Davidson of Wisconsin. It provides that the comptroller shall keep a reserve and premium account with each national bank in the country, shall invest the reserve fund at interest; the interest to be paid to the banks proportionately, and shall return to all solvent liquidating banks the fund credits due them; shall have power to withhold charters from new banks for valid reasons; shall pay out of the insurance fund the amounts due depositors in failed banks; shall require from each bank, for the creation of the insurance fund, a tax payment of 1 per cent of its average annual deposits. The bill admits savings banks to participation in the insurance fund, upon approval by the comptroller, and provides that no national bank shall have deposits in excess of ten times its capital.

SEIZED BY DEVIL FISH

Was Indiana Man Who Saved Himself With a Knife.

Long Beach, Cal., Jan. 8.—John M. Young, who came to Long Beach recently from Terre Haute, Ind., had a narrow escape from serious injury at Dead Man's island, when he was attacked by a huge devil fish which he had pried loose from the rocks. The octopus, which measured eight feet across, threw one of its tentacles around Young's right leg, and only by a quick stroke with his knife, which severed the tentacle near the central portion of the monster, was the Indiana man able to free himself.

When the devil fish was finally subdued, Young started back toward Long Beach surfeited with excitement. The octopus, with seven tentacles remaining, was on exhigition here yesterday.

Try them for lunch and you will have them for dinner.

Uneeda Biscuit

The most nutritious staple made from wheat.

NATIONAL BISCUIT COMPANY

INSTALLS ITS NEW OFFICERS

North Star Lodge Knights of Pythias Plans Entertainment.

After a special election to fill vacancies in the list of officers last evening, North Star lodge No. 35, Knights of Pythias, held its annual installation ceremonies. The following officers were installed:

Chancellor commander, John J. Lumm; vice chancellor, Louis Dworshak; prelate, G. W. Detret; master of work, George H. Nichols; keeper of records and seals, J. A. Wharton; master of finance, George H. Miles; master of exchequer, Sidney Brown; master at arms, William S. Bowie; inner guard, William Turnbull; outer guard, R. G. Chambers; grand representatives, W. H. Lamson, J. A. Wharton, J. H. Davies; alternates, G. Schlein, T. G. Thompson, G. H. Nichols.

Preliminary steps were taken for a public entertainment to be given in the near future that will be in the nature of a minstrel show or something similar to it. A committee was appointed to perfect the arrangements.

Next Tuesday evening the lodge will have work in the first and second ranks.

It goes to the root of disease, strengthens and invigorates. Its life-giving qualities are not contained in any other remedy. Hollister's Rocky Mountain Tea has stood the severest test—time. For thirty years the surest remedy. 35 cents, Tea or Tablets. Ask your druggist.

FARGO'S MILD WEATHER.

Fargo, N. D., Jan. 8.—(Special to The Herald.)—The weather yesterday was typical of March. There was the moist, warm wind and the wet and slippery conditions underfoot. It was certainly a far call from the usual January weather in North Dakota.

BARTENDER KILLED.

St. Louis, Mo., Jan. 8.—Two masked highwaymen spread terror through St. Louis county last night, killing a bartender, holding up a suburban electric car and robbing the passengers, and forcing the men in the box of a saloon after their pockets had been looted.

In Normandie they shot and killed the bartender, August Bons, after they had robbed his saloon, and got away after a chase.

CONGRESS IS TO DO VERY LITTLE

Congressman Davidson Says Tariff Will Not be Touched.

Oshkosh, Wis., Jan. 8.—Congressman Davidson, who with Mrs. Davidson has returned to Washington, is of the opinion that little legislation of importance will be accomplished during the current session of congress. He expresses the belief that most matters of interest will be laid on the shelf by the leaders of both political parties, and only bills of immediate necessity taken up. The tariff, Mr. Davidson says, will not be touched, nor will it be much discussed. One of the subjects that will receive attention is the parcels post. But even this, Mr. Davidson thinks, will not come to action. He says that the arguments on both sides of this question are about evenly matched, and congress will not commit itself until the question has been throughly thrashed out at home, and some definite sentiment for or against has developed among the people at large.

Camp Clerks and Loggers.

GOES THROUGH TRESTLE.

Special Train on Southern Railway Wrecked---Engineer Killed.

Atlanta, Ga., Jan. 8.—Running at a speed of thirty miles an hour, the second section of an excursion train on the Southern railway, from Cleveland, Ohio, known as the Collver special, and bound for Florida points, plunged through a trestle over Copper Mine creek, about fifty miles west of Atlanta, yesterday, and as a result one person, James Edward, engineer, is dead, three others are fatally injured, and eighty passengers were so seriously injured as to require medical attention.

INDIAN FREEZES TO DEATH.

Chippewa Falls., Wis., Jan. 8—Jim Johnson, a well known Chippewa Indian, was found frozen to death in a thicket on Yellow river, at a point near the Spooner lake settlement. He disappeared about a week ago and since then an almost continuous search had been made for him. From the fact that his clothes were covered with a sheet of ice it is probable that he fell into the river and in an attempt to reach the settlement was frozen to death. He was about 70 years old and was prominent in Indian circles.

Sleep

During sleep the necessary Body-repairs are carried on in the "human workshop."

Anything that prevents sound sleep at the proper time, *i. e.*, after retiring at night—will, sooner or later, prevent "smooth running" during business hours.

That "drowsy feeling" in the forenoon (when everyone from the manager to the office boy, should feel as elastic as a rubber ball) is often caused by want of sound, refreshing sleep the night before.

The habitual use of Coffee is back of it all in nine cases out of ten.

Drowsiness During Business Hours May Be Overcome

Stop drinking Coffee and use well-made

POSTUM

Which contains the "vital phosphates" from wheat for rebuilding brain and nerve cells. It does not contain the insomnia-producing alkaloid—*Caffeine*, found in coffee and tea. Postum

Induces Restful Nights and Successful Days.

"There's a Reason."

Read "The Road to Wellville" in pkgs.

Some foods have the same effect on the bowels as Cascarets.

But one must select the foods and that's difficult. It's easier to take Cascarets.

Here is one way to keep cheerful:

Live out-doors and exercise in plenty. Eat coarse food, much fruit, many green vegetables.

Here is the other way:

Take a Cascaret when you need it. That will supply, in a gentle and natural way, the same laxative effect on the bowels.

Nobody questions that the first way is best.

So would it be best, for much the same reason, to do all of our reading by sunlight.

But most of us are compelled to choose a second best way.

And that way is Cascarets.

No other laxative acts so nearly as proper living would act on the bowels.

The days of castor oil and salts, of pills and cathartics, are over.

What they did artificially, is now done by Cascarets gently.

The right way is to take a Cascaret when you need it. Carry a box in your pocket. Ward off those dull feelings, those headaches, before they fairly get started.

Cascarets are candy tablets. They are sold by all druggists, but never in bulk. Be sure to get the genuine, with CCC on every tablet. The price is 50 cents, 25 cents and

Ten Cents per Box. 700

Big Cuts in Every Dept.

Johnson & Moe
The West End Big Department Store
21st Ave. West and Superior St., Duluth, Minn.

We Want Those Coupons Turned in at Once

We don't quite see how the new concern is to accept J. & M.'s old Premium Coupons after Feb. 1st. With that in mind, we have been calling them in for a month past and redeeming from $1,000 to $2,000 worth of them every day. Still there seems to be as many out as ever. Now hurry! If you want to use them at their full value, bring them in within a week. This is imperative.

ORIGINAL LID MAN

Tells Akeley People of March of Temperance Cause.

Akeley, Minn., Jan. 8.—(Special to The Herald.)—The Rev. C. W. Stark of Minneapolis, superintendent of the St. Cloud district for the Anti-Saloon league, addressed a large audience at the Methodist Episcopal church, Sunday. Mr. Stark is well known as the man who secured the supreme court decision that clamped the lid on St. Cloud. Rev. J. T. Brabner Smith, who presided, said that Akeley was fortunate in being without saloons or licenses, as that was practical evidence around here that a town without saloons was far better.

Mr. Stark pointed out the great growth of temperance sentiment in the states, and especially in the South. He believed that there would be enough votes in the next legislature to pass a local option bill. If Hubbard county Republicans did not nominate a man suitable to the anti-saloon sentiment, then they would support the candidate that was in favor of local option in some other party.

Mr. Stark spoke at Nevis, and at the Congregational church also. He secured a large sum of money to help in the coming campaign.

A county convention was held at Park Rapids this afternoon, and committees appointed to look after the coming election.

POSTMASTER RESIGNS.

Stamp Seller at Jamestown Gives Up His Federal Job.

Jamestown, N. D., Jan. 8.—(Special to The Herald.)—Charles Mitchell for the past eight or nine years postmaster here has surprised his friends by giving up the job to attend to other matters. His bondsmen appointed John H. Severan, with the consent of the post office inspectors, to act as postmaster until the president can make an appointment to succeed Mr. Mitchell.

Mr. Mitchell has been desirous of leaving the service for some time, but was unable to do so because of delay in Washington over the appointment of his successor. His giving up the office will probably hasten official action.

The Victim of Drink

Needs Orrine Treatment

Drink first destroys ambition; breaks up ties of friendship; it kills and buries love and eventually destroys the family life.

Some of the best men in the world have been victims of drink, and if there is not some member in your family that is afflicted with this disease, you are indeed fortunate.

Drink cunningly destroys the will power, and while the drunkard wants to do what you tell him, he wants a thousand times more the drink he craves. Medical treatment is necessary to destroy the craving, and this Orrine will do.

It destroys the desire for liquor, so that the drink will not be missed, also cures the deranged digestion, weakened nerves and other ill effects of excessive drinking, restoring the patient to perfect health.

The remedy is absolutely harmless, is thoroughly scientific and is so uniformly successful that it is sold with a registered guarantee entitling you to a refund of your money if Orrine fails to effect a cure. Treatise on "How to Cure Drunkenness," free on request, in plain sealed wrapper. The Orrine Co., Washington, D. C.

Orrine is in two forms, No. 1 which can be given secretly without the patient's knowledge; No. 2 in pill form for those who wish to be cured. The price of either is $1, mailed on receipt of price in plain sealed package, and both are sold under the guarantee. Orrine is sold by F. W. Kugler & Co., 108 West Superior street, Duluth.

WHIRLED TO HIS DEATH.

Every Bone in His Body Below the Waist, Broken.

Fergus Falls, Minn., Jan. 8.—William Kuhlman, a young man residing in the country fifteen miles southwest of here, met with a frightful death.

He attempted to throw a belt from the drive wheel of a feed mill run by a gasoline engine, and his clothing caught in such manner that he was whirled around several times. Every bone in his body below the waist was broken, and his left leg was torn out at the hip. Death was almost instantaneous.

His younger brother was struck by his body as it whirled around the shaft, and was injured.

RECEIVER FOR STORE TRACES MISSING GOODS.

Grand Forks, N. D., Jan. 8.—(Special to The Herald.)—Receiver Dudley L. Nash has unearthed some peculiar transactions in connection with the closing of the stores of F. Frank & Sons in Williston and Minot. The receiver traced a wagon load of goods to Tunbridge and ascertained that the goods were shipped to H. Gorman, Grand Forks. All of these goods, amounting in value to about $1,500, have been seized and Frank admits they were taken from the Hub store in Minot. In addition, the receiver seized a trunk at the Soo depot in Minot which had been checked to Minot from Velva and which contained about $500 worth of goods from the Hub stock.

WAS SPONGE LEFT IN BODY?

Surgeons of Davenport Sued for Damages in Sum of $15,000.

Davenport, Iowa, Jan. 8.—Gustav Scheel and wife have filed suit against the Matthew Bros., doctors, claiming $15,000 damages by reason of an operation performed on Mrs. Scheel by the physicians.

It is alleged that the surgeons left a sponge in the body of the woman and that a second operation was necessary, seven weeks later, to remove it.

FLEXNER SERUM USED.

Cerebro Spinal Meningitis Cured at Baltimore by New Discovery.

Baltimore, Md., Jan. 8.—In a new cerebro spinal meningitis case brought to the attention of Johns Hopkins hospital from Atlanta, the doctors in charge have again used with success the serum which Dr. Simon Flexner, head of the Rockefeller Institute for Medical Research, New York, recently discovered. The patient, Irving Hall, is a young man, and the disease had been running five weeks, showing all the malignant symptoms. The patient is now out of danger.

GO TO MINNEAPOLIS.

Royal Leaguers Leave to Attend Advisory Council Session.

Delegates to the annual convention of the advisory council of the Royal League left last night for Minneapolis and are attending the sessions of the body there today.

Representatives from the northern part of the state gathered at a little dinner in Duluth last evening and went to the Twin Cities together. The party included:

Judge J. H. Lawrence, Two Harbors; F. V. Anderson, Aurora; J. S. Hopkins, Biwabik; Judge J. W. Osborne, Ely; E. J. Millette and Walter Smith, Eveleth; A. N. Thompson, Virginia; D. E. Cuppernull, Virginia; W. G. Shane, Chisholm; Ralph Wagy, Hibbing; L. A. Fish, Cloquet; J. C. McKusick, Coleraine; A. L. Roecher, Grand Rapids; Fred Breid, Deer River; E. D. Boyce and D. F. Dumas, Cass Lake; L. G. Crothers and G. W. Campbell, Bemidji; F. E. Stout, Brainerd; H. M. Stark, Superior; E. S. Olson, West Duluth; James A. Wharton, J. C. McDugall and H. H. Stone, Duluth.

SAYS BANK DIRECTORS KNEW OF TRANSACTIONS.

Chicago, Jan. 8.—Fred M. Blount, a former vice president of the Chicago National bank, testifying in the trial of John R. Walsh, yesterday flatly contradicted statements made by witnesses for the government to the effect that the directors of the bank knew nothing of the large loans made by the bank on memorandum notes. Mr. Blount, who was also formerly a director of the bank, testified that a daily statement of loans and discounts was at all times accessible to the directors and were frequently examined by them.

Weak Heart Action

There are certain nerves that control the action of the heart. When they become weak, the heart action is impaired. Short breath, pain around heart, choking sensation, palpitation, fluttering, feeble or rapid pulse, and other distressing symptoms follow. Dr. Miles Heart Cure is a medicine especially adapted to the needs of these nerves and the muscular structure of the heart itself. It is a strengthening tonic that brings speedy relief. Try it.

"For years I suffered with what I thought was stomach trouble, when the doctors told me I had heart trouble. I had tried many remedies, when the Dr. Miles' almanac came into my hands, and I concluded to try Dr. Miles' Heart Cure. I have taken three bottles, and now I am not suffering at all. I am cured and this medicine did it. I write this in the hope that it will attract the attention of others who suffer as I did."
MRS. D. BARRON,
804 Main St., Covington, Ky.

Your druggist sells Dr. Miles' Heart Cure, and we authorize him to return price of first bottle (only) if it fails to benefit you.

Miles Medical Co., Elkhart, Ind

NEWS OF THE NORTHWEST

WORKING ON LARGE JOB

Roosevelt Men Will Get Out Many Ties and Posts.

Largest Wood Contract Ever Given in Northern Minnesota.

Roosevelt, Minn., Jan. 8.—(Special to The Herald.)—A. J. Cones of the lumber firm of Cones & Maloney, which has secured the largest single contract for timber ever awarded in Northern Minnesota, is securing men and teams and working hard on the big contract recently secured from the Grand Trunk Pacific railroad, said to be the largest contract ever awarded in this section. It call for 125,000 railroad ties and 150,000 fence posts, delivery f. o. b. cars at Roosevelt and Williams.

The filling of the contracts will call for great activity on the part of the contractors and they have already sent to Roseau, Stephen and Crookston for fifty teams and 200 men. A small party has already started the work.

The open character of the winter will make the transportation of the timber to the railway one of the chief factors in the contract. A number of homesteaders have settled in the territory during the past few months and these together with the general loosening up of labor will facilitate the work along this line.

The contract complete will require 700 freight cars and compose about fifteen large trains to carry the timber. The amount involved is about $150,000.

CLOQUET'S NEW COUNCIL IS IN

Mayor Says Water Works is Most Important Question.

Cloquet, Minn., Jan. 8.—(Special to The Herald.)—The first meeting of the new city council was held in the city hall last evening. The members of the council are H. G. Stevens, J. H. Elwood, William Kelly, H. S. Whitman and Oscar Anderson. Mr. Stevens was elected president, and Mr. Kelly, vice president. The mayor's annual message was read, the chief topic concerning the new water works system begun last spring. Stokes Wilson, the recently elected mayor, also said that the construction and completion of the city's water works is undoubtedly the most important issue before the public at the present day.

The following appointments were made by the council: City clerk, Joseph Loisel; city attorney, J. A. Fesenbekz; health commissioner and city physician, Dr. R. J. Sewall; chief of police, John McSweeney; patrolmen, Andrew Nelson and Ed Beauschamp; assessor, J. E. Crain; pound master, Warren Peterson; chief of fire department, Charles Wendell; assistant chief, John E. Johnson; treasurer of fire department, Joan Nelson; street commissioner and building inspector, H. E. McLain.

USING WAGONS; LACK OF SNOW

Michigan Loggers Are Not Praising This Mild Winter.

Negaunee, Mich., Jan. 8.—(Special to The Herald.)—Because of the lack of snow the Consolidated Fuel & Iron company is using wagons instead of sleighs in logging operations, something never before known at this time of the year in this section.

The lack of snow is putting back logging operations in the district below here, but there has been no reduction in the working forces. Little heavy timber has been shipped, and only a small percentage of this season's cut has been hauled out of the woods. As soon as there is sufficient snow for successful work hauling will be vigorously pushed, as there can be only a few weeks of sleighing, under most favorable conditions.

BATTLING WITH DISEASE.

Beltrami County Health Officer Finds Some Smallpox Cases.

Bemidji, Minn., Jan. 8.—(Special to the Herald.)—"There are seven smallpox patients and three suffering with diphtheria at the present time, in the Beltrami county pesthouse," said Dr. F. A. Blakeslee, county health physician, on his return from Kelliher, where he had been to look after some smallpox cases in some lumbering camps near that place.

He found two cases of smallpox near Kelliher, and the patients were brought to the pesthouse overland.

The doctor has been called upon to care for quite a large number of diphtheria cases during the past fall and winter, and has been universally successful in his treatment of the patients.

SAWS OFF LIMB

On Which He Was Sitting and Falls to His Death.

Racine, Wis., Jan. 8.—(Special to The Herald.)—Seated far out on the limb of a tree, forty feet in the air, Fred Jensen, a contractor of this city, sawed the limb from the tree, precipitating himself to the ground below. He was killed instantly.

Jensen was employed trimming a number of high trees. One of the dead limbs could not be reached by a ladder, and without thinking of the position he must take, the man climbed out on the limb, selected the place where the trimming was to be begun and started to saw. Whether he actually did not realize the position in which he was placed, or whether the limb was weaker than Jensen thought, is not known, but after cutting a short way through the wood the branch cracked and the workman was thrown to the ground.

BURGLARS FOUND NOTHING IN SAFE

At Walhalla, N. D., Then Robbed Jewelry Store.

Walhalla, N. D., Jan. 8.—(Special to The Herald.)—First blowing the safe in the Great Northern depot here Monday night and finding nothing because the careful agent had taken the cash home with him, burglars turned their attention to Hellsath & McQuarrie's jewelry store and secured about $700 worth of jewelry. The burglars then made their escape on a hand car, going first north and then returning and passing south, evidently to throw pursuers off their track.

Just what time the burglars got in their work is hard to tell. The raids were particularly bold, especially that in the jewelry store, in which one of the proprietors, Mr. Hellsath, was awakened by the men, but failed to get to the burglars before they had left the place with their booty.

The Great Northern depot was entered through the waiting room door, the burglars having keys to fit the same. The dynamiting of the safe was very clean, one charge evidently being enough to finish the work. However, the fact that the agent had removed all cash last evening made the safe blowing proposition a decidedly poor one, so far as the burglars were concerned.

AGAINST NIGHT RIDERS.

American Society of Equity Would Expel the Lawbreakers.

Fargo, N. D., Jan. 8.—James Holes of this city, a director of the national Aerican Society of Equity, has departed for Indianapolis, Ind., the national headquarters of the society, to attend a special meeting called.

Mr. Holes stated that one of the objects of the special meeting was to take some action regarding the depredations of the alleged members of the Kentucky and Tennessee unions of the American Society of Equity under the appellation of "Night Riders," who a few days ago destroyed hundreds of thousands of dollars' worth of tobacco warehouses and immense stocks of tobacco in the states of Kentucky and Tennessee. An investigation was instituted by the national organization and it is Mr. Holes' purpose, in case it is shown that the "Night Riders" belong to the farmers' organization, to introduce a resolution at the meeting of the board of directors, demanding that the offenders be expelled from the society, deprecating the methods employed by the "Night Riders" and condemning in strong terms any unlawful means employed to intimidate any one in order to carry out the purpose of the organization.

RURAL ROUTES POPULAR.

Many Packages Carried Last Month Out of St. Cloud.

St. Cloud, Minn., Jan. 8.—(Special to The Herald.)—Each of the six rural free delivery routes from St. Cloud averaged over 3,000 pieces of mail handled during the past month. On Route No. 1, in charge of Mrs. Allen, no official record was required this month, as for the past three consecutive months the amount of pieces handled exceeded 5,000. It is necessary that 3,000 pieces be handled, or the route will be discontinued. The business on all routes for the past month has been excellent, and with the exception of two the amount handled exceeded the required 5,000.

YOUNG DESPERADO ADMITS HIS GUILT.

Shell Lake, Wis., Jan. 8.—Herman Steinhurst, "the boy desperado from Chicago," had his preliminary hearing in Judge Ryan's court and pleaded guilty to the charge of shooting with intent to kill, and was bound over to the circuit court. Steinhurst, who is only 16 years of age, entered D. O. Brewer's store at Minong, recently, purchased some candy, and while Mr. Brewer was getting the change Steinhurst fired a bullet from his revolver, striking Brewer on the forehead, but, fortunately, the bullet glanced and the wound did not prove fatal and Brewer is rapidly recovering. Steinhurst's apparent intention was to shoot Brewer dead and rob the store.

"THIRTY" FOR BROWN.

Mankato, Minn., Jan. 8.—(Special to The Herald.)—C. P. Brown, formerly a newspaper man in this city, died on New Year's day in Everett, Wash. Mr. Brown will be remembered by old settlers. He was for a number of years engaged in newspaper work here, and moved West to Washington some years ago.

FIRE AT MOTLEY.

Mercantile Establishment is Destroyed; Loss About $30,000.

Brainerd, Minn., Jan. 8.—(Special to The Herald.)—The two-story double store, owned by B. F. Cale at Motley, and occupied by Wolf & Torgeson, with a large stock of general merchandise, was destroyed by fire Monday. The fire was discovered about 6 o'clock in the morning, and despite all efforts the building was entirely destroyed, with nearly or quite all its contents. The building was of brick veneer and burned very quickly. It is said that the Modern Woodmen, who had a hall in the second story, lost all its regalia, etc. The total loss on the merchandise stock is said to be about $20,000, while the loss on the building is probably $10,000 more.

WHOLE FAMILY POISONED.

Is Attributed by Physicians to Preservative in Meat.

St. Cloud, Minn., Jan. 8.—(Special to The Herald.)—Mr. and Mrs. George Bennett and their 17-year-old daughter, Ruth, and an elderly lady who is their guest, Mrs. Hanson, were all poisoned by food which they ate yesterday. Mr. Bennett was not seriously ill at any time, but thet hree women suffered intense agony. For a time the physician doubted their recovery, but that crisis is now passed.

The attending physician is of the opinion that the people were poisoned by eating some preservative in meat.

ICEMEN ARE WORRYING

Because Mississippi River at Winona is Still Open.

Winona, Minn., Jan. 8.—The launch Virginia has just made a trip to Fountain City, Wis., and return, a distance of ten miles up the Mississippi river. This is the first time in the history of navigation on the Upper Mississippi that a motor propelled craft has made a trip in the month of January.

The mild winter thus far is causing much apprehension to ice men throughout this section. The season for cutting is at hand, but there is no river ice to be had.

CHURCH FINED $5

In Minneapolis for Violating City Smoke Ordinance.

Minneapolis, Minn., Jan. 8.—(Special to The Herald.)—Out of the treasury of Fowler Methodist church went $5 into the till of the clerk of the municipal court. Fowler church, as represented by George Hicks, janitor, had been a transgressor in the eyes of the law, 'Twas on Sunday, the transgression. Smoke was seen issuing from the church chimney Sunday, in large quantities, and Hicks, the janitor, was arrested, charged with violating the smoke ordinance. Hicks and officers of the church were in police court Tuesday and explained to Judge E. F. Waite that for some reason the wrong quality of coal had been delivered to the church last week. The judge, however, could not see that this was sufficient excuse for the janitor to burn such coal, and therefore imposed a minimum fine.

DAKOTAS IN BRIEF

Huron, S. D.—The South Dakota Poultry association is holding its second annual show in this city beginning Jan. 7 and closing Jan. 11.

Fargo, N. D.—Fargo Typographical union, No. 185, has elected the following officers: President, C. P. Wood, vice president, R. J. Weymouth; secretary and treasurer, C. J. Rusness; recording secretary, E. C. Flemoing; sergeant-at-arms, A. W. Bowman; executive committee, R. H. Straub, F. L. Tillotson, Charles Herdeg.

Minot, N. D.—J. B. Rice, a farmer who lives in Valley City, is in jail here on a charge of assaulting C. E. Loehle with a dangerous weapon while on the Soo-Spokane limited between Kenmare and Minot, and Mr. Loehle is in the county hospital, where his wounds, as a result of the fight, are being treated.

Fargo, N. D.—Chief of Police Ahearn of Kansas City, Mo., has telegraphed to Chief Wade that he has a man named J. W. Bardoll under arrest. He says Bardoll is said to have killed an old man last July near Fargo. Neither Chief Wade, Sheriff Hunt or Chief Malvey of Moorhead know of any such a crime being committed.

Grand Forks, N. D.—A meeting of the directors of the Grand Forks County Agricultural society was held Monday in the Commercial club rooms, at which time it was decided to hold the annual meeting of the stockholders on Jan. 21 in the same rooms.

PENINSULA BRIEFS

Sault Ste. Marie—Charles Brebner of Newberry, Mich., for the last three years in the banking business in Michigan, has bought the Gazette here, which he will edit.

Hancock—Mrs. Thomas S. Lang and daughter returned to Duluth Sunday evening after an extended visit with relatives and friends in this city.

Houghton—Joseph Capra, who for some time past has been in the employ of E. J. Bassett, the Ripley street liveryman, has been arrested by Marshal Louis Voetsch, complaint having been made by Mr. Bassett, who accused Capra of the theft of some chickens from his coop, adjoining the livery barn.

Lake Linden—The marriage of Miss Emma Harry of this city to Russell Bouchard is announced to take place in the near future. Both are well known residents of this city.

Marquette—After a protracted illness, George H. Bellinger is dead from stomach trouble. He was 58 years old and had resided in Marquette for a period of years. Mr. Bellinger was a marble cutter and came to Marquette from New York. He is survived by a widow.

Negaunee—William Pollard, who has resided on a farm about a mile and one-half from Humboldt over twenty years past, died Monday. Heart disease was the cause. Mr. Pollard is survived by his widow, two sons and two daughters.

Ishpeming—Lawrence Barnett, who come home from Coleraine, Minn., late in November, after being confined in the Oliver Iron Mining company's hospital there with pneumonia, departed Sunday night for the Mesaba to resume his work.

MINNESOTA IN BRIEF

Albert Lea. — William Cain, a brakemon of the Minneapolis & St. Louis road, while switching in making up his train here, was crushed by another locomotive coming down upon him which he could not see in the darkness and which he did not know was on that track. His spine is injured, several ribs broken and there art other injuries of a serious character.

International Falls — The Canadian Northern has commenced building a spur in Fort Francis to connect with the proposed bridge of the Rainy Lake railroad, for which the piers have been built at Pither's point.

Brainerd—Judge Edson of Duluth one of the most heavily interested in developing the Cuyuna range, was in the city Monday, on business.

Alexandria—W. W. Sheldon has decided to relinquish the management of the Alexandria Granite works and will be succeeded on March 1 by Johnson & Wheeler of St. Cloud.

Cokato—Isaac O. Tolineu, a farmer who lived ten miles north of this p lace, was found dead in his house. The coroner decided that the cause of death was heart disease. Tolneu had no relatives here.

Clinton—A farmers' institute held here was a great success, there being over 300 farmers present at each session.—News has been received of the death of Mrs. H. C. Dahlbjelm at Seattle. Mr. Dahlbjelm was formerly a merchant of this place.

Crookston—The board of county commissioners met Tuesday morning in regular session and organized for the year by the election of J. O. Rindal as chairman and Ben Clements vice chairman.

WISCONSIN IN BRIEF

Chippewa Falls — Albert Anderson, 5 years of age, of the town of Sigel, is in a precarious condition as the result of an attack by a cat. His mother was aroused by hearing her son groan, and found that the cat was standing over him, drawing his breath. The boy was unconscious, but was finally revived.

La Crosse—Charged with performing a criminal operation on Anna Olson of Viroqa, on Dec. 19, from the effects of which she is said to have died on Dec. 26, Dr. D. O'Brien, a well known local physician, has been bound over for trial in the circuit court on the charge of manslaughter, and bail fixed at $1,500.

Marinette—Attorney John H. Franske of this city has returned from Montreal, Can., where he has been looking up the interests of Sir George Northey-Northedge of this city. Franske finds that the estate valued at $2,000,000 is due Northedge and two other heirs. The estate has been easily traced, and can be obtained with little difficulty.

Appleton—Nicholas Zapp, aged 70 years, severed an artery in his throat and after waiting until he had become weak from the loss of blood called his wife and told her he was bleeding to death. A surgeon was called and dressed the wound, but death came in a short time.

Ashland—The mother of W. G. Nohl, died, at Sheboygan, Wis., at the home of her daughter, Mrs. Hahn, at the age of 87 years. She is the last survivor of the three who settled in the town of Sheboygan Falls in 1846, being the first settler there. Her husband died in 1886 at the age of 78 years. The funeral will be held at Johnsonville, Wis., from the "1846 Nohl Homestead."

FIRST SIGNS IN THE BACK

And Its Best Not to Neglect Danger Signals.

Valuable Home Recipe Given Which Anyone Can Prepare.

Take care of backache. A great many cases of kidney complaint are reported about here, also bladder trouble and rheumatism.

An authority once stated that pain in the back, loins or region of the kidneys is the danger signal nature hangs out to notify the sufferer that there is something wrong with the kidneys, which should receive immediate attention. Only vegetable treatment should be administered and absolutely no strongly alcoholic patent medicines, which are harmful to the kidneys and bladder.

The following prescription, while simple, harmless and inexpensive, is known and recognized as a sovereign remedy for kidney complaint. The ingredients can be obtained at any good prescription pharmacy, and anyone can mix them: Compound Kargon, one ounce; Fluid Extract Dandelion, one-half ounce; Compound Syrup Sarsaparilla, three ounces. Shake well in a bottle, and take in teaspoonful doses after each meal and at bedtime.

This preparation is said to restore the natural function of the kidneys, so they will sift and strain the poisonous waste matter, uric acid, etc., from the blood, purifying it and relieving rheumatism. Backache will be relieved, the urine will be neutralized and cleared, and no longer a cause of irritation, thereby overcoming such symptoms as weak bladder, painful, frequent and other urinary difficulties.

This is worth trying and may prove just what many people here need.

Free to the Ruptured

Simple Home Cure that Anyone Can Use Without Pain, Danger or Loss of Time from Work

SENT FREE TO ALL

I cure rupture without operation, pain danger or loss of time. When I say cure, I do not mean hold, but a cure that stays cured and does away with trusses for all time.

To convince you and your ruptured friends that my Discovery actually cures I want you to test it without one cent expense to yourself. Remember, I am not trying to sell you a truss, but I offer you an absolute, perfect and permanent cure that means freedom from pain and suffering, a largely increased physical and mental vigor, a fuller enjoyment of life's blessings and years of comfort and satisfaction added to the length of your life.

Don't send any money, simply fill out the coupon below, indicate on the diagram the location of the rupture, and mail it to me. Don't neglect this important matter a single day or continue to be tortured any longer by cheap, ready-made trusses.

My remarkable offer is the fairest ever made and should be taken advantage of immediately by all rupture sufferers.

Free Treatment Coupon
Mark on the Diagram the location of the rupture, answer the questions and mail this to Dr. W. S. RICE, 903 Main Street, Adams, N.Y.

SONGS THAT WEAR WELL.

Old Timers Continually Being Revived.

New York Sun: "There's no way of judging," said a man who writes successful songs, "whether the ballads of today measure up to the ballads of yesterday what we call a song generation, and that, roundly, is twenty years.

"It's all in the point of view. The remembered fineness of an old song is largely a matter of what we call the association of ideas. The memory of a favorite old song is hauntingly embedded in nthe grizzled chap's recollections of his cippish, gay dog days. Therefore to him that old song was the best ever composed.

"To show how this works out: The other night in a big Atlantic Cityl rathskeller I sat near a huge table around which some thirty or forty middle aged Elks ,attending the Elks' convention in Philadelphia, were seated. In compliment to these men the orchestra began to play a singularity well aranged medley of ballads of a song generation ago.

"There were in the medley such songs as 'White Wings,' 'Sweet Violets,' 'Somebody's Coming When the Dewdrops Fall,' 'Gathering Up the Shells From the Seashore,' 'Wait Till the Clouds Roll By,' 'Hear Them Bells,' 'When the Robins Nest Again,' 'When the Leaves Begin to Fall,' 'I'll Await, My Love,' 'It's Only a Pansy Blossom'—strains from all of these and others.

"It was curious to not how these middle aged chaps, all mellowed after a couple hours they had been listening, wholly unmoved, to the orchestra rendering the up-to-date things—the new ballads, extravaganza snatches, ragtime interpolations, Indian and cowboy melodies.

"They had talked merrily and noisly through all of the modern stuff, but when the band broke into the old strains a hush fell upon them. They leaned back in their chairs, all quiet after a few of the opening strains, and blew smoke rings at the open sky.

"I saw several of the middle aged chaps wiping their eyeglasses quite industriously, and when the medley was over not a few of them blew their noses with quite unnecessary violence. Then they broke in to a veritable tumult of applause.

"It was a perfect exemplification of my theory that the songs of one's youth are the songs that stick, while those that come later merely glance off. My grandmother tells me to this hour that the greatest song ever written was 'Lily Dale,' a completely forgotten thing published in the '40s, and of the deadly sugary and soggy variety.

"The middle aged Elks ranged around that big table really had something worth while remembering in listening to that medley, though, for there were some mighty good songs included in the hodge podge. I doubt if there has been any period since that could show such a bunch of genuinely good and enduring ballads as those of a song generation ago.

"They were well sung too. The elderly Elks, for instance, could bring back the recollection of Banks Winter singing 'White Wings' (he composed the song), and Fritz Emmet singing 'Sweet Violets' and his always alive 'Lullaby,' and Billy Scanlan singing 'Peek-a-Boo,' and Fred Oawkland singing 'The Spanish Cavalier,' and so on, for in those days the wailing songs became incradicably associated with the people who sang them best and oftenest.

"Nothing is more certain than that a good thing will last. At a steamer concert not long ago one of the volunteer entertainers, a fine old boy with a splendid baritone vole, sang 'A Lighthouse by the Sea.' Going back some, eh? But that always a beautiful song, and it made the hit of the performance.

"'Now, isn't that a delightful song? I heard a young woman say to her companion, a man of 60, 'I wonder why I haven't heard it before? It must be very new. I must get it when we land.'

"'You may find it in print and you may not,' said the girl's old fogy companion, an uncle, probably. 'I haven't heard it till tonight for thirty years. I used to hum it when I had all the hair that belonged to me, and that, my dear, was long before you ever thought of being born.'

"How extraordinary!" said the girl.

'Fancy anything so pretty being done such a long time ago.'

"It is thus that the best of the old songs live.

"On the day when Gen. Grant was buried here in New York, Pat Gilmore's band, up at the tomb, played 'Somebody's Coming When the Dewdrops Fall,' in slow time. That song, a very lovely one, had had its vogue many years before 18 5. The rising generation had quite forgotten it.

"But the Gilmore band did it so beautifuly that the younger folks at the tomb all fell to asking for the name of the piece, and for a long time afterward they clamored for the piece at the music shops, and so the old song, thus oddly revived, had a second birth.

"Predictions as to the passing of ragtime don't seem to pan out. They began predicting that five or six years ago, and yet the coon stuff holds out wonderfully well and is wanted everywhere.

"Forty or fifty fellows are addressing themselves to no other task than the writing of ragtime stuff, all fighting for the ba, for the one hit in that direction means a lot to the lucky man. That shows that the ragtime sort is still in demand.

"The writers of this sort of thing are doing better at it all the time, too. The ragtime stuff of the past two years is incomparably better than that which gave that kind of stuff its greatest vogue. They're getting the genuine African atmosphere, the real Congoe thing, the Zambesiland flavor, these days.

"It's no longer merely the coon-shouting stuff, but the croony, grass hut, palmlined-river sort of Africanese writing imbued with sentiment and color. There is still a big chance at that sort of work. So eminent a man as Dvorak thought so years ago, and his predictions about are being verified.

"The coon stuff wears better than the Indian and cowboy material. There was a sameness about the Indian songs, pretty as some of them were; and the present generation doesn't know enough about the red man to derive much of an appeal from songs about him. The cowboy stuff, with its sound as of the thumpling of high-heeled boots upon the honkatonk floor, also is marked by a certain sameness, and I doubt if it will be in lasting vogue.

"The innovators are turning their attention to Old Mexico lately, and there'll be all sorts of Senoras and Chihuahuas and that sort published in the autumn. The Spanish motif runs through all of this Mexican stuff that is being turned out now, and the Mexican songs are going to have a big time of it, I think.

"The color is there; the music, being Spanish, is ready made, so to speak—that is, it doesn't have to be invented, haphazard, like the Indian and cowboy stuff—and Old Mexico, of course, is overlaid and surcharged with sentiment. Some of the boys I know are even trying their hands at Aztec stuff—cliff dwelling, sun dancing things with the weird strain, some of it not half bad.

"After that, the Incas of Peru, I suppose, and our progressive song writers may yet become archaeologists and poke through the ruins of Yucatan and such like for inspiration and material.

"The song-writing chaps who beat the others to it in establishing a ballad vogue are the lucky ones in the financial way, and that's why all hands are working like demons to get hold of the new thing. A lot of them wasted many a hair-tussling hour in endeavoring to start a Japanese song in vogue. Our American enthusiasm over the Nippon country petered out just when a number of the Japanese songs were about today sprung, and knowing that their efforts would have fallen dead, they had to give that attempt up.

"Are some singers paid oy music publishers to sing their new songs? Guilty. They certainly are, and some of them are paid big for this sort of boosting.

"If they are not paid in a lump they declare themselves in for a piece of the royalties. Music publishers like this royalty arrangement better, for it is, of ocurse, a guarantee that the boosting singer will be more zealous in his or her attempts to make the new song stick and sell.

"But, after all, no song of merlocre merit can ever be boosted by these methods into anything more than merely ephemeral fame and prosperity. It may be thus hoisted into a seller for a while, but the commonplace stuff doesn't endure in the ballad business any more than it does in literature.

"There was no boosting of the sort I've mentioned for 'Molly Darling'—the writer of that, by the way, an octogenarian, died in Kentucky a few days ago—and yet you'll hear that song everywhere in the world today. I have heard a bunch of Kanakas coaling a steamer at Honolulu sing it. Was there any boosting for 'Kathleen Mavourneen?' Not that I ever heard of. Yet it goes on.

"The good folks know the good thing, and in the long run they can be depended upon to perpetuate it."

HUNTING WITH CAMERA.

How to Act With Three Bears Within Ten Feet of You.

There are exciting moments in fishing and in baseball and in bridge whist, but if a full grown man with red blood in his veins and with well poised nerves wishes to experience the real thing in adventure, says W. H. Wright in Country Life in America, let him try photographing big game at close range—animals two or three times as big as himself and reputed to be murderous. Here is an incident in point.

It was sundown in the Rockies and the birds were making the woods echo with the volume of their songs. I stood quiet and watchful on the lee side of the trail waiting for my friends the grizzlies. Day after day I had set my trap for them and night after night they had fooled me.

My trap consisted of a camera, a battery, a fishlight apparatus and a fine wire stretched across a narrow place in the trail. They never passed it. The fine wire, completely hidden among the leaves, always stopped them by its scent. Black bears will paw at things they don't understand, but the grizzly, while no less curious, sniffs cautiously at the unknown thin gand then passes by on the other side.

This night I was determined to discover whether it was the wire or the man tracks that stopped them. After I had adjusted my camera I turned off into a little clearing.

Here I waited behind a big tree. I knew that if the bears cared about my tracks they would know, in their inexplicable wisdom, which way I had gone and would proceed to investigate.

At last they came along, three huge, lumbering fellows, their bulky forms showing monstrous in the gathering dusk. They sniffed at my trail when they caught it, but they did not stop until they reached the hidden wire. That brought them to a standstill.

First one sniffed and then another until it occurred to them that possibly my tracks had something to do with this strange thing. So back they came along the trail, not angry, but simply bent on finding out.

In my interest I had left my tree, and when they reached the little clearing they found me in full view. I was entirely unarmed, as usual, having not even a sheath knife, but twenty-five years' experience with bears has taught me a few things about them, and under the circumstances I had no more fear than if they had been so many healthy bull terriers.

I stood perfectly still there in the open, trying hard not to wink, but feeling all the time that I was swaying like a reed in the wind. They had not yet caught the direct man scent, but they saw me. All three stood bolt upright on their hind feet and rubbered. You can fool almost anything more easily than you can fool a grizzly bear, and you may imagine that I played the game with zest and tried to hold m body steady.

Unable to make out what I was, they dropped on all fours and gradually approached. A large fallen tree lay between us, and soon this hid them from view. I watched it breathlessly.

Presently a snout and two bright eyes appeared noiselessly above the log and then the whole head and shoulders, as the leader reconnoitered. Then a second head appeared beside him, but thelader was not yet satisfied, and placing his paw over the other bear's snout, gently pushed him back. How I wanted to laugh!

At some signal, invisible to me, the other two bears arose and all three scrambled over the tree trunk. They were but a short distance away and yet I heard not so much as the scratch of a claw on the bark.

Nearer and nearer they came until the leader was not over ten feet away. Then, catching the man scent and losing courage, or having sufficiently satisfied their curiosity, they turned and shambled off.

I heaved a sigh, not of relief, but of regret that it was nearly dark and I had no camera in my hands. Ah, what a picture that would have made! But pictures of grizzlies are not so easy to get. If they were, half the fun would be gone.

The black bear is a most interesting animal to study and to hunt with the camera. But, unless you know their habits you might search the mountains over and never see one. The only way is to wait for them to come to you.

They are omnivorous animals, with a great fondness for certain roots and grasses and for berries. The black bear is very intelligent and interesting and one of the most humorous animals in the world. He has given me many a hearty laugh. These bears will never attack unless first molested. If disturbed they usually run away and they certainly can run. For a short distance they can beat a horse in the open, and in the woods nothing can catch them.

Black bears have a funny code of etiquette in their dealings with each other. If one or more of them are feeding in a huckleberry patch and a newcomer arrives the latter does not notice them at first, though they look at him.

Very carefully he ignores them until he has been in the patch for some little time, when he looks up in apparent surprise and expresses recognition for the first time, as much as to say: "Why, my dear sir, I beg your pardon. I did not see you when I arrived. I certainly would not have intruded had I known you were here."

The black bears are afraid of the grizzlies. The latter come out to feed at dusk, when the former sneak quietly off. I have seen some very amusing instances of this. The only satisfactory way to photograph grizzlies, therefore, is by flashlight.

I have known the grizzly bear pretty intimately for twenty-five years and I consider him the most intelligent of our wild animals. I have known him to circumvent his human hunters time and again by sheer cleverness and brains. I am positive that he reasons, John Burroughs to the contrary notwithstanding.

I hunted grizzlies with my camera from Alaska to Wyoming, but partly because bruin was too smart for me and partly because of defective apparatus I had little to show for it.

When I found that the wire across the trail did not work, I tried a thread, but I found him too sharp and wary to go against the smallest thread or wire. He couldn't possibly see it, but he could smell it. Finally I got one picture, not because the bear ran into the thread, but because he became a little more inquisitive than usual and set off the flash with his nose.

REICHSTAG RESUMES.

Berlin, Jan. 8.—The sessions of the reichstag were resumed today after the Christmas vacation. Some routine business was followed by an interpellation relating to the improvement in the situation of the working and middle classes of Germany.

THE MARKET IS WEAKER

Copper Shares Quiet After Several Days of Activity.

Copper Gulf Company Buys 1,000 Acres of Land.

A weaker undertone prevailed today in the copper stock market. After the activity of the past several days, the shares were very quiet. North Butte opened at $45, advanced to $45.50, went off to $45 and closed at $45 bid and $45.25 asked. Amalgamated opened at $49, advanced to $49.37½ and went off to $48.25 and closed at $49 bid.

Greene-Cananea opened at $7.25, went off to $7 and closed at $7.12½ bid and $7.25 asked. Butte Coalition opened at $16 bid, went off to $15.75 and closed at $15.75 bid and $16.12½ asked. Calumet & Arizona opened at $105 bid and $106 asked and closed at $104.50 bid and $106 asked. Anaconda opened at $39.50 and closed at $39.50 bid.

Superior & Pittsburg sold at $12.62½, declined to $12.12½ and closed at $12.25 bid and $12.37½ asked. Globe sold at $7.25 and closed at $7.12½ bid and $7.25 asked. Denn-Arizona sold at $4.37½, went off to $4.12½ and closed at $4.25 bid and $4.37½ asked.

Butte & Superior sold at $1.50 and closed at $1.37½ bid and $1.50 asked; Calumet & Sonora at $8.50 and $8.25 and closed at $7.75 bid and $8 asked.

Black Mountain sold at $4.62½ and closed at $4.37½ bid and $4.62½ asked.

• • •

It is learned that the Copper Gulf company, in which concern many Duluthians are interested, has just purchased 1,000 acres of mineral land southwest of Silver City, N. M.

The newly acquired property of the Gulf people lies in the Burro Mountain district, and near by are the mines of the Chemung and Comanche companies.

ATTENTION

CAMP JOHN G. McEWEN

The funeral of our late Comrade William Melby will take place Thursday, Jan. 9th, at 2 p. m., from his late residence, 405 First Avenue west. All veterans of the Spanish-American war are urgently requested to be present.

COMMANDER.

THOSE WHO HAVE PASSED BEYOND

St. Paul, Jan. 8.—(Special to The Herald.)—Mrs. George C. Cook, aged 70 years, mother of Mrs. F. B. Kellogg, died, at Mr. Kellogg's home, 633 Fairmount avenue, here, today. She had been ill with bronchial pneumonia. Mr. Kellogg is attorney for the creditors in the Chicago Great Western receivership proceedings, which are pending in the United States circuit court today.

Pittsburg, Jan. 8. — Mrs. George A. Gormley, 60 years old, a prominent woman in social circles and a daughter of Gen. Alexander Hays, died at her home, in Sewickley, today, following a stroke of paralysis several weeks ago.

Nashville, Tenn., Jan. 8.—Capt. Daniel Ellis, aged 79, the celebrated Union scout of East Tennessee, is dead, at his home near Elizabeth, Tenn. During the Civil war the confederacy set a price on his head, but he nevertheless succeeded in piloting thousands of East Tennessans and Western North Carolinans through the confederate lines to Kentucky, where they joined the Union regiments. He was also a veteran of the Mexican war.

Kansas City, Mo., Jan. 8.—J. D. Robertson, president of the Interstate National bank of Kansas City, and for many years prominent in business circles here, died, yesterday, at Levenworth, Kan.

New York, Jan. 8.—Word has been received in this city of the death, at Menfone, France, of George Worthington, bishop of Nebraska, who recently took charge of all the Episcopal churches on the continent of Europe, where he succeeded Bishop Potter, who resigned.

If You're Wise

You will start the New Year right by buying a Watch at Esterly's. We have always shown our ability to cut under the other fellow's price, and just now our 20 per cent Off Watch Sale is creating something of a sensation.

ESTERLY

Spalding Hotel Jeweler. 425 W. Superior St.

CITY BRIEFS

Melby Funeral.

The funeral of William Melby, who died last week at Santa Fe, N. M., will be held at 2 p. m. Thursday at the home of his parents, 407 First avenue west.

"Education Among Jews."

Rabbi Louis Grossman, D. D., of Cincinnati, the famous speaker on Judaism, will deliver an address on "Education Among Jews" under the auspices of Temple Emanuel, at the Temple, Seventh avenue east and Second street, tonight.

Will Destroy Booze.

County Attorney Norton has been making a collection of the booze sold in the blind pigs that have been put out of existence during the past year and has a large assortment of the firewater in bottles and kegs that will be destroyed in the near future. Practically all the confiscated "stuff" came from the range, where the campaign has been active against the blind pigs.

White Sales.

Gray-Tallant company's white sale undersells all others—that's why the crowds are greatest there!

Court Refuses Restraining Order.

Judge Dibell has denied a motion for a restraining order made by the plaintiff in the Peterson divorce case, prohibiting the mother from having the custody of her two children during the progress of the case. During the four years that the Petersons have been separated one of the children has lived with its mother and the other with its father. After Mrs. Peterson returned from the West the two children were brought together and Peterson fears that his wife will leave with the younger child before the divorce case is concluded.

Clearing House Election.

The Clearing House Association of the Duluth Board of Trade held its annual election this morning on the floor of the board, and the following directors were named to serve during the ensuing year: G. G. Barnum, S. H. Jones, J. F. McCorthy, John Miller, Walter C. Poehler, G. H. Spencer and J. A. Todd.

See Gidding's Ad.

On page 2. It offers fashionable winter coats at near-to-nothing prices. • • •

Come Again.

Our white sale is too big to be comprehended in one visit. You see lots of new bargains every time you come. Come again tomorrow. Gray-Tallant company.

Will Install Officers.

Alpha council, Modern Samaritans, will hold a grand installation at the council chamber in Elks' hall Thursday evening.

Mrs. T. G. Frerker Dies.

Mrs. T. G. Frerker died this morning at St. Mary's hospital after an illness of three weeks. She was 42 years of age and is survived by a husband and one daughter. The funeral arrangements have not been made.

Buying Crowds.

Duluth's greatest white sale is in full sway at Gray-Tallant company's. Share in the good things offered there.

Jury Excused, Lawyers Argue.

The jury in the Clark-McManus case was excused this morning while the attorneys argued over the motion of the defendant for a dismissal. In case the court denies the motion the trial is likely to be resumed before the jury this afternoon.

Court Directs Verdict.

A directed verdict for $600 in favor of the plaintiff against the defendant was returned in Judge Ensign's room this morning, in the case of the Bank of Galesville against William P. Vietch. The suit was brought to recover balance alleged to be due on a promissory note for $1,800.

Best White Bargains.

Compare if you like, compare goods, compare prices. We undersell them all on sheetings, white goods, linens, laces, embroideries and under muslins. Gray-Tallant company.

Case Reaches Jury.

The presonal injury case of Charles Bolda against the Minnesota Land & Construction company was given to the jury this noon. The trial was begun Tuesday morning. Bolda was injured while in the defendant's employ and demanded damages.

Damage Case Dismissed.

The case of Harry E. Pomeroy, administrator, against the Duluth Street Railway company was dismissed in the district court this morning. The suit was brought to recover damages for the death of a child that ran in front of a street car on West Third street last summer.

Arrested at Depot.

Matt Carpenter, wanted at Chisholm to answer to a statutory charge, was arrested as he was alighting from the Missabe train today by Detectives Schulte and Irvine. Carpenter will be held here until the authorities arrive from Chisholm.

Petition in Bankruptcy.

Malcolm MacAskill of Duluth has filed a voluntary petition in bankruptcy in the federal court. Liabilities are placed at $600, with no available assets.

PERSONAL

V. P. Prince of Eveleth is at the McKay.

R. W. Kohst of Ely is at the McKay.
Mrs. S. A. Prince of Eveleth is at the McKay.
Mrs Choen of Biwabik is at the Lenox.
George Holmes of Ely is at the St. Louis.
Henry Chinn of Ely is at the St. Louis.
E. C. Kleffman of Hibbing is at the St. Louis.

Selected real estate mortgages for sale. W. M. Prindle & Co.

MRS. M'ARTHUR ARRAIGNED.

Given Twenty-Four Hours to Plead to Forgery Charge.

Mrs. Laura McArthur, indicted for forgery in the second degree, was arraigned today in the district court and will be given until tomorrow to plead.

Mrs. McArthur is charged with having forged David Curry's name to a check of $175.

Snes Contractor.

The case of M. P. Doyle against Hugh Steele is being heard this afternoon in the district court.

Doyle claims that he has $1,200 coming to him for some work done by him on a sub contract on the Robinson street paving job.

Farm Lands.

For sale—E. T. Merritt, traveling passenger agent for the Union Pacific railroad, will be in Duluth on Jan. 6, 7 and 8, at room 405 Palladio building, and will be pleased to meet all of his old friends, and others who would like to secure a home in Northern California, on a five, ten or twenty-acre tract, where the fancy peach, apple, pear, grape and other market fruits grow. He will tell you how you can make a delightful and profitable home at very low cost.

INNING FOR DEFENDANTS

Thomas Mulligan Witness in Wisconsin Grain Company Case.

Examination Attempts to Implicate Chicago Board of Trade.

St. Paul, Jan. 8.—(Speeal to The Herald.)—The defense had an inning today in the case of the government against George W. Wood, L. A. Wood, F. B. Wood, L. C. Wood, Paul Foss and Charles Kelly, alleged officers of the Wisconsin Grain & Stock company, charged with perfecting and carrying into action a scheme to defraud through the medium of the United States mails, in attempting to show that the present litigation is the result of the enmity previously existing against them by the Chicago board or trade.

This declaration was made during yesterday morning's session, and at that time Charles C. Houpt, government district attorney, objected to any such inference being drawn, as he said that the government had undertaken the prosecution in the regular course of its business. There was an apology on the part of Mr. Lind, of defendant's counsel, who explained that he did not wish to cast discredit on the motives of the district attorney, but he insisted that the events leading up to the prosecution would indicate that the Chicago board of trade had taken the initiative in gathering evidence for the government.

Thomas J. Milligan, who took the stand yesterday afternoon, occupied the witness chair all during the forenoon session today, and testimony tending to connect the Chicago board of trade with an interest in the case was elicited from him under cross-examination by Judge Luse, of defendant's counsel.

Took "French Leave."

Milligan had stated that he left the employ of the Wisconsin Grain & Stock company last year. Under cross-examination it developed that he took "French leave." He simply failed to report the next morning.

"How did you happen to go to Chicago?" asked Judge Luse.

"I was asked by Mr. King if I would not like to go. This was on the Thursday previous to the Saturday on which I left," was the witness's answer.

"Where did you see him?" asked counsel.

Witness said that he met him in his room at the Ryan hotel. Bixby, another of the government's witnesses, was also there at the time.

"This man King was at that time a postoffice inspector and had formerly been employed as a detective for the Chicago board of trade, was he not?" queried the attorney for the defense.

Mr. Milligan said that he understood such was the case.

"When did you first see this man King?" was the next question.

Witness said that he first met him in the office of the Wisconsin Grain & Stock company. Postoffice Inspector Ketchem was with him at the time. Mr. Quigley told him that "these gentlemen" wanted to get some information, and to give them what they wanted.

It developed that Mr. Ketchem introduced the witness to his companion.

"Under what name did Mr. Ketchem introduce this man King to you?" asked Mr. Luse.

Did Not Hear Name.

Witness said that he did not know. He did not believe that he heard the name.

"Can I refresh your recollection on this subject?" asked counsel.

Mr. Milligan said that he did not know how his memory could be refreshed if he had not heard the name.

"Was he not introduced to you as Mr. Bell?" asked Mr. Luse.

Witness denied that such was the case.

"If you did not hear the name why are you so positive that it was not Bell?" asked defendant's counsel.

Witness did not answer.

Further questioning showed that King had called at the witness' house on the evening of his departure for Chicago.

"When you met Mr. King at the Ryan hotel, did he ask you any questions about the business of the Edwards Wood company?" asked Mr. Luse.

Witness said that he did not remember.

Memory Refreshed.

Judge Luse then read from the witness' testimony at the preliminary hearing, in which he had stated that King had asked him questions.

"Did King guarantee you a position in Chicago in case you went there?" asked Mr. Luse.

Mr. Milligan denied that such was the case. He said that King had remarked that he would help him to get a position, if he was unable to get one himself.

Judge Luse then read further from the previous testimony of the witness, in which he stated positively that King had guaranteed him a position.

"Well, that answer is wrong," declared the witness.

In answer to other questions, witness said that he had been getting $25 a week with the Wisconsin company and that he got $27.50 a week with Minor & Co., members of the Chicago board of trade, with whom he was connected as an employe. He had been with them ever since he was in Chicago.

Although the witness had stated that King did not get him the position, he afterwards admitted that King had given him a letter of introduction to one Schuyler, who had in turn taken him to Minor & Co.'s offices.

Come Again.

Our white sale is too big to be comprehended in one visit. You see lots of new bargains every time you come. Come again tomorrow. Gray-Tallant company.

Quick Disposal Sale

Owing to the mild weather, and consequently, the exceptionally heavy selling of tailored suits, J. M. Gidding & Co. have decided to place on sale, many lines of coats at the greatest reductions ever given in this class of merchandise. These coats are not a few passe styles, dear at any price, but fresh stocks, which arrived with this fall's first snow flakes. Their advertisement on page 2 tells news of startling reductions. • • •

MR. GOSLINGTON'S TOOTHACHE.

New York Sun: "If I had my choice," said Mr. Goslington, "between riches with pain and poverty without pain, I'd take painless poverty, every time; money is a good thing, but health is better.

"I am prompted to these few remarks by a siege of toothache recently endured, which kept me in misery day and night for thirty-eight hours. Ever had a real hard toothache? If I had an enemy I could wish him nothing worse.

"Mine began at 6 p. m. of a Sunday, and from the start it made me shrink and shudder and I had no thought but for it. The doings of other people and of the world in general interested me no longer, my toothache engrossed me completely, and all I could do was to sit and hold my head and suffer.

"I did think I could forget it when I went to bed, for I am a good sleeper, and I had no doubt I could sleep, even now, and so be rid of it for a time; but that only shows how little I knew about hard toothaches, for no sooner had I stretched myself out than the ache got busier than ever.

"While I was up and around among folks my mind was, at least in some slight measure, involuntarily distracted from it, but when I laid me down in the silence and solitude of my chamber the toothache simply claimed me wholly for its own, and now it let out another link of pain and all I could do was to lie there and suffer.

"And still on that first night I did get a little sleep; slept from 11 to 12, one hour, awaking then to find the pain still there, while I could do nothing to stop it. Occasionally, in my futile effort to obtain relief somehow, I would sit up on the edge of the bed and at 1 o'clock I got up and sat up until 2 and read and then lay down again, the tooth still aching just the same, and lying thus, suffering, the hours went slowly by. In the prevailing stillness of the night I heard hour after hour the town clocks of our neighborhood strike, while, over the ocean of silence there came faintly the steady wailing of an infant in some distant house. All the rest of the world was asleep, all but me—my portion was to lie there awake and suffer.

"At 4 o'clock I got up and partly dressed, went out in the sitting room and sat in the big chair and read some more, the tooth still aching just the same; and sitting there at last I fell asleep again at 5:30, to sleep until 7. So on that first night I got two and a half hours sleep, but from that second nap, caught in the big chair, I woke to find the tooth still aching and with the ache quite undiminished.

"It so happened that I had an appointment with my dentist for 3:30 that day, an appointment made some time before for work to be done in the ordinary course, and so I waited for that time, in the meantime suffering through the day. "What the dentist did for me he said ought to give me relief in twenty minutes, and as a matter of fact it did; and from 4 o'clock till 6 I had a respite from pain that while not complete was comforting, but at 6 o'clock the old ache dispersed into the wilderness of the past.

WM. LYNCH, Mgr.

218 WEST SUPERIOR ST.

W. D. HUBER IS IN THE CITY

National President of Carpenters' Organization Arrives in Duluth.

Is Accompanied by F. J. Kennedy and W. G. Schardt.

W. D. Huber of Indianapolis, Ind., general president of the national organization of carpenters; W. G. Schardt of Chicago, general chairman of the executive committee of the Carpenters' union, and F. J. Kennedy, national organizer for the Plumbers' union, arrived in the city today from the East. Mr. Schardt was in Duluth before the holidays, but this is the first visit of the other two during the present labor trouble.

From now on the campaign against the open shop movement on the part of organized labor will be very active. Other outside labor leaders, in addition to those already here, will probably arrive during the week, and all will do what they can to help the unions along in the fight. They bring promises of financial support, and in some instances, as with Mr. Schardt, bring a bunch of money along with them for distribution among the men who are locked out.

The feature of the week will be a mass meeting, to be held in the Grand Opera house at Superior, tomorrow night. A similar meeting would have been held in Duluth this week, but no suitable halls were available. One will be secured next week, however. Tomorrow's meeting will have a strong list of speakers, and many Duluthians will be in attendance. Among the speakers will be Mr. Huber, Mr. Schardt, W. E. McEwen, A. G. Bainbridge, George B. Hoxley and F. J. Kennedy. All these men are high up in labor circles, and their remarks promise to be interesting.

"Duluth and Superior ministers and everybody else are cordially invited to attend the Superior meeting," said Mr. Howley, this morning. "We also extend Dwight E. Woodbridge a hearty invitation to be on hand. The meeting is open to all, and if Mr. Woodbridge, or any other advocates of the open shop wish to engage in debate before the meeting on the subject in hand, we shall be only too glad to accommodate them. It seems rather queer to us that these men of good education, claiming, as they do to have the best of the argument all the way through, are afraid to get up in public debate with a laboring man of practically no education."

Labor leaders say they have no intention of accepting the invitation extended by the ministers to speak before them next month. They maintain that it is very unreasonable to make them wait an entire month after the open shop advocates have explained their side of the case before being able to present an argument in favor of the union shop.

Modern Samaritans

Alpha Council, No. 1, Samaritan Degree will install officers for 1908, Thursday, at 8 o'clock, p. m., at Elks' Hall.

F. A. NOBLE, G. S.

Attest: WALLACE P. WELBANKS, Scribe.

ESCAPED PRISONER RETURNS VOLUNTARILY.

Shakopee, Minn., Jan. 8.—(Special to The Herald.)—Thomas Nee, who escaped last night, returned to jail voluntarily this morning, just at breakfast time. He went into the country five miles, where he slept in a strawstack. During the night he attempted suicide by using strips of a horse blanket for a noose, but this required so much effort that he gave it up and finally he decided to return to jail.

KANSAS BANK IS ROBBED OF $8,000.

Ottawa, Kan., Jan. 8.—Robbers early today wrecked the safe in the State Bank of Quenemo, at Quenemo, Kan., near here, with dynamite and escaped with its entire contents, estimated at between $7,000 and $8,000. The robbery is believed to have been committed by four men.

Is Granted Patent.

J. R. McGiffert, secretary of the Clyde Iron works, has been granted a patent for a new skidder, which is said to be a marked improvement on all other contrivances of the kind. He has disposed of his patent to the Clyde Iron works.

PAWN WEDDING RINGS.

Queer and Pathetic Reasons Given by Husbands and Wives.

Chicago Tribune: One thousand wedding and engagement rings are pawned every year in Chicago, which will be a sad bit of information for Cupid.

Maurice Salmonson, the marriage license clerk, says that figure is outrageously high, but the pawnbrokers, who ought to know, declare twice that many emblems of the love that did not endure find their way annually into the shops whereon glisten the three balls.

One redeeming feature of this traffic, from the standpoint of Cupid and Mr. Salmonson, is that most of these rings are not pawned by women. Sometimes they reach the shylocks through thieves, and most of the time they are sold by men who would pawn their souls with them if they could raise enough by that method to buy a few more drinks or a sniff of cocaine. One in a while, though, a broken-hearted wife walks in to raise what she can on the little band that once was her dearest possession, and then it is that the pawnbroker hears a "story."

The pawnbrokers declare that dire necessity, as a rule, is the only thing that will lead a woman to part with her wedding ring. There are exceptions to this rule, however, and some of these are so funny that even the pawnbrokers, who are supposed to be devoid of anything but a desire to wrangle over the price, have to delay the negotiations long enough to give vent to their mirth. Here are a few reasons why women pawned their wedding rings according to more than a score of pawnbrokers who were interviewed on the subject:

Need of 50 cents to put a "top" on a jag.

Desire for revenge on a husband who had called her a hussy.

Need of money with which to enable a prospective second husband to buy a marriage license.

Determination to buy a revolver with which to shoot an alleged worthless husband.

Need of money to hire a teamster to haul away some household goods that had been ejected because of non-payment of rent.

Determination to sell the ring before the husband "beat her to it." The husband had pawned everything else in the house, and was declared by his wife to have his eye set on the ring.

Desire to buy a new hat with which to make a "hit" with a man whom she desired to marry after securing a divorce from her first husband.

To get rid of something that was always reminding her of a marriage that had ruined her life.

Need of money to complete a fund to buy a new wedding ring after the first was one discovered to be an imitation.

Desire for enough money to buy whisky with which it was proposed to "forget" a good-for-nothing husband.

Determination to recover the money she had originally paid for the ring.

Joseph Cohen, a pawnbroker at West Madison and Halstad streets, gave the woman who needed 50 cents to "top" her jag that amount and a little more for the ring she brought into his store one night.

"I did not learn her name," said Mr. Cohen, "as she wanted to sell the ring and would not listen to a proposition to pawn it. I did not like to let her have the money, as she told me she had been drinking and that she had gone broke before finishing her spree. She said she needed just 50 cents more to 'top' off her jag, as she called it, and declared that if I did not buy her ring she would sell it somewhere else. I asked her why she thought it necessary to continue drinking and she said it would be a shame to let a jag like hers go to waste without 'topping' it off. Finally I gave her 75 cents for the ring and told her that she could have it back for that sum whenever she cared to have it. The ring had the wards 'Ruth' and 'Frank' on the inside, and although I kept it several months she did not come for it. She said at the time that her husband had left her anyway and that she did not care whether she kept the ring or not, as it had no meaning to her any more."

It was Mr. Cohen, also, who bought the ring from the woman whose husband had called her a hussy. She came into his store in a great flurry one night last winter, he said, and when he objected to taking the ring on the ground that she might regret its sale afterward she replied that she didn't think it was likely that she would regret selling an old ring that had been given to her by a skate that had called her hussy.

"She was terribly agitated because her husband had called her a hussy," Mr. Cohen said, "and had made up her mind once, according to her own story, to throw the ring into the river. Later she thought she might as well realize what she could on it, and for that reason she brought it to me. As she flounced out of the store she muttered something about showing that old man of hers whether he would call her a hussy or no. That was the last I saw of her, although she promised to come back in a few days after she had taught the old man, as she called him, a lesson."

Solomon Epstein, further up Halsted street, also has had a few experiences with women who pawned their wedding rings.

"About the queerest case of that kind that I remember," said he, "was that of a German woman who came to me one night with her wedding ring. She wanted to sell it for $2, and as I was curious to know why she wanted to part with it, I asked her what had happened that she no longer cared for the ring. At first she wouldn't tell me, but finally when I told her that unless she could give me a reason for selling it I could not take it off her hands, she replied that she had been divorced from her first husband and that she wanted to get married again. When I remarked that it seemed odd that she would want to pawn her wedding ring on that account she told me that her prospective second husband did not have money enough to buy a marriage license and that she was afraid of losing him unless she came to his rescue. She said he had a good job, but that he did not have any money left over from his last pay day and that she was afraid he might change his mind about marrying her if she allowed him to wait until the end of the month. I gave her the $2 and wished her success. That was the last I saw of her."

Nearly all of the Halsted street pawnbrokers have bought wedding rings from women who gave all sorts of queer reasons for selling them. One woman rushed into Max Levi's store, at Halsted and West Taylor streets not long ago with a wedding ring that she was anxious to exchange for a revolver. While Max was making the exchange she muttered something about shooting "her old good-for-nothing wretch of a husband." After that she did not get the revolver, much to her disappointment.

Mr. Levi also told of a woman who pawned her ring in order to "beat her husband to it." She said her husband had pawned or sold every article of household goods they had owned and that he repeatedly had tried to steal her wedding ring from her finger, as she slept. One night, she said, he got it almost off before she was awakened and after that she figured she might as well sell it before he got it away from her. She left the store chuckling to herself because of her feat in "beating her husband to it," as she phrased it.

One pawnbroker remembered a woman who, three or four years ago, had sold him her wedding ring because she wanted enough money to buy a new hat. She said she intended to get a divorce from her first husband, and that, inasmuch as one of their roomers was proving susceptible to her charms, she thought it would be a good idea for him to make his presence as possible. It was only a question of time, she said, until she would be freed of the first husband, and it was her plan to smooth the way for a second matrimonial adventure.

Another woman declared to the pawnbroker to whom she sold her ring that she had bought it in the first place and that since her husband had run off she left her she had made up her mind that she could put the money that was tied up in the ring to better use. Still another wanted to get rid of the ring in order that she might forget all about the husband who had deserted her.

Some place on the West side—the pawnbroker didn't know the address—there lives a bachelor who buys all the old wedding rings he can get his hands on. Jonas Bloomstein, a broker who knows the man, said that he had a standing order for all the old wedding rings he could get. The bachelor wants them, he said, to add to a collection he is making, and he never loses an opportunity to buy a new one when he gets a chance.

"I suppose he has a fad for buying pawned wedding rings," Mr. Bloomstein said. "I tried once to get him to tell me what on earth he wanted with so many old wedding rings, and all he would say was that he was making a collection of them. He added that he was a bachelor, and, while he did not say so, I judged that he used the old wedding rings to meet the gibes of his friends whenever they tease him about being single. It might be a good idea, at that, and I am sure from the number of rings he has bought he would have an effective argument against marrying."

Most of the pawnbrokers declare that men and not women sell and pawn wedding rings. They say that usually it is the men who drink who bring in the little bands that their wives, in many instances, would not part with for worlds. The rings, unless they are set with diamonds, are never worth much, but that does not concern the men who sell them. All they want is enough to buy another drink or two, and for that reason they never stop to think of either the real or the sentimental value of the rings.

SKATER'S NARROW ESCAPE.

Crookston, Jan. 8.—R. A. Lawrence had a narrow escape from drowning, while skating on the Red Lake river. He broke through the ice, but, being a strong swimmer, managed to get out. He was completely exhausted, hindered by strong current and cold. Also being cut about the face and head by striking against the sharp ice.

SUPERIOR NEWS

LOCATED IN SUPERIOR

William Rockefeller Said to Have Lived in Wisconsin.

To Have Passed Under Name of "Dr. Gardiner."

William Rockefeller Sr., father of John D. Rockefeller, is declared to have been a resident of Superior from 1900 to May, 1904. A search for death records of a man who went as "Dr. Gardiner" in or near Madison up to 1906 is now being made on the theory that he was the oil king's father. Such a man lived in Superior, was a purveyor of patent medicines, and when on sprees told friends here that he did not have to work, but lived there to be away from rich eastern relatives.

It is claimed he lived in Superior under the name of W. A. Bradley, first at 5011 Grand avenue, and later at 1801 North Third street.

He was a man of about 75 or 80 when in this city, and after leaving here is reported to have died in Trembeuleau county in 1906.

VETOES NOT SUSTAINED.

Mayor Linley Meets With Opposition From the Aldermen.

At the council meeting last night it developed that the aldermen have adopted what are believed to be new tactics in ignoring vetoes of the mayor, which have been made public before the meeting of the council. The city solons failed in their effort to compel Mayor Linley to keep communications from the public until the aldermen had had a chance to consider them.

Veto messages last night were either voted down, or put on the table. A motion to reconsider the vote on the sale of the Stinson lands, taken at a former meeting, carried. Then the proceedings relative to the proposed sale were tabled, on a vote of the majority of the council.

One of the matters that came before the council was a letter from the Duluth fire department, returning with thanks a check for $200, which had been presented by Superior to the Zenith City firemen, for services rendered at the big fire on Nov. 3. Chief Black of Duluth explained that it would be establishing a bad precedent to accept the money, and said his department would be glad to render similar assistance whenever needed.

The weights and measures ordinance, providing for the appointment of a city weighmaster or inspector, was adopted. The salary of the inspector will be $80 a month. Joseph Morrissette has been recommended for the place by the labor unions, and it is understood he will be appointed.

On his own recommendation, City Attorney McIntosh was directed to take an appeal to the supreme court in the Pittsburg and Hanna Coal company cases, involving several thousand dollars in the way of taxes. A communication from the Northwestern Fuel company, requesting the council to strike from the tax rolls an assessment of $5,000, placed on railroad coal found on their docks, was tabled. Supt. Elliott of the Pittsburg Coal company, at the request of Mayor Linley, gave the aldermen some pointers on what might be done relative to a bridge across Nemadji river, at West Fourth street.

Will Consider Office.

Alderman Andrew Elkstrom declined, when first asked last night at the meeting of the city council, to fill out the unexpired term of A. J. Wentzel as city comptroller, but when urged by Mayor Linley, agreed to consider it for a week.

Comptroller Wentzel resigned yesterday afternoon to take up the duties of cashier in the Union Commercial and Savings bank on Feb. 1. Mr. Wentzel has been city comptroller for nearly two years, having been appointed by the mayor to fill the office left vacant by the death of James J. Surch in 1906.

Meet After Five Years.

After a separation of five years, William and Jane Skeldon, brother and sister, met yesterday at the Lake Superior mission, as the result of a newspaper story telling of the arrival of the girl from England, and her search for her brother. The man, who was working in a lumber camp, saw the story and came to town, finding little trouble in locating his sister.

Court Adjourns.

Following the calling of the calendar, yesterday morning, the superior court adjourned out of respect to the memory of the late Chief Justice Cassoday of the state supreme court. During the hour the court was in session several cases were set for trial, and two suits were continued over the term. They were those of Ellen J. Keaugh against the City of Superior, and Eldora A. Chase against the Northern Pacific.

Held to Superior Court.

Pat Farrell and George Goodwillie, charged with having tried to pass "phony" money, were held for trial at the present term of superior court, at the close of their preliminary hearing in municipal court yesterday. In default of $300 bail, each of the defendants was remanded to the county jail. C. P. McDonough, a saloon man, is complaining witness in the case.

WIVES AS WAGE EARNERS.

Are They Crowding Out the Unmarried Women Nowadays?

Now the married woman who is a wage earner is up for criticism. The charge is made that she is crowding out unmarried women who are obliged by circumstances to earn their own living, says the New York Sun.

A woman well informed as to the condition of the labor market says that more young women than usual are registered at the various employment offices, and that for this state of things married women are to some extent answerable. Another woman who for many years has been in the employment of a dry goods concern reports that the number of married women working for the firm has increased rapidly in the last two years.

A dozen years ago, this second woman said, a woman with a wedding ring worked in the establishment the chances were that either she was a widow or her husband was ill or incapacitated from earning his living. To-day, on the contrary, the majority of the married women with whom she came into contact in business had husbands who were in good health and able to earn fairly good wages for themselves good enough to get married on, anyway.

Asked the reason for this state of things, the woman's answer was not altogether complimentary to her sex. Love of fine clothes and dislike of the comparatively humdrum routine of keeping house were the chief reasons, she said.

With few exceptions the married wage earners she knows were wage earners bfore they married and thus obtained a taste for the excitement and variety of business life. Case after case was cited by this woman to prove her point.

One illustration was a young woman earning a fairly large salary at the head almost of her department. She was pretty, stylish and a good worker. Customers made much of her and she always had plenty of attention from young men. When she was about 25 all of a sudden she made up her mind to marry a young fellow who was earning $30 a week and had the prospect of climbing higher.

"We all felt she was doing well, and the girl herself said that she was glad enough to give up working in a store and have her own home," said the narrator. "Six months later, when going through the main floor one day, I was amazed to see her behind one of the counters.

"The reason she came back? I never knew certainly, but from what her associates said I judged that she wanted more money to spend for clothes than her husband's salary would warrant. I heard that her husband was awfully cut up at her going back to work.

"Another case was a young woman who bought goods for a department and got a tiptop salary of $3,000 a year and inside of a year she accepted a place similar to that she had here, with another firm, and went back to work.

"The two live together, but they have given up housekeeping. And they have no children."

A manager of one of the large stores says that many married women apply for work who have had no previous business experience as well as many more who worked in stores before they were married, and that no discrimination is made between married and unmarried women, the main points considered being capability and pleasing personality.

A woman who paints pictures for a living declares that married women who are not at all dependent for their bread and butter and clothes on their own exertions, who in fact are well to do, in some cases are opening studios and making a bid for patronage with as much eagerness as impecunious artists. This kind of competition is particularly hard for the workers from necessity to meet, as the well to do women have the advantage in disposing of their work of such aids as money can supply.

"Think of a woman who is a millionaire or more in her own right accepting a commission at a stiff price for designs to decorate a certain section of a public building," the artist concluded, "as happened only a few months ago.

"That commission would have meant a good deal to a man with a family to support or to a bread earning women, and artists in general agree that there are plenty such who could have filled the commission fully as well as it has been filled."

The phase of the subject which most interests the persons who try to keep tabs on the ever changing conditions of the industrial situation in New York is the effect the wage earning wife has on the husband and the home. The effect in general, some people assert, is not for good to either. In other countries, France for instance, it may be different.

In this country the man with a wage earning wife sometimes loses ambition and deteriorates until he is willing to be supported by his wife. As an illustration there is cited a case of a young woman who married a young man earning $25 a week and with prospects of doubling that salary within two or three years.

Six months after marriage the bride began to chafe at the economy she was obliged to practice and proposed that she again take up certain work at which she could earn $12 a week.

The wife had her way and the husband, finding money matters easier, began to spend a little more on his own pleasures. Information concerning the nature of these pelasures came to the ears of his employers and when the time arrived when the young man expected promotion and a raise of salary another man went ahead of him.

Meanwhile his wife had increased her earnings to $15 a week and the pair had given up housekeeping and gone to boarding. Six months later the husband lost his job and after long search was obliged to work at $20 a week. Possibly the time will come when he will let his wife support him, if she will, for he seems to have lost ambition. And yet, he started out with bright prospects.

"I consider," said the student of industrial conditions, who told the story, "that the young husband's downfall is mainly due to his wife's refusal to practice self-denial, to practice economy for a year or two."

"This tendency of married women to go out and earn money is an evolution from the old condition when women who earned any money at all were looked upon as scarcely worthy of respect," Mrs. Clarence Burns said when the subject was introduced. "It is the other extreme perhaps, and extremes are never wholesome.

"George Sand and George Eliot used masculine names, because at that time there was more or less prejudice against women writers. Needless to say in these days to insure success a woman need not masquerade under a masculine name.

"In my opinion, to get down to facts, it is ill advised for a married woman to accept a business position provided her husband can support her, even if ever so plainly, and principally for this reason:

"I believe in the home. I believe in a woman's staying at home long enough in the day to create a home atmosphere, to give, in short, her best attention to her home, not even the most advanced woman.

"Now, I am advanced enough on most questions concerning women except that which has to do with the home. The rock of this nation is its homes and I believe in putting the home first.

"I'm a pretty low down sort of a man who doesn't take some pride in his wife and his home provided he is the principal breadwinner. Let the wife suggest earning money and at first the American man rebels a little. After the first year, if he yields, he is perfectly satisfied to let his wife work and the year after that he has no objection to letting her do most of the providing.

"The wife has earned, perhaps, finer clothes and daintier food, but she has lost much that most married women prize.

"Professional women have more excuse for continuing to work after marriage than business women. There is also allowance to be made in the case of persons of great talent whose work does not necessarily chain them to regular hours of work spent away from the home. But these are exceptions which have nothing to do with the hundreds of married women with husbands able to support them who now work in stores, offices and other business concerns.

"To my mind a most vital feature of the situation is that married women are displacing, or rather keeping out of employment, unmarried women who really need the work. Yes, there are thousands of young women in this city now in need of work. I know that.

"The main reason why married women want to earn money?

"It's a question of clothes principally. And there is this to be said for them: They dress more to please the men, their husband included, than to please themselves. Even the most devoted husband is apt to admire his wife more in new stylish clothes than in old dowdy duds."

SILK WORM'S MONOPOLY GONE.

Discovery of a new source of silk supply may well excite world-wide interest, inasmuch as there is no civilized country that does not use vast amounts of this most precious and beautiful of all fibers. So writes Rene Bache in the Technical World Magazine.

Limited as is the productive capacity of the silkworm, that industrious caterpillar is able to turn out only a certain quantity of the material in the course of a year—a quantity which, though large, is small relatively to the enormous demand.

Whence, of course, the high price of silk. And whence, also, the search that has been made all over the earth, during many years past, for other silk-spinning insects, to supplement by their efforts those of the much-prized caterpillar aforesaid. Experiments in this direction have even been made in the United States, where we have at least two well-known species of moths which are excellent silk-makers.

It is newly announced, however, on the authority of G. E. Eager, the American consul at Barmen, Germany, that a remarkable discovery of wild silk, produced by spinning caterpillars, has been made in the region surrounding the East African lakes, by a German resident of New York city, who, while conducting an exploring expedition through that little-known part of the world, came upon great numbers of the "nests" of the insects in question. Since then he has secured special concessions from both the English and German colonial authorities, with a view to gather the crop of wild silk, and sending it to market.

CLARK'S CRUISE OF THE "ARABIC"

15,000 tons, fine, large, unusually steady

TO THE ORIENT

February 6 to April 17, 1908.

Seventy days, costing only $400.00 and up, including shore excursions.

SPECIAL FEATURES: Madeira, Cadiz, Seville, Algiers, Malta. 19 Days in Egypt and the Holy Land. Constantinople, Athens, Rome, the Riviera, etc.

F. C. CLARK, Times Bldg., New York.

Eat and—Get Thin

Usually if you want to get thin the injunction is—stop eating and exercise—but this is unnecessary punishment for the fat folks. One teaspoonful after meals and at bedtime of this mixture: ½ oz. Fluid Extract Cascara Aromatic, 3½ oz. Syrup Simplex, will reduce the flesh rapidly and safely without causing wrinkles or interfering with the diet.

DEFECTIVE PAGE

THE MARKET HAS SLUMP

Fairly Firm During Most of the Day, But Reacts.

Flax is Little Up at the Close in Duluth.

Duluth Board of Trade, Jan. 8.—Wheat weakened at the close in the American markets today, after a somewhat irregular course during the earlier part of the day. There was a weaker undertone during the first half hour, a period of reaction during which prices became firmer and then the selling off at the close.

Liverpool closed unchanged to ⅛d higher, Budapest ½c lower and Berlin ⅝c lower.

The May option closed ⅝c lower in Duluth, Minneapolis and New York, ¾c lower in Chicago and unchanged in Winnipeg. The July option closed ⅝c lower in Duluth, Chicago and Minneapolis, ½c lower in New York and ⅛c higher in Winnipeg.

May corn closed ⅝-¾c lower in Chicago and ⅛d higher in Liverpool. May oats closed ¼c lower in Chicago.

Broomhall cabled from Liverpool: "Wheat was quiet at the start, values being ⅜d to ½d lower influenced by the weaker American cables, yesterday, and the Bradstreet's report. Following the opening, the market developed firmness, prices advancing ½d to ⅝d with lighter offerings due to the fact that a large house here supported. Toward mid-day, however, the undertone became easier and part of this advance was lost. This pressure was the result of quiet spot demand, increasing pressure of La Platta offerings and a poor demand.

"Corn was quiet with prices unchanged. The undertone was firm during the trading owing to a good demand for shipment."

Car receipts at Duluth were 45 against 54 last year, and at Minneapolis 182 against 217 last year, making a total for the Northwest of 227 against 271 last year. Chicago received 21 against 60 last year. Winnipeg received 79 against 55 last year.

Primary receipts of wheat were 482,000 bus, last year 480,000 bus. Shipments, 191,000 bus, last 291,000 bus. Clearances of wheat and flour aggregated 609,000 bus.

Primary receipts of corn were 691,000 bus, last year 862,000 bus. Shipments 386,000 bus, last year 399,000 bus. Clearances of corn were 140,000 bus.

Wheat was quiet during most of the session in the Duluth market. May wheat opened unchanged at $1.13¼, went off to $1.12⅞, rallied to $1.13⅝, went off to $1.13¼, rallied to $1.13⅝ and ranged between that and $1.12⅝ until the close which was at $1.12⅝, a loss of ⅝c from yesterday. July wheat opened ¼c lower at $1.13½ and closed at $1.13⅛, a loss of ⅝c from yesterday.

Durum wheat closed ⅝c lower and cash spring wheat was selling on a basis of 3c under May for No. 1 northern.

Flax was quiet, but closed with values slightly up. May flax opened ¼c lower at $1.22¼, advanced to $1.22¼, went off to $1.22, rallied to $1.22⅝ and closed at $1.22½, a gain of ¼c over yesterday. July flax opened unchanged at $1.23¾, advanced to $1.24 and closed at that price, a gain of ¼c over yesterday.

Coarse grains were unchanged.

Following were the closing prices:

Wheat—No. 1 hard, on track, $1.11⅛; to arrive, No. 1 northern, $1.09⅝; No. 2 Northern, $1.07⅛; on track, No. 1 northern, $1.09⅝; No. 2 northern, $1.07⅛; May, $1.12⅝; July, $1.13⅛; No. 1 northern, in store, $1.08⅝; No. 2 n orthern, in store, $1.05⅞; durum on track, No. 1, 89⅞c; No. 2, 87⅞c; May durum, 92⅞c; July durum, 93⅞c. Flax—To arrive, $1.18½; on track, $1.18½; May, $1.22½; July, $1.24. Oats—To arrive, 48½c; on track, 48½c. Rye, 74-78c; barley, 65-95c.

Cars inspected—Wheat, 45, last year, 51; oats, 12; barley, 1; flax, 18, last year 24.

Receipts—Wheat, 130,285; oats, 16,745; barley, 5,538; flax, 37,718.

Shipments—Wheat, 3,000; oats, 7,500; barley, 9,182; flax, 833.

THE CHICAGO MARKET.

Wheat Weak, Due to Lower European Prices, With Free Selling.

Chicago, Jan. 8.—There was only a moderate trade in wheat at the opening, today, and the market was weak, due to lower prices in European markets. Some of the large commission houses sold freely. May opened a shade lower to a shade higher at $1.06¼ to $1.06⅜ and sold off to $1.05¾. Minneapolis, Duluth and Chicago reported receipts of 246 cars against a holiday last week and 340 cars a year ago.

The market rallied temporarily on reports of large sales of cash wheat. On the advance May touched $1.06⅞. A reaction followed and the close was weak, May being off ¾c at $1.05½@⅝.

The corn market was quiet and weak. Favorable weather for the movement of the crop and larger receipts than estimated were the principal influences. May opened a shade to ⅛@¼c lower, at 61¾c to ½c and sold off to 61c. Local receipts were 164 cars with none of contract grade.

Corn gathered strength along with wheat. May sold up to 61½@⅝c. The market also weakened later with wheat, and the close was at the bottom, with May off ⅝@¾c at 60⅞c.

There was but little trading in oats and the market was steady. May opened unchanged at 54¾c and sold at 54⅝c. Local receipts were 67 cars.

Provisions were quiet. The market was easy at 5c decline in the price of live hogs causing some selling by local packers. May pork was off 17½ a; $13.55; lard was 7½c lower, at $8.17½; ribs were down 5c at $7.37½.

Close: May, $1.05½@⅝; July, 98c; September, 94⅞c. Corn, May, 60⅞; July, 59⅝@½c; September, 59¼. Oats, May, old, 54½c; May, 52¾c; July, old, 48⅛c; July, 46⅞c; September, 40⅛c. Pork, January, $12.95; May, $13.55@13.57½. Ribs, January, $6.97½; May, $7.32½. Lard, January, 7.87½; May, $8.12½. Rye, cash, 83½c. Barley, cash, 88c@$1.04. Timothy, March, $4.70. Clover, March, $17.25. Cash wheat, N

2 red, $1.01¾@1.03⅞; No. 3 red, 98¾c@$1.01⅞; No. 2 hard, $1.03¾@1.07⅞; No. 3 hard, 99¾c@$1.06; No. 3 spring, $1.04@1.13. Corn, No. 2, nothing doing; No. 3, 57@½c.

GRAIN MOVEMENT.

Annual Report of Minneapolis Chamber of Commerce Being Prepared.

Minneapolis, Minn., Jan. 8.—The report of the Minneapolis Chamber of Commerce for 1907, now being prepared by Secretary John F. McHugh, shows that the total grain movement to Minneapolis last year was 144,399,070 bushels. In 1906, it was 130,403,670.

The detailed movement in the two years was as follows:

	1907 Bus.	1906 Bus.
Wheat	86,030,950	80,694,580
Corn	6,151,560	3,939,640
Oats	19,765,010	23,293,770
Barley	20,023,820	10,642,050
Rye	1,940,340	1,624,570
Flax	10,387,350	10,209,060
Totals	144,299,070	130,403,670

New York Grain.

New York, Jan. 8.—Close: Wheat, May, $1.12¼; July, $1.05¾. Corn, May, 69⅞c; July, 68⅝c.

Minneapolis Flour.

Minneapolis, Jan. 8.—While reports are somewhat mixed on the flour market business as a whole, is said to be quiet, although rumors of good flour sales made on the decline were circulated without satisfactory confirmation. Buyers remain conservative but light supplies keep the min close touch with the market. Shipments, 43,827 barrels. First patents, $5.70@5.80; second patents, $5.60@5.70; first clears, $4.30@4.40; second clears, $3.50@3.60.

Grain Gossip.

Logan & Bryan, Chicago: Wheat—The close shows ¾c net loss for the day, exactly the same as yesterday's decline shows. There was an absence of important new of all kinds for the day. Liverpool showed a fair degree of firmness at the close, continental markets lower. Argentine news continues most favorable. There is practically nothing doing for export and this discourages buyers. Kansas City reported northern houses buying cash wheat there and interior mills taking the offerings of Kansas wheat. Dullness was against the price from first to last.

Corn—There was some change in sentiment in the local corn trade from bullish to bearish, due to one feature alone. A few Central Illinois points reported the shellers were all ready waiting for roads to improve when a big lot of corn would be rushed forward. At the same time weather not cold enough to make good roads. The market will depend in the near future entirely on the volume of receipts and these will be regulated by the weather.

Cash houses again sold May oats against country offerings. The market is too narrow to be inviting to the public.

Provisions—There was an effort at the close to make the market show weakness and list prices were about at the bottom for the day.

THE PRODUCE MARKETS.

Although prices hold firm on the same level, a slight increase in receipts has caused a little easier feeling in the poultry market. Receipts are expected to keep up from now on, and prices recede to the level they maintained before the holidays.

There is an easier feeling in pork, although the prices are the same.

NOTES TO AMOUNT OF $8,000,000

Issued by Chicago Great Western, Fall Due This Year.

New York, Jan. 8.—The Chicago Great Western Railroad company has outstanding notes to the amount of $8,000,000, which fall due this year. President Stickney and C. A. Severance of counsel for the company went to London a few weeks ago to endeavor to make some arrangement with the noteholders by which the appointment of a receiver could be avoided. It was hoped to refund the notes by a bond issue and to secure foreign capital to supply the company's urgent needs. The Chicago Great Western's stock and bonds are largely held abroad.

London, Jan. 8.—Mr. Stickney, addressing the noteholders here today, explained the circumstances of the railroad. He dwelt upon the financial conditions in America, which interfere with the payment of the 5 per cents that mature during this present year.

The decision of the finance committee met with the approval of the noteholders. Only one interested firm, which has made large sales of the notes maturing in March, opposed the receivership and proposed a different plan.

After the meeting President Stickney said:

"The Chicago Great Western fortunately has no mortgage. It issued a lot of notes which matured during a time of financial depression, as usually is the case, and consequently we could not pay them. A great majority of the noteholders were perfectly willing to extend the time of the notes, but some of the holders could not be reached and it was uncertain what they might do.

The committee thought it best, under the circumstances, to place the property in control of the court during the time necessary to issue first mortgage bonds and sell them. In ordinary times it would take three months to issue and sell these bonds, but how long it will take to sell them under present conditions, is problematical."

Mr. Stickney will return to the United States by the Mauretania, which leaves Liverpool next Saturday.

TWO MEN KILLED ON MILWAUKEE CROSSING.

Milwaukee, Jan. 8.—Two men were killed and a third narrowly escaped death when a passenger train on the Superior division of the Chicago, Milwaukee & St. Paul struck a wagon in which the three men were riding, at a grade crossing on the Hopkins road, a mile and a half south of North Milwaukee today. The dead are:

Edward Swan, 747 Twenty-first street, Milwaukee.

Carl Hackbarth, 2428 Kilbourn avenue, Milwaukee.

Charles Zenz, escaped by jumping from the wagon before the crash came.

PEACE DECLARED.

Williams and De Armond Patch Up Their Differences.

Washington, Jan. 8.—In the presence of the entire house, Representative Williams of Mississippi and Representative De Armond of Missouri, whose physical encounter on the floor of the house, just before the Christmas adjournment attracted attention, today engaged in an exchange of amenities, which was generally accepted as a public announcement not to permit personal differences to interfere with the courteous discharge of their public duties.

IN ADDRESSING ENGLISH ROYALTY.

Philadelphia Bulletin: "When I first met the prince of Wales," said a Washington diplomat—one of those odd, thin, foreign gentlemen with upturned mustaches, a monocle, a frock coat and white gaiters—"I called him 'Your Royal Highness.' To my surprise, he frowned and said:

" 'Address me as "sir," if you please. It saves time, and I prefer it.'

"Meeting the king, I was profuse with 'Your Majesty.' But the king held up his hand and smiled urbanely.

" 'Only "sir," ' said he.

"Of course you know that the queen is simply called 'ma'am.' "

You may know more about real estate hereabouts in half an hour from now—if you spend that time reading the ads.—than anybody else who has not read the latest ads.

FIRMNESS IN STOCKS

At the Close, After Sharp Rally Occurred in Sugar.

Pressure Early on Disappointment Over Northern Pacific Dividend.

New York, Jan. 8.—The opening prices of stocks today showed irregular changes from last night, which were narrow for the active issues. The volume of business was small. Mackay companies rose 3; Minneapolis, St. Paul & Sault Ste. Marie, 1⅜; Pacific Mail, 1, and Kansas & Texas preferred, ⅝. Canadian Pacific declined 1⅛.

Some sharp gains were recorded before the liquidation of American Sugar and Northern Pacific resulted in the entire list falling sharply. American Sugar lost 2 points, American Tobacco preferred 2⅝, Northern Pacific, Northwestern and Great Northern Ore Cetificates 1½ and Cleveland C. C. & St. Louis and Utah Cupper 1. Earlier gains had been made of 1¾ in Granby Mining and 1 in Great Northern preferred, Wisconsin Central preferred, General Electric, and American Cotton Oil. The market rallied a fraction at 11 o'clock. American Ice gained a point.

Prices had a brisk rally, but it was yielded again during the course of the second hour. There had been gains in Pullman of 5, Minneapolis, St. Paul & Sault Ste. Marie 3, American Linseed preferred 1¾, Delaware & Hudson and North American 1½ and Reading 1. Northern Pacific and Rock Island preferred fell 2, Federal Mining preferred 3½, Canadian Pacific 1⅝, Atchison 1¼, and Chicago Great Western, the preferred "B" Rock Island and Southern Railway preferred 1. Bonds were firm.

The decision to place the Chicago Great Western in receiver's hands had an unfavorable influence on other low priced stocks, especially Erie and Southern Railway. The announcement of only the regular dividend on Northern Pacific also aggravated the general decline in prices. Northern Pacific yielded 5½; Amalgamated Copper 1⅛, and Union Pacific and others, 1.

Selling decreased materially, but the market showed little inclination to rally outside of American Sugar which recovered its previous decline. Chicago Great Western preferred "A" rose 1 and the common declined 1¾.

The market closed irregular. Chicago Great Western preferred "B" declined 2⅛. A violent rebound in American Sugar to 3⅛ over last night conducted to a late rally in the market. Union Pacific preferred rose 2. Lackawanna advanced 15½ to 500 on the active sales of 100 share lots.

Quotations furnished by Gay & Sturgis, brokers, 328 West Superior street:

Stocks—	High	Low	Close
Atchison	69⅛	68⅛	68⅞

National Lead	40¼	40	40

Stock Gossip.

Logan & Bryan, New York, to Paine, Webber & Co.: There was considerable disappointment over the announcement of the action of a regular dividend on Northern Pacific, as an extra disbursement was expected. There was, therefore, considerable pressure and the market weakened, but towards the close rallied sharply. Chicago Great Western and Southern Railway were under pressure. Considerable profit taking was also noted in other specialties. Call money is easy and indicates a graudual improving money situation. However, we do not consider that the time has arrived to bull stocks.

* * *

Boston to Gay & Sturgis: The markets became very dull again today, and the trading element hammered most of the day. A very sharp rally in Sugar made the shorts uneasy and they brought about a firm closing, fully equal to that of last night. It is becoming more and more evident that bear campaigns are unprofitable and difficult of accomplishment. Stocks do not come out on the declines. A turn on the bull side looks like coming before the week is out. The market will not stay still.

Locally business was dull, but more stocks were wanted than were offered. We believe a rally will occur tomorrow or next day.

Chicago Livestock.

Chicago, Jan. 8.—Cattle—Receipts about 20,000; market steady to a shade lower. Beeves, $3.50@6; cows and heifers, $1.15@4.50; Texans, $3.10@3.90; calves, $5@6.75; westerners, $3.10@3.90; stockers and feeders, $2.25@4.15. Hogs—Receipts about 56,000; market 5c lower. Light, $4.10@4.47½; mixed, $4.15@4.56; heavy, $4.15@4.52½; rough, $4.15@4.20; pigs, $3.60@4.25; bulk of sales, $4.40@4.45. Sheep—Receipts about 14,000; market strong to 10c higher. Native, $3.25@5.35; western, $5.25@5.35; yearlings, $4.80@5.60; lambs, $5@7.15; western, $5@7.20.

Midway Horse Market.

Minnesota Transfer, St. Paul, Minn., Jan. 8.—Barrett & Zimmerman report: Market quiet with receipts moderate. The present fine weather is bad for the horse trade. A good lay of snow would enable the lumbermen to haul the logs which they have cut. Several lumbermen have reported that more horses would be needed as soon as they had a fall of snow. Farm horses are in liberal demand with a low supply.

Drafters, extra	$175@240
Drafters, common	125@175
Drafters, common to good	75@125
Farm mares and horses, extra	165@200
Farm mares and horses, choice	125@165
Farm mares, common to good	65@125
Delivery, choice	125@210
Drivers and saddlers	135@215

Treasury Balances

Washington, Jan. 8.—Today's treasury statement: Available cash balances, $266,574,704; gold coin and bullion, $37,534,310; gold certificates, $57,900,750.

St. Paul Livestock.

St. Paul, Jan. 8.—Cattle—Receipts, 9,600; market 10c lower; range, $4.15@4.30; bulk, $4.20@4.25. Sheep—Strong and a shade higher; quotations unchanged.

New York Money.

New York, Jan. 8.—Close: Money on call, steady, 2@7 per cent; ruling rate, 6; offered at 3. Time loans, easy; 60 days and 90 days, 6 per cent; 6 months, 6 per cent. Prime mercantile paper, 8 per cent; sterling exchange easy with actual business in bankers' bills at 4.85.5@4.85.6 for demand at 4.81 for 60-day bills; commercial bills, 4.80.75; bar silver, 57⅛; Mexican dollars, 44½; government bonds, firm; railroad bonds, irregular.

Copper Gossip.

Boston to Paine, Webber & Co.: The market closed strong and ought to rally two or three points. The traders gave the market a good test yesterday and today, but were not able to shake out much long stock. The receivership for the Great Western was a blow to confidence, but it was soon forgotten. Amalgamated has been acting better than any stock on the list, and is due for a quick jump.

* * *

Boston to Gay & Sturgis: Boston Copper shares opened irregular, soon steadied down, and the strong undertone that has prevailed for some time past was again noticeable, and some fractional gains were scored. It is plainly evident that traders would welcome a further reaction, but are cautious as to the methods they use in trying to obtain this from all weak spots. There appears to be good support throughout the list.

The Cotton Market.

New York, Jan. 8.—The cotton market opened steady at a decline of 1 point to an advance of 1 point, but firmed up during the early session and during the middle of the morning about 5 to 7 points net higher, on covering and commission house buying, part of which was believed to be for Liverpool interests. Business was very quiet on the call, but became more active later.

Spot closed quiet; middling uplands, 11.30; middling gulf, 11.55; no sales. Futures closed steady. Closing bids: January, 10.51; February, 10.60; March, 10.70; April, 10.70; May,p 10.70; June, 10.65; July, 10.60; August, 10.46; October, 10.04.

FAILURE AT FRISCO.

San Francisco, Jan. 8.—The big department store on Market street, which went under the name of Kragens, went yesterday into the hands of an assignee nominated by the board of trade. The firm is reputed to be in debt to any extent from $250,000 to $400,000.

RACING SWINDLES.

How Gang of Crooks Have Scheme to Beat Bookmakers.

The sum of money in the possession of the bookmakers in the United Kingdom is, in the aggregate, a huge one. The layers of odds are naturally extremely cute and fully conversant with the thousand and one schemes formulated by equally astute backers of horses to swindle them. Among the latter class are thousands of cunning adventurers who subsist entirely on their wits, and a sthese gentry delight to live in the lap of luxury and squander money like water when they have it—they are constantly arranging new and deep-laid plots when "hard up" to deplete the banking accounts of the bookmakers, says London Titbits.

Some extremely unscrupulous backers are to be found on the American race tracks, and a clever gang of these has lately outwitted the Yankee bookmakers to the tune of £40,000 by a sublimely audacious scheme. In all the large American cities there are numerous poolrooms in which bookmakers and backers crowd during racing hours to "bet on the tape." The tape machine ticks out the runners and jockeys for each race and the "punters" back their fancies. Merrily clicks the "ticker" in the corner, and presently "They're off" is printed on the narrow slip of paper. "Tick, tick," once more, then the winner and placed horses come through. In a short space of time the odds laid against the winner on the course are clicked out by the wonderful little instrument, and the bookies instanter pay out large sums of money to those who have backed the winning horse.

The gang of "crooks" alluded to methodically split up so that each big betting room should have a representative prior to a certain race being run, and every one of these backed the same horse for this event for as much money as could be got on with the poolroom bookies. The selected animal duly came up as the winner "on the tape," and, as the starting price was a long one, the sick-and-sorry layers of odds paid out large sums to the members of the gang who had backed it. Then the latter gleefully disappeared. A few hours later the losers discovered to their extreme amazement that the horse they had "paid out over" to the tune of £40,000 had not won the race at all. Pinkerton's world-renowned sleuth-hounds were instantly put on to unravel the mystery and speedily solved the puzzle. The "Club of Crooks" had cut the main wire from the course which served the tape machines and by installing their own telegraph instruments on the cut cable, calmly wired the horse their gang had backed through on the tape to all the poolrooms.

An ingenious scheme was successfully carried through in England a few years ago which for absolute daring is unparalleled in the history of racing. The leading sporting papers one day received a properly-arranged program of a race meeting which was to take place at a town called "Trodmore." The sender of the list of horses engaged, the weights they had to carry, and the times at which the different events were run signed his name and added, "Reporter." The races were duly run and the obliging "Reporter" sent in another interesting item to the sporting dailies. Nothing was missing, everything was in apple-pie order; evidently the reporter knew the business thoroughly. The "hard-working" and "conscientious" journalist had carefully collected the starting price of the winners and losers, and his account of the day's racing duly appeared in the papers he sent it to. This was eagerly perused with the greatest interest by a large number of bookmakers in London, and they found to their sorrow that nearly all the winners had been backed for big sums by many of their numerous clients, who were evidently expert judges of racing or extraordinarily lucky.

As the horses had started at long odds against they lost heavily. A lot of those who had been severely hit discussed the matter with their confreres. "Where was Trodmore, the place where the lucky backers had found so many good winners?" "Has anyone heard of these horses or jockeys before?" No! No one had, now they come to think about it. Many of the bookmakers had been connected with racing for nearly half a century. Detectives were engaged, and they unearthed one of the most gigantic swindles on record. It was discovered that there was no such place in England as "Trodmore;" there never had been such a meeting; there were no such horses or jockeys in existence as those mentioned in the program, and the "Reporter"—well, "his day's work was done" and "fivers" was obligingly put on for the gang by innocent waiters and hotel and theater doorkeepers in the West End, and the daring swindlers have never been traced. They vanished with their winnings.

Some racing sharps successfully robbed the bookmakers of a large sum of money at Warwick some years ago by the following ingenious method: In Tattersall's ring bookmakers are bound by the rules to pay over the horse that actually "gets" the race, so that in the event of an objection, and the runner which has passed the judge first being disqualified, they pay only over the one to which the stewards, after due deliberation, award the race. In the half-crown rings and outside the rings the bookies pay "first past the post," irrespective of objection. A crack jockey was properly and correctly weighed out by the official clerk of the scales for a certain race at Warwick on the occasion mentioned, and the horse he rode was heavily and systematically backed with bookies who pay "first past the post." The animal won easily. When his jockey went to scale, after the race, he failed to draw within fourteen pounds of what he should have done. His saddle cloth was immediately examined and it was discovered that it had been tampered with by some one after the jockey had been weighed out and several of the lead weights removed. The "winner" was promptly disqualified and the race awarded to the one which had finished second. The gang reaped a rich harvest. The jockey was, however, after due inquiry exonerated by the authorities from any blame in the matter, as his integrity was beyond dispute. Several "turfites" got into serious trouble over this affair, but the real delinquents were never discovered.

RIGHT HAND OR BOTH HANDS.

Many reasons have been advanced for the prevalence of right handedness. It is by some said to be the result of nursing and infanile treatment, to be due to early practice in writing and drawing, to be the outcome of warfare, education and heredity, the result of mechanical law and other remote causes, according to the Strand. Sir James Sawyer declares that the preferential use of the right hand is due to the fact that in primitive days man used the right hand for the purposes of offense, so as keep the heart—the vital spot—as far as possible from the assault of an adversary. Recent experiments and observations, however, prove that single handedness is merely the result of faulty or restricted education.

It is a curious instance of human contrariness that should one eye, one ear or one leg of a child show signs of diminished vigor the parents would instantly seek the cause of and, if possible, the remedy for that lamentable condition; yet for some inexplicable reason or prejudice the left hand of the average child is ruthlessly and deliberately neglected, until in mature years it is an undeveloped, useless and almost unnecessary appendage.

Careful observations have shown that out of every hundred persons born into this world eighty are congenitally ambidextrous—that is to say, they will instinctively reach for an object with either hand and only require proper instruction and training to develop both hands and arms to an equal degree of strength and skill.

Of the remaining twenty seventeen will be right handed, while the other three will show a natural bias toward the left hand. The cultivation of ambidexterity, therefore, offers no insuperable difficulties, and the economical physiological and psychological advantages are enormous.

It is said that the Japanese soldiers can use their weapons with equal skill in either hand, for they are trained to be ambidextrous from childhood. At school they are tought to write and draw with both hands. In drawing and painting no supporting device whatever is used, the entire arm being employed.

The German educational authorities, too, are at present giving considerable attention to left hand work, especially in their technical and mechanical schools. The students are taught to saw, plane and hammer as well with the left hand as with the right, and the economical and industrial importance of ambidexterity is firmly impressed upon the minds of young men and women.

Prices sagged off a little today. There are plenty of buying orders a little under the market. I look for higher prices later in the week. Pick them up on the soft spots. Money invested in Butte & Ballaklava will, I believe, give the biggest returns with the least risk of any stock in the copper list. Butte & Superior was again active at a slightly lower price than yesterday.

ORDER FOR HEARING ON PETITION FOR ADJUSTMENT OF FINAL ACCOUNT AND FOR FINAL DECREE OF DISTRIBUTION—
State of Minnesota, County of St. Louis. In Probate Court.
In the Matter of the Estate of Nick Kasanic, Deceased.
The petition of Matt Prettner, as representative of the above named decedent, together with his final account of the administration of said estate, having been filed in this court, representing, among other things, that he has fully administered said estate, and praying that said final account of said administration be examined, adjusted and allowed by the court, and that the court make and enter its final decree of distribution of the residue of the estate of said decedent to the persons entitled thereto, and for the discharge of the representative and the sureties on his bond.
IT IS ORDERED, That said petition be heard, and said final account examined, adjusted and allowed, by the court, at the Probate Court Rooms in the Court House, in the City of Duluth in said County, on Monday, the 3rd day of February, 1908, at ten o'clock A. M., and all persons interested in said hearing and in said matter are hereby cited and required at said time and place to show cause, if any there be, why said petition should not be granted.
ORDERED FURTHER, That this order be served by publication in The Duluth Evening Herald, according to law.
Dated at Duluth, Minn., January 7th, 1908.
By the Court,
J. B. MIDDLECOFF,
Judge of Probate.
(Seal, Probate Court, St. Louis Co., Minn.)
Duluth Evening Herald—Jan. 8-15-22, 1908.

ORDER FOR HEARING ON PETITION FOR ADMINISTRATION—
State of Minnesota, County of St. Louis. In Probate Court.
In the Matter of the Estate of Thomas J. Costin, Decedent.
The Petition of John Costin having been filed in this court, representing, among other things, that Thomas J. Costin, then being a resident of the County of St. Louis, State of Minnesota, died, intestate, on the 4th day of December, 1907; leaving estate in the County of St. Louis, State of Minnesota, and that said petitioner is the father of said decedent, and praying that letters of administration of the estate of said decedent be granted to John Costin, Ironwood, Michigan.
IT IS ORDERED, That said petition be heard before this court, at the Probate Court Rooms in the Court House, in Duluth, in said County on Monday, the 3rd day of February, 1908, at 10 o'clock, A. M., and all persons interested in said hearing and in said matter are hereby cited and required at said time and place to show cause, if any there be, why said petition should not be granted.
ORDERED FURTHER, That this order be served by publication in the Duluth Evening Herald according to law, and that a copy of this order be served on the County Treasurer of St. Louis County not less than ten days prior to said day of hearing.
Dated at Duluth, Minn., December 21st, 1907.
By the Court,
J. B. MIDDLECOFF,
Judge of Probate.
(Seal Probate Court, St. Louis Co., Minn.)

CLAIMS ROAST WAS LIBELOUS

Range Business Man Comments on New Town of Gilbert.

A great deal of indignation has been aroused among the residents of the new town of Gilbert and among other persons on the range who are interested in the townsite, over a recent article that appeared in The Herald, coming from Sparta, in which the new town and its interests were severely roasted.

A prominent business man of the range, who does not reside at Gilbert, but who speaks for a fair deal, claims that the statement that the new town is built up of paper houses and that the postmaster is likely to abscond, is really libelous and absolutely unreliable as information. The business man claims that the new town is doing well, that the buildings are of a substantial nature and would be a credit to any town on the range. He further declares that the new town is bound to grow and that another year will see an important development there along the lines of business and population.

BRIDE-ELECT IN FLIGHT WITH FIANCE'S MONEY.

Spokane, Jan. 8. — Several months ago Joe Ira, proprietor of an Italian restaurant, met Louise Costa and fell desperately in love with her, she apparently reciprocating. Joe proposed and was accepted. The wedding was set for the last of the year, and Joe prepared to make the affair a gala event.

Then came the financial flurry. Joe, in fright, withdrew all his savings from the bank and then worried where to put his money. His bride-to-be sympathized with him. She said she knew the banks were unsafe, and with many blushes and lowered eyes she said that perhaps a woman could so secret the money about her person that no one could find it. That was better than a bank to Joe, and he gave her all. Every week he took from $50 to $100 to Louise to add to the hoard.

Then, when all had been practically settled, the wedding date was announced. Louise was "taken ill" and the ceremony had to be postponed a week. Joe was unusually busy New Year's eve and the next day, and he found it impossible to call on his sweetheart. Finally he went to her boarding house and was told the startling tale that Louise had left saying she would not return. The landlady thought it was the wedding, so said nothing about it.

Joe first thought it was some joke, but when he could not find Louise in three days, he informed the police. He lost in all over $2,000, besides his confidence in women.

ASKS DIVORCE.

Mrs. Mary Wooding Claims Her Husband Has Long Abused Her.

Claiming that for twenty-four years her husband has neglected and abused her, Mrs. Mary S. Wooding, who manages a boarding house in West Duluth, yesterday, filed a complaint in the district court asking for divorce from her husband J. E. Wooding.

Mr. and Mrs. Wooding were married in Canada in 1884, and since then, Mrs. Wooding, alleges her husband forced her to earn her own living, has called her vile names before her boarders, and last July struck her with his fist.

The complaint asks that her husband be restrained from interfering with her business or coming into her house.

DIVIDEND EXPECTED.

Western State Bank Directors Re-Elected for Another Year.

A 6 per cent dividend will probably be declared next Tuesday at the meeting of the Western State bank's board of directors, who were all unanimously re-elected yesterday afternoon at the fifth annual meeting. The year 1907 has been a prosperous one for the bank and it is expected that its board of directors, when they meet Jan. 14, will vote to continue paying the 6 per cent dividend to the stockholders as before.

At the meeting, yesterday, the stockholders expressed their satisfaction with the way in which the 1907 board managed matters for their bank, by re-electing all the old directors without a dissenting vote.

The directors re-elected to the board are as follows: James Cochrane, L. A. Barnes, H. H. Phelps, J. A. Scott, M. M. Clark, D. Graham, F. H. Wade, S. J. Nygren, A. H. Donald, A. Henrikson, L. Ramstad, O. F. W. Korth, A. J. Meldahl, O. S. Olson, L. R. Clark, J. P. Weir and H. R. Elliott.

West Duluth Briefs.

Mrs. Swangre of 10 South Fifty-eighth avenue west, has returned from Cumberland, Wis., where she spent the holidays with her parents.

The West Duluth lodge of the A. O. U. W. will meet tonight in their new quarters in the Commercial club room and arrangements will be made for the installation of officers next Wednesday night.

Joseph Cassidy, superintendent of power for the Virginia Lumber company, and Ashton Mero, chief engineer for the Virginia & Rainy Lake company, left this morning for Scanlon.

Mrs. J. B. Rogers, who has been visiting Miss Maud Tender, 515 North Fifty-eighth avenue west, returned yesterday to her home in Minneapolis.

The funeral of the infant daughter of Mr. and Mrs. Louis Orman, 620 North-Fifty-third avenue west, took place this afternoon from the residence. Interment was made at Oneota cemetery.

Edward Dormedy is ill at his home with the grip.

West Duluth council No. 4, Modern Samaritans, will meet on Jan. 20 in their new quarters in the Western State Bank building, to install officers.

Coal, Coke and Match Blox—W. A. Pond Fuel Co., 411 Central avenue. Bell 'phone, 3062-L; Zenith, 3052.

The funeral services of Robert W. Brotherton, 231 South Sixtieth avenue west, who died Monday at St. Mary's hospital, were held this morning at 9 o'clock from St. James' Catholic church. Interment was at the Calvary cemetery.

William Spencer of America, Okla., who has been attending to business in connection with the changes in the management at his drug store in West Duluth, will return home in a few days.

Joseph Cassidy's family of Virginia, returned last evening to their home from visiting friends in West Duluth.

Now is the time to buy men's and boys' overcoats, 25 percent discount; none reserved. The Great Eastern.

The Ladies Aid society of the Swedish-Finnish Mission church will hold their bi-weekly meeting tomorrow afternoon at the home of Mrs. Olson, 618 Fifty-sixth avenue west.

One-fourth off on our overcoats. Buy now at the Great Eastern.

Mrs. G. O. Newgard, 323 North Fifty-ninth avenue west, was badly frightened last evening about 9:30 o'clock when the kitchen stove pipe came loose and fell to the floor filling the house with smoke and soot. Mrs. Newgard and her little daughter were alone in the house when the incident occurred. The house filled so rapidly with smoke that she gave up trying to replace the pipe and ran into the street to get help. A passerby telephoned the fire department and it was but a few minutes after they arrived that they had the fire in the stove put out and the smoke cleaned from the house.

Our 25 per cent discount on men's and boys' overcoats makes our prices lower than half prices elsewhere. Great Eastern.

The members of West Duluth lodge No. 145, A. O. U. W., will pay assessments in the future at 5804 Wadena street. G. W. Boutier, financier.

RAILROADS

SOO ROAD TAKES OFF SPOKANE TRAIN.

Minot, N. D., Jan. 8.—(Special to The Herald.)—The Soo-Spokane limited has been taken off temporarily, owing to the falling off of passenger traffic on the Soo railroad during the last few weeks.

It is said that the new train will be put on about April 1, or as soon as business picks up.

Trains Nos. 101 and 102, the limited, made their last trip Monday morning.

Hereafter the transcontinental business of the road will be handled by 105 and 107 and 106 and 108.

Cutting Expenses.

New Orleans, La., Jan. 8.—Between 3,000 and 4,000 Illinois Central railroad employes have been dropped from the company's pay rolls on account of the financial situation. This was the announcement made here last night by J. T. Harahan, president of the Illinois Central. Mr. Harahan said that if he could possibly prevent it, no more men would be laid off.

Pays Damages.

Omaha, Neb., Jan. 8.—The Union Pacific Railroad company, Monday, paid Frank C. Catlin, a brakeman $10,000 in settlement of a personal injury suit brought by Catlin on account of injuries received several months ago in a wreck. The settlement was made as a compromise on a $50,000 claim, and the railroad attorneys agreed to the settlement an hour before the supreme court of the United States decided the employers liability law unconstitutional.

A Cure for Misery.

"I have found a cure for the misery malaria poison produces," says R. M. James, of Louellen, S. C. "It's called Electric Bitters, and comes in 50-cent bottles. It breaks up a case of chills or a bilious attack in almost no time; and it puts yellow jaundice clean out of commission." This great tonic medicine and blood purifier gives quick relief in all stomach, liver and kidney complaints and the misery of lame back. Sold under guarantee at all drug stores.

CALUMET ODD FELLOWS INSTALL NEW OFFICERS.

Calumet, Mich., Jan. 8. — (Special to The Herald.)—Hecla lodge, No. 90, I. O. O. F., has installed the following officers for the ensuing term: N. G., George Unsworth; V. G., Alex Campbell; recording secretary, John Griff; financial secretary, W. H. Bennetts; treasurer, James Sharp. The following appointive officers were also installed: John Lewis, R. S. to N. G.; D. H. Donaldson, L. S. to N. G.; Robert Kerr, R. S. to V. G.; Ernest Bennetts, L. S. to V. G.; warden, J. Bunt; conductor, B. Brown; outer guard, Alex MacDonald; inner guard, Norman MacLennan; S. S., James Renton and Thomas Anderson; chaplain, Norman MacAuley; relief committee, Charles Roehm, Alex Campbell and Dougall MacRae.

THREE ARE DEAD

As Result of Wreck of Collver Special at Hiram, Ga.

Atlanta, Ga., Jan. 8.—The deaths in the wreck of Section two of the Collver special, which went through a trestle near Hiram, Ga., yesterday, remained at three, today.

Mrs. Emma Hoover of Cleveland, Ohio, is probably fatally hurt and there is doubt as to the recovery of Miss Florence A. Studebaker of Cleveland, who is suffering from internal injuries.

Otherwise all the injured are doing well, and the doctors expect their recovery.

D. H. Schnapp, a railroad employe, died last night, after being brought here on a relief train, as did the negro fireman. Engineer James Edwards was caught under his engine and died in Hiram.

The list of injured remains about eighty, many of the hurts being of a minor character.

LOEB TO MANAGE STREET CAR LINES.

Washington, Jan. 8.—Investigations made in local financial circles by Representative Smith of Michigan, chairman of the house committee on the District of Columbia, warrants him in saying that there is to be a consolidation of the street car companies of the District of Columbia, and that William Loeb, Jr., secretary to President Roosevelt, is to be given the active management of the consolidated properties.

HANGS HIMSELF.

Stillwater Man Takes His Life in a Lumber Camp.

Stillwater, Minn., Jan. 8.—(Special to The Herald.)—A brief message has been received from James Lane's lumber camp, twenty miles north of Grantsberg that Jack Trainor of this city, had committed suicide by hanging.

Trainor was well known here. He was married list fall to Mrs. Olivia Kissow and they lived at 311 West Myrtle. He was in the city recently and appeared to be in good health and spirits.

COFFEE CAKES FOR BREAKFAST.

From Woman's Home Companion: The best coffee cakes are made from brioche mixture, which is expensive but delicious. I have a second coffee cake recipe, that came from one of Boston's most famous hotels, which is not very expensive, and which is really very good. I think I will give you both of them, beginning with the simpler. Scald two cupfuls of milk; when lukewarm, add one and one-half yeast cakes broken in small pieces, and as soon as the yeast cakes have dissolved, add three and one-half cupfuls of flour. Beat thoroughly, cover and let rise one and one-half hours; then add one-half cupful each of butter, lard and sugar, one egg unbeaten, one teaspoonful of salt, one-half teaspoonful of cinnamon and enough flour to knead. Knead until well mixed, cover and let rise six hours. Keep in the ice box or in a cold place over night, to prevent further rising. In the morning turn the mixture on a floured bread board or cloth (magic cover), and roll into a long rectangular piece one-fourth of an inch thick. Brush over with melted butter, and fold from ends toward the center, making three layers. Cut off pieces three-fourths of an inch wide, cover and let rise until light. Take each piece separately, and twist from ends in opposite directions, then shape in a coil, or bring ends together at top of cake. Place in buttered pans, cover, again let rise and bake in a moderate oven twenty to twenty-five minutes. Cool slightly and brush over with confectioners' sugar moistened with boiling water until of the right consistency to spread and flavored with vanilla.

The expensive recipe for coffee cakes is as follows: Scald one cupful of milk and cool until lukewarm, then add two yeast cakes broken in small pieces. When the yeast cakes are dissolved, add one-half cupful of whole eggs, one-fourth of a cupful of sugar, two-thirds of a cupful of butter, one-half teaspoonful of lemon extract and four and two-thirds cupfuls of flour. Beat thoroughly for ten minutes, using the hands. Cover and let rise six hours. Keep in the ice box over night, and in the morning follow the directions given under the first recipe for coffee cakes. These cakes are, without doubt, the most popular breakfast bread of today.

SOFT COAL PRICE DOWN

Hocking and Youghiogheny Grades of Soft Coal Reduced.

The Retail Price Takes Drop of 50 Cents Per Ton.

The retail price of two grades of soft coal, Hocking and Youghiogheny, was reduced 50 cents a ton this morning. The price has been $5.25 a ton, and it is now $4.75. Warm weather is thought to have had something to do with the reduction. The wholesale price dropped several days ago.

These grades are used to a certain extent for domestic purposes, and come under the head of steam coal. There is a good supply of bituminous on the Head of the Lakes docks, but the supply of certain grades of anthracite is very limited, and there is said to be no prospect of a reduction in the price of anthracite, either wholesale or retail, before spring. With ordinarily cold weather, there would in all probability be a shortage of hard coal.

There has been a falling off in the movement of coal into the interior recently. Many of the dealers, profiting by the experience of last winter, were well stocked up when winter set in, and as their early supply has not yet been exhausted, they have not found it necessary to send in more orders. Railroad officials are afraid that because of conditions at present existing, whereby it is an easy matter to get all the cars necessary for coal shipments, the interior dealers will next summer and fall delay ordering until the last minute, believing that the situation will be equally favorable, and that there will be no delay in getting the fuel moved. In this case, should the fall and winter business be as heavy as usual, there would be immediate danger of a coal shortage even more serious than the one which existed through the Northwest last winter, for all the rolling stock would be in use, and taxed to capacity, resulting in long delays in the delivery of coal, as was the case last year.

HER "FELLER."

Chicago News: The girl with the blue-bead necklace nodded her head and then, taking the hairpins from her mouth and transfering them to her hair, said, "My, yes! We had a perfectly elegant time."

"Was Maud up there?" asked the girl with the art nouveau waist buckle.

"I should say not!" replied the girl with the blue beads. "What do you think! She went to him an' ast him to take her —as good as ast him. She says, 'You're a-goin' to take me, aint you?' Sorter joshin' him, o' course. She wouldn't have gone if he'd said 'Yes.' Oh, no! She'd have slapped his wrist for darin' to take her serious. Now, what do you think of that? Ain't she the nerviest thing? What do you think he says to her? You've got another guess comin'," he says. 'I'm a-goin' to take Babe.' I think it was good enough for her. That's the way she is, though—always tryin' to butt in an' make trouble if she can. The nerve of her, astin' him if he wasn't goin' to take her! An' I told her myself the same mornin' that I was a-goin' to go with him. No, she wasn't there."

"I think he done just right," said the girl with the art noveau waist buckle, approvingly. "Say, Babe, I think he's just grand."

"Sure; I think so, too," said the girl with the blue-bead necklace. "Ain't he the elegant dresser?"

"I sh'd say," said the girl with the art noveau waist buckle, heartily. "If I had a feller like him——"

The girl with the blue-bead necklace tittered. "He ain't my feller,' she said. "Just because he takes me out to a few places that ain't no sign he's my feller. I don't know whether I'd have him for a steady comp'ny or not. But I do think he's grand. Ain't he got nice hands? Did you ever notice his hands?"

"Sure," said the other girl.

"Father don't like me goin' with him," confided the girl with the blue-bead necklace. "He don't like him because he wears good clothes and he thinks because his hands ain't all dirt that he don't work, an' he thinks that he don't get enough wages. Father makes me tired. Walter'd look well handlin' ribbons with hands like Jim Sloan's, I guess. An' as far as wages goes Walter's makin' good, an' he'll get a raise Christmas, maybe. Look at Mr. Ferguson. He started in a seven per, less'n six years ago. Anyway, I'd rather have a feller that had some style about him, even if he was drawin' out less money. Me an' him was out las' night an' I tell you he's no cheap skate, even if he ain't makin' more'n $10. I was a-goin' to tell you about suthin,' but I guess I won't."

"Go on!" pleaded the girl with the art nouveau waist buckle. "Tell me, I won't tell nobody."

"Oh, it ain't nothin'," said the girl with the blue-bead necklace, "only if Miss Maud thinks that she can string Walter I can tell her what he told her. She's got another think comin'. Her name won't be Maud, it'll be Mud. I guess I'll spring that on her. I'll say: 'Hello, Mud,' an' she'll say: 'My name ain't Mud, thank you, and I'll say: Oh, ain't it? I thought it was. What'll you bet it ain't?' "

"I dast you to," giggled the girl with the art nouveau waist buckle. "But you tell me what you was a-goin' to tell me. Honest, I won't never tell.

The girl with the blue-bead necklace shook her head until the hairpins tumbled out again.

"I'll pinch you till you tell,' said her friend.

The girl with the blue-bead necklace squealed. "Quit now, you mean thing!" she cried. "Say, guess what me an' Walter was a-lookin' at in the shop windows when we was out las' night. Cross your heart, you won't tell?"

The girl with the art nouveau waist buckle crossed her heart and the girl with the blue-bead necklace bent to her and whispered:

"Di'mond rings."

LEPROSY NOT SO BAD.

"If it were given me to choose between being compelled to live in Molokai for the rest of my life, or in the East end of London, the East side of New York, or the stock yards of Chicago, I would select Molokai without debate."

Thus writes Jack London in the Woman's Home Companion of his visit to the Hawaiian leper colony of Molokai.

"In Molokai the people are happy. I shall never forget the celebration of the Fourth of July I witnessed there. At 6 o'clock in the morning the 'horribles' were out, dressed fantastically, astride horses, mules and donkeys (their own property), and cutting capers all over the settlement. Two brass bands were out as well. Then there were the pa-u riders, thirty of forty of them, Hawaiian women all, superb horsewomen, dressed gorgeously in the old, native riding costume, and dashing about in twos and threes and groups. In the afternoon, Mrs. London and I stood in the judges' stand and awarded the prizes for horsemanship and costume to the pa-u riders. All about were the hundreds of lepers, with wreaths of flowers on heads and necks and shoulders, looking on and making merry. And always, over the brows of hills and across the grassy level stretches, appearing and disappearing, were the groups of men and women, gaily dressed, on galloping horses, horses and riders flower bedecked and flower garlanded, singing and laughing and riding like the wind. And as I stood in the judges' stand and looked at all this, there came to my recollection the lazar house of Havana, where I had once beheld some 200 lepers, prisoners inside four restricted walls until they died. No, there are a few thousand places I wot of in this world over which I would select Molokai as a place of permanent residence."

D. E. H., Jan. 8, 1908.

The only fur-lined line in Duluth worthy of the name, and everybody knows it.

Furs always cost more the next year and don't go out of style, either. They are good property, but as long as we have clearing sales all over the house, we'll give you a chance to get fur and fur-lined coats at the wholesale cost as well as suits and cloth overcoats.

The Coat that sold at $110 is now	$89
The Coat that sold at $100 is now	$79
The Coat that sold at $85 is now	$66
The Coat that sold at $75 is now	$59
The Coat that sold at $60 is now	$48
The Coat heretofore marked $55 is now	$43
$40 fur-lined Coats are now sold for	$30
Former $35 ones have a green ticket marked	$26

ON HIGHER PRICED FUR-LINED COATS—Those from $125 to $300, we will quote special prices on application. If you are interested, ask our Mr. Hughson about them. On OUTSIDE FUR COATS, such as Russian calf, raccoon, kangaroo or dog coats, we will allow a general rebate of 20 cents on the dollar. That is, a $50 fur coat will be sold for $40 and so forth—in other words, "One-Fifth Off."

Look for the green tickets. They tell the new prices. The white ones are the original price tickets.

The Columbia Clothing Co. Duluth

END OF HIS SENTENCE.

Boston Herald: —The sympathetic woman was visiting Charlestown prison, and her heart was almost bursting with pity for the poor prisoners. She pasesd them one by one and never uttered a word; she was instructed not to speak to the inmates, and she had given her word. The temptation soon became too strong, however, as she saw one poor chap, listlessly sewing shoes.

"Poor man," began the sympathetic woman, "isn't that terribly monotonous? Won't you be very glad when your sentence has expired?"

"No, ma'am," came the doleful reply; "mine's a life sentence."

Your advertising is the supreme test. You stand or fall by it. You grow or fall by it.

HIS APPEALS OF NO AVAIL

Young Man in Frisco Prison Says He Has Rich Folks.

He is Under Arrest for Passing a Forged Check.

San Francisco, Jan. 9.—The Examiner today says: Ralph Borgelia, who is under arrest for forgery, is either a romancer with a wonderful imagination or, as he says, a connection of aristocratic and wealthy families, who has a most amazing career.

Borgelia was taken before Police Judge Charles Weller for hearing on a charge of passing a forged check in payment of a hotel bill. After a brief hearing he was held for trial and returned to his cell in the city prison.

He has been an inmate of the prison for two weeks awaiting trial, and last night he decided to gratify the curiosity expressed by the officers who have been watching him. Borgelia, in his story, declares he is a nephew of the late Otto Young, multi-millionaire merchant and capitalist of Chicago, and the son of Raoul Borgelia, member of a noble and ancient Italian family. His mother, who he says was a sister of Otto Young, married three times, Borgelia being her second husband and his father. Borgelia died in London, the widow returning to America, where she met Henri L. Verleye, consul from France to New York, and they were married at Chicago in 1889.

Supports His Claims.

In support of his claims that he is related to the immensely rich Young family of Chicago, Borgelia showed the officers of the prison receipts for registered letters he sent to Mrs. Otto Young and Mrs. S. K. Martin of Chicago, and Mrs. E. W. Townes of Houston, Tex., wife of a son of Judge Townes of the Austin law school. All these letters were appeals for aid in his present predicament, but up to the present he admits they have brought no response.

In support of his claim that he is a son of Mrs. H. L. Verleye, wife of the former French consul to New York, Borgelia exhibits telegrams and letters he has received from Mrs. Verleye at the city prison.

Chicago, Jan. 9.—Claude Seymour, president of the firm of Otto Young & Co., said today:

"Borgelia is a nephew of the late Otto Young, and the story he is said to have told is probably correct."

Mr. Seymour said that Borgelia had frequently made similar appeals to his relatives in the past.

New York, Jan. 9.—The records of the French consulate in New York show that Henri L. Verleye was never consul in this city nor ever connected with that government's consular service in this country. There was a Gaston Velton, who was a clerk in the consulate here during 1903 and 1904. The name of Mrs. Henri Verleye does not appear in any of the New York city directories.

TROLLEYMEN WIN STRIKE

Concessions Granted by Philadelphia Company Are Accepted.

Philadelphia, Jan. 9.—Concessions granted the union trolleymen by the Rapid Transit company were approved at a ratification meeting, which lasted from 8 o'clock last evening until 3 o'clock this morning. The prolonged session was necessary in order to enable the men who were on both day and night runs to attend the meeting.

Vice President Shea and National Treasurer Orr of the Amalgamated Association of Street and Electric Railway Employes of America made addresses and urged the men to make no outward display of their first success, and to do everything possible to prove to the company officials that by organization the men can prove to be more efficient and valuable to the company.

The strike resolution, which had been adopted, with the understanding that this was to be the last resort, was rescinded.

It was reported to the meeting that some of the fifty-one union men the company had agreed to reinstate are back at work and others were to go to work today.

REFUND ORDERED

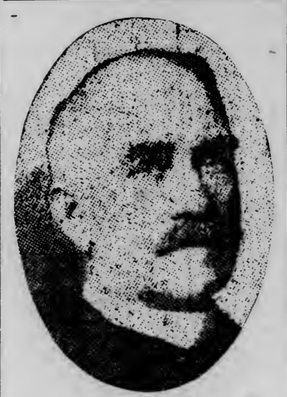
On Shipment of Ore From Virginia to Spring Valley, Wis.

Washington, Jan. 9.—(Special to The Herald.)—The interstate commerce commission has issued an order directing the Chicago, St. Paul, Minneapolis & Omaha Railway company to refund $440 on fifty-seven shipments of iron ore from Virginia, Minn., to Spring Valley, Wis., the refund being determined by the commission as an excess charge on these shipments.

ABE RUEF GOES TO JAIL WITH THE REST.

San Francisco, Jan. 9.—Yesterday morning Superior Judge Frank J. Dunne issued an order turning Abraham Ruef, the confessed bribe taker, and who has been held under private guard, over to the custody of Sheriff Dolan, who transferred him from his private prison on Fillmore street to the branch county jail at Ingleside, where he joined Former Mayor Eugene Schmitz and Louis Glass, manager of the telephone corporation.

FORMER MAID AT WOOD'S HOME ASSUMES "MISSING RECORDS" WERE BURNED



JUDSON HARMON,
A Former Ohio Magistrate, Who May Announce His Candidacy for the Democratic Nomination for the Presidency at a Rally of Southern Democrats, to Be Held in Birmingham, Ala., on Jan. 23.

Saw Them Brought to House and Put in Basement.

Disappeared Later After a Hot Fire in the Furnace.

Government Springs Sensation in Grain Company Case.

St. Paul, Jan. 9.—(Special to The Herald.)—The prosecution in the case of the government against George W. Wood, L. A. Wood, F. B. Wood, L. C. Wood, Paul Foss and Charles T. Kelly, charged with an illegal use of the United States mails, in carrying on a scheme to defraud, sprung a sensation just before the close of yesterday afternoon's proceedings, through the introduction of evidence of a former housemaid of L. A. Wood, tending to show that the much-talked of "missing records" had been destroyed in the furnace of his house.

Mrs. Annie Kramer is the maid referred to. She is the only woman who has been on the stand during the progress of the trial. She said that she now resided at Washington, D. C., and that for the period intervening between January and November she was employed as a housemaid for the defendant L. A. Wood.

"While you were working for Mr. Wood, did he ever have any conversation with Mr. Tuttle?" asked the district attorney.

"Yes sir, he used to talk to him almost every day over the telephone," came the reply.

"What did he say to him on these occasions?"

"He would always say, 'How is business going this morning?'"

Further questions showed that sometimes the conversations were for five minutes, and sometimes for longer periods.

Papers Brought to House.

"Do you recall anything about some boxes and packages of papers being brought to the house?" interrogated the prosecuting attorney.

Witness replied that in the month of June, a number of boxes, perhaps ten or twelve were brought to the house and were put into the basement by the hired man. There were also some packages of loose leaves. Asked as to the character of the leaves, witness said they resembled certain ones in the ledgers now in the hands of the government and which are part of the exhibits.

In reply to other questions the witness said that soon after the boxes and packages came, they were removed to another part of the base-

(Continued on page 4, fourth column.)

BAD FIRE IN FLOUR CITY

Hartman Warehouse in Minneapolis is Damaged $150,000.

Two Employes Have a Narrow Escape With Lives.

Minneapolis, Jan. 9.—(Special to The Herald.)—Fire gutted the seven-story warehouse of the Hartman Furniture & Carpet Exchange in this city, this morning, causing a loss of between $100,000 and $150,000. The loss is covered by insurance. Sherman Moore and Alexander Millan, employed in the warehouse, had narrow escapes from death soon after the fire started. They attempted to extinguish the blaze with chemicals, and while so employed their avenues of escape were filled with fire. Seeing that it was impossible for them to extinguish the fire, they raced for their lives through the smoke and fire. Both men were burned about the face and hands. The fire went from the second floor through the roof. Fire walls prevented the flames from spreading to surrounding wholesale buildings.

The Hartman campany has head offices in Chicago, where the president, Leo Hartman, resides.

GREEN BAY, WIS., HAS $60,000 FIRE

Two Dressmakers Escape From Building in Night Clothes.

Milwaukee, Wis., Jan. 9.—A special to the Evening Wisconsin from Green Bay, Wis., says: Fire which started early today caused an estimated loss to several business buildings and stock of between $55,000 and $60,000, partly covered by insurance. No one was injured.

The principal losers are the Herrick Clothing company, which occupied quarters on the ground floor of the Wilmer building, their loss being estimated at $40,000. The damage to the Wilmer building, owned by Henry Wilmer, was about $5,000. The American Express company, the Henry Rahrs Sons Brewing company, Delair Bros.' restaurant, and Henry Vandenheuvel, tailor, suffered small losses. The origin of the fire, which started in the basement of the Wilmer building, is unknown. Henry Wilmer and two dressmakers, who occupied quarters in the Wilmer building, escaped in their night robes.

WRESTLE TO TIE.

Demetral and Collins Each Secure Fall at South Bend.

South Bend Ind., Jan. 9.—Will Demetral and "Wild Joe" Collins last night each won a fall in a wrestling match here and struggled fifteen minutes without either securing the third fall. Demetral took the first fall with a half Nelson and crotch hold in thirty-six minutes. Collins secured the second fall in twenty-six minutes with a hammer lock. Baba Ali won from Billy Edwards in two out of three falls.

ELKHART ROUNDHOUSE BURNS.

Elkhart, Ind., Jan. 9.—Eighteen of the fifty stalls of the roundhouse of the Lake Shore & Michigan Southern railroad, the machine shops and oil house were destroyed by fire early today. William Shamburger, an employe, was burned to death. The loss is $125,000, with no insurance.

ST. PAUL THIEVES STEAL PAPER HAM

St. Paul, Minn., Jan. 9.—(Special to The Herald.)—What appeared to be a fine ham, hanging out in front of the store, was spied by two hungry tramps, Tom Kelly and O. J. Singer, who pulled it down, but, dismayed at finding it so light, quickly threw it away. A little while later they were arrested. The "ham" was nothing more than a paper bag, in the shape of a ham and stuffed with sawdust.

CANTEEN IS NEEDED

Trustees of Soldiers' Home to Ask for Its Restoration.

Say It is Absolutely Necessary for Proper Control of Men.

Bath, N. Y., Jan. 9.—Resolutions asking congress to restore the canteen have been passed by the trustees of the Soldiers' home here. Major Benjamin McConnell, one of the trustees, said the re-establishment of the canteen was an absolute necessity.

"It will prevent drunkenness among the inmates of the home," said Major McConnell. "At present the old men obtain liquor in other places. Intoxication results. If we could supply them with pure beer and ale they would remain on the grounds, and we could have them under control all the time.

"The saloon is the bane of the army. Old soldiers will drink, and if they cannot get good liquor, they will take bad liquor. This cannot be prevented, and the way to obtain the best results is to establish a drinking place under the supervision of the officers of the institution." There are 2,000 old men in the Bath home.

TAFT IS ENDORSED.

Guthrie, Okla., Jan. 9.—The Republican state committee yesterday endorsed Secretary Taft for president. A prolonged demonstration followed the presentation of the secretary's name. A call for a delegate convention to consist of 640 delegates and to meet at Oklahoma City, March 11, to select delegates to the national convention at Chicago was agreed upon.

HILL WILL SPEAK.

St. Paul, Minn., Jan. 9.—(Special to The Herald.)—The annual meeting of the Minnesota Historical society will be held in the senate chamber of the old capitol building Monday evening, Jan. 13, at 8 o'clock. After the transaction of business, which will include a short report by the secretary on the increase of the library, portrait collection and museum, during 1907, an address will be given by James J. Hill.

THE JURY BOX IS AGAIN FILLED WITH POSSIBLE JURORS FOR THAW TRIAL

Six of Them Subject to Challenge by Counsel.

Defense Succeeds in Serving Summons on Edna Goodrich.

Is One Who Introduced Evelyn Thaw to Stanford White.

New York, Jan. 9.—Thaw jury box again filled, six subject to challenge. John DeHart, an architect, was the last chosen.

New York, Jan. 9.—Just before the beginning of the morning session of the trial of Harry K. Thaw today Attorney Daniel O'Reilly announced that a subpoena for the defense had been served on Miss Edna Goodrich, the actress, who is playing here this week. Miss Goodrich failed to appear in response to a subpoena last year. Mrs. Evelyn Nesbit Thaw, on the stand at the first trial, declared that it was Miss Goodrich who first introduced her to Stanford White and took her to luncheon with him.

A messenger from Mr. O'Reilly's

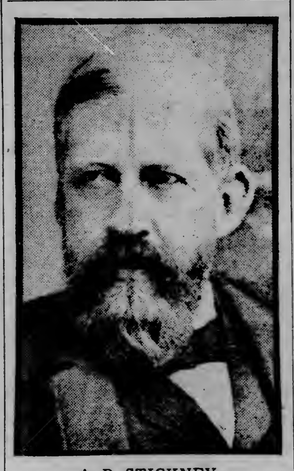
(Continued on page 4, fifth column.)

WALSH STILL ON THE STAND

Direct Examination of Former Bank President Continued.

Chicago, Jan. 9.—The direct examination of John R. Walsh, on trial for the alleged diversion of funds of the Chicago National bank, was resumed today. Attorney John S. Miller, of Wash's counsel, recited a list of bonds of the Southern Indiana Railway company, which the bank had held at various dates as collateral for loans, and elicited from the witness the statement he considered the transactions profitable to the bank.

Asked regarding certain of the bonds which had disappeared from the list of holdings of the bank between July, 1904, and August, 1905, Mr. Walsh replied that they had been sold and that the bank had received for them all they had cost, and had in the meantime been receiving the interest accruing on them.



A. B. STICKNEY,
President of the Great Western Railroad, Who Has Been Appointed as One of the Receivers of the Road.

DRAWING OFFICES

In New Building Interests Members of the House.

Same Plan Used in Selecting Seats is Adopted.

FROM THE HERALD WASHINGTON BUREAU.

Washington, Jan. 9.—(Special to The Herald.)—The great marble office structure, erected at an expense of $4,000,000, to furnish luxurious office quarters for every member of the house of representatives, is practically completed, and today a lottery system, similar to that which has been in vogue for many years in drawing for seats in the hall of representatives took place before the speaker's chair.

There were placed on tripods a sketch plan of the 400 odd offices in the building. These diagrams are so arranged that a member, when a marble is drawn from the box, will step forward and, by a method of putting in a peg, or, in Western parlance, will "stake off" his selection of a room. Probably not since the opening day of this congress, when seats were drawn, has there been such a large number of members present in the house.

The name of Representative Andrew J. Volstead of Minnesota was the second one called, the first name being Representative C. Kitchen of North Carolina. Representative Charles A. Linberg was the seventh name called and J. Adam Bede's name was the fifteenth to come out of the "goose."

FRIENDS OF HOWARD ARE TO ASK FOR HIS PARDON.

Lexington, Ky., Jan. 9.—Maj. Daingerfield and others of this city went to Frankfort today to appear before Governor Wilson and ask for a pardon for James Howard, now serving a life sentence on the charge of complicity in the assassination of William Goebel. They assert that testimony brought out in the trial of Caleb Powers, just closed, conclusively proves Howard innocent.

Maj. Daingerfield is a brother-in-law of James R. Keene, the New York millionaire.

CUTS SISTER'S THROAT AND THEN HIS OWN.

Coldwater, Mich., Jan. 9.—Vernon L. Nettleton, a hardware dealer, about 50 years of age, while suffering, it is supposed, from acute melancholia due to business troubles, rose from his bed early today and gashed his sister's throat. He then returned to his own room and nearly severed his head with a carving knife, dying almost instantly. Miss Nettleton is expected to recover.

THE SEVENTH CHILD CAUSED MAN TO DIE.

Millville, N. J., Jan. 9.—Despondent because he could not properly care for his family, Joseph H. Sheppard killed himself. He often said he had more children than he could properly support, and since early this week a seventh child was added to the family. He paced the floor all night and then shot himself.

CONFUSION IN STEAD DEATH.

London, Jan. 9.—It was announced on Dec. 15 that Alfred Stead, son of W. T. Stead, editor of the Review of Reviews, was dead. This was an error, which has caused the family considerable inconvenience. Alfred Stead is alive and is filling the position of consul general for Roumania in London. His brother, William, died suddenly last month, and the mistake arose through confusion in the names of the two brothers.

NAVAL BILL INTRODUCED

By Hale, Which Will Settle Line and Staff Controversy.

Provides for Increase in Pay of Every Man in Navy.

Washington, Jan. 9.—A bill whose passage it is expected will work many important changes in the personnel of the navy and greatly increase its efficiency, was introduced today by Senator Hale, chairman of the senate committee on naval affairs. It proposes a settlement of the vexatious question as to whether the members of the staff corps shall have rank with the line officers, puts an end to the creation of bureaus by the secretary of the navy, and gives a substantial raise in pay to every commanding officer and enlisted man of the navy and marine corps.

There is an important section relating to the appointment of midshipmen to the line and staff corps, and also a provision calling for the retirement of officers of certain age.

The Bureau Section.

The first section of the bill deals with the bureau question by granting authority to bureaus now existing to continue to transact the business assigned them, and requiring that all reports and recommendations shall be made direct to the secretary of war. There is then added the provision that "no permanent board of any kind shall be hereafter appointed by the navy department, or continued in operation unless expressly provided for by law, but, from time to time, the secretary of the navy may convene boards for temporary service connected with the pending business of the department."

That part of the bill which relates to the assignment of line rank to officers of the various divisions of the staff corps, contains a provision that they shall in no instance assume command of any vessel. The section is as follows:

"That officers in the various staff corps of the navy shall hereafter have actual rank and title as now established for the staff corps of the army. Such officers of the staff corps of the navy shall at all times have the title and designation of their rank, and new commissions in accordance therewith shall in no case carry with it command over any vessel of the navy department, but such command shall be exercised only by line officers."

RIOTING AT KIA HSING FU

Protestant Chapel and School Consigned to the Flames.

Shanghai, Jan. 9.—Rioters at Kia Hsing Fu, in the province of Che Kiang, have burned the Protestant chapel and school there. The official residence of the local magistrate was also destroyed. The foreigners at Kia Hsing Fu are safe. There has been considerable unrest recently in this province, but the disorders have been directed principally against the dynasty.

The Presbyterian church, South, has maintained a missionary establishment at Kia Hsing Fu since 1895. In 1903 there were three missionaries and their wives, one woman missionary and several native workers at the station, which consisted of two places of worship, three day schools, one boarding school and one dispensary.

The town, which is an important commercial center, is situated on the grand canal.

TUNNEL SERVICE IN OPERATION

Ample Trains to Carry Passengers Under River to Brooklyn.

New York, Jan. 9.—Service in the new tunnel by which New York subway trains were run to Brooklyn today for the first time, was more than ample to carry the early morning rush of passengers from Brooklyn to the offices and stores in Manhattan. Throughout the rush hours eight car trains were run at intervals of about three minutes. Not a passenger was compelled to stand up in any of the rush hour trains, and generally the two or three rear cars were practically empty. Most of the Brooklyn passengers left the train at the downtown stations in Manhattan after a short and fast trip.

Whether the diversion of traffic by this new line caused any considerable lessening of the morning crush on Brooklyn bridge is doubtful. The usual delays in reaching the city by that method were experienced by passengers this morning. One reason for the absence of a crowd from the tunnel service is the fact that the subway trains run only a short distance into the heart of Brooklyn, and there is no transfer arrangement between the subway and Brooklyn surface and elevated lines by which passengers from the residential districts in that borough reach the center of Brooklyn and Manhattan.

STORM STILL RAGES.

Paris, Jan. 9.—The storm on the English channel, along the west coast of Europe and on the North African coast, is still raging, and many fishing boats already have been lost.

PATCH WORK.

Uncle Sam:—"Wouldn't it be better to make a new pair?"

DEFECTIVE PAGE

WEATHER—Probably snow flurries this afternoon or tonight; warmer tonight, with lowest temperature about 20. degs above zero; Friday colder.

Oak Hall Clothing Co.

Superior Street at Fourth Avenue West.

SHIRTS—UNDERWEAR

A complete clearance of our entire stocks of Shirts and Underwear. It's the Oak Hall way of doing things—when stocks are heavy—bring out the knife and cut deep—take the loss and scatter the good things among the people.

80c For Elgin, Emery, Wilson Bros. and Monarch Shirts, that sell the world over for $1.50 and $1.00.

$1.15 For Wilson Bros., Emery and Cluett Shirts that sell on Broadway for $2.00 and $1.50.

UNDERWEAR

39c For 50c and 75c fleece lined Underwear.

75c For $1.00 kinds medium and heavy weight Underwear.

$1.19 For $1.50 kinds medium and heavy weight Underwear.

$1.50 For $2.00 kinds medium and heavy weight Underwear.

$2.25 For $3.00 kinds medium and heavy weight Underwear.

$3.75 For $5.00 kinds medium and heavy weight Underwear.

MOTHERS—DON'T DELAY

This sale cannot last forever. We've dressed up more boys this week than was ever done before in the same period of time. One mother yesterday bought ten suits, and there was a reason for it. She knew that the prices now in force here do not pay for materials alone, but we are going to continue this sale until all is sold. But if you can, come tomorrow.

EQUIPMENT RECEIVED

Apparatus for the New Manual Training School Arrives.

West Duluth Has Now Best Equipped School in City.

Six pieces of machinery arrived this morning at the West Duluth Technical High school for its new manual training department, one twenty-four-inch planer, weighing 2,000 pounds, a twelve-inch circular saw, a thirty-two-inch band saw, a ten-horse power motor, a mortice machine and an emery wheel. With this equipment the school is better fitted for manual training than any other in Duluth.

Until this fall the West Duluth Technical school was known as the Irving high school, when the board decided to install a manual training department. The name was then changed to Industrial, but that being the name used for many reform schools in the country, it was decided a little over a month ago to adopt the name West Duluth Technical High school as more suitable.

The line of courses taken up is patterned somewhat after those studied at the St. Paul Mechanical Arts High school. It was thought when the St. Paul school started that it would be purely a trades school and not a preparatory for the university, but it has since been demonstrated that a large percentage of its graduates continue their studies in the university's scientific school. The same is hoped for the West Duluth school.

There are attending at the technical school about 900 pupils, of which eighty are in the high school and the rest in the grades. All the high school boys take manual training and the girls cooking and sewing, along with the regular high school studies. A good many of the Eighth and Seventh grade children have taken up the manual training work, too. The students in the commercial branch of the high school, who take such subjects as typewriting and stenography are unable to spare as much time to the manual training as the rest.

The basement of the school building is used for the workshops.

On account of the labor troubles and the many improvements being made on different public schools about the city, the work on the new department has not progressed as fast as Supt. Foster expected, but he hopes to have the work of the school running smoothly soon.

Old Resident Dies.

Eliasen Carsten, 91 years old, died yesterday morning at 11 o'clock at the home of his son, Charles Carsten, Fifty-ninth avenue west, where he had been living for some time.

Mr. Carsten's death was very sudden, and was due to general debility and old age. As no doctor was in attendance the death certificate was issued by Coroner J. M. McCuen. The body is at Richter's undertaking establishment, but as yet no funeral arrangements have been made.

The old man has been a resident of West Duluth for eight years. He has outlived all but two of his nine children, a married daughter, who lives in Superior, and Charles Carsten, at whose home he died.

West Duluth Briefs.

Edward Doredy of 525 North Fifty-sixth avenue west, is about again after being confined to his home with the grip for a week.

Edward Doome, Lawrence Gagon and Webster Cavanaugh came to West Duluth last evening from Kelsey, Minn., to spend a few days at their homes.

John Yax left for Kelsey, Minn., yesterday.

Louis Shar, 606 Fifty-seventh avenue west, who has been ill with the grip, is able to be about again.

Mrs. M. B. Aberanmson is visiting friends in Aurora, Minn.

Thomas Burnside, 5409 Columbia avenue, left yesterday to visit his parents in Ottawa, Canada.

Louis Silger has not spoken a word since 9 o'clock yesterday morning. When asked the reason of his silence this morning, he wrote the following on a piece of paper: "They think I can't keep still until Saturday night for $5, but I'll show them."

West Duluth lodge No. 145, A. O. U. W., held its regular monthly meeting last night and preparations were made for the installation of officers to take place next Wednesday night in the new hall over the Western State bank.

The Ladies' Aid society of the Swedish-Finnish Mission church held the bi-weekly meeting this afternoon at the home of Mrs. Olson, 618 Fifty-sixth avenue west.

Next Wednesday night, West Duluth lodge No. 145 and Degree of Honor will hold a joint installation of officers in their new rooms in the Western State Bank building.

The West Duluth Euclid lodge No. 198, A. F. & A. M., will hold a special meeting tonight to meet Justaf Widell, grand master of Masons of Minnesota. Mr. Widell is from Mankato, Min.

The West Duluth Commercial club will meet tomorrow night. The annual reports of the secretary and treasurer, postponed from last Friday evening, will probably be read.

William Spencer left last night for his old home in America, Okla.

Dr. D. Graham is able to take up his practice again after a severe illness.

Van Beckman left this morning for Pine, Minn., on business.

Members of West Duluth lodge, No. 145, A. O. U. W., can pay their assessments on Wednesday of each week at 5806 Wadena street, or at the lodge room every Wednesday evening over the Western State bank. Installation next Wednesday.

The Asbury Presbyterian church has been holding a week of prayer this week, and each evening the services have been well attended. There will be services tonight and Friday evening.

Tomorrow afternoon, at 3 o'clock, the Women's Foreign Missionary society of the Asbury Presbyterian church, will meet at the home of Mrs. Joseph Cochran, North Fifty-sixth avenue west. The district officers will be present and Mrs. Adams of the West end will sing.

The Union Match company has presented a handsome silver trophy cup to the Western Curling rink, to be played for this winter. A series of matches will be arranged for at once to contest for this prize, and there will probably be tournaments off and on all winter to see who will be the final winners.

BLIND PIGS UNDER FIRE

Seven Indictments Are Returned by the Grand Jury.

Five Prisoners Brought to Duluth From the Range.

Poor beer may be sold at some of the blind pig joints on the range, but it certainly comes cheap, according to evidence introduced before the grand jury, which this afternoon returned seven indictments against five blind piggers. Ten cents a quart was the price asked. The five prisoners were brought to Duluth this afternoon.

All five were taken in a raid made on Dec. 19. Four were from Virginia, and the fifth, a woman, was from Missabe Mountain. Matt Devechich was indicted upon the charge of having illegally disposed of one quart of whisky; Jack Fhepetch, ten quarts of beer; Matt Vukalich, three quarts of beer; Margaret Gregovich, three quarts of beer, and Jack Chopp, two quarts. Two indictments were returned against the latter, and the woman also was indicted on two counts.

CHARGED TOO MUCH.

Great Northern Ordered to Return $53 to D. G. Cutler Company.

Washington, Jan. 9.—(Special to The Herald.)—The interstate commerce commission has ordered the Great Northern Railway company to refund $53 to the D. G. Cutler company, excess freight charged on one car of salt shipped from Duluth to Glasgow, Mont.

FEATURE OF THE MARKET

Was the Activity in the Superior & Pittsburg.

General Boston List is Strong at the Close.

The East was selling Superior & Pittsburg today, supposedly on the rumors of new issues of stock, and the West was buying it on the news of the uncovering of new bodies of sulphide ore at the property. But the East sold more than the West bought and the price went off a point.

The movement in Superior & Pittsburg was the feature of the local curb. During the early part of the day the price was up, the stock selling around $12 and $12.25, but later went off to $11.37½, closing at $11.25 bid and closed at $ [illegible]

The general list was firm during the session and closed strong. North Butte opened at $45.50, went off to $45.25, rallied to $46 and closed at $45.87½ bid and $46.25 asked. Amalgamated opened at $49, went to $50.75 and closed at $50.75 asked.

Greene-Cananea opened at $7.25, went off to $7.12½, rallied to $7.25 and closed at $7.12½ bid and $7.25 asked. Butte Coalition opened at $15.75, advanced to $16 and closed at $15.87½ bid and $16 asked. Calumet & Arizona opened at $105, advanced to $106 and closed at $105.50 bid and $106 asked. Anaconda opened at $30.75, advanced to $31.87½ and closed at $31.87½ bid.

Denn-Arizona sold at $4.12½ and $4.25 and closed at $4.25 bid and $4.37½asked; Globe at $7.12½, $7 and $7.25 and closed at $7.25 bid and $7.37½ asked; Butte & Superior at $1.50 and closed at $1.50 bid and $1.62½ asked.

Black Mountain sold at $4.50 and $4.75 and closed at $4.50 bid and $4.62½ asked.

THOSE WHO HAVE PASSED BEYOND

La Crosse, Wis., Jan. 9.—Christopher H. Connor, former city comptroller, one of the best known Democratic politicians in Western Wisconsin, and a leader of the Bryan campaign in this section, died at Spokane, Wash., yesterday, aged 38. Mr. Connor had gone West for the benefit of his health.

Atlanta, Ga., Jan. 9.—Alexander Forresterm of Cleveland, Ohio, who suffered severe injuries in the Hiram, Ga., wreck, on the Southern railway, Wednesday, died at the Atlanta hospital today.

SURROUNDED BY MYSTERY

No Clue to the Identity of Superior Suicide.

Mystery still surrounds the death of the man whose lifeless body was found late yesterday afternoon on a pile of lumber under a shed in Corey Bros.' lumber yard at Seventeenth street and Banks avenue, Superior. On one side of the body lay a half-drained bottle of whisky, and on the other side was found an empty vial that evidently had contained carbolic acid, making it evident that it was a case of suicide.

From the fact that the body was frozen stiff, the coroner concluded that the man had killed himself the preceding night. Search of the stranger's clothing failed to discover anything that would lead to his identification. A box of morphine tablets was found in one pocket. The only bit of evidence was a handkerchief, marked "L. 99, T. & W.," evidently laundry marks.

BUT SIX REMAIN.

Last Half of the Jurors in the Thaw Case Excused.

New York, Jan. 9.—Immediately after recess, all of the six provisional jurors in the Thaw case were excused, leaving six places yet to be filled.

WEALTH FOR MISSING MAN.

Webster City Printer Has Fortune of $10,000 Awaiting Him.

Webster City, Iowa, Jan. 9.—W. M. Vesey, the Webster City printer who has a small fortune of $10,000 awaiting him and does not know it, probably will be found in a few days.

Vesey drifted to Oklahoma after leaving here, and started an office of his own. But it didn't pan out well and he traded it off, receiving in part payment a block of stock in a Virginia mica mine. The stock was considered worthless at the time, but is now valued at $10,000.

A letter received in this city by Miss La Retta Kearns, however, partly solves the problem of the missing man. It is from a printer at Presho, S. D., and states that a tramp printer named Vesey had been working at the office where she is employed. He had left, however, and gone to Vivian. In case he did not get work there he expected to go West to Montana, and eventually to California.

REV. TROUTMAN SENDS BEST WISHES FOR PE-RU-NA

Rev. George A. E. Troutman, Mt. Washington, Mo., Writes,

"My Wife and I Are Strong Believers in Pe-ru-na."

REV. GEORGE A.E.TROUTMAN.

Catarrh and La Grippe.

Rev. Geo. A. E. Troutman, Mt. Washington, Mo., writes: "My wife and I are strong believers in Peruna.

I was cured of a bad case of catarrh when nothing else that I tried had any effect. My wife was cured from a severe case of la grippe, and we feel that the least we can do is to gratefully acknowledge the merit of Peruna.

"My wife joins me in sending best wishes for your success."

Throat Trouble.

Rev. H. W. Tate, 920 Lincoln Avenue, Walnut Hills, Cincinnati, Ohio, writes: "For several years I have been troubled with a peculiar spasmodic **affection of the throat.** It would seize me suddenly and for a few minutes I would be unable to speak audibly, and my breath would be greatly interfered with. I would be obliged to gasp for breath.

"I finally concluded that it was some catarrhal affection which probably excited the spasm. It interfered with my vocation as a preacher, attacking me occasionally in the pulpit.

"I had heard so much about Peruna as a catarrh remedy that I determined to try it. After taking two bottles, my **trouble has disappeared.** I feel sure that Peruna has greatly benefited me."

Rev. P. E. Swanstrom, Swedish Baptist Pastor, Box 228, Grantsburg, Wis., writes that from the use of Peruna he is perfectly well, entirely cured of chronic diarrhea and catarrh.

Peruna in Tablet Form.

For two years Dr. Hartman and his assistants have incessantly labored to create Peruna in tablet form, and their strenuous labors have just been crowned with success. People who object to liquid medicines can now secure Peruna Tablets, which represent the medicinal ingredients of Peruna. Each tablet is equivalent to one average dose of Peruna.

Ask Your Druggist for Free Peruna Almanac for 1908

DENETT NOMINATED.

Washington, Jan. 9.—The president today sent to the senate the nomination of Fred T. Dennett of North Dakota to be commissioner of the general land office; also the nominations of James F. Tracey of New York to be a member of the Philippine commission and secretary of finance and justice.

BRIDGES AUTHORIZED.

Washington, Jan. 9.—The house today passed bills authorizing the construction of bridges across the Missouri river at Council Bluffs, Iowa, and across the Mississippi at Burlington, Iowa.

ITS WORK FINISHED

Grand Jury Prepares Final Report to the Court.

Calls Attention to Over-Crowded Condition of County Jail.

The grand jury, which has been in session for nearly two weeks, has comleted its work, so far as any business before it is concerned, and will probably make its final report to the court about 5 o'clock this afternoon.

The jurors met this morning and formulated the report, but did not present it at that time as County Attorney Norton was absent on a sudden and mysterious visit to the ranges, and the court advised the jurors to wait until this afternoon to give the court an opportunity to look over the indictments to see if they are technically correct.

An adjournment of the grand jury was taken until 5 o'clock this afternoon, when it was expected that County Attorney Norton would be present.

The grand jury's report, it is understood, will include the reports of the committees appointed to visit the county poor farm and the county jail. The committees are said to have found things kept in excellent condition at both the farm and in the jail. The grand jurors found that the jail is very much overcrowded and attention will probably be called in particular to the women's department in the jail, with the suggestion that something be done in the way of an arrangement to keep the unfortunate women prisoners separate from the others of their sex who are thoroughly bad. It seems to be the sentiment of the grand jurors that it is not conducive of good results to keep women entirely dissimilar in character and morals, in close company with each other.

While the details of the grand jury report will not be definitely known until it is presented to the court, it is understood that there will be nothing sensational in it.

The present grand jury has made a good record of work accomplished within the two weeks of service. A large number of matters have been investigated and about thirty-five indictments have been returned, to say nothing of the cases investigated in which no prosecution was recommended.

You'll be healthy and happy if your liver and bowels work naturally. Hollister's Rocky Mountain Tea keeps these organs working right, brings robust heath to all. Try it now. 35 cents, Tea or Tablets. Ask your druggist.

POLITICAL SITUATION

Talk Concerning Possible Delegates to Republican Convention.

Gustaf Widell is Here Booming Eberhardt for Governor.

More or less interest in both state and national politics is being manifested in Duluth at present, especially in the ranks of the Republicans. Talk relative to possible delegates to the national convention is going the rounds, and there is also some discussion on the governorship, particularly in the last day or two, since the arrival of Gustaf Widell of Mankato, prominent politically in the state, who is booming Lieutenant Governor Eberhardt for governor.

It is understood that Senator E. B. Hawkins is a candidate for delegate to the national convention of Republicans, and friends of T. W. Hugo, former mayor of Duluth, are talking of Mr. Hugo as a delegate. Each congressional district is allowed two delegates to the convention, and there are four delegates-at-large. There are eleven counties in this district, and it is customary for Duluth to get one of the two delegates, the other going to some other county. For the last convention the outside delegate was chosen from Aitkin, but probably some other part of the district will be represented this time. Robert C. Dunn of Princeton is considered a possibility.

The chances of Duluth getting one of the delegates-at-large are thought to be rather slim. In the past it has not been the custom to give Duluth one of them. Ramsey county usually gets one. Hennepin one, the southern counties one and the northern counties one. There is at present a warm fight on in Hennepin county over who shall be delegate-at-large, and three candidates are in the field in Minneapolis, Thomas Lowry, Thomas Shevlin and James Peterson.

It is a little early yet to tell whether the Minnesota delegation will be instructed or uninstructed, but local Republican leaders are inclined to believe that the delegates from this state will attend the gathering with an understanding beforehand with the people they represent as to whom they shall favor for the presidential nomination. Taft, Hughes and La Follette all have a certain number of backers in Minnesota.

There is something of a scrap on between these different interests, and there are liable to be interesting developments before the delegates finally leave for the convention. Frank B. Kellogg is at the head of the Taft movement, and Taft is believed to have somewhat the best of the bargain just now, although Hughes has a generous following, and a number of so-called radicals are whooping it up for La Follette.

Mr. Widell, who is worshipful grand master of the Minnnesota Masons, attended a banquet given in his honor at the Masonic Temple last night, and informally received local Masons at the St. Louis hotel yesterday afternoon. When not looking after his duties as a Mason, Mr. Widell has been paying attention to the political situation while in Duluth, and doing what he could to help the candidacy of Mr. Eberhardt, who comes from the same district as Jacobson, and who probably would receive the support of Jacobson's old backers, provided the latter does not get into the game again.

All Atlantic Records Broken.

The Lusitania and Mauretania proved to be the fastest ships ever constructed when they broke all previous records by crossing the Atlantic in less than five days. This wonderful attainment is a practical triumph we can all appreciate. The most practical method for curing ailments of the stomach and bowels is to resort to Hostetter's Stomach Bitters. The many thousands of persons cured by it during the past fifty-four years are in a position to fully appreciate its merit, and a similar experience will be yours if you will start at once. It cures and prevents poor appetite, sour risings, dyspepsia, indigestion, costiveness, biliousness, female ills, general debility, colds and malarial fever. We guarantee it pure. Try it today, also ask your druggist for a free copy of our 1908 Almanac before the supply is exhausted.

THE TRAGEDY OF A DRESS SUIT

Missing Glad Rags Are Found at the Spalding Hotel.

Why didn't R. L. Crandall attend the party that a number of Duluth young people held during the Christmas holidays? That's the question a number of his newly made acquaintances are asking. Mr. Crandall lives in St. Paul, and visited Duluth only recently. He was invited to the party in question, but he didn't attend just because signals became crossed. When the young man started for the Zenith city he had no idea of attending any society function. He left his dress suit behind. Some of the boys, displaying a rare thoughtfulness sent the dress suit up to the Spalding, so that Crandall might use it, should be break into any social happening where spike tails are usually worn.

The boys who were kind enough to send the dress suit up to the Spalding were also thoughtful enough to ask a young man who was coming up here, and who was a friend of Crandall's, to inform him that his suit was at the hotel. The friend entirely forgot his message and the party missed the beaming presence of Crandall.

This morning a friend of Crandall's called at the Spalding and inquired for the dress suit. After a search the suit was dug up. Crandall had returned to St. Paul without knowing the whereabouts of his suit, and it was only upon meeting the boys that he was informed that it probably reposed, snugly packed in moth balls, at the Spalding, which supposition proved to be correct.

That's the only reason why Crandall didn't go to the party. Whether he has been kept from attending any others in St. Paul by the presence of his dress suit in Duluth is not known.

TO ATTEND RAILROAD OPENING.

Moble, Ala., Jan. 9.—Maj. Gen. Davis of the United States army, who will represent the United States at the opening of the Guatemalan Northern railroad on Jan. 16, will sail this afternoon for Puerto Barrios.

ALL FOUR MURDERED

Theory of Police in Disappearance of Italians.

Believe Bodies Were Chopped Into Pieces After Death.

Florence, Colo., Jan. 9.—That Ercole Buffetti, Dominick Minichietto, Joseph Minichietto and Mrs. Frank Palmetto, who mysteriously disappeared in the city, were murdered and their bodies then chopped to pieces, is the positive opinion of the police. The disposition of their bodes is believed to have been partly revealed by the finding of human lungs, a thorax and a piece of a tongue in the Arkansas river.

It is believed that other ghastly remains are being scattered along the bed of the river by the swift current, and towns below have been notified to watch for the appearance of any evidence of murder that may come to the surface.

Killed Man in Italy.

Tony Bovori, who is in jail charged with the murder of the Minichietto brothers, is said by Chief of Police Furniss to have confessed that he killed a man in Italy before coming to America. In his house was found a bundle of letters addressed to Tony Neroni, and this is believed to be his real name. One letter was from his father in Italy, asking him to return to the old country and participate in a fortune the family had recently inherited. The father offered to use every effort to clear the son of the alleged murder charge in Italy, if he would return.

Committed Crime to Obtain Money.

Bovori was engaged in market gardening here, in partnership with the Minichietto brothers, and is accused by the police of having murdered them in order to obtain their money and other property. He had $350 when arrested. Buffetti was an old man employed in the garden. The police believe that he was killed because of his knowledge of the other alleged murders. His name was added to the list of missing last night.

Mrs. Palmetto was a young divorced woman, who disappeared two months ago. She had kept house for Bovori, but repeatedly refused to marry him. All her clothes have been found in Bovori's cabin. A blood stained ax was also found there, and a Mexican woman has informed the police that she washed the blood stained clothing for Bovori.

JURY TRIAL IN PROGRESS

Doyle Case Before Judge Dibell—Mattala Case Before Judge Cant.

The jury in the case of M. P. Doyle against Hugh Steele was excused this morning until 2 o'clock this afternoon to permit the parties to the action an opportunity of going over their accounts together, with a view of reaching an understanding that would result in a saving of time in the introduction of evidence. Mr. Doyle demands $1,200 for work performed as sub-contractor on the Robinson street paving job.

The damage case of John Mattala against the Shagwa Iron company is being tried in Judge Cant's room today. Mattala was employed as a miner and was injured, it is claimed, through the negligence of the company. Theodore Hollister and John R. Heino are Mattala's attorneys.

MANY ENTRIES ARE RECEIVED

Seaforth and Fort Frances, Ont., to Have Rinks at Bonspiel.

When the curlers of the Northwest gather at the rink of the Duluth Curling club for the annual bonspiel, Jan. 20, they will find the best ice ever encountered at a bonspiel here. It is as nearly perfect as can be and there is certain to be no dissatisfaction on the part of the visiting curlers. Last year, a portion of the skating rink, which had been turned over for curling and on which new ice had been formed, was complained of by the Winnipeg curlers, who said that it slanted. The defect has been remedied and the Winnipeg curlers informed that they will have no occasion to complain this year.

Entries are coming in rapidly for the big bonspiel, and it is estimated that the number of rinks will surpass those of last year by a goodly number. From all over the Northwest and Western Canada inquiries are coming and the officers of the Duluth club are cheerfully furnishing particulars and extending offers of hospitality to those contemplating coming to Duluth.

It is believed the number of rinks from across the border will be swelled considerably this year. Seaforth, Ont., will be represented by a rink, skipped by William Ament, and a rink from Fort Frances, Ont., skipped by H. H. J. Lisbon, is also entered. Winnipeg, Brandon, Port Arthur and Fort William are also expected to be represented in the play for the International trophy.

Your Duty is to be Well.

But you cannot be well if you neglect taking Hood's Sarsaparilla when you know you should take it. Impure blood, poor appetite, headache, nervousness, that tired feeling—by these and other signs your system demands Hood's. Get a bottle today.

Glow of Health—"My blood was very poor. Since taking Hood's Sarsaparilla I have more color in my face, sleep and eat well, and work is a pleasure." Mrs. A. A. Howard, Taunton, Mass.

In Worst Form—"I had catarrh in the worst form and was advised to try Hood's Sarsaparilla. I took seven bottles and am now in good health. I hope everyone who has catarrh will give Hood's a fair trial." Mrs. William Metcalf, Parkerford, Pa.

Always Praise—"I first took Hood's Sarsaparilla 13 years ago, and always speak in favor of it." H. Cowdell, 237 Perry Street, Lowell, Mass.

Hood's Sarsaparilla is sold everywhere. In the usual liquid, or in tablet form called **Sarsatabs.** 100 Doses One Dollar. Prepared only by C. I. Hood Co., Lowell, Mass.

CLAIMS BREACH OF CONTRACT

F. S. Kelly and J. Thomasson Interpret Agreement Differently.

The trial of the civil action of F. S. Kelly against John Thomasson for alleged breach of contract, was started in Judge Ensign's room in the district court this morning. Mr. Thomasson was formerly employed as manager of the furniture department of the firm of F. S. Kelly & Co. According to Mr. Thomasson's side of the case, he had an understanding with Mr. Kelly that as soon as he showed a gain in business to a certain figure, he was to be given an interest in the business. He claims that the figure agreed on was reached and passed, but that Mr. Kelly kept putting him off in regard to the alleged promised interest and finally paid him on a salary basis of $4,000 until some promised time in the near future, when the interest in the business would be forthcoming. Mr. Thomasson claims the interest was not forthcoming and that he exercised his right to leave, considering his contract broken by Mr. Kelly. Mr. Thomasson is now a member of the firm of R. R. Forward & Co.

Mr. Kelly claims that his agreement was to either give Mr. Thomasson an interest in the business or an increase in salary. Mr. Kelly alleges that the matter was optional with him and that he chose to increase Mr. Thomasson's salary rather than give him an interest in the business.

Mr. Kelly is represented by Henderson & Courtney, and Mr. Thomasson by H. B. Fryberger.

CIVIC CLUB WILL MEET

Park Point Residents Will Discuss Street Railway Transfer Matter.

A meeting of the Park Point Civic club will be held at the power house at 7:30 o'clock this evening to discuss the matters of transfers between the Park Point street railway line and the uptown line of the Duluth Street Railway company. The two companies came to an agreement recently in which the Park Point residents were conceded transfers of a 7-cent instead of a 10-cent basis, but even this is not entirely satisfactory to members of the club, and they will urge a free transfer system with a 5-cent fare.

The club will also discuss the matter of better fire protection on the Point.

D. E. H., 1-9-'08.

TOMORROW

Now starts the feature of "Extra Specials" which we promised you when we began the big Columbia January Clearing Sale. The first three go on sale tomorrow.

Here they are:

Odds and Ends

MEN'S **SHOES**

Every odd pair of Shoes, and every style of which we have no longer a complete set of sizes, goes tomorrow as an extra special.

Most all of these are this season's goods.

Hanan's

$5 and $6 Shoes at

$3.85

and

Columbia $3.50 Shoes

at

$2.85

As there are not many of these, the early comer will have much the best choice.

BOYS' **SUITS, REEFERS and OVERCOATS**

Our usual clearing of odds and ends. You who have bought upon former occasions will know what you may expect.

Lot One at **$1.00**

It comprises Suits, Reefers and a few Overcoats, from lines formerly $2.50 and up to $5. The Reefers are for ages 3 to 7, the Suits up to age 16.

Lot Two at **$1.98**

This is a similar lot, but contains a much larger selection and a better run of sizes. Many garments from the new fall lots. Here the values run from $5 down to $3.

MEN'S **SHIRTS**

This is a big lot with all sizes, but we wish to dispose of them before the new ones come in.

35c

takes the choice among hundreds of regular 50c and 75c garments with a few $1 ones thrown into the bargain. Soft and also a few stiff bosoms—a great variety of patterns and colors, plain and fancy—cuffs attached or detached—sizes 14 to 17½ neck—all go at 35 cents,

Or 3 for $1.00

Not over six sold to one customer.

COLUMBIA CLOTHING CO.

One-Fourth Off All Men's and Boys' Underwear.

Silberstein & Bondy Company.

The Coat Sale

Brought scores of women to the store today and promise greater crowds tomorrow. Prices are certainly ridiculously low, as the following values will demonstrate:

COATS—FULL LENGTH—CONSISTING OF CRAVENETTES, PLAID PRINCE CHAPS—TAN COVERTS, MIXTURES AND BLUE CHEVIOTS, RED LINED—$21.50 AND $27.50 FOR $5.00.

COATS IN MIXT SCOTCH TWEEDS—45 AND 48 INCHES LONG—VELVET COLLARS—$16.50 TO $29.50 FOR $6.75.

COATS IN NOVELTY BROWN AND GRAY, HEAVY WARM WORSTEDS AND BLACK CHEVIOTS, IN SEMI OR HALF-FITTING STYLES—ONE-HALF LINED—FULL LENGTH, $15.00 TO $25.00 FOR $10.00.

VELVET AND PERSIAN LAMB CLOTH COATS—26-INCH AND 45-INCH LENGTHS—VALUES $45.00 TO $67.50 FOR $18.50.

Fur Lined Coats

$57.50 48-INCH MUSKRAT LINED, MINK COLLAR, FOR $30.00.

$27.50 26 INCHES LONG, SQUIRREL LINED FOR $10.00.

Fur Collar Coats

$20.00 FUR COLLARED COATS, ONE-HALF SATIN LINED, FOR $14.50.

$29.50 VALUE—SABLE SQUIRREL COLLAR, QUILTED LINING, FOR $19.50.

Fur Coats

$48.50 BLACK ASTRAKHAN COATS, 24-INCH, $29.50.

$62.50 NEAR SEAL COAT, MARTEN COLLAR AND REVERS, $29.50.

Every other Coat in stock reduced—None Reserved.

The Muslin Underwear Sale

The great Underwear Sale makes clear the foolishness of home sewing. Take any garment in this sale; pick it to pieces. How much would fabric and trimming cost you? In many cases as much as we ask for the garment. But look at all these tucks and insertions; look at the hand embroidery on the French and Bohemian pieces!—you'd never have time to do such work at home. Yet look how little the prices are!

We might make underwear prices low at any other two periods of the year—it's simply a question of big dealing and hoarding the purchases.

CORSET COVERS, 50c TO $9.50.
NIGHT GOWNS, $1.00 TO $19.50.
DRAWERS, 50c TO $8.75.
CHEMISES, $1.00 TO $10.50.
LONG SKIRTS, $1.00 TO $19.50.
FRENCH 3-PIECE SETS, $9.50 TO $45.00.

Ten per cent discount on entire stock (except our special 50c and $1.00 numbers, already specially priced)—nothing reserved.

Hay's Hair Health

Never Fails to RESTORE GRAY or FADED HAIR to its NATURAL COLOR and BEAUTY

No matter how long it has been gray or faded. Promotes a luxuriant growth of healthy hair. Stops its falling out, **and positively removes Dandruff.** Keeps hair soft and glossy. Refuse all substitutes. 2½ times as much in $1.00 as 50c size.

IS NOT A DYE.

Philo Hay Spec. Co., Newark, N. J.

$1 and 50c Bottles, at W. A. Abbett's

OVERCOAT

If you order your Overcoat here you get **quality,** both **inside** and **out** a garment that will wear and become you while you wear it.

TALK

is cheap, but we "make good" our talk, for we absolutely guarantee every garment made here. Remember a **Made to Order** at the price of a **ready made.**

REPLIES TO M'EWEN

Civic Committee Answers Open Letter of Labor Leader.

Denies That Contractors Have in Any Way Broken Faith.

The following open letter received by The Herald, today, explains itself:

Mr. W. E. McEwen, Duluth, Minn.

Dear Sir.—In Tuesday evening's Herald, Jan. 7, you addressed a letter to the civic committee of 100 on the open shop, pleading the inviolability of contracts, the high idea of honor that should be exercised regarding them, and, by misstatements and inferences, tried to prejudice the public and committee in the open shop controversy. You claim that, through the existence of certain contracts between the unions and contractors, none but union men should be employed until May 1, 1908, and that the contractors had violated such contracts in this controversy and, therefore, should not have the support of this committee or of any fair-minded men.

In the first place this committee wishes it particularly understood that its action for the open shop movement is not based on any desire to defend or assist contractors in disagreements pertaining only to their interests. This committee took hold of the open shop movement solely because it realized that it was absolutely essential for the interests of Duluth that the public and citizens should correct the many evils that have grown up in the labor situation, and make possible the free and unrestricted employment of all kinds of labor in Duluth for all time to come. Even before the trouble was precipitated between the unions and the contractors, a movement was on foot by citizens looking toward this end. The unfair and unreasonable action of the unions and their violation and annullment thereby of such agreements as were made in the settlement of the strike last May, by the strike on the Sellwood building and the Clyde Iron works, simply forced the issue. Though this committee does not feel that it is necessary in the course of its general policy for the open shop movement to defend the contractors, yet, as long as you have made a public charge, for our own satisfaction we investigated it, and feel that it is right and proper on behalf of the open shop movement that the facts be made public.

We have in our possession the full minutes of the various sessions of the arbitration committee that settled the strike with the unions last May, duly signed by the chairman of the union interests and the representative of the contractors. There is absolutely nothing in those minutes, expressed or implied, by which it was agreed or suggested that the contractors be bound to employ union labor only.

Desiring to investigate the matter further, we looked up contracts in individual crafts between unions and masters. We have been able to find contracts covering only electricians and sheet metal workers. We have original signed contracts in these lines, and do not find any agreement sustaining your contention. We do find in the electricians' agreement the following paragraph:

"Article VI. No non-union men shall be employed when a satisfactory union man is available."

Union men refused to work and were, therefore, unavailable.

The agreement of the sheet metal workers, duly signed, shows that Rule 4 was suggested by the union and repudiated by the contractors, and crossed out of the final agreement, it providing that "non-union, suspended or expelled members should not be employed, without a permit in writing from the president, subject to the approval of the union." Rule 9 says: "Non-union men desiring to go to work in Duluth must sign an order for $5 with application and $5 per week until all indebtedness to the union is paid."

There might be an inference from this rule that non-union men should not be employed among metal workers, were it not for the fact that the rule prohibiting such employment, previously inserted, was stricken out. The reasonable interpretation, therefore, of Rule 9 would be that non-union men willing to make an application for membership in the union, must sign orders on the contractors for their pay, by which the union may get its dues.

Rule 11 specifically provides that when a difference arises and the parties cannot reach an agreement, the two parties should select a disinterested third party, to whom they shall immediately submit their case, and he shall render a decision within twenty-four hours, and be final—further stalling—"It is expressly understood that the men shall continue at work pending settlement."

This they did not do.

So far as we are able to find there was no agreement at the arbitration of the strike last May between any other trades and the masters, affecting anything beyond wages and hours.

In the light of these facts, it must be perfectly plain to all that you have attempted to create sympathy by a misstatement of facts on the plea of inviolability of contracts.

The facts regarding the present controversy are indisputable, and are as follows: The American Bridge company, not a party to any agreements with local unions, had a contract with Mr. Sellwood for the furnishing and erecting the steel frame of the Sellwood building; McLeod & Smith being general contractors for part of other work, under their contracts were obliged to start the brick and stone work connected therewith. This same firm had a contract on the Clyde Iron works then nearing completion. The building laborers employed on the Sellwood job were called out on strike by the Structural alliance, because of the American Bridge company being open shop, notwithstanding that the stone masons and bricklayers' unions continued to work, and McLeod & Smith were obliged to get non-union laborers to assist these other two unions. The Structural alliance not being able to force the union stone masons and bricklayers to strike on the Sellwood job, and in order to injure McLeod & Smith, called a strike on the Clyde Iron works in all lines of crafts employed there. None but union craftsmen had been at work on the Clyde job from the beginning, and practically every craft represented in the settlement of last May was engaged there at that time, all of such sub-contractors, except McLeod & Smith, having no interest in the Sellwood job.

This action was distinctly a violation by the unions of the rule on arbitration quoted. The Builders' exchange gave thirty-six hours' published notice to the men to return to work, stating that failing to do so, the contractors would take steps to get other workmen. This they have done, and have practically full crews working.

In your letter you state "Labor did not violate its agreement, the members of the Builders' exchange did, and should the tables be turned, we would be deservedly rebuked for repudiating our contracts." The public can easily judge from the facts given, who violated contracts and who should be deservedly rebuked therefor.

Other civic organizations then declared for the open shop, and the citizens' committee, who certainly made no agreements, have taken charge of the movement, and it is beyond any possible control of the Builders' exchange. Frequent misleading and untrue statements to unfairly prejudice the public have been published from time to time, in which you or other prominent labor leaders have been quoted. This committee has refused to enter into any newspaper controversy or arguments. In making an exception at this time, it seeks only to give the facts as it knows them.

You have also stated frequently that the open shop campaign was inaugurated and fostered by an outside organization, probably referring to the National Association of Manufacturers. Our committee has had no connection whatever with the Manufacturers' association, and our attitude is not the result of any action on its part. Our action is simply the result of intolerable conditions prevalent in Duluth for several years, and which are known to every individual, who has been connected with building improvements.

Is it not true, however, that many outside labor organizations have rushed their prominent leaders here to assist by advice and money the effort to paralyze industry in Duluth, unless it is carried on under unjust and tyrannical rules.

We believe in the open shop and equal rights for all and that the best interests of the city require that principle be maintained.

A. H. COMSTOCK, Chairman.
D. E. WOODBRIDGE, Secretary.
Citizens' Association.

Duluth, Jan. 9, 1908.

FOURTEENTH HUSBAND.

Was First Married When She Was Thirteen Years Old.

Council Bluffs, Iowa, Jan. 9.—Determined not to stop at the thirteen mark for fear of ill luck, Mrs. Jennie P. Bigford, respected and still attractive, married her fourteenth husband on Saturday. The latest is A. W. Townsend of Dodge, Neb., and he is reported wealthy.

It was when she was just 13 years old that the new Mrs. Townsend took her first fling in the matrimonial game. One year later she was a widow, and the other marriages came thick and fast.

Of the thirteen suitors who led her to the altar, eleven are still living. Divorces followed almost as quickly as the marriages. She has been both plaintiff and defendant. Most of her husbands have been old soldiers.

Baby Mine Every mother feels a great dread of the pain and danger attendant upon the most critical period of her life. Becoming a mother should be a source of joy to all, but the suffering and danger incident to the ordeal makes its anticipation one of misery. **Mother's Friend** is the only remedy which relieves women of the great pain and danger of maternity; this hour, which is dreaded as woman's severest trial, is not only made painless, but all the danger is avoided by its use. Those who use this remedy are no longer despondent or gloomy; nervousness, nausea and other distressing conditions are overcome, the system is made ready for the coming event, and the serious accidents so common to the critical hour are obviated by the use of **Mother's Friend**. "It is worth its weight in gold," say many who have used it. $1.00 per bottle at drug stores. Book containing valuable information of interest to all women, will be sent to any address free upon application to

BRADFIELD REGULATOR CO., Atlanta, Ga.

Mother's Friend

ON THE IRON RANGES

HASTY TRIP A MYSTERY

Speculation Rife as to Why County Attorney Visits Range.

Leaves Suddenly While Grand Jury is in Session.

A flying and mysterious visit to the ranges by County Attorney John H. Norton yesterday afternoon caused a great deal of speculation last evening and this morning in official circles, as to what matter of importance the county attorney's office is investigating, and whether some action is to follow.

Mr. Norton left for Hibbing on the Missabe train yesterday afternoon without disclosing any reasons so far as known, outside his office. It is expected that he will return at 3:30 o'clock this afternoon.

The sudden visit of the county attorney to the range just at this time, when the court is in session and the grand jury is making an investigation of the alleged criminal cases is regarded as significant, although Mr. Norton's movements seem to have been as much a surprise to the grand jurors as to anybody else.

There have been some rumors that indictments were returned by the grand jury against persons alleged to be operating blind pigs at various points on the range, and it is thought quite possible that Mr. Norton's sudden visit there has something to do with the serving of warrants on persons that may have been indicted.

The grand jury will assemble this afternoon, as soon as Mr. Norton arrives, and will either make its final report or investigate any other matters that the county attorney may have for their attention.

Strict secrecy has surrounded Mr. Norton's movements, and it is claimed that he would not have gone to the range at this time unless some matter of importance came up that demanded his immediate attention.

CHIEF SILVER QUITE POPULAR

Citizens of Eveleth Said to Favor Retention of Chief.

Eveleth, Minn., Jan. 9.—(Special to The Herald.)—Much interest in the affairs of the fire department has arisen as a result of the new council's decision to place the election of a fire chief on the table until the next meeting. The general sentiment among citizens is that any attempt on the part of the new council to tamper with the present personnel would be ill-advised. The members of the department are doing all in their power to secure the election of Chief Silver for the next two years, as they desire to continue the high state of efficiency he has produced.

Before the dissolution of the old council Tuesday night a vote of thanks was passed to Ed Skeel as the best city clerk that Eveleth has ever had.

EVELETH ART CLUB

Elects Mrs. Hearding President and Listens to Papers.

Eveleth, Minn., Jan. 9.—(Special to The Herald.)—The Eveleth Art club, after its holiday vacation, resumed its meetings and elected the following officers: President, Mrs. J. H. Hearding; vice president, Mrs. W. E. Harwood, secretary, Mrs. Edward Skeel; treasurer, Mrs. G. A. Whitman.

At the meeting which was held at Mrs. W. J. Smith's home, the program included Mrs. J. A. Robb's paper on "The Life and Character of Mohammed." Mrs. W. J. Smith spoke on "Saracenic Architecture."

The prize winners at the Rabinovitz party were Mrs. James Lavick of Virginia and Mrs. H. G. Perlman. The second prizes were won by Mrs. J. Roman of Virginia and Mrs. Sam Siegel.

LAKE COUNTY BOARD

Organizes, Appoints Committees and Transacts Other Business.

Two Harbors, Minn., Jan. 9.—(Special to The Herald.)—The Lake county board of commissioners has organized by electing C. V. Johnson chairman and Hans C. Johnson, vice president.

The following committees were appointed by Chairman Johnson:

Highways and bridges—Peter Johnson, Hanson, Walker, Good and C. V. Johnson.

Buildings and grounds — Hanson, Walker and C. V. Johnson.

Taxes and assessments—Walker, Hanson and Peter Johnson.

Claims and accounts—Hanson, Walker and Good.

Supplies and purchasing—C. V. Johnson, Hanson and Walker.

License and legislation—Good, Walker and Hanson.

County Treasurer Holden was allowed $200 for clerk hire for the year, while the county attorney was allowed $300 to be expended in gathering evidence in criminal cases.

County Surveyor G. W. Watts' bond with L. D. Rose and E. A. Daniels as sureties was accepted. The county printing contract was given to the Iron News.

As the fees of the county clerk of the court's office did not come up to the $1,000 annual guarantee allowed by law the board granted Frank Kempffer the difference, $336.39. The board has adjourned until next Tuesday, when the balance of the pending business will be cleared up.

FRIENDS ARE SURPRISED AT VAN SLYE'S ENGAGEMENT.

Eveleth, Minn., Jan. 9.—(Special to The Herald.) — The friends of W. R. Van Slyke were surprised to hear that he was engaged to Miss Blanche Wenz of Beaver Dam, Wis. Mr. Van Slyke is employed in the office of C. E. Bailey as engineer. Miss Wenz visited Eveleth for the first time in the summer of 1906. The groom-to-be is at present ill with pneumonia at his home in Detroit, Mich.

Miss Wenz is an intimate friend of Mrs. Frederick Barrett of the Fabiola hospital.

Miss Helen Harwood, daughter of Dr. and Mrs. Harwood of the Fabiola, left for Northampton to resume her work at Smith college, accompanied by her mother.

EVELETH K. OF P. INSTALL.

Eveleth, Minn., Jan. 9.—(Special to The Herald.)—Eveleth lodge, No. 144, K. of P., has installed the following officers: N. J. Colvin, C. C.; A. E. Bowden, prelate; H. Olson, M. W.; G. A. Perham, keeper of records; C. F. Johnson, master of finance; J. A. Robb, master of the exchequer; Fred Williams, inside guard.

BRIEF HIBBING EVENTS.

Hibbing, Minn., Jan. 9.—(Special to The Herald.)—Mrs. John Whalen and Mrs. James Woods visited relatives in Duluth Monday and Tuesday.

John Whalen has gone to Syracuse, N. Y., to attend the funeral of his sister, who died at that place.

Rev. Mr. Durant visited Duluth Monday.

The dance Tuesday evening for the benefit of the Italian church was a success and enjoyed by all who attended.

MUST SHELTER COWS.

Probation Officer Serves Notice Upon Biwabikites.

Biwabik, Minn., Jan. 9.—(Special to The Herald.)—As a result of a recent visit of T. E. Grae, the new St. Louis county probation officer, residents of the so-called Austrian location must provide shelter for their cows during the bitter cold weather. He served notice to that effect upon the owners of stock, who are alleged to have violated the law in that respect.

LITTLE ONE AT REST.

Popular Tower School Girl Victim of Appendicitis.

Tower, Minn., Jan. 9.—(Special to The Herald.)—Anna, the 10-year-old daughter of Mr. and Mrs. Jacob Skala, died at her home here Tuesday morning. Her illness was of very short duration, being taken ill with appendicitis Thursday, Jan. 2, and died Jan. 7, being ill only five days. She was a very bright and charming child and had a great many friends, who sincerely mourn her loss. She was a member of the Fifth grade and her classmates placed on her coffin a large bouquet of cut flowers. Funeral services were held at St. Martin's Catholic church this morning at 10 o'clock. The following acted as pall bearers: Tony Stefanich, John Vida, Tom Witchel and Frank Sniderich. The body was laid in its last resting place in Lakeview cemetery.

FORMER MAID AT WOOD'S HOME ASSUMES "MISSING RECORDS" WERE BURNED

(Continued from Page 1.)

ment used as a storage room. There was no attempt to conceal them from view.

Witness also described the size of the boxes, but her description did not correspond with that given by another witness earlier in the afternoon, who testified that he had boxed the papers and documents referred to.

"Did you ever leave the house to be gone over night?" asked Mr. Houpt.

Witness replied that she did very frequently, but at her own choice.

"Do you remember of an instance when you were given special permission to be away for a day?" was the next question.

Witness said that she was allowed to go home July 7. This was on a Sunday.

"When did you return?" asked Mr. Houpt.

Witness said that she returned at 7 o'clock the next morning.

Found House Locked Up.

Further questioning elicited the fact that when she returned she found the doors of the house all locked. She thereupon opened a screen door in the rear, which was fastened on the inside by the aid of one of her hair pins, and she then unlocked the inner door with a key she carried.

On going in the house, the witness said that she discovered that it was very warm, and she also noticed that there was steam in the radiators. She then went into the basement to investigate the cause of it.

"What happened then?" queried the government's attorney.

"I met George Wood, L. A. Wood, L. C. Wood and Bruce Tuttle in the basement," was the reply.

"Did you see them put anything into the furnace?" the witness was asked.

She replied that she did not, neither did she look to see that there was any fire in the furnace, but she assumed there was or had been from the circumstances already stated.

"Were the records still in the basement?" was the next interrogation.

"They were not," came the sharp reply.

"Did you ever see them after this?"

Witness replied that she had not.

Defense Is Surprised.

At the conclusion of the testimony, Ex-Governor Lind, for the defense rose and dramatically said:

"Your honor, this testimony is very much of a surprise to us. In justice to the defendants I ask the court to appoint a marshal to go to the residence of Mr. L. A. Wood at once, before he has an opportunity to go there himself, and to accompany this witness there, or anyone else, or as many as choose to go, and have her examine certain boxes and papers which are in his house now, in order to see if they are not the ones to which she has reference to.

Mr. Ewart, assistant district attorney, then made objection to any such statement being made in the presence of the jury.

"It is intended to belittle the testimony given by this witness," he asserted.

The court took no action in the matter, saying that the defense would have an opportunity to cross-examine the witness and to introduce testimony at the proper time.

THE JURY BOX IS FILLED

(Continued from Page 1.)

office sat in the audience of the theater, where the young actress is playing, all of yesterday afternoon and last night and finally served the papers upon her, Mr. O'Reilly says, as she left the playhouse at 11:30 p. m. It was intended to serve the subpoena after the matinee, but Miss Goodrich had dinner served in her dressing room.

A new venire of talesmen reported this morning and, with six sworn and three provisional jurors in the box, the attorneys for the prosecution and defense set about filling the vacancies and preparing for another exercise of peremptory challenge.

Crowds Watch Mrs. Thaw.

Young Mrs. Thaw had to make her way through a crowd of several hundred persons gathered outside the criminal courts building, when she came down town for the morning session. Several policemen had to be called to clear a passage through the throng.

The sixth talesman reached today passed a successful examination for temporary juror. He was Frank Manning, an insurance man, who said he had been too busy during the first trial to thoroughly read the newspapers, and consequently had formed no opinion in the case.

It was nearly an hour after this before another talesman who approximated eligibility was reached. Harry C. Adams, the secretary of a carpet company quickly passed muster for the prosecution. When questioned by Littleton for the defense, he said he had known Stanford White for many years in a business way. Neither at the time of the tragedy nor since, he declared, however, had he entertained any feeling or prejudice in the case. Mr. Adams also said he had served on three capital juries during recent years. Failing to dislodge Adams for cause, Mr. Littleton used his twelfth peremptory challenge against him, and he was excused.

The next talesman up was accepted by both sides, after a brief examination. He was Charles Thurston, a boookkeeper, who declared that he had formed no opinion from what he read of the previous trial. Mr. Thurston's selection left but one vacant chair in the box.

Begin on New Talesmen.

New York, Jan. 9.—With half of the jury that will try Harry K. Thaw on a charge of wilfully murdering Stanford White secured, the trial was resumed this morning with 100 extra talesmen summoned. Out of this number, and another 100 ordered to report tomorrow morning, an attempt will be made to secure the other six jurymen necessary for the trial. There are still plenty of peremptory challenges left to both sides and it is even possible that some of the men who have been sworn in as jurors may be excused before the actual hearing of evidence begins. The venire having been exhausted, there was no night session last night, and the attorneys are in court this morning refreshed by a night's rest and ready to complete the task of securing a jury with the least necessary delay.

Counsel Expeditious.

Both District Attorney Jerome and Mr. Littleton, Thaw's chief counsel, are doing all consistent with their duty to carry out Justice Dowling's wish to hurry the trial, and their examinations are being conducted rapidly. Neither side is willing to prophesy when the jury will be completed, and those who have followed the case closely are not confident of a speedy end of the preliminary work. The defense has so far used eleven of its peremptory challenges, and the prosecution, which has the same number, has used but eight. That many more will be used seems probable. When court opened this morning there were three men in the box in addition to the six sworn jurors, who had passed for cause, but who are still subject to peremptory challenges.

Insanity the Only Defense.

That insanity at the time of the killing will be the only defense offered for Thaw was made certain yesterday, when it was learned that Mr. Littleton had subpoenaed several of the alienists who testified for the prosecution at the former trial. It is said that all of these alienists believed Thaw was suffering from paranoia, a variety of insanity which they hold to be incurable, when he killed Stanford White, which they testified before the insanity commission, summoned during the progress of the trial, still existed. It is believed that Mr. Littleton will call upon them to testify, thereby forcing Mr. Jerome to demand a commission in lunacy for the examination of Thaw. The defense, it is said, believes that Thaw is now able to withstand any examination which the alienists may give him. It has been rumored for some time that the defense would claim that Thaw had suffered from paranoia, but had recovered since he has been in jail, although alienists hold that only a very small proportion of paranoiacs ever recover.

Six Jurors Sworn.

The oath of service was administered yesterday to three men, making six in all who have been finally accepted. Three provisional jurors were also in the box at the close of the day's sessions, but they are still subject to peremptory challenge.

Another series of this arbitrary removals reduced the panel when all twelve seats had been filled at 4 o'clock and six chairs were left vacant when it was finished.

The sworn jurors in their respective positions are: Charles E. Gremels, ship broker, foreman; Arthur R. Naething, baker; George W. Cary, dry goods merchant; George C. Rupprecht, salesman; John H. Holbert, mineral waters; David E. Arrowsmith, manager.

The provisional jurors are William McAdie, salesman; George M. Mettze, drugs, and James S. Davidson, clerk.

ARMED AND PREPARED

East End People Are "Laying For" the Burglars.

Scare Has Given Many Families the Revolver Habit.

Any belated East ender who carefully removes his shoes in the vestibule and tries to dodge the creaky step on the stairs at 1 a. m. these days is likely to get shot full of holes.

And the young man who cannot yet be trusted to carry his own latchkey and who tries to make his room by the water pipe route may find himself the star performer at a coroner's inquest.

The reason for it all is the burglar scare.

Over the bridge whist tables the scare has grown and gained force. The reports of robberies and attempted robberies have been told and retold. The burglars' game is spoiled and the East end would furnish poor pickings for an enterprising and energetic young burglar, anxious to get along in his profession.

There is one family in the East end that has been religiously storing the silverware in the clothes closets every night for the last two weeks.

One young woman in the East end, who has a deadly fear of firearms, has adopted the plan of keeping a revolver on her dressing table, but has religiously removed the cartridges to a safe place for fear that the weapon will explode.

One board of trade man says he can tell the police where the burglars are. "They have been at my house every night for a week," he said. "My wife wakes up regularly every night and says in a stage whisper, 'Charlie, there they are now.' I don't know why they single out our house to visit every night, and I rather wish they would finish their job and move on."

The East end, in fact, is armed and well prepared. Rusty old revolvers have been taken from almost forgotten hiding places, oiled and loaded. Doors are religiously bolted at night, and windows carefully locked. It looks, in fact, as if the unknown burglars have overdone their act, and have spoiled their own game in Duluth.

COTTON GINNED.

Washington, Jan. 9.—The census bureau today issued a report showing that the number of bales of cotton ginned from the growth of 1907 to Jan. 1, 1908, was 9,955,427 as compared with 11,741,039 last year and 9,725,426 for 1906. This counts round bales as half bales. The number of round bales included is 179,391 for 1908; 255,566 for 1907 and 263,581 for 1906. Sea Island included is 73,928 bales for 1908 and 54,275 for 1907 and 98,942 for 1906. The number of active ginneries for 1908 was 27,276.

DOUBLE CELEBRATION.

Golden Wedding of Couple and Silver Wedding of Daughter.

Calumet, Mich., Jan. 9.—(Special to The Herald.)—A celebration of considerable interest took place, last evening, at the home of Cornelius Cronin, when he and his wife celebrated their golden wedding and a daughter and son-in-law, Mr. and Mrs. William Clarke, held their silver wedding anniversary.

Mr. and Mrs. Cronin were married fifty years ago at the old Central location, eight children being born to them, four now living. There are two grandchildren and about thirty great-grandchildren, all of whom were present at both festivities last evening.

Mr. Cronin is 72 years of age and still in the employ of the Calumet & Hecla Mining company, for which he has worked many years.

GREAT NORTHERN KEYMEN ARE MEETING IN ST. PAUL.

St. Paul, Minn., Jan. 9.—(Special to The Herald.)—Members of a general committee representing the railroad telegraphers on the Great Northern system are in St. Paul conferring with the officials of the road in regard to the adjustment of rules and regulations governing the work of the telegraphers on the Great Northern. The committee, which makes its headquarters at the Hotel Foley, represents the Great Northern system division of the Order of Railroad Telegraphers, but the men say they are simply here as employes to confer with their superiors. It is stated that no requests have been made for any increase in wages.

BATTLESHIP LEAVES PORT.

Provincetown, Mass., Jan. 9.—The new battleship North Carolina, which put into this port Tuesday night because of stress of weather, while on a twenty-four hours' endurance run, sailed about 6 o'clock this morning. No one from the ship came ashore during her anchorage off this port, so that no details of her twenty-four hour run of Tuesday could be learned.

SOME HARD KNOCKS.

Woman Gets Rid of "Coffee Heart."

The injurious action of Coffee on the heart of many persons is well known by physicians to be caused by caffeine. This is the drug found by chemists in coffee and tea.

A woman suffered a long time with severe heart trouble, and finally her doctor told her she must give up coffee, as that was the principal cause of the trouble. She writes:

"My heart was so weak it could not do its work properly. My husband would sometimes have to carry me from the table, and it would seem that I would never breathe again.

"The doctor told me that coffee was causing the weakness of my heart. He said I must stop it, but it seemed I could not give it up until I was down in bed with nervous prostration.

"For eleven weeks I lay there and suffered. Finally husband brought home some Postum, and I quit coffee and started new and right. Slowly I got well. Now I do not have any headaches, nor those spells with weak heart. We know it is Postum that helped me. The Dr. said the other day, 'I never thought you would be what you are.' I used to weigh 92 pounds and now I weigh 158.

"Postum has done much for me and I would not go back to coffee again for any money, for I believe it would kill me if I kept at it. Postum must be well boiled, like the directions on pkg. say, then it has a rich flavour, and with cream is fine." Name given by the Postum Co., Battle Creek, Mich. Read "The Road to Wellville," found in pkgs. "There's a reason."

DEFECTIVE PAGE

PILES Quickly Cured

Pyramid Pile Cure Positively a Marvel of Quick Curing Power. Send for a Free Trial Package Today.

We want every man and woman suffering from the excruciating torture of piles to just send their name and address to us and get by return mail a free trial package of the most effective and positive cure ever known for this disease, Pyramid Pile Cure.

As an example, Emma Bodenhamer of Bedford, Indiana, was in constant pile-agony for 23 years. Three 50 cent boxes of Pyramid Pile Cure cured her.

And George Braneigh of Schellburg, Pa., cured his 14-year piles with only one 50 cent box.

The way to prove what this great remedy will do in your own case, is to just send your name and address to us and you will get by return mail a free trial treatment of Pyramid Pile Cure.

Then after you have proven to yourself what it can do, you will go to the druggist and get a 50 cent box.

Don't undergo an operation. Operations are rarely a success and often lead to terrible consequences. Pyramid Pile Cure reduces all inflammation, makes congestion, irritation, itching, sores and ulcers disappear,—and the piles simply quit.

Send your name and address today for this free trial treatment to Pyramid Drug Co., 137 Pyramid Bldg., Marshall, Mich.

On sale at all drug stores at 50 cents a box.

DULUTH DEBATERS LIVEN UP.

First Contest of Season by Public Speaking Club.

Members of the Public Speaking club at the Central high school debated on the public ownership question yesterday afternoon in the first contest of the term, which resulted in a victory for the negative side, upheld by Andrew Meidahl, Phillip Poirier and George Hathaway. The affirmative debaters were Wayland Sonford, Winn Francisco and August Neubauer. Professors Lambert, Landi and Hiestand acted as judges.

Three of the six students who took part in the contest yesterday will be chosen to present the senior class in the interclass debates with the juniors.

The Duluth debaters may challenge the winners of the Pine City-Virginia contest, although it would be outside of the Debating league, to which Duluth Central belongs. The Duluth debaters line up against the Blaine high, Superior, team about the first of March.

CALLED TO WASHINGTON.

Fargo, N. D., Jan. 9—(Special to The Herald.)—Special Assistant United States General B. D. Townsend has departed for Washington to resume his work of investigation, under the direction of the department of justice. Mr. Townsend spent several months in Portland, Or., last summer, investigating the Southern Pacific Railway company and a couple of years ago investigated the International Harvester company. Monday he received notification from Washington to return to the capital.

FORMER SHERIFFS FIGHT DUEL, ONE BEING KILLED.

Bonestead, S. D., Jan. 9.—(Special to The Herald.)—In a fight at Fairfax ex-Sheriff John Dettman of Crawford county, Iowa, shot and killed George Taylor, ex-sheriff of this county. Taylor is alleged to have had Dettman down, when Dettman pulled a gun and shot Taylor through the neck. Taylor died almost instantly. The fight was over an old feud.

BEMIDJI'S DELEGATES.

Bemidji, Minn., Jan. 9.—(Special to The Herald.)—The directors of the Bemidji Commercial club have elected delegates to attend the meeting of the representatives of the commercial clubs of the state in St. Paul Jan. 16 and 17 as follows: F. S. Lycan, W. M. Bowser, W. L. Brooks, C. J. Pryor.

YOUNG ITALIAN SHOOTS.

Ishpeming, Mich., Jan. 9.—(Special to The Herald.)—Ed Raymond, a young man living with his parents at Barnum, is in the Ishpeming hospital with a bullet in his thigh, said to have been fired by Joe Tempary, a young Italian, also living at Barnum. The shooting occurred near the railroad crossing on Lake avenue. The Italian fled after the shooting and is being sought. The shooting was the culmination of an old grudge.

NEW INSPECTOR GENERAL.

Bismarck, N. D., Jan. 9.—Col. M. A. Hildreth, inspector and judge advocate general of the North Dakota National Guard, has been retired under a provision of the statute, and First Lieut. S. T. Nichols of the Mandan company succeeded to the vacancy, with the rank of colonel.

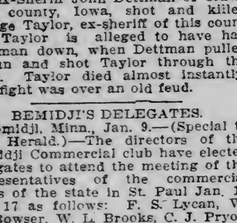
HANGS SELF WITH WIRE.

Kelso, N. D., Jan. 9.—Fearing another attack of nervousness coming on her again that she had several years ago, Mrs. William Williston, residing ten miles south of this town, committed suicide by hanging herself in the granary, her husband going to Hunter for a doctor, arriving a short time after her death. Daughters went to look for their mother, and found her hanging with a wire around her neck fastened to a nail.

Shoemaker's Poultry Book

AND ALMANAC FOR 1908.

There is nothing in the world like it. It contains 224 large pages, handsomely illustrated. A number of most beautiful **Colored Plates of Fowls** true to life. It tells all about all kinds of **Thoroughbred Fowls,** with life-like illustrations, and prices of same. It tells how to raise poultry successfully and how to treat all diseases common among them. It gives working plans and illustrations of convenient Poultry Houses. It tells all about



Incubators and Brooders.

It gives full instructions for operating all kinds of Incubators. This chapter is marvelously complete and worth dollars to anyone using an incubator. It gives descriptions and prices of Incubators, Brooders and all kinds of Poultry Supplies. In fact, it is an encyclopedia of chickendom and will be mailed to anyone on receipt of only 15 cents. Your money returned if not pleased.

C. C. Shoemaker, Box 1348, Freeport, Ill.

NEWS OF THE NORTHWEST

CASES ARE NOT TRIED

Damage Suits Against Great Northern Settled Before Trial.

Polk County District Court Relieved of Trying Cases.

Crookston, Minn., Jan. 9.—(Special to The Herald.)—The settlement of four damage suits against the Great Northern railroad, before they came to trial in the district court, lessened the labors of the court. They were the suits of E. O. Hagen, Charles Forsberg, George Altrow and Charles Beaton.

Rowe and Longley were the attorneys for the plaintiffs in the last three named suits. Charles Beaton received $1,900 and all expenses. He was the employe who was injured from a fall from the turntable in the Great Northern yards in South Crookston, last summer, and was permanently injured. For a time it was not thought that he would recover.

In the suit of Lockwood vs. Abrahamson the jury returned a verdict for the defendant. The plaintiff sued to recover the value of his share of the crop raised on the farm which he rents to the defendant in the town of Kerstonville. The defendant put in a counter claim, contending that the roof of the barn fell in injuring some livestock, and that the roof of the house leaked and rain damaged the furniture.

ODD SITUATION IN MARQUETTE

Temperance and Liquor Interests Working for Common End.

Marquette, Mich., Jan. 9.—(Special to The Herald.)—The anomalous spectacle of temperance advocates working in harmony with saloon men for a common object is just about as funny as seeing the saloon men ask the police to enforce the law, but the latter thing did happen, and the former is now happening. The situation certainly resembles a joke, but nobody's laughing, and furthermore, very few persons, and none of those directly interested in the question, are talking. The saloon men are getting ready for the special election, and so are the temperance folks, and they are all too busy to say much.

Everyone seems to be fairly well satisfied with what the council did about the saloon question. The special election, to determine whether Marquette shall have twenty-five saloons or whether the present condition of affairs shall continue, is popular, and it is probable that a heavy vote will be polled.

COLLEGE GIVEN VALUABLE LAND

In North Dakota to Found the Hazlett Lectureship.

Grand Forks, N. D., Jan. 9.—(Special to The Herald.)—The trustees of Wesley college have accepted the endowment of $10,000 for the Hazlett lectureship.

The purpose of this fund is to bring each year some noted lecturer for the benefit of the students of the institution and others who wish to attend. J. M. Sturtevant of this city presented to the college the deed to a half section of land in Cavalier county, with the request that the income or receipts from sale be used to support the artists' recital of the conservatory of music. In this way some of the best musicians in the country will be brought to Grand Forks. The equity in the land is $4,000, of which $500 is applied on a previous subscription by Mr. Sturtevant.

The board also discussed future plans for the college, though no definite action was taken.

ELEVATORS ARE BURNED.

About Three Thousand Bushels of Wheat Destroyed.

Abercrombie, N. D., Jan. 9.—(Special to The Herald.)—By a fire that broke out in the Monarch elevator here shortly after midnight, that structure, containing about 3,000 bushels of wheat, and the Crown elevator, containing two carloads of coal, were burned to the ground and only by the heroic fighting of firemen was the business portion of the city saved from devastation of the flames. The entire loss will reach close to $25,000 and it is believed to be well insured. The fire is believed to have originated, probably, from an overheated stove. The elevators are but fifty feet apart and the flames easily jumped the gap. Two other elevators were saved, as was the hospital, which was in danger several times.

FORMERLY AN EDITOR.

New Commissioner of General Land Office Used to Mold Ideas.

Fargo, N. D., Jan. 9.—(Special to The Herald.)—The promotion of Fred Dennett to be commissioner of the general land office, when the resignation of Commissioner Ballinger goes into effect, is pleasing news to North Dakotans.

Mr. Dennett's advance in official life has been rapid. Some years ago he was editing the Globe at Milton, this state. He became private secretary to Senator Hansbrough, in which position he remained until about four years ago, when he secured an appointment as special examiner in the land department, and subsequent promotions followed rapidly.

Mr. Dennett was a former resident of England and came to the Northwest early in life. Western people will appreciate the fact that he is in the place, as he is familiar with conditions surrounding the homesteaders.

LOOKS LIKE FOUL PLAY.

Young Farmer Was Found Unconscious and Hair Frozen.

Perham, Minn., Jan. 9.—(Special to The Herald.)—Anton Peterson, a young farmer, who lived with his mother near New York Mills, was found unconscious near the barn of August Hallaf, who lives two miles south of New York Mills. His feet were frozen and his back and limbs had the appearance of being either frozen or scalded. He is in a critical condition and is not expected to recover. Peterson was in Perham and left for home sometime in the evening. No one seems to know why he passed his own home and went to a neighbor's, two miles further on. Hallaf says he heard a man walking around the house in the night, and that he got up but could see no one. Peterson is said to have had some money with him when he was here. He had only $1.25 when he was found and his valuable gold watch is missing. The present indications point to foul play.

MANY VETS EXPECTED

At Annual Meeting of the North Dakota Association.

Fargo, N. D., Jan. 9—(Special to The Herald.)—It is expected there will be a large and representative attendance at the annual meeting of the North Dakota Veterinary association, to be held here next Tuesday and Wednesday, Jan. 14 and 15. Tuesday morning will be devoted to the president's address, the transaction of business and the election of new officers and reports of committees. Tuesday afternoon will be devoted to the reading of papers and Wednesday morning Prof. Van Es will hold a clinic at the college laboratory. There will be a social meeting in the afternoon. The program for Tuesday afternoon follows:

"Swamp Fever ..... D. Fisher, Hope, N. D.
.....
"The Mallein Test " .....
W. F. Crewe, Devils Lake.
"Milk Inspection" .....
J. W. Dunham, Fargo, N. D.
"Pus in the Guttural Pouches" .....
B. C. Taylor, Hillsboro, N. D.
L. Van Es, Agricultural College.
A Paper .....
E. J. Davidson, Grand Forks, N. D.
A Paper .....
C. H. Martin, Valley City, N. D.

Officers: President, W. T. Crewe, Devils Lake; vice president, A. A. Walker. Casselton; secretary, C. H. Martin, Valley City; treasurer, B. C. Taylor, Hillsboro.

Committee on legislation—J. W. Robinson, R. H. Treasy, A. A. Walker.

Resolutions—L. Van Es, W. F. Crewe, A. A. Walker.

Finance—S. P. Smith, D. Fisher, W. S. Stinson.

Program—L. Van Es, J. B. Campbell, C. H. Martin.

GOERTZ IS ACQUITTED

By Jury at Minot of Murder of His Brother.

Minot, N. D., Jan. 9.—(Special to The Herald.)—The jury brought in a verdict of acquittal in the case of Abe Goertz, charged with the murder of his brother, Hank. The two men conducted a billiard hall at Burlington, this county, and in a quarrel some weeks ago Hank was shot. The surviving brother claimed the shooting was accidental. He made an excellent witness on the stand. The defendant told a plain, simple, straightforward story of his actions on the night of the shooting. He did not contradict himself in any particular and he seemed anxious that the jury should know all the facts in the case.

WANTS FINANCIAL BALM

For the Alleged Loss of His Wife's Love.

St. Cloud, Minn., Jan. 9.—(Special to The Herald.)—Five thousand dollars damages are asked by Christian Pederson in a suit he has instituted here against Ludwig Henson for the alleged alienation of his wife's affections. The plaintiff is employed in the local car shops, while the defendant, who is a married man, came here recently from his farm.

Pederson claims that ever since Henson moved into his neighborhood he has been paying attentions to his (Pederson's) wife. Their friendship soon became so strong that he took his wife to task. She stated that she was minding her own business and could do as she pleased. On Dec. 31 of last year Mrs. Pederson left her home and went to stay with Henson. Pederson immediately went to see a local attorney and decided to bring an action for $5,000.

ST. MARY'S RIVER OPEN.

Unusual Weather Prevents Stream From Being Blocked With Ice.

Sault-Ste. Marie, Mich., Jan. 9.—(Special to The Herald.)—Not for many years has as mild a winter been experienced in the Upper Peninsula as during the present season. So far the zero mark has been touched on but few occasions. Usually there are a couple of feet of snow at this time of the year, but at present there is barely enough in many towns for good sleighing. Logging operations are seriously hampered as a result and trade in winter goods is very slow. However, coal consumers have no complaint to make and the mild weather is enabling farmers to winter live stock they would otherwise have been forced to kill, feed being too high and scarce. Navigation is still possible on Lake Superior and the St. Mary's river is not yet blocked with ice.

FEELING HIGH AGAINST SLAYER OF CAPT. THOMAS.

Bessemer, Mich., Jan. 9.—(Special to The Herald.)—The feeling against Zenatio, the Italian, who shot and killed Capt. Thomas at Ironwood Monday, was so strong that it was thought best to smuggle the murderer out of the city. Capt. Thomas was shot in the morning and died shortly before 1 o'clock. Groups of miners began to congregate, and the feeling was so ugly that the sheriff bundled the murderer into a wagon and brought him to Bessemer, where he placed his prisoner in jail.

It was reported that two or three hundred Italians had left Ironwood for the old country, and that Zenatio was a member of the Black Hand society, and that he had been selected for the job. This, however, is not true. In the first place, there are only a few Italians employed at Ironwood, and in the second place, the gang that left Ironwood Saturday night comprised about 150 Finns, who left for the old country upon the discharge of several hundred miners by the steel trust.

ST. CLOUD WOOLEN MILL CHANGES HANDS.

St. Cloud, Minn., Jan. 9.—(Special to The Herald.)—The controlling interest in the St. Cloud Woolen Mills company has passed from the hands of F. Mattock, late manger, to other parties and his entire holdings, 126 shares, have been purchased by Robert Harrison, C. D. Burgan and John McElroy. The remaining seventy-four shares are held by a number of different citizens who are pleased to learn that with the coming of spring the mill is to begin operations. At a meeting of the stockholders a new board of directors consisting of C. D. Burgan, Robert Harrison, John McElroy, C. J. Metzroth and E. F. Moore, was elected. The board of directors will elect president, vice president, secretary, treasurer, etc. The election of a general manager will probably be delayed until a suitable man can be found.

EAST GRAND FORKS A. O. U. W.

East Grand Forks, Minn., Jan. 9.—(Special to The Herald.)—Past Master Workman Ed Buckley conducted the installation exercises at the local A. O. U. W. lodge, when the following were installed: Master workman, Peter Tessier; foreman, William Haggarty; overseer, Ed Logan; recorder, George K. Chambers, Jr.; financier, H. W. Haggestad; treasurer, George H. Barlow; guide, Art Mero; inside watchman, I. Tessier; outside officer, William Hartland; physician, Dr. Wilson.

lodge, which convenes at St. Paul on Feb. 18.

BURNS UP HIS MONEY.

Chippewa Falls, Wis., Jan. 9.—Charles Henning, a merchant, had the experience of building a fire with United States currency and silver coins. He had placed the money in a waste paper basket for safe keeping, and when he came to build the fire he emptied its contents into the stove. He succeeded in rescuing the coin, but most of them were badly mutilated. Mr. Henning does not want to state the exact amount of money he lost in the experiment.

O'BRIEN GIVEN LIFE

Sentence for Brutal Murder of Arthur LeClaire.

Pembina, N. D., Jan. 9.—(Special to The Herald.)—The tragedy that startled this community recently, when Arthur F. Le Claire, a young railroad man, was brutally murdered and his body thrown into the river at Neche, this state, took on another tragic note yesterday, when James O'Brien, 17-year-old boy, who has confessed to the crime, was sentenced to spend the rest of his life in the state penitentiary. The young prisoner wept as he heard his doom and for the first time since his arrest displayed deep feeling, not only over his crime, but because of the dark future in store for him. If the young man had not pleaded guilty he would unquestionably have been convicted and hanged. The killing of Le Claire was so brutal in many ways that many in this section look upon O'Brien more as a degenerate or one of otherwise unsound mind than a rational being, and there is a semblance of sympathy for him on that score.

WISCONSIN IN BRIEF

Oshkosh—Provision for a $150,000 manual training school for the city of Oshkosh is made in the will of Mrs. H. A. Beach, who died recently. Mrs. Beach bequeathed the entire residue of her estate for that purpose on condition that the city donate $50,000 for the same purpose within three years. The residue of the estate will amount to about $100,000.

Marinette—With a fractured leg, all but dead from an epileptic fit, and with life almost extinct from drowning, Theodore Kopenski, a Niagara boy, was pulled from the waters of a creek near the village. Kopenski had been coasting, and in sliding down the hill he struck a stump and was thrown into the creek.

Madison—Attorney Daniel K. Tenney, aged 73 years, a leading member of the Madison bar and a former mayor of the city, was seriously injured by falling down a stairway at his home. The accident was due to a misstep.

Marinette—Thomas Powers, the veteran section foreman of the Northwestern railway who has served the company for thirty-seven years without losing a single day's pay, has been presented with an annual pass for himself and his family in recognition of his services.

Oshkosh—The fire and police board has acquitted Chief of Police H. F. Dowling and Assistant Chief Arthur Gabbert of the charge of responsibility in the death of Veronica Polyewescenski, a paroled inmate of the House of the Good Shephard, Milwaukee, who died May 10 at the police station as the result of taking mercury tablets with suicidal intent.

Menominee—J. E. Florin, judge of the first municipal court of Dunn county, has resigned, and Governor Davidson has appointed P. B. Clark to fill the vacancy during the unexpired term. Next spring a judge will be elected for a term of four years.

Eau Claire—Sheriff McMillan, with John Johannes as deputy sheriff, took Claude Hopkins and Robert Raferty to Waupun Tuesday. Hopkins will serve two years for horse stealing and Raferty is committed for one year on a plea of guilty to forgery. This is the second term of the former.

MINNESOTA IN BRIEF

Aitkin — Gilbert Carey, a settler, who lived on a farm near Blue Lake, was found dead in his house on the morning of Jan. 1. William Clark went to the house to see if he could get him to haul some wood and found him dead and alone. He came to town and notified Coroner George and he ordered the remains prepared for burial.

Moorhead — Coroner Vincent has received information from Renville, Minn., finally determining that Severt Camuelson, who committed suicide by drinking carbolic acid, has relatives living in the vicinity of Renville and Sacred Heart. These relatives are uncles and cousins.

A banquet in honor of James J. Hill is to be tendered by the Transportation club of St. Paul about the end of the month at Carling's uptown establishment. It is expected to make the event the biggest in the history of the club, arrangements being made to that end. Besides the local members of the club there are to be invited prominent railroad officials from outside points.

Lamolle—Breaking the plate glass window in the front of the general store of J. T. Willard, burglars entered the place and escaped with a large quantity of merchandise. Clothing, cutlery and articles of food were taken. There is no trace of the thieves, but it is believed they were tramps.

Minneapolis—Knute Nicholson, a farm hand from Pope county, came to Minneapolis a few days ago with over $50. He made the acquaintance of a man stopping at the same hotel and yesterday is said to have gone on a spree with him. Now he claims that both his money and his friend have disappeared and he has asked the assistance of the police.

Wabasha—Peter Nigg, who on Dec. 21, shot and badly wounded James Magistad, was bound over to the May term of district court under $2,500 bonds. Magistad had sufficiently recovered to be able to appear and his testimony was taken. Nigg was unable to secure bonds and was committed to the county jail.

St. Paul—Governor John A. Johnson has been called upon to appoint a judge for the municipal court of Owatonna, to fill the vacancy caused by the death of Judge Jacob Newsalt at Owatonna, Tuesday.

Bagley—The Farmers' Mutual Fire Insurance company of Clearwater county has elected officers as follows: John Vick, president; Ole Nosen, vice president; H. J. Holst, secretary, and Christ Larson, treasurer. No losses have been sustained during the past year and the increase in insurance was $27,370. The total amount of insurance now in force is $107,385.

East Grand Forks — Mayor John O'Leary has stepped down and out and Hugh Dunlevy has taken charge of the city administration. The new officers appointed include Hans Ellingson, chief of police; assistant chief, J. J. Lynch; patrolmen, Martin Murphy, Hugh Quigley and Nick Busch.

PENINSULA BRIEFS

Hancock—A presentation of a gold watch and chain was made to James H. Edwards, manager of the Hancock Chemical works at Dollar Bay, on New Year's eve, by twenty-five married employes of the company as a mark of esteem, and appreciation of Mr. Edwards' conduct towards them in his official capacity.

Houghton—The total number of deaths in the Upper Peninsula during the month of November was 268, which corresponds to an annual death rate of 11.8 and the number of births was 572, which gives an annual birth rate of 23.9 per 1,000 estimated population. There were 32 deaths by violence.

Calumet—Mrs. Johanna Langdon, one of the most highly respected residents of Ripley, passed away at the home of her son, William J. Langdon, Monday evening. Mrs. Langdon was 80 years old and old age was the cause of death.

L'Anse—Judge Albert T. Streeter is in L'Anse this week conducting the January term of court. The Baraga county term of circuit court this year will be very short.

Houghton—A rock train at Mill Mine Junction collided Monday afternoon with a train coming towards the depot on the main line. The engine on the main line was running at a low rate of speed which accounted for no one being injured.

Ishpeming—Two prominent officers of the Salvation Army will be at the Ishpeming barracks next Monday evening. They are Staff Capt. Watt of Duluth and Maj. Morton of Minneapolis. The latter is secretary of this division. They are to visit all the branches in the upper peninsula before returning to their homes.

Negaunee—Capt. William Thomas, who was killed Monday by a former employe of the Aurora mine at Ironwood, was well known in Negaunee, as he resided here prior to about fifteen years ago, when he was one of the shift bosses at the Queen mine, working part of the time under T. P. Cole.

Marquette—The merchants of the city have announced that until April 1 the stores will be closed every night except Saturday nights and the nights of railroad pay days.

DAKOTAS IN BRIEF

Grand Forks, N. D.—The directors of the Grand Forks County Agricultural society have called a meeting of the stockholders of the association to be held Jan. 21, at 8 p. m. The annual election will be held on that date and the matter of holding a fair will be discussed.

Minot, N. D.—P. W. Walker, who had been in the bakery and restaurant business at Dogden for several years, is dead from consumption. Mr. Walker is well known in Western North Dakota. He has been in ill health for some time. He is survived by a wife and several grown-up children.

Grand Forks, N. D.—J. P. Read, who has been manager of the local branch of the Security Mutual and other life insurance companies, has been transferred to Fargo, where he will be manager of the Fargo concern, and several others in the state.

Jamestown, N. D.—George Putman has resigned as county commissioner from the Fourth district and Frank Norden has been appointed to the place. The action took place at the meeting of the county commissioners today.

Minnewaukan, N. D.—James Golding of Leeds, charged with incest, was released by judge Burke, who directed the jury to bring in a verdict of acquittal. The ruling of the trial judge was wholly unexpected and has aroused much adverse criticism.

Grand Forks, N. D.—A change in the management of the Empire theater is announced. Fred N. Tracy going out, while P. F. Luger and Lewis Hart, the former of Fargo and the latter of Jamestown, will take charge.

GABLER

ESTABLISHED 1854

PIANOS

"ARTISTIC QUALITY OVER AND ABOVE ALL ELSE" is the motto that prompts us to recommend so highly the famous

GABLER PIANOS

There is in the **GABLER PIANO** that clear, strong tone that seems to emanate from some ideal rather than real substance.

In selecting a piano, the first thing a musician asks is: "Has the instrument true, consistent tone power?" The loss of a single element means a double loss of emotional power.

The **GABLER** is an instrument whose harmony and power can be relied upon, and is a joy to the pianist, inspiring him to a point otherwise impossible.

You will enjoy examining and trying these beautiful pianos—works of art, every one of them—and our invitation is not only cordial, but urgent.

Send for Our Catalog.

THE SUPERIOR MUSIC CO.

Factory Representatives,
618 TOWER AVENUE, SUPERIOR, WIS.

LOOK AT THIS!

Laces 5,000 yards of Val. and Torchon Laces — both edges and insertions—all widths up to 1½ inches, and actually worth 5c, 7c and 8c a yard—at the lace counter — White Sale price, per yard, only **3c**

Panton & White Company

Mail Orders Promptly and Carefully Filled. **THE GLASS BLOCK** **Store Hours:** 8:30 a. m. to 5:30 p. m. Saturday Nights Till 10.

EMBROIDERIES!

Snaps in short lengths. All widths in both edges and insertions, and lengths up to 5 yards. Embroideries actually worth up to 30c a yard—(bargain counter number 2) at 5c, 10c and 15c a yard..... **5c** **15c**

Every Circumstance Points Unmistakably to the Fact That THIS is the Greatest

The Sale Includes

Hand-made French Underwear.
Dainty American Underwear.
Lovely Embroideries.
Exquisite Laces.
Men's and Boys' Shirts.
White Notions.
Infants' Wear.
Women's New Lawn Waists.

The Sale Includes

World's Best Table Linens.
Sheetings and Domestics.
White Waistings.
Wash Goods.

A CURRENCY PATCH.

The currency bill which was introduced in the senate Tuesday by Senator Aldrich is the result of quiet conferences of the powers that be in the upper branch of congress, and the probabilities are that it will go through the senate, at least, without material amendment.

Coming from such a source, it is also probable that it has the sanction of the financial powers of Wall street, and that it will be satisfactory to them.

Yet it is a mere emergency measure, and does not even pretend to remedy the underlying conditions that bring about money shortages in times of alarm. Its failure to penetrate beyond the surface is not to be condemned too hastily, however, for apparently nobody has found a new currency system that will meet the needs of the country at all times. Indeed, it is questionable if any currency system could be devised that would meet the demands of business and of mad speculation at the same time. An increase of currency would only mean an increase of exploitation, and perhaps ultimately a more disastrous collapse.

The Aldrich bill provides for the issuance of emergency currency by national banks which have a surplus of not less than 20 per cent, and which have outstanding circulation secured by government bonds to the amount of at least half their capital stock. The additional currency may be secured by state, city or county bonds and by railroad bonds, approved by the treasurer of the United States, instead of by government bonds. The comptroller of the currency is to decide, when an application to issue additional currency under this bill is made, whether or not financial conditions warrant its issuance.

The issuance is not to exceed $250,000,000 at any one time, and the total issue of any bank must not exceed the amount of its unimpaired capital and surplus.

Thus, if the bill passes, any national bank may present the bonds enumerated, and apply for additional currency to the amount of 75 per cent of their face value. If the comptroller deems the financial condition such as to warrant it, he may authorize the issuance of the currency, provided the bonds are approved.

In order to insure the retirement of this additional currency when it is no longer absolutely necessary, a monthly tax of ½ of 1 per cent is imposed upon currency secured by bonds other than government bonds. No bank can afford to continue its additional currency in circulation a moment longer than is absolutely necessary under this provision.

It is not to be supposed for a moment that a currency bill with Senator Aldrich as its parent will go unchallenged in the house, even though it is stated that Speaker Cannon favors it. It will at least be scrutinized very closely, to see that it is not designed primarily for the benefit of the Wall street interests whose prosperity depends upon the maintenance in New York of large sums for speculative purposes, and that it does not discriminate against interior banks which supply the industries of the country with cash and credit.

THE DOCTORS.

The defense of the medical profession from two prominent local physicians published in The Herald last evening should not have been necessary. The profession, in its attitude toward society and in its noble services and sacrifices, speaks for itself, and needs no defense against petty attacks.

The Herald has favored the continuance of the smallpox quarantine in Duluth, and still does; but it has not considered it necessary, in order to argue its belief, to make a wholesale attack upon the medical profession. Neither has it been necessary to condemn vaccination, since vaccination and quarantine may well go hand in hand. Nothing in medicine is more firmly established than the efficacy of vaccination. It has changed a disease from a terrible scourge, that used to decimate communities in its fearful sweep, into a mild and comparatively harmless disorder. Yet it is still an unpleasant disorder, and until everybody is vaccinated, the quarantine against it should be continued.

There are charlatans in the medical profession, of course, just as there are in the newspaper profession, but it is no more sensible to condemn the entire profession of medicine as ignorant and ineffective than it would be to say that all newspaper men are like those whose cocksureness betrays the mental condition of men too ignorant to realize how little they know.

THE WOMAN'S SUFFRAGE ADVOCATES.

Though the propaganda of women's suffrage has had some faint promotion in this country, the real thing did not come until it was imported from England. It is true that in this country four states have extended to women the right to vote, and that women don't vote at all in Great Britain, but just the same it remained for our British cousins to furnish the real simon-pure brand of female suffrage agitation.

On a cold winter's afternoon last week in New York a band of women suffragists and their supporters braved the chilling air and held an outdoor meeting to talk about woman's right to vote. Several of them made speeches and bandied repartee with the crowd, just as the devoted advocates of this reform have done in the streets of London. As a New York newspaper describes it, it was like a scene transplanted from London. The agitators held up men and women passing along Madison avenue and induced two hundred of them to sign a petition that will be presented to the New York legislature. Incidentally they put to rout a number of scoffers, and even, it is said, won some of them over.

Miss Maud Malone, vice president of the Harlem Equal Rights association, presided over the meeting, and showed her willingness to couch a lance in debate when she asked the hundred men present if they had any questions to ask. One man stepped forward and courageously declared that he believed that a woman's place "is to stay in her home."

"It only takes one day to vote," replied the American "suffragette."

"She should stay at home and prepare a good dinner for the man who votes," persisted the man.

"You don't eat dinner all day, do you?" aptly retorted the young woman.

Another man said women should get equal pay before they expect to vote, and Miss Malone replied that if women could vote they would help raise wages, for women as well as for men.

Now one of the stock objections to allowing women to vote is that it will mix them in politics and cause them to leave their homes and mingle with street crowds. They appear to be doing that in their fight for the right to vote, and probably more of it than they would ever do in the heat of campaigns.

The Herald has always taken the stand that this question of women's suffrage depends altogether upon whether or not the women want to be placed on a political equality with men. If they do, they will be. Nothing very serious has happened, either to women or to society, in the states where they have been admitted to full suffrage rights.

For its part, The Herald can't think of a single valid reason why if the women really want to become voters, they shouldn't be allowed to do so.

INVESTIGATING RAILROAD ACCIDENTS.

Congressman Douglas of Ohio has introduced a bill in congress designed to minimize the danger of railroad wrecks. It provides for a federal board of accident commissioners, whose duty it shall be to conduct a searching investigation into the cause of every railroad wreck, and to report upon how the accident might have been averted as well as who was at fault.

Upon the facts found by this commission it is made the duty of the federal authorities to institute proceedings against the person or persons to blame.

This measure is being criticised upon two grounds: First, that the interstate commerce commission already undertakes such work; and second, that the railroad companies themselves always investigate wrecks and punish those responsible.

It is true that the interstate commerce commission takes note of accidents, and publishes quarterly bulletins showing the nature and cause of the casualties reported to it. But the investigations of the commission do not go to the bottom of things as the Douglas bill provides, and certainly it is proper and necessary that some government authority should fix the responsibility for accidents. Nor should it be possible to punish an overworked trainman or dispatcher, when the responsibility actually lies at the door of "somebody higher up," whose false ideas of economy led to the overworking of employes until they were not fitted to do their work, as has often happened.

As to the investigations and punishments provided by the railroads, they will not answer at all. They are secret, for one thing; and for another they always fail to reach the man higher up, and if they hit anybody, they always strike at some subordinate employe who is used as the scapegoat.

HEADING OFF LABOR WARS.

Those who have hope that there is some way of avoiding the apparently interminable war between labor and capital will watch with deep interest the fate of Canada's new attempt to provide compulsory arbitration.

A measure known as "the industrial disputes investigation act" became effective last March, being the outcome of a serious dispute in connection with the coal mines at Lethbridge in Western Canada, which kept the mines closed for nine months and contributed to bring about a fuel famine during the most inclement season of the year.

It was believed that if there were a way of bringing the parties to an industrial dispute together for a frank discussion of their troubles, interruption to business might be avoided. To secure this the act was passed. It is made illegal to resort to either a strike or a lockout until the difficulty is made the subject of inquiry before a board of conciliation and investigation to be established by the minister of labor. This is binding alike on employer and employe.

When a dispute arises in an industry identified with a public utility, either party may send to the registrar of boards of conciliation and investigation an application for the appointment of such a board. That official at once brings this request to the attention of the minister of labor. The application must show the parties to the dispute; its nature and cause, and the claims or demands to which exception is taken; an approximate estimate of the number of persons affected—because ten employes must be affected in order to give the board jurisdiction; and the efforts made toward adjustment. That application must also be accompanied by a declaration that failing an adjustment a lockout or strike will be declared.

Within fifteen days after the receipt of this application the minister of labor appoints a board of three members, to which are added two others, one selected by the employer and one by the employes. These two appoint a sixth, who is to be chairman. This board, when duly sworn, is equipped with all the powers of a court of justice. The proceedings may be public or private, as may be deemed expedient, and competent experts or assessors may be engaged by the board. The parties to the dispute may each be represented by three or less persons, or by counsel with the consent of the board. During the conference the board may do whatever it deems proper to bring about a settlement, and it may dismiss any matter which it deems frivolous or trivial. If the parties themselves effect a settlement as a result of the conference, that is all there is to it, and that is the main object of the law. If this does not happen, the board itself will pass upon the controversy, and by mutual consent of the parties, this may be made binding upon each. However, this finding does not bind the parties unless they wish it, though its moral effect will undoubtedly be large, in the event that the continuance of the fight interests the public, in influencing public opinion.

In the first seven months of the new law, twenty-one applications were received. Eleven were satisfactorily ended, three were settled without forming a board, and the others are still pending.

Where are the nature prophets who said the signs indicated a hard winter? Nature fakers!

Long before the sap begins to stir in the trees, the sap of political ambition begins to stir in the veins of the officeseeker.

The open season for candidates is on, and the first filing is that of William F. Arroll of St. Paul, who will run against Congressman Stevens.

HOTEL GOSSIP.

Near Middlebury, Vt., there is a very romantic little village, says A. T. Carlisle, at the Spalding, a traveler for a Connecticut ammunition house. Sometimes down there, they permit their sentiments to run riot with their better judgment They are a most genial and pleasure loving lot of people in that community They comingle at huskin' bees, get together at the christening of new arrivals in the community, and have other festive occasions upon which it is customary to get close to the convivial springs of good fellowship.

It was during one of these pearing bees, according to the way Mr. Carlisle tells it, that Seth Lepam's son met Widow Buckel's daughter, Marinda, so called after her grandma, and the hearts of both were pierced with the little love shaft. The courtin' was carried on under difficulties, for Widow Buckel was dead sot against her gal keepin' company with any of Seth Lepam's kin, for Seth had eternally frazzled the widow's old man in a hoss trade, grievin' over which happening had undoubtably hastened his end, according to Widow Buckel, and generations to follow were to feel the enormity of this transaction, if the widow had her say.

"Well, Jake, that's Seth's son, and Marinda used to meet at bees of varied and sundry descriptions, until finally at the dedication of Herb Greenway's new barn he right out and popped the question.

It was mighty hard, this flying right in the face of ill will and parental objection, but Jake was a spunky one, and 'lowed as how every one must decide the question of wedlock as to his own judgment. And so pondering over the subject, and arrivin' at the conclusion the while durin', he approached Marinda, she being kind of shylike and not urgin' him on, and jes up and told her as how he had cared for her since that time over at Wendell Miller's surprise party, and how the old man had as much as promised him that forty adjinin' lier ma's place, and how he wanted to get spliced.

Now this declaration was not enunciated without much embarrassment; a nervous twitching of the hands and a convulsive sympathetic action on the part of the feet accompanying the speech. Most of the tallow was wore off Jake's boots before he got the speech out. But he was stubborn, was Jake, and he stuck to it until he told Marinda how the burning microbs of love was eatin' his heart, and how she was the only woman; how he never cared for another; and that life without her would be like workin' back in the pumpkin field when the circus come to town. All of which, of course, was highly original, having been culled out of "Love's Young Dream," after numerous rehearsals on the part of Jake.

The Widow Beckel said no with an emphasis that left no room for reasonable doubt, when the hesitating Jake, with hat in hand and sheepish grin, timidly asked for the hand of Marinda. The details of the horse swindle were recited for the benefit of the blushing suitor, and after hearing his old man branded as a person utterly lost to the noble sentiments of life beauties, he slunk away from the widow's domicile like the proverbial yellow canine. His spirit was crushed for the time being, but Jake, as has been said before, "were a spunky one."

They would elope, by gosh. So Jake set about the details of the big event, that would startle the country around like a report of smallpox.

The night of the much-planned event broke clear and intensely cold. Old veterans could recall winters, away back in '61, when the thermometer acted a little worse, but they were silenced with laughs of scorn. Farmers hustled with the chores, and even the beasts of burden hugged the stalls with a sigh of relief. It sure was a stinger.

The old gray mare whinnied, when Jake, bundled to the ears, led her out of the barn. Only the ardor of young and fervent love could have left the post on a night like that. But Jake was a spunky one.

It was only a short drive across to widow Beckel's place. But before Jake reached the destination of the waiting bride to be, he was chilled to the very marrow. Was love oozing?

In response to the imitation of a skylark, although skylarks never consent to render music in winter, Marinda softly opened the front door and emerged into a cold world. The wintry blasts struck her and fairly took away her breath, as she faced the northeaster and bravely clasped Jake's mittened hand for support in als hour of need.

So they started for Parson Shallow's house, a good ten miles over in Berchen township.

It kept getting colder and colder. The old gray mare laid her ears close along the back of her head, humped her back, but kept on in the face of the wind. Even the heating stone that Jake had thoughtfully provided, failed to make its presence felt against the strength of old Boris.

And so two miles were covered. Love's young dream began to lag. The gloss of romance began to flicker in the frigid atmosphere of reality. It was the woman who began to weaken. It was her inheritance from Mother Eve. Softly she began to cry, a soft trebble, gradually growing into a piercing wail. Jake, as has been said, was a spunky Jake, and did his best to quiet her. He cooed, and did his best to quiet her. He chirped to the old mare and struck her with the whip, but with each succeeding forty rods the wails of Widow Beckel's daughter increased.

Jake, too, began to feel the cold. Perhaps, after all, he calculated, they had done wrong in flying thus in the face of parental disapproval.

Suddenly the old gray was stopped with a pull that near threw her on her haunches. Around she turned, none unwilling, and pointed her nose in the direction of home. Widow Beckel's gal gave one startled look, gained her bearings, settled under the robe, and the shrieks gradually gave way to unromantic sniffles.

"Jake had to get out and run a spell to heat his blood up," is the way Mr. Carlisle ends his story. "Widow Beckel sot up and administered cold applications, even forgetting to vilify and reproach, and as Jake put out the lantern, after putting the old mare into the barn, the dream of love was snuffed forever with the dousing of the glim. So two were rent asunder by a doddblasted 40 below, that only came once that whole year. Such is fate."

THE WEATHER.

And still no winter. It was a little cooler last night, but this morning it was cloudy and mild, and the weather man says it will be warmer tonight, and that there may possibly be some snow flurries. Tomorrow it will be colder, he says, and partly cloudy.

A year ago today it was very cold, the thermometer having dipped to 12 below the night before, and a chill north wind being in evidence.

The sun rose this morning at 7:53 and set tonight at 4:38, making 8 hours and 45 minutes of sunlight.

Says Mr. Richardson of conditions: "Light snow fell during Wednesday or last night throughout the lake region, upper Ohio valley and North Atlantic states, partly as an aftermath to the storm that has been moving up the North Atlantic coast during the past forty-eight hours and partly due to the movement of another disturbance from British Columbia to Manitoba. Colder weather prevails from the Mississippi river eastward to the Atlantic coast attending an increase in pressure, while throughout the greater portion of the Northwest the temperatures have risen decidedly, due to a fall in pressure in that section. Barometric pressures are highest over Pacific and gulf states. Indications favor milder weather in this locality tonight, followed by colder temperature Friday with some chance of light snow flurries this afternoon or tonight."

Following were last night's lowest temperatures:

Department of Agriculture, Weather Bureau, Duluth, Jan. 9.—Local forecast for twenty-four hours ending at 7 p. m. Friday: Duluth, Superior and vicinity, including the Mesaba and Vermilion iron ranges—Probably snow flurries this afternoon or tonight; warmer tonight, with lowest temperature about 20 degs. above zero; Friday partly cloudy and colder; southeasterly winds shifting to brisk westerly winds Friday.

H. W. RICHARDSON,
Local Forecaster.

Chicago, Jan. 9.—Forecasts until 7 p. m. Friday: Upper Michigan—Probably snow tonight and Friday; warmer tonight.

Wisconsin—Increasing cloudiness and warmer tonight; Friday possibly showers or snow flurries.

Minnesota—Partly cloudy tonight and Friday; warmer in east portion tonight; cooler Friday.

North Dakota—Generally fair and colder tonight and Friday.

There is no excuse for rough actions on the part of any man. Even a stove may be polished.

It's easy for a man to discover a woman's weakness. All he has to do is to keep quiet and listen.

The wisdom of a wise man looks like the hole in a doughnut when a small boy begins to ask him questions.

Eddie Foy's Hamlet.

Hamlet's soliloquy, as Eddie Foy Fitzgerald might give it:

To be or not to be? Hully gee! That's the question;
Whether 'tis noble, bo, not to set up a tall scream
When you're stung; or put up a scrap against a sea of troubles.
To croak; to pound the feather; or jump in
At the sound of the gong and go to it, kiddo,
And forget your troubles, see?
A guy is sure up against it in this world
And if you jump off the dock, where do you come in;
A lot of boobs put up with it because they don't
Know where they get off. It's a hard luck story, bo,
For most of us; so many things put on the cheese;
Our best friends pan us, a skirt will throw us down;
Bulls in harness pinch us, what's the use?
—New York Sun.

Work.

Emerson: "Whether thy work be fine or coarse, planting corn or writing epics, so only it be honest work, done to thine own approbation, it shall earn a reward to the sense as well as to the thought; no matter how often defeated, you are born to victory. The reward of a thing well done is to have done it."

TWENTY YEARS AGO.

Taken From the Columns of The Herald of This Date, 1888.

***Indian Agent Gregory accompanied by Photographer S. W. Bailey and Messrs. Bonnan Beaser and Rodman, all of Ashland, left this morning to make the annual gift of goods, valued at $7,500, to the Bois Fortes band of Chippewa Indians at Lake Vermilion.

***John L. Sullivan whipped the Welsh champion, Samuels, yesterday, without much effort.

***The sleeper of the Omaha night train from St. Paul yesterday was run into by a special engine and caboose near Hawthorne. The porter, Thomas Anderson, was killed by escaping steam, but the passengers, including Misses Lockwood and Ciute and J. W. Marvin of this city escaped injury.

***The Bostonians open an engagement of three nights and a matinee at the Grand tonight, presenting the opera "The Poachers" this evening.

***Fred Barrett late of Green Bay, Wis., has bought an interest in the Vermilion Iron Journal, succeeding Charles D. Bingham, the original newspaper man of the range.

***The government thermometer at 8:30 this morning registered 12 degs. below zero while at the same time at Buford it was 48 degs. below and at Braintrd 20 degs. Other points ranged from 20 to 30 degs. below.

***Mayor Sutphin has extended an invitation to all the city and county officers to be present at Boyle Bros. tomorrow evening to participate in a little jollification, the occasion being the 40th anniversary of his honor's birth.

***E. L. Bradley, until lately of the firm of Bradley, Hanford & Co., has closed a deal with H. H. Gardner & Co. of Ashland, buying all their timber cut on Rat River, Wis., about 4,000,000 feet.

***Albert H. Sheldon of Janesville, Wis., a members of the firm of Hanchett, Sheldon & Co., is in Duluth and will remain here a month or two. Mr. Hanchet will take a vacation.

***Capt. W. W. Scott returned yesterday from a visit to his former home in Pennsylvania.

***Invitations are out for the wedding of William Martin Prindle of Duluth and Miss Mina Merritt of Minneapolis, which will take place at St. Mark's church, Minneapolis, on Wednesday, Jan. 19, at 7:30 o'clock. Mr. and Mrs. Prindle will be at home at 301 West Third street, Duluth, after Feb. 1.

***Snow is three feet deep in the woods, and loggers are complaining of the extra work necessitated by it.

***Sinclair & Maier have succeeded to the abstract business of Burke & Johnson.

DULUTH AND THE HERALD.

Aitkin Republican: Some of the business men of Duluth are objecting to the placing on the street corners of tin-can receptacle for waste paper because it will obstruct the view of the lake. A good view of the lake is a great asset with the cliff-dwellers.

Mankato Free Press: "A federal law, prohibiting the interstate shipment of goods manufactured in violation of reasonable child labor regulations, is not only a proper use of federal power, but a prompt and effective method of delivering the children of the land from the hungry maw of greed that is grinding their youth and hope and strength into dividends." That is the vigorous language of The Duluth Herald, and the sentiment will be loudly applauded by right-thinking people.

Crookston Times: The Duluth Herald ran a cartoon last week entitled, "The Annual Ride." It depicted a monster water wagon on which were mounted a goodly bunch of those who had "sworn off" for the coming year; and appended to it was the sentiment: "They get right on every year, and they fall right off again." But the meat of the whole picture editorial was that the figure in the front of the wagon and in control of the steering apparatus bore the unmistakable features of Frank Eddy. Was it unintentional, O Herald?

Royalton Banner: The Duluth Herald is one of the best dailies in the state and its editorials are always timely. In an able editorial, Monday, it set forth the evils of the pass system and welcomes the new year as to usher in a new vogue. Passes were never intended for anything else than bribes, whether the takers thereof were aware of the fact or not. Many like to call it railroad courtesy but who ever knew the railroads to give away something for nothing? Now that all legislators, peasants and newspaper men, must pay their fares, it is to be hoped that members of the legislature will not feel under any obligations to the transportation companies.

Virginia Virginian: Twenty thousand people are going to be vaccinated in Duluth. Fine harvest for the doctors.

Willmar Journal: Duluth is one of the cities that will have a law of its own concerning smallpox, and not let the state law, which now is that smallpox patients need not be quarantined, rule. It's now in order for other places than Duluth to pass ordinances controlling the spread of this disease.

Mankato Free Press: "Who is the government of the United States?" asks The Duluth Herald. Well, Joe Cannon acts as if he were the "whole works."

MINNESOTA OPINIONS.

Princeton Union: In the Republican state convention to elect four delegates at large to the Republican national convention, we understand St. Louis county will present the name of Hon. E. B. Hawkins as its candidate for one of the places. For many years past it has been customary to permit St. Louis county Republicans to name one of the delegates at large to the national convention. St. Louis is the banner Republican county of the state, and is entitled to special consideration, especially when it presents as its candidate such an excellent and popular gentleman as Hon. E. B. Hawkins.

Little Falls Herald: It gives some of the pundits and grammarians in the press such a pain to read of the grammatical errors of Jeff Davis. We recall the Roman senate who was thrown into a perspiration over a mistake in Latin verse, but could unmoved see a Christian tortured.

Red Lake Falls Gazette: The Hibbing Tribune says its worst enemy can't accuse the Republican party of Minnesota of being boss-ridden. This probably means a boss is not a boss unless he is a successful boss.

Fergus Falls Wheelock's Weekly: No wonder the administration is all mixed up on the question for our financial ills, with President Roosevelt taking counsel of the two extremes, Morgan and Watson. Yet these two financial authorities are not so very wide apart, for while Wall street wants bank certificates, the Populists want warehouse certificates, asset currency, or greenbacks.

Eveleth News: As a way of sidestepping our Democratic cousins in the presidential race, we suggest the slogan, Taft and Tariff Revision. Let not the Republican party remain blind to the rising tide for tariff reform.

Warren Sheaf: The people of the United States have a big job on their hands this year—they must elect a president.

Cloquet Pine Knot: A short time ago the head lines in the dailies over the reports of the copper market read "The Bottom Has Fallen Out." The head lines now read "Copper Shares Sag." The "Bulls" must have replaced the bottom and propped it sufficiently so that the "Bears" are only able to make it sag now. The question is, will the bottom stay in place long enough to be riveted on.

Zumbrota News: "An undesirable citizen" is a man who will not shovel the snow and ice off his sidewalk.

Alexandria Post-News: The Republican press of this state is wasting much valuable time in now discussing the availability of certain gubernatorial candidates. Many of them have held or are holding high offices. Some have served their day and generation. The record of others are not an indication of any special fitness, much less a guaranty of success at the polls. Most of them are good men—in their places. There are others of the caliber of chief executives and they are the wheat in the chaff.

Minneota Mascot: It would appear that the demand for "Jake" is going to be irresistible. It is a movement that the people are backing and in which the politicians have little to say. The country press voices the sentiment of the people as a general rule. It is safe to assume that any proposition for which the country press stands as a unit is likely to be one which the people are backing. Throughout this part of the state a large majority of the papers are favorable to Mr. Jacobson.

SMILING REMARKS.

Philadelphia Press: "Ah," said Bragley, with a view to making Miss Wise jealous, "I was alone last evening with someone I admire very much."

"Ah!" echoed the bright girl. "Alone, were you?"

Chicago Tribune: "When I am busily engaged in thinking," remarked the doctor, "all the noises on earth can't disturb me."

"My stars!" exclaimed the professor, in his astronomical way, "Do the wheels in your head make so much racket as that?"

Philadelphia Ledger: The receiver for the defunct corporation was making his first report.

"Your honor," he said, "I find that the distinguished gentlemen composing the corporation had received everything before I got there."

Washington Star: "You must take pride in the fact that you are making history."

"I don't know," answered Senator Sorghum; "after reading volumes describing wars and the errors of selfish ambitions, I have nearly concluded that history is a bad job."

Philadelphia Press: "Here, here!" cried the copy editor, "what do you mean by saying here 'the prisoner laughed aloud for mercy?'"

"Because that's exactly what he did," replied the bright reporter; "the judge had just made a silly joke at his expense."

Chicago Tribune: Pastor (making a call)—Your husband is one of our parishioners, Mrs. Jycobs, I believe, but I have not seen him at church lately.

Mrs. Jycobs—No; I heard him say a week or two ago that he was going to—er—take a layoff till the holidays were over.

Philadelphia Ledger: The Assyrian was scratching some hieroglyphics on a brick.

"What are you writing?" asked his chum.

"Hanged if I know," responded the engraver, "but I guess some of those Assyriologists of the twentieth century can translate it all right."

Baltimore American: "I made Tom quite angry the other night."

"How did you do that?"

"He buys me such beautiful Jack roses, and I asked him if he wouldn't bring me one of those jack pots he and my brother were talking about to put them in, and he told me afterwards I oughtn't to have said such a thing before father. Wasn't that funny?"

No Occasion for Contest.

Willmar Tribune: An effort is being made by interested parties to stir up a fight in Minnesota between the Bryan men and the Johnson men over the control of the state delegation to the national convention. The effort should be a fruitless one, for the simple reason that to a very great extent the Bryan men and the Johnson men are identical. The men who fought the most determinedly for Bryan in 1896 and 1900 are still as great admirers of the Nebraskan as ever and will not put up a fight to defeat him in the convention. But many of them say and think that it would be wiser to nominate Johnson, whom they consider of presidential size, right on the questions at issue this year, and stronger because he has not been through such strenuous fights as those of 1896 and 1900 and has not the drawback of having been twice defeated for the place. But if Johnson is nominated it will not be because of a fight in the convention or in state conventions; it will be because Democracy will voluntarily turn to him as the logical candidate; it will be with Bryan's help, for the old leader has power enough over the masses to prevent the nomination of anyone he believes unfit to be the party's candidate. We believe that he is patriotic enough to yield the place, if he can be made to see that it is better to go into the fight with a candidate whose name does not bring up any old animosities in the party or among the independent element that really holds the balance of power. Bryan could do nothing that would more completely convince people of his greatness than by thus subordinating himself to the good of his party without sacrificing any of his principles.

A Godsend.

Kansas City Star: Governor Johnson and his tariff utterances appear as a godsend to the Democrats for 1908. But will the Democrats be able to recognize a godsend—it has been so long since they have had one.

NIPPON ART CO.,

109 West Superior Street.

COURT TERM POSTPONED

Neither Judge Morris or Judge Amidon Can Be Here.

The January Term is Put Over Until Feb. 18.

The January term of federal court, which was to have opened next Tuesday, Jan. 14, has been put over until Feb. 18. There will be no federal court held in Duluth during the present month.

The postponement is occasioned by the fact that Judge Page Morris will not be through with court in St. Paul in time to be here for the January term, and the further fact that Judge Amidon, who was assigned to assist him during the term will also be unable to be in Duluth this month.

It was expected that Judge Amidon would be here to open court, even if Judge Morris was detained, but it has been learned that neither will be able to be here, making it necessary to put the term over until next month.

THE RED TAGS SHOW THE REDUCTIONS—BE ON HAND EARLY.

The West End Clothier

SEMI-ANNUAL CLEARANCE SALE!

Afetr being closed two days to permit of the rearrangement of the different stocks, the Fedje Clothing and Shoe House opens its doors tomorrow with a genuine sale of high class clothing and furnishings for men and boys. Those who have waited will not be disappointed—this sale will eclipse all former clearances in sensational value giving. We'd sooner take a loss than carry a large stock over—our customers reap the benefit. Everything in the store goes into this sale—suits, overcoats, hats, shoes, underwear, rubber goods—everything. A look at our windows will give you a pretty fair idea of the extent of the reductions.

MEN'S SUITS AND OVERCOATS

The best clothing made in America will go for less money than we paid for many of the garments. This clothing is not to be classed with the rag, tag, and bobtail stuff that makes up so many special sales. Included in this sale are the celebrated Kuppenheimer & Co., "Clever Clothes Makers;" Liebman, Phillipson & Schiff, Union made, and other standard makes—every suit and overcoat well worth the regular prices. At the big reduction prices

THEY ARE SNAPS NOT TO BE MISSED!

FREE! FREE! A GOOD SUIT

Here is a proposition we want you to pay particular attention to. We have selected from our stock 100 men's and young men's suits, ranging in price from 10 to $25, and placed them in one lot, and are going to offer them all at the uniform price of

$5.00

These are fine suits and worth all we ever asked for them, but we have sold the larger sizes and are determined to clean them out. They are 32 to 38 sizes. And on top of this, the first purchaser being fitted from this lot will get his suit ABOLUTELY FREE! Therefore, come early tomorrow morning and get a suit for nothing.

NARROW ESCAPE FROM DROWNING

Grace McGuffin of Park Point Falls Into an Air Hole.

Grace McGuffin, the 8-year-old daughter of George McGuffin of 2003 Minnesota avenue had a narrow escape from drowning yesterday afternoon in the bay near the yacht club. The child was crossing on the ice and stepped into an air hole. Her screams were heard by William Thompson, caretaker at the yacht club, and he went to her assistance. The ice proved treacherous and Mr. Thompson, too, went into the water.

Mlle. Lorraine, who does the "human statue" stunt at the Metropolitan theater, and who was skating nearby, saw the accident and secured help at the yacht club, but before assistance arrived from that source Thompson and the child were pulled out of the water by means of a sail in the hands of a man who happened to be passing near the scene of the accident.

Warren Woods, aged 20 years, is said to have skated into the same air hole a short time before the McGuffin child fell in. He was pulled out by two companions.

BOYS' DEPT. NOTES

Tuesday, Jan. 14, will mark the opening of the high school basketball league season, and the first of the series of games will be played between the seniors and freshmen Tuesday at 2:30 p. m. Capt. Culkins has had men out yesterday for a try out, and is well pleased with the prospects of a winning team. The freshmen will get out for practice Thursday afternoon, and they have a fine line of men to pick from and ought to develop a team that will do honor to the class of '11.

* * *

The Interscholastic Basketball league will hold a meeting at the boys' department Friday afternoon at 5 o'clock. All the schools thinking of entering the league are to be represented by two men. Rules and regulations governing the league will be discussed, and the schedule arranged, also the time when each team can arrange to practice. Every school is invited to enter a team in the league, and the boys' department will see that each team is coached in the game. A silk banner will be awarded the championship team.

* * *

The boys' department team will play the second Blaine team at Superior this evening. The members of the team are: Ralph Caulkins, Harvard Rockwell, Laurence Jaques, Asher Taylor, Harold Burnett, Morrison Harris.

* * *

The social committee will sell the calendars collected for the New Year's reception at auction Friday evening, the proceeds to go to the Lake Geneva fund.

* * *

The cabinet will hold its monthly meeting Friday evening.

* * *

The high school Bible classes resumed their studies last evening, the four classes having an enrollment of fifty boys.

A Card.

This is to certify that all druggists are authorized to refund your money if Foley's Honey and Tar fails to cure your cough or cold. It stops the cough, heals the lungs and prevents serious results from a cold. Cures la grippe, coughs and prevents penumonia and consumption. Contains no opiates. The genuine is in a yellow package. Refuse substitutes. Sold by all druggists.

RECEIVER ASKED

For the Property of Great Western in Nebraska.

Omaha, Jan. 9.—Petitions for a receiver for the property of the Chicago-Great Western, in Nebraska, was filed in the United States court in Omaha this morning, but no action had been taken by the court up to noon.

The applicants, John A. Humbird of St. Paul, owner of 500 shares of Great Western stock; George T. Meyer of New York, of 300 shares of stock and a note for $26,000, and the financial committee of the railroad, asks that A. B. Stickney and Charles F. Smith be appointed receivers. In addition to their property in Nebraska, the Chicago Great Western owns the Omaha Grain Termnus, a Nebraska corporation for the handling of grain. This corporation is not included in the application for a receiver, although it will be operated by the receivers of the railroad.

Lame Shoulder Cured.

Lame shoulder is usually caused by rheumatism of the muscles and quickly yields to a few applications of Chamberlain's Pain Balm. Mrs. F. H. McElwee of Boistown, New Brunswick, writes: "Having been troubled for some time with a pain in my left shoulder, I decided to give Chamberlain's Pain Balm a trial, with the result that I got prompt relief." For sale by all druggists.

AT THE TEMPLE ROLLER RINK ALL THIS WEEK WITH SATURDAY MATINEE

MISS JENNIE HOUGHTON,

Who was the star performer at the New York Hippodrome the past season, is this week favoring Duluth with exhibitions of fancy and trick roller skating. Her work on the floor is the best ever seen here, and she is meeting with great commendation in the way of attendance.

SUPERIOR NEWS

THE CITY WINS.

Gets Favorable Decisions in Several Supreme Court Cases.

The supreme court yesterday handed down several decisions of interest to Superior. The city won three out of four cases on which appeals had been taken to the supreme court. One of the most important was as a result of the suit brought by the Globe Elevator company, in an effort to escape taxation of grain found in its Superior elevators the first of May each year.

The supreme court sustained the decision of Judge Vinje of the circuit court, thus deciding that the city had a right to tax this grain. About $4,000 is involved in the suit, and the decision establishes a precedent whereby all elevator companies operating in Superior must hereafter pay taxes on grain.

The $12,000 personal injury suit of E. A. Higgins against the city of Superior, which went to the supreme court on a demurrer, was decided in favor of the city. Higgins was injured by a fire department team, which ran into him while making a run to a fire.

The city also won its suit against Warren Bros., in the matter of the contract for paving Winter street, three years ago. The contract was awarded against the protests of property owners, and afterwards broken, in a manner which the court decides was legal.

Douglas county won in its suit to have the Omaha road pay taxes on certain lands in the county, thus reversing the decision of the lower court. It was the contention of the company that it should not be taxed, because the state had failed to issue patents for the land.

The personal injury suit of John Polaski against the Pittsburg Coal company, which was non-suited by Judge Vinje, is reversed by the supreme court and sent back for another trial. Polaski seeks $20,000 damages for injuries alleged to have been received at one of the Pittsburg docks in Superior.

BUSY DAY FOR COURT.

Four Divorce Decrees Are Handed Out by Judge Smith.

It was divorce day in superior court yesterday, and when the shutters were finally put up for the night, Judge Smith had separated four couples from the tangles into which matrimony had cast them.

Albert Evhan was the first to be made single again. He proved to the satisfaction of the court that he had been deserted by his wife. She intimated at the time of her departure that she would never live with him again, he said.

Mrs. Emma H. Mack was given a decree of divorce from the husband whom she married in 1883 at South Wayne, N. Y. Thirteen years ago, he took a horse out of the barn and rode away on it, and his wife has seen nothing of him since.

Mrs. Harry G. Burrows testified that her husband deserted her in 1905, and she was given a divorce and permission to resume her maiden name, Ernestine H. Hinkel.

John Soderlund got a divorce decree from his wife, Johanna Soderlund, and the custody of their little children. Infidelity and intoxication were the grounds upon which the suit was begun.

HUGE ELEVATOR.

The Great Northern Road Will Replace Burned Building.

The Great Northern railroad has received estimates from contractors on the construction of a steel elevator to replace elevator "A," which burned in November. Specifications call for the biggest single grain house in the world, surpassing the 3,300,000 elevator "S" of the same line here. The new house is to be finished by Sept. 1, and it is stated that the cost will be about $1,250,000.

Barnett & Record have put in bids for the building of a concrete and tile elevator, but as they could not complete the work by Sept. 1, their bids may not be considered.

Owners of Boats.

The names of the owners of the steamships to be built at the Superior shipyards were made known to local officials of the shipbuilding company yesterday. Vessel No. 520, now in the course of construction, is for R. P. Raney of Cleveland, Ohio, and No. 521, the keel of which will soon be laid, will be for H. S. Wilkinson of Syracuse, N. Y. It is expected that No. 520 will be ready for launching early in the spring. The vessel will be 440 feet long, while the other will be 452 feet in length.

Land Demand Good.

The demand for Superior real estate and agricultural lands near the city is improving all the time, the past week having brought many letters of inquiry to local land agents. A number of Iowans are planning to remove to this section.

Use New Extension.

Last night, for the first time, cars ran over the new Allouez extension of the street railway system. The company expects to give service every twenty minutes on this line.

Note-Book the Cause.

Because he neglected to remove a notebook from an overcoat he stole from a room at the Lake Superior mission, Oscar Peterson, being unable to pay a $25 fine must spend the next thirty days in the Superior workhouse. The sentence was handed out in municipal court yesterday.

The man who owned the overcoat found in Peterson's possession identified the notebook as his own. It contained his name and many specimens of hand writing. It had been in use for several years, by the looks of it, but Peterson maintained that he bought it at a second-hand store for 5 cents.

The court could not swallow the story, though.

It goes to the root of disease, strengthens and invigorates. Its life-giving qualities are not contained in any other remedy. Hollister's Rocky Mountain Tea has stood the severest test—time. For thirty years the surest remedy. 35 cents, Tea or Tablets. Ask your druggist.

CITY BRIEFS

Haven Will Talk.

R. D. Haven, Republican candidate for mayor, will be the principal speaker at the regular meeting of the West End Republican club this evening. W. E. Culkin will deliver an address.

Ladies' Auxiliary Meeting.

The Ladies' Auxiliary of St. Paul's church will meet tomorrow afternoon at 2:25 o'clock at the home of Mrs. Evered of 123 East Third street.

Petition in Bankruptcy.

Edward Zadle, a Cloquet, Minn., merchant, has filed a voluntary petition in bankruptcy in federal court.

Worry Causes Mental Trouble.

Mrs. Elizabeth Kelly, aged 45 years, the mother of ten children, was to have been examined in the probate court this afternoon as to her sanity. In the information filed by her husband it is claimed that she attempts to run away from home. Worry and her physical condition are supposed to be the cause of her mental trouble.

Startling News.

On coat values will be found in Gidding's ad. on page 2.

* * *

Madam A. Westbrook

Of Chicago will conduct a special demonstration sale of Gossard and L'Irresistable front laced corsets at the Gidding store during the week of Jan. 13 to 20.

Duluth Men Honored.

H. R. Spencer and Stillman H. Bingham of Duluth have been appointed members of the board of managers of the Minnesota Society of the Sons of the American Revolution.

The Religious Life.

"The Religious Life" will be the topic of the sermon by Rabbi Lefkovits at the Temple Emanuel, tomorrow evening, at 8 o'clock.

Relief Association Meets.

The Duluth Police Relief association held a meeting, yesterday, at the Central station, but, on account of a small attendance, little business was done. The annual ball of the association, the principal means of revenue to the fund, will be held at the Armory, Feb. 3. Arrangements are being made, which the policemen hope, will result in the ball eclipsing all former functions of the kind.

Sister Passes Away.

Sister Anrica died this morning at St James' orphanage after a long illness. She had been a member of the community in Duluth for some time, and for three months had been at the orphanage, having retired from active work on account of illness.

Hardware Men Feast.

General hardware, locks, nails, cutlery and fishing tackle were all discussed by experts at Webster's restaurant last evening, when the employes of the Kelley Hardware company held their annual banquet. Many merry quips were woven into the hardware discourses, however, and the evening passed very pleasantly. Among those who spoke were William F. Halg, John Neipp, William H. Schell, George Green, Fred Ryan, Hugo Jacoby, C. N. Zeigler, V. J. Ide and W. C. Robinson.

FIDO PUT OUT.

Actress Not Allowed to Take Dog Into Dining Room.

The feelings of an actress, not to mention the dog's, were injured today because the management of the Lenox hotel refused to permit a French poodle to occupy a chair beside the young woman at dinner. The lady carried the pet into the dining room and deposited it in a chair. She was politely told that dogs, even tiny ones were not allowed in the dining room, so Fido was ousted forthwith.

There are no rude dogs or stray cats around the premises of the Lenox, only and old and trusted house cat, so the poodle was led gently into the basement, in a nice, snug corner, where it reposed until the noon day meal, for the lady, was completed.

CHARTER AMENDMENTS WILL NOT BE VOTED ON

Blunder of City Attorney Will Cause Delay of Year.

Law of Last Legislature Overlooked Until Too Late.

Through an oversight on the part of City Attorney Bert Fesler and the fact that his copy of the revised statutes had not been annotated to include an amendment of the session of 1907 relative to charter amendments, the proposed amendments to the charter of Duluth, which were to have come before the voters at the election next month, will not be submitted. It developed this morning that instead of twenty days' publication of the amendments, as was at first thought, thirty days' publication is necessary. As it is now too late for thirty days' publication, the amendments must go over to the November election.

When City Clerk Cheadle submitted the question of publication to the city attorney, he was referred to the laws of 1905, which provided for twenty days' publication of proposed amendments. The council authorized publication at the meeting Monday night and arrangements were made to have it made. Printing for the election was being prepared, some composition had been done by the newspapers on the amendments, and the error was discovered just in time. This morning the law of 1907, repealing that of 1905 and setting the time of publication at thirty days was discovered.

City Attorney Fesler immediately prepared a statement as follows:

"The proposed amendments to the city charter will not be submitted this year. The reason is that the law providing for the publication of the amendments was amended by the legislature of 1907, and the city attorney overlooked the 1907 law in advising the city clerk as to the requirements as to publication. The law of 1905 required the amendments to be published at least twenty days before the election, and the law of 1907 requires them to be published at least thirty days before the election. As the change was not discovered until this morning, it is too late to publish them for thirty days, and the city attorney has advised the city clerk that the amendments cannot now be submitted."

The most important amendments, which were to have been submitted, are those providing for a reorganization of the health department and for the alienating of a portion of Central park for a detention hospital. Other amendments were to alienate a portion of the London road park property for a site for a museum, to provide a sinking fund for the retiring of bonds of the water and light department, and to allow the board of fire commissioners to fix the salaries in the fire department.

IS ACCUSED OF FRAUD

Ben Vail Indicted for Inducing Men to Repeat Vote.

Indictments Said to be Returned Against Same "Repeaters."

Ben Vail, a bartender employed at the St. James hotel bar, was arrested yesterday afternoon on a bench warrant, following the return in the district court of five indictments, all charging him with perpetrating an election fraud by inducing men to repeat their vote at the recent primary election.

It is understood that there is a "John Doe" warrant out for one of the men whom Vail is claimed to have voted in different precincts, and that indictments have been returned against some of the men who are alleged to be "repeaters," or who were illegal voters.

Vail was arraigned before Judge Cant, late in the afternoon, and his bond set at $1,000. His bondsmen are John D. Campbell, proprietor of the St. James hotel; Michael Gleason, proprietor of the Ormond hotel, on Lake avenue; Joseph Kenney of the Metropole hotel, and James R. Walsh, of the local state employment agency. Alexander Marshall has been retained to defend him.

According to the information in the indictments Vail is charged with inducing "John Doe," a man whose true name is unknown to the grand jury, to commit a fraud by voting in, at least, two of the voting precincts of the city at the last primary election in December. It is alleged that the "John Doe" in question voted in the first precinct of the Seventh ward as C. R. Davis and under the same name voted again in the fourth precinct of the Sixth ward. It is further alleged that the same "John Doe" voted in the first precinct of the Seventh ward as Charles Kohler, William Martin and Sherman Mason and that he did so at the instance of the accused, Ben Vail. It is claimed that Vail knew "John Doe" was not a legal voter in the city.

The revised statutes provide, in case of a conviction, a penalty of imprisonment for more than seven years, a fine of not more than $1,000, or both imprisonment and a fine.

FRIENDS HELP MRS. THAW.

Wealthy Pittsburg Men Have Combined to Assist Her.

New York, Jan. 9.—A surprise was sprung in the Thaw trial yesterday when it became know that a number of wealthy Pittsburg millionaires, headed by Charles M. Schwab, have combined to aid Mrs. William Thaw in raising money for her son's defense.

While the widow of the Pittsburg millionaire and coke king is, of course, by no means impoverished by expenditures she has made in her effort to save her son from the electric chair, it is said that her supply of available funds has been well nigh exhausted.

The opinion is that the suit of the Countess of Yarmouth for a divorce was brought at this time in order to divert the stream of cash from the Thaw family income, said to have been poured into the count's pockets annually.

To date, Mrs. William Thaw has made no appeal for assistance, but it is said that nearly the entire income of the Thaw estate, which amounted to about $600,000 annually, is being used for the various needs of Harry Thaw's defense. The rub comes from the fact that nearly the entire Thaw estate, which comprises the celebrated "coke trust," is held in trust by the terms of the will, and the interest alone can be used.

Charles M. Schwab verified the report by saying: "I am ready and willing to aid my Pittsburg neighbor, who was a good neighbor, and I am ready to do anything in my power to alleviate the condition which Mrs. Thaw finds herself in as the result of the tragedy into which her son has been plunged."

Funeral of Mrs. Frerker.

The funeral of Mrs. Theodore Frerker will be held Friday at 9 a. m. from the residence, 822 East Second street.

ASSAILANT IS SLASHED

Broken Pitcher as Weapon When John Johnson is Attacked.

John Beckstrom Tries to Avenge Insult and Comes to Grief.

John Beckstrom appeared in municipal court, this morning, with a much damaged countenance, the result of John Johnson's effective use of the handle of a broken pitcher, which was left in his hand, when he was knocked to the ground by Beckstrom, last night. The affair happened on St. Croix avenue, with Erickson's saloon as a starting place. Johnson cast base aspersions on Beckstrom's vocal ability; Beckstrom retaliated by trying to choke Johnson; Johnson hacked Beckstrom's face, and the upshot of it is a visit of ten days' duration at the county jail for Beckstrom. The case has many sides.

Johnson went into the saloon last night, to get a pitcher of beer. Beckstrom was in the place, pretty drunk, and was more strenuously than elegantly relieving his system of a string of Scandinavian words set to alleged music. Johnson remarked that there wasn't much music in the roar and Beckstrom told him that if he didn't like it, he could sing it himself.

Johnson secured his pitcher of beer and started out. Beckstrom, it is said, followed him. Johnson went down under the first rush, the pitcher broke and the "suds" poured on the frozen ground. Beckstrom, it is said, began to choke Johnson, but the under-dog found an effective weapon in the handle of the pitcher, to which was attached a jagged piece of earthenware. He cut loose at Beckstrom's face, in his righteous indignation, and the assailant was pretty badly used up. A friend, who was with him and hadn't mixed in the fight, took to his heels when he saw the blood.

Beckstrom went down under the fury of the attack with the piece of pitcher, and Johnson summoned the police. Detective Walsh, Sergeant Wilcox and Officer Forrestal took both men to the station, where Beckstrom's wounds were dressed.

The confused nature of the affair left the police in doubt as to a charge for a time, but Beckstrom was finally locked up as a drunk. He pleaded guilty this morning and Judge Cutting thought he had been pretty severely punished already, so let him down with $10 or ten days.

• • •

Iver Olson, a farmer from Arnold, isn't accustomed to that particular brand of booze handed out over the Bowery bars. He reached town, late last evening, and took a few drinks to warm up. He couldn't stand the pressure of them and went down. He drew $1 and costs or three days. A very ordinary array of very plain drunks drew the same.

BRIEF TELEGRAMS.

Charles Goodland, 15 years old, who kept watch at night in the Beason Light hotel, at Worcester, Mass., has confessed that he set the fire, which nearly destroyed the building and resulted in the death of Dennis Driscoll, about a hundred other lodgers having narrow escapes. His sanity will be tested.

Representative Moore of Pennsylvania has introduced a bill in congress, providing for the punishment for train wrecking by imposing a penalty of imprisonment for ten years and a fine of $10,000, where deaths have resulted from the wreck the bill provided that the offender be dealt with as a murderer.

J. F. Meeker of Marshalltown, a pioneer settler and one of the best known lawyers in Central Iowa, committed suicide by hanging, Wednesday. Temporary insanity is given as the cause.

Dean James B. Eddie, who was convicted by an ecclesiastical court of immorality a year ago, was formally deposed from the ministry of the Protestant Episcopal church at Salt Lake, Wednesday. He was deposed publicly by Bishop Spalding.

Emery Shaffer, aged 40 years, was killed and Andrew Lindsay, a saloonkeeper, was seriously shot in a duel in Lindsay's saloon, on Harmon street, at Brazil, Ind., Wednesday night. The duel was the result of a dispute over the price of a drink.

NEW DULUTH MODERN WOODMEN INSTALL.

New Duluth, Minn., Jan. 9.—(Special to The Herald.)—The Modern Woodmen of America installed officers at a meeting Tuesday evening. The new officers are: W. A. Thayer, council; George Bushell, worthy adviser; C. F. Wills, clerk; George Reindl, banker; Herbert Thayer, manager; Martin Hennes, escort; Conrad Schuster, watchman.

After the installation a smoker was held.

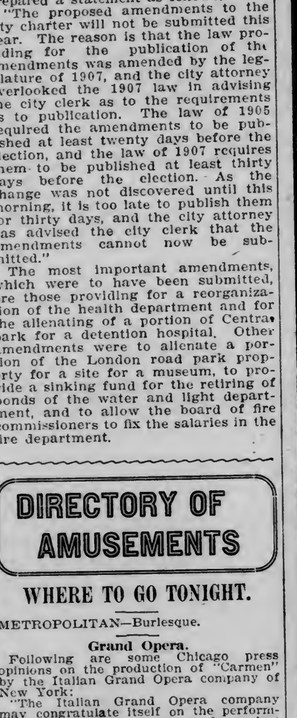
Grand Opera.

Following are some Chicago press opinions on the production of "Carmen" by the Italian Grand Opera company of New York:

"The Italian Grand Opera company may congratulate itself on the performance of Bizet's 'Carmen' produced last night at the International theater. The singing of Bizet's lovely work was of uncommon excellence. It brought forward members of the company who were best qualified to exercise their art in the interpretation of music that is exacting as well as beautiful. The performance evoked the enthusiasm of the singers as



MLLE. ZARAD

As Enis in "Il Trovatore," With the Italian Grand Opera Company.

well as the listeners. In subordinating the violence and perversity of Carmen, Mme. Duce-Merola gave it charm as well as novelty." Felix Borowski, in The Evening Post.

"Mme. Duce-Merola had the title role and gave evidences of being the conscientious, thoughtful actress, singer and artist which her work as Santuzza had given cause to believe. Her voice is a telling one. She has a clear concept of the character of the gypsy. Sig. Torre as Jose makes a handsome brigadier. The 'Flower' Romanza in the second act he brought to a telling climax. Mlle. Meri made a winsome Misaela and the part clearly is one to which she personally and vocally is well suited. The Escamillo of Sig. Alessandroni was vocally and histrionically one of the best features of the performance. He gave the Toreador song so that it roused the usual enthusiasm. Mlle Zarad and Bossi were about the best Fraquita and Mercedes that I have ever heard in the course of many 'Carmen' performances." W. L. Hubbard in the Tribune.

Some New Songs.

Libby Blondell, the pretty auburn-haired miss, whose vaudeville act, with the four English Johnnies, is a feature of the "Tom, Dick and Harry" entertainment at the Metropolitan, has some songs that are entirely different from any that are heard here under such auspices. They are somewhat on the order of the ditties which the English serio-comics sing in the music halls. Two of them, "Just Before the Lights Went Out" and "That's What the Rose Told Me," are very fetching.

MAY BUILD HOME.

Scandinavian Aid Society is in Excellent Financial Condition.

The Scandinavian Aid & Fellowship society of Duluth enjoyed an unusually good time at the meeting last night. Sloan's hall was packed with over 100 enthusiastic members. The most important part of the program was the presentation of a leather rocker to the retiring presiding officer, Gust Anderson. The presentation address was made by Attorney Andrew Nelson, who referred in a glowing and enthusiastic manner to the long and faithful services of Mr. Anderson in the society. Mr. Anderson became affiliated with the society seventeen years ago, and was one of its charter members. It then had $45 in the treasury, while now it has over $4,000. He has served as president of the society for a period of three years.

The Scandinavian Aid & Fellowship society now has a membership of 340, an increase of forty-seven during the past year. The society is planning to build a home of its own in the West end in the near future. Its large membership and the condition of its treasury abundantly warrant such a step. It is confidently expected that the membership will be increased by at least 100 during the year that has just begun.

The following officers were installed at last night's session: President, A. M. Bjorkbom; vice president, A. T. Lind; secretary, John Carlson; financial secretary, John Sanquist; treasurer, Oscar Peterson; chaplain, C. E. Johnson; marshal, P. A. Johnson; inside watchman, Alfred Hagstrom; outside watchman, Carl Johnson; librarian, Alfred Nystrom. The installation ceremonies were in charge of the former president, Louis Levin.

After the installation ceremonies the members enjoyed refreshments and a social hour.

Credit Due the Boys.

To The Editor of The Herald:

Your paper last evening contained an account of the rink which Dr. Storer is said to have originated on Lester river.

I would like to correct this error.

The boys living in Lester Park, and not Dr. Storer, should have the credit for this rink as they have put in some good hard work to plan and maintain it.

Johnnie Gamble and Arthur German originated the scheme for flooding the ice from time to time, and they, with the help of other boys, have kept the ice in good condition for some time, renewing it as necessary by flooding.

These same boys are now working to have electric lights put in. Yours truly,

Duluth, Jan. 9. F. G. GERMAN.

MASONS AT BANQUET.

Worshipful Grand Master Widell of Mankato Guest of Honor.

Gustaf Widell of Mankato, worshipful grand master of the Masonic state organizations, was the guest of honor at a banquet given by the local Masonic fraternity last evening at the Temple.

About 250 Masons gathered to greet Mr. Widell. R. E. Denfeld was toastmaster and besides the guest of the evening, those who spoke were W. A. McGonagle, worshipful past grand master, Clarence B. Miller, W. A. Patton, J. A. Barnes and Alex McKnight.

STRANGE EPIDEMIC

Seizes People of Lansing, Mich., Many of Whom Are Sick.

Lansing, Mich., Jan. 9.—Whether from the flight of bacilli over the city from deleterious gas in the city water, or from some other unknown cause, Lansing was seized with a strange malady during Tuesday night, thousands being suddenly stricken with extreme neausea, accompanied by an acute intestinal trouble.

From midnight until morning and all during the forenoon yesterday, calls for physicians were incessant. Many dragged themselves to doctors' offices for treatment. Whole families were stricken.

Two boys were found lying in the street too ill to make further progress. The disease, which most physicians attribute to atmospherical conditions, yielded readily to treatment.

Fifteen city teachers and hundreds of pupils were absent from school. All the stores were short of help.

Among several old and feeble or very young persons serious conditions have developed, but no fatalities have so far resulted in consequence of the strange epidemic.

HOW A BUSINESS MAN KEEPS IN GOOD HEALTH

A friend commenting on the healthy looks of a man who handles a large amount of business, asked him how he stood the strain so well. "It's a simple matter with me," he replied. "I keep fairly good hours, eat about what I like, and make a practice of taking one or two Beecham's Pills generally before I retire. I certainly owe my good health, in a large part, to Beecham's Pills. They keep the stomach and bowels in order, and have a good effect on the liver and kidneys. I had been troubled a bit with insomnia, but Beecham's Pills make me sleep, and so long as a man sleeps and eats well he's all right."

Ask your druggist for Beecham's Pills. 10c and 25c a box.

RECEIVERS APPOINTED.

President Stckney and Charles H. F. Smith Named for Great Western.

St. Paul, Minn., Jan. 9.—Judge Walter H. Sanborn of the United States circuit court yesterday afternoon, appointed A. B. Stickney and Charles F. Smith, both residents of St. Paul, receivers for the Chicago Great Western railroad. A. B. Stickney is now the president of the road. The firm of Kellogg & Severance of St. Paul was appointed attorneys for the receivers.

The appointments of receivers followed the inability of the company to meet obligations falling due in 1908, and the failure to secure an extension of the obligations. Loss, as a result of the boilermakers' strike of last fall, is given as a partial cause for the financial straits of the road. It was also pointed out in the proceedings that during the last ten years the road has spent $19,000,000 in reconstruction.

MRS. AABY WILL GET PATENT TO HOMESTEAD.

Washington, Jan. 9.—(Special to The Herald.)—Senator Nelson yesterday secured a favorable report from the committee on public lands on his bill providing that the final homestead entry heretofore made by Gertrude Halverson Aaby, widow of Sigbjorn H. Aaby, for the east half of the northwest quarter of section 27, township 108, north, range 38 west, Fifth principal meridian, in Minnesota, be confirmed, and the commissioner of the general land office is directed to cause a patent to issue thereunder.

DULUTH GETS EVERYTHING

At Meeting of Advisory Council of Royal League.

Minneapolis, Minn., Jan. 9.—(Special to The Herald.)—Duluth captured about all there was in sight at the meeting of the advisory council of Royal League here yesterday. Two of the leading offices went to the Zenith City, while it was unanimously voted to hold next year's meeting at the Head of the Lakes.

J. C. MacDougall, a delegate from Zenith Council No. 161, was elected worthy archon, and James A. Wharton, another Duluth delegate, was chosen vice archon. The Duluth delegates met with no difficulty in having their city selected for next year's meeting of the state organization.

DENY KIDNAPING STORY.

Sisters of Good Shepherd Say Girl is Not With Them.

Dubuque, Iowa, Jan. 9.—Sisters of the Dubuque House of the Good Shepherd on Tuesday gave out the definite information that the girl Ella Kates, supposed to have been kidnaped in Kansas City several years ago by William Birmingham and his wife, was not in the local house, contrary to the word sent here by the Chicago police to the effect that she was retained here, and contrary to numerous press dispatches that have been sent to the city. The sisters indignantly deny that they have ever had such a girl in their institution, and, furthermore, that they ever gave out information that she was retained here. The reports to the effect that the kidnaped girl was held here have created much comment in the city, and Dubuque has been the cynosure of the eyes of those who have read the reports.

Take Off 10, 20 or 30 Lbs.

How much thinner would you like to be, ten—twenty—thirty or fifty pounds? You can take off superfluous flesh without dieting, exercise or spoiling the outline of beauty at a trifling expense by asking your druggist for ½ oz. Marmola, ½ oz. Fluid Extract Cascara Aromatic, and 3½ oz. Syrup Simplex. Take a teaspoonful after meals and at bedtime. This is a safe and simple but highly recommended home recipe.

SPORTS OF THE DAY

ENTRIES FOR SKI TOURNEY

Well Known Professionals Will Compete in Sunday's Events.

Arrangements Completed for First Big Tournament of Year.

At a meeting yesterday afternoon, the executive committee of the Duluth Ski club made final arrangements for the big tournament to be held Sunday afternoon on the hill at Chester creek. Everything is in readiness now for the big meet, and it is expected to be the most successful club event of the year. Coming as it does so near to the national tournament in February, it will bring out many riders anxious to try themselves out and determine their chances for success at the national event next month.

Despite the lack of snow, the hill is said to be in good condition. With no prospect of a heavy snowfall before Sunday, snow will be hauled to the hill and packed on the slide. For the remainder of the week, teams will be employed on the work and a force of men, capable of fitting out a good slide, will pack the snow on the trestle and below the bump.

The warming house will be at the disposal of the visitors to the grounds Sunday, and every effort made to make them comfortable. H. Wannabo, who has had charge of the grounds, will take care of the serving of refreshments, and the booths will be in charge of young ladies in the national Norwegian costume.

The events will begin at 2 o'clock Sunday afternoon and will be run off as rapidly as possible. As with all outdoor winter sports, delay in running off a ski tournament is injurious to the sport, as people will not stand out in the cold and brook long waits. The management of the tournament has arranged so that every event will follow the preceding one in quick succession and no time will be lost in getting the riders away.

John Rudd, who Sunday successfully turned a somersault in the air, while making a jump from the slide, will give his first public exhibition next Sunday. Mr. Rudd is confident that he can turn the trick without a miss now, and is practicing daily. It is a hair-raising feat and a good many people will not believe it possible until they see it.

Entries for the tournament will close tomorrow night. From those already in at the Northern Hardware company's store, where the list has been for several days, it appears that the star riders of Duluth will all be entered. For the professional class, Gust Bye, John Mangseth, J. R. Rudd and Ole Feiring, who have been puling down prizes all over the Northwest for several years past, have already handed in their names.

In Class C, for amateurs over 18 years of age, E. F. Hendrum, O. Grundun, B. Landfald and R. Knox are entered. Arnold Olson and Charles Firoved are thus far the only entries in Class B, amateurs, 15 to 18 years old, and in Class A, for ladies and boys under 15 years, the following are entered: Helen Wannebo, Oscar Wick, Fred Grandy, Walter Grandy, E. Knudsen and Whitney Wahl, Jr. It is expected a number of other entries will come in today and tomorrow, and all of the best riders in Duluth will be out on the hill Sunday.

CLOQUET BASKETBALL

Game Friday With Grand Rapids, Attracts Attention.

Cloquet, Minn., Jan. 9.—(Special to The Herald.)—Tomorrow evening, at the Washington roller rink, the basket ball teams representing the high schools of Cloquet and Grand Rapids, Minn., will meet in their first game of the season. Grand Rapids defeated Cloquet last year by a score of 9 to 8, and for this reason Cloquet's light but fast team will try their best to regain the lost laurels. A large crowd is expected, since there will be but one more game in Cloquet this year, and that will be the following Friday, Jan. 17.

EWRY IS SUSPENDED.

Important Developments Expected in Ranks of Amateur Athletic Union

New York, Jan. 9.—That Roy Ewry, the jumper, suspended himself by taking part in games not sanctioned by the Amateur Athletic union, is the decision of Barlow S. Weeks, chairman of the legislative committee of the union. Mr. Weeks made the announcement last night after reading the evidence taken at the hearing on the charges brought against Ewry by Matthew P. Halpin. The board of governors of the union will meet within a few days and it is expected that important matters will be taken up, including the Ewry case. There is much dissatisfaction in the ranks of the union, it is said, and important changes are looked for as the result of this meeting.

CUP IS OFFERED.

Beautiful Trophy Will be Competed for at Ormond Beach.

New York, Jan. 9.—The automobile club of America has offered a magnificent silver cup for the races which will take place at Ormond Beach during the week beginning March 2. The cup will go to the winner in the 288-mile class, which is open to all cars, but will probably develop into a contest between racing machines. Several foreign cars are expected to compete in the race. The cup, it is said, will be the handsomest ever offered for an automobile race.

Disturbed the Congregation.

The person who disturbed the congregation last Sunday by continually coughing is requested to buy a bottle of Foley's Honey and Tar.

STRONG FIVE TO DEFEAT

Blaine Stands Between Y. M. C. A. and Basketball Championship.

Duluth is Hopeful of Victory From the Superior Five.

The supporters of the Y. M. C. A. basketball team count tonight's game at Superior the most important of the year. They feel that if the Y. M. C. A. can defeat Blaine, nothing in Northern Minnesota will stop them from winning the championship. If Blaine wins, it will be a different proposition. The Duluth boys will continue to play, with the object of ultimately defeating Blaine, for the Superior high school team stands in the way of the title.

For six years Blaine has been consistently beating Duluth association fives. Duluthians give it to the Superior boys. They have had good teams, and they deserved to win. But this year Duluth has the best team it has ever had. Every man fits admirably in his position. They are fast, clever and play together. In the games thus far they have shown excellent form, and have inspired their friends with high hopes.

They are none too certain of their ability to defeat Blaine, however. The Superior team is strong, and no bump of over-confidence is going to trip Duluth up tonight. On comparative scores Duluth has the better of the argument, but comparative scores don't go for much in any branch of sport. Blaine defeated the Nelson-Dewey Alumni 36 to 18. Duluth won from the same team, 66 to 20. Last Friday night the association team showed the finest basketball ability ever seen in the gymnasium, and if they can hit the same pace tonight Blaine must have a wonderful team to win. A crowd of enthusiasts will accompany the team to Superior.

A. J. Frey of Duluth and Prof. Ink of Superior will probably officiate tonight. The teams will line up as follows:

Blaine.	Positions.	Duluth.
Buchanan	forward	Ballou, Fenton
Clark	forward	McLean
Long	center	Dinham
Nord	guard	Skelton
Zieman	guard	Perry Smith

In addition to the big game tonight, the Boys' Department team of Duluth will play the second team of the Blaine school. One half will be played before the big game, and the second half during the intermission. It will be the first big game for the Boys' Department team, and they are anxious to win.

WILL PLAY THE COLUMBIAS

Northern Hockey Team to Meet Superior Seven Monday Night.

The Northern hockey team of Duluth and the Columbias of Superior will meet for the first time this season next Monday night at the Athletic park rink, arrangements for the game having been completed last night.

It will be the second big game of the year for the Northerns, and, as they were successful in the first, they are anxious to be next week. The Columbias have been strengthened this year by the addition of two former Canadian players, and two victories thus far this season, without a goal being scored against them, gives them a formidable appearance.

The Northern boys were out for practice last evening and had a very satisfactory session. The electric lights illuminated the skating surface brilliantly, and the boys believe that outdoor hockey at night will be a successful venture. It is not believed the lineup will be materially changed for Monday night.

MURPHY EASY MARK.

Johnnie Coulon Easily Wins Decision at Peoria.

Peoria, Ill., Jan. 9.—Johnnie Coulon of Chicago won the decision over Kid Murphy of New York in a ten-round bout last night before the Peoria Athletic club. The fight was one of the fastest and best all round mills in the history of the arena in Peoria. It was a mix and go from the start to the finish.

Coulon took the lead in the second and maintained it all through the nine rounds. Coulon was aggressive, and carried the fighting to Murphy's corner.

Young Kid Farmer of Peoria knocked out Fred Hgaue of Philadelphia, in the fifth round of the second preliminary, and Eddie Lang of Peoria scored a knockout on Terry White of Chicago.

Don't swear off the first of the year, but go to the

Q.—Where are we at?

A.—Just where the American association is.

The developments at Cincinnati this week didn't tend to help the baseball situation, and the Northern league is just as much in the dark as it ever was. The moguls of the baseball world took Joseph D. O'Brien by the hand and smote him vigorously upon the wrist. Choking with sobs brought on by the inhuman treatment, he wailed that Chicago could go to the Dickens, as far as the American association is concerned. They don't want it anyway.

So there is to be no invasion, and no war. O'Brien, Havenor, Tebeau et al must be content with their present circuit, and the small attendance at St. Paul. Joseph D. has given his decision, and it isn't very likely Tebeau and the other scrappers will kick over the traces and attempt an invasion on their own responsibility. The association didn't stand very well together on the war question anyway.

Now that the association has been turned down by the big leagues, the petition of the Northern league for permission to enter the Twin Cities is undoubtedly due for a dust-laden, moth-eaten pigeon hole existence in the desk of President O'Brien. If the big leagues had allowed the invasion, the American association might be induced to follow the golden rule in dealing with the Northern league. But it will be "Do unto others as you are done by" now, and the Northern league magnates may as well prepare to frame up a Northern league of Class C towns, or to become outlaws.

* * *

Fight fans and sporting writers, who are always looking for the fake in any sporting proposition, are tearing the Moran-Attell fight to shreds now. "Did Abe kid the Englishman along into a draw?" is the question they are asking themselves in language loud enough to be heard on the mountain tops. Some are trying to figure out a self-satisfying affirmative, while others are content to exhibit a becoming state of uncertainty.

Abe Attell is out for the money. Nobody will dispute the fact, but he knows, too, that an undisputed championship title is a more valuable asset than any other. Owen Moran is a shifty youngster. He can fight, and Abe knew it before he tackled him. Abe might have stalled some in the early rounds, but he didn't stall into any draw, and the reports of the fight show it. There would have been just as much chance for him getting another bout if he had beaten Moran as there is now, unless Moran had shown style of the Squires order. Abe is too wise to put his title in jeopardy knowingly, and it certainly was in danger in the New Year's bout.

One fact noticeable in the discussions of the fight is the superior sportsmanship of the Americans over their English brethren. When Tommy Burns walloped Moir, he got little but abuse from the London papers. Owen Moran is being praised to the skies as a fighter worthy of Attell's skill. Still, the English say Americans are not sportsmanlike.

* * *

Last year Duluth fans prided themselves on the Zenith City representation in the big leagues. Next years it will be nix. Newt Randall is to be turned looso by Boston, and Lee Quillan ditto by Chicago. Newt will probably end in Trenton, N. J., and Lee will be taken on by Milwaukee. Both fell off in their clouting last year, and it'll be the minors for theirs for a time.

TO CONTROL FOOTBALL.

Harvard Adopts New Rule for Control of the Game.

Cambridge, Mass., Jan. 9.—A board of seven men was appointed last night by the general athletic committee of Harvard university, to have sole charge of the football policy of the university, the appointments of head and assistant coaches and the power of dictating to the head coach.

This action of the athletic committee is in the form of a suggestion by the football captain, F. H. Burr. The following committee was named: W. F. Garceion, G. F. Fearing, J. W. Early, Percy J. Naughton, Fred Marshall G. Newell and F. H. Burr.

EASY FOR HOPPE.

A. G. Cutler Defeated by 700 Points in Billiard Match.

Philadelphia, Jan. 9.—The 2,000 point 18.2 billiard match between Willie Hoppe of Chicago and A. G. Gutler of Boston, ended here last night, Hoppe being an easy winner. He made 400 points yesterday afternoon to Cutler's 326, and last night he ran out 400 points to Cutler's 176. Cutler's total in the match was 1,300 points. The match was for $500. The best run was 159, made by Hoppe.

REQUEST IS PASSED.

Board of Arbitration Wants More Information on N. C. C. League.

Cleveland, Jan. 9.—Before the national board of arbitration for minor leagues, yesterday, the application of the Northern Copper Country league to drop Houghton and Calumet from the league was passed for further information.

CLARK FAILS TO RECOVER

The Jury Decides That McManus Acted in Good Faith With Him.

Fred B. Clark, who sued A. E. McManus for $2,000 on an alleged stock deal, lost his case in the district court yesterday afternoon. The jury returned a verdict in favor of Mr. McManus after deliberating a few minutes.

Mr. Clark claimed that Mr. McManus unloaded on him $2,000 worth of Apache development stock of his own holdings, when he, Mr. Clark, thought he was buying the stock from John Pemberthy, another of the men interested in the development company.

Mr. McManus claimed that Mr. Clark insisted on purchasing the stock, that he got what he wanted and was afterward tendered his money if he was not satisfied. Mr. Clark claimed he accepted the tender, but the money was not forthcoming.

The issue for the jury to determine was whether Mr. McManus offered to give back to Mr. Clark his $2,000, and whether Mr. Clark accepted or refused to take it. According to the verdict the jury accepted Mr. McManus' version of the deal and found he made the tender, but that Mr. Clark declined to take the money.

Mr. Clark was represented by Victor Stearns, and Mr. McManus was represented by H. B. Fryberger.

SOME CONCESSIONS

Made to Striking Tenants by the Landlords of New York.

New York, Jan. 9.—The gloom of the rent strikers was turned to joy yesterday when the large number of evictions, threatened by the landlords when they had warrants issued, seemed to dwindle materially. It was difficult to get marshals to handle those that were issued. They said they were busy with other things.

Many landlord, too, settled with their tenants rather than pay the cost of their eviction, and many tenants, frightened by the action of the court, agreed to accept smaller reductions than those first demanded. Many cases were compromised in this way. In other cases, tenants paid up the full amount demanded, but there were few of these cases, and in most instances it was the landlords who yielded.

Thirty-six settlements were reported at Socialist headquarters. The concessions in these cases varied from 50 cents to $2.

Many of the strikers, anticipating the warrants for dispossession, moved today into the Brownsville section of Brooklyn, which is largely populated by Jews.

JUDGE MARSHALL DEAD.

Owatonna, Minn., Jan. 9.—Municipal Judge Jacob Nowsall, one of the best known Odd Fellows and Masons in Minnesota, died here Wednesday after a lingering illness. He was born in Germany in 1838, and has resided in Owatonna since 1864.

FORMER MAYOR DIES.

Moorhead, Minn., Jan. 9.—J. G. Selby, mayor of Hillsboro, N. D., dropped dead in the Midway cafe here yesterday afternoon. Mr. Selby was a prominent attorney and Mason and was a member of the constitutional convention.

BRYAN AT CHICAGO

Chief Guest of Jackson Day Banquet of Jefferson Club.

Tells Difference Between an Aristocrat and Democrat.

Chicago, Jan. 9.—The standpoints from which the aristocrat and the Democrat view society and its activities formed the theme of a speech delivered here last night by W. J. Bryan. Mr. Bryan was the chief guest at the Jackson day banquet of the Jefferson club, a Democratic organization.

Prominent party men from several Western states were present, the occasion being generally regarded as the formal opening of Mr. Bryan's campaign for the Democratic nomination for the presidency at the Denver convention next July.

Other speakers besides Mr. Bryan were Adlai E. Stevenson, former vice president of the United States, Bloomington, Ill.; United States Senator W. J. Stone, Missouri; John W. Kern, Indiana and Edgar Lee Masters, Chicago.

United States Senator Jefferson Davis of Arkansas was scheduled for a speech, but was not present. Despite this change in the program the proceedings were so lengthy that it was past midnight before Mr. Bryan was called upon.

"Point of View." Bryan Subject.

Mr. Bryan's subject was "The Point of View." He said, in part: "The questions which involve a discussion of the relative sphere of the nation and the state bring out the difference in the point of view of the aristocrat and the Democrat. The aristocrat wants to get the government as far away from the people as possible; the Democrat desires to bring the government as near the people as possible. The aristocrat would subject national remedies for state ones because predatory wealth can protect itself from national legislation better than from state legislation.

"The Democrat would add the national remedy to the state remedy and thus give to the people the protection of both the state and federal governments.

"The labor question is considered from both standpoints, the aristocrat thinks only of the large employers, the Democrat of the employes and the general public which is inconvenienced by any disruption of friendly relations between employers and employe.

"And the question of imperialism in like manner presents the difference in view points; the imperialist thinks more of the extension of commerce than of the preservation of the ideas of self government and he thinks only of the benefits that might come to the comparative few; the Democrat knows that trade purchased at the cannon's mouth costs more than it is worth and that the cost falls upon all the people while the profits accrue to but a few.

New York Banks Favored.

"And so whatever question we take up we find that everything depends upon the point of view by which we examine the question, and there is no better illustration than the financial flurry through which we are passing. The Republican leaders at once rushed to the rescue of the banks after those banks had brought the stringency upon the country by their unbusinesslike methods. The banks of the rest of the country were discriminated against in favor of the banks of New York city; and after the government had disposed of the loanable surplus, it borrowed money at 3 per cent in order that it might have money to loan to the banks for nothing, and the high financiers count it patriotism to loan at emergency rates the treasury money furnished them without interest.

"If the Republican leaders had spent half as much time in trying to make depositors secure as they have spent in trying to increase the profits of the banker, we would not have had any panic at all.

"The country is ripe for the application of Democratic principles to government and all that is necessary is for the Democratic party to convince the people that it will be the truly democratic if entrusted with power.

"Will the Democratic party be democratic? Let me convince the public that it will, and we shall have a victory which will be fruitful in blessings to every part of the country and to every element of our population."

How to Avoid Pneumonia.

You can avoid pneumonia and other serious results from a cold by taking Foley's Honey and Tar. It stops the cough and expels the cold from the system as it is mildly laxative. Refuse any but the genuine in the yellow package. Sold by all druggists.

MOTHER ARRESTED.

Kalamazoo, Mich., Jan. 9.—It became known yesterday afternoon that Mrs. David Necley, mother of the 2½-year-old Walter Neeley, who died last Friday at Plainwell from pleuro-pneumonia, after having been treated by members of a sect of mental healers, instead of physicians, had been placed under arrest. The coroner's jury, which is investigating the child's death, requested that Mrs. Neeley be held on $5,000 bonds.

BONFILS FOUND GUILTY.

Denver, Jan. 9.—Fred C. Bonfils, one of the proprietors of the Denver Post, was found guilty of assault and battery on Thomas M. Patterson, former United States senator and principal owner of the Rocky Mountain News and the Denver Times by Justice of the Peace Thomas Carlon, and was fined $50 and costs.

BUSINESS SHOWS GAIN

Office of Clerk of District Court Shows Good Earnings.

Receipts About $2,000 Heavier Last Year Than in 1906.

Something of the increase in the business of the district court during the past year is shown by the annual report of Clerk of Court J. P. Johnson, filed with the county auditor, which shows the total receipts of his office to have been $15,359.46 during the year 1907, as compared with $13,604.14 in 1906.

The fees of the office of the clerk of court are comparatively small compared with the fees of some of the other offices, so that a total of $15,359 worth of work done for the year represents a vast amount of legal business transacted through the office.

The receipts for 1907 are divided among the various accounts as follows:

Certificates	$2,114.25
Sundries	1,162.40
Civil cases	7,078.95
Criminal cases	778.85
Marriage licenses	3,358.00
Jury fees	299.00
Total cash receipts	$11,463.66
Work for the county—	
Sundries	$1,238.85
Criminal cases	745.85
Civil cases	1,826.60
	3,895.70
Total	$15,359.46

During 1907 there was a gain of about $2,000 in the fees paid for civil cases, outside the work done for the county, for which the cash was not collected. The criminal business was about as heavy in 1907 as in 1906, including the criminal cases for the county. The receipts from marriage licenses issued totaled about $300 more last year than in 1906.

The office of the clerk of district court, even though on a small fee basis, is one of the few offices whose earnings show a good profit for the county at the end of the year, above the expense of maintaining the office.

The Pure Food Law.

Secretary Wilson says: "One of the objects of the law is to inform the consumer of the presence of certain harmful drugs in medicines." The law requires that the amount of chloroform, opium, morphine, and other habit forming drugs be stated on the label of each bottle. The manufacturers of Chamberlain's Cough Remedy have always claimed that their remedy did not contain any of these drugs, and the truth of this claim is now fully proven, as no mention of them is on the label. This remedy is not only one of the safest, but one of the best in use for coughs and colds. Its value has been proven beyond question during the many years it has been in general use. For sale by all druggists.

HEINZE LOSES BANK STOCK

Unable to Complete Payment It Reverts to the Goulds.

New York, Jan. 9.—Being unable to meet payments due on his stock in the institution yesterday, E. Augustus Heinze lost control of the Mercantile National bank, the conduct of which, as its president, had brought about his arraignment in the United States circuit court earlier in the day on charges of over-certification.

One year ago Heinze bought a controlling interest of the Goulds, with whom he pledged his holdings as security for his promise to pay for them in full within one year. This loan of $1,200,000 was due yesterday to Edwin Gould, and William Nelson Cromwell, who was a member of the Gould party in the bank before the Mercantile was added to the Heinze-Morse-Thomas chain of financial houses. Up to the last moment allowed to him, Heinze struggled to meet his obligations, and so to retain his banking interests. His failure was chronicled in the following statement, issued by Mr. Cromwell, after a conference of the parties concerned.

"The Heinze stock in the Mercantile National bank has been acquired by Mr. Gould in a satisfactory arrangement.

Mr. Heinze was given every possible chance to pay for the stock, but because of his inability to do so in the time agreed, we have concluded to take it over.

Later, Mr. Cromwell added that the Gould interests would assume their proper place in the bank board at the meeting on Jan. 14. This implies, of course, that the so-called Heinze directors will then retire.

PRODUCTION MUCH REDUCED

Blast Furnace Capacity Shows Great Decrease Since October.

Cleveland, Jan. 9.—The Iron Trade Review says: The principal events of the week have been the gradual and cautious resumption of finishing mills, the announcement of the reduction of prices on a number of finished products and the meeting of Eastern and Western pig iron manufacturers, who are endeavoring to prevent a decline of prices below the cost line.

The startling change in the industrial and financial conditions since last October is reflected in statements of furnace productions, which decreased from 3,390,000 tons in October to 1,234,733 tons in December. The active capacity at the end of the December trade was 154 blast furnaces, against 226 on Oct. 30. For the year 1907, the blast furnaces of the United States produced 25,399,732 tons of pig iron, the charcoal product not included. This compares with a total tonnage of 24,-874,184 tons in 1906. Estimating charcoal iron production at 450,000 tons, the total output for 1907 was approximately 23,970,000 tons.

Pig iron manufacturers have made an earnest effort during the past week to prevent prices from further decline. The meeting of Shenango and Mahoning valley furnacemen was not harmonious. Two interests declined to co-operate with the others, and as a result, quotations are irregular. No important interests were represented at the Eastern meeting, and there is a fair prospect of better conditions being established. The promise of improvement in the Chicago district has not been borne out by experience of the past few days. More interest in the market is manifest at Buffalo and Cleveland and increased sales are reported at Philadelphia. In Southern irons the most important transaction was the sale of 10,000 to 120,000 tons, made to the leading interest at a price not announced, but understood to be on a basis slightly below $13. Birmingham for No. 2. Some Southern interests are openly quoting $13, but a few sales are reported at a somewhat higher figure.

In finished lines a number of important reductions in prices have been made. The Western Bar Iron association has reduced its quotations on common iron bars $4 per ton. Special reductions are as follows:

Two dollars per ton on black sheets, with the exception of Nos. 29 and 30, on which $4 reduction is made, $4 per ton on galvanized sheets, excepting Nos. 29 and 30, where the cutting is $6; $1 per ton on blue annealed sheets, $2 per square on painted and galvanized roofing sheets. Tinplate has been reduced 20 cents per box, or $4 per ton. Cast iron pipe has declined $1 per ton and there has been some further cutting on light rails.

A number of finishing mills have resumed operation, but the disposition is not to do much until there is a good prospect of being able to continue for a reasonable time.

Don't Take the Risk.

When you have a bad cough or cold do not let it drag along until it becomes chornic bronchitis or develops into an attack of penumonia, but give it the attention it deserves and get rid of it. Take Chamberlain's Cough Remedy and you are sure of prompt relief. From a small beginning the sale and use of this preparation has extended to all parts of the United States and to many foreign countries. Its many remarkable cures of coughs and colds have won for it this wide reputation and extensive one. Sold by all druggists.

ORDER LIMITING TIME TO FILE CLAIMS, AND FOR HEARING THEREON.

State of Minnesota, County of St. Louis.
In Probate Court.
In the Matter of the Estate of Jerry Sullivan, Decedent.

Letters of administration this day having been granted to Mary Sullivan,

IT IS ORDERED, That the time within which all creditors of the above named decedent may present claims against his estate in this court, be, and the same hereby is, limited to six months from and after the date hereof; and that Monday, the 6th day of July, 1908, at ten o'clock A. M., in the Probate Court Rooms at the Court House at Duluth in said County, be, and the same hereby is, fixed and appointed as the time and place for hearing upon the examination, adjustment and allowance of such claims as shall be presented within the time aforesaid.

Let notice thereof be given by the publication of this order in the Duluth Evening Herald as provided by law.

Dated at Duluth, Minn., Dec. 31st, 1907.

J. B. MIDDLECOFF,
Judge of Probate.

(Seal, Probate Court, St. Louis County, Minn.)
Duluth Evening Herald, Jan. 2, 9 and 16, 1908.

ORDER OF HEARING ON PETITION FOR ADJUSTMENT OF FINAL ACCOUNT AND FOR FINAL DECREE OF DISTRIBUTION.

State of Minnesota, County of St. Louis.
In Probate Court.
In the Matter of the Estate of Joel S. Ewyer, Deceased.

The petition of Jennie L. Clarkson as representative of the above named decedent, together with her final account of the administration of said estate, having been filed in this court, representing, among other things, that she has fully administered said estate, and praying that said final account of said administration be examined, adjusted and allowed by the court, and that the court make and enter its final decree of distribution of the residue of the estate of said decedent to the persons entitled thereto, and for the discharge of the representative and sureties of her bond.

IT IS ORDERED, That said petition be heard, and said final account examined, adjusted and allowed, by the court, at the Probate Court Rooms in the Court House, in the City of Duluth in said County on Monday, the 27th day of January, 1908, at ten o'clock A. M., and all persons interested in said hearing and in said matter are hereby cited and required at said time and place to show cause, if any there be, why said petition should not be granted.

ORDERED FURTHER, That this order be served by publication in the Duluth Evening Herald according to law.

Dated at Duluth, Minn., December 30th, 1907.

By the Court,

J. B. MIDDLECOFF,
Judge of Probate.

STATE OF MINNESOTA, COUNTY OF ST. LOUIS—SS.

District Court, Eleventh Judicial District:

Mary A. Banning,

Plaintiff,

vs.

William L. Banning, Junior; Evangeline R. Banning, his wife, and Frederick Ayer,

Defendants.

Notice is hereby given, that whereas judgment was rendered and entered in the above-mentioned District Court on November 20th, 1907, in the above action in favor of the above-named plaintiff for the foreclosure of a certain mortgage, described in said judgment, of the interest hereinafter described, and the sale of said interest by the undersigned sheriff of said St. Louis County, or his deputy, and adjudging that the amount due on said mortgage, together with the costs of said action, was $2,429.25, and a duly certified transcript of said judgment has been delivered to me, the said sheriff, with instructions to enforce the same, and by which said judgment I, or my deputy, was directed to sell all the share and interest of William L. Banning, Junior, and Evangeline R. Banning, his wife, defendants above named, in the property devised and bequeathed to the said William L. Banning, Junior, by the last will and testament of William L. Banning, deceased, as described in said judgment, which said share and interest is an undivided one-fifth of all the real estate and personal property so devised and bequeathed to him, and hereinafter described, subject to the trust described in said judgment, and power of sale in the trustee thereof, as therein described.

Now, therefore, notice is hereby given, that by virtue of and in accordance with said judgment and certified transcript thereof, I, the said sheriff of said St. Louis County, or my deputy, will, at the front door of the Court House in the City of Duluth, in said St. Louis County, on Saturday, the first day of February, A. D. 1908, at ten o'clock A. M., sell, at public auction, to the highest bidder, as an entirety, all the said share and interest of the said William L. Banning, Junior, and his said wife, in the said property so devised and bequeathed to him as aforesaid, that is to say, an undivided one-fifth of all the following real and personal property, namely:

The following described real estate situated in said St. Louis County: Lots two hundred sixty-five (265) and two hundred sixty-seven (267), Lake Avenue, Upper Duluth, and lots two hundred sixty-six (266) and two hundred sixty-eight (268), Lake Shore, Upper Duluth, and lots thirty-six (36), thirty-eight (38), forty (40) and forty-two (42), and the west half of lot forty-four (44), all in block one hundred nineteen (119), Duluth Proper, Third Division; lot twelve (12) in block one hundred forty-five (145) of Portland Division; lots four hundred twenty-four (424), four hundred twenty-six (426) and four hundred twenty-eight (428), in block nine (9), Duluth Proper, Second Division, according to the plat of said additions respectively on file and of record in the office of the Register of Deeds of said St. Louis County, and the following real estate situated in Carlton County, Minnesota, namely: Lots one (1), two (2) and three (3) in block twenty-five (25) of the Village of Thompson, according to the plat thereof on file and of record in the office of the Register of Deeds of said Carlton County, and the northwest quarter of the northwest quarter of the northwest quarter of Section five (5), township forty-eight (48), range sixteen (16), in Carlton County, Minnesota, and the following described personal property, namely: The sum of three hundred forty ($340) dollars in cash and the following securities, all payable to Mary A. Banning, as trustee of and under said will, namely:

(a) A mortgage made by Harry L. George, dated July 12th, 1905, on lots one (1), two (2), three (3) and four (4), in block fifteen (15), and an undivided half interest in and to lots thirty-one (31) and thirty-three (33), in block twelve (12), all in Bayfront Division of Duluth, First Rearrangement, situated in said St. Louis County, which said mortgage was recorded in the office of the Register of Deeds of said St. Louis County on July 23rd, 1907, in Book 115 of Mortgages, on page 23, together with the two notes of said mortgagor of thirty-seven hundred dollars each, secured by and described in said mortgage.

(b) Mortgage made by Rupley J. Mullen, dated June 20th, 1907, on the southwest quarter of the southwest quarter of Section fifteen (15), township forty-nine (49) north of range fifteen (15) west, situated in said St. Louis County, which said mortgage was recorded in the office of the Register of Deeds of said St. Louis County on July 22nd, 1907, in Book 115 of Mortgages, on page 22, together with two notes of said mortgagor of two hundred ($200) dollars each, secured by and described in said mortgage.

(c) Mortgage made by Joseph J. Alworth, dated June 14th, 1907, on lot one hundred seventeen (117) in block twenty-three (23) of Duluth Proper, Third Division, situated in said St. Louis County, which said mortgage was recorded in the office of said Register of Deeds, in Book 115 of Mortgages, on page 21, together with two notes of said mortgagor for six hundred twenty-five dollars each, described in and secured by said mortgage.

(d) Six certificates of indebtedness for five hundred (500) dollars each of the City of Saint Paul, dated June 15th, 1907, due one year from that date, and numbered 1471, 1472, 1473, 1495, 1496 and 1075, and in all other property which may become a part of said estate, to satisfy the amount due as aforesaid, with interest and the costs and expenses of sale.

Dated December 19th, 1907.

WM. J. BATES,
Sheriff of St. Louis County, Minn.
A. E. HORN,
Attorney for Plaintiff.

CONCERNING WOMAN.

Church meetings, and white sales, and grand opera are the attractions for the week, socially. These excitements are not exactly of the sort that cause nervous exhaustion. But so quiet is the social "activity" that even a church meeting is welcomed for breaking the monotony. Shopping is, of course, always delightful and when buying billowy white things for use next summer one can have a little tingle of quiet anticipation of the happiness that may await one then. A lonesome woman can go to any one of the stores almost any afternoon and hold an informal reception there, greeting her friends with gusto.

Grand opera will call out a representative gathering of Duluth people, and although the season is short, the enjoyment will probably be great. Tomorrow two club lectures will be given at the club room of the library. In the morning Rev. Powell will continue his course on Browning, and in the evening Prof. Herbert Blair will talk on "A Trip Through Germany."

PILGRIM CHURCH

To Hold Annual Meeting in Church Parlors, Jan. 21.

The annual church meeting of the Pilgrim Congregational church will be held Tuesday evening, Jan. 21, in the church parlors. This meeting is the largest and most important of the business meeting of the church body during the year. It is preceded by a dinner, and at the business session the annual report of every organization of the church is presented, and recommendations for the coming year made. The meeting is always largely attended and is looked forward to with interest.

CHURCH SOCIETIES.

Officers Elected and Reports Heard at Annual Meeting.

The annual meeting of the Ladies' Aid society of the First Baptist church was held yesterday afternoon with Mrs. Z. D. Scott of East First street. The officers for the year were elected as follows: President, Mrs. W. B. Patton; vice president, Mrs. E. C. Little; secretary, Mrs. J. Latshaw, and treasurer, Mrs. Z. D. Scott.

The quarterly reports of the chairman were presented and the annual reports of the officers read. The society has raised $1,500 during the year, and will provide a new individual communion service for the church. The society will continue to work in guilds during the year and the plans were informally discussed.

The officers for the Missionary society of the church were also elected. They are, president, Mrs. E. A. Gooch; secretary, Mrs. W. B. Patton, and treasurer, Mrs. Thomas Cameron.

* * *

The annual business meeting of the Women's Missionary society of the Pilgrim Congregational church was held yesterday afternoon with Mrs. W. S. Horr of 1205 East Fourth street. The officers for the ensuing year were elected. They are as follows: President, Mrs. Theron K. Hawkes; vice president, rMs. E. W. Matter; secretary, Mrs. Henry B. Paull; treasurer, Mrs. W. G. Hegardt; auditor, Mrs. H. W. Nichols.

* * *

The ladies' aid society of the Lester Park Methodist Episcopal church served its annual dinner last evening at the home of Mrs. W. H. Vaughan, 5333 London road, to ninety members and friends of the society. After a delicious dinner, Mrs. J. H. Hardy, first vice president of the society called the meeting to order, owing to the enforced absence of the president, Mrs. John Norton, whose daughter is ill with diphtheria. Mrs. James McDowell, the secretary reported that during the year 1907 the membership of the society had increased from forty-four to fifty-six, and that the average attendance had also increased from twenty to thirty-two. Five new members were added at the meeting. The flower committee, consisting of Mrs. J. E. Watt, Mrs. G. W. McFadden and Mrs. T. J. Watt, reported 100 visits to the homes of sick people. Mrs. George Westover, treasurer, reported that the society had paid out during 1907, $301.06, leaving a balance of $91.03. The society is giving $250 to the new parsonage. A contest, headed by Mrs. Fred Hansen and Mrs. James A. Geer, to raise a mile of pennies by April 1, is now being conducted, with the understanding that the vanquished side is to treat the victorious side to a supper.

A vote of thanks was tendered the retiring officers for their faithful and efficient work during the past year. A vote of thanks was also given Mrs. W. H. Vaughan, the hostess.

The following officers were elected to serve during the year 1908: Mrs. H. G. Inman, president; Mrs. H. Bartlett, first vice president; Mrs. Wilson Palmer, second vice president; Mrs. Helen Stewart, secretary; Mrs. William Morgan, treasurer.

Mrs. H. G. Inman appointed as executive committee Mrs. William Stevenson, Mrs. J. J. Le Tourneau and Mrs. J. H. Hardy; and as work committee, Mrs. Clinton Brooke, Mrs. George Davis and Mrs. Thomas, and as flower committee, Mrs. J. E. Watt, Mrs. C. W. McFadden and Mrs. H. Schmale.

Topics For Discussion.

"Life" comes forward with the following subjects for consideration by women's clubs:

The Pantry Plentiful.

Does Mr. Bok or Bernard Shaw do the most for our morals?

The Distich and the Dropstitch.

Is Ibsen immoral when you don't understand him?

Montaigne as the forerunner of Mr. Mable.

Dishwashing as a Mental Discipline.

Why is Thomas Hardy so horrid?

Isn't M. Chesterton a dear?

Studies in Comparative Literature: Trace the relations between Mrs. Eddy and Marcus Aurelius; between Aristophanes and George Ade; between Goethe and Lincoln; between Bernard Shaw and Bax.

Why Mr. Benson is perfectly sweet.

Why is Browning like the bass clef in a Henry James dialogue? (Answer to this conundrum supplied by James Huneker, or on application to our own Literary Bureau).

Don't you think Sappho is misunderstood? Is it, perhaps, just as well?

Do you derive more profit from reading "A Doll's House" than from seeing Nazimova dance the tarantella?

Informal Afternoon.

Miss Clara Murray entertained informally this afternoon at her home, 2028 East Superior street, in honor of her sister, Mrs. Arnold S. Wakeman of Winnipeg.

Talk by Bishop.

Bishop McGolrick will be the speaker at the meeting of the Saturday club at its meeting Saturday afternoon of this week. The subject of the bishop's talk will be "Italian Art." Each member has the privilege of inviting one guest to the meeting.

Browning Lecture.

The second in a series of talks on Browning will be given tomorrow morning at the club room of the library, before the Browning class of the Twentieth Century club, when Rev. J. W. Powell will talk upon "Caliban Upon Setibos." The lecture will begin at 10 o'clock.

Superior Assembly.

A number of Duluth society people will be guests at the Superior Assembly, which will be danced tomorrow evening at the West Superior hotel.

Personal Mention.

Mr. and Mrs. Ray Helm have returned from a visit with Mrs. Helm's parents at Omaha.

* * *

J. Alex Cullyford has returned to the state university to complete his course after spending the vacation with his parents in this city.

* * *

Mrs. Barre has gone East for six weeks.

* * *

Miss Irene Wetzler of 1024 East Second street, has returned from a two weeks' visit with friends at Milwaukee, Wis.

TEMPLE ROLLER RINK

ATTRACTION EXTRAORDINARY!

Miss Jennie Houghton, champion lady skater of the United States, in Fancy Skating. Every evening this week, and Saturday matinee. Regular prices.

SHANGHAIED MAN BACK IN NEW YORK.

New York, Jan. 9.—Joseph Miller, 22 years old, of Chicago, who claims he was shanghaied on a steamer at Norfolk, and taken to Europe, arrived here today on the steamer Moskwa, from Rotterdam. Miller says the steamer on which he made an involuntary trip across the Atlantic, discharged him at Hamburg. From that port he went to Rotterdam, applied to the American consul for aid, and through him obtained a chance to work his way home on the Moskwa.

Special Announcement Regarding the National Pure Food and Drug Law.

We are pleased to announce that Foley's Honey and Tar for coughs, colds and lung troubles is not affected by the National Pure Food and Drug law as it contains no opiates or other harmful drugs, and we recommend it as a safe remedy for children and adults. Sold by all druggists.

STEAMER STILL AGROUND.

Baltimore, Jan. 9.—The steamer Lexington of the Merchants and Miners line, from Baltimore to Savannah, which stranded in the Chesapeake bay off James Point, Md., last Tuesday night, was still aground today. The passengers remain on board. The position of the vessel is not considered dangerous.

DR PRICE'S WHEAT FLAKE CELERY FOOD

No breakfast food can compare with it, as it contains all the elements found in the body.

What Retail Markets Offer.

Cabbage, 8 or 10 cents each.
Grape fruit, 2 for 25 cents.
Spinach, 50 cents a peck.
Tomatoes, 20 cents a lb.
Chickens, 20 cents a lb.
Corned beef, 15 cents a lb.

The working classes who must of necessity arise these mornings before breakfast and the sun are almost rewarded for the consequent shattering of their nervous systems in watching the aforementioned sunrise. It happens over the lake, and is really most charming in effect. It is about the only charming thing connected with such early morning appearances. The market is filled with things that you want to eat in the evening, and who wants to consider chicken pie at 9 o'clock of the morning.

LADIES' TAILOR

1522 Jefferson St. Duluth, Minn.
Zenith Phone 2038 Y. Old Phone 1721.—L

RAILROADS

A FURTHUR REDUCTION

Two Roads Do Away With Porters and Flagmen.

Burlington and Union Pacific Cut Down Train Crews.

According to an Associated Press dispatch from Omaha, Neb., the Union Pacific and Burlington railroads will take porters off chair cars and do away with flagmen on some of their passenger trains. All porters on the Union Pacific chair cars are to come off and flagmen on the Omaha-Kansas City trains west of Hastings on the Burlington will be done away with. It is stated that this reduction is made as a matter of retrenchment.

This step is but another indication of the lengths to which the railroads are willing to go in cutting down expenses. Lines all over the country, in an attempt to save every penny possible, are reducing working forces wherever they can do so without actual injury to the service. Heretofore, the retrenchment policy has manifested itself in passenger and freight offices, and in reductions in the number of traveling representatives. The Burlington and Union Pacific are said to be the first roads to reduce the number of men employed on their trains. If these lines find they can get along all right without flagmen and porters, it is expected other roads will follow the example set by them.

Hearing Postponed.

The railroad and warehouse commission has postponed the date of the hearing of the complain of J. W. Reynolds against the Great Northern from Jan. 10 to Jan. 24. A lower rate on timber shipments is asked. The hearing will be held at Duluth.

Railroad Personals.

R. B. Jones of Madison, Wis., traveling passenger agent of the Pennsylvania lines, was in the city yesterday.

Barney Russell of St. Paul, Northwestern passenger agent for the Michigan Central, is in the city today.

W. L. White of Minneapolis, general agent of the Pere Marquette, is in town today.

C. M. Booth of Chicago, assistant general freigh: agent of the Pere Marquette, is in the city.

Expert manicuring at Knauf Sisters. Over Gidding annex.

PINCHOT TO SPEAK.

Head Forester Will Address St. Paul Roosevelt Club.

St. Paul, Minn., Jan. 9.—(Special to The Herald.)—The members of the Roosevelt club are congratulating themselves over the acceptance by Gifford Pinchot, head forester of the United States, of the club's invitation to address the body during his visit in the Twin Cities next week. Mr. Pinchot enjoys such an intimate association with the man after whom the club is named, that his acceptance of the invitation is gratifying to the members.

He will be the guest of the Yale Alumni association at a luncheon to be given at the Minnesota club Jan. 18, and will also be the guest of honor at a dinner given at Carling's by those most directly interested in the subject of forestry. Immediately afterward, he will give his address before the Roosevelt club and its guests, at a place to be determined later.

An Insidious Danger.

One of the worst features of kidney trouble is that it is an insidious disease and before the victim realizes his danger he may have a fatal malady. Take Foley's Kdney Cure at the first sign of trouble as it corrects irregularities and prevents Bright's disease and diabetes. Sold by all druggists.

The best reasons for using Hunt's Perfect Baking Powder are that it is pure, uniform in its perfection, and you are never disappointed in the results.

WHEAT HAS AN UP-TURN

The Markets Are Higher at Home and Abroad.

Flax is Dull and Closes Weaker in Duluth.

Duluth Board of Trade, Jan. 9.—Wheat took an up turn in the American markets during the session today and the closing prices showed a good bulge over yesterday.

Receipts continue light in the Northwest. The situation in this part of the country is looked upon as extremely bullish and was an important factor for higher prices today. Unfavorable reports from the continent and Argentina also had some effect.

Argentine shipments of wheat, however, are estimated at 400,000 bushels this week.

The cables were strong, Liverpool closing ⅛@¼d higher, and Budapest 1⅛c higher. Berlin was off ⅛c.

The May option closed ¾c higher in Duluth ⅞-1c higher in Chicago and 1c higher in Minneapolis, New York and Winnipeg. The July option closed ¾c higher in Duluth, 1c higher in Chicago and Winnipeg and ⅞c up in Minneapolis and New York.

May corn closed ⅞-¾c higher in Chicago and ⅛d higher in Liverpool. May oats closed a shade off in Chicago.

Broomhall cabled from Liverpool:

"Wheat was steady at the start with values ⅛@¼d higher. The weakness in America was offset by offerings and fairly good support. Further support developed as trading progressed on the private reports of unfavorable weather in Argentine, strength in corn and buying by a large house, and prices showed an additional advance of ⅛d. At midday the market was steady with values ¼@⅜d higher than Wednesday.

"Corn was firm with values unchanged. For a time the weaker cables from America caused some disposition to sell for profits, but as a good demand developed for spot together with the scarcity of La Plata offerings, the market became firm and show an advance of ¼d. Spot wheat was quiet and corn firm. Wheat cargoes was steady but quiet and corn cargoes strong with few sellers."

Car receipts at Duluth were 61 against 42 last year, and at Minneapolis 200 against 250 last year, making a total for the Northwest of 261 against 292 last year. Chicago received 24 against 85 last year. Winnipeg received 169 against 34 last year.

Primary receipts of wheat were 507,000 bus, last year 646,000 bus. Shipments 216,000 bus, last year 225,000 bus. Clearances of wheat and flour aggregated 325,000 bus.

Primary receipts of corn were 552,000 bus, last year 599,000 bus. Shipments 412,000 bus, last year 589,000 bus. Clear-

Wheat was quiet in the Duluth market during the session. May wheat opened ⅛c higher at $1.13⅛, went off to $1.12⅞, reacted to $1.13⅜, declined to $1.13¼, rallied to $1.13½, went off to $1.13⅜ and closed at that price, a gain of ¾c over yesterday. July wheat was inactive and closed at $1.12⅞, a gain of ¾c over yesterday.

Durum wheat closed ½c higher and cash spring wheat was selling on a basis of 3c under May for No. 1 northern.

Flax was dull and prices sagged at the close. May flax opened unchanged at $1.22½, advanced to $1.22⅝, went off to $1.22¼ and closed at that price, a loss of ¼c from yesterday. July flax was inactive and closed at $1.23¾, a loss of ¼c from yesterday.

Coarse grains were unchanged.

Following were the closing prices:

Wheat—No. 1 hard, on track, $1.17⅞; to arrive, No. 1 northern, $1.08⅜; No. 2 northern, $1.07⅞; on track, No. 1 northern, $1.10⅜; No. 2 northern, $1.07⅞; May, $1.13⅜; July, $1.13⅞; No. 1 northern, in store, $1.09⅜; No. 3 northern, in store, $1.06⅞; durum on track, No. 1 90¼c; No. 2, 88⅜c; May durum, 96⅜c; July durum, 94⅞. Flax, to arrive, $1.18¼; flax, on track, $1.18¼; May, $1.22¼; July, $1.23¾. Oats, to arrive, 48½; oats, on track, 48½. Rye, 74-78c. Barley, 65-95c.

Cars inspected: Wheat, 61, last year, 42; oats, 8; barley, 2; flax, 18, last year, 22.

Receipts: Wheat, 106,161; oats, 4,153; flax, 31,613.

Shipments: Oats, 4,500.

THE CHICAGO MARKET.

Wheat Opens Strong, Following Firmness on Liverpool Exchange.

Chicago, Jan. 9.—Wheat was strong on the local exchange at the start today, following firmness at Liverpool. Trading was only of moderate volume. May opened ¼@⅜c to ⅝@¾c higher at $1.05⅞ to $1.06¼ and sold at $1.05¾. Minneapolis, Duluth and Chicago reported receipts of 285 cars against 304 cars last week and 37 cars a yera ago.

The market became strong during the last half of the session owing to reports of good export business and on the strength of cash wheat in Eastern markets. May sold up to $1.06⅞. The close was strong with May up 1⅛c at $1.06⅝.

Corn was quiet and weak. Longs were active sellers early. May opened ⅛c lower to ⅛c higher at 60¾c to 61⅛c and sold off to 60⅝@½c. Local receipts were 207 cars, with 2 of contract grade.

The corn market rallied along with wheat and closed firm. May was up ⅛@¼c at 61@⅛c.

Oats were dull and featureless. The market was steady. May opened ⅛c lower at 54⅜c and sold at 54@⅛, but reacted to 4¼@⅜c with the weakness in corn. Local receipts were 100 cars.

Provisions were quiet and steady. May pork was a shade higher at $13.57½. Lard was unchanged at $8.12½. Ribs were 2½c higher at $7.35.

Close: Wheat—May, $1.06⅝; July, 99c; September, 95⅝@¾c. Corn—May, 61@⅛c; old, 54⅜@½c; July, May, 52⅜c; July, old, July, 59⅝c; September, 59⅛c. Oats—May, 48¼c; July, 46⅛c; September, 40⅛c. Pork—January, $13.05; May, $13.65. Lard—January, $7.92½; May, $8.17½. Ribs—January, $7.02½; May, $7.37½. Rye—Cash, 83@½c. Barley—Cash, 90@$1.05½. Timothy—March, $4.75. Clover—March, $17.25. Cash wheat—No. 2 red, $1.01¾@1.03⅞; No. 3 red, $1.00@1.01⅞; No. 2 hard, $1.02⅜@1.08⅞; No. 3 hard, $1.00¾@1.06; No. 3 spring, $1.03@1.13; others, nothing doing. Corn—No. 2, nothing doing; No. 3, 56¼@½c.

Minneapolis Flour.

Minneapolis, Jan. 9.—The flour market is quiet and featureless. Buyers are committed to a conservative policy and taking just enough of supply for immediate needs. Shipments, 39,207 barrels. First patents, $5.70@5.80; second patents, $5.60@5.70; first clears, $4.30@4.40; second clears, $3.50@3.60.

Liverpool Grain.

Liverpool, Jan. 9.—Close: Wheat—Spot firm; No. 2 red western winter, 7s 11d; futures quiet; March, 8s 1d; May, 8s ¼d. Corn—Spot firm; prime mixed American new, 5s 7d; prime mixed American old, 5s 8d; futures steady; January, 5s 5⅞d; March, 5s 5¼d.

Duluth Car Inspection.

Wheat—No. 1 northern, 9; No. 2 northern, 13; No. 3 spring, 5; No. 4 spring, 7; rejected, 2; western red, 4; No. 1 durum, 3; No. 2 durum, 14; No. 3 durum, 3; total of durum, 20; mixed, 1; total of all wheat, 60, last year, 42.

Flax—No. 1 northwestern, 17; total of flax, 18, last year, 22.

Oats, 8; barley, 2.

Total of all cars, 89. Cars, on track, today, 75.

New York Grain.

New York, Jan. 9.—Close: Wheat—May, $1.13¼; July, $1.06⅝. Corn—May, 69⅞c; July, 68⅝c.

Minneapolis Wheat.

Minneapolis, Jan. 9.—Close: Wheat—May, $1.13⅛; July, $1.13⅛; No. 1 hard, $1.15⅞; No. 1 northern, $1.13⅞; No. 2 northern, $1.11⅞; No. 3, $1.07⅞@1.09⅞.

Grain Gossip.

The fact that Minneapolis is paying 3½c more for No. 1 northern wheat than Duluth is directing more of it to the Flour City market right now.

No. 1 northern closed at $1.13⅞ in Minneapolis today and at $1.10⅜ in Duluth.

This difference in price nearly makes it possible for Duluth buyers to send their wheat to Minneapolis from here, and after paying all the freight charges, be able to sell it there at a profit of ½c or so.

Duluth receipts are light, and despite the better prices in Minneapolis, receipts there were not heavy. The mills there have been bidding anxiously for wheat.

* * *

Logan & Bryan, Chicago: Wheat was evident that short sellers of wheat were timid because of the 3-cent break in the market this week. On the other hand there was no such haste to sell wheat on the contract with the action of yesterday. A Chicago house worked a little wheat by way of the gulf late yesterday. The bull leaders were not doing very much in the market, but there is absolutely no leadership on the selling side. Private cables claim that conditions are less favorable for the late harvest in Argentina. If our strong and higher closing brings much better cables in the morning it will not be surprising to see the short who did not cover today get busy on the buying side early tomorrow.

Corn—There was a fine map this morning and the local corn trade started bearish on the theory that there would be larger receipts. The weather forecast for the next thirty-six hours is milder and some chance for rain. This checked the selling of corn very promptly and the market recovered to 61⅛c. If mild weather causes any further delay in the movement of corn this market is likely to run into a stronger position than yet seen on the crop. Would pick the reactions to buy if possible.

Oats—There is no action in oats to make the market attractive to thee public. Last prices were practically the same as those of yesterday.

Provisions — All western packing points had a run of 45,000 more than a year ago. Regardless of this the provision market started strong at a little advance.

THE PRODUCE MARKETS.

Prices hold steady in the produce markets. Receipts of poultry show a slight increase today, but the market for them is about the same as it was yesterday. The same may be said of meats.

The following quotations were furnished by the secretary of the Duluth produce exchange:

BUTTER.	
Creamery prints	31 @ 32

Copper Gossip.

Boston to Paine, Webber & Co.: This was the market for which we have been looking for some time. Amalgamated will be the next stock to have a good rise and the coppers will follow. The local market is quiet, but it will wake up soon, and the rally will be very sharp. The bank statement Saturday will show the deficit practically wiped out.

St. Paul Livestock.

St. Paul, Jan. 9.—Cattle—Receipts 300; steady to 10c higher than last week. Quotations unchanged. Hogs—Receipts 6,500; 5c higher. Range, $4.25@4.35; bulk, $4.30. Sheep—Receipts 500; 25c higher. Sheep, $4.50@6; lambs, $5.25@7.

Midway Horse Market.

Minnesota Transfer, St. Paul, Minn., Jan. 9.—Barrett & Zimmerman report: Trade continues moderate in all classes. Receipts fairly liberal. Values show little change:

Drafters, extra	$175@240
Drafters, choice	125@175
Drafters, common to good	65@125
Farm mares and horses, extra	165@200
Farm mares and horses, choice	125@165
Farm mares, common to good	65@125
Delivery, choice	125@210
Drivers and saddlers	135@215

Discount Rate Reduced.

Paris, Jan. 9.—The Bank of France has reduced its rate of discount from 4 to 3½ per cent.

APPELLATE COURT RELEASES SCHMITZ.

San Francisco, Jan. 9.—The appellate court releases ex-Mayor Schmitz.

BROKER ENDS LIFE.

New York, Jan. 9.—William Bourne Nevin, 44 years old, two years ago a member of the New York stock exchange, committed suicide today by leaping in front of a subway train. He suffered heavy financial losses the last five months, and had been in ill health.

Your advertising is the supreme test. You stand or fall by it. You grow or fall by it.

ADVANCES IN STOCKS

The Market Ruled Firm Throughout and Good Gains Recorded.

Reading, Union Pacific and Hill Stocks Led in Trading.

New York, Jan. 9.—Opening prices of stocks today were very little altered from last night, the majority of changes showing small gains. The volume of business was small. Reading advanced 1¼ and International Pump 1. Southern Railway preferred declined 1.

A good demand for all classes of stocks rose which was fostered by the improved monetary conditions and the confident buying of Reading, which touched 104, a rise of 4⅛. The standard railroad stocks made a relatively better showing than the specialties. Minneapolis, St. Paul & Sault Ste. Marie preferred improved 5, the common 1, Delaware & Hudson 4, Nashville, Chattanooga & St. Louis 3½, United States Realty 2½, Missouri Pacific and St. Paul 1¾, Northern Pacific 1⅜, Union Pacific, Illinois Central and American Smelting 1⅝, Canadian Pacific 1.

The advance was resumed after a slight set-back, Union Pacific and American Smelting showing conspicuous sbtrength with advances of 2⅛ to 2⅝. vance failed to better their former Some of the previous leaders of the ad- gains.

American Express sold at an advance of 25, Minneapolis, St. Paul & Sault Ste. Marie preferred 6½, the common and Reading second preferred 3, Great 1¾, Wisconsin Central preferred 1½, United States Steel preferred and others 1. Bonds were irregular.

The advance was resumed after a slight setback, Union Pacific and American Smelting showing conspicuous strength with advances of 2⅛@2⅝. Some of the previous leaders of the advance failed to better their former gains.

American Express sold at an advance of 25, Minneapolis, St. Paul & Sault Ste. Marie preferred 6½, the common and Reading second preferred 3, Great Northern preferred and Northwestern 1¾, Wisconsin Central preferred 1½. United States Steel preferred and others 1. Bonds were irregular.

Some of the leading stocks that had not shared proportionately in the morning rise were taken hold of and advanced sharply. This diversion of interest did not affect the early leaders and the demand for them was considerably reduced. Northwestern gained 2¾, Duluth, South Shore & Atlantic preferred 2 and Amalgamated Copper and American Sugar 1.

Speculative interest centered largely in the local municipal stocks. Their strength held the rest of the list at the previous advances. Nashville, Chattanooga & St. Louis jumped 6 points, Pacific Coast ¾, Union Pacific 3, Consolidated Gas, 2¾, Brooklyn Transit 2¼, St. Paul preferred and Interborough Metropolitan preferred 2 and United States Rubber first preferred 1¾.

The market closed strong and animated. The highest prices of the day were touched in the final hour and profit-taking sales made little impression on the market. The rise in Reading and Delaware & Hudson reached 5, Reading second preferred 6½, Norfolk & Western preferred 6, New York Central, Northern Pacific, Southern Pacific and United States Steel preferred about 2. Federal Mining preferred declined 3½.

Quotations furnished by Gay & Sturgis, brokers, 328 West Superior street:

Stocks—	High	Low	Close
Atchison	70½	68½	70⅜
Amalgamated Copper	50¾	49	50⅝
Smelting	76½	74	76⅝

American Car Foundry	31½	31	31½
National Lead	41¼	40¼	41¼

Stock Gossip.

New York to Walter Carr: The market has ruled firm throughout with advances of from 1 to 4 points being recorded in the active issues. Shorts have covered rather freely, particularly in Reading, which was the real market leader and scored another advance of 5 points over yesterday. Union Pacific gained 3 points and the Hill stocks from 1¾ to 2½. Most of the active trading was in these four stocks.

The favorable features of the day were the continued ease in money rates, good showing by the Bank of England, reduction in the discount rate of the Bank of France, and the favorable news on the financing of Missouri Pacific and Rock Island and Erie.

The London market did not show much strength early, but was firmer on the curb. London sold moderately, only about 5,000 shares on balance, mostly Union Pacific.

The upward movement has gained sufficient headway to bring in a great many people who were disposed to view the rise with suspicion. Notwithstanding yesterday's declaration of the regular dividend by the Northern Pacific, there is still an important following in the market which believes that an extra disbursement will be made very soon. Those who adhere to this view believe that the stock is a good purchase and will see a further rise.

New York Money.

New York, Jan. 9.—Close: Prime mercantile paper, 7@8 per cent. Sterling exchange easy with actual business in bankers' bills at 4.85.45@4.85.50 for demand and at $4.81 for 60-day bills; commercial bills, $4.80.75; bar silver, 56c; Mexican dollars, 44c; government bonds, irregular; railroad bonds, irregular.

The Cotton Market.

New York, Jan. 9.—Cotton market opened firm at an advance of 12@18 points on active covering and Wall street buying, as a result of the census report showing 9,955,427 bales ginned to Jan. 1 against 11,741,039 to the same date last year. Prices were well maintained and active months ruled about 13 to 15 points net higher during the middle of the morning on a continued demand from shorts and local bulls.

Spot closed steady, 15 points higher. Middling uplands, 11.45; middling gulf, 11.70. Sales, 2,881 bales. Futures closed steady. Closing bids: January, 10.74; February, 10.81; March, 10.91; April, 10.90; May, 10.90; June, 10.85; July, 10.80; August, 10.66; October, 10.20.

Chicago Livestock.

Chicago, Jan. 9.—Cattle: Receipts, about 8,500; market steady to strong; beeves, $3.60@6.25; cows and heifers, $1.30@4.50; Texans, $3.10@3.90; calves, $5.25@7.25; Westerners, $3.70@4.50; stockers and feeders, $2.25@4.15. Hogs: Receipts, about 45,000; market steady; light, $4.10@4.47½; mixed, $4.15@4.55; heavy, $4.15@4.52½; rough, $4.15@4.25; pigs, $3.60@4.25; bulk of sales, $4.35@4.50. Sheep: Receipts about 15,000; market strong to 10c higher; native, $3.50@5.60; Western, $3.50@5.65; yearlings, $4.90@5.90; lambs, $5.25@7.40; Western, $5.25@7.45.

PRESIDENT WILL ASK NEW LIABILITY LAW.

Chicago, Jan. 9.—A Washington dispatch to the Chicago Tribune says President Roosevelt has decided to send a special message to congress, urgently requesting the enactment of another and more comprehensive employers' liability bill, to take the place of the law declared unconstitutional by the United States supreme court.

In his annual message of last year the president declared the law as "excellent" and as "a marked step in advance to get the recognition of employers' liability on the statute books."

But he did not consider that the law went far enough. In spite of all precautions exercised by employers, there are unavoidable accidents and even deaths in every line of business connected with the mechanic arts. This inevitable loss of life may be reduced, but it cannot be completely eliminated. In the judgment of the president, it is a great social injustice to compel the employe, or rather the family of the killed or disabled, to bear the burden of such an inevitable sacrifice.

TRAVELED TO COAST FOR A $2,000 THEFT.

Carbonade, Wash., Jan. 9.—Did two Slav miners travel all the way from Pennsylvania to rob A. Vasalene? This is what Vasalene believes, and he has what he considers a good reason.

For ten years Vasalene has been a coal miner and has saved his money. He did not understand banks, so he dug a hole in his woodshed floor and buried his hoard, which had reached nearly $2,000, all in $20 gold pieces. A year ago two other miners came to board at Vasalene's place. They surprised him one day digging up his hoard to make an addition to it. This worried Vasalene a long time, but finally all his fears vanished, as the two men were evidently honest. About ten months ago both these men returned to Pennsylvania. In about a fortnight two Slav miners arrived in Carbonade saying they had come from Pennsylvania and telling Vasalene that they knew the other two who had formerly boarded with Vasalene.

The latter thought nothing of it until last week, when he returned home one night and was told by his little son, aged 10, that the two miners had been at home that afternoon playing with him. Vasalene was at once suspicious, and asked a few questions. When the youngster said they had been digging holes in the woodshed, the father immediately made a search and found that his gold was missing. The men have not been caught.

FAMOUS HOPE DIAMOND RUINS THREE FIRMS.

New York, Jan. 9.—When the firms of Joseph Frankel's Sons company; Gattle, Ettinger & Hammel and E. M. Gattle & Co., among the largest importers in the United States, put their business in thte hands of trustees, another was added to the long list of tragedies that have marked the story of the Hope diamond for the last 250 years, as the gem, to some extent, is the cause of the embarrassment. It is worth $250,000, and there has been no one in the United States to buy such a costly gem.

Seven years ago Simon Frankel bought it and there have been many negotiations looking toward its sale, but all of them have fallen through. Death, loss of fortune or dire trouble has been the fate of all who have owned it and, in fact, it has been a veritable hoodoo to its possessor.

It is believed that had the Frankels been able to realize on the investment they could have tided over their financial troubles, and it is likely that the other firms would have been able to pull through.

JAG IN VAUDEVILLE.

New York Sun: "I'm asking a lot of questions, I know, and I hope I'm not annoying anybody," observed the little man with the interrogative eye, "but here's another one of those stage gags that bothers me: Why do so many of these vaudeville sketches hinge upon the male individual of the sketch coming home to his young wife 'from the club' in a state of sodden and sulky or hilarious and skylarkish rummiferousness Hey?

"Y'see, that kind of a sketch—oh, you've seen lots of 'em—is usually pulled off something like this:

"The rising curtain reveals a termagantish wife—she says she is a wife, and I guess she ought to know, hadn't she?—tearing around a most gilded and ornate drawing room, waiting for her man to come home. She is perfectly certain that her man is going to come home very drunk. She says so about nine dozen times. She gets it in, too, that her husband is a hopeless souse—gets it in while she's rampaging about there in the drawing room all by herself, when her husband isn't present, and, therefore, has no chance to defend or square himself with the audience.

"However, after she's gyrated that way for quite a while she suddenly notices that there's a piano there in the drawing room—she appears never to have known one solitary thing about the piano till that very blessed moment — and then, just to pass the time away while she's waiting to hurl a few articles of vertru and bijourterie at her man when he shows up, she plumps down on the piano stool and lilts a lilt or two about how things look down in dear old Manitoba, where the sweet pawpaws grow, and all like that. The audience, of course, makes her do this all over again, but just the minute she finishes the encore she jumps up from the piano stool and is every bit as sore as she was before she started playing and singing.

"Well, now there's something started. The front doorbell clangs. There's the loafer of a husband a-coming now! She knows 'tis he! And he's sure going to be pickled! She won't do a thing to him;

"Now, of course, having been put wise to it so many times, the audience is fully prepared to see the young man come in with his package, and he doesn't disappoint 'em. He's there with the bun all right. Of course he's wearing a dress suit—that's what they always call evening clothes in vode-vee—a 'dress suit.' Men never get bunned up in vaudeville unless they've got their dress suits on. One end of his collar is flying loose and his tie is all tousled. He is wabby on his pins. He isn't in the least engaging or attractive. Business of his enraged wife grabbing him by the lapels of his dress suit coat and shaking him ferociously while he mumbles thick apologies.

"Well, then they have it out, right before the audience. She roars and bawls at him, and he's there with the rum comedian stuff. She accuses him of having been out to dinner with some Wilful Mazie or something like that, and he—winking wisely at the audience—denies it, exuding fun all the time as he does so. Business of his termaganish wife gradually subsiding into the weeps, while the soused one relents, chucks her under the chin, then folds her in his arms, and it's all right, fellers. The audience sees that it's all right, for doesn't the couple walk down stage, hand in hand, and lilt another one about up in dear old Guatemala, where the crook stemmed fir trees grow? And then they're there with some more of that hug stuff, and the curtain thumps down.

"Now, why is all this? What for?

"Because, when you stop to think it over, there are just oodles of interesting situations in the daily life of men and women, even of husbands and wives, that have nothing whatever on earth to do with the rum thing. Y'see, nowadays the men who go home drunk to their wives are quite exceptional. At any rate, men do not get drunk at their clubs. Everybody ought to know that much.

"In addition to the same, when it comes to that, only about one man in several hundred really belongs to any sort of club. If they must and will get pickled, they do it at groggeries.

"Carrying the thing along a little further than that, club members for sure don't say 'I don't know nuthin' about that,' or 'I seen y'r mother yistiddy,' or 'Don't stake me t' none o' that slack,' and so on. I mention this because most of these vaudeville sketch members talk just like that. Club members who belong to the Mike Mullaly Clam Chowder and Social club or the Jim O'Rooney Pleasure and Oyster Bake club may converse like that, but does the conventional sure enough club member, hey?

"However, leaving altogether aside the matter of accuracy of representation, it's a cinch, isn't it, that the drunken man is not pretty, much less a funny object or spectacle at this period of the world's history? The hiccoughing male being with the thick utterance and the vacuous grin and the fool quips and quirks and quillets is assuredly best under cover, isn't he? He doesn't belong. He is out of the picture. He isn't even a pleasing 'prop.' If we don't laugh at the souse when we see him on the street—if, on the contrary, we feel a bit sorry that a decent appearing chap should have allowed himself to get that way—why should we be expected to extract enjoyment from the sight of him on the vaudeville stage, and laugh and crow and titter and giggle over the pin-headed remarks that he hiccoughs?

"Howling, rampageous wives aren't pretty, either, on the vaudeville stage or anywhere else. Moreover, the sight of a married man and woman 'making up' after a marital scrap, whether the man be drunk or sober or the woman amiable or termagantish, isn't such a lot to look at and listen to. Married folk can and do find out all about that sort of thing without digging up their good coin to go to vaudeville theaters to see it done by near actors."

Some tenants are as bad as fire. Herald want advertise for the sort who have consciences.

What are your "lucky numbers?" Perhaps the number of the classified ads, in today's paper is one of your lucky numbers.

MARTIN ROSENDAHL,

Copper Stock Broker,

414 WEST SUPERIOR STREET. 102 MANHATTAN BUILDING.
My own wires to Copper Country. Also connections to Eastern markets.
JANUARY 9, 1908.

	Bid	Ask		Bid	Ask
Butte-Ballaklava	7.00	......	Cliff Mining	.70	.75
Butte & Superior	1.50	1.62	Copper Queen	.70	.75
Butte Coalition	15.87	16.00	Comanche	.05	.06
Black Mountain	4.50	4.62	Denn-Arizona	4.12	4.25
Greene-Cananea	7.12	7.25	Globe Cons.	7.12	7.25
Sup. & Pittsburg	11.12	11.37	National	.46	.50
Calumet & Sonora	7.50	7.75	North Butte	45.87	46.00
Carman Cons.	1.50	1.75	Cal. & Arizona	105.50	106.00

I have sold millions of dollars' worth of copper stock since my brokerage career began. Some of them dropped to lower prices and many advanced. National is steadily getting back to the level it was floated at. Denn-Arizona Development sold up to $100 a share and there were not so many people who lost as those who took profits, for the public picked it up at low prices and some of them lost only what they would have made if they had sold at the top. Look around and you will find very few people who bought Denn at the high price. Most of it went to Bisbee, Arizona, and they should have known what the mine was.

Now, then, in regard to Butte & Ballaklava. I went to Butte, Montana, at the request of a gentleman who knows what a mine is, but I did not do this until the facts were made plain to me. He told me it was on the same veins and hill as the great Amalgamated and North Butte producers, but I did not understand until I saw the mine, and if we had not had the panic to go through, this stock would now be selling at $50 a share. It will be one of the biggest producers on Butte Hill, and when you stop to consider the rich ore that has been shown up in the Edith May and Old Joe. The great Bell Speculator vein was opened up today and the assays are as follows:

BUTTE, Montana, Jan. 8th, 1908, 7:30 p. m.—"Speculator's first assay picked gold, one dollar; silver, sixteen and one-half ounces; copper, ten and three-tenths per cent. Improving every round. We like the outlook.
(Signed), "JNO. A. PERCIVAL, Secretary."
Jan. 8, 12:56 a. m.

The following message was received this morning at the Ballaklava office:

BUTTE, Montana, Jan. 8, 1908.—Just in Speculator. Looks good. Will send assays as soon as made. North cross-cut today shows assays copper 18 per cent, silver 27 ounces. (Signed), JNO. A. PERCIVAL, Secretary.

Butte & Ballaklava is steadily showing up one of the biggest mines in the country and every statement made here is correct. You can put it up to any one who knows whether it is—Mr. Cole or the North Butte people—and they can say nothing, only that we are working the same veins.

To any one who goes to Butte and finds that I have not made true statements of the facts, I will pay $5,000 in money.

Don't overlook the fact that I have made many friends by getting them to sell other stock and buy this, and many of them I have carried with my own money, and in many cases their stock has been guaranteed at a certain price, and do you think I am taking any unnecessary chances? The mine will be one of the greatest mines in the United States and will make million in dividends, for no ore is richer than in the Butte Hill veins. Butte & Ballaklava will, on the great showing at the mine, steadily advance to $35 or $40 a share. I sold tens of thousands of shares of Butte & Superior to the people of Duluth in the last couple of weeks and have made them a lot of money.

BOTH 'PHONES, 1485. ROOM "B" PHOENIX BLOCK.

J. H. ROBBERS

COPPER STOCKS AND BONDS

CURB STOCKS A SPECIALTY. LISTED SECURITIES.
JANUARY 9, 1908.

	Bid	Ask		Bid	Ask
American Saginaw	3.25	3.50	Keweenaw	4.50	4.62
Black Mountain	4.37	4.50	National	.48	.50
Butte & London	.75	.80	Sup. & Pittsburg	11.12	11.37
Butte & Superior	1.50	1.56	Superior & Boston	3.25	3.50
Cal. & Sonora	7.50	8.00	Shattuck-Arizona	15.50	16.00
Carman Cons.	1.50	1.62	Warren	5.50	....
Copper Queen	.70	.75	Wolverine & Ariz.	2.25	2.50
Denn Arizona	4.00	4.25	Butte-Ballaklava	6.75	....
Globe Cons.	7.12	7.25	Copper Gulf	5.12	5.25
Greene Cananea	7.12	7.25			

Butte & Ballaklava is very much in demand today, with no stock coming out at bid prices. Looks like very much higher prices on this stock, and the showing at the mine certainly warrants very much higher prices. Butte & Superior is stronger at slightly advancing prices. The market should do better before the end of the week.

STREET CARS.

NOTICE TO THE PUBLIC.

This company operates a street railway line in the city of Duluth between Third avenue east and the end of Rice's Point, and another street railway line in the city of Superior between Twenty-first street and the end of Connor's Point. These lines are separated by the waters of St. Louis bay, and are operated as two distinct and separate lines.

The fare for a continuous ride in one direction between any two points on either one of these lines is 5c.

The public is hereby notified that this company does not, by undertaking to carry any passenger, or by accepting fare for such carriage, assume any responsibility beyond that of carrying such passenger safely between points on the above mentioned lines.

This company is not responsible for close connections, nor safe transportation, between the above mentioned lines by any ferryboat or other means of transportation. While the employes of this company have been instructed to keep themselves posted and give upon request all the information they can as to the probability of connections being made with other transportation lines, the company has no better means of foreseeing unexpected interruptions in the service of such lines, nor of telling how long such interruptions will continue, than the public has, and, therefore, cannot be responsible for notice of such interruptions.

ORDER OF HEARING ON PETITION FOR ADJUSTMENT OF FINAL ACCOUNT AND FOR FINAL DECREE OF DISTRIBUTION—
State of Minnesota, County of St. Louis.
In the Matter of the Estate of Louisa B. Smith, Deceased.

The petition of Arthur H. Holgate as representative of the above named decedent, together with his final account of the administration of said estate, having been filed in this court, representing, among other things, that he has fully administered said estate, and praying that said final account of said administration be examined, adjusted and allowed by the court, and that the court make and enter its final decree of distribution of the residue of the estate of said decedent to the persons entitled thereto, and for the discharge of the representative and the sureties on his bond.

IT IS ORDERED, That said petition be heard, and said final account examined, adjusted and allowed, by the court, at the Probate Court Rooms in the Court House, in the City of Duluth in said County, on Monday, the 3rd day of February, 1908, at 10 o'clock A. M., and all persons interested in said hearing and in said matter are hereby cited and required at said time and place to show cause, if any there be, why said petition should not be granted.

ORDERED FURTHER, That this order be served by publication in The Duluth Evening Herald according to law.

Dated at Duluth, Minn., January 8th, 1908.

By the Court,
J. B. MIDDLECOFF,
Judge of Probate.
(Seal Probate Court, St. Louis Co., Minn.)

ORDER FOR HEARING ON PETITION FOR DETERMINATION OF DESCENT OF LAND—
State of Minnesota, County of St. Louis.
In Probate Court.
In the Matter of the Estate of Angela R. Shugart, Decedent.

The petition of Lyman T. Shugart having been filed in this court, representing, among other things, that the above named decedent died more than five years prior to the filing of said petition, and that no will of decedent has been proved nor administration granted on said estate in this State, that said petitioner has, and claims to have, an interest in certain real estate of decedent lying and being in the County of St. Louis, State of Minnesota, described in said petition, and praying that the descent of said real estate be determined by this court, and the same assigned to the persons thereunto entitled.

IT IS ORDERED, That said petition be heard before this court, at the Probate Court Rooms in the Court House, in the City of Duluth, in said County, on Monday, the 3rd day of February, 1908, at ten o'clock A. M., and all persons interested in said hearing and in said matter are hereby cited and required, at said time and place, to show cause, if any there be, why said petition should not be granted.

ORDERED FURTHER, That this order be served by publication in The Duluth Evening Herald, according to law.

Dated at Duluth, Minn., January 8th, 1908.

By the Court,
J. B. MIDDLECOFF,
Judge of Probate.
(Seal. Probate Court, St. Louis Co., Minn.)
Duluth Evening Herald—Jan. 9-16-23, '08.

INDEPENDENT FORTUNE

Accumulated by William J. Bryan in the Last Ten Years.

Omaha, Neb., Jan. 9. — William J. Bryan is independently rich. This is an admission he made in the course of an interview given out in Omaha. While it is generally known that Mr. Bryan has accumulated a goodly fortune in the last ten years, it is refreshing, to say the least, to have the popular Nebraskan admit that he is a rich man. Mr. Bryan said:

"The people of this country have made it possible for me to have an independent income for the rest of my life. I do not need money and am absolutely independent, so far as this world's goods are concerned.

"My father was a poor man, and the only legacy he left me was the well-taught principle that right will prevail. The people have been generous with me and provided an income which will be lifelong."

This statement was made in connection with his declaration on the moral element in politics, and while it was incidental to the question which apparently was uppermost in his mind, it made an impression on his hearers.

In Nebraska many Democrats bolted the ticket in 1896 because they felt that Bryan's platform was too radical. While these men have been in a hopeless minority for years, they have still held aloft from supporting Bryan, because, as they said, they were "honestly afraid of him." A noticeable feature of the banquet given by the Jacksonians was the presence of a large number of these men, who have stood for sound money. Mr. Bryan greeted them, shook their hands heartily and welcomed them back. He urged the rank and file to forget and forgive and all join in the effort for victory.

ANSWER BY DR. MAGIE

Makes Reply to News Tribune's Attack on the Medical Profession.

Gives Some Statistics Regarding the Value of Vaccination.

To the Editor of The Herald:

As much as I dislike to engage in a newspaper controversy, I cannot let this opportunity pass without replying to a scandalous and untrue attack upon the medical profession in general and Dr. Bracken in particular, published in the News Tribune's editorial columns on the morning of Jan. 8. From the reading of said editorial I take it that the writer has a very poor opinion of medical men in general. However, it may be that he is not altogether to blame for this, as a man's judgments of medical men as well as other men are usually formed as a result of their associations.

I do not pretend to know who our esteemed editor's medical associates are, but judging from reading the News Tribune's pages, which I have done for more than twenty years past, I hope I may be pardoned if I should suggest that they might be Dr. Lydia Pinkham, Dr. Munyon, or our good old friend Dr. Hostetter, whose pictures often adorn the pages of the News Tribune.

I take the liberty to ask The Herald's indulgence that I may reply to some, if not all, the misstatements made in the News Tribune's editorial so that the general public may know more of the real facts concerning the Monday night's council meeting as well as resent some of the slurs aimed at the medical profession in general. Allow me to state that Dr. Bracken, Dr. Stewart, Dr. Rood, Dr. Bracken, as well as myself, were asked to address the council last Monday evening, then in session, as to the merits and demerits of the character of quarantine that the health authorities of the city and state proposed to inaugurate for the control and the prevention of the spread of smallpox. Dr. Bracken, and I am sure all the rest of the physicians present, came to the council meeting with the best of intentions, namely, to point out the defects of past methods and explain to the best of our ability reasons for the very slight change in the quarantine regulations that were to go into operation after Jan. 1, 1908. We certainly did not expect one of the most prominent newspapers in the city to garble the proceedings of said meeting and try to belittle the medical men who were kind enough to attend and lend their assistance in the discussion of this important subject. Therefore you can imagine our surprise when we read the garbled and distorted report of the meeting in the News Tribune the next morning. Here is a sample:

"Dr. Riesland gives the vaccination converts a jolt."

Who is Dr. Riesland, may I ask, that the News Tribune is called upon to give much prominence? Is he a licensed physician? If so, where did he get his medical training, and from what school or university did he receive the right to prefix "doctor" to his name? I have searched the medical directories of the United States and Canada quite diligently and can find no record of such a physician ever having practiced on this continent. Will the editor of the News Tribune be kind enough to answer these questions in order that the public may know just who Dr. Riesland is, and how much credence to give to his statements? What did this man Riesland say that gave the vaccination converts such a "jolt?" I will tell you what he said. He said that he held in his hand statements of five hundred physicians that claimed that vaccination was not a protection against small pox. Then he showed his dishonesty by reading a part of a report made public by Dr. Walter Reed some years ago as a result of examination of about forty different makes of vaccine, that it might enable him to select from the various samples the vaccine to be used in the army from reliable manufacturers in order that our soldiers might be protected from dishonest and incompetent dealers in vaccine. Dr. Reed found several socalled vaccine farm products impure and warned the medical profession against the use of these particular vaccine farm products. He also found four times as many more samples perfectly reliable from which he selected the vaccine for use in the United States army. What did this fellow Riesland do? He read to the council the report of Dr. Walter Reed only so far as it said that the vaccine from the imperfect farms contained many microbes. He did not state that the examination had resulted in finding many more samples of pure vaccine from which he selected his stock for use in the United States army. He knew if he had told you this it would have spoiled his spectacular argument. His object was to convey to the minds of that council the false impression that all vaccine was bad and that Dr. Reed was an army surgeon high in authority and did not believe in vaccination. So much for Riesland, whoever he is.

To the charge that we always stand a solid phalanx of harmony before the public, I am sorry to reply that this is also false. In fact, it has been notorious for centuries past that doctors disagree, and that it has been due to this fact that the profession has not been able, in America at least, to make their influence more effective in obtaining legislation for the protection of the public against the vile influences and practices of medical quacks and pretenders, as well as the protection of the public health. After the second statement that we do not know that vaccination is a certain preventative of small pox, I reply by characterizing this, as all the other statements in said editorial, as misleading and untrue. It has been established times without number beyond any doubt by scientific bodies, both medical and non-medical, organized for the sole purpose of getting at the facts concerning vaccination, that repeated vaccinations are almost an absolute protection against small pox. The percentage of failures is so insignificant that they are not worthy of consideration. Let me give you a few statistics concerning immunity conferred by vaccination to the German people where vaccination has been made compulsory by law for years past. These statistics are recent and are taken from "Osler's Modern Medicine," Vol. 2, Page 318:

"According to the reports of the impreial health officer, there were among 56,000,000 German population in thirteen years from 1891 to 1903, only 626 death from small pox. In Berlin there were only seventy cases, not deaths, of small pox in seven years. In Cologne, one death in ten years, and in Frankfort nine deaths in ten years.

Spaulding states that, "no vaccinated school child in Chicago has had small pox in the last ten years, although small pox has been prevalent many times."

Does this not look to you as though vaccination was a positive preventive of smallpox in Germany? Does it not look to you as though vaccination had operated as a preventive among the vaccinated children of the Chicago public school, where not a case of smallpox has existed for the last ten years, although hundreds and even thousands of unvaccinated children attending the same schools have had smallpox? Contrast these statistics from Geermany with those of our own state, where vaccination has not been compulsory, and people have neglected to vaccinate owing to the false impressions that they have been laboring under, that with quarantine they are safe, and vaccination is unnecessary. According to Dr. Bracken, the secretary of the state board of health, Minnesota has had in the past nine years 50,000 cases of smallpox within its borders. Contrast these figures with those of Berlin, with its 3,000,000 of population and seventy cases of smallpox in seven years. Minnesota, with 1,000,000 less population than Berlin, and 50,000 cases of smallpox in nine years.

Is it any wonder that we here in America, with all our vaunted progressiveness, are viewed in Europe as aborigines? It is certainly a reflection upon our intelligence. Here we have in Minnesota, with its broad prairies and unbounded forests, the most healthy climate the world knows, furnishing yearly 5,550 cases of smallpox to Berlin's six and two-thirds cases. If these figures are not convincing to the ordinary mind, I could go on furnishing others in quantities sufficient to fill an entire page of The Evening Herald.

As to the next statement, that the medical profession does not know how long vaccination acts as a preventive, I will reply that we certainly do know that with 90 per cent of successfully vaccinated persons it has acted as a preventive for a lifetime. This has been demonstrated to the satisfaction of every man who has had any experience in handling smallpox cases during epidemics of the disease.

In reply to the statement that "they do not even know what vaccine matter is," I will say that they know absolutely what vaccine matter is, and control its growth and production as perfectly and completely as anything human can be controlled. It would give me great pleasure to have the wise editorial writer of the News Tribune make a visit to Parke, Davis & Co.'s laboratory in Detroit, Mich., and spend, if not a few days, at least a few hours in observing the methods practised for the production of vaccine under the skilled supervision of the chief superintendent, and then come home and tell me that these men don't know what they are doing, or what their vaccine is composed of.

The next slur is an entirely uncalled-for one. It at least brands the writer as an idiot or a knave in the mind of every well-informed person who has a little knowledge of the history of medicine and what medicine has done for humanity during the last century, at least. Here it is: "Yet they know just as much of these as they do of other diseases and in their same individual capacity as men they readily admit that this is mighty little." I take it from the above that as scientific medical men we are dishonest, but as common every-day men we are not so bad. Do you think that Jenner was dishonest and did not know what he was doing when he discovered vaccination? The chance is ten to one that if Jenner had not made this discovery you would never have been born. Do you think Morton was dishonest and did not know what he was doing when he discovered ether narcosis? Do you, Mr. Editor, think Koch was dishonest and did not know what he was doing when he discovered that consumption was caused by a germ now known as tubercle bacilli? Do you think Pasteur was dishonest and did not know what he was doing when, after years of patient research, he discovered the cure for hydrophobia or rabies? Do you think that Behring was dishonest and did not know what he was doing when he discovered anti-toxine, the cure for diphtheria? Do you think, Mr. Editor of the News Tribune, that Dr. Walter Reed and his two assistants, who sacrificed their lives upon the altar of public duty, were dishonest and did not know what they were doing when they proved to the world that the pestilence of yellow fever in the South and Cuba was due to the bite of an infected mosquito? this discovery making Cuba one of the healthiest islands in the world, and the building of the Panama canal possible?

These are a few of the things that medical men have done for the betterment of humanity, but I might add many pages more. But I think this is sufficient to demonstrate to your mind that we have some knowledge of disease and its cure.

Your editorial makes Dr. Bracken say that quarantine had no effect and did not prevent the spread of smallpox. Dr. Bracken did not make any such statement. He said, however, that it did have some effect, but on account of the fact that it created in the minds of the people a false feeling of security, thereby causing them to neglect vaccination, it has done more harm than good and did not stop the spread of the disease.

"But neither he nor any other physician has yet stated any reason worthy of consideration why quarantine should not be added to vaccination as a preventative of smallpox."

Now what are the real facts about the proposed quarantine as suggested by our state health authorities? Here are the rules as laid down by the state health board: The patient is to be quarantined exactly as before, either at his home or in a pesthouse, just the same as diphtheria and scarlet fever have been quarantined in the past as well as they will be in the future. Then how does it differ from the old quarantine? It differs from the old quarantine in the fact that members of the family not in contact with the patient will be allowed to go and come, following their usual pursuits as they now do in diphtheria and scarlet fever cases. This will lift a great burden from the shoulders of many poor people who have to work for a living and can ill afford to be unnecessarily quarantined for months, as it has sometimes occurred in the past, for no other valid reason than to satisfy some anti-vaccinationist.

Why does the editor of the News Tribune continue to shout that quarantine is necessary and should not be discontinued when he knows as well as any one that it is not going to be discontinued by the health board? Is it for the purpose of blinding the public so that they will not see through his superficial mask? The chances are that he is an anti-vaccinationist and he is afraid that he will contract small pox. I am willing as a medical man to assure him that he will be in much less danger of contracting the disease than before.

Concerning the editorial published in this morning's News Tribune concerning one published last August that was complimentary to myself I am frank to state that I appreciated the August editorial very much and took it as a personal compliment from Mr. Bunnell, whom I have had the pleasure of knowing for many years and whose esteem I have always desired. Very truly yours,
W. H. MAGIE.
Duluth, Jan. 9.

Simple Remedy for La Grippe.

La grippe coughs are dangerous as they frequently develop into pneumonia. Foley's Honey and Tar not only stops the cough, but heals and strengthens the lungs so that no serious results need be feared. The genuine Foley's Honey and Tar contains no harmful drugs and is in a yellow package. Refuse substitutes. Sold by all druggists.

SEARCH FOR SON UNSUCCESSFUL

James Whitehead Will Continue His Quest in the Twin Cities.

James Whitehead, the aged farmer of Sumner, Mo., who came to Duluth to search for his son, Walter Whitehead, left, this morning, for Minneapolis and St. Paul. Though he has thus far been unsuccessful in his quest, he is keeping up a brave front and appears to be hopeful.

"I can't believe that the boy is forgetting us," he said with his quaint Missouri accent. "He is somewhere hereabouts and has just been careless. I feel sure that if he is living, we shall hear from him soon."

The aged father's search has continued now for several weeks. The last letter from the son reached the old home in Missouri, Sept. 19 and was sent from Pipestone, Minn. Mr. Whitehead visited several towns in North and South Dakota and Minnesota. At Pipestone, he was told that the young man had left there in September to come to Duluth, and the old man hastened to Duluth.

All day yesterday, he tramped about the city for possible clues of the boy's whereabouts. He visited every employment office, which might have shipped him, visited the police station and other places, which might have news of him, without avail. He believes the young man is in the woods on the range.

Whitehead left Pipestone with a man named Miller. Both were supposed to have had considerable money and the old man fears that Miller worked on Whitehead's confidence and dropped him after he secured the money. He thinks that he either met with foul play, or was too pround to write home after losing his money. Miller is considerably older than Whitehead and the old man thinks he was leading the young man along, with no good purpose.

This missing man is described by his father as 18 years of age and over six fell tall. He weights 150 younds, has light complexion, black hair, smooth face, blue eyes. W. H. Miller, with whom Whitehead was last seen, is from 40 to 45 years old, 5 feet, 6 inches tall, gray hair, large mouth, light complexion and eyes. He is small, heavy set, with square shoulders and weighing about 140 pounds.

NEW MIZPAH LODGE.

Mizpah, Minn., Jan. 9.—(Special to The Herald.)—Mizpah lodge No. 98, I. O. O. F., of Minnesota has been instituted. The work of instituting the lodge was in charge of Grand Master Shearer of Mankato. He was assisted by the members of the degree team, Summit lodge No. 1,610, Blackduck.

There were a large number of Odd Fellows from Bemidji, Tenstrike and Blackduck present.

Coats Below Wholesale.

Probably the most prominent trading event of the day was the coat sale at Gidding's, which is attracting many shrewd women who wish to make the best possible use of their money in the purchase of strictly reliable merchandise.***

Annual Ski Tournament.

Of the Duluth Ski club will be held at Chester Creek hill Sunday p. m., Jan. 12.

CERTIFICATE OF INCORPORATION —OF— ST. LOUIS COUNTY STATE BANK, DULUTH, MINN.

KNOW ALL MEN BY THESE PRESENTS, That we have agreed to, and do hereby associate ourselves together as a Banking Corporation, under and pursuant to the provisions of the Laws of the State of Minnesota governing Banks of Discount and Deposit; and to that end we do hereby execute, under our hands and seals, the following Certificate of Incorporation, to-wit:

FIRST.

The name of this corporation shall be the St. Louis County State Bank.

The general nature of its business shall be banking, receiving deposits, buying, selling and discounting notes, bills and other evidences of debt, domestic and foreign, dealing in gold and silver bullion and foreign coins, issuing circulating notes and loaning money on real estate and personal security; and the place where the business of this corporation is to be carried on is the City of Duluth, St. Louis County, Minnesota.

SECOND.

Said corporation shall commence on the 1st day of February, A. D. 1908, and shall continue for the period of thirty years.

THIRD.

The names and places of residence of the incorporators, and the number of shares held by each of them, are as follows:

Name.	Residence and Postoffice.	No. Shares.
Charles W. Elston,	Duluth, Minn.	245
Charles A. Britts	Duluth, Minn.	245
Fred C. Elston,	Duluth, Minn.	5
Fred B. Britts,	Duluth, Minn.	5

FOURTH.

The government of this corporation and the management of its affairs shall be vested in a board of Four Directors, who shall be elected at the regular annual meeting of the stockholders to be held on the Tuesday succeeding the first Monday of January of each year, between the hours of 8 A. M. and 5 P. M. of the said day. The first Board of Directors shall consist of the following members:
Charles W. Elston,
Charles A. Britts,
Fred C. Elston,
Fred B. Britts,
who shall hold office until the first annual meeting and until their successors are elected and qualified.

FIFTH.

The amount of the capital stock shall be Fifty Thousand Dollars fully paid in, in cash, which shall be divided into 500 shares of one hundred dollars each.

The capital stock may be increased from time to time by a majority vote of stockholders, but not to exceed the sum of One Hundred Thousand Dollars.

SIXTH.

The highest amount of indebtedness or liability to which the corporation shall at any time be subject shall be Seven Hundred Fifty Thousand Dollars.

IN WITNESS WHEREOF, we have hereunto set our hands and seals this 12th day of November, A. D. 1907.

CHAS. W. ELSTON,
CHAS. A. BRITTS,
FRED B. BRITTS,
FRED C. ELSTON.

In Presence of
E. P. TOWNE.
G. H. HUSEBY.
Witnesses to signatures of
CHAS. W. ELSTON,
CHAS. A. BRITTS,
FRED B. BRITTS.
Witnesses to signature of
FRED C. ELSTON.
EDGAR N. DURFEE,
EDW. C. ENBER.

State of Minnesota, County of St. Louis —ss.

On this 12th day of November, A. D. 1907, before me, a Notary Public in and for said County, personally appeared Chas. W. Elston, Charles A. Britts and Fred B. Britts, all of Duluth, Minn., to me known to be the persons described in and who executed the foregoing instrument, and acknowledged that they each executed the same as their free act and deed.

E. P. TOWNE,

THE JURY SEATS IN THAW CASE FILLED FOR FIFTH TIME IN SECOND TRIAL

Last Five Men Are Subject to Peremptory Challenge.

Judge Tells Counsel They Will Have to Hurry.

Miss Edna Goodrich Accepts Summons and Will Appear.

New York, Jan. 10.—The fifth day of the second trial of Harry K. Thaw found the opposing attorneys still engaged at the task of jury building. There were seven sworn jurors in the box when today's proceedings began with the fifth panel of 100 talesmen to draw from in filling the vacancies. By dint of hard work during the last hour of the morning session, the box had been filled, when the luncheon recess was ordered, the last five men being subject to peremptory challenge. This was the fifth time since Monday that all of the jury seats had been occupied.

One New Juror.

New York, Jan. 10.—The trial of Harry K. Thaw for the killing of Stanford White opened this morning with one new juror as the net result of a day's work. Twice the jury box was filled yesterday, and twice it was partially emptied again, and this morning the attorneys face the threat of court sessions on Saturday, unless they complete the jury before 10 o'clock tonight. A fifth panel of 100 veniremen was present when court convened this morning, and it is hoped, but hardly expected, that the five remaining jurymen may be found among those newly summoned.

So far 400 men have been summoned, and 310 have been examined, the remaining ninety having been either excused by the court, or not found by the officers serving the summonses. Of the 310 examined, seven remain in the jury box, nineteen were excused on peremptory challenges by the defense; fourteen on the peremptories of the prosecution, and 270 were allowed to go on challenges for bias allowed by the court, or by consent of the attorneys.

At the first trial 336 talesmen were examined to secure the twelve jurors, eight days being consumed in the process. There has been little of interest during the examinations so far, and the crowd that has begged admission at the court room doors has been noticeably smaller than during the first trial. Mr. Littleton, Thaw's chief counsel, has made it very plain, during all the time he has been examining prospective jurors, that the defense will be based entirely on a plea of insanity at the time of the shooting, and it is not likely that there will be any such plea of justification, as was made by Mr. Delmas, in his summing up at the first trial.

Miss Goodrich Will Appear.

Rumors of a mistake in identity, when an attempt was made to serve Edna Goodrich, the actress, wanted as

MANHOOD SUFFRAGE

Demanded in Elections for Lower House of Prussian Landtag.

Great Excitement Aroused by Interpellation Just Presented.

Berlin, Jan. 10.—The most intense excitement has been aroused here by an interpellation, presented recently to the Prssian landtag by a Liberal member, demanding the introduction of manhood suffrage in the election of members of the lower house of the Prussian landtag. Last night no fewer than thirty-five Socialist mass meetings were held in Berlin, as well as many others in the country districts, in favor of the movement. Today, before the landtag convened, Socialists, to the number of 1,000, marched in procession before the parliament building. This demonstration assumed a somewhat threatening aspect and a large body of police was called to the scene. They surrounded the entrances to the building, but there was no actual disorder.

Three Classes of Electors.

Under the present electoral system in Prussia, there are three classes of electors. Up to the present time the laboring man has been completely deprived of representation in the Prussian parliament, owing to the fact that he was overwhelmed at the final elections by the other two classes. The categories of electors are formed arbitrarily by dividing the total amount of taxation received by the state into three equal parts. A small number of wealthy persons, paying the first third of the total of taxation, select a certain number of men from their ranks to act as final voters; a more extended number of less wealthy persons, who pay the next third of the full amount of taxation, choose an equal number of final electors, while the third class of voters, composed of the remainder of the population and including the workmen, whose numbers reach to the millions, are allowed to select a number of final voters equal to that chosen by each of the other two classes. The total number of final electors selected by this process, then proceed to cast the final vote, at which the representatives of the two first named classes always vote solidly together, thus shutting out any posibility of the election of a representative of the working clases.

Prince Von Buelow, the imperial chancellor, has made known his intention of speaking on this subject during the debate which is to follow the presentation of the interpellation.

FIRES AT BRAKEMAN.

Cass Laker Angered Because He is Not Allowed to Smoke.

Brainerd, Minn., Jan. 10.—(Special to The Herald.)—The train crew on the Minnesota & International railroad brings word of a dastardly attempt on the life of Brakeman Frank Coppersmith on the northbound passenger Wednesday night. A man whose name could not be learned, but who is said to have been working in a drug store in Cass Lake, who had been forbidden to smoke in the first-class coach, followed Coppersmith into the smoker and pulling a gun, fired it point blank in his face.

Sreiff Bailey of Bemidji, who was on the train, and had heard the threats of the man and kept close behind him, struck up his arm and the shot went over Mr. Coppersmith's head. Mr. Bailey and his deputy arrested the man and took him off the train at Northome. He was held there over night and brought back to Bemidji Thursday morning and placed in jail.

"I NEVER DID ANYTHING I DID NOT THINK WAS ALL RIGHT," SAYS J. R. WALSH

Cross-Examination of Former Banker Continued in Court.

Bank Furnished Money to Build Extension to Railroad.

Defendant Thought It a Good Thing and Securities Ample.

Chicago, Jan. 10.—The cross-examination of John R. Walsh, who has occupied the witness stand for two days in his own defense against charges of misapplication of funds of the Chicago National bank, was resumed today before Judge Anderson. The interrogations by Assistant District Attorney Dobyns was directed to the question of Walsh's reports to the Chicago Clearing House association with respect to the "memorandum" notes which figured in the evidence brought out by the prosecution.

"Did the clearing house know that you were carrying these notes in the bank?" the witness was asked.

"I don't know," he replied.

A question as to whether the reports of the clearing house showed whether or not there were memorandum notes in the bank was objected to on the ground that the reports

(Continued on page 4, second column.)

WISCONSIN DELEGATION

Will be Solid for La Follette at the National Convention.

May Also Get Minnesota Says Senator Stephenson.

FROM THE HERALD WASHINGTON BUREAU.

Washington, Jan. 10.—(Special to The Herald.)—Senator Isaac Stephenson returned to Washington last night from his home in Marinette, where he spent the Christmas holidays. Senator Stephenson has taken up his residence at the Shoreham hotel. Interviewed he said: "Wisconsin will give La Follette a solid delegation in the Chicago convention. Further, it is quite likely that he will get the votes of other states than Wisconsin. That Minnesota will be for him seems likely and one or both of the Dakotas may also support him. It looks to me that La Follette is the most conspicuous dark horse in the race."

When questioned as to his attitude on tariff revision, Senator Stephenson replied: "I do not want a revision of the tariff to the extent of abolishing protection, but I would place on the free list all raw materials. We should open our doors to the vast lumber regions of Canada, because the timber in this country is rapidly becoming exhausted, and Canada will be the only country from which we can draw. There is any quantity of good timber in Canada."

The senator is also greatly interested in the currency question. "I have no plan for reforming the currency," said he, "but this point, it seems to me, stands out in considering currency legislation, the people have confidence in the government, and if some plan can be devised so that the government will back up the banks, the people will not be afraid of the consequences of speculating cashiers and bank presidents."

MAN IN AUDIENCE PROTECTS HEROINE.

Lynn, Mass., Jan. 10.—Furious over the treatment accorded by the villain to the heroine in a play at a local theater last night, George Munroe jumped on the stage and, after driving the actor who played the part of the villain off the stage, seized the heroine in his arms and declared he would defend her. Stage hands attempted to drive Munroe from the stage, but he seized a fire ax and refused to leave until he was overpowered by six policemen.

ASSAULTED BY SUPERIOR MAN

Charles Lapp Gets Into Serious Trouble at St. Paul.

St. Paul, Minn., Jan. 10.—(Special to The Herald.)—Charles Lapp of Superior, Wis., who is said to have come to St. Paul for the purpose of visiting his parents, was arraigned in police court today on a charge of assaulting Edward Sigsbee, with intent to rob.

Sigsbee, who is a watchmaker, living at 834 East Seventh street, says he met Lapp last evening on the Bluff with a man named John Lang, who introduced them and then left for his home. Sigsbee says he walked some distance with Lapp and then turned to leave him. As he turned he claims he was knocked down by Lapp, who then tried to snatch his watch. Lapp was finally frightened away by Sigsbee's cries for help. Later he was arrested at his home by Officer Fitzgerald of the Margaret detail. The case was continued.

ABE RUEF.

EUGENE E. SCHMITZ.

FIVE FIREMEN ARE INJURED

While Fighting Flames in a Detroit Knitting Mill.

Detroit, Mich., Jan. 10.—Five firemen were injured, none of them seriously, at a fire which caused about $100,000 damage, today, in the Forrester & Cheney Knitting mills, Porter and Third streets. The loss is thought to be covered by insurance. The fire broke out in the basement of the four-story plant from an unknown cause. Fireman James Donnelly was swept off a ladder at the third floor by a stream from a hose, and badly bruised. Four other firemen had a narrow escape from being burned to death, and in addition to suffering slight bruises, inhaled quantities of smoke. Firemen Harry O. Traver, A. J. Petersmark, E. Lockman and W. F. Waterloo climbed the fire escape to the fourth floor, and were working in the building there when the flames burst out over the escape, at one of the lower floors, and rapidly mounted toward them. It was five minutes before a ladder could be raised from the ground, and the fire by that time was burning all about the men. Firemen on the ground played streams of water on the men as they stood on the fire scape, waiting for rescue. One of the men became frantic with fear and had to be forcibly restrained from jumping.

INVITATIONS SENT OUT.

New York, Jan. 10.—Mrs. Cornelius Vanderbilt sent invitations yesterday to relatives and intimate friends for the marriage of her daughter, Miss Gladys Moore Vanderbilt to Count Laszlo Szchenyi. The wedding will be celebrated Monday, Jan. 21, at the home of the bride's mother. The hour set is 12 o'clock.

REDUCTION OF BONDS

To be Asked Immediately by Schmitz and Ruef.

Schmitz Held on Forty-Five Indictments, Ruef on 122.

San Francisco, Jan. 10.—Eugene E. Schmitz and Abe Ruef, who received a decision yesterday in their favor from the district court of appeals, are today both in the county jail in custody of the new sheriff. They will appear in court today, when an effort will be made to have their bonds reduced. Schmitz is held on 45 indictments, with bonds to the amount of $400,000. Ruef is held on 122 indictments, his bonds amounting to $1,170,000. If their request for a reduction is not complied with in the lower court, both will take the matter direct to the supreme court. The cases of Patrick Calhoun, Thornwell, Mullally, William M. Abbott, Tierney L. Ford, Ruef, Schmitz and Former Supervisors F. P. Nicholas came up for trial on bribery charges at the same time. According to the statements of the prosecution, the decision will not affect the trial of Schmitz and Ruef on the other charges against them, which will be proceeded with as rapidly as possible.

No Crime to Pay Fees.

According to the appellate judges, in their decision yesterday, the compelling of the French restaurants to pay "fees" to Abe Ruef was not a crime, even though Ruef divided the "fees" with the mayor.

After discussing the point, the court reversed the judgment against Schmitz on the ground that no acts constitut-

SUNSET EXPRESS BADLY WRECKED

Two Persons Killed and Twelve Taken to Hospitals.

San Jose, Cal., Jan. 10.—Southbound train No. 10, the Sunset express, on the Southern Pacific railroad, was wrecked last night at Rucker, twenty-five miles below here, and Mrs. A. P. Boyd and her little son, of Portland, Or., were killed. Twelve injured have been taken to a Gilroy hospital. The injured include:

William Fergeson, Lawrence, Mass., badly crushed, may die.

A. Saunders, Chicago, badly crushed.

Mr. and Mrs. M. Weckert, Billaquest, S. D., scalp wounds.

Mr. and Mrs. H. W. Sorber, Chicago, arms and wrists cut.

U. U. Ables, Chicago.

The cause of the wreck is not known.

TAFT GOES TO NEW YORK TO SPEAK.

Washington, Jan. 10.—Secretary Taft left Washington at 11 o'clock this morning for New York, where he will deliver an address tonight at the Cooper Institute on the subject of "Capital and Labor." The secretary's speech has been prepared with great care and is expected to prove particularly typical and interesting in view of the desire of the labor element to have him announce his position on these important subjects. The secretary was unaccompanied on the trip. He will remain in New York Saturday and Sunday, returning to Washington next Monday morning. During his stay in New York he will be the guest of his brother, Henry Taft.

DENIED BY ANDREWS.

Lincoln, Neb., Jan. 10.—Chancellor E. Benjamin Andrews of the University of Nebraska, today denied a rumor that he intended resigning.

KELLOGG IS INVITED

To Take Hand in Ohio Imbroglio, Started by Foraker.

Question Whether Delegates May be Chosen at Primaries.

FROM THE HERALD WASHINGTON BUREAU.

Washington, Jan. 10.—(Special to The Herald.)—National Committeeman F. B. Kellogg of Minnesota, who is classed as a strong supporter of Secretary Taft for the presidential nomination, has been asked to take a hand in the Ohio imbroglio, which Senator Foraker is trying to stir up. Mr. Kellogg, with Former Commissioner John W. Yerkes, committeeman from Kentucky, and Gen. Frank H. Streeter, committeeman from New Hampshire, compose the sub-committee which has charge of issuing the call for the national convention, and they have been requested by Secretary Elmer Dover to give their opinion whether delegates from Ohio may be chosen at primaries.

This question was raised several days ago by D. F. Anderson of Youngstown, who came here to inquire whether the delegates from the Eighteenth congressional district of Ohio could be selected in that way, at the time Representative James Kennedy's successor is to be nominated.

This question also involves the Bronson primary election law, which was invoked by the Ohio state central committee, in ordering the election of delegates to the national convention next month, in so far as it pertains to choosing of delegates to the national convention. The provision of the Bronson act relating to primaries reads as follows: "When any voluntary political association, or party, in any county, township, or municipal corporation, by a vote of a majority of its executive or controlling committee, certified under oath by its chairman and secretary, shall cause notice of the holding of a primary election for the selection of party candidates, committeemen, delegates, or alternates, or any party convention to be published, and shall make application therefore to the deputy state supervisors of elections or board of deputy state supervisors and inspectors of elections, as the case may be, of such county, as are hereinafter provided, such primary election shall be held and conducted under the provisions of this chapter."

EXTRADITION OF WALKER

From Mexico Will be Fought by New York Interests.

New Britain, Conn., Jan.10.—The Savings Bank of New Britain has been notified that a firm of Bridgeport lawyers has been engaged to assist William F. Walker, the absconding treasurer, in his fight against extradition from Ensenada, Mex. This firm admits that it has been engaged by New York parties, and in turn is arranging with lawyers at Ensenada to look after Walker's interests. The bank has the names of those who are behind the movement to help Walker, and while this information is withheld, Treasurer Stanley says that it appears as if the proceedings are directed by those who received a part of the securities which Walker misappropriated. The state department at Washington, it is understood here, has forwarded to Mexico City documentary evidence with the request for Walker's extradition.

GOTCH WILL RETIRE.

Champion Wrestler Will Quit After Meeting Hackenschmidt.

Baltimore, Jan. 10.—Frank Gotch, champion wrestler of America, announced today that he has made up his mind to retire at the end of this year. He says that the height of his ambition has been to meet Hackenschmidt, and now that this seems for the first time likely to be realized, he is ready to quit wrestling. Gotch received a letter this morning from W. W. Wittig of Milwaukee, urging a meeting at the earliest possible moment to sign with Hackenschmidt for the championship of the world. Gotch said that he will not have the match before May 1, and that Chicago, doubtless, will be the scene of the contest.

EMPRESS VISITS AMERICAN CHURCH.

Berlin, Jan. 10.—The German empress visited the American church in the west end of Berlin today. She was received by the pastor, Dr. Dickie, who had been notified of her coming. After seeing the auditorium, the library and the reading room of her majesty expressed the pleasure the visit had given her, thanked Dr. Dickie and left.

The congregation of this church is non-denominational and numbers more than 500 Americans. By arrangement with the German government the church is exempt from taxation. Crown Prince Frederick William represented the emperor at the dedication of the building in 1902. Some time ago the emperor presented his portrait to the church, and this now hangs in the library alongside of a portrait of President Roosevelt which was presented by himself.

PREPARING FOR SPRING.

Devils Lake, N. D., Jan. 10.—Trainmen on the Farmers' road, running north from Devils Lake, report that several farmers are engaged in preparing their fields and getting them ready for spring work. The ground is working up in good shape.

PETRIELLA IN BUTTE

Former Leader of Miners' Strike Said to be in Montana.

Information Reaches the Ranges From Alleged Reliable Sources.

Teofilo Petriella, the Italian leader of the strike among the miners on the Mesaba and the Vermilion ranges last summer, is in Butte, Mont., or was a few days ago, according to information in the hands of some of the range people, and said to have come from reliable sources.

If the report is true it will, doubtless, be of more or less interest to several hundred laboring men employed in the mines on the ranges who, under Petriella's leadership, started a strike last summer that utterly failed.

Petriella, who was the representative of the Western Federation of Miners in the Northern Minnesota district, and who handled all the funds contributed to the strike cause by the miners involved in the strike, departed from the range quite suddenly last fall, following the failure of the strike.

Following Petriella's departure, it was reported that he was seen in Montreal, on his way to the coast, and, later, that he had gone back to Italy. Up to the present time it has been generally supposed in this part of the country, that he did return to Italy, although he gave out, when he left the ranges, that he was going to Colorado.

It is understood that the former members of the Miners' Federation at Hibbing are very antagonistic towards Petriella, and that it is hardly likely that he will make any extended visits on the range, in view of the threats that have been made concerning him.

The information had concerning his presence at Butte does not state why he is there, but it is surmised that he must have been sent there by the Western Federation of Miners, or else he regards it as a likely field for his activities.

STRONGLY CENSURED

Medical Society Passes Resolution Condemning News Tribune.

Claims Recent Attack Was Uncalled for and Unmerited.

The St. Louis County Medical association, at its regular monthly meeting last evening, passed a strong resolution condemning the attitude of the Duluth News Tribune in casting aspersions on the entire medical profession of the city.

The doctors are thoroughly aroused over what they are pleased to term the unwarranted attack, and the meeting last night was the largest held in many months. The resolution was passed without opposition. All seemed heartily in accord with the sentiments expressed. The other matters considered were such as to be of interest only to the profession. Following is a copy of the resolution:

"Whereas, the Duluth News Tribune, in its leading editorial on the 8th inst., directly impugned the veracity and integrity of the medical profession as a body, and more particularly the profession in Duluth, and as the attack was entirely unprovoked and malicious, therefore, be it

"Resolved, by the St. Louis County Medical society, that the statements there made be resented by this body as unwarranted and false, and that the management of aforesaid newspaper be asked to make a satisfactory retraction of the same."

CURES YOUNG AND OLD

Even the suffering baby when it has a cold or cough can safely be given Dr. Bull's Cough Syrup It will cure—maybe spare the child's life—and comfort the mother in the time of fear.

"Through friends we used

Dr. Bull's Cough Syrup

for our baby and found it a very good remedy. The little one's cough was cured with less than a bottle. We recommend it for grown-up people as well, and we are never without it in the house." Mrs. S. Schoenberg, 306 E. 86th St., New York, N.Y.

TRIAL BOTTLE FREE.

We have absolute confidence in Dr. Bull's Cough Syrup and to convince you that it will cure, we will send a trial bottle free to all who will write for it and mention this paper. A. C. Meyer & Co., Baltimore, Md.

DON'T BUY A SUBSTITUTE.—Don't endanger the life of your little one nor your own by taking a substitute. Dr. Bull's Cough Syrup is the best that you can buy; insist on getting it. It is absolutely pure. Price 25c., 50c., $1.00.

25-Dr. Bull's Cough Syrup can be given with perfect safety to the youngest child. Guaranteed under the National Pure Food and Drugs Act. Serial No. 226.

IRONWOOD PAYS TRIBUTE

To Mining Captain Who Was So Cruelly Murdered.

Ironwood, Minn., Jan. 10.—(Special to The Herald.)—The funeral of Capt. Thomas of the Aurora mine, who was brutally murdered by a discharged employe Monday, was held from the First M. E. church yesterday afternoon, and was largely attended. Rev. Mr. Wilcox conducted the services, paying a touching tribute to the dead. The procession to the cemetery was a long one, being headed by miners from the Aurora mine, the fire department and the aldermen from the different wards, Mr. Thomas having been a member of the council. Interment was in Riverside cemetery. All of the family were present with the exception of a daughter residing in the Far West.

It goes to the root of disease, strengthens and invigorates. Its life-giving qualities are not contained in any other remedy. Hollister's Rocky Mountain Tea has stood the severest test—time. For thirty years the surest remedy. 35 cents, Tea or Tablets. Ask your druggist.

K. O. T. M. NO. 1

All members are requested to attend the funeral of Sir Knight Robert P. Rodgers, from residence, 705 East Third street, 1:45 p. m., Saturday, Jan. 11th.

C. J. HECTOR, Comdr.
J. B. GELINEAU, R. K.

GOES TO POORHOUSE.

Milo A. Hudson is Broken Down by Dissipation.

Milo A. Hudson, broken down under the many loads of whisky with which he has burdened himself in recent years, penniless and almost broken hearted, will go to the poorhouse. He feebly made his way to the municipal court this morning from the police station, pleaded not guilty to drunkenness and pleaded with the officers to send him to the poorhouse. He will be taken there today.

Hudson was for many years a useful citizen. He drank occasionally, but it took many years for the habit to grow on him. The peridicals began to come at shorter intervals. At last, he gave himself over to the booze altogether, and now he is a physical wreck.

MRS. PETER HUME,

Marquette, Mich., Jan. 10.—(Special to The Herald.)—Mrs. Peter Hume, mother of Robert Hume, custodian at Presque Isle, is dead at the home of her daughter, Mrs. E. M. Shepard. She was widely known and had been a resident of Marquette for forty-four years.

Mrs. Hume was the wife of Peter Hume, who died here twenty-three years ago. He was a well-known citizen and was prominent in Masonic circles. For many years he was agent of the Lake Superior Iron company.

The deceased is survived by six children, four daughters and two sons, three of whom live in Marquette. They are Mrs. Shepard and Robert and William Hume. The other children are Mrs. Samuel Martin of Calumet, Mrs. Andrew Steele of Thomason and Mrs. John Gerry of Gladstone.

"HOLD THAT QUOTATION"

Frequent Orders to Board Marker of Wisconsin Company.

Several New Witnesses Testify in the Woods Case.

St. Paul, Minn., Jan. 10.—(Special to The Herald.)—George Stoven, formerly employed as board marker for the Wisconsin Grain & Stock company, was again on the stand yesterday afternoon in the case of the government against George W. Wood, L. A. Wood, F. B. Wood, L. C. Wood, Paul Foss and Charles Kelly, alleged officers of the company mentioned, charged with conspiring to carry on a fraudulent scheme and using the postoffice for that purpose.

Stoven told what his duties were as board marker. He got his stock quotations from the stock ticker and the grain quotations came over the Superior wire and were given to Paul Keager by the telegraph operators, who in turn gave them to witness, by means of a telephone attachment.

Witness said he would tear off a foot or two of tape from the stock ticker and then post the quotations. He was asked if he ever noticed mistakes coming in over the wire, and he said that he did, very frequently.

"How did you know they were mistakes?" asked Mr. Houpt, district attorney.

"Because I got corrections later," was the reply.

Instructed to Hold Quotations.

He had previously testified that Kelly had told him to "hold the market," and when asked for the exact language which the latter gave him, he said, as near as he could remember it, is was "Hold that quotation," which was equivalent to saying, "Don't put that quotation on the board."

He did not recollect any specific instance where he was told to "Hold the market."

Arthur Lyman, a bookkeeper for the Hamm Brewing company, and who acted as board marker and bookkeeper at various times for the Edwards-Wood and the Wisconsin company, was the next witness put on the stand.

The substance of his testimony corroborated that previously offered by Thomas J. Milligan, another bookkeeper, who went to Chicago at the solicitation of King, the Chicago board of trade detective.

Witness offered testimony tending to show that at times the Wisconsin company got its quotations from other sources than from the Superior board of trade.

This was, he said, when the Superior wire was out of order. On such occasions he would be instruted by Phelps, the president, to go out and take a look at the boards of some other commission firm, and "get a line on the grain quotations."

This did not occur very often, the witness said.

The witness then told of the routine work of the office, as far as he knew from his connection with it.

On cross-examination by Judge Luse, of defendant's counsel, the witness stated that he was not familiar with the methods of doing business of other commission houses; as far as he knew the books on which he worked were kept correctly.

Yeager Testifies.

Paul Yeager was the last witness called to the stand late yesterday. He had worked at various times for Edwards, Wood & Co., the Edwards-Wood company and the Wisconsin Grain & Stock company. It was his duty to call the quotations over the telephone to the Minneapolis office of the company and at the same time give them to the markers in the operating and trading rooms of the local office of the company.

"Where would you get the quotations?" asked Paul Ewart, assistant district attorney.

Witness said that they would be handed to him on small slips of paper by the operators in charge of the Superior wire.

"Did Kelly, the order clerk, ever tell you to shout out a quotation, which did not appear on the board?" asked Mr. Ewart.

Witness replied that he did sometimes. He, however, volunteered the information that these were corrections, and were not given for the purpose of putting a false phase on the market.

"How did you know they were corrections?" asked the government's counsel.

"I could tell they were, because the market would be away out of range," was the witness's answer.

Late Suppers

Welsh rarebits, lobster salads and the like nearly always produce distressing after-effects. Rich food taken at irregular hours, not only causes temporary derangement of the stomach and bowels, but often brings about chronic dyspepsia and indigestion.

If you *will* eat all kinds of food at all kinds of hours, you can prevent unpleasant consequences by taking

DR. D. JAYNE'S SANATIVE PILLS

For Liver Complaints, Gout, Jaundice, Dyspepsia, Affections of the Bladder and Kidneys, Costiveness, Sick Headache, Biliousness and all Bowel Affections, Jayne's Sanative Pills are undoubtedly the oldest, most reliable and effective remedy known. Can be taken as a dinner pill, laxative, purgative or cathartic. *Never gripe.*

Sold by all druggists, in two size boxes, 25c. and 10c.

Jayne's Tonic Vermifuge is a natural, gentle and effective tonic. Splendid for dyspeptics, as it acts directly on the stomach, toning and strengthening that organ, and enabling it to do its work properly.

We Undersell All.

INJURED IN COLLISION

West Duluth Man is Seriously Hurt at Grand Forks.

Charles E. Flora, mail clerk on the Grand Forks branch of the Great Northern railroad, was taken to his home, 713 North Fifty-fourth avenue west, last night, in a rather serious condition, due to being thrown against a desk in his car by a collision of trains in the railroad yards at Grand Forks yesterday morning.

Mr. Flora was working at his desk in the mail car while the train was being switched from one track to another, when another railroad train backed into it. The engineers on both trains had the air on, so were moving very slowly when their trains struck, and consequently there was no smashup. But the shock was sufficient to throw Flora from the desk at which he was working against the desk on the opposite side of the car, the middle of his back coming forcibly in contact with the edge of the desk.

The injury was so serious that Mr. Flora was hurried from Grand Forks to his home in West Duluth. The attending physicians are undecided as yet whether or not internal injuries have been sustained.

WITH THE CURLERS.

Second Match for Manley-McLennan Trophy Being Played.

This afternoon's and this evening's contests for the Manley-McLennan trophy will decide whether there will be a third and last game between the Western Curling club and the Duluth Curling club. Superior is out of the running and now the championship lies between the West Duluth and Duluth players. Duluth won the first games by the score of 48 to 34, but the games today are on home ice and the West Duluthians are confident that there will be a third set of games.

The players this afternoon are as follows:

West Duluth—	Duluth—
C. Silger,	E. R. Jacobi,
A. Hoag,	C. C. Staacke,
H. Hewitt,	G. F. Smith,
M. J. Filiatrault, —skip.	D. W. Stocking, —skip.

In the evening the following will play:

West Duluth—	Duluth—
H. Buckley,	F. R. Kennedy,
K. McDonald,	C. J. McBride,
H. Gifford,	E. N. Whyte,
G. Meldrum, —skip.	C. D. Brewer, —skip.
P. H. Martin,	E. A. Forsyth,
F. Ashley,	C. F. West,
E. J. Zauft,	C. F. Fairbairn,
O. G. Macaulay, —skip.	Harry Hurdon, —skip.
Charles Illis,	M. W. Alworth,
L. Rilger,	W. Craig,
J. A. Scott,	F. A. Currier,
M. M. Meldahl, —skip.	Joseph Cotlin, —skip.

West Duluth Briefs.

The semi-annual election of the officers of the Westminster Christian Endeavor society will be held tonight at the home of George D. Shannon, 425 South Seventieth avenue west. There will be reports from the old officers, and plans made for the coming year.

The Oriental Degree of Honor will be conferred tomorrow night on several new candidates.

Miss Genevieve Murphy spent yesterday visiting Miss Katie Sullivan in West Duluth, on her way from Chicago to her home in Virginia.

W. E Butterfield returned yesterday from Portland, Or.

A. W. Ross of Torah, Minn., was registered this morning at the Phillips hotel.

Now is the time to buy men's and boys' overcoats, 25 percent discount; none reserved. The Great Eastern.

Mabel Bergler Mattson, 16-month-old daughter of Mr. and Mrs. John Mattson of 610 North Fifty-seventh avenue west, died this morning at 3 o'clock of diphtheria. The funeral took place this afternoon, interment being at the Oneota cemetery.

Miss Carrie Holmes of 413 Central avenue will leave this evening to visit friends in St. Paul.

Mr. and Mrs. William Peterson of 223 North Sixty-eighth avenue west, have as their guest George Hawkshaw of Cadillac, Mich.

One-fourth off on our overcoats. Buy now at the Great Eastern.

John Blake left this morning for Detroit, where he will stay until spring.

Albert Lundstrom of 421 North Fifty-eighth avenue west, while skating on the St. Louis river, yesterday, sprained his ankle.

Our 25 per cent discount on men's and boys' overcoats makes our prices lower than half prices elsewhere. Great Eastern.

Secretary George M. Cruickshank and Treasurer L. R. Clark of the West Duluth Commercial club, will read their annual reports at the club's meeting this evening. The year 1907 has been the most prosperous one in the history of the club.

Coal, Coke and Match Blox—W. A. Pond Fuel Co., 411 Central avenue. Bell 'phone, 3062-L; Zenith, 3052.

There was a large gathering at the Masonic meeting last evening, held in honor of Justaf Widell, grand master of Masons of Minnesota. Cloquet, Proctor and Duluth were well represented. After the work of the first degree was gone through, there was a banquet at which there were many speeches, the principal one being that of Mr. Widell.

Mrs. Charles St. Peter, 5109 Maijn street, entertained a number of friends yesterday afternoon in honor of her mother, Mrs. S. Lawrin, the occasion being her seventieth birthday. Those present were: Mrs. T. Denning, Mrs. R. Perry, Mrs. C. Forget, Mrs. St. Mary, Mrs. Derard, Mrs. Soucluid, Mrs. J. Mary, Mrs. Deron and Mrs. Lawrin. Cards were played, Mrs. Perry and Mrs. Denning winning the prizes, after which refreshments were served.

CUT FLOWERS.

West Duluth greenhouse, corner of Grand and Sixty-seventh avenues. Zenith, 3201-D.

The Kitchi Gammi lodge No. 123, Knights of Pythias, met last evening and it was decided to install officers next Thursday night, when Frank L. Young, grand chancellor, will be present. The meeting will be held in the new quarters in the Commercial club rooms.

Carl Mehling, 129 Sixty-seventh avenue west, returned yesterday from St. Luke's hospital, where he underwent an operation.

Nels Munson, an employe of Wallinder's sash and door factory, had his forefinger amputated yesterday. Munson caught his finger in a circular saw at the factory a few days ago.

The funeral services of Eliasen Carsten will take place Monday afternoon at 2 o'clock from the Swedish Methodist church. Interment will be at Oneota cemetery.

D. E. H., Jan. 10, 1908.

We blow a good deal about The Columbia's Boys' Department, but so do the mothers who trade here. St. Paul has no better Boys' Clothing store; and no bursting bubble about this assertion nor about the goods we sell.

The only thing that's busted are the prices, but it's January and the time for genuine bargains is ripe.

Every suit, coat, reefer and every piece of underwear had the profits knocked off, including even the cost of the freight to get them here from New York.

Today's extra specials go for a fraction of the original cost:

Two lots, one at $1.00 and another at $1.98 for garments that run up to five dollars in value.

The Columbia Clothing Co. Duluth.

1/4 off all Underwear Prices.

It is absolutely necessary to health that we give relief to the stomach promptly at first signs of trouble. Take something once in a while; especially after meals; something like KODOL For Dyspepsia and Indigestion. Sold by all druggists.

Plume Sale.

First annual sale of ostrich plumes Monday at the Glass Block.

Ostrich Plumes.

Our first annual plume sale Monday. Watch. Panton & White Co.

Edwin Harris Bergh

VIOLINIST.

Wishes to announce that he will not discontinue his teaching in Duluth. Present studio located over the Duluth Music company, in room G. Will teach on Saturdays from 1 to 9 p. m.

ADDS ANOTHER CHAPTER TO ROW

Jacob Sablotzky Wants Harry Luery Enjoined by Court.

Another chapter in the New York Clothing store partnership row has been made public in an order signed by Judge Cant, at the instance of Jacob Sablotzky, ordering the former to appear at the special term of court tomorrow and show cause why he should not be restrained from entering the store at 109 East Superior street, or from interfering with the business in any way.

A few weeks ago Luery sought to procure a restraining order in the same effect against Sablotzky, but the court, after stating that from the evidence presented he was unable to determine which one of the men really represented the "company," directed that neither interfere with the other in the conduct of the business.

The matter is in court in the way of a civil action brought by Luery against Sablotzky to determine the question of proprietorship. The case would have been tried last term had the court been able to reach it.

Did you ever try egg biscuit? You don't know how delicious they are until you have made them with Hunt's Perfect Baking Powder. Our cook book tells how.

DEFECTIVE PAGE

ON THE IRON RANGES

SCHOOL BOARD IS FOR VACCINATION

Of Pupils in Eveleth to Prevent Smallpox Spread.

Eveleth, Minn., Jan. 10.—(Special to The Herald.)—In order that the school children may be properly protected, the school authorities have published notices and distributed them, calling attention to the need of vaccination.

The attitude that has been taken regards an ounce of prevention worth a pound of cure. The local medical men are determined that no precautions shall be overlooked that will enable the town to pass through the late winter months without a smallpox epidemic.

The greatest difficulty will be in the question of sanitation. But this can be taken care of satisfactorily by the appointment, as suggested by Dr. C. W. Moss, of a health officer who shall devote his entire time to the community's wellbeing.

FOUNDATION IS NEARLY PLACED

For No. 6 Dock Being Built at Two Harbors.

Two Harbors, Minn., Jan. 10.—(Special to The Herald.)—Work on No. 6 ore dock is progressing rapidly. The last crib was towed to position and sunk Thursday and the driving of piling and filling the cribs with rock is being rushed as much as possible. A full force is working night and day. The foundation work, condition favorable, will be completed within ninety days and the structure will be ready for the starting of the iron work.

Considerable difficulty was experienced for a time, owing to the freezing temperature of the water the cement top filling of the cribs, which starts three feet under low water level, would not "set" under water, and it was necessary to install a large heating plant, producing steam which is used to heat the water to a temperature of about 45 degs., which permits the cement to harden; about four hours being necessary for each layer to sufficiently set. It is expected it will be a year more before the structure is completed and it will not be used before the ore season of 1909. So the work on the proposed sorting yard and the yard for the new dock will not be started until probably next fall, as there will be no need of same before.

SMITH GETS NINETY

Days in County Jail for Passing Some Bogus Checks.

Hibbing, Minn., Jan. 10.—(Special to The Herald.)—Ninety days in the St. Louis county jail was the sentence given in municipal court to Gus Smith, a negro who gathered about $40 in Hibbing from unsuspecting business men on bogus checks. His method of operation was crude, although more or less clever. Taking blank checks on the old Bank of Chisholm he is said to have changed them by the use of a rubber stamp and a pen to appear to be good checks drawn on the Miners' State Bank of Chisholm.

Two Austrians, who pleaded guilty to firing firearms in the Sellers location, were fined $50 each and costs.

BUSINESS HOUSES INVADE

Property Formerly Occupied by Residences in Hibbing.

Hibbing, Minn., Jan. 10.—(Special to The Herald.)—The invasion of the residence portion of town, south of the railroad track, by business interests, is again illustrated in the purchase by Kohrt Brothers, for $6,000, of two lots and a dwelling house in that locality from H. P. Reed, and the announced intention of erecting a two-story brick building thereon in the spring.

A number of changes in location will be made by business firms in the immediate future. Messner Brothers, the Pine street meat market men, have secured a lease of the Pine street building now occupied by Barker's buffet, and will move into the building Feb. 1. On the same date Vail & Godfrey Clothing company will move to the present Messner location and the Vail & Godfrey corner will be occupied by the Columbia Clothing company. Nides Brothers will move their clothing store into the building now occupied by the Kohrt Brothers meat market on March 1, and Herb Turnbull will open a restaurant in the Nides building.

RENFORN CASE DISMISSED.

Not Guilty of Cruelty to Animals---Other Eveleth Events.

Eveleth, Minn., Jan. 10.—(Special to The Herald.)—Richard Renforn, who was arrested on a charge of cruelty to animals, was brought before Judge Prince. After hearing the evidence the judge dismissed the case.

The report that a wagon belonging to the Blatz Brewing company ran over Leo Finn, was incorrect. The wagon belonged to some other concern as the Blatz company has been using a sleigh for their delivery. The party to blame has not been located.

Tim Walsh has been appointed to the police force by Mayor Maxwell. Another officer will soon be put on to patrol the district between Grant avenue and the Fayal location.

Sunday evening at Vail hall, Edward Levant will marry Miss Anna Buchman. Guests are commencing to arrive from all parts of the range and a special may be run up from Duluth.

Praznisk & O'Merza have received a license from the county commissioners to open a saloon in the now town, Gilbert. Two more applications have been received for similar permission. Joseph Franzel of Eveleth, is one of the applicants.

NINETY-MILE DRIVE.

N. F. Marion Makes Record Time With His Mare and Cutter.

Eveleth, Minn., Jan. 10.—(Special to The Herald.)—N. F. Marion has made a record for long driving. In a cutter drawn by his favorite mare, Mr. Marion left Biwabik at 10 a. m. Dec. 23. He drove all day and planned to spend the night with a homesteader at the White Face river. When he arrived that night he saw that preparations had been made for a hilarious time. This Mr. Marion did not care to stop for, so he kept on Duluthward, arriving home at 2 o'clock next morning. He covered in all ninety miles in less than twenty-four hours with one horse. The road Mr. Marion followed is the Miller trunk road that connects Eveleth and Duluth.

HIBBING MAN PRESIDENT.

W. C. Barrett Heads North Minnesota Funeral Directors' Association

Hibbing, Minn., Jan. 10.—(Special to The Herald.)—The Northern Minnesota Funeral Directors' association at the annual meeting held here, yesterday, elected the following officers: President, W. C. Barrett, Hibbing; vice president, H. H. Congdon, Tower; secretary, H. S. Gillespie Virginia; treasurer, W. J. Ryder, Hibbing.

Delegates were in attendance from the range towns, Duluth and the Twin Cities.

SIXTY-NINE BODIES

Were Buried in Two Harbors Cemetery During Past Year.

Two Harbors, Minn., Jan. 10.—(Special to The Herald.)—The annual election of officers of the Two Harbors Cemetery association will be held at the courthouse tomorrow evening, the terms of R. B. Elliott and Gust Risberg expiring.

The annual report of the association shows sixty-nine interments during the year, bringing the total to 637.

The financial report shows a balance of $366.83 on hand.

MR. BRYAN'S CONDITION.

Two Harbors, Minn., Jan. 10.—(Special to The Herald.)—L. R. Bryan went to Rochester, Minn., Tuesday, to be at the bedside of his father, H. S. Bryan, the Iron Range official, who is ill at the Mayo hospital. Late accounts report the latter's condition serious.

ITASCA COUNTY GOOD THINGS HANDED AROUND.

Grand Rapids, Minn., Jan. 10.—(Special to The Herald.)—The county commissioners of Itasca in session here, this week, selected Neil Mullins for chairman, and fixed the salaries of county officers at the same figure as those paid last year.

After a lively contest Dr. Russell was appointed county physician for the year, over Dr. Storch, who has held the position for a year.

The commissioners played no favorites in awarding the county printing contract, the Herald-Review receiving the contract for advertising the commissioners' proceedings and the financial statement, while the Itasca News was accorded the tax list.

POULTRYMEN'S MEET.

Two Harbors, Minn., Jan. 10.—(Special to The Herald.)—The Lake County Poultry association announce arrangements all completed for their second annual poultry show, to be held next week, Jan. 13, 14, 15 and 16, and from the exhibits promised, it will be a success.

THE JURY SEATS IN THAW CASE FILLED

(Continued from Page 1.)

a witness for the defense in the trial of Harry K. Thaw, led to the serving of another subpoena upon the young woman at the theater where she is playing, last night. William Moore, from Attorney Peabody's office, made the service. Miss Goodrich and her mother received him on the stage, and the actress willingly accepted the papers and promised to be on hand whenever desired.

Justice Dowling announced this morning that night sessions of court would not be held after the jury is completed. When the taking of testimony begins the court hours will be from 10 a. m. to 6 p. m., with an hour for luncheon.

The sixth panel of 100 talesmen was ordered today to report in court tomorrow morning, Justice Dowling accepting the prevailing opinion that the five jury vacancies existing when today's sessions began, would not be filled from the panel which reported this morning.

Four absentees from yesterday's panel came in today, secured the remission of their fines and were examined for service. The last one of the four, William H. McHugh, a clerk, qualified as a temporary juror. McHugh had some question in his mind as to what should be considered a reasonable doubt in weighing the evidence. He concluded, however, that he would take the court's ruling in the matter.

The prosecution's fifteenth peremptory challenge was directed against Clayton R. Olena, a clerk, who had qualified, for cause.

"I NEVER DID ANYTHING I DID NOT THINK WAS ALL RIGHT," SAYS J. R. WALSH

(Continued from Page 1.)

were in evidence and show for themselves. The objection was sustained.

Gave No Information.

"Did you give them any information concerning these notes outside of the reports," Mr. Barbour asked.

Walsh answered in the negative.

"Turning to the building of the Southern Missouri railroad, I will ask you if the Chicago National bank was in the business of building railroads?"

"The Illinois Southern was building the Missouri extension."

"Didn't the bank furnish the money?"

"Yes. The bank had an interest in the Illinois Southern, and I thought the extension would be a good thing for the road, and that would be a good thing for the bank."

"Did you think the securities of the road, given as collateral for the advances of money, were safe and good?"

"I never did anything in my life that I did not think was all right."

Pressed for a more direct reply, Mr. Walsh answered:

"Yes, I thought the securities were good."

Judgment Was Bad.

Walsh's answers indicated that he later discovered that his judgment had been bad, but that in order to rescue the bank from an unfortunate investment, more money had to be risked. Asked whether it was his intention, as president of the bank, to keep on buying the bonds of the railroad, so that the extension could be built, Mr. Walsh replied:

"I intended to get the road in shape so that it could be sold, and then the bank could get out of it."

Going into the transactions of Walsh in a general way regarding the Wisconsin & Michigan railway, the Southern Indiana railway, the Southern Indiana Coal company and other enterprises, the prosecutor's questions were so full of figures that they were confusing. Walsh, however, followed the examination closely, and guarded his answers carefully. His replies were given in monosyllables for the most part, and in a tone so low that the jurors and the court could scarcely hear them.

REDUCTION OF BONDS

(Continued from Page 1.)

ing a crime had been proved against him. Abe Ruef, who pleaded guilty to extorting money from the French restaurants is, therefore, equally guiltless.

The decision wipes out the French restaurant cases, and pending charges of extortion against Schmitz and Ruef must be dismissed. Both are now entitled to release on bail. If they obtain the necessary bondsmen, they can remain at liberty until such time as a jury finds them guilty on one of the indictments charging them with receiving bribes from corporations.

The judges of the court which rendered the decision in favor of Schmitz and Ruef are J. A. Cooper, Frank H. Kerrigan and Samuel P. Hall.

The decision was written by Justice Cooper. The opinion comments on Judge Dunne's ruling and says he erred in admitting certain evidence.

Cross-Examination Improper.

"In our opinion," says Cooper, "the cross-examination was entirely improper and was not confined to the matters on which the defendant was examined in chief."

This has reference to the answer Schmitz gave in regard to the payment to him of the $5,000 contributed by the restaurants.

The attorneys for Schmitz had at the trial questioned Ruef as to whether he was testifying in expectation of immunity. Judge Dunne refused to permit any of these questions to be answered, holding that they were not proper cross-examination. The appellate court says:

"These rulings were erroneous and highly prejudicial to the defendant."

The decision comments on Ruef having pleaded guilty to the same charge and then taking the witness stand against one who had been his friend. "His conduct," say the appellate judges, "was such that under the plain provisions of the penal code his evidence was branded so that the defendant could not be convicted upon it without corroboration by testimony."

Will Continue Prosecution.

District Attorney Langdon said Schmintz and Ruef will be prosecuted on other indictments that are public offenses.

Schmitz and Ruef can not take advantage of the decision for sixty days. The prosecution has twenty days in which to ask for a re-hearing. Then the appellate court will have ten days to consider the application. When that is done, the prosecution will go through the same procedure in the supreme court, which will take the same length of time. Consequently Schmitz and Ruef will still be kept in the county jail for two months at least.

The decision will have the effect of invalidating the other four indictments charging Schmitz as well as Ruef with extortion and renders void the plea of guilty made by Ruef, as the appellate court held that no crime had been committed.

By this reversal it is feared that the prosecution has lost its hold upon Ruef, and it was freely predicted last night that the former political boss would now refuse all overtures for immunity wholly or in part, to testify in the bribery graft cases, and fight every indictment.

Dyspeplets

Give instant relief in Sour Stomach, Heartburn, Nausea, all discomforts of indigestion and dyspepsia. Pleasant and economical. Medium size, 25c.; Large, $1; handsome aluminum bonbonniere, 10c. Druggists or mail.

39c

We suppose there are still some who haven't yet been to this sale—who haven't learned of the values that have been the basis of such a tremendous white goods business all this week. We never have had such a splendid response—but we never have given such splendid values—hence we wonder little that crowds and business are breaking all records.

Saturday will see increased enthusiasm over the values already announced, besides the new special features for Saturday trade—new lots added—new goods that have arrived since the sale began—all at the same standard of low prices which have lifted each Glass Block White Sale out of the ordinary and characterized it each successive season as "THE" WHITE SALE OF ALL WHITE SALES.

Panton & White Company

Dainty Undermuslins of Quality!

The Muslin Underwear Department has made an enviable record in this sale—from the magnificent assortments of exquisite hand-made and hand-embroidered garments from the convents of France and Switzerland, down to the table of little-priced Corset Covers and Children's Drawers at **25c and 15c.** Do you know why? Because careful planning and constant vigilance brought to us and you garments that are full and generously roomy—garments that are carefully cut, skillfully and perfectly stitched and seamed—garments that are artistically and beautifully trimmed, (as you'd most like to have 'em)—garments that come from establishments where rules of cleanliness and perfect sanitation are rigidly lived up to. Shrewd buying, too, gives you an advantage in splendid qualities for little prices such as you find in no other White Sales. Come share the real benefits of this mammoth sale of dainty and elegant undermuslins of quality.

Corset Covers

25c Good quality Muslin Corset Covers, in a variety of styles, showing lace and embroidery edges, ribbon trimmings, etc.

39c Several styles in sheer muslin Corset Covers with lace insertions and edges and embroidered effects—full cut and usual 50c qualities.

49c Great variety of fine muslin Corset Covers with 2, 3 or 4 rows of lace and ribbon and deep embroidered fronts with lace edgings.

Ladies' Drawers

25c Muslin drawers with deep hemstitched ruffles and cluster of five tucks; open or closed; regular 30c garments.

49c Great line of styles, hemstitched, tucked, embroidered or lace trimmed; open or closed.

Dainty Chemise

49c The short styles of fine muslins edged with narrow embroidery, in all sizes; a regular 65c value.

98c Long chemises, either lace or embroidery trimmed; full cut and finely made.

$1.49 Several pretty styles with lace, insertions and edgings; embroidery and ribbon trimmings.

$1.98, $2.49 and up to $5.00 for other styles.

75c Several styles in lace and embroidery trimmed drawers, or with cambric hemstitched ruffles—fine qualities—special values at **75c.**

98c **$1.25, $1.50 up to $5.00** embraces hundreds of styles in the finer grades.

White Skirts

98c Full and generous skirts of good muslin; plain tucked or hemstitched.

$1.19 Five styles embroidered deep flounce; one lace trimmed; one plain tailored, one cluster tucked, one feather stitched. All full cut; splendid values.

$1.98 Six different styles; deep flounced, lace and embroidery edges, etc.; finely made.

$2.98 A "big line," a dozen styles, beautiful new embroideries, lace edges and insertions, etc.; deep flounces and dust ruffle and extra full cut. Want you to compare them with any others at the price.

Other styles at $3.50, $3.98, $4.50 and up to $15.00 each.

Night Gowns
In Great Variety.

49c Real 75c values, good muslin, full length and full width; plain tucked yoke or slip-over with lace trimmings.

98c At least a dozen styles in fine muslin slip-overs, high V or square neck, lace or embroidery and ribbon trimmed.

$1.19 At least 20 models in all styles, square or V slip-overs, etc., all full and long and exceptionally fine qualities, lace and embroidery trimmed and ribbon run.

$1.49 Remarkable range of styles in still finer qualities, garments usually sold for prices up to $2.

Others at $1.98, $2.49 up to $2.50.

Slightly Soiled
Muslin Wear

Every garment that shows the least signs of mussing—(indeed you can hardly find it in some) —they're all on one table — gowns, corset covers, drawers, skirts, etc —former prices all the way up to $12.50 — take your pick off the table at and **½ ⅓ Off**

A Big Sale of Warm Winter Underwear

Fine Garments for Men, Women and Children at Special Prices that Warrant Liberal Buying.

The best feature of this sale—of even greater importance than the littleness of prices—is the absolute reliability of every garment offered. Here's the reason we cut the prices: Very little cold weather up to this time finds the stock a trifle heavy; we're determined to keep stocks down (in spite of weather), and to get the bulk of the underwear business all the time. If you're of the "frugal and wise" you'll take advantage of these price-cuts (some of them "half") in Saturday's sale.

CONCERNING WOMAN.

"Caliban Upon Setebos" and the theological thoughts that it suggests was the subject of an interesting talk this morning by Rev. J. W. Powell at the club room of the library in the second of a series of talks on Browning. Mr. Powell said, in part: "The character of 'Caliban,' as shown by Shakespeare in his comedy 'The Tempest,' is, perhaps, the most unpromising material ever put int a poem. This creature, as described by Shakespeare, was in keeping with the conception people had of the monsters of the unknown lands. Caliban represents in fact the primitive human being. He is represented as half brute, half monster, surly but somewhat tractable. In taking this creature and his reasoning as a subject for a poem, I think Browning must have been actuated by a desire to penetrate the inner depths of all stages of humanity down to the missing link. I am ont sure how far it is intended as a sutdy of the primitive mind, but I am sure it is not a satire, for Browning, I believe, was incapable of satire. He was so broad in his sympathies with all ideas, no matter how mistaken he considered them to be. The poem is not, I think, intended as a contribution to the study of comparative religions.

"The poem depicts Caliban sprawled in the mire and meditating in the third person of his conception of God. Caliban reveals himself as half brute, half boy, initative, capricious, mischievous, cruel and malicious in part. He presents his idea of Setebos as a god, who to while away the time has created the world and the creatures of it in spite. He considers that Setebos did the best he could, but that beyond him there is a spirit of Quiet, greater than Setebos. The actions of the lord of the world, if he chooses to maim or destroy or to make happy, his creatures, is not involved in right or wrong. He is lord and privileged to do as he wills. In the main, he is gentle and kind, but is subject to something behind himself and to amuse himself he has made a world of playthings. A storm breaks in upon Caliban's meditation, and he in fear thinks that the wrath of Setebos is upon him. He promises to make reparation to appease his god and the poem closes."

Mr. Powell concluded his talk with a reference to some of the ways in which Caliban's caricatures of God have persisted. "The idea that creation was due to spite is pretty well eradicated," said the lecturer, "and the prevailing idea now is that the ultimate purpose is one of good will, and that the last word is 'God is love,' but the most orthodox of heresies preached not a great while ago, was that God dealt with his creatures as a matter of caprice. It is not preached much today and is believed even less. The jealousy of God is often preached today and the idea persists in places that we must not love too greatly or be too happy or God will remove our happiness. I think that Browning intended at least one thing from his poem that we should never again return to lives of slavish fear because God is watching us. The absurdity of Caliban's views will help us to see the sane and beautiful theory of life."

WHITE - AMES.

Beautiful Ceremony to Take Place at Church.

One of the most interesting of the social events of the month will be the wedding of Miss Maude White, second daughter of Mr. and Mrs. William White, to Ward Ames, Jr., which will take place Thursday afternoon, Jan. 30. The ceremony will take place at the First Presbyterian church, at 3 o'clock, with Rev. Campbell Coyle as the officiating clergyman, and will be followed by a reception at the home of the bride's parents. Miss Annie White will the maid of honor, and the bride's other attendants will be Mrs. William Dalrymple, matron of honor, and Miss O'Brien of Chicago and Miss Bishop of Bay City as bridesmaids. Mr. Ames will have John Dalrymple of St. Paul as his best man, and the ushers will be Messrs. William Dalrymple, Clarence Shepard of Winnipeg, Herbert Spencer, Richard Grant, William McLennan and William White, Jr.

Mr. Ames and his bride will leave for a wedding trip of several weeks, and will later be at home in this city.

GIRLS' CLUB

Under Direction of Duluth Gym Club to Be Opened.

The club room in St. Luke's church, at the West end, which has been planned and arranged by the Duluth Gymnasium club, whose efforts have been aided by the Twentieth Century club, will be opened to the young girls of the West end next Wednesday evening. Gymnasium classes will be conducted by Miss Ruth Roberts, and the reading room recently fitted up will be open at convenient hours. Other classes may be arranged later when the necessity arises. Preceding the lecture of the Browning class of the Twentieth Century club this morning, Mrs. F. L. Barrows, president of the club, spoke to the members of the needs for this room, which are still existing. The room has been furnished in part, but is still in need of tables. Current literature is desired, and it is also hoped that a few free scholarships will be provided by the women. The cost of belonging to the club and the classes will be $3 a year, and any club woman desiring to furnish a scholarship, or any part of one, is requested to communicate with the committee of the club, consisting of Mrs. F. L. Barrows, Mrs. Henry Marshall and Mrs. E. A. Silberstein.

Club Lecture.

At the meeting of the Saturday club tomorrow afternoon, at the club room of the library, "Italian Art" will be the subject of a talk by Bishop James McGolrick. Each member of the club is privileged to invite one guest to the lecture.

FRENCH HISTORY

To Be Subject of Saturday Club's Study for Two Years.

At a recent meeting of the executive board of the Saturday club, held with the president, Mrs. Robert Smith, the work for the next club year was decided upon. French literature, history and art, will be the subject of study by the club members for at least the next two club years. The arrangements for the outline of study will be in the hands of the following committees: History, Mrs. C. E. Spring, Mrs. J. A. Keyes, Mrs. L. Downs and Miss Multhaner; literature, Mrs. H. S. Ely, Mrs. A. E. Eddy, Mrs. O. A. Oredson and Mrs. E. F. Baker; art, Mrs. Wardwell Ames, Mrs. A. H. Brocklehurst, Mrs. R. P. Boyington and Mrs. W. J. Stevenson; current events, Mrs. C. C. Aines, Mrs. Julia M. Barnes, Mrs. H. L. Paddack and Mrs. H. S. Ely; social, Mrs. W. D. Williams, Mrs. J. W. Harbinson, Mrs. L. E. Paddack, Mrs. W. A. Kaake and Mrs. F. H. Barnard; printing, Miss Roe and Mrs. F. L. Sherwin.

Choir Banqueted.

The members of the chorus choir of St. John's English Lutheran church were entertained at a delightful banquet last evening at the home of the Misses Mecalson of 309 East Fourth street. The dining table was decorated in red and green and lighted with candles, and after the banquet an informal evening of music was enjoyed. The choir is rehearsing a religious cantata, "David, the Shepherd Boy," which will be presented within the next month. At last evening's affair covers were laid for:

Mrs. J. L. Murphy.
Misses—
Mabel Johnson, Jessie Johnson, Alice Nelson, Dora Nelson, Josephine Sanders, Marjorie Wonderly, Ruth Stewart, Clara Mecalson, Rilla Mecalson, Esther Nelson,
Messrs.—
Wood, Knutsen, Miller, Edgar Johnson, Fenstermacher, Wagner, Albert Mecalson, Odin Mecalson,

Hosts at Dinner.

Mr. and Mrs. H. F. Williamson were hosts at dinner last evening in honor of Miss Maud White and Ward Ames, Jr., whose wedding will take place Jan. 30. White lilies and ferns were the decorations, and covers were laid for eight.

Evening Lecture.

"A Pedestrian Tour Through Germany" will be the sujeot of a lecture, this evening, by Prof. Herbert Blair. The lecture will be given at 8 o'clock, at the club room of the library, under the auspices of the evening department of the Twentieth Century club.

Personal Mention.

Mrs. J. D. Titcomb has returned from a visit at the Twin Cities.

* * *

Mr. and Mrs. C. A. Grace and little son have returned from a week's visit at Marquette.

* * *

Mr. and Mrs. M. F. Jamar, Jr., have returned from their wedding trip and are with Mr. and Mrs. F. A. Patrick until their apartment at 819 East First street is completed.

* * *

Mr. and Mrs. C. A. Duncan have gone to New Mexico, where they will visit Mr. and Mrs. R. N. Marble, Jr. Later, with Mr. and Mrs. Marble, they will visit California.

* * *

"Free alkali" is scientifically eliminated from WHITE LILY SOAP. That's the reason why it cannot injure the daintiest skin or most delicate fabric.

How Big Are You?

If you can wear a 33, 34 or 35 size suit or overcoat, come to the "Fitwell" Clothing Parlors and get a $30 garment for only $10. We have too many of these small sizes, that's all.

DIRECTORY OF AMUSEMENTS

WHERE TO GO TONIGHT.

LYCEUM—Italian grand opera.
METROPOLITAN—Burlesque.

COMPANY ARRIVES.

Troupe of Italian Grand Opera Artists Come on Special Train.

A special train composed of two sleeping cars, two chair cars, one scenery car and a baggage car, arrived over the Omaha road this morning from La Crosse, bearing the Italian Grand Opera company, which will appear at the Lyceum, this evening.

The company sang "Il Trovatore" at La Crosse, last evening, and was given a most enthusiastic reception.

The bill for tonight is "Carmen" and for Saturday matinee "Il Trovatore" with "Lucia di Lammermoor," Saturday night.

"We had an engagement of ten weeks in Chicago," said Ivan Abrahamson, the manager, at the Spalding, this morning, "and we broke all records for grand opera attendance there during that time."

WINE ROOMS CLOSED.

Columbus, Ohio, Jan. 10.—Chief of Police O'Connor, by request of Mayor Bond, ordered six saloons closed today. "You have got to quit business at once," he said, "or I'll make you. If your places are not closed I will place an officer on duty at the door." The offending saloons all run wine rooms for women.

FIGHT FOR LOWER RATE

Park Point Will Not Compromise With Car Companies.

Insists on 5-Cent Fare and Univeral Transfer System.

The Park Point Civic club is determined in its fight for a 5-cent fare and a universal transfer system between the Point and Duluth, and vigorously maintains that there will be no compromise. The city proper is said to be backing up the residents across the canal, and it is understood that every possible pressure will be brought to bear from both sides of the canal to force the two street railway companies involved into granting the lower fare.

This was the sense of a meeting of the club held last night, and a resolution clearly stating the position of the organization in regard to the matter was adopted. According to this resolution, the club will stand out absolutely for the 5-cent fare and universal transfers. The meeting voted to instruct the secretary and chairman to prepare a resolution to this effect for presentation to the mayor and the daily papers. Arthur T. Ellsworth acted as chairman of the meeting, and Dr. Burnett is secretary of the club. The committee on the street car matter consists of Messrs. Burgess, Harris, Cook, Teare and Ellsworth. Conferences will be held between this committee, the mayor, the council and the street car companies.

The offer of a 7-cent fare on the part of the companies does not meet with favor on Park Point, and the proposition has been given a cold turn down. It is maintained that 7 cents is altogether too much to charge, and the support of Duluth in general is asked by Park Point, on the ground that residents of the city proper are about as much interested in the matter as residents of the Point themselves, in the light of Park Point's popularity as a resort in the summer time. It is claimed that travel across the canal would, under a 5-cent fare, be double what it is under the present 10-cent fare.

On motion of Alderman Shartell, a committee of five was appointed to appear before the city council and the fire commissioners, to see what can be done about raising funds for better fire protection on the Point. The commission has said that Park Pointers could have all the money they can get from the sale of the old fire hall properly across the canal for use in the erection of a new hall on a more favorable site. Those appointed on the committee were: Messrs. Hulquist, Milnes, Harrington, Teare and Ellsworth.

The volunteer fire department will have a practice run every Sunday morning. Every member of the club is a member of the volunteers.

A MODERN ANOMALY

All the Comforts of Home Outside of Home

A VEXATIOUS PROBLEM SOLVED

The hotel problem in New York is a most important one, and its magnitude has been greatly increased during recent years by changed conditions of living. The hotel, once defined as "a house for the entertainment of travelers and strangers," is now becoming the permanent abode of thousands of well-to-do Americans. Many of these own fine residences, but frequently find it moer comfortable and convenient to live in hotels where the manager takes upon himself all the cares and perplexities of housekeeping and gives his guests the unalloyed pleasures and blessings of home, together with a privacy not to be found in most metropolitan houses. According to the Social Register more than nine thousand New York families live in hotels instead of houses, and the number is constantly increasing.

The first hotel in New York constructed in accordance with these modern ideas was the St. Regis. That it fills a long-felt want has been fully demonstrated by its wonderful success. But the St. Regis does not cater to the wants of the permanent home-seeker alone. The very same features which make it so desirable for the person who lives here by the season or the year commend it to the man or woman who visits New York occasionally. The St. Regis is homelike and inviting. Quietly, irresistibly, it has won its way, until, with a large class of people, to speak of a New York hotel is to think immediately of the St. Regis. Here one obtains the best in the world in the way of comfort, food, service and safety, and at a cost no greater than at other first class hotels. Try it on your next visit to the Metropolis.

Manhattan Shirt Sale

Being the largest users of Manhattan Shirts in Duluth makes this the most important Shirt Sale of the season.

THOUGHT HE WAS DEAD.

The police thought they had a dead one at the Central station this morning. Barney McDonald, drunk, was found stretched out on the cell room floor, to all appearances lifeless. A cursory examination made it appear that Barney had surely shuffled off and Chief Troyer telephoned to the coroner.

Barney wasn't a little bid dead. The booze had only gotten the better of him and he was all in, temporarily. He came around in a short time, began to breathe naturally and the scare was over.

OUR HALF PRICE PICTURE SALE

Has established a new record for heavy selling during the opening days.

Our most appreciative and enthusiastic patrons are the art lovers of the city, who know the good from the mediocre—who can discriminate between common pictures and those of real merit.

It is our aim to give the later purchasers the same infinite variety to select from as those who came the first days. We replenish each picture as sold, while the sale lasts, with its equal. Every one goes at exactly half price.

For 50c and $1

We offer a variety of framed pictures that can be used to advantage in any home.

ENGEL S ART STORE,

Exclusive Art Dealers. 9 East Superior Street.

What Retail Markets Offer.

Wax beans, 15 cents a quart.
Green beans, 15 cents a quart.
Green peppers, three for 25 cents.
Cocoanuts, 10 cents each.
Florida pineapples, 70 cents each.
Whole apples, dried, 15 cents a pound.
Ducks, 20 cents a pound.
Leaf lard, 12½ cents a pound.
Fresh eggs, 32 cents a dozen.
Storage eggs, 22 cents a dozen.

Ingenuity must come to the aid of the person who will prepare an interesting order from the market in its present condition.

If you use dried apples for soup or anything of that kind, you can now buy them in the whole fruit, cored and peeled. Time was when dried apples came only in curled up and thin slices. The whole ones, although dried, look almost juicy.

A Florida sugar loaf pineapple is about as nice as anything you can find in the market.

A cocoanut cake made from a fresh cocoanut is the most delicious concoction that can be provided for the refreshment of man.

Discriminating Women are Buying Undermuslins Here and Saving Time and Money

It is not what you pay, but what you get for your money that counts. The cheapest garment we offer you is of dependable quality, and all our garments are cut generously full. Unfold them and note how superior ours are to ordinary store garments.

These hints of prices:

AT 29c—Drawers of good muslin, cut very full sizes, deep flounce.
AT 59c—Drawers of fine Nainsook or cambric, finely tucked, trimmed with lace insertion and edging or embroidery.
AT 25c—A number of corset covers in tight and loose fitting models, yokes of lace insertions, enibroidery or fine hemstitched tucks; nothing "trashy" about them.
AT 49c—Corset Covers of nainsook, lace yoke with ribbon, beading or rows of lace insertion, several very dainty styles.

Ours are the kind of undermuslins you might make at home if you had the time, but you wouldn't save anything by it, as you will see if you carefully figure the cost of materials and trimmings.

Note these examples:

AT 89c—Skirts of good quality muslin, with double ruffle, lace trimmed or deep flounce of fine tucking.
AT $1.25—Three styles of fine cambric skirts, with pleated under ruffle, outside flounce of fine lawn, ¼-inch hemstitched tucks, or four rows of lace insertion and fine tucking on deep flounce, or with clusters of hemstitched tucks.
AT 59c—Ample gowns of good quality cambric, yoke hemstitched and embroidery trimmed.
AT 98c—High and low neck gowns, several good styles fine cambric or nainsook, variously trimmed with embroidery and ruffles.

Clearing of Women's Bath Robes

These practical comfort garments are a necessity—and such prices as these enable one to secure a snap—a really good garment for about what the materials alone would cost.

Why I Lost My Job.

Reasons Why Thousands Like Me Cannot Satisfy Their Employers.

"I believe my fate is not unlike that of thousands of other workers who daily lose their places for reasons they do not know, and probably would not believe. When their last pay envelope comes along, it is usually "Your services no longer required." If the truth were known, the reason for their unceremonious removal would probably be that their usefulness was destroyed because of some mental worry, bodily ailment or general indisposition. These things, as we all know, are the most fruitful causes of failure in all walks of life. The battle of Waterloo was lost because of a headache. In this quick age our minds must be clear, rapid, active, and free from outside influence or worry, or else we go down to failure with the throng of "floaters" who go from one place of employment to another, giving no satisfaction to others or to themselves, constantly growing older and less useful, with no ambition, no will power, and no hope.

Every man requires from every other man the best that is in him. But no man can use or get the best that is in himself until he is first free from all fretful indispositions and worries.

That was my trouble. I was full of troubles. That's why I lost my job. My stomach in the first place was always out of order, and I was worrying about it and my mind grew cloudy, and slow. I made mistakes, and grew grouchy. That was the end.

There are thousands like me, going about with "quick lunch" faces, dyspeptic manners, and repulsive atmospheres. No employer wants such men's services.

Take my advice. A healthy stomach is half the battle, for it keeps your mind clear, and your face rosy. I have a healthy stomach now and hold a good position, and my employer is satisfied, and so am I.

I started in to take Stuart's Dyspepsia Tablets which I was told were good for the worst cases of indigestion and dyspepsia. The first two tablets made a wonderful difference in my condition.

One ingredient of Stuart's Dyspepsia Tablets digests 3,000 grains of food. The stomach doesn't have to work at all. The Tablets do all the work, no matter how heavy your meal.

Stuart's Dyspepsia Tablets cure brash, eructations, burning sensations, bloat, irritations, loss of appetite, nausea, heartburn, lack of energy, loss of memory, and dyspepsia and indigestion in their very worst forms.

No other little tablets in the world can do so much. You should carry them around with you wherever you go and take them regularly after meals. Then you will realize what it is to be freed from stomach torment, and have a clear mind, a quick memory, a happy disposition, comfort and rest. Get Stuart's Dyspepsia Tablets at any drug store for 50 cents a package.

Send us your name and address today and we will at once send you by mail a sample package, free. Address F. A. Stuart Co., 150 Stuart Building, Marshall, Mich.

GIRL COST FIFTY LIVES.

San Francisco Tong War Declared Off After Seven Years.

San Francisco, Jan. 10.—The bloodiest of long wars that this country has seen, which originated seven years ago over a Chinese girl, and in which more than fifty persons have been killed, and more than double that number wounded, was declared off at a meeting of the various tongs, held at the rooms of the Six Companies in this city.

The trouble started over the sale of Wan Len, a slave girl, to Lui Ng, a member of the Ping Kun Tong, by Ah Wong, a member of the Hop Sing Tong. Lui Ng paid $2,200 for Wan Len, but Ah Wong declared that this was not full payment. As Lui Ng refused to pay more, war was declared between the Ping Kun Tong and the Hop Sings.

The first clash was in Clay street and resulted in seven being killed and ten wounded, and since that time the fighting has been continuous. Lately the Hop Sings, in their desire to get back the money alleged due their tong, held up a fantan game at Los Angeles, and in the fracas two members of the Bo Ons, a totally different and inoffensive tong, were shot by the Hop Sings, with the result that the fight became general and every tong was implicated.

Seeing that the war was liable to spread too far, the president of the companies called a meeting, last Thursday, to settle it, and the upshot of it was that Lui Ng was awarded the girl, and the Hop Sings declared to be in the wrong. A jury of the See Yups seven years ago rendered a similar verdict.

THE MAKING OF A JOURNALIST.

Henry H. Ashton, a Virginia City capitalist, has in his library, richly bound in crushed Levant, those early volumes of the Virginia City Enterprise to which Mark Twain contributed.

The faded pages contain innumerable specimens of the famous writer's quaint humor. Mr. Ashton often points out the first paragraph that Mark Twain wrote on his arrival in Virginia City. The paragraph runs:

"A thunderstorm made Beranger a poet, a mother's kiss made Benjamin West a painter, and a salary of $15 a week makes us a journalist."

CARTER'S LITTLE LIVER PILLS. Genuine Must Bear Fac-Simile Signature Brent Good REFUSE SUBSTITUTES.

SICK HEADACHE

SMALL PILL. SMALL DOSE. SMALL PRICE.

CARTER'S LITTLE LIVER PILLS. Genuine Must Bear Fac-Simile Signature Brent Good REFUSE SUBSTITUTES.

HERALD OF PROSPERITY

Was Bank of England's Cut of the Discount Rate.

Gold Output Makes Protracted Periods of Bad Times Impossible.

New York, Jan. 10.—The lowering of the discount rate from 7 to 6 per cent by the Bank of England last week was the international signal that the financial stringency throughout the world was over.

Paris was pleased, Berlin was gratified, New York was delighted. No event of the past twelve months was more significant of better business conditions than this action of the great institution of Threadneedle street, London.

The directors were largely influenced by the fact that on Dec. 30 they had secured $5,000,000 worth of new gold just arrived from South Africa without competition. America and Egypt were again strong financially and did not need any more gold to add in their reserves or in their circulation.

South Africa can send without any strain $5,000,000 each fortnight to Europe or America, and will do so, because she will not require over $1,000,000 or $2,000,000 per month addition to her own circulation, and she will have these other millions to send steadily abroad. How swiftly, therefore, must stringencies in money piss when such new supplies are available!

Merchants and manufacturers, bankers and business men generally can rest assured that no long continued dullness in trade or general depression in values can distress the world, as in former periods.

Sudden and brief attacks of money cramp—yes, they may occur; indeed, may be produced by exceedingly good times, but depressions continuing for years, as those in 1857, 1857, 1873 and 1893, can never be repeated while the earth is producing these hundreds of millions of dollars' worth of new gold.

As well say that our country would be famine stricken while we raised record-breaking crops; as well say the world would suffer from drought while it rained over each hemisphere every day.

It is simply an impossibility to have years of money stringency under present circumstances, and before April 1, 1908, bankers who are now hoarding cash will be glad to loan it out to reliable customers.

It will be to the interest of the entire country if there is no boom in Wall street for the next six months. Legitimate business will be all the stronger for the dull times in the stock markets, and if there was legislation forbidding call loans, business and values would be safer in many ways.

Law for Pawnbrokers.

Pawnbrokers under the laws of the majority of the states are required to hold articles the loan upon for a period of time and to advertise for a certain number of days the forfeited articles. Why not apply the same regulation to the men who loan on stock or bond collaterals and thus give the owners of pledged securities the same protection that is given to the owners of clothing, jewelry and other property put up with the "uncles" outside of banks and exchanges?

Such protection would have saved the fortunes of thousands of men in New York and elsewhere during the past twelve months, and with such protection in the security markets, general business would not have been subjected to the strain and shock produced largely by the forced sales of securities under the called loans.

The time will come when commercial men all over the country and bankers of the interior of the United States will organize for protection against financial practices only profitable to Shylocks and speculators, and certainly detrimental to the conservative and sound interests of finance and commerce.

There have been far too many organized raids in the past upon values in Wall street that have struck home to innocent parties not engaged in the speculative game, and the results of such attacks have been felt and observed in districts and states remote from New York.

Under our present financial system an organized band of looters for personal gain and profit can, upon our exchanges, plunder the planters and the farmers thousands of miles away by reducing the prices of the products still in the fields or in the barns.

So with the capitalists or investors, be they shrewd men or confiding women, those who buy securities listed upon the exchanges are subjecting their holdings to prices to be fixed by raiders of values, and exposing them to the storms that reckless, desperate or wildly ambitious sets of stock gamblers or financiers may let loose upon them.

Clamps on Wall Street.

The clamps have been put upon Wall street operations by the financial magnates here since October. They are wise, for their own interests require protection at this time. It would be well for our entire people if Wall street could be kept in a straitjacket for the next twelve months, for it certainly has injured the whole country very seriously in the past year.

Its present keepers will only restrain it, however, until it cannot hurt them, and when they are absolutely safe they will again use its machinery to bring the money of others to run their various schemes. The whirr of its wheels will be heard again by February or March, and as of yore it will be turning out a few millionaires, many suicides, numerous criminals and thousands of ruined persons.

From all portions of the Union there came good news as to resumption of business this week. Cotton and woolen factories in New England started up in fine shape. The various iron, steel and tin mills of Eastern Ohio and Western and Central Pennsylvania came in with encouraging resumptions, as did many glass works and potteries throughout the Eastern teritory. The banks of this city will, no doubt, in their weekly statement of this day show good gains in reserves, and there is a certainty that the clearing house certificates will be retired in a very few weeks. They have been a great aid in the past two months, even if they were only paper, unauthorized by any government, either state or national.

The people of the United States have settled down satisfied with an efficient system of national banks, and it is only when these banks fail to supply the necessary currency to do business with that the general government is called upon for relief.

The banks have been restricted, hampered, limited by existing laws, and even now some of their managers do not desire to have the limitations taken off.

It is unwise for them to oppose an increase in their circulation, for if the people are not relieved through the banks they will demand some more direct and positive method and manner of adding to th supply of money when it is needed in times of either urgent prosperity or of depression. If the money required by profitable business enterprises cannot be obtained through the circulation issued by national banks, the American business men will find a way to get it through other sources than the banks, and naturally would seek the source where the banks get their notes. That is the plain English of the situation. The people are bound to have sufficient money circulation to do a 1907 business without strain, stringency or panic. They will not submit to a system that throws them back to the business volume of a decade ago. Two months of troubled finance has put them in bad temper after ten years of prosperity, and if the men at the head of affairs cannot continue good times with the present machinery the people will provide different financial machinery and new managers to run it. The increased circulation must come to keep up the pace of good times, and the speedier the banks put it out the better it will be for evry prson in business in the United States.

They have heard a great deal of talk about hoarding of cash by individuals and the placing of many millions in safety deposit vaults and boxes. Let congress provide quickly for increase in volume of ordinary circulation of national banks and also for an emergency currency available to the banks in times of stress and these millions in the vaults and boxes will not tarry there a month, but will go into deposits in the banks all over the republic and thus ease at once and help on the good times.

Kodol is the best remedy known today for dyspepsia, indigestion and all troubles arising from a disordered stomach. It is pleasant, prompt and thorough. Sold by all druggists.

IT MOLLIFIED HIM.

John D. Rockefeller, Jr., in one of the last addresses that he made to his Sunday school class before abandoning it, said of carefulness in business:

"Too many business men are careful on one side, their own side, only. Thus a coal dealer whom I used to know shouted one afternoon to an employe who was driving out of the yard:

"'Hold on there, Jim! That can't have been weighed. It looks a trifle large for a ton to me.'

"Jim shouted back:

"'This ain't a ton boss. It's two tons.'

"'Oh, all right,' said the dealer in a mollified tone. 'Beg your pardon. Go ahead.'

INTEREST IS EXCITED

In Nobel Prizes, Originated by the Inventor of Dynamite.

Dissatisfaction Over Way the Trustees Perform Their Duties.

Copenhagen, Jan. 10.—The Nobel prizes, the annual distribution of which has just taken place at Stockholm and at Christiania, excite universal interest, in virtue of their character and magnificence. They are awarded in accordance with the will of a remarkable Swede, Alfred Nobel, the inventor of dynamite.

Alfred Nobel came of a family distinguished in the history of science and of commerce. His father was the inventor of nitro-glycerine. Two of his brothers founded the great naphtha works at Baku, in the Caucasus region, one of the vastest industrial concerns in the world. Alfred Nobel himself amassed a huge fortune in the manufacture of deadly explosives, and, on his death, left the entire sum for the benefit of posterity and the furtherance of scientific discovery. The whole of the annual interest of his property is to be divided into five equal parts, and these bestowed on the five individuals, in any part of the world, who have most strikingly distinguished themselves in five different departments of human actlvity.

One prize—that which, on account of its novelty, has aroused most interest—goes to the person who has done most to advance the cause of peace and international arbitration. Another is awarded for "literature of an idealistic tendency." The other three are reserved for the most remarkable discoveries in physics, chemistry and medicine respectively. Academic committees in Stockholm are intrusted with the selection of the winners, except in the case of the peace prize, which is conferred by a committee of the Norwegian storthing.

Dissatisfaction Expressed.

Considerable dissatisfaction has been expressed from time to time with the manner in which the trustees of the fund have performed their duties. Large deductions have been made for expenses. The actual sum awarded to each prize winner has been thus reduced from something like $80,000 to less than $50,000. This year, it would appear, the amount of each prize is only about $40,000. With the money deducted for expenses, certain libraries and laboratories have been erected in Stockholm, as well as a reading room in Christiania. The laboratories, it is asserted, are necessary for the purpose of testing the work of those who present themselves for the prizes in science. This appears a singular reason when it is recalled that for the most part the scientific prizes have gone to men whose work has already obtained general recognition, and stood in no need of any test save that of a comparative estimate of their relative values.

Long Past Work Honored.

But perhaps the most singular point about the awards is this very selection of long-past work for distinction. It was understood, prizes were to be granted on the work of the twelve months immediately preceding the award in each and of. While it may be admitted that a too rigid adherence to this rule might have unduly hampered the selecting committees, it seems extraordinary that their researches should have carried them so far back as to honor, for the most part, veterans of science, instead of letting the prizes serve as a stimulus to fresh work and to workers who have not yet "arrived."

Leaving out of account last year, the prizes have been awarded five times to twenty-eight persons, three prizes have been divided. Of these twenty-eight, six have since died, three of them of old age. The case of Mommsen, who at the age of 85 obtained the literature prize for work done when he was 27, is representative of many. The average age of the recipients was 58, while the average time which had elapsed since they did the work for which they were rewarded was 20 years. However, the trustee committees may perhaps defend themselves on this head by their desire to compensate the older workers for the time when there were no Nobel prizes; and if they continue their awards year by year they will probably be up to date in course of time. But they have punished regulations to the effect that the awards may be made only every five years, which certainly seems, unless in utter dearth of meritorious candidates, a breach of the spirit of the founder's bequest.

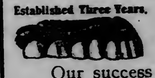
Good Work Rewarded.

The prizes have, in spite of all drawbacks, been instrumental in rewarding good work for humanity in various directions. Finsen, the originator of the light cure for lupus; Behring, for his work in combating tuberculosis, and Ross, the conqueror of malaria, are among those who have been honored for their services to medical science. Roentgen of the X-rays; the Curies, who discovered radium; Maissan, the manufacturer of artificial diamonds, are some of the best known recipients of the prizes in other scientific branches. As to the peace prize, if its award to President Roosevelt, the apostle of big navies and big sticks, appears somewhat bizarre, there can be no doubt of the excellence of the awards to quiet, steady workers in the cause of peace like the Baroness von Suttner and Sir Randal Cremer. This year the peace prize has gone to two of these unostentatious workers, an Italian and a Frenchman.

The prize for literature is that about which there has been most dispute and most recrimination. Germany, Spain, Italy, France and Norway have all been honored, in the persons of Mommsen, Echegaray, Carducci, Sully Prudhomme and Bjornson respectively—the last two being the names about which, apart from the question of date, least discussion was possible. This year England, which has been smarting under its long exclusion, at last gets a look in—with Rudyard Kipling! Surely it was a stroke of irony on the part of the Stockholm committee to place "the Banjo Bard" in the same catagory with Bjornson and Echegaray as distinguished for "literature of an idealistic tendency!" But no doubt the English will be pleased.

DeWitt's Carbolized Witch Hazel Salve is especially recommended for piles. Sold by all druggists.

Established Three Years. Alveolar Method.



RELIABLE DENTISTRY

Our success is due to the high grade work done by us at reasonable prices. Great care will be taken in doing your work.

You will receive the same work that any first-class dentist could give you, and at about one-half the price.

No students in this office, but an expert for each branch.

We use the best materials money will buy. Our Bridges and Crowns are made extra heavy and of 22-k gold.

Every dollar's worth of work strictly guaranteed.

Remember the location,

DR. F. C. LEE, Dentist,

114-16 West Superior Street, Over Folz's.

NEWS OF THE NORTHWEST

PROFIT IN LID CASES

Hubbard County Made Money by Enforcing Liquor Law.

Cleared Up Six Hundred Dollars During Last Year.

Akeley, Minn., Jan. 10.—(Special to The Herald.)—County Attorney Dampier and Deputy Sheriff T. J. Brennan have been busy putting on the lid at Akeley and in Hubbard county which has greatly benefited financially. In his report to the attorney general, the county attorney reports sixty-one cases, twenty being liquor cases, for the year.

After paying costs for the prosecution of the cases there is in the county treasury the sum of $600. Most of this surplus comes from the liquor cases. That the receipts of the fines from the liquor cases are far more than the cost of prosecution is a new argument for the enforcement of the liquor laws.

Taxpayers are somewhat surprised to learn that there is money in it for the county to prosecute the offenders of the liquor laws. This fact having been demonstrated by the report of the county attorney, and by his diligent efforts against the liquor law offenders, there is a growing sentiment that all illegal selling of liquor should cease in Hubbard county. The county attorney and the deputy sheriff at Akeley have shown their willingness to enforce the laws.

A report here says that an attempt will be made by some of the temperance and church people to close the pool rooms and skating rink on Sundays in Akeley.

JUDGE AGAINST ALL EXECUTIONS

Denounces From Bench What He Calls Judicial Murders.

Pembina, N. D., Jan. 10.—(Special to The Herald.)—To hang a person convicted by a jury of murder in the first degree is judicial murder, according to the sensational statement made by Judge W. J. Kneeshaw in passing sentence of life imprisonment upon James O'Brien, the self-confessed murderer, who was before the judge this week to learn his doom for the brutal murder of Arthur Le Claire.

Although capital punishment is the law of the state, the court astounded attorneys and others present by declaring, "I do not believe in capital punishment."

He further stated that he did not believe that the state had the right to hang a man for murder, and that a hanging was only a "judicial murder," saying that it was "a relic of the days of barbarism." The judge also stated that he would never sentence a prisoner to death.

The remarks of the judge on capital punishment have created no end of discussion in Pembina county. Some claim the question should not have been discussed in that manner from the bench, while others contend that he had every right so to do.

JOHNSON DEMOCRATS

In His Home City Not Disturbed by Hudson Manifesto.

St. Peter, Minn., Jan. 10.—Johnson Democrats in his home city have not been disturbed by the Duluth manifesto issued by T. T. Hudson, Democratic national committeeman, imploring the Minnesota Democracy to rally to the support of William J. Bryan.

Catarrh Cure Free

If You Continually K'hawk and Spit, If You Have Foul, Sickening Breath, that Is Catarrh and I Can Cure It.

Let Me Send You a Free Trial Package

Trained Nurses Strongly Recommend Gauss' Catarrh Cure to All Sufferers.

Catarrh is not dangerous, but it causes bad breath, ulceration, death and decay of bones, loss of thinking and reasoning power, kills ambition and energy, often causes loss of appetite, indigestion, dyspepsia, raw throat and reaches to general debility, idiocy and insanity.

In order to prove to all who are suffering from this dangerous and loathsome disease that Gauss' Catarrh Cure will actually cure any case of catarrh quickly, no matter how long standing or how bad, I will send a trial package by mail free of all cost. Try it! It will positively cure so that you will be welcomed instead of shunned by your friends. C. E. GAUSS, 1888 Main St., Marshall, Mich. Fill out coupon below.

FREE

This coupon is good for one trial package of Gauss' Combined Catarrh Cure, mailed free in plain package. Simply fill in your name and address on lines below and mail to

C. E. GAUSS, 1888 Main Street. Marshall, Mich.

.....

.....

.....

They realize that the round-robin was intended for outside consumption, to show the East and the South that Governor Johnson was losing his popularity in his own state, but they declare it will fail of its purpose when the fact is known that the petition was circulated fully six months ago, before the governor was seriously considered as a presidential possibility.

Assurances have been received from several prominent Democrats in this part of the state that the manifesto was sent to them as early as last July. In the majority of instances these men declined to attach their signatures. The fact that the names of several Johnson supporters appear on the petition is accounted for by the age of the document.

The fact, too, that only eighty signers were secured is an indication, the local men contend, that Governor Johnson is suffering no loss of prestige.

FILES IMMENSE CLAIM

Against Estate of His Brother, Clarence McClure.

St. Cloud, Minn., Jan. 10.—(Special to The Herald.)—Alleging that he and his brother had business dealings, involving the loaning of a large sum, of which only a part has been paid, T. S. McClure has filed a claim against the estate of Clarendon McClure, the brother, for nearly $200,000.

Mr. McClure alleges that he and his brother had certain business dealings in Minneapolis, during the fall of 1903, and that he had occasion to lend $102,000 to the late C. P. McClure. Up to the time of the death of the latter only $30,200 was paid on the amount, leaving a balance of $152,800, together with interest, due. The claimant does not state what the money he gave his brother was for, nor does he state whether he received any security. The hearing on the claim will come up in the near future.

From all appearances the estate of the late C. P. McClure is of no value. The first petition states that he left $250 in personal property, and a contingent interest in the estate of his father and mother.

RUMORED CHANGES

Follow Visit of General Superintendent Gilbert at Brainerd.

Brainerd, Minn., Jan. 10. — (Special to The Herald.)—The visit here this week of Gen. Supt. Gilbert of the Northern Pacific and other officials started a crop of rumors as to impending changes in the management of the system. One which seems to be reliable is that Supt. Fowler of the St. Paul division is to return to duty as superintendent of the terminals at the Twin Cities, that Div. Supt. Sovereign, whose resignation has been rumored for some months, will leave the service of the road, and that Newman Kline, assistant general superintendent, will be assigned to the charge of the combined St. Paul and Minneapolis division, with headquarters at Minneapolis. According to the rumor the dispatcher's office at Staples will be continued as at present. The office of assistant general superintendent will ,it is reported, be abolished. These may be mere rumors, but they certainly have the credence of many of the local railway employes.

FARMERS' INSTITUTES.

Places Where Gathering of Soil Tillers Are Being Held.

Nanthivood, N. D., Jan. 10.—(Special to The Herald.)—A farmers institute is being held here, today. Institutes are announced for the following places in the near future: Mayville, Saturday, Jan. 11; Grain Growers' convention, Fargo, Jan. 14-17; Abercrombie, Jan. 18; Bismarck, Jan. 21, 22, 25; Valley City, Jan. 24 and 25; Minot, Jan. 28 and 29; White Earth, Jan. 30; Williston, Jan. 31 and Feb. 1; Devils Lake, Feb. 4 and 5; Lakota, Feb. 6; Grand Forks, Feb. 7 and 8.

STOCKMEN TO MEET.

To Convene at Fargo Next Week With Grain Growers.

Fargo, N. D., Jan. 10.—Special to The Herald.)—One of the interesting features of the Grain Growers' convention which will open in the city Tuesday will be the fifth annual convention of the North Dakota Live Stock association. This meeting will be held in connection with the Grain Growers, and the forenoon and afternoon of Wednesday, Jan. 15, will be devoted entirely to the work of this association.

The program for that day has been prepared by the committee and is exceptionally fine, being composed of many noted authorities on live stock. The business meeting will be held at some time later and will be announced at the convention. Wednesday evening a banquet will be served to the members for the purpose of making them better acquainted, and it is possible that a business meeting will be held immediately afterward.

COUNTY OFFICERS

Of Beltrami Report on Receipts for Past Year.

Bemidji, Minn., Jan. 10.—(Special to The Herald.)—During the session of the Beltrami county board of commissioners here this week a large amount of annual routine work has been attended to. The matter of the county printing resulted in the Pioneer receiving the contract.

The various county officers made report as follows: Of the amount received by them during the past year, as salary and fees and other emoluments:

John Wilmann, auditor, $1,568.60; Dr. Marcum, coroner, $375.70; J. H. French, treasurer, $1,525.33; M. A. Clark, court commissioner, $25.59; F. W. Rhoda, clerk of court, $2,138.55; W. B. Stewart, superintendent of schools, $1,146.67; J. O. Harris, register of deeds, $3,411.55; M. A. Clark, judge of probate, $1,055.50; J. M. Phillippi, superintendent of poor farm, $1,159.

INJURED A WOMAN.

Arthur Shunn of International Falls Held to Grand Jury.

Bemidji, Minn., Jan. 10.—(Special to The Herald.)—P. A. Walsh, sheriff of Koochiching county, has brought to this city from International Falls Arthur Shunn, who had been held to the grand jury of Koochiching county on the charge of assault in the first degree. Shunn viciously assaulted a female companion in a house of ill repute at Internatiola Falls, kicking the woman, breaking her ribs, and injuring her severely. He was later arrested and given a hearing before an International Falls justice, being held to the grand jury.

LUMBER MILL MOVED.

Manistique, Mich., Jan. 10.—The Chicoga Lumber company purchased the Barker lumber mill, owned by the Hines Lumber company and will tear it down and will move it to this city, where it will be rebuilt to replace the one burned four weeks ago. The mill has a capacity of 250,000 feet daily. Millwright Vanalstine of Ashland will superintend the moving and will rebuild the mill.

MARRIED AT AKELEY.

Couple Wedded There and Will Reside at Buffalo, Minn.

Akeley, Minn., Jan. 10.—(Special to The Herald.)—A very pretty wedding took place at the residence of Mr. and Mrs. Ole Engelbretson, south of Akeley, Wednesday afternoon, when Miss Anna Sophia Engelbretson and Alfred O. Johnson were married, Rev. J. T. B. Smith officiating. Miss Engelbretson was a milliner for four years in St. Paul, and Mr. Johnson is a prominent business man of Buffalo, Minn. A. Johnson and Miss Anderson of Cass Lake were in attendance, as well as the Engelbretson family. The couple left for Buffalo, Minn., on the evening train, where they will live.

FAMILY ESCAPES, BUT HOME IS DESTROYED.

Perham, Minn., Jan. 10.—The large general store and residence of V. L. Bullis, near Clifford postoffice, fifteen miles north of here, were burned. The fire is supposed to have caught from a chimney. It was discovered at 2 a. m., and the family were obliged to leave in their nightclothes. Nothing was saved. The loss is estimated at $9,000, with $5,000 insurance.

BANKRUPTS DISCHARGED.

Fargo, N. D., Jan. 10.—(Special to The Herald.)—The following persons have been discharged from bankruptcy by Judge Amidon: Troupe & Rollofson, Sherwood; Clarence Rusche, Grand Forks; Adolph W. Miller, Willow City; Richard G. Tweeton, Wolcott; Vinzens Meier, Harvey; William L. Searles, Ambrose; C. G. Helfner, Doering; Louis Turcotte, Wain township, Bottineau county.

The application of John E. Wang of Nekoma to be discharged from bankruptcy was denied.

MINNESOTA IN BRIEF

Isanti—The New Year's dance given by the Woodmen was a great success, $40 being turned into the lodge treasury after paying all expenses.

Brainerd—George Frost of Hellensburg died at St. Joseph's hospital Wednesday after an illness of many weeks, from a stomach disorder.

St. Paul—Peter Longueville, grocer at Jackson and Eighth streets, has been missing from his store since last Saturday and cannot be found. Wednesday Sheriff Gerber placed a deputy in charge of the store on an attachment taken out by Sam Goldish, a local commission merchant, who claims a debt of $288 against the missing grocer.

North Branch—Mr. and Mrs. Carl Magnuson of Spring Lake were joyfully surprised on New Year's evening when all their children and grandchildren assembled at their home, the occasion being the fiftieth wedding anniversary of Mr. and Mrs. Magnuson.

Moorhead—Mrs. Hall of the Hall dairy, east of the city, says that out of twenty-seven cows declared by the Moorhead inspection to be infected with tuberculosis, eleven are reported by the St. Paul inspection to be all right.

Bemidji—Before Justice Slocum, James Mason pleaded guilty to the charge of petty larceny, and Judge Slocum sentenced him to serve thirty days in the county jail.

Rochester—Rev. C. H. Curtis, the popular pastor of the First Congregational church, surprised his flock Wednesday night by tendering his resignation. He will soon move to St. Paul to become assistant pastor of the People's church, of which Dr. Samuel G. Smith is pastor.

Minneapolis—George L. Chase, president of the Hartford Fire Insurance company, who died Wednesday, was once a resident of Minneapolis, and it was here that he developed his faculty for handling fire insurance as a business.

Crookston—The boss barbers of Crookston met Tuesday evening and organized the Boss Barbers' Association of Crookston by the election of P. Snyder as president and L. Rasmussen, secretary.

DAKOTAS IN BRIEF

Pembina, N. D.—Wesley McHolland, a 15-year-old boy of Cavalier, this county, pleaded guilty before Judge Kneeshaw to criminal assault on a small girl. The court ordered that the prisoner be sent to the state reform school at Mandan till he is 21 years of age.

Fargo, N. D.—Hugh A. McConville, county treasurer, has compiled the financial statement of Cass county for the year 1907. The total disbursements during the year were $929,315.80 and the total receipts were $900,644.45. The expenses were $29,171.35 in excess of the receipts, leaving a balance on hand on Jan. 1, 1908, of $135,501.65.

Minot, N. D.—Mrs. George J. Smith, formerly Miss Grace Poole, made two important deals Monday. She filed on a claim near Plaza in the morning and was married in the afternoon.

Fargo, N. D.—Emerson H. Smith has been appointed referee of bankruptcy by Judge Amidon for the district of Fargo. The appointment took effect some time ago and was made public Wednesday.

Pierre, S. D.—The Free Press of this city says that it is authorized to announce that L. A. Munson of this city will become an active candidate for the position of secretary of state in the coming primaries, and that it will publish a formal announcement next week.

Jamestown, N. D.—General Superintendent Gilbert of the Northern Pacific was here in company with Supt. A. M. Burt Tuesday, and made an inspection of the work of cutting down the hill north of the west yards, near the roundhouse, and concluded that not as much cutting would be done as originally planned, but one of the tracks now used for the Jamestown Northern outgoing track would be used.

Bathgate, N. D.—Andrew Richardson has returned from Montana, where he was at work on the railway. He was not altogether pleased with the mountain country and will probably not return.

WISCONSIN IN BRIEF

Milwaukee—The supreme court has reversed the judgment of the municipal court in the case of Frank P. Schultz, convicted under an indictment charging him with extorting $50 from ex-Supervisor Edward F. Strauss and sentenced to pay a fine of $500.

Madison—Fourteen foreign life insurance companies have notified the insurance commissioner of their withdrawal from the state. It is said that a number of others that are temporarily maintaining offices here will withdraw by March 1, on account of the legislation passed last winter.

Waupaca—The house of Walter Velle, a laborer, was searched upon a warrant sworn out by E. W. Nelson of the Nelson Lumber company, and the cellar was found to contain five tons of coal, alleged to have been taken from the Wisconsin Central cars in the yards here; also a quarter of beef and a quantity of wood.

Marinette—The murderer of Mike Campbell, the homesteader who was shot in his cabin at the Fence settlement, twelve miles from Florence, last Friday night by a stranger, is being sought by a posse deputized by Sheriff Wismer of Florence county, and all roads in the vicinity are being carefully guarded in an endeavor to block every avenue which would ordinarily permit of escape.

Waterloo—One of the early settlers of this part of the state, Andrew Betts, died Wednesday. He came here from New York state, reaching Milwaukee June 11, 1846. Two children reside in Milwaukee, Mrs. Thomas Douglass and E. J. Betts, a member of the police force.

PENINSULA BRIEFS

Gladstone—Six ministers, accompanied by the sheriff, raided several saloons Tuesday tearing up slot machines. They were taken to a justice's office and will be burned. The ministers have been holding revival meetings and will force the saloons to close on Sundays, or wholesale arrests will follow.

Marquette—In the presence of an enthusiastic assemblage of 300 convicts, a minstrel show was given at the Marquette penitentiary Wednesday night, the performance being by a local fraternal society. It had been presented at the opera house the two preceeding evenings.

Calumet—The boys of the Red Jacket shaft location have made arrangements to give their annual skating party at the Park ice rink Saturday night, Jan. 25. The Calumet & Hecla band has been engaged for the occasion.

Chassell—Mrs. Dolphus Brunelle of Chassell died at her home on a farm near Sturgeon river yesterday at the age of 59 years. She was a pioneer of upper Michigan, and had made her home in Houghton county for the past fifty years.

Houghton—The Houghton County Medical society held its annual meeting Tuesday evening at the Douglass house, and was largely attended by the physicians from the entire county. Two very interesting papers were read, the first one by Dr. H. M. Joy of Calumet and the second by Dr. R. B. Harkness of Houghton.

South Range—The Catholic Order of Foresters of Atlantic will give a dance at the Forester's hall on Saturday evening. Music will be furnished by the Klingkammer orchestra of Houghton, and a lengthy program has been prepared.

Marquette—Miss Cora Greene, daughter of Former Mayor W. H. Greene, and Harry Kraft were married Wednesday afternoon at 4 o'clock by Rev. Father Pinten at the St. Peter's cathedral parsonage.

Ishpeming—Edward Wasley is dead. He had been in poor health and his death was not unexpected. The deceased had been a resident of Ishpeming for forty years and was very well known.

Negaunee—Two of the four victims of the Rolling Mill mine disaster of Sept. 20 who were confined in the Negaunee hospital have been removed to their homes, but the other two will not leave there for at least several weeks. Thomas Roberts, whose home is at Ishpeming, left the hospital some weeks ago, but he is confined to his bed, as his back is still in bad condition. John Makki left the hospital during the week.

LAXATIVE BROMO QUININE removes the cause. Used the world over to Cure a Cold in One Day. E. W. Grove's signature on box. 25c

NO AFFINITY FOR HER.

Des Moines Woman Sues Her Employer for Heavy Damages.

Des Moines, Iowa, Jan. 10.—If all women were like Mrs. Emma Cowgill of Des Moines, there would be less of this affinity business. For Mrs. Cowgill had a chance to be C. L. Trego's affinity. Instead, she rebuffed his advances and now has brought suit in the district court for $5,000 damages because she says Trego, who is a married man, hugged her and tried to kiss her. Trego was her employer.

HE VISITED SOME PATIENTS

(Chattanooga, Tenn., Daily News.)

A representative of the News has just returned from a very successful visit to California.

Concerning the reports that the long sought cure for Bright's Disease has been discovered, he took special pains to find out the truth of the matter, and came back fully convinced.

One lady, the wife of a San Francisco editor, not only told of her husband's remarkable recovery after physicians had given him up, but she reeled off as of no moment, the names of several they told of it who had recovered. It was a case of Bright's Disease, in which the young man was so impressed that nothing could be done, that he had to be tricked into taking the new specific. Each time a dose was administered, a tablespoonful of his old medicine was secretly disposed of, thus allaying suspicions. To complicate matters, as the young man recovered, the physician became elated, thinking he had discovered a cure for Bright's Disease. It was not until the patient was so well along toward recovery that there was no uncertainty about it that the whole plot was disclosed. One of San Francisco's pioneer druggists also confirmed his own recovery, and made the astonishing statement that he had given it to between 40 and 50, and only knew of a few failures.—Chattanooga Daily News.

We sent for this treatment for patients here and will give full information.

ALBENBERG'S

DULUTH. "Get the Habit." SUPERIOR.

We've Made a Clean Sweep in our Millinery Department

In Less Than One Day

The responds to our last Thursday ad. was most gratifying. The sale opened at 9 a. m. and by 3 p. m. every Trimmed Hat had disappeared. Rather quick work, selling several hundred hats in less than one day. There are reasons for these quick responds.

FIRST—"Genuine bargains without juggling in prices.

SECOND—"The prices were cut so ridiculously low that any one in need could not resist the temptation."

THIRD—"We are not before you from day to day with large bold type of fictitious values or misrepresentation."

The Knockout Drops Will Be Applied in our Cloak Dept.

—FOR TOMORROW AND SATURDAY—

Two assortments of Ladies' and Misses' Coats, consisting of over one hundred garments—every one of this season's style—latest material and best of finish.

COATS, FORMERLY PRICED UP TO $25.00—Your choice for $9.75

COATS, FORMERLY PRICED UP TO $15.00—Your choice for $5.00

BARGAINS THAT OUGHT TO INTEREST YOU:

At 17½c
New Spring White Goods in mercerized effects, regular 25c values.

At 5c

It is important when desiring the address of your paper changed to give both old and new addresses.

"UNCONSTITUTIONAL."

The Houston, Tex., Post, in answer to those who are asking for a special session of the Texas legislature to provide a state system of bank deposit insurance, comes forth with that awful and portentous—though very much overworked—word "unconstitutional."

The Post quotes the following section of the state constitution of Texas:

> The legislature shall have no power to give or to lend or to authorize the giving or lending of the credit of the state in aid of, or to any person, association or corporation, whether municipal or other, or to pledge the credit of the state in any manner whatsoever for the payment of the liabilities, present or prospective, of any individual, association of individuals, municipal or other corporation whatsoever.

Then the Post says that this language is so specific that it is useless to discuss the subject of state insurance further. The banks may organize a corporation for the insurance of deposits, but the state may not take up the burden.

This is highly important, if true. It is important in Minnesota no less than in Texas, because the Minnesota constitution contains a similar, though briefer, provision, which follows:

> The credit of the state shall never be loaned in aid of any individual, association or corporation.

If state bank deposit insurance is unconstitutional in Texas, therefore, it is unconstitutional in Minnesota. But before dropping the question as being settled by this constitutional prohibition, it is worth while to inquire a little further.

In the first place, the proposed state insurance of bank deposits does not involve in any way the credit of the state. The assumption that it does is due to a careless acceptance of the term "state insurance" in its literal sense. No pending scheme of this nature provides for state insurance, or obligates the state to pay a penny.

The state is simply made the custodian of a fund derived by taxation of banks, to disburse it to depositors in insolvent banks as the need arises. The state's credit is not pledged as security for the safety of deposits. That would be unquestionably in violation of the constitution, but nobody has proposed it.

Apparently the Houston Post is one of those who have accepted the term "state insurance" literally. Somebody should assure it that it is not meant literally, and that its alarms about the impairment of the constitution are unwarranted.

The Post urges as a further argument against "state insurance" that it would not cover national banks, and Texas has more national than state banks. The effect in such a case would be to build up the state banks unless congress took similar action to protect national bank depositors, and the Post may be sure that if the states protect depositors in their banks, congress will have to adopt similar legislation covering national banks.

Indeed, the movement to provide state guaranty funds for the protection of depositors in state banks is having such a wide spread that it is not improbable that the national bankers will compel congress to take action at the present session, and thus forestall any temporary advantage to state banks that might ensue if the states preceded the nation in protecting depositors.

SHAME!

There were in San Francisco certain restaurants, sinks of iniquity, dens of infamy, where unspeakable conditions, a scandal to the community, prevailed. Schmitz, one-time fiddler, then mayor, and Ruef, cunning lawyer, corrupt master of corruption, then political boss, had control of affairs. Ruef visited the panders who conducted these resorts, informed them that if they did not pay him bribes he would see that their licenses were revoked, and when they contributed generously, divided the money with Schmitz.

Then affronted decency revolted, and a storm burst. Schmitz and Ruef and others were indicted. Ruef, very carelessly as now appears, pleaded guilty to extortion, and implicated his partner in crime. Schmitz stood trial and was convicted and sentenced.

Now comes the district court of appeals and says that no crime was committed, and that Schmitz's conviction and Ruef's plea of guilty are of no account. Why? Not exactly that the indictment had a comma inverted or omitted, but that the profitable enterprise of Schmitz and Ruef did not technically constitute a crime under the statutes.

Shame! Shame to the courts, and shame to affronted and frustrated justice! To say that men may use official power and betray public trust to the extent of countenancing infamy for a price, and shall then go free! To set aside convictions that encouraged decency and redeemed the fair name of a fair city, upon a technicality! Oh, justice! What folly is done in thy name!

THE POSTAL SAVINGS BANK.

Consul General Mason of Paris, writing to the state department at home, describes interestingly the postal savings bank system of France and its relation to the widely-recognized soundness and stability of French finances.

It may seem like whistling jigs to a milestone to keep up the talk about postal savings banks in the face of the fact that Speaker Cannon has decided that congress shall provide none at this session; but it must be remembered that there are other sessions coming, and, let us hope, other speakers more amenable to reason and more inclined to comply with public wishes.

Mr. Mason says that the steadiness of French finances and the general uniform prosperity of the people have recalled attention during the late financial disturbance in America to the French monetary and banking systems, and particularly to the important and beneficial role which is played by savings banks in that country. The French peasant and artisan have been known for many generations as the most frugal, industrious and intelligently thrifty of European working people. Their patient industry, their love for the soil and for their various handicrafts, and their scrupulous care of their savings, form the foundations of the prosperity of France.

There are two classes of savings banks in France: the postal savings bank and the municipal and private banks, which are controlled by municipalities and private firms and are held accountable to strict laws similar to those which are enforced in several states of this country.

The postal bank was established in 1881, and there were in 1904 7,883 local postal banks, with 4,345,446 depositors and deposits of $229,158,290, which have since increased to $267,519,423. They pay 2½ per cent interest, compounded, and each deposit is limited to $289.50. When a deposit exceeds that amount, the banks will buy national 3 per cent bonds with the money, keep them on deposit, collect the interest and credit it to the new account of the depositor. The average amount of the deposits is about $54.

The fear that government postal banks will interfere with private savings banks is not borne out by the experience of France. At the end of 1904 there were 550 municipal and private savings banks, with 1,461 branches—in all 2,011 places of deposit, with 7,422,326 depositors and deposits amounting to $666,963,574. The average deposit was $84.41. These banks pay 2 to 3 per cent interest, depending upon the length of time the deposit remains undisturbed.

The postal savings bank in this country would take in millions of dollars that the private savings banks cannot get, notably the deposits of foreigners who are used to postal banks in their own countries. Under Postmaster General Meyer's plan this money would be deposited with local national banks, thus taking out of hiding and adding to the available supply of money for business uses untold millions that are needed as a foundation for credit. At the same time, by encouraging thrift and fostering the growth of saving habits, the private savings banks and all the banks would profit materially.

But Speaker Cannon says we can't have the postal savings bank.

ANOTHER WORRY POSTPONED.

The need of public worry over what the public ought to do about patching the city charter is postponed, at least until fall, because, as The Herald stated last night, it will be impossible to put to a vote at the coming election the several charter amendments that have been postponed.

The city attorney's office, in preparing the amendments for presentation to the people, proceeded under the law of 1905, which required publication of the proposed amendments twenty days prior to the election. It had been forgotten, for the moment, that a law was passed by the legislature last winter governing such matters, and that it increased the period of publicity to thirty days. When the oversight was discovered, there were no thirty days obtainable in which to make compliance with the law, so the amendments will have to go over until the fall election, unless perchance a special election should be held, which is improbable.

No great harm is done except in the matter of the amendment permitting the use of a part of Central park for the location of a hospital for contagious diseases. It is very fortunate indeed that this much desired improvement is thus postponed, when it is needed this very minute. The postponement will provide time, however, in which to make it absolutely certain, for instance, whether the amendment reorganizing the health department meets the needs of the community in the best possible manner, since exception has been taken to some of its provisions and possibilities.

It will be harder, however, to secure the adoption of the amendments at the November election than in the February election, because of the greater interest that will attach to other matters then to be decided, and because of the fact that the approval of three-fifths of all the voters voting at the election is necessary.

THE GRIP.

An epidemic of grip, said to be the worst since 1889, has been sweeping westward over the country, and it has finally, a little belated, reached Duluth.

It is the worst in years only in the sense that it involves more cases; not in the sense that the disease itself is more serious, because generally its attacks seem to be lighter than usual.

But it is here, and whether it is due to the mild winter, or to something else, matters little. The thing to be considered is how to beat it.

First, don't get it. Lots of people will think that advice is foolish, but it isn't. It means, don't let your system get into such shape that it will furnish hospitable soil for the grip germ. If your system is what it ought to be, grip germs will recoil from it in dismay, and so will most other germs.

The way to have your system in a normal condition is to live in a normal way. Don't eat too much. Sleep enough. Don't worry. Don't drink too much. Get exercise enough. Walking, for instance, gives your system such rejoicing and abounding energy that it is fatal to germs. Keep your house well aired and especially your sleeping room. Avoid drafts, nevertheless.

There are two reasons why you should walk instead of taking a car in grip time. One is that you need the walk, and that it builds up your system and gives it such tone that the grip will despair of you and pass on to another. Another good reason is that the street cars are stuffy and ill-ventilated and foul, and their atmosphere provides the finest kind of hospitality for germs of grip and other diseases.

Then, if you get the grip, don't take any chances with it. It will make you pretty sick and it will weaken you, rendering you liable to worse troubles. Don't take cold. Call the doctor. Take his advice. Be careful of yourself, and don't dose yourself with nostrums that people recommend to you. Many grip medicines contains drugs that are bad for the heart, and remember you are weak when the grip has a good hold upon you.

If you live normally and keep up a good tone in your system, you won't get the grip. But if you do get it, call in the doctor and do what he tells you. He will probably send you to bed when you want to go down to the office and work, but he knows best. If you take care of yourself the grip will probably do you no lasting harm, but if you don't take care of yourself it may.

Here's hoping you won't get it, and that if you do it will let you off easily.

There is not much to be hoped for from a person who would rather be caught in a crime than in an out-of-fashion garment.

HOTEL GOSSIP.

Partly because inspirations are scarce these days, and partly through plain curosity, a Herald reporter was tempted to ask a traveling man at the St. Louis what he imagined paradise would be like. This traveling man, Mr. Frank Lane, who makes the rounds of the cities of the country, during the course of a year, has seen many things here below, has been through two wrecks, the same probably shaping his views regarding the eternal resting place somewhat, or, at least, casting his thoughts heavenwise for a temporary spell, so his opinion is, therefore, worthy of some consideration.

In reply to the question as to the general make up of paradise, for leading questions were to be reserved until later, Mr. Lane, after due deliberation, suggested that paradise must be a place where all cares and worries were unknown.

"What are the principle cares and worries that you believe are tabooed in paradise?" was asked.

"Fuel, for instance," he suggested.

"No one," he said, "would ever associate coal, with its dirt and dust and of worries over acculuation, with a mental picture of heaven."

"Grate fires are very pleasant, though," it was suggested to Mr. Lane.

"Granted," came the quick reply, "but then the front lawn on a summer's evening, with the smell of hyacinths in the air, mingled with the odor of a good Havana and the fragrant breath of all outdoors, has the grate fire beaten in lots of ways."

The idea of Havans in heaven came as a rude surprise. An explanation was asked.

"Yes, really, in making my forecaste of heaven," said Mr. Lane, "I am putting in cigars, for I don't believe that we, who are fortunate enough to get there, are going to forget all our earthly plensures, and as a good smoke is a most heavenly thing, to me, at least, I have often thought of cigars up there."

"Do you think one will have use for money up there?" was the next querry.

"That's hard to say," came the reply. "I didn't use to think so, but since the president has chastened the currency by placing the face of St. Claudens on our social barometers, I have been wondering whetner or not that might not make some difference.

"I believe that heaven," continued the speaker, "is a place where society will assume its rightful place. I believe, for example, that the positions of Mr. Jones, wife of the switchman, and that of her neighbor, whose husband owns a couple of railroads, might be reversed in the heavenly order of things. I wouldn't be surprised to behold, that is, banking on getting an opportunity to see for myself, that Mrs. Jones was moving in the swellest set, while her neighbor, whose high brick fence shut off any view of anything that looked like heaven here below to Mrs. Jones, might be doing penance in a set that couldn't come to any of the Jones crowd's receptions. That would be my idea of a square turn of the die; for Mrs. Jones, being a good and motherly soul, would be given those pleasures, which every woman craves for at some time, in the future abode. While the other woman, who had enjoyed them so long, here below, would be given a rest from the ardous duties of ultra society."

"What about harps and wings and things?"

"I don't believe they will have any wings, though I believe that stringed orchestras will be part of the general program. I don't think there will be any ear-splitting instruments of torture, but I believe that sweet music will be rendered. As for wings; well, I just don't believe there will be any, for they would be such an inconvenience. The feathers might come out, and then they would be in the way at times, you know."

"Now, as to the more material things, such as food and those things that are both our worries and our pleasures here below?" was asked.

"Oh, yes," came the reply. "I believe there will be food, but a kind such as no earthly being has partaken of. Simple things, you know, that will bring joy to the heart of a man, well—like myself, for instance, who for the past twenty years has existed on articles of diet that mother would have hesitated to set on the table. I hope and trust that digestion will play no part in the heavenly order of things.

"Further, I believe that every one that has been good, here below, will be rewarded with the things he has craved and never got. I believe that widow—well, some widow's boy, who is lame and pinched with want and is dying for want of a breath of fresh air will have acres and miles of great rolling country, up there, and swimming pools and orchards, where he will be allowed to steal apples, just for a mild compensation for the joys of youth he lost here below. He will be given an opportunity to live a boy's life up there; an opportunity he never had downe here.

"Of course, I believe, that influences will be such that every one will be educated to a higher standard. But I believe that Bill Sookes, if he was a good soul down here and did lots of good, will be allowed to continue on his own quiet, simple way up there. One of his greatest pleasures will be in seeing everybody happy. I don't think Bill will have any wings; they wouldn't look well with his homely, honest, old face. Bill always worked hard, here below, and he will be allowed to have a good time in his own way, dispensing kindness and enjoying a quiet smoke now and then."

"What about the people who have not been as good as Bill?"

"Moral influence. See how the predatory wealthy are turning over a new leaf, under the influence of moral discussion. Well, up there strife and competition will be eliminated, I hope; the temptations will be greatly removed; everyone will be moved by a spirit of emulation and will be only too glad to adopt the new standard of goodness and calmness of spirit. The gospel of forgiveness and brotherly love, which after all, are the essence of Christianity, will prevail, and every one will be happy in doing what is right. I think wants and desires will be filled, provided they are good, and that we will kind of go along being good and happy, because we are doing what's right. I don't take much stock in the flowing robes and that sort of thing. I believe that we could have heaven right here on earth, with certain modifications, and I believe that up above these modifications and improvements on the earthly plan, with sorrow and misery caused by misdeeds and vice, eliminated, will prevail.

THE WEATHER.

Though it looked and felt very much like coming snow this morning, all signs fall in dry weather, and the weather man does not predict any. Instead, he says, it will be partly cloudy and a little colder tonight and tomorrow. This morning it was mild and the sky was banked with heavy clouds. Last night's lowest temperature was 14 degs. and yesterday's highest was 21 degs.

A year ago today it was mild and pleasant.

The sun rose this morning at 7:52, a minute earlier than yesterday, and set tonight at 4:39, making 8 hours and 47 minutes of sunlight, a gain of two minutes over yesterday and of 17 minutes from the shortest day.

Says Mr. Richardson of conditions: "A storm of moderate strength is central this morning over Northern Louisiana. Thus far it has caused quite general cloudiness from Gulf states northward to including the Lake region, higher and rather mild temperatures in the latter district, central valleys and Southern states, and light rain or snow in Louisiana, Southern Montana, Wyoming, South Dakota and near Lake Superior. A strong high pressure area overlies the Rocky mountain region and is causing colder weather there and in the Red river valley. Another high pressure area central off the Virginia coast is responsible for much lower temperature in North Atlantic states and zero weather in the Adirondacks. Generally fair and colder weather is indicated for this locality tonight and Saturday."

Following were last night's lowest temperatures, as recorded by the weather bureau:

Abilene	42	Medicine Hat	24
Asheville	18	Memphis	42

Department of Agriculture, Weather Bureau, Duluth, Jan. 10.—Local Forecast for twenty-four hours ending at 7 p. m. Saturday: Duluth, Superior and vicinity, including the Mesaba and Vermilion Iron ranges—Partly cloudy and colder tonight and Saturday; lowest temperatures tonight 5 to 10 degs. above zero; fresh and brisk westerly winds.

H. W. RICHARDSON,
Local Forecaster.

Chicago, Jan. 10.—Forecasts until 7 p. m. Saturday: Upper Michigan—Snow tonight and probably Saturday; colder Saturday.

Wisconsin—Threatening, with rain or snow tonight and possibly in east portion Saturday; colder Saturday.

Minnesota—Partly cloudy and colder tonight; Saturday fair, with colder in east portion.

North Dakota—Fair tonight and Saturday; colder tonight.

Pointed Paragraphs.

Chicago News: Beauty doctors encourage a good many vain hopes.

The man with a swelled head usually wears a small hat.

When a man makes his will he has a right to be self-willed.

Even a lawyer objects to being cross-questioned by his wife.

It isn't the fruit of the plum tree that fills the plumber's pockets.

If a man has a standing offer, he can sit down and think it over.

The lecturer tries to make his mark in the world by making remarks.

The success of the man who succeeds is usually due to the failure of others.

If it wasn't for the easy marks in this world there wouldn't be so much "doing."

Some people seem to have no use for anything common—not even common sense.

A man gets a lot of credit for being a good husband—after the undertaker has him on ice.

It's easier for a woman to make a fool of a man than it is for her to make a man of a fool.

It's strange, but nevertheless true, that a woman can be jealous about a man even when she has no earthly use for him.

Sooner or later the young man who elopes realizes that it is easier to run away with a woman than it is to run away from one.

The Prison Philosopher.

"F. M." in Stillwater Prison Mirror: Raw drink is not conducive to a ripe old age.

The detective who arrests public opinion is not even next to his job.

All baldheaded men are not henpecked, but all henpecked men are baldheaded.

The strong arm man is not near so dangerous to the public as a weak-kneed statesman.

The hot air exchanged between a politician and a trust magnate behind closed doors might properly be called trade winds.

Removing the motto "In God we trust" from our coins, will not prevent men from worshiping at the shrine of the almighty dollar.

Nearly Always.

Chicago News: When a man encounters a bunco game he nearly always loses faith in human nature instead of losing faith in his own judgment.

Let People Know About It.

If you have done a splendid thing,
Get on the roof and shout it;
Don't fail to make the welkin ring,
Let people know about it;
Don't merely sit around and wait
For other men to sound your praise;
They'll never know that you are great
Unless the hubbub which you raise
Convinces those who doubt it.

If you have talent don't neglect
To draw attention to it;
Don't wait in silence and expect
That some one else will do it;
Get out and boast; a few may say
That you are o'ersupplied with gall.
But don't forget that even they
Will, talking of you, after all,
Bring notice to you through it.

—Chicago Record-Herald.

TWENTY YEARS AGO.

Taken From the Columns of The Herald of This Date, 1888.

***Senator Sabin yesterday presented to the United States senate a request by the city council of Duluth for an appropriation of money sufficient to reimburse the city for its expenditures in the construction of a ship canal across Minnesota Point and the building of a dyke in Superior bay, under instructions of the army engineer.

***At the annual meeting of the State bank of Duluth, this afternoon, the following directors were re-elected: W. K. Rogers, J. B. Sutphin, C. H. Graves, Wallace Warner and M. O. Hall. The officers chosen were: W. K. Rogers, president; O. Stenson, vice president; M. O. Hall, cashier. It was voted to increase the capital stock from $50,000 to $100,000.

***The Duluth National and the Merchants' National banks re-elected their old directors. The Merchants voted to increase its capital stock from $150,000 to $200,000.

***The annual statement of the business of the Duluth postoffice, prepared by Assistant Postmaster Henry, shows an increase of 67 per cent for the year. Undoubtedly at the close of the fiscal year, March 31, Duluth will be raised to a first-class office, and the force increased.

***At a session of the city council, this morning, the following were appointed judges of election: First ward, J. E. Wieland, E. C. Wohlin and James Brown; Second ward, H. M. Todd, G. W. Clark and I. H. Seelye; Third ward, first precinct, J. D. Ray, L. K. Daugherty and James O'Neal; Third ward, second precinct, JJames Sullivan, D. G. Penny and E. Kugler; Fourth ward, first precinct, C. F. Johnson, B. Silberstein and J. C. Clark; Fourth ward, second precinct, Jacob Pember, T. P. Timms and E. L. Toomey; Fifth ward, first precinct, Jacob Zimmerman, John Gillis and John Beckman; Fifth ward, second precinct, S. Drake, George McAdams and Albert Stone; Sixth ward, George H. Claypool, P. D. Jones and S. Smith.

***The city hall at Rush City was burned last night.

***The following real estate transfers have been recorded:

E. C. Chatfield to Triggs & Kennedy, undivided one-sixth of lots 5 and 6, block 10, Central division, $2,073.

F. E. Kennedy to E. Totman, undivided half of lots 11 and 12, block 10, Central division, $7,000.

A. Muffly to John R. Duff, west half of lot 328, block 125, Second division, $1,050.

***Hon. I. E. West and A. N. McGindley, both lately of Bismarck, and James S. Bourke of Massachusetts, were admitted to practice law in this state, yesterday afternoon.

***The thermometer registered 11 degs. below zero at 10 o'clock this morning.

***Miss Annie Crawford of Denver, Col., is visiting at Mrs. Burlingonne's for two weeks.

***Senator Hank Smith of North Branch is suffering from a severe attack of erysipelas.

MINNESOTA OPINIONS.

St. Cloud Times: Down at an Omaha banquet of Democrats the speakers paid high compliments to President Roosevelt—because of his enforcement of the Democratic platform of 1896.

Aitkin Age: The proceedings against Attorney Hart of Minneapolis for criticising the supreme court of the state are attracting considerable attention among the general public and from the talk one might judge that the people would consider it a mighty good joke if the Minneapolis man would succeed in making out a case. In these democratic times it is hard to understand just why the court is so far above a president or governor or any other officer that is subject to criticism that it must never be referred to with disrespect. The men who compose the supreme court are human and liable to err.

Brainerd Dispatch: The current issue of the Minneota Mascot, published in Lyon county, is devoted to booming J. F. Jacobson for gubernatorial honors, which is the first real start made in the 1908 campaign. From now on "favorite sons" will receive honorable mention, but it will be some time yet before it can be definitely decided who will lead the Republican party of Minnesota to victory.

Northfield News: Congressman Tawney was up last week to fix the delegates from the First district to the National Republican convention. Tawney is under some obligations to Cannon and the "interests."

Bemidji Sentinel: If the Republican party suffers defeat at the next election, and it will if the Democrats nominate a good man, it can be laid more to Speaker Cannon than any other cause. He is determined to head off any and all legislators not approved of by the powers that have controlled the parties for years.

St. Cloud Journal-Press: The surface indications are that Taft—with Roosevelt out of it—is the first choice of a majority of Minnesota Republicans for president. But that does not necessarily mean that he will get the Minnesota delegation—unless his friends do a little systematic work in his behalf. Public sentiment is a good thing when it is followed up by intelligent co-operation. Taft can have the support of Minnesota in the national convention if his friends get busy.

Rush City Post: Job xiv 5 is respectfully referred to members of the legislature for a New Year's text.

Monticello Times: All the corporation interests in the country are united—not on a candidate—but on the purpose of defeating the Roosevelt policies and preventing further prosecution of the trusts.

St. Peter Herald: Cannon is being roundly abused as a "reactionary," but we hear very little criticism of the congressmen who tamely voted for his reelection as speaker. Hold them responsible at the polls and we will not have a speaker taking orders from the corporations.

Fairmont Sentinel: Why should not the state board of health, to be consistent, abolish quarantine of diphtheria as well as smallpox? Both have a remedy, one is vaccination and the other inoculation. Why select smallpox from among all other diseases and make such a radical departure from time honored methods?

Gov. Johnson's Platform.

Washington Post: If the Democratic party is sincere in its desire to seek a Democrat, pure and undefiled, to whom it can offer the leadership of the party, what fault can it find with Governor Johnson of Minnesota? That able executive of a single state is rapidly becoming a national figure through the sheer force of his Democratic principles and good common sense. What other man so completely embodies in his own political views the modern principles of the Democratic party? In him there is no taint of populism, no tendency to demagoguery, no inclination to cling steadfastly to some particular, pet idea which he wishes to force the party, willy-nilly, to swallow. But neither is he a sort of political bell buoy shifting his base according to the roll of the waves. He has come out frankly and stated the platform on which he stands in no equivocal terms. How does it compare with the ideas of modern Democracy?

First, Governor Johnson believes in a tariff reform that will give to all industries an equal chance. That is a Democratic principle as old as the party. Next, he believes emphatically that the states alone, not the federal government, should have the power to remedy the corporate and other abuses from which they individually suffer, and that each state ought to have power to punish the corporations offending within its own lines. The doctrine of state's rights was the very milk on which the party was nourished in its infancy.

Furthermore, he advocates income and inheritance taxes, and declares against imperialism. While asserting that plundering corporations ought to be checked, this safe and sane Democrat would not attack merely to destroy them nor to prosecute merely to legalize confiscation. But he is highly in favor of legislation that will absolutely prevent stock-watering and even the semblance of fictitious valuations.

What safer and saner platform than this could make an appeal to present-day Democrats? Here is a man who stands for sound, progressive ideas of government. He has no particular personal ideas or hobbies or interests to represent. He presents no inflammatory reforms; he rather suggests proper control of the institutions that already exist. Can the party find any sounder presidential timber in its ranks? Is there one better fitted to appease the conservative ranks of the party, yet who could so ably lend in all progressive movements? What is the matter with Governor John Johnson, anyway, Democrats?

Talkative.

He talked of art, he talked of books
He talked of science, too;
But still she showed no interest,
With all that he could do.
Then finally he took the hint,
Retired upon the shelf,
And found he'd hit it when he let
Her talk and talk herself.

—Philadelphia Bulletin.

SHAKING THE LEMON TREE.

New York Sun: Knicker—Was your auto speeding?

Bocker—No; the landscape was going by too fast.

Baltimore American: "I hear Mr. Awl King, the big financial magnate, is going to take the baths for his health."

"What kind? Hot baths?"

"No; immunity baths."

Philadelphia Press: "There's nothing like exercise to stimulate growth," said the man who posed as an authority upon physical culture.

"It doesn't always," replied the other man. "I've got a young fox terrier that exercises his stumpy tail every time any one speaks to him, but the tail doesn't seem to grow any."

Chicago News: Judge—What brought you here?

Prisoner—Two policemen.

Judge—Drunk, I suppose?

Prisoner—Yes; both of them.

Chicago Tribune: The ardent Cuban patriot had raised an army of seventeen men and started a revolution.

"But what do you expect to achieve by it?" asked one of the newspaper correspondents.

"Immortality!" he exclaimed. "Did you ever hear of one of us empire builders getting killed? Not on your machete!"

Thereupon, to avoid being run in by the police, he took his devoted band and hiked for the mountain fastnesses.

John Johnson's Availability.

New York World: "The republic is opportunity," said Garfield. Could the Democratic party nominate any man for for president who more completely embodies this vital principle of American institutions than Governor Johnson of Minnesota? Is there another man whose candidacy would prove such an inspiration to the foreign-born voter who has reached up to freedom and citizenship?

Not since Andrew Jackson has the United States had a president whose parents were born under another flag. Not the least part of Jackson's marvellous political strength lay in the appeal he made to those humble citizens of the republic who realized that what he had done the son of some other immigrant might do.

According to the census returns, less than half the voting population of the United States is of native-born parentage. One-fourth of it was foreign-born, and of the native-born population nearly one-fourth had foreign-born parents. It is to this latter element that Governor Johnson belongs, as did Andrew Jackson.

The Scandinavian population, from which Governor Johnson sprang, holds the balance of political power in Minnesota, South Dakota and North Dakota. These three states have nineteen electoral votes, and Mr. Bryan could not possibly carry one of them. The Scandinavian influence is very strong in Illinois, Wisconsin, Michigan and Montana, which have fifty-seven votes in the electoral college. Mr. Bryan could not make the slightest impression on the Republican majorities of these states. There are 60,000 Scandinavian votes in Chicago alone and 85,000 in Illinois. Under normal political conditions such as existed before Mr. Bryan became leader of the Democratic party, they might perhaps turn the state.

Governor Johnson's appeal would not be restricted to Swedes and Norwegians. It would go out to all those elements, once alien in blood or language or allegiance, who sought freedom under the American flag and know from their own experience that the republic is what Garfield said it was—opportunity. The candidacy of this son of a Swedish immigrant who has worked his way up from the humblest conditions would be hardly less inspiring to the native-born than to the man of foreign birth or parentage, for John Johnson's career represents the proudest and oldest boast of American citizenship.

The World repeats what it has already said, that as the Democratic candidate for president he would be at least 300,000 votes stronger in New York and New Jersey alone than Mr. Bryan.

Surely the Democratic national convention will not shut its eyes to the qualifications and availability of such a man unless it is so infatuated with defeat and disaster that the faintest prospect of victory is repugnant.

Thine Own Master.

'Twere long to tell, and sad to trace,
Each step from splendor to disgrace;
Enough—no foreign foe could quell
Thy soul, till from itself it fell;
Yes, self-abasement paved the way
To villain-bonds and despot sway.

—BYRON.

SPORTS OF THE DAY

LOSE GAME AT SUPERIOR

Y. M. C. A. Boys Play Out of Form and Blaine is Victor.

Play is Disorganized and Form is a Dissappointment.

Playing in form, which was a disappointment to their supporters, the Duluth Y. M. C. A. basketball team, last night, suffered defeat at the hands of the Blaine high school by a score of 37 to 13. The game was played in the Blaine gymnasium at Superior.

The Duluth players show inability to "find" themselves. They played in a disorganized, demoralized way for nearly the entire game, without teamwork, and without being able to check Blaine to advantage. The big floor was new to them, the out of bounds rules bothered them, and they didn't seem to get away properly.

Duluth was clearly outclassed in the first half. In their own gymnasium they had been playing without out of bounds rules, and the strange conditions at Superior, where the man who dived over the line the most quickly, secured the ball, annoyed them and broke up their team play considerably. The first half ended with the score 15 to 4 in favor of Blaine.

In the second half the Duluth boys began to get their bearings and make things more interesting. In the early part of the half, they missed several baskets which should have been thrown, but in the last five minnutes they came up with a rush and boosted their score to 13.

The game was marked by considerable rough play, five fouls being called on Duluth and eight on Superior. Dinham and McLean threw most of the baskets for Duluth, and Nord starred for Superior.

Between the halves the second team of the Blaine school defeated the Boys' Department team by a score of 22 to 12.

A. J. Frey of Duluth and P. C. Clemans of Superior were officials.

The teams lined up as follows:

Blaine.	Y. M. C. A.
Long, Sherman	C	Dinham
Buchanan	F	McLean
Clarke	F	Perry, Fenton
Nord	G	Smith
Zeaman	G	Skelton

BRESNAHAN SIGNS UP.

McGraw's "Shin Guard" Catcher Will Play in 1908.

Chicago, Jan. 10.—Manager John McGraw of the New York National league baseball team announced yesterday that he had received the signed contract of Roger Bresnahan, catcher, for that team for the season of 1908.

BURNS BEATS DWYER.

Old Timers of the Mat Still Taking Down the Coin.

Omaha, Jan. 10.—"Farmer" Burns of Iowa defeated Prof. M. J. Dwyer of Denver for the second time last night at the Auditorium. Dwyer won the first fall, Cornish style, in 17 minutes 20 seconds. Burns took the second and third, catch-as- catch-can style, in 11½ and 12¼ minute srespectively.

D. E. H., Jan. 10, 1908.

On our tables are the best styles worn by the younger set.

Young men's clothes have a special department nowadays, and have fashions of their own.

Here is the swell kind in both Suits and Overcoats.

And the January Clearing Cuts have mutilated all the former prices. It's really a shame to put cheap green tickets on these high-class Columbia garments.

Think—$10 to $2 off the price of garments that were from $27 down to $7.

The Big Columbia Clothing Co. Duluth

¼ Off All Underwear Prices.

GLEAMS in the SPORTING FOG.

Down in Houghton there's a baseball-magnate-that-was, who, with the aid of a newspaper writer, takes keen delight in attributing all the baseball misfortune of the Copper Country town to Duluth. Last fall, he charged Duluth with knocking the Northern-Copper Country league and practically wrecking it. Now, he blames Duluth sporting writers for the "kidding" W. H. Watkins is getting for allowing the Houghton club to pull a sack over his head, while they handed him Dick Brookins, and took $350 in exchange. Houghton has the $350 in its strong box and Watkins has a worthless player. At least the player is worthless to him, as there is little doubt of his being a negro and he'll not be allowed to perform in the American association.

If the Houghton magnate believes the Duluth papers are responsible for Houghton's dealings in the Brookins case being discussed, he should read the Chicago, Milwaukee and other papers, or interview Watkins, but the latter had better be at long range. Wattie was handed a nice, juicy bunch of sour stuff and he's $350 out on the deal. Watkins is the joke of the American association circuit. He bought a cat in a bag and the seller wasn't saying anything. There's a bare possibility that Brookins is an Indian, but he'll have to give documentary proofs before anybody will believe it.

* * *

Frank Gotch and Fred Beell are talking again. Gotch says he'll cut out the toe hold if Fred will eschew the head-lock when they meet again. Which is the first chapter of a long story by the press agent, in which the next Beell-Gotch match will be boosted to the skies.

Both men are with theatrical companies, making good money throwing dubs, or allowing the dubs to stay with them fifteen minutes for immense sums. They don't want to wrestle and the fact that it took three matches to prove that Gotch could throw Beell the last time they came together will not make the public pay any fancy prices to see them. They ought to announce three matches to start on, go ahead and wrestle and cut out the press agent stuff.

* * *

Michigan is still on the fence. Following closely on an announcement that Michigan and Pennsylvania had signed another two years contract, comes an open letter from Prof. Patterson, in which he expresses the hope that Michigan will decide to return to the conference by Feb. 1, on which they must decide to get in, get out, or be automatically kicked out.

"It is well known there is a considerable party here in favor of withdrawal," says Prof. Patterson.

Whether that party can get the upper hand is a question. If they do and decide that Michigan must run the conference, or not run in the conference, they ought to be kicked out, without the art of gentle persuasion being applied, either. The conference has acceded to Michigan's request for a seven-game schedule. If the other colleges of the "Big Nine" do not choose to reinstate the training table and make the three-year eligibility retroactive, they would be ruining their own self-respect if they submitted to dictation by the Wolverines.

The people at Ann Arbor aren't altogether wrong in the upper works, though. The two defeats by Pennsylvania should give them a pretty good idea of what might be coming to them from an all-Eastern existence and by Feb. 1 they will probably make up their minds that the western conference is the best place after all.

* * *

The big league magnates show about as much foresight as an ordinary blind mule. Last year, the fans and scribes of the big league circuits tried to warm the air by roasting the magnates for opening the season so early. April 11, they opened last year, and the coming season will be shoved off the shelf April 14. Here's what the Chicago Journal thinks of it:

"The big leagues will open their seasons April 14, and, according to the alteration of dates that now prevails, this means that the Sox will have to start in Chicago. Wow, wow sacred icicles! There is one colder place than the south side grounds on April 14, but a merciful system of icebergs walls it in and keeps people from butting against it and freezing into marble. Snow falls in drifts at the south side park that day; icy breezes play ticktack with the spines of players, fans and scribes, and the whole joint is a center of misery and privation."

GOTCH AND HACK AGREE

World's Championship Wrestling Match is Likely This Year.

Baltimore, Md., Jan. 10.—Frank A. Gotch, champion wrestler of the United States, announced yesterday that he had received a telegram indicating that George Hackenschmidt had consented to meet him. The dispatch was an inquiry as to whether a date for a match between April 1 and May 1 would suit. Gotch said that it would, and that either Chicago or Kansas City would be chosen as the scene of the contest.

Baltimore, Jan. 10.—Frank Gotch, the American champion wrestler, last night failed to throw Gus Schoenley of this city twice within an hour. Gotch won the first fall in forty-one minutes and was unable to secure the next fall within the time given him.

Bemidji Basketball

Bemidji, Jan. 10.—(Special to The Herald.)—The Grand Forks basketball team, one of the fastest fives in North Dakota, will meet the Bemidji team tonight and tomorrow night here. The Bemidji team has not been defeated for two years.

FIGHTERS ARE MATCHED.

Lightweights Post Money and Will be Put in Ring Soon.

Enterprising promoters have succeeded in chasing some of the talkative young fighters, who have been putting their names before the public of late, into a corner and have matched them to fight some time this month. Where the mill is to be pulled off is a mystery. It may be a barn-yard affair in Duluth, or a regular card before some club in Superior, where there are many quiet places free from the prying eyes of the police.

Eddie Smith and Kid Mitchell will put on the main bout of the card and the curtain raiser will be staged by "Scraps" Costello and Kid Lowe of West Duluth. Smith and Mitchell will weigh in at about 130 and Costello and Lowe will swing the mits at catch weights.

ROGERS-HOGAN BOUT.

Lightweight Wrestlers Will Appear at Metropolitan.

Tonight at the Metropolitan Opera house, George Rogers of Portland, Or., will wrestle Tommy Hogan of West Duluth. Rogers agreees to throw Hogan twice in half an hour, and the friends of the West Duluth boy are backing him to the limit to stay the half hour without a fall.

Rogers is making his home in Duluth and intends to get on with Mauritz Harris. He wants to take on some of the lesser lights in the local wrestling field, first, however, and Hogan will be the man to try him out. Hogan has never appeared in public before, but he has been doing considerable work on the mat in West Duluth and the West end and thinks he is able to hold his own with Rogers.

SAYS IT IS SPITE WORK.

Wahlstrom Says Johnson is Trying to "Queer" His Match.

"Martin Johnson is simply sore because I quit him," said Sten Wahlstrom, the giant West end wrestler this morning, in speaking of the statements made by Johnson regarding his wrestling abilities.

"I was training with Johnson and quit him because I couldn't learn anything more from him. I have a receipt for money paid him for training me, and because I quit him he is trying to queer my match with Danielson Saturday night."

OWNERSHIP OF STATUE DISPUTED

Remarkable Work of Art Washed Up by the Sea.

Rome, Jan. 10.—A very remarkable Greek statue representing either a muse or a young priestess assisting at some festival, which was discovered thirty years ago in the villa of Prince Aldobrandini at Anzio, was reported to have been purchased by the Italian government. The sum of $96,000 was allotted for its purchase, and the enthusiasm of lovers of art here and in other lands was enkindled at the prospect of seeing it in a museum and studying its exquisite workmanship to better advantage than could be given by the numerous photographs of it that were published.

In December, 1878, a tempest disturbed the quiet seas which wash the shores of Anzio, the ancient Antium. The steep banks of the Villa Aldobrandini were sapped and a mass of earth fell seaward, bringing in its fall this statue which for centuries had been concealed from view in the earth which covered the ruins in the grand seaside residence in which it originally stood. After the storm abated the fair white marble figure was discovered lying on the shore where it had fallen. It remained in the Villa Aldobrandini during the last twenty-nine years, until the Italian government offered to purchase it so as to preserve it as one of the artistic treasures of the country.

Now, however, a new spirit prevails. The ministry of public instruction interpellated the council of state concerning the purchase, in order that the latter might pronounce on the question of the proprietorship of the soil in which the statue was found. Now the council has returned the acts to the ministry with what is termed an 'interlocutory decision' —that is to say, the council has said that since the statue was found upon the seashore, it becomes the duty of the ministry of finance to pronounce concerning the rights of the state over the place where the great masterpiece was found.

Now the ministry of finance must decide, and afterwards the council of state will pronounce its definite decision. The present proprietor meanwhile keeps the statue in the villa at Anzio. An American millionaire offered $120,000 for the work, but the government claimed the pre-emption. This sum, less by the tax of 10 per cent, which the government demands on the sale of art works to be sent out of the country, is the offer—$90,000—which it made. Now, however, the question of ownership will be disputed, and the chances are that it will be decreed that the present proprietor has no rights whatever in the work.

GRAND JURY DISCHARGED.

No More Indictments in the Alleged Election Frauds.

As was forecasted in The Herald yesterday afternoon, the grand jury completed its work last evening and was discharged without returning any more indictments. The grand jury report, which was made verbally by F. W. Paine, the foreman, was also correctly forecasted.

MOTHER WAS NEGLIGENT.

Kalamazoo, Mich., Jan. 10.—The coroner's jury at Plainwell, which has been inquiring into the death there of Walter Neeley, aged 4½ years, son of Mr. and Mrs. David N. Neeley of Sacramento, Cal., brought in a verdict yesterday afternoon finding that the child died of pneumonia and declaring the mother guilty of gross negligence for failing to secure the services of a physician or to call in medical attendance. The child was treated by two members of a sect of mental healers.

What's the Use?

To you, of a sale where the first prices were above par. You know that our regular price is low, but to that we are making a 20 per cent discount, until Jan. 22. Nothing excepted from our big stock, and you had best join the run on our goods.

GETS BACK FROM RANGE

County Attorney Returns and Grand Jury is Discharged.

Five Alleged Blind Piggers Are Arraigned in Court.

"Just a little business trip in the interests of the office. No special significance," said County Attorney John H. Norton last evening, relative to his flying trip to Hibbing and other range points while the grand jury was in session.

Mr. Norton returned to Duluth yesterday afternoon before the grand was discharged, so that he had ample time to bring anything that he had up his sleeve to the attention of the grand jury had he so desired. That he did not go before the jury on his return is taken as pretty good evidence that his trip to the range had nothing to do with grand jury investigations.

Five persons indicted for operating blind pigs near Virginia were arraigned yesterday afternoon. They were not brought down by an officer, but came to Duluth of their own free will as soon as notified of the indictments and that warrants had been issued. It is understood that in these cases the accused men and the woman run boarding houses for miners. According to the information in the indictments, the persons accused sold either beer of whisky to men employed by the county attorney's office in seeking evidence against places where liquor is being sold illegally.

Matt Devechich is claimed to have sold a pint of whisky to John Stilonivich for 50 cents. Jack Shepetch is claimed to have sold ten one-quart bottles of beer to Louis Tourine for $1. Matt Yukalich is accused of selling John Killanj three one-quart bottles of beer for 30 cents. Mrs. Margaret Gregorich is claimed to have sold Stilonivich three one-quart bottles of beer for 20 cents on one occasion and five bottles of beer for 50 cents at another time.

Jack Chopp is claimed to have made two sales of beer to Andy Vidma, three one-quart bottles each time, for 30 cents.

It is possible that a few more range people indicted for selling liquor without a license will come in today. The five people already arraigned on the charge of blind pigging are represented by N. B. Arnold of Eveleth.

LORD CURZON MEETING A DEAL OF OPPOSITION.

London, Jan. 10.—The election address of Lord Curzon, ex-viceroy of India, announcing his desire to return to public life through his election as an Irish representative peer, is of course the political topic of the hour in British politics. It is most significant of high value placed on the man's talents of statesmanship and ability to find that his political opponents among the members of the present government are using every possible influence to prevent him from joining the opposition.

There is small doubt but that the large body of the British public, which is already to sink political considerations in favor of the usual sentimental and intrinsic rewards for admittedly great service to the empire was more than vexed when on Lord Curzon's return from India the late government—his own political colleagues—deviated from precedent by failing to give him, as an ex-viceroy of India, a seat in the house of lords.

Traces of the animosity shown Lord Curzon by some of the leaders after his resignation are easily discernible in the discussion of his latest move, and many technical points have been raised against his candidacy from Ireland. Indeed, it is even declared that he can not now legally receive an Irish representative peerage because he is neither of Irish blood nor is he the owner of Irish land, which have always been considered qualifications; and it seems to me that, taking this and several other unpropitious circumstances into consideration, the indications are that the former viceroy will have an exceedingly difficult task, even if he succeeds at all, in gaining the coveted place.

The opponents of the former viceroy in both England and Ireland are also arguing against him to the effect that, as the heir apparent of his father, the fourth Baron Scarsdale, he will ultimately become a peer of the realm, and that, in view of the fact that an Irish representative peerage is irrevocable, and that, unlike the English or Scotch peerage, it can never be transferred on the raising of the owner to higher honors, Lord Curzon's attitude is rather unreasonable.

ROMANCE ENDS IN ASYLUM.

German Count Weds Laundress' Daughter and Spends $50,000.

Berlin, Jan. 10.—Count Erasmus Zu Erbach-Erbach, a young German nobleman, who was recently sent to Ahrweiler asylum on grounds of mental irresponsibility, after his elopement with the daughter of a laundress, last year, escaped last week. It is supposed that he has gone to Bavaria, where, according to alienists who examined him, he need not fear compulsory confinement.

The count, who is 24 years old, when he eloped, renounced all rights to the fortune of his father, who is among the richest of the German nobility. The count and his sweetheart lived in Holland, where they contrived to spend in a few months $50,000, which his family had settled on him. Some weeks ago the count returned to Germany penniless, and conducted himself in such a way that his father, Count George Albert Zu Erbach-Erbach, had him confined in an asylum.

BOTH SULTANS ARE AFRAID.

Neither Abdul Aziz or Mulai Hafig Dares to Move.

Casa Blanca, Jan. 10.—The war of the two sultans continues with varying success. The troops of Muldai Hafig hesitate to attack those of Abdul Aziz, while the latter's forces absolutely refuse to advance to attack Mulai Hafig's army. Mulai Hafig is reported to be nervous as to the future, while Abdul Aziz is said to be absolutely scared. Neither has any money, and the general population does not care who wins the day. Individuals in the army and whole towns adopt each cause in turn with joy and acclamation, and abandon it a few days later with equal exuberance of spirits.

Abdul Aziz has ordered the release of a former minister of war whom he has kept for thirteen years in a dungeon at Tetuan. It is believed that he will be reinstated in his high position as Abdul Aziz now has a better opinion of his talents.

The presence of Mulai Hafig among the tribes through whose territory he is passing, also the sight of the troops obtained after engagements with the imperial forces, have initiated a strong movement in favor of adhesion to the sultan of the South, and his mahalla is receiving additions of armed contingents every day.

Among the booty taken from Buchta el Bagdadi was a large quantity of chains with which he intended to load his prospective prisoners. These chains were hurriedly forged by blacksmiths at Rabat, who worked night and day, and who were prevented by the government from accepting any other work. The chains are now borne by the imperial troops themselves, who march in sinister groups of thirty or forty. Many of them have died from their sufferings, but their bodies still hang on the chains, and are dragged about by those who remain alive.

BRIEF TELEGRAMS.

The jury in the case of Hugh Daly, a saloonkeeper, the second to be tried under charges of violating the Sunday closing law, brought by the Chicago Law and Order league, was unable to find a verdict and was discharged Thursday afternoon. The previous case, that of Thomas Chamalmers, was tried twice, resulting first in a disagreement and then in an acquittal.

In an altercation at Shopville, Ky., between Postmaster Harvey McHargue and Claude Price, McHargue was shot and killed and Price was probably fatally stabbed. The trouble is said to have been the result of McHargue ordering Price to refrain from calling on a young woman in the postmaster's home.

In an indictment returned Thursday afternoon, William R. Mason and Joseph Vanderweide,are charged with conspiracy to assassinate Joseph A. Walker, secret service agent, who was shot and killed by Vanderweide, at the Hesperus mine, near Durango, Colo., Nov. 3 last. Mason was with Vanderweide at the time of the killing.

Two negro farm hands who made a murderous assault on Mr. and Mrs. Martin Livingston at their home in Goldsboro, Or., Wednesday night, were captured by a posse and shot to death.

It Does the Business.

Mr. E. E. Chamberlain, of Clinton, Maine, says of Bucklen's Arnica Salve: "It does the business; I have used it for piles and it cured them. Used it for chapped hands and it cured them. Applied it to an old sore and it healed it without leaving a scar behind." 25c at all drug stores.

COLLAPSE EATING ORANGES.

Eating Contest May Cost Lives of Two Hello Girls.

Marion, Ohio, Jan. 10.—Gorging in an orange eating contest, the award to the winner to have been a morning luncheon, may cost two young telephone operators of Agosta their lives. Physicians express little confidence in their ability to save the girls, Hazel Hosler and Cuba Crissinger, each 14 years old

In the Agosta Home Telephone company's exchange, as the New Year came in, each mixing in two bananas, they devoured thirty-eight oranges before they were overcome. Physicians, working all day, have produced little improvement in their patients.

Miss Hosler was ahead when the eating contest halted, having consumed twenty of the oranges to Miss Crissinger's eighteen.

ACCEPTS BISHOPRIC.

Racine, Wis., Jan. 10.—Official announcement has been made by the Rev. Henry D. Robinson, warden of Racine college, that he will accept the position of bishop of the missionary district of Nevada, to which he was elected by the house of bishops in convention at Richmond, Va., several weeks ago, and that he will leave the college, but not for a number of months.

BLOOD POISON

HUMILIATING-VILE-DESTRUCTIVE

The first symptom of Contagious Blood Poison is usually a little sore or ulcer, which is quickly followed by a red rash on the skin, swollen glands in the groin, falling hair, ulcerated mouth and throat, and often copper colored splotches on different parts of the body. As the blood becomes more fully contaminated with the poison, pustular eruptions and sores break out on the flesh, and in extreme cases the nerves and bones are attacked and the finger nails drop off. Then the sufferers find themselves diseased from head to foot with this humiliating, vile and destructive poison. No other disease is so highly contagious; many an innocent person has been inoculated by handling the clothing or using the toilet articles of an infected pers . There is but one certain, reliable cure for Contagious Blood Poison, and that is S. S. S. It attacks the disease in the right way by going down into the circulation, and neutralizing and forcing out every particle of the poison. It makes the blood pure and rich, tones up the system, and completely and permanently cures this disease. S. S. S. has cured thousands of cases of Contagious Blood Poison. If you are suffering with this debasing and destructive disease begin the use of S. S. S. and get the poison out of your blood before it permanently wrecks your health. We have a home treatment book on the disease which we will send free to all who wish it, and in addition our physicians will give without charge any medical advice needed. NATIONAL BISCUIT COMPANY

VOLCANO IS TO BE SOLD

Crater, Which is Full of Sulphur, is Especially Valuable.

Annual Increase is Sufficient to Supply the Whole World.

Mexico City, Mex., Jan. 10.—The Popocatepetl volcano is for sale. This announcement ought to attract the attention of dealers in volcanoes. It has been said, with much truth, that no legitimate business proposition is too big or daring for American investors to tackle. The Popocatepetl volcano is an exception to this general rule. American promoters have been trying for many years to float companies to take over and operate the the property for its sulphur deposits and to establish other interesting features in connection with the giant mountain, whose snowcapped head overlooks the Valley of Mexico. The latest of these projects has failed and the famous volcano has passed back into the hands of Gen. Casper Sanchez Ochoa of this city, who came into its possession a great many y[illegible]ago.

Gen. Oc[illegible]a thought he had got rid of the monster volcano by selling it to a syndicate of Americans, headed by Capt. Charles Holt, formerly of New York, but a resident of Mexico for several years. Capt. Holt purchased the volcano in 1904 for a reported consideration of $5,000,000 United States money, which is equivalent to $10,000,000 Mexican money.

Capt. Holt was unable to finance the big proposition and after three years of effort in that direction the project was abandoned, and a few days ago title to the mountain reverted to Gen. Ochoa. It is stated that Capt. Holt is still interested in the park and hotel features of the original plan, and that Gen. Ochoa and other men of means are connected with the minor projects.

148 Million Tons of Sulphur.

It is a dizzy proposition to think of mining sulphur at an altitude of 18,000 feet. But it is asserted by experts who have investigated and reported on the feasibility of the plan, that the physical difficulties which stand in the way can be overcome by the application of engineering ingenuity, backed by sufficient money to carry it through.

A commission of mining experts appointed by the Mexican government made an exhaustive study and investigation of the sulphur deposits contained in the crater of the Popocatepetl volcano a few years ago. This official report states that not only is this sulphur deposit the largest in the world, but that this native nonmetallic element is absolutely pure as it exists in the crater of the Popocatepetl volcano. The report shows that at the time the investigation was made there were approximately 148,000,000 tons of sulphur in the crater within a depth of 600 feet.

The manufacture of sulphur through the influences of nature is going on constantly, and, according to the estimates made by the government experts, this annual increase amounts to approximately 1,480,000 tons. Astounding as these figures may appear, they are amply verified by measurements made from year to year.

The annual consumption of sulphur in the United States is a little more than 200,000 tons, and all of Europ consumes annually less than 400,000 tons. Most of the commercial sulphur is known as seconds, or 98 per cent pure. The annual increase of sulphur in the crater of Popocatepetl is sufficient to supply the markets of the world, it is asserted.

The greatest sulphur producing country in the world is Italy, which has an annual output of about 550,000 tons, according to the most reliable figures obtainable here. Nearly all of Italy's sulphur comes from the island of Sicily. The United States, France and Japan produce, all told, less than 100,000 tons annually.

At an average market price of $20 gold a ton, the value of sulphur stored in the crater of the volcano is fabulous. It was the ambitious plan of Capt. Holt to supply a big part of the world with the product. He said it could be mined and placed on the market in the United States at an expense of not exceeding $10 gold a ton. This would have left a big margin of profit if his figures were correc.

Mined for Four Hundred Years.

The mining of sulphur in the crater of Popocatepetl has been carried on intermittently for 400 years. During the time of the conquest, when Hernando Cortez was in power, the deposits were mined in a primitive way by the Spaniards. Since then great quantities of the sulphur have been brought out of the crater on the backs of Mexicans and carried down the mountain and thence sent to market.

The daring of some of these native sulphur miners is remarkable. They do not hesitate to go to the very rim of the hole which comes up through the incrusted deposit of sulphur, and which leads far down to the ever-seething cauldron of the volcano. The crater is about 2,000 feet in diameter, and the fumes which constantly pour forth through the ventway are dissipated in the air above before they extend to any harmful degree over other parts of the crater. In most places the walls of the crater are perpendicular. The descent from the rim of the crater to the top of the sulphur deposit is a sheer 580 feet.

The natives who engage in mining the product in a desultory way for Gen. Ochoa reach the mine by means of rope ladders, bringing the product out on their backs. Enormous blocks of pure sulphus are scattered about the mine. Some of these chunks weigh 150 pounds each.

The temperature in the crater is comfortably warm. On the outside or top of the mountain is an area of snow and ice, which extends far down its sides.

It requires a great amount of endurance and no little spirit of daring to make the ascent of Popocatepetl. Of the hundreds of Americans who visit this city during the winter tourist season only a few of them have the hardihood to try to scale the heights of the rugged mountain, which is situated only sixty miles away. A few American women have made the ascent.

Those who have reached the summit say that it is a journey well worth the hardships which are encountered in making it. From that great height, on a clear day, the view is magnificent. Mexico City and the beautiful valley of Mexico lie at the foot of the mountain and in the distance may be seen other towns and cities. It is necessary to obtain a written permit from Gen. Ochoa before making the ascent. He cheerfully gives these permits to all who ask for them, but it is a formality which he has always enforced during his ownership of the mountain.

It has been more than 100 years since Popocatepetl had a violent eruption. It still ejects gases from the orifice that leads down into the burning pit, but this little evidence that it is still alive is lightly regarded by those who would make it yield up to the world its great store of sulphur.

Popocatepetl is a good volcano. That is a trait of its character which is well worth considering by prospective American buyers.

We are the people,—

Our demands should be respected.
Give us good homes, plenty to eat and comfortable clothes.
Give us education, training and good society.
Give us good fathers and mothers.
Give us Chamberlain's Cough Remedy when we have coughs, colds or whooping cough. We are entitled to the best and should have it.
We are to inherit the earth.
Prepare us for this great responsibility by giving us what we demand, and we will become honest, industrious, upright citizens, proud of our ancestry and loyal to our country.

NEW WORK FOR RAND CHINESE

Are Being Used as Railroad Laborers in South Africa.

Johannesburg, Jan. 10.—New employment has been found for a number of the Rand Chinese, who will thus not all be repatriated at the conclusion of their agreements. Great shortage of labor has been experienced at Lobito Bay, the port in Portuguese West Africa, whence a railway line is being constructed inland by the Benguella Railway company. The scheme is a bold one, the ultimate idea being that the Rhodesian railways shall extend their line from Broken Hills, 657 miles north of Bulawayo, to the Kansapshe mine, where the Benguella railway would connect with it, and that with the starting of a regular service of steamers from Southampton to Lobito Bay a new express route would be created between Great Britain and Johannesburg and other inland towns.

The Capetown authorities, seeing the menace to the interests of South African ports, are anxiously watching the progress of the line, which, owing to various difficulties—the chief of which is the shortage of labor—has been somewhat retarded hitherto, although 100 kilometers have been finished. The country generally is very level and favorable to construction. Now, however, the Transvaal has come to the rescue, and about 2,000 Chinese from the Rand and the adjacent districts are to be sent to the railway works.

While the production of gold is increasing, the employment of coolies is being steadily reduced. The total number of laborers employed in the Transvaal mines (exclusive of the Robinson group) was 141,237 at the end of November, and of these 103,509 were natives. Apparently the magnates are quite resigned to the repatriation of the Chinese and have resolved to do the best they can with native labor. Their attitude it no longer one of despair, and, instead of bewailing their poverty, they are increasing interim divi[illegible]ds.

ALL READY AT DENVER

Colorado Man Says Democrats Will Have Rare Old Time.

"Boomers" of Western City Prepared to Entertain Them Royaly.

"There's only one objection against Denver as the place for holding the coming national Democratic convention; the altitude is so high, for Denver is just a mile above the sea level, that any candidate, officeseeker of partisan worker who should happen to give vent to wild delight by overexerting himself, might come to in a hospital and discover he had suffered with palpitation of the heart."

W. P. Clausen, at the Lenox, comes from the city that has secured the coveted honor of holding the next national Democratic convention, and is one of the rabid boosters for the Colorado city, but he admits that the rarified atmosphere is liable to complicate some of the zealous workers in behalf of Democracy.

For instance, he suggests that if William Jennings Bryan were to be stricken with a severe pumping of the heart, just as he reached the crucial point in the elucidation of the platform, just a few planks shy of a complete structure, you understand, the whole country, that hung breathless on his long-heralded information, might be obliged to wait until the commoner got acclimated and got his left organ into working order again.

Suppose, he suggests, that "Dry Dollar" Tim Sullivan and Senator Pat McCarron became immersed in a heated argument over the part Tammany was to play in the convention, and should both become so saturated with Colorado rarified atmosphere as to leave their loyal legions leaderless and without official mouthpieces.

Mr. Clausen suggests that the candidates journey out to Denver ahead of schedule time, just as ball players take pre-season training in the South, and take mild constitutionals in the Colorado hills. They might emulate the ancient, who filled his mouth with pebbles and told his troubles to the rills and wooded hills, taking care, however, not to permit enthusiasm carry them away until they got acclimated.

"Just think what an advantage they would have over the brother candidate who had failed to take this course of preliminary tryouts," says Mr. Clausen.

But then, after suggesting what might happen, Mr. Clausen says that Denver will give the visiting delegates the best time they ever had. He says they have hotels in plenty to care for the visitors, have one of the most beautiful cities that can be found throughout the width of the United States of America, and have a lot of citizens who will hang out the latch string to the followers of Thomas Jefferson.

He says that they are making ample preparations for the entertainment of the delegates, and when the advance guard of Democracy hits the Colorado city, they will find that their wants will have been provided for and every precaution taken for the entertainment of the visiting delegates.

He doesn't even suggest that the convention need be a quiet or a subdued one. He only advises caution, They will be a mile above the sea, clear up in the clouds, so to speak, but he believes that in spite of that no fog will get into the utterances, and that after the first little tryout with he thin air candidates and officeseekers, spellbinders and state chairmen can pound desks and do the delsarte arm and elbow gestures with the utmost abandon.

WOMAN'S REFUSAL TO DISROBE REVEALS FRAUD.

Paris, Jan. 10.—After three years' preliminary investigations, a band of insurance swindlers, including a doctor and two bankers, have been committed for trial. The principal parties in the fraud were a doctor, named Lacombe, and an insurance agent, named Frager. Lacombe indicated to Frager those of his patients whose condition foretold an early death. Frager then introduced the condemned men or women to contract a life insurance to the profit of a third party, who was always described in the policy as a creditor of the insured, but who was in reality an accomplice of the doctor and the agent.

In every case the medical examination was passed by some healthy-bodied individual engaged for the occasion. On the death of the insured, the accomplices divided the amount of the policy between them. The frauds were discovered in the following fashion:

A man and a woman, strangers to each other, had been engaged by the swindlers to undergo medical examination by an insurance company doctor, in the place of a decrepit couple, whose days were numbered. The doctor requested the woman to strip, but, much to his astonishment, she refused to do so in the presence of the man who she had declared was her husband. The doctor's suspicions were aroused, and as the result of subsequent investigations, the whole series of frauds, of which more than one insurance company had been the victims, were discovered.

Rank Foolishness.

"When attacked by a cough or a cold or when your throat is sore, it is rank foolishness to take any other medicine than Dr. King's New Discovery," says C. O. Eldridge, of Empire, Ga. "I have used New Discovery seven years and I know is is the best remedy on earth for coughs and colds, croup, and all throat and lung troubles. My children are subject to croup, but New Discovery quickly cures every attack." Known the world over as the King of throat and lung remedies. Sold under guarantee at all drug stores 50c and $1. Trial bottle free.

Grippe!

There is said to be 50,000 cases in New York.

Scott's Emulsion

will strengthen and fortify you against the Grippe, and if you have had it, it will build you up quicker than any other known remedy.

GOVERNMENT WINS SUIT

Court Decides Capt. Carter Not Entitled to Bonds.

Chicago, Jan. 10.—Judge Kohlsaat in the United States circuit court rendered a decision yesterday afternoon in favor of the government in the suit against Capt. Oberlin M. Carter, former United States army engineer, charged with having defrauded the federal government to the extent of $700,000 through conspiracy with Contractors Greene and Gaynor.

The court ruled that Carter was not entitled to the $400,000 in unregistered railroad bonds and other securities traced by the government to safety deposit vaults and banks in various parts of the country.

Under the decision the government will retain these securities and the famous case which resulted in the conviction of Capt. Carter and of Greene and Gaynor, and the imposing of penitentiary sentences is brought to a close.

SAYS MARRIAGE WAS ONLY A JOKE

Maloney Asks Court to So Decide in Osborne Affair.

New York, Jan. 10.—Martin Maloney of Philadelphia made known through a formal statement given to the Associated Press last night that proceedings had been instituted to obtain a court judgment declaring that there was no marriage between his daughter and Herbert Osborne, the young New York broker, who according to the county records was tecanically united in matrimony at Mamaroneck, Dec. 28, 1905. Fictitious names were given by the parties to the ceremony and the two never lived together.

Mr. Maloney does not go into details in his announcement, but it is understood that present court action is based upon the admission of the young people that the idea of their union was conceived in a spirit of fun and that the marriage was a joke.

Subsequent to the Mamaroneck ceremony Miss Maloney accepted the attentions of Samuel Clarkson, a young Englishman, who had been a guest at the Maloney home. On Oct. 1, last, Clarkson and Miss Maloney simultaneously dropped out of sight, and were next heard from in London, where Miss Maloney was found living at a hotel and Clarkson in bachelor quarters. Following the disappearance of the two and while efforts to locate them were being made by the Maloney family, the situation was further complicated by the published claim of Osborne that he was the husband of the missing daughter.

Mr. Maloney's statement follows: "Proceedings have been instituted to obtain a judgment declaring that there is no marriage between Helen Maloney and Arthur H. Osborne. The statements in the papers in regard to the position assumed by the family are entirely erroneous. Intimations of a settlement upon Mr. Osborne and his surrendering rights are without foundation and do him a very grave injustice."

CLEVER INSURANCE FRAUDS.

Doctor and Bankers Face Serious Charge in Paris Court.

Paris, Jan. 10.—After three years' preliminary investigations, a band of insurance swindlers, including a doctor and two bankers, have been committed for trial. The principal parties in the fraud were a doctor named Lacombe and an insurance agent named Frager. Lacobe indicated to Frager those of his patients whose condition foretold an early death. Frager then induced the condemned men or women to contract a life insurance to the profit of a third party, who was always described in the policy as a creditor of the insured, but who was in reality an accomplice of the doctor and the agent. In every case the medical examination was passed by some healthy bodied individual engaged for the occasion. On the death of the insured the accomplices divided the amount of the policy between them.

The frauds were discovered in the following fashion: A man and a woman, strangers to each other, had been engaged by the swindlers to undergo medical examination by an insurance company doctor, in the place of a decrepit couple, whose days were numbered. The doctor requested the woman to strip, but much to his astonishment, she refused to do so in the presence of a man who she had declared was her husband. The doctor's suspicions were aroused, and as the result of subsequent investigations the whole series of frauds, of which more than one insurance company had been the victims, were discovered.

FLATIRONS AS BEDFELLOW.

Viroqua, Wis., Jan. 10.—Awakening from slumber in the dead of night, W. S. Tate of this city found himself in a burning bed. Springing up, he poured water over the bedclothes and tossed the burning mass out of the window into the snow. His wife being away for the night, he took a couple of flatirons to bed to prevent a case of "cold feet." After he had drifted into the land of dreams the irons ignited the bedclothes.

Like soap to the skin are Cascarets to the bowels. Use them like soap—in small doses and regularly. It is nice to keep clean inside.

It is a great deal more necessary to keep clean on the inside than on the outside.

Cascarets are more important than soap.

The pores of the skin may become clogged with dirt, but they don't absorb the impurities.

The pores of the bowels do.

There are myriads of pores in the bowels, the duty of which is to absorb the nutriment from food.

That's how we get our nourishment.

But if the bowels are sluggish the food is delayed. It decays and forms gases and poisons. Then those pores of the bowels suck poison into the blood.

That's how we get our ills.

We urge the habit of cleanliness.

Don't wait till you need a physic. That leaves too much of the time when you are only half well.

Keep yourself at your best.

The right way is to carry a box of Cascarets with you. It fits the pocket or purse. Take one just as soon as you know that you need it. It is gentle and sure.

Cascarets are candy tablets. They are sold by all druggists, but never in bulk. Be sure you get the genuine, with CCC on every tablet. The price is 50c, 25c and

Ten Cents per Box 791

DEFECTIVE PAGE

MOST EFFECTIVE.

Neglect of even an ordinary cough or cold is apt to leave the lungs sore and especially susceptible to bronchial affections. To break up a cold quickly and cure any cough that is curable there is nothing more effective than a mixture of one-half ounce of Virgin Oil of Pine, with two ounces of glycerine and a half pint of good whisky. Take a teaspoonful every four hours. Five ounces of tincture Cinchona compound can be used instead of whisky with the same result.

The ingredients for this mixture are not expensive and can be purchased at any good drug store. It will always be found more satisfactory, however, to purchase each separately and mix them at home. Virgin Oil of Pine is a pure compound, guaranteed by the manufacturers under the Food and Drugs Act, Serial No. 451, and is prepared only in the laboratories of the Leach Chemical Co., Cincinnati, O., being put up, for dispensing, only in half-ounce vials, each vial securely sealed in a round wooden case.

FREE PHONES NOT ALLOWED

Some Low Rates Granted Under New Law, However.

The anti-pass law which became effective the first of the year affects telephone and telegraph companies and other companies of similar character, as well as the railroads. Under this law it is not allowable to give free telephone service to any person, company or institution, and, acting in accordance with its terms, John F. McKanna, city manager for the Duluth Telephone company, has notified those who were heretofore on the free list that their telephones can no longer be maintained without expense to the subscriber. In charitable institutions, however, such as the Children's home, the Duluth Telephone company is allowing the telephones to remain at half rates, which is permissable under the law.

LA FOLLETTE RESIGNS FROM SENATE COMMITTEE.

Washington, Jan. 10.—Senator La Follette of Wisconsin yesterday secured the consent of the senate to retire from membership on the committee on military affairs. He assigned no reason for his course, and had nothing to say when pressed for an explanation of his act in precipitately leaving one of the influential committees of the senate. It is known, however, that Senator La Follette has not been entirely satisfied with the committee assignments he has received, and that he has taken no interest whatever in military affairs. The only meeting of the military affairs committee to be held since the reorganization of the senate committee took place yesterday. Senator La Follette did not attend. He received the appointment to this committee in place of a membership on the committee on claims, which he held during the last congress and for which he had no better liking than the assignment which took its place.

IS GIVEN VERDICT.

F. S. Kelly Wins His Suit Against John Thomasson.

F. S. Kelly secured a verdict for the full amount sued for in his case against John Thomasson, this morning.

Mr. Kelly claimed $160.57 on a breach of contract. Mr. Thomasson put in a counter claim, alleging that Mr. Kelly had not kept his part of the agreement. The jury, however, decided in Mr. Kelly's favor, after hearing the testimony.

There's quite a Row about Unsanitary Bakeshops

We don't know how bad or how good they are.

The papers say some startling things and the health boards are stirred up.

It seems an opportune time to say that the most nourishing bread in existence is not in the shape of bread at all, but is composed of granules.

That's GRAPE-NUTS.

No bread in the world is so nutritious, for Grape-Nuts food is made of entire wheat and barley and goes through various processes of baking, during which the starch part is turned into a form of sugar to be seen glistening in minute particles on each granule of Grape-Nuts. The food is the easiest to digest in the entire list of all foods, and it will pay to use it in place of white bread and observe how well you feel.

The factories are the world's standard for cleanliness and sanitary conditions.

Scores of visitors are escorted thru the factories each day and see just how Grape-Nuts and Postum are made and how immaculately clean every nook and corner is.

Come, you all are welcome.

If you can't come, send a postal with address carefully written and we'll mail free the beautifully illustrated book, "The Door Unbolted."

It takes one all thru and the pictures show the interesting machines at work.

Grape-Nuts food and Postum are never touched by human hands in the process of making.

There's happy health with Postum and Grape-Nuts, and

"There's a Reason"

Postum Cereal Co., Ltd., Battle Creek, Mich.

CASES ARE NUMEROUS

Insane Aliens Keep the Local Immigration Office Busy.

Several Other Deportation Cases Also Are on Tap.

The annual rush of insane alien cases is now besieging the local immigration office, and United States Immigrant Inspector William H. Dean is kept busy looking them up and reporting them to the higher authorities.

There are also several deportation cases occupying his attention, which do not come under the insane class. The winter months are always the busiest in this particular respect, and it is a good thing that this is true, for in the summer the regular routine work is enough to keep the immigration force busy.

Winter never fails to bring a bunch of cases to Mr. Dean that are never heard of during the summer months. For one thing, those who are in ill health find it harder to get along in winter than summer, and are more likely to become public charges. As soon as they do become charges on the county, the matter is taken up with Inspector Dean, and if it is found that the alien has been in this country for a period less than two years, and that causes existing prior to landing contributed to his becoming a public charge, the case is taken up with the Washington office, through Montreal, where the head office of the Duluth district is located.

Inspector Frank W. Heath left for New York Wednesday with a deportation case, and orders of deportation are expected in several more cases that are at present on tap.

DANISH NEWSPAPER

Will Attempt to Secure Rehearing in Mathiasen Case.

Omaha, Jan. 10.—The Pioneer, a Danish newspaper of this city, has undertaken a crusade to secure a re-hearing of the case of Peter Mathiasen, who is sentenced to be hanged in Beltrami county, Minn., Feb. 7, for the murder of J. Johansen, another Dane. Mathiasen is said to be an ignorant Dane who could not speak English and his attorneys at the trial who could speak Danish, were unable to understand the case.

Mathiasen has written an appeal to the Omaha newspaper asking that the paper assist him, as he is without funds.

In sentencing Mathiasen to death, the judge fainted on the bench.

Increase in Tonnage.

The lake vessels of last year averaged four times the size of the boats in use on the lakes in 1885, according to a table of figures prepared yesterday by Special Deputy Collector N. A. Linderberg. In 1885 the average tonnage of a lake vessel was 761, and last year the average tonnage was 2,890.

SCHOONER IDENTIFIED.

Norfolk, Va., Jan. 10.—The schooner that went to pieces off Diamond shoals Tuesday has been positively identified as the Leonora, from Round Pond, Me., laden with fish scrap, and bound for Charleston, S. C. The rescued cook regained consciousness yesterday afternoon and confirmed the identification. Wreckage washed ashore bore the name. Four bodies were washed ashore during the day. One of the crew is still to be accounted for. The life-savers say that not even a spar of the wreck remains to show where the vessel struck.

AN ANNUAL ELECTION

Garfield Republican Club Will Hold Meeting Jan. 18.

Candidates and Others Will Speak on Political Situation.

The Garfield Republican club will hold its annual election of officers at Kalamazoo hall Saturday evening, Jan. 13.

Aside from the election, other matters of business connected with the organization probably will come up, and there will be several speakers on the political situation. All the Republican candidates will be given an opportunity to address the meeting, and it is expected they will take advantage of the opportunity.

Roland D. Haven, Republican nominee for mayor, will give a talk, and the several aldermanic candidates will also be on hand, and it is expected everyone will have something to say. The chances are that there also will be a few speakers who are not candidates. Altogether, the meeting promises to be a very interesting one. It will mark the real beginning of the mayoralty campaign.

FINDS "DUKE" TO BE INSANE

Probate Court Commits Colored Man to State Hospital.

Arthur J. Baird, a colored man commonly known as "the Duke" among the people of his own color, was found to be insane, after an examination in the probate court yesterday afternoon, and was committed to the state asylum. Baird is claimed to have acquired his nickname by reason of his hirsute adornment, his education and general demeanor.

Before the examining board of physicians yesterday Baird appeared rational except on one subject. He has an idea that a murder was committed at the Royal hotel in this city the other night while he was there. He insists that he heard some shots fired on the fire escape and knows that two colored men were killed by a white man, although he, Baird, did not actually see the killing. Baird told the physicians that he has been unable to fix in his mind clearly all the details of the murder, that there is something about it that eludes his efforts to recall. He claims that as soon as he heard the shots he ran out in the street partially dressed and was stopped by a policeman. Although taken to the jail the day preceding his examination, Baird insisted that he had been there since last Saturday.

According to the information furnished the physicians Baird's parents were Virginia negroes, former slaves. He was brought up in Missouri.

You'll be healthy and happy if your liver and bowels work naturally. Hollister's Rocky Mountain Tea. Keeps these organs working right, brings robust health to all. Try it now. 35 cents, Tea or Tablets. Ask your druggist.

ROME BARES BLACK HAND.

Frequent Stabbings and Murders Traced to Criminal Association.

Rome, Jan. 10.—A criminal association resembling the Camorra of Naples and known as the "Crusade" has recently been discovered in Rome. Cases of stabbing and murder have been frequent here, and the criminals not only escape, but the motives of the crimes remain a mystery.

A typical case was the recent murder of an old shoemaker, who was stabbed during broad daylight. The police discovered that the old man had been on the friendliest terms with a young man who, a few years ago, was one of the worst characters in Rome, but who is now married and living honestly. His reformation was due to the old shoemaker, who had found him work and continually watched over him.

The young man had been a member of the "Crusade," which, deeming him a traitor, had notified him that unless he rejoined, the band would first murder the shoemaker and then, if he still remained away, they would murder him. The young man dared them, and the shoemaker was murdered the next day. The police arrested several members of the "Crusade."

WOMEN GET MONEY.

Sensational Allegations in Suit Brought by Col. Snell's Son.

Clinton, Ill., Jan. 10.—Testimony was begun yesterday in the suit instituted by Richard Snell, son of Col. Thomas Snell, the late millionaire railroad builder, in the Dewitt county circuit court, to break the will which cuts young Snell off with an annuity of but $50.

Sensational statements were made by counsel for the defense, to the effect that Col. Snell had expended no less than $300,000 upon women during the last ten years of his life, of which $75,000 had gone to his alleged grandniece, Maybelle Snell, of Kansas City, Mo., now Mrs. McNamara.

The defense stated that letters will be read to the jury that were found among Col. Snell's possessions, indicating that society women had cajoled nearly a quarter of a million dollars from the late millionaire.

Richard Snell alleges that the terms of his father's will was the result of an "evil and wrongful influence" exerted over his father by Maybelle Snell, now Mrs. McNamara.

Col. Snell made his fortune building railroads. During the Civil war he commanded the One Hundred and Seventh regiment of Illinois volunteers. He died over a year ago at 90 years of age.

ROME TO BE CONNECTED WITH THE SEA BY AVENUE.

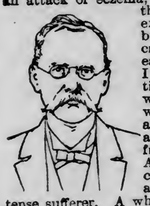
Milan, Jan. 10.—A commission has been appointed to consider an important project now on foot to connect Rome with the Mediterranean coast by means of an avenue some sixteen miles long and 260 feet broad, to extend from the Basilica San Paolo to the sea front, near Sastel Fusano. It is proposed to reserve a breadth of thirty feet in the center of the avenue for a double line of electric railway. Only express trains would be put on this line, to run at a speed of fifty to sixty miles an hour, and so cover the whole distance in about twenty minutes. To the right a second electric railway, with two pairs of rails, would occupy a further thirty feet and would be devoted to the local passenger and goods service. A platform forty feet wide would serve the two railways. Again to the right there would be a road twenty-seven feet wide and a footpath seventeen feet wide.

To the left of the express line it is proposed to construct a motor car track thirty-six feet wide, with a dividing barrier in the center, each section to be reserved for cars proceeding in one and the same direction, so as to avoid collision. Further to the left there would be a horse and bicycle track, twenty-seven feet wide and similarly divided, and the remaining width of the road on this side would provide a second carriage road and footpath. Subways are proposed to connect the footpaths, roadways and platform with one another, and no level crossings are to be allowed. Such subways would provide accommodation for the passage of vehicles. An electric plant would be installed on the banks of the Tiber which in co-operation with existing municipal plants, would supply the requisite power to the two railways.

TWO REMARKABLE CURES OF ECZEMA

Over Twenty-three Years Ago Baby had Severe Attack—Years Later Grandfather Suffered Torments with the Disease—Virulent Sores Developed from Knees to Toes.

BOTH OWE COMPLETE RECOVERY TO CUTICURA



"In 1884 my grandson, a babe, had an attack of eczema, and after trying the doctors to the extent of heavy bills and an increase of the disease and suffering, I recommended Cuticura and in a few weeks the child was well. He is to-day a strong man and absolutely free from the disease. A few years ago I contracted eczema, and became an intense sufferer. A whole winter passed without once having on shoes, my ankles and nearly from the knees to the toes being covered with virulent sores. I tried practitioners, specialists, dermatologists, etc., to no purpose. My daughter-in-law reminded me of having prescribed Cuticura for my grandson more than twenty years ago. I at once procured the Cuticura Remedies and found immediate improvement and final cure, till to-day, though well along in years, I am as though I had never had that disease. I am well known in the vicinity of Louisville and Cincinnati, and all this could be verified by witnesses. M. W. LaRue, 845 Seventh St., Louisville, Ky., April 23 and May 14, 1907."

The agonizing itching and burning of the skin, as in eczema; the frightful scaling, as in psoriasis; the loss of hair and crusting of scalp, as in scalled head; the facial disfigurement, as in acne—all demand remedies of extraordinary virtues to successfully cope with them. That Cuticura Soap, Ointment, and Pills are such stands proven by testimonials of remarkable cures when many remedies and even physicians have failed. One set is often sufficient to cure.

Cuticura Soap (25c.) to Cleanse the Skin, Cuticura Ointment (50c.) to Heal the Skin, and Cuticura Resolvent (50c.), (or in the form of Chocolate Coated Pills, 25c. per vial of 60) to Purify the Blood Sold throughout the world. Potter Drug & Chem. Corp., Sole Props., Boston, Mass.

Mailed Free, Cuticura Book on Skin Diseases.

D. E. H., Jan. 10, 1908.

How many times have you written 1907 instead of 8? An error that didn't do you any particular damage. But we know you will make no mistake if you pay $19.08 for a 1907 Columbia Suit that's really worth from $25 to $35, instead of a couple of dollars less for a non-descript garment of doubtful vintage.

If the suit was $18, $20 or $22.50 before, you can now have it here for $15.08.

And our cheaper suits go at $11.45 and $7.95.

THE POLICE ARE FOOLED

By Shoplifter in Paris Who Pretended to Take Poison.

Red Tape Record Established by French Colonial Department.

Paris, Jan. 10.—Jullette Drell, aged 19, was caught in the act of shoplifting a couple of days ago and was taken to a police depot. During her examination by the inspector she suddenly produced from her pocket a small box, and before she could be prevented opened the lid and swallowed some of the white powder which it contained. Then, with a scream of "I have poisoned myself," she fell to the floor, apparently in convulsions. A doctor was hastily summoned and administered counter poisons and emetics. In an hour's time the girl appeared to regain a normal condition and was conveyed to her home. The doctor who had attended her took the remains of the whole powder away with him for analysis and later announced that the "poison" was an ordinary white powder and perfectly harmless. A policeman was immediately sent to the girl's home, where he found her to be really ill, suffering from the effects of the emetics. She was again taken before the magistrate, who, considering that the illness she had brought upon herself was sufficient punishment, let her at liberty.

A few days ago Baron Henri de Rothschild, who is a doctor of medicine, started in the most populous district of Paris a philanthropic dairy for the free supply of pure milk to poor people. The institution became well known, and large numbers of people of position paid for the milk and became customers of the baron, who now has sixty-eight pure milk depots in Paris.

Union Begins Suit.

Recently the Milk Dealers' union sued Baron de Rothschild before the Tribunal of Commerce on the ground that under the pretense of a work of philanthropy he was carrying on illegal competition, the tradesmen being obliged to take out trade patents and pay taxes, which the baron, as a philanthropist, escaped. The milkmen, therefore, petitioned the court to order the baron to remove from his shops inscriptions which tended to make the public believe the shops were benevolent institutions, whereas in reality they constituted a commercial undertaking. It was alleged that Baron de Rothschild, through agents, bought milk at wholesale prices and retailed it at a large profit; that, as a matter of fact, he only gave away $1,400 worth of milk per annum, and that in order to injure the milk dealers he denounced a number of them for selling impure milk, and did them great harm, though the charges against them were dismissed.

Judgment was postponed. The baron's counsel denied the assertion that his client's business was not a work of philanthropy.

Red Tape Records Made.

A red tape record has been established by the French colonial department. Eighteen months ago the governor of Martinique found that he needed some pins and a corkscrew in his office. He sent for his secretary and asked to get them. The secretary pointed out that any such expenditure must be sanctioned by the ministry of the colonies. The governor accordingly telegraphed to Paris: "Please send at one one and one-half pounds of pins and two corkscrews." The minister sent the telegram to the accountants' department for approximate estimate of the outlay to be incurred." The chief accountant noted that in his opinion the expense would be excessive, observing that his wife did not use so many pins even for her most elaborate dresses. So he sent the telegram and the note to the director of the political department, who drew up a long and, on the whole, favorable report of the governor's character, and thought the request for the pins was reasonable if they were not purchased at an exorbitant figure. The dossier went next to the commission of purchases, which was divided as to whether the pins should be bought by private contract or otherwise.

They finally decided on the former, and returned the dossier to the political department, which sent it back to the accountants, who passed it back to the minister, who thought the purchase should not be made by private contract and sent it back to the accountants, who transferred it on to the commission of purchases, which decided, after all, that private contract was not the best method and sent the huge dossier back to the minister, via the political department and the accountants. Then the minister sanctioned the expenditure, and, after more journeyings, the dossier returned to the commission of purchases, which was given a free hand.

By this time the governor's telegram had been traveling for fourteen months and was buried in the midst of 2,427 documents concerning it, while the pins in the bundle were nearly as numerous as those the governor needed.

To Encourage Politeness.

Known as "The League to Respect Woman," a body to encourage politeness in France has just been formed. One of its founders explains the object thus: "For many years past we Frenchmen have been losing our reputation for politeness to women; in fact, we are, no longer as polite to women as are the English, Italians or Austrians. This is evident daily in a hundred little ways.

"For instance, a Frenchman will seldom, if ever, think of giving up his seat in a tramcar or omnibus to a woman. It is quite common at a station to see a man elbow his way through a crowd of waiting women to get in front. In railway carriages men will smoke in nonsmoking compartments without asking the permission of the women present. We want, not to go back to the old, somewhat ridiculous forms of ceremonious politeness but to keep alive or, rather, to revive something traditional in French courtesy toward women which is unfortunately fast dying out."

Vivisection is Discouraged.

It has been decided by the Paris medical faculty that there shall be no chair of vivisection or animal surgery in Paris. The decision is a credit to that scientific body, which indignantly rejected a proposal made by some members of the municipal council, who thought that it would be in the interests of science to establish a professorship for the purpose of initiating students in the practice of surgery by experimenting on dogs and other living animals. The medical faculty replied that this has nothing to do with science. There is nothing to justify such vivisection. By operating on animals a practitioner or student would never learn how to operate on the human body, but would rather be led to make serious mistakes. It considers further that vivisection is inhuman, and even "immoral."

A Singer Robbed.

M. Lucien Fugere, the popular singer of the Opera Comique, received the visit of a finely dressed, gentlemanly looking young man, who came to inquire about lessons in operatic singing. M. Fugere, after seeing the card which the visitor had handed to the servant, ordered him to be received in the drawing room, and a few minutes later went to speak with the young man, who made a very favorable impression on him, and told him that his brother, who was living in the country, had very good talents for the operatic stage, and would like to be coached by so distinguished a master. The singer believed him, laid down his terms, and after a short conversation arranged the day for the first lesson.

Shortly after the visitor had gone, M. Fugere noticed that several precious little works of art were missing from his drawing room, including two bronze elephants and three miniatures, worth in all $2,000. There was no doubt in his mind that these objects had been stolen by the young man, whose talent for stealing is probably greater than his brother's gifts for selling impure milk, and did them great harm, though the charges against them were dismissed.

CALLED TO DOOR AND SHOT.

Detroit, Jan. 10.—Mrs. Mamie Reinhardt, wife of George Reinhardt, 738½ Bellevue avenue, was called to the door of her home last night just as she and her husband were at supper, and the young woman was probably fatally stabbed. She was wounded in the breast and shoulder. The police are looking for Fred Guth, a former city fireman, who was a suitor for Mrs. Reinhardt's hand previous to her marriage fifteen months ago.

WHO INVENTED DIABOLO?

Question is Now Occupying Attention of French Courts.

Paris, Jan. 10.—Diabolo has got into the courts, and will probably stay there some time. A manufacturer contends that he invented the toy, and prosecutes a rival maker for infringement of patent. Defendant pleads that no patent of the diabolo was valid, the toy having existed since ancient days in China, and he has succeeded in his argument before one court. The case is now in the first appeal stage.

The plaintiff claims that the diabolo first made, as he alleges, by him, is distinct from the old "diable," which consisted merely of two balls attached together with a rod, and which had nothing like the same possibilities as the modern toy. The defendant retorted by producing a duly sworn statement by a legal officer, who gave an ad hoc diabolo afternoon to several boys and girls. They played with every known kind of diabolo, from the Chinese toy to that of which the plaintiff alleges he is the inventor, and are said to have performed the same amazing tricks with the same ease with all the diabolos.

At this point the case was adjourned, and it may be expected to go leisurely on perhaps for years. Meanwhile, everyone is free to make diabolos, and by the time a final decision is given the whole diabolo craze will probably have died out.

LACERATED BY SAW.

Henry Linn Had Arm and Leg Nearly Cut Off.

St. Cloud, Minn., Jan. 10.—(Special to The Herald.)—Henry Linn of St. Nicholas is at a local hospital, suffering from injuries sustained while operating a sawing machine at John Klein's farm that may cost him an arm, a leg, and perhaps his life.

While at work sawing wood the young man slipped and fell directly onto the circular saw. The teeth penetrated his right arm and cut it fearfully in several places. The blade entered the bone in two or three places. Young Linn gave a jump in his efforts to save himself, and in doing so threw his leg against the blade. The saw struck him on the knee cap, literally tearing it off. It then entered his leg, just above the knee, cutting in probably two inches. By this time one of the workmen, who was near by, pulled the fellow away.

JOHNSON GETS VERDICT

Crookston, Minn., Jan. 10.—(Special to The Herald.)—The jury in the district court that heard the evidence in the case of Peter Johnson against the Great Northern Railway company, for personal injuries, returned a verdict of $4,750 after deliberating about forty-five minutes.

Johnson sued for $20,000 damages for injuries received last summer while working with a pile driver gang, between here and Cass Lake. He says he was not properly notified to clear the track, and as a result received injuries of a serious nature.

MORE TENANTS EVICTED.

New York, Jan. 10.—Eighty evictions of East side rent strikers took place yesterday, and Monroe street was filled with picturesque litter of displaced furniture. It is believed that the strike situation is no nearer a solution. The indications are that the honors are about even, for although most of the tenants paid the rents asked when they saw that eviction was inevitable if they longer refused, other obtained concessions from the landlords varying from $1 to $2 a month.

FAT WOMAN TURNS SOMERSAULTS

Teaches Class of Ballet Girls Calisthenics and Gymnastics.

The celebrated Helen Burnside tells a story to the society reporter of a leading New York evening paper in this way: "Several months ago I was promenading the Rialto when I met an old college chum. She was rather astonished at my sporting so much jolly fat and asked me what I was doing. As a matter of fact I wasn't doing anything just at that time but taking long, tiresome walks and doing without my breakfast and late suppers, drinking double-skimmed milk, and taking a horrible patent medicine. My friend was rather interested in knowing more about the success that I was having with this strenuous 'fat cure' and was astonished to learn that I had only lost 10 ounces in three weeks.

"'Girlie,' said she, 'you don't need to suffer all these deprivations and do the hardest kind of work, which you really call 'doing nothing.' Why not try my Marmola Prescription? I'm losing almost a pound a day and not losing any sleep over it, either, get my four squares and my bottle, and I don't pass anything in the way of eating and drinking.' 'Marmola,' said I; 'why, I never heard of it. What in the name of heaven is it?' 'Is it possible, Helen,' she replied, 'that you have been hiking around little old New York and don't know what Marmola is? Why, it's the sensation of the day. It's just an ordinary doctor's prescription, but extraordinary in its results. I take a teaspoonful after every meal and one before retiring and just keep along my leisurely pace, letting Marmola keep me down in weight.' Now, said Helen, "I took the girl's advice and in consequence I got down from 175 to 140 inside of a month. I'm teaching dancing to a bevy of prospective Casino girls all of whom are taking Marmola."

The Marmola prescription reads: Half ounce Marmola, ½ ounce Fluid Extract Cascara Aromatic, and 3½ ounces Syrup Simplex.

In these days, when there is so much substitution going on, it is as well to see that you get Marmola in the original package, and then you have ample guarantee that for sheer merit of goodness there is nothing to equal it. Don't confound the Marmola Prescription with anything for which similar claims are put forth. It is in no sense a patent medicine. It is a doctor's prescription.

NEWS FROM THE WEST END

MORTGAGE WILL BURN

Central Baptist Congregation is Now Free of Debt.

Members of Church Will Make Merry Over Event.

Tonight the members of the Central Baptist church, Twentieth avenue west and First street, will celebrate.

The church is now free from debt, and the members will observe the event with proper festivities. The mortgage will be burned and praises sung. The congregation is now unencumbered, and, naturally, there is general satisfaction over it.

In addition to the ceremony of burning the mortgage, the annual meeting and election of officers of the church will take place, and an elaborate program of readings and musical numbers has been prepared, in which Rev. J. Wilfrid Loughbridge, the pastor, and members of the church will take part. The meeting will begin at 7:45.

The present home of the Central Baptist congregation is a handsome brownstone structure, erected four years ago. During the past year the pastor and members have worked hard to clear off the last bit of indebtedness on the property, and they have been successful.

Large gains in membership have also been made during the last year, twice as many new members being secured as during the previous twelve months.

NEIGHBORS DROP IN

To Help Mr. and Mrs. Cummings Celebrate China Wedding.

Neighbors and friends of Mr. and Mrs. J. W. Cummings pleasantly surprised them at their home, 2723 West Second street, Tuesday evening, in honor of the twentieth anniversary of their wedding. It was their "china wedding," and the happy couple were presented with a host of beautiful things.

Mr. and Mrs. Cummings were married in Duluth twenty years ago, and among Tuesday evening's guests were Mr. and Mrs. August Anderson and Mr. and Mrs. August Julein, who were present when the ceremony was performed.

Among the festivities was a mock wedding ceremony, in which Mr. and Mrs. Cummings enacted the roles of bridegroom and bride. E. R. Halverson was well received in the role of the preacher, and Capt. D. E. Stevens made a hit as Mr. Cummings' best man. Mrs. J. W. Preston and Mrs. W. H. Leonard also scored hits as the bridesmaids.

A number of vocal and instrumental musical numbers were given during the evening, and later there was dancing. For the square dances, Roland D. Haven, Republican mayoralty candidate, called off. Dainty refreshments were served during the evening, and about forty guests were present.

DEBATE ON THE TARIFF.

Eighth Grade Pupils at Adams School Have Arguments.

An interesting debate on the question of whether a high or a low tariff is the most judicious was held by the upper class pupils of the eighth grade at the Adams school yesterday afternoon.

Good arguments were put forth by the supporters of both sides, but a vote at the close of the meeting disclosed a majority in favor of high tariff.

Those in favor of high tariff were Misses Marion Koeford, Mary Wagner, Agnes Heiam, Gerda Jorgensen, Stella Johnson and Masters Edward Erikson and Alex McRae. Those opposed to a high tariff were Misses Hulda Ericson, Jennie Carison, Marie Messler and Masters George Gilmore and Andrew Johnson.

West End Shortrails.

Miss Anna Firkins has gone to Bonesteel, S. D., where she has accepted a position as librarian.

It's worth while to see our hats; none better; bring your old hat—we'll make it new. Pearson's, 1814 Piedmont avenue west.

Frank Sundquist has returned from the ranges, where he has been for the past month in the interest of a fraternal insurance order.

Charles Huntoon of Staples, Minn., is in the West end for a few days.

1907 imported cod liver oil. A. E. Swedberg, 2 E. Sup. St., and 2015 W. Sup. St.

The "week of prayer" meetings that are being held in several of the West end churches are being well attended. The pastors are being assisted in the conducting of the services by members of the congregation.

The Epworth League of the First Norwegian-Danish Methodist church held its first business meeting of the year Tuesday evening. Following the session, a literary program was given.

The youngsters of the West end, coasting with bobsleds and individual rigs, have made the avenue crossings very slippery and a number of horses have fallen, some of them sustaining serious injuries. One or two of them have been valuable animals, of which there are a number in the West end, that section of the city being very enthusiastic over good horse-flesh.

The Ladies' Aid society of the First Norwegian-Danish Methodist church held a meeting Wednesday afternoon at the home of Mrs. P. L. Morterud, 429 Twenty-sixth avenue west.

For weak lungs, use the Norwegian Cod Liver Oil, sold at the Lion Drug Store.

The Ladies' Aid society of the First Swedish Baptist church met Wednesday afternoon at the home of Mrs. P. L. Morterud, 429 Twenty-sixth avenue west.

Take no chances, have your prescriptions filled at the Lion Drug Store.

The Ladies' Aid society of the First Swedish Baptist church met Wednesday afternoon with Mrs. Hagberg of 1825 West First street.

The funeral of Harold Hansen, who died Tuesday, was held this afternoon at the reformed Lutheran church. The interment takes place at Park Hill cemetery.

For fountain pens and fountain pen supplies go to J. C. Eckman, 2019 West Superior street.

Where to go tonight. Go to the new Star theater and see the best moving pictures that money can buy. Bargain matinee tomorrow at 2:30 p. m.

Kennedy's Laxative Cough Syrup acts upon the bowels and thereby drives the cold out of the system. It contains no opiates—it is pleasant to take. Sold by all druggists.

SPEAKS TO FOLLOWERS

R. D. Haven Gives Talk to the Republican Club.

West Enders Have Good Meeting—Many Are Present.

Roland D. Haven, Republican candidate for mayor, told the members of the West End Republican club, which held its regular meeting in Sloan's hall last evening, what course he would pursue if elected.

Mr. Haven said that the necessity of keeping the city's expenses down, at the same time not curtailing necessary public improvements, would be his policy if he was elected. He also stated that he had made no promises of office, in case of his election, to any of his friends, and that he did not propose to do so. He denied that he had promised to retain Mr. Troyer as chief of police, but stated that he considered Mr. Troyer a very capable man.

Speaking of the lid question, Mr. Haven said that if elected he would enforce the laws of the state and the community, but that the liquor men would be protected so long as they obeyed the law.

Mr. Haven said he had nothing to say against Mr. Tessman, the Democratic mayoralty candidate, as they were personal friends.

Speaking of the disclosures of illegal voting that have been made, the speaker condemned such kind of work, and said those guilty should be prosecuted, no matter which side they were on.

W. E. Culkin, A. T. Park, Peter Olson, aldermanic candidate in the Sixth ward; J. J. Moe, aldermanic candidate in the Seventh ward; J. W. Cummings, Andrew Horngren, Alderman Kennedy, J. A. Leonard and a number of others gave short talks at the session. The president of the club, George M. Jenson, presided.

Considerable enthusiasm was manifest during the meeting.

Lockhardt Lucky Man.

James Lockhardt of 2631 Huron street, received a fine suit of clothes as a gift from the Fedje Clothing & Shoe company, 2016 West Superior street, this morning. Mr. Lockhardt was the first man to buy a suit at the opening of the company's big sale this morning, and, as agreed, the firm gave the suit for nothing.

Men's Black Suits Reduced.

$15 black suits are now $11.75.
$18 black suits are now $13.75.
$20 black suits are now $15.
$25 black suits are now $18.75.
At the "Fitwell" Clothing Parlors' winter clearance sale.

WILL MEET IN DULUTH IN JULY

Veterinary Surgeons to Come Here for Semi-Annual Convention.

Drs. C. W. Cook, J. G. Annand and John McKay returned today from St. Paul, where they attended the eleventh annual meeting of the Minnesota State Veterinary Medical association, and they bring with them the information that the semi-annual gathering of that body will be held in Duluth in July.

At the session in Minneapolis, the veterinary surgeons decided to come to this city in the middle of the summer. The convention dates were not selected, although they will probably be in July. It is expected that about sixty members of the association, accompanied by their wives, will attend the meeting.

Drs. Cook, Annand and McKay were members of important committees of the state association during the past year and took a prominent part in the St. Paul convention. They say the meeting was a very interesting one. The sessions were held at the Merchants' hotel.

Are You Sick?

Much sickness is due to a weak nervous system. Yours may be. If it is, you cannot get well until you restore nerve strength. Your nervous system is nature's power house; the organs of your body get their power from it. If the power is not there, the action of the organs is weak, and disease (sickness) follows. Dr. Miles' Nervine cures the sick because it soothes the irritated and tired nerves and gives the system a chance to recuperate. Try it, and see if you do not quickly feel its beneficial effect.

"I was given up to die by a leading doctor. Got one of Dr. Miles books and found that Dr. Miles' Nervine fit my case. From the very first dose I took I got better. I am better now than I have been for years, and do all my own work on the farm. That's what Dr. Miles' Nervine has done for me, and I am glad to recommend it to others."

JOHN JAMES, Riverton, Nebr.

Your druggist sells Dr. Miles' Nervine, and we authorize him to return price of first bottle (only) if it fails to benefit you.

Miles Medical Co., Elkhart, Ind

VALUE LAND HIGHLY.

Property Owners Look on Government as Good Thing.

Brainerd, Minn., Jan. 10.—(Special to The Herald.)—Judge Edson of Duluth, T. A. Toole of Cass Lake, and J. M. Elder of this city, who are the commissioners appointed by the United States court to appraise the lands condemned for government reservoir purposes in Crow Wing, Aitkin, Cass and Itasca counties, were in session at Aitkin, Wednesday. It is reported that the owners of land on Sandy Lake, forty miles from a railway, are asking $25 an acre for their property for flowage purposes. The commissioners seem to think that this is excessive. They will meet in Brainerd Monday next to complete their work.

George Frost of Hellensburg died Tuesday night. He was postmaster there and a pioneer resident.

WOMAN SUES A CHINAMAN.

New York, Jan. 10.—Mrs. Rhuth Kim, a pretty little Japanese widow, has brought suit against Jim Fook, a Chinaman, who runs a restaurant in New York, claiming $20,000 damages for breach of promise of marriage. Fook denies that he ever proposed to the Japanese widow and declares that he simply hired her to work in his restaurant.

TO RESUME OPERATIONS.

Tuscon, Ariz., Jan. 10.—Edward T. Davis of Philadelphia, president of the Twin Buttes Mining & Smelting company, last night announced that the directors had decided to resume operations at once. The company is largely composed of Milwaukee and Philadelphia capitalists. It owns and operates its own railroad from the mines to Tuscon.

JOHNSON & MOE. JOHNSON & MOE. JOHNSON & MOE. JOHNSON & MOE.

The Great Dissolution Sale

Enters Upon Its Second Week!

TALK ABOUT YOUR JANUARY SALES and such! Say, the first week of the Dissolution busted all our previous records for big January business, and with a wide margin to spare! There is no sign that the second week will be any poorer, either. This is Johnson & Moe's first and only Dissolution Sale, and the people knew it to be a big thing, and they are turning out in big crowds every day. There are bargains in every corner of the store, and no end to money-saving chances. Just keep a-coming.

Given Long Terms.

Before Judge Cutting today, Frank Bradovich was charged with begging on the streets. He was fined $25 or thirty days in jail. For a similar offense Pat Doyle drew fifteen days. Charles Emillers, Swan Johnson and William Finell were fined $50 or forty days each for fishing through the ice with hoop nets in St. Louis bay. Jack Stewart and Andrew McDonnell were fined $75 or sixty days each for vagrancy. Every man in the bunch went to jail.

CITY BRIEFS

Music at the Spalding Cafes.

Flaaten's orchestra will play Saturday, Sunday and Wednesday evenings during the dinner hour.

Criminal Trials Next Week.

Although no definite date has yet been designated by County Attorney Norton when the trial of the criminal cases for the present term will begin, it is understood that the county attorney will begin the grind early the coming week. The grand jury returned a large number of indictments and, in case a majority of the persons accused plead not guilty and stand trial, the criminal cases will occupy the attention of the court for the remainder of the month. There is a probability that some of those accused, particularly in the blind pig cases, will plead guilty rather than go to a trial.

Trials Not Yet Finished.

Evidence is still being introduced in the civil cases on trial in Judge Cant's room and Judge Dibell's room in the district court. In the latter room the case of M. P. Doyle against Hugh Steele to recover on sub-contract work on the Robinson street paving job is likely to reach the jury late this afternoon. In Judge Cant's room, owing to the fact that practically all the testimony is taken through an interpreter, the trial is progressing slowly. It is not likely to be finished this week.

Temple Services.

The regular Sabbath services will be held at Temple Immanuel, Seventh avenue east and Second street, tonight at 8 o'clock. Rabbi Lefkovits will preach on the subject, "The Religious Life."

Interment at Marquette.

Mrs. Letitia Cole died last evening at the home of her daughter, Mrs. A. R. Sabin, 4218 Gillette street. She is survived by two sons and three daughters, Joseph Cole of Duluth, W. H. Cole of Leadville, Colo., Mrs. A. R. Sabin of Duluth, Mrs. Margaret Motherway of Grosbeck, Mich., and Mrs. Martin Daniels of Marquette, Mich. The remains will be sent to Marquette this evening for burial.

Power From Garbage.

The municipal committee of the public affairs committee held a meeting at the Commercial club yesterday, and discussed the plan of utilizing the city's garbage in creating power for operating public works. They will make a report at the meeting of the public affairs committee next Tuesday evening. W. B. Patton, chairman of the committee, who is an engineer, will present a plan showing how the feat could be accomplished. The idea originated with Alderman W. E. McEwen.

Civil Suit on Trial.

The civil case of Carl Erickson against Frank Frilonowich, was on trial before Judge Ensign, this afternoon. It involves an alleged breach of contract.

Taylor Arraigned.

Fred Taylor, who was indicted for burglary, was arraigned this afternoon and will plead tomorrow.

Carlson Arraigned.

William Carlson, who was indicted, for grand larceny in the second degree, on the charge of stealing a suit case containing goods to the value of $50 from Lee Kolser, was arraigned this afternoon, and is out on a bail of $350. His attorneys are Mitter & Clapp.

Lieut. Gay Here.

Lieut. J. B. Gay, of the United States navy, was in Duluth, today. Mr. Guy is here to inspect the work of the recruiting office and to also secure new quarters for the station. The need for additional room in the federal building has necessitated the removal of the naval recruiting station from there.

We Undersell All.

Gray-Tallant company undersell all other White Sales—that's why women who know crowd Duluth's Greatest White Sale. Be early tomorrow.

New Attractions Tomorrow.

Duluth's greatest White Sale will take on fresh interest tomorrow—new items will be placed on sale. We continue to undersell them all. Gray-Tallant company.

Examine Stenographers.

The United States civil service commission is having a hard time getting enough stenographers to fill vacancies in the service. On Jan. 27 an examination will be held at St. Paul for stenographers and typewriters, both male and female. Women will be admitted to this examination for the departmental service, but not for the Isthmain canal or Philippine services.

WHEAT IS UNCHANGED

Wheat Prices Firm in Duluth—Other Cities Off.

Weakness and Dullness Prevails in Flax Market.

Duluth Board of Trade, Jan. 10.—Wheat closed unchanged in Duluth and Winnipeg today, but was a little weaker in the other American markets.

During the middle of the session, prices were weak, but rallied somewhat toward the close, on a bullish report by the Modern Miller and better buying.

The Argentine shipments were a little larger than estimated. Cables were stronger. Liverpool closed ⅝d higher, Berlin ⅜c higher and Budapest ⅜c higher.

The Modern Miller says:

"Freezing and thawing weather prevails over a large part of the winter wheat belt, and general weather conditions are not seasonable. Larger deliveries of soft winter wheat are being made by Missouri and Illinois farmers, though hauling is difficult, owing to the bad condition of country roads. A hard freeze would bring out good deliveries."

The May option closed unchanged in Duluth and Winnipeg, ⅜c lower in Chicago, ¼-⅜c lower in Minneapolis and ⅛c lower in New York. The July option closed unchanged in Duluth and Winnipeg, ¼c lower in Chicago, ⅛c lower in Minneapolis and ⅛c higher in New York.

May corn closed ½-⅝c lower in Chicago and unchanged to ⅛d lower in Liverpool. May oats closed ¼c lower in Chicago.

Broomhall cabled from Liverpool: "There was a steady tone to the speculative wheat market at the start and values were ⅜d higher. Offerings were light and support good, stimulated by the firmness in America yesterday, and the fact that shipments from Argentine are small for this period of the year, although stocks showed a good increase. Following the opening there was a period of depression and values eased some, due to the poor demand for spot and the fact that La Platta offerings were unchanged. Toward mid-day, however, prices again steadied, gaining most of the later decline, due to a leading long buying. The market at this time was firm with value ¼d higher than Thursday.

"Corn was steady at the start and ¼d higher, being influenced by the firmer American cables. Later pressure developed and the nearby months lost ⅛d on the pause in the demand for spot. The distant month was very dull."

Car receipts at Duluth were 66 against 58 last year, and at Minneapolis 230 against 226 last year. Chicago received 16 against 45 last year. Winnipeg received 102 against 57 last year.

Primary receipts of wheat were 538,000 bus., last year 378,000 bus. Shipments, 182,000 bus., last year 284,000 bus. Clearances of wheat and flour aggregated 775,000 bus.

Argentine shipments of wheat were 496,000 bus., against 400,000 bus., last week, and 726,000 bus. a year ago.

Primary receipts of corn were 620,000 bus., last year 695,000 bus. Shipments, 449,000 bus., last year 490,000 bus. Clearances of corn were 9,200 bus.

Argentine shipments of corn were 293,000 bus., against 545,000 bus., last week, and 1,133,000 bus., last year.

Wheat trading was light during the session in the Duluth market. May wheat opened ⅛c higher at $1.13⅝, went off to $1.13¼, rallied to $1.13½, went off to $1.13, rallied to $1.13⅝, declined to $1.12¾, rallied to $1.13¼ and closed at $1.13⅜, unchanged from yesterday. July wheat was inactive and closed unchanged from yesterday at $1.13⅞.

Durum wheat was unchanged and cash spring wheat was selling on a basis of 3c under May for No. 1 northern.

Flax was quiet during the session and closed a little off. May flax opened unchanged at $1.22¼, advanced to $1.22½, declined to $1.22 and closed at $1.22⅛, a loss of ⅛c from yesterday. July flax sold at $1.24 and closed at $1.23⅝, a loss of ⅛c from yesterday.

Oats closed ½c higher and other coarse grains were unchanged.

Following were the closing prices:

Wheat—No. 1 hard, on track, $1.11⅞; to arrive, No. 1 northern, $1.10⅝; No. 2 northern, $1.07⅝; on track, No. 1 northern, $1.10⅞; No. 2 northern, $1.07⅞; May, $1.13⅜; July, $1.13⅞; No. 1 northern, in store, $1.09⅜; No. 2, 88⅜c; May durum, 93⅜c; July durum, 94⅜. Flax, to arrive, $1.18⅛; May, $1.22⅛; July, $1.23⅝; Oats, to arrive, 49c; oats, on track, 49c; rye, 74-78c; barley, 65-95c.

Cars inspected: Wheat, 66, last year, 58; oats, 7; rye, 1; barley, 1; flax, 18, last year, 13.

Receipts: Wheat, 83,881; oats, 237; barley, 1,909; flax, 23,978.

Shipments: Wheat, 690; oats, 5,000; barley, 1,623; flax, 46,586.

THE CHICAGO MARKET.

Wheat Opens Firm, But Weakens Later on Bull Selling.

Chicago, Jan. 10.—The wheat market was firm at the start today on strength in European markets, but weakened later on selling by some of the leading bulls. Trading was fairly active. May opened unchanged to ⅜c higher at $1.06⅝ to $1.07 and sold off to $1.06¼@1.06⅜. Minneapolis, Duluth and Chicago reported receipts of 321 cars against 331 cars last week and 265 cars one year ago.

The low point for May was reached at $1.05⅝. The market rallied slightly during the last hour of trading on reports of improved export business. The close was about steady with May ⅜c lower at $1.06¼.

There was only a moderate trade in corn and the market was weak, owing to increasing receipts. May opened ⅛@¼c lower, to a shade higher at 60⅞c to 61⅛c and sold off to 60½c. Local receipts were 257 cars with two of contract grade.

Corn was weak throughout the session. May sold down to 60¼c and closed weak at 60½c, a net loss of ½@⅝c.

Oats were dull and easy. May opened a shade higher at 54½c and sold off to 54¼@54⅜c. Local receipts were 138 cars.

Provisions were quiet and were inclined to be weak. The market was influenced by a 5c decline in the price of hogs. May pork was off 2½c to 5c at $13.60@13.62½. Lard was 5@7½c lower at $8.10@8.12½. Ribs were down 5c at $7.32½.

Close: Wheat—May, $1.06¼; July, 98⅜c; September, 98⅜c. Corn—May, 60½c; July, 59@59⅛c; September, 58⅜c. Oats—May old, 54⅛@54¼c; May, 52⅜@52½c; July old, 47⅞c; July, 46¼c; September, 39⅞c. Pork—January, $12.90; May, $13.45. Lard—January, $7.82½; May, $8.07½. Ribs—January, $6.90; May, $7.25. Rye—Cash, 83½c. Barley—Cash, 90c@$1.06. Timothy—March, $4.75. Clover—March, $17.25. Cash wheat—No. 2 red, $1.01⅝@1.04; No. 3 red, $1.01@1.02; No. 2 hard, $1.03¾@1.09; No. 3 hard, 99⅝c@$1.07; No. 3 spring, $1.03@1.13. Corn—No. 3, 55½@56c.

The Cotton Market.

New York, Jan. 10.—The cotton market opened steady and unchanged prices to a decline of 3 points and during the early session sold off to a net loss of 6 and 7 points under realizing by recent buyers, who were disappointed over the showing of the English market. There seemed to be very little bear pressure, however, and after scattered offerings had been absorbed the market firmed up again to within 2 or 3 points of last night's finals on local bull support and covering which may have been promoted by bullish Southern spot advices and rumors that the lower prices in the market for cotton goods were stimulating demand.

Spot closed steady; middling uplands, 11.45; middling gulf, 11.70. Sales 400 bales. Futures closed barely steady. Closing bids: January, 10.63; February, 10.69; March, 10.78; April, 10.79; May, 10.80; June, 10.75; July, 10.71; August, 10.57; October, 10.10.

Chicago Livestock.

Chicago, Jan. 10. — Cattle — Receipts, about 3,500; market steady to strong; beeves, $3.65@6.25; cows and heifers, $1.30@4.50; Texans, $3.10@3.90; calves, $5.25@8; westerners, $3.70@4.50; stockers and feeders, $2.25@4.15. Hogs—Receipts, about 40,000; market 5c lower; light, $4.15@4.47½; mixed, $4.15@4.55; heavy, $4.20@4.55; rough, $4.20@4.30; pigs, $3.50@4.20; bulk of sales, $4.35@4.45. Sheep—Receipts, about 10,000; market weak to 10c lower; native, $3.50@5.60; western, $3.50@5.65; yearlings, $4.90@5.80; lambs, $5.25@7.30; western, $5.25@7.30.

New York Money.

New York, Jan. 10.—Close: Money on call steady; 3½@5½ per cent; ruling rate, 6½; closing bid, 3, offered at 4. Time loans steady; 60 days, 6 to 6½ per cent and 90 days, 6 per cent; 6 months, 6 per cent. Prime mercantile paper, 7 to 8 per cent. Sterling exchange with actual business in bankers bills at 4.85.55@4.75.60 for demand and at 4.81.25@4.81.30 for 60-day bills. Commercial bills, 4.81. Bar silver, 54¾c. Mexican dollars, 43½c. Government bonds, easy. Railroad bonds, irregular.

DECLINES IN STOCKS

Which Reached Large Fractions for Many Active Stocks.

Southern Pacific Slumped in Late Dealings, Unsettling Market.

New York, Jan. 10.—Brisk buying carried prices of stocks upward in the opening dealings throughout the list. Reading and Central Railroad of New Jersey rose 2; American Smelting, 2⅛; Minneapolis, St. Paul and Sault Ste. Marie preferred, 1¾; the common, and New York Air Brake, 1⅜; Northern Pacific and National Lead, 1⅛; Canadian Pacific and American Can preferred, 1¼, and Great Northern preferred, St. Paul, Louisville & Nashville, Delaware & Hudson, Pittsburg C. C. & St. Louis, Brooklyn Transit, Pacific Mail and American Sugar, 1. There were many advances running to a large fraction.

Realizing sales held back the prominent stocks for a time, and forced Reading, Northern Pacific and Brooklyn Transit back about a point. Meanwhile there was a steady absorption of other stocks which do not figure in the dealings except when the speculation is broad and active. Toward 11 o'clock the representative stocks all moved up strongly again under the guidance of Reading and St. Paul. Reading rose 3, Union Bag preferred 2⅝, Nashville, Chattanooga and St. Louis 2¼, St. Paul 2⅛. Metropolitan Street Railway and United States Rubber second preferred 2, American Locomotive and People's Gas 1¾, Atlantic Coast Line, Rock Island preferred and Westinghouse Electric 1½, and many others a point or more. Southern Railway preferred and North American fell 1 and United States Pipe preferred 1½.

Buying diminished at the higher prices and there was some reaction, when the selling in turn decreased and the activity subsided. Minneapolis, St. Paul & Sault Ste. Marie had risen 3, the preferred 3½, Granby Mining 2½, United States Steel preferred 1½. Bonds were strong.

Active selling commenced after 12 o'clock and the list, with few exceptions, reacted to yesterday's closing or below. Reading fell off 2 points from the top. North American sold 2¼ below yesterday's figure, Delaware & Hudson 2, Southern Railway 1¾, the preferred 2½, and International Paper preferred and Erie first preferred 1. Virginia Iron moved up 3, Pittsburg, C., C. & St. Louis 2¼, and Lake Erie & Western 2.

Prices sagged until the publication of the forecast of the currency movement, which indicated a large cash gain. The market then advanced rapidly, St. Paul rising to 113⅛, a gain of 3¼. Northwestern yielded 1. Tennessee Copper improved 3½.

The market closed weak and unsettled. The market failed to hold its rally and prices sold off again to a level generally below last night, the decline reaching large fractions for a number of active stocks. Great Northern preferred, Amalgamated Copper and Anaconda fell 1. In the late dealings Southern Railway slumped 3, the preferred 5⅛ and the 5 per cent bonds 6 points. This unsettled the general market.

Quotations furnished by Gay & Sturgis, brokers, 328 West Superior street:

Stock Gossip.

Walter W. Carr, the broker, returned today from New York and Boston. He says that although business in the East is quiet, it is on a more substantial basis than recently and that a better feeling generally prevails. He does not look, from his observations while away, for a market that is excessively buoyant, because the big leaders are afraid that such conditions would bring about higher loans, which in turn would bother the banks again. While away, Mr. Carr appeared before the membership committee of the New York stock exchange and may now secure a membership if he chooses. He secured the rights to all wire service from both the New York and Boston exchanges and is now recognized by them.

Midway Horse Market.

Minnesota Transfer, St. Paul, Minn., Jan. 10.—Barrett & Zimmerman's report: Clearance slow in all classes with values unchanged. Many inquiries are being received for farm mares suitable for breeding purposes. The opening auction of the season on this market will be held Wednesday, Jan. 22.

Fur Coats Now $15
At the "Fitwell" Clothing Parlors great winter clearance sale.

OLD RESIDENT STRICKEN.

Thomas Feigh, an old resident of Duluth, who has been living at the Hotel St. Louis for a number of years, was taken from his room yesterday afternoon suffering with a serious illness. He was taken to St. Mary's hospital, where it is reported he is somewhat improved today.

Mr. Feigh was stricken suddenly, and for a while it was feared that his illness would result fatally. He was affected with a severe coughing and choking, which almost resulted in strangulation.

SHOULD BE PUNISHED

Illegal Voters Are a Menace, Says Emil Tessman.

Convinced Neither His Friends Nor Mayor's Were Implicated.

"If there is any truth to the charges of illegal voting the guilty ones should certainly be punished to the full extent of the law," said Emil Tessman, Democratic candidate for mayor, this morning.

"I don't believe for a moment that Mayor Cullum or his friends had anything whatever to do with such practices, and I know that none of my active workers did. When the matter was first made public, I investigated fully, and convinced myself that none of the men who were actively connected with my campaign had been implicated in any illegal voting, if there was any, and that they had not countenanced it in any way. I am also convinced, that Mayor Cullum would never countenance any such work. He and his friends put up a hard fight, but it was an honest one.

"If there is any institution that should be protected, it is the ballot, and if there has been any infraction of the election laws, the offenders should be prosecuted."

* * *

The local political situation is beginning to assume an active appearance once more. Alderman Haven inaugurated his campaign last evening at a meeting in his own particular stamping ground in the West end, and other public meetings will probably be held next week in other parts of the city.

Mr. Tessman's friends have been steadily working in his interests ever since the primaries, but they will get into the fight with redoubled energy next week. But a little over three weeks remain before the election, and it is evidently the intention of both candidates to make a short, sharp campaign.

New Classes in Day and Night School, to be Organized on Monday, January, 13th.

The Duluth Business University will organize new classes on Monday, January 13th, in day and night school, to accommodate a large number of students who could not begin at the opening, Monday, January 6th.

The College Office will be open for visitors and the enrollment of students, from 8 a. m. to 8 p. m., tomorrow.

Location—105-107 West Superior street, third floor. Duluth 'phone 307-M, Zenith 'phone 719.

COPPERS SLUMP AT THE CLOSE

Copper stocks were stronger at one time during the session today, but eased off toward the end and closed weaker than yesterday. North Butte opened at $46 and ranged between that and $45.50 during the day, closing at $45.25 bid and $45.50 asked. Amalgamated opened at $50.62½, advanced to $51.62½, went off to $49.75 and closed at $49.75 bid.

Greene-Cananea opened at $7.25, went off to $7.12½, rallied to $7.25 and closed at $7.12½ bid and $7.25 asked. Calumet & Arizona opened at $106, advanced to $107 and closed at $105 bid and $106 asked. Butte Coalition opened at $16.12½, advanced to $16.37½, went off to $16 and closed at $15.62½ bid and $16 asked. Anaconda opened at $31.87½, advanced to $32.12½, went off to $31.50 and closed at $31 bid.

Superior & Pittsburg sold at $11.50, advanced to $12 and closed at $11.75 bid and $11.87½ asked. Denn-Arizona sold at $4.25 and $4.37½ and closed at $4.12½ bid and $4.25 asked, Globe at $7.25, advanced to $7.62½ and closed at $7.37½ bid and $7.50 asked; Calumet & Sonora at $7.50 and $7.25 and closed at $7 bid and $7.25 asked; Butte & Superior at $1.62½ and $1.50 and closed at $1.37½ bid and $1.50 asked, and Butte-Ballaklava at $6.75 and $7 and closed at $6.87½ bid.

Black Mountain sold at $4.62½ and $4.50 and closed at $4.50 bid and $4.62½ asked.

QUIET WEEK ON THE ROW

Produce Markets Show Slight Change From Previous Period.

Poultry is Still Rather Scarce, and Prices Firm.

This has been a quiet week in the produce market.

The demand has been easier and receipts light, but ample to supply the city's needs and maintain prices on the same level that they have been.

* * *

Poutry continues high, because of the low stocks, and a few other commodities have had slight advances, but the general market has been stationary.

The shortage of poultry, which came upon Michigan street just after Christmas, is not over yet. Turkeys are bringing 18 cents a pound, and chickens are selling for 12 to 14 cents, which is 2 cents higher than the market before the holidays.

Receipts continue light, although somewhat improved from last week. An easier feeling is expected next week, and the market will likely resume a normal basis then.

* * *

Oranges are a little higher. A stronger feeling was felt in the orange market last week, when a bulge of 25 cents was recorded. A similar advance is reported this week.

The trade does not look upon these increases as the making of a very strong orange market, as it was very weak for a time. Oranges were away below the normal market prices for this season, and now they are getting back again.

California shippers stopped sending the fruit East for a time, so weak did the market become, and the curtailment of shipments soon had the effect of strengthening prices.

* * *

The lemon market has been easier, too, but a better tone is reported this week. Lemons are 25 cents up. The same conditions which affected the orange market applied as well to lemons.

* * *

Bananas are a trifle easier, on account of larger stocks.

* * *

Apples remain about unchanged. The movement is good and the quality and variety of the fruit excellent.

* * *

The fresh fruits and vegetables which have been available in the market lately continue to be sold on the same basis. The demand is a trifle easier, but stocks are a little lighter.

* * *

Receipts of potatoes are rather slight and the market shows a slight advance. It is a hard matter at this time of the year to get the tubers out of the pits, causing light shipments.

* * *

Stocks of cranberries are being cleaned up, but there is still enough to supply present demands.

* * *

The luscious strawberries are to be had for the trifling sum of 65 cents to 75 cents a quart. These are Florida specimens, and are said to be very fine.

Naturally at 65 cents and 75 cents a throw, the supply of the berries is not enormous, but it is understood to be ample to satisfy present needs.

* * *

Honey is selling for $4.25 a case, and it is real tasty stuff. As a first aid to hot biscuits, on Sunday evening, for instance, it cannot be beaten and is selling well in the local market.

* * *

Butter, ceramery prints, is holding firm around 30 cents. The quality is good and stocks large enough to supply the demand at the present prices. There is a stronger undertone, however.

* * *

Fresh eggs are selling around 25 and 26 cents a dozen, while the storage articles are to be had at 18 and 19 cents.

* * *

Cheese is a little weaker, but the softness is not expected to last a great length of time, as stocks are rather light. Fancy full cream twins are selling for 14 cents and fancy New York state full cream singles for 17 cents. Other kinds are in fair demand at prices the same as last week.

* * *

In the meats, pork has manifested a weaker undertone for several days, but on the surface the market remains unchanged. More liberal killings put the outside markets off for a day or so.

Beef, mutton and veal are unchanged.

$30 Overcoats Now $15
At the "Fitwell" Clothing Parlors' winter clearance sale.

INCREASE IN SHIPPING

According to the annual report of the local customs office, now being compiled by N. A. Linderberg, special deputy collector, both the receipts and shipments of the local port were larger last year than during 1906. The increase in receipts amounted to only 217,853 tons, but in shipments the increase was 2,218,958 tons, coming chiefly from iron ore.

The total receipts during 1906 were 1,832,246 tons, and last year they were 2,050,099 tons. The total shipments during 1906 were 11,929,378 tons, and last year they were 14,147,363 tons. This does not include Superior or Two Harbors, which really are a part of the local port, although coming under different headings.

HOT SESSION OF THE SAMARITANS

The Imperial Council of the Order of Samaritans was ignored last evening in the installation of officers of Alpha council, and Hon. Walter Lemon of St. Paul, vice grand good samaritan, did the work.

The installation was the final chapter in the fight over the office of financial scribe. W. B. Henderson, was backed by the imperial council at the annual meeting, and was elected. Members, however, claimed that the ballot box was stuffed and two extra votes were found. At a later election T. A. Gall was unanimously chosen, and he was installed last evening.

Members of the council refuse to discuss the matter today, but it is understood that the installing was done over the protest of members of the imperial council who were present.

THOSE WHO HAVE PASSED BEYOND.

Portland, Me., Jan. 10.—George F. Evans, vice president and general manager of the Maine Central railroad, died today at Vanceboro while on a tour of inspection.

New York, Jan. 10.—Abraham P. Goldfaden, aged 67, poet and playwright, who some times was referred to as "The Father of the Jewish Drama," died in an East side tenement house yesterday. Of more than 100 plays written by Goldfaden, twenty have been produced in this country.

Chattanooga, Tenn., Jan. 10.—L. C. Storrs of Lansing, Mich., aged 70 years, a member of the Michigan state board of charities and correction, died suddenly yesterday of heart failure on a Queen & Crescent train, near Somerset. He was en route to Florida for his health and was accompanied by his son, Carl B. Storrs, of Minneapolis, Minn.

Carman Cons.	1.50	1.75	Cal. & Arizona	105.00	106.00

Butte & Ballaklava has six veins across its property. Rich ore has been shown up in the Edith May and Bell Speculator. The Old Joe was cut through and 28 feet of low grade ore opened up. This vein at the 800-foot level is one of the best on the hill.
With 3,600 feet of vein matter, Ballaklava should be as big a producer as the North Butte. There is no limit to the depth of the veins and you can follow them wherever they go, even if they should lead across the whole state of Montana.
You would be surprised if you knew how much Greene-Cananea, Superior & Pittsburg and many of the others were being sold and turned into Butte & Ballaklava stock. There is more Butte & Ballaklava changing hands than any other curb stock outside of Butte & Superior. Butte & Superior is a lower priced stock and therefore more shares of this is handled. These two stocks will build up the copper stock business of this city and it was certainly a good thing for Duluth to get Butte & Ballaklava, for it will make good better than you think. You can figure that it is another Calumet & Arizona mine thrown right into this town and you know Calumet & Arizona did a few things for our city.
Butte & Ballaklava is a bonanza mine and stock will sell at $35 or $40 a share. The rich showing at the mine will cause the advance. Boston is beginning to quote it and it will not be long before this property will be listed on the Boston stock exchange.

SUMMONS IN APPLICATION FOR REGISTRATION OF LAND.
State of Minnesota, County of St. Louis. —ss.
District Court, Eleventh Judicial District.
In the matter of the application of Mary Roos to register the title to the following described real estate situated in St. Louis County, Minnesota, namely: The East half (E½) of Lot numbered Eighty-eight (88), and all of Lot numbered Eighty-six (86), in Block numbered Twenty-eight (28), Duluth Proper, Third Division, according to the recorded Plat thereof, on file and of record in the Office of the Register of Deeds in and for said County and State.
Applicant.
vs.
C. P. Walker, John Barsness, Benjamin Nelson, Ida M. Stewart Chase, Anna Andresen, City of Duluth, and all other persons or parties unknown, claiming any right, title, estate, lien or interest in the real estate described in the application herein.
Defendants.

The State of Minnesota to the above named defendants:
You are hereby summoned and required to answer the application of the applicant in the above entitled proceeding and to file your answer to the said application in the office of the clerk of said court, in said county, within twenty (20) days after the service of this summons upon you, exclusive of the day of such service, and if you fail to answer the said application within the time aforesaid, the applicant in this proceeding will apply to the court for the relief demanded therein.
Witness, J. P. Johnson, clerk of said court, and the seal thereof, at Duluth, in said county, this ninth day of January, A. D. 1908.
J. P. JOHNSON,
Clerk.
By J. S. MOODY,
Deputy.
(Seal of District Court, St. Louis County, Minn.)
OLIVER S. ANDRESEN,
Attorney for Applicant.

CERTIFICATE OF INCORPORATION
---OF---
ST. LOUIS COUNTY STATE BANK, DULUTH, MINN.

KNOW ALL MEN BY THESE PRESENTS. That we have agreed to, and do hereby associate ourselves together as a Banking Corporation, under and pursuant to the provisions of the Laws of the State of Minnesota governing Banks of Discount and Deposit; and to that end we do hereby execute, under our hands and seals, the following Certificate of Incorporation, to-wit:

FIRST.
The name of this corporation shall be the St. Louis County State Bank.

SECOND.
The general nature of its business shall be banking, receiving deposits, buying, selling and discounting notes, bills and other evidences of debt, domestic and foreign, dealing in gold and silver bullion and foreign coins, issuing circulating notes and loaning money on real estate and personal security; and the place where the business of this corporation is to be carried on is the City of Duluth, St. Louis County, Minnesota.

THIRD.
Said corporation shall commence on the 1st day of February, A. D. 1908, and shall continue for the period of thirty years.

FOURTH.
The names and places of residence of the incorporators, and the number of shares held by each of them, are as follows:

Name.	Residence and Postoffice.	No. Shares.
Charles W. Elston,	Duluth, Minn.	10
Charles A. Britts,	Duluth, Minn.	245
Fred C. Elston,	Duluth, Minn.	5
Fred B. Britts,	Duluth, Minn.	5

FOURTH.
The government of this corporation and the management of its affairs shall be vested in a board of Four Directors, who shall be elected at the regular annual meeting of the stockholders to be held on the Tuesday succeeding the first Monday of January of each year, between the hours of 9 A. M. and 5 P. M. of the said day. The first Board of Directors shall consist of the following members:
Charles W. Elston,
Charles A. Britts,
Fred C. Elston,
Fred B. Britts,
who shall hold office until the first annual meeting and until their successors are elected and qualified.

FIFTH.
The amount of the capital stock shall be Fifty Thousand Dollars fully paid in, in cash, which shall be divided into 500 shares of one hundred dollars each.
The capital stock may be increased from time to time by a majority vote of stockholders, but not to exceed the sum of One Hundred Thousand Dollars.

SIXTH.
The highest amount of indebtedness or liability to which the corporation shall at any time be subject shall be Seven Hundred Fifty Thousand Dollars.
IN WITNESS WHEREOF, we have hereunto set our hands and seals this 12th day of November, A. D. 1907.
CHAS. W. ELSTON,
CHAS. A. BRITTS,
FRED B. BRITTS,
FRED C. ELSTON.

HIS MARIETI SHE GO AWAY

No Steamboat in Hers, But the Late Train for St. Paul.

Little Old Chicago May See Some Warm Times.

Like Marluccia, of steamboat fame, Marieti Corneti has gone away.

She didn't take a steamboat, but she took the 11:10 for the Twin Cities. She left sadness and jealousy in her wake. Her sudden departure last night will be followed by the sad leave-taking of Signor Corneti, who will go in search of Marieti.

Two months ago the Cornetis came to Duluth. She was a bride and he the happiest of bridegrooms. Today he is that sad spectacle, a deserted husband, and Marieti, ah, she go away.

According to the story told today at the union depot by Corneti, a letter was the cause of the trouble. There was more than one letter, but the letter that caused the flight of Marieti came the day before yesterday. It was written by a former suitor, says Corneti, in broken English, "who live in de Chic-og," where Marieti come from, and now Corneti will go and find Marieti and avenge himself upon the cause of her flight.

Corneti must have scented the growing uneasiness of Marieti. He strove to provide diversions for her. "I take her to de show, to everywhere," is his way of saying that Marieti was provided with various forms of entertainment. Yet Marieti left in the midst of festivities.

Pedestrians might have noticed a dark man walking anxiously up and down the Bowery last night. He was looking for Marieti. It was only in the line of providing entertainment for Marieti that Corneti took her to dine at a Bowery restaurant last night. Hardly had the meal been placed on the table before Marieti excused herself for a moment and left. Minutes grew, and still Marieti did not return. Corneti grew apprehensive, then he became alarmed.

He left the restaurant. He had no appetite for his late supper. He walked up and down in front of the restaurant. Time sped. The clocks weren't striking the hour, but they were getting ready to. Then Corneti thought of the depot. Too late; Marieti had thought first.

Hurriedly he sped to the depot. Had any one seen Marieti? There could be no mistake about the hat, it had been given to Marieti by Corneti, and once described could not be forgotten. A dozen people had seen her. Marieti had gone away. And so sadly a tall, dark skinned man left the station and took a car for the West end. There he sadly packed the few things necessary for traveling, and today followed in the path of Marieti.

So if there is a commotion, or a vendetta in little old Chicago, the reason will be that Corneti has found Marieti and some one else. Pathos and rage lit up the dark eyes of Corneti. "Killa de man, dat taka my Marieti away," he said. So the meeting of Marieti and Corneti may be fraught with other things besides the felicities of connubial bliss.

SUPERIOR NEWS

A BIG SUCCESS.

Meeting Conducted by Duluth Labor Leaders Was Well Attended.

The labor meeting conducted in Superior last night, at the Grand Opera house, by the men who are superintending the campaign against the open shop movement in Duluth, was largely attended. There were some interesting addresses, and the audience that listened to them was an intelligent one, composed partly of business and professional men, with a few women sprinkled about.

The principal subject discussed was the open shop question, and the fight being carried on in Duluth, but some of the talks dealt in a general way with the benefits of organized labor, and the bad results of the open shop. Organized labor, as defined by the various speakers, was held to be a necessity to accomplish the uplifting of the working man, and the open shop was declared to be an agency that tended to lower both the moral and the financial standard of the laboring man.

Among the speakers were: W. E. McEwen, A. G. Bainbridge, J. J. McHugh, W. D. Huber and G. B. Howley. Quite a number of people attended the meeting from Duluth.

Sailors Are Banquetted.

Supt. Williams of the shipyards gave a "going home" dinner at the Rossiter hotel last evening to the vessel officers who have remained in Superior since the close of navigation. The feast was enlivened by stories of the lakes and anecdotes, which only the sailors on the Great Lakes can tell from their years of experience. Covers were laid for about twenty guests.

New Attractions Tomorrow.

Duluth's greatest white sale will take on fresh interest tomorrow—New items will be placed on sale—We continue to undersell them all. Gray-Tallant Co.

STOVE EXPLODES; PEOPLE ESCAPE

Mrs. C. C. Carlson and Three Children Have Miraculous Escape.

Mrs. C. C. Carlson and her three children had a remarkable escape from serious injury, at least, yesterday, when a gas stove, near which they were standing, exploded, sending pieces flying through the air of the room and knocking out two windows.

The stove exploded wholly without warning. The members of the family were in the kitchen of their home, at 425 East Fifth street, when the accident happened. The report gave them a severe fright, but when they recovered sufficiently to examine the result, they found that nobody had a scratch. There were pieces of the stove lying all about the room, two windows had been blown out, and pieces of furniture were knocked over, but the family escaped everything.

That nobody was injured is miraculous, as they were standing near the stove and the force of the explosion was terrific.

F. O. E.
All members of Duluth Aerie, No. 79, and visiting Eagles, will meet at the Hall, Saturday, Jan. 11th, at 1 o'clock p. m., for the purpose of attending the funeral of our late Brother, Robert P. Rodgers.
JOHN KERNS, W. P.

GROCERS ARE ARRESTED

Because a composition, which they sold as pure maple sugar, was found by the state dairy and food inspection board to contain maple sugar and cane sugar, Harry F. Parfitt, proprietor of a grocery at 232 West Second street, and Albert G. Habhegger, a grocer at 229-231 West Fourth street, were this morning arraigned in municipal court on the charge of selling adulterated food products, without having them labeled, as provided by law. Parfitt pleaded guilty, and Habhegger entered a plea of not guilty. Both cases will come up next Friday.

Complaint was made by Harris Bennett, deputy food inspector for this district. Aug. 22, Mr. Bennett alleges, he purchased a cake of the stuff represented to be maple sugar from Parfitt, and the following day made a purchase from Habhegger. Both samples, on analysis by the state laboratory, were shown to be substitutes for the pure maple sugar, and warrants were issued.

When the pure food laws went into effect, April 1 last, grocers and dealers in all food products were warned to throw out all adulterated articles, not so labeled, and when the grocers didn't take the action, the pure food inspectors did it for them. Several convictions were obtained under the law, but the two men arraigned today are the first for some time.

Habhegger claims he bought the article sold from a wholesale house under the representation that it was in strict conformity with the pure food law. The wholesale company, if it violated the law, will probably hack the grocer up and take the responsibility.

Annual Ski Tournament.

Of the Duluth Ski club will be held at Chester Creek hill Sunday p. m., Jan. 12.

Heavy weight underwear is easier to carry around than a fur coat, and it protects you for little money.

Less now than ever, for every underwear price in The Columbia store is subject to a rebate of 25 per cent, that is a dollar garment goes for six bits, and a four-dollar suit for $3 and so forth.

Today's extra special in the Furnishing Section consists of fifty and seventy-five cents shirts at 35 cents.

TWENTY-FIFTH YEAR. SPECIAL MAIL EDITION FOR SUNDAY MORNING, JANUARY 12, 1908. (ON TRAINS, FIVE CENTS.) TWO CENTS.

THE THAW JURY PLACED UNDER GUARD TO REMAIN SO UNTIL END OF TRIAL

Mail Read Before They Are Allowed to See It.

Newspapers Are Carefully Censored Before They May Read Them.

Famous Trial Will Begin in Earnest on Monday Morning.

New York, Jan. 11.—The attorneys in the Thaw trial are taking a day off today and going over their testimony for the last time before the actual trial of the case begins. On Monday morning the trial proper will be opened with a brief address by Assistant District Attorney Garvan and then the people's case will be put in. The case will be brief. The killing will be proved and evidence will be introduced to show that the shot which killed Stanford White was fired by Harry K. Thaw. It is not likely that more than two or three hours will be required. Then the prosecution's direct case will be closed and the defense will begin.

Jury Under Close Guard.

The jury, which was completed yesterday, will, however, spend today and tomorrow and all other days until the case is finally completed, under close guard. Their mail will all be read before they are allowed to see it, and they can only read newspapers after the head bailiff has carefully cut from them every reference to the trial. They will be even more closely guarded than Thaw himself.

Five Gray Heads in Box.

The twelve men who will decide Thaw's fate are all beyond middle age, there being five gray heads in the jury box. Ten of them are married, the other two being widowers and practically all of them are fathers of families. The fact that the jury was finally accepted without the attorneys using up all the peremptory challenges allowed them, shows that both the prosecution and the defense are satisfied. The fact that eight days was required to complete the first jury, while the work this time was accomplished in five, is due in some measure to the night sessions of the court, which Justice Dowling insisted on holding.

DR. MARGARET KOCH, Recently Appointed by Governor Johnson as a Member of the State Board of Medical Examiners.

TRIAL IS TIRESOME

Progress in the Wisconsin Case Slow and Monotonous.

The Testimony is Largely of a Technical Nature.

St. Paul, Jan. 11.—(Special to The Herald.)—The progress of yesterday afternoon's session of the trial of George W. Wood, L. A. Wood, F. B. Wood, L. C. Wood, Paul Foss and Charles Kelly, alleged officers of the Wisconsin Grain & Stock company, charged by the government with complicity to defraud by the use of the United States mails, was slow and monotonous.

The testimony was of a technical nature, and was offered by the prosecution with an idea of connecting the testimony of the previous witnesses.

Paul Jaeger, the former employe of the Wisconsin company, who was on the stand all of the forenoon, was also on the stand at the opening of the afternoon session.

Under cross-examination by Judge

(Continued on Page 21, Fifth Column.)

FOR RELIEF OF SETTLERS

Who Lost Land, Bede Introduces Bill in House.

Washington, Jan. 11.—(Special to The Herald.)—Representative Bede has introduced a bill for the relief of settlers who actually entered and attempted to make settlement upon and thereafter improved any portion of an odd numbered section within the conflicting limits of the grants made in aid of the construction of the Chicago, St. Paul, Minneapolis & Omaha Railway company and the Wisconsin Central, and whose entry or claim to the land was thereafter declared insufficient or invalid.

Briefly, the intent of this act is to give any claimant, who attempted to locate a claim on the Wisconsin Central railroad's lands and whose entry was finally lost, the right to re-entry under certain provisions. There are numerous such claimants now residing in Wisconsin and Minnesota.

SOCIALISTS ARE ANGRY

Regard Refusal of Manhood Suffrage as Declaration of War.

Say They Will Organize and Make Demands Irresistible.

Berlin, Jan. 11.—Order prevails throughout Berlin today and there has been no recurrence of the demonstrations of yesterday for manhood suffrage in Prussia. The police, however, are still in force at the strategic points of the city—the neighborhood of the palace and various public squares—or they are being held in reserve at the station houses. The police do not permit the people to form in groups, and consequently it has been impossible to assemble and start a demonstration. Most of the men arrested yesterday were released today.

Herr Bebel, Herr Singer and their associates, who compose the committee of seven which is managing the Social Democratic party, regard the terms in which Prince Von Buelow, the imperial chancellor, yesterday rejected the demand for manhood suffrage and a secret ballot, instead of the existing property qualification for voters as a declaration of war. The Vowaerts, the official organ of the committee, says today:

"There will be no quiet in Prussia until universal, equal, secret and direct suffrage has been won. Prince Von Buelow's declaration is quite clear. The phantom of a liberal era is ended. The people are warned, and they will learn."

The paper then asks:

"Will the government dare ignore

(Continued on page 5, sixth column.)

PRESIDENT AN "OVER IDEAL"

Judge Grosscup Thinks He Carries Ideals Too Far.

Chicago, Jan. 11.—Judge Peter S. Grosscup of the United States district court thinks President Roosevelt may be an "over ideal." In an address at the twenty-fifth annual initiation banquet of the Beta Theta Pi fraternity, at the Congress hotel last night, Judge Grosscup said:

"I may not be sure but what Roosevelt is an over ideal. We must not go too far in ideals. We must not overemphasize them at the expense of the practical side of life. They go hand in hand with and accomplish something more than dreams. Ideals are often overdrawn and we may carry them too far. It is in this respect that I refer to the president.

"We should not devote ourselves in this commercial age to mere ideals, but should look further."

A HOLY WAR IN MOROCCO

Mulai Hafid Made Sultan, Deposing Abd El Aziz.

Decision of Aziz to Aid France, Cause of Overthrow.

Tangier, Morocco, Jan. 11.—Mulai Hafid was, on Jan. 4, proclaimed sultan at Fez, one of the capitals of Morocco, and a holy war has been declared.

Unverified reports to this effect have been in circulation for a day or two, but today official confirmation of them was received. Mulai Hafid, who some months ago was proclaimed sultan at Morocco City, was not present at Fez, and his uncle, Mulai Saramini, was made vice regent, pending his arrival there. Abd El Aziz, the sultan of record, was formally deposed from the sultanate.

The proclamations were issued at the principal mosques, and all the Moorish formalities attending such ceremonies were scrupulously observed. The Ulemas, or body of Moslem doctors, who interpret the Korean, of the Choffas tribes, and the city officials were the principal leaders in the movement. The followers of Mulai Hafid made use of the decision of Abd El Aziz to co-operate with France and Spain in the execution of the terms of the Algeciras act, and the installation of an international police force in the coast towns of Morocco, to arouse the fanaticism of the Southern Moors. Abd El Aziz was represented as having sold himself to the Christians, as having connived at the invasion of the sacred soil of Morocco by Europeans, and as being ready to turn the country over to the foreigners.

France Is Disturbed.

Paris, Jan. 11.—The government is

(Continued on page 5, sixth column.)

FATHER JOHN IS HONORED

Emperor Appoints Him to Take Part in Synod Settings.

St. Petersburg, Jan. 11.—Emperor Nicholas has manifested his confidence in Father John of Cronstadt, the well-known Russian priest, by appointing him to take part in the sittings of the synod of this year, an honor which up to the present time has been enjoyed by only two members of the non-monkish clergy, including the emperor's own confessor.

There has been some improvement in the health of Father John, but his feebleness is still a source of anxiety.

This year's sessions of the synod will be important, for during them important principles of church reform will be elaborated.

FIRE CANNOT BE SUBDUED SUCCESSFULLY IN THE BIG NEW YORK SKYSCRAPERS

BETS $5,000 THAT JOHNSON, IF NOMINATED FOR THE PRESIDENCY, WILL BE ELECTED

New York, Jan. 11.—With the convention which will nominate presidential candidates still months away, betting on the result of the election has already been started at the metropolitan headquarters for campaign wagers, the Hoffman House. The first wager of the campaign is reported as having been recorded last night on the offer of John S. McDonald, the turfman, to bet $5,000 that Governor John A. Johnson of Minnesota, if nominated for the presidency, would be elected. The reported taker of the wager is Thomas H. Shevlin, father of Thomas Shevlin, the Yale football player, and at one time member of the Republican national committee from Minnesota.

CLOSE CALL FOR A SCORE

Sensational Rescues of Many Persons in Ashtabula Fire.

One Woman Falls From Ladder and is Badly Hurt.

Ashtabula, Ohio, Jan. 11.—More than a score of persons were rescued in a sensational manner late last night in a fire which gutted the four-story Warren building. All of the inmates got out alive, but several were badly hurt.

The fire started from an explosion in the Reed Furniture store, on the second floor. The flames shot up to the second, third and fourth floors, which were occupied as living apartments by several families. Mrs. Kitzler, who lived on the third floor, had to be taken out of a third-story window by firemen. Coming down the ladder she fell twenty feet to the sidewalk, and was sent to the hospital badly injured.

A number of other persons were overcome by smoke, while several were more or less burned before they were carried out of the building. The pecuniary loss is estimated at $20,000.

JEWELRY IS FOUND

The New York Police Recover Gems Valued at $17,000.

Stolen Last Sunday From Home of Ansonia, Conn., Man.

New York, Jan. 11.—In an untenanted room in a tenement house on the East side, yesterday, detectives found a valise containing antique jewelry, valued at $17,000, stolen Sunday from the home of Charles F. Brooker, at Ansonia, Conn. Frank Riva, who was formerly a butler in Mr. Broker's Ansonia home; his wife, Enrica, and his brother, Carlo, are under arrest charged with the theft, and are held awaiting extradition papers from Connecticut. Although Riva was identified by pawnbrokers and dealers in antiques as a man who had tried to sell them antique jewels, nothing of the kind was found in the rooms he occupied with his wife. Yesterday detectives went to a tenement house, where they had seen Riva, and in a room, which had been rented to a man whose description answered to that of Riva, was found the valise containing the jewels. Mr. Brooker's house was twice robbed after Riva left there, both times the thief getting a key from its hiding place and opening the secret safe in which the antique jewels were kept. The total value of the jewels taken was $25,000.

THOSE WHO HAVE PASSED BEYOND

George Benz, Pioneer Business Man of St. Paul, Dead.

St. Paul, Minn., Jan. 11.—(Special to The Herald.)—Word was received here today that George Benz, head of the wholesale liquor firm of George Benz & Co. of St. Paul, and a pioneer business man of this city, had died in Mercy hospital in Chicago, today. Mr. Benz went to Chicago, Jan. 2, on the advice of his physicians, for an operation. Pneumonia developed, and it is said, was the immediate cause of death. Mr. Benz was 60 years of age.

Milwaukee, Wis., Jan. 11.—An Evening Wisconsin special from Stevens Point, Wis., says: Judge Frank M. Fish, aged 50 years, for twelve years judge of the First judicial district, but who retired from the practice of law seven years ago, died yesterday of bronchial trouble.

Milwaukee, Wis., Jan. 11.—Lieut. John Armitage, 64 years, died at the Soldiers' home in this city today of heart trouble, from which he had been suffering for several months. Lieut. Armitage was a member of the Twenty-fourth regiment, and served through the Civil war.

Big Thirteen-Story Building Burns Almost Like Tinder.

Water Towers Could Not Reach Above the Eighth Floor.

Three or Four Lives Supposed to Have Been Lost.

New York, Jan. 11.—With the first streaks of dawn this morning scores of firemen began the task of searching in the ruins of the Parker building, at Nineteenth street and Fourth avenue, for the bodies of the three firemen who were reported missing after the calling of the roll of the companies that took part in fighting the spectacular fire that destroyed the thirteen-story building last night, causing a loss variously estimated at amounts reaching $6,000,000. Although accounted fireproof, the great building burned almost like tinder, the fire in the upper stories gaining great headway unchecked, as it was far beyond the reach of even the fire department's great water towers. Sensational rescues were the feature of the fire. Five men who were at work on the top of the building were cut off from rescue below, and sought the roof, where they stood silhouetted against the flames which had broken through the roof. From the top of an adjoining building, several stories lower than the blazing one, a line was shot up from a mortar, and with this line the beleaguered men drew up a stout rope, which they fastened to a chimney, sliding down to the lower roof in safety.

Caught in Sixth Story.

Three firemen were caught in the sixth story when a floor below them dropped, and were forced upward to the seventh, and then to the eighth story of the building. From below it seemed that rescue was impossible, until several firemen, seizing scaling ladders, began to swing themselves up the face of the tottering wall. Climbing to a window ledge, the ladder, with its great hook, was drawn up and swung to a higher ledge, the men working heroically until their endangered comrades were reached. Down the smoking wall the men came slowly, almost painfully, until they were near enough to the ground to drop into their comrade's outstretched arms. So narrow was the escape, for rescuers as well as rescued, that the ladders themselves were burned where they hung when the firemen dropped from their rungs.

But even the rescue of these men was not complete, for three who went up into the building failed to return. These three disappeared in the mass of falling concrete and twisted steel beams. It is their bodies that sorrowing comrades are searching for among the smoking ruins this morning. In addition to the missing, a score or more of firemen were hurt, their injuries ranging from painful bruises to hurts which may prove fatal.

Robert Beyer, a printer, employed on the fifth floor of the Parker building, was reported missing today. He was at work in the building when the fire started and has not been seen since.

Public Warned to Keep Away.

The fire was officially declared to be under control soon after 7 o'clock, but Deputy Chief Binns warned the police to keep the crowds as far away as possible from the wrecked building, as there was till danger that it might collapse as a result of the contraction of the steel girders as they cooled. This resulted in a complete tie-up of the Fourth avenue trolley line and it was not expected that any cars would go over the Eighteenth street crossing during the day.

The through subway service, which had been resumed during the early rush hours, was suspended shortly after 9 o'clock, owing to fear of the officials that the wreck of the Parker building might collapse and crash through into the underground tube. After that hour no trains were run between Grand Central station at Forty-second street and Fourth avenue and Fourteenth street. During the forenoon it was not at all certain when the great underground highway would

(Continued on page 5, seventh column.)

PERMANENT INJUNCTION

Not Likely to be Granted Against the Washoe Smelter.

Butte, Mont., Jan. 11.—Master-in-Chancery Crane filed findings in the famous Deer Lodge valley smoke case, in the federal court, today, and if approved by Judge Hunt, it is not likely that a permanent injunction, asked for by the farmers residing close to the $5,000,000 Wasoe smelter at Anaconda, will be granted. Besides the significant views expressed by the master in his appended statement, an important feature is the manner in which the findings relating to the effect of arsenic upon the animals in the alleged smoke zone have been amended. The original finding now is made to state that no deaths were found to have occurred from arsenial poisoning, it being held that sickness only resulted. It was on the allegation that deaths of animals had occurred from such poisoning that the request for a permanent injunction was largely based.

JAPS COMING EAST.

Colonization Scheme in Alberta Means a Fresh Invasion.

Vancouver, B. C., Jan. 11.—The Japanese question is going to be felt beyond the Rocky mountains very soon. A syndicate of Japanese has purchased a large tract of land from the Canadian Pacific in Alberta, and will colonize it with their own people.

A representative of the syndicate left here recently for Japan, and he announced that he would return with the first party of 200. They will open the land, construct irrigation ditches and get things in readiness for the next arrivals. It is reported that 20,000 Japanese can live comfortably on the land, and that number is expected to arrive here the next two years.

The syndicate will instruct the colonists in sugar beet raising, and it is planned to erect a factory to handle 5,000 tons of beets annually.

WANT DUTY-FREE FLOUR.

Laplanders Sent Petition to King Gustaf of Sweden.

Stockholm, Jan. 11.—Laplanders have petitioned King Gustaf for duty-free flour, as great distress prevails among them on account of the wet summer. About fifty parishes are represented in the petition. The king has ordered an investigation to be made.

STEERAGE RATES AGAIN CUT.

Liverpool, Jan. 11.—The Cunard steamship Tempt has made a further reduction of $3.50 in its steerage rates to meet the White Star line's second cut. The Cunard company has also followed the White Star line in its reduction in the second cabin rates.

GOLOVINE'S HOUSE BURNS.

St. Petersburg, Jan. 11.—The manor house on the estate of Feodor A. Golovine, who was president of the second duma, has been destroyed by fire. M. Golovine possessed a most valuable political library and a collection of documents relating to the present epoch of Russian history. They were consumed in the flames and can never be replaced.

CAPTAIN IMPRISONED.

St. Petersburg, Jan. 11.—Capt. Kayutin, the commander of a Russian black sea steamer, has been brought to St. Petersburg and imprisoned on the charge of having brought into the country large quantities of arms for the use of the Russian revolutionists.

THREE MEN MISSING.

Spokane, Wash., Jan. 11.—A. C. Coggin of Seattle, state manager of the Loyal Americans, J. W. Vessey and John Peters, wealthy sheep men of Prosser, left for Durango, Mex., last March to purchase land. They took along about $30,000. No trace of them has been found since last April, though it is known they reached Durango. It is suspected they were last in the mountains or were killed by Indians.

DROUGHT IS BROKEN.

Lahore, India, Jan. 11.—The drought which has prevailed here for the past six months has been broken by copious rains throughout the Punjab and the threatened repetition of an acute state of famine, which has caused such terrible mortality in recent years, has thus been averted.

RUNAWAY NOT FOUND.

Wealthy Man Fears Son is Foul Play Victim.

Boone, Iowa, Jan. 11.—Rolla Bolin, aged 17, one of the party of four who eloped from Quimby and were captured here Thursday, cannot be located. His father, who is worth $100,000, has offered a reward, fearing foul play. The girls in the party declare they wanted to join a musical comedy company. The trio was taken back by Sheriff Lowery of Cherokee, who states that William Gilmore, the oldest of the quartet, will be prosecuted.

CHAMPION TEAM WINS.

Bemidji, Minn., Jan. 11.—(Special to The Herald.)—In one of the fastest and most stubbornly contested games of basketball ever played in Northern Minnesota, the "Big Bemidji" five lost a game Friday evening to the Grand Forks team, the score at the end of the game being 18 to 15 in favor of the players from the Flickertail state.

TAKAHIRA CHOSEN.

Tokio, Jan. 11.—It is officially announced today that Baron Takahira has been chosen ambassador to the United States to succeed Viscount Aoki.

WAR ON VIVISECTION.

American Society to Hold Mass Meeting in Philadelphia.

Philadelphia, Jan. 11.—Determined not to permit the vivisection of animals at the Rockefeller farm at New Brunswick, N. J., for the purpose of obtaining serum for the cure of spinal meningitis, the American Anti-Vivisection society will hold a monster mass meeting on Wednesday.

DAUGHTER AFTER MILLIONS.

Demands Accounting From Widow of $20,000,000 Estate.

New York, Jan. 11.—Sensational charges of the mismanagement of the estate of her father, the late August Schmidt, brewer, are made by Mrs. Hugh A. Murray, in the suit which has been instituted to compel an accounting from Mrs. Schmidt and to have her removed as executrix of her husband's will. Under the terms of the will she was to receive one-third of his property and his children, only one of whom survives, two-thirds. The estate is estimated at $20,000,000 or more. Former Senator John C. Spooner is one of the attorneys for the daughter.

FAVORS EARLY MARRIAGES.

Smith College President Does Not Believe in Careers for Girls.

Northampton, Mass., Jan. 11.—In the interest of early marriage by college women President L. Clark Seelic of Smith college, in his annual report, recommends the simplification of the entrance examinations as calculated to reduce the time required for the education of the American girl. The document incidentally takes the position that marriage and not a career is the highest field of usefulness for the college bred woman.

SIXTEEN KILLED IN A STAMPEDE

Senseless Panic in English Theater Causes a Tragedy.

Barnsley, York, England, Jan. 11.—The senseless stampede of a crowd of people in a theater of this city resulted today in sixteen persons, including a number of children in arms, being crushed to death by the frantic efforts of the crowd to get clear of the building. Many others were injured, and all for no reason. There was no danger, no fire; only the unaccountable panic of the crowd that found its egress from the theater hampered by its own numbers.

BILL FOR THE RELIEF OF AITKIN COUNTY FARMERS.

Washington, Jan. 11.—(Special to The Herald.)—In the spring of 1902 settlers in Aitkin county were flooded, due, it is claimed, to the engineer in charge of the reservoirs, who turned the waters in the reservoirs loose, causing utter destruction to thousands of dollars of property. Senator Clapp and Congressman Bede are now engaged in collaborating on a bill of the relief of these settlers. A special bill will be presented, and the probable outcome will be that the aggrieved farmers will be permitted to prepare and present their claims to the United States court of claims for adjudication.

This will not cause wrinkles or necessitate any interference with the diet.

FOUR OTHER TRUE BILLS

Were Returned by Grand Jury in Election Investigation.

But Men Wanted Have Fled—Nobody "Higher Up."

The investigation of illegalities at the primary election last month have progressed to a point where the authorities have all available knowledge of frauds having been perpetrated, without having the necessary evidence on which to make arrests and prosecutions. It looks as though the arrest of Ben Vail on indictment by the grand jury will be the only one, and the investigation will resolve itself into a warning to the people and election judges that the ballot is not to be perverted and future transgressions of the law, with the authorities on their guard, will not result so well for the culprits.

Besides the inictment against Vail, it is learned that the grand jury returned "John Doe" indictments against four or five men, who were recruits to the United States Navy, waiting in Duluth for shipment at the time of the election. The men wanted left the day of the election for the Mare Island Navy yard on the Pacific coast, and the course to be pursued in regard to the warrants is still doubtful. Enormous expense would result from proceedings to return the men to Duluth for trial, and, even after the expense had been incurred, it is doubtful if they could be secured. They are now United States sailors, under the control of the government, and a long legal fight might be necessary, if the city and county should decide to prosecute the case to the end.

The men wanted are alleged to have repeated in the Seventh ward. Notice of the fraud was given the police the night of the election and four men were taken off a train at Superior, it being supposed that they were the men. When they were brought to the central station, they could not be identified and were released. It later developed that they were not the recruits, who had left for California earlier in the day. The evidence against the men is strong and the grand jury returned the indictments, but it is doubtful if the expense and trouble will warrant an attempt to secure them for trial.

"We believe that frauds were perpetrated to some extent in the primaries, but our hands are tied," said an official today. "It is much easier to talk of prosecuting election frauds than it is to arrest the criminals and secure indisputable evidence of their guilt. A man cannot be convicted of illegal voting on mere hearsay. Absolute evidence must be secured and that is a very difficult thing to obtain, when there is no suspicion of fraud on election day.

"In regard to the reports that have been published, the poll books give no clue to the men who voted fraudulently. Because a man appears at the polls and gives a fictitious address, it doesn't necessarily follow that the people, who really live at that address, are responsible for the fraud. Neither does it follow that the hotels are guilty of fraud, if the grafters use the name of the hotel as a convenience in casting illegal votes."

Some of the judges of election, who presided at the election, with absolute confidence in the honesty of every man, are coming in for a good deal of criticism. They evidently took everything for granted in some of the precincts and the result was a good deal of illegal voting, which might have been prevented by vigilance on the part of the election boards.

B. Foran and Rob Thompson voted in the second precinct of the Fifth ward, giving their address as the Idaho hotel. The Idaho hotel is at 3 South Sixth avenue west, in the third precinct of the Fifth ward. A. P. Lindback, Albert Olson and William Pearson voted in the third precinct, giving their address at the Idaho. In the directory, the name of William Pearson is the only one of the five which appears.

There has been a gradual leaking out from the grand jury room. It develops that there was never any intention of indicting people high up. The evidence considered on the election frauds did not tend to show fraudulent procedure by anybody of prominence. Obscure transients evidently voted from a number of the low rate hotels, but there was nothing to show that they were influenced to do so. Only the evidence against the recruits was convincing, besides that on which Vail was indicted.

The result of the investigation will be more care in future elections. The frauds have occasioned much talk and no definite results. The police have investigated such reports as have come to their ears, but the mere report that a nameless wanderer voted illegally doesn't give them any clue to the present whereabouts of the wanderer. Election judges will be posted in the future to use discretion, and the parties will be more careful in the distribution of challenges. It is an awakening to possibilities which will serve well in elections to come.

All Atlantic Records Broken.

The Lusitania and Mauretania proved to be the fastest ships ever constructed when they broke all previous records by crossing the Atlantic in less than five days. This wonderful attainment is a practical triumph we can all appreciate. The most practical method for curing ailments of the stomach and bowels is to resort to Hostetter's Stomach Bitters. The many thousands of persons cured by it during the past fifty-four years are in a position to fully appreciate its merit, and a similar experience will be yours if you will start at once. It cures and prevents poor appetite, sour risings, dyspepsia, indigestion, costiveness, biliousness, female ills, general debility, colds and malarial fever. We guarantee it pure. Try it today, also ask your druggist for a free copy of our 1908 Almanac before the supply is exhausted.

ANNUAL MEETING.

Central Baptist Church Elects Officers and Burns Mortgage.

The annual business meeting of the Central Baptist church was held last evening at the church parlors, and a most successful and encouraging session was attended by a large number of the church members. One of the important features of the evening was the burning of the mortgage of the church. The reports of the various officers showed the church to be in good condition in its various lines of work. The salaries of the pastor, Rev. J. Wilfred Loughbridge, and the organist, were increased. The trustees elected were A. Blackmar and J. H. Lent, who were re-elected, and F. Mitchell, who was elected to fill out the unexpired term of J. O. Milne, deceased. The deacons selected were E. M. McPhail and E. E. Churchill, and the treasurer, W. E. Matthews, and clerk, Miss Minnie Milne, will continue in their offices. Mrs. J. O. Milne was elected solicitor. Short addresses were given by the various members and an informal social hour was enjoyed after the meeting.

FIGHT FOR POSTOFFICE.

Many Think Gardner of Princeton Has Had Office Long Enough.

Washington, Jan. 11.—(Special to The Herald.)—It is probable that a fight will be made over the postmastership of Princeton. William Gardner, who was originally appointed as a Democrat, and who has served three terms, desires to continue to serve the patrons of his postoffice. There is a pronounced feeling in Princeton that Postmaster Gardner has had the postoffice long enough, and should now step aside and give some one else a chance at the public crib.

L. S. Briggs is practically the only candidate as yet announced to oppose Postmaster Gardner. Mr. Briggs has been the Republican political manager of every Republican congressman, beginning with Charles Towne, continuing with Judge Morris, and served in a similar capacity for J. Adam Bede. Mr. Bede said today that he had heard of the impending conflict only unofficially, and being wise, he is not committing himself till he is forced upon the firing line.

Charles D. Ostergren,

VIOLINIST.

I hereby announce that I have organized an orchestra of the very best musical talent at the Head of the Lakes, and am prepared to contract for all kinds of engagements, viz: Balls, Receptions, Weddings, Concerts and Theatricals.

CHAS. D. OSTERGREN, 308 Temple Building.

A VERSATILE DOG.

Of all our dogs there is none so versatile in mind and body as the terrier. There is no service that a dog can do for us in sport or as a companion, says a writer in Blackwood's Magazine, that he is not capable of.

I knew one terrier in India who devoted herself to the dangerous and exciting sport of snake killing. Her method was to irritate the snake into sitting up. She would dance around it, sparring for an opening, as it were. Then with incredible swiftness she darted at the reptile and gripped it close behind the head a sharp bite and the snake was dead.

She was marvelously successful until on an unlucky day when one of her puppies was with her she found a snake. The puppy got in her way at the critical moment and the snake struck Nettle on the nose. The wound was slight, it was cauterized at once and a strong dose of whisky administered. Apparently Nettle was quite well, the next morning, but as she was playing with the puppy she suddenly turned head over heels and when we reached her she was dead.

A fox once went to ground in a narrow drain; two terriers were running with the pack. The first went in, and unable to get up to the fox, caught hold of the brush, the only point he could reach.

The second terrier also went in, but could not, of course, get far, as his companion blocked the way, so he caught hold of the first terrier's tail. Then came the whipper in and he stooped down, put in his arm and feeling the second terrier he caught hold of him and pulled him out.

There was considerable resistance, but at length, to the amusement of the field, the second terrier appeared holding tight to the tail of his predecessor, who in his turn was holding on to the brush of the fox.

If your terrier is to do his best for you in the field he must share your home, or if he believes in a kennel you must be often with him, but my experience is that dogs best for work have been those that have lived with me day and night. A dog so studies your face that he learns to anticipate your wishes, almost to read your expression.

Moreover, he picks up a good many words when he is always in the house and I have generally found that there are some words which are so thrilling that they have to be spelled out by members of the family. The sound of them is too exciting for the small friends under the table or seated on their favorite chairs.

The terrier that lives in the house develops a vocabulary of his own and one I now well had three distinct tones. With one he called his mistress when he was in trouble; in another, respectfully imperious, he invited a trusted friend to take him out. If he wanted the servants he ould put his head through the banisters of the kitchen staircase and bark sharply and imperiously.

Each tone was known and recognized, and I never knew him to deceive by using one in the place of the others.

ONE-THIRD OF BUSINESS

Of Money Order Department Done in West Duluth.

Branch Postoffice is Greatly in Need of More Room.

The fact that the West Duluth branch of the city postoffice does over one-third of the money order business in Duluth was brought out last night at the meeting of the West Duluth Commercial club. This is due to the number of foreigners employed by the Zenith Furnace company and the coal and ore docks, who send their money home in the form of postoffice orders.

The matter was brought before the meeting because the postoffice, in its present small quarters, is greatly handicapped in the handling of such a big business by the lack of room.

Last summer when Congressman Adam Bede was a guest of the club the cramped condition of the postoffice was pointed out to him and he was entirely in sympathy with the suggestion that the government should be petitioned to make an appropriation for a new postoffice building in West Duluth, and promised to do all in his power to promote such an appeal at Washington. So several months ago such a petition was sent to Mr. Bede and Postmaster Eaton, and last night it was voted to renew the petition. This petition also contains a vote of thanks to Mr. Bede and Mr. Eaton for the additional carrier service which has lately been given to West Duluth.

Alderman Getchell was appointed to look into what the city council had done in regard to the question of removing the Oneota storehouse of the Corn Planter Oil company, which, on account of the large quantities of oil and gasoline stored there, is considered a menace to the neighboring houses, and on those grounds was referred to the city council some time ago. But as yet they have apparently done nothing about it.

Joseph Cochran and M. M. Clark were appointed to represent the West Duluth Commercial club at the meeting of the Minnesota Commercial Clubs, to be held in the old state house in St. Paul, on Jan. 16. A sum of $25 was voted the delegates to defray their expenses on the trip.

It was also decided to make several improvements in the club rooms, to accommodate the several fraternal orders that have recently sub-leased them from the club.

The club will have the whole of the upper part of the Western State bank building as soon as it can rent the two front rooms.

J. J. Frey offered the use of his piano, which was accepted.

Next Friday evening the annual reports of the secretary and treasurer will be received at the meeting.

Surprise Party.

Last evening, the young people of the Congregational church of West Duluth gave a surprise party in honor of Rev. and Mrs. J. A. Lumley, the occasion being their twenty-fifth wedding anniversary. The evening was pleasantly passed in playing games. Refreshments were served. Those present were: Mr. and Mrs. C. M. Weaver, Mr. and Mrs. M. R. Solen, Mrs. Harry C. Merriman, Mrs. R. McKee, the Misses H. Sostead, Maude Lee, Esther Lee, Brown, Bessie Lumley, Helen Lumley, Mabel Robb; Dr. H. Baker, Conrad Solen, Ray Kindy, H. C. Brown, Henry Onsgard, Thomas W. Brain.

West Duluth Churches.

At the Holy Apostles Episcopal church, Fifty-seventh avenue west and Elinor street, there will be holy communion and sermon at 10:45 o'clock Sunday morning. The subject of Rev. R. J. Mooney's sermon will be, "Listening to Advice." The Sunday school will meet directly after the morning service.

* * *

At the Asbury Methodist Episcopal church, the pastor, Rev. Thomas Grice, will preach at both morning and evening services, Sunday.

In the morning at 10:30 o'clock, his sermon topic will be, "The Questioning Look," and at the evening service, "The Strange Things of Life." Sunday school will meet in the morning at 11:45 o'clock. I. G. Wollan is the superintendent. Epworth league will meet at 6:45 in the evening, with J. D. Maldahl as leader.

* * *

At the Norwegian Lutheran Synod church, corner of Fifty-seventh avenue west and Gosnold street, there will be evening services at 7:45 o'clock, conducted in the English language by Rev. E. Wulfsberg. Sunday school meets at 9:30 o'clock in the morning.

* * *

At the Plymouth Congregational church, Fifty-fourth avenue and Bristol street, J. A. Lumley, minister, will preach morning and evening. At 10:30 o'clock, his subject will be "The Sea of Glass Mingled with Fire." At 7:30 o'clock, he will deliver an address on "The Relation of Strength to Weakness, or Social Obligations." The Sunday school will meet at 12 o'clock, the Young People's meeting will hold its session at 6:45 o'clock. Prayer meeting is held every Thursday evening, in the church chapel at 8 o'clock.

* * *

Rev. W. J. Lowrie, pastor, will preach at both morning and evening services at the Westminster Presbyterian church. In the morning at the 10:30 o'clock service, his sermon subject will be "The Other Half" and in the evening at 7:30 o'clock he will preach on the topic "The Fact of Sin" Sunday school will meet at noon and Christian Endeavor at 6:30 o'clock.

* * *

In the morning at 11 o'clock, at the Merritt Memorial M. E. church, the pastor, Rev. Samuel G. Briggs will preach on the subject, "Robbing God." Sunday school will meet at 10 o'clock, Junior league at 2:45 o'clock, and Epworth league at 7 o'clock.

At the evening service at 7:45 o'clock, the Rev. G. O. Parish of South Superior will preach.

Plume Sale.

Our first annual plume sale Monday. Watch. Panton & White Co.

DULUTH HAS THE TROPHY

Western Club Curlers Are Defeated in Final Match.

Lose the Deciding Games After Making Hard Fight.

The Duluth Curling club is now in possession of the Manley-McLennen trophy for 1908. The Duluth curlers won from Superior in two out of three matches and last night they defeated West Duluth in the second series with them, by a small margin of 4 points, the total score being 40 to 44.

In the first series between the Western and Duluth Curling clubs, Duluth won by a score of 48 to 34. In both sets of games the Western players put up a strong fight, but the Duluth curlers were too old and experienced hands at the game and it was an uphill struggle for the West Duluth men.

Last night the rinks skipped by Meldahl and Macauley did some splendid curling and won from the opposing Duluth rinks, skipped by Catlin and Hurdon, respectively, by the scores of 13 to 8 and 16 to 9. For Duluth, the rinks headed by Brewer and Stocking defeated Meldrum's and Fillatrault's rinks, 18 to 5 and 9 to 6 respectively.

A large crowd watched the play. Although the evening was mild, the ice was in very good condition.

The committee on games at the Western Curling club have chosen twenty skips and picked twenty rinks, as nearly matched as possible, to compete for the trophy presented by the Union Match company. As yet no date has been set for the games.

Y. P. S. Meets.

The Young Peoples' society of the Emmanuel Lutheran church met Thursday evening at the home of Miss Rowina Olson, 6518 Grand avenue west. After the routine business, the following program was rendered:

Piano solo .....Miss Hilda Olson
Recitation—"A Glass of Cold Water" ..... Peder Dorken
Piano solo .....Miss Paulin Solum
Recitation—"I Have Nothing to Say" .....Miss Lena Clementson
Piano solo.....Miss Ragna Strand

After the progegram games were played and refreshments served.

West Duluth Briefs.

RAILROADS

A HEARING NEXT WEEK

The Interstate Commerce Commission Will be in Duluth Monday.

The Free Storage Proposition Will be Taken Up.

A great deal of interest is being shown in Duluth in regard to the hearing before the interstate commerce commission, to be held in this city next Monday. It has been called for 1:30 o'clock, in the federal court rooms, and is the result of a complaint brought by the Commercial club against the Great Northern, Northern Pacific and Omaha roads, because of their practice of granting free storage facilities to Twin City interests in Duluth warehouses. A number of witnesses will be on hand to testify in regard to the injustice of the practice, and probably the room will be filled with interested onlookers.

The commercial interests at the Head of the Lakes contend that the railroads are in the habit of discriminating against the local wholesalers and jobbers in the matter of free storage facilities at Duluth and Superior. Under the present arrangement, large consignments of merchandise from lower lake ports are brought into Duluth for distribution to various points in the Northwest under holding orders at the railroad terminals. While they are for Twin City business houses, they are held here during the winter, or until the Twin City interests give directions regarding their shipment to interior points. In other words, Twin City houses get free storage for goods in Duluth, while local houses have to stand the expense of warehouses and the handling of goods locally, while necessary handling is done free for St. Paul and Minneapolis men, because the goods are billed as in transit. For the same reason they cannot be taxed here, although local wholesalers and jobbers have to stand their share of taxation.

Buys Montana Line.

Helena, Mont., Jan. 11.—The Great Northern Railway company, for a consideration of $6,135,454, has purchased the line of the Montana Central railroad, which runs from Great Falls to Butte. It has been controlled by the Great Northern for a number of years.

Offer Compromise.

The National Hay association has decided to compromise with the railroads on the question of hay classification. They propose to split the difference between the fifth class rate in force at the present time, and the sixth class rate which the national association has been asking for. If the terms proposed are accepted, the rate on hay from Western points to Eastern markets would be reduced 55 cents.

Against Club Shipments.

Western railroads are about to wage war against "club" shipping organizations which, by sending several consignments in one car, are able to obtain a carload rate. Railroad officials say their lines are deprived of much revenue because of this practice.

Railroad Personals.

G. A. Griswold, city passenger agent of the Chicago & Northwestern railroad in Chicago, is in the city. He came up yesterday on the special train which brought the Italian Grand Opera company, composed of about 100 people.

Frank G. Gujer of Minneapolis, traveling freight agent for the Rock Island, is in the city today.

J. Frances of Chicago, general passenger agent for the Burlington, and F. M. Rugg of Minneapolis, Northwestern passenger agent for the same road, were in the city yesterday.

COLLIER IS DEAD.

Ravenna Ohio, Jan. 11.—Edwin J. Collier of Cleveland, who killed his blind son and then shot himself at the grave of his wife last Thursday night, died today.

THE RICH MAN.

Chicago News: "You can't blame a fellow for wanting to get rich," said the man in the baggy-kneed trousers. "I'd like to get rich myself."

"What would you do if you were rich?" asked the philosopher in the patent knit muffler.

"What would I do?" echoed the man in the baggy-kneed trousers. "That's a great question to ask. What would you do? What would anyone do? You give me a few million dollars tomorrow and you'd soon see what I'd do."

"Well, what?" persisted the philosopher.

"I'd get the things I wanted and do the things I wanted to do, of course," said the man in the baggy-kneed trousers. "To begin with, I'd build me the kind of house I wanted."

"I thought I heard you bragging about that house of yours only yesterday," said the philosopher in the knit muffler.

"Oh, yes, it's a nice little house, of course," admitted the man in the baggy-kneed trousers. "But it isn't what I would have if I was worth a couple of million dollars. I'd have a cozy smoking room in it, too, with big leather upholstered chairs and a lounge leather upholstered—the kind that you sink right down in."

"And spittoons set with sapphires, I suppose," said the philosopher. "It seems to me that morris chair you've got fits a tired man's back pretty well."

"It's a mighty easy chair," conceded the man in the baggy trousers. "But I've wanted a set of good leather furniture ever since I've been keeping house. I'd have a collection of pipes, too."

"Well, what else?" asked the philosopher. "Don't keep me waiting."

"Oh, if you wanted to know everything, I could entertain you all day," said the man in the baggy-kneed trousers. "I'd have my pipe collection and I'd have—I'd keep two or three automobiles. I'd like a good, roomy touring car that I could take a party of friends out in, and a little brougham for the madam, and I believe I'd like a racer—one of the fastest models. I wouldn't want to kill anybody, but if I got a good, long stretch of clear road I'd like to let one of those things out. Well, I'd like a few thoroughbred collies. I've always wanted a good collie, and I've never felt justified in giving up the price they ask for a pup. I'm fond of dogs—always was. Oh, I'd have plenty of servants and a fine chef and I'd entertain people. And I'd have a well-stocked library. I guess I'd have a billiard room. All the little things, of course."

"Is that all?" asked the philosopher.

"Don't you think its a pretty good layout?" asked the man in the baggy-kneed trousers, in turn. "I'd go where I wanted to go, too. I'd take in Europe."

"How about the Wisconsin lakes next summer for you and me?"

"Oh, I wouldn't give that up. We'll do that, anyway. We'll have a dandy time, too. From what Williams says about that place, it must be a little paradise. We'll have the time of our lives."

"It's funny you care anything about it when you think that you really can go there," observed the philosopher in the patent knit muffler. "You know that you aren't going to get the automobiles and the chef and the leather chairs and oriental rugs and the rest of it, and that's what it is makes you yearn for them. You've got to yearn for something. If you had your couple of millions you'd still be yearning. You'd long for a title of nobility and a long ancestral line then, and you'd have to get along with marrying your little daughter Bessie to it. Then you'd yearn for ten minutes in a secluded spot with a club and your son-in-law. Own up, now. The madam's cooking tastes pretty good to you, doesn't it? It does to me. And the little house is all right, eh? And the furniture in the house isn't so worse. You've got a few good books to read and you're likely to get a few more. What do you want to get rich for?"

"Well," admitted the man with the baggy-kneed trousers, "I guess on the whole I haven't much of a kick coming."

ADVANCES IN BLOODLESS SURGERY

Progressive Medical Experts in Duluth Have Cured 461 Men by This Method the Past Year, Many of Which Were Pronounced Incurable by Great Surgeons and Doctors.

This number of cured men is only a small fraction of the many thousand sick and suffering. If you are sick it will pay you to consult the Duluth Specialists before you go elsewhere and spend money and time. Among those we have cured are many who have been in Hot Springs—people who have been in a most deplorable condition, covered with ulcers from top to toe—others with eczema crusts and crippled with rheumatism—and it is only through our advanced knowledge of the science of healing and the experience of years in the application of curative methods which has made us able to get the results of a cure, even in many of the most hopeless cases. Every day brings us letters from out of town patients thanking us for what we have done for them. These letters are here for your inspection. Remember, that among the 125 doctors in Duluth and Superior, we are the only **specialists in men's diseases**, and it stands to reason that, because our practice is limited to such a very small field of diseases that we know the ins and outs of men's diseases one hundred and fifty times better than others who handle all kinds of diseases.

Mr. Vail of Chicago, writes: "My Dear Doctor—I want to let you know that ever since six months I have not had the slightest pain in my knee, thanks to your wonderful method of curing. As I told you before, I have been in bed most of the time for the last ten years and spent almost all my money with doctoring till, as a last resort, I took my refuge to you, being advised by my friends to do so, and today I thank you next to God for my health."

We do not walk in the same old beaten paths of cutting and bleeding and pain. That is old, and today specialists are using the dissolving method and that of bloodless surgery. **You cannot cure by cutting, but you can cure by healing.** Real diseases can only be cured by these methods, successfully, and we do it. We cure men down from syphilis to consumption, from stomach trouble to cancers—all without the knife—and you can be cured of any trouble no matter how long you have had it. Consultation is free and you are always welcome from 8 a. m. to 8 p. m. Sundays, 10 a. m. to 1 p. m. **No. 1** West Superior street, Duluth.

SERVICES FOR SUNDAY IN DULUTH CHURCHES

Rev. George R. Gebauer of Alton, Ill., Will Preach in the First Unitarian Church.

* * *

At the Lake Avenue Bethel, Sunday school will be held at 3 p. m., conducted by Judge Edson; Monday evening Bible study, conducted by Rev. J. T. Moody. The Afro-American Zion Missionary Baptist church will hold its revival services another week. Rev. G. A. Oglesby, the pastor, will be assisted by Rev. W. D. Carter of St. Paul, Minn. Services will begin at 8 p. m.

* * *

At St. Mark's A. M. E. church, Fifth avenue east and Sixth street, Jonathan Brewer, pastor. There will be preaching at 11 a. m. on the subject, "Who Is on the Lord's Side?" The Sunday school will meet at 12:15; song service will be held at 7:30 and there will be preaching at 8 p. m., on the subject, "Sons of God."

SECULAR SHOTS AT PULPIT.

Baltimore American: Dr. Aked, the pastor of Mr. Rockefeller's church, recently raised $7,000 at one service. This pastor has evidently taken some lessons from his successful parishioner in the art of successful financiering.

St. Louis Times: The good, old-fashioned preacher who taught morals to his flock is being displaced by the state legislature and the city policeman. We do not say that these two are doing the good old minister's work, but present-day movements indicate that morals are to be injected by statute, without regard to early training and persistent fine example.

Portland Oregonian: If imitation is the sincerest flattery, Mrs. Eddy and her friends will be pleased with the announcement that St. Paul's Reformed Episcopal church will undertake "Christian Psychology" as a cure for disorders due to the action of the mind. The work of administering "to the bodies as well as the souls of the American people" has proven so successful with the Christian Scientists that competition in the field was inevitable.

Kansas City Star: By the death of Bishop Edward G. Andrews the public is again reminded that the Methodist bishops of the old school are rapidly passing away. It is easy enough to create new bishops to fill the places of the veterans whose ranks are so sadly decimated, but the fresh recruits are, oh, so different from the patriarchs of the church. This is not to say that they are not good men and able men and men well fitted to bear the high honors of leadership. But is it unfair to the modern dignitaries of the Methodist church to ask whether they possess the kindling zeal and the potential spirituality that animated men like Matthew Simpson and Thomas Bowman and Thomas Asbury Morris and Chaplain McCabe, and made them flaming and conquering evangelists in the cause of Wesleyanism? Do the times in which we live afford those peculiar conditions that fifty years ago moved the ministers of Christ to "lay hold on the horns of the altar" and to fully consecrate their lives to a service that caused the "wilderness and the solitary places" to glow with religious fervor and hope?

BRIEF TELEGRAMS.

Fred Otto of Miles, Iowa, traveling director of the Chicago Great Western railroad, was killed Friday, at Egan, Ills., while assisting in clearing a wreck.

James W. Harper and Wiley T. Smith, alleged to have embezzled half a million dollars from the funds of the First National ankB of Hattiesburg, Miss., were arrested at Vancouver, B. C., Friday.

Edwin Collier took his 8-year-old blind son, Edwin, to his wife's grave in Ravena, Ohio, cemetery some time Thursday night, shot him dead, and then put a bullet through his own body, near the heart. He will die.

The negroes of Shreveport and Caddo parish, were notified Friday by Prohibitionists that they will not be allowed to vote at the election next Tuesday on the liquor question. Recently several thousand negroes adopted a resolution pledging themselves to support prohibition.

The passenger train running on the Jackson branch of the Iron Mountain railroad, was wrecked near Jackson, Mo., Friday, and twenty passengers were slightly injured. The entire train, excepting the engine, left the rails and turned over.

The Pure Food Law.

Secretary Wilson says: "One of the objects of the law is to inform the consumer of the presence of certain harmful drugs in medicines." The law requires that the amount of chloroform, opium, morphine, and other habit forming drugs be stated on the label of each bottle. The manufacturers of Chamberlain's Cough Remedy have always claimed that their remedy did not contain any of these drugs, and the truth of this claim is now fully proven, as no mention of them is on the label. This remedy is not only one of the safest, but one of the best in use for coughs and colds. Its value has been proven beyond question during the many years it has been in general use. For sale by all druggists.

TAKES TEN MEN AND FOUR DERRICKS TO MOVE CALIPH.

New York, Jan. 11.—The efforts of ten men, operating four derricks, were required yesterday to move the body of Central Park's big hippopotamus, Caliph, which died Wednesday night, and whose skeleton and hide are to be mounted separately, as additions to the collections in the Museum of Natural History. On account of the animal's unusual size his bones and hide will make valuable exhibits of contemporary animal life as represented in this species.

LABOR ROASTS THE MINISTERS

W. E. McEwen Also Takes Shot at Real Estate Men.

Says They Keep Out Factories by High Taxation.

In a speech before the Federated Trades' assembly, last night, W. E. McEwen delivered a scathing denunciation of the ministry as a whole, and also unmercifully grilled members of the Duluth Real Estate exchange, charging them with maliciously retarding the growth and development of the city by forcing a rate of taxation that is prohibitory to manufacturing interests, so that outside holders of real estate might hold their unimproved property for speculative purposes.

He said the union laboring men of Duluth, now fighting for a principle, are exemplifying the true spirit of the Christian religion, but that the same does not hold true of the ministers. He asserted that he did not have a word to say against the church as an institution, and that his remarks were directed only against such ministers as had not been true to their trust. He said the church holds a necessary and important position in society, and that it has accomplished a tremendous amount of good in the uplifting of mankind, and in the progress of civilization.

The speaker, whose remarks were caused by the fact that union men were barred from the meeting of the Ministerial association, which recently was addressed by Dwight E. Woodbridge, cited incidents in history to prove his contention that ministers had at times been a bar to the march of civilization. He went into the scripture, demonstrating considerable knowledge of biblical history. The lesson of the sermon on the Mount, he said, is being ignored by the clergy and the advocates of the open shop.

Mr. McEwen was last on the program last night, and did not finish his address until nearly midnight, but he held the closest attention of his hearers, and called forth tumultuous applause. He gave a good deal of attention to the real estate men and taxation, and said that while organized labor was being blamed for keeping manufacturing industries away, the real cause was high taxation, brought on by the action of real estate men in getting unimproved property practically excluded from taxation, and throwing the whole burden of taxation upon improved property, thus allowing outside capitalists to hold property locally for mere speculative purposes.

* * *

The meeting was one of the largest held this year. There were several speakers, and in addition to the addresses and regular routine business, there was a semi-annual election of officers. Henry Perault of the cigarmakers' union was elected president; S. S. McDonald of the machinists, vice president; Ernest Peters of the leatherworkers, recording and corresponding secretary; William Berry of the painters, decorators and paper hangers, financial secretary and treasurer; Richard Jones of the telegraphers, reading clerk; Thomas O'Mara of the building laborers, sergeant at arms; Joseph Shartel of the cigarmakers, James Walsh of the tugmen and C. W. F. Hegg of the clerks, trustees; Henry Perault and Ernest Peters, delegates to the Superior Trades assembly. The unanimous ballot of the assembly was cast for all the officers, with the exception of the reading clerk. There were four nominations in the field for this position, and it took two ballots before Mr. Jones was declared elected. On the first ballot he tied Northfield, the vote standing twenty-five to twenty-five. The second it was thirty-one to twenty-eight.

James Walsh nominated Mr. Perault as president, and made a very complimentary speech, in doing so. The new president served four consecutive terms as president of the assembly, and in all its history it never had a better one, said Mr. Walsh, and very few who made such an excellent record, or who showed such genuine executive ability. After serving these four terms, Mr. Perault left the city, but later returned and is again a resident. His selection is a universally popular one. Mr. Peters also has made an especially good record in the capacity of secretary, and was thought deserving of his re-election.

* * *

The condition of trade was reported by delegates as follows: Bakers and confectioners, fair; telegraphers, fair; dock and ship carpenters, good; butchers, good; building laborers, poor; carpenters, locked out; clerks, quiet; cigarmakers, fair; electrical workers, locked out; horseshoers, good; leatherworkers, poor; machinists, fair; typographical, good; printing pressmen, good; painters, decorators and paper hangers, locked out; sheet metal workers, locked out; tugmen, fair; team drivers, good; tailors, quiet; plumbers and gas fitters, locked out; Superior Trades assembly, fair; ore dock handlers, poor; blacksmiths, dull.

* * *

A number of credentials were handed in, and the following delegates were obligated: William Burdick of the barbers; A. L. Jutin, F. Johnson and T. H. Williams of the tailors; George Northfield of the butchers; W. Perry of the painters; M. C. Greenfield and S. R. Musolf of the electricianss; A. Johnson of the painters; P. G. Philips of the tailors; Edward Low of the carpenters; J. L. Picott of the barbers; Phil Acker, Ernest Peters and L. H. Baldt of the leatherworkers; E. Rickart and C. B. Uncaphor of the butchers; T. O'Mara of the building laborers; M. Parlow, clerks; Ben Buchele of the brewery workers; Frank Polaski of the brewery workers; T. Heidelmann, H. Perault and Joseph Shartell of the cigarmakers; C. F. Carlson of the building laborers; H. H. Murphy, George H. Malott and J. B. Lee of the switchmen.

* * *

The report of the Union Labor Pavilion association showed that the labor pavilion at Fairmont park had been a success, and that the proposition is a money-making one for organized labor. Secretary Peters made a brief report of the work that had been accomplished by the assembly during the last six months. A good showing has been made. Treasurer Hegg's report showed the finances of the organization to be in good shape.

A delegate from the Butchers' union announced that the union had voted its moral and financial support to the men locked out.

* * *

Frank J. Kennedy, general organizer for the national organization of plumbers, made the first address of the evening. He spoke particularly upon what he was pleased to term the low class of men being imported to take the place of unionists who have been locked out, and told of the feeling of friendship and brotherly love that existed between union men, citing instances to prove this.

"Our national organization is interested in this fight," he said, "and it proposes to go the full limit in protecting our local members. We have a benevolent feature, which includes a sick benefit, death benefit, strike benefit, and a lock-out benefit. Our members here will be backed to the extent of the treasury."

* * *

A. C. Bainbridge, first vice president of the Structural Building Trades' alliance, who said he was here merely as a representative of the Minneapolis local, spoke encouraging words, and explained the difference between the open and closed shop. He also mentioned the fact that the meeting was not a closed one, and contrasted it with the meeting of the Ministers' association, held at the library. He thought it rather strange that laboring men should have been excluded from the meeting. He said they merely went up there to listen, and had no expectation of talking. He spoke of the ups and down of trade unionism, and altogether made quite an interesting address. He spoke of conditions in Minneapolis, and told how the boss painters came to regret the breaking of agreements with employes. He asserted that local contractors had been forced into the present fight against their will, and that they would much prefer that old conditions should remain unchanged.

"If you can lick them to a finish here, there will be no trouble in other cities of the state," he concluded. "That's the way we look at it. The unions of the state will back you up to the last ditch."

* * *

J. J. McHugh, representing the Twin City carpenters, also spoke encouraging words, saying Twin City organized labor recognized that the Duluth fight was also their fight.

George B. Howley, president of the State Federation of Labor, and organizer for the American Federation of Labor, explained that the trades assembly in any city was the supreme labor organization of that city, and was so recognized by the federation. He spoke of the necessity of all unions affiliating with the central organization, and said he would do all he could while in Duluth to bring about such affiliation. He predicted that within the next two years organized labor will have the hardest fight in its history for maintaining its existence, and urged that monthly dues be increased, so that when the war comes the unions will be prepared in a financial way. He deplored the fact that so many unions made no attempt to have a surplus in the treasury, and yet when trouble comes, after years of prosperity, they expect outsiders to help them financially.

* * *

Mr. McEwen, in connection with his other remarks, paid some attention to the communication from the civic committee, recently published. He said that members of the committee had expressed their intention of replying to nothing that might be said by labor, but he remarked that the communication was evidence that they had been smoked out. He declared the communication contained implied admission of violation of contract all the way through, and said the electrical and sheet metal workers' contracts were the only ones which could be quoted as possibly not containing a clause against the employment of non-union labor. He asserted it was intended and believed such a clause was in the contracts, but owing to the fact that they were not drawn up by lawyers, there was the chance for another meaning, although both contractors and employes knew well enough that an agreement existed whereby non-unionists were not to be employed.

He said the present thirty-six mill rate of taxation would be reduced to fifteen mills if unimproved property were made to share its portion of taxation, and that when the reduction was brought about there would be no difficulty about getting manufacturing concerns to locate here.

"They are now kept away by the high rate of taxation," he declared. "It is the laboring man who pays the most of this taxation, for the fact that improved property had to bear it means an increase in house rents as paid by the laboring man. Duluth is a tax-ridden community, thanks to the real estate men."

* * *

At the annual meeting of Zenith lodge No. 1 of the Licensed Tugman's Protective association, held this week, officers for the ensuing year were elected, as follows: William E. Hoy, president; Fred Benson, first vice president; Charles McEachem, second vice president; Albert Jones, corresponding secretary; R. F. Barrows, financial secretary; James Walsh, treasurer; John Murphy, chaplain; James Gleason, conductor and Albert Ceal, tiler. Capt. Martin Cole and F. Barrows were elected delegates to the annual convention, which will be held in Detroit, Jan. 17.

Clearer brain and steady nerves always follow the use of Postum in place of coffee — sometimes in a very marked manner.

Caffeine—the drug in coffee, interferes with digestion, and if continued is sure to show in some fixed disease.

The perfect poise of mind and body — the power to accomplish something worth while, makes a lot of difference with one's earning capacity.

If it's worth while to you, try the change to Postum—say, two weeks. You'll know "There's a Reason."

Mercedes ..... Mille. M. Bossi
Carmen, a cigarette girl, afterwards a Gypsy ..... Mme. Rosa Duce-Merola

The Italian Grand Opera company slipped into Duluth without much noise or ado, and paid the penalty in a house that was only fairly well filled, last evening, when the company opened in "Carmen."

Few people, outside of the ultra musical, had ever heard of the company, which has recently closed a very successful engagement in Chicago, and the patrons of the theater scarcely knew what to expect. Those who took a chance on last night's performance were most agreeably surprised, and the audience grew surprisingly enthusiastic for a Duluth gathering, the "Toreador" song calling a genuine, whole-hearted encore. Bizet's ever compelling and beautiful "Carmen" was sung last evening and the Italian singers were heard to advantage in the interesting and absorbing tragedy. The name role of the opera is large in its demands upon the stranger and actor who assays it and although in the first act of the opera Mlle. Rosa Duce-Merola was not a thoroughly satisfying Carmen, in the latter acts she redeemed herself and brought to the character in a greater naturalness and ease of manner than characterized her first appearance. In the three last acts of the tragedy the trio Carmen, Jose, presented the tense and tragic moments in a thoroughly satisfying manner. The love scene between Carmen and Jose in the second act was delightfully given and in this episode of the opera and the scene with the cards in the following act were Mme. Duce-Merola's most convincing moments. In her uncoquettish moments Mme. Merola was beautiful to look at.

Sig Torre sang the role of Jose with a fire and passion that were admirable and Sig. Alessandroni sang his number with a spirit and abandon that were most effective. His Toreador song was repeatedly encored and he was forced to repeat it. Mlle. Emma Almeri brought to the role Michaela a sweet soprano voice, and her solos were heard with pleasure. The chorus was vocally adequate and the orchestra under the direction of Sig. Gaetano Merola was most satisfying. The minor roles were in capable hands.

The opening scene of the opera presented a most cosmopolitan Seville, a corner grocery at 23 some unknown street, advertising milk and groceries in plain United States.

The company is singing "Il Trovatore" this afternoon and "Lucia di Lammermoor" will be the bill for this evening, the concluding appearance of the company in this city.

BOYS' DEPT. NOTES

The regular monthly meeting of the boys' repartment cabinet was held at the boys' department last evening, the reports from the various committees were read.

The committee on the entertainment reported that they would be ready with their play some time during February. The proceeds of tals entertainment will go to pay for the repairs to the dining room. The cabinet last night appointed Russell McLean, William Eklund and Archie Glass a committee to plan a committeemen's dinner, at which time all the committees will meet to talk over the work for the next five months. The cabinet also decided to increase the seating capacity for the basketball games.

* * *

The older boys' meeting Sunday afternoon will be addressed by Rev. J. W. Powell. Harvard Rockwell will be the leader, and Erling Mostue and the boys' department orchestra will have charge of the program.

* * *

The Knights of Sir Galahad will meet at 3 o'clock and will be addressed by Rev. Mr. Getz. There will be a musical program on the phonograph by John Beatty.

* * *

The interscholastic basketball committee met at the boys' department last night and formed the league for this season. The schools represented last night were the Franklin, Lincoln, Jackson, Jefferson and Washington. There are more schools to hear from, and it is probable that the league will get started next week. Emanuel Johnson of the Washington school was elected president, and David McLeod of the Jefferson, secretary. It was decided that the losing teams will entertain the champion team at the close of the league, and that the winning team will receive a silk banner.

WINTER Emollients

For the Skin

Millions use Cuticura Soap and Cuticura Ointment, the Great Skin Cure, for preserving, purifying, and beautifying the skin, for chapped faces and hands, frost-bites, winter eczemas, rashes, itchings, and irritations, for dandruff, dry, thin, and falling hair, baby rashes, itchings, and chafings, for sanative, antiseptic cleansing, and for all purposes of the toilet, bath, and nursery.

Guaranteed absolutely pure, and may be used from the hour of birth.

Sold throughout the world. Depots: London, 27, Charterhouse Sq.; Paris, 5, Rue de la Paix; Australia, R. Towns & Co., Sydney; India, B. K. Paul, Calcutta; China, Hong Kong Drug Co.; Japan, Maruya, Ltd., Tokio; Russia, Ferrein, Moscow; So. Africa, Lennon, Ltd., Cape Town, etc.; U.S.A., Potter Drug & Chem. Corp., Sole Props., Boston.

MAY DO ALL AT ONE TIME

The Republicans May Hold Only One State Convention.

Bryan Letter Creates a Disturbance in Ranks of Democrats.

It is expected that Minnesota Republicans will this year adopt a new system in the manner of holding conventions, and that one gathering will do the double duty of selecting delegates-at-large to attend the national convention, and naming the state ticket, where before a convention has been held for each of these purposes. If it can all be done at one time it will be much more convenient and economical.

The date for holding the Eighth district convention for naming delegates to the national meeting has not yet been set, but it is known in a general way that it will be held in Duluth in the spring. Roland D. Haven is chairman of the Republican district committee, and the district convention is subject to his call. Each district is allowed to name two delegates to the national convention, and the state meeting names the four delegates-at-large. County conventions are necessary, in addition to the district conventions, to name delegates to the state convention.

The Democrats have a somewhat different method than the Republicans, in that district delegates and delegates-at-large are chosen at the same time, although not in the same meeting. A state convention names the delegates-at-large, as with the Republicans, and the delegats who are attending the state meeting get together in the convention city, each district by itself, and name the district delegates. Thus, both sets of delegates may be chosen the same day, although the district delegates are chosen in individual district meetings, while the delegates-at-large are selected in one central meeting of delegates from all the counties of the state. A county convention is of course necessary to name the delegates to the state convention.

Will Meet in February.

It is likely that the Republican state central committee will meet early in February. Chairman Cole is still in Texas, but has written that he expects to return about Feb. 1. Very likely the committee call will be held before that time. The outlook now is said to favor a March convention for selecting delegates. Four years ago it was held March 17, in Minneapolis, and Minneapolis will doubtless put in a bid for it again, conceding the nominating convention to St. Paul, should one be held in addition to the other. The country districts prefer a March convention to a later one, because causes and county conventions will thus be out of the way before farm work begins.

It is considered probable that E. B. Hawkins, ex-state senator, will be elected as one of the delegates-at-large. His candidacy for delegate was announced in The Herald earlier in the week. The senator will leave shortly for an extended European tour, and before turning will make a tour of Egypt.

The Bryan Letter.

The St. Cloud Democrats, whose names were appended to the Bryan manifesto, are denouncing the methods used to get their signatures. They say James R. Bennett circulated the paper and got their signature last May, and they had no idea of Governor Johnson's candidacy then. They say they are going to get together and frame up a letter to Governor Johnson, to be signed by a large number of St. Cloud Democrats, setting St. Cloud right on the proposition. H. J. Limperich, William A. Boerger, Chris Schmitt, B. J. Moritz and J. B. Himsl are among those who say they are for Johnson, but whose names are attached to the paper. W. E. McEwen put his name to it long before he became a Johnson appointee. The address to Democrats in regard to the candidacy of Mr. Bryan, has called forth the following article in the Mankato Review:

"A number of prominent Democrats have taken it upon themselves to issue what they term an address to members of that party in Minnesota, calling upon the latter to rally to the standard of William J. Bryan in support of that gentleman's candidacy for the presidency, the text of which was published in our issue of last evening. If the so-called address had been issued merely as an expression of opinion on the part of its author and signers it could be passed unnoticed, for there would be no disposition on the part of anyone to challenge their inalienable right to such a proceeding. But it goes further, so much so that in assuming responsibility for certain statements it savors strongly of an attempt at bossism and dictatorship, two characteristics that have no abiding place among the principles of Democracy. Had these gentlemen wished to invite disaster or bring disruption into their party councils they could have pursued no surer method than the one chosen. To say the least, their action was most ill-advised, for there is nothing in present conditions that warrants it, but rather the reverse.

"It may be conceded that the political pot has begun to boil in earnest, and that the name of William J. Bryan has been closely associated with the Democratic presidential nomination for many months. No other name is mentioned in this so-called address, but the reading between the lines could not be made plainer in its direct and studied antagonism to whatever consideration Governor Johnson may be entitled to as a presidential candidate. It is a fact that cannot be gotten away from that, however prominent the figure of Mr. Bryan has been in the firmament of presidential possibilities, that of Minnesota's governor looms up today so strong and clearly defined by force of circumstances, that no petty, political jealousy such as has evidently inspired the address referred to can cast the slightest shadow over it.

"It would seem, under such circumstances, that state pride, if nothing else, would have been a sufficient incentive to permit a matter of this kind to take its regular course through the delegate convention that will later be called for the purpose of voicing the choice of Minnesota's Democracy for their presidential standard bearer. Should that body, in its deliberations, decide for Mr. Bryan, no "boosting" would be necessary on the part of these self-appointed guardians of his interests to create enthusiasm for him among Minnesota Democrats. And in that event no voice would plead the cause headed by the brilliant Nebraskan more eloquently and earnestly than that of John A. Johnson.

"On the other hand, should Governor Johnson be the convention's choice, there should be no obstacle placed in the way of a complete, united and consistent advocacy of his claims before the national body by the representatives chosen from Minnesota.

"The movement looking to the candidacy of Governor Johnson has assumed proportions that must surely be reckoned with at the coming convention, and that fact should be recognized even by would-be party leaders. In any event, no condition should arise or be created that will prevent the presentation of his name by the delegation from his own state, if only in compliment. To this consideration he is entitled by every right of political ethics, and certainly no state could present a name that stands for more and in which his own people have manifested a greater degree of confidence.

"The Review yields nothing to the authors of this address, either in party loyalty or in admiration for Mr. Bryan's personality and leadership. On both previous occasions of his candidacy we have followed his fortunes, feeling that it was an honor to have done so even in defeat. But we do not recognize today that he has any claims upn the presidential nomination above those of any other man who stands squarely for Democratic principles.

"The fact should be impressed upon the minds of Democrats, hovever, that success cannot be obtained with a divided house, and that whoever may be chosen to lead the Democratic hosts in the next presidential battle must combine not only the elements of ability, strength, fearlessness and conservatism, but that of being able to cement into a solid phalanx all factions of the party. Such a man is the candidate advocated by the Review, whatever state he may hail from, and we are satisfied to leave his selection to the wisdom of those who are chosen by the rank and file of the party for that purpose."

KELLEY HARDWARE CO.
DULUTH, MINN.

NAVIGATION STILL OPEN

North Shore Boats Will Make Trip for Another Week.

Little or No Obstruction in the Lake as Yet.

The steamer Moore of the Booth line cleared yesterday afternoon for Grand Portage, on the north shore.

There is little or no obstruction to navigation in Lake Superior as yet, and unless the weather takes a sudden and decided change, the ice pack in Lake Superior will be very light this winter. The boats might continue running to the north shore points until spring this year, it is believed, if there were any neecssity for it. Last winter they made occasional trips from Two Harbors north until early in February, but next week will probably see the last trip of the boats for the season. The reason for this is that there will be little or no freight to take after that date. The north shore settlers are well supplied with their winter's provisions and other necessities of life, and during the months of February and March there will be no excuse for keeping the boats in operation, as the passenger traffic is very light.

People who look upon Duluth as a city that is frozen up for six months in the year might be surprised to learn that this year at least it is an open port for at least ten months in the year, and possibly for the entire year.

SUPERIOR NEWS

FOR SHOOTING OUT LIGHTS.

Three Men Arrested in Superior---Offense a Serious One.

Charged with the serious offense of shooting out the lights on railroad switch posts, three men are under arrest in Superior. Their names are George Kelly, John Smith and John Bell.

It is said that while the trio were returning from a hunting expedition near Wallbridge, they engaged in the practice of shooting at the switch lights they passed along the Northern Pacific railroad.

Three lights at important switches near South Superior were found destroyed by bullets, and the arrest of Kelly, Smith and Bell followed a short time afterward.

This is a serious offense and is punishable by a term in the penitentiary. The destruction of a switch light might cause the wrecking of a train and the loss of many lives and much property, so the laws pertaining to it are very strict.

Smith and Bell were released under $300 bonds, but Kelly was unable to procure it.

McArthur Case is Dismissed.

The case against Mrs. Laura McArthur of Duluth was dismissed in the municipal court yesterday. Mrs. McArthur was charged with purloining $150 from Nellie Martyn. It is understood that Mrs. McArthur has made a full restitution of the money and that the case was dropped in view of the fact that she is under indictment in Duluth.

Old Depot is Burned.

The old depot on the Northern Pacific road in the town of St. Louis was destroyed by fire Thursday night. One of three men said to be responsible for the fire is under arrest and the company's detectives expect to get the other two. The structure was valued at about $1,000. It was built during the boom times at St. Louis, but has not been used for many years.

Completes Its Purchase.

The Wisconsin & Northern Minnesota Railway company, which is generally considered a subsidiary of the Soo road, has completed the purchase of its right of way for a line running west from South Superior to the Grassy Point railway bridge. When the company was incorporated it was stated that the new road would have two lines in Superior, one running from South Superior to Grassy Point, and the other from South Superior to Connor's Point.

TEMPLE ROLLER RINK

ATTRACTION EXTRAORDINARY!

Miss Jennie Houghton, champion lady skater of the United States, in Fancy Skating. Every evening this week, and Saturday matinee. Regular prices.

CHRISTIAN ENDEAVOR SOCIETY NOTES

The quarterly Christian Endeavor rally will be held Friday evening, Jan. 17, at the Second Presbyterian church, Fifteenth avenue west and Superior street. The progress pennant will be awarded and a large attendance is hoped for.

• • •

Last evening the Westminster society held its semi-annual election of officers at the home of George D. Shannon, South Seventieth avenue west, and the following officers were re-elected: Charles J. Towner, president; Charlotte Howard, vice president; eGorge D. Shannon, secretary and treasurer. The reports of the committees showed that the society was in a good condition. They decided to begin an active campaign for new members.

• • •

Sunday evening the Lakeside Presbyterian society held the monthly business and consecration meeting. The following officers for the next six months were elected: Katherine Williams, president; George Ward, vice president; Mary Blackmarr, recording secretary; Caroline Blackmarr, treasurer.

• • •

The First Presbyterian society held its regular monthly business meeting Tuesday evening with the new officers in charge. Routine business was transacted and plans for the year were discussed. The new topic cards for the next six months made their appearance at the meeting and were found to be very satisfactory.

The First Presbyterian society was favored last Sunday with a vocal solo by Miss Maude Matteson of the Glen Avon society.

A pleasing part of the new topic cards of the First Presbyterian church society is the "Christian Endeavor Battle Hymn," dedicated to the society by Rev. Campbell Coyle.

Simple Remedy for La Grippe.

La grippe coughs are dangerous as they frequently develop into pneumonia. Foley's Honey and Tar not only stops the cough, but heals and strengthens the lungs so that no serious results need be feared. The genuine Foley's Honey and Tar contains no harmful drugs and is in a yellow package. Refuse substitutes. Sold by all druggists.

McNarney, Morzak,
Dardis, Michand,
Wetterhon, Whalen.
Rieley.
Misses—
Eva Beers, Florence Rieley,
Florence Kreimer, Roach,
Gertie Emmerson, A. Ryan.
Messrs.—
Charlie Dardis, Charlie Eaton,
Roy King, Orval Ryan,
Roy Rieley, J. Bellanger.

OUTDOOR SLEEPING.

New York—The queer-lookinng projection many persons have noticed on the southern side of a handsome three-story frame residence at Two Hundred and Nineteenth street and Willet avenue, Williamsbridge, the Bronx, is Dr. George A. Crump's "anti-sickness piazza."

Dr. Crump is an enthusiastic advocate of fresh air as a panacea. He says it is also a preventive, and that while every person to keep in good health should spend at least eight hours daily in the open air, he goes further and spends most of the entiree twenty-four outdoors.

His "piazza" is built from his bedroom to the second story of his residence, and is 10 by 30 feet. It is shielded on the east and west by glass and the other two sides are open, one into his bedroom and the other into the open air. He sleeps in it winter and summer, with no protection except his pajamas and a bag into which he gets and tightens about his throat.

In the winter he often gets up sprinkled with snow. His wife is not yet a convert to this outdoor slumber, but frequently his 5-year-old son Curtis sleeps with him in the "piazza."

"Fresh air is the most essential element for the promotion of hetalth and beauty," Dr. Crump said today. "Every one should spend at least eight hours a day in the open air and get plenty of exercise. My own custom is pretty much the same as employed in modern treatment of tuberculosis, but I do not practice what I recommend because I am sick, but because I don't want to be.

"I can assure every one that a trial will fully repay him and make him feel like a new ma nin a very short time."

ELEPHANT AND ENGINE MEET.

Madras Pioneer: An elephant was crossa railway line when a down ballast train in motion tried to whistle him off the line. He obeyed the whistle, but instantly was on the line again and pushed the engine back with all the strength he could muster, causing the derailment of the engine and one of the trucks.

The driver fell off and received some injuries, and the mahout, who had apparently lost all hold over the animal, and had perhaps anticipated the accident, jumped down, but was unhurt.

The elephant was only bruised.

This Advertisement

Of Hood's Sarsaparilla is to remind you of its great merit as a blood purifier, appetite-giver, and as a nerve, stomach and digestive tonic. Nothing else like it, no other has so good a record, no other will do you so much good. It cures.

Scrofula 16 Years—"Hood's Sarsaparilla has cured me of scrofula, with which I have been troubled for 16 years. My little daughter had a scrofula swelling on her neck and Hood's Sarsaparilla also cured her." MRS. G. MORRIS, Annandale, Minnesota.

Dyspepsia — "I was troubled for months with dyspepsia and could not eat anything without distress. I began taking Hood's Sarsaparilla and was soon improving. I took it steadily until I was cured." LYDIA MCWHEELER, Athol, Mass.

Rheumatism—"I was severely afflicted with rheumatism, my knees badly swollen. Hood's Sarsaparilla helped me after other medicines failed and it has lengthened my life." JESSE KILLMER, Middle Grove, N. Y.

Hood's Sarsaparilla is sold everywhere. In the usual liquid, or in tablet form called **Sarsatabs.** 100 Doses One Dollar. Prepared only by C. I. Hood Co., Lowell, Mass.

HAVE JOINT INSTALLATION.

Virginia Odd Fellows and Rebekahs Enjoy Themselves.

Virginia, Minn., Jan. 11.—(Special to The Herald.)—The local lodge of Odd Fellows and the Rebekahs held a joint installation of officers at their hall in the Hawkinson block Thursday evening. After the ceremonies a lunch was served and the festivities were participated in by a large number of invited guests as well as the members of the two orders. Deputy District Noble Grand Yalter Fitzgerald acted as chief installing officer and read his part very impressively, making an interesting address on Odd Fellowship at the close of the installation.

After the ceremony a brief program was carried out. H. F. Kendall, who has an excellent baritone voice, rendered several selections that were highly pleasing. Rev. F. G. Clark, pastor of the M. E. church, made a happy address and one that held the interest of everybody in attendance.

Dr. S. D. Sour gave a humorous selection effectively and Professors Kraft and Paananen furnished excellent music throughout the program.

A delightful lunch was served to fully 200 people, when the hall was cleared for dancing, which was enjoyed by a large number of those who attended.

Following were the officers of the Odd Fellows' lodge installed: N. G., Oscar Runn; V. G., George Harding; recording secretary, E. W. Lachner; financial secretary, G. V. Trimble; treasurer, Edward C. A. Johnson; warden, J. G. Crozier; conductor, S. D. Sour; L. S. to N. G., Abraham Carlson; R. S. to N. G., C. G. Gill; R. S. to V. G., C. G. Gribdale; L. S. to V. G., W. H. Dupont; inside guardian, R. C. Boysen; outside guardian, Oscar Nelson; right S. S., Curtis Hornby; left S. S., John Gill; chaplain, James Polgias.

The Rebekah officers installed were as follows: N. G., Mary Hawkinson; V. G., Katherin Roman; recording secretary, Myra Payne, financial secretary, Julia Olson; treasurer, Mary Lavilolette; warden, Ida Larsen; conductor, Anna Lindsley; R. S. to N. G., Tillie Matheson; L. S. to N. G., Cora Johnson; R. S. to V. G., Annie Kennedy; L. S. to V. G., Amelia Gill; inside guardian, Mary Comber; outside guardian, Pauline Staff; chaplain, Flo Mitchell.

INJURED BY COW.

Two Harbors Physician Has Rather Thrilling Experience.

Two Harbors, Minn., Jan. 11.—(Special to The Herald.)—Dr. J. D. Budd is nursing several bruises he sustained in his dooryard yesterday afternoon while attempting the role of a cowboy. Aided by a friend, he was trying to "corral" a stray cow that had invaded his dooryard, when the animal turned upon the man of medicine, knocking him down and more or less bruising him. The animal was being unloaded from a stock car at the depot, and getting away, took refuge in the doctor's yard.

NASHWAUK WEDDING

Largely Attended at Home of Bride ---Other Recent Events.

Nashwauk, Minn., Jan. 11.—(Special to The Herald.)—A charming wedding was that of Miss Sofia Burglund and Charles Hagen, which was solemnized Tuesday afternoon at the home of the bride's parents, Mr. and Mrs. Burglund. A large company of guests was present and the rooms were tastily decorated for the occasion. The ceremony was performed by Rev. C. A. Wood, pastor of the Nashwauk church.

Frank Web spent Saturday in Grand Rapids, Minn.

Mrs. J. C. Ohles entertained the Ladies' Aid society, Thursday afternoon.

Capt. A. Bachelder of the Hawkins mine, was in Duluth this week.

The school reopened Monday, after a two weeks' vacation.

Dave Whiteside, who had been in the Adams hospital at Hibbing the past six weeks, arrived Saturday.

Mrs. T. R. Dodson returned Wednesday from Grand Rapids, where she spent the past week.

Miss Whiteside of Duluth, arrived Thursday and is visiting her sister, Mrs. W. Trythall of this place.

Mrs. Dorcan, who has been visiting her son of this place, returned Wednesday to her home in Richmond, Minn.

INSTALLING CARS

Temporarily Suspends Night Work at No. 4 Fayal.

Eveleth, Minn., Jan. 11.—(Special to The Herald.)—At the No. 4 shaft of the Fayal mine night shift work has been held up, while the five-ton cars are being placed in the levels. These cars are to be operated by motors.

In the pit only one shovel is working at the paint rock. That product is being dumped near the new No. 4 shaft and will be held there until needed for shipment in the spring. The paint rock carries ore of a low grade.

The work of retimbering the No. 1 shaft of the Spruce will be completed within three weeks.

EVELETH MINISTERS AID SALVATION ARMY.

Eveleth, Minn., Jan. 11.—(Special to The Herald.)—The efforts of the Salvation Army to become a vital force in Eveleth is receiving the assistance of the local ministers. For the coming week the speakers who will address the meetings are: Sunday night, Rev. George Dungan; Tuesday, Rev. F. G. Clark of Virginia; Wednesday night, Capt. Bacon of Virginia; Friday night, a local pastor; Saturday night, Rev. J. F. Pickard of Hibbing.

The Ladies' Aid society of the Presbyterian church will meet with Mrs. T. A. Pratt Thursday afternoon at 2:30 p. m. A lunch will be served after the meet.

CURRENT TOWER EVENTS.

Personals and Other Happenings in Vermilion Range Town.

Tower, Minn., Jan. 11.—(Special to The Herald.)—The ladies of the Swedish Lutheran church served a 10-cent tea Thursday at the home of Mrs. R. L. Lundquist, which was largely attended.

Miss Nina Puhaka, who is employed as teacher in the school at Embarrass, left Monday to resume her duties.

W. H. Oppel, chief of police of Tower, has tendered his resignation to the city council. He leaves for Duluth on Monday morning to assume the position o deputy sheriff.

Mrs. D. H. Hadley returned Monday evening from a week's visit with friends in Duluth.

Mrs. Merril Peck and daughter Harriet returned Tuesday evening from Duluth.

Miss Agnes Nelson of Cloquet arrived Thursday to visit Mr. and Mrs. George Hunter.

Miss Grace Clark returned Saturday evening from Two Harbors, where she visited with friends.

E. Hill was a Duluth visitor a few days this week.

N. J. Benson was in Ely a few days this week.

Frank Brocco left Tuesday for Milwaukee, to consult a doctor in regard to his brother's health.

Albert Kitto was a Duluth business visitor the fore part of the week.

W. H. Congdon went to Hibbing Wednesday to attend the undertakers' convention, and succeeded in obtaining the office of vice president for the coming year.

Miss Hedda Anderson, who is employed as clerk in the store of Charles Roland, returned Wednesday evening, after spending a few weeks' vacation with her parents at Superior and friends at Ashland.

Miss Louisa Cyr returned Wednesday evening from a twa weeks' visit with her sister at Ashland and friends at Superior, Wis.

Frank Umbreight and sister, Mrs. Grace Vere, left for Thief River Falls Thursday, in response to a telegram stating the illness of their father.

Mrs. A. Skolnik left Thursday for Minneapolis after visiting relatives here a few days this week.

Mrs. M. J. Brown has returned to her home after a few days' visit with her mother, Mrs. M. Campaign, and friends.

Mrs. Young arrived in the city Thursday evening from Stillwater to visit at the home of Mrs. McGregor for a few days.

Mrs. M. C. Woodard returned Thursday noon from a few days' visit in Duluth.

Born, to Mr. and Mrs. W. Osterberg, Tuesday, a daughter.

Mrs. P. E. Morin was delightfully surprised at her home Tuesday evening, the occasion being the thirty-fifth anniversary of her birthday. She was presented with some dainty china, and a delicious luncheon was served, and those present report having a good time.

On Wednesday evening the Lady Maccabees held their installation of officers to fill the various positions, which are in the following order: Lady commander, Amanda Meeker; lieutenant commander, Lena Merrill; past commander, Victoria Wiseman; record keeper, Mayme Murphy; F. A., Edith Colegr; chaplain, Barbara Schmidt; mistress-at-arms, Martha Kellow; sentinel, Margaret Campaign; picket, Augusta Wagner.

VIRGINIA LUMBER COMPANY MAKING ALTERATIONS.

Virginia, Minn., Jan. 11. — (Special to The Herald.)—The Virginia Lumber company has a number of millwrights at work making several alterations in the feed rolls and other departments of the new mill in the expectation that better work will be done when it resumes operations.

MILK IS CHEAPER.

Eveleth, Minn., Jan. 11.—(Special to The Herald.)—Owing to a reduction in the price of hay, the milk purveyors have decided to reduce the price of milk. They are now furnishing fifteen quarts for a dollar. Before they charged 10 cents a quart. There is no longer a scarcity of milk. The change is greatly appreciated by the housewives, as they feared a repetition of their troubles of last winter, when they could only secure canned milk or the condensed article.

Independent Cigar Company

CIGARS OF QUALITY

If you are smoking poor cigars, it is not our fault. And it is certain that you are not one of our steady patrons. A cigar, to deserve a place in our stock, must be above the average in quality and be uniform at all times. We always delight in giving a man "cigars of quality."

A. T. CEPERLEY, Manager.

319 WEST SUPERIOR ST.

HIGH SCHOOLS TO DEBATE QUESTION

Of Federal Aid Toward Education of Southern Negroes.

Virginia, Minn., Jan. 11.—(Special to The Herald.)—The final contest in the High School Debating league for the Eighth congressional district will take place here on Friday evening, Jan. 24, between representatives of the Virginia and Pine City high schools.

The question to be discussed is, "Resolved, that the federal government should subsidize the Southern states for the education of the Southern negro. Granted, that it would be constitutional and that the Southern whites would not object."

As Pine City has already won from Duluth, and as Virginia holds the debating record for last year, for the whole northern half of the state, including St. Paul, the coming contest at Virginia bids fair to be a lively and interesting one.

The affirmative side of the question will be supported by Virginia, the speakers being Lambert S. Gill, Axel B. Dahl and Edward Berg. The negative will be upheld by Rudolph Wosmek, Bernard Vaughan and John Hunt of Pine City.

The judges for the contest have not yet been selected.

BLIND PIG QUESTION

Is Arousing Interest in Business Men's Association.

Eveleth, Minn., Jan. 11.—(Special to The Herald.)—According to Secretary Sax, the Business Men's association has at present ninety-one members. Of these thirteen are new ones. The result of the association's success in arousing among the range authorities a sense of the importance of curtailing the beer sale among the blind pigs has awakened the men who have hitherto refused to join, so that the association is experiencing no difficulty in increasing its membership. Among subjects that the association's delegates are to consider while in St. Paul, is that of interchanging membership privileges with out-of-town commercial bodies, as has been suggested between the Duluth and Biwabik organizations. Such an interchange will be a great boon to all concerned, as it will serve to bring business men of the range in closer touch with one another, and the efforts of one will be seconded by the other organizations in the state.

EVELETH NEXT YEAR.

Range Association of Undertakers Close Their Hibbing Meeting.

Hibbing, Minn., Jan. 11.—(Special to The Herald.)—The meeting of the Range Association of Undertakers, which was organized at Virginia last November, has closed here after an interesting and profitable gathering. Eveleth will probably get the next meeting in June. Various subjects pertaining to the undertaking profession were discussed, participated in by A. P. Le Sage of Superior, T. J. Leitz of the Northwestern Casket company of Minneapolis, and J. C. McMillan of Milwaukee, and members of the association.

Prof. Charles Johnson of St. Paul gave a demonstration of the new methods of embalming. The members in attendance at the meeting were J. J. Gelason, Eveleth; W. H. Congdon, Jr., Tower; H. S. Gillespie, E. T. Hurley, E. Mathison, J. H. Fleming, John Lavick, John Mesberg, Nels Johnson, Virginia; D. Moses, Cloquet; James Dowling, J. S. Lundahl, Ed Rupp, Chisholm; J. N. Carlson, Sparta; A. P. Le Sage, Superior; J. C. McMillan, Milwaukee; Charles E. Johnston, St. Paul; T. F. Brown, Two Harbors; T. J. Leitz, Minneapolis; B. Christenson, Aurora; John Flood, Duluth; W. J. Ryder, J. L. Phillips, W. C. Barrett, John H. Bunker, Hibbing.

TIMBERMAN IS KILLED IN NO. 2 SPRUCE SHAFT.

Eveleth, Minn., Jan. 11.—(Special to The Herald.)—An Austrian, employed as a timberman, was crushed and instantly killed in the No. 2 shaft of the Spruce mine today. With an assistant, he was putting in some unusually heavy timber, when the material fell upon them killing one workman and breaking the arm of his assistant. The name of the man killed could not be learned when this dispatch was filed.

CHILD'S SUDDEN DEATH.

Virginia, Minn., Jan. 11.—(Special to The Herald.)—Margaret Rudd, aged 2 months, infant daughter of Mr. and Mrs. E. C. Rudd, died Wednesday morning. The child had not been ailing. At 3 o'clock in the morning it was given food, and when the parents awoke at 6 o'clock, they found the baby dead. The funeral services were held yesterday at the family residence.

BAD BOYS PUNISHED.

Coleraine, Minn., Jan. 11.—(Special to The Herald.)—Some of the boys of the Western range towns gather on the streets at night in the absence of a curfew ordinance, and its enforcement and occasionally commit small depredations. A number of boys bespattered the windows of Lieberman Bros.' clothing store a day or two ago, and were brought up before Justice of the Peace Trescott, who imposed a fine upon the leaders. Two of the number refused to pay the fine and were taken to the jail at Grand Rapids, Wednesday.

EPWORTH LEAGUE ELECTS OFFICERS

Sunday School Anniversary and Other Live Coleraine Events.

Coleraine, Minn., Jan. 11. — (Special to The Herald.)—At the business and social meeting of the Epworth league on Thursday evening the following officers were elected: President, Mr. Clifford Ormes; first vice president, Mrs. F. W. Hill; second vice president, Miss Amelia Nelson; third vice president, Miss Viola Trescott; fourth vice president, Miss Ruth Vangyke; secretary, Miss Pyrlo Trescott; treasurer, Clarence Bennett; pianist, Mr. Alva Wright.

Sunday is the first anniversary of the first Sunday school held in Coleraine. It was organized last January in a building on Roosevelt avenue now occupied by the Palace meat market, with twenty-three present. It now has an enrollment of over 100 and is organized along modern lines and equipped with the best of Sunday school literature for excellent instruction. It is expected that Dr. E. C. Clemens of Duluth will give the principal address on that anniversary occasion.

Mrs. Gustafson of Soudan, has accepted a position as housekeeper of the fine boarding house just completed by the Oliver Iron Mining company. It is heated with a furnace and has modern lighting and plumbing. This will be a convenient home for the office help of the mining company.

Contractor Emil M. Johnson has almost completed the $30,000 office building for the Oliver Iron Mining company. It is a splendid brick structure, modern in every particular and situated on the north shore of Trout lake and facing Cole avenue.

Dr. N. D. Kean, chief surgeon of the Coleraine hospital, is moving into his beautiful residence at the corner of Cole and Mitchell avenues. It is the best residence in any town on the Western Mesabe. Emil M Johnson was the contractor for the building and the decorating was done by Zimmerman & Jackson of Duluth.

A. M. Sisler, clerk of the board of education, was over from La Prairie on school business, Wednesday.

John C. Greenway, general superintendent for the Oliver Iron Mining company in the Canisteo district, returned Monday from an extended trip East and to Panama. The January number of the World Today has an article on this man of affairs.

INCREASED ENROLLMENT

Marks Opening of Coleraine Schools After Holidays.

Coleraine, Minn., Jan. 11. — (Special to The Herald.) — School opened Monday with an increased enrollment. The latest addition to the high school is Florence Gustafson of Soudan. She is a member of the senior class.

The teachers have returned after the vacation. Miss Cole, the principal of the high school, was at home in Minneapolis; Miss Brastad returned to Ishpeming for vacation; Miss Burgess, the special teacher of the foreigners and ungraded pupils, visited friends in Aitkin; Miss Corbett visited relatives in the Twin Cities; Miss Carson spent the vacation with friends in the Upper peninsula of Michigan; Miss Spencer was at home in Minneapolis and attended the Minnesota Educational association; Miss McDonald went to her home in Lancaster, Wisconsin for her vacation. Miss Brinton and Miss Hutchins remained in Coleraine. Supt. Vandyke attended the Minnesota Educational association meeting in St. Paul last week. Mrs. Vandyke accompanied him and remained for a more extended visit.

HIBBING IN BRIEF.

Hibbing, Minn., Jan. 11.—(Special to The Herald.)—Mrs. James Butchart, who has been sick for several weeks, continues to improve slowly.

G. H. Thompson spent most of the week in Duluth, attending to business matters.

Miss Elinore Mitchell of Duluth was the guest of Dr. and Mrs. Rood this week.

The Ladies Aid society of the M. E. church, under the supervision of Mrs. Margaret Herrick, served a supper in the church parlors Wednesday evening, and realized a neat little sum as a reward for their labors.

The Odd Fellows and the Rebekahs will hold a joint installation Monday evening at Rogalsky's hall. Supper will be served and there will be dancing.

Miss Lydia Kronberg, deputy clerk of the municipal court, has returned, after a holiday vacation of two weeks at the home of her parents at Melby, this state. During her absence, Miss Pauline Markham acted as deputy clerk.

FINANCES OF HIBBING.

Hibbing, Minn., Jan. 11.—(Special to The Herald.)—The report of Village Treasurer R. L. Giffin for the month of December, submitted to the village council Tuesday evening, showed receipts for the month of $10,561.24, with orders paid amounting to $10,518.18, leaving a balance on hand Jan. 1, of $43.05. Some half dozen liquor licenses were renewed.

RAILROAD MAN.

Didn't Like Being Starved.

A man running on a railroad has to be in good condition all the time or he is liable to do harm to himself and others.

A clear head is necessary to run a locomotive or conduct a train. Even a railroad man's appetite and digestion are matters of importance, as the clear brain and steady hand result from the healthy appetite followed by the proper digestion of food.

"For the past five years," writes a railroader, "I have been constantly troubled with indigestion. Every doctor I consulted seemed to want to starve me to death. First I was dieted on warm water and toast until I was almost starved; then, when they would let me eat, the indigestion would be right back again.

Only temporary relief came from remedies, and I tried about all of them I saw advertised. About three months ago a friend advised me to try Grape-Nuts food. The very first day I noticed that my appetite was satisfied, which had not been the case before, that I can remember.

"In a week, I believe, I had more energy than ever before in my life. I have gained seven pounds and have not had a touch of indigestion since I have been eating Grape-Nuts. When my wife saw how much good this food was doing me, she thought she would try it awhile. We believe the discoverer of Grape-Nuts found the "Perfect Food."

Name given by Postum Co., Battle Creek, Mich. Read "The Road to Wellville," in pkgs. "There's a Reason."

The tenth estimate on the big sewer, amounting to a trifle more than $8,100, was allowed. The fire limit ordinance was read and postponed one week.

THAW JURY COMPLETED

Twelve Men Selected to Act in the Second Trial.

The Prosecution Will Present Its Case on Monday Morning.

THE THAW JURY.

1—Charles F. Gremmels, ship broker, foreman.
2—Arthur R. Naething, employing baker.
3—George W. Cary, dry goods.
4—George C. Rupprecht, salesman.
5—John H. Holbert, mineral waters.
6—David E. Arrowsmith, manager.
7—William F. Doolittle, auditor's clerk.
8—William McHugh, clerk.
9—Frank J. Howell, manufacturer.
10—William Burck, assistant secretary Y. M. C. A.
11—Francis Dovale, real estate.
12—James A. Hooper, meats and provisions.

New York, Jan. 11.—The second jury to try Harry K. Thaw for the killing of Stanford White was completed late yesterday, and on Monday morning the prosecution will present its direct case against the defendant. Five jurors in all were accepted and sworn at the morning and afternoon sessions held yesterday. As a whole the jury is made up of a most intelligent body of business men, most of whom are at middle age or over. When the panel had finally been completed, after many vexatious delays, and after the exercise of twenty-three peremptory challenges by the defense and twenty by the people, Thaw announced that he was well pleased with the twelve men chosen. Young Mrs. Thaw, who has watched the selection of the jurors with the keenest interest, also declared that she was well satisfied.

"They are much nicer than the men selected last year," she said, as court adjourned, and Thaw exclaimed that he echoed his wife's sentiments.

The prisoner and his wife had an earnest fivo minutes' talk after the last juror had been sworn, and while the attorneys were conferring as to the appointment of a commission which will be sent to Pittsburg to take the testimony of Mrs William Thaw, the mother, who is still too ill to come on to New York.

HOLY WAR IN MOROCCO

(Continued from Page 1.)

considerably disturbed over the unexpected declaration of a holy war at Fez, and the proclamation of Mulai Hafid as sultan of Morocco. It is now anxiously awaiting information as to the number of tribes who will follow the rebel sultan. Every thing will depend, it is explained, upon the strength which Mulai Hafid develops. It is ponted out, also, that France and Spain, holding a mandate from the powers, have no option but to recognize Abd El Aziz as the legitimate sultan. He signed the Algeciras act for Morocco, and France and Spain will have to treat with him and sustain him so long as the official government remains in his hands.

Country May Become Divided.

Should the rebel sultan become formidable, it is conceivable that the country might become divided, Mulai Hafid being supreme in the interior and Abd El Aziz, with the support of France and Spain, ruling on the coast. Such a situation might readily produce intitrnational complications.

The immediate effect of the proclamation of Mulai Hafid as sultan is certain to be the indefinite prolongation of the stay of the French and Spanish troops in Morocco, which soon were to be withdrawn, as it would now be impossible to confide the policing of the ports to Abd El Aziz without the safeguard of European troops. Pending further developments, however, the governments of France and Spain will proceed with the installation of a police force at Tangier and Rabat, while Gen. D'Armade, the commander of the French forces in Morocco, will proceed vigorously with the work of pacifying the country around Casablanca.

SOCIALISTS ARE ANGRY

(Continued from Page 1.)

and despise the demand of the people? We await the casting of the responsibility upon the privileged and governing classes. Thirty million out of the 37,000,000 people in Prussia are without property and without rights. Social Democracy will organize the 30,000,000 and make their demand irresistible. The government now has the word, but the people will have the final word."

Refusal Curt and Harsh.

Newspapers of liberal tendencies, such as the Tageblatt, regard Prince Von Buelow's refusal as "curt, harsh and imbued with the worst reactionary spirit."

"In past times," the Tageblatt adds, "other liberal reforms have overcome the opposition of greater statesmen than Prince Von Buelow."

The Vossische Zeitung recognizes that "reform of the suffrage is necessary, and the question will not disappear from the order of the day until a solution has been found."

The government is supported fully by the conservative politicians and the indications are that the final stages of the controversy over the abolition of the property qualification for the franchise are at hand. The cleavage between the supporters of the existing order and the Socialist is becoming more acute. Financial and industrial interests, especially in the Rhine and the Westphalian country, which naturally are liberal, support the crown in its refusal to modify the electoral system, because this system has been the only barrier which has prevented the Socialists from obtaining influential representation in the Prussian legislature.

Independent observers are of the opinion that the Socialists have been supplied with strong arguments for the liberalizing of the suffrage by reason of the present financial embarrassment of the kingdom through the efforts of the government to find new methods of taxation at a time when a period of great prosperity apparently is coming to an end.

The leaders of the National Liberal party are forced to silence in the present controversy by fear of doing anything to help the Socialists and by the hope that Chancellor Von Buelow's dependence on the so-called "Bloc" combination of Liberal and Conservative interests will ultimately strengthen the influence of the Liberal party.

RHEUMATISM NOW CURED

Science Says Symptom of Kidneys Which Fail to Sift Out Acids.

Get These Ingredients and Mix Them Yourself at Home.

Recent hospital reports show that the dread disease, rheumatism, is steadily increasing throughout the country. All known means of relief are being suggested to save the great amount of suffering this winter, especially among those who are not in a position to pack up and visit the noted health resorts to be treated. Recent tests prove rheumatism not exactly a disease in itself but a severe symptom of kidney trouble, a condition caused by clogged up pores of the eliminative tissues in the kidneys, which fail to filter the poisonous waste matter and uric acid from the blood, permitting these substances to remain in the veins and decompose, usually settling about the joints and muscles, causing the intense pain, swelling and stiffness of rheumatism.

A well-known specialist, who has probably treated more cases of rheumatism than anyone else, and who is also the most successful, gives the following simple treatment, which is harmless and inexpensive, and so simple that anybody can mix it at home.

The ingredients are: Fluid Extract Dandelion, one-half ounce; Compound Kargon, one ounce; Compound Syrup Sarsaparilla, three ounces. Go to any good prescription pharmacy and get these three vegetable ingredients and mix them by shaking in a bottle, taking as a dose a teaspoonful after each meal, and at beditme.

There is nothing better in the world for backache, kidney and bladder trouble, too. Such symptoms as frequent and painful urination, soreness, weakness, general and nervous debility are caused by certain acids and poisonous waste matter, decayed tissue, etc., in the blood, which the kidneys will clear and purify after a few doses of this prescription.

FIRE CANNOT BE SUBDUED

(Continued from Page 1.)

be reopened to traffic. The officials of the Interborough Rapid Transit company said they had acted upon a suggestion from the fire department.

Fire Had Good Start.

From information given by the occupants of surrounding buildings it is believed that the fire was in progress fully an hour before it was discovered. Supt. Fullerton of the American Lithographic company, directly across the street from the burned building, said today that fully an hour before the alarm was given he smelled smoke and had a thorough search made on every floor of his building. An hour later the firemen were in possession of one of the upper floors of the American Lithographic company's building turning a flood of water on the Parker building through a big pipe fed by six lines of hose.

Deputy Chief Binns said:

"The fact that the fire gained great headway was due entirely to the lack of water. There are two twelve-inch mains on Fourth avenue, fed from Central Park reservoir. There is no pressure whatever. In the side streets there are six-inch mains and on Broadway there is a thirty-six-inch main. But the pressure from the Broadway main was more than half lost as a result of the distance from the fire. Many of the engines worked under a five-pound vacuum instead of fifteen to twenty-pound pressure, which is ordinarily found in the street hydrants.

"It shows that at the present time in New York," continued the deputy chief, "the water towers cannot reach above the eighth floor. Because of the poor water pressure the three water towers which responded to the five alarms, had to be laid aside useless, after ineffectual attempts to do good work with them.

GRAND RAPIDS WINS

Over Cloquet at Basketball by Score of 11 to 6.

Cloquet, Minn., Jan. 11.—(Special to The Herald.)—The Grand Rapids team proved too strong for the locals in the basket ball game played in the roller rink last night, the visitors winning by a score of 11 to 6. Reuben Swanson of the locals did some star playing, while Solberg of the visitors tickled the spectators by his fine work.

BANK TEAM IN THE LEAD

Standing and Individual Averages of City Bowling Team.

S. Olsen Has High Average With 204 for Twelve Games.

Winning three straight games last night from the Big Duluths, the National Bank team secured themselves in first place in the Duluth City Bowling league and sent the Big Duluths down to third place. The bank team has won nine games and lost but three, the Fitwells standing second with seven won and five lost.

With an average of 204 for twelve games, S. Olsen stands at the head of the individual bowlers, Smith holding second place with an average of 192 for the same number. Boerner, Pettit and Nabis are close up for the individual honors.

Following are the standing of the teams and the individual averages:

Team Standing.

Name—	Played.	Won.	Lost.	Pc.
National Banks	12	9	3	750
Fitwells	12	7	5	583
Oak Halls	12	6	6	500
Big Duluths	12	6	6	500
Columbia	12	5	7	417
Baltimore	12	3	9	250

Team Total Pins.

Name—	Played.	Tot. Pins.	Gd. Av.

ST. PAUL IS BOWLERS' CHOICE

State Tournament Will be Rolled on the Pfister Alleys.

St. Paul, Jan. 11.—The executive committee of the State Bowling association, yesterday afternoon, decided to hold the next state tournament on the Pfister alley, St. Paul, where the tournament was pulled off last year. Three bids for the tournament were received, from the Pfister and Conrad alleys of St. Paul, and the Arcade alleys of Minneapolis. The Pfister's bid was the lowest and most desirable, and it was unanimously accepted.

The Pfister people agree to turn their six alleys over to the association every evening, Sunday excepted, from 6 o'clock until 12 o'clock, and all day Saturday during the week of March 16, for the sum of $150. In addition to this they agree to give $15 in prize money, which practically makes their bid $135. If it is found necessary to continue the tournament over a week, an additional sum of $25 a day will be charged, and if the games have to be rolled during the day, the sum of 10 cents per man will be charged.

They also agree to provide 221 seats for the spectators, provide a locker room for the bowlers and all the customary conveniences and necessities that are required to make the tournament a success.

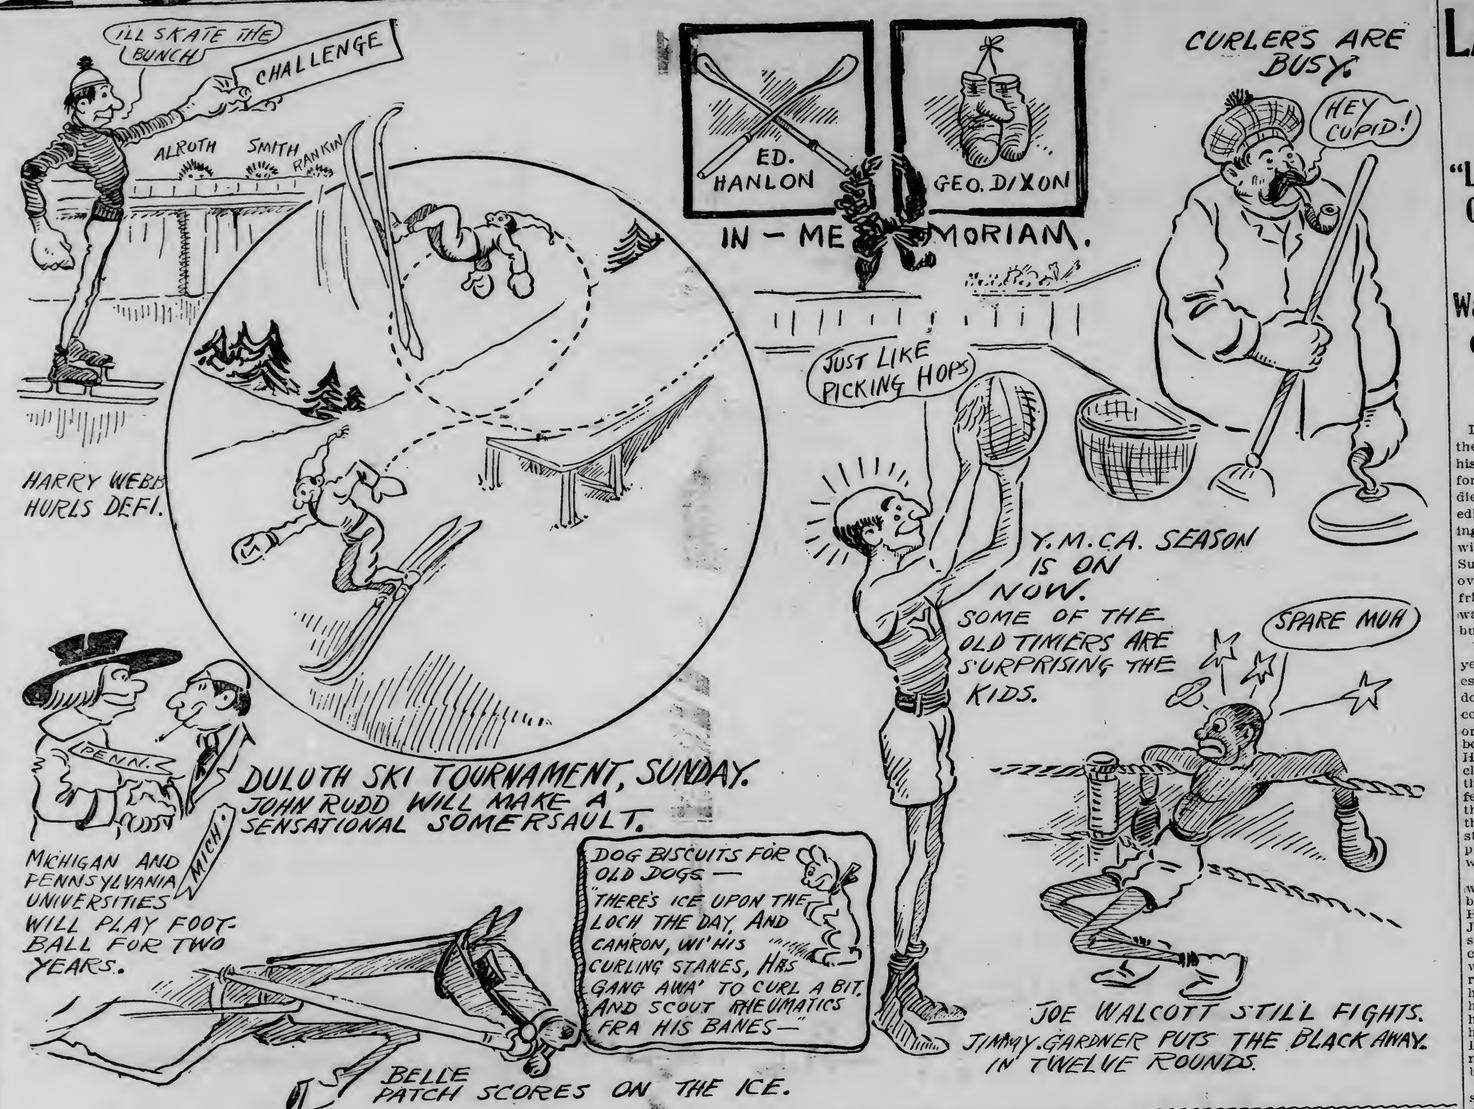
The Conrad bid was $150 and a seating capacity of 250 was assured. The Arcade's bid was $175 with an assurance of 225 seats.

The Pfister people agreed to forfeit $50 if they do not live up to their agreement.

Frank J. Doris was appointed on the arrangement committee with E. B. Dorsey and J. N. Nelson, in place of Mr. Fredrickson of Minneapolis, resigned. The printing committee was authorized to have posters printed. Entries will close March 7.

VANDERBILT SUED.

New York, Jan. 11.—Alfred G. Vanderbilt has been sued by Francis Richard for $5,000, claimed to be due for work he did building for Mr. Vanderbilt a racing automobile.



ARE KILLING OWN GAME

The California Legislature Will Probably Knock Out Fighting.

Every Form of Graft Flourishes Around Frisco Prize Ring.

Referee Billy Roche is said to be in bad repute in San Francisco, and in danger of losing his job. His work in the Kaufman-Sullivan fight was characterized by many fans as exceedingly raw, and a fist fight in the ring followed the main event. Both fighters romped through the twenty-five rounds, "kidding" each other all the while. The decision in Kaufman's favor was received with great disgust by many.

San Francisco fights cost a great deal more to stage than those in Los Angeles. Full length photographs of the fighters are placed on exhibition at various places in the bay cities, advertising has to be done in all the towns about the bay, and the services of the referee and ushers cost a great deal more than is paid in other cities. The cost of putting on a good fight is in the neighborhood of $4,500.

Ushering at the fights in San Francisco is controlled by a syndicate, which bids for the privilege of handling the ushers, and as much as $600 has been offered for the concession. The money is made by a wholesale system of graft. Ringside seats are sold to any applicants regardless of the claims of the real owners, for a small sum. In some cases if the bid of the syndicate is refused, the ushers buy entrance to the hall, and proceed to do business over the heads of the real ushers, hired for the occasion.

San Francisco's "pork and bean" fighters also have an organization, directed by a newspaper pressman named Lampman. The price of a preliminary fight was raised from $100 to $400 and no four-round fighter would go in the ring, for a time, without consulting Lampman. Hard times have broken the organization up, however, and preliminary fighters may now be had at the old price.

Visiting fight fans from San Francisco say that the fight game has been almost knocked out by the tactics of ushers, high-priced fighters and an incompetent police service. The last fight was said to have been witnessed by 4,000 "dead heads," most of whom bribed their way in past policemen and ushers. The fights are no longer considered a "gentleman's sport," but the game of hoodlums, and respectable men now refuse to pay high prices for seats which they never occupy. Sometimes gangs of hoodlums rush the doors and most of them are thus able to secure admission.

It is being freely predicetd among the wise ones in sporting circles that California will not long remain a paradise for fight fans. It is generally expected that at the next session of the state legislature laws will be passed which will regulate very strictly the boxing games. The greatest abuse of California boxing has been in the organization of "athletic clubs," composed of two or three promoters, who exploit the public for all the money they can get. It is expected that boxing will be restricted to bona fide athletic clubs, with a regular membership, when new laws are enacted.

See the Sensational

SOMERSAULT ON SKIS

One of the features at the Annual Ski Tournament on Chester Hill

Tomorrow, Sunday, Afternoon,

at 2 o'clock

Admission, 25c. Children, 10c.

That defeat of the Y. M. C. A. Basketball team Thursday night at Superior was a pretty hard pill for the supporters of the local five. They have been counting on beating Blaine. Their victory over the Nelson Dewey alumni buoyed up their hopes, and the drop was far and the jolt hard when the students chucked them over the cliff.

It might have been a good thing at that. There's nothing helps many a championship team as a set-back early in the season. They recoil from the shock for the moment, recover, get a new start and go ahead with their teeth set and a wary eye ahead for wires in the path.

Overconfidence is bad for any athlete or group of athletes. If the association boys had won Thursday night they might have become possessed of that undesirable result of athletic success. Now they know they're not invincible. They will go into every game with a knowledge of their own weakness and the possible strength of their opponents.

The basketball season is young yet. One defeat doesn't amount to anything, but an incentive to be on the lookout for future slips. Blaine is to be met again and very probably defeated. Duluth has championship material this year, is out for the championship of Northern Minnesota and one defeat will not stop their march to the place where the title reposes.

• • •

Is professional hockey a fizzle after all?

The men, who made the game in the Copper country are shaking hands with themselves. The professionals with their claims for big salaries, their lordly manners and desires for the coin rather than the approbation of the public have been banished and the Copper country rejoices. An amateur league has been formed and after only three games, the papers and people are letting loose their glee. The amateurs are making a hit. They know the game, play it well, are out for glory and not money, and the big rinks are being well filled for the contests.

There's something to it. The Copper country has spent much money in fostering professional hockey. The expensive rinks were built for that game and never a thought that amateurs would claim them as their homes. Immense salaries were paid for men imported from across the border and now it has all been turned over to the amateurs and managers and people are better satisfied.

Free predictions are being made that the professional game will die in Canada. The hockey player, who is out for the money doesn't play the game of the amateur with equal ability. It's a proven fact and is being further proved in the Copper country, where hockey thrived by right of dollars for several years.

Give the amateurs their chance. If they can play the hockey that delights, let them play. The professionals killed their game with exorbitant demands. If professional hockey is reinstated in the Northwest, the home boys will get most of the money and they'll remember the experience of their Canadian predecessors.

• • •

Just as soon as a second-rate pug or wrestler gets his name into the press dispatches, he looks to the stage. Some manager, who sees the box-office in the path of a flood of dollars offers an ordinary salary. It is announced with liberal use of the multiplication table on the figures and the public cheerfully hands out the coin to see the fellow in exhibitions. Successful athletes are demi-heroes and since the public is willing to pay, the managers and the man who turns to the stage can't be blamed much.

But there's an athletic person appearing on the stage at Detroit, Cleveland and other cities recently, who ought to be chased back to Buffalo as fast as righteously indignant citizens are able to do the trick. It's Miss Cora Livingston, champion woman wrestler of the world—champion, no doubt, because nobody disputes her title. It is actually said that she has found opponents of her own sex in the Ohio and Michigan cities, and crowds gather to see the exhibitions.

Wrestling is a man's game. Boxing is a man's game. The woman who gets down to them isn't a woman any longer. She converts herself into a machine for exhibition before unsportsmanlike creatures who are willing to gather to see her. Cora Livingston should be taught that a woman on the wrestling mat is out of the sphere of woman in America, is an insult to the chivalric standards of the race, is against all decency and good sense, and will not be tolerated.

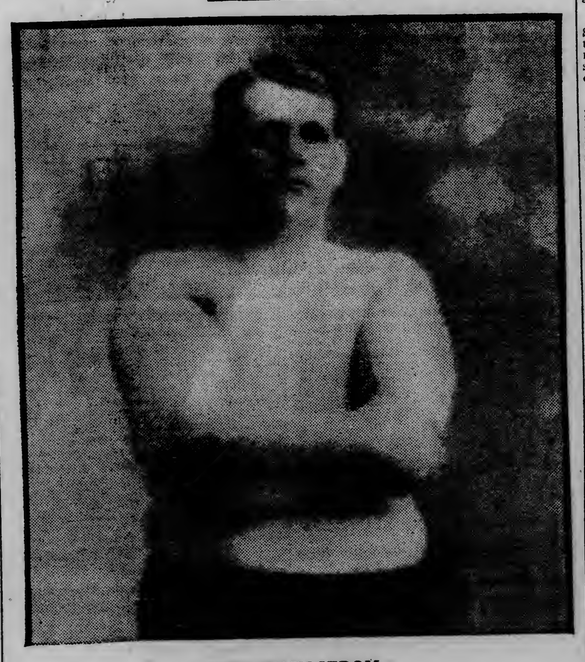
Packey McFarland made a hit in the East. His Chicago friends hope the hit doesn't lose any of its force by the time it reaches Tommy Murphy.

FREAK WRESTLER IN WEST END WEIGHS 332 POUNDS



STEN WAHLSTROM.

The above picture is Sten Wahlstrom, man of much avoirdupois and wrestler by his own admission.

There are 332 pounds of flesh, bone, and muscle in that picture. Wahlstrom is the proud possessor of a rather generous embonpoint, but it doesn't bother him on the mat, he says.

There is a fine bunch of beef there for Andrew Danielson to get hold of tonight. Wahlstrom is big enough for an extra size mat, but he thinks he can handle Danielson all right on the regular canvas.

Nobody knows how fast Wahlstrom really is, but Martin Johnson, and Johnson's opinions don't stamp the big fellow as a world beater just at present. Some think Danielson will throw him in about three minutes. Wahlstrom thinks not and his weight is a pretty good support to his argument.

But Danielson doesn't have to throw Wahlstrom to take down the money. The big fellow must throw him three times in an hour, and to do it he must show wrestling ability and lots of it. Danielson is no slouch on the mat. He has many friends in the West end who will gather tonight to encourage him to hold out against the big fellow, and if Wahlstrom throws him the required number of times, he will demand attention.

The freak match will be a good one to show Wahlstrom up, for better or for worse. If the handicap were the other way, he could stall in fine shape. But he'll have to work to throw Danielson, and if his work is right he may get away with it.

LAST COUNT FOR DIXON

"Little Chocolate" Was Greatest Lightweight Ring Ever Saw.

Was King of Fighters of His Class in Early Nineties.

Despite his fondness for liquor and the freedom with which he threw away his opportunities, George Dixon, the former featherweight champion, who died in New York this week, undoubtedly had more friends in the sporting world than any former champion, with the possible exception of John L. Sullivan. The expressions of regret all over the country were genuine, and friends in New York took care of his wasted body and gave it a decent burial.

When Dixon was in his prime, in the years of 1890 to 1895, he was the greatest featherweight fighter who ever donned a glove. No man at that time could class with him in science, speed or hitting power. He whipped every boxer of prominence in easy fashion. He held the title of featherweight champion for ten years, and occupied the same position among the little fellows as John L. Sullivth held among the heavyweight boxers. Both were in their prime at the same time and, strangely enough, old "John L." was pratically the only friend Dixon had when he died.

Dixon's career as a fighter began when he was 16 years old. His first battle took place in his home town, Halifax, N. S., where he was born, July 29, 1870. From his first contest he showed he had the earmarks of a champion. He disposed of his opponent, whose name was Johnson, in three rounds. After this go his friends took him in hand and went to Boston with him, where he established a record for himself by defeating all those whom he encountered. During those days Dixon found Hank Brennan his hardest nut to crack. They fought four draws between 1888 and 1890.

"Little Chocolate," as Dixon was styled on account of his light-brown skin, fought his first championship bout with Cal McCarthy on Feb. 7, 1890. The lad went seventy rounds to a draw, which put Dixon at the top of his class. Although the combat ended in a draw, it was thought by the majority of critics that the little negro fighter displayed more cleverness and speed than his opponent. Eleven months after this first go they met again at Troy, N. Y., and Dixon disposed of him in twenty-two rounds.

Frank Erne, who for many years was the topnotcher of his class, until defeated by Joe Gans, was the first man to gain a decision over the great little fighter, and it is said that the verdict was a questionable one. The battle was held in New York, Nov. 27, 1896, and went twenty rounds. During this time he was under the management of Tom O'Rourke. Young Griffo and Tommy White, at that time Chicago's best featherweight boxers, held him to draws, but none was able to compel Dixon to take the count of ten.

After his defeat at the hands of Frank Erne, Dixon "went back." That grit and spirit which was apparent in all of his earlier fights seemed to be gone. His second defeat was at the hands of Ben Jordan of England, who gained a decision over him at New York, July 1, 1898. He was successful until 1900, when he met defeat at the hands of Terry McGovern, which took all the fight out of him. McGovern stopped him in nine rounds at New York.

The defeat broke his heart, as he developed a fondness for liquor, and soon started on the down grade. Ever since losing to Ben Jordan, he was desirous of whipping him, and the year after he lost to Terry McGovern he went to England to fight him, but lost a second time. His last big battle was with Tommy Murphy, who knocked him out. His closing contest was with an obscure boxer, Monk Newsboy, at Providence, in 1906. Dixon, a mere shadow of his former self, barely lasted the fifteen rounds and lost his decision.

George Dixon was without a doubt the greatest little fighter who ever donned a glove. He was the best, because he possessed everything that makes a boxer a champion. He not only was clever and speedy, and had a good head, but possessed what very few clever pugilists have, a good, stiff blow.

FAVOR SEVEN GAMES.

Milwaukee, Jan. 11.—An Evening Wisconsin special from Madison, Wis., says: "The report of the university alumni committee, which is composed of Judge A. L. Sanborn, chairman; Warren D. Tarrant, S. S. Gregory and Joseph Davies, which was appointed to investigate the athletic affairs at Wisconsin university, late yesterday gave out its reports. The committee, among other things, favors a seven-game football schedule. The suggestion is ventured that it is a poor plan to place upon the athletic board, faculty members who are known to be hostile to the intercollegiate sports. Complaint is made that the alumni have been slighted in athletic matters in the past.

Special Announcement Regarding the National Pure Food and Drug Law.

We are pleased to announce that Foley's Honey and Tar for coughs, colds and lung troubles is not affected by the National Pure Food and Drug law as it contains no opiates or other harmful drugs, and we recommend it as a safe remedy for children and adults. Sold by all druggists.

HILLMAN IS SUSPENDED.

Amateur Runner Accepted Gold Watch for Exhibition Run.

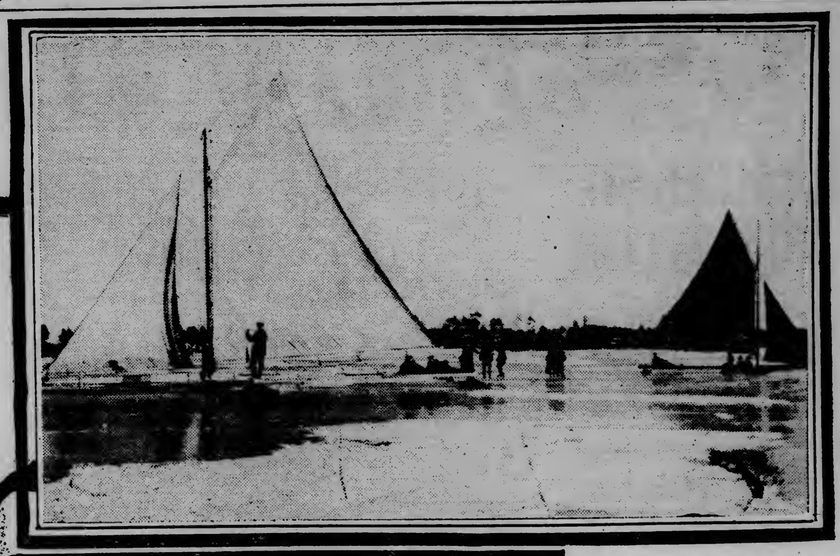
New York, Jan. 10.—There were some further developments in the athletic tangle yesterday when Bartow S. Weeks, chairman of the legislative committee of the Amateur Athletic union, stated that Harry L. Hillman, the runner, had suspended himself by accepting a gold watch given him, it it claimed, for running an exhibition quarter mile at the games of the Twenty-second regiment. He will not be eligible to compete in any amateur event until reinstated by the registration committee.

Manager Lyon of the Yale basket ball team, has applied to the committee for reinstatement of the team, the members of which were disqualified for playing against the George Washington university team when they were, it is claimed, two professionals on that team. The manager's explanation was satisfactory and the players will be reinstated.

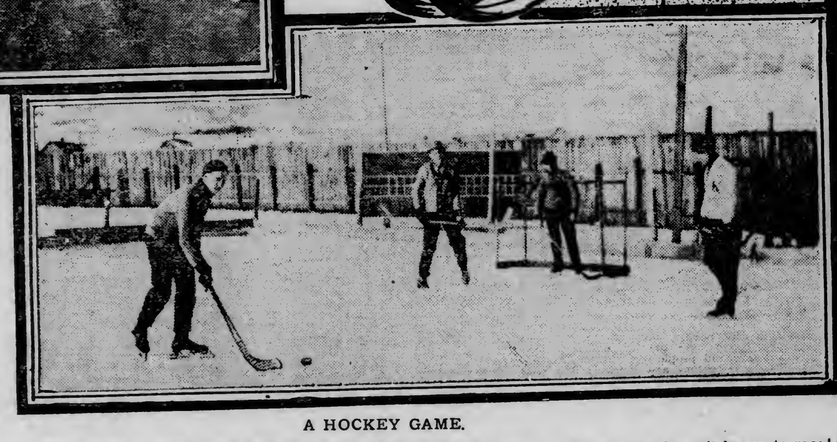
Disturbed the Congregation.

The person who disturbed the congregation last Sunday by continually coughing is requested to buy a bottle of Foley's Honey and Tar.

WINTER SPORTS IN DULUTH



—Photo by Herald Photographer.



A HOCKEY GAME.

TACKING INTO THE WIND.

With the big ski tournament tomorrow, inaugurating the season of 1908 in that sport, the ice on the bay in great shape for ice boating and the hockey teams active, Duluth is now fairly launched on a winter of health-giving sport.

Admirably situated, Duluth is an ideal city for winter sports, both from its climatic and geographical features. The ice on the bay makes possible enjoyable ice-boating for the owners of the craft, the hills, which strikes terror to the hearts of those who have known naught but level plains, are the boon of the ski rider and the coaster.

Than ice boating there are few better sports. Every day, since the cold weather has given the surface its firm crystal coating, the bay has been dotted with the winged craft, shooting here and there before the wind, handled by men, who have become skilled in the sailing art in years of sport. Sailing in summer is nothing to ice boating. The ice boater bundled up to protect himself from the frosty air, and what cold does reach him merely quickens the flow of the blood and raises his spirits. In a brisk wind he flies over the ice, as it were, fast enough to take the breath from him, and at the end of a five-mile drive before the wind, is ready to tack back and try it all over again.

The ice boats haven't begun to race in matched events yet. The different owners are trying out the speed of their craft. Impromptu affairs have given some of the owners a chesty feeling, but it may be taken down when the different boats get together for organized races.

The ski riders have mourned since the opening of winter. There has been little snow and each new fall almost disappeared under the effects of the sun and the southwest breeze. The Duluth Ski club, with the aid of teams and a force of men, has had snow hauled from different parts of the grounds in the vicinity of the slide at Chester creek, to give a surface to the trestle and provide a bump and run at the bottom. The tournament tomorrow is not made possible by nature alone, for man has aided in providing the slide.

The popularity of skiing has spread in the past few years to more of Duluth's population than the casual observer would suppose. Hundreds of young men and women own their hickory runners, and fine afternoons and evenings they have long ski runs and hours of hilarous fun sliding on the avenues or the hills in the vicinity of the boulevard. The great body of them has not broken out yet this winter. The bare avenues, and almost bare hills, haven't been inviting enough, but the next fall of snow will find hundreds of them out to enjoy the sport.

Hockey is taking hold with a vengeance this year. At the Athletic park rink, the Twelfth avenue rink, on the bay and the ponds, the boys, with their sticks and clubs, are shoving the puck around and learning the great Canadian game. The boy, who skates and skates only, doesn't have the fun nowadays. He must needs have a hockey stick, be able to dribble a puck and yell "Shoot" like any native Canadian, in order to stand in well with "de gang," and engage in the play. The sporting equipment of no boy in Duluth's Young America is complete without a pair of skates ("hockeys" screwed on the shoes) and a stick. He may go down to the "ice" and mix with the crowd on equal terms then, and the passer-by, who sees the Young Americans taking up the Canadian sport, isn't surprised at their enthusiasm.

Coasting parties are as numerous as ever this year. The avenues and streets, with a grade, find parties each evening at the exhilorating sport of "bobbing." The long, steel-runnered fliers, speed down the hills to the yells or songs of the coasters, who, with great expense of energy, haul the bob back up the hill again to repeat the performance.

Duluth is a city of winter sports. A trip over the city will prove it. Curling, skating, horse racing on the ice—all are popular, and Duluthians would not trade climates with California, banish skates, skis, snow-shoes, ice boats and hockey sticks for any inducement.

CHAMPIONS IN ENTRIES

Famous Riders Will Compete in First Ski Tournament.

John Rudd Will Turn Somersault in Air While Jumping.

Entries closed last night for the big ski tournament of the Duluth Ski club, tomorrow, on the hill at Chester creek and the array of talent shows familiar names to Duluth ski enthusiasts. The tournament is the first of the club for the year, will be held under the handicap of continued warm weather and little snow, but it is expected to bring out good sport.

Entries in the professional class include all of the championship jumpers of Duluth. Evenson, Mangseth, Bye and Larson have all won prizes in local tournaments, national events and other affairs throughout the Northwest and they can be depended upon to go after new records on the new slide. In the other classes, the entries comprise promising young amateurs, who will add to the thrilling features of the meet.

John Rudd, who created a sensation in the ski world, last Sunday, by successfully turning a somersault, while on skies in mid-air, will repeat the feat for the benefit of the visitors to the tournament. Rudd's hair-raising act was never successfully performed previous to last Sunday and there are some still skeptical of his ability to repeat.

For the amateurs, awards of medals and merchandise will be made to the winners tomorrow, and cash prizes have been hung up for the professionals. The tournament is in the nature of a preliminary to the big national tournament next month and all of the riders are anxious to participate and try out the new hill. Snow has been hauled to the hill and it is in good shape.

The hill at Chester creek may be reached by sleighs and there will be sleighs at Fifteenth avenue east to convery any, who do not care to walk from the street cars.

The complete list of entries for all four classes follows:

Class A.—Ladies and children under 15 years—Walter Evans, Fred Evans, Harold Thompson, Beatrice Wannebo, Skule Hruitfjord, Helen Wannebo, Oscar Wick, Fred Crandy, Walter Grandy, F. Jnudsen, Whitney Wahl, Jr.

Class B.—Amateurs, age 15 to 18—Arnold Olson, Charles Firoved, Snorra Hruitfjord.

Class C.—Amateurs over 18 years—Oscar Hagen, P. J. Berg, Olaf Rygh, George Jacobson, Henry Trammun, Alf Nerger: Harry Schelin, O. Grinden, B. Langfald, R. Knox.

Class D.—Professionals—John Mangseth, John Evenson, Ingvald Sveen, Olaf Larson, Alf Jensen, Ole Feiring, Gustav Bye.

TO PLAY FOR LOCAL HONORS

Northern and Columbia Hockey Teams Clash Monday Night.

Interest in the hockey game next Monday night between the Columbia hockey team of Superior and the Northerns of Duluth is keen on both sides of the bay. The winner will have a good start for the championship of the Head of the Lakes in the Canadian sport; both are strong and the game will be a whirlwind exhibition from the first drop of the puck.

The game will be played at the Athletic park open rink, which is now in good condition. All defects in the ice sheet have been remedied; the lights have been strung so as to brilliantly illuminate the entire rink, and it is expected the outdoor game at night will be a success.

The Northerns have been practicing hard all this week, and they will hold another stiff practice tomorrow. The Columbias have been strengthened this year, as well as the local team, and it is believed they are well matched.

The line-up will probably be as follows:

Columbias.	Position.	Northerns.
Rounson	goal	Fenton
Charles	point	Furni
Olson	cover	E. Cummings
Grennan	rover	Winter
Johnson	center	Dietz
Randal	left wing	Al Cummings
Dunlap	right wing	Steinback

"RASSLERS" WERE A FROST

Near Mat Artists Give Poor Exhibition at the Met.

If George Rogers is the champion lightweight of the Pacific coast, there's a gang of grapplers around this part of the country who could go to Portland, Or., and live on the fat of the land throwing near-champions. Georgie is a mushroom. He knows about as much of wrestling as a cliff-dweller knew of electric lights and automobiles. He hardly knows the difference between a half-nelson and a toe-hold, and certainly can't use either and use them properly.

George essayed to throw Tommy Hogan of the West end twice in a half hour last night at the Metropolitan. Be it said of Hogan that he is perfectly innocent of all wrestling ability. But a babe in arms could stall Rogers off the way the Portland grappler went after his man last night. He secured one fall in eight and one-half minutes and couldn't get another to save his money and the big end of the gate receipts.

The match was very much to the frigid and the crowd was sore. The promoter, who dug up the boys, should tumble them into a dark deep well of oblivion. The spotlight hurts their eyes and they are subject to stage fright, a very dangerous malady. They hurt the spectators more than themselves.

NEW GUN CLUB IS ORGANIZED

Shoot Will be Held Every Sunday in Summer Months.

Members of the Northwestern Gun club, an organization recently perfected by a number of enthusiastic trap shooters, are already preparing for the spring and summer shooting. A committee of the club is looking over the field, with a view to selecting grounds for a range, and they have several sites from which to select a suitable one. As soon as the site is secured, traps will be ordered and by the time the snow leaves and the weather becomes suitable for spring shooting, everything will be in readiness.

There are fourteen charter members in the new club and the membership is limited to twenty-five. It is expected the membership will be filled by spring. The club is strictly amateur and only amateur shots are eligible for membership. Meetings will be held monthly and during the summer months shoots will be held every Sunday.

The officers elected follow: President, Alex Shobitsky; vice president, Frank Russell; secretary, Harry C. Anderson; field captains, Otto Kalkbranner and Paul Mahonski. The other members are H. Kalkbranner, G. Kalkbranner, Bert Farrell, August Piering, F. Heldaman, P. Shobitsky, M. Munson and Ed Peterson.

GARRY HERMANN IS ALL SMILES

Baseball Mogul Says 1908 Season Will be Best Ever.

New York, Jan. 11.—That 1908 will be a banner year for professional baseball is the opinion expressed by President Garry Hermann of the National commission, in a letter published here today. In the letter Hermann says:

"I believe that the present year holds even greater prospects for baseball than there were results in 1907. Through the instrumentality of the national committee and the National association of minor league clubs the various baseball interests are being drawn closer and closer together in a more friendly co-operation, with the natural result that evils are being eliminated and beneficial features evolved that cannot but work to the best interests of the great national game.

"In my opinion the race in both National and American leagues will be more exciting in 1908 than they were in 1907. It is plain that the weaker teams on both circuits have been strengthened more than the stronger ones. This means that the second division teams will be tougher propositions in 1908 than they were in 1907.

"And with closer races than heretofore, the patronage is certain to be greater than ever."

A STRANGER IN A STRANGE LAND

Grif Jones Wants to Muss Up the New York Pugs.

Griff Jones, a Duluth colored fighter, who figured in two or three "lemon" fights around this part of the country, has landed in New York and, according to reports, is trying to make the natives of that little hamlet believe that he is the real dope. The following note from the New York Journal will tell the tale:

"Griff Jones, a colored middleweight from Chicago, eased his way up to the Journal office yesterday and informed us that he was extremely anxious to muss someone up.

"Have you had any fights, Mr. Jones?"

"Yes, sir; 'bout thirty-five or six."

"Have you lost any, Mr. Jones?"

"Yes, sir; yes, sir; two o' 'em. Jack Johnson beat me nine years ago, and I lost another to Ben Tremble of St. Paul. Mr. Tremble cheated the night I lost to him, though. We fought at a stag party, and in the fourth round I tossed a warm one up on his eye and he curled up for good on the floor. I walked over to Mr. Tremble's corner while I heah Mr. Referee count and am waiting for the last numbers when sufin' hit me on the haid and I keel over maself. The referee deliberately leave de other man and came over to where I was resting and counted me out.

"One of Mr. Tremble's seconds reached up and copped me on the coco with a bottle. I'll show you dat mark yet."

And Mr. Jones doffed his lid, bent said dome over, and there on the top was a cross marking the spot.

CAREER OF ABE ATTELL

World's Champion Featherweight Paroled From Reform School.

Abe Didn't Have Much Boxing Ability at Institution.

From an "incorrigible" at a reform school, to champion featherweight boxer of the world, dealing with the biggest business men and earning incomes comparable with that of bank presidents, is a far cry, but that is what Abe Attell accomplished in seven years.

Abe Attell gave no promise of ever becoming a championship boxer when he was an inmate of the Whittier State school, in 1899. The 15-year-old lad who had been committed to the corrective as an "incorrigible," became, according to the few officers who remember him, "a model boy."

Abe was too small to command any kind of a following among the boys, and had not yet developed his pugilistic tendencies, except to a slight degree.

"We do not like to give out anything about the boys here, especially to the newspapers," said one of the officers of the school when asked about Attell's career at the state institution. "When people read that Attell was once out here, they will probably say, 'No wonder he became a prize fighter, if he went to a reform school.' Now we want people to understand that this place is not a prison filled with wild beasts, but simply a military school where boys are taught to do right and subjected to no more discipline than is necessary. Abie was one of our best boys, and was paroled after a little more than a year.

"Abie did box a little bit with the boys when he was here," admitted one of the attendants, "but he didn't know much about it and most any of the boys could whip him. Of course we never allowed fighting among the boys, but sometimes they used to box a little, and Attell always wanted to take a hand. He was too small to make much of a showing, and nobody ever suspected that he would be a champion."

Attell was committed to Whittier from San Francisco in March, 1899. He was paroled June 17, 1900, and, his behavior being good, was discharged while on parole, Feb. 22, 1905. A few days after he arrived at the school he made an attempt to escape, on March 99, but was nabbed by the truant officer after but two hours' freedom in the town of Whittier. Beyond this breach of discipline, Abie behaved himself to the entire satisfaction of the officers during his year's stay at the institution.

Abie was not at heart a bad boy. He was sent to Whittier as incorrigible, after having been twice arrested for minor offenses, and after he left the school was a well-behaved youth.

Attell has not forgotten the lessons learned in his father's second-hand store, and cannot be induced to fight, unless what he deems a sufficient amount of coin is in sight.

As a gambler, Abie is a "true sport." Recently he was shaking dice with Kid Farmer at $5 a throw, and was away ahead of the welterweight pugilist, but "Just to give the Kid a chance" stayed in the game until they were even. Farmer then ran ahead $10 and quit. He was not in the game to lose. Attell rustled around, and seeing an old woman who had been watching the proceedings, said to Farmer, "Let the lady throw for you, just for fun." Farmer agreed, the lady shook three deuces, and Farmer strolled out on the Rialto grinning broadly, with a 'Tanks, lady."

Attell is an inveterate gambler on the ponies and is always "on" when a good thing is put across. He is the idol of the little jockies and thus gets next to stable information that no one else, even the owners, can get out of them. It is safe to say that when the featherweight champion's fighting days are over he will be "making book" or playing the system somewhere during the season, and dealing in diamonds and looking for bargains in the off months.

SUE FOR TEN CITY BLOCKS.

Residences, Churches and Schools Involved in Mining Case.

Butte, Mont., Jan. 10.—By a ruling by the commissioner of the general land office, the hearing before the Helena land office involving important property rights in the eastern part of Butte has been vacated. The hearing will not come up until the district court has decided the issue in the action brought by the Washoe Copper company against M. A. Hickey, John Lindsay and others.

The case is of great importance to citizens of Butte. The Leggat and Foster placer claim was located March 18, 1878. In June, 1903, Hickey and Lindsay located the Lizzie Fraction lode claim of twenty acres, ten blocks of which are covered with residences, churches and schools.

If the defendants obtain patent to the Lizzie claim, they will own the ground on which all this property stands. The owners either would have to rebuy their lots or move their houses.

TO WORK IN UNISON.

Bremen, Jan. 11.—The North German Lloyd Steamship company and the Hamburg-American Steamship company have definitely agreed to work in unison in the matter of the North American and East Asiatic shipping of the two lines.

ROCKEFELLER BEATEN

By a Cleveland Landlady, Who Sued for $25,000 Damages.

Cleveland, Ohio, Jan. 11.—John D. Rockefeller, through his attorneys, who have been fighting a $25,000 damage suit for two years, has given notice in common pleas court that he has agreed to a settlement with the plaintiff.

The case grew out of the erection of the big Rockefeller skyscraper here. In excavating for the building the old Johnson house, now known as the Saunders hotel, was damaged by the toppling of its wall, which had been supported for scores of years by the old Weddell house. Mrs. Martha Condee, owner, brought suit against Rockefeller for $25,000 damages, alleging that it cost her $2,350.99 to patch the wall, and that other damage amounted to what she asked. Just how much is to be paid the lawyers did not inform Judge Kennedy, who entered the order for settlement out of court.

BISHOP A WITNESS.

Rev. Carroll of Helena Testifies in Minneapolis Suit at Butte.

Butte, Mont., Jan. 11.—Rt. Rev. John P. Carroll, bishop of Helena, was a witness in the district court here yesterday, in the suit of John H. O'Meara and John Kerrigan against Peter McDermott, a brother-in-law of the bishop, for a division of $125,000 alleged to have been the commission upon the sale of the Burke-Balaklava claims. The bishop said he received $300,000 in cash for the two mines, the property coming to him for the church in his capacity as bishop of Helena from the estate of James Turpy. The court refused to make an order compelling the bishop to produce the account books of the diocese in court.

ELOPEMENT SPOILED BY A CASE OF NERVES.

Des Moines, Iowa, Jan. 11.—If Miss Hazel Gabbet, a pretty school ma'am near New London, Iowa, had not been taken with nervous collapse when her young lover, James Cochran of Fairfield arrived to elope with her, according to agreement, she would today be Mrs. Cochran. But just at the critical moment, she was prostrated. So Cochran drove back to town with a stepladder that he had taken to the home of Papa Gabbert to use if emergency required.

"Hazel, are you there?" he whispered as he set the stepladder up to the window of the Gabbert home.

Hazel wasn't there. She was in the hands of a physician suffering from a nervous collapse, and she told all about her plans. Cochran drove back to the city. The next day he sought an interview with her, but was not permitted to see her. The stern parents haven't relented, either.

DENIED BY SHAUGHNESSY.

Montreal, Jan. 11.—Inquiry at President Shaughnessy's office yesterday elicited the statement that "the rumor that the Canadian Pacific railway intends to purchase or take over the Chicago-Great Western railway is absolutely without foundation."

Favorites of the Footlights

THE WEEK AT THE LYCEUM

"The Rollicking Girl" on Friday and Saturday Evenings.

Maude Fealy on Monday in "The Stronger Sex."

"The Rollicking Girl," which is to be seen at the Lyceum Friday and Saturday, Jan. 17 and 18, is one of the successful musical plays that has enjoyed a run of over six months at a New York theater, its engagement having been played at the Herald Square theater in that city. Snitz Edwards, in the role of Schmaltz, has a character which combines humor with philosophy to a remarkable extent. He earns a precarious living making wigs for the "profession," but admits that his main business is "bossing soubrettes"—that is, when he is not being bossed by his wife, Lena.

To Schmaltz and Lena, whose home is in Vienna, comes Ilona, who has run away from her own wedding feast to become an actress. She amazes Schmaltz with her acting and hurries off to the theater, where she arrives just in time to supplant the leading lady, who has not shown up for rhearsal. Her success is tremendous and she is at once besieged by admirers and Schmaltz is kept busy throwing the too persistent ones out. It is great fun for honest Schmaltz—and for the audience, too—and the comedy goes along at a fast and furious rate.

Finally, the former leading lady regains her position and adds injury to insult by wounding Idona in a sword duel. Ilona is nursed back to health by the lover she deserted at the altar and the play ends with the pealing of wedding bells. Thorughout all this there is a continual succession of mirth and melody. There are many delightful songs, amongst the greatest hits being "Tricks," "Friends That Are Good and True," "My Cabin Door," "The Girl From My Own Town," "Lovey Dovey" and "The Indians on Broadway," in which Mr. Edwards figures more mirthfully than melodiously. The play is mounted in the taste that marks all the Frohman productions and the management has surrounded Mr. Edwards with a galaxy of beauty this season that is claimed to be second to none on tour.

MAUDE FEALY.

Western Actress Coming to Duluth in London Success.

Maude Fealy, John Cort's youngest star, and who comes just about being the youngest stage luminary appearing in the legitimate field, is one of the most unpretending little persons imaginable. There is no false pride about Maude Fealy, for unlike so many other stars in the theatrical profession, she shuns, as much as possible, anything bordering on "heroic" publicity. She is always the first person to enter the theater at night, as well as the last to leave it, arriving and departing quietly and without any semblance of ostentation. Such things as special carriages to convey her to and from the theater, special suites in hotels, and special dressing rooms upon the stage, she eschews, though by the terms of her contract she is fully entitled to all such privileges, but she prefers to travel modestly and quietly and accept all conditions the same as all other members of her company. She is a great reader and has with her at all times the works of the best authors; this miniature library being carried in trunks especially made for that purpose and naturally weighing "something"—as the property men of her company attest. She is an excellent French and German scholar, and takes lessons in those languages almost daily, and is a fine swordswoman, being a pupil of Prof. McKay of Denver. The celebrated Prof. Senac has highly complimented her upon her skill with the foils, and Richie Ling, a member of her present company, and one of the best swordsmen upon the stage, has more than once lowered his colors to her art in this line. Maude Fealy loves hard work, and there is nothing back of the stage curtain that she does not fully understand the intricacies of. She is an excellent stage manager and is always a great help to a producer of plays in which she is to appear. Miss Fealy's play this season is the famous English dramatic comedy, "The Stronger Sex," which holds the remarkable record of seven solid months' presentation at the Apollo theater, London, where it nightly crowded that playhouse to the doors, and was the fad of the very ultra fashionable set of the great English metropolis.

Monday evening is the date of the Lyceum booking.

AT THE METROPOLITAN

Sam Devere's Own Company Will Hold the Boards, Giving "Mr. Planet of Mars," "The Belle of Boston" and a Long Bill of Vaudeville Features.

Sam Devere's own show, with a good record for past performances, comes to the Metropolitan next week. The organization will remain the usual seven nights and there will be the usual matinees.

Mathew Ott has written two sprightly burlesques especially for this season's tour of the Devere organization and the management is said to have spared neither pains nor expense to supply judiciously players, costumes and scenic equipment.

The opening skit is called "Mr. Planet of Mars" and the afterpiece is "The Belle of Boston." There are a number of comedy situations and a grist of tuneful musical numbers, written by Al. Stedman.

Phil Ott is the principal funmaker and he has able assistance from Al. Stedman, Ambark All and Jule Jacobs.

The vaudeville numbers are supplied by such well-known people as Phil Ott, Nettie Nelson and company, including Al. Stedman and the eight Devere Ponies, in a new act, called "Nearly a Doctor." Teddy Simond and Dorothy Warde, the old-time favorites, Ali Hunter and All, European acrobats, the La Velle sisters, soubrettes, and Jule Jacobs and Dot West, singers and dancers.

AT THE BIJOU

Comedy Attractions Will be Featured in the Strong Vaudeville Program Which Will be Presented All Next Week.

Comedy will be introduced in several lines and styles at the Bijou the coming week, many well known sketch teams and acts being on the program. The acts are all vaudeville favorites and include such well known people as Golden and Hughes, who present "Siscrata's Visit to the City."

Frank Hays and Anna Suits, two well known Eastern entertainers, who have just returned from a vaudeville tour abroad, playing the principal theaters of England, Ireland, Scotland, Wales and South Africa, and who are booked to return next year, are offering one of the most refined eccentric dancing, singing and change acts ever seen in vaudeville.

One of the best comedy acts seen at the Bijou for some time will be presented by the Sidonias, who appears in their original comedy, entitled "The Eccentric Tramp and the Golf Girl." Both of these artists are well known in the musical comedy field, having handled the principal roles in several of the leading road attractions.

Eddie Powers, who bills himself as "That Dark Man," will introduce a blackface monologue that is different from other minstrel monologues. His songs are also new, introducing many original parodies and sayings.

Lottie Meaney comes here next week in the clever little playlet, called "The Bowery Bud," which offers this little artist a chance to display her dramatic talent at its best. It is one of the most successful playlets that has ever toured the United Theater circuit.

Isadore Silver, who was one of the most popular illustrated song singers ever at the Bijou, will return for an indefinite run, singing the illustrated songs. His opening song will be a beautiful ballad entitled "Yesterday," one of the big hits that is now popular throughout the country.

The moving pictures will be "How We Get Our Coffee," and Edison's newest comedy film, entitled "The Mishaps of a Baby Carriage."

Matinees are given daily at 2:45 and evening performances at 8 and 9:30. Seats may be reserved by either telephone. The usual school children's matinee will be given on Saturday afternoon, with performances Sunday afternoon and night.

SCENE FROM THE BRIGHT MUSICAL PLAY, "THE ROLLICKING GIRL."

GOSSIP OF THE RIALTO

Four Actresses in Different Plays Fail to Startle the East---Mrs. Fiske, in "Rosmersholm," Comes Out Best.

New York, Jan. 11.—Neither Ethel Barrymore nor Maxine Elliott has been fortunate in the choice of material, and both of these charming women are dependent upon material far more than sundry other actresses who might be named. Neither of them has yet attained the dignity of rank to risk shocking her clientele by disregarding its prejudices. If Miss Elliott should ever grow so defiant as to impersonate a woman who lacks the attributes of the candy doll sedition would be rampant in the bonbon rows. Miss Barrymore will some day announce her declaration of independence, but not yet. She has not done so in "Her Sister," which Clyde Fitch and Cosmo Gordon Lennox molded to her plastic personality and insidious sauvity with too great regard for the fictional value of archaic romance and a corresponding disregard of the substantial elements of truth.

Miss Elliott's "Under the Greenwood Tree" has the same Agnes May Fleming touch of strained sentimentality and anemic vitality, and, unfortunately, the metropolitan public has grown too sophisticated and world-wise to put abiding faith in old standards. Neither of these actresses has scored more than a half success. There is a radical affinity between the two heroines, moreover, that is strange. Miss Barrymore plays a professional soothsayer among a lot of silly London society clients, who tells you your fortune and promises to tell you more if you come next week. Miss Elliot buys out a real gypsy outfit and takes to the woods in a spirit ife an tantalizes one's flesh in a ravishing bathing suit, invisible to the naked eye, but amply suggested by a graphic description which we hear from others' lips, of an imaginary plunge into the imaginary pool behind the scenes.

That is the disappointing thing about it, for in dramatis art the old maxim, "Be sure you're right, then go ahead," applies as logically as under the circumstances under which David Crockett projected it. "Under the Greenwood Tree" is undeniably a symphony of sweetness, with the statuesque Maxine a veritable Diana who rhapsodizes the moon, the flowers and the bathing pool, but it refuses to let us be the Actaeon of the occasion. The play drifts, very much as "Her Sister" drifts, without the directness which a compass might give to its course in the hands of a hardy navigator, who swears and storms occasionally, and leastwise lets us realize that we are dealing with the element instead of floating on a painted ocean. Yet there is much in both performances to admire and commend—Miss Elliott's beauty and engaging personality and Miss Barrymore's flexibility and ready grasp of sentiment and humor. In neither play, however, have we a sound vital foundation for sustained interest.

Precisely the opposite is to be said of Mrs. Fiske's first appearance as Rebecca West in "Rosmersholm," by Ibsen, at the Lyric and Mme. Nazimova's first appearance in Owen Johnson's maiden effort, "The Comet," produced at the Bijou. A typical Mrs. Fiske audience assembled at the Lyric. That is to say, a large representation of the thoughtful element of New York playgoers which is interested in serious dramatic work and recognizes this actress as its loftiest exponent. She gave us the result of four years of study in her delineation of Rebecca West, and, whether you like Ibsen or not, the least that can be said of this performance is that the work of the actress was so profundly graphic within the scope of subtle restraint that she carried the house before her and scored one of the greatest triumphs of her career.

John Luther Long told me between the acts that he regards "Rosmersholm" as the best play Ibsen ever wrote. I read it four years ago on Mrs. Fiske's recommendation. Let me confess that the performance far surpassed the pleasure which the reading afforded me, and Mrs. Fiske's insight into the complex nature of Miss West leavens the drama with an interest that casts you under an irresistible spell.

There was no music between the acts—which, by the way, is growing in vogue with us—and the greater part of the evening you could have heard the proverbial pin drop. When Kroll mercilessly pries into Rebecca's past and the history of her birth, in the third act, where nothing indicates the woman's wrought-up state of feeling, but the tempestuous heaving of her breast and the little querulous exclamations of pains, and the face pictures the agony and bitterness of spirit which she undergoes, her art was triumphant to such extent that the large audience was carried away with enthusiasm and the actress was called again and again before the curtain. We have had only one or two such spontaneous ovations at a theater this season.

• • •

A few seasons ago Mrs. Fiske took on flesh. The other night she impressed you by her suppleness and grace. She was rather the embodiment of a small, wiry women with a tremendous nervous organization and reserve power of energy under amazing restraint.

Ibsen's characters are human documents with all the contradictions of human nature. They require to be interpreted by those who understand the process of sifting these conradictions and reducing them to a tangible unit. In the same masterful manner in which she gave the American public the first intelligible Hedda Gabler, she has in "Rosmersholm" dispersed the mystery of an even more enigmatic conception. The play is a drama of fate. It has no mystery. Its moral is, a tooth for a tooth. Rebecca drove Beata, Rosmer's wife, into the millrace; Rosmer was unconsciously, but guiltily her confederate, and the inexorable logic of this condition demands that their destiny shall lead them to the millrace, the way of the wife. This was admirably indicated not only by Rebecca, but by the other characters in this interpretation. Bruce McRea took a stride forward in his dignified and thoughtful performance of Rosmer, although it was the least finished work of the evening. The honors fell to Albert Bruning as Peter Mortensgard in a small but superbly played scene; to Fuller Mellish, as Rector Kroll, and to George Arliss in his picturesque, eccentric delineation of Ulric Brendel.

This is no attempt at critical inquisition. Be that for others. But it is the echo of the thoughtful sentiment of that large Monday night audience that was held in a grasp of unbroken interest from first to last by the latest Ibsen play.

• • •

While the plays in which Miss Barrymore and Miss Elliott are appearing have been justly described as spineless by some of the critics, the same reproach cannot be urged against Nazimova's new play, "The Comet," any more than against "Rosmersholm." "The Comet" is said to out-Ibsen Ibsen, but long before Ibsen's day dawned domestic tragedies on realistic lines were written by Hobbel in Germany and Emile Tugliere in France. "The Comet" is a creditable premiere for Owen Johnson, although it will probably not prove a success. Either it is not written with a spirit of conviction, or else the interpretation fails to persuade us. It is not always easy to determine. The subject is bold and the writing is excellent. It has a big situation, but it comes too late in the action and the construction lacks that theatricalism that is never absent either in Shakespeare or in Ibsen, despite the air o ftruth which characterizes their works. We go to the theater to be deceived. That's all there is of it. "The Comet" strikes the dead level of monotone early in its development, and a considerable portion is little more than a dialogue between the two protagonists—the Comet (so called because she has had a meteoric career from obscurity to fame as an actress) on one hand, and the young enthusiast, Fernand Ravenel, who falls under the poppy spell of her destructive magic, on the other. It is not that the story is simple, but because Mr. Johnson has not yet learned to create contributory incideats to buttress its interests, that the play fails to arouse enthusiasm. The acting of Nazimova and Brandon Tynan as the Comet and Fernand, respectively, was so excellent that the fault must be sought in the play rather than in the interpreters.

• • •

Dr. Ravanel, years before the story opens, has ruined a young girl, who disappears. Remorse gnaws at his conscience. His wife dies and he is left alone with his only child, Fernand, now 21 years old, an enthusiastic idealist. Ravanel tries in a way to make afends for his wrong by adopting Cecelia, the sister of the wronged girl. Fernand and Cecelia are engaged to be married, when the former is enraptured by the vision of a beautiful woman whom he saw that morning in his rambles through the woods as she swept by in a tinkling carriage drawn by six horses. It is the Comet, the great actress, but notorious woman, at the mention of whose name maidens blush. There comes a letter to the household addressed to Cecelia's dead mother. It is opened by Cecelia and proves to be from her sister, supposed to be dead. It announces her return. There is rejoicing in the young girl's heart, which is soon changed to grief when the ominous figure of the Comet obtrudes itself upon the quiet household.

Nazimova is a marvel in giving herself significance by the supplementary arts of the costumer. That somber significance is expressed in her soft flowing robe of dark olive that envelops her like the full folds of a stole and trails a yard behind, lending an insidious air of mystery and fatefulness to her fine, delicately spiritueIle face and sensuous movements.

The Comet comes into the house of Dr. Ravanel on a mission of evil. To her sister she is cold; to Ferdinand she is at first cold, then crafty with the arts of her kind, which end in ensnaring his boyish fancy with relentless perfidy. But her own callous nature is inflamed by his enthusiasm at last. The young sister, Cecelia, leaves the house, heart-broken at the loss of her lover. Fernand and the Comet prepare to go away together in the mad ecstacy of mutual infatuation.

At this juncture Dr. Ravanel enters, and for the first time confronts the girl he has wronged. This is the dramatic scene of the play, and it is powerful in the exchange of criminations and recriminations. But the Comet is relentlessly bent on fulfilling her mission, though love has given it a new direction.

Ravanel threatens, Fernand enters in time to snatch a pistol out of his hands with which he would have killed her in her room, and places the weapon in his pocket. The elder cannot dissuade the boy from carrying out his rash purpose to follow the Comet, and when all other means fail he has no alternative but to appeal to him in the law of nature, which says that father and son shall not share the same woman. Fernand is staggered by the revelation, and goes to his room upstairs. We hear his hurried footsteps on the stairway and the banging of a door. There is a moment's pause and then a shot. In distraction the father runs upstairs. We hear the cry, "My son! my son!" and silence.

And silently, like the noiseless stride of fate, the Comet stalks out of the stricken house to enter her waiting carriage. Upon this scene the curtain falls.

• • •

This is gloomy business ,but shows this tendency of things dramatic. Nat-

AMUSEMENTS. AMUSEMENTS.

LYCEUM
LAST TIME TONIGHT — Italian Grand Opera Co. in "Lucia Di Lammermoor."

Monday, January 13—JOHN CORT Presents
MAUDE FEALY
The play with the record of Seven Solid Months at the Apollo theater, London.

"THE HOUSE OF MIRTH." 'Phones: Old, 969; New, 1070.
ALL NEXT WEEK
SAM DEVERE'S OWN SHOW
The Original Big Boom in Two Screaming Burlesques, and
6—BIG VAUDEVILLE ACTS—6
USUAL MATINEES. USUAL PRICES.

DEFECTIVE PAGE

imova has a following. Mr. Johnson has not. Plays like this may always be read in book form to advantage before they are brought upon the boards. The public delights not to be shocked by being taken unawares. Perhaps it will accept "The Comet." It has refused to accept "John Glayde's Honor," which was retired at the end of last week. It has accepted "Rosmersholm" in compliment to Mrs. Fiske, as it accepted "The Master Builder" in compliment to the Russian actress. The chief fault of "The Comet" is its lack in the power to inspire sympathy for any of the characters, and, therefore, it lacks general vital interests.

• • •

Florence Roberts, who is appearing this season in "Xira," has a penchant for digging up the true and exact meaning of words in the dictionary. It has become a fad with her, and one out of which she derives at times a good deal of amusement. Most of the latter is at the expense of other people. Among her most intimate friends is a young woman who recently became a bride, and who had the habit of referring to her young husband as a "model man." Whenever the two met, and in all her letters to Miss Roberts, the young bride was continually remarking, "My husband is such a model man," or "in all the world there is not another man who is such a model husband as mine." The continual reiteration of the young woman as to her husband's virtues became tiresome to Miss Roberts, and she decided to fall back on the weapon on her fad availed her of and inform the young lady how Webster defined "model."

In a recent letter to this young lady she wrote: "Pour your own good, my dear, do not use the word 'model' any more in reference to your husband. I had occasion to look the word up in the dictionary the other day, and this is what I read:

"'Model. A small imitation of the real thing.'"

• • •

Edgar Selwyn, who is appearing in "Strongheart," claims he has discovered the ideal method of rehearsing a release by the use of a photograph. He first adopted the phonograph method when rehearsing the role of Soangataha in "Strongheart." He first read the lines of the role into the machine, and then studied from the record, noting mistakes in intonation, which he corrected by making a new record. In this manner he succeeded in perfecting preparing himself for his work in the present play.

• • •

It seems that Haddon Chambers, who made the American version of Bernstein's "The Thief," was not even given a peep at the London adaptation prepared for George Alexander and Irene Vanbrugh, for performance at the St. James theater, London. Perhaps they feared the vigorous Yankee touch contracted over here by Chambers, who, though English by accident, is an American by association. Cosmo Gordon Lennox was called in to Londonize Mr. Bernstein's "The Thief." To the British all things are British; the locale of the play is so jolly well better understood, don't you know, if it's brought 'ome. With the aid of some ink and very much self-complacence, Mr. Lennox has transformed Mr. Bernstein's Frenchmen into Englishmen. So when you see "The Thief" in London, you will see a diluted version of the most virile play written in the last twenty-five years. It may seem a little incongruous to Anglicize a French play, but it is at least thoroughly English. In its ground work and in its situations, the London performance is French; in its colorless dialogue, English.

• • •

The ovation accorded Maude Adams on her return to the Empire theater in "Peter Pan" was a sight worth walking miles to see. Miss Adams was obliged to make the lengthiest curtain speech she ever indulges in, namely, "I thank you." The theater was filled to overflowing and at the appeal for a belief in fairies a great cheer of loyalty was given Miss Adams. It is difficult to realize that Barrie's boy Pan, now in his third year in London, is to disappear from among us. Play and player have become epochal in the history of the modern stage. Those who speak slightingly of the taste of the American playgoer have their answer in the unanimity with which all classes of American theatergoers, and even that class that ordinarily never enters a theater—wherever and whenever opportunity was given—made "Peter Pan" the most profitable as well as the most imaginative and artistic theatrical venture of this generation.

Alice Leigh, apearing as Mrs. O'Brien in "The Chorus Lady," was the original French landlady of "Beau Brummel" fame. "Beau Brummel" was produced by the late Richard Mansfield in May, 1891, at the Madison Square theater, New York. The play was written by Clyde Fitch. Miss Leigh recalls well the first night of the production, when Mr. Mansfield walked into the greenroom, just before the first curtain, and said: "There's nothing it it—the people won't have it." But "Beau Brummel" ran through the entire summer in New York, and was the most successful play ever produced by Mr. Mansfield.

• • •

Sometimes there is fun on the stage which persons in the audience do not suspect. At a recent performance of "Tom Jones" the members of the company were convulsed with merriment over a trick John Bunny played on Henry Norman. Mr. Norman in the character of Squire Western is a hard-riding, hard-drinking country gentleman, who tosses off glass after glass of wine at a hunt breakfast. The scene calls for the drinking of six bumpers of wine in rapid succession. Real Burgundy is used, but for stage purposes only a little is placed in each glass, as no human stomach could hold the six big glasses. At the performance in question Mr. Bunny slyly filled the glasses to the brim, and as Mr. Norman downed the wine in plain sight of the audience, his face assumed a look of consternation at the sight of the quantity. Everybody on the stage saw the trick and watched to see how Mr. Norman would handle the plight. He drank two glasses, tackled a third, gasped, and then turning half aside from the audience, made pretense of getting away with the others. No one in front suspected the trick, which Mr. Normau enjoyed as keenly as anybody.

• • •

Joe Weber has been receiving suggestions for a title for his burlesque of "The Merry Widow," and has favored "The Merry Kiddo" for the new show. The name was selected by a young lad, who says the prince is the real character in the piece.

• • •

Charles Franklyn Reglid, the comedian, who sprang into notoriety about ten years ago when he married a wealthy Mrs. Ronalds in New York, despite the discrepancy in their ages, died last week in New York city, after a brief attack of typhoid fever. Reglid was a comedian when he met Mrs. Ronalds. They soon married. The bride at the time was 70 years old and the husband 32. A few years later the wife died and left an estate of nearly $1,000,000 to her husband. Reglid retired from the stage at the time of his marriage, and had lived a life of ease from that time. The wife was a cousin of the Lorillards. The marriage created quite a sensation at the time it took place. Reglid began life as an errand boy in his father's grocery store in Brooklyn, but was fond of the stage, and when quite young made a personal application to Augustin Daly, and so pleased that manager that he gave him a position.

• • •

M'lle Adeline Genee, who is to be the star of the new Ziegfeld piece, reached this country the present week. Rehearsals of the new revue are now well under way. In the company will be such old favorites as R. C. Herz, Sam Collins, Cecil Lean, Barney Bernard and over 100 other people of minor importance.

• • •

The failure of James K. Hackett's newest production, "John Glayde's Honor," will give E. M. Holland a chance to get into New York sooner than he expected with his new play, "The House of a Thousand Candles." Hackett manages both tours, and as he found New York did not care for h is new piece, he quickly switched his second star into the Hackett theater.

• • •

The taking over of Nat C. Goodwin as a star by Liebler & Co. had a story behind it after all. It seems from this account that George Tyler, the general manager of the Liebler interests, has a play by Booth Tarkington and Harry L. Wilson which is known as "Cameo Kirby." The central character is that of a Mississippi river gambler of the old type, whose title springs from his liking for cameos as an article of personal adornment. Tyler was favorably inclined toward Goodwin for the role, and, as the once popular Nat has been in sore need of a play these several seasons, there was not much trouble to make him listen to reason. The play will likely be brought out early next year. From what has been said of it Goodwin should fit snugly into the part and really make it a character study worth seeing.

• • •

It was rumored in theatrical circles the past week that Hollis Cooley has been booked for retirement from the general management of the Henry W. Savage theatrical attractions and that either Frank Perley, Claxton Wilstach or Madison Corey will succeed him. Cooley has been with Savage for two seasons now, and there is some talk that he retires soon to take up the general management of the Columbia Amusement company. This is the organization of burlesque show producers which built up a rival circuit to the Empire people two years back and is now well established with some forty odd houses in its chain. Cooley had much to do with forming that new circuit, for he was then connected with Gus Hill's enterprises.

• • •

The real significance of Mrs. Leslie Carter's petition in bankruptcy came to the surface when the listed liabilities and assets were filed last week in New York. Among the assets not itemized was an alleged partnership of Mrs. Carter in the Belasco plays produced during the sixteen years that the two were associated in various stage productions. Mrs. Carter claims that she was an equal partner of Mr. Belasco in all the plays produced in that time. By filing a petition in bankruptcy she brings the matter into the United States courts and forces him to show his books and submit to an examination. The reason for this move was pointed out in these columns some time back. It occasioned some considerable surprise at the time, but the new move is now generally accepted in theatrical circles as the commencement of a legal tangle between Mrs. Carter and Belasco that will be thrashed out later.

• • •

Vesta Victoria, the English singing comedienne, who has made such a hit in this country the past year, added her first American-made song to the repertoire last week when she sang "And He Blames My Dreamy Eyes," which was expressly written for her by two American writers. The song went quite well.

• • •

Any one with a sense for appropriate surroundings such as William Holtgrafe showed in Baltimore the other day when he hanged himself between two twenty-eight sheet stands of lithographs of two meladramas booked in the combination theaters there, should never have committed suicide. The shows were "The Long Trail" on one side and "From Sing Sing to Liberty" on the other. Holtgrafe was despondent because he had lost his job and was found dangling to the end of a rope between the two big stands of bills.

• • •

The London run of "Mrs. Wiggs of the Cabbage Patch" will not terminate before the latter part of February. A teur of the English provinces by the London company, beginning shortly before March, is now being planned.

• • •

La Petite Adelaide, the dainty little dancer with "The Orchid," is out of the cast, having undergone an operation for appendicitis last week.

• • •

Hattie Williams, on account of a temporary indisposition, was out of the cast of "The Little Cherub" in Brooklyn last week, and her place was acceptably taken on very short notice by Adele Rowland, who has been in the Williams company since she left "The Spring Chicken."

• • •

Macklyn Arbuckle found recognition for his performance of Slim Hoover, the Arizona Sheriff, in "The Round Up," when he was appointed a deputy sheriff of New York county last week by Sheriff Nicholas Hayes, who is a personal friend of the actor.

• • •

Ida Conquest, who has been out of the limelight since the collapse of her starring tour in "The Speel," has organized a special company to play a stock engagement in Toronto, Can., for several weeks.

• • •

Nora Bayes, who played the principal feminine comedy part in "The Follies of 1907," left that piece in Philadelphia last week. It is said that Miss Bayes was insulted because she was not assigned the star's dressing room, and quit the show in a huff.

• • •

Will Hodge, in his Chicago success, "The Man from Home," last week moved from the Studebaker theater over to the Chicago opera house, where he did not break into the run of his prosperity. The Kolb & Dill show, "Lonesome Town," which was put into the Studebaker theater to follow Hodge's run, has not been a howling success.

• • •

Fanny Ward, the English actress, after a stay in this country, returned to London last week, where she will produce "The Secret Orchard" next month.

ALLEN'S ULCERINE SALVE

Is a sure cure for Chronic Ulcers, Bone Ulcers, Scrofulous Ulcers, Varicose Ulcers, Mercurial Ulcers, Fever Sores, Gangrene, Blood Poisoning, White Swelling, Poisoned Wounds, all sores of long standing. Positively never fails. Cures Cuts, Burns, Boils, Felons, Carbuncles, Abscesses. For sale by druggists. Mail 25c and 50c. J. P. ALLEN MEDICINE CO., ST. PAUL, MINN.

ROSE STAHL IN "THE CHORUS LADY"

ROSE STAHL APPEARING IN JAMES FORBES' COMEDY "THE CHORUS LADY"

New York, Jan. 11.—Miss Rose Stahl, who is under a long term contract to Henry B. Harris, is appearing in James Forbes' comedy, "The Chorus Lady." On Dec. 16 last Miss Stahl had presented the character of Patricia O'Brien 2,300 times, this including her appearances in both vaudeville and the legitimate. Miss Stahl is the daughter of Col. E. C. Stahl of Trenton, N. J. She was born in Montreal, Canada, and made her professional debute in Charles Frohman's production of "Men and Women." The present play of "The Chorus Lady" was presented by Miss Stahl as a vaudeville sketch, dramatized from Mr. Forbes' story, "The Extra Lady," which appeared in Ainslee's Magazine some four years ago. "The Chorus Lady" is an amplification of the sketch and probably one of the most successful plays in America or Europe. Miss Stahl, who has just closed a New York return engagement at the Hudson ntheater, has again taken up her road tour, and during the next few weeks will be seen in Washington, Baltimore, Philadelphia, Newark, Brooklyn and Boston.

PARADE RESTORED.

Barnum Circus Will Have Street Pageant Once More.

When it was first announced that the Ringling Brothers had acquired the Barnum & Bailey circus, there was much speculation as to whether the new proprietors would restore the street parade, which was abolished by the late James A. Bailey, and which his immediate successors to the management of the "greatest shown on earth" did not see fit to reinstate, and now rumors that the parade would be given once more have been confirmed.

The Ringlings have officially announced that there will be a parade every day with the Barnum & Bailey show, during the coming season, and preparations for this free feature of the tour are now being made at the winter quarters in Bridgeport, Conn.

This news is welcomed by American people everywhere. The glib excuses and explanations for the abolishment of the parade by the Barnum & Bailey press agents never reconciled the public to the loss of the cherished calvacade.

Just as the circus is an American institution, so is the parade such an important part of it that the abolishment of the stunt was looked upon as a direct affront. People have always looked forward to the parade on circus day, and hereafter when the Barnum show comes to town, they will not be disappointed.

SHORTENS VOYAGE TO EGYPT.

New Turbine Steamer Goes From Marseilles in Four Days.

Alexandria, Egypt, Jan. 10.—The Egyptian Mail Steamship company has secured the blue ribbon of the Mediterranean by the arrival of its new turbine steamer Hellopolis at Alexandria in three days from Marseilles. The Hellopolis has thus shortened the journey to Egypt from England to four days. Her young commander, Capt. Holloway, handled his fine ship to perfection, and the passengers who traveled in this 12,000-ton palace were loud in their praise of the comfort of the arrangements and the excellence of the cuisine. Hitherto passengers to Egypt had to take the chance of securing berths in one or another of the ocean liners which made Alexandria a port of call. The Egyptian Mail Steamship company has changed all that.

A second and sister ship, the Cairo, will soon be running, and, like the Hellopolis, will have turbine engines of 18-000-horse power, capable of driving the vessel at a speed of twenty-one knots. These two huge vessels surpass in accommodation anything that has yet been seen in the Mediterranean.

"OUT FOR A GOOD TIME."

Three of High School Eloping Quartet Caught at Boone, Iowa.

Des Moines, Iowa, Jan. 10.—Three of the four Quimby, Iowa, high school elopers, who disappeared ten days ago after telling their folks they were going to a dance, and for whom the officers in this and nearby states have been searching, were arrested yesterday in a boarding house at Boone, where they have been stopping.

Those caught were Grace Baumgardner, aged 14; Bryd Case, aged 15, and William Gilman, aged 22. The fourth member was Roha Rolin, who cannot be found, though his companions say he started back to Quimby.

So far as known, no marriages have taken place. The children refuse to discuss the episode, except to say they were out for a good time. The sheriff at Cherokee was notified and is on his way to Boone.

NEWS OF THE WEEK AT CENTRAL HIGH SCHOOL

Students Return With Prospect of Examinations Facing Them.

Freshmen Organize Hockey Team—Preparing the Senior Plays.

The students reassembled at the high school on Monday with an air of anxiety and oppression that is hardly in keeping with the season. The freshmen's brows are wrinkled, the sophomores wear a perturbed air, the juniors are decidedly uneasy, and numberless seniors are seen packing home armfuls of books with which to employ the long hours of evening and early morning, in the pursuit of knowledge, while the family electric light bill mounts higher and higher. What is the cause of all this unrest and agitation? In eight short days the first semester will be finished and on Thursday and Friday, 600 miserable students, all oppressed with a sense of their lack of knowledge, will wrestle with long and much dreaded examinations.

• • •

None of the students seems to have suffered from indisposition during the holidays. The ranks appear to be unbroken even by the inroads of grip. Miss Mogford, junior English room teacher, has not returned owing to illness. Miss Juanita Williams is supplying during her absence. Miss Lolita Phelps is also substituting for Miss Thurber, English, who has resigned. No other vacancies are announced.

• • •

On Wednesday afternoon part of the freshmen class had the ambition to get together and hold their class meeting. Stanley Lamb was elected captain of the hockey team, and the class has announced its intention of defeating the '10 team. The treasurer reported a large amount of unpaid dues. These must be paid up before the freshmen hop and before their part of the Zenith can be reserved.

• • •

On Wednesday evening the Public Speaking club held its postponed meeting. Earnest Forsell gave a short talk on "Ski Jumping and Ski Tournaments," and received much applause. Two senior teams debated the following question "Resolved, that United States Ownership and Operation is Preferable to Private Ownership." Andrew Meldahl, Philip Poirier and George H. Hathaway were the winning trio, upholding the negative side. Their opponents were Wayland Hall Sanford, Win Francisco and August Neubauer. Three of the six will be chosen to represent the seniors in the interclass debates. Superior will send a team to Duluth about the first of March, and if Duluth wins, they will probably arrange another debate with Pine City. The club is anxious to try another passage at arms with these men from down state.

• • •

The fine spring-like weather has made the Aggasiz club sit up and take notice. A short meeting was held on Thursday afternoon and plans were made for the days when the robins return.

• • •

The talent that the Dramatic club has been fostering with such loving care, is soon to burst into bloom, and its most brilliant members will appear before the public in the two senior plays, which will be given some time before the beginning of Lent.

A little tragedy, with an all-star cast, consisting of Fred Cole as leading man, supported by William Eklund, Leo Schmied and Alfred Braden will be used as a curtain raiser. Following this there will be a three-act comedy, in the hands of Florence Wilkinson, Ruth Schofield, Katherine Denfeld, Gladys Tyler, Maude Mattison, Leo Schmied, William McLain and George Hathaway. The plays are under the direction of Prof. Lambert, and in the success and popularity of these dramatic efforts lies the "seniors'" hopes for a financial boom. Heretofore the class plays have always been drilled by Prof. Custance, and the results of new management are looked forward to with interest.

• • •

The mystery of the third floor has been solved by Sherlock Holmes, Jr., '09. For the past few days a half dozen very large coffin-like boxes have been reposing on the third floor and exciting the curiosity of all the school. Many inquiries have been made, but no light could be thrown on the subject. The juniors, in solemn session, decided that they were skeletons for the laboratory, and when the sound of hammers resounded through the building, announcing to eager listeners that the boxes were being unpacked, S. Holmes, Jr., glided swiftly to the scene of action and beheld—not unsightly bones, but nice, neat rows of new chemistry tubes being transferred to the shelves of the laboratory. The "seniors" are delighted with the new apparatus, and are sure the enthusiasm engendered by the sight of these shining new bottles, "imported from across the pond," will carry them through triumphantly to the end of the year.

• • •

The "freshies" are all a-flutter with excitement as they are about to clash with the seniors in the near future in basketball. Other athletics are all at a standstill, and will remain so until after "exams."

• • •

Most of the college people have returned to the East, or to the State university, and the social season is at an end. Many reunions, private parties and pleasant assemblies were held while they were in the city, and all return feeling that "Home is best, after all."

QUEENS WHO HAVE PROPOSED

The Right of a Woman to Do the Asking Has Often Been Exercised.

Leap year is here—shall women propose? A. D., 1908, will tell the story. Is the rich girl who loves the poor man to be debarred from confessing her love? Is the girl who works for a living to be afraid to tell the man she adores just what her feelings are? Must the actress, the literary woman, the office manager, the private secretary—all of whom can support themselves—let go the man upon whom her heart is set without a word?

Queens have proposed, says the New York World. Some have been accepted. Why shouldn't a New York girl propose?

"To say the least,' says Mrs. Belle de Rivera, president of the New York City Federation of Women's Clubs, "women should share men's prerogative. They have a right to propose not only in leap year, but whenever they choose."

"Yes!" say Mrs. Dore Lyon, Mrs. Harriet Johnson Wood and Miss Mary Garrett Page, all prominent clubwomen. "Let a woman propose whenever she feels that she ought."

"Suppose the girl is rich,' argues Mrs. de Rivera, "and the man is poor. He loves her. She knows it; he knows it. He in is modesty dares not propose. She is in love, too. Should she not propose? Suppose she is employed at a good salary and wants it made known to the man that she is perfectly willing to marry him and keep at her work? Must she be debarred from telling him?

"Thackeray said that any woman could make a man fall in love with her unless she was quint-eyed and had a hump on her back. The woman who can do this can make a man propose who has the soul of a mouse or balks like a bucking broncho."

For all this the average woman has liked to hear the man she loves say what he has to say just for the precious privilege of whispering her "Yes" to him. But now times are changing. There are more bachelors than ever before—the clubs, hotels and apartment houses are making them feel more independent. The marrying age for man is getting higher and higher. And women of influence are discussing what shall be done. They cite numerous examples.

Of course, Queen Victoria is the chiefest of them all.

Though she did not in so many words propose to Prince Albert, she singled him out from the other suitors who were chosen for her. Then she intimated to him very plainly that no would be acceptable to her as a husband. Queen Victoria, being the most tactful of women, probably conveyed her royal wishes to him without in the slightest degree wounding the feelings of the prince of the self-respect of the man. She loved him and he loved her—what more was needed?

Queen Wilhelmina of Holland patterned herself after her illustrious sister queen. She behaved in much the same way when she proposed to the present prince consort.

Mme. De Stael, as a typical, strong-minded woman, having picked out her second husband, took him up and married him without more ado, but kept it a secret, and called him her secretary. A woman of her tremendous intelligence and wit could easily have got the man to propose himself, but she did not consider these matters of sufficient importance. Having made up her mind to marry him, she did so.

When she got ready to acknowledge the marriage she did that with perfect calmness, and in the graceful, half mischievous and half matter-of-fact way in which she did everything else.

But, getting down to latter days, there have been others. The last leap year was 1904.

Among the girls who took advantage of their privileges then were Miss May Meneou and Miss Maud Stafford. These two brave young women exercised their prerogative by proposing to their present husbands. They also presented themselves before the county clerk and got their own marriage license. Miss Meneou proposed to and married Emery Cartwright, and Miss Maud Stafford took unto herself J. R. Pedigo.

Both couples are preparing to celebrate their wedding anniversaries this year with particular festivities. They plan, too, to encourage the other girls to propose to their timid suitors.

So much in favor of the woman proposing.

Martha Jubeck of Milwaukee, now Mrs. Vanasack, was not ashamed to confess that she made a leap year proposal in 1904. She and her husband had known each other for several years, but had not thought of marrying. In February, 1904, as they were taking a walk together, she remarked with a laugh:

"Why, this is leap year. I have a right to propose to you. Won't you marry me?"

Martha was most surprised to have John take her seriously.

"You have saved my life," he gasped. "I have never had enough courage to propose to you, though I've been on the point of it dozens of times."

Just suppose Miss Martha had never dared!

The girl who goes in for proposals must make up her mind to have some sense of humor about it. She must be as easily conceled in case of a refusal as a man would be.

Mrs. Agnes Dunn took her turndown so seriously that she attempted to commit suicide the last time that women were privileged to propose when a heartless man refused to listen to her suit. She went to a drugstore and bought laudanum. Going home she swallowed it and fell unconscious.

Fortunately, however, she was saved by the administrations of a doctor. Thereupon, the object of her affections, being overcome by despair and devotion, reconsidered his answer, as thousands and thousands of girls would have done in similar cases. She is happily married now.

The Baroness Burdett-Coutts, who, at the age of 67, married William Ashmead Bartlett, a Brooklynite, 30 years her junior, had certainly the right to propose. She had tremendous wealth and station in life. But she had also her affection for the man, whom, it is said, she held over the christening fount when he was a baby. She was an amazingly young looking woman for her years, and there was not the slightest doubt that the marriage was a happy one.

When she died recently his grief was pitiable.

Literature, too, gives many examples. There were the attempts of Rosalind to educate the dull Orlando in the ways of love. And how about Priscilla, who encouraged the man she really loved, who came to woo her in the name of another?

Truly, 1908 has its possibilities.

Fat People

I WILL SEND YOU A TRIAL TREATMENT FREE.

I can reduce your weight 3 to 5 Pounds a Week and turn ill health into robust health, mental sluggishness into activity, and relieve that feeling of fullness and oppression by producing healthy digestion and assimilation. No distasteful dieting or starvation, no exercising, no nauseating drugs or sickening pills that ruin the stomach. I am a regular practicing physician and a specialist in the successful reduction of superfluous fat. My new and scientifically perfected method strengthens the heart and enables you to breathe easily, and quickly removes double-chin, large stomach and fat hips. Prominent physicians advise their patients to take my treatment and leading doctors themselves are my patients. I absolutely guarantee satisfaction in every case. Write to-day for free trial treatment. I will also send you free my new book on Obesity. It will give you detailed outline of my treatment; it will be sent you FREE. Address,

HENRY C. BRADFORD, M. D.,
Bradford Building, 30 East 20th St., New York.

THE EVENING STORY

THE END OF HER FARMING

By Eva Robertson.

When Wayne Bowers died and left his young wife Betty two little boys to care for, great was the discussion among the sympathetic but curious neighbors as to how Betty's future was to be arranged.

They were not left long in doubt, and after a year or two of successful management on Betty's part, their ridicule died a natural death. On the whole, Betty's first three years might be called an emphatic success, and she began to feel comparatively easy as to the question of a livelihood for herself and her boys. Hans' the big German, whom she had hired to run the farm, was so sober, honest and industrious that she unconsciously depended upon him in many ways, and left certain affairs more and more to his management. Imagine then, how the solid ground seemed to sink from under her feet when Hans informed her that he must leave her, as he had decided to get married.

"I'd had spoken sooner, Mrs. Bowers," said Hans, "only I didn't know sure till last night," and he sat looking dreamily at the fire with a happy smile on his face that won Betty's sympathy at once, for a true woman is always ready to listen to a real love affair.

"Tell me about it, Hans," she said, drawing her chair a little nearer.

And Hans did tell her. Not much of a story, perhaps, but it left Betty convinced that Hans was in earnest, and that she must bestir herself to find another friend man. It seemed Hans had always longed for a home of his own since he left the fatherland, and how Katrina had said she would go with him to the West, if he would take her old mother, too. All was agreed upon, and they waited only Mrs. Bowers' enlightenment before beginning preparations.

Poor Betty! How alone she felt once more. She felt sure it would be impossible to find a man to fill Hans' place, for help was scarce, and she would have to be satisfied with some stranger or "tramp," as Betty expressed it.

In another house, half a mile to the north, Katrina was trying to explain the state of affairs. She stood beside the table, looking bashfully at the floor. Her master had pushed back from his meal and sat in a brown study, looking at Katrina, but seeing far beyond her.

"And so," said he, rousing himself suddenly, "you and Hans think you will try your fortunes out West?"

"If you please, sir," answered Katrina, demurely.

"But what if I don't please?"

"Then I think you must talk to Hans," put in Katrina's mother, laughingly. "I'm going past there this afternoon, and perhaps I'd better speak to him about it," with a twinkle in his eye toward Katrina. "But what will Betty Bowers do without Hans!" and as the thought and other attendant ones came to John Meade, he paused with one sleeve of his coat on and one off till Katrina came to his aid. Even then he seemed strangely absent-minded, and said in return for her help: "Oh, yes, thank you. I believe I will!"

Betty hailed his appearance with delight, and hastened to ask him if he would help her shut the black colt in the barn. It had gotten loose, and she was so afraid of its heels.

Of course John would help her, and the refractory animal was soon stabled. Side by side they walked to the house, talking naturally enough about Hans and Katrina and their prospective marriage.

"It will leave us in rather bad shape, won't it?" said John.

"Yes, indeed; and I'd like your help, John, in finding someone to take Hans' place. I do so dread having a stranger come here," and Betty held the door hospitably for John to enter.

He could not resist this chance of freeing his mind. He took Betty's hand from the door, looking in her wondering eyes, and said:

"Try me in Hans' place!"

"You?" exclaimed Betty in astonishment.

"Yes," said John, feeling that he had gone too far for retreat, and must now explain himself. "Hans takes my housekeeper and you lose your mainstay. Don't you see, if you marry me it will straighten the whole matter. Hans and Katrina could live here, and—"

But he got no further. Betty jerked her hand from his, and a nangry flush overspread her face. His proposal was a great shock to her, for the thought of finding a lover in her old friend John had never crossed her mnid. But aside from her surprise, there was another reason for her displeasure. He had tried to put the matter in a practical light, and to Betty it amounted to this: John wanted her to marry him because he was in need of a housekeeper. All her pride rose in rebellion against the idea.

"No, thank you, John. I think I can manage to exist without Hans, and I dare say you can find somebody for a housekeeper."

"But I don't want 'somebody;' I want you!"

Betty looked at him askance. Oh, yes! She could see to the bottom of his plans. He would like to have her because it seemed to him most convenient. She would show him that she had a mind of her own.

"No, John," she said decidedly. Let's not talk about it any more, for it won't do any good. If we don't speak of it again, we shall soon forget it and be as good friends as ever."

Hans bustled into the house that night with news. He had heard of a chance to hire a man, and proposed that Betty ride over to Koontz's Corner next morning to see the man. The ride was taken, and the man came for two weeks on trial. He proved to be quite ignorant of farm work, but was quick and willing to learn. Betty, though not without certain misgivings, had nearly decided to hire him for the season when something happened to change her mind entirely.

The two weeks of trial was nearly over. Hans had gone with the buggy to a neighboring town, and had taken the boys with him. The new man, Herman, had been sent wiht a load of grain to "The Pocket," a station nearby, and in an opposite direction to the town Hans was visiting. Betty left alone, had plenty of time to think. As she sat busily sewing, her eyes would turn at times toward John's house, and she caught herself wishing that John would come and go again as he used to. He had not been near since that eventful day, and she missed him more than she liked to acknowledge. Besides, she really wanted to ask his advice about hiring Herman.

With so much to think of, time passed rapidly, and Betty was startled when the clock struck and she looked up to see how low the sun was. Her boys would be hungry when they got home, and she hurried to prepare supper. By the time all was ready it was quite dark, and she began to wonder what was keeping them all so late. When the roll of the returning wagon finally met her ear, she lighted the lantern and went with it to the door. As the cheerful gleam met Herman's eyes, he broke into a rollicking song and finished with a whoop that made Betty start. She knew at once that the man must have been drinking, and a thrill of fear ran over her. What was she to do? Nothing, that she could see but wait for Hans.

As the well-spread supper table met Herman's eye, he stopped short in the doorway.

"Good for you, missus," were his first words. "I tell you what, you're the woman to suit my mind. After a cold ride, a lot supper, and then a little something to drink. Here's the stuff to top off with, right here in my pocket," half withdrawing a flask of spirits as he spoke. "Give us a kiss, old girl, and then we'll have supper!"

Betty had not expected such a turn to his thoughts, and she stood frightened and trembling in the farther corner of the room. But when he approached her the situation grew desperate, and she looked about instinctively for some weapon of defense. Not so much as a stove poker or a broomstick within reach, but a dish of strong vinegar stood on the shelf near by. Quick as a flash Betty saw her chance for escape. The vinegar met him full in the face, quite as he opened his arms to grasp her, and without waiting for him to recover breath, Betty dodged under his arm, around the table, and out of the open door. She turned toward John's house. The sight of Herman stumbling out of the open door increased her fears, and she fairly flew along the meadow over the bars and rushed breathless down the slope.

John had just closed his granary door for the night, and lantern in hand turned toward the house. A sudden rush of light footsteps, a laugh and a sob from the darkness, and Betty threw herself into John's arms with such abandon that his lantern flew from his grasp, and he staggered under the unexpected shock.

"Why bless us and save us, it's Betty!" he cried in amazement. "What's the matter, Betty? What has frightened you so?"

No answer from Betty, but hysterical sobs as she clung to John. It was some time before he could make out what was the matter, but he finally managed to get the gist of the affair.

"And then he wanted to kiss me!" finished Betty, with horror in her tone.

"A man needn't be drunk in order to want that," said John, with a wicked smile down at Betty's agitated face.

Brought to her senses by this counter-charge, Betty disengaged herself at once. It was rather hard-hearted in John to add to her troubles in any such way, when she had thrown herself so on his mercy. He seemed to think so himself, for he did not pursue the subject.

As he went toward the house to relight the lantern, Betty kept close to his elbow and glanced nervously about her, as if afraid that Herman might appear. In silence they began the walk to Betty's home. John seemed afraid to speak for fear of saying too much, but guided her carefully where the lantern beams showed the way.

Betty kept stealing glances up at her companion. The sudden hoot of an owl made her shrink closer to him, but his face did not change. "How nice it must seem," thought she, "to be a great, strong man, afraid of nothing! And how comforting to have a right to the protection of such a man at all times."

Some rather serious thoughts began moving through Betty's mind.

"John!" she faltered at last.

"Yes, Betty."

A pause to gather courage, and then: "If you think it would be best for me to rent my farm to Hans, I don't mind if I do!"

And so ended Betty's farming.

"I told you so," said the neighbors. "You might know a woman couldn't run a farm any length of time. Widow Bowers showed her good sense when she put her affairs into the hands of a level-headed man like John Meade."

How to Avoid Pneumonia.

You can avoid pneumonia and other serious results from a cold by taking Foley's Honey and Tar. It stops the cough and expels the cold from the system as it is mildly laxative. Refuse any but the genuine in the yellow package. Sold by all druggists.

CLAIM OF INDIANS

In Minnesota Recognized in Bill Introduced in Congress.

Washington, Jan. 10.—(Special to The Herald.)—Representative Hall of South Dakota today introduced a bill to adjust and pay the claim of the Pillager band of Chippewa Indians in Minnesota for additional compensation for land ceded by the United States by treaty of Aug. 21, 1847. Senator Clapp has a similar bill which he will press to passage in the senate.

Woman's Nature

Is to love children, and no home can be completely happy without them, yet the ordeal through which the expectant mother must pass usually is so full of suffering, danger and fear that she looks forward to the critical hour with apprehension and dread. Mother's Friend, by its penetrating and soothing properties, allays nausea, nervousness, and all unpleasant feelings, and so prepares the system for the ordeal that she passes through the event safely and with but little suffering, as numbers have testified and said, "it is worth its weight in gold." $1.00 per bottle of druggists. Book containing valuable information mailed free.

"BIG GUNS" OF OTHER LANDS WHO WERE TRAINED IN AMERICA

By Dexter Marshall.

SIR THOMAS LIPTON.

(Directly in center of photo) at a British motor race meet. He says his success was due to his American experiences

Two big Germans trained in America—Herr Frederick Dernberg, Germany's first colonial secretary, and Leopold Gowdowsky, a Berlin musical celebrity.

PREMIER CLEMENCEAU

Of France (left hand in pocket). In the lobby of the French house of representatives. Clemenceau doctored and taught in America.

GARIBALDI.

Who made candles in this country. From a famous picture of the great Italian patriot.

EMIL FREY

Ex-president of Switzerland, who was in the Civil War.

EX-PRESIDENT TOMAS ESTRADA PALMA,

(Seated, hand on watchchain) and his fellow members of the Junta commission. Taken in New York before Cuba was free and while Palma was being trained here.

SIR GILBERT PARKER

Who was trained in Canada, and Mrs. Parker, with dog in her lap

(Copyright, 1907, by Dexter Marshall.)

CURIOUSLY enough the list of "big guns" of other lands, who got their training, or a large part of it, in America contains the names of two ex-presidents—Emil Frey of Switzerland, now head of the international bureau of telegraphs of that country, and Tomas Estrada Palma, who wasn't altogether successful as executive of the short-lived first Cuban republic.

George Benjamin Eugene Clemenceau, premier of France, and as such its virtual head, is another "big gun" who got a pretty severe course of training here, incidentally having all he could do to make both ends meet before the downfall of Napoleon III. determined him to return to his native land. The "big guns" of other days—Garibaldi, the greatest Continental patriot of his time, and Stanley—undoubtedly the greatest of modern explorers—like Clemenceau, felt the pangs of poverty while they were being trained in the new world.

Two of the best-known present-day knights of England—Thomas Lipton of non-cup-lifting fame, and Gilbert Parker, admittedly one of the leading novelists of the English-speaking world—have repeatedly declared they owe much of their later-day success to the hard knocks they received here, and not even Garibaldi, as a candlemaker, was poorer than Lipton what time he spent in America as a knockabout day laborer, or Stanley, when he landed here as a cabin boy.

Friedrich Dernberg, first head of the newly-established colonial bureau of the German empire, and the originator, really, of the German colonial policy, is known throughout Prussia as "the kaiser's American-trained banker." In Berlin, Leopold Godowsky, whose career really began in Chicago, where he gave music lessons to young girls, is a great musical celebrity.

Three of these men—Clemenceau, Palma and Baribaldi—got their American training while they were exiles from France, Cuba and Italy, respectively. Nearly all the rest sought out American as their land of opportunity. Not so Emil Frey, son of Dr. Emil Frey, for many years a prominent member of the Swiss National council. He came here because as a boy he had firmly resolved to see the new world for himself as soon as he had completed the long course of education mapped out for him by his father. He was in America not quite five years. During four of these years his life was largely a series of adventures, and for a considerable portion of them his life was in jeopardy so constantly that of him it could be truly said that the next minute was likely to be his last.

It was on Dec. 8, 1860, that young Frey, fresh from the University of Jena, where he had spent five years specializing in economy, finance and agriculture, set foot in New York, after a stormy passage which more than once caused him to rue the day he had ever determined to visit the big Republic, of which he had heard and read so much. Coming here primarily to study the country and its ways, and being well supplied with money, he leisurely traveled Westward, observing farming conditions on the way. Early in 1861 he found himself at his first objective point, Looking Glass Prairie, near Highland, Madison county, Ill., where a large Swiss farming colony had been planted some years before.

One of the colonists known as the "Little Leader," had been a coachman in the old country and had frequently driven Frey's father to the council meetings in Luzerne. Believing that he could study American farming methods best by doing a little actual farming himself, young Frey applied to the "Little Leader" for work, and was soon engaged in herding cattle, cowboy fashion.

When Fort Sumter was fired on Frey was still diligently punching cows and gathering experience. But no sooner had Lincoln issued his first call for volunteers than he, like most of his countrymen about him, rushed to the defense of the flag. Descended from a long line of soldiers, his fighting blood was up—the study of agriculture no longer held the slightest interest for him. Then, too, his few months in the country had made of him a rank Abolitionist, making him all the more eager to fight for the North, believing, as he did, that with the North victorious the slaves would ultimately be freed.

During the revolutions that took place in Europe in 1848, Dr. Frey, young Frey's father, had been the protector and friend of revolutionists seeking a temporary or permanent asylum in Switzerland. Among the patriots who were sheltered by the elder Frey was Friedrich Hecker, the famous German revolutionist, who later came to this country. It was in the first Hecker regiment, so-called—the Twenty-fourth Illinois infantry—that Emil Frey enlisted as color sergeant; "and it was at Chicago, on the 17th of June, 1861, that I bore for the first time the star-sapngled banner," Col. Frey proudly told me. He carried the colors when the regiment marched in review past Grant in Southern Missouri, was sent to Kentucky, and then into Alabama to occupy Decatur. In the fighting that followed in this region Color Sergeant Frey won his lieutenancy.

In the summer of '62 Frey was ordered North to recruit a company for a second Hecker regiment. Returning to the scene of his cow-punching days, he enrolled a company made up to a man of Swiss, who had not been able to get into the scrimmage before. While the men were being drilled at Camp Butler, near Springfield, Ill., they elected Frey captain. As a part of the Eighty-second Illinois Capt. Frey and his Swiss were in the thickest of the fighting at Chancellorsville, where, within half an hour, 156 of the 450 men of the regiment taking part in the battle, were either killed or wounded. This was on May 2, 1863. Col. Hecker himself was wounded so severely that he had to leave the regiment; the other regimental officers were either killed or incapacitated, and the command devolved on Frey, acting as major.

Frey's Capture and Prison Ordeal.

As such he led what was left by that time of his regiment in the first day's fighting at Gettysburg. When the Federals were driven back through Gettysburg Frey and his men, in the confusion becoming separated from the rest of the army, were cut off by the Confederates and taken prisoners.

"It was a hot, a bloody day, and a most disastrous one for us," said Col. Frey recently at his home in Basle, "yet it was a day not without its humorous side. I remember, for one thing, that when we were retiring through the streets of Gettysburg in a hail of projectiles and men and horses were falling on all sides, my adjutant, a brave Bavarian fellow named Seidel, quietly remarked to me: 'I say, Captain, one is scarcely sure of his life here!' "

As a prisoner of war, Capt. Frey underwent an experience that it fell to the lot of but few men captured in the war to undergo. Shortly after he had been placed in Libby prison, he and two other officers, Maj. Nathan Goft, later secretary of the navy under Hayes, and now United States circuit judge of the Fourth district, and a Lieut. Manning were told off as hostages for the lives of three Confederate officers condemned to death by the North as spies, and from then on until he learned casually that he probably would not be executed, Capt. Frey did not know what hour of the day or night he might be called on to give up his life in return for that of the Confederate Capt. Gordon, with whom he had been involuntarily paired.

The three hostages were confined for a time in the famous "black hole" of Libby prison.

"We were conducted thither like men condemned to death," said Col. Frey. "Lieut. Manning, the youngest of us, and a very handsome fellow, sprang fearlessly down stairs, as if he were anxious to reach the cell—which was only nine by six feet, dark and almost airless—and throughout our ordeal he proved to be the most gallant and patient comrade I ever met. Maj. Goff was of a more reserved nature, but when he reached the cell he threw himself at full length on the ground and sobbed like a child. But only for five minutes. Then he raised up, shook himself, and through the trying weeks that followed boro his sufferings like a hero.

"Once a day we were given a little piece of very bad cornbred, some nigger-beans or rice and a bit of bacon, not bigger than your hand, the whole ration weighing not more than three-fourths of a pound. After several weeks of this diet we were reduced to skeletons, and the fearful pangs of hunger forced us to catch and eat the rats which swarmed in our cell. The negro who cleaned out the cell in the morning was sometimes good enough to roast for us that awful game. In this cell and this manner I passed exactly two and a half months, less a few days, when I was so ill I had to be taken to the hospital.

"After we had been in the cell eighteen days we casually learned one morning that through our negro that we probably would not be hanged—that the execution of the Confederate officers had been delayed, and the prison officials believed that the order to execute them would be revoked, since the North knew that we were being held as hostages for their lives. Up to this time none of us had considered his life worth a rush. Later, when we were taken from our cell and transported in cattle vans to the penitentiary at Salisbury, N. C., we realized fully for the first time that in all probability we would not meet death like the lowest of criminals. This thought made us so happy that we almost forgot about our sufferings, and even looked with tolerance on the murderers and thieves who were our prison companions. At this prison we were allowed to pass the day in the fresh air, which seemed sweeter to me then than it ever did before or has since."

It was on Jan. 14, 1865, that Capt. Frey was exchanged for Capt. Gordon. Seventeen years later, when the former returned to this country as the first Swiss ambassador, Capt. Gordon was residing in Washington, where he was a newspaper correspondent, and the two men met and became good friends. A Washington newspaper at the time published their pictures under the legend, "Paired for Life." Capt. Gordon died in 1893.

After his release, Capt. Frey rejoined his regiment, served with it till the end of the war, then bade his comrades good-by and went back to Switzerland. He plunged into public affairs, like his father and grandfather before him. He became editor of the Basler Nachrichten (Basle News), a prominent Liberal newspaper; was advanced to the rank of colonel and commander of an army corps; was sent to America as ambassador, where he remained from 1882 to 1887; became a member of the national council and then the federal council (the Swiss government), and in 1894 was elected president of the Confederation. Today, despite his nearly 70 years, he is filling the responsible post of head of the international bureau of telegraphs. During the forty years that he has served his country he has brought about many reforms, notably in the army and the educational system. Indeed, since his return to Switzerland in 1865, he has been the country's leading reformer.

There are two documents in Col. Frey's possession which he prizes above all his other papers. One is his nomination as president of Switzerland, the other is a yellow piece of parchment, and on it one may read:

"The President of the United States of America:

"To all who shall see these presents, greeting: Know ye, that I do hereby confer on Emil Frey, of the United States volunteers, in the service of the United States, by and with the consent of the senate, the rank of major by brevet in said service, to rank as such from the thirteenth day of March, in the year of our Lord one thousand eight hundred and sixty-five, for gallant and meritorious services durin gthe war.

"ANDREW JOHNSON."

These Three 'Big Guns" Were Exiles.

Palma, the other ex-president; Clemenceau, French premier, and Garibaldi were in exile while they were being trained in America for larger work in their respective native lands.

For eighteen years prior to his elevation to the Cuban presidency, Palma ran a school for Cuban boys a short distance from New York city. Clemenceau started out to practice medicine among the members of the French colony in New York city, was not overwhelmed with patients and so eked out his income by teaching French to young women in a school in a Connecticut snburb of the metropolis. He was in this country from 1868 till the downfall of the third empire; then he returned to France, plunged into politics, and after as stormy a political career as ever a man had, is now the "biggest gun," beyond question, in the republic. As all the world knows, Garibaldi spent his four years, from 1850, in the United States, making candles for his friend, Antonio Meucci, on Staten Island, New York. It is rather interesting to note that all three exiles, while in this country, limited their activities to New York city or its environs. Palma's school was at Central Valley, only an hour or so out of the city, and as president of the Cuban junta he naturally was in the city a good deal of the time.

Palma, like Frey, has spent a portion of his life in prison. Clemenceau doubtless escaped imprisonment by obeying the sentence of exile. It was in 1876 that Palma, who had been left extensive plantations by his father, which were subsequently confiscated by the Spaniards, was chosen president of the provisional "republic of Cuba." As soon thereafter as the Spanish could lay hands on him he was arrested and bundled off to Spain, where he passed three years in confinement. On his release he came to the United States, and not long thereafter went to Honduras, where he was made postmaster general of the republic. That part of his life over, he returned to this country and settled in Central Valley, N. Y., where he estaolished his school in the midst of thirty acres of foothills, training the youthful Cubans in American ways and customs. When it was up to Cuba to name its first president, the fact that many of Palma's former pupils were influential in affairs of the island had much to do with his selection for the post.

Palma, at the time of his exile, was about 40; Garibaldi, 43; Clemenceau, only 28. The candlemaker was the only one of the three to become naturalized, though Clemenceau was thinking seriously of foreswearing allegiance to his native land when word of the downfall of Napoleon II reached him, and determined him to go back to France. He had been exiled because, with the youthful fervor that has ever marked his utterances, he had harangued of Napoleon III reached him and deter-

One of this trio of American trained exiles now fills a niche in history as the George Washington of a united Italy; another, as the first head of an island republic. The third will be known to the future, probably as the man who brought about the peaceful separation of church and state in France, despite the fact that nominally 95 per cent of France is Roman Catholic.

Two Poor Boys Who Were Knighted.

Henry M. Stanley, whose place in history is the unique one of opener of Africa to civilization, came to this country as a cabin boy on a schooner bound for New Orleans. He was then 15, at which age Thomas Lipton threw up his job as errand boy to a Glasgow stationer, at 60 cents a week, and took steerage passage for the new world, he, like Stanley before him, hoping to carve out a fortune here. Stanley, or rather John Rowlands, fresh from a Welsh workhouse, on landing in New Orleans, became attached to a merchant named Henry M. Stanley, took his patron's name, and lived with him till his death. Then, Mr. Stanley having died intestate, the young Welshman was face to face with the sting of poverty once more, and until the Civil war broke out was busy scurrying around trying to get enough to feed, clothe and shelter his body. But from the day the bugle sounded to battle, until a short time before his marriage, in 1890, to the much-sought after beautiful Dorothy Tennant, what with fighting, first on the Confederate side, then on the Northern, reporting war in Abyssinia and rebellion in Spain, and mapping Africa, he led as adventurous a life as fell to the boldest conqu'stadore of Spain. True, he had not taken out a British certificate of naturalization when he made his African discovereies, and was hailed as an American at the time. Nevertheless, the latter day world has preferred to look upon him as a "big gun" of Great Britain, for it was she who knighted him, loaded him with various decorations and honors, and seated him in her national legislative body.

Lipton, on the other hand, has never been looked upon as anything other than British. Landing in New York shortly after the close of the Civil war, and with only a little money in his pocket—what he had managed to save out of that munificent stipend of 60 cents a week—he began drifting about in search of work, eventually finding it on a rice plantation in South Carolina. Here he was so poor that he had to sleep in the fields with the negro laborers, and he never reecived any money until after the crops were gathered in the fall, when the hands were paid off. What he got then was barely enough to keep soul and body together, the climate, luckily, calling for practically no expenditure for clothing.

Thomas Lipton stood this gruelling existence for two years; then he lit out and stoked his way on a steamship from Charleston to New York. During the two years he then spent in the metropolis he put his hand to any task that offered itself. He was a mighty happy young Britisher when one day he discovered that at last he had saved enough money to take him back to Scotland, and it was not long thereafter that his father was welcoming with open arms the boy who five years before had taken French leave from his humble home in Glasgow..

When the father, a short time after his son's return, set him up in business in a little beacon and grocery shop with the savings of a lifetime, about $400, the young man straightway began to put into practice some of the business methods he had discovered to be so eminently successful in America. This is Sir Thomas Lipton's own testimony, and he attributes all his monetary success to the business lessons he learned while a member of the "submerged tenth" of this country. His career as a captain of industry, international sportsman and friend of royalty is too well known to be repeated here.

Sir Gilbert Parker Trained in Canada.

Sir Gilbert Parker, who also gratefully acknowledges his debt to the training he received in the New World, passed his formative years not in this country, but just beyond its borders, in Ontario.

Unlike Lipton, he was born on this side of the water, at Quebec, forty-five years ago last November. He was one of ten children, his father being a British army captain, and the youngster spent the first few years of his life in the officers' quarters of the Quebec artillery barracks. Later on, the father retired to the town of Camden, Ontario, where he was a squire. When Gilbert was about 9 the family, having met with financial reverses, went to Western Ontario to live on a farm, about the only earthly possession left to them.

Horatio Gilbert (first name for the great Nelson) was sent to school meantime, the family hoping that he would eventually enter the Church of England. When he was about 13 he decided that it was high time for him to help support himself, especially as his father had plenty of other mouths to fill, and he secured employment as a doctor's dispensary assistant. He not only helped with the pills and medicine, but also attended his employer when he performed operations. Betimes he studied medicine and surgery, but at the end of two years had become so disgusted with the sight of

FROM THE MINES AND THE SMELTERS

AT THE LAKE COPPER MINES

Light Fall of Snow Enables Surface Work to be Done Cheaply---Development at the King Philip and Winona.

Houghton, Mich., Jan. 11.—(Special to The Herald.)—All the Lake Superior copper mines are working under advantageous natural conditions because of the favorable winter weather. Scarcely two feet of snow has fallen, which is almost unheard of for this time of year in the Copper country. The importance of this to properties having much surface work is incalculable. The cost of handling snow is generally so heavy that frequently such surface work as can be postponed until spring is allowed to stand over. But under conditions here this winter the work can be done almost as cheaply as in summer.

King Philip, controlled by the St. Mary's Mineral Land company, is down to the seventh level in its No. 1 shaft. The plat there has been finished and sinking will be resumed within a few days. All shafts on this lode are to be sunk in the foot wall and crosscuts will be driven to the lode. By this method the entire lode can be extracted, whereas by sinking the shaft in the lode it is necessary to leave upward of forty feet on each side of the shaft for supporting pillars. This means a heavy loss because the shafts are generally put down, if possible, in the richest territory.

Cross-cuts have been driven from the King Philip's No. 1 shaft at the fifth and sixth levels. That at the fifth level encountered the lode some time ago after driving 165 feet. The showing was most satisfactory, even exceeding expectations. The crosscut at the sixth level will soon be in the lode. A crosscut at the seventh level will be started as soon as the sinking is thoroughly under way again.

No crosscut is to be driven above the fifth level, the plan being to win the copper above by raises. The height to which it will be possible to raise is problematical, as the surface of the rock is very uneven and much caution must be used lest the overburden should be encountered, followed by a run into the workings of sand, or water, which is even much worse, because the sand would wedge and eventually stop while the water would continue indefinitely as an expensive trouble.

King Philip's No. 2 shaft is down 137 feet and it will be a number of months before crosscuts are opened. This shaft is over half a mile south of No. 1, the ravine of the Sleeping river lying between them.

King Philip's compressor building is completed and the machinery is on the ground. It is of Nordberg type and will be capable of furnishing air for sixty drills. The plant is on the bank of the Sleeping river, midway between the two shafts and at a scat of water supply which will feed the boilers and leave an abundance for other purposes. A battery of three Parker boilers is to be installed.

The railroad spur from the Copper Range tracks has been extended from Winona No. 3 shaft on past Winona No. 4 shaft and King Philip's No. 1 and No. 2 shafts to the compressor plant on the Sleeping river. The underground levels of the King Philip are laid off on the same horizontal planes as the corresponding levels of the Winona mine, under the same management, adjoining on the north, and whose surface averages about sixty feet higher than that of the King Philip.

A group of twenty-two houses for employes has been completed, thus enabling the management to secure the best of labor because of the ability to accommodate the men and their families.

The hoisting plant at King Philip No. 1 is capable of sinking to a depth of 1,000 feet. It is evidently the plan of the management to push the work to a normal producing stage as rapidly as possible, and with the prospects of reaching the tenth level by spring, it will not be long before added hoisting facilities must be considered. Production in a small way is to start soon, and for that purpose a rock crusher is being installed at No. 1 shaft. With railroad facilities already provided it will be a simple matter to ship the rock as soon as ground is developed in the mine. The King Philip is working an average of five drills.

Winona, controlled by the St. Mary's Mineral Land company, is active in No. 4 shaft, which will handle all territory to the southern limit of the property, adjoining King Philip, and in No. 3 shaft which will handle all ground to the north that has been demonstrated to have workable value. Northward from this zene, in the territory explored by No. 1

NORTH BUTTE IN GOOD SHAPE

Ores Now Being Taken Out Are of Best Grade That Company Has Ever Produced—Butte & Superior Making Good Progress—Butte-Ballaklava's Recent Strike.

Butte, Mont., Jan. 11.—The fact that the North Butte Copper company has resumed operations and is having its ores, to the extent of 300 tons daily, treated at the Butte Reduction works, owned by W. A. Clark, should dissipate to a large extent the doubtful speculations that have been circulated concerning the conditions of the property. By persons who apparently have nothing in view, except the bearing of the rock, it has been widely stated that North Butte ores have gradually, for many months, become lower and lower in grade. Nothing is further from the fact. There is very good authority for the statement the ores now being taken from the North Butte veins are of better grade than ever before in the history of the property. Development work is steadily going on, and ore bodies carrying from 8 to 10 per cent for the first-class ores, and 4 per cent for the second class are being opened up.

At this time the company is sending 300 tons of high grade ore to the Butte Reduction works, and as soon as facilities for receiving the ore have been increased, shipments will be increased, though not to the full capacity of the North Butte mines. At the present time the Clark smelter has only sufficient capacity to unload one or two cars at its bins, for the reason that the ores from the Original and West Stewart mines have been carried to the smelter by two electrically propelled cars. Preparations are being made, however, for an increase in bin capacity, so that a trainload of North Butte ores may be received and unloaded at one time. Other arrangements are also under consideration, and with favorable accomplishment, it may result that the North Butte will send more than 1,000 tons a day to the Butte Reduction works.

Referring again to copper percentage in the North Butte ores, it may be stated that during all of the time of curtailment, which has been for the past four months, the smelter returns from the North Butte ores have been at least half profit to the mining company. This is strongly refutatory to the statements recently published that the North Butte company could not produce copper under 13 cents a pound.

The North Butte Copper company was never in better physical condition than it is at the present time, and if the copper market warranted it could produce a greater quantity of high grade ore than ever before, and its dividend-paying capacity would be greater in proportion. The company still has the richest ores in the camp and is opening up its rich Edith May and Jessie veins to such an extent that, when consumers again come into the market it will have greater stoping ground available than ever before in its history.

Twelve feet of ore, averaging eighty ounces of silver to the ton, and 1½ per cent copper in the face of the drift, on the 500-foot level, is the good news that is going out to the stockholders of the Butte & Superior Copper company. The width of the vein is not known, for the reason that neither wall has yet been found. It is estimated, however, that the width of the vein extends about 470 feet. The ore in the roof of the drift is of very excellent character, and the stoping possibilities are phenomenal. On the 400-fot level the company is also developing good ore bodies, having a vein north of the shaft nearly eighty feet in width. This vein is being drifted on toward the west, and is showing up some very fine values. On both the 400 and 500-foot levels immense bodies of ore are being blocked out, and it only remains for the smelters to resume the treatment of custom ores to place the Butte & Superior company on a self-sustaining basis. Ore at the rate of fifteen tons a day is now being hoisted, and within two weeks the output will be incerased to at least fifty tons, the ore averaging about eighty ounces to the ton. Some of the high grade, on the 500-foot level, taken from the face of the drift, runs as high as 400 and 500 ounces to the ton, and carries about 1½ per cent copper. There are also some gold values. Several large bodies of ore already have been blocked out.

The Butte-Balaklava Copper company has cut into the Edith May vein from the 510-foot level of the original shaft on its property, which is located directly east and adjoining the properties of the North Butte Mining company. The vein shows a width of twenty-eight and a half feet between the walls, which are well defined. The crosscut, which is being run north, has also intersected the hanging wall of the Old Joe vein, showing copper and silver values. The assays from picked samples show from 18 to 19 per cent copper, thirty ounces of silver and $1.20 in gold to the ton. The average of the ore at the intersection of the crosscut and the vein gives returns of from 12 to 15 per cent copper, 17.5 ounces of silver and $1.20 in gold. It is the intention of the company to drift both ways on the vein, and the west drift will be carried into the new shaft, which is being sunk about 500 feet west of the old one. The new shaft is now down 300 feet, and it is intended to sink it to a depth of at least 1,500 feet, and crosscuts will be run every 100 feet below the 500-foot level, to intersect all of the five veins

(Continued on page 17. first column.)

OUTPUT OF THE SHANNON

Last Month Approached High Record For the Year Made in October---Production For 1907 Was 15,594,000 Pounds.

Clifton, Ariz., Jan. 11.—The output of the Shannon for December approached the high record for the year made in October and brings the total output for 1907 up to 14,594,000 pounds against 12,943,000 pounds in 1906. It is expected that after the completion of certain improvements the Shannon will be able to turn out 3,000,000 pounds of copper a month. The company during the past year of operation has taken care that operations shall not be interrupted through floods and other such disasters, as was the case last year, and has laid in an ample fuel supply. The excellent condition of the treasury has also enabled the company to go ahead with considerable development work in the mining end which will look ultimately toward a much enlarged production of ore.

The Colorado mine, which was bought for the property some time ago, has proved a big winner, and the outlook is excellent there. New methods of mining have also been installed which will give the company much better results, in the opinion of all who have seen the very effective work that Manager Bennie has been doing at the property.

Shannon during past three months has proven the truth of the oft-made assertion that when there was need for it the price of copper would be brought to a normal level. When things do start up again, the New England & Clifton, which has completed its tramway to the Shannon smelters, will be again a good-sized copper shipper to Shannon, and another property which is owned by Boston parties, many of them connected with the Calumet & Hecla, but not owned by the property, as has been erroneously stated, will likewise resume operations.

DIVIDENDS BY UTAH MINES

In 1907 Reached $8,000,000, Being $2,165,000 Greater Than in 1906---Bingham-Butte Opening Fine Body of Galena Ore.

Salt Lake, Utah, Jan. 11.—Utah mines have paid in dividends during 1907 the sum of $8,000,755, which is $2,165,650 in excess of the dividend payments during 1906. The payments were made as follows:

Beck Tunnel Consolidated	$340,000
Bingham-New Haven	45,300
Bullion-Beck and Champion	30,003
Colorado Mining company	620,000
Columbus Consolidated	212,000
Century Gold Mining	6,000
Daly-Judge	225,000
Daly West	378,000
Eureka Hill (estimated)	100,000
Gemini	100,000
Grand Central	152,500
Horn Silver	60,000
Lower Mammoth	57,000
Mammoth	60,000
May Day	64,000
Newhouse Mines and Smelters	300,000
Swansea	5,000
Silver King Coalition	425,000
Uncle Sam Consolidated	70,000
Utah Mine company	36,000
United States Mining company	2,564,435
Utah Consolidated	2,100,000
Victoria	30,000
West Mountain Placer	5,000
Yankee Consolidated	5,000
Total	$8,000,755
Paid during 1906	5,165,650
Increase for 1907	$2,835,105

While the United States company's smelter is shut down by the court its Centennial-Eureka mine in Tintic is making good the loss. Last week what is said to be one of the richest ore chutes ever opened in the mine was struck on the 1,400 foot level. Company officers here decline to discuss the strike, but there is a story current that the mine has a car of ore in the market whose value is $201,000.

The Bingham-Butte at Bingham is opening a fine body of galena ore. The tunnel on the property is now 150 feet in the ore body. Forty feet back from the present face of the tunnel the first crosscut was started a few days ago and is now in sixteen feet, all the way in ore. How much wider the ledge is cannot be stated and no effort will be made to ascertain until the tunnel has been extended seventy feet to get directly under the winze that was sunk in ore for 100 feet below the old tunnel workings, 300 feet vertically above the new tunnel.

From the Cedar mine in Beaver county a strike is reported. At a depth of 465 feet the main operating shafts has dropped into strong fissure filled with sand carbonate ore. This is believed to be an entirely new vein from anything developed in the mine. The ore runs high in silver and lead besides carrying a small amount in gold. The drift from the 400 station in the shaft is now showing some fine stringers of high grade ore and no doubt is expressed that there are bodies of the ore ahead.

Conditions continue to improve at the First National property at Park City, which is being developed by a syndicate of local men. The drift from the 200-foot level is now in about 80 feet and a product carrying a good percentage in silver and lead is being worked through. This property is north of the mines in operation and in a section that hitherto has received little attention.

BUSY IN THE CHIRICAHUAS

District Expected to Show Much Activity This Year---Manhattan Working Good Force---Sullivan Has Taken Out Fine Ore.

Douglas, Ariz., Jan. 11.—A Dispatch representative recently paid a visit to the Chiricahuas, where work in some sections is going on steadily developing properties, and others doing assessment work for the year.

At the Savage property a smelter is seen, and a number of tunnels where this company has been at fork for the past three years. They are working a few men, and will add a good force right after the first of the year. The May property is just beyond the Savage, and is turning out some good shipping ore, several shipments having already been made to El Paso. The Cochise property is the next to be seen on the way, where there is a fine concentrating plant. This has turned out much fine ore, and is idle now on account of litigation, but which it is expected will be cleared up soon. The Scanlon property is near this, where a fine body of ore has recently been encountered.

The Manhattan Development company is working a good force of men on their property, some three miles up the valley, after turning west. This is one of the properties owned by Minnesota people, consisting of Messrs. Thomas F. Cole, Rice, Crosby and associates. This is one of the promising properties of the district. No work is being done at present on the Chiricahua mining property further than a few men.

At the Badger-Hall property a force of three shifts are driving a 200-foot tunnel, having made 170 feet. They have been in fine ore for twelve feet, but do not expect to strike the main ledge for another ten feet. There are at least three cars of shipping ore on the dump at present. This is another of the Bisbee-Sonora company's properties.

The Sullivan group, next to the Badger-Hall, has taken out some of the best ore in the district. This is one of the promising districts of the Southwest, and will show much activity during the present year.

ARIZONA LEADER IN COPPER

Territory Takes First Place in Output and the Warren District is Greatest Producing Section of the Territory—Promising Conditions Disclosed at the Superior & Pittsburg.

Bisbee, Ariz., Jan. 11.—With the closing of the old year the territory of Arizona took its place as the leader of the world in the production of copper, having in spite of numerous obstacles held its production at practically the same figures as in 1906, while the other two great copper states, Montana and Michigan saw a material decline to their totals. The outlook for the new year is excellent and with a return of the metal to a normal price it would not be surprising to see the territory still leading at the end of the copper year, even though the Montana mines are running at their full capacity.

From corrected figures it is learned that the total copper production of the United States during 1907 was 895,000,000 pounds, showing a material decrease from the figures of 1906, owing to the slump in the price of the metal and the consequent policy of retrenchment adopted by all of the producers.

Following is a comparison of the production of the four principal copper producing sections of the United States during 1906 and 1907:

Arizona	262,566,103	260,000,000
Michigan	229,695,730	234,000,000
Montana	244,701,252	227,000,000
Utah	50 329,119	79,000,000

The Warren district, the third largest district in the country and the largest in Arizona, made a record blister-copper production of about 131,000,000 pounds in 1906, or about 31,000,000 pounds in excess of the production of 1905. What the district's production for 1907 was can only be estimated. This output, which would have been even larger but for the failure of the fuel supply in December, was derived almost entirely from the Copper Queen, Calumet & Arizona, Superior & Pittsburg and Shattuck-Arizona mines.

If total production since discovery of the district is used as the basis of comparison, Bisbee is undoubtedly the richest of the great copper camps of the country. The ore mined to date is estimated to have yielded 8 per cent copper, and while the yield in recent years has fallen somewhat below that average, it was above 6 per cent in 1906.

During the past week developing has been going on steadily pushing work on the drifts which will form a big item in the new system of hoisting ore, while the Superior & Pittsburg company is devoting attention to the handling of the water flow in various portions of the property.

At the Briggs shaft of the Superior & Pittsburg a very promising condition has recently been disclosed. The excellent grade has been run into, and the management is more than ever satisfied that this will eventually be a very important portion of their possessions. The water in the Briggs is being steadily lowered and the flow has diminished with each succeeding month until now it amounts to no more than can be expected from any new mine of that field. The shaft has been draining a very large area, as proved by the lowering of water in all the shafts for thousands of feet distant, some of the latter showing no water since the Briggs started in with its big pumps. The Junction shaft is helping with the labor of freeing the basin of its water, and each succeeding level does much to relieve the condition.

Production is also making a good showing in ore, and its bottom level will undoubtedly be the best thus far opened.

At the Hoatson the new level is being pushed fast, and much to gratify has already been shown. This should prove one of the richest portions of Superior & Pittsburg, judging from what is being done right alongside by the Copper Queen people, which here has its greatest mine.

At the Cole shaft the showing of ore never was so good as now, and here the new levels is the best yet opened. The task of developing this has only been fairly started and big things are looked for.

RICH POCKET CAUGHT BANK

California Institution Loaned $793,072 on the Bonanza King's $80,000 Shoot---Handful Showed Long Streaks of Gold Even Before Washing.

San Francisco, Jan. 11.—It has developed that the only ore taken out of the Bonanza King mine, on which the California Safe Deposit & Trust company loaned $793,072, and which is one of the chief assets of that institution, was used to pay the original cost of the mine, which was $50,000.

The mine is situated in Trinity county, near Trinity Center, and was originally the property of Wbiam Vollmers and several other Trinity county business men. Vollmers worked it for twelve years and drove a tunnel in about 500 feet. The drift ran along a vein of quartz that was of doubtful milling value, and the vein frequently pinched out, coming in again as the tunnel was driven. At length an eight-foot vein was uncovered and the ore assayed $29.62 a ton.

It was about this time that James Treadwell became interested in the property and he made an offer for it. Vollmers was not satisfied with the offer, but agreed to sell for $50,000. Treadwell accepted at once and an agreement was drawn up whereby the mine was to be paid for in one year, Treadwell in the meantime doing exploration work. If the mine was not paid for in a year it was to go back to Vollmers, together with the new work. Nor was Treadwell to remove any ore until the $50,000 had been paid.

The exploration work was delayed for some time, but when it started the first shot uncovered a pocket that extended very little beyond the face of the tunnel, but it held $80,000 in gold. Treadwell then asked permission to remove the ore, but this was denied until the mine was paid for. A few days later Vollmers received a check for $50,000, and his intersest in the property ceased. Samples of this ore were sent to this city and they created a sensation. A handful of it showed long streaks of gold even before washing. There was no difficulty in borrowing money on such a property and Treadwell proceeded to borrow to the extent of his capacity. But no more pockets showed up and the ore beyond assayed only about $20 a ton.

MINING IN THE BLACK HILLS

Charles Morgan Has Sold His Controlling Interest in the Holy Terror Mine to United Mines Company of New York.

Keystone, S. D., Jan. 11.—Following the announcement that the Keystone-Holy Terror group of mines would resume shortly comes the news that Charles Morgan, owner of the Holy Terror, has sold all his interest in the property to the United Mines company of New York, which has held a lease on the ground. Mr. Morgan, whose home is at East Orange, N. J., purchased a controlling interest in the Holy Terror nearly two years ago for something like $400,000 and since than has expended more than $135,000 in improvements to the property. The price of the present sale is said to be nearly $500,000. The Holy Terror has the second deepest shaft in the Black Hills, 1,200 feet, the Homestake mine having the deepest.

Dr. Newton M. Wade of St. Paul, formerly of Lead, has spent a few days in the hills examining the Mariposa property on Slate Creek, near Mystic, of which he is one of the principal owners. The company has encountered what is believed to be the mother lode, after several years of expensive development work, and is now engaged in uncovering some high grade ore.

Work is now well under way on the new treatment plants for the King Oscar and Eagle Mountain properties, owned by Col. A. J. Clark.

Another ledge of free milling gold ore has been discovered in this section, this time the find being recorded on the Lucky Boy property, where for several weeks past William Girard has had a force of men at work. The rock showed a string of colors in the pan, but the assays have not been made public and the development work is insufficient to estimate the extent of the strike.

The property of the Pluma Mining company near Deadwood has been sold to Eastern men. The Pluma is one of the best known and best developed properties in this section, lying close to the Homestake ground, but for some time past has been operated in desultory fashion.

LAKE SUPERIOR IRON MINES

Great Bargain Obtained by Corrigan, McKinney & Co., When They Secured Lease of Stevenson Mine—No Suspension of Work at Any Properties at Ishpeming and Negaunee.

One of the most interesting mines on the Mesaba range, and one that has been making history the past half a dozen years, is Corrigan, McKinney & Co.'s big Stevenson property, six miles west of Hibbing. Opened in 1900, and producing only 56,000 tons that season, it has sent out to date a total of 8,353,650 tons of ore. Its shipments in 1907 amounted to 1,143,000 tons. The Stevenson did not enter the 1,000,000-ton class until 1902—its production in 1901 was 606,270 tons—and since that time there has not been a season that its output has not been represented by six figures. It has averaged annually for the past seven years an outgo of 1,182,378 tons, and for the past six years an outgo of 1,281,230 tons. The banner record was achieved in 1904, when with shipments of 1,652,020 tons it led all the mines of the Lake Superior region.

In these days of high royalties, when as much as a dollar a ton is demanded by fee owners for the ore in their lands, it is hard to understand how Corrigan, McKinney & Co. ever induced so astute a man as James J. Hill to part with the Stevenson on the terms agreed upon. Operating the mine under lease, the big Cleveland concern pays for its ore only 12½ cents a ton, and it is required that only 500,000 tons be taken out yearly. This royalty is one of the very lowest ever recorded in the Lake Superior region. However, the Great Northern magnate had in view only the matter of procuring tonnage for his railroad. This was eight years ago, when much less ore was being produced than now, and when, with competition keen, there was a veritable scramble for traffic. It is true that Corrigan, McKinney & Co. pay 80 cents a ton for the transportation of the Stevenson ore to the Allouez docks—this amounting to approximately $6,750,000 since shipments were started in 1900—but this would be the rate whatever the royalty, since it applies from every mine on every one of the three railroads serving the range. There is no question that Corrigan, McKinney & Co. picked up by far the best bargain of their mining career when they negotiated the lease that gave them control of the Stevenson.

Aside from the remarkably low royalty basis under which it is operated, the Stevenson is unique in various respects. It is the only mine in the Lake Superior region that has shipped ore to the Westat least ore in any great quantity—this being in 1904, when a large proportion of the season's product was delivered to the furnaces of the Colorado Fuel & Iron company at Pueblo, Colo. The Stevenson is operated both as an underground property and as an open pit. The pit is peculiar in that it is of unusually narrow width, length considered, and it is proportionately deeper than many Mesaba open cuts. The shape is much like a slender hand, on the thumb of which the Drake & Stratton Stripping company is removing some 2,000,000 cubic yards of overburden. The Stevenson is unique in the respect that there has been devised by its engineers a suspension bridge over which the miners may cross the pit with safety and with the minimum amount of time. The shaft of the underground workings being located on one side of the deep open cut, with the mining settlement on the other, a walk of nearly two miles around the end of the pit or a dangerous trip of several hundred feet across the veritable gorge have been necessary. Hence the idea of an aerial passageway with a span of upwards of 500 feet.

The fact that practically all the ore in stock was shipped from the mines during the recent season of navigation has undoubtedly been a fortunate circumstance for the Marquette iron range. As it is there have been no suspensions at any of the properties at Ishpeming and Negaunee, in which fields the great bulk of the ore is produced, and all told the services of scarcely more than 600 men have been dispensed with. It is the consensus of opinion that the shipments from the entire Lake Superior region will show a considerable falling off during the present year, still there is reason to believe that even should this cut be as much as 25 per cent the Marquette range will be called upon for its usual tonnage. In this event the working forces will be materially enlarged in the spring. The mines at both Ishpeming and Negaunee are in better condition than ever before. They are prepared to send out a greater tonnage than at any previous time in their history of sixty years. The Steel corporation in particular has made extensive improvements at its various properties. The Regent group has been provided with new buildings and machinery at a cost of upwards of $100,000, and the program of betterments is not yet completed. Important improvements are also under way at the Steel corporation's Section 21 mine. This property has been the least active of all the company's producers in the district during the year recently closed, but there has been an increase in working forces latterly and about 100 men are now employed. A "dry" of modern construction and equipment has been erected, and a boiler house is in course of building. Much of the big stockpile on hand when mining operations were suspended last spring was shipped during the summer season. The Cleveland Cliffs Iron company has likewise expended money freely in improvements at its Marquette range mines. The more important new work has been that which the Mass property, but a goodly sum has also been spent at the Jackson, the first mine to be developed in the Lake Superior region.

After being inactive for a score of years, the old-time Baron mine at Humboldt, at the western end of the Marquette range, will soon be producing ore again. It is being reopened by the Bretlung interests of Marquette. Operations were commenced early last fall, since which time complete equipment of machinery has been installed. A few days more will suffice to free the entire underground workings from water, and with the new shafthouse in readiness a month hence it will be possible to begin hoisting ore. The appearance of the mine is fully up to the expectations of the management. There is considerable ore in sight in the stopes and it seems to be of good quality. Practically no timbering will be necessary. During the years the mine was in operation it was the principal property at Humboldt and at one time in the neighborhood of 400 men were employed. The property produced a total of 725,000 tons of ore. The Breitung interests are planning to do considerable exploratory work at other Humboldt properties during the present year.

Operations have been resumed at the Saginaw mine, a small property at Norway, Menominee range. The recent suspension there appears to have been due to a misunderstanding with the Algoma Steel company of Sault Ste. Marie, Ont., which has contracted for the entire output of the mine. Pickands, Mather &

(Continued on page 17. first column.)

IN COEUR D'ALENE DISTRICT

Seven Companies Paid $5,691,000 in Dividends Last Year, Despite the Curtailment of the Output in November and December.

Spokane, Wash., Jan. 11.—Despite the fact that several of the big mines were closed or curtailed their output in November and December, because of the drop in silver, lead and copper, seven companies in the Coeur d'Alene district, east of Spokane, paid $5,691,000 in dividends in 1907, or $31,000 more than in 1906, when the mines were worked to their full capacity. Under the present owners the properties have now paid $21,017,500 in dividends and under previous owners $11,501,307, making a total disbursement of $32,518,807. The total amounts paid in 1906 and 1907 follow:

Companies.	1906.	1907.
Bunker Hill & Sullivan	$2,340,000	$1,480,000
Federal M. & S. company	2,040,000	1,710,000
Hercules (estimated)	720,000	1,052,000
Hecla	450,000	520,000
Snowstorm	90,000	360,000
Success	20,000	630,000
Monitor		9,000
Total	$5,660,000	$5,691,000

The total shipments for 1907 were 344,000 tons, of which 286,000 was lead-silver ore and concentrates from the big lead producers and the rest in copper ore from the Snowstorm and Monitor and shipments fro mthe smaller copper producers. The value of the lead shipments is estimated at $14,200,000, containing silver values of $4,250,000. The copper ore shipped is valued at $1,000,000, containing silver and gold values to the extent of $200,000, making a total shipped fro mthe district of almost 20,000,000. The production was as follows: Lead, 283,000,000 pounds; silver, 5,000,000 ounces; copper, 5,000,000 pounds; gold, 5,000 ounces.

The mines of this district have shown a rapid increase of tonnage production, with a corresponding increase of net earnings since 1906. In 1901 148,896 tons of crude ore and concentrates were shipped to the various smelters; in 1902 the shipments were 160,310 tons; for 1903, 200,596 tons; for 1904, 274,000 tons; for 1905, 316,000 tons; for 1906, 344,000 tons, and the same amount in 1907.

Had it not been for the decline in the metal market during the closing months of the last year, the tonnage of ore shipped during 1907 would have surpassed that of 1906, but the closing of the Morning mine at Mullan, the second biggest lead producer in the district, the Snowstorm mine, the Success and several small mines, cut the production.

The value of the Coeur d'Alene lead-silver ores and concentrates shipped to the smelters during 1907, guaged by an average of the New York metal prices, was $64.95 a ton, while Snowstorm copper ore averaged $20 a ton, shipped direct from the mine without concentration.

CRIPPLE CREEK DISTRICT

Cut in Treatment Charges By United States Reduction and Refining Company---Leases Will Restart and Shipping be Stimulated.

Colorado Springs, Jan. 11.—The United States Reduction & Refining company of New York and Colorado Springs, operating important mills at Colorado City and Florence on Cripple Creek ores, has made a reduction in treatment charges of 75 cents to $2 per ton, according to grade of ore. The reduction is the biggest in the history of the camp and will doubtless lead to an interesting rate war. A cut in regular rates was made Oct. 15 in order to move the low grade ores. The present rate in comparison with that for Oct. 15 is as follows:

Ore less than	Oct. 15.	Now.
½ oz. in gold, ton	$5.25	$4.50
½ oz. to ¾ oz. in gold, ton	5.75	5.00
¾ oz. to 1 oz. in gold, ton	6.50	5.50
1 oz. to 1¼ oz. in gold, ton	7.25	6.00
1¼ oz. to 1½ oz. in gold, ton	7.50	6.50
1½ oz. to 2 oz. in gold, ton	8.50	7.00
2 oz. to 3 oz. in gold, ton	9.50	8.00
3 oz. to 5 oz. in gold, ton	9.50	8.50

The rate is effective f. o. b. cars at Cripple Creek district, which means that the reduction company pays the freight charges. On the higher grades of ore the company reserves the right to ship to the plants of the American Smelting & Refining company at Denver and Pueblo. The treatment charges for these grades of ore have been reduced as follows.

	Oct. 15.	Now.
Ore 5 ounces to 7½ ounces	$7.50	$5.50
Ore 7½ ounces to 10 ounces	8.50	6.50
Ore 10 ounces to 12½ ounces	9.50	7.50

Notices of the reduction were sent to all mine owners on the 26th ult., when the new rate went into effect.

The Golden Cycle mill management say they will not meet the cut. General Manager Harvey McGarry says: "Our competitors have not met our rate on $5 ore and have made exactly the same price on $10 ore. They have cut under our figures from 20 to 25 cents a ton on all other grades, but we have enough contracts to keep us running at full capacity for five years and our customers say they will stay with us."

The Golden Cycle mill is running on 900 tons daily capacity, or about the record which the reduction company's three mills made before the Golden Cycle first started in July last.

The competition is lively enough to assure lowest treatment charges on the cheap ores of the camp. A vast tonnage will be treated during 1908 as a result.

The reduced rates will restart a number of leases and stimulate those now shipping. The year 1908 will doubtless excel all others in tonnage, at least since 1900.

PROGRESS AND AVERAGES.

"The progress of the nation," said Mr. Bryan in one of his recent addresses, "will not be determined by the advance made by the favored few, but by the progress of the masses."

This is an eternal truth, which has been too much covered up by glittering boasts of national prosperity and national progress.

To say that a nation's wealth amounts to $100,000,000,000, for instance, sounds well enough, but there are many other things one would wish to know before judging of the progress attained by that nation. To say nothing of education, morality, political freedom and the average character of the inhabitants, the mere matter of material prosperity is not determined until we know who owns the $100,000,000,000.

If fifty men own two-thirds of it, and 200 men own half the balance, and 2,000 men own most of the rest, there isn't much left for the masses, and the nation of which this is approximately true is a poor nation.

If the consideration of distribution were to be avoided, and a nation's prosperity to be judged by its mere mass of wealth, it would make no difference whether each inhabitant owned an equal share of the wealth, or whether one man owned it all.

The progress of the nation is not determined by the advance made by the favored few, as Mr. Bryan says, but by the progress of the masses.

If a few were enlightened and educated, and ruled by virtue of this advanced condition, while the toiling millions submitted to this rule by virtue of their ignorance, it would be a benighted nation, no matter how wise and learned the few rulers might be. The condition of the masses is what determines the condition of the nation.

In this country the individual average of wealth is high, but averages are deceptive. So would the individual average of the nation whose hundred billions one man owned be high. Mr. Bullion, owning a hundred billions, and 49,999,999 other inhabitants, owning nothing, make an average of $2,000 for each inhabitant.

Still, even dividing the balance after the "favored few" in this country have taken out their share, there is a good average left for the masses. The only trouble about that is that the segregated wealth of the "favored few," so long as they continue to be favored by special legislation and by antiquated theories of law which holds property rights dearer than the rights of man, tends inevitably to increase at the expense of the scattered and loosely held averages of the masses.

Ample prosperity is here, temporary set-backs of panic notwithstanding. The problem is one of distribution. It can't be right to let the "favored few" continue to gather in more and more, when they already have more than they could possibly use, when the masses have less than their actual needs, and when the unquestionable tendency is to increase the averages of the few at the expense of the averages of the many. With the "favored few" playing the best of teamwork, and the masses playing at cross purposes, the attraction of congested wealth for scattered wealth is as certain as the law of gravitation.

WOMEN AND LEAP YEAR.

Now that the usual burst of "leap year" jokes which follows the inauguration of each year of our Lord which is divisible by four or 400 is over, it is worth while asking whether, as a matter of fact, any woman ever did avail herself of this playful fancy of the people as to these particular years, and command an obedient man to marry her?

History makes no records of such matters. So far as its pages show, the business of "popping the question" has continued uninterruptedly in the hands of the men, whether the year is divisible for four or not.

If such reversal of the ordinary custom occurs, the parties thereto would naturally keep rather still about it. The enterprising miss who takes advantage of leap year to change herself to a Mrs. would probably prefer that the public should not discuss her enterprise, so she keeps it quiet. The man who is the beneficiary—or victim—of the enterprise is equally averse to letting the public in on the secret of how he was tamed and brought into camp. Therefore, leap year and its storied privilege of feminine proposal have been mostly matters for popular amusement and ancient humor rather than for practical use, so far as public knowledge goes.

The rule that a woman should compose herself in native modesty and await the interesting suggestion of a man that they wed is one of those rules that exist largely for no better reason than that they always have existed. In the same way, it is generally considered that men ought to do all the voting, and that custom, too, continues because it has continued in the past. Now the fact that a custom has continued for a long time may raise the presumption that it is everlastingly correct and inviolable, but it does not settle it by a long way. Woman is showing signs of restlessness. She is becoming more and more a breadwinner, and she is irresistibly crowding her way into paths that used to be marked "For Men Only."

Whether women want to vote or not is still a question. Undoubtedly some of them do, very much. They have been permitted to vote in several states, and thus far no grave calamity has overwhelmed any of these states because of the admission of women to the right of suffrage. Undoubtedly, too, this privilege will be extended. It certainly will be extended if the women really desire it.

But whether these evolutions of woman from a subordinate sphere will be followed by the repeal of the old law that she should wait for her proposals is another question. Indeed, there are men, no doubt arrant rascals all of them, who assert that she has not waited, and that a majority of marriages owe themselves quite as much to the strategy of the wives as to the boldness of the husbands. Thackeray, who knew human nature, said somewhere that any woman, unless she have a positive hump, can acquire a husband. He must have meant something by that. Let all married men think back to the interesting moment out of which flowered their married lives, and by close analysis discover if they can who was to blame for it.

But there is one very awkward objection to permitting women to propose,—which if they are going to do at all they might just as well do every year as every four years,—and that is that the kind of a man the right kind of a woman ought to have would be too polite to refuse, and that it would be taking him at an unfair advantage. Whether it is or is not accomplished in other ways than by direct feminine proposal, there surely ought to be more cunning methods, which feminine ingenuity could easily contrive.

REAL CHARITY.

The truest charity is that which extended by the poor to those poorer than themselves. It is nobler than the charities of the rich because the sacrifice is greater, because the gift comes out of a heart full of appreciation of the needs of the beneficiary, and because the charity is worthily bestowed, which is not always the case with the charity of those who live upon a plane of luxury too far above the sordid depths of poverty to permit a clear perception of the difference between the deserving and the undeserving.

A pathetic instance of this was furnished in Chicago the other day, when at a Van Buren street mission a number of homeless, unemployed men contributed from their pitifully scant funds to aid others more unfortunate than themselves.

Several hundred lodging house inmates were assembled at the mission for afternoon services, the number being undoubtedly increased by the fact that free refreshments were served. All except a few were unemployed laborers in search of employment. Many of them did not even have the price of a night's lodging.

At the close of the services contributions were asked by a teamster, who belonged to the mission society, to help a destitute widow and her six children. The collection that was taken up, mostly in pennies, amounted to over $3, though practically every contributor was himself in need of employment.

But the appeal in behalf of others more unfortunate than themselves was not to be withstood. The subject of this charity, a charity which must be emblazoned in gold on the record books above, is a widow whose husband died two years ago, leaving her with nothing but debts and five children, all of whom had been more or less injured by his drunken abuse. A sixth child was born two months after his death.

The family of seven has been supported ever since by the labor of the oldest girl, aged 16, and the oldest boy, aged 14. The girl has been earning $5 a week and the boy $3. Recently, however, both lost their positions, and have since been unable to find work. The girl has been unable to leave the house to look for a place for a couple of weeks past because of her lack of clothes. For a week or more the family has kept body and soul together with scraps of food which two of the girls, aged 11 and 9, were able to beg at the back doors of houses and restaurants. One of the boys, too young to work, has been unable to go to school because he had no shoes.

Such stories as this afford thought-compelling comparisons when published alongside those of families which spend tens of thousands of dollars on single parties; whose purposeless sons scatter paternal riches to the vultures of the Great White Way of the cities; and whose daughters invest enough in a single garment to keep for months such a family as that whose story drew out the last pennies of the charitable though miserable wanderers of the Chicago mission.

THE CLIFF DWELLERS.

Who were the Cliff Dwellers; the mysterious inhabitants of the lost cities of the plains, whose mummied relics are found in the dry caves of the Southwestern cliffs?

Ethnological investigations, apparently, have gone no further than to show that the Cliff Dwellers, like the Mound Builders, were merely the ancestors of the Indians of today, and that possibly the progenitors of all the native Americans came once upon a time over from Asia by way of Bering straits.

But now comes a writer, Margaret Thomas Coburn, in the Cambrian magazine, who seems to be quite positive that the Cliff Dwellers were Welshmen.

It seems that there is a story, half legend, half history, that some time back in the mists, long before the day of Columbus, or, indeed, before the daring voyages of the Norsemen landed them upon American shores in the tenth and eleventh centuries, a band of Welshmen sailed away into the unknown west and never came back. That of itself is not sufficient evidence that they landed in America and turned Cliff Dwellers, but this authority believes she has more evidence than that.

These Welshmen were druids, and she says that the rock markings of the Cliff Dwellers show clear druidic signs and symbols.

From these and other symbols which are enumerated, this writer reads the story that she tells; namely, that the venturesome Welsh voyaging druids settled down in America and became Cliff Dwellers.

It is very interesting, if not quite patent to those not fully familiar, by virtue of Welsh blood, with Welsh symbolism. It is true that the Welsh have always been very enterprising and venturesome people, and that in this country they took a very prominent part in settlement, revolution and reorganization. Perhaps early members of their race did find America before Columbus made his voyage; it is certain that quite a number of different peoples are suspected of having done so. At any rate, it is ingenious and captivating speculation.

THE MIND AND DISEASE.

A queer thing happened to a bed-ridden invalid in New York the other day. Michael Zuckerman, a paralytic, was lying in his bed, where he had lived for years without being able to stir, when fire broke out in the house.

In the suddenness of the alarm, this helpless paralytic forgot himself. He leaped out of bed, aroused his wife, awoke his two sleeping children and picked them out of their beds, and then dashed down three flights of stairs to the open air and safety.

Pretty good for a paralytic who had been unable to stir for many years. The newspaper reports of the incident state that he seems to be none the worse for his experience.

About the same time another man, named Christian Henry, died in a Brooklyn hospital from imagination. Four years ago a dog bit him, and Henry had been worrying ever since over hydrophobia. He was sure he had it, or that if he hadn't it he was about to get it. In fact, he worried so much over it that he went insane on the subject. Physicians examined him and told him he was mistaken about the hydrophobia, but he said they had overlooked something, and that he, for his part, was quite certain that he did have the dread disease. Finally, he died, frothing at the mouth and writhing in convulsions, with every symptom of hydrophobia. A post mortem examination showed that he was wrong and the doctors were right: he did not have hydrophobia, and never did have it. He died from pure fright at something that did not exist.

Though much charlatanism has grown up about the fact, it is absolutely true that the mind has abundant influence over the body. Physical conditions that will send to bed a man who gives in to them and becomes unduly alarmed over them, will be promptly thrown off by the cheerful energy of another man.

Get above your "symptoms," and don't let them get above you. Let them do that, and they will weigh you down and burden you and make you believe you are a very sick man. Keep them under you, and maintain your belief in your strength and ability to throw off your troubles, mental and physical, and they will not harm you much unless they are, indeed, very serious. It is exactly the same with troubles of other sorts. Troubles that will sink one man, who lets them get on top of him, into a gulf of gloom, will pass harmlessly over another man, who keeps his faith in himself and holds himself superior to trifling annoyances.

PIETY AND CONTENTMENT.

"What America needs more than railroad extension and western irrigation," says the Wall Street Journal, "and low tariff and a bigger wheat crop, and a merchant marine, and a new navy, is a revival of piety, the kind mother and father used to have—piety that counted it good business to stop for daily family prayer before breakfast, right in the middle of the harvest; that quit field work half an hour early Thursday night, so as to get the chores done and go to prayer meeting; that borrowed money to pay the preacher's salary and prayed fervently in secret for the salvation of the rich man who looked with scorn on such unbusinesslike behavior. That's what we need to clean this country of the filth of graft, of greed, petty and big; of worship of fine houses and big lands and high office and grand social functions."

Right; absolutely right. Nothing would do this nation more good than a grand sweep of that simple piety of the fathers.

But yet another thing it needs most sorely, and that is a return to the lost appreciation of simple pleasures and of contentment with the uncomplicated, wholesome and mind-clearing beauties of plain living.

We do not appreciate our pleasures any more for themselves, but only for what they cost. We know nothing of social contact except that surrounded by gorgeousness and luxury; if we can't afford the real thing we must attempt a pitiful imitation of it. We reckon our pleasures by what they cost, and find no contentment in them unless they are expensive; and certainly we find no contentment in them then, because there is always somebody having pleasures a little more expensive, and that makes our poor pleasures leave a bad taste in our mouths.

The modern social affair, instead of being a pleasant commingling of kindred spirits rejoicing in each other's good company and in honest exchange of good-humored conversation, is a mere ghastly gathering of human lay figures designed to set off the costly appointments of the feast. The success of an entertainment is not measured by the pleasure it affords, because it affords little pleasure, but by the footing of the bills. If it cost more than the other fellow's, it is a success; if it cost less, it is a failure.

We are forgetting the truth of the saying quoted by Isaak Walton, "that there be as many miseries beyond riches as on this side of them." Says Walton, that placid and genial spirit, who preached the doctrine of contentment with simple pleasures: "We see but the outside of the rich man's happiness: few consider him to be like the silkworm, that, when she seems to play, is, at the very same time, spinning her own bowels and consuming herself; and this many rich men do, loading themselves with corroding cares, to keep what they have, probably, unconscionably got."

We know that many of our rich men, whom we have fallen into the unhappy habit of emulating, have most "unconscionably got" their riches, and we do wrong to envy and to emulate them. "And yet God deliver us from pinching poverty," continues Philosopher Isaak; "and grant that having a competency, we may be content and thankful."

If we would sit a little longer at the feet of this marvelous Angler, and quit our painful copying of the example of the modern Dives who is "spinning his own bowels and consuming himself," we should be happier and more contented and the world would be a sweeter place of residence. The world needs more piety and more appreciation of simple pleasures, and nowhere is the need greater than in these United States.

HOTEL GOSSIP.

"We were engaged in a game of whist, when a lady, accompanied by a little dog, walked into the smoking car," said a traveling man yesterday at the Lenox, in telling the story of how Fido acted the truly grateful role.

"We were hitting up the Havanas and violating Foster's rules when this lady butts into the party. She nudges one of the bunch on the shoulder and tells him, firm like, that gentlemen do not usually smoke when there is a lady present. The lady was informed that the smoking car was no place for ladies, and that it was made by Mr. Wagner with the express purpose of permitting males to enjoy the luxury of a quiet smoke while destroying mileage tickets.

"This retort, although said in kindness and by way of explanation, seemed to rile the lady, who expressed her opinion of the quartet of bridge players.

"Just as the lady was completing her tirade against smokers in general, in walks a youth with a new meerchaum stuck in his mouth. He was anxious to color the pipe, and was emitting smoke from the white and shining bowl in clouds. He did not escape the eye of the smoke-hater. Immediately she pounced upon him, and in plain, blunt words told him that he was no gentleman, and that if he had any regard for the feelings of the gentler sex he would put out that miniature smokestack.

"The young man informed the lady he had threaded his way from a comfortable seat in the observation car, in fact had left a sweet young thing unchaperoned, to enjoy this smoke, and that under the circumstances he could not see his way clear to lay aside the pipe.

"Then the war started. There was an exchange of words, then the perfect lady seized the young fellow's pipe and threw it through the window. In a spirit of retallation he seized the dog and heaved it through the window after the pipe.

"At the next town, which happened to be a junction point, both parties to the argument alighted, and the lady called the village constable, who was at the station, and began an explanation of her troubles.

"Of course, the young man told his story. They were told that if they insisted upon pressing their troubles they would both have to go before a justice of the peace. The woman was bound to have the young man landed in durance vile, and off they started for the justice.

"Just as they reached the edge of the platform, up came the dog on the run, holding the pipe in his mouth."

* * *

The popularity of John A. Johnson is very high among all classes of voters, and especially among the Scandinavians.

Coming up from Minneapolis the other night a Swede got on the train at Pipestone. He got into a seat with W. E. Normby, who is at the St. Louis. Finally Normby succeeded in getting the taciturn Scandanivian into conversation.

"What candidate do you prefer for president," he asked of his seat companion.

"Yon Yonson," came the unhesitating reply.

"Do you think Mr. Johnson a great man?" asked Mr. Normby.

"I tank him the very bes man in the whole country," answered the man.

"Do you think he is as great a man as Theodore Roosevelt?"

"He ban greater man dan Rosfelt," came the answer.

"Not as great as George Washington, though?"

"Yep; he ban yust as gude."

"As great as Abraham Lincoln?"

"I tank him yust as gude."

Finally Mr. Normby, who, by the way, is a Republican, became somewhat nettled and the duke of Wellington, Julius Ceasar and Alexander alike withered before the image of the governor.

"Do you think him as great as the Lord Almighty?" he asked.

"Yon Yonson is yus a young man yet," replied the Scandinavian.

* * *

"Secretary Cortelyou is a very silent man," says Francis Decker, at the Spalding. "His silence is profound and habitual. Some people say he owes his meteoric rise in some measure to his silence and ability to keep mum unless there is something worth saying. He shines by comparison with some of the other members of the cabinet.

"There's a story going the rounds in Washington to the effect that at a recent meeting of the cabinet Mr. Cortelyou talked at least two minutes without stopping. Everyone was dumbfounded. If the Spinix had opened its mouth the impression could not have been more impressive.

"Finally, after the amazement had worn off, the president spoke up:

"'Gracious sakes, Cortelyou, he exclaimed, 'if you are going to do so much talking it is useless to try to conduct any business.'"

Shame to Take the Money.

Des Moines Capital (Rep.): It would be a credit to defeat the Democratic party under the leadership of a man like Governor John A. Johnson. To defeat a Bryanized Democracy again will almost seem like outraging the principles upon which our humane laws are founded.

TWENTY YEARS AGO.

Taken From the Columns of The Herald of This Date, 1888.

***The following real estate transfers have been recorded:

M. H. Alworth to Jas. T. Rose, lot 16, block 71, Endion division, $1,800.

Western Land association to Edward T. Seglem, lot 348, block 124, Second division, $800.

E. O. Wohlin to Jacob Wohlin, undivided half of lots 320, 338 and 340, Minnesota avenue, Lower Duluth, $500.

***The grade of the Duluth & Iron Range railway is to be extended fifteen miles further east. This is believed to be the outcome of an agreement with the Canadian Pacific railroad, which will extend its line west from Port Arthur to meet the Iron Range road. There are now 900 men at work on the extension from Tower to Ely.

***Ernst Muller and family, he of Chester creek dairy fame, left this morning for a winter's visit in California.

***Among the tokens of esteem presented to Mayor Sutphin yesterday on the occasion of his fortieth birthday was a handsome silver smoking set by John K. Shaw and J. D. Howard, and a fine field glass by the board of public works.

***J. K. Persons of Boggs & Persons, was yesterday admitted to practice law in the Minnesota courts.

***A. E. Rood of Toledo, a gentleman well known in Duluth from his long residence here and his large interests in the Ohio Coal company and other enterprises, is again on a visit here.

***The thermometer registered 24 degs. below zero this morning. It was 26 below at St. Paul and 30 below at Moorhead.

***Frank Seymour, an old resident of Duluth, but for several years past of Brainerd, died there last night.

***Misses Mena and Louise Cleary of the Bostonians are the guests of M. S. Burrows and his niece, Miss Murray, while in the city. They were schoolmates of his at Ottawa fifteen years ago.

***Morris Johnson, who has been for a long time in Pinther & Bond's book store, died at 4 o'clock this morning after a few days' illness. He has a brother living in Chicago.

***Mayor Sutphin and Alderman Daugherty called upon Capt. Quinn, United States engineer, at noon today and turned over to him the deeds from the city to the government of twenty-six lots on Lake and Minnesota avenues, where the ship canal is now located. The deeds will be forwarded to Washington, and it is expected congress will make an appropriation for rebuilding the present piers.

***J. F. Patten, president of the Electric Light company, has returned from a visit to his old home in Lynn, Mass.

THE WEATHER.

A little colder last night and this morning, but only enough cooler to be pleasant and seasonable. No snow came, and the sky has been as clear as a violet's corolla. The weather man looks for a continuance of the fair weather tonight and tomorrow, and say it will be warmer tomorrow afternoon. Last night's lowest temperature was 14 degs. above zero, and yesterday's highest was 31 degs.

A year ago today it was cold, clear and brilliant.

The sun rose this morning at 7:52 and set tonight at 4:40, making 8 hours and 48 minutes of sunlight.

Says Mr. Richardson of conditions: "The storm in the South is central this morning over Arkansas. During the past twenty-four hours it caused light to heavy rains over the Lower Mississippi valley and Gulf states, warmer weather from the Mississippi river to the Atlantic coast, and high westerly winds in Kansas, Oklahoma and Eastern Texas. Another disturbance which is centered over Alberta is causing rain or snow in the North Pacific districts and higher temperature in the Plateau region. A rise in pressure in districts lying between the Mississippi river and Rocky mountains is attended by colder weather, the center of the high pressure overlying Nevada. Pressures are also high over North Atlantic states. Continued fair weather is indicated for this locality during tonight and Sunday."

Following were last night's lowest temperatures as recorded by the weather bureau:

Abilene	36	Marquette	26
Asheville	34	Medicine Hat	24
Atlanta	40	Milwaukee	32
Bismarck	12	Minnedosa	2
Boston	32	Modena	16
Buffalo	26	Montgomery	44
Cairo	36	Moorhead	6
Calgary	22	New Orleans	48
Charleston	50	New York	32
Chicago	36	Norfolk	32
Cincinnati	34	Northfield	6
Concordia	28	North Platte	14
Davenport	30	Oklahoma	32
Denver	18	Omaha	22
Detroit	30	Phoenix	40
Devils Lake	6	Pierre	20
Dodge	26	Pittsburg	24
Duluth	14	Port Arthur	12
Edmonton	18	Portland, Or	42
El Paso	28	Prince Albert	0
Escanaba	26	Rapid City	16
Galveston	44	Regina	0
Grand Haven	26	St. Louis	30
Green Bay	20	St. Paul	14
Havre	24	San Antonio	44
Helena	22	Santa Fe	10
Houghton	22	Ste. Marie	24
Huron	14	Shreveport	38
Jacksonville	58	Spokane	32
Kamloops	28	Swift Current	16
Kansas City	28	Washington	32
Knoxville	36	Wichita	28
La Crosse	22	Williston	8
Lander	8	Winnemucca	26
Little Rock	40	Yellowstone	14
Los Angeles	60		

Department of Agriculture, Weather Bureau, Duluth, Jan. 11.—Local forecast for twenty-four hours ending at 7 p. m. Sunday: Duluth, Superior and vicinity, including the Mesaba and Vermilion iron ranges—Partly cloudy tonight and Sunday; lowest temperatures tonight 10 to 20 degs. above zero; warmer Sunday afternoon; fresh westerly to southerly winds.

H. W. RICHARDSON,
Local Forecaster.

Chicago, Jan. 11.—Forecasts until 7 p. m. Sunday: Upper Michigan—Partly cloudy tonight and Sunday.

Wisconsin—Threatening tonight and Sunday with probably snow in southeast portion; colder in southeast portion tonight.

Minnesota—Generally fair tonight and Sunday.

North Dakota—Generally fair tonight and Sunday; warmer in east and south portions tonight.

TRIFLES LIGHT AS AIR.

Washington Star: "Sometimes," said Uncle Eben, "'fault-findin' gets to be sech a fad dat folks dat wants to be contented dasn't foh fear of bein' unfashionable."

Philadelphia Press: "Yes, madam," said the paying teller, "I know your husband has an account here, but if he wanted you to have any money he should have given you a check."

"But, my goodness!" exclaimed Mrs. Youngwife, "if he's got an account here can't you charge it?"

Cleveland Plain Dealer: "Our pastor did a very thoughtful act."

"What was that?"

"After his temperance talk he broke a bottle of spirits in the highway and punctured two new tires on Deacon Rodway's automobile."

Chicago Record-Herald: "But," said the beautiful girl, "you don't look the least bit like a poet."

"I realize that," said the bard, "but I can easily explain. I know a barber who is willing to take my books in payment for professional services."

New York Sun: Hercules was poisoned by the shirt of Nessus.

"I should have been suspicious," he muttered, "the top button was on."

Herewith he sought the pyre.

Chicago Tribune: "How did your husband get out of the building after he had located the gas leak?" asked the reporter.

"As nearly as he could remember it afterward," said the woman, "he went out through the roof."

Baltimore American: He opened the missive the postman had just delivered and a look of positive horror crept into his face.

"What is it, dear?" cried the trembling wife. "Is it—can it be—a threat from the Black Hand?"

"Only too true," he groaned. "The coal man takes his pen in hand to say that we don't get any more till I pay that last coal bill."

SATURDAY NIGHT TALK

"That Little Streak of Religion."

A chorus girl who had encountered hard luck went to a minister for sympathy and help. Now the men and women of the stage do not, as a rule, when in trouble resort immediately to a clergyman. But this particular one was known far and wide for his great tenderness of heart, and his sympathy with the weak, distressed and tempted. He received the actress graciously, as he always received his callers. He showed such quick understanding of her situation, and he appealed with such tact to her better nature, that suddenly the girl said, "Well, I do believe there is a little streak of religion in me after all, though it is buried way out of sight." It might have been years since she had given the subject any consideration, but now an exigency had arisen which made her aware that the deepest thing in her nature was the religious element. Not all her triumphs and not all her failures on the stage had extinguished within her this vital spark.

Yet hers was no abnormal experience. Religion is in the inheritance of most of us and in the training of many of us. Many a man in middle life will tell you that he was brought up to go to church or Sunday school. Even if he has become utterly indifferent, he cannot altogether shake off the influence of the prayer he used to offer at his mother's knee, or of the Bible that had a place of honor in the early home, or of his personal interest in religion in former times. Said such a man to a chance acquaintance the other day: "I used to be a professor, but I don't believe in God any more or in a hereafter. But there is one thing that troubles me. I have a little daughter, and I can't teach her any more such nonsense as 'Now I lay me down to sleep'—so what can I tell her?" "Tell her," replied the other man, himself a bluff but sincere believer, "tell her to go to the devil, for she is likely to go that way with you believing as you do." Drastic counsel was this, but it is sometimes necessary to give a jolt to the man who is so cock sure of his infidelity that he forgets his own past and forgets that which is best and deepest in his own nature.

For religion is in our very blood. Talk about religion perishing from off the face of the earth! When men cease to appreciate the masterpieces of art, when noble music finds in them no response, when a lovely landscape fails to elicit their admiration, when they are not susceptible to the appeal of friendship, then and not till then will they give up their religion. And not even then, for the religious instinct is a deeper and more inalienable part of the human endowment than is the capacity to appreciate music or art or poetry or nature. Religion is in the blood of the Caucasian and the African, of the Christian and the Mohammedan, of the Jew and of the Parsee. Indeed, there is sometimes more genuine religion in a follower of a so-called heathen religion than in some nominal Christians.

We are not talking now about forms and creeds, about denominations and isms. We are talking of that which underlies all expression, and our appeal is not in the interests of any one religion as of religion pure and simple. It is not for me to dictate what form your religion shall take, but simply to suggest that "the little streak of religion" in us needs to be brought under influences that make for its strengthening and illumination, and to be put to work in the field of our daily activities and relationship.

Why should any of us wait until he has hard luck, until he is reduced to some desperate situation, before he discerns and confesses that he cannot rid himself, that he would not rid himself of his religious instinct. Why not in these early days of another golden year decide to give it more constant recognition and larger scope?

DEFECTIVE PAGE

DEFINES POSITION

Secretary Taft Sets Forth Views on Capital and Labor.

Relative Interests Discussed Before a New York Audience.

New York, Jan. 11.—For the first time since he became a recognized candidate for the Republican presidential nomination, Secretary of War William H. Taft last night faced a New York audience and set forth in detail his stand on the pertinent question of the relative interests and rights of labor and capital and in return submitted to a rapid fire attack from the audience which quizzed him keenly and in a somewhat controversial spirit, according to the practice of the Peoples' Institute, whose guest he was.

The secretary proved equally effective in attack and defense and his prompt replies and witty sallies evoked the same demonstration of approval as greeted the salient points of his address proper.

Not less than 2,000 persons had crowded into Copper Union when police reserves were summoned to clear the walks in front of the building, where a thousand or more persons, disappointed in not having gained entrance, had congregated.

As the secretary of war made his way through the throng, a shout of "three cheers for the next president" was the signal for a noisy ovation that continued until Mr. Taft bowed his acknowledgement from the platform.

Third of Audience Were Women.

Peoples' Institute audiences which have the unique distinction of being democratic and fashionable, discriminating and cordial, usually bring together intellectual leaders in all walks of life, and tonight's gathering was a typical one. At least a third of the auditors were women.

In his prepared address, the secretary pointed out the dependence, one on the other, of capital and labor. He declared that great aggregations of wealth properly employed, widened the field of labor and were to be welcomed, while wealth improperly used was to be condemned. He advocated unionism in so far as the resultant cooperation made for the common good.

"Labor needs capital to secure the best production," said Mr. Taft, "while capital needs labor in producing anything. The share of each laborer in the joint product is effected not exactly, but in a general way, by the amount of capital in use as compared with the number of those who labor. The more capital in use, the more work there is to do, and the more there is to do, the more laborers are needed. Manifestly, it is in the direct interest of labor that capital shall increase rather than the number of those who work. Nothing is so likely to make wealth idle as insecurity of invested capital and property. It follows, as a necessary conclusion that to destroy the guarantees of property is a direct blow at the interest of the workingman.

"The last two generations have witnessed a marvelous development, it has been effected by the assembly and enforced co-operation of simple elements that previously had been separately used. The organization of powerful machines or of delicate devices by which the producing power of one man was increased fifty to one hundred-fold, was however, not the only step in this great progress. Within the limits of efficient administration the larger the amount to be produced at one time and under the management, the less the expense per unit.

"The laboring man should be the last to object to the rapid accumulation of capital in the hands of those who use it for the reproduction of capital. The thoughtful and intelligent laborer has therefore no feeling of hostility toward combinations of capital engaged in lawful business methods.

Are Not Philanthropists.

"What ahs been said should not be misunderstood. The men who have by economic organization of capital at the same time increased the amount of the country's capital, increased the demand and price for labor, and reduced the cost of necessities are not philanthropists. Their sole motive has been one of gain, and with the destruction of private property that motive will disappear and so would the progress of society. The very advantage to be derived from the security of the property in our civilization is that it turns the natural selfishness and desire for gain into the strongest motive for doing that without which the upward development of mankind would cease and retrogression would begin.

"It is greatly in the interest of the working men, therefore, that corporate capital should be increased. Any injustice done to it acts directly upon the wage earners that must look to corporate wealth for their employment. Take the large body of railroad employes. Any drastic legislation that tends unjustly to reduce the legitimate earnings of the railroad must in the end fall with heavy weight upon the employes of that railroad, because the manager will ultimately turn toward wages as the place where economy can be effected. So in respect to taxation, if the corporation is made to bear more than its share of the public burdens, it reacts directly first upon its stockholders, and then upon its employes.

"We have been suffering from a panic. It was brought on in my judgment by the exhaustion of free capital the world over, by the lack of an elastic system of confidence in our business fabric through the revelations in certain great corporations of dishonesty, corruption and unlawfulness. It had been necessary for us to purify some of our business methods; but the purification cannot stop the panic. It will doubtless make another in the far future less likely. Meantime, all must suffer, both the innocent and guilty, and the innocent more than the guilty. Certainly the laborer who is thrown out of his employment by the hard times is innocent and suffers more than the capitalist, whether innocent or guilty, who has money to live on until prosperity shall be restored.

Standing in Own Light.

"The conclusion I seek to reach is that the working man who entertains a prejudice against the lawful capitalist because he is wealthy, who votes with unions for the men who are urging unjust and unfair legislation against him, and who make demagogic appeals to acquire popular support in what they are doing, is standing in his own light, is blind to his own interests, and is cutting off the limb on which he sits. It is to the direct interest of the working man to use careful discrimination in disapproving proposed legislation of this kind, and to base his conclusion and vote on the issue whether the provision is fair or just, and not on the assumption that any legislation that subjects a corporation to a burden must necessarily be in the interest of the working man. What I am anxious to emphasize is that there is a wide economic and business field in which the interest of the wealthiest capitalists and the humblest laborers are exactly the same.

"But while it is in the common interest of labor and caiptal to increase the fruits of production, yet in determining the share of each in the product, their interests are plainly opposed. Though the law of supply and demand will doubtless in the end be the most potent influence in fixing the division, yet during the adjustment to changed markets and the varying financial conditions, capital will surely have the advantage unless labor takes united action. During the betterment of business conditions, organized labor, if acting with reasonable discretion, can secure much greater promptness in the advance of wages than if it were left to the slower operation of natural laws, and in the same way, as hard times come on, the too eager employer may be restrained from undue haste in reducing wages. The organization of capital into corporations with the advantage which this gives it in a dispute with single laborers over wages, makes it absolutely necessary for labor to unite to maintain itself.

"The diverse interests of capital and labor are wider considerably than the mere pecuniary question of the amount of wages. They cover all the terms of the employment and include not only the compensation but also the circumstances that affect the comfort and condition of the workingman, including the daily hours of work, the place in which they work, the provisions for their safety from accidents, and everything else that is germane to the employment."

Organization is Beneficial.

Arguing that the effect of organized labor has been beneficial in securing better terms for the whole working community and brought about an amelioration of the conditions of the laborers in another may, Secretary Taft declared that the attention given by labor unions to remedial legislation has been of more direct interest than even that of philanthropists.

"What the capitalist, who is the employer of labor, must face," he continued, "is that the organization of labor—the labor union—is a permanent condition in the industrial world. It has come to stay. If the employer would consult his own interests he must admit this and act on it. Under existing conditions the blindest course that an employer of labor can pursue is to decline to recognize labor unions as the controlling influence in the labor market and to insist upon dealing only with his particular employes.

"The time has passed in which that attitude can be assumed with any hope of successfully maintaining it. What the wise manager of a corporate enterprise employing a large number of laborers will do is to receive the leaders of labor unions with courtesy and respect and listen to their claims and arguments as they would to the managers of any other corporate enterprise with whom they were to make an important contract affecting the business between them. At times some leaders are intoxicated with the immediate power that they exercise in representing thousands of their fellow-workers, and are weak enough to exhibit a spirit of arrogance. Dealing with them is trying to the patience of the employer. So, too, propositions from labor unions sometimes are so exorbitant in respect to the terms of employment as literally to deprive the manager of the control which he ought to retain over the laborers employed in his business. This is to be expected in a comparatively new movement, and is not to be made a ground for condemning it.

"On the other hand, the arrogance is not confined to one side. We all of us know that there are a number of employers who have the spirit of intolerance and sense of power because of their immediate resources, and that their attitude is neither conciliatory nor likely to lead to any adjustment of difference. The wise among the employers of labor and the labor leaders are those who discard all appearance of temper or sense of power and attempt by courteous and calm discussion to reach a common ground."

Believes in Arbitration.

On the subject of arbitration he argues for the adjustment of labor differences by submission to an impartial tribunal and agreement to abide by its judgment, and in this connection commended the "Massachusetts plan." This method, he declared, had practically been adopted by President Roosevelt and had shown substantial and practical results. That is a provision of law by which an impartial tribunal shall investigate all the conditions surrounding the dispute, take sworn evidence, draft a conclusion in respect to the merits of the issue and publish it to the world.

On the question of legal right of the labor union to strike, Secretary Taft said:

"Men have the right to leave the employ of their employer in a body in order to impose on him as great an inconvenience as possible to induce him to come to their terms. They have the right in their labor unions to delegate to their leaders the power to say when to strike. They have the right in advance to accumulate by contributions from all members of the labor union a fund which shall enable them to live during the pendency of the strike. They have the right to use persuasion with all other laborers who are invited to take their places in order to convince them of the advantage of labor unionism. It is the business of courts and of the police to respect these rights with the same degree of care that they respect the right of owners of capital to the protection of their property and business."

Violence Condemned.

He added, however, that "a resort to violence or other form of lawlessness properly merits and receives the sharpest condemnation from the public, and is quite likely to lose the cause of labor its support in the locality."

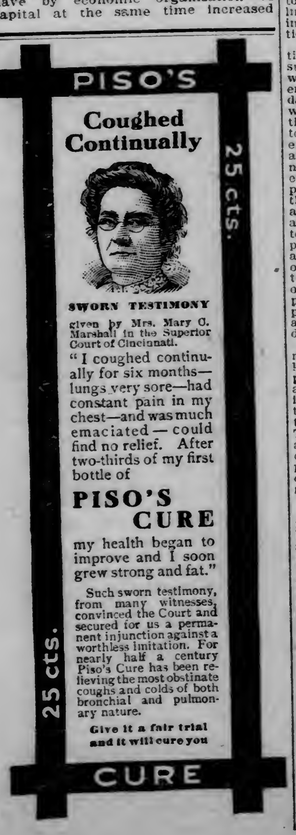
"In rare instances," he said, "corporate managers have entered into a course of violence to maintain their side of a labor controversy. They have justified this on the ground that they were simply fighting fire with fire and that if the labor union proceeded to use dynamite they would use dynamite in return.

"I cannot too strongly condemn this course or this argument. No amount of lawlessness on the part of the strikers will justify lawlessness on the part of the employer.

"A second abuse which employers are sometimes guilty of is what is technically known as 'blacklisting.' This is unlawful and should be condemned."

Mr. Taft condemned the "abuses of labor," such as violence, intimidation and the boycott, and pointed out the legal remedies by which a person may be protected against the illegal acts of combinations of capital and combinations of labor.

He defended the injunction against the criticism that it places in the hands of a judge, executive, judicial and legislative power, and declared that "prevention is better than cure." He granted the contention, he said, that the injunction had been abused in labor disputes, and favored the adoption of a law to provide that no temporary restraining order should issue until after notice and a hearing; also requiring a different judge in contempt proceedings from the judge issuing the order.



NORMAL NOTES

The Normal opened Tuesday for enrollment. A number of new students entered for the winter term. Among those who enrolled for the first time were Carmen Miller of Ely, Alma Pennil of Brainerd, Irma Clemans of Lakeside, Emelia Thompson of Mountain Iron, Mrs. Mary Heeman of Linchfield, Carrie Peterson of Brainerd and Anna Barnell of Proctor.

A number of the students are staying at Washburn hall. Most of the students who were there last term, returned Monday. Thohse who enrolled there for the first time are Carmen Miller, Alma Pennie, Carrie Peterson, Anna Barnell and Mrs. Heeman.

• • •

The members of the third year class held a class meeting Friday afternoon for the purpose of electing officers. The officers of the fall term were all re-elected.

• • •

The Glee club was unable to hold its regular meeting because of the illness of the instructor, Miss Van Stone.

• • •

Miss Robinson has been unable to meet her class because of illness, but she is expected to be back by Monday.

• • •

Mr. Hubbard has returned after a long illness, and is again instructing the classes in physics and chemistry.

• • •

Miss Long returned Monday and is for the present staying at Washburn hall.

• • •

Most of the senior graduates are "observing" in the grades in the training departent. Those observing in the eighth grade are Eunice Brotherton and Mary Wakelin. Those in the fifth and sixth are Nellie Anderson, Florence Nelson, Ina Martin, Miss Chase and Elizabeth Johnson. Those in the third and fourth are Ruby Harris, Bertha Hendy, Winona Harro, Irene Wetzler, Grace Vasley. Those in the primary department are Vivian Burrell, Blanche Mallory, Lucy Wiseman and Neil Loranger.

The students who observed last term are now teaching in the training department. The course in domestic science has been resumed. Work in manual training will be taken up Monday under the direction of Miss Robertson.

STAPLES CREAMERY

Makes Very Good Showing for First Five Months.

Staples, Minn., Jan. 10.—(Special to The Herald.)—Although in operation only five months, the Staples Co-operative Creamery association made a good showing at the meeting held here this week attended by about forty farmers who are interested in the enterprise.

The farmers have received a fair price for their cream, and the most of the creamery has been paid for, there being in all about $900 still unpaid. From June 15, when the creamery was first opened, until it closed down Nov. 20, there had been paid out for cream $4,556.48. The receipts from butter and cream sold were $5,319.33, stock sold, $1,129.50.

Officers were elected as follows: President, L. C. Gateson; vice president, Ole J. Foss; secretary, J. C. Dahl; treasurer, J. L. Hirschy; directors, A. J. Rowe, Ed Cook and Albert Hagenson.

The creamery will open March 1.

WEATHER INDICATIONS

How Ship Captains are Warned of Coming Storms. Signals That Every Mariner Heeds.

The United States weather bureau renders valuable services to seamen by giving warning of the approach of storms. Their coming is indicated by danger signals, and careful captains are well prepared before the gale reaches them. It costs the government thousands of dollars every year to maintain this service, but it saves millions in lives and property.

The most wonderful system of danger signals is the network of nerves in the human body. These sensitive wires signal danger from any part of the system the moment it threatens. The careful man heeds the warnings and avoids physical shipwreck by promptly resorting to Beecham's Pills.

Here are some of the signals to watch for: Heartburn, Sour Eructations, Coated Tongue, Foul Breath, Cold Hands and Feet, Yellow Skin, Pimples on the face, Indigestion, Constipation, Dizziness or Sick Headache. For any of these signals take Beecham's Pills, and you will escape many ill winds and soon have smooth sailing.

MINNESOTA UNIVERSITY

Students to Give Comic Opera at Down-Town Theater.

Faculty Decides That the Students Have Not Enough Work.

Minneapolis, Jan. 11.—(Special to The Herald.)—"Comic opera next" is the student cry, and so the Musical Federation has taken up the project. The plans are almost completed and the performance will be given some time in April in a downtown theater. Those who established their dramatic or musical reputation last year in "Pinafore" will compose the new company, together with others who will try for parts. The university orchestra, founded for "Pinafore," will again be of invaluable assistance. The committee in charge has several light operas up for consideration, and as soon as the decision is made Miss Ethel Malcolm will take charge of the staging of the play.

• • •

"Not enough work." Such is the decision of the faculty after examination of the records filled out by students before vacation. The decision of the committee was unanimous that the students are not overworked, and it was suggested that they are underworked, but that the work was not properly distributed. A wail has gone up from the students, who declare they have every minute of the day and night full. The librarians say that never before has there been so much studying at the library during vacation. Many town people, not the digs, it is declared, spent most of their vacation in writing papers that are always due at the end of the semester. A great many out-of-town students returned several days earlier in order to round up their work before the new term.

• • •

Four churches of Minneapolis have proposed the appointment of a student pastor at the university. Committees from these churches have been at work among the students during the past year and think that the solution of the problem is the appointment of a man to have control over the Bible study and other religious movements at the university. He would receive the full salary of a professor, at present, $3,000, the expense to be shared proportionately by the churches in the movement.

• • •

The dramatic club had a most successful trip during the holidays, from the financial as well as social and histrionic point of view. At nearly all the towns, receptions or dances were given to the cast, and where none was given the business manager planned one as a business proposition.

"Esmeralda" was the play presented. It is a pleasing little comedy-drama, by Frances Hodgson Burnett and William H. Gillette, and was enthusiastically received everywhere. At Benson, as the small boy who shines shoes, announced to a member of the cast, it was the best that ever "hit town," outside of "She Ain't to Blame."

Jan. 16th is the date set for presenting "Esmeralda" in town.

• • •

The glee and mandolin clubs returned Thursday after their holiday trip to Brainerd, Bemidji, Grand Forks and Fargo. They all vouch for a good time, but declare that their financial condition is not encouraging. The trip through Minnesota and Dakota will be abandoned next year and the clubs will go to the coast, under the auspices of some society, so that the financial responsibility will be eliminated and a very interesting trip will be enjoyed.

• • •

For fear that recollections of the too recent Christmas turkey and plum pudding might keep some fellows away from the sophomore feed, Chairman Ware has decided to postpone the event until late next week.

The annual sophomore party is going to come off despite the objections of freshmen and faculty, say the social committee.

• • •

The leap year idea will be prominent in the holding of the post exam. Jubilee, in Alice Shevlin hall, on Saturday, Feb. 1, as the young ladies will be required to escort the men.

The Jubilee will be given by the Y. W. C. A. and Y. M. C. A., for the purpose of forgetting the dire disasters of the semester exams.

The Y. M. C. A. will do their special Geneva stunt, the human pipe organ.

• • •

The junior ball this year will be given in the Masonic temple, contrary to the usual custom of holding it in the Armory. The floor in the Armory was never meant for dancing, and the expense of decorating it has always been very great. President Buck and his committees are determined to come out even, and this will eliminate the extra expense.

The program and decorative committee have been at work a long time, and are promising something new.

• • •

Minnesota plays her first big nine basketball game with Iowa tonight. The fact that Iowa scored 26 to Chicago's 35, shows that the game will be a stiff one, for the Maroons have a splendid team.

• • •

Track men will start training next week for the indoor meet early in March. Dr. Williams will direct work, which will be principally calisthenics for the first two or three weeks.

Besides the indoor meet, a big intercollegiate track and field conference will be held on Northrop field in the spring, and the "Big Nine" meet at Chicago in June.

Both of the Caprons are good track athletes and will be eligible this year. Capt. Morenson, Ittner, Vita, Woodrich, Uzzel, Chestnut, Bang, Raclemacher, Dunn, and Kircher will be other candidate for the track team.

SHIPBUILDING PLANT CLOSES.

Collingwood, Ont., Jan. 11.—The Collingwood Shipbuilding company has closed its plant, throwing 450 men out of work. The men demanded a 15 per cent increase in wages. The situation was explained to their committee, but the men not returning to work, the works were closed.

SOME very interesting letters were received in connection with our liberal offer of $75 in gold. We take pleasure in reproducing two which amply testify to the high esteem in which **La Verdad Cigars** are held.

Duluth, Minn., Jan. 4, 1908.

Dear Sirs—I enclose 78 **La Verdad** cigar bands which I have saved from papa's cigars. My papa smokes only the best cigars which are the **La Verdad** cigars that come from the **Ron Fernandez Cigar Co.**

My name is W—— C——.

Jan. 3, 1908.

Ron Fernandez Cigar Co., Duluth.—Enclosed please find 410 **La Verdad** cigar bands. Hoping these will win a prize and that the high quality of the **La Verdad** cigars, of which I am very fond and never miss an opportunity to boost, will always remain the same,

I am, yours,

——— .

Superior, Wis.

Notice of Awards —OF THE— $75 in Gold

ON JAN. 4, 1908, the competition for the distribution of $75 in gold for the largest number of **LA VERDAD** cigar bands returned to the Ron Fernandez Cigar Co. ended. The money has already been awarded. Great care was exercised and every competitor given equal opportunities. As there were eighteen awards and several hundred competitors, many were disappointed. We wish to thank everyone for the interest taken and hope that in the future, if a similar competition is held, as lively an interest will be displayed.

The First Award of $25.00 Goes to

1.—Arthur Poissant	———	3,675 bands
2.—H. B. Knudsen	$15.00	1,806 bands
3.—R. K. Fowler	10.00	1,375 bands
4.—L. Bratz	5.00	1,314 bands
5.—W. Bergeron	2.50	1,172 bands
6.—L. G. Clark	2.50	810 bands
7.—E. D. Carney	2.50	800 bands
8.—H. O. Peterson	2.50	422 bands
9.—William Hiland	1.00	410 bands
10.—R. Bakken	1.00	382 bands
11.—Walter Toben	1.00	300 bands
12.—Franklin Strong	1.00	144 bands
13.—P. J. Murvold	1.00	139 bands
14.—H. E. Romans	1.00	124 bands
15.—Harvey Wilson	1.00	116 bands
16.—Alfred Rosetti	1.00	113 bands
17.—Lewis Rasmussen	1.00	100 bands
18.—Belle Jondrew	1.00	100 bands
	$75.00	

If any of the winners have failed to receive checks for the amounts opposite their name, kindly communicate with

SHRINERS ENTHUSED

Annual Session at St. Paul Will be Big Affair.

Duluth Urged for Representation in Big Civic Pageant.

One of the biggest events in the history of the Minnesota Shriners will be the thirty-fourth annual session of the imperial council, Ancient Arabis Order Nobles of the Mystic Shrine, which will meet in St. Paul, July 12 to 18, this year. It is anticipated that fully 60,000 people will visit the Saintly City during the Shriners' convention, although there are but 500 or 600 who will be there as official representatives to the imperial council.

The event, it is claimed, will be one of great importance, not only to the Shriners of North America, but to their families and friends. The annual meeting is set apart as a week's holiday, every year, by the members of the 110 temples in North America.

St. Paul will witness, undoubtedly, the most elaborately arranged convention that has ever been held in that city. Already the Osman temple of St. Paul, under the auspices of which the session will be held, is a scene of great activity. The work of preparing for the entertainment of this large body is a huge task, and the St. Paul Shriners expect to be working continuously on the program and features right up to the time of the convention.

The members of the Aad temple of Duluth are vitally interested in the big meeting next summer, and they are already bestirring themselves in the way of preparation for the event.

A. A. Farrington, potentiate of Aad temple, has just returned from St. Paul, where he attended a business meeting of Osman temple, and met with the executive committee. Mr. Farrington is greatly enthused over the plans for the big affair, and urges that the citizens of Duluth, including those not members of Aad temple take some steps to see that Duluth is properly represented in the big civic pageant at the mid-summer celebration. Other cities of the state are taking much interest in the coming event, even the cities of the Northwest, outside the state are getting in line, and some have raised a large sum of money to be spent in advertising themselves in the civic pageant.

Mr. Farrington says that the St. Paul business men who are Shriners are spending about fifteen minutes a day in their offices and the balance of the time in working up the convention.

It is expected that Aad temple of Duluth will, among other things, send a splendidly drilled and uniformed patrol to St. Paul to participate in the convention.

Joseph B. Cotton, past potentate, A. A. Farrington, potentate, and Harry Nesbit, chief rabban of Aad temple are ex-officio members of the executive committee.

Matters in connection with Aad temple's participation in the event are in their formative stage at the present time, but the details will be worked out as fast as possible.

Many of the Shriners and their families from the East and the Southeast are expected to come to St. Paul by the lake route. In such case they will stop off at Duluth and will be entertained on an elaborate scale by the members of Aad temple. It is expected that a bureau of information will be established at one of the prominent local hotels. The visitors will be taken for the boulevard drive, a ride on the bay and the lake, be shown the points of interest, and competent Shriner guides will be provided, who will be as eloquent in setting forth the advantages of the city to the visitors as they are in tailing Shrine. When it is remembered that 8,000 investments followed the annual session at Los Angeles last year, the possibility of interesting the Eastern Shriners in the Zenith City does not seem a far cry. Steps will be taken to provide all the visiting Shriners with souvenirs and with good reading material about Duluth.

It is estimated that the Shriners will spend about $1,500,000 during their week's stay in St. Paul. They are a body comprising the highest class of citizenship in the country, and when they set out for the annual holiday celebration they are the most liberal spenders in the world.

The members of Aad temple, it is understood, will have a special train to go to St. Paul and will take along a band.

PIG IRON SURPLUS REDUCED.

Birmingham, Ala., Jan. 11.—Announcement was made yesterday that the surplus of pig iron, which accumulated since October because of the collapse of the iron market, has been reduced in the past few weeks from 90,000 tons to less than 55,000 tons, and that the curtailed production will shortly be called off. Only the smaller dealers will accept orders for iron under $13.50 per ton for No. 2 foundry.

An Insidious Danger.

One of the worst features of kidney trouble is that it is an isidious disease and before the victim realizes his danger he may have a fatal malady. Take Foley's Kidney Cure at the first sign of trouble as it corrects irregularities and prevents Bright's disease and diabetes. Sold by all druggists.

WHAT SOCIALISM WILL DO FOR SOCIETY

It will abolish capitalism.

It will abolish poverty.

It will abolish classes.

It will abolish private monopoly in land.

It will abolish private monopoly in natural resources.

It will abolish private ownership of railroads, telegraphs, telephones and all other public utilities.

It will abolish private property rights in the social machinery of production.

It will abolish crime against poverty, by making all men proprietors.

It will abolish charitable institutions, by making it a duty devolvent upon society to protect the helpless.

It will abolish life assurance associations, by making it incumbent upon society to safeguard the interests of each and every unit in the social organism.

It will abolish unemployment, by making all men productive laborers.

It will abolish panics, by producing for use.

It will abolish child labor, by employing the adults.

It will abolish long hours, by systematising and improving the modernised machinery of production.

It will abolish race hatred, by demonstrating the interdependency of the human species.

It will abolish the closed shop, by making all workers their own employers.

It will abolish theft, by eliminating the incentive that compels the unfortunates to steal.

It will abolish immorality, by making it possible for all men to be moral.

It will abolish pessimism, by making all men optimists.

It will abolish wage-slavery, by making all men co-partners.

It will abolish militarism, by making the world one nation.

It will abolish selfishness, by developing the spirit of race consciousness.

It will abolish the soldiery, by making all men patriots.

It will abolish jails, by treating the defectives as incompetents to be cared for in the hospitals.

It will abolish the slums and ghettos, by the erection of sanitary, hospitable, commodious, up-to-date dwellings for all.

It will abolish ignorance and illiteracy, by affording all the opportunity for an education.

It will abolish the banking system, by destroying interest.

It will abolish the production of adulterated merchandise, by destroying the profit system.

It will abolish the single taxer, by destroying rents.

It will abolish the "awful responsibilities" that now beset the rich, by compelling the poor to share in the responsibilities.

It will abolish lawyers, by making all men brothers.

It will abolish drunkenness, by eliminating the cause—poverty.

It will abolish greed, by making all men equal economically.

It will abolish shirking, by making all work pleasurably.

It will abolish economic competition, by substituting fraternal economic co-operation.

It will abolish individual privileges, by substituting equal social rights.

It will abolish the struggle for existence among men, by substituting co-operative control and dominance over the kingdom of nature.

It will abolish hate, by developing the spirit of brotherhood.

It will abolish waste, by approximating in advance the needs of society.

It will abolish the patriotism of boundary, by making the world our country.

It will abolish Mr. Rockefeller's kingly title to oil, by voting society into co-partnership with him.

It will abolish conflicts between labor and capital, by making the worker the owner of capital.

In short, it will abolish everything that stands for strife between man and man on the physical plane that is resultant from economic causes.

Socialism will make men better, happier, nobler and higher-minded in their material relationship.

Warning to Parents!

Do you realize the danger that menaces your children when they play in the streets on which there are car tracks?

Do you realize the danger they court by sliding down the steep avenues and across the car tracks along which cars are running at frequent intervals?

Do you realize there is a city ordinance which expressly forbids that practice because of its danger?

Do you caution your children often enough about the danger?

Are you sure YOUR CHILDREN are not daily exposing themselves to the danger of a collision with a street car—in fact jeopardizing their lives?

Remember that children become so engrossed with their play that they do not, sometimes, note approaching cars and run heedlessly in front of them.

Duluth Street Railway Co.

DEFECTIVE PAGE

SOCIETY

IT IS AGREED that Duluth has seldom passed a more quiet winter socially. Bridge parties are prevalent only in the mildest form, taking the effect of two or three tables; few hostesses are at home for large receptons; the informal gaieties of other winters, made possible by deep and plenteous snow to enable snowshoeing parties of two or more to go tramping, red suited and picturesque, through the woods, are out of the question. Skiing is also hopeless. And the search for news is in sympathy with the general condition of things. There is sewing to be done, and there are white sales to be attended, and the latter have probably demanded as much attention as any other one thing during the week. In addition to the faithful many who have been earnest members of the Browning class in the two former years, there are seen new and puzzled faces at the lectures this winter of those who have in desperation been driven to an interest therein, when the natural interests for these maidens should be in leap year cotillions, and tea parties, and cards, and rarebit clubs, and a course in George Ade. Frivolity is cast aside in a lonesomeness that must make frivolity almost vow to get interested in something deep herself.

Aside from the White-Ames wedding and its attendant festivities, the remaining weeks of the month promise little in a social way.

* * *

The engagement of Miss Jessie La Salle, formerly of this city, to Ernest Rackie of Cleveland, was announced at the latter city during the holiday season. Miss La Salle is well known in Duluth society. She is a daughter of the late Capt. F. N. La Salle and will arrive in the city next week to be the guest of Mrs. La Salle of Chester Terrace. Mr. Rackie is a brother of Mrs. William Burgess and Mrs. A. E. McManus of this city. The wedding will take place in the spring.

* * *

The most interesting event socially of the month will be the wedding of Miss Maud White, second daughter of Mr. and Mrs. William White, and Ward Ames, Jr., which will take place Thursday afternoon, Jan. 30, at the First Presbyterian church, and for which invitations were issued today. The service will be read at 3 o'clock by Rev. Campbell Coyle of the First Presbyterian church and will be followed by a reception at the home of the bride's parents. The bride will have as her maid of honor, her sister, Miss Annie White. Mrs. William Dalrymple will be the matron of honor, and the bridesmaids will be Miss O'Brien of Chicago and Miss Bishop of Bay City, Mich. Mr. Ames will have as his groomsman, John Dalrymple of St. Paul, and the ushers will be Messrs. William Dalrymple, Clarence Sheppard of Winnipeg, Herbert Spencer, Richard Grant, William McLennan and William White, Jr.

A number of beautiful prenuptial functions have been planned in honor of Miss White and Mr. Ames. Wednesday evening of next week, Mr. and Mrs. J. B. Cotton will be hosts at dinner at the Kitchi Gammi club in their honor.

* * *

A delightful sleighride to Lester Park was enjoyed Thursday evening by a number of young people. An informal dance at Harmony hall and a luncheon preceded the return drive. Those present were:

Misses—
Lettie Mathieson, Veo Fichal, Liretta Mathieson, Gertrude Ettinger, Bessie Garvey, Cora Hill, Jennie Garvey, Stella Taylor, Nan Holmes, Marion Rolland, Ethel Phillips, Emma Thompson, Annie Schultze, Margaret Mathews, Margaret Shosle, Emma Constantine, Emma Jenkins, Frances Putney, Emma Hunter, Martha Putony, Bertha Paulin, Signi Anderson, Myrtle Sullivan, Rose Wyler,

Messrs.—
Steve Gelineau, Roy Harker, William Johnson, E. Wilson, Ed O'Neil, E. Becker, Arthur Johnson, James Mahar, Alton Palmer, Arthur Hagen, John Jensen, James Ryan, Milton Vollner, Harry Ebmer, Roy Bridgeman, M. Eagon, Robert Burke, Fred Jacobs, William Beatty, A. Ebert, G. Carnen, Walter Ringsred, John Amundson, Lyle Howard, James Moore, Courtland Brown, Roy Maxwell, Frank Edyvean, Daniel McKenzie, T. Powers.

* * *

Mrs. E. W. A. Peake has returned from a month's visit in the East.

* * *

Mr. and Mrs. W. P. Helmback of 1132 East First street left today for a month's southern and western trip.

* * *

Mrs. H. F. Salyards of 1429 East Superior street has as her guest, Mrs. G. E. Brooke of Minneapolis.

* * *

The East End Card club was entertained Thursday afternoon by Mr. J. H. La Vaque of Chester Terrace. Bridge was played at four tables and the favor was won by Mrs. W. P Helmick.

* * *

Marie Giest Erd, Seneta Erd, Mrs. E. H. Burg, Mrs. O. S. Mather.

D. A. R. to Meet.

The Daughters of Liberty chapter of the Daughters of the American Revolution will meet Wednesday afternoon of next week with Mrs. W. S. Woodbridge of 311 East Third street. The meeting will be devoted to foremothers. The life of the early mothers of the country will be discussed and heirlooms displayed. The leader for the afternoon will be Mrs. N. J. Upham.

Travel Class.

An interesting meeting of the Travel class of the Twentieth Century club was held Tuesday afternoon at the club room of the library. "A Trip Down the Rhine" was the subject of the papers and discussion for the afternoon and the meeting was much enjoyed by the members.

Plan Future Work.

At a meeting of the executive board of the Saturday club held Wednesday with the president, Mrs. Robert Smith, the study to be pursued by the club during the next two years was decided upon. French history, literature and art will receive the attention of the club members. The committees appointed to arrange the programs and plan the next year of study are as follows:

History, Mrs. C. E. Spring, Mrs. J. A. Keyes, Mrs. L. Downs and Miss Multhaner; literature, Mrs. H. S. Ely, Mrs. A. E. Eddy, Mrs. O. A. Oredson and Mrs. E. F. Barker; art, Mrs. Wardwell Ames, Mrs. A. H. Brocklehurst, Mrs R. P. Boyington and Mrs. W. J. Stevenson; current events, Mrs. C. C. Ames, Mrs. Julia M. Barnes, Mrs. H. L. Paddack and Mrs. H. S. Ely; social, Mrs. W. D. Williams, Mrs. J. H. Harbinson, Mrs. L. E. Paddack, Mrs. W. A. Kaake and Mrs. F. H. Barnard; printing, Miss Roe and Mrs. F. L. Sherwin.

Outlook Club.

The Outlook club will meet next Friday with Mrs. F. W. Paine. Prof. James Merrill, the lecturer for the year, will continue his series, the subject of the lecture at the meeting to be "The Roman Soldier." The lecture will begin promptly at 3 o'clock.

Studio Talk.

Miss Josephine Carey will give the first of a series of interpretative musical talks next Friday afternoon at 4 o'clock at her studio, 22 West First street. The series will consist of four talks on "Technique in Music," "Structure of Music," "The Dance Form in Music" and "Humor in Music."

Literature Class.

The German literature class of the Twentieth Century club will meet at the library club room Tuesday afternoon of next week at 2:30 o'clock. From 2:30 to 3 o'clock current events will be discussed and the subject for the afternoon's study will be lyric poetry in the time of Goethe," with Mrs. J. P. Warren as leader.

Shakespeare Class.

The Morning Shakespeare class of the Twentieth Century club will begin the study of "The Comedy of Errors" next Thursday morning at the club room of the library with Mrs. Nelson as leader. Characters will be read by the following members of the class:

Solinus, duke of Ephesus—Mrs. Dryer.
Aegean, Merchant of Syracuse—Mrs. N. F. Hugo.
Antipholus of Ephesus — Mrs. Culbertson.
Antipholus of Syracuse — Miss Shesgreen.
Dromio of Ephesus—Mrs. Nelson.
Dromis of Syracuse—Miss Levy.
Balthazar—Mrs. Merritt.
Angelo—Mrs. Howell.
First Merchant—Mrs. Lynch.
Second Merchant—Mrs. Anderson.
Pinch, a Schoolmaster—Miss Fleer.
Emilia—Miss Duncan.
Adriana—Miss Waterworth.
Luciana—Mrs. Goodman.
Luce—Mrs. Keeley.
A Courtesan—Mrs. Marshall.

Browning Lectures.

"The Men of Browning" will be the subject of the third lecture in the course of six being presented by Rev. J. W. Powell before the Browning class of the Twentieth Century club. The lectures are held Friday morning at the clubroom of the library at 10 o'clock.

The firm announcement that the doors would be closed at 10:10 o'clock and remain closed during the lecture has proved meticulous and yesterday only one straggler appeared to disturb the lecture and the hearers, whereas in former years later comers arrived all the way from three minutes to three-quarters of an hour late. The present condition is most satisfying.

Change of Program.

The chairman of the department of Home and Education of the Twentieth Century club wishes to call attention to a change in program for the Travel class as outlined in the year book. A the next meeting of the class, which will be held Tuesday afternoon, Jan. 21, Mrs. John McLeod will be the speaker and papers on Africa as outlined in the program of the class for another date will be given.

DON'T WEAR

FALSE HAIR

UNLESS it is a PERFECT MATCH in COLOR and TEXTURE. The way to insure a perfect match is to buy the BEST GOODS ONLY. The BEST GRADE costs three times as much as it did some years ago. The second has not advanced so greatly. The third not at all, because 'tis the only one the demand does not exceed the supply, but a good match is impossible with the third-grade Hair.

Our prices are reasonable, and we call tell the truth about the quality. If you favor us with your patronage, we guarantee satisfaction.

TRANSFORMATIONS, PUFFS, WIGS, TOUPEES, Etc., of Finest Quality Hair.

BRIDE TRIES SUICIDE.

One of Principals in Double Wedding Takes Carbolic Acid.

Pilger, Neb., Jan. 11.—A bride of Christmas day, when she and her sister were principals in a double wedding, Mrs. W. F. Richardson, wife of Prof. Richardson, principal of the Pilger schools, last night took poison with suicidal intent. A physician was called by the frantic husband, who found her just after she had swallowed carbolic acid, and it is believed her life will be saved.

The young bride left a note saying she was unhappy and wanted to die. She was formerly Miss Grace Killion. Her parents reside at Wisner.

DEMAND MORE PAY.

Ice Cutters Employed by Duluth Ice Company Strike.

With their demand for an increase from $1.75 to $2 a day, refused, about thirty men employed in the cutting of ice by the Duluth Ice company, struck yesterday afternoon. The men were employed at the company's Spirit lake cutting and when refused their demand, came to the city in a body.

Ice cutting was temporarily suspended until other men could be secured to fill the places of the strikers. The company had no difficulty in securing men at $1.75 a day, and the work interrupted by the leaving of the first crew was quickly resumed by the men hired in their places.

PILOT TO BLAME FOR LARCHMONT COLLISION.

Washington, Jan. 11.—Secretary Straus of the department of commerce and labor yesterday transmitted to congress the report of Steamboat Inspectors W. L. Archey and John Stewart in connection with the disaster to the Joy line steamer "Larchmont," which collided with the schooner Harry Knowlton, off Block Island, Feb. 11, of last year, in which more than a score of lives were lost. The inspectors place the responsibility for the disaster upon Pilot John L. Anson, now dead, and absolve from blame Capt. McVey and the rest of the crew.

Don't Take the Risk.

When you have a bad cough or cold do not let it drag along until it becomes chornic bronchitis or develops into an attack of penumonia, but give it the attention it deserves and get rid of it. Take Chamberlain's Cough Remedy and you are sure of prompt relief. From a small beginning the sale and use of this preparation has extended to all parts of the United States and to many foreign countries. Its many remarkable cures of coughs and colds have won for it this wide reputation and extensive one. Sold by all druggists.

"MARK TWAIN" HAS $51,199 TIED UP.

New York, Jan. 11.—It has developed through a letter, in which he accepted the plans for the reorganization of the Knickerbocker Trust company, that "Mark Twain," the humorist, has $51,199 tied up in the suspended trust company. It is expected that a majority of the depositors will agree to the plan for reorganization, and that the trust company will be reopened.

RESERVOIR IS TAPPED

Great Underground Water System Encountered in Deerwood District.

The Water is Apparently Under a Tremendous Pressure.

The mining district about Deerwood, on the new Cuyuna range, is apparently underlaid with a subterranean reservoir in which the water is under tremendous pressure.

The Rogers-Brown Mining Company of Chicago, which is exploring lands on the south side of Rabbit lake, on the Cuyuna range, in Crow Wing county, is having trouble in sinking the shaft, which was started during the latter part of the summer. At seventy-three feet they have encountered a great flowing well, necessitating pumps being installed, which are now pumping as much as 1,000 gallons per minute. The shaft is now down 77½ feet, and progress is slow on account of the water.

The United States Steel company, which had an option on an adjoining property, attempted to sink a shaft, but was forced to abandon it on account of quicksand and water.

Though the Roger-Brown property is near Rabbit lake, a lake about two and a half miles long and half a mile wide, the engineers do not think the water is coming directly from that source, for their shaft is now at a depth below the bottom of the lake, and until recently no water to amount to anything had been encountered. They judge from this that the water was coming from the lake they would have encountered it soonr.

During previous explorations a hole was drilled in the bottom of the lake a little distance from the shore, the drill being set up on the ice in the winter. The work had not gone far before an underground reservoir was tapped, a good-sized stream of water spurting several inches above the top of the casing. It is some such subterranean waterway or reservoir as this that the Roger-Brown engineers think they have run into.

The water in these reservoirs seems to be under a high pressure. In speaking of this, D. Tripp, engineer and mining expert for the Rogers-Brown company, said recently: "The water we have struck in our shaft is under such a pressure that it forces good-sized stones to the surface at the bottom of the shaft and holds them there."

The whole region about Deerwood is dotted with little lakes, some not more than a quarter of a mile apart, and these lakes are supposed to be connected by underground waterways. This will probably be a great drawback to mining operations in Crow Wing county, but the companies who are so actively engaged in exploration work there now are not discouraged.

The Junction mine at Bisbee pumped 27,000 gallons a minute from the 1,000-foot level. On the Cuyuna range the ore lies in few places more than 100 feet below the surface, and it is reasoned that if the Bisbee mines took care of 27,000 gallons per minute at a depth of 1,000 feet and over, it ought to be a comparatively easy matter to handle even more water than that with only 100 feet to raise it.

There are mines on the Mesaba which are pumping 3,000 gallons per minute and over.

A Loss and a Gain

By May Belleville Brown.

(Copyright by Joseph B. Bowles.)

Hope Winslow gloried in the fact that she was a descendant of the Mayflower pilgrims. The three-volume genealogy on the library shelf, which showed the effects of frequent use, established the fact, as well as the letters and relics that, in the division and redivision of household gods, had fallen to her branch of the family.

She proudly wore the badges of the Daughters of the American Revolution, of the Colonial Dames, and of the Mayflower Descendants, and sat in the councils of these orders. Her portrait had been painted in the fashion of the Puritan. Hope Winslow, and she had a colonial room fitted up in her home.

It was in this room that she was sitting now, on an uncertain, spider-legged stool, her eyes a bluer blue, as she "reasoned" with the young man opposite.

"I think you are very provoking," she exclaimed, "and quite lacking in the right kind of pride. You know that your name was originally Alden, and that you could establish your line through the original Alden family."

"Of course," admitted the young man, good-naturedly; "but my father and grandfather were both John Elden, and their example is a good one for me to emulate in all things, since both left the world better for having lived in it."

"But you miss my meaning," persisted Hope, tapping the floor with her foot. "It would really be adding honor to their memory to establish such ancestry through them."

"How was John Alden any better than John Elden?" queried the young man a trifle indignantly. "What does history have to say of him more important than the fact that he was so thick-headed that poor little Priscilla had to propose to him? I don't think that the little crippled ones now at the Elden Home would revere my father's memory any more if I were to tell them that his ancestor came over in the Mayflower."

Hope coquettishly fenced his indignation. "Yes; but, John—I wish you would become eligible to attend the costume ball of our New England society, so that you might dance the minuet with me—and—oh! ever so many others!"

"Thank you," said John, still grimly, "you know I love to dance with you, Hope; but I only wear knee trousers when I golf, and since I left the football team I have given up long hair. I might as well tell you now, Hope, that your New England society seems a make-believe to me, when almost all your members were born in the Mississippi valley, and all of them live here. Your duty is to be doing something to build up the West, rather than—"

"That will do, Mr. Elden," glared Hope, rising to her feet. "Fortunately your opinion is a matter of indifference to me, so further enlargement upon the topic is unnecessary. And you will please excuse me now, as I have some committee work for the New England society this afternoon."

"I've done it," soliloquized the young man dejectely, as he strode down street. "Made a fool of myself as usual, and now Hope is angry clear through. This will mean that Thurby, with his Declaration of Independence record, will have a clear field. I wish the memory of the Puritan Fathers was in Halifax, or that I could keep my beastily temper!"

And because of these circumstances the business of the North Star Milling company, the presidency and management of which had fallen by inheritance into John Elden's hands, received redoubled attention from him; while the forthcoming costume ball of the New England society because the apparant aim of Hope Winslow's existence.

But as she viewed herself in the mirror on the night of the ball, arrayed as a gray-gowned, white-capped Puritan maiden, she gave a little sigh for the John Alden of her dream.

The sigh, however, was a fleeting one, and she raised her head a trifle, as she defiantly delivered the rather ambiguous remark at her image; "I shall never forgive him, anyway!"

Then she ran downstairs where her aunt, in the finery of a Martha Washington dame, was beaming upon Thurby, who, as a Continental officer, was to act as their escort.

The ballroom was thronged with a picturesque crowd—Puritan and Cavalier, Quaker and courtier, straight locks and perfumed curls, homespun and brocade flashed back and forth as they marched and swung and courtesied in the old time measures.

Hope's Continental officer had excused himself during the evening, and only returned in time to put the two ladies into their carriage. He was breathless, rather dishevelled and minus his sword and cocked hat. The situation plainly demanded an explanation.

"I cannot tell you how sorry I was to leave you, particularly without telling you the reason," he began, "but I did not want to spoil your evening."

"Has anything happened that concerns me?" queried Hope, leaning forward in alarm.

"Something that concerns one of your friends," returned the young man. "Fire started in the North Star elevators this evening, and when I heard of it I hurried across the city to see if I could help Elden—he and I were college chums, you know."

Hope had partly risen from the seat opposite, as she asked eagerly: "Oh, was it entirely destroyed?"

"Yes," Miss Winslow," was the reluctant answer. "Not only two of the elevators, but the mill, as well as three cars of flour. The buildings were so close together that with the high wind it was impossible to save anything but Elevator No. 3, which was on the other side of the wind. About 15,000 bushels of grain were destroyed, too, and while there was a large insurance, the loss is likely to cripple the company. I stayed with John until it was over, and I had persuaded him to go home—"

"Take me to him at once!" interrupted Hope, imperiously. Then, as the young man hesitated, and glanced at her aunt, she added pleadingly, "Please take me to him—you and auntie—I am one of John's friends, too, and—oh, don't you see that I must go, just for a moment?"

Thurby turned a searching glance upon her, received a gesture of assent from the colonial dame beside her, and then leaning forward, gave an order to the coachman.

There was dejection as well as exhaustion in John Elden's attitude, as he sat deeply in his study chair, with one arm thrown limply across his desk. Smoke and grime marked his face and dress, and his eyes, looking darkly into the future, saw years of toil ahead of him. The weight of sudden and wilful misfortune was heavy upon him.

"What's the use of trying?" he was asking himself. "There's no one to care—no one to work for."

The door from the hall opened softly, and a figure advanced to the lamplight's rim. He stared as one in a trance. Before him stood a demure and sweet Priscilla, her gray-gowned figure thrown into relief against the dark red lining of her cloak—a lovely, white-capped Puritan maiden with changing color and shining eyes. For a moment longer he looked. "Hope! Hope!" he whispered.

"I just heard about it, John," she said softly, "and I came right to you, to tell you how sorry I am."

He forgot his loss, forgot the black hours through which he had gone; a wonder seemed to fill him.

"And you came to me! You are not angry, you forgive my rudeness?"

"Why, John," she said, in sweet expostulation, "how could I think of anything but your trouble?"

She stopped, and an agonized flush swept to her hair. A sense of all that was implied by her impulsive action overwhelmed her. Only for a moment did her confusion last, for the young man before her seemed to recall suddenly all that his trouble involved, and dropped his head upon his arm with a groan. In a moment Hope was at his side.

"You must not grieve," she said. "You are young, and have much ability, and I can soon—"

"And I am practically ruined," he groaned. "I must not talk to you, nor think of you, nor belong to your world any more. I must go to the bottom of the ladder, and must put all sweetness and joy behind me."

"But indeed you must think of me," insisted Hope. "Now is when you need your friends more than ever in your life, and we will stand by you."

"But, Hope, you do not realize," he said almost fiercely, "why I cannot, dare not think of you. I have had such thoughts, such longings—and now everything must be put behind me."

Hope was kneeling beside him now, her hands on his arm, as she answered, between laughing and crying:

"I verily believe, John, that you are a true descendant of John Elden. You called him thick-headed because poor little Priscilla had to propose to him, and you are every bit as bad!"

But if John Elden was as slow to realize his possible happiness as the Puritan lover, he had the twentieth century quickness of comprehension, and in the second's flash before he gathered his Priscilla into his arms he weighed the night's loss against the night's gain, and the burden rolled from his heart, leaving joy to reign there, along with a zest for the tasks ahead of him.

For Hope had come.

OUR YOUNG FOLKS' PAGE

On the "Happy Hunting Ground" - The Thrilling Experience of Two Boys

BY WILLIAM WALLACE, JR.

Johnny Brown was very fond of hunting. He lived in Arkansas, where game was plentiful, and big game at that. His father had taught him the use of the shotgun and the rifle, and Johnny was as fine a shot as you could find in all the country round about his home. While he had never yet bagged big game, he had shown his marksmanship with squirrels, rabbits, ducks, quail and other edible game. Indeed, Johnny's mother often declared that her table fared better after Johnny had been a day in the woods with rifle or gun than following a hunting expedition by his father. "Son is satisfied with small game when big game doesn't happen this way," she would say, "while Daddy must have a deer or a bear, or come home empty-handed."

One fine day in early winter—while the weather was mild and bears still roaming the wooded hills—Johnny took his rifle and set out to find "big" game. But he would not let small game "go to waste," as he said to his mother. "If a squirrel or a nice, fat 'possum is foolhardy enough to get in my path, I'll fetch him home for supper. But I'm out today for big fellows—deer or bear."

With his rifle over his shoulder, a drinking cup and a piece of bread in his hunting wallet, which was slung over his back, Johnny set forth, whistling merrily as he trudged along through the woods that covered miles and miles of hill land.

Soon after Johnny had left his home his cousin Fred—who lived on an adjoining farm—came to visit him for the day. Johnny's mother explained to Fred that Johnny had gone to spend the day in the woods, hoping to return with trophies of a great bag, for he had said that should he get anything too big to carry, he would bring a piece of the victim home—a foot, a paw or a horn—to prove his success, and would take the horses and wagon and go after the "big" game left in the wood.

"Well, I'll just go after him, Aunt," said Fred. "Which road did he take?"

"The bottom road leading across the branch," said Mrs. Brown. "If you will hurry you may overtake him before he gets beyond the first hill. And now that you are to assist him in the hunt, I'll look for something big—a deer at least. And if you go into the woods far enough you may find a couple of bears," Mrs. Brown laughed, having spoken in jest. She was always interested in the boys' pleasures, and was a most sympathetic companion to Johnny.

Fred set out on the road Johnny had taken half an hour before. He went at a good gait, hoping to overtake his cousin before he entered that part of the land called by the farmers of the neighborhood "The happy hunting ground." But Johnny must have outwalked Fred, for the latter crossed the branch and traversed the first hill, to find himself still alone. "Pshaw," he ejaculated, when not overtaking Johnny as soon as he had hoped to, "I'm without a gun or a bite to eat. If I don't catch up with Johnny I'll have to return home with empty hands and an empty stomach. Wonder why Johnny is in such a hurry, anyway? He might have stopped to rest a bit beside the rock spring. Gee! Guess I'll turn back."

Fred was on the point of retracing his steps when he heard a rifle shot from the depths of the woods. He felt quite sure the shot had been fired by Johnny, and the sound told him that he was not far from the spot where the hunter was. So he decided to continue his way, whistling on his fingers to catch his cousin's ear. But evidently Johnny was too far away to hear his cousin's call, for Fred received no answering whistle.

Fred was well acquainted with "the happy hunting ground," and took a dim path that led through a deep and heavily-timbered ravine, going in the direction whence came the sound of the rifle shot. He walked about a mile, getting deeper and deeper into a wood that was the home of the wild creature. Everywhere were tracks of deer, and Fred's heart beat with high hope, for he felt that his cousin Johnny might at that very minute be proudly surveying the huge body of a dead deer or bear, the victim of his true aim.

Thus Fred's mind was occupied with hopes and plans regarding "big" game as he trudged through the almost impenetrable forest, his progress greatly impeded by fallen trees, decaying bark and piles of waste branches and dead leaves. But the rifle shot being repeated, he made all the haste possible, for he could tell from the sound that the sportsman was not very far away.

After another 10 minutes of walking—or wading, as he mentally put it—Fred stopped to listen for some sound which would tell him the exact spot occupied by his cousin. Then, fingers in mouth, he gave a long, loud whistle. It was immediately answered by a whistle which was peculiarly Johnny's own. In fact, no other boy in the county could imitate Johnny Brown's whistle-signal.

But the very moment after Fred's ear caught the welcome call he was surprised to hear Johnny's voice crying out lustily: "Who comes there? I'm in danger. A great bear has got me treed. If you are not armed you best take to your heels and bring help."

Fred stopped in his tracks. Treed by a great bear? Why didn't he shoot? Where was Johnny's nerve? Where were his true eye and hand?

But he paid no heed to the warning; that if he were unarmed he would best "take to his heels and bring help," but went in the direction of the voice. And pretty soon he saw a sight that made him stop to catch his breath and summon courage. There, directly in his path and only a few feet away, was a huge black bear. The creature was walking slowly round and round a very slender tree, in whose top was perched a dark form. Upon closer inspection Fred saw that the dark form was Johnny.

Johnny, who was on the watch for the appearance of the owner of the whistle signal, saw Fred as soon as he came near to the spot of danger. "Go back, Fred," he cried out from his perch. "I'm safe here till you can fetch father to kill this beast that has the drop on me. And don't speak, for I don't want you to have to go up a tree. Then we'd be in a dandy fix, we would. And so long as this old chap has me to hold his attention he'll stay right here. So, don't rouse him by the sound of your voice. Now, go away."

But this was not enough for Fred, who was wondering what Johnny had done with his gun. So, raising his hands as if to take aim, he asked the question by gesture. Johnny understood his cousin's sign query and replied: "Well, I'll have to confess that I took two shots at him and—missed. When I first saw him he was coming at me with anything but a friendly expression, so I up and let fly a ball at his head. I didn't do myself proud, for the old fellow wasn't touched. Then I ran through the underbrush, getting out of his sight. I thought I'd lost him, when, fully 15 minutes after I'd fired at him, he loomed up right in front of me. I let him have my aim again. But something had got the matter with it—my aim, I mean—for the bullet went wide of the mark again. It was all up with me then, for I had to reload before I could take another pull at him. He was pretty close to me, but this tree was closer, so I came up into its inviting limbs, where I decided to wait till someone chanced to come along, or till the old brute below should tire of walking about at the foot of my tower and looking up savagely at me. As for my gun, it's below there—on the ground. The old bear took a sniff of it a little bit ago."

Fred had withdrawn from the path into a clump of shrubbery, where he was out of the bear's line of vision. He kept one eye on old Mr. Bruin, however, fearing that his nose might tell him there was another enemy near. And he took pains to be pretty close to a fine, strong sapling with plenty of limbs close to the ground. "Where's your ammunition?" he called out to Johnny, regardless of the latter's warning about his talking.

"It's on the ground in my wallet," said Johnny. Then he added: "Don't do that again, I tell you. Now, go as fast and as quietly as you can for home and fetch daddy here. I don't rest well astride this limb. I'd find home and dinner more to my taste."

But Fred had been thinking over some plan whereby he might relieve his cousin's uncomfortable position more quickly than by returning to the farm, some two or three miles away. And now he was about to act upon this quickly conceived plan. He very cautiously gathered a handful of dry bark and dead sticks from the ground at his feet, cut a long branch from a growing bush nearby and on its smaller end tied the dried bark and sticks into a thick mass, using his handkerchief in lieu of a string. When this was fixed to his satisfaction he took from his vest pocket a match, struck it and applied the flame to the broomlike end of the stick. It ignited quickly, a blaze leaping upward. Like a flash of lightning Fred made a dash toward the bear, whirling the blazing stick round and round, its tongue of fire forming a huge circle of flame in the revolution. The old bear's eyes widened with fear as he beheld the awful sight, and he went off through the woods as fast as he could. But in his excitement he did not select his path and found himself entangled in a massive grapevine, through whose meshes he could not go. And as he feared to turn back and face that dreadful thing of fire he kept on trying to thrust his huge body through the trap which held him fast.

"Quick, your gun! Load and fire!" cried Fred, still brandishing the blazing mass. "Hurry, the fire's most out!"

Johnny came down the tree at a leap, and never before in his life had he loaded his rifle so quickly as now. Then, taking careful aim, he fired. And this time he did not miss his mark. The old bear plunged forward, lifted himself in the air and fell in the tangle of vine that had imprisoned him. Again the rifle was raised to Johnny's shoulder and aim taken, and again he hit his mark. The second ball caused the bear to lie quiet, for it had entered his brain.

"Now, I guess we'll go home and get Uncle John to come and help us get our squirrel home," laughed Fred. "Gee, he's a big one!"

"Yes, but you shall have all the glory of the game," declared Johnny. "Till you came he had me just where you got him—in a tight place."

"No, I couldn't have got him alone," said Fred, going over and examining the bear. "I simply chased him into a trap and you did the rest. But, it's about eating time. Let's go back to the house and report for dinner. Then, with Uncle John, we'll return here and get the 'trophy of our skill,' as they say in books."

The creature was walking slowly round and round a very slender tree in whose top was perched a dark form.

LIMERICK.

There was a small boy, 10 years old,
Who went out to skate, so I'm told:
'Twas his first time on ice,
And he thought 'twould be nice;
But his antics were strange to behold!

POLLY.

Everywhere about the house,
Ringing from floor to rafter,
Is the merry, happy sound
Of little Polly's laughter.

She is the dearest little girl,
Her life is bright and glad.
When she's around no one can be
The least bit cross or sad.

Conundrums.

Why is bread like the sun?
It sets at night, rises in the morning and rolls up for breakfast.

Why is a man looking for a piano like a man looking for wealth?
Both are hunting for—tune.

Why are clocks like laborers?
They work with their hands.

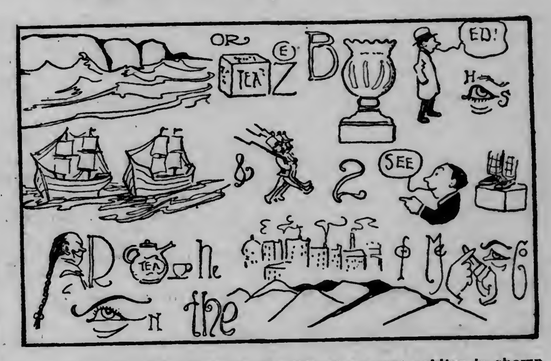
When are stolen jewels like pleasures?
When searched for.

Why are cannons and cigar-holders alike?
Both have mouth-pieces.

Riddle.

I am found in a jail, I belong to a fire,
I am seen in a gutter abounding in mire;
Put my last letter third and it will be found
I belong to a king without changing my sound.
(Grate—Great.)

Bits of History in a Rebus.



Can you tell what event in the life of a great soldier is shown above?

Bertha and the River Fairy.

BY MAUD WALKER.

Bertha Lewis was the child of very poor parents. Her home was in the country, about a mile from a large and prosperous town. During the summer months Bertha's father earned a livelihood by selling fish in the town—fish caught from a beautiful river, on whose banks his small farm extended. And Bertha's mother made a garden in the spring, and during the summer she and Bertha peddled fresh vegetables about the village, thus adding a trifle to the small income of the husband and father. But when the winter set in the Lewis family of three found themselves in dire need of the small necessities of life. Mr. Lewis cut wood from the timber on his land and sold it to the dealers of fuel in the town, but the proceeds from this source were very meager, and sometimes the cupboard was empty at meal time and Bertha went to bed crying for food.

The beautiful river, near to which stood the little cot of the Lewises, was the scene of many a gay festivity during the winter time, for crowds of young people from town came there to skate on its smooth-frozen surface. Sometimes these skating parties would have a night carnival, and then the river would present a gorgeous sight with its hundreds of Chinese lanterns festooned from the bare branches of the trees bordering the banks. And all along the line of skating would gleam merry bonfires, built for the purpose of warming the participants in the carnival.

From the window of their little cot Bertha Lewis could see the merry-makers on the river, and for hours at a time she would sit there shivering, watching the happy throngs that made the cold air ring with their laughter and song. And often tears of disappointment were in Bertha's eyes, disappointment that she had not been invited by some of the merry-makers to join them in their sport. And at times a longing would come over her to change places with one of the many girls who were luckier than herself in the matter of pleasures.

Bertha was only 12 years old, but she had known all the hardships attending poverty, all the heartaches that accompany unsatisfied longing, all the miseries of the poor. Her mother was kind and loving, and her father gave to her the very best he could manage to possess; but poverty seemed to be the poor man's lot, and he could not rise above it. Often in his despair he would cry out: "Oh, if I could but give comforts to my dear wife and innocent child!" And at such times Bertha's little heart would respond with deepest sympathy, and, putting her arms about her father's neck, she would whisper gently, encouragingly: "Maybe the good fairies will come some day and bring to us wealth. Then we'll have everything we need."

One evening there was a great skating carnival on the river. A gay throng of boys and girls filled it from bank to bank. Their skates gleamed like silver in the light from the lanterns and bonfires. Their faces were radiant with health and happiness. Their voices rang out like music, and their warm attire was most beautiful and elegant to behold. There was one little girl—about Bertha's own size—who caught and held Bertha's attention. She was a dainty miss with brown curls blowing from beneath her pretty toboggan cap, which was worn well over her pink ears to keep Jack Frost from nipping them. Her little jacket and skirt were of soft red velvet, trimmed about with bands of brown fur. She wore soft, warm, well-fitting leggings of brown broadcloth, which matched in tint the fur on her garments and the leather of her shoes. Her hands were slipped into a cosy muff of brown fur. She skated easily, laughing and chatting with her comrades. Bertha singled her out, watching her with glowing eyes and whispering to herself: "Ah, if only I could be like her! What beautiful clothes! How red her cheeks are; and she is so happy that I'm quite sure she never suffers from hunger and cold."

Bertha's mother and father had gone to visit a sick neighbor that evening, telling Bertha to go to bed when she grew sleepy and not to wait up for them, as they might be called upon to sit till midnight with the sick woman. So Bertha sat as long as she wished to by the window, watching the gay carnival crowd at their sport. But when the clock struck 9 she rose and put on her cloak—a threadbear garment that could barely hang together—and, wrapping her head in an old shoulder shawl, passed out into the night. She wanted to get closer to the gay children on the river, but fearing that she might be seen by them should she go directly down the bank in front of the house (at that spot a big bonfire burned, throwing out light), she crept off through the darkness to a point below a bend in the river, where, unobserved, she might look around the point of bank and watch and listen to her heart's content.

She found a sheltered spot behind a clump of evergreen bushes. And there, right on the river a few feet from where she sat, yawned a great hole in the ice, one of those spots which in some rivers never seem to freeze.

From where she crouched she could see the merry skaters and hear their gay voices much better than from the window of her home on the bank. Here she almost felt a part of the happy throng. She even smiled as she heard the laughter floating to her on the icy wind. Being used to the cold, she did not mind the snow about her feet nor the cutting wind which went right through her cloak as though it were mere paper. Her eyes were feasting on youthful happiness—happiness that she might not have a share in other than watching it from a distance.

Suddenly from the crowd of skaters there dashed a little figure, a figure gay in red velvet and brown fur. Straight towards the bend in the river—towards the very place where Bertha crouched in hiding—it came. And Bertha's heart stopped beating, for she saw it was the little girl whom she had so much admired that evening. She drew herself deeper into the shadow, not wishing to be seen. It was evident that the little girl meant to come round the curve, leaving the confines of the skating ground behind her. No one had ever thought of coming down to that point in the river for the ice there was never smooth, the water flowing so swiftly round the curve that in freezing it became rough.

But the little miss in velvet and fur was wholly ignorant of the condition of the river below the curve, and as none of the merry-makers had noticed her withdrawal from their midst she was eyes, for she felt that in another second she would be inside that hole which yawned to swallow her.

Then there was a sudden stop, and two little girls lay rolling on the ice not five feet from the very verge of the hole. Bertha had leaped forward and caught the little girl as she was flying to her death. The suddenness of the contact brought them both to the ground, and the severity of the fall stunned them for several seconds. As soon, however, as they regained their senses and got on their feet Bertha told how she came to be there and how she had run out on the ice to save the little skater in peril. And in vain did the little girl beg of her to go to the place of merry-making, where she should be crowned a heroine. Bertha excused herself on the plea of her ragged garments and the fact that she was a stranger.

"Then I shall bring my parents and come to see you tomorrow," declared the little girl, for Bertha had, in answer to her inquiry, told her where she lived.

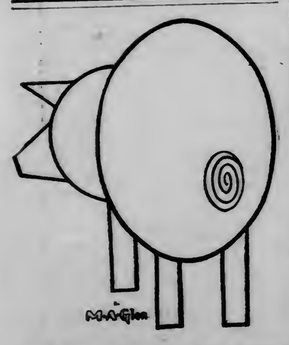
The next morning, bright and early, a fine sleigh drew up in front of the home of Bertha Lewis, and a little girl in red velvet and brown fur sprang to the ground. She was accompanied by a lady and gentleman who proved to be her parents. They were admitted to the house by Bertha's mother. They stayed a long time; in fact, the clock was striking 12 when at last they took their departure. And they left behind them three happy people, Bertha, her mother and father. During their visit to thank Bertha for her heroic act of the previous night—when she had saved the life of their little daughter—the lady and gentleman had learned of the poverty of the Lewises and had arranged to succor them. The gentleman had a position in his great warehouse in town that he offered to Mr. Lewis. Mrs. Lewis was engaged by the lady to act as housekeeper in her elegant home. And Bertha was to be sent to a fine school—the very school where their own little daughter went.

"And just think, mamma," said Bertha that day as she and her mother were packing up their things to move to town (where they would be so happy in their new employment), "I was just wishing that a fairy would come and change things for us when round the curve came the beautiful little girl. She proved to be a real river fairy, didn't she?"

"Yes, my dear child," answered Bertha's mother. "But you were better than a river fairy, for you saved a human life."

"She'll go right into that hole, unless——"

Little Johnnie Nimrod, Jr., is quite sure that the bravest hunter never faced such awful terrors as befell him when he went forth with his trusty toy gun to bring home a rabbit for a Welsh rabbit.



Solution of last week's cut-out puzzle.

PEEPS INTO PLACES OF INTEREST IN FOREIGN LANDS

A VISIT TO THE CITY OF MEXICO

In the center of a saucer-shaped basin 60 by 20 miles in size, that lies in the heart of an Andes plateau, is the capital of Mexico. It has been said of Mexico—particularly that part of it about Mexico City—that it has a "heavenly climate." And true this is if one chooses the right time of year to find the "heavenly climate." The months when Mexico City is at her best—when skies smile and flowers bloom in profusion, when the umbrella and overshoes are left forgotten in hall corners, when one day of beauty is followed by a train of days still more perfect—are the months of spring. But during the summer the traveler from foreign lands would better strap on his knapsack, take his staff in hand, and seek higher places. Not that the City of Mexico is situated at a low altitude; it has a fine and healthful elevation, and were the city well drained—or drained at all, one might say—there would be little to fear from the summer rains, which pour and pour and pour till it seems the heavens will never be emptied of their moisture. And during these protracted summer rains the saucer-shaped basin in which sits the beautiful capital is filled like a sponge. Moisture oozes out of the ground at every step. The soil is soaked to its uttermost and seems to fairly swim. It is during this time of rain and warmth that sickness seizes the people of Mexico, especially the stranger within her gates. Somehow, the Mexican has learned to live through these sieges of rain and attending sickness, and declares his to be the finest climate in the world.

In all the City of Mexico there is not a cellar. The reason for the absence of these conveniences is that the water lies just two feet below the surface.

When, in 1519, Cortez landed in Mexico City he found it on a small island in Lake Texcoco. But with the years the lake has receded, and now it is nearly ten miles distant from the city. Of the many "deep and terrible" canals that proved of such disaster to Cortez there remain but waterless ditches, save when the rains of summer swell them into little streams.

The city itself is beautiful, having broad and picturesque boulevards well shaded by cypress and eucalyptus trees. Flowers abound everywhere, and fruits grow at all seasons of the year. The climate is mild, no extreme cold in winter and no intense heat in summer. And after the problem of drainage has been solved—and the people of the city are putting forth every energy in that line—there is no place on the earth that can hold greater inducements to the tourist the whole year round than this interesting city of the Aztecs.

MARY GRAHAM.

A Real Bear's Soliloquy.

"I'm glad I'm not a Teddy bear,"
Said little Master Bruin;
"For then all through the winter long
There would be somethin' doin'.

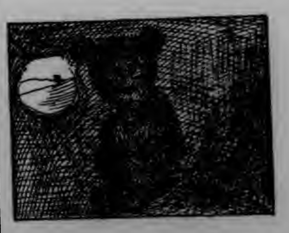
"Besides just sleepin in my cave,
As comfy as I please,
With nothin' there to do but dream,
Or scratch my nose and sneeze.

"I'd have to be dragged all about
By children, great and small;
Up all day long, with ne'er a nap!
'Twould not suit me at all.

"For soon as winter's snows come down,
And chill is in the air,
I hunt a nice, snug hole and creep
Right in and just stay there

"Till spring comes smiling round again
And calls me forth to eat.
And let me tell you, little friends,
Spring breakfasts are a treat."

MAUD WALKER.



REAL FIGHT NEXT WEEK

Municipal Campaign Will be a Short, Sharp Affair.

Alderman Haven Lost Friends by Activity in Primaries.

Next week will see the beginning of the real campaign for the approaching municipal elections.

The date of the election is Feb. 4, so that only three weeks remain for the candidates to round up their forces. It promises to be a short, sharp campaign.

• • •

Alderman Haven lost a number of friends by the way in which he interfered in the primary fight," said a prominent local business man and a former Cullum supporter, this morning. For some reason best known to himself, Mr. Haven and his friends were most energetic in their effort to defeat Mayor Cullum, and nominate Mr. Tessman. Mr. Haven's own precinct shows the fine Italian hand of the Haven workers. That precinct at the primary election gave Mr. Tessman 119 votes and Mayor Cullum 82, a plurality of 37. I know that the Haven forces were active in that precinct and also in the other precincts of the Seventh ward. It may be that the Haven supporters felt that Mayor Cullum would poll a heavy Republican vote if nominated owing to his strength in the First ward.

Whatever the reason was, the Haven supporters certainly knifed the mayor at the primaries, and now they are appealing to the mayor's friends to rally around their candidate." If Tessman was good enough for Haven and his friends to help at the primaries, he is good enough for me to support at the election, and I propose to support him."

• • •

In the wards, there is very little being said, but a lot being done. Some of the candidates, who were nominated at the primaries are having a hard task lining up their opponents of the primaries to support them at the polls. The fight in some of the wards was so bitter at the primaries that its reflection may be seen in the count on the night of Feb. 4.

In the Seventh ward, Frank Schaffer is in probably the hardest position in the city, unless it is James L. Cromwell, the Republican nominee in the Second. In the Seventh, Mr. Schaffer won the nomination over the heads of a strong faction of the Democracy in that ward. He was not endorsed by the Democratic club, and he went into the primaries and won out. The mere fact that he gained a nomination under such conditions shows his strength, but the friends of J. J. Moe, the Republican candidate are trying to swing a number of votes from the Democratic side.

The defeat of Alderman Staples by Mr. Cromwell in the Second was unexpected among those who thought they were well posted on the situation. Now Mr. Cromwell is engaged in trying to line Staples' friends up for him and against Bloedel, who is a strong candidate with the entire backing of the Democrats of the ward.

In the other wards, it is practically man to man and party to party. The fight in the Fifth was rather bitter at the primaries, but the pary lines are drawn pretty tightly and the candidates do not seem to fear much knifing on account of pique.

A BIG ADDITION TO STATE'S SWAMP LANDS.

St. Paul, Minn., Jan. 11.—(Special to The Herald.)—A big addition to the state swamp land holdings was announced today, when a letter was received from James R. Garfield, secretary of the department of the interior, confirming Minnesota's title to 187,000 acres of land in the Chippewa and White Earth reservations.

All that is now in question is about 2,000 acres, of which some doubt is entertained as to whether they were originally swamp or not. These, Attorney General Young has been asked to submit a brief on.

RECESS UNTIL MONDAY IN THE WOODS CASE.

St. Paul, Jan. 11.—(Special to The Herald.)—The court took a recess today in the case of the government against G. W. Wood, L. A. Wood, F. B. Wood, L. C. Wood, Paul Foss and Charles T. Kelly, alleged officers of the Wisconsin Grain & Stock company, charged by the government with having conspired and carried into execution a scheme to defraud by the use of the United States mails. The trial will be resumed Monday afternoon at 2 o'clock.

WOULD IMPROVE THE DULUTH FISH HATCHERY.

Washington, D. C., Jan. 11.—(Special to The Herald.)—Representative Bede is endeavoring to secure the insertion of a paragraph in one of the appropriation bills of a provision to construct a handsome cottage residence for the superintendent of the fish hatchery at Duluth and also to obtain money for certain improvements to existing buildings and also to beautify the little park which surrounds the hatchery.

HOUSE WANTS TO KNOW ABOUT SURGEON STOKES.

Washington, Jan. 11.—The house today adopted the Gill resolution, calling on the secretary of the navy for copies of all correspondence, orders and reports in the navy department, in connection with the appointment of Surgeon Charles F. Stokes to command the hospital ship Relief. The resolution also calls for other papers in the department, in connection with the resignation of Rear Admiral Brownson, as chief of the bureau of navigation.

BROWN'S BRONCHIAL TROCHES FOR COUGHS AND COLDS

Free from harmful drugs. Cure coughs and hoarseness. Relieve Asthma.

Annual Ski Tournament.

Of the Duluth Ski club will be held at Chester Creek hill Sunday p. m., Jan. 12.

COPPER STOCKS FIRM AT CLOSE

Market Easy at Opening, But Strengthens During Day.

Copper stocks were a little easier at the opening of the market today, but the market became firmer later on, and closed at prices about unchanged from ysterday. There were no special features.

North Butte opened at $45, advanced to $45.75 and closed at $45.50 bid and $46 asked. Amalgamated opened at $49.75, declined to $49.50 and rallied to $50.75, closing at $50.75 bid.

Greene-Cananea opened at $7.12½, advanced to $7.25 and closed at $7.12½ bid and $7.25 asked. Butte Coalition opened at $16, declined to $15.62½ and closed at $15.75 bid and $16 asked. Calumet & Arizona opened at $104.50, advanced to $107 and closed at $106.50 bid and $107.50 asked. Anaconda opened at $31, advanced to $31.50 and closed at $31.50 bid.

Superior & Pittsburg sold at $11.62½, advanced to $12 and closed at $12 bid and $12.25 asked. Globe sold at $7.25, advanced to $7.50 and closed at $7.37½ bid and $7.50 asked; Denn-Arizona at $4.37½, declined to $4.25 and closed at $4.25 bid and $4.37½ asked; Butte & Superior at $1.50 and closed at $1.50 bid and $1.62½ asked, and Calumet & Sonora at $7 and closed at $7 bid and $7.25 asked.

Black Mountain sold at $4.50 and $4.62½ and closed at $4.62½ bid and $4.75 asked.

• • •

A dispatch from New York to Walter W. Carr says:

"The stock market wound up the week with a further demonstration of the bull manipulation that has been dominating since the beginning of the year. In the early trading, the professional element on the floor took the bear side. Some declines were caused before the funded buying orders appeared and a general upward movement started, which caused an advance that continued up to the close. The market was strong, with several issues at the best prices. There were also numerous stocks in which the gains made ranged from one to over four points. Government bonds unchanged. Other bonds steady."

• • •

Walker's copper letter in Saturday's Boston Commercial says:

"Copper is quiet but very firm. Lake is held at 14c to 14½c, and sales have been made recently at the former price. The asking price for electrolytic is 13¾c to 14c, with sales reported at both figures. While there is still a fair surplus of unsold copper in the hands of producers, the general disposition is to hold the greater portion of it for higher prices. Trade sentiment is favorable to a 15c copper market to be maintained throughout the year. It is not felt that it would be wise to advance the price above 15c, in view of present depressed industrial and stringent financial conditions.

"The export movement continues unprecedentedly heavy. Domestic consumers, however, are buying very sparingly and carrying no supplies of metal in excess of their immediate needs. Between 30 and 33 per cent of the copper mill and smelter capacity on this continent is out of commission. Consumption is slightly exceeding the present volume of production, however, and as a result the situation is steadily improving. As soon as the buying demand increases a little more, it will be an easy matter to advance the price to 15c per pound."

Ostrich Plumes.

First annual sale of ostrich plumes Monday at the Glass Block.

DULUTH-SUPERIOR HEADS THE LIST

Greatest of Lake Ports in Point of Coal Tonnage.

The current issue of the Marine Review gives a list of the coal tonnage received at various ports during tht past lake season, showing a total net tonnage of 3,698,966 against 2,838,843 tons for the preceeding year.

Following are the principal ports:

Duluth-Superior	1,116,058
Milwaukee	867,893
Chicago	809,900
Fort William	128,516
Sheboygan	112,516
Waukegan	108,119
Green Bay	95,567
Port Arthur	56,145
Hancock	53,309
Manitowoc	51,102
Racine	50,032
Marquette	34,296
Ashland	32,398
Escanaba	27,718
Houghton	22,001
Soo, Mich	21,887
Kenosha	14,438

CHARGE IS DENIED.

Lieut. Hall Says Army Scouts Did Not Spy.

An emphatic denial was given today by Lieut. Albert Hall to the story appearing in a morning paper to the effect that members of the army recruiting staff had been guilty of spying on the members of the marine corps with the intention of securing some of the men they had attempted to recruit.

The story stated that the street members of the army staff had hung around the marine headquarters with the intention of nabbing any likely looking candidates that the members of the marine staff had rounded up.

This is denied by the lieutenant. He further states that there is absolutely no foundation for the story, as there is a professional understanding that no candidate secured by any other department of the service shall be tampered with or any attempt made to secure him.

Rev. Gebauer Here.

The Rev. George R. Gebauer of Alton, Ill., is in Duluth, and will preach at the First Unitarian church tomorrow morning, and the succeeding Sunday morning. Mr. Gebauer is being considered for the position of minister of the First Unitarian church, and it is probable that he will be chosen to fill the place left vacant by the resignation of the Rev. Kirby S. Miller, who has gone West in search of health.

SNOW IN OKLAHOMA.

McAllister, Okla., Jan. 11.—Snow, the first in this vicinity in two years, began falling early today. A cold northwest wind prevailed.

STOCKMEN ARE STUNG

Cattle Raisers of Southwest Are Getting Shabby Deal.

Packing Trust Steadily Increasing Its Margin of Profit,

Cattle raisers of the Southwest are discouraged over the price of beef on the hoof, says W. T. Irwin, at the St. Louis. Mr. Irwin lives in Kansas City, the central market for the beef raising country; is a member of the American Shorthorn Breeders' association, and is deeply interested in the subject of cattle raising.

According to Mr. Irwin, the price of beef on the hoof, and the price obtained by the packers for the prepared beef, is entirely disproportionate. He says the packers are getting by far the best of it. He says, further, that there is but little profit in it for the cattle raiser.

The price of meats has been steadily increasing for the last few years, says Mr. Irwin. On the other hand, the profit for the cattle raiser has shown a corresponding decrease. The expense of reaching a market, the elimination of the independent markets, and the decrease of the price paid for beef on the hoof, have all served to cut off the source of profit for the cattle raiser.

In Kansas, Nebraska, and in the panhandle country of Texas, he says, you can hear the protestation of the cattle raisers against the unfairness of the methods used by the big packers, who control the beef output of the country. Mr. Irwin says that a dealer is practically forced to accept the price of the dealers at the markets of Kansas City and Chicago, as they dictate the price of the cattle they buy as well as set the price of meat after it is prepared. He says they are in a trust that absolutely combines against any independent buying.

If a man has a bunch of steers that top the market, an unusually fine lot, he can command a fine price if he has the ordinary lot, such as furnish the great bulk of the beef for export and domestic use, the grass fed steers of the Western plains, he is in the hands of the packers and must accept the price that is set and maintained by all the packers of the combine.

LODGE NOTES

WORKMEN CELEBRATE.

Fidelity Lodge and Degree of Honor Ladies Install.

Zenith lodge, No. 99, Degree of Honor, and Fidelity lodge, No. 105, A. O. U. W., held a joint installation Thursday evening at Maccabee hall, on West First street, at which the following officers were installed: Zenith lodge—P. C. of H., Hattie Ebmer; C. of H., Anna Pierling; L. of H., Julia Orchard; C. C., Nannie Olson; recorder, Nina Schumacher; financier, Margaret Casse; recorder, Ida Wahlgren; L. U., Theresa Saunders; I. W., Anna Warren; O. W., Louise Johnson. Fidelity lodge—P. M. W., H. E. Simons; M. W., W. J. Stephens; F., A. G. Otto; O., I. W. Smith; recorder, W. W. Fenetermacher; financier, O. J. Murrold; receiver, E. G. Wahlgren; G., J. Patshkowski; J. W., J. Miller; O. W., August Piering.

Deputy G. M. W. J. A. Schumacher acted as installing officer for the Workmen, while Deputy G. of H. Hattie Ebmer acted for the Degree of Honor. A most enjoyable evening was spent. Di Marco's orchestra played for the dancing. Over 200 partook of the banquet served by the ladies of the Degree of Honor and the social committee of the A. O. U. W. Several grand lodge officers were in attendance.

MACCABEES INSTALL.

Duluth Tent, No. 1, Will Have a Gala Evening.

Duluth Tent, No. 1, Knights of the Maccabees of the World, will hold its annual installation of officers Wednesday evening, Jan. 15, at the Maccabee hall, 224 West First street. Past Commander J. P. Peterson will be the installing officer, and M. Johnson, great master-at-arms. Following are the officers to be installed: Past commander, C. J. Hector; commander, A. J. Anderson; lieutenant commander, George Stephenson; record keeper, J. B. Gelineau; finance keeper, Harry Milnes; chaplain, F. C. Freer; physician, Dr. F. Lynam; sergeant, A. F. Braun; master-at-arms, William Linnell; first master-of guards; O.Mungerson; second master-of-guards, J. W. Selner; sentinel, Gust Lyse; picket, Robert W. Cummins; trustee for two years, E. A. Thompson; trustee for one year, C. H. Hoecker.

An elaborate musical program will be given. Misses Lenore Preston and Emily Smith and Alex Enna will give solos, and a quartet comprising Alex Enna, Max Wirth, F. Haase and Felix Seligman, will sing. The accompanist will be Mrs. Estar Dahlquist. Miss Elsie Smith and Miss Ida Broman.

Following the exercises, there will be dancing and refreshments.

LODGES INSTALL OFFICERS.

West End Scandinavian Organizations Hold Joint Public Meeting.

A joint public installation of officers of Zenith lodge, No. 35, Independent Scandinavian Workingmen's association and Northern Light lodge, No. 9, Scandinavian Sisters of America, was held at Columbia hall in the West end last evening. After the installation ceremonies there was a dance, and refreshments were served.

The following officers were installed by Zenith lodge: President, Frank Youngberg; vice president, John Dahlberg; instructor, John Anderson; recording secretary, Oscar Johnson; financial secretary, Torwald Olson; treasurer, Frank Peterson; marshall, Charles Vallberg; inside guard, John E. Peterson; outside guard, John Youngberg; trustee, Erick Peterson.

The following officers were installed by Northern Light lodge: President, Mrs. Lina Anderson; vice president, Mrs. Rosa Peterson; instructor, Mrs. Valberg Olson; recording secretary, Mrs. Anna Peterson; financial secretary, Miss Ingrid Hamre; treasurer, Mrs. Christ Hanson, marshal, Miss Anderson; inside guard, Mrs. Swendson; outside guard, Mrs. Christ Anderson.

G. A. R. Installation.

The new officers of J. B. Culver post, G. A. R., and the Women's Relief corps, will be installed at Rowley's hall at 112 West First street, this evening. It will be an open meeting. The exercises will begin at 7:30.

A special invitation has been extended to members of Gorman post, the Sons of Veterans and the Citizens' staff.

The Lady Maccabees.

Friday evening of next week the Ladies of the Maccabees, hive No. 1, will entertain informally, at which time the following program will be presented.

Piano solo .....
Miss Nobles, Rup of Flor Gill.
Reading, "Pauline Gavloona" .....
Mrs. G. E. Budd.
Vocal solo .....
Miss H. J. Setzner.
Reading, "Aux Italiens" .....
Mrs. G. E. Budd.
Vocal solo .....
Mrs. Neil Ballce.
Accompanist, Miss Jacobson.

Catholic Foresters.

Thursday evening of this week the Catholic Order of French Foresters held a joint installation at their hall. A musical program was given by Miss Dron and E. Saure, Arthur Champagne, E. Grignon and Z. Deslauriers. Addresses were given by Father Lagamdere, G. Simard, Petrus Grignon and Mrs. L. Beaulvage and Mrs. A. Robitaille. The officers for the year are: Chief ranger, Petrus Grignon; vice chief ranger, Arthur Gouthier; recording secretary, Z. Deslauriers; financial secretary, George Simard; treasurer, Dr. L. L. Pare; trustees, Louis Lamontague, J. Bourdage, Adolphe Hamel; conductors, Fred Mayer, Max Damuls; sentinels, L. Pearson, Paul Morneau.

Ostrich Plumes.

First annual sale of ostrich plumes Monday at the Glass Block.

CITY BRIEFS

Socialists as Editors.

The Public Ownership Advocate is the name of a periodical that has just made its first appearance. The publishers are Duluth members of the Public Ownership party and the new sheet is largely filled with contributions from their pens and articles on Socialism by others.

Music at the Spalding Cafes.

Flaaten's orchestra will play Saturday, Sunday and Wednesday evenings during the dinner hour.

Music at Curling Rink.

There will be music at the Curling club this evening to add to the pleasure of the skaters. The rink is a popular place for the members and their friends on the nights that music is provided, and the sport is enjoyed greatly.

Repairs Completed.

The repairs on the First Norwegian Lutheran church have been completed, and services will be held in that church by the congregation. Service in English will be resumed tomorrow evening at St. John's English Lutheran church in which edifice the Norwegian congregation has been holding services while its own church was undergoing repairs.

Druids Will Entertain.

The Ancient Order of United Druids will hold a social Monday evening at Eagles' hall.

German Celebration.

The Sons of Herman are already making elaborate preparations for the large annual ball which will be given Feb. 20 this year.

Car Hits Garbage Cart.

A westbound street car struck Adolph Johnson's garbage wagon at the Second avenue west and Superior street yesterday afternoon, demolishing the vehicle and hurling Johnson to the pavement. It was thought by those who witnessed the collision that Johnson was seriously hurt, but he straightway picked himself up and announced that aside from being a little bruised, he was all right. The horse escaped unhurt.

Dr. Milne Will Preach.

Rev. Alexander Milne will preach tomorrow morning and evening at Pilgrim Congregational church.

Meeting for Men.

Rev. S. L. Mitchell will be the speaker at the afternoon meeting for men tomorrow at 3:30 o'clock at the Y. M. C. A. rooms. His subject will be "The King's Son."

Clark Wants New Trial.

Fred B. Clark, who recently sued A. E. McManus for $2,000 on a stock deal and who lost his suit on a jury trial, has filed notice of a motion for judgment, notwithstanding the verdict, or for a new trial. The matter will be argued a week from today, at the special term of the district court.

Denies Petition for Receiver.

Judge Dibell this morning denied the application of Jacob Sablotzky for an order restraining Harry Luery from entering the New York Clothing store at 109 East Superior street, or for a receiver for the store company. Sablotzky's application for a receiver was based on the claim that the creditors of the New York Clothing Store company desired one appointed pending the settlement through the courts of the question of proprietorship between himself and Harry Luery.

Dies at Proctor.

Solomon C. Krake, aged 81, died this morning at his home at Proctor. He is survived by several children. The remains will be sent tomorrow to Waupaca, Wis., for interment.

You'll be healthy and happy if your liver and bowels work naturally. Hollister's Rocky Mountain Tea keeps these organs working right, brings robust heath to all. Try it now. 35 cents, Tea or Tablets. Ask your druggist.

PERSONAL

T. B. Rogers of Hibing is at the McKay.

Angus Lennison of Biwabik is at the McKay.

W. L. Hurst of Skibo is at the Lenox.

MAY VISIT PUGET SOUND.

Washington, Jan. 11.—Admiral Evans' fleet of sixteen battleships may make a trip to Puget sound after leaving San Francisco in the early summer, according to an official statement made at the navy department today. Many applications requesting that the fleet visit that section have been received at the navy department.

ASSAULTED AND ROBBED.

Fairbury, Neb., Jan. 11.—John Lynch, a merchant of Phillipsburg, Kan., reported to the police today that he was assaulted at Belleville, Kan., while waiting for a train this morning and robbed of $8,000 in cash and $10,000 in notes. There is no trace of the robbers.

Nicely equipped Billiard and Pool Hall, and the only Bowling Alleys in town. **Two Pieces.** Central Billiard Hall, 312½ West Superior street. M. Canfield, Mgr. Billiard Hall; Sam Olson, Mgr. Bowling Alley.

MANY MILES OF WALKS

Twenty-Five Miles Are Constructed in Duluth During Year.

Concrete is Rapidly Becoming the Most Popular Material.

That nearly twenty-five miles of sidewalk were constructed in Duluth during 1907 at a cost of $81,719.79, or over $1 for each man, woman and child in the city, is an astonishing feature of the statistics, from which the report of the city engineer will be compiled.

There has never before been such walk building activity in the city. The amount is nearly twice as great as was constructed in any one previous year in the history of the city. The increase in the amount of concrete walks is enormous and the result is one which proves that Duluth is not lacking in civic pride and progressiveness.

The total amount of wood walk constructed in the city during the year is 80,289 lineal feet; of concrete walk, 51,238 lineal feet, or 131,527 feet in all. Of the wooden walks, 77,114 feet were built by city contract, at a cost of $30,851.41, the contract price per 1,000 feet being $28.50 west of Twelfth avenue west and $31 east of Twelfth avenue west. Under private contracts, 3,175 feet were constructed at an estimated cost of $1,152, giving a total expenditure for wooden walks of $32,003.41.

Of the concrete walks, 27,568 lineal feet were built by city contract and 23,670 feet by private contract, or 51,238 feet in all. The city paid 16 2-3 cents per square foot and 19 cents per foot for corners, the entire cost of city contracts being $26,756.38. On the same basis of cost private parties expended $22,959, or $49,715.83 in all. City contracts called for 17 cents per square foot for tile walks and 10 cents for relaid walks.

Comparisons with the figures on walk building in 1906 give an idea of the immense strides made in the year just closed. In 1907, wood walks were constructed as follows: By city, 48,338 lineal feet; by private contracts, 2,320 feet; cost of city walks, $16,478.30; cost of private walks, $825. Concrete walks, by city, 9,377 feet; by private contract, 19,950; cost of city walks, $8,571.06; of private walks, $17,417.35.

The most noticeable feature of the figures is the fact that there is a gradual, but rapid shifting of sentiment from the wood to the concrete walks. The petitions for concrete construction were unprecedented in number and amount, and the fact shows that the property owners are undoubtedly calling for the more substantial construction, despite the extra cost at the beginning.

The reason is not hard to find. Lumber is on the increase and has been for some years, while the construction of concrete walks has been almost perfected and a minimum cost secured. The initial cost of concrete walks is but little more than one-third over wooden walks of the same width, against a life of about five years for the wooden walks, and an indefinite period for those of concrete construction. The people are beginning to realize that the extra initial cost will be more than made up in the extra durability of the concrete walk and the result will be a more sightly walk all through the city.

The grades of some of the avenues is such that the ordinary concrete walk does not suit them, on account of its slippery surface in wet and frosty weather. On account of the increasing popularity of the concrete walk and the demand for them, the city engineer's office has been experimenting with devices to obviate the difficulty. Two methods are found available. One is by corrugating the surface of the walk and the other by laying transverse steel slats at regular intervals.

Both have been found successful under certain circumstances. The corrugated walks are suitable for avenues of from 6 to 8 per cent grades. The steel slats are advised for avenues of steeper grade, in order to be thoroughly effective.

ITALIAN MENU SERVED.

Members of Opera Troupe Eat Dishes of Native Land.

The menu at the Lenox hotel presented a decidedly European flavor today. They are sheltering about forty members of the Italian opera company at that hostelry, and in honor of the foreign born guests the chef got out his little cook book, put on his spectacles and started to work on some dishes calculated to please the palate of the visitors.

They have spaghetti and macaroni and a variety of other dishes that are dear to the Italians. Singers are not permitted to partake heavily of food before the warbling matinee, so the members of the opera troupe had to curb their appetites but at that they did justice to the efforts of the chef.

GRANGE APPROVES THE PARCEL POST.

Washington, Jan. 11.—Gen. Bachelder, master of the National Grange, and members of the legislative and executive committees of the grange, today conferred with Postmaster General Meyer concerning his plan to extend the parcels post. Gen. Bachelder said the National Grange was heartily in accord with Mr. Meyer's proposition and would support before the committees of congress the proposition of Mr. Meyer.

NOMINATE OFFICERS

Members of Board of Trade Hold Annual Caucus.

Barnes Will Again be the President Unless He Declines.

Members of the Duluth Board of Trade held a caucus this morning to make nominations for the annual election of officers, Jan. 21, and Julius H. Barnes and Stephen H. Jones were renominated president and vice president, respectively.

In the board of trade caucuses, nomination practically means election, so Mr. Barnes will be president of the board for another year, if he accepts the nomination. Whether he will or not, cannot be said today, as he is out of the city. And unless he declines to serve, Mr. Jones will be vice president of the board for another term.

Other nominations were made today, as follows:

Directors: E. H. Smith, William Dalrymple, J. A. Walter.

Board of arbitration: G. G. Barnum, W. S. Moore, S. A. McPhail.

Board of appeals: Thomas Gibson, F. E. Lindahl, H. S. Newell.

Committee on inspection: J. F. McCarthy, A. M. Prime, J. T. Pugh, J. T. Hickman, C. F. Haley.

These nominees will be elected Tuesday, Jan. 21.

DATE TO THRASH A MAN.

Interruption to a Dinner With a Man of Methodical Habits.

New York Sun: "I like a methodical man," said an up-town rounder, "but my friend, whose den is opposite to the one where I loiter, is excessive in this line.

"He asked me to dine with him, and I accepted. We went at it leisurely. We got down to the foot of the menu loafing all the way. As usual he was placid. We had just reached pie and demitasse, when he asked me rather suddenly the day of the month. I had it handy.

"'And the day of the week?' he asked. And I handed him that. Then he looked at his watch.

"'You won't mind, old man,' he said 'if I tell you that I must go.'

"'I told him if it was a matter of any moment I would consent, but with regret. I knew he was absentminded.

"'This is the day,' he continued, shoving back his glass and using his napkin hurriedly, 'when I promised to give Blinky a damned good thrashing. I had forgotten it when I asked you to dine. You'll excuse me, old man, won't you?'

"For his own sake, as well as my own pleasure, I asked him if he couldn't postpone the fistic affair until later.

"'It won't make any difference to you if you thrash Blinky an hour later,' I suggested.

"'It can't be put off,' he replied. 'I know exactly where he will be within forty minutes, and I prefer to lick him at that place.'

"'But I have just started on pie and coffee,' I said.

"'I have done without pie many a time, but my object was to kill time until it would be too late for him to go on his errand. To hear a man say with deliberation that he has an engagement to go out and fight rather chilled my blood, for I am a man of peace.

"'No,' he exclaimed, rising from his chair as he hurled the negative across the table, 'it can't be put off.'

"'Then,' I replied, 'I'll go with you.'

"'And cut out the pie and coffee?' he asked.

"'Sure,' I answered, and my friend called for the check and tipped the waiter and we started.

"He got under headway first and was on the sidewalk before I got my topcoat buttoned. Then he called a motor car and, giving the chauffeur the number, he told him to take a back street and let out at top speed.

"On the way he talked about nearly everything except fighting. He even told me of a contemplated trip to the Far East. He burned up a box of cigarettes before the car halted in front of the place in which he said the enemy had his office.

"I asked if I had not better go in with him. He thanked me, but declined the offer.

"'It won't take long,' he said, 'and it might not be pleasant for a third party. You hold the car till I come out.'

"As he disappeared I felt a clammy ooze gathering on my brow, and removed my hat. I looked at my watch every minute. I never knew time to drag as it did while I sat in that car. I will never know how long I sat there.

"I remember a figure coming out of the doorway. It had changed some since it had gone in. I leaped out of the car and approached my friend.

"He said he wasn't hurt, but I quickly saw that he had been up against it. If I ever concoct a striking transformation sceen for a stage I'll put in formation scene for a stage I'll put in

"'Would you like to see him—the other fellow?' asked my friend.

"I don't know what made me say that I would dote on such a sight. Quicker than a wireless message he grabbed me by the arm rushed me up the stairway to the office of the enemy.

"My friend opened the door. I stuck my head through the aperture. Biff! Just like that! The next thing I remember I was in the car. My friend was holding something under my nose.

"He apologized for the suggestion he had made, and which resulted in my emerging from the situation in a worse plight than himself. No more methodical fracas for me, thank you."

BRAVE AND CLEVER.

Prince Dabro, the young Egyptian who has come to America to study the cotton industry, said in New York the other day:

"While we produce superb cotton in Egypt, the industry is not regulated there with such wisdom as you employ. Clever indeed is the conduct of your American cotton industry—as clever as the conduct of a young Pennsylvania undergraduate whom I heard about the other day.

"This young man sat in a Louis Quinze drawing room in conversation with a beautiful girl. The girl, looking pensively into the fire, said:

"'The man I marry must be both brave and clever.'

"'Well,' said the young man, 'when we were skating on the Wissahickon, and came to the dangerous spot and broke through, I saved your life didn't I?'

"She smiled at him roguishly.

"'That was brave,' she said, 'but it was not clever, was it?'

"'Yes,' said he, 'it was. I led you to the dangerous spot on purpose.'

"She threw her arms about him, murmuring:

"'You dear!'"

CARD OF THANKS.

MRS. O. SCHUNSTROM AND SONS OF 912 Garfield avenue wish to thank the many friends, and especially the members of the Electrical Workers' union, No. 31, and M. W. A., for their sympathy and kindness shown in their late bereavement, in the death of Aelius Schunstrom.

MRS. ANTOINETTE JANAK AND daughters May, Jessie and Mrs. Kate Cullen, wish to extend their heartfelt thanks to the I. O. O. F. for their beautiful flowers, and their friends for the kindness shown during their bereavement, and the illness of their husband and father.

BUILDING PERMITS.

A permit was issued to Swan H. Rudberg for the repairing of a fire damaged building on the south side of East Sixth street, to cost $150

A permit was isued to First Norwegian Lutheran church, for repairs to a fire damaged building on the north side of Third street, between Lake avenue and First avenue east, to cost.. $1,500

LAWSON COMPANY BUYS MINE

Group of Valuable Claims in Big Bug District of Arizona Passes Into Ownership of Company of Eastern Capitalists.

Prescott, Ariz., Jan. 11.—As a sequel to the visit of Meridith E. Lawson of Parkersburg, W. Va., to the Big Bug district, a month ago, all details for the purchase of the Revenue group of mines from the Alto Mining company were arranged here, and the title of the property passed to the Leonita Consolidated Mining company, a new concern, of which Mr. Lawson is president and the owner of a large block of its stock.

The group, comprising eight claims, is located on the eastern slope and suramit of the Big Bug and Walker divide, a short distance west of the Alto group, owned by the Alto Mining company, and two miles southwest of the Jessie, Dividend, Lelan and other proven mines. Four of the locations cover a large porphyry dyke, which intrudes through the formation running in a northwesterly and southwesterly direction. The dyke dips to the southeast. It is explored along the footwall by a shaft 114 feet deep in the bottom, of which there is a fair-sized showing of $45 ore, the gold values predominating, with 4.9 per cent copper to the ton. Oxidized ores on the surface, taken from shallow surface openings, sampled as high as $200 to the ton in gold. The shaft is equipped with an eighty horse-power hoist and boiler, and all necessary mining appliances. Work sinking the shaft was commenced yesterday. The company is financed to carry out the extensive plan of development agreed upon by the directors, which includes the sinking of the shaft to a depth of 600 feet, and the exploration of the great dyke by several hundred feet of drifts and crosscuts. Drifts will be run from each 100-foot level as the shaft is sunk, commencing at the 200-foot level.

The group is within easy reach of the Poland branch of the Bradshaw Mountain railroad, insuring reasonable transportation rates for supplies and the shipment of the products.

AT THE LAKE COPPER MINES

(Continued from Page 11.)

shaft and partly in the territory explored by No. 2 shaft, the ground has proven unprofitable as far as sinking has gone. All profitable ground normally tributary to No. 2 shaft can be handled through No. 3. This will be even more practicable when electric haulage is introduced underground, as seems inevitable not only at the Winona, but at most of the other Lake Superior copper mines.

Winona's No. 3 shaft is at the eleventh level and will be rushed to the twelfth before spring. The showing is very favorable—better and more permanent, in fact, than at any previous time in the property's history.

Winona's No. 4 shaft is within twenty feet of the seventh level, where the plat will be completed in February. The showing throughout is good. The ground through which No. 4 shaft is sinking had been tested down to the fourth level by drifts southward from No. 3 shaft before No. 4 was started, but from the fourth level downward the drifts from No. 3 have not come into the range of No. 4. The mine has a dozen drills at work.

Winona is fully equipped in its compressor service, a large plant having recently installed which will probably meet all future needs.

King Phillip is now securing its air supply from this source. By means of the pipe line connecting these two properties both will be well protected against mechanical delays, as the compressor at either mine will be able to supply temporary relief to the other.

No. 3 shaft is already equipped with its permanent steel shaft rockhouse, and the steel is on the ground for a similar equipment at No. 4 shaft.

Rock shipments from the Winona were stopped last October, and probably will not be resumed until the property is on a footing for uninterrupted shipments at a normal rate. The result from the last month of shipment was 118 tons of mineral, produced from one shaft. This represented about twenty-five pounds of mineral per ton of rock. Within a year the mine will be in position to produce copper rock from two shafts, drawing upon upraock from two shafts, drawing upon upward of ten levels in each shaft, and it is fair to assume that the yield will average the same values as were demonstrated in the recent mill test.

A group of twenty-two houses has just been finished in the neighborhood of No. 3 and No. 4 shafts, giving much advantage over the former accommodations, which consisted of a settlement of rather indifferent houses in the neighborhood of No. 1 and No. 2 shafts.

In the Challenge vertical shaft of the St. Mary's Mineral Land company a depth of 850 feet has been attained and a level is to be established there, from which crosscuts will be driven to explore for copper values. Several such levels have already been established, and in the crosscuts a number of copper-bearing formations were opened. At some points quite rich pockets of copper were opened, but the value had not proven permanent in any case. These formations will now be re-cut at the added depth. The power equipment at the Challenge is adequate to handle the exploration indefinitely.

ARTHUR L. CARNAHAN.

NORTH BUTTE IN GOOD SHAPE

(Continued from Page 11.)

which are known to traverse the property. The veins are the Sioux Chief, Edith May, Old Joe, Speculator and the Modoc, all of which have, at various times, been shown to carry good copper and silver values.

The Speculator vein was reached on Wednesday and assays showed 10.30 per cent copper.

During the past two months a great amount of development work has been accomplished on the property of the Butte & London Copper Development company, and additions have been made to the pumping capacity to meet any emergency which may arise on account of an increase of water or disabling of pumps. Work is progressing at a satisfactory rate, and the management has confidence in the indications that ore bodies of commercial value may soon be opened up.

The outlook for an early resumption of operations at the mines is not good. An official of the Amalgamated company says the only influence that prompted a shutdown and a concentration of operation and expenses in the Boston & Montana company was necessity. He says the smoke injunction suits pending against the Washoe smelter had nothing to do with it. The company was losing a great deal of money in keeping both large smelters running, as the cost of production was greatly increased under the curtailed operation. By transferring all production to the Boston & Montana, that company's mines and smelters can be run to full capacity, the cost of reduction can again be reduced to the normal, and the company can make some profit at present copper prices. The fact that the Clark mines have also reduced their output fully 50 per cent, is evidenced that curtailment and economy are the causes of the Amalgamated shutdown. The people of Butte and Anaconda are feeling very blue over the situation.

LAKE SUPERIOR IRON MINES

(Continued from Page 11.)

Co.'s Caspian property, in the Iron River district, is operating with a full force again after the night shift had been dispensed with only to be restored two days later. M. A. Hanna & Co.'s Hollister mine at Crystal Falls is being prepared for larger production. The shaft is being sunk down to another level. Sinking has been making slow progress at the new shaft going down at Corrigan, McKinney & Co.'s Tobin mine at Crystal Falls. Water has caused much trouble, and now with a hard, flinty jasper succeeding the softer slates as the material to cut through the work is even more tedious. It will be well along toward the close of the year before the shaft is down to desired depth, notwithstanding that an up raise is to be made from a drift driven from the present mine workings. The Huron Mining company is exploring the forty north of Corrigan, McKinney & Co.'s Armenia mine at Crystal Falls. A small shaft put down years ago is being deepened. It is the Huron company that is re-opening the old Groveland mine at Randville, on the eastern end of the Menominee range. A new shaft is being sunk at this property.

The Groveland has been in the hands of various operators in the past, but because of the peculiar character of its ore it has never been operated with success. The mine is located at the western end of the Felch mountain or Metropolitan district, all outlying spur of the Menominee range paralleling the main mineral formation some miles to the north. The property was opened in 1891, was operated for a single season and was then closed down, since which time little more than experimenting has been done there. The ore produced during the Groveland's period of activity was a fine blue hematite, of Bessemer grade, but badly mixed with greenstone. A process of concentrating the mixed ore was tried, with indifferent success. It is the understanding now that the Huron company, which is composed of Ohio furnace interests, has hit upon a process by which the ore is successfully treated in the furnace stack, if not freed from its gangue of greenstone, and the preparations now being made in the way of reopening the mine would seem ample evidence that this is a fact.

It is of interest in the connection to note that the blast furnace, the construction of which plant at Iron Mountain has been started by John T. Jones of that city and associates, is primarily designed to smelt the refractory ores of the Randville district. The stack will be of 100 tons capacity and in construction and methods of operation will differ somewhat from the furnace ordinarily in use. The process to be followed was devised by Mr. Jones after much experimentation. There will be much interest in the operation of the plant.

The Lake Superior Iron & Chemical company's charcoal iron furnace at Newberry, in Luce county, Mich., is out of blast now, and it is doubtful that it will resume for many months. The shut down was considerable of a surprise, since the original orders that operations cease had been rescinded, and it was supposed that because a material reduction in wages had been accepted iron would continue to be manufactured notwithstanding the depressed state of the market. Some 400 men have been affected by the suspension.

BIG GUNS OF OTHER LANDS

(Continued from page 10.)

human suffering and the smell of drugs and blood that he gave up all thought of becoming a practitioner, and in a sort of spirit of abandon went to a Church of England school to prepare himself for the career long dreamed of for him by his parents.

Here he unconsciously began the period of training that later "made" him. He became intensely interested in the poets and great prose authors, devoting the greater part of his hours of study to them, and while at this school and in Trinity college he found his recreation in frequent trips into the Canadian wilds. Thus, while he got firm grasp on the English language through intimacy with its masters, he was stocking his mind with the Canadian "color" that was to stand him in good stead when he should settle down to his life's work.

The year that he reached his majority young Parker passed his examination for the church and was already to be made a deacon, when he suddenly decided that literature was his field. For two years thereafter he lectured with mediocre success on English literature in his alma mater, then his health broke down, and he began his world wanderings, which took him to California, the Hawaiian Islands, the Australian bush, Samoa, the Tongo and Fiji groups of islands, New Caledonia and then to England by way of China, India and Egypt. A good part of this time he wrote for a Sydney newspaper, the trip through the South Seas being undertaken especially at his behest. Returning from this assignment, Parker was one of the paper's editor's for a short time.

It was the young Canadian's idea, on settling in England, to devote himself to serious literary work, but after two months of uninterrupted self-introspection he came to the conclusion that if he ever became successful as a writer it would be of men and things and scenes Canadian. So he spent the next few months traveling up and down and across the Dominion, to get the "atmosphere' which he believed he had lost partly while absent from his native land. When he felt that his system was saturated once again with this elusive literary asset, he returned to London, and so well did his new world training stand him in stead that, unusual thing for a new author, he was able to make a good living with his pen from the very start of his more serious career.

"The Kaiser's American Trained Banker."

Friedrich Dernberg, the latest American trained man to become a European "big gun," came to this country especially to learn American banking methods, after he had cut his eye teeth in banking in Berlin. He went to work in a minor position for a big Wall street banking firm with extensive German connections. He was so diligent in business that the firm was loath to have him return to Berlin, where he took a position as American correspondent in a big private bank, and soon began moving rapidly toward the top by applying the hustling methods he had been drilled in while here.

Banking, however, was not the only thing he studied during his American stay. He took a keen interest in the way we play the game of politics, and as a result was able to carry the German elections of last January for the kaiser. Herr Bebel, the Socialist, charges that gerrymandering was indulged in by the government prior to the election at the instance of Mr. Dernberg; heretofore the gerrymander has been looked upon as a political trick distinctly American.

As the empire's first colonial secretary, Herr Dernberg has been doing things rather out of the ordinary. In July he went to German East Africa to form his own opinion of that colony, and he did so after walking all the way from the German posts on the shores of Lake Victoria Nyanza to the Indian ocean, a distance of 500 miles. Shortly after his appointment as colonial secretary he addressed a public political meeting, the first time in history that a representative of the government had done such a thing. Like the average American, he is no stickler for precedence, and like him, again, he is a hustler and easily approached.

THE SUPPOSEDLY EARLY MAN IN NORTH AMERICA

No Human Bones Unearthed on the Continent That Indisputably Date Back to the Very Early Types Found in Europe.

Washington, Jan. 11.—(Special to The Herald.)—In spite of frequent reports of the digging up, on this continent, of skulls and bones of human beings which bear the marks of being very ancient, to the present day no human bones have been unearthed in North America that undisputedly date back to the very early types, such as those from the diluvial deposits of Europe. This is the conclusion reached by Dr. Ales Hrdlicka of the United States National Museum as the result of an exhaustive study conducted for the bureau of American Ethnology of all the supposedly early skeletons or part of skeletons found on this continent and now preserved in collections or in musleums. A report of these investigations has just been published as a bulletin of the Bureau of American Ethnology.

In summing up Dr. Hrdlicka says:

"But one conclusion is justified, which is that thus far on this continent no human bones of undisputed geological antiquity are known. This must not be regarded as equivalent to a declaration that there was no early man in this country; it means only that if early man did exist in North America, convincing proof of the fact from the standpoint of physical anthropology still remains to be produced."

Fourteen Recognized "Finds."

On this continent, since men began to study the subject, there have been unearthed only fourteen skeletons or parts of skeletons the early age of which has received any scientific sanction. They are: The New Orleans bones discovered in 1844; the Quebec skeleton of about the same time; the Natchez pelvic bone unearthed in 1846; the Lake Monroe, Florida, bones, 1852 or 1853; the Soda Creek, Colorado, skeleton, 1860; the Charleston, South Carolina, remains of a little later; the Calaveras, California, skull, 1866; the Rock Bluff, Illinois, skull, the same year; the Penyon, Mexico, skeleton, 1884; the Trenton skulls, 1879-87; the Western Florida skull and bones, 1871-77; the Trenton femur, 1899; the Lansing, Kansas, skeleton, 1902; and the Nebraska "loess man" of last year and several years before. Of these, a number attracted great attention at the time of their discovery, and the discussion over the Calaveras skull particularly, grew to such heat that its disastrous results to "Our Society Upon the Stanislaus" were graphically recorded in verse by Bret Harte.

Early Discoveries.

Each of these "finds" has been examined by Dr. Hrdlicka. The first, the New Orleans skeleton, was struck in digging two gas tanks in what was then the back part of the city of New Orleans. It lay sixteen feet below the surface beneath the roots of a tree. Fifty-seven thousand years was the extravagant claim for its age, but apparently the bones were not old enough to have become fossilized.

The Quebec skeleton, it was said, was "dug out of the solid schist rock on which the citadel stand,' but no trace of it can now be found. The rock from which it was claimed to have been taken is of a period known to be long before man lived at all.

The Natchez pelvic bone, black from apparent age, although found with bones of extinct mastodon and other animals, was unearthed in a mine at the foot of a cliff. The bone, probably stained by the peaty soil, may well have fallen down from above and become mixed with early animal remains.

The Lake Monroe, Florida, bones, consisting of "jaws with perfect teeth and portions of a foot" were discovered by Count de Pourtales in a bluff on the shores of Lake Monroe. Although examined by Prof. Agassiz, information about them is meagre, and as their fossilized state means little in Florida, they can not be accepted as proofs of the presence of early man in North America.

Information is also lacking as to the Soda Creek, Colorado, skeleton, unearthed by gold miners twenty-two feet down in the gravel and boulders of soda bar. It was not fossilized and was apparently a modern burial.

Likewise the Charleston, S. C., bones, dug up together with mastodon remains by Prof. F. S. Holmes, investigating for the Philadelphia Academy of Science, have lost their weight as evidence of early man. Little is known about them now and no record of a chemical or physical examination of them is left.

The Calaveras Skull.

The famous Calaveras skull, on the other hand, now in the Peabody museum at Harvard, is one of the most examined and discussed skulls unearthed. It was discovered by a mine operator in 1866 in a shaft he had dug 130 feet below the surface. It is in a fossilized condition. After an exhaustive study, Dr. Hrdlicka is of the opinion that it bears very close resemblance to skulls in the United States National museum taken from caves in the same country, to which no great age can be attached.

The skull from Rock Bluff, Ill., now in the United States National museum, claims for the antiquity of which were based mainly on the long sloping forehead and general undeveloped shape, is likewise very similar to more or less modern Indian skulls in the same collection.

The man of Penyon was quarried up in 1884 in the valley of Mexico. The skeleton was imbedded in limestone, but not far away were found fragments of Aztec pottery and roots of modern plants. It can hardly be very ancient.

The Trenton Bones.

The number of skulls and bones uncarthed near Trenton, some of which are now in the museum at Harvard, are believed by some to furnish evidence that man was here before the glaciers came. Although most of the bones may be positively identified as Indian remains, two skulls are so different from the rest that they have puzzled many. They are of a type foreign to any known Indian heads, and only after several years' search was Dr. Hrdlicka able to associate them with anything yet discovered. Descriptions of skulls of peoples of the Northwestern coast of Germany and Holland and on the islands of the Zuyder Zee finally tallied so well with these, that he concludes they are probably remains of European immigrants.

The so-called Trenton femur, or part of a thigh bone, was discovered by an investigator for Prof. Putnam of Harvard, in a deposit of sand underneath glacial gravel, which would tend to show its deposition before the glacial epoch. A detailed account of the find, however, has not yet been published, and present evidence is not conclusive of its age.

The Lansing skeleton was brought to light by the sons of a farmer near Lansing, Kan., while they were digging a tunnel for storing apples and other farm products in one of the bluffs flanking the Missouri river. It was 70 feet from the face of the bluff and 20 feet below the surface, in a deposit claimed to be geologically ancient. In structure, however, it is practically identical with the typical skeleton of a large majority of the present Indians of the Middle and Eastern states, and for this reason any age attributed to it would not be significant.

What is known as the fossil man of Western Florida includes a number of "finds" dating back as far as 1871, most of which are now in the National Museum. In make-up, careful examination shows they bear a market likeness to recent Indian bones, with not a single feature indicative of a zoologically lower or otherwise substantially different type of humanity. An expert from the United States geological survey, in going over the ground, found many pieces of modern shells and other evidences that the soil is not very ancient. Investigation of a number of Indian mounds in the locality brought to light other fossilized Indian skulls of similar structure.

The Nebraska "Loess Man."

The most recent of all these finds, the Nebraska "loess man," unearthed with other skeletons from mounds by R. F. Gilder, Prof. E. K. Harbour of the University of Nebraska and others, last year, is perhaps of greatest present interest. It has been discussed in print by some of the leading men of science in the country. The most significant bones lay deep down in the mounds below others above them. An exhaustive examination of them, however, has led to the following conclusions:

"If the present knowledge concerning these specimens is impartially considered, it is apparent that the theory of a more than recent geological origin or any of them meets with serious objections, while on the other hand, no insurmountable obstacle appears in connection with the assumption that all are comparatively recent."

Burrowing animals might well have carried bones through their tunnels to deeper levels; there are marks of gnawing on some of the deep bones; they are just like bones at higher levels as far as discoloration, consistency, and markings go; some of the deeper bones have been scratched by some sort of knife and similar scvratches are on recent bones in the same mounds; skulls of low forehead and pronounced ridges like one of these, occur occasionally among modern Indians; in fact there is little to support a classification of the bones found in the ancient soil apart from many others found near the surface. This has led Dr. Hrdlicka strongly to question any claims of antiquity for the Nebraska remains.

Comparative Studies.

In connection with these investigations Dr. Hrdlicka has recently completed extensive studies of a large number of skulls in the collection of the United States National Museum. Among other things these studies have established the fact that no great reliance can be placed upon a low sloping forehead and prominent ridges in determining the degree of development or the antiquity of skulls.

LONGEST DUEL ON RECORD

How a Quarrel Between Two French Officers Was Begun in 1794 and Was Finally Settled in 1813.

The mediaeval custom of settling quarrels by personal combat, dies hard on the continent, and few things contribute more to the mirth of nations than the jests and caricatures inspired by the dueling exploits of our Gallic neighbors, says Chambers' Journal. The development among the French of that sense of humor which is our particular pride, and consequently the fuller recognition of the farcical nature of such a settlement, possibly account for the disappearance of the "thirst for gore," of that determination to fight to a finish, which formerly characterized the French duel.

The following story presents a striking contrast to those we are now accustomed to hear, and gives us some idea of the character of those dashing beaux sabreurs by whose aid Napoleon became the scourge of Europe.

In the city of Strasburg at the close of the eighteenth century soldiers of all ranks had ample opportunities of picking quarrels whenever they wished. A captain of Hussars named Fournier indulged in this amusement to his heart's content, and became celebrated for his aggressive temper and his address with arms. Strasburg had to reproach him for the loss of her sons, and especially for having challenged without any plausible reason a young man named Blume, whom he killed without the slightest pity.

On the very day of Blume's funeral Gen. Moreau gave a ball, to which were invited all the members of the high bourgeoisie. It was desirable to avoid the scandalous scenes which could not fail to take place between the fellow-townsmen, perhaps the relations, of the unfortunate deceased. Gen. Moreau therefore desired his aide-de-camp, Capt. Dupont, to prevent Capt. Fournier from entering the ball-room. Dupont stationed himself in a corner of one of the ante-chambers, and immediately he caught sight of him, accosted him abruptly.

"What are you going to do here?"

"Ah! is that you, Dupont? Good evening. Parbieu! you see what I am doing. I am come to the ball."

"Are you not ashamed to come to a ball the very day of the funeral of that poor fellow Blume? What will his friends and relations say?

"They may say what they please; it is all one to me. But I should like to ask what business that is of yours?"

"It is everybody's business. Everybody is thinking and talking about it."

"Everybody is wrong, then. I don't like people to poke their noses into my affairs. And now, if you please, let me pass."

"You shall not go into the ball-room."

"Indeed! Why not?"

"You must take yourself off. The general orders you to return to your own apartments."

"Am I turned out of the house?" Dupont shrugged his shoulders.

"Are you aware of the consequences of turning Fournier out of doors?"

"I don't want to hear any of your rodomontades. Just have the goodness to take yourself off."

"Listen!" said Fournier in a fury. "I cannot have my revenge on the general, because he is my superior officer, but you are my equal; you have presumed to take your share in the insult, and you shall pay for the whole of it. We will fight!"

"Listen, in turn," said Dupont, "I have long been out of patience with you. I am disgusted with your bullying ways, and I hope to give you a lesson you will long remember."

Fournier would have gone mad with vexation had he not been consoled by the hope of killing Dupont. But the result of the combat was not what he expected, for Dupont gave him a frightful wound.

"You fence well," said Fournier as he fell.

"Not badly, as you see."

"Yes; but now I know your play. You won't catch me another time, as I will soon show you."

"You wish for another encounter?"

"Parbieu ! That's a matter of course."

In fact, after a few weeks' nursing, Fournier, for the second time, was face to face with his adversary. It was now his turn. He gave Dupont a home-thrust with the comment, 'You see you hold your hand too low to parry properly. After your lunge you gave me time to stock three inches of cold iron between your ribs.'

"This is only the second act," cried Dupont. "We'll come to the catastrophe as soon as possible."

At the third meeting they each received a trifling scratch. So these two fire-eaters, annoyed at such a negative result, agreed to recommence the struggle until one of the two confessed himself beaten. They therefore drew up a treaty to this effect, and whenever the madmen were able to meet they fought. Their persons were marked with numerous scars, yet they continued to cut and slash at each other in most enthusiastic style. Fournier used to observe now and then. "It is really astonishing that I, who always kill my man, cannot contrive to kill that devil Dupont."

After these encounters had continued some years, Dupont, now promoted to the rank of general, received orders to join the army of the Grisons. He was not expected and was trying in vain to find a lodging, when he perceived a chalet, through whose windows a light was gleaming. He knocked at the door and entered. A man was writing at a bureau; he turned his head, and, recognizing his visitor, said before the other could cross the threshold.

"Ah! is that you, Dupont? We will have a little sword play."

"With all my heart," said Dupont to Fournier, who chanced to be the occupant of the chalet, and they set to work, chatting between the passes.

"The minister has promoted me to the fourth corps."

"Vraiment! What a curious coincidence! I command the cavalry there. And so you have only just arrived? I am delighted."

At last Gen. Dupont's sword, after piercing Gen. Fournier's shoulder, struck the wall.

"Sapristi!" shouted Fournier.

"You did not expect that."

"On the contrary, directly I left my guard I knew I was caught. But 'tis you who don't expect what is going to happen."

During the little dialogue Dupont kept Fournier pinned to the wall, as a naturalist would a butterfly.

"Well, what will happen?"

"The moment you stir I shall give you thrust in the belly. You are a dead man," said Fournier.

"I shall parry your thrust."

"Impossible."

"I shall keep you pinned till you throw down your sword."

"I shall not do that. I intend to kill you."

Fortunately the noise made by the two generals was heard by some officers, who separated the combatants.

Dupont, the more reasonable of the two, sometimes thought of the absurdity of a quarrel, which still went on after so many conflicts, and at last decided to make an end of the matter.

One morning he called on Fournier.

"Are you come to fix a day for a match?" inquired the latter.

"Yes; but first of all let us talk a little. Listen. I intend to get married, and before doing so I should like to be done with you."

"Oh! Oh!"

"Our quarrel has now lasted for nineteen years. I do not wish to continue a style of life which my wife might consider not exactly comfortable, and therefore I am come to propose a change in the mode of the combat. One of my friends has, at Neuilly, an inclosure planted with trees, surrounded by walls with two doors, one at each end. At the hour agreed we will go to the inclosure separately, armed with our two holster pistols, to take a single shot with each. We will try which can find the other, and whoever catches sight of the other shall fire."

"That's a droll idea."

"Does it suit you?"

"Ten o'clock on Thursday morning—will that do?"

"Agree. Adieu till Thursday."

They were punctual at their rendezvous, and as soon as they were inside the inclosure they sought each other cautiously. They advanced slowly, cocked pistols in their hands, eye on the watch and ear in attention. At the turn of a shady alley they perceived each other. They threw themselves behind a couple of trees and waited. At last Dupont resolved to act. He waved the tail of his coat just outside the tree which protected him; then he protruded his arm, drawing it back instantly. Immediately a bullet sent a large pleec of the bark flying. Fournier had lost a shot.

After a time Dupont recommenced the same maneuver on the opposite side of the tree trunk, without, however, drawing his adversary's fire. Then holding his hat in his hand, he displayed it as far as the brim. In a twinkling the hat was blown away; fortunately there was no hand inside it. Fournier, therefore, had wasted his second bullet.

Dupont then sallied from his fortress and marched up to his opponent, who awaited him in the attitude of a brave man, for whom there is no further hope. When Dupont was close to him he said: "I can kill you if I like—it is my right and my privilege; but I cannot fire at a human creature in cold blood. I spare your life."

"As you please."

"I spare you today, but you clearly understand that I remain the master of my own property, of which I allow you the provisional enjoyment. It ever you give men any trouble, if ever you try to pick a quarrel with me, I shall take liberty of reminding you that I am the lawful owner of a couple of bullets specially designed to be lodged in your skull; and we will resume the affair exactly at the point where I think proper to leave it today."

So ended a duel begun in 1794 and finished in 1813.

Some tenants are as bad as fire. Herald want advertise for the sort who have consciences.

ORDER FOR HEARING ON PETITION FOR ADMINISTRATION—

State of Minnesota, County of St. Louis. In Probate Court.

In the Matter of the Estate of Maurice J. Carroll, Decedent.

THE PETITION OF Josephine Bieberman having been filed in this court, representing, among other things, that Maurice J. Carroll, then being a resident of the County of Douglas, State of Wisconsin, died intestate, in the County of Douglas, State of Wisconsin, on the Eleventh day of December, 1907, leaving estate in the County of St. Louis, State of Minnesota, and that said petitioner is the next of kin os said decedent, and praying that letters of administration of the estate of said decedent be granted to Louis E. Bieberman.

IT IS ORDERED, That said petition be heard before this court, at the Probate Court Rooms in the Court House in Duluth, in said County, on Monday, the 20th day of January, 1908, at ten o'clock A. M., and all persons interested in said hearing and in said matter are hereby cited and required at said time and place to show cause, if any there be, why said petition should not be granted.

ORDERED FURTHER, That this order be served by publication in the Duluth Evening Herald, according to law, and a copy of this order be served on the that a copy of this order be served on the County Treasurer of St. Louis County not less than ten days prior to said day of hearing.

Dated at Duluth, Minn., December 26th 1907.

By the Court,
J. B. MIDDLECOFF,
Judge of Probate.

(Seal, Probate Court, St. Louis Co., Minn.)
W. G. BONHAM,
Attorney.

Duluth Evening Herald—Dec. 28, '07; Jan. 4-11, '08.

SUMMONS IN APPLICATION FOR REGISTRATION OF LAND—

State of Minnesota, County of St. Louis. —ss.

District Court, Eleventh Judicial District.

In the matter of the application of Anna E. McIntyre, Gertrude M. Harlow and Helen S. Miller to register the title to the following described real estate situated in St. Louis County, Minnesota, namely:

The North one-half of the Southwest one-quarter (N½ of SW¼) of Section Twenty-six (26), in Township Fifty-one (51) North of Range Thirteen (13) West.

Applicants.

vs.

Duluth Banking Company, Duluth & Iron Range Railroad Company, Unknown Heirs of Andrew Anderson, Deceased, and all other persons or parties unknown, claiming any right, title, estate, lien or interest in the real estate described in the application herein.

Defendants.

The State of Minnesota to the above named defendants:

You are hereby summoned and required to answer the application of the applicants in the above entitled proceeding and to file your answer to the said application in the office of the clerk of said court, in said county, within twenty (20) days after the service of this summons upon you, exclusive of the day of such service, and, if you fail to answer the said application within the time aforesaid, the applicants in this proceeding will apply to the court for the relief demanded therein.

Witness, J. P. Johnson, clerk of said court, and the seal thereof, at Duluth, in said county, this 27th day of December, A. D., 1907.

J. P. JOHNSON, Clerk.
By J. S. MOODY, Deputy.

(Seal of District Court, St. Louis Co., Minn.)
RICHARDSON & DAY,
Attorneys for Applicants.

LATEST NEWS of the NEIGHBORING TOWNS

Cloquet

Cloquet, Minn., Jan. 11. — (Special to The Herald.)—Last evening at the roller rink, the local high school basket ball team met the team from Grand Rapids in their first game of the season. It was expected that the Grand Rapids boys would be much larger than Cloquet's lusty lads, but nevertheless Coach Stauffer has so drilled the team in basket throwing and swife passing, that although handicaped in size, they went on the floor determined to show what they were good for. After the game, a banquet was given in the high school by the junior and senior classes and the members of the Girls' Athletic association in honor of the two opposing teams. The second and last game of basket ball, in this city, this year, will be played at the rink next Friday evening, when the team representing the Aitkin high school will come to Cloquet.

Mr. and Mrs. H. E. McLean were Duluth visitors, Monday.

H. J. Pettigrew, bookkeeper at the Company's store, made a business trip to Virginia, Saturday.

Miss Cassie Brotherton returned Sunday to her home in Mankato, Minn., after a short visit at the home of Mr. and Mrs. James Peacha.

Leo Metcalf visited with friends in Virginia, Sunday.

Miss Tillie Tallackson of Fargo, N. D., is the guest of Mr. and Mrs. Jay Peacha, this week.

The evening train on Sunday brought back a number of school teachers, who had been spending the Christmas holidays with relatives and friends in various places. School reopened Monday morning, after the two weeks' vacation with a comparatively good attendance, but since then the attendance has dropped daily, on account of the spreading of different diseases in this city.

Mr. and Mrs. Allan McPhee of Lake Nebagamon arrived Monday for a short visit at the home of Mrs. McPhee's parents, Mr. and Mrs. J. W. Morgan.

Claude Erwin, Harry Campbell and Emanuel Summerfield left Tuesday for Delafield, Wis., to resume their work at St. John's Military academy.

H. W. Irwin of Eveleth spent Sunday in Cloquet, the guest of his brother, F. L. Irwin, manager of the Bell Telephone company of this city.

Miss Eugena Stapleton returned to Duluth, Tuesday, to resume her studies at the Duluth Normal school.

On account of the scarcity of snow on the streets, the majority of teamsters have put away their sleighs and are now using wagons. Not only the teamsters, but many others are silently praying and anxiously waiting for a heavy fall of snow.

A son arrived at the home of Mr. and Mrs. Frank Hunn Tuesday.

William Lathrop and his son, Oliver, returned Tuesday from a short visit with Mr. Lathrop's parents in Dexter, Mich.

Dr. R. D. Haven, physician at Dr. Sewall's hospital, made a business trip to St. Paul Monday.

Mrs. G. H. Kopp and Miss Mary Regan returned to the city Tuesday, after spending the holidays with relatives in Chippewa Falls.

Miss Nellie Laughlin returned Sunday evening to Hubbard, Minn., where she is teaching school, after spending the holidays with her cousin, Mrs. J. F. Phelion.

Mr. and Mrs. R. M. Weyerhaeuser and daughter Margaret Louise, returned home Thursday after an extended visit with relatives and friends in Rock Island, Ill., and St. Paul, Minn.

Cloquet aerie, No. 183, Fraternal Order of Eagles, held its installation of officers Wednesday evening. The officers installed were as follows: President, C. E. Grenier; vice president, William S. Lane; past worthy president, John Stapleton; secretary, James E. Grain; treasurer, Joseph Loisel; chaplin, Jacob Tario; conductor, Leo M. Metcalf; inside guard, Oscar Waller; outside guard, John Koch; trustees, David Moses, William Cochrane and Peter Simpson. Supper was served after the installation.

F. H. Gillmore was here Wednesday from headquarters camp at Mountain Iron, on business with the Northern Lumber company.

The grip has certainly secured a strong grip on Cloquet. Never before has this winter disease been so widely spread. The low attendance in all the schools shows that a large number of children are afflicted.

Mrs. Ada Blinn returned Wednesday, after spending a few weeks with her sister in Isanta, Minn.

E. B. Watkins returned to the city Monday from a two weeks' visit with relatives in Clinton, Iowa.

Miss Agnes Long arrived Tuesday evening after a visit of several weeks with relatives in St. Paul and Stillwater.

Miss Louise Hanley, who has been visiting at the home of her mother, Mrs. Thomas Carey, returned to Minneapolis Saturday.

The Bijou theater reopened Monday evening under the management of Messrs. Boland, Hanson and Lancelot.

Mrs. S. L. Coy returned Monday from Winona, Minn., where she has been visiting with relatives for some time past.

The annual ball given by the Women's Charitable association will be given next Thursday in the opera house.

Mrs. Edward Falk of Coleraine, Minn., is spending the week with her sister, Mrs. Gus Berglund.

The Cloquet Box company's mill resumed work Monday, after a shut-down of several weeks.

Mrs. Elizabeth Brownlee, aged 76 years, died Wednesday evening about 7:30 o'clock after a lingering illness of several months. The deceased leaves three daughters, Mesdames Erickart, Northrop and Sturdavent, of this city, and Sherman Brownlee of Minneapolis. The body was taken Thursday evening to Ellsworth, Wis., for burial.

Mr. and Mrs. Sam Rivkin left yesterday for Minneapolis, where they will spend the winter with relatives.

Spooner and Baudette

Spooner, Minn., Jan. 11.—(Special to The Herald.)—C. H. Dodds of Cross-Dodds Lumber company left Monday for a month's visit with his parents.

Union services were held last Sunday by the Methodist and Congregational congregations. The morning service was conducted at the Methodist church in Spooner by Rev. Kemaugh and T. W. Howard. Holy communion service was given in the morning. In the evening services were held at the Congregational church in Baudette to a large audience.

On Christmas morning a son was born to Mr. and Mrs. H. M. Evenstad of Baudette.

C. A. Cliff returned to his home at Pitt Monday.

Jacob Ellstad of New Tilden, Minn., is contemplating of erecting a small sawmill on one of the branches of Baudette river.

M. Malone, bookkeeper for the Rainy River Lumber company, returned on Thursday from a two week's visit at Crookston.

Rainy River, Ont., has held her annual election for village officers. There were only five candidates in the field. W. J. Bollon came out victorious. The following six councilmen were elected for the ensuing year: H. H. Norton, H. P. Murphy, S. T. Atkinson, H. A. Tabbetts, G. Wescott, F. N. Conroy.

Mrs. Moe, who was dangerously ill, died Saturday at her home, about seven miles in the country. The remains were taken Monday to the home of her parents, who reside at Karlstad, Minn. Mr. Moe and his two children, ages respectively, 2 years and one week, in company with Mrs. Commings, sister of the deceased, accompanied the remains.

Mrs. William Rogers accompanied her sister, Mrs. A. F. Rogers, as far as Fort Frances today. Mrs. A. F. Rogers continues her journey to her home at Bemidji.

Dr. F. Stuart returned on Monday from his visit to Chippewa Falls, Wis.

Attorney Middleton had an operation performed on an abscess which had gathered in his ear, last evening.

Mr. and Mrs. Brendall of Rainy River, Ont., were taken East by Provincial Policeman Campbell to serve their time for stealing goods out of the general stores at Rainy River. Mrs. Brendall will serve one year at Mercer Reformatory for Women, while her husband will be confined for one year at the Toronto prison. Their nephew, Alebrt Werner, was also taken to the Mimico Reformatory for Boys for the period of five years. Young Werner was sentenced for shoplifting.

F. A. Hutchings of Omaha is here on an inspection tour to our village and vicinity in the interest of some capitalists from his part of the country.

Miss Lulu Imsdahl returned Saturday from her home at Pitt to resume her duties as teacher at the Rogers building.

The Knights of Pythias installed their new set of officers at the lodge rooms last evening.

Mr. and Mrs. A. J. Erickson returned on Saturday from Akeley, where they had spent the holidays amongst friends.

Victor Olson also returned from his sojourn at Akeley and is now at his old post at Eagan's.

Scarlet fever has claimed four victimes at Rainy Lake, Ont. The disease so far is confined to four families. It is hoped by careful watching that it may not spread.

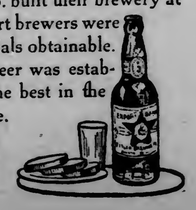
AT THE HEAD OF THE LAKES IS BREWED FITGER'S BEER

¶ The proper water for brewing is one of the greatest elements in the making of good beer. Scientific tests have proven that the water of the Great Lakes, and particularly of Lake Superior, is the best in the world for the purpose. For this reason A. Fitger & Co. built their brewery at Duluth twenty-five years ago. Their expert brewers were given the best equipment and best materials obtainable. Thus the high standard of Fitger's Beer was established and today it is known as the best in the land. Your home deserves a case.



Fitger Brewing Co. DULUTH MINN.

AT THE BATTLE OF GETTYSBURG —A— GABLER PIANO

Took Part in the Engagement.

A ball was fired into it and lodged there. It is there yet, but the piano is musical and plays remarkably well just the same.

GABLER PIANOS are not made of Harveyized Steel, nor are they constructed for war purposes; but this incident shows their great value after many years of use, even when subjected to such severe treatment.

You will have a piano to mention in your will if you purchase a GABLER.

We will sell Gabler, Howard and Cameron Pianos at reduced prices. The same are not damaged, but were shipped as samples and we must dispose of them. Cash or Easy Payments.

We are factory representatives.

Send for our catalog.

THE SUPERIOR MUSIC CO.

618 Tower Avenue, SUPERIOR, WIS.

A WOMAN'S APPEAL

To all knowing sufferers of rheumatism, whether muscular or of the joints, sciatica, lumbago, backache, pains in the kidneys or neuralgia pains, to write to her for a home treatment which has repeatedly cured all of these tortures. She feels it her duty to send it to all sufferers FREE. You cure yourself at home as thousands will testify—no change of climate being necessary. This simple discovery banishes uric acid from the blood, loosens the stiffened joints, purifies the blood, and brightens the eyes, giving elasticity and tone to the whole system. If the above interests you, for proof address Mrs. M. Summers, Box R, South Bend, Ind.

Mrs. Williams of the power house spent Wednesday in Duluth.

D. L. Bishop served as a juror at the municipal court this week.

C. F. Olsen was a Duluth visitor Wednesday.

J. E. Nelson has been on the sick list during the week.

Alfred Anderson, 18 yearsold, met with what might have been quite a serious accident. While hauling a load of ties down a steep grade the ties slipped off the sleigh and throwing Anderson off the load. Some of the ties fell on him and bruised him up quite severely, which will lay him up for a few days.

J. H. Crowley of Duluth was a Fond du Lac caller Thursday.

E. B. Glass was a business visitor in Duluth Thursday.

Park Rapids

Park Rapids, Minn., Jan. 11.—(Special to The Herald.)—C. A. Lewis was a business visitor at Akeley Tuesday.

Mrs. T. A. Jack is home from Fargo for a visit with friends.

George Schoneberger started for Oregon the first of the week, where he expects to be located for some time.

The hCarles Arnold home was the scene of a pleasant gathering Saturday evening when a party of friends called to pass a few hours at cards.

The business of the Park Rapids cigar factory has been increasing of late, and Mr. Longguth has found it necessary to employ more help.

Corwin Myers spent the holiday vacation assisting his brother, Rob, on his farm in Lake Alice, and on Sunday walked in to take up his work at the opening of school.

Vivian Parks came home from Leonard Saturday, where he spent the holidays with relatives. He was accompanied home by his cousins, Herbert and Mabel Parks, who will attend school here.

W. Vanderlip received a remembrance from the Baldwin Piano company Christmas that is something especially nice. It is a cut glass ink well mounted on a bronze base.

School opened Monday for the winter term. In the fourth grade Miss Wiseley succeeds Miss Eloise Smith as teacher, Miss Smith having resigned to accept a position at Brainerd, her home town. The other teachers employed are the same as at the opening of the school.

Mrs. Hillestad, daughter of Mr. and Mrs. Smyth, has been very sick during part of the week, her trouble being rheumatism of the heart. Mr. Hillestad was called back from Bigfork, where he had gone to attend to business matters, and has made arrangements for taking Mrs. Hillestad South as soon as her condition will permit. An experienced nurse arrived from the Twin Cities nSturday to take care of her on her trip.

J. R. Personette went to Moose Plane Monday to attend the funeral of a relative.

Arthur Campbell, Earl ossman and Arthur Lovdahl have returned to the university to resume their studies.

Mrs. A. S. Parks was called to Vernale Monday morning by the sudden illness of her mother.

Mrs. Cockran will entertain the ladies of the Catholic Aid society at her home Thursday of next week.

County Treasurer Bouck and family returned home from a visit with relatives in Wisconsin last Friday.

Mr. and Mrs. Ira Bartlett have returned home from a visit with relatives at Hewitt. Their son Frank came home with them.

The Park Rapids ice houses are being filled wit han exceptionally good grade of ice this month. It is about eighteen inches thisk and entirely free from snow.

Mrs. F. A. Vanderpoel returned home from Aurora Saturday, where she had been visiting at the home of Mr. and Mrs. C. G. Vanderpoel.

Fred Long, George Wilkins and A. M. Wilkins will open a wood and coal yard at once. The firm will also handle building material, such as cement, brick, hair and lime.

The county commissioners have been in session since Tuesday, and will probably continue until Saturday.

Rev. W. F. Milliken will preach his farewell sermon at the Baptist church Sunday, and on Tuesday will leave for his new home in Colorado.

The members of the Park Rapids fire department met at the hall Wednesday evening and held their annual meeting. Reports were read and officers elected for the the ensuing year. S. D. Harlow, W. M. Taber and George Hughes were appointed a committee on general arrangements for the firemen's tournament, to be held here in the summer.

Elmer Walling, who was assisting his father in the drug store during the holidays, returned to Minneapolis Monday.

The Ladies' Aid of the M. E. church will be entertained by Mrs. Rhodes Jan. 16.

C. W. Howe arrived last evening with his goods from Arkansas, and the family is gladly welcomed back to Hubbard county again.

Mr. and Mrs. Schemerhorn left on Saturday morning for Portage, Wis., in response to a telegram announcing the serious illness of their daughter there.

Representative Bills was a visitor at the Twin Cities from Saturday until Monday.

Carl Fuller has been home from Aberdeen, S. D., this week, enjoying a short vacation.

W. M. Taber went to Devils Lake Monday to attend a meeting of the stockholders of the Devils Lake Improvement company.

Ironwood

Ironwood, Mich., Jan. 11. — (Special to The Herald.)—Mrs. L. Parsons, who has been visiting friends and relatives at Marquette for some time past, returned home Thursday.

Mrs. J. J. Fitzgerald and daughter, Leon, who visited relatives at Ashland last week, returned to Ironwood, Sunday.

The large number of men recently laid off at the various mines in this vicinity, seems to have caused dissatisfaction among them, and it it thought, might prove dangerous. On this account two more patrolmen have been appointed, in case of an unusual emergency. For the last two weeks the trains have been crowded with large numbers of the foreign element leaving Ironwood for locations in the West and Northwest, with better propects of work and living.

Mrs. William Donovan and daughter Florence, who have been visiting Mr. and Mrs. Pat Donovan during the past two weeks returned to their home at Negaunee, Saturday.

T. J. Grubb of Marquette was in the city Monday visiting friends and attending to a few business transactions.

C. W. Carhart of Fon du Lac was in Ironwood, Monday and Tuesday, visiting friends.

Frank Boch of Milwaukee was in the city attending to some business affairs, Thursday.

Patrick Meyers came up from Merrill, Monday, to spend a visit with old friends.

Mrs. F. Rice of Minocqua visited friends and relatives in Ironwood, Monday and Tuesday.

W. E. Olson of Duluth was in the city transacting business Tuesday.

Peter Grudell of Negaunee was visiting old friends in Ironwood, Tuesday and Wednesday.

A fire caused by the camlessness of a boarder placing a lighted candle on a stove and failing to extinguish it before he fell asleep, resulted in an Austrian residence at Jesseville being burned to the ground. The inmates luckily escaped without injury, but the firemen could do nothing to extinguish the flames, the house being on an elevation and was exposed to a brisk wind.

S. Rice of Bessemer was in the city Wednesday visiting friends and transacting business.

J. S. Miller of Ashland was in Ironwood looking up a number of business affairs Thursday.

Sheriff Michael McGeehan of Hurley, who was charged with having released a prisoner, one John McCarthy, before his sentence was completed, was acquitted at his trial in the municipal court at Hurley Saturday. Mr. McGeehan had obtained Attorney Shea of Ashland to defend him. Mr. Shea showed the hollowness of the charge in a convincing talk which was not answered or denied. Mr. McGeehan was then released from the charge.

E. A. Stewart of Antigo was in Ironwood transacting business Thursday.

A fire broke out in the kitchen of the Northwestern restaurant on Ayer street at 4:30 Thursday morning, resulting in serious damages being done to the rear of the building. After an hour's work the fire department succeeded in extinguishing the fire. The cause of the fire is thought to have been from overheated pipes, and being in the non-resident portion of the building it had gained considerable headway.

M. Shea of L'Anse was visiting friends in the city during the former part of the week.

James McRae of Rhinelander was in the city looking after a number of business affairs Tuesday and Wednesday.

The majority of the young people who came home from the various schools to spend the holidays returned again Saturday and Sunday.

Mrs. La Blond and daughter, Stella, who spent the past three weeks visiting Mrs. La Blond's son, Charles, and wife of Antigo, and daughter in Washington, returned home Tuesday.

Joseph Zegowski, who has been working at Antigo, returned home Wednesday.

All business concerns of this city closed for two hours Thursday afternoon, during the funeral services of Capt. William Thomas.

Miss Mabert Sampson, who spent last week enjoying a visit with friends and relatives at Ashland, returned home Sunday.

The first real snow blizzard for the winter raged in Ironwood Thursday, which will afford the longed for opportunity of the woodsmen to remove their products from the forest. The New Port Mining company are also preparing the ice roads leading to their timber districts over which they will run their enormous sleighs drawn by the ice engine, which was removed to the vicinity of the logging roads this week.

GARIBALDI IS LOCKED OUT.

Former Wife Slams Door in His Face at Old Home.

Rome, Jan. 10.—The Garibaldi family is engaged in a very squalid dispute. Gen. Garibaldi married twice, and the second wife, who has survived him, has quarreled with his children by the first wife because she insisted on keeping the ancestral home at Caprera. The other day Gen. Ricciotto Garibaldi went with his wife to the island and proposed to pay a visit to the room where his father died. When he arrived, however, he found the door shut in his face, and he received an intimation from Mrs. Garibaldi, senior, that if he attempted to come in he would be ejected by force.

The general thereupon collected a number of people as witnesses, and again demanded admission, with the same result as before. He next lodged a complaint at the police station, preparatory to the commencement of a suit to have Mrs. Garibaldi evicted from his father's house and the house taken over by the country as a national monument. This suit will bring to light the financial squabbles of the Garibaldi family, which will not be very edifying.

The hostile press, both in this country and in Italy, has teemed of late with suggestions that the recent encyclicals, especially that dealing with modernism, were inspired by the cardinal secretary of state or other influences. These persistent reports having reached the ears of the pope, he has caused a statement to be issued denying them absolutely, and causing it to be known that these documents were due entirely to his own initiative.

Lame Shoulder Cured.

Lame shoulder is usually caused by rheumatism of the muscles and quickly yields to a few applications of Chamberlain's Pain Balm. Mrs. F. H. McElwee of Bolstown, New Brunswick, writes: "Having been troubled for some time with a pain in my left shoulder, I decided to give Chamberlain's Pain Balm a trial, with the result that I got prompt relief." For sale by all druggists.

If You Can't Come to Duluth Shop By Mail

Perhaps you need something badly, but don't feel like making a special trip to Duluth just to get one or two articles; or perhaps you live too far away to make the trip just when you feel this special need.

NEWS OF THE NORTHWEST

MINNESOTA

FOUL CRIME AT NEW ULM

Aged Recluse is Brutally Murdered in Heart of Town.

Robbery Evident Motive and Local Parties Are Suspected.

New Ulm, Minn., Jan. 11.—(Special to The Herald.)—Chris Walher, an aged recluse, living in a small shack in the center of the town, was found dead Thursday. He had been killed by a terriole blow on the head, evidently the work of robbers who had later ransacked the house. The murder has caused intense excitement.

Two Twin City detectives have arrived and are trying to unravel the murder. The sheriff, chief of police and other officers went to the scene of the crime, but found no clues of importance. It is believed that at least two persons committed the murder and that robbery was their motive. The cellar of the house where Walher kept his papers, and probably his money, will be searched this afternoon. A coroner's jury has been selected, but no verdict may be returned for several days. Profiting by the experience in the Gebhardt case, the verdict will be kept open until the officials and detectives admit their inability to solve the crime.

In Settled Section.

Walher's house is located six blocks away from the center of town in a thinly populated residence district.

Nothing had been seen of the hermit by his neighbors for several days. Carl Fritz, who lives in a nearby house, informed the police of the fact that Walher had not been seen in his accustomed haunts, and Chief of Police Klause and Coroner L. A. Fritzsche investigated.

Walher was found dead on the floor of his bedroom.

Everywhere in the small house were the evidences of the terrible struggle which Walher had waged with his unknown assailants, as the police believe that two men were concerned in the crime. The furniture in the rear room, where the body was found, was broken, drawers were torn out and even the clock destroyed. The mattress was almost torn to pieces.

Walher's body was partially disrobed, indicating that the man was about to retire when the intruders came to bring him death.

The coroner believes that the crime was committed over forty-eight hours before its discovery, basing his opinion on the condition of the body. The wound which caused death was a terrible contusion which, however, did not fracture the skull, and was probably the result of a blow from a slungshot or billy.

Walher was known as a man of some means and it is learned that he had money in the banks until the recent financial disturbances caused him to lose confidence and withdraw his savings in currency which he is supposed to have kept at his home and which was undoubtedly the object of the robbers, who became murderers, sought in their night quest. The exact sum taken is thought to be about $300.

The fact that the withdrawal of the money was known only in the vicinity of the crime leads to the theory that the murder was committed by local men.

FARMERS' CLUB MEETING

Held at Meadowlands, a Fine Program Being Rendered.

Meadowlands, Minn., Jan. 11.—(Special to The Herald.)—The Farmers' club held its regular meeting at McMaster's store, Saturday, Jan. 4. Besides the acting president, W. K. Thompson, and Secretary John N. Tidd, there were about thirty present. The club meets every first and third Saturday in the month. All are most cordially invited to attend, and the main purpose of the club is to promote, socially, interest in farm work, to learn something in a literary way, and to be entertained.

The president appointed a committee of two for each meeting, who prepare the program, which is announced one meeting ahead, so that all can know what is to be expected. There was such a very large increase in attendance that it promises well for the future.

All subjects are open for discussion.

Committee—Miss Hazel Tidd and William R. McMasters.

The program was as follows:

"An Impromptu Speech on Christmas Shoppers" .. ..
William R. McMasters.

Selections on the Graphaphone .... Joe Miller.

A paper on "Soils" .. ..
Mr. Thompson.

Selections on the Graphaphone .. ..

Selections from James Whitcomb Riley .. ..

"A Liz-town Humorist" .. ..
Miss Arnold.

A talk for the girls on "Leap Year"
William R. McMasters.

Selections on the Graphaphone .. ..

TWO COUNTIES DISCUSS DIVISION OF THEIR DEBTS.

Bemidji, Minn., Jan. 11.—(Special to The Herald.)—The board of county commissioners of Clearwater county, together with the auditor and the county attorney of that county, came to this city Thursday night for the purpose of discussing with the county board of Beltrami county the claim made by Beltrami county that, at the time Clearwater county was formed, Jan. 1, 1903, there was an indebtedness, a portion of which should be assumed by the new county of Clearwater.

The object of the present conference is to come to some amicable agreement as to the payment of the indebtedness, if possible.

MRS. BETSIE ROSEN OF CASS LAKE DEAD.

Cass Lake, Minn., Jan. 11.—(Special to The Herald.)—Mrs. Betsie Rosen, aged 67, died Wednesday morning after a brief illness. Mrs. Rosen is survived by a son and eight daughters. The funeral will be held from the M. E. church Sunday, and the remains interred in the Cass Lake cemetery.

A son was born to Mr. and Mrs. J. E. Caldwell Wednesday.

MINNESOTA

GOOD SHOWING

By Meadowlands Sunday School for the Past Year.

Meadowlands, Minn., Jan. 11.—(Special to The Herald.)—The Sunday school of the Union church here, was started in September, 1906, and met at the school house every Sunday until Christmas of that year.

It began again in April, 1907, with J. B. Tidd as superintendent, Andrew Nelson, assistant superintendent; Miss Hazel Tidd, secretary and treasurer, and Mrs. R. G. Black, organist.

Last Sunday the treasurer read the report for the year 1907, and for a district like Meadowlands, where the settlers are scattered and some have to walk two or three miles, the following report is very satisfactory.

Annual report from April to December, 1907; Class No. 1—Teacher, W. R. McMasters; total attendance, 227; average, 6; total collection, $11.17; average, 33 cents.

Class No. 2—Teacher, Miss Arnold; average, 8; total collection, $7.10; average, 26 cents.

Class No. 3—Teacher, Mrs. R. Black and Mrs. George Wood; total attendance, 239; average, 7; total collection, $3.12; average, 10 cents.

Total collection for entire Sunday Sunday school, $23.83; average, 70 cents.

For the year 1908, E. C. Speese is assistant superintendent, and Mrs. George Wood, organist.

FARMERS' MUTUAL COMPANY

Had No Fire Losses During Past Year and Prospers.

Bagley, Minn., Jan. 11.—(Special to The Herald.)—The Farmers' Mutual Fire Insurance company, a Clearwater county organization, held its annual meeting here yesterday for the purpose of electing officers and transacting other business.

The following officers were elected: John Wick of Nora, president; H. J. Holst of Bagley, secretary; Christ Larson of the town of Shevlin, treasurer.

The company was organized four years ago and has had a successful business. The report of the secretary shows that the company has $107,000 insurance in force, which is an increase of $21,000 over the previous year.

The company had no fire losses during 1907.

MISSING MINNEAPOLIS MAN,

Who Fled From Home in October, May be Alive.

Minneapolis, Jan. 11.—(Special to The Herald.)—William Gloyd, the Minneapolis dentist who fled from his home, 314 Twelfth avenue southeast, at 3 o'clock the morning of Oct. 29, without clothing, and supposedly suffering temporary dementia from grief over the accidental shooting of his cousin, G. H. Manhart, a drayman of Northfield, may still be alive.

Mrs. Gloyd has received information from B. M. Mahland, postmaster of Brinson, Minn., that a man who may be her husband, had stopped over night Monday at a hotel in Brinson which he conducts. Efforts were made to detain the stranger until investigation could be made leading to his identification, but he insisted on departing Tuesday, stating that he was bound for the North.

NORTHERN PACIFIC PAYS.

St. Paul, Minn., Jan. 11.—(Special to The Herald.)—The Northern Pacific has paid $11,880.63 into the state treasury, the 5 per cent penalty demanded by State Treasurer Dinehart on a part of the company's 1904 taxes, which were not paid till after March 1, 1905, and so became delinquent.

MINNESOTA IN BRIEF

Pine City—The annual meeting of the Royal Co-operative Creamery Company of Greeley was held at the town hall on Jan. 6, and the following were elected as officers for the ensuing year: President, Gust Lindstrom; vice president, Henry Rohlf; manager, Fred Sturmer; secretary, Henry Studt; treasurer, John Johnson; trustees, John Boeck, Fred Grote, Frank Cort.

Mora—The Mora fire department met last Tuesday night in annual meeting and elected officers as follows: Chief, C. R. Williams; captain, S. D. Mellhargey; first lieutenant, Victor Peterson; second lieutenant, B. A. Baldowsky; secretary, Willis Fairbanks; treasurer, Karl Williams.

Moorhead—After having hung fire for something like a year, the controversy between the Northern Pacific Railway company and the town of Riverton, over the matter of crossings in the vicinity of Stockwood, was finally brought to an amicable conclusion Thursday.

Wadena—Willis Coleman and Ira Parks of Inman township, killed two bob cats the other day. After a light snowfall they saw the tracks of the animals and followed them to a swamp. They came upon an entire family of bob cats, and a fierce fight took place between the dogs and the cats. Finally the men were able to shoot, and two of the cats were killed with buckshot.

Rochester—Martin V. Rowley, one of the best known citizens of Rochester, died suddenly at his home Tuesday night. Mr. Rowley was born in Steuben county, N. Y., on March 8, 1838, and thus lacked just two months of being 70 years of age. He moved to Rochester in 1864, where he pursued the trade of blacksmithing.

East Grand Forks—Fire about 3 o'clock Thursday morning gutted the saloon of Chris Engen and damaged the restaurant belonging to Engen, locater next door. The building was damaged to the extent of $1,000, and the loss on the saloon fixtures and stock is about $2,000. The losses are covered by insurance.

Little Falls—Nathan Richardson, one of the early settlers of Morrison county and a former member of the legislature, died Thursday. He is survived by three children, Mrs. William Harker, Wyndmere, N. D.; Martin M. Richardson, Spokane, Wash., and Francis A. Richardson.

St. Paul—Hugo G. Jansson is suing the Minnesota Transfer railroad for $50,000 damages as the result of being run down by an engine while in the employ of the company. The injuries received necessitated the amputation of both arms. He is 18 years old, and the action is brought by his guardian.

Minneapolis—Paderewski will be the soloist of the next regular concert of the Minneapolis Symphony orchestra, which will be given Friday evening, Jan. 17, in the Auditorium.

St. Peter—Irene Gilbertson, 18 years old, of Traverse township, narrowly escaped a dreadful death. She accidentally overturned a kerosene lamp and was dangerously and perhaps fatally burned by the blazing oil, which set her clothing on fire.

Mahomen—Mrs. Lena Nicholas died mysteriously at the Brisbois hotel here. Foul play was at first suspected, but the coroner held an examination and reported that death was caused by quick consumption.

St. Cloud—Deputy Labor Inspector Paul B. Friedlander has been adjudged insane in the probate court in this city and sent to Fergus Falls. Friedlander was appointed labor inspector last August.

WISCONSIN

TWO CRIMES ARE CHARGED TO HIM

Woodsman Arrested for One Killing, May Know About Another.

Marinette, Wis., Jan. 11.—(Special to The Herald.)—Paul Conow, a woodsman and miner, 32 years of age, was arrested in Camp No. 2 of the Girard Lumber company, near Dunbar, charged with the murder of Michael Campbell, a homesteader, near Florence, last Friday night. The arrest was made by Sheriff Wismer of Florence and Officer Lundgren of Iron Mountain. Conow made no resistance, and was driven over the country to Iron Mountain and taken to Florence.

Peter Rassmussen, an Iron Mountain man, was killed last fall as he was riding along the North-Western tracks on a railroad bicycle. His body was found riddled with buckshot, and it is now believed that Conow knows something about this crime also.

TWO KILL THEMSELVES.

Suicide of Merchant Follows That of Woman Friend.

Iola, Wis., Jan. 11.—The body of O. F. Gullickson, a hardware merchant well known in this vicinity, was found in a buggy four miles west of this city.

A recently discharged revolver was lying on the seat beside the corpse, and a bullet hole in the temple bore testimony as to the nature of the death. The coroner's jury returned a verdict of suicide. Miss Carrie Madsen, aged 23 years, a resident of Waupaca, committed suicide in that city last Saturday and was buried there Wednesday. Gullickson and the girl are said to have been friends.

MILWAUKEE HAS GGRIP.

Unusual Number of Cases Reported in Cream City.

Milwaukee, Wis., Jan. 11.—(Special to The Herald.—Old Gen. Grip has lined up his forces with intelligence in Milwaukee and already wrought havoc in the ranks of opposing humanity. Regardless of where he strikes, capital and labor alike have been laid low. In many instances a blow to the latter hits with equal impact the former. In an engraving plant on Third street, twenty employes have been kept from their duties for a week. This has necessitated operations each night until midnight to keep up with business demands. Employers everywhere are complaining of losing their best workmen, who have fallen victims to the too common winter ailment and physicians list of grip calls—it's just plain grip without the prefix "la"—are increasing daily.

WISCONSIN IN BRIEF

Iron River—Brownstone lodge, I. O. O. F., and the Rebekah lodges, of this city had a joint open installation of officers Wednesday night at the Odd Fellows' hall. Following the installation a fine supper was served to all the members of the order and scores of invited guests.

Ashland—The Eagles held an oepn installation of officers Wednesday night. The attendance of members and the families was large, and after the formal ceremony the meeting resolved itself into a social. The Eagles leased their present large and commodious hall something like a year ago.

Manitowoc—Unable to secure any liquor because the common council had "posted" him, and shamed and mumiliated by the stigma, John Pollock committed suicide by hanging himself in a barn on his premises. Pollock's name was placed on the list of those whom saloons are forbidden to supply liquor.

Plymouth—Mr. Rokow, who conducted a saloon and bowling alleys in Sheboygan, was accidently shot by his companion, August Hoehne, while hunting rabbits in the town of Greenbush. The whole top of his head was blown off by the discharge, and death was instantaneous.

Manitowoc—Branch, a station west of here, has filed a complaint against the Northwestern road with the state railway commission, objecting to the removal of the telegraph operator and the closing of the saloon.

Marinette—James Duket was sentenced to one year at Waupun upon a charge of wife desertion. Duket offended three successive time, and was last caught in Milwaukee where he was arrested by Sheriff Knell. Frank Neuman was sentenced to two years in Waupun upon a charge of burglary.

DR. AMOS PRESIDENT.

Owatonna Man Honored by State Veterinary Medical Association.

St. Paul, Minn., Jan. 11.—(Special to The Herald.)—The annual meeting of the Minnesota State Veterinary Medical association was concluded with the election of officers and papers. A clinic was held at the infirmary of Dr. C. E. Cotton in Minneapolis, for which most of the members remained.

Officers were elected as follows: President, Dr. W. Amos of Owatonna; first vice president, Dr. C. E. Cotton, Minneapolis; second vice president, Dr. A. F. Lees, Red Wing; secretary and treasurer, Dr. C. A. Mack of Stillwater; directors, Dr. G. E. Leech, Winona; Dr. J. N. Gould, Worthington; Dr. R. La Point, Le Sueur.

CLEARWATER COUNTY BOARD DOES BUSINESS.

Bagley, Minn., Jan. 11.—(Special to The Herald.)—The annual meeting of the board of county commissioners of Clearwater county has ended after a session of two days, during which much business was transacted with promptness and dispatch.

The board organized by re-electing Julius Stromme of the town of Hoist as chairman, which position he has occupied for three years prior to this, and Eric Erickson was chosen vice president.

The county printing for 1908 was awarded to the Bagley Independent.

Dr. L. L. Mayland of Bagley was chosen as county physician for the ensuing year.

A large batch of bills were allowed, and much routine business was transacted, the board adjourning yesterday afternoon.

UPPER MICHIGAN

VALUES WOUND VERY SLIGHTLY

Injured Party Offers to Drop Prosecution for $35.

Ishpeming, Mich., Jan. 11.—(Special to The Herald.)—Ed. Raymond, who was shot Tuesday afternoon by Joe Tempera, would like to settle the case out of court. He sent word to his assailant's father that he would drop the case for a consideration of $35 cash. Young Tempera, however, says: "Raymond will never spend any of my money; I will take a term in jail before I will give him the satisfaction of having a good time at my expense." He advised his father to let the case come to trial, also to have Raymond arrested.

The father is worried over the affair and would like to get the boy out of jail. He says that he has eleven children, and that Joe is the eldest, and the only one working. Joe has been working at the mines since he was 13 years of age, and, according to the father, had lost but three days in the past three years.

The boy has a clean record and the officers say this is the first time he has been in trouble of any kind.

WILL PAY IN CASH.

Negaunee Mich., Jan. 11.—(Special to The Herald.)—The pay days at the mines in Negaunee will start next Wednesday, when the Cleveland-Cliffs Iron company will pay at the Negaunee, Maas and Jackson mines. The Cleveland-Cliffs company will this month pay in the usual way, discontinuing the use of cashiers' checks. It is expected that the other mining corporations will do likewise.

PENINSULA BRIEFS

Calumet—There is likely to be one change in the directors and officers of the Calumet Mutual Fire Insurance company. It is understood that practically all of the retiring directors, nine in number, will allow their names to be brought forward with exception of the president, William H. Hosking, who is residing in San Francisco.

Hubbell—Capt. George Millar, who has been mentioned as candidate for sheriff in Houghton county at the next election squelched all the attempts of his friends to boom him for the office when he stated positively that he would not in any circumstances become a candidate.

Houghton—At the annual meeting of the Houghton County Agricultural association the following officers for the ensuing years were elected: President, Robert H. Shields; vice president, T. A. Green; secretary, John T. McNamara; assistant secretary, Samuel Eddy; treasurer, Charles H. Moss; directors, Michael Messner, Sr., Wesley Clark, Donald Grant and A. J. Scott.

Hancock—W. J. Holman of Duluth is spending a few days in this city, the guest of his parents, Mr. and Mrs. Peter Holman.

Houghton—The funeral of the late Mrs. Dolpheus Brunelle of Chassell, who died Tuesday, was held Friday morning from the Catholic church at Chassell at 10 o'clock. Interment was at Forest Hill cemetery, Houghton.

Hancock—James Carrigan has returned from Butte, Mont., where he has spent a number of months, and will remain on an extended visit with his parents, Mr. and Mrs. Samuel Carrigan of this city.

Marquette—John Nelson, an employe in the bridge gang of the South Shore road, is at St. Luke's hospital suffering with a fracture of the leg below the knee, due to an accident with which he met near Au Train.

Negaunee—The fall of snow Wednesday permitted a general return to sleighing. A number of the business firms of the city brought out their wagons Tuesday, but there is now fairly good sleighing.

Houghton—Mrs. W. J. Moir of Houghton, president of the Ladies' Auxiliary of the Portage Lake Baptist Church of Hancock, has been presented with a cut-glass water set in recognition of her work for the church.

NEW COUNTY A FACT.

Contest Against Creating Mahnomen Has Been Dropped.

St. Paul, Minn., Jan. 11.—(Special to The Herald.)—C. D. O'Brien, attorney for Gus H. Beaulieu, relator in the quo warranto proceedings instituted to test the validity of the creation of Mahnomen county out of the eastern portion of Norman, has had the proceedings dismissed by the supreme court at the request of his client. This means that the new county becomes a fact. Objection was made to the legality of the creation of the county, that not sufficient signatures had been obtained to the petition for its creation and the law has been held up by the interposition of technicalities.

Bemidji, Minn., Jan. 11.—(Special to The Herald.)—County Auditor John W. Carl of Mahnomen county, who was here this week, said the proceedings against the creation of the county had been dropped.

Mr. Carl stated that the Mahnomen board of county commissioners held their annual meeting this week, convening on Tuesday and adjourning yesterday, until two weeks from today.

The Mahnomen "Plain Talk" was made the official newspaper for the ensuing year.

BEMIDJI KNIGHTS ELECT.

Lodge Had No Deaths Last Year and is in Good Shape.

Bemidji, Minn., Jan. 11.—(Special to The Herald.)—The local lodge of the Knights of Pythias has installed officers for the ensuing year as follows: Chancellor commander, G. A. Walker; vice chancellor, D. D. Miller; K. of R. and S., A. E. Harris; M. of F., M. A. Clark; M. of W., F. H. Slipp; M. of A., A. Otto; I. G., Joseph Harrington. H. C. Calvert, prelate, and J. E. Patterson, outside guard, were absent, but will be installed at the next meeting.

The annual report showed that the Bemidji lodge is in excellent condition; that the finances are in a healthy condition, and that, in point of attendance, the lodge has made a gratifying showing during the past year.

There was but one death among the members during 1906—William H. Roberts of this city.

DAKOTAS

PRESIDENT HALL ON SOCIETY ROW

Head of Norih Dakota Department Blames Everett for Trouble.

Minot, N. D., Jan. 11.—(Special to The Herald.)—M. O. Hall, president of the North Dakota department of the American Society of Equity, in discussing the trouble within the national organization, which has resulted in the arrest of President Barnett on a charge of criminal libel, preferred by Former President J. A. Everett, said:

"Mr. Everett is the founder of the organization and the originator of the idea upon which the society is based. At the last national convention various charges were preferrtd against Mr. Everett as president of the society, and one by one the delegates began to drop away from him. I was one of the last to maintain that Everett was right, but the movement against him became so strong that we all decided that the best thing to do was to elect an entirely new set of officers. This we did.

"Everett and a few of his personal friends got together in a room in Tom Taggert's hotel in Indianapolis and elected themselves officers of the society, with the idea that should the new set make a fizzle of the society they would accede to the throne and go on with the work. The delegates thought that this was unprecedented and uncalled for, and that it was no more justified than if President Roosevelt, after someone else had been elected president of the United States, should declare himself the real president."

RAILROADS AND FARMER.

Their Relations to be Discussed by James J. Hill.

Grand Forks, N. D., Jan. 11.—(Special to The Herald.)—Invitations have been sent to J. J. Hill, Senators Hansbrough and McCumber and Representative Marshall, to speak at the Farmers' Institute, which will be held in this city for two days, commencing Jan. 28. Mr. McCumber will be asked to speak on "The National Control of Elevators;" Mr. Marshall on "Denatured Alcohol;" Senator Hansbrough on "Grain Rates," and Mr. Hill will be asked to discuss the "Relation of the Railroads to the Farmer." The professors of the agricultural college will, of course, be preesnt to conduct the practical side of the work, and several interesting talks are expected from them. Prof. Worst may give a talk on his recent trip to Europe, where he studied the farming methods of France and Holland.

NORTH DAKOTA DELEGATES

To Missouri Navigation Congress at Sioux City, Iowa.

Bismarck, N. D., Jan. 11.—(Special to The Herald.)—Governor Burke has appointed the following as delegates to the first annual convention of the Missouri River Navigation congress, to be held at Sioux City, Iowa, Jan. 22 and 23: John Satterlund, Washburn; Herman Nelson, Nesson; John Bruegger, Williston, Joseph Jackson, Williston; Isaac P. Baker, Bismarck; W. H. Robinson, Mayville; W. H. Brown, Mandan; Adam Sailer, Mannhaven; George H. Bingenheimer, Mandan; J. W. Bell, Bismarck; Fred Cotton, Braddock; T. L. Mackey, Garrison; A. D. Gaines, Oliver county; Theodore Landmann, Washburn; G. B. Metzer, Williston.

"SPOTTER" LAW BEATEN.

Bismarck, N. D., Jan. 11.—(Special to The Herald.)—The state supreme court, in refusing to take jurisdiction in the mandamus proceedings started by County Treasurer McDonald of Grand Forks county to compel State Auditor Holmes to draw warrants to pay blind pig "spotters," has in effect declared the law illegal. The decision is a stunner for the temperance people, who claim it is impossible to secure evidence without the services of "spotters."

DAKOTAS IN BRIEF

Grand Forks, N. D.—The Brotherhood of Owls has elected the following officers, who will be installed next Wednesday evening: Executive, F. B. Wadsley; vice executive, Clarence E. Carr; vicar, H. Lauraent; secretary, L. F. Barthelemy; treasurer, W. M. Baldwin; trustees, S. H. Ashley, J. W. Ross, Joseph Lobsinger; nest physician, Dr. H. O'Keefe; master of the nest, W. J. Higgins; warder, E. A. Kannolt; sentinel, F. H. Potee.

Fargo, N. D.—Joseph Simon, a merchant living at Fargo and transacting business at Warren, N. D., has filed a petition in bankruptcy in the United States court. His liabilities are placed at $2,717 and his assets at $2,766, of which $2,500 are exempt.

Bathgate, N. D.—The board of directors of the asylum for the blind at Bathgate formally accepted the new building at the meeting Wednesday. Dinnie Bros of Grand Forks had the contract for the building and Spriggs Bros. for the heating plant. Architect Joseph Bell De Remer designed the building. The board is well pleased with the structure.

A Reliable Remedy for the Whiskey and Beer Habit

Very few men become drunkards because they like liquor. It is frequently the moderate drinker, who before he realizes his condition, has become a drunkard. The nervous system, having become accustomed to stimulants, is unable to do the same amount or quality of work without liquor, hence the victim drinks more and more. This is a state of disease and should be treated by Orrine. It destroys the desire for liquor, so that the drink is not missed. There is no loss of time or detention from work when it is used.

Orrine is prepared in two forms: No. 1, the secret remedy which can be used in food or drink without the knowledge of the patient. No. 2 for those who take the remedy of their own free will. Both forms are guaranteed. A registered guarantee in every box.

Treatise on how to cure drunkenness free on request. The Orrine Co., Washington, D. C. The price of either form is $1 a box, making the cost of the complete cure less than one-tenth what it is usually charged at sanitariums, with a guarantee that the expense will be nothing unless a cure is gained. Mail orders filled in plain sealed package on receipt of price.

Orrine for sale by F. W. Kugler & Co., 108 West Superior street, Duluth.

NEPOTISM IN SENATE

Determined Effort is to be Made to Root It Out.

Department Store of the Senate Also to be Closed Up.

FROM THE HERALD WASHINGTON BUREAU.

Washington, Jan. 11.—(Special to The Herald.)—The annual report of the secretary of the senate tells the same old story of nepotism in the senate, and instead of showing an improvement the condition seems to have grown worse. Some of the senators have seriously discussed the advisability of making the question of nepotism a rule of ethics in that body which cannot be violated by a senator who hopes to retain the respect of his colleagues. The senate has been under fire for the past two or three years, and for muck-rakers it has proved to be a shining mark for more than one shaft. That dignified body is not likely to be spared future attack along this line if it gets down to such petty grafting as loading down the payrolls with members of senatorial families and personal retainers. When a man like Jeff Davis of Arkansas comes to Washington on the announced mission of reforming the senate and then proceeds the first thing to put his two daughters in the only two places allowed him as minority patronage, it must be confessed the outlook for reform is not hopeful. When the vice president of the United States put his own son on the payroll and keeps him there for months, while he renders no service or until publication of the fact causes him to drop him and explain in a card to the newspapers that the appointment was only temporary, it looks as if the movement for reform in the matter of senatorial nepotism was not making headway. Here is the list for this year:

E. R. Berry, son of Senator Berry of Alabama, clerk to his father's committee on the remnant of the term last year; J. F. Allee, Jr., of Delaware, clerk to the committee of his father during the remnant of the latter's term last year; B. R. Tillman, Jr., clerk to a committee of which his father was chairman for a portion of last year; L. H. Martin, a relative of Senator Martin of Virginia, clerk of the senator's committee; John W. Daniel, Jr., clerk to his father's committee, the latter being senator from the state of Virginia and chairman of a committee of minor importance; James Blackburn, brother of Former Senator Blackburn of Kentucky, now a Panama canal commissioner, clerk to the committee on minority conference of which Senator Blackburn was chairman; L. M. Hemenway of Indiana, clerk to the committee on University of the United States, of which Senator Hemenway of Indiana was chairman. "L. M. Hemenway" proves to have been the senator's daughter, who made her debut in Washington society last year at the residence of the vice president, and under the patronage of Mrs. Fairbanks; D. W. McEnery, brother of the senator from Louisiana, clerk of the minority committee of which the Louisiana senator was chairman; there was another McEnery who drew the salary as messenger of the same committee, but the relationship to the Louisiana senator is not disclosed; J. B. Frazier, Jr., laborer, said to be a relative of the senator from Tennessee.

There are many relatives of senators on the payrolls whose names do not indicate the relationship, such for example as wife's relatives. There is a feeling among some of the older senators who are jealous of the traditions of that body that there is too much dickering and trading in senate patronage, some senators apparently regarding the patronage as a purely personal perquisite. For example, an examination of the congressional directory showed that during nearly all of last year the office of messenger to the vice president was vacant. The place is not an important one, paying only $1,400 a year, but it is not explained why the vice president saw fit to keep the names from the public. They are disclosed, however, in the published list of expenditures in the secretary's report. For several months the salary was paid to Thomas Littlepage, a clerk of Senator Hemenway, just why is not explained. Then it was shifted and paid for several months to Ellis G. Darnell, a politician of Lebanon, Ind., who was not in Washington during the time he drew the salary; on Jan. 10, it shifted again and until May 31 was paid to William H. Smith, a Washington newspaper man, who with his son, William Wolff Smith, runs a publicity bureau in Washington. Mr. Smith, the elder, is also the author of "The Life and Speeches of Charles Warren Fairbanks," which the vice president published and distributed to boom himself with a year or two ago. It is the volume in which appears the famous log cabin, in which Mr. Fairbanks was alleged to have been born, but which it is now admitted the vice president drew with his own pen. Shortly after a periodical exposed the Smith book, the vice president was angry at Smith and dropped him from the messenger roll. He had rendered no service to the vice president and never came to the capitol, according to the testimony of the disbursing clerks of the senate, except to draw the salary. "I understand," said one of these officers, "that Mr. Smith was employed at the vice president's residence." It appears that Mr. Smith was at work with his son all the time at the latter's office, and the two were writing special letters to the press from Washington, which were used to point out the vice president's many admirable qualities as a presidential candidate.

A determined effort is to be made to root out nepotism in the senate, and the misuse of the patronage bestowed upon members of that body.

* * * *

Secretary Bennett of the United States senate has taken a wise step. He has ordered that the senate's department store shall be closed up, and the stationery room restored to its legitimate function. When the franking privilege was abolished, some thirty years ago, congress provided for the cost of postage upon mail matter of members of the senate and house by allowing each senator and member $125 per annum with which to provide themselves with stationery, postage stamps and newspapers. A stock of stationery and office supplies was provided at each end of the capitol, and at the beginning of each fiscal year a credit was entered against the names of senators and members respectively in these rooms. At first only real stationery was provided, but in the course of a year or two the stocks were increased by the addition of all sorts of fancy articles, such as toilet sets, ladies' handbags, artistic clocks, and "articles of vertu" by the score.

Then came the raid. Clerks, messengers and doorkeepers soon began to make it a practice, especially during the holiday season, to strike their congressional friends for "orders on the stationery room," and when these were signed they would carry away armsful of "presents," sometimes exhausting the account of the senator or member and running him into debt besides. This was particularly true in the case of Mr. Manzarce of New Mexico, who was seated in the Forty-eighth congress, after a contest. Manzares gave gave orders on the stationery room to every employe of the house with whom he had ever come into contact. When he came to settle he found that his allowance had been wiped out, and that more than a month's salary in addition had been charged against his account with the sergeant-at-arms.

The custom has fallen off in late years, and as a rule members of the house have grown wise enough to draw the entire $125, as soon as they can get it. Then they pay in cash for such stationery as they require—get it from the committee rooms free of charge.

Every time the clerk of the house and the secretary of the senate publish their annual reports, newspaper accounts of the "stationery room sales" are published, and all sorts of amusing or unkind comments are made on the tastes of senators and members in the way of "fancy goods."

Mr. Bennett has determined to put a stop to this, and hereafter no such articles will be obtainable in the senate stationery room. This action will receive the hearty endorsement of Washington tradesmen, as the government buys all supplies at wholesale rates, as cheaply as the retailer, and as every article is sold at absolute cost, the Washington dealer has suffered a heavy loss in his legitimate holiday trade. Mr. Bennett has inaugurated many reforms, and the latest is among the best of his work.

THE VALUE OF CHARCOAL

Few People Know How Useful It is In Preserving Health and Beauty.

Costs Nothing to Try.

Nearly everybody knows that charcoal is the safest and most efficient disinfectant and purifier in nature, but few realize its value when taken into the human system for the same cleansing purpose.

Charcoal is a remedy that the more you take of it the better; it is not a drug at all, but simply absorbs the gases and impurities always present in the stomach and intestines and carries them out of the system.

Charcoal sweetens the breath after smoking, drinking or after eating onions and other odorous vegetables.

Charcoal effectually clears and improves the complexion, it whitens the teeth and further acts as a natural and eminently safe cathartic.

It absorbs the injurious gases which collect in the stomach and bowels; it disinfects the mouth and throat from the poison of catarrh.

All druggists sell charcoal in one form or another, but probably the best charcoal and the most for the money is in Stuart's Charcoal Lozenges; they are composed of the finest powdered Willow charcoal, and other harmless antiseptics in tablet form, or rather in the form of large, pleasant-tasting lozenges, the charcoal being mixed with honey.

The daily use of these lozenges will soon tell in a much improved condition of the general health, better complexion, sweeter breath and purer blood, and the beauty of it is, that no possible harm can result from their continued use, but, on the contrary, great benefit.

A Buffalo physician, in speaking of the benefits of charcoal, says: "I advise Stuart's Charcoal Lozenges to all patients suffering from gas in stomach and bowels, and to clear the complexion and purify the breath, mouth and throat; I also believe the liver is greatly benefited by the daily use of them; they cost but twenty-five cents a box at drug stores, and although in some sense a patent preparation, yet I believe I get more and better charcoal in Stuart's Charcoal Lozenges than in any of the ordinary charcoal tablets."

Send your name and address today for a free trial package and see for yourself. F. A. Stuart Co., 200 Stuart Bldg., Marshall, Mich.

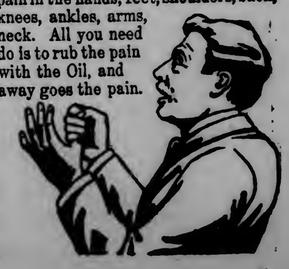
No change was needed to make Hunt's Perfect Baking Powder and Extracts meet the requirements of the pure food law. They have always been pure and reliable.

ACCIDENTALLY KILLS MOTHER.

Anoka, Minn., Jan. 11.—Mrs. T. J. Molen, wife of a farmer living in the town of Burns, in this county, was accidentally shot dead by her son, aged 15, who was examining a new automatic rifle which he had brought home with the expectation of buying. The shooting occurred in the presence of the whole family. When the boy realized what he had done he fell unconscious by the side of his mother, and has since been nearly crazed with grief.

Omega Oil

FOR ANY PAIN—Omega Oil is a green-colored liniment, different and better in every way than any other liniment in the world. It stops any pain in the hands, feet, shoulders, back, knees, ankles, arms, neck. All you need do is to rub the pain with the Oil, and away goes the pain.



WHEAT HAS WEAK CLOSE

Market Sells Lower in America on Bearish News.

Flax Has Big Slump During the Session in Duluth.

Duluth Board of Trade, Jan. 11.—Wheat was rather irregular during the short session of the market today, and sold off sharply at the close, on prospects of liberal world's shipments and larger receipts at Minneapolis.

Broomhall estimates the world's shipments of wheat this week at 8,000,000 bus, of which quantity Europe is expected to take about 6,800,000 bus.

There was an undertone of bullish news during the day, however, which caused strength in the distant options in Chicago and New York. Reports from Russia are to the effect that prospects for a good crop are quite unfavorable.

The cables were weaker. Liverpool closed ½d to ¾d lower, Berlin ⅛c lower and Budapest ⅜c higher.

The May option closed ⅝c lower in Duluth and Chicago, ½-⅝c lower in Minneapolis, ¼c higher in New York, which closes an hour earlier than Duluth on Saturday, and ⅜ lower in Winnipeg. The July option closed ⅝c lower in Duluth and Minneapolis, ½c lower in Chicago and New York and ⅜c lower in Winnipeg.

May corn closed 1-⅛c lower in Chicago and unchanged in Liverpool. May oats closed ⅝c lower in Chicago.

Broomhall cabled from Liverpool: "Wheat was quiet, with early values ¼d to ½d lower, the principal pressure being the nearby month. Offerings were larger with support lacking and during the morning a further decline of ¼d occurred. Weakness resulted from the continued favorable reports from Argentine, forecast of large world's shipments, heavy American shipments, according to Bradstreets, and the easiness in the spot market. Prices at the close were ½d to ¾d lower than Friday.

"Corn was quiet with prices unchanged during the entire session. The market was neglected, with the undertone steady, due to the cold weather in Europe.

"Spot wheat was quiet and unchanged with the exception of red winter wheat ½d lower. Corn was firm and ¼d higher for spot."

Car receipts at Duluth were 46 against 81 last year, and at Minneapolis 231 against 239 last year, making a total for the Northwest of 277 against 270 last year. Chicago received 33 against 54 last year. Winnipeg received 65 against 36 last year.

Clearances of wheat and flour aggregated 625,000 bus.

Clearances of corn were 146,140 bus.

Except the close when there was a rather lively scramble to sell, wheat was quiet in the Duluth market. May wheat opened ½c lower at $1.12⅞, advanced to $1.13⅜, went off to $1.13, rallied to $1.13⅜, slumped to $1.12¾ and closed at that price, a loss of ⅝c from yesterday. July wheat was inactive and closed at $1.13¾, a loss of ⅝c from yesterday.

Durum wheat closed ⅜c higher and cash spring wheat was selling on a basis of 8c under May for No. 1 northern.

Flax was quiet, with values off during all of the session. May flax opened ⅛c lower at $1.22, declined to $1.20¾, a loss of 1⅜c from yesterday. July flax was inactive and closed at $1.22¼, a loss of 1⅜c from yesterday.

Coarse grains were unchanged.

Following were the closing prices:

Wheat—No. 1 hard, on track, $1.11¾; to arrive, No. 1 northern, $1.09¾; No. 2 northern, $1.07¼; on track, No. 1 northern, $1.09¾; No. 2 northern, $1.07¼; May, $1.12¾; July, $1.13¾; No. 1 northern, in store, $1.08¾; No. 2 northern, in store, $1.06¾; durum, on track, No. 1, 90¾c; No. 2, 88¾c; May durum, 93¾; July durum, 94¾c. Flax, to arrive, $1.16¾; flax, on track, $1.16¾; May, $1.20¾; July, $1.22¼. Oats, to arrive, 49c; oats, on track, 49c; rye, 74-78c; barley, 65-85c.

Cars inspected: Wheat, 46, last year, 31; oats, 10; barley, 4; flax, 7, last year, 8.

Receipts: Wheat, 76,081; oats, 38,245; barley, 2,785; rye, 1,465; flax, 20,769.

Shipments: Wheat, 3,235; barley, 3,196; rye, 1,512.

THE CHICAGO MARKET.

Wheat Opens Weak on Lower Cables, With Trading Quiet.

Chicago, Jan. 11.—Wheat was weak at the opening today under the influence of lower prices at Liverpool. Trading was quiet. May opened ¼@½c lower at $1.05¾@1.06, sold at $1.06⅛ but declined to $1.05¾ under selling by a local long. Minneapolis, Duluth and Chicago reported receipts of 300 cars against 207 last week and 324 cars a year ago.

The market firmed up later on bullish reports of the Russian crop and on decreased stocks in the Northwest. May sold up to $1.06½. The advance was lost later on realizing sales and the close was easy with May back to $1.05⅝, a net loss of ⅛@⅜c.

The corn market was inclined to be weak, owing to liberal receipts. This influence, however, was offset by reports of wet weather in the corn belt. May opened ⅛@¼c lower at 60¼@60⅜c, and sold at 60½c. Local receipts were 412 cars with none of contract grade.

The corn market showed firmness on the upturn in wheat, May advancing to 60¾c. The strength did not hold, however, and the close was weak. May was down ¼@⅜c at 60c.

Oats were steady with very little activity. May opened a shade higher at 54¼c and sold at 54½c. Local receipts were 135 cars.

Provisions were easy under the weight of a large run of hogs at Western points. May pork was off 5c at $13.40; lard was unchanged at $8.07½ and ribs were 5c lower at $7.20@7.22½.

Close: Wheat—May, $1.05⅝; July, 98⅝c; September, 95⅛c. Corn—May, 60c; July, 58½@58⅝c; September, 58¼c. Oats—May old, 53¾@53⅞c; May, 52⅝c; July old, 47¼c; July, 45½c; September, 39⅝c. Pork—January, $12.82½; May, $13.37½. Lard—January, $7.80; May, $8.05. Ribs—January, $6.92½; May, $7.22½. Rye—Cash, 84@85c. Barley—Cash, 90c@$1.06. Timothy—March, $4.75. Clover—March, $17.25. Cash wheat—No. 2 red, .01¾@1.03½; No. 3 red, $1.00¾@1.01½; No. 2 hard, $1.01¾@1.08½; No. 3 hard, 99¾c@$1.06; No. 3 spring, $1.03@1.12. Corn—No. 3, 55c.

New York Grain.

New York, Jan. 11.—Close: Wheat—May, $1.13¼; July, $1.06¾; January, $1.09¾. Corn—May, 69⅜c; July, 68⅛c.

Grain Gossip.

H. D. Gee and George Armstrong of Winnipeg were visitors on the floor of the board of trade this morning.

* * *

Minot, N. D., wires to Pringle, Fitch & Rankin:

"Wheat left in the farmers' hands here is 10 to 20 per cent. In January last year I figured 2,000,000 bus in elevators on the Soo road, from Kenmare to Harvey. This year we have not over 100,000 bus."

* * *

Logan & Bryan, Chicago: Wheat—Traders were a little cautious on both sides early. There was considerable profit-taking on the part of early buyers on the swell. Somewhat sharp reaction before the close was precipitated by a late break in corn, and this due entirely to very large estimated receipts for Monday. Thus the whole grain list turned on the fact that Illinois points had succeeded in a few pleasant days in loading and starting forward a considerable quantity of corn.

Liverpool was lower because of prospects of larger world's shipments and continued good reports from Argentina. Good pit observers claim that the market received more or less support all day from the leading bull interests, but that the selling became too general toward the close, in sympathy with the break in corn.

THE PRODUCE MARKETS.

Copper Gossip.

Boston to Gay & Sturgis: The markets today furnished a very satisfactory amount of gratification to those who have taken the stand that the October panic was unnecessary and local in its real effects. The cash resources of the country, which are larger than ever before, are pouring into the money centers as a result of the return of confidence and cessation of activity in general business. The bank statement shows an entire wiping out of the deficit and a surplus of $6,000,000 to $7,000,000. Inasmuch as government deposits are secured by deposits of collateral, the real money situation is much stronger than appears. It seems now quite certain that the investment and bond market, which has been congested and frozen for two years past is in process of thawing out. The old issues will make way for new ones furnishing means for the exploitation of new enterprises and starting up of the wheels of commerce. Copper will soon be referred to as the "unnecessary panic." The conditions outlined in our letter of Dec. 18 have all been proven true, except the expected strength in the copper metal market and the impetus to general business. If the financial conditions now existing do not bring these things to pass it will be the first time in our history that they have not.

The market promises to be a rnnaway affair on Monday and it is doubtful if it can be checked. The possible over-doing of it just now and the reappearance of the familiar gum games on the curb are the worst features of the situation.

* * *

Boston to Paine, Webber & Co.: Somebody still is keeping Amalgamated down, but the trend of the market is all against them, and soon will be allowed to jump and resume its place as a market leader. The local coppers were dull, and the attention of the traders has been turned to the active rails, but this will change any day and the coppers will have a rally such as has not been seen for a long time. The buying of LaSalle is very good, and Calumet & Hecla people are taking an interest in the market all around. Keep your eyes on Allouez, Centennial, LaSalle, Osceola, Calumet & Arizona and Superior Copper, and buy Cupper Range, North Butte, Old Dominion and Butte Coalition for good profits.

COLONEL'S SWEETHEART

Wrote for Money, "Bread and Clothes," She Said.

Clinton, Ill., Jan. 11.—The gradual transformation of Col. Thomas Snell, the "iron-willed millionaire," from the self-reliant business man, whose ability was known throughout the West, to a mere puppet, through the systematic influence of young women, was the picture painted for the jury in Judge Cochran's court in the opening statement for the plaintiff in the famous Snell will case.

Attorney Ingrain told the story of the old man's love for Mrs. Mabell Snell McNamara, a woman who is declared to be his grandniece, from the time he first met her in Emporia, Kan., seven years ago, up to his death. He told how, under her influence, the aged man gradually learned to hate his son and near relatives; how his property was dissipated in his efforts to entertain her, and of the insane infatuation which is told in a pile of 100 letters which he wrote to her.

Further insight into the methods of the young woman who is said to have tamed Col. Snell, is given in two letters which she wrote to him. The letters have not been opened in court. The first letter simply was a request of Col. Snell's sweetheart for more funds—"for bread and clothes," she naively asserts.

A Card.

This is to certify that all druggists are authorized to refund your money if Foley's Honey and Tar fails to cure your cough or cold. It stops the cough, heals the lungs and prevents serious results from a cold. Cures la grippe, coughs and prevents penumonia and consumption. Contains no opiates. The genuine is in a yellow package. Refuse substitutes. Sold by all druggists.

ADVANCES IN STOCKS

Market Closed Buoyant and Animated Near the Top Figures.

Prices Rose Late in Day, Anticipating Strong Bank Statement.

New York, Jan. 11.—Opening prices of stocks were higher, as a rule, than last night, but the gains were generally restricted to small fractions and there was a fair sprinkling of losses. The dealings were light. Baltimore & Ohio rose 1¾ and New York Central Southern Railway and American Sugar large fractions. Republic Steel preferred fell, 1½; Minneapolis, St. Paul & Sault Ste. Marie, 1⅛; Erie first preferred, 1, and Missouri Pacific and Pacific Mail large fractions. The Southern Railway consolidated 5 per cent bonds rebounded 1¼ from yesterday's severe decline.

A revival of yesterday's active demand for St. Paul, and denials by Southern Railway officials of the rumors current of financial embarrassment of that company, gave an upward impetus to prices. Many of the principal stocks advanced materially. Profit-taking sales later drove prices back in many cases to where they left off yesterday. The rise in St. Paul had reached 2⅜, Southern Railway preferred 2¾, the common 1⅜, American Sugar 1¾ and Northern Pacific and Reading 1¼. Pacific Coast second preferred sold at an advance of 7. Central Railroad of New Jersey and American Agricultural Chemical preferred fell 2 and Utah Copper 1.

The market closed buoyant and animated. Prices rose again late in the day in anticipation of a strong bank statement after the market closed. St. Paul, Baltimore & Ohio and Northwestern rose 3¾ to 4, New York Air Brake 9, Chicago, St. Paul, Minneapolis & Omaha preferred 5, Consolidated Gas 3, Union Pacific and American Sugar 2⅝, New York Central 2¾, Northern Pacific, Great Northern preferred and Peoria & Eastern 2 or more, Reading, Delaware & Hudson, Westinghouse Electric, United States Steel preferred, American Smelting and National Biscuit 1½ to 1¾, and many active stocks a point or more.

Quotations furnished by Gay & Sturgis, brokers, 328 West Superior street:

St. Paul Livestock.

St. Paul, Jan. 11.—Cattle: Receipts, 200; market, quiet and unchanged. Hogs: Receipts, 6,500; market, steady; range, $4.15@4.25; bulk, $4.15@4.20. Sheep: Receipts, 1,000; market, steady, at about 25c higher for the week; quotations unchanged.

Midway Horse Market.

Minnesota Transfer, St. Paul, Minn., Jan. 11.—Barrett & Zimmerman's report: Market for the week closes dull. The increased activity in horse trade hoped for has as yet failed to appear and prices are lower than any time since the recent shrinkage in values. Shippers are bringing few horses for the reason that they are bein gheld higher in the country then on the market. A good fall of snow is needed to bring out the logging trade:

Drafters, extra	$175@235
Drafters, choice	125@175
Drafters, common to good	65@125
Farm mares and horses, choice	165@195
Farm mares and horses, choice	125@165

Delivery, choice	125@200
Drivers and saddlers	135@215

Chicago Livestock.

Chicago, Jan. 11. — Cattle — Receipts, about 400, market steady; beeves, $3.35@6.25; cows and heifers, $1.30@4.50;; Texans, $3.10@3.90; calves, $5.25@8; westerners, $3.70@4.50; stockers and feeders, $2.25@4.15. Hogs—Receipts about 27,000; market 5c lower; light, $4.10@4.40; mixed, $4.10@4.45; heavy, $4.10@4.45; rough, $4.10@4.20; pigs, $3.50@4.15; bulk of sales, $4.30@4.37½. Sheep—Receipts about 2,000; market steady; native, $3.50@5.60; western, $3.50@5.65; yearlings, $4.90@6.80; lambs, $5.25¾ 7.30; western, $5.25@7.30.

New York Money.

New York, Jan. 11.—Close: Money on call nominal. Time loans, firm; 60 days and 90 days, 6; six months, 6. Prime mercantile paper, 6¾@7½ per cent. Sterling exchange steady with actual business in bankers' bills at $4.85.4@4.85.5 for demand and at $4.81.25@4.81.35 for 60-days bills; commercial bills, $4.81@½; bar silver, 55¼c; Mexican dollars, 43¾c; government bonds steady; railroad bonds, irregular.

The Cotton Market.

New York, Jan. 11.—The cotton market opened steady at an advance of 4@7 points and during the early session sold up to a net gain of 7@8 points as a result of Wall street buying and scattered covering. Higher cables than expected, bullish weak end figures, expectations of a favorable bank statement, and bullish spot advices were the encouraging factors, although local sentiment remained rather pessimistic as to general trade conditions.

Futures closed steady. Closing bids: January, 10.73; February, 10.79; March, 10.87; April, 10.88; May, 10.90; June, 10.85; July, 10.80; August, 10.66; October, 10.19.

Spot closed steady, 10 points higher; middling uplands, 11.55; middling gulf, 11.80; no sales.

Bank Statement.

New York, Jan. 11.—The statement of clearing house banks for the week show that the state banks hold $6,084,050 more than the requirements of the 25 per cent reserve rule. This is an increase of $17,594,600 in the proportionate cash reserve as compared with last week, when there was a deficit of $11,509,550. The statement follows: Loans, $1,117,149,600, decrease, $15,722,200; deposits, $1,051,651,600, increase $3,185,200; circulation, $72,295,300, decrease, $21,000; legal tenders, $62,264,300, increase, $3,778,300; specie, $206,732,500, increase, $14,611,600; reserve, $268,996,800, increase, $18,389,900; reserve required, $262,912,750, increase, $796,300; surplus, $6,084,050, increase, $17,593,600; ex-United States deposits, $24,375,225, increase, $16,809,075.

A SLY HIT.

"Our splendid novelist, Henry James," said a publisher, "lives at Rye, one of England's Cinq Portes, but recently he left Rye for a time, and took a house in the country near the estate of a millionaire jam manufacturer, retired. This man, having married an earl's daughter, was ashamed of the trade whereby he had piled up his fortune.

"The jam manufacturer one day wrote Mr. James an impudent letter, vowing that it was outrageous the way the James servants were trespassing on his grounds. Mr. James wrote back:

"'Dear Sir: I am very sorry to hear that my servants have been poaching on your preserves.

"'P. S.—Excuse my mentioning your preserves.'"

SWAMP DRAINAGE BILL MAY PASS

Actual Gain to Country Would Run Far Into Millions.

Washington, Jan. 11.—Senator Flint of California has made a canvass of the senate and finds that his swamp land drainage bill can pass that body by a really extravagant majority. Representative Steenerson of Minnesota, who introduced the bill in the house last session of congress at the same time the senator presented it to the senate, thinks it will pass Uncle Joe whenever it comes up, and that, therefore, it is practically certain to go through during the present congress.

This measure is one of the most important economic projects ever brought to the attention of congress. Its benefits run into almost stupefying figures, and they are scattered throughout the country, not less than thirty-nine of the states having swamp lands of sufficient area to receive consideration in such legislation. But the grand total is ample to convey an idea of the magnitude of the proposed undertaking.

80,000,000 Acres of Swamp.

It has been ascertained by the engineers connected with the federal service, the geological survey having most to do with their preparation, that in these thorty-nine states there are 80,000,000 acres of swamp lands which can be drained at a practicable cost. The official estimates, which have been in course of preparation for more than twenty years, show that the average cost of draining these lands will be not more than $6 an acre. Also that the average value an acre after drainage will be not less than $100 an acre; probably more, as so much of the land is within a comparatively short distance of large centers of population. The result of the enterprise is, therefore, figured like this:

Present value of lands	....
Cost of drainage	$480,000,000
Value after drainage	8,000,000,000

Profit to the People.

That is to say, the investment of $480,000,000 in this project will make a gross gain of over 700 per cent.

But it is not intended that the United States shall make this giant profit. The federal government is to make no profit at all. The money to be invested in this, like that which has been poured out in the reclamation of the great American desert, is to be advanced by the government for the use of the people without interest, and is to be repaid by those who shall own the lands to be drained.

TENDERS HIS APOLOGIES.

Dr. Stewart Shows Proper Spirit Towards the News Tribune.

To the Editor of The Herald:

Permit me, through your columns, to apologize to the News Tribune for the part I have taken in exciting its displeasure.

The public has been told by that publication that the doctors will and do hang together in telling untruths if it seems to be to their interest to do so, that they have no knowledge of what they are talking about when discussing medical subjects, or so little that their statements are entitled to neither weight nor credence—in short, that their expressions of opinion are simply grand expressions of bluff.

The profession felt affronted at this and asked the paper in question to retract its statements, and in response, in this morning's issue, appears the announcement that "the News Tribune stands pat," as a heading to another harangue.

Now, no one knows better than I the utter futility of attempting to maintain a controversy with a newspaper, and so, to show the proper spirit under the circumstances, I desire to tender my apologies to the shining example of erudition, the authority on medicine, law, theology, poker and quarantine, Mr. Jefferson Brick of the News Tribune, for presuming to introduce the resolution of censure at the last meeting of the Medical society.

C. A. STEWART.

Duluth, Jan. 11.

TRIAL IS TIRESOME

(Continued from Page 1.)

Luse, defendant's counsel, witness said there were two direct wires to Superior from the local office of the company. One of these was used for quotations and the other was used for transmitting orders to the Superior board of trade.

Mistakes Frequently Came.

Under direct examination by Paul Ewart, assistant district attorney, the witness had said that mistakes would very frequently come over the quotation wire, and that he would later receive corrections.

Mr. Ewart was unable to understand how corrections could be received without a great deal of delay. He contended that it had been proved that the quotation wire was busy constantly, and if all of the orders were sent over the other wire, it would necessarily have to be busy without cessation.

Judge Luse brought out the information that the order wire was not busy all of the time, and that even if it was, that it was a comparatively easy matter to wire up to Superior for a correction on a quotation and that an answer would be received within a quarter of a minute.

The next three witnesses were put on the stand to identify certain certificates of deposit, notes and checks, some of which were executed by the Edwards Wood company, and the others by one or other of the defendants.

Identifies Certificates.

William A. Miller of the First National bank of this city was one of the witnesses put on the stand. He identified three certificates of deposit, aggregating $60,000, which were made payable to the Edwards Wood company. He said that the bank received in payment of these certificates a great mass of checks on various small banks in different parts of the surrounding country.

Witness also stated that none of the defendants had accounts at the bank. They did business with the bank under the firm name of the Edwards Wood company.

Stanley H. Bezoir, assistant cashier of the Security National bank of Minneapolis, was placed on the stand, and identified two checks of $20,000 each, drawn on the First National bank of St. Paul, in payment of four notes which the Minneapolis bank held against the Edwards Wood company.

William O. Gregory, a member of the firm of Gregory Jennison company, grain and commission men, of Minneapolis, was the next witness on the stand. He identified a note of the firm's for the sum of $30,000, representing a loan received from F. B. Wood, one of the defendants. He also identified several checks which he drew to the order of F. B. Wood, which were in the nature of installments on the loan.

LONE FARMER IN AFRICA.

A German farmer named H. G. Koch has been tilling the soil for four years about 100 miles north of the Zambesi river in Central Africa. No other farmer lives within fifty miles of him, says the New York Sun.

There are not twenty European farmers in the whole of Northwest Rhodesia, a country four times as large as the state of New York. Koch is a pioneer. He likes the soil and the climate and is there to stay. His farm is as near the equator as the north part of Central America, but it stands 4,000 feet above the sea and the heat is less oppressive than in many more southern regions.

A few weeks ago Koch talked to a convention of farmers in Southern Rhodesia. They were interested in his story, for he is the first man competent to give valuable testimony on the farming conditions beyond the Zambesi.

He told them he had settled on the surveyed line of the Cape to Cairo railroad, for he knew he could sell his produce when the railroad reached him. Taking in a wagon and a few head of livestock he roamed northward, following the stakes of the surveyors, till he reached a region that exactly suited him. There he built a little shack and began to use the plow and other farming implements he had brought in his wagon.

Koch says that the best plow land in the colony is a rich, deep black loam, found in the valleys and in patches of from 100 to 2 000 acres all through the country. It grows the finest corn he ever saw.

Then a gray sandy loam is well adapted for the cultivation of tobacco, cotton and potatoes. All crops with proper cultivation grow splendidly. Garden truck can be raised the year round, and he is raising wheat in winter with success.

A third kind of soil is suitable only for pasture. Grass grows in abundance, cattle keep in good condition the year round and the climate at that high altitude is mild and pleasant.

Koch's faith has been justified. The Cape to Cairo railroad has been built 100 miles beyond his door. The little station of Kalomo has sprung up near his farm. He has a market for all he can raise.

He pays native laborers from $1.25 to $2.50 a month, and thinks his men compare favorably with black labor in Cape Colony. He has no doubt, now that the railroad has been completed to the Broden Hill copper mine, that more farmers will come into the region.

Some tenants are as bad as fire. Herald want advertise for the sort who have consciences.

The copper share market is looking very good, and a lot of money should be made in the next three months. Butte & Superior reacted a little today, but holds strong at $1.50 a share. Black Mountain is fairly strong at $4.50. National showed much strength today on account of good reports from the mine. Following is a copy of a telegram received by me today:

Globe, Ariz., Jan. 10, 1908.

Full face ore, east drift, number two, struck on Iron Cap property today.

(Signed) CHAS. M. BRUCE,
President National Mining Exploration Co.

It looks as if National will soon sell at $1.00 a share or better. The location is as good as any in Globe, and National may soon become one of the leading mines of that district.

There is no new mine that can compare with the Butte & Ballaklava. This is another such mine as the Calumet & Arizona, and the rich ore opened will soon place it amongst the great producers of the United States.

Globe Cons	7.25	7.50	Butte-Ballaklava	6.75	......

Butte & Ballaklava was very active at declining prices. People that are parting with this stock at these prices will wake up soon and find they have been scared into selling this stock for a fraction of what it is worth. There has been enough ore shown up already on this property to put it in the North Butte class. Preparations are already being made to make large shipments of high-grade ore from the Edith May and Bell Speculator veins. A good many Duluth people who got Calumet & Arizona at $10 and North Butte at $15 were scared into selling their holdings at a small profit by interests who want to buy their stock. The same tactics will part you with your Butte & Ballaklava. Butte & Ballaklava is now a big mine and will be a dividend payer in record time.

Shattuck was hard to get at bid prices and should sell higher. Superior & Pittsburg should be a purchase at this level. Butte & Superior is active at 1 7-16 to 1½. Balance of list firmer. With financial conditions growing better every day the whole market should do much better.

For Short Time Investments

OWNERS OF REALTY ARE NOT ANXIOUS TO SELL

Market Conditions Are Quiet, Few Sales Are Being Made and No Bargains in Centrally Located Property Are Being Offered—One Important Building Project in Business District is Being Considered and It May Result in a Substantial Improvement.

No transactions of a special news interest have taken place in Duluth real estate circles during the past week. The usual market conditions at this time of the year prevail and not many sales of realty are being made. There are a few deals being negotiated which may be closed up very soon. One of these is of special importance, involving a large building project in the central business district of the city. Real estate brokers, generally, are looking for the market conditions to improve very shortly, now that the holidays are out of the way and people have more time to investigate investments. So far as can be learned, there is no tendency on the part of owners to make any sacrifice. In fact, realty prices are being held right up to the notch. There are, so it is claimed, a great many local people who would invest right away if they could get concessions on the part of owners, but the latter do not feel that any concessions should be made, considering the things in future for the city. While the applications for building permits are rather scarce at the present time, it is understood that there are a number of local people who are getting figures on homes to be erected the coming year if the building conditions are favorable.

* * *

Dorothy Lloyd has sold a residence property on Robinson street, between Forty-seventh avenue east and London road, to Emma Forbes, for $1,200. The property is described as part of lot 3, block 31, London addition.

* * *

S. C. Stewart has purchased from D. McLarty, a fifty-foot lot on the lower side of Fourth street, between First and Second avenues east. The property is described as lot 22 East Fourth street. The consideration was $2,000.

* * *

S. M. Johnson has purchased from P. J. Borgstrom for $1,200 a small residence property on Fifty-seventh avenue west, between Bristol and Gosnold streets. The lot is located in block 23, West Duluth. First division.

* * *

F. M. Tracy has sold the residence property at the southeast corner of Fifty-fourth avenue east and Tioga street to E. G. Church for $2,750. The property has a frontage of 122 feet on Tioga street and is about seventy feet deep.

* * *

S. Lindahl has purchased from Josephine A. Lundberg a residence property on the upper side of Fourth street, between First and Second avenues west, the consideration being $4,000. The property is described as the east half of lot 27 West Fourth street.

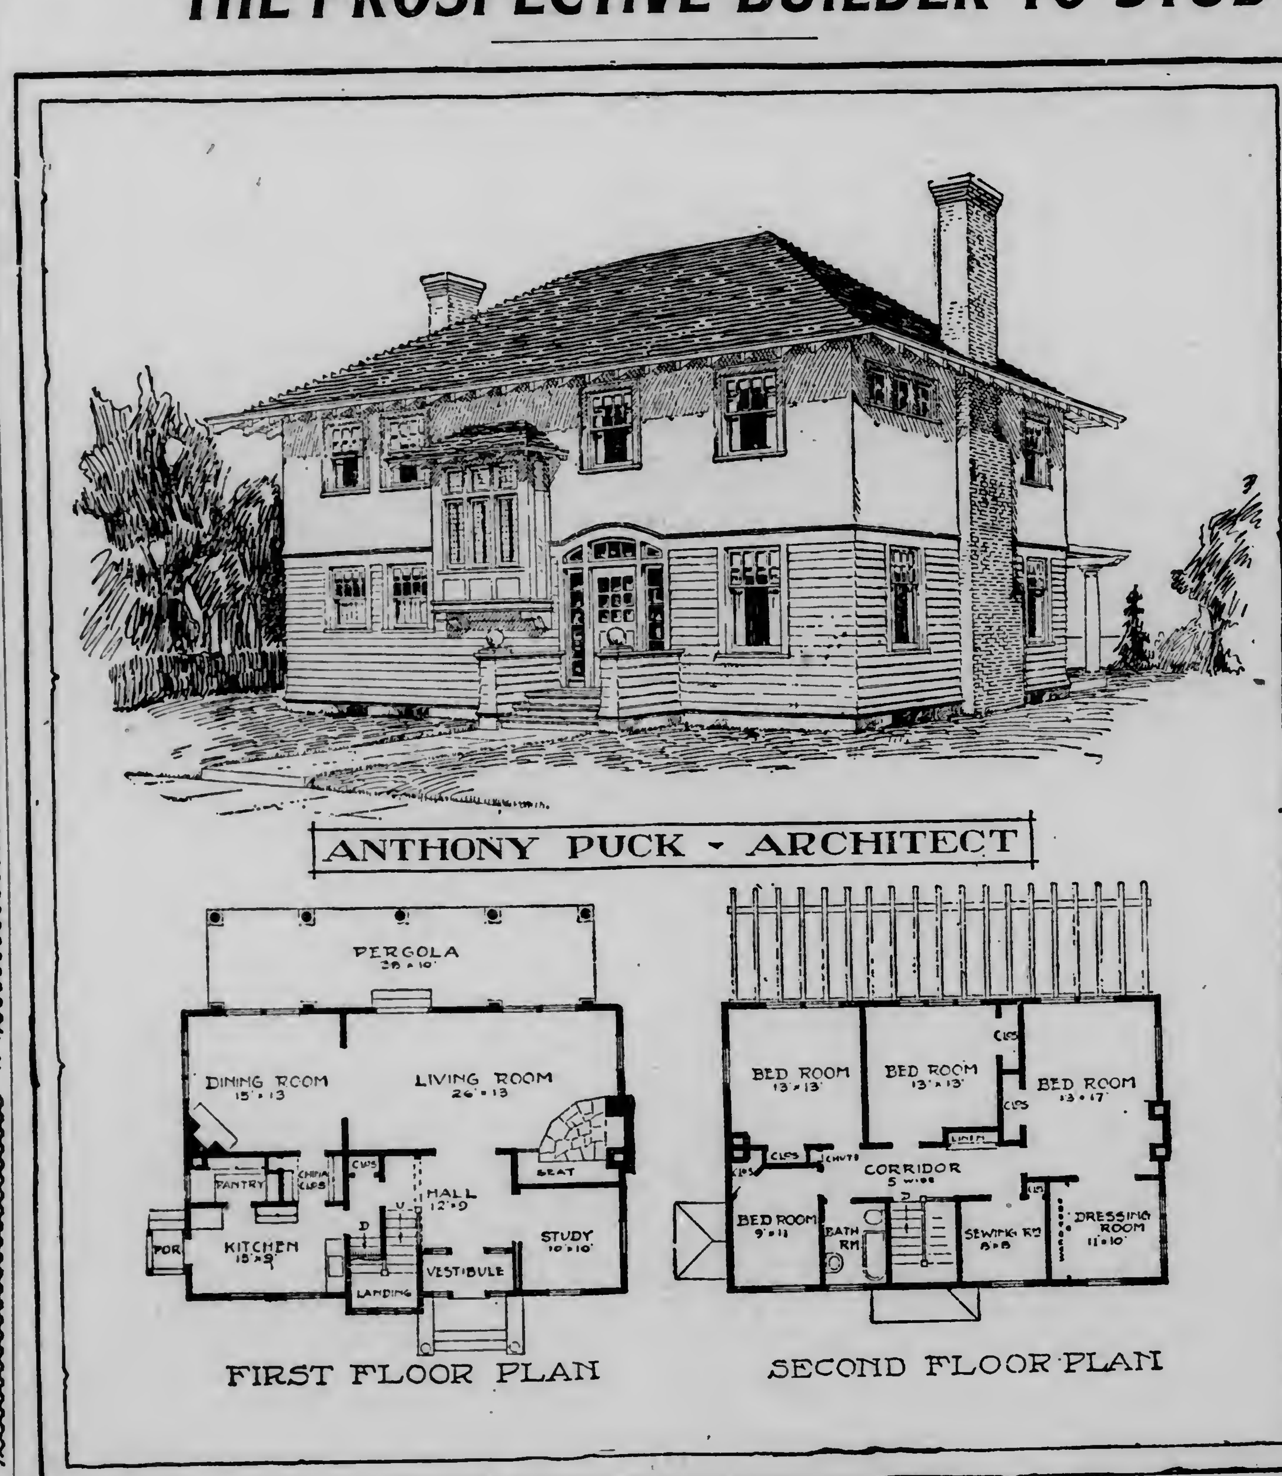
A. E. Olson to W. T. Scott, lot 1, block 55, Biwabik 1

AN ODD AND ATTRACTIVE HOME FOR THE PROSPECTIVE BUILDER TO STUDY



This house is a departure from the conventional design and conforms more to the modern ideals of home comfort. Here is no apparent effort for effect, yet there is a quaint dignity in its simple lines that is entirely satisfying to the eye.

The salient feature of the plan is the convenient grouping and the manner in which the southern exposure is utilized for the principal rooms.

The generous proportions of the living room with its broad windows, large open fireplace and wide stone hearth make it a most attractive room. There is also a fireplace in the dining room. The charming arrangement of the hall, with a stairway on the left, the study (or den) on the right, and the large living room, opening to it opposite the entrance is especially worthy of note. The kitchen, with pantries, situated in the least desirable corner of the house is compact and entirely adequate, also of convenient accessibility to stairway and front entrance.

An artistic single staircase ascends to the second story. At the middle land are a group of leaded glass windows, which light the stairs and hallways.

The second story plan is notable for its complete and desirable utilization of space. There are three large bedrooms, and a dressing room, sewing room, bathroom and a servants room, all of which are directly accessible from a wide, light corridor. There is ample closet space for each room, and a linen cabinet in corridor. A clothes chute to the laundry in the basement is provided with openings in both first and second stories. No provision is made for the use of the attic.

The exterior is finished with square siding up to the top of the first story windows and from there to the eaves with stucco. The simple hipped roof of cedar shingle is stained. On the south side of its house for its entire length is a wide pergola with cement floor a step up from the ground.

The building is 43 feet by 28 feet in size. Heights: Basement, 7 feet; first story, 9 feet; second story, 8 feet 6 inches. Floors, hardwood. Finish: First story, oak; second story, pine.

The cost of a dwelling of the above design and description would be $5,800, including heating and plumbing.

JUST SUPPOSE

You should slip on the icy walk or pavements and sprain an ankle or break a leg, or suppose you should get sick, an **ACCIDENT and HEALTH POLICY** in one of the best companies would be consoling, wouldn't it?

We represent the **NEW AMSTERDAM CASUALTY CO.** of New York.

We don't sell key rings, but **PAY** you for the time you are indisposed, pay for your accident, operation, doctor bills, and protect you, no matter where you travel.

C. P. CRAIG & CO.
220 West Superior Street.

STREET CARS.

NOTICE TO THE PUBLIC.

This company operates a street railway line in the city of Duluth between Third avenue east and the end of Rice's Point, and another street railway line in the city of Superior between Twenty-first street and the end of Connor's Point. These lines are separated by the waters of St. Louis bay, and are operated as two distinct and separate lines.

The fare for a continuous ride in one direction between any two points on either one of these lines is 5c.

The public is hereby notified that this company does not, by undertaking to carry any passenger, or by accepting fare for such carriage, assume any responsibility beyond that of carrying such passenger safely between points on the above mentioned lines.

This company is not responsible for close connections, nor safe transportation, between the above mentioned lines by any ferryboat or other means of transportation. While the employes of this company have been instructed to keep themselves posted and give upon request all the information they can as to the probability of connections being made with other transportation lines, the company has no better means of foreseeing unexpected interruptions in the service of such lines, nor of telling how long such interruptions will continue, than the public has, and, therefore, cannot be responsible for notice of such interruptions.

GETS SMALL VERDICT.

Jury Spent Night Considering the Doyle-Steele Case.

M. P. Doyle was this morning given a verdict of $252.55 by the jury in the district court, in his case against Hugh Steele, the contractor.

Mr. Doyle sued for $1,200, which amount he claimed was due him on a sub-contract on the Robinson street paving job.

The jury was out all night, and returned a verdict on the opening of court this morning.

ONLY OF ONE CLASS.

A Philadelphian at a dinner said of A. J. Drexel, the young millionaire who, as one of the leaders of European society, has quite forgotten his fatherland:

"In the Mediterranean, off Monte Carlo, I was one of Mr. Drexel's guests last year at a luncheon on his beautiful yacht. It was a superb luncheon. The guests, too, were in their way superb—a grand duke, two princesses, an earl, a marchioness, and so forth.

"The marchioness, I thought, gave Mr. Drexel rather a dig. Speaking of a wel-known New Yorker, she said:

"'Oh, yes, he is a great swell, truly. He spends the spring in London, the summer at Trouville, the autumn in the Scottish Higlands deer stalking, and the winter in a private danablyeh on the Nile. In fact——' Here the young and pretty marchioness nodded and smiled mischievously at Mr. Drexel—'In fact, he is a typical American.'"

If it is absurd to ask you whether you ever receive a telegram and forget to open it; and equally as absurd to ask you whether you read The Herald want ads., why, you'll do!

FORTY MILES OF DITCHES AND ROADS FOR COUNTY

State Will Spend $5,000 in Drainage Work This Year.

Railway Companies Have Stipulated to Pay Their Proportion.

"The state of Minnesota will dig forty miles of drainage ditches and build forty miles of good roads in St. Louis county this coming summer without a dollar of expense to the county or the taxpayers in general."

The above statement by George A. Ralph, engineer of the state drainage commission, who was in the city today, carries with it some idea of the vast benefit that will accrue to the new agricultural districts that the ditches are about to open up in the country adjacent to Duluth this year.

Mr. Ralph came here to attend the hearing in the district court on the report of the viewers appointed by the court and the drainage commission to appraise the cost according to the benefits. The report has been filed, but there have been no objections thus far to the appraisals. There are, however, certain legal proceedings in the way of stipulations which must be prepared and filed, so the hearing was continued for one week.

"The state drainage commission," said Mr. Ralph this morning, "is gratified with the interest and encouragement shown relative to its efforts to establish ditches in the swamp lands of this part of the state. There has been practically no opposition. In the only instance which I recall the opposition is due entirely to misinformation given those who oppose the ditches. The impression was given out that the state was constructing ditches across swamp lands owned by the railway companies, that the latter would escape benefit assessments by reason of their gross earnings tax and that the cost would fall on the people least benefited.

Railroads Pay Share.

"That impression is wrong in every particular. In the first place the drainage commission secured from the railway companies, whose lands would be benefited by the ditches, a stipulation waiving their right to escape assessment on account of their gross earnings tax. As a matter of fact the railway companies have cheerfully waived that right and have been willing to contribute their share, and even more toward the expense of constructing the ditches.

"There are three state ditches to be constructed in St. Louis county this year, known as state ditches Nos. 53 and 55. The Duluth & Iron Range Railway company will pay about 29 per cent of the cost of ditch No. 53. The same road will pay about 75 per cent of the cost of No. 54 and over 78 per cent of the cost of No. 55. Under those circumstances, I hardly see where anybody would be justified in stating that the railway company will not pay its share of the expense.

"For every mile of ditch constructed there will be a mile of road built along the ditch, which, when completed, will be suitable for travel with wagons, automobiles or bicycles. The state will build about forty miles of ditch this coming summer and there will, consequently, be about forty miles of road.

"The road along No. 53 ditch will connect the Kelsey-Whiteface road with the Miller Trunk road. The road along No. 54 ditch will connect with the road system now under construction in the town of Meadowlands by the Duluth & Iron Range Railway company. In the No. 55 ditch district the road along the ditch will connect with the Flood river road.

"It has been the idea of the state drainage commission, from the first, to establish these ditches in localities where the land is accessible and salable. The ditches will cross intervening swamps and open up and connect isolated settlements. The roads, from end to end on the ditches, will not cost the settlers one cent extra.

Value of the Work.

"It is my belief that if eight or ten ditches and roads were constructed in St. Louis county every year that the population in the agricultural districts benefited would double each year. Drainage ditches are certainly the things needed for the swamp land country tributary to Duluth.

"All the ditch work will be done by large dredges on contract to the lowest bidder. The ditches will be from twenty to twenty-five feet wide on top and an average of six feet in depth. Good sized boats can be floated in them. By means of lateral ditches the farmers along the route of the state ditches can make ample provision for the drainage or the irrigation of any portions of their farms.

"I never in my life saw land more productive than it is in the southwestern part of St. Louis county, the southeastern part of Itasca and in parts of Beltrami county. No other part of the country can raise such crops of hay. Really, I could tell some almost startling things about the productiveness of the soil in the locality I have mentioned, and if anybody is skeptical, let him go there and be convinced from a personal investigation.

"Just think of Mr. Hartley taking 800 bushels of potatoes to the acre from his island farm! Even then, he did not crowd the land and could have raised 1,000 bushels to the acre. I can remember the time when 400 bushels to the acre was considered an enormous crop.

"Think of 1,100 bushels of turnips to the acre! I understand that the crop ran even heavier, that the men got so tired from carrying the turnips they forgot to keep count beyond the 1,100 bushels.

"I consider this the best stock raising country on earth. Where else can such a hay crop be raised, and what locality has such an abundant supply of pure water?

"In Southwestern St. Louis county and Southeastern Itasca county there are large tracts of swamp land, where the soil is superb. All it wants is proper drainage. The drainage facilities in those localities are unsurpassed. The water can be taken off in any direction desired.

"In the Wawina district, where twenty-five miles of ditches will be dug this coming year, the water is drained off in two directions, part of it goes into the Mississippi and to the Gulf of Mexico, while the other portion runs northward and finally eraches Hunson bay.

"Now is the time to open up this country to settlement. Duluth is the best market in the Northwest. The city has the finest natural resources surrounding it of any other city that I know of."

State of Ohio, City or Toledo, Lucas County—ss.
Frank J. Cheney makes oath that he is senior partner of the firm of F. J. Cheney & Co., doing business in the City of Toledo, County and State aforesaid, and that said firm will pay the sum of ONE HUNDRED DOLLARS for each and every case of Catarrh that cannot be cured by the use of Hall's Catarrh Cure.

EVENTS OF WEEK OUT PROCTOR WAY

Social and Other Happenings in Neighboring Town.

Proctor, Minn., Jan. 11.—(Special to The Herald.)—The Ladies' Aid society of the Methodist church will be entertained by Miss J. J. Whyte at her home, next Thursday afternoon.

The Proctorknott fire department will give its second annual dance at the village hall next Thursday evening. Blewett's orchestra will furnish the music.

The Methodist ladies held a homebaking sale at J. W. Rehbein's store this afternoon. Mrs. M. L. Rappold and Mrs. Charles Koons were in charge.

Miss Maud Bird returned to her studies Monday, after taking a forced vacation on account of sickness.

Mrs. C. W. Bouschor entertained the Ladies' National Protective Legion at her home Tuesday afternoon. Amusing games were played and prizes awarded to the following: Mrs. M. L. Rappold, Mrs. A. Brayden, Mrs. J. W. Rehbein and Mrs. Hillyer. A delightful turkey luncheon was served during the afternoon. Covers were laid for sixteen. All report a pleasant time.

C. S. Van Leuven, court clerk to Supt. J. W. Kletter, has been unable to attend to duties on account of illness.

Dr. E. C. Clemans of Duluth will preach at the Methodist church Sunday evening, Jan. 19.

Mr. and Mrs. C. B. Gilbert returned yesterday from Deer River, Minn., where they spent a few days with their daughter.

Mrs. Charles Koons and daughter, Leona, will leave tomorrow for a visit with friends in Michigan. Mrs. Koons will return in the latter part of the week, but Miss Koons will visit for two weeks.

H. Trumble has sold his house on the West side to Harry Billsberry. Mr. and Mrs. Trumble and two children will leave in a few days for the Copper country, where they will make their home.

Born, Friday, Jan. 3, to Mr. and Mrs. A. Ruzsicka, a daughter.

Mrs. L. Claussen of Bay View Heights has been very ill for the past two weeks.

The Eveleth basketball team will be here tonight to meet the Proctor team in a return game at the Y. M. C. A. gymnasium. The Proctoor team won the game from them at Eveleth, two weeks ago. The range boys will undoubtedly try to wipe out the defeat, and all are looking forward to an interesting game.

George Wilson treated about twenty-five of the Junior Leaguers of the Methodist church to a sleighride to Midway and return Wednesday afternoon. On their return they were taken to Mrs. H. G. Gliderman's home where lunch was served.

The dance given by the Sin Cuidado club at the hall Wednesday evening was a decided success. The hall was prettily decorated and the dancers enjoyed themselves greatly. La Brosse's orchestra furnished the music.

An auxillary to the Order of Railway Conductors will be organized at the village hall next Monday afternoon. In the evening supper will be served to the conductors and their families, and later a musical program will be rendered.

M. L. Rappold has been sick the past week with a slege of la grippe.

C. J. Eller has opened up a meat market in the building next door north of the Morris hotel.

Much interest is being taken in bowling these days, now that the alleys are installed at the Y. M. C. A. Prizes are being awarded the man who rolls up the highest score during the week. This week a smoking set is the prize.

Miss Mary Studley has been ill the past week with la grippe.

Mrs. A. Asher was taken very sick last week. Monday she was removed to St. Mary's hospital wheer she is slowly recovering.

Last Sunday night, Emma, the 11-year old daughter of M. Sorashn, died after an illness of two weeks. She had not been well for some time, but her case was not thought to be serious until two weeks ago when she was taken with inflammation of the bowels, which later turned into paralysis. The funeral was held at the Catholic church Wednesday morning, where mass was said by Father Walsh. A special car was attached to the morning train, and the remains were taken to Duluth and put in the vault at Calvary cemetery.

NO EXAMINATIONS.

Normal School Advanced Course Graduates Need Not Take Them.

Normal school graduates and students are elated over the information that the Minneapolis and St. Paul schools will accept, without examination, teachers who have completed the advanced course, and who have had experience.

The Minneapolis school board has decided to consider, without examination, the applications of any teachers who have completed the advanced course, and who have taught with success for a year in a school where there are at least fifteen teachers.

The St. Paul school directors have decided not to require examinations of the advanced course teachers who have had three years of successful teaching. An advanced course graduate with any experience is eligible to appointment upon taking an examination.

The demand for grade teachers at the present time is great. President Bohannon of the Duluth normal is receiving many requests from school boards for teachers, but all the Duluth graduates are already teaching.

CLUBS ARE ORGANIZED

Farmers of County Appreciate Opportunity to Benefit Selves.

Organization Has Done Much for Town of Meadowlands.

The land department of the Duluth & Iron Range Railway company is assisting in organizing farmers' clubs at various points in St. Louis county. The object of these clubs is to bring the farmers together every week or two, in order that they may talk over all matters of interest to the community in which they live. In this way the clubs become to all intents and purposes a commercial club in that locality. Meadowlands has had a farmers' club for nearly a year and this club has been instrumental in securing many public improvements for the Meadowlands colony, which would probably not have been obtained otherwise.

A farmers' club is being organized for the Finnish settlers at Embarrass. The first great object in view of the Embarrass Farmers' club is to secure a creamery at that point this coming summer. Ordinarily the meetings of the farmers' clubs are a mixture of business and social entertainment. One or two papers are read by farmers, giving their experience in local farming matters or articles clipped from farmers' journals which seem to apply especially to farmers in the locality of the club, are read. Very often numbers on the program include music, recitations, methods of planting, breeding and other farming topics. Public improvements, such as highways, drainage, etc., are discussed. It is anticipated that in the near future the holding of farmers' institutes at various points in the county will be secured largely through the efforts of the farmers' clubs.

These farmers' clubs are usually officered by president, vice president and secretary and treasurer. Generally no dues are required, but the secretary keeps all minutes of the meetings and copies of the papers read and the record of the attendance at the meetings. It is the expectation that the secretaries of the various clubs will correspond with each other, exchanging copies of articles read at the various meetings, and it is hoped that before long a sufficient number of clubs of this kind will be formed to warrant a convention of farmers' clubs being held once or twice a year at some central point in the county. It is also expected that these clubs will do much to bind together the agricultural interests of the county and promote the interests of all farmers in this locality.

Should the farmers of any locality in St. Louis county be desirous of forming a farmers' club in their neighborhood, the land department of the Duluth & Iron Range Railway company will furnish them with a copy of the rules and bylaws of the Meadowlands Farmers' club and to give any assistance it can in helping them to organize their club.

PILES CURED IN 6 TO 14 DAYS.
PAZO OINTMENT is guaranteed to cure any case of Itching, Blind, Bleeding or Protruding Piles in 6 to 14 days or money refunded. 50c

GIVES LAND TO NORMAL SCHOOL

J. L. Washburn Makes School a Gift of Tract.

J. L. Washburn, resident director of the Duluth normal, has purchased all the land between the ravine and Colorado avenue, to within one block of the boulevard, and has presented it to the normal school, the grounds of which institution the tract adjoins.

Garden street, which formerly ran behind the normal grounds, can now be closed, and the entire space be included in the normal school grounds.

This gift from Mr. Washburn will give the normal plenty of room for the erection of new buildings when they are needed.

DUN'S WEEKLY TRADE REVIEW

Sentiment Improves and Delayed Contracts Are Now Expected.

New York, Jan. 11.—R. G. Dun & Co.'s Weekly Review of Trade says: Sentiment has improved in response to the better outlook in commercial lines. As much projected business was only held back by the inability to raise funds, the easier money market encourages expectation that postponed contracts will now be placed. The percentage of idle machinery has perceptibly decreased. Iron and steel production had fallen very low before the revival occurred, the output of pig iron at the beginning of this month being smaller than at any time in four years. This urtailment of output has maintained prices fairly steady, the average now being higher than on July 1, 1906. Several contracts for structural steel are under negotiation, but most mills are idle, pending the accumulation of more business. Thus far the lower quotations for galvanized shipments and tin plate have not stimulated prices. Numerous railroads are negotiating for delivery of rails for the year of 1908, and this business should be placed very soon.

Although there is no general activity in the primary market for textiles, improvement is noticeable in many departments, especially as to the number of inquiries. Buyers find accommodation more readily granted than before the curtailments took place. Less is heard of the general readjustment of prices, future concessions depending upon the statistical position of individual manufacturies.

Good Inquiry for Cotton Goods.

The cotton goods industry has comparatively good inquiry from China. As to woolen goods, the market for staple fabrics has opened irregularly. On some departments prices are relatively higher, others are unchanged and a few varieties are lower. In no case is the charge more than 2½ to 5 cents a yard. Stocks are held at a low point by restricting production of the mills to actual orders.

Wholesalers from the West and South have commenced to arrive in the Boston footwear market, but a full attendance is not expected until the end of next week. Shipments of boots and shoes from Boston have fallen off notably in recent weeks. Leather is weak in tone, buyers awaiting further reductions necessary to a parity with prices of hides. Heavy sole is still the strongest feature, owing to small supplies, but light weights are offered at concessions, particularly low grades of stock. Some transactions in packers' branded hides have been made at slightly higher prices than prevailed last week, with no improvement in natives, which now comprise most of the receipts. Foreign dry hides are distinctly higher.

OLD TIMERS IN COURT GRIST

Fifth and Third Offense Men Draw Stiff Sentences.

There was an old-timers' meeting in municipal court this morning, with a non-enthusiastic attendance of a few thirty-third degree booze fighters. In order that a quorum might be present, a squad of the blue-coated sergeants at arms were put on the job yesterday and picked up members of the association at random throughout the city.

Charles Mitchell was the veteran of the old timers, and he looked it. His battle-scarred face showed the marks of many assaults on the mahogany (or pine) barricades of the enemy, booze, and he had come out second best. He was booked up as fifth offense and a few more might have been added for good measure without exaggerating. He pleaded guilty and drew sixty days, in which to get squared away.

* * *

John W. Thompson is an old familiar figure. He has drawn down the mercy of the court many, many times in suspended sentences, but the red stuff has too good a hold on him, and he comes right back just as surely as he is let out. He has done time before and the sixty days he will do now will be like a long visit to a well known spot. He was a third offense man.

* * *

Charles Greve, a West Duluth young man, who was let off on a suspended sentence Dec. 7, with a promise that he would quit the booze, was back again. Greve is one of the class who have started on the down track, want to quit and cannot. He has promised several times to keep away from the stuff, but as long as he remains in town, he cannot resist it's siren call and brings up in court. He made a strong plea again this morning and promised to get out of town. His aged father, humbled by his son's disgrace, promises to send him up on the range, and the court suspended a sixty-day sentence and gave him until 7 o'clock tonight to get out.

* * *

Herman Harty and Albert Jackson didn't believe they had been drunk. Not that such a thing might happen to them, as they were third offense men, but they claim that at the particular time of their arrest liquor had not gotten the drop on them. Their cases will be heard this afternoon.

* * *

Peter Peterson was a plain drunk, very much the worse for a bad spree. He was given $5 or seven days. Norman Matheson, vag, drew $20 or thirty days, and John Gronfors, who tried to raise the price of a trip to West Duluth by touching a pedestrian, drew $10 or fifteen days.

SUMMONS IN APPLICATION FOR REGISTRATION OF LAND.
State of Minnesota, County of St. Louis. —ss.
District Court, Eleventh Judicial District.
In the matter of the application of George W. Buck, as assignee of the Mesaba Lumber company, Insolvent, to register the title to the following described real estate situated in St. Louis County, Minnesota, namely: Lots nine (9) to sixteen (16) inclusive, in Block one (1); all of Blocks two (2) and three (3); Lots five (5) to sixteen (16) inclusive, and Lots twenty-two (22) to thirty-two (32) inclusive in Block six (6); Lots eight (8) to thirty-two (32) inclusive, in Block seven (7); Lots five (5) to sixteen (16) inclusive, in Block eight (8); all of Block nine (9); Lots one (1) to fifteen (15) inclusive, and Lots twenty-six (26) to thirty (30) inclusive, in Block ten (10), and all in Blocks eleven (11) and twelve (12), all of said property being in Mineral Addition to West Duluth, according to the recorded plat thereof, on file in the office of the Register of Deeds in and for said St. Louis County, Minnesota,
Applicant.
vs.
William McKinley, Alfred Merritt, Second National Bank of Mauch Chunk, Pennsylvania, D. W. Selleck, and Gilbert G. Dickerman, Walter H. Dickerman and Security Trust Company, as administrators of the estate of Charles E. Dickerman, deceased, and all other persons or parties unknown, claiming any right, title, estate, lien or interest in the real estate described in the application herein, Defendants.
The State of Minnesota to the above named defendants.
You are hereby summoned and required to answer the application of the applicant in the above entitled proceeding and to file your answer to the said application in the office of the Clerk of said court, in said county, within twenty (20) days after the service of this summons upon you, exclusive of the day of such service, and, if you fail to answer the said application within the time aforesaid, the applicant in this proceeding will apply to the court for the relief demanded therein.
Witness, J. P. Johnson, clerk of said court, and the seal thereof, at Duluth, in said county, this 2nd day of January, A. D. 1908.
J. P. JOHNSON, Clerk.
(Seal.) By V. A. DASH, Deputy.
S. T. & WILLIAM HARRISON,
Attorneys for Applicant.

CONDITIONS IMPROVING

Chicago Was Hard Hit by a Fierce Sleet Storm.

Thousands of Workmen Busy Putting Things to Rights.

Chicago, Jan. 13.—Chicago's telegraphic communication with the outer world, which practically was paralyzed by yesterday's sleet storm, was slowly being restored to normal condition today. The construction departments were busy all last night in the work of repairing poles and broken wires. Emergency cables were sent out by the telegraph companies and were strung along fences in the rural districts.

Two hundred poles in the vicinity of Grand Crossing were carried to the ground, and a number along the Chicago & Northwestern Railroad company's western division. There was less damage to lines of the Illinois Central, which left open communication to some points in the south. Telegraphic service of all roads, however, was more or less affected.

Considerable inconvenience also was caused to patrons of the long distance telephone service, many wires being blown down.

Watch Towers Used Again.

With fire alarm and police telephone devices practically out of commission, the old watch tower system, used only upon extreme occasions, was resorted to. All day yesterday and throughout last night firemen were stationed either in the towers surmounting station houses or at a vantage point that would best enable them to detect a blaze in the vicinity in order that the department might respond promptly.

Most of the mail trains entering Chicago ran behind their schedules. The heaviest sufferers were the through trains from the north and from the south and southwest. Only one train, however, was reported absolutely lost. That was the Pacific Coast train of the Santa Fe system, due in Chicago at 9:17 o'clock in the evening. Dispatchers along the line reported at a late hour that the wires were all down and that they were unable to locate the through train. She is supposed to be fighting her way blindly toward Chicago at reduced speed.

Steamer Iowa Battered.

The steamer Iowa of the Goodrich line put into Racine yesterday in a battered condition, but with no serious injury recorded to boat or crew. The boat had left Chicago Saturday night bound for Milwaukee and northern points. Early in the morning she was struck by the heavy seas and buffeted about in a manner that threatened destruction to the steamer.

The storm gave employment to many idle men and work to all available extra men on the payrolls of the telephone, telegraph and lighting companies. The transportation companies also used extra outside men to some extent.

The street cleaning department used all of its regular men and those who recently were laid off. Today the city authorities may give employment to the great army of idle men now dependent upon charity. Many thousands of dollars will be put into circulation as a result of repairing the damage and clearing away the debris.

HE BURNED BABY'S HANDS.

One Reason Mrs. Reinhardt, Formerly of Minnesota, Asks Divorce.

Chicago, Jan. 13. — John G. Reinhardt was characterized by Mary Reinhardt, 289 Wilson avenue, in the superior court, before Judge Barnes, as a "life sized brute." She is seeking divorce. They were married September, 1899, and separated March, 1904.

"When we were living in Minnesota," said Mrs. Reinhardt, "my husband became angry at the horses and said he would not feed nor water them for thirty-six hours. I remonstrated and he pushed me in a dark closet in a cold room and attempted to lock me in."

Such acts as urging the baby to burn its hands on overheated dinner plates, throwing the mother-in-law out of the house, refusing to build a fire and compelling her to break the ice in the cistern to obtain drinking water were complained of by Mrs. Reinhardt.

THE FRENCH PREMIER

To Wed Well-Known Star of the French Opera.

Paris, Jan. 133.—A surprise in in store for the Parisians when they learn in a few days' time that Premier Clemenceau will shortly marry Rose Caron, a well known star of the French opera.

The fact has been kept so secret that only the inner circle of the premier's friends have been aware of the approaching marriage. The wedding will be quiet.

M. Clemenceau's former wife, now divorced, who was a Miss Plummer of Massachusetts, still lives in Paris, as also do the prime minister's two daughters.

HEIRESS NOW SOCIALIST.

Genevieve Winterbotham of Chicago Will Desert Ranks of Society.

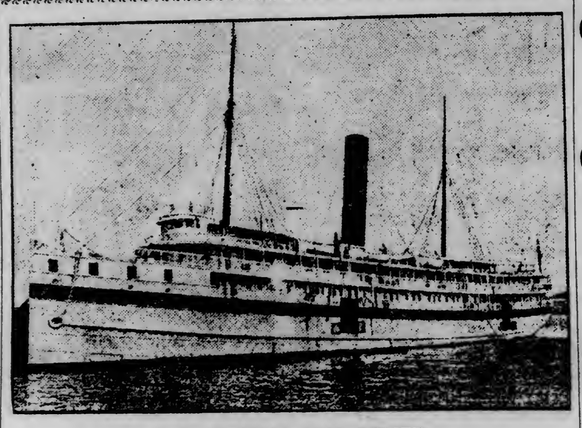
Chicago, Jan. 13.—Society has received a shock by the announcement that Miss Genevieve Winterbotham, daughter of a millionaire merchant, has become a Socialist. Miss Winterbotham is 23 years old, a graduate of Bryn Mawr, handsome beyond the conventional attractiveness of the society young woman and possessed of much wealth.

THE TORPEDO FLOTILLA STARTS FOR RIO JANEIRO.

Pernambuco, Jan. 13.—The American torpedo boat flotilla left here today for Rio de Janeiro. While in Pernambuco the officers of the flotilla received every attention from the shore authorities.

Edward Grey, a sailor on the Lawrence, who was accidentally drowned on Saturday, was buried yesterday.

HOSPITAL SHIP TO BE COMMANDED BY DOCTOR



U. S. HOSPITAL SHIP, RELIEF,
Which Is Being Fitted Out at the Mare Island Navy Yard to Join the Battleship Fleet. Dr. Stokes Has Arrived at San Francisco to Take Command of Her.

PUT COAL IN SEWER

A New York Driver Makes a Mistake in Covers.

Later Arrested on Charge of Choking the Waterway.

New York, Jan. 13.—Charged with choking a sewer, a serious if somewhat unusual offense, Louis Friedman of No. 283 Eleventh avenue, was arrested and taken to the West One Hundredth street police station. Louis drives a coal wagon for Thomas Stokes & Son of Fifty-fourth street and Tenth avenue.

Late in the day he reached the Hudson apartments, on Riverside drive, between Ninety-fourth and Ninety-fifth streets, with a load of coal. He lowered his chute and proceeded to deposit the fuel in the cellar. Had he been observant he would have noticed that there were two iron covers sunk in the sidewalk, and that one of them bore the letters "D. P. W.," the municipal monogram.

But it was just about dusk, and being in a hurry, Louis lifted the first lid he came to. It was the sewer cover. In a few minutes a ton of furnace coal was rattling down the chute and into the yawning cavern. Louis thought it strange when he didn't hear it strike bottom, but attributed it to the depth of the cellar. The last few lumps were going south when Janitor Wood appeared.

"Pretty near time you got around with that coal," he remarked. "I've been waiting for it all day. Hurry up and put it in."

"It's all in," said Friedman; "I just finished."

"In where?" asked Wood.

"In there," said Louis, pointing to the hole.

"Why, that's the sewer," shouted Wood. "There's the coal hole next to it."

The two men were offering to smooth out the wrinkles in each other's faces when a policeman arrived. Explanations followed, but Friedman was arrested for violating a corporation ordinance.

WARM EVEN IN ALASKA.

Outdoor Work Was in Progress All Through December.

Seattle, Jan. 13.—Reports have been received here that show remarkable weather conditions in the North. At Dawson the thermometer did not get much below zero until Jan. 1, when it dropped to 40 below. Outdoor work continued during December, even steam shovels being operated. Railroad work lasted until Christmas time.

The weather made fuel prices stay down until everybody had a good supply. In Southeastern Alaska, the weather has been mild although the snowfall was heavy. There is but little ice along Lynn canal.

FLEES WITH FORMER WIFE.

Count, Escaping Madhouse, to Remarry Washerwoman's Daughter.

Geneva, Switzerland, Jan. 13. — Count Erasmus von Erbach, scion of one of the noblest houses in Germany, will sail for America within a week with his divorced but still-loved wife. They hope to remarry despite efforts of the young aristocrat's family to keep them apart.

For three weeks following the young man's escape from a madhouse cell the couple stayed in hiding here. Now they have disappeared.

The girl is Dora Fischer, a washermowan's daughter.

LANDLORDS WILL ASK FOR NEW LAW.

New York, Jan. 13.—A new turn was taken in the rent strike agitation, yesterday, when a meeting of 700 landlords was held to discuss the matter. It was decided to have introduced in the legislature a bill making it a felony for any political agitator to incite tenants to refuse to pay rental which has been agreed upon. At present it is a misdemeanor. The recent rent strike in the East side tenements was supported by the Socialist party.

RECLUSE LEAVES HALF A MILLION

Minnesota Heirs Share in Estate of Connecticut Bachelor.

Waterburg, Conn., Jan. 13.—Some disclosures made in the estate of John S. Foote, aged 89, of Cheshire, a recluse and village storekeeper, and in the man's life history, will make interesting reading.

The heirs never even dreamed he had accumulated a fortune until they got the official appraisal some time ago, which showed him to be worth over half a million in gilt-edge securities. He lived in a tumbledown house adjoining his village store, where he sold shoes, drugs and notions.

He had grown up in the business there as a bachelor. He never for thirty years saw the North end of his own town, never in his life rode on steam or trolly cars, never loved any living thing and hated women.

He chewed plug tobacco until the Civil war, when the price went up.

The administrator, Howard T. Moss, gets nearly $40,000 out of the estate. Williams S. Foote of Ohio, a nephew, gets nearly a quarter of a million and the rest is divided among the following grandnephews and grandnieces: Alfred N. Foote, Wilson A. Foote, Sidney S. Foote, all of Spencer Brook, Minn.; Florence S. Maine, Minot, N. D., and John A. Foote, Princeton, Minn.

FARMAN WINS PRIZE.

Paris, Jan. 13.—Henry Farman, the French aeronaut, today won the Deutsche archdeacon price of $1,000 by making a circular kilometer in an airship heavier than air. The successful flight was made in the presence of an official committee of the Aero club. The time was 1 minute and 28 seconds.

DISCOUNT RATE REDUCED.

Berlin, Jan. 13.—The Imperial Bank of Germany reduced its rate of discounty today from 7 per cent to 6 per cent.

MUST HAVE FULL CREWS

On Lake Steamers if New Bill Becomes Law.

Congressman Ryan Introduces Bill of Interest to Mariners.

FROM THE HERALD WASHINGTON BUREAU.

Washington, Jan. 13.—(Special to The Herald.)—T. B. O'Connor of Buffalo, grand president of the Licensed Tugmen's Protective association, had a consultation with Congressman Ryan, when the latter was in Buffalo last week, the result of which is that Mr. Ryan has introduced a bill which is of very great importance to the lake-carrying interests.

The purpose is to amend the revised statutes wherein they apply to inspection laws of steam vessels. Mr. Ryan's bill amends section 4469 by providing that no vessel subject to such laws shall be operated, or navigated, unless she has such a complement of licensed officers and crews as may be necessary in the judgment of the local inspectors for her safe navigation. The bill also provides that local inspectors shall enter in the certificates of inspection such complement, but with the right to appeal to the supervising inspector and to the head of the office in Washington against the decision of the local officers.

It also provides that in the event of a vessel being deprived of the services of such licensed officers, the places may be temporarily filled by unlicensed men until proper officers can be obtained. The bill also makes it the duty of the inspectors, when issuing a certificate, to specify therein the number of officers and men that must be employed. In other words, the purposes of the bill is to place in the steamboat inspection service the power to designate what officers and men are necessary to insure safe operation and navigation of steam vessels sailing under American register.

GREATEST RESTAURANT

In the World Will Occupy an Entire Broadway Block.

New York, Jan. 13.—Broadway is to have, according to plans nearing completion, the greatest restaurant in the world. It will occupy an entire block on Broadway and will be capable of seating 8,000 persons. The property extends from Forty-third to Forty-Fourth streets on the west side of Broadway, across the street from the Hotel Astor. The building on it is to be remodelled and the lower floor turned into an enormous cafe capable of seating 4,000 persons. The roof of the building will be turned into a great garden, seating 4,000 more, which will be open in the summer and covered with a glass roof in the winter.

SOLDIER BURNS TO DEATH.

Leavenworth, Kan., Jan. 13.—William Mallard, a private of the Thirteenth infantry, was burned to death here, early today, in a rooming house fire.

NOT QUITE AS BIG A BOY AS HE THOUGHT HE WAS.

PROSECUTION BRIEFLY DESCRIBES KILLING OF WHITE BY HARRY THAW

Attorney Gowan Presents Government's Side in Twenty Minutes.

Declares That the Shooting Was Deliberate and Premeditated.

Draughtsman the First Witness Presented by the State.

New York, Jan. 13.—Before the opening of court today for the Thaw trial, A. Russell Peabody, attorney for Thaw, stated that no application for a commission to go to Pittsburg and take the testimony of Mrs. William Thaw would be made as the defendant's mother had telegraphed she would come to New York when needed. Mrs. Thaw is still very sick, but the value of her testimony, a personal recital rather than that form of a deposition, has led the attorneys to abandon the latter proposition.

Thaw was called to the bar promptly at 10 a. m. Within the next few minutes Assistant District Attorney Garvan had begun the outline of the prosecution's case to the jury.

Material Facts Admitted.

"The defense in this case," said Mr. Garvan, "is insanity. The material facts are admitted. Insanity, let me assure you, is not to be defined what you or I might think. It is not what physicians or metaphysicians may tell us, or what scientists or pseudo-scientists may describe. Insanity, as we

(Continued on page 11, first column.)

STOKES AFTER HIS VESSEL

Newly Appointed Physician-Commander Reaches Frisco.

San Francisco, Jan. 13.—Dr. Charles Francis Stokes, the United States navy surgeon, whose appointment by President Roosevelt to the command of the hospital ship Relief has caused a commotion among the line and staff officers of the navy, arrived from the East last night. Dr. Stokes has come from San Juan, Porto Rico, to take command of the Relief, which is now being overhauled and outfitted at the Mare Island navy yard, preparatory to actual service with the great fleet, which she may join at Magdelana bay in April.

MISS EDNA GOODRICH,
The Actress, Who Has Been Served With a Subpoena to Testify in the Thaw Case.

RAISULI TO AID HAFID

Bandit Leader Casts His Lot With the New Sultan.

Still Persists in Refusal to Give Up Caid MacLean.

Paris, Jan. 13.—A special dispatch to the Matin from Tangier says that Raisuli, the bandit, has joined Mulai Hafid, and that he still persists in his refusal to give up Caid Sir Harry MacLean, except by order of the new leader.

Advices from Rabat to the Matin state that Abd El Aziz's court is terror-stricken by the news that Mulai Hafid has been proclaimed sultan.

The Matin adds that recent conferences between Premier Clemenceau and the French representatives at Berlin and Tangier make it practically certain that it will be absolutely unnecessary to modify the French policy in Morocco.

Paris, Jan. 13.—Dispatches received last night by the government from Rabat announce that the army of Gen. Bagdani, chief of the sultan's army, which was camped outside the city, has been called within the walls. This is causing great anxiety to the Europeans, who fear the soldiers of Abd El Aziz as much as they do Mulai Hafid's.

Paris, Jan. 13.—There has been published here a statement from an inspired source, to the effect that the French government has decided to confine its action in Morocco to assuring the security of the Algerian frontier and the maintenance of order at the ports, in accordance with the Algeciras agreement. No loans will be concluded with Mohammed Sidi-El-Mokhri, who has come from the finance minister to Abd-El-Aziz, assuring the security of pending further developments. Admiral Philbert has eleven ships on the Moroccan coast, and Gen. Dearmede, the military commander, has about 9,000 men, including seven batteries.

MALONEY DIVORCE SUIT

From Young Osborne, Attracting Much Attention at Vatican.

Rome, Jan. 13. — The news that Miss Helen F. Maloney has begun suit for the annulment of her marriage to Arthur H. Osborne is causing comment at the Vatican. Her marriage with Osborne is considered valid, so that annulment before the ecclesiastical authorities could only be possible if Osborne was proved not to be a Christian, or by the special grace of the pope if it were proved that the marriage had not been consummated.

INFLUENZA HAS FIRM GRIP IN CHICAGO.

Chicago, Jan. 13. — Influenza has Chicago firmly in its grip. Nearly 650,000 people are suffering from this disease or its "corollaries" according to the city health department's weekly bulletin, issued last night.

"Not since the epidemic season of 1898-99 has influenza played such an important part in the mortality as at present," said the report. "During the last week thirty-one deaths from this disease were reported."

RACING TO HONOLULU.

San Francisco, Jan. 13.—An ocean race to Honolulu, between four sailing vessels, is on. Two ships, a barkentine and a bark, left this port yesterday for the islands, and before sailing the masters of the several vesssels made wagers on the race. Each will crowd on all sail in an effort to reach the islands first; and the captain of the winning vessel will make a tidy sum.

REGISTERED MAIL BURNS

In Destruction of Union Station Annex at Kansas City.

Many Express Packages Consumed; Loss About $250,000.

Kansas City, Mo., Jan. 13.—The union station annex, in Union avenue, adjoining the union railway station, was destroyed by fire early today. The union station proper, one of Kansas City's landmarks, was saved by the firemen after a hard fight. The burned building contained the receiving offices of the Adams, Wells-Fargo and Pacific express companies, a branch of the postoffice, the offices of the Fred Harvey Eating House company, the Pullman Palace Car company's linen room and the Railway Men's Y. M. C. A. rooms. The loss is estimated at close to $250,000.

The fire spread with such rapidity that the firemen were able to save but 300 sacks of common mail and a small portion of express matter. Twenty-five sacks of registered and some other matter were destroyed, together with a great number of express packages. A large supply of linen in the Pullman rooms, and the laundry, furnishings and apparatus in the Y. M. C. A. were destroyed. The Y. M. C. A. quarters had been partially furnished by Miss Helen Gould.

The building and heating plant were owned by the Union Station company, whose loss is placed at $100,000. The Fred Harvey company's loss is $50,000. It is difficult to accurately estimate the loss of the express companies, and the government and the Pullman and the Christian association, which, however, will, it is believed, bring the total up to $250,000.

BOOKMAKERS LOSE $2,000

Five Young Men Win That Amount in Chicago.

Chicago, Jan. 13.—Five gentle-mannered young men have put five tinhorn handbooks out of business and are now being eagerly sought for by the proprietors of the books, although the police have not been asked to join in the search.

A few days ago the five bookmakers noticed that each had a new customer. The young men played the New Orleans races for several days with varying success.

They always made their bets a few minutes before the result of the race they were playing was received over the wire. This attracted little attention, as the bets were generally lost.

Then came the coup. One of the young men went to a drug store in the neighborhood and leased a long distance telephone wire to the New Orleans race track for the entire afternoon.

He obtained the winners of four races before they could be telephoned to the handbooks in the neighborhood, and each one of his friends would rush out and place bets.

After winning $2,000, the young men disappeared.

WANTS BODY UTILIZED.

Man Directs His Bones Made Into Buttons and Skin Tanned.

New York, Jan. 13.—Priding himself on his ideas of utilitarianism, Henry E. Sullivan has made a will by which he directs his executors to make use after his death of every portion of his body for which a use can be found. His bones are to be made into buttons, his skin is to be tanned for leather and violin strings are to be made of such portions of his body as lend themselves to that use. All of these products, Mr. Sullivan directs, are to be given to his particular friend, James Hayes, who is to distribute the articles among Sullivan's friends as he sees fit. In discussing his peculiar will Mr. Sullivan says that he has always been an utilitarian and has for many years believed that it was foolish to cherish any sentiment for a dead body. Burial, he believes not only to be unsanitary, but a great waste of material, which can be put to good use.

AGED LITERARY WOMEN

Will be Provided With a Home by Mrs. Custer.

New York, Jan. 13.—Mrs. Elizabeth Custer, widow of Gen. Custor, who was killed in the Indian massacre, in the West, in 1876, intends to erect a home for aged literary women as a memorial to her husband. She has purchased sixteen lots in Bronxville, Rochester county, and will erect the home there. Mrs. Custer has written several books and has long been interested in literary women.

KANSAS WOMEN ASK FOR EQUAL SUFFRAGE.

Topeka, Kan., Jan. 13.—A delegation of fifty prominent Kansas club women called on Governor Hoch today, asking him to include in his message to the legislature, which convenes Thursday, a recommendation for equal suffrage for women in all elections in Kansas. The governor told them that he had but four bills in mind when he called this session, and his message was prepared along these lines, and would be in the printer's hands tonight.

DEFECTIVE PAGE

MUST PAY LARGE TAX

Frank W. Higgins Estate is Assessed $15,000 Inheritance Tax.

Under New Law Money Will Go to State of Minnesota.

According to the ruling of the probate court of St. Louis county, the estate of the late Frank W. Higgins, ex-governor of New York, will have to pay the state of Minnesota an inheritaonce tax, amounting to nearly $15,000.

The court finds that the estate comprises $308,969.27 Minnesota assets, all of which are left to the widow, Kate C. Higgins of New York. The rate of the inheritance tax on amounts over $100,000 is 5 per cent, and the Higgins estate will have to pay the state $14,948.46.

This is by far the largest amount that has yet been assessed as an inheritance tax by the probate court of this county since the inheritance tax law became operative.

DeWitt's Carbolized Witch Hazel Salve is especially recommended for piles. Sold by all druggists.

MILITIA MEN MAY GET COMMISSION

Plan to Allow Them to Enter Regular Army.

Information was received at the army recruiting office today of the approval of the president of a plan whereby governors of the different states shall have the authority to recommend members of the National Guard for the taking of an examination for the rank of second lieutenant in the United States regulars.

The plan will mean that governors of the states will exercise the same authority that is exercised now by senators and members of congress, in regard to securing West Point appointments.

It will prove of interest to members of the militia, inasmuch as it permits them to join the army with the rank of a commissioned officer, should they be successful in passing the examination. It is also thought that the plan will encourage study of military subjects among members of the militia, who are anxious to join the army.

It is the plan to have the examinations held annually at some fort. The members of the Guard recommended by the various governors will be eligible, and in the event of a successful examination, can step from the militia into a commission in the regulars.

An Opportunity You Cannot Miss Without Regret

A careful reading of the price lists below quoted will be of impelling interest to every woman who covets fine Furs or Garments. The reductions are radical to an extreme, and should be taken advantage of at an early date as, in many cases, especially on the high-priced articles, there are but one and two of a kind.

You will remember the great crowds which packed the house during the suit sale, and how we were compelled to admit that we could not take care of the crowds Many, too, waited until it was too late before making a choice We would warn you against such a mistake this time. Up to the present writing today the store has been crowded and many of the rare opportunities are being snatched by shrewd women. Come early tomorrow morning and see for yourself what values are offered. You will agree with us that it is like "finding money" to invest in these staple articles at such prices.

The Children's Department joins the main store in applying prices which will soon put all Winter garments to rout—Half Price and less on Winter Coats and slightly soiled Lingerie Dresses. Leggins, Caps and Furs at One-third off.

SUPERIOR NEWS

MURDER TRIAL BEGUN.

William Winlock Faces Charge of Murder in Superior.

The trial of William Winlock, a colored man, for the murder of Albert Neumann, was begun in the Superior court this morning. It is claimed that Winlock, while attempting to shoot William Harris, another colored man, in a negro club on Third street, in Superior, last November, shot and fatally wounded Neumann, who was delivering beer at the place. It is supposed that Winlock will contend that Harris fired the first shot in the battle, during which several shots were fired besides the one that struck Neumann. Harris will also be tried for attempting to murder Winlock.

WILL TEST NEW LAW.

Action to Determine Validity of Eight-Hour Measure.

District Attorney Foley today brought action against the Northern Pacific road to test the validity of the eight-hour law for telegraph operators. He cites ten causes of action and demands $50,000 forfeiture—the law fixing the amount at from $1,000 to $5,000 for each offense.

Deer Story Was a Pipe Dream.

After investigating the claims of T. E. Buchanan that Senator La Follette and his party bought the deer they took out of the county last fall, instead of killing them, Deputy Game Warden Craig has decided that the Buchanan story was not based on fact. Mr. Buchanan referred Mr. Craig to the game warden at Solon Springs and that official referred Mr. Craig back to Buchanan. The latter is said to have retracted his statements and the matter will be dropped. The story was generally discredited from the fact that Senator La Follette, while governor of Wisconsin, was instrumental in the strict enforcement of the game laws. With his hunting party this year were two game wardens.

Death Follows Paralysis.

William Schnell, aged 47 years, one of the well known local liquor dealers, died at his home 1612 Thirteenth street, Sunday evening. He suffered a paralytic stroke about a week ago and another Sunday morning. The decedent was born in Germany. He was in business in Milwaukee, Wis., and in Casselton, N. D., before coming to Superior. He is survived by a widow and four sons.

Charged With Robbery.

Simon Sparks and A. F. Foster have been arrested on suspicion of robbing John O'Neil, an old soldier, of $36. The alleged robbery is said to have occurred in the "Q. P." saloon on Third street. O'Neil was arrested for drunkenness. He reported the robbery after sobering up and assisted the police in locating the two men accused of the theft. Sparks is a cripple. Foster is a seaman. Both men feel aggrieved over their arrest and the charge made against them.

STOCKHOLDER'S MEETING.

Directors of the Consolidated Elevator Company Are Elected.

The annual meeting of the stockholders of the Consolidated Elevator company was held in New York, Jan. 7, when the following directors were elected: George Spencer, G. H. Spencer, and H. A. Starkey, Duluth; F. B. Kellogg, St. Paul; Charles A. Mair, Chicago; C. H. Clark, Jr., Philadelphia; F. H. Parker, New York; C. E. Perkins, Brooklyn; G. W. Petus, Great Barrington, Mass.

The directors elected the following officers: President, George Spencer; vice president and chairman of the executive committee, F. B. Kellogg; vice president and superintendent, H. A. Starkey; vice president and secretary, G. H. Spencer; assistant secretary, W. H. Kilchli.

When you buy a cake of WHITE LILY you're buying ALL soap, PURE soap, BEST soap.

PIONEER RESIDENT.

Mrs. Mary Decker Passes Away at Age of 74 Years.

Mrs. Mary Decker, for over fifty years a resident of the Head of the Lakes, died yesterday at the home of her daughter, Mrs. Barbara Sampson, 819 East First street. Mrs. Decker was 74 years of age and first came to the Head of the Lakes in 1855, settling with her husband in Superior. They moved to Duluth a few years later and she continued to reside here until her death.

Mrs. Decker is survived by two daughters and two sons, all living in Duluth. They are Ben and Nicholas Decker, Mrs. Barbara Sampson and Mrs. Emma Coering. Mr. Decker died about thirty-four years ago.

The funeral will be held next Friday morning from the German Catholic cemetery, with interment in Calvary cemetery.

Moderate Price

Calumet Baking Powder

$1,000.00 will be given for any substance injurious to health found in Calumet.

BREAKS GROUND FOR EXTENSION

Work on New Vault at Courthouse Will be Pushed.

Ground is being broken today for the addition to the old courthouse, which, when completed, will afford an extension to the vault in the auditor's office, and furnish a room for the county board to meet. The room formerly occupied by the board will be utilized by the working force in the auditor's office.

John A. Johnson was awarded the contract for the extension, or "wart," as such extensions to the old courthouse are popularly termed. His bid was a little over $3,200. The construction work will be pushed as fast as possible, as the additional vault and office space is very much needed, particularly the vault room, as there are valuable records in the old vault that cannot now be afforded any protection from fire.

THOSE WHO HAVE PASSED BEYOND

La Crosse, Wis., Jan. 13.—Prof. B. M. Reynolds, for the past thirty years one of the best known educators of Wisconsin and Minnesota, died last night in a hospital at Morgan City, Ala. Prof. Reynolds had gone South for the benefit of his health. He was long principal of schools here and later a professor in a college at Northfield, Minn.

Chicago, Jan. 13.—Rabbi Bernhard Felsenthal, said to be the oldest Jewish theologian in the United States, and recognized as one of the world's greatest Hebrew scholars, died last night after ten days of illness.

COTTON IN AUSTRALIA

Visitor From Tasmania Says It Can be Grown There.

Americans in the Antipodes Are All Doing Well.

H. L. De Silvia of Launceston, Tasmania, who is at the Lenox, has the origianl copy of the proclamation delivered by Governor Daveys to the natives of Tasmania in 1816. The aboriginals, as they are called, could not understand what was read to them, so a proclamation in the form of a picture was made out, showing the natives that the white and the black would have justice dispensed in equal portions.

The document has been in the museum of Launceston until a few years ago, when it was secured by a descendant of Governor Daveys. From this person the document was secured by Mr. De Silvia.

The latest discovery in Australia, according to Mr. De Silvia, is that cotton can be grown. This fact will enter largely into the export trade of Australia, Mr. De Silvia believes. He says the seed was broight to Australia by an American. It has been ascertained that the Australian cotton is fully as fine as the cotton grown here. Some of the larger land owners are taking up the subject of cotton raising with an idea of exporting it to England. Mr. De Silvia believes that the plan will become highly successful and that the Southern states may awake some day to find a competitor in Australia.

Mr. De Silvia says that the Australians are going mad over ice skating. They have several artificial ice rinks in some of the larger cities and the people are "daffy" about skating.

Labor is very scarce in Australia, says Mr. De Silvia. They are trying to induce men to come to Australia, but are not meeting with very much success. Wages are high and living is cheap, yet there seems to be trouble in getting men to come out from England. Like the American Indian, the native black of Australia is dying off. Mr. De Silvia says they are practically worthless in the face of advancing civilization. They are the most densely ignorant people in the world and are unfit for labor. The government is taking care of some of them, although most of them are in the most remote and wild parts of the country.

Mr. De Silvia had an exciting experience with the cannibals of the Figi islands, four years ago. He was there with a party of English who were engaged in the construction of a sugar mill. They have what are termed the valley and the mountain men. The mountain natives are the cannibals, who live in the fastness of the mountain retreats. When the mountain and the valley men meet it is war from the word go.

A party of about twenty Englishmen took a mountain trip with some valley men as guides. When they unexpectedly came across some of the flesh eaters of the hills, who espied their hated enemies, the valley gang, the trouble started. Mr. De Silvia says the air was fairly bristling with spears. The Englishmen were armed with revolvers and guns, and after a fight, during which several of the valley and hill men turned up their ebony toes and laid down their kinky heads for the last long rest, the Englishmen were able to drive off the mountain men and escape.

The resources of Australia are only in their infancy, says the visitor. He says the exportation of wool is increasing, while science is proving that Australia is able to produce many more commodities than was known several years ago. He says Americans are well liked over there, and that the few in Australia are doing very well. He predicts the raising of cotton will open a new field of endeavor for any Americans who may wish to go to the antipodes.

F. S. Kelly Goes East.

F. S. Kelly, accompanied by Salesmanager Edward Whalen, left yesterday evening for the furniture market of Chicago, Grand Rapids and New York. Mr. Kelly is making his purchasing trip a month earlier this season, having had an unusually busy November and December. He will be gone about three weeks.

BRULE INDIAN DIES FROM SMASHED SKULL.

Chamberlain, S. D., Jan. 13.—Ben Handsome Elk, a lower Brule Indian, died this morning at the sanatorium in this city, as the result of a fractured skull, sustained several days ago at Kennebec. The injury was caused by being struck on the head with a club by John Dillon, a merchant at that place. The head was frightfully crushed in. The quarrel was the result of a difference over money matters. Dillon is presumed to have acted in self-defense.

SAUSAGE A LA GEORGE ADE.

George Ade, in a recent address to the graduating class of a Taunton cooking school, amused his fair hearers not a little by the recital of some burlesque recipes. The following were among them:

"Home-made Sausage.—Take five pounds of end steak at 2 cents a pound, and pound it with a sledge till it looks like red current jelly. Pass it through the clothes wringer four times, and then let the little ones play with it till it is quite tender. Cook it in the oven till it is brown, and if you are expecting your husband's mother, burn the bottom.

"Onion Salad.—When the man isn't looking, take a strong, healthy onion, and kill it. Drive ont the smell with a hammer. Serve.

"Cream Cheese.—Get a quart of milk and skin it. Take a tub and drop in two flies. Let the milk stand in the tub till it is tired, and then dig a hole in the yard, and lay the cheese in the hole, and build a wall around it so it can't escape. Then, in three months' time, when the cheese is gray, wrinkled and infirm, grab it by the back of the neck and eat it quick.

"Bean Soup.—One bean, four quarts water. Add two quantities salt, and sit up with bean till it dissolves. Heat and serve. If you take in boarders, add more water."

EAT SOUR MILK AND LIVE LONG.

The latest producer of long life discovered by European physiologists is zoghurt, a preparation of sour milk. Prof. Elias Metchnikow of the Pasteur Institute was the first to direct attention to it, but no sooner had he done so than Prof. Reinhardt of Vienna announced that he had known all about it for years and that it was in general use in country parts of Bulgaria, says the New York Sun.

Prof. Metchnikow's theory is that the ferment contained in the milk attacks certain bacteria which develop in the human system and have poisonous effects. He has proved by experiment, he says, that the zoghurt has an absolutely disinfecting influence and that by destroying the poisonous germs it not only prevents disease but also arrests the process of aging.

In a paper published in the Austrian Review Dr. Reinhardt tells how the Bulgarians prepare the zoghurt. Cow's or goat's milk is boiled in an open vessel until reduced to about half its original volume.

Then it is cooled, and when it reaches a temperature of about 115 degs. some zoghurt already prepared is stirred into it and it is left to ferment. The germ, which the doctor calls maya fungus, acts quickly and the zoghurt is ready for use in a day.

Dr. Reinhardt thinks the health giving qualities of the preparation are simply proved by the fact that Bulgaria in a population of 4,000,000 has 3,800 zoghurt eaters of 100 years of age and upward, while in the whole German empire with 61,000,000 people there are only seventy-one centenarians.

SPECIAL HAD TO BE HELD

While Signor Torre Enjoyed a Sunday Morning Nap.

Grand Opera Singer Slept While the Manager Stormed.

"Hello, is this the Spalding?"

"Yes; what do you want?"

"For heaven's sake wake up Sig. Torre. He is asleep in his room, the train is five minutes late already and the conductor won't wait any longer."

The foregoing is only a fragmantary part of the conversation Manager Ivan Abramson held with the clerk of the Spalding yesterday morning. Mr. Abramson is the manager of the Italian Opera company, be it understood, and Sig. Torre is the tenor, who goes to the mat with the heroine in the third act of Carmen, with the calcium light turned on his haughty, scowling features. But while Manager Abramson was doing the scowl act, raging through the 'phone, and entreating the conductor of the special to wait just five minutes, Sig. Torre was blissfully and peacefully enjoying a sleep free from thought or worry.

Time and tide waits on no man, but railroad trains will wait on genius. So Sig. Torre being a genius, at least Manager Abramson told the conductor of the special train that he was, and the conductor held the train twenty minutes while the leading warbler of the opera rubbed his eyes, yawned, turned over in bed, yawned again, and then answered the vigorous rapping. He was informed that it was after 10 o'clock, and that the special, that was to convey the members to St. Paul, was being held for him.

Finally Sig. Torre grasped the fact. Slowly the idea gained life and more slowly the tenor rolled out of bed and began to pull on his clothes. A railroad president would have hurried; ah, but a hero, a tenor, a man with temperament, a little thing like holding a train, fie, nothing at all to be excited over. And meanwhile Manager Abramson walked up and down the platform of the station saying things that Noah Webster has failed to define, and the conductor grew excited and said that he wouldn't hold his train any longer for any——opera singer. Just as Manager Abramson gave up the fight in despair, Sig. Torre appeared at the station, wearing a bright red carnation and a pleasant affable smile. Graciously he saluted the irate manager, leisurely he walked the length of the platform, climbed abroard the train, while the conductor said things that would have made a hippotamus blush.

The train was held exactly twenty-two minutes for the tenor, the schedule of the trip had to be changed, the conductor and engineer and Manager Abramson said some dreadful things, the bell hops at the Spalding were kept on the run for ten minutes, and other complications resulted, just because Sig. Torre is a genius.

"These geniuses; we have to honor them," said Manager Abramson, as he climbed aboard after the tenor.

Assistant Superintendent Welch came to Duluth on the special.

STICKS HEAD OUT OF CAR.

Brakeman is Seriously Hurt Riding on Missabe Train.

Robert Spornitz, a brakeman employed by the Duluth, Missabe & Northern, lies near death at St. Mary's hospital as a result of sticking his head out of a car window, while coming from Proctor to Duluth Saturday.

Just as the train went under the Garfield avenue viaduct, Spornitz stuck his head out of a window, and was hit by an iron pillar alongside the track. The blow knocked him unconscious, and he hung there with his head outside until taken hold of.

The train was stopped and the injured man taken to the hospital, where he was found to be suffering with a bad fracture of the skull and other injuries. Today his condition is improved, and he is said to have a chance of recovery.

He has a family living at Proctor.

LIBERALITY IS KEYNOTE

Of Sermon at Unitarian Church, by Rev. Gebauer of Alton.

Liberality and freedom of thought were the keynotes of the sermon given at the First Unitarian church, yesterday morning, by Rev. George R. Gebauer of Alton, Ill.

While he declared that there was no greater faith in God anywhere than in the Unitarian body, their's was not a belief surrounded by orthdox dogmas, and that the spirit of fellowship predominated, to the extent of accepting into the church those whose belief in God was not quite firm, but who were seekers after the truth.

HURT AT GRAND FORKS.

Mail Clerk Charles E. Flora of Duluth is Injured.

Grand Forks, N. D., Jan. 13.—(Special to The Herald.)—Charles E. Flora, who runs between Duluth and Grand Forks as mail clerk on the Great Northern, has gone to his home in Duluth to receive treatment for an injury received while the car was being switched in the local yards. The jolt threw him off his feet and he struck against some of the car equipment with a great deal of force.

DEVILS LAKE MERCHANT

Dies After Severe Attack of Bronchial Trouble.

Devils Lake, N. D., Jan. 13.—(Special to The Herald.)—Following a severe attack of bronchia trouble, Pastuale Le Fjore, a well known and prominent merchant, is dead, leaving a wife and a 16-year-old son.

Mr. Le Fjore was 60 years old and was a native of Italy. He came to this country when very young, first going to Philadelphia. He came to Devils Lake in 1883 and since that time has conducted a store in this city and was accounted as one of the wealthiest men in the county.

Dyspeplets Quickly relieve Sour Stomach, Heartburn, Nausea, and all other discomforts of indigestion and dyspepsia. Sugar-coated tablets. 10c. or 25c. Druggists or by mail.

Catarrlets Give instant relief in Nasal Catarrh—allay inflammation, heal mucous membrane, sweeten breath. Best gargle sore throat. 50c. C. I. Hood Co., Lowell, Mass.

If Made by Hood It's Good.

INTEREST IN MILITIA

More is Being Shown Now Than Ever Before.

Arrangements Made for Annual Shoot for Smith Trophy.

Officers of the militia are well pleased with the interest that is being taken at the present time in the local companies of the National Guard.

The old companies, A and C, are gaining new members all of the time, and the names for the roll of the new company are going down so fast that it is expected that the organization can be mustered in this week. A meeting of the new company will be held Thursday evening, instead of Friday evening, as first announced.

This is expected to be the best year the militia has ever seen here. The old companies, A and C, have undergone a rejuvenation. Recruits are being enrolled in a lively fashion, and Company G is nearly up to the maximum in point of numbers. Both A and C still have room for a few recruits, however.

The Northwestern Inter-Military Rifle association met yesterday afternoon and made arrangements for the annual shoot for the Smith trophy. Only the date remains to be set, and that will be decided upon later.

Col. Resche was re-elected president of the association; Lieut. Bootz of Rice Lake was named vice president; Roger Weaver, secretary, and Capt. Rossiter of Superior, treasurer.

Kennedy's Laxative Cough Syrup acts upon the bowels and thereby drives the cold out of the system. It contains no opiates—it is pleasant to take. Sold by all duggists.

HIGHER CLASS OF CONSTRUCTION

Called for by New Building Code in New York.

Washington, Jan. 13.—The many accidents and actual collapses of buildings while under construction have given force to the warning of such conservative bodies as the International Society of Building Inspectors, that has long advocated more stringent regulations of experimental construction in our cities. New York's building code, now being rewritten, calls for a much higher class of construction in all grades of buildings than the old one and it throws such safeguards about the use of reinforced concrete as to make that material much less attractive to the speculative builder. Seattle has just passed a new building ordinance permitting standard steel construction to go up to sixteen stories, but limiting reinforced concrete buildings to ten stories, and it, too, makes many restrictions as to the use of reinforced concrete.

Minneapolis has gone a step farther and has just passed an amendment to its building laws, compelling every owner who builds a reinforced concrete building to have a specially licensed building superintendent constantly in charge of the work, one directly responsible to the city for the efficiency of his superintendence. Little by little the authorities are awakening to the fact that concrete is a most excellent thing when properly handled, but the most dangerous of all building materials if the slightest imperfection is allowed in it.

Fatal collapses of buildings have grown altogether too common. A radical reform is imperative and is in progress. A year ago one of our important building journals exclaimed: "The grey of our concrete structures is already too much stained with blood. Shall we allow that stain to spread and grow still darker?" Evidently our city authorities have determined to try and prevent the spread of that stain.

For dainty fabrics and tender skins "WHITE LILY," the standard SOAP, is "exactly the thing."

RUBBER TUBE IN HIS CHEST

Gross Negligence on the Part of New York Surgeons.

Red Lodge, Mont., Jan. 13.—A startling instance of the negligence of some Eastern surgeon was revealed last week when Dr. Gust Pitkanen, a local surgeon, performed an operation on Charles Joakinen, a young Finnish miner, for the removal of the cause of a pain in his chest, which had caused him much trouble and was gradually weakening him until it was feared he would not recover.

Joakinen came to the United States about six months ago. Shortly after his arrival in New York he became afflicted with an abscess of the pleural cavity, which necessitated an operation, and he entered a New York hospital for that purpose. After he was released from the hospital he came to Red Lodge, but he did not becom strong. On the contrary, he grew steadily weaker. Finally the local doctor was consulted, who determined an operation was required to ascertain the cause of the trouble.

When the former wound was opened and the cavity drained of the pus that had accumulated, Dr. Pitkanen was astonished to find in the cavity two pieces of rubber tubing, four and five inches long, respectively, to one of which was attached a safety pin of fair size, badly rusted. The rubber tubing was nearly a half inch in diameter. With the removal of the foreign substance, which had evidently been left in the wound when the New York surgeons sewed it up, young Joakinen began to get better and is now well on the road to recovery.

SILBERSTEIN & BONDY CO. | SILBERSTEIN & BONDY CO. | SILBERSTEIN & BONDY CO. | SILBERSTEIN & BONDY CO.

Annual January Clearance Sale

Continues Tomorrow at 8:30 a. m.

The Greatest Merchandize Event of the Year

THE WHITE SALE

begins its second week with fresh supplies added from daily-arriving shipments of absolutely brand new merchandize (no old accumulations of stock offered as new).

The habit of every store, big or little, of holding a "January sale," has confused careless shoppers. They don't find real bargains in most stores, hence question real bargains existing in any store.

Here, however, they are never disappointed.

And the beautiful white goods section—what of it? Well, it must be seen to be appreciated.

Never such dainty and exclusive patterns.

Never such a variety heretofore.

Never such values both in grade and price.

THE UNDERMUSLINS.

French and Bohemian hand-embroidered underwear is brought within the reach of every woman who loves daintiness, while the American-made garments are liberal in sizes; correct in shaping; exclusive in style—the very sort of garments you'd make in your own sewing room, if you could spare the time.

Nightgowns from **$1 to $19.50**
Chemises from **....$1 to $10.50**
Drawers from **.....50c to $9.50**
Corset Covers from **50c to $9.50**
Petticoats from **$1.00 to $19.50**
Combination Corset Cov.
ers and Drawers **$1.50 to $3.50**

10 Per Cent Discount on Everything—Nothing Reserved.

EXTRA SIZE UNDERCLOTHES.

This is a specialty most stores overlook. Ordinarily women must buy them in the large Eastern cities. Not so here!

We are supplied with many practical garments suitable for extra large women.

AMERICAN HAND-FINISHT UNDERWEAR.

These are embroidered on hand machines in this country—wonderfully fine and effective and inexpensive.

FRENCH UNDERCLOTHES.

Embroidered by hand, and imported from Paris expresssly for this sale. Never so reasonable before, and withal perfectly beautiful.

Fr. Corset Covers **$1.75 to $9.50**
French Chemises **$1.25 to $9.50**
French Gowns **..$4.00 to $19.50**
French Skirts **...$9.50 to $35.00**
French Drawers **..$1.50 to $6.50**
French 3-piece Sets **$9.75 to $45**

10 Per Cent Discount on Everything—Nothing Reserved.

CHILDREN'S AND GIRLS' UNDERCLOTHES.

Neither do we neglect the little miss and child. Drawers, petticoats and night gowns and children's white dresses from 6 months to 4 years are represented at many inexpensive prices.

DIPLOMATS' QUARTERS

Congress May Provide Suitable Residences for Our Ambassadors.

Less Talk of Changes in the Meat Inspection Law.

FROM THE HERALD WASHINGTON BUREAU.

Washington, Jan. 13.—(Special to The Herald.)—Once more an effort is to be made to induce congress to provide more suitable quarters for American diplomatic and consular offices than they are able to obtain under existing circumstances. No man who has not a private fortune can afford to accept a post as ambassador of the United States, for the reason that his combined salary and allowances are not sufficient to pay the expenses of a proper ambassadorial residence. This is particularly true in such cities as London, Paris, Berlin, Vienna and St. Petersburg. Up to the present time all attempts to provide suitable buildings for American representatives in those cities have proved futile. And yet nearly all the great powers of Europe have secured quarters for their ambassadors in Washington, which were purchased or built especially for the purposes for which they are used. Great Britain was the first government to recognize the wisdom of such a course, and more than twenty-five years ago a building was erected upon land purchased in the name of Victoria for the English minister. Since that time Germany, France, Russia, Mexico and even China have followed suit. The social as well as the political advantages which such residential accommodations give to diplomatic representatives have been pointed out again and again by secretaries of state from Mr. Frelinghuysen to Mr. Root, and the members of the senate and house committees on foreign affairs have not been slow to appreciate these advantages, but up to the present time it has apparently been impossible to get congress to endorse the recommendations of those best qualified to know what such a course means.

Now, however, Congressman Perkins of New York, a member of the house committee on foreign affairs, has taken the matter up in earnest, and it is understood that he has the promise of the support of the speaker and the committee on rules, so that it is probable that before the expiration of another year the United States will have begun to acquire property in foreign lands for the use of our diplomatic and consular corps.

As showing the difference in the compensation paid to foreign representatives in the United States and American representatives abroad, it is only necessary to compare the salary and allowances of the British ambassador to Washington with that of the American ambassador to London. The former receives a salary of $50,000 per anum, with allowances for servants, etc., of $5,000 more. In addition, he has an entertainment fund of about $25,000 a year, a total of $80,000. The British ambassador also has rent free a splendid embassy building. The American ambassador to London has a salary of $17,500 and allowances for residence expenses of less than $10,000 more. In other words, something less than one-third of the compensation of the British representative whose position corresponds with his own.

* * *

Less talk is heard about changes in the meat inspection law during the past few weeks than was to be expected. When the inspection clause was added to the agricultural appropriation bill in June, 1906, there was much talk of a "surrender to the meat trust" because the bill as finally enacted provided that the cost of inspection of all meat products should be paid out of the funds of the federal government. Senator Beveridge and a few other well meaning, but ill-advised statesmen made strenuous efforts to have that clause changed so as to provide that the cost of inspection should be paid by the consumer tor the packer as they put it). And at the same time another committee of congress was hatching a bill designed to insure the purity of all food products. No suggestion was ever made to put the cost of inspection of canned goods, other than meats, upon the packer. Drugs and food products of all descriptions including spirituous and malt liquors, wines, etc., are subject to inspection by the federal officers, but it was never suggested that the packers of vegetables should pay for the federal inspection.

At the opening of the present congress, Senator Beveridge introduced his bill to make the meat packer pay for federal inspection. It was expected that this would be followed by a protest of great proportions from Chicago, and the gentlemen who hang around the hotels waiting for an opportunity to offer their services in "aid of legislation" prepared for a fat and prosperous winter. But the "beef trust" seems to be indifferent as to the outcome and there is a very good reason. If the packers are charged with the cost of inspection they will certainly add that cost to the price of their products, and as a greater precaution they will see to it that cattle growers and hog raisers bear their full share of the expense. The cattle men knew this better than anyone else. It was because of the plea of these gentlemen that the house committee on agriculture changed the Beveridge amendment in 1906, and now Secretary Wilson has come out on the side of the stock raiser. The secretary declares that the meat inspection law is working to the entire satisfaction of the agricultural department and of the people generally. He can see no good reason for tinkering with the act and expresses the wish that congress will permit matters to run along as they are. But then some wise statesmen who desire notoriety more than the public good, may conclude that they need some advertising and they may force a change in the law yhich will result only in adding to the profits of the "beef trust."

* * *

It is doubtful if there is a minor subject before congress which is attracting a tithe of the attention which is being given to the proposed change in the copyright law. The principal cause of this great interest is found in the fact that vigorous efforts are being made to apply copyright to all musical compositions to such an extent as to give the composer the right to regulate the reproducion of his musical compositions by any and all mechanical processes. During the past decade mechanical pianos, phonographs, talking machines and music boxes have become so common and so cheap that they are found for sale in practically every village in the country. Of course, if any person, firm or corporation can secure the exclusive right to manufacture disks, rolls and other devices for the mechanical reproduction through these instruments of all popular airs that fortunate firm or individual would soon acquire millions and a monopoly would be created which would make the Standard Oil company envious. It is claimed, on the part of those opposing the bill that it is to create just such a monopoly that the present effort is being made. Senator Smoot of Utah, chairman of the senate committee on patents, who has the bill in charge, is one of the busiest men in congress just now. His room in the senate annex is crowded every day with scores of interested persons anxious to exploit their views, and the senator has little time to do anything other than listen to the arguments pro and con. "The subject is an important one," said the senator today, "and it will require great care to frame a measure which will protect the interests of all concerned. I do not think the matter will be disposed of hastily and certainly not until we have had ample opportunity to get at the merits of both sides of the controversy."

Grippe!

There is said to be 50,000 cases in New York.

Scott's Emulsion

will strengthen and fortify you against the Grippe, and if you have had it, it will build you up quicker than any other known remedy.

TROOPS ARE NOT NEEDED

At Goldfield, is Commissioner's Report—Will be Withdrawn.

Washington, Jan. 13.—President Roosevelt has determined to withdraw the federal troops from Goldfield, Nev., shortly after the legislature begins its special session Tuesday. This intention was made known at the White House yesterday, when the report of the special investigating committee was made public, together with a letter from the president to Governor Sparks dated Jan. 4. The president says he shall be governed by the recommendations in the report, unless the governor can show that the statements of the report are not in accordance with the facts. The report says:

"The conditions did not support the general allegations in the governor's request for troops, nor were his specific statements established to any such extent as to justify his use of those statements for the purpose of getting federal troops."

Should Remove Troops.

It concludes with this recommendation: "But we also most firmly believe that upon the assembling of the legislature, or within a few days thereafter, the troops should be removed, regardless of any request for their retention that may be made by either the legislature or the governor of Nevada, it being essential that the state of Nevada shall understand this situation completely, shall recognize the fact that there will at that date be thrown upon it, and it alone, the primary responsibility of keeping order, and that, recognizing this responsibility, it may take such action as is the duty of the state, and as will be sufficient in the premises."

In his letter to Governor Sparks, after reviewing the steps so far taken in the Goldfield mining trouble, the president continues:

Was No Insurrection.

"I have just received the report of the three gentlemen (Murray, Smith and Neill) which sets forth in the most emphatic language their belief, after a careful investigation on the ground, that there was no warrant whatever for calling on the president for troops, and that the troops should not be kept indefinitely at Goldfield. The report further states that there was no insurrection against the power of the state at the time the troops were called for, that nobody supposed that there was such an insurrection and that none of the conditions described in sections 5297-8-9 of the revised statutes as warrating interference by the federal government existed, and the effort was plainly an effort by the state of Nevada to sustain the performance by the United States of ordinary police duties which should, as a matter of course, be performed by Nevada sherlifts.

"I agree with the recommendations of the report, of which I enclose a copy, and shall act accordingly. Unless it can be shown that the statments of the report are not in accordance with the facts, it will be incumbent upon the legislature of Nevada when it convenes itself to provide for enforcement of the laws of the state. The state of Nevada must itself make a strong effort in good faith to perform the police duties incumbent to the existence of a state."

Pain Weakens

Headache, rheumatism, neuralgia, or pains of any nature weaken the system—they are a strain upon the nerves. Almost instant relief can be obtained by taking Dr. Miles Anti-Pain Pills, and without any bad after-effects. Take one on first indication of an attack—it will ward it off. They are a pleasant little tablet, sold by druggists everywhere, 25 doses 25 cents; never sold in bulk.

"I was subject to constant headaches for a period of four years. At times I was almost unfitted for the work in which I am engaged, that of station agent. Through the advice of a friend I tried Dr. Miles' Anti-Pain Pills, and the result has been that I have entirely eradicated my system of those continuous headaches that follow a continual mental strain. They have done for me all that is claimed for them."

O. L. RUSSELL,
Agt. C. & N. W. Ry., Battle Creek, Ia.

"I have used Dr. Miles' Anti-Pain Pills for a year now for neuralgia and find there is nothing like them. They surely have been a blessing to me." MRS. M. J. HAMILTON,
Upper Alton, Ills.

Your druggist sells Dr. Miles' Anti-Pain Pills, and we authorize him to return the price of first package (only) if it fails to benefit you.

Miles Medical Co., Elkhart, Ind

MRS. FINSBERG IS PAROLED

Court Gives Self-Confessed Bigamist Her Conditional Freedom.

Mrs. Julia Finsberg, the young woman who pleaded guilty to the charge of bigamy, was released from the county jail, Saturday afternoon, on parole. She will report to the district court once a month.

The woman was arrested last October, charged with committing bigamy by her marriage to David Gerow, while she had a husband living in Wisconsin from whom she had never been divorced. She claimed, at the time of her pleading that Gerow induced her to marry him, under the assurance that it would be all right, and he would protect her against any trouble. Mrs. Finsberg claimed that she did not know she was committing a wrong.

Gerow was convicted and sent to the penitentiary.

Considerable sympathy was shown for Mrs. Finsberg, and a large number of people interested themselves in her case and signed a petition asking the court to deal leniently with her.

Rank Foolishness.

"When attacked by a cough or a cold or when your throat is sore, it is rank foolishness to take any other medicine than Dr. King's New Discovery," says C. O. Eldridge, of Empire, Ga. "I have used New Discovery seven years and I know is is the best remedy on earth for coughs and colds, croup, and all throat and lung troubles. My children are subject to croup, but New Discovery quickly cures every attack." Known the world over as the King of throat and lung remedies. Sold under guarantee at all drug stores 50c and $1. Trial bottle free.

INDEPENDENT TELEPHONES

Annual Convention of International Association at Chicago.

Chicago, June 13.—The most important meeting of the telephone interests in the United States and Canada ever held will be the annual convention of the International Independent Telephone association, to be held at the Coliseum in Chicago, Pan. 21, 22 and 23, during the progress of the electrical show. L. S. Loeb, vice president of the Zenith Telephone company of Duluth has been appointed by Theodore Gary, president of the international association, as a member of the registration committee.

From the viewpoint of the general public, the most important item in connection with this convention is the demonstration of the tremendous strength of the independent telephone interests in the United States and Canada, the uninterrupted advance, against all kinds and sorts of obstacles and handicaps, from nothing to over 3,000,000 instruments in less than fifteen years, and the fact that the association and its members must be taken into consideration wherever the telephone exists or is contemplated in this country. According to the official of the association, the growth of the independent movement has been so steady and flourishing that it is impossible to keep up with the demand, but with the true American spirit, the hands are reaching out for more while the planning apparatus is endeavoring to take care of the material already being served.

Any number of vital questions and important issues are scheduled for discussion and treatment, and some of the best papers ever heard on the various subjects of interest are in preparation by a number of past masters in the art of analysis and argument. President Gary has recently issued a last call to the independent people of the entre country, urging them to attend the convention.

ADMINISTRATION WARMLY ROASTED

Congressman Cook Says Injustice Has Been Done Colorado Men.

Washington, Jan. 13.—In a personal letter which he has addressed to the president and vice president, Speaker Cannon and all members of congress, members of the president's cabinet, and the Washington newspaper correspondents, George W. Cook, Rebublican congressman at large from Colorado, severely arraigns the administration for its course in prosecuting alleged infractions of the public land laws of Colorado. Congressman Cook insists that great injustice has been done to a number of Colorado's law-abiding citizens, in that they have been unnecessarily branded as criminals through over-zealousness of the government in ordering indictments without furnishing proper evidence.

WRITER FIRES ON PATROLMAN

Arrested at Omaha, Will Visscher Shoots Officer in Wagon.

Omaha, Neb., Jan. 13.—Will Visscher, widely known as a journalist and humorist, Saturday night shot and seriously injured Patrol Conductor Peter Dillon, while he was being taken to the police station in a patrol wagon charged with drunkenness. According to the statements of the conductor and driver, the shooting was entirely unprovoked.

During the afternoon Visscher visited Al Sorenson, editor of the Omaha Examiner, and spent part of the evening with him. During the evening Visscher, according to the clerk of the Paxton hotel, where Visscher was stopping, created considerable disturbance in the buffet, and became so boisterous that it was found necessary to call an officer. The officer escorted Visscher to the station where he was treated with as much dignity as possible and released with little formality.

Immediately Visscher was released he returned to the Paxton and the clerk states that he again went to the buffet, where he became vicious. Friends and hotel employes attempted to quiet Visscher, but he displayed a pistol and the clerk hurriedly called an officer. He was again placed under arrest and loaded in a patrol wagon. On the way to the station he drew a revolver and shot Dillon in the face.

Dillon is seriously injured.

The wounded conductor overpowered Visscher.

BRIEF TELEGRAMS.

The award of bids for the material for the fortification of Pearl Harbor, at Honolulu, has been held up for the reason that it is believed the lowest bidder is a dummy for some Japanese contractors. It is probable that all bids will be rejected, and that the war department will conduct the work.

A block of five-story tenement buildings extended from Ninety-third to Ninety-fourth streets on First avenue, and which had been remodeled for factory purposes and were occupied by a half dozen establishmentsemfwvbgkq half dozen enterprises, was burned early today, causing a loss of about $500,000.

GRONNA'S IDEA VINDICATED.

Fowler Adds Provision to Protect National Bank Depositors.

Washington, Jan. 13.—Representative Gronna of North Dakota is greatly tickled that Chairman Fowler of the committee on banking and currency has included a provision for the protection of depositors in national banks in his asset currency bill.

"I went before that committee two years ago and urged legislation for the protection of depositors in national banks, and I was laughed at by members of committee," said Gronna today. "Now I see that they have come around to my idea and not only Mr. Fowler, but other members of the house have introduced bills to carry out that idea. It is an important matter and I hope some legislation will be enacted along that line this session."

NEW ITEMS AND FRESH INTEREST FOR THIS WEEK

Time and again discriminating shoppers from both sides of the bay tell us that they can do ever so much better here—and the knowing way they compare things convinces us that no other house hereabouts is giving such values. Furthermore, day after day, the crowds keep up—the selling continues without abatement! Saturday was the best day yet—and today starts out to beat it.

12½c Yard for 17c Russia Crash

You should see the crowds of women (and men, too,) eagerly buying here! No other house had such crowds! But then, as you know, no other house is giving such values! Come and see and save!

18-Inch Huck Toweling 12½c

"Women Who Know" Prefer to Buy Lady-like Undermuslins Here!

There's a pleasing refinement about the Undermuslins on sale here—even the plainest garment is daintily simple—and the trimmed garments are fascinating, because of the good taste of the embroideries—the laces—the ribbons and hemstitching.

There are no trashy garments to sell at catch-penny prices here. Every garment is the sort you'd want to make yourself if you had the time—and present prices will save you time and money.

AT 29c—Drawers of good muslin—cut very full sizes—deep flounce.

AT 59c—Drawers of fine Nainsook or cambric — tucked — trimmed with lace insertion and edging or embroidery. (Exquisite styles, 79c, 98c, $1.25 to $2.)

WOMEN'S SKIRTS

AT 89c—Skirts of good quality muslin—with double ruffle—lace trimmed or deep flounce of fine tucking.

AT $1.25—Fine cambric Skirts with pleated under ruffle—outside flounce of fine lawn—½-inch hemstitched tucks—or 4 rows of lace insertion and fine tucking—or with clusters of hemstitched tucks.

ISABELLE DRAWERS—with hemstitched flounce at 69c—lace or embroidery trimmed styles at $1.25, $1.50, $1.75 and $2.00.

AT 59c—Ample gowns of good quality cambric—yoke hemstitched and embroidery trimmed.

COMBINATION GARMENTS

$1.25 to $2.25—These ideal garments, combining, as they do, two garments in one, are very practical. They're made of nainsook—trimmed in various ways with tucks, hemstitching, ruffles, lace and embroidery edges and insertions. Great values at $1.25 to $2.25.

AT 98c—High and low neck gowns—several good styles, fine cambric or nainsook—variously trimmed with embroidery and ruffles.

FINER STYLES—Of best of materials and choicest of lace, embroidery and ribbon trimmings—at $1.98, $2.50 and $3.00.

CORSET COVERS

AT 25c—A number of different styles in tight and loose fitting models—yokes of lace insertion, embroidery or fine hemstitched tucks—nothing "trashy" about them.

AT 49c to $1.50—Exquisitely dainty Corset Covers — many different styles—variously trimmed with embroidery or lace, beading, insertion and edges and ribbons.

Most Exclusive Embroideries Are Here!

"Women who know" look to us for their embroideries nowadays—they appreciate the good taste and exclusiveness of our selections—and the fact that our prices are lower than they had been trained to pay for high class embroideries is of only secondary importance.

It's something to be proud of—our having won first place in embroideries in the face of splendid competition—but our success is deserved—witness beautiful high-art effects shown here exclusively.

The French embroideries meet the demand for refined patterns or fine materials. The designs are similar to the convent hand-made embroideries—the "wrong" side is finished so well 'tis hard to tell which is "right" side in many patterns.

Designs range from mere scallops of heavy embroidery to the most elaborate effects in wide corset cover patterns.

Swiss and Baby Irish Embroidery
Matching widths in edges, flounces, medallions, all-overs, beadings and insertions. You'll find just what you want—and you'll be delighted with the reasonableness of prices.

5c yard for 1 to 2½-inch Cambric Edges, in dainty patterns.

Regular 35c Corset Cover Embroidery—special at..... **19c**

15c for 25c Corset Cover Beading—finely finished.

12-inch Cambric Flouncings—special at..... **25c**

New Nets for Veils
$1.50 and $2 Yard.
The newest and most demanded veilings on the market today are the wide nets. Paris is wild over them. Duluth fashionables will find them here now.
We sell 1¼ yards for a veil—price $1.50 and $2 yard.
Choose from black, brown and navy—they're the last word of fashion.

BUY YOUR BED SPREADS HERE!

MOST TO PICK FROM—LEAST TO PAY HERE!

Not alone do we undersell on everyday sorts, but we carry quantities and qualities in a way that enables us to fill your order, no matter how big the quantity or how fine the quality wanted.

45-inch widths—great values here at 20c yard.

GOMPERS IS NOT COMING

The American Federation President is Not Expected in Duluth.

M. O. O'Sullivan of Pittsburg, president of the national organization of sheet metal workers, arrived in the city this morning in connection with the local lockout situation. He probably will remain here several days. George B. Howley, president of the Minnesota State Federation of Labor, left today for Eau Claire, Wis. He will be gone three days.

Mr. Howley said this morning that there was absolutely no truth to the report that President Gompers of the American Federation of Labor would be here this month, and says he cannot imagine where such a report originated.

"There is no necessity for Mr. Gompers coming to Duluth, and we do not expect him," said Mr. Howley. "The morning paper had no authority to use my name in connection with any such report. I do not know where they got it. Mr. Gompers is too busy at Washington to come here now, and even if he were not too busy I doubt if he would come, for we have the situation well in hand, and there is no reason why he should come to Duluth."

Mr. Howley is national organizer for the American Federation, and is the personal representative of Mr. Gompers in Duluth during the present trouble.

WILL SETTLE QUARANTINE

Council Will Take Vote on the Two Resolutions.

The discussion of the quarantine will probably occupy some little time at the meeting of the city council again this evening, although the matter was pretty well covered last week and little more can be said than what has already been discussed before the council. There are two resolutions before the body and the vote tonight on them will settle Duluth's position. Alderman Wilson's ordinance amending the ordinance relative to quarantine, provides that the rigid quarantine on smallpox shall continue in Duluth, despite the ruling of the state board of health. Alderman Filiatrault's resolution endorses the action of the state board of health and calls upon the health commissioner to act in accordance with it.

Alderman Wilson and those behind his ordinance hold that if vaccination is good, and effective quarantine is good, then both are better than either one alone. Alderman Filiatrault holds that the members of the state board of health have not rushed head-long into the relaxation of the quarantine and they should be supported in doing what they think is right.

In accordance with a resolution of last Monday night, John Carlson, a saloonkeeper at 507 West Superior street, has been cited to appear before the council tonight and show cause why his license should not be revoked. Carlson was convicted in municipal court of having kept his saloon open on Sunday, Dec. 1.

"Dr. Thomas' Eclectric Oil is the best remedy for that often fatal disease—croup. Has been used with success in our family for eight years."—Mrs. L. Whiteacre, Buffalo, N. Y.

A 25-YEAR HISTORY.

Wonderful Compilation of Facts and Figures in 1908 World Almanac.

The World Almanac and Encyclopedia for 1908, the twenty-fifth anniversary number of that well known reference book, has just been issued. This year it is much larger, more complete and comprehensive than ever before, comprising 1,000 pages and giving about 15,000 facts and figures which may be depended upon as being absolutely accurate and right up to the last minute of 1907. It is a veritable library of universal knowledge between two covers. The World Almanac is in use in the public schools of Greater New York, has been adopted by most all the normal schools and hundreds of public, high and grammar schools throughout the country. It is certainly a book that should be in every library and in every home.

Ours Are Worth the Postage.

A NATIONAL CURSE.

It is very doubtful if the people of this country fully appreciate, as yet, the harm which Wall street gambling works. If they did, they would hardly consent to permit it to continue without regulation.

What is said to have happened to the nation to cause the panic of last fall is a shortage of money and of credit. There wasn't enough of either to permit business to go on at the speed it had attained. The shortage became noticeable first in Wall street, where for some time "call money" rates had been mounting to absurd heights. When there wasn't enough money to supply Wall street, where fancy prices were paid for it, it was hardly to be expected that bankers would deal generously with legitimate business, which could afford to pay only reasonable rates of interest. When Wall street was willing to pay 10, 50 or 100 per cent for call money, what show had a railroad or a merchant who could pay only 6 or 7 per cent?

The New York World, in a full-page editorial headed "Wall Street—Worst of Gambling Places," sets out to make it clear what harm Wall street gambling does the nation. It shows how the present reserve system is cunningly devised to divert the country's money to New York, where the gamblers may use it. Three cities—New York, Chicago and St. Louis—are made central reserve cities, where banks must keep in cash 25 per cent of their deposits. Banks in twenty-eight other reserve cities must also keep 25 per cent reserv, but only half of this need be in cash, the other half being allowed to be deposited in New York, Chicago or St. Louis banks. In all other communities the banks must retain a reserve of 15 per cent, of which they need have in cash only two-fifths, the other three-fifths being allowed to drift to the reserve banks. This tilts the financial plane so that the money runs down hill to the great commercial center, Wall street.

When Wall street banks can get 20 to 50 per cent for their money, it is useless to expect that commercial banks in the interior will be able to compete for the money supply. As the World says, "Wall street thus became a great funnel into which the savings of the people, instead of being available to the local manufacturer or the local storekeeper, were drawn by higher rates of interest to the stock exchange."

Now the country has not enough money to conduct its business enterprises and its vast gambling enterprises, too. When, under the process described above, Wall street gathers in so much of the nation's money for its gambling game, it is quite clear that sooner or later there is going to be a shortage of money for industrial uses, no matter how much currency the nation has.

When a business man neglects his business affairs and devotes his time to a green-colored table adorned with cards and chips, it is bad for his business. When a nation is so situated that the money it needs to do its legitimate business is inevitably drawn to a gambling center for gambling uses, it is bad for legitimate business.

No Aldrich currency patchwork will remedy this condition. Indeed, judging from the source of this measure, it is likely to tilt the financial plane a little more, and to increase the flow of the nation's money to Wall street to be used in more gambling-exploitation of the people.

SKI-LOBNING.

Those who witnessed the annual ski tournament of the Duluth Ski club yesterday afternoon on Chester Park hill must have realized with much interest and satisfaction that this imported sport promises to be a very valuable and important addition to American outdoor recreations.

It comes from Norway, where it is the great national sport, and one worthy of the husky Viking youth. It makes for strength, courage, self-reliance,—for good health and good spirits. It is no sport for milksops and mollycoddles, as every one who has seen the bird-flight of a ski-runner will testify.

Yesterday afternoon a number of Scandinavian young men made thrilling darts through the air on their long, slender snow shoes, alighting gracefully and maintaining their poise, as a rule, with perfect self-composure. Though they jumped only a little less than a thrilling hundred feet, they apologized for the meagerness of their exploits, and said that the lack of snow prevented their doing their best. Just wait till the national tournament next month, they said, and see what the experts will do when there is plenty of snow.

It is a fine, healthy outdoor sport, making for sturdy manliness and for sound conditions of mind and body. It deserves every encouragement.

A PLEASANT DREAM.

It is said that a Kansas town is having good success with an ordinance passed by its city council forbidding the circulation of gossip.

One may well question the truth of the statement that the ordinance is being successfully enforced, unless it is accompanied by pretty strong evidence. The gossip, who is an abomination and a plague in every community, is especially pernicious and active in a small town "where everybody knows everybody else's business." It is almost beyond belief that any city or village ordinance would put a stop at once to the spread of gossip.

Yet how interesting it would be if it were possible to pass a law forbidding gossip, and to enforce it rigidly. Suppose, just as a pleasing fancy, that in Duluth, say, there were a law forbidding gossip, and providing that any person caught at it should have his tongue slit and his ears permanently plugged, and be sentenced to a pillory provided only for such offenders. And suppose, to make the picture complete, that the honest people of the community all constituted themselves officers to effect the enforcement of this law, so that no gossip dared trust anybody with his tales.

Imagine a meeting of the sewing circle, or the afternoon bridge club. Mrs. Malpense suddenly breaks into speech, with an air of captivating mystery, and says: "Oh, say! Have you heard—" And then, as suddenly as she started, she stops. She remembers the law and its dread punishment, and becomes fearful that one or more of her associates may be agents of the authorities in the enforcement of the anti-gossip law. So she passes it off as best she can, and the circle resumes its work.

Or fancy an afternoon at the club, where a number of men are engaged in cheerful conversation and other things. Mr. Backbiter puts on an air of being full of important news, and inquires: "Say, have you heard that old—" Then he remembers. An air of blank alarm succeeds his look of pregant importance, and his remark dwindles into some flat and unprofitable reflection upon the weather.

Or suppose that in the heat of a political campaign one of the candidates, discussing the situation with a voter, takes up the merits and demerits of his opponent. Holding his dear friend—all voters are dear friends just before election—firmly by the buttonhole, he pours his own claims into the listless ears, and then says: "And as to my opponent, do you know that they say—"

And then he stops, frowns, mutters something about "confounding that anti-gossip law," and changes the subject.

Those familiar phrases, "I wouldn't have it repeated for the world, but—;" "Now don't you say a word about it to anybody, but—;" and "Don't say I said anything, but—;" all these sinister beginnings would end where they began, and fear of the slit tongue, the sealed ear and the pillory would shut off the usual accompanying stories, all calculated to do harm to somebody.

It would be very interesting, indeed, if such a dream as this could come true. Also, life would be sweeter and cleaner and humanity much more respectable and bearable.

THE UPRISING OF THE MASSES.

Some thousands of German citizens made demonstrations in Berlin yesterday that attracted the deep concern of the authorities. It is related that 40,000 Socialists, with many thousands of sympathizers, participated in parades and mass meetings. The police officers were kept very busy all day breaking up street gatherings and dispersing unruly crowds. It was a delicate task, too, because while no violence was attempted by the crowds, they were evidently in deadly earnest, and if the police had been tactless enough to make a martyr or two by shooting there is no telling what might have happened. The police, however, used good judgment, and as the "mob" did, too, nothing very serious happened.

All these disturbed and disturbing citizens of Germany ask is the right to vote. They are beginning to realize that it is not in republics alone that "governments derive their just powers from the consent of the governeed." The world belongs to its people; not to self-constituted aristocrats or plutocrats who may have come into the places of power. It is, therefore, only a question of time before all peoples will demand that the power of government be restored to them; and that involves the full and unrestricted right to vote—not only upon men but upon measures.

We have that in this country, you say? Not quite, as yet. We are not yet allowed, as a rule, to vote upon measures. Ultimately the people will not only initiate measures, but will pass upon them at the polls when legislative bodies initiate them. Those in power will not extend the privilege until they are compelled to do so, however, because they fear that its operation may contain dangers to property interests, which are yet more sacred in our political Sanhedrin than the rights of man.

But it is coming, and so is universal suffrage in the German empire.

THE COUNTRY PRESS AND THE HERALD.

Says the Red Lake Falls Gazette, referring to the fact that certain Minnesota dailies have cut off the time-honored courtesy of exchange with the country newspapers: "The only newspaper which has not joined in this agreement is The Duluth Herald, in many respects the best and greatest daily in the state. The Herald is not willing to sever its paternal relations with the country newspapers in order to save a few dollars, and in the end we doubt not that The Herald will find the friendship of the country boys a valuable asset."

All of which is acknowledged with deep appreciation and gratitude for its pleasant comments on this newspaper's standing. Just one correction The Herald would make: its relations with the country press are not paternal, but fraternal, and such it hopes they may ever remain.

And as to whether or not The Herald will find "in the end" that the "friendship of the country boys is a valuable asset," it should be said right here and now that it always has been a valuable asset. More than that, it always has been a source of great satisfaction and pleasure to this newspaper to know that it had the friendship of the country press; and that knowledge is in itself a greater thing than an "asset."

Yet an asset the relationship between The Herald and the country press certainly is. The country press reflects public sentiment far more accurately, as a rule, than does the city press. This is natural, and not entirely due to the fact that many city papers are more or less circumscribed by the relations of their owners with selfish interests. The country editor knows his community far better than the city editor can possibly know his. Therefore, the reflections of the country press, as compiled daily on this page of The Herald under the head of "Minnesota Opinions," furnish a valuable insight into the current of thought among the people of the state. In this way, as it enables The Herald to provide its readers with a mirror of public opinion in the state which reflects the play of sentiment and the changing and progressing views of an enlightened people, the visit of these newspapers each week becomes a valuable asset, valuable not only to The Herald but to its readers.

For these reasons, and because it enjoys its relations with the country press and finds them profitable, with the advantage by no means all on one side, The Herald will try and worry along awhile longer on the old basis of exchange. What the greedy paper trust will force the newspapers to do in the end, no man can say, but so long as the trust will let it, The Herald will continue to exchange with those country weeklies whose apt and pertinent and timely comments on Minnesota progress and politics it has always found so profitable and entertaining.

HOTEL GOSSIP.

Up along the north shore the country is very hilly. The land is divided into ravines and small valleys. In the vicinity of Pork bay this is especially true. Down at the Hotel St. Louis they are telling a story of a young Englishman who went hunting up in this hilly country. It seems that the hills helped the hunter to make good a bluff.

The party had been hunting for three days and had not succeeded in shooting any deer. One day the young Englishman discovered a deer on the top of one of the hills and let fire. The animal disappeared and was later found at the bottom of the ravine. Its head was badly singed with powder, as if it had been shot at close range. Naturally, the Englishman was congratulated, being the only member of the party who had shot a deer.

Now, as a matter of fact, the Englishman did not come within several feet of hitting the deer. It fell over a ravine and broke its neck. The Englishman was quick enough to seize the opportunity. He walked about seven miles, through a country of wooded hills and precipitous hills, until he came to the dead deer. Then, taking careful aim, by placing his gun over an improvised stand, he succeeded in shooting the already dead deer in the head. He went back to camp and told his companions about the feat, leaving out the fact that the hill had caused one deer heart to cease beating, and received the congratulations of the bunch. The singed fur on the face of the deer looked rather suspicious, as if the shot had been taken at very close range, but the members of the party were nice enough not to voice any suspicion in the matter, and the story of killing the deer at a "difficult shot of forty rods, don't you know, old fellow," was received with such warmth that the young Englishman has really persuaded himself into the belief that he actually did shoot the deer under circumstances that would reflect credit on him as a good shot.

* * *

"Sa-y, brud, I'm floppin' in room thirty-eight, and I'se got to beat it to the mornin' feed early, so I'se can hand out dis noise for the production dats comin' to town next week. Kindly hand a date for me at six-thirty on dat date slate of yours, so dat I can shake the cloudy stuff out of my peepers early."

That is the way a young man in a red vest and a checked suit, who has something to do with a theatrical company, told the clerk at the Lenox he would like to be roused from his slumbers at half past 6, as he wanted to direct the placing of some advertisements concerning the show he was ahead of. After explaining his desires, he received the early call.

* * *

William Whiting, at the St. Louis, hails from little old New York, where at the present time the renters of flats and small holes in the wall are making a great noise about the steepness of the price asked for the sheltering protection of four walls. Mr. Whiting says men and women have stormed the owners of flats and poorer dwellings in crowds and have practically forced the landlords in many instances to lower the rents. Mr. Whiting says mobs gathered in the streets and defied the landlords, with the aid of the police, to eject them from the dwellings upon which they had refused to pay increased rent. He says it was a demonstration of mob spirit, or a rise of the people—the poorer people of the East side of New York, that has not been witnessed in any American city for years. Mr. Whiting says that many of the landlords were practically forced by physical force to reduce the rents of the buildings, in which the poorer class reside.

* * *

Now that George Ade has announced his intention of supporting Charles Warren Fairbanks for the nomination of president, the citizens of Indiana can rest assured that nothing is lacking in the Indiana support. George McKinzie, at the McKay, says that the citizens of the Hoosier state think that the elongated humorist is about the brightest light that has shone since Benjamin Harrison brought credit to his state by being elected president. Since Ade became famous through the medium of his ability to punish the English language, the Hoosiers have thought that Georgie is about the most shy pebble that has lain on the beach for some time. They have a native son spirit down in Indiana, says Mr. McKinzie, that has the California stick together idea beaten by a wide latitude. George Ade gets right out and mixes with the people. He has a farm and several head of cattle and he has jollied the Hoosiers into the belief that he is a regular "darned old son of the prairie." He puts on a pair of overalls, sticks a clay pipe in his gap and tells the farmers in Posey county that there is nothing like the simple life. George makes his living by being humorous, Bon McKinzie says his intention of becoming a delegate to the state convention and seconding the nomination of the man whom, it is said, once imbibed a cocktail will kind of throw the Hoosiers into line. When Mr. Ade comes to the aid of the vice president there can be no hesitancy on the part of the Indiana voters, for George is the one bright light in the Indiana horizon.

Too Far Away.

Indianapolies News: But how are liberal appropriations for defensive works on our island possessions to help out a nervous congressman whose constituents are becoming a bit restless?

THE WEATHER.

Saturday night a very few flakes of snow fell here, and yesterday, though severe storms occurred in other places, the day was delightful in Duluth. This morning it was again clear, calm and mild. Last night's lowest temperature in Duluth was 13 degs. above zero and yesterday's highest was 23 degs. The weather man looks for a continuance of the fair and mild weather tonight and tomorrow.

A year ago today two sharp snow squalls visited Duluth, followed by clear, sharply cold weather.

The day is growing longer rapidly. Today's sunlight lasted 8 hours and 52 minutes, 4 minutes longer than Saturday's and 22 minutes longer than the shortest day. The sun rose this morning at 7:51 and set tonight at 4:43.

Says Mr. Richardson of conditions: "A storm of considerable intensity is central off the North Atlantic coast. During the past twenty-four hours it caused light to heavy falls of rain or snow in the lake region, Ohio and Middle Mississippi valleys and North Atlantic states. There has been a rather decided increase in pressure throughout the central valleys and Eastern slopes attended by a quite general drop in temperature over the greater part of those districts, freezing weather extending southward to the thirty-fifth parallel. The center of the highest barometer overlies Wyoming. Pressures are again falling in the extreme Northwest due to a disturbance developing off the North Pacific coast. Indications favor a continuance of fair weather in this locality tonight and Tuesday."

Following were last night's lowest temperatures:

Asheville	30	Medicine Hat	38
Atlanta	32	Memphis	32
Bismarck	16	Miles City	14
Boston	42	Milwaukee	22
Buffalo	28	Minnedosa	6
Cairo	34	Modena	30
Calgarry	8	Montgomery	38
Charlestown	44	Moorhead	10
Chicago	30	New Orleans	40
Concordia	26	New York	40
Davenport	22	Norfolk	40
Denver	14	North Platte	16
Detroit	28	Oklahoma	32
Devils Lake	4	Omaha	18
Dodge	22	Phoenix	50
Duluth	13	Pierre	16
Edmonton	14	Pittsburg	34
El Paso	34	Port Arthur	14
Escanaba	22	Portland, Or.	42
Galveston	40	Rapid City	16
Grand Haven	22	Regina	4
Green Bay	20	St. Louis	28
Havre	8	St. Paul	13
Helena	12	San Francisco	50
Houghton	26	Santa Fe	14
Huron	16	Spokane	28
Jacksonville	46	Swift Current	2
Kamloops	32	Washington	38
Kansas City	32	Williston	18
Knoxville	32	Winnemucca	30
La Crosse	24	Winnipeg	2
Los Angeles	54	Yellowstone	4
Marquette	24		

Department of Agriculture, Weather Bureau, Duluth, Jan. 13.—Local forecast for twenty-four hours ending at 7 p. m. Tuesday: Duluth, Superior and vicinity, including the Mesaba and Vermillon iron ranges: Partly cloudy tonight and Tuesday; lowest temperature tonight about 10 degs above zero; warmer Tuesday; fresh westerly to southerly winds.

H. W. RICHARDSON,
Local Forecaster.

The Mouths of Babes.

New York World: Mr. Beveridge's introduction of his bill to take the tariff out of politics by the appointment of a commission of experts to frame a measure for the next congress to consider will flutter the hawk-roots of monopoly. Not without hearing a great and angry squawk of protest may a Republican senator, a close friend of the president, actually propose to do something about the tariff. Instead of talking about the grand old party's cheerful readiness to do something "whenever the need becomes apparent."

We shall be told that Mr. Beveridge has been led astray by the perfidious example of Mr. Taft, who has the audacity to say that the Sixty-first congress should amend the tariff; that he only wants to have a little boyish fun by exploding firecrackers behind Mr. Fairbanks to see whether he can jump; that in any case "Aldrich will take care of the bill."

Yet such rejoinders are only partially consolatory. Mr. Taft's example may have weight, yet it was Mr. Taft's official chief who told an Indiana audience five years ago that he favored a body of tariff "experts of high character and ability." Mr. Beveridge may enjoy shocking Indiana's dignified "favorite son," but he would not dare do it if the voters did not enjoy the fireworks. Mr. Aldrich may and undoubtedly will kill the bill, but he cannot kill the tariff-reform sentiment which is growing rapidly from Massachusetts to Oregon, from Ohio to Texas.

Out of the mouths of babes are sometimes blurted truths that the elders of the family try anxiously to silence. His may be the golden gift of perennial youth, but if Mr. Beveridge sees that the West is tired of buying goods at prices fixed by the trusts behind the tariff wall and selling produce at prices fixed in Liverpool, and that the East is in revolt at the excessive cost of living, he is wiser in attempting to carry out the insurgent public will than the frosty-pawed stand-patters who cry "Peace! Peace!" when there is no peace.

A Captain of Industry to the Captain of the People.

Chicago Evening Post: Imbedded in a review of the year in a New York journal appears a tribute of the executive chief of the greatest of American industries to President Roosevelt. Here are the words of Chairman Elbert H. Gary of the United States Steel corporation:

"Business is being transacted on a higher plane in this country. There has been a great advance in the last few years. Men pressed by the exigencies of trade, as they often are, stop to inquire what is the right course—what will commend their work to public conscience.

"Men as officers and administrators of corporations execute their trusts with a deeper sense of their obligations to the public, to the corporations and to the stockholders.

"The day has passed when inside knowledge can be used by those having it to their exclusive benefit without regard to the rights of the stockholders.

"A disposition is manifest to a concert of action helpful to all. And this makes for strength and integrity in the business world.

"In this lifting of standards the main factor has been the president. His attitude toward this great matter has added greatly in the upward movement. Indeed, he has been the leader. He helped all of us in our struggle to the attainment of this most desirable end."

The full weight of the truth uttered here by one of the most farsighted and influential of our captains of industry and finance will be estimated adequately only by the historians of our period. But it constitutes Theodore Roosevelt's strongest claim to a place among the greatest of our presidents, a claim which history will grant.

Opinions honestly may vary as to President Roosevelt's political policies. The American who sees deeper than forms and measures has realized that the great issues of the period are ethical, and it is as a great moral leader in a crisis of the national fortunes that Theodore Roosevelt has earned his high place in the history of the republic.

Johnson a Republican Danger.

New York Press: One of the singular things of politics is the potential peril to Republicanism of the Democratic party after having been battered the length and breadth of the land for the last dozen years. Though President Roosevelt carried Minnesota by a landslide in 1904 he could not drag the Republican candidate for governor in over Johnson, who was elected by more than 6 000.

If Johnson had been strong before he went into office, he became irresistible in his state afterward, for when he ran for re-election in 1906 he swept the formerly Republican Gibraltar of Minnesota with a plurality of 77,000!

TWENTY YEARS AGO.

Taken From the Columns of The Herald of This Date, 1888.

***A carpenter froze to death in his bed at Winnipeg night before last. The thermometer registered 50 degs. below zero.

***A Cleveland man who, in conjunction with other Ohio capitalists, has been granted a section of 100 acres by the West Duluth Land company, on condition of putting up a rolling mill of certain specified capacity, is expected here within a few days to formally accept the land company's terms and make arrangements for putting up the mill. The plans call for an initial expenditure of $150,000 to build a mill for rolling merchant iron. The question of a steel rail mill, which would cost ten times that amount, is left for further consideration.

***The following real estate transfers have been recorded:

W. C. Sargent to G. L. Ryan, lot 230 Lake avenue, Upper Duluth, $800.

W. R. Dudley to G. A. Dayton, south half of lots 1, 2, 3 and 4, block 83, Portland division, $1,825.

Richard Cullen to C. H. Clague and W. M. Prindle, lots 4 and 5, block 7, Banning & Ray's sub-division, $2,500.

Western Land association to Edward T. Seglem, lot 348, block 124, Second division, $800.

***The Duluth board of trade, at the directors' meeting, yesterday, put $2,500 into a sinking fund.

***D. D. Merriam, who expects to start a large sash, door and blind factory in Duluth, has been offered an advantageous site and will probably accept it.

***The first marriage ceremony which ever occurred at Grassy Point, took place on the evening of Jan. 11. The contracting parties were Miss Bessie Olson of Denver, Colo., and S. A. Nelson of Grassy Point.

***Mrs. Hedwig Henrich Wilhelm, a prominent lecturer from Germany, has arrived in Duluth and will speak at Ingalls hall tonight, under the apspices of the Turnverein on "Man's Character the Result of His Education and Surroundings."

***Capt. Henri Dewitt of Company K, Duluth, was made secretary of the State Military association, in session at St. Paul yesterday.

***A petition is being circulated at the West end asking E. G. Swanstrom to allow his name to be preestned as a candidate for mayor.

***At the annual meeting of the West Superior chamber of commerce, the following officers were elected: President, F. A. Ross; first vice president, W. D. Dwyer; second vice president, Mark Rune; secretary, W. M. Steele; treasurer, C. H. Sunderland; directors, H. E. Tieknor, Mark Paine, E. L. Davis, G. D. Moulton, G. G. Williams, J. S. Stack, W. D. Vernon and E. B. Barton.

MINNESOTA OPINIONS.

Fairmont Sentinel: A city daily instructed its correspondent in one of the small cities of Minnesota to interview twelve prominent Republicans and twelve ditto Democrats on their preference for President and this is the anomalous condition of things he developed: Republicans—4 for Roosevelt; 1 for La Follette; 1 for Taft; 3 for Bryan; 3 for Johnson. Democrats—5 for Johnson; 4 for Bryan; 3 for Roosevelt. All of which goes to show that it will take a field glass to find party lines in the next presidential contest.

Barnum Star-Gazette: An exchange says: "The heart of every Minnesota Democrat must swell with pride over the nice things which appear in the newspapers of the country about Governor Johnson since his visit to Washington and his speech before the drainage convention."

But why confine the feeling to Democrats? Isn't the governor a citizen of Minnesota? It is not his fault that circumstances, over which he has no control, make him a member of that party and if his duty is well done every fellow citizen should honor him.

Morris Sun: The paramount issue in the next presidential campaign will undoubtedly be the tariff—unless the Republican majority in congress, disregarding Cannon's wishes, sees fit to take some action which will satisfy the people that their wishes regarding the tariff are not wholly disregarded.

Anoka Union: The trusts still continue to flourish like a green bay tree, and bind with an iron chain the masses.

St. Cloud Journal-Press: Honesty is a heap better badge than any political label.

New Ulm Review: There is one blind senator from Oklahoma and one or two from other states who can't see very well.—J. A. Bede in Bede's Budget.

Not to say anything of a whole lot of congressmen.

Big Falls Compass: Political party scraps and rotation in office ought to be relegated to oblivion. Such narrow mindedness in a socalled civilized country, doesn't speak very highly of a liberty-loving people.

Buffalo Journal: There is again considerable talk of Jacobson for governor, and his enemies are trying to kill him with kindness. Some reports say Jacobson ought to be governor some day, but he ought not to be brought out this year, as harmony should prevail in the party. Bless your dear souls, Jake has never done anything to prevent party harmony. He has never been nominated for governor by unfair methods in convention, or otherwise, or led the party to defeat. Just let him pass the barriers of machine politics and get before the people and he will show what real harmony is by the biggest Republican majority ever stacked up in Minnesota.

Anoka Free Press: To judge from a certain country weekly which is being sent broadcast over the state, filled with campaign stuff for Jacobson, we should infer that somebody is trying to work up a boom again for that gentleman for governor. The party who has undertaken the job will find himself with an elephant on his hands. There doesn't seem to be any strenuous demand for Jacobson lying around loose this year.

The Gospel of Labor.

But I think the King of that country
comes out from His tireless host
And walks in the world of the weary; as
if He loved it the most;
For here in the dusty confusion, with
eyes that are heavy and dim,
He meets again the laboring men who
are looking and longing for Him.

He cancels the curse of Eden, and brings
them a blessing instead;
Blessed are they that labor, for Jesus
partakes of their bread.
He puts His hand to their burden, He
enters their homes at night;
Who does his best shall have as a guest
the Master of Life and Light.

And courage will come with His presence,
and patience return at His touch;
And manifold sins be forgiven to those
who love Him much;
And the cries of envy and anger will
change to the songs of cheer
For the toiling age will forget its rage
when the Prince of Peace draws
near.

This is the gospel of labor—ring it, ye
bells of the kirk
The Lord of Love came down from
above to live with the men who work,
This is the rose that He planted, here in
the thorn cursed soil—
Heaven is blest with perfect rest, but the
blessing of earth is toil.

—JAMES S. MONTGOMERY.

Shakespeare's Mistake.

Sacramento Bee: There never was in this wide, wide world a statement so misleading as this by Shakespeare:

The evil that men do lives after them,
The good is oft interred with their bones.

The exact opposite is more frequently true.

When John Jones dies, societies pass sensational resolutions, extolling his virtues to the skies, and holding him up to the world as a shining example to lead the youth of the land on to a higher and better life. Marble lifts its pure face, shaded by the cypress and the weeping willow, and carved with a record of his alleged noble qualities, as false as it is elaborate.

It the plain, unvarnished truth were engraved thereon, this would be the inscription on his tombstone:

Here Lies the Body
of
John Jones.
A Brutal Husband, an Unkind Father,
Mean at Home and a Fraud Abroad.
Providence, Having Very Little to Say
About His Life,
Did Not Bother Itself With His Death.
It Was a Dispensation of Whisky.

All the Year Round.

Cleveland Plain Dealer: Col. Watterson says that the biggest value for the least money is found in the daily newspaper, which costs more than the selling price.

And it is a bargain sale that holds good every day in the year.

PASSING PLEASANTRIES.

Chicago Tribune: "Many a boy," said Uncle Jerry Peebles, "gets a whipping for being merely suspected of doing the things his father was too slick to get caught at when the old man was a boy himself."

Baltimore American: First American Heiress—How about your title investment?

Second Ditto—Mine was of no account.

First American Heiress—And mine was a baron waste.

Washington Star: "Your colleague has a certain amount of vanity," said one statesman.

"Vanity," echoed the other. "He thinks everybody ought to buy the city directory because his name is in it."

Chicago Record-Herald: "Why," asked the divorced count, "do you refuse me?"

"I am afraid," replied the beautiful American girl, "that I might not be able to support you in the style to which you have been accustomed."

Philadelphia Ledger: "Why do you wear such a hideous rig?" the chauffeur was asked.

"Why does a highwayman wear a mask?" responded the man behind the goggles.

Chicago Tribune: Miss Tartun—Mr. Mo-Bash, this being leap year, let me ask you—

Diffident Young Man (hastily interrupting)—Oh, I beg of you, Miss—

Miss Tartun—If you think any self-respecting young woman would go out of her way to ask a dub like you to marry her?

Cleveland Leader: Molly—Cholly's brains are all in his feet.

Dolly—Dear me! And how long ago did he have his feet amputated?

Pointed Paragraphs.

Chicago News: It takes a lot of filthy lucre to make a tidy sum.

Might doesn't always make right, but it puts up a hard fight.

Because he forges ahead, a man isn't necessarily a forger.

One trouble with the dead beat is that he isn't really dead.

And Uncle Sam should see that we get pure food for thought.

Lots of people live all their lives without learning how to live.

A woman always means what she meant to say if she doesn't say it.

Did you ever have occasion to envy the disposition of a so-called reformer?

A mighty big man is one engaged in creating a demand for clearing-house checks.

About the best way to get along with some people is to get along without them.

The longer a man tries to prolong an argument the less he knows about the subject.

Many a young man has acquired that tired feeling and a rich father-in-law about the same time.

No man ever works half as much about his inability to pay his debts as the men he owes do.

But the size of a man's hat in this world may have nothing to do with the size of his crown in the next.

Did you ever notice how a meek little woman begins to assert herself about twenty-four hours after marriage?

When a man is reading a newspaper account of a wedding, he invariably skips the description of the bride's gown.

This Means You.

Do you like to say a lot?
This means you!
Show the world what you've got?
This means you!
Then beware! You're growing weak,
Very near to spring a leak,
And your outlook will be bleak.
Yes, yours!

Quit your handing out hot air!
This means you!
Speak the facts you'd have us hear—
This means you!
Rather say a little less;
Give mankind a little rest,
Then will Heaven your effort bless.
Yes, you!

—P. E. ERICKSON.

Sound Sense.

Savannah News: Governor Johnson is a strong advocate of tariff reform. He believes that the trust question can never be satisfactorily settled until there is a radical reduction of the tariff. He agrees with the late president of the sugar trust that the tariff is the mother of trusts. He doesn't believe in taking from the states any of the rights they now possess and giving them to the federal government.

Governor Johnson talks sound sense. His interview is calculated to make him friends. It is time the Democratic party was making up its mind whether or not it wants Mr. Bryan to run again.

AMUSEMENTS.

LYCEUM | Tonight Only

MAUDE FEALY
In the Great English Success
"THE STRONGER SEX"

A dramatic comedy in three acts, by John Valentine. Cast includes Brandon Hurst, Hobie Linz, Mary Hertraud, Florence Robinson, and others of importance. Prices 25c to $1.50. Carriages for 10:30 p. m.

TOO LATE.

G. Stanley Hall, the president of Clark University, said the other day at Worcester that the American baby suffered from not being allowed to creep.

"Creeping, explained this brilliant psychologist, "strengthens the chest, back, arms and shoulders. Young mothers should remember this. Even though the floor does spoil their white clothes a little, the creeping exercise should not be denied to babies."

He paused and smiled sadly.

"There is one baby, now a stooped lad in knickerbockers, for whom, alas! I sound this warning too late," he said. "I remind myself, here of the station agent who walked pompously into the railway station and shouted in a loud voice:

"'Any more here for Oshkosh?' Train's just gone.'"

SOLD BY DRUGGISTS EVERYWHERE

WILL RACE LITTLE JIM

Frank Frerker Says Little Pacer is Under Suspension, Only.

Will Also Attempt to Enter Him in Races on Ice.

"I will be at the ice track tomorrow with Little Jim, ready to enter the free-for-all pace for the Henderson cup, and if the other horsemen do not accept my entry, and refuse to let me start, I will take it for granted that they are afraid of Little Jim, and will consider that I have done just as well as won the cup," said Frank Frerker, this morning, in discussing the attitude of L. P. Totman, Dr. McKay, L. Duplaise and others toward his horse, Little Jim.

"This idea of Hibbing horsemen trying to break into the game at Duluth is all nonsense. Why don't they bar Dr. McKay out because he bought Bella Patch in Chicago and is racing her here? Why don t they bar out Ole Boy of Superior? There is no more reason for holding me out than there is for barring those men. Little Jim is my property. I purchased him from Mr. Ansley as a bonafide business proposition, and the story that I received him in payment of a debt is false. Mr. Ansley is in a position to pay his debts in the proper way, and the story that has been circulated isn't just to him."

Bob Cherry, who has had charge of the little pacer for two years, and who was responsible for the wonderful successes of Little Jim in Northern Minnesota and Wisconsin last year, has been retained by Mr. Frerker, and will continue to handle the horse. It is he who denies the story of Little Jim's expulsion from the track by the American Trotting association.

"When the bell rings in the spring, Little Jim will face the starter, and don't you forget it," he said this morning, after he had reined in Little Jim during an exercise run. "The horse is not expelled from the track, and that story is wrong. Little Jim is under suspension only, and will be reinstated. We haven't any doubt of that, as we believe the Trotting association will treat us fairly in the matter.

"When Mr. Ansley bought the horse as Little Jim, he didn't know that he had been raced under other names. He learned later that W. Tatro of New Richmond and George Barnard of Royalton, the former owners, had used the names of Gloria and King Blair. He immediately applied to the Trotting association for reinstatement, paid the fines against the horse and $50 for the registering of the name, Little Jim, and knew nothing of the Guy Rex deal, which was brought up last fall.

"When the American Trotting association found that Little Jim was Guy Rex, 2:11¾, Mr. Ansley explained the matter to the board. The records show that he cleared the horse of two black marks, which were put up after the horse had been raced as Guy Rex, and after paying the money and having the name, Little Jim, registered, he thought every thing was clear. Little Jim was suspended last fall, but not expelled. The only fines to be paid now are the winnings at Merrill and Colma, Wis., and they will be paid over and the final blot on Little Jim's name removed. He will be placed on the track next year, despite the reports to the contrary."

Mr. Frerker and Mr. Cherry both hold hold that they do not want to break in on Duluth sportsmen, if the sportsmen don't want them. They say they will go out on the ice track, attempt to enter, and if barred, they will be satisfied to step out and let the crowd which is running the races have their sport. They claim that the fact that Little Jim is suspended should have no weight, as Dr. McKay, as a driver, is likewise under suspension for illegal scoring at Merrill with Tanner, last fall, before Tanner died.

Eat anything you want, don't starve yourself, fearing it won't agree, for Hollister's Rocky Mountain Tea cleans the bowels and stomach, and makes digestion easy. 35 cents, Tea or Tablets. Ask your druggist.

CITY BRIEFS

Says Husband Deserted Her.

The divorce case of Saima Frantila against Matt Frantila, which was continued over from the last term of the district court, has been noticed for trial in the March term. Mrs. Frantila, who resides at Chisholm, claims that her husband deserted her shortly after their marriage. The case was partially submitted at the former trial, and was held open to permit the plaintiff to get additional testimony.

Mrs. Fitzgerald Wants a Divorce.

Annie B. Fitzgerald has begun divorce proceedings against Edward J. Fitzgerald, a well known bartender about town, on the charge of habitual drunkenness. According to the complaint filed by W. J. Stevenson, this morning, they were married in Duluth Sept. 20, 1905. Fitzgerald is 31 and his wife is 24 years of age. They have no children. Mrs. Fitzgerald asks, besides a decree, suit money and alimony. Fitzgerald is claimed to be earning about $20 per week.

Welcome Tomorrow.

Join Duluth's best posted shoppers at Gray-Tallant Co.'s white sale.

County Files Answer.

The county of St. Louis, through County Attorney Norton, has filed its answer to the complaint in the action brought by the village of Proctor to recover the amount of its claim for the care of contagious diseases. The county board disallowed the bill on the ground that it was excessive and contained items that were not proper charges against the county. The village appealed to the district court from the disallowance of its claim. In the answer the county enters a general denial to the charges made in the complaint.

Buy at The Best.

Bees swarm where honey is thickest—posted shoppers go where bargains are greatest. Crowds visit Gray-Tallant's white sale, the best Duluth ever saw.

Father Frignon in Texas.

The San Antonio, Tex., Daily Express of recent date contained a sermon by Rev. Father J. B. Frignon of Duluth, delivered in St. Mary's Catholic church, San Antonio, recently. The article stated that the church was filled to capacity, and that Father Frignon made a very favorable impression. He was in San Antonio fourteen years ago, and for a time was the head of St. Joseph's college at Brownsville, Tex. He went to Brownsville for a visit after he left San Antonio. Father Frignon is pastor of St. Jean Baptiste church in the West end, and left Duluth in November for a rest.

Letter Awaits Him.

A. P. Marshall, a Chicago attorney, has written to City Clerk Cheadle for information relative to one Fred Malmstead, who moved to Duluth from Marquette, Mich., about a year ago. There is a registered letter waiting for Malmstead at Chicago and it is said he is in Duluth now. He has not yet been located.

Sheriff Bailey Visits Duluth.

Sheriff Thomas Bailey of Beltrami county dropped into the city from Bemidji this morning for a short business visit. Sheriff Bailey called at the courthouse and paid his respects to Sheriff Bates.

Asks Damages for Son's Death.

The damage case of Olaf Olson, administrator, against the street railway company, is being tried in Judge Dibell's room. The case is one growing out of an accident that happened a year ago this winter, when William Olson, aged about 10 years, coasted down Ninth avenue east and ran into a street car that was crossing the avenue. The boy was almost instantly killed in the collision. Ninth avenue east is quite steep above Fourth street and has long been regarded as dangerous for children to coast on.

Death of Infant.

Helmer, the infant son of Mr. and Mrs. Erick Johnson of 111 Reformed street, died yesterday morning of pneumonia. The funeral will be held tomorrow afternoon from R. R. Forward's undertaking establishment.

Father Demands Damages.

Ivar Ostman has started suit against the Minnesota Land & Construction company, to recover $50 damages for injuries that his 15-year-old son John received in being struck on the leg by a tie. Ostman claims that at some railroad right of way work where the dump cars were let down to the fill by means of a rope wrapped around a tie in the track to hold the cars, the strain caused the tie to fly up and his son, standing near, had his leg broken by the force of the blow. The plaintiff is represented by John Jenswold, Jr.

Peterson Case Dismissed.

A stipulation for the dismissal of the civil action of A. N. Peterson against the Minnesota Brewing company, has been filed in the district court. The plaintiff was represented by H. H. Phelps.

Five Damage Cases Settled.

A stipulation for the settlement and the dismissal of five personal injury cases pending in the district court against the Oliver Iron Mining company, were filed with the clerk of the court this morning. The dismissals did not state the terms of the settlement. Most of the claims grew out of claims for damages for injuries said to have been incurred in mines. The plaintiffs in all the actions were represented by Heine & Hollister. These cases settled and dismissed were instituted by the following named persons: John Lepisto, Mat Matson, Erick Piispa, Matt Laitala and Charles Fors.

Has Narrow Escape.

Joel Swan of Marquette, Mich., who is visiting relatives in the West end, had a narrow escape from death Saturday afternoon when a boulder became dislodged from the Point of Rocks on West Superior street and crashed to the street.

Dentist Criticises Physicians.

Dr. John Clark, a dentist practicing in Superior, in a lecture before the Question club in the public library yesterday afternoon, took occasion to denounce vaccination for smallpox as a purely remunerative scheme for the physicians. He claimed that the doctors want the vaccination fee "from every person who has not submitted to having the poison injected in his or her veins." Dr. Clark claimed that it is only because of the better sanitary conditions of the present day that people are not afflicted with the disease epidemics of past years.

Alumni Will Meet.

The Adams School Alumni association will meet at the school this evening at 8 o'clock.

During the long, dreary winter months mothers become tired, worn out, can't eat, sleep or work. Hollister's Rocky Mountain Tea is the greatest blessing for mothers. Make them happy and well. 35 cents, Tea or Tablets. Ask your druggist.

PERSONAL

John T. Condon is in the city.

E. M. Patterson, chairman of the board of county commissioners, left last evening for Mt. Clemens, Mich., where he will remain for a few weeks to get relief from an attack of rheumatism.

August Feust, connected with the Twenty-third Infantry at Manilla, P. I., who has been visiting with relatives in Duluth for the past three weeks, left Saturday evening for Manilla.

T. St. Vincent of Soudan is at the McKay.

G. W. Campbell and wife are at the McKay.

Mrs. N. C. Woodward of Tower is at the Spalding.

Frank Walker of Two Harbors is at the St. Louis.

John H. Leslie of Two Harbors is at the St. Louis.

Harry J. George of Virginia is at the St. Louis.

C. P. McGuire of Skibo is at the St. Louis.

Mitchell Stewart of Virginia is at the St. Louis.

M. Martinson of Eveleth is at the St. Louis.

Hella E. Oberg of Virginia is at the St. Louis.

A. J. Shea of Virginia is at the Louis.

Selected real estate mortgages for sale. W. M. Prindle & Co.

BEMIDJI TURNS TABLES.

Bemidji, Minn., Jan. 13.—(Special to The Herald.)—The Bemidji basketball team turned the tables on the strong independent team from Grand Forks, N. D., Saturday evening, when the visitors went down to defeat by a score of 11 to 7, showing an entire reversal of form from Friday evening, when the Grand Forks quint won a game, defeating the locals by a score of 18 to 15.

17th Annual Sale.

25% Off on all Business Suits

This includes **blacks and blues, Frock Suits,** both single and double breasted. **Full Dress and Tuxedo Overcoats,** both spring and fall. **Trousers** and **fancy Vests**—in fact, everything in this large and well assorted stock.

Made up in our usual good style.

RAILROADS WILLING TO ABANDON FREE STORAGE

Meet Commercial Club Half Way at Hearing Before Commission.

Want Assurance That All Roads Will Live Up to It.

According to testimony brought out this afternoon at the hearing before Commissioner J. H. Marble of the interstate commerce commission, in the local federal court rooms, all the railroads interested would be glad to do away with the giving of free storage facilities at the Head of the Lakes for goods in transit, provided they could be offered positive assurance that every line, both here and at other points on the lakes, would live up to the agreement. It was to be inferred that the railroads would have made some such agreement before this, only each was afraid that the other might not act in accordance with its terms, and would, therefore, have an advantage over the other roads, in that the free storage would draw business from competitors who did not offer such free storage.

The hearing on the complaint brought by the Commercial club against the Northern Pacific, Great Northern and Omaha railroads, on the charge of discriminating against local wholesalers and jobbers by giving outside competitors free storage facilities, began shortly before 2 o'clock. The room was well filled with witnesses, railroad men and local wholesalers and jobbers, who are interested in the matter. S. T. Harrison is acting at attorney for the Commercial club. J. A. Kimball, assistant general freight agent of the Great Northern; H. E. Still, assistant general freight agent of the Northern Pacific, and H. M. Pearce, freight traffic manager for the Omaha, were on hand, and each of the railroads was represented by an attorney. A number of witnesses are to be examined, and probably the hearing will be carried over until tomorrow, for it is hardly likely that all the testimony can be taken today.

W. E. Magner, with the D. G. Cutler company, wholesale dealers in salt, lime, cement, etc., was the first witness called. He testified as to existing conditions, telling how local business interests were put at great disadvantage in getting trade in this territory through the fact that outside interests are given free storage through the winter months, November to May, on goods shipped here via the lakes and consigned to points West and South of here, while local business interests were maintaining their own warehouses at considerable expense. He admitted that some of the local wholesalers were also taking advantage of the free storage offered.

He said thousands of dollars were saved annually to outside houses because of the free storage, and asserted that a person could take advantage of conditions and do a wholesale business without maintaining any warehouse at all, depending entirely upon the free storage granted by the railroads in Duluth. This storage is offered on the provision that shipments shall go out over the rails of the roads storing the goods.

The goods thus stored are billed as in transit, and are not subject to taxation. They are billed to interior points on the low through rates from the East. He said railroad officials had told him they would be glad to do away with free storage if the other lines would agree to do the same. The same practice is indulged in at Milwaukee, Chicago, Gladstone, Mich., and other lake ports.

T. F. Rowe, traffic manager for Marshall-Wells, was the next witness called. His testimony was along the same line as Mr. Magner's, and he said officials of every road entering the city had told him they would be glad to discontinue the practice if others would do the same, and further said that correspondence he had had with outside roads, doing business at Milwaukee, Chicago, etc., contained statements to the same effect.

THE RAILROAD CONDUCTORS

Elect Officers and Conclude Annual Session at St. Paul.

St. Paul, Jan. 13.—(Special to The Herald.)—Members of the general committee of the Great Northern division of the Order of Railroad Conductors, who have been holding their annual session in this city during the past few days, brought their meeting to a close today.

Before adjourning they elected the following officers: General chairman, Thomas T. Richardson of Great Falls, Mont.; vice chairman, Thomas H. Bodds of St. Paul; secretary-treasurer, A. E. Daniels of Melrose, Minn.

W. J. McMillan, the retiring chairman, was presented with a handsome jewel, O. R. C. and Masonic emblem by his fellow committeemen as a token of their appreciation of what he has done during his term of office.

HEARING ON FOND DU LAC TRAIN

Railroad Commission Will be in Duluth Tuesday Afternoon.

Tomorrow afternoon at the Spalding hotel the members of the state railroad and warehouse commission will listen to arguments on the removal of the short line train between Duluth and Fond du Lac. The officials of the Northern Pacific claim that the train is not patronized sufficiently to make it a paying proposition. In fact, they state that the road is losing money by the operation of the train.

On the other hand, the citizens of Fond du Lac have entered a protest against the removing of the train, and it is to hear both sides of the argument that the members of the commission will come to the Head of the Lakes.

A delegation from Fond du Lac, as well as a number of railroad men, will appear before the commissioners. The hearing will begin at 2 o'clock.

WITNESSES EXCLUDED

After Opening Testimony is Given in Thaw Case.

New York, Jan. 13.—Immediately after the first witness had concluded his testimoney in the Thaw trial, all witnesses but medical experts were excluded. Dr. John T. Deemar, the Thaw family physician, was in the courtroom and will be one of the first witness for the defense.

As the second witness of the prosecution Mr. Garvan examined James Clinch Smith, who last year testified in Rebuttal, having been abroad when the state presented its direct case.

In great detail, Smith described the entry of Thaw and his party. With the defendant was Mrs. Evelyn Thaw, Thomas McCaleb and Truxton Beale. Mr. Smith repeated his conversation with Thaw, which began by the latter saying he could only get three seats on the roof and intended strolling himself.

Mr. Smith's testimony followed that given at the first trial almost identically. Thaw asked him if he was doing anything in Wall street and said he thought certain stocks were very good.

POSTMASTER AND RURAL CARRIERS.

Washington, Jan. 13.—(Special to The Herald.)—Robert F. Smyth has been appointed postmaster at Neblsh, Beltrami county, vice Charles Hamlin, resigned. Edward Culbranson has been appointed regular and Louis Larson substitute rural carriers for Route 1 at Oslo.

GRIP STRIKES OFFICE

Of the Minnesota & International Railroad at Brainerd.

Brkainerd, Minn., Jan. 13.—(Special to The Herald.)—The epidemic of grip raging through the country has certainly struck the office of the auditor of the Minnesota & International railway. Six of the office force were off duty Friday and Mr. Schultz, who was on the road was also sick, but stuck it out and is feeling better. Mr. Downie, who has been out of his office several days, is around again, as is Mr. Mahlum and Mr. Stout, but Mr. Miller, Mr. Hill and Mr. Anderson are still on the sick list. Mr. Stout is seriously ill and was removed from his rooms in the Columbian block to the Northern Pacific hospital Friday afternoon. R. K. Gemmell, stenographer for Supt. Strachan, is also sick with the disease.

SEEDING IN JANUARY.

Morrison County Farmer Finds Soil in Favorable Shape.

Little Falls, Minn., Jan. 13.—(Special to The Herald.)—G. H. Powers has just sowed thirty acres to timothy and clover and will seed twenty acres more next week. He says that the ground is in good condition and the season as it is, is very satisfactory for seeding. There is very little snow and this will not harm the seed. This early seeding will insure an early start for the grass and cause it to stool well.

KILLED AT WINGER.

Ole Olson, While Home on Visit, is Run Down.

Crookston, Minn., Jan. 13.—(Special to The Herald.)—Ole Olson, aged 24 years, single, who is holding down a claim near Weber, Saskatchewan, Can., and who recently arrived at Winger, a small town in the southeastern part of Polk county, for a visit with relatives, was run down and killed by a Soo train at Winger, according to brief advices received. It is not known how the accident happened, but the report is he was driving across the track and did not see the train approaching.

Handsome New Goods!

A large shipment of new winter and all-the-year-round goods arrived Saturday, and has been added to our regular stock.

This offers you an opportunity to select from one of the most complete stocks of seasonable woolens ever shown in Duluth.

Every popular pattern, every correct coloring is now on display, and we offer your choice at

25% Discount

from our usual prices. During this sale we offer

$36.00 SUITS	$27.00
$40.00 SUITS	$30.00
$45.00 SUITS	$33.75
$48.00 SUITS	$36.00
$50.00 SUITS	$37.50

As you know, we do high-grade tailoring and our regular prices are very modest for the quality of garments we produce. Cheaper tailors there are, of course, but their work is always inferior and worth no more at best than they ask for it. When you can buy BRENTON Clothes at the other fellow's prices, don't hesitate.

GEO. H. BRENTON,
HIGH-CLASS TAILORING.
Phoenix Block, Corner Fourth Avenue West and Superior Street.

COPPER STOCKS FIRM AT CLOSE

Session Ends With Market Above the Level Saturday.

The copper stock market was stronger at the close today. The opening was firmer and the tone higher all day, except for one period, when a reaction sent the list off a little.

Wire trouble, caused by sleet storms in the East, delayed the receipt of quotations in some of the broker's offices during the day.

North Butte opened at $46, advanced to $46.75 and closed at $46.75 bid and $47 asked. Amalgamated opened at $51, went off to $49.87½, rallied to $52.12½ and closed at $52.12½ bid.

Greene-Cananea opened at $7.25, advanced to $7.37½, declined to $7.12½ and closed at $7.12½ bid and $7.37½ asked. Butte Coalition opened at $16.25, advanced to $16.50, went off to $16.25 and closed at $16.25 bid and $16.50 asked. Calumet & Arizona opened at $107, advanced to $107.50 and closed at $107.25 bid and $107.50 asked.

Superior & Pittsburg sold at $12.25, went off to $12 and closed at $12 bid and $12.12½ asked. Butte & Superior sold at $1.50 and closed at $1.37½ bid and $1.50 asked; Carman at $1.62½ and $1.75, and closed at $1.62½ bid; Globe at $7.50, advanced to $8 and closed at $7.50 bid and $7.75 asked, and Denn-Arizona at $4.37½ and closed at $4.25 bid and $4.37½ asked.

Black Mountain sold at $4.62½ and closed at $4.50 bid and $4.62½ asked.

* * *

A letter from the Calumet & Sonora company's property says:

"For the past five days bad weather has delayed hauling out the ore to the station and they now have about 250 tons of ore on the dump ready for shipment and they will haul it to the station as fast as teams can be procured to do the work. An engineer from the Calumet & Arizona at Bisbee was over and examined the property recently and pronounced it the best showing of anything he had seen in the district."

BROKERS SUSPEND.

New York, Jan. 13.—The suspension of Robert McKay & Co., members of the New York stock exchange, was announced today.

TAFT RECOMMENDS

That Width of Locks on Panama Canal be Made 110 Feet.

Washington, Jan. 13.—Secretary Taft has written a letter to the president recommending an increase of the width of the Panama canal locks from 100 feet as at present planned to 110 feet. The change will cost about $5,000,000 additional, but meets the naval view as to the likelihood of larger battleships in the future.

DANCING BY THE MILE.

At the last meeting of the Paris Academy of Teachers, Authors and Professors of the Dance, Prof. M. E. Giraudet, who is all three, broke out into figures, says the New York Sun. He read a statistical paper on the acquirement of the art of dancing, which he said was based on observation of 2,500 pupils. These are some of the questions that he undertook to settle:

What is the number of steps, beats, demi-beats, movements of the feet and turns necessary to each dance?

What distance is traveled in each?

What speed should the various dances have?

What time and how much study are required to acquire perfect proficiency in dancing?

He found that six and a half hours was time enough to become complete master of the ordinary waltz with the reversing movement. He considers that it should be danced to very slow music, and that in the three steps which go to each bar of the music a distance of 2 feet 6 inches should be traversed.

The speed should be forty-four bars of music a minute, involving really 132 movements of the feet and twenty-two complete revolutions of the dancing couple. The duration of a dance should not exceed six minutes. The pupil should be proficient after about sixty-five trials involving 17,160 bars of music, 51,480 steps, 8,580 turns, and a distance of about 35,970 feet, more than seven miles.

The ordinary waltz, without reversing, may be learned in about four hours and ten minutes, with about 42,090 steps, 7,020 turns and a distance traveled of 29,500 feet, or about five and a half miles.

Only an hour and forty-five minutes is necessary to acquire the mazurka. It needs 14,480 steps, 1,207 turns and about 10,555 yards or about two miles dancing.

The polka is another easy one. It needs twenty-eight practice dances of four minutes each to bring perfection. This means 9,200 steps, 2,500 revolutions and a distance of 13,500 feet, or approximately two and a half miles.

A WOMAN AND A WATCH.

New York Sun: "Women don't deserve to own watches," recently remarked a jeweler. "They don't know how to take care of them.

"A woman bought a watch from my firm recently and I gave her strict instructions to wind it every twenty-four hours and always at the same hour as nearly as possible. Two days later she came back with it and said it had stopped.

"Well, I found it had run down. I told her, but she insisted she had wound it.

"Two or three days later she came back with the same complaint, and again I tried to impress her with the necessity for winding it. Again she insisted she had done so and went away miffed.

"The third time she came I asked her to show me how she had wound it. Then I made a peculiar discovery. The woman was lefthanded, and in attempting to wind the watch she had been winding it the wrong way. I've had peculiar experiences with customers, but that beats all."

WHISTLER'S UNMARKED GRAVE.

London Morning Post: Whistler is buried not in Chiswick churchyard, where Hogarth lies, but in the cemetery that adjoins it. No stone marks the grave of the artist, which is almost hidden by carefully tended flowers.

A little fence of wooden trells protects it and over fence and grave trailing ivy, geraniums and honeysuckle grow luxuriantly. The grave is beside the high wall of the cemetery and partly sheltered by a wild plum tree, overgrown just now by creepers that have sprung up close to the boundary. Beyond the wall rise ancient yew trees and the more ancient tower of Chiswick church, but modernity asserts itself in the incessant rattling and hammering from the torpedo boat works, whose long ranges of black buildings separate these peaceful acres from the adjacent river.

Our First Annual
Ostrich Plume Sale

CONCERNING WOMAN.

At the annual meeting of the Young Woman's Christian association of this city, which will be held Wednesday evening at the association rooms, on East Superior street, seven directors will be elected. Those whose terms have expired are Mrs. W. S. Bishop, Mrs. C. H. Merritt, Mrs. W. C Agnew, Mrs. A. W. Bradley, Mrs. J. A. Watterworth and Mrs. J. D. Titcomb, all of whom will probable be re-elected A successor will be chosen to fill out the unexpired term of Mrs. W. M. Hubbard, resigned.

The reports of officers will be presented at that meeting.

* * *

The speaker at the devotional service yesterday afternoon at the association rooms was Mrs. W. C. Agnew, president of the association. Tea was served at 5 o'clock and the meeting and informal gathering which followed was quiety enjoyed by the members present.

JUST CRAZY ABOUT IT.

Former Duluth Girl Loves Life on Wisconsin Claim.

The Minneapolis Journal of yesterday contained the following social notice that will be of interest to many Duluth people. Mrs. Kimball, who is the subject of the interesting sketch, was Miss Eva Worden, and during her stay in this city was the guest of her sister, Mrs. McIntyre of Lakeside, who is now Mrs. H. H. Kiddle of Minneapolis. The Journal says:

"Mrs. Wilbur Rufus Kimball, who has been spending the two holiday weeks with her sister, Mrs. H. H. Kiddle, at 3144 Fourth avenue south, returned Friday to her Wisconsin claim to join her husband, who was also in Minneapolis on a brief holiday visit. Mrs. Kimball, until two years ago, was Miss Eva Worden. She was born and educated in Duluth and graduated at the Duluth Normal school. So fond is Mrs. Kimball of life on her claim that after the excitement had died down, she was actually homesick for the open and the big timber. This is not to be wondered at, if one remembers that the Kimball home, sixteen miles out of Minong, in Northern Wisconsin, is beautifully located on the Little Totogacie river and has the dearest log cabin home, dearer than any ever described in any story. The quaint log house is two stories high. The upper floor is just one great lofty sleeping room, which, during summer house parties, is partitioned off into separate apartments. The woodwork of birch is extremely pretty and cheerful. The newel post at the foot of the stairs is of roughly hewn birch, in its crotch it holds the railing for the stairs, and the crotch of another slender birch tree trunk supports the railing on the upper landing. And to think of it, last summer the birches became active. They had not been cut long and their willful spirit was not properly subdued. So for several weeks Mr. and Mrs. Kimball enjoyed the sight of slender green sprouts growing out of the posts and railings of the stairway.

"Since her stay in the timber country, Mrs. Kimball has learned all the things which result from being in close touch with nature. Indeed, she can pose in almost any role. Under the tutelage of her husband, she has become an exper: hunter. She shoots pheasants, rabbits, duck, deer and even an occasional wolf is kept at a respectful distance by her 32-caliber rifle. Training with the rod and line have perfected her as an angler,constant riding across country has made her an expert horsewoman, she skates and skis, she has her miniature chicken yard and dairy, and one of her accomplishments during the summer is swimming, for the little river offers a delightful opportunity. Mrs. Kimball has learned to be perfectly fearless, she takes long walks through the woods of the claim, armed with a rifle and chaperoned by her two large hounds and a faithful shepherd dog. Mr. and Mrs. Kimball are planning to spend another year on their claim and after returning to Minneapolis will make it their reguar summer home for three or four months during the year.

WED IN KENTUCKY.

Miss Corinne Shields Becomes Bride of Herbert S. Evans.

The wedding of Miss Corinne Shields of this city and Herbert G. Evans took place Wednesday of last week at Lexington, Ky. Mr. Evans was also formerly of this city, being associated with W. W. Seekins, florist. The wedding took place at the home of Mrs. Monogue of 162 East High street, and the service was read by Rev. W. P. Hines at 2:30 o'clock. The bride wore a gown of white silk, trimmed in lace, and carried a bouquet of white roses, violets and lilies of the valley. H. Robinson of Lexington performed the ceremony of bestowal. Mr. and Mrs. Evans will go to Colorado on their wedding trip. Mr. Evans left Duluth recently for Lexington. He will be at home with his bride in the Southern city.

To Study Abroad.

Miss Iva Evered, daughter of Mrs. Anna Evered of 123 East Third street, will leave Wednesday evening of this week for Portland, Me., from which port she will sail for Germany. Miss Evered will go to Leipsig, to continue her piano study at the conservatory there. Her stay in Europe is indefinite.

D. A. R. Meeting.

The Daughters of Liberty chapter, D. A. R., will meet Wednesday afternoon of this week, at 2:30 o'clock, with Mrs. Victor Stearns of 1105 London road, instead of with Mrs. W. S. Woodbridge, as announced in the year book. Each member will attend the meeting prepared to relate a thrilling anecdote or tale of bravery of her foremothers.

Card Party.

Mr. and Mrs. James McNichols of West Fifth street entertained at cards Saturday evening at their home. The card favors were won by Miss Eva Le Moignan, George Walter and Arthur LeMoignan. Thirty-two guests enjoyed the delightful evening.

Church Meetings.

Endion Circle of the First Presbyterian church met this afternoon with Mrs. John Panton of East Second street. The afternoon was devoted to a quilting bee.

* * *

Circle No. 4 of St. Paul's Episcopal church will meet tomorrow afternoon at 2:45 o'clock with Mrs. S. E. Smith of 1616 East First street.

Personal Mention.

Mr. and Mrs. Thomas Merrill Ring arrived yesterday from Saginaw, to be the guest of Judge and Mrs. Page Morris for a few days.

* * *

Miss Jane Everington will leave the latter part of the month for New York, where she will continue her musical studies.

* * *

Mrs. Margaret McLean left this afternoon for a several weeks' visit in New York.

* * *

Mrs. James D. Keough of St. Paul, who has been the guest of her mother, Mrs. Morgan Sweeney, of West Fourth street, returned Saturday to her home.

* * *

Mr. and Mrs. Robert Forbes of Hunter's Park, have as their guest their son, Burtram W. Forbes, a mining engineer, who has been at Cobalt, Can., for the past year.

* * *

Mrs. J. Sibbitt has returned from a three-weeks' visit at Eveleth.

* * *

Mrs. D. J. Ryan of Hunter's Park had as her guest her brother, Owen J. Keough, of St. Paul. Mr. Keough returned to his home yesterday.

* * *

Miss Nellie G. Learnard left yesterday for an indefinite visit in St. Paul and Chicago. Miss Learnard was the guest of honor at a delightful evening party last Thursday at her home, 312 West Third street.

* * *

Mr. and Mrs. H. J. Wessinger of East Superior street will leave soon for Florida, where they will remain until spring.

* * *

Mrs. E. J. Carr left Saturday for St. Paul, where she will make her home.

What Retail Markets Offer.

Rabbits.
Spinach, 50 cents a peck.
Radishes, 10 cents a bunch.
Bananas, 30 cents a dozen.
Very poor apples, 50 and 60 cents a peck.
Ox tails, 10 cents each.
Finnan haddie, 15 cents a pound.
Codfish, 7 cents a pound.
Pig's head, 7 cents a pound.

The dear little white rabbits, whose litte foot marks in the beautiful white snow are some of the very nicest things of the winter, have been trapped or shot or poisoned or something and are now strung in a long string in the front of the butcher shop. Anybody who could walk through a birch and pine woods nad see marks of the little feet that passed blithesomely through the same woods but a short time before, and then follow those marks and become the principal actor in an atrocious murder—words fail! That there are plenty of people to do just that is attested by the rows on rows of dead rabbits that adorn almost every market. Rabbits are quite cheap.

They are the only things in the market that are.

DON'T WEAR

FALSE HAIR

UNLESS it is a PERFECT MATCH in COLOR and TEXTURE. The way to insure a perfect match is to buy the BEST GOODS ONLY. The BEST GRADE costs three times as much as it did some years ago. The second has not advanced so greatly. The third not at all, because 'tis the only one the demand does not exceed the supply, but a good match is impossible with the third-grade Hair.

Our prices are reasonable, and we tell the truth about the quality. If you favor us with your patronage, we guarantee satisfaction.

TRANSFORMATIONS, PUFFS, WIGS, TOUPEES, Etc., of Finest Quality Hair.

MISS HORRIGAN
Over Gidding's Store—Take Elevator.

THE EVENING STORY

HER PROPOSAL

By Frederick Manuel Viera.

"Now, Prof. Lewis, if you should observe a political development of your ideas you would repudiate them immediately."

The speaker was a lively girl enjoying her summer vacation among the hills of Southern New Hampshire, having obtained quarters at a rambling old farm house originally built for a large family, with several extensions annexed afterward, readily accommodating as many guests as a small hotel; and noted among the summer idlers for sociability and freedom, the same cnoice spirits going there to rusticate year after year, some special interposition of providence being necessary to admit a new member. This, however, was Lillie Burton's first season, her special providence being an aunt who had been identified with the patronage of the house from its first opening to the summer boarder.

When acquaintance became established and her qualities understood, she was an evident favorite with the men, meeting them on the common ground of good fellowship, but evincing no desire for an exchange of attention, the result being that they often failed to observe an empty chair beside the season's beauty if a place remained vacant near the "Bronze Lillie," all but Prof. Lewis, who continued to bestow his attentions with the same impartiality for which he was noted, it being the merest of chance happenings that now left him in her society for an uninterrupted hour.

A very conservative man on most points, he was radical to an extreme where it might least have been expected, believing thoroughly in woman's emancipation, in the broadest sense of that abused term, a statement of these views having elicited Lillie's remark.

"In spite of your opinion," he continued, "I will venture to repeat my statement, that I consider women entitled to all the rights and privileges enjoyed by men, so far as she is mentally and physically capable of exercising them, and you know it is my belief that there will be little difference in the development of the sexes when given equal opportunities."

His companion laughed. "You are not quite honest in what you say. If you were, you would have offered me a cigar when you lighted yours."

He was not to be disconcerted by small points. "You will pardon my apparent neglect, I am sure, and possibly you may recognize the force of my qualification concerning capacity for enjoyment." He extended his cigar case, and she took one, biting the end with an elaborate travesty of his movements a moment before. Accepting the offered light, she leaned back against the trunk of the tree and resumed the conversation in a mocking tone.

"How much more sociable it is to have common interests and pleasures."

Prof. Lewis was highly amused, and anticipated some fun presently, when the nicotine got in its work, but she was not to be caught that way, merely smoking enough to keep her light, and continuing the conversation vivaciously.

"I am pleased to observe your readiness to take a hint. Your admiration of my feminine grace and beauty, as exhibited in the present enjoyment of equal rights and privileges, is also very evident."

"The audacity of your assumption of grace and beauty is noteworthy and your adapatability is wonderfully charming. I trust the enjoyment is genuine?" He fancied she must begin to feel the effect of the drug, but she ignored the thrust and continued her remarks.

"On another point your argument is notably insincere. Equality between the sexes you doubtless forget includes liberty for women to enter one field where every man will practically seek to discourage her, whatever theories he may hold in regard to her emancipation. Fancy her excercising a right to propose marriage when the favorable opportunity arrives, or even going a step further and seeking the object of desire by weeks and months of assiduous effort. Would that meet your approval?"

He was silent for a moment, and she anticipated her supposed triumph. "Does such a prospect appeal to you?"

Looking at her from under half-closed lids, he admired the air of saucy repose with which she regarded his supposed discomfiture. "Even from improbable extremes I do not retreat," he said slowly. "Am I to understand that you would approve such a course?" She nonchalantly watched a wreath of smoke curl upward, in imitation of his preoccupied manner of a moment previous.

"As much of the results of marriage are more important to woman than to man, so much more readily that position ought to be maintained." He spoke reflectively, as though the full weight of the consideration had never occurred to him before.

"Make it a personal matter, professor, and you can more fully appreciate it," she said in a languidly judicial manner. "Fancy yourself the recipient of a proposal of marriage. How it would elevate the woman in your estimation!"

His manner grew abstracted and meditative, and his reply seemed in the nature of an assurance to his own conscience, rather than an answer to her remark. "The girl who was honestly convinced that some particular man would make her a better husband than any other, would not suffer in my estimation by telling him so."

Lillie tossed away the cigar with which she was toying. "Prof. Lewis," she said, while her eyes sparkled with fun, though a deeper color than usual glowed in her cheeks, "during these days of mutual companionship you must have noticed my growing interest in you. I have not realized the depth of my feeling until recently, but you are the only man I ever loved, and I know now that you are the only one I ever can love. Without the sustaining influence of your magnetic nature I feel that my life will be woefully incomplete and utterly devoid of brightness. Can you find it in your heart to return some measure of my affection? Will you be my husband?"

"This is so sudden—so unexpected," murmured the professor, while Lillie Burton laughed in wicked enjoyment. "My heart beats responsively," he continued. "I think—that is, I—feel—yes, Lillie, I—I do love you. I—I will." He tried hard to blush, but was not equal to such an unusual effort.

There was a short silence, then Lillie said abruptly: "It is growing cold out here. I believe I'll go in."

Prof. Lewis reviewed the situation rapidly during the short walk to the house. He thoroughly appreciated the joke, but felt a possible undertone of seriousness in the matter. If so, what then? It could not be his wealth was attractive, for Lillie's was far greater. He admitted to himself that he liked the girl very much. Furthermore, he would not be bluffed. He would chance the fortune of a jest, learn if it held his fate disguised in pleasantry, and test the spirit of his companion by a word in earnest, so he laid a detaining hand on her arm as they reached the piazza and said: "Lillie, I am serious in my jesting."

She looked bravely in his eyes to assure, and be assured, of truth, while the color rose to her face and glowed redly through the summer tan, as she said slowly: "If you are in earnest, then I will—I will be, too." She snatched away the hand he had taken, and slipping through the door, ran upstairs to her room.

The professor sauntered along the piazza until he reached a convenient settee, on which he stretched himself and gave his thoughts to reflection. On the whole, he was quite pleased, and the more he thought of Lillie the better satisfied he became. She was a charming girl, and no mistake. Always sympathetic and invariably good-natured. He had noticed it. Yes, it was really worth while to give up his bachelor freedom for such a girl. Yes, he was—glad—to—do—it, and by that time he was asleep.

They have a daughter now, in her 'teens, who is sometimes puzzled by their remarks to each other.

"Lillie," the professor will say to his wife, "there is one thing about which I have never felt certain. Were you in earnest when you proposed?"

To which she replies: "Have you ever regretted the proposition?"

"I insinuated nothing of the kind."

"Then don't ask foolish questions."

And again sometimes it is she who observes: "It seems to me that you don't argue as strongly in favor of woman's emancipation as you did formerly."

Then he endeavors to extinguish her by asking: "Would you desire Maude to obtain a husband through such methods as her sister employed?"

But she has the last word: "I should trust in that case her judgment would prove superior to her mother's."

QUEEN AND KING APPEAR

Lizzie Mitchell and Gust Freeman Both in Court.

Alfred J. Conter Missed Meeting of Old Timers.

Lizzie Mitchell, pretender to the title of Mary Denomie, "the Odanah Queen," wife of the notorious "Doc" Bradford, and holder of the record for number of appearances of women in Duluth and Superior police courts, was back this morning with the old-time charge of drunk opposite her name.

Lizzie was picked up at the West end yesterday morning about 1:15 very much the worse for liquor. She was wandering around with no apparent objective point, when the officer took her in, but when placed in the station, broke down and gave vent to her grief for about an hour. She was meekness itself when arraigned in court this morning, and the judge gave her $15 and costs or twenty days.

Contrary to popular belief, Lizzie Mitchell is not the real "Odanah Queen," whose beauty and gifts were the scubject of many a newspaper story. Mary Denomie, whose beauty and personal charms Lizzie Mitchell never could approach, was the "Queen of the Odanahs" by natural right, and Lizzie is but a pretender. It is believed that Mary Denomie is dead, as she went very much to the bad after creating a prolonged sensation in Ashland, Duluth and Superior by her actions after leaving the reservation. Lizie Brooks, Mitchell or Bradford was once attractive, in her Indian way, but not as much so as Mary Denomie, but her beauty had faded under many applications of strong drink and the giddy life of the nether world.

* * *

Not to be outdone by the fact that an alleged queen was on the list this morning, a "king" was also booked up, though their domains lie far apart and they don't know each other. Gust Freeman was once "King of the Bowery" by right of might. His brawny arm and giant stature were not to be gainsaid. If there was a dispute to be settled, Freeman was the arbiter, and his rulings, harsh though they were, went with the lumberjacks and homeless wanderers of the booze joints. Incidentally, if there was a drink to be bought, Gus was usually in on it. He could drink more booze, make more noise and lick more men than any character who infested the Bawery, and those qualities gave him a monarchy.

Civilization has gained the upper hand on the Bowery to more of an extent than in the old days. The old-timers have been laid in their graves by the scythe of the demon booze, and Gust stands almost alone in the survivors of the heydey of Duluth's rough district. The new comers, numerous though they are, know not his power, and those who do know it do not recognize it. Once in a while a flash of his domineering manner of the old days comes to the surface, but it is put down by men with stronger wills than those whom he once governed.

Freeman was up this morning on a charge of assault. John Erickson, once a boss of a chain gang, on which Freeman worked, happened into a saloon on the Bowery Saturday night about 9 o'clock, encountered Freeman and said something the monarch didn't like. Freeman let his fist out and caught the former boss on the mouth. Detective Walsh and Officers Gleason and Forrestal took the pugnacious one in and he drew $10 or fifteen days this morning.

* * *

Alfred J. Conter missed the meeting of the old-timers Saturday morning. For some reason he was overlooked when the notices were sent out and he didn't like it a little. He had a meeting all by himself this morning and the judge decided he'd better join the other members of the association at the county jail for sixty days.

* * *

The patience of the court has given out in the case of Charlie Creve, the West Duluth young man, who was released Saturday morning under suspended sentence, on promise to leave the city. Creve has been let out on suspnded sentence time and again, but he always drifts off the straight and narrow and brings up in court. Saturday night at 7:30, he was picked up in West Duluth drunk. He wasn't taken to court this morning, but was sent to the county jail to serve one of the numerous sixty-day sentences, which has been hung over his head in the past.

* * *

Martin Benson was convicted of disorderly conduct and sentenced to pay a fine of $10 and costs or go up for ten days; William Julinen, charged with carrying concealed weapons forfeited $10 bail; Andrew Anderson and Charles Christianson pleaded not guilty to disorderly conduct and will be given a trial this afternoon. Three plain drunks drew small fines.

BLIND PIG CASES ARE TRANSFERRED

Bismarck, N. D., Jan. 13.—(Special to The Herald.)—The supreme court has upheld the action of Judge Burke in transferring Morton county blind pig cases to another county for trial, and the anxiously awaited decision against the blind piggers is looked upon as one of the most important in months.

These cases attracted much interest at the recent term of the court in Morton county (Mandan), when a grand jury summoned on the petition of the piggers held to the district court, refused to indict, when in the opinion of the court, sufficient evidence had been produced to indict them and another grand jury was summoned which later brought in nearly thirty indictments. The attorneys for Fred Zinn, one of the indicted men, applied to the supreme court for a writ of certiorari to prevent the trial of his case in the Barnes county court, to which it had been transferred by the district court upon the affidavit of the state's attorney that a fair trial could not be had in Moton county. The court holds that the judge had the power to order the transfer ond the trial will be held at Valley City shortly.

DIES FROM WOUNDS.

Leavenworth, Kan., Jan. 13.—R. J. Lintler, a prominent farmer, who was shot by his brother-in-law, died last night.

The way to a woman's heart is by praising her cooking. It is easy if she uses Hunt's Perfect Baking Powder and Extracts. They never disappoint.

It is with Pleasure that we Present to you This Week

A Special Exploitation Sale

—OF—

THE Gossard CORSET

Madame A. Westbrook, an expert corsetiere of Chicago, will be at the Gidding store during the week for the purpose of demonstrating the superior merits of the Gossard Front Lace Corsets.

We deem it a worthy service to womankind to present to you these achievements of Corset Perfection, as we believe them to be the only alliance of beauty, art and ease in corsetdom.

Every woman knows that seldom it is that a good figure is thrust upon us, and the majority of our well-gowned women will find, if they stop to so consider it, that virtually they are on a "figure hunt." Gossard Corsets are built over many diverse models which at once conform to the lines of the natural figure and fashion requirements.

"THEY LACE IN FRONT."

Every woman is cordially invited.

In Conjunction With the Corset Demonstration We Will Continue Our

JANUARY

Spalding Hotel Jeweler.

SPORTS OF THE DAY

FEIRING IS THE LEADER

Local Champion Jumps 90 Feet on Shortened Hill.

Annual Tournament of Duluth Club is Great Success.

Over 2,000 people, including many from the surrounding towns, gathered yesterday at the hill of the Duluth Ski club at Chester creek for the annual tuornament of the club, the inaugural of the season of 1908 in the Scandinavian sport in Duluth. Though there has been little snow this winter, the efforts of the club, hauling snow by team from the grounds in the vicinity of the slide, had put the hill in fairly good shape and there was no hitch in the proceedings on account of the lack of snow.

The day was ideal for the spectators, if not for the jumpers. There was hardly a breath of wind and the high temperature prevented the discomfort which usually comes of following a ski tournament in the open. Few of the people, who remained through the performance of the jumpers yesterday, suffered any inconvenience from the cold, and those who did become chilled took refuge in the club house, which is a great improvement on the tournament facilities this year.

On account of the lack of snow and the fact that the riders have had little opportunity to practice this year, only about 200 feet of the 300-foot slide was used and the records were not as good as will be made in the national tournament. But the jumps were long and spectaucular enough to arouse enthusiasm and everyone thoroughly enjoyed the sport. There was a battery of pohtographers on the ground, representing the local and Twin City newspapers, besides men from the Washington Post and Portland, Or., newspapers. They secured pictures of the different famous riders and also of John Rudd's sensational somersault in the air while on skis.

Under the unfavorable conditions, the professional jumpers showed up well, Ole Feiring leading with the longest jump of 90 feet. In the trial jump he made 85 feet, and in the regular jump, 87 feet. John Mangseth made 86 feet on his first regular attempt, but failed to stand on his final jump, which seemed to have been longer. Gustave Bye made 80, 81 and 86 feet.

George Jacobson led the amateurs with a jump of 74 feet, and E. S. Hendrun was second with 67 feet. Arnold Olson was the star of the Class B. amateurs, with jumps of 72 and 76 feet, and George Hagen was second with 74 feeet.

Helen and Beatrice Wannebo created an excellent impression with their work in the ladies' and children's class. They did not use the big hill, but their graceful riding and good jumps mark them as the leaders of the lady riders of Duluth.

The officials markings were not given out yesterday. A meeting of the executive committee will be held tomorrow afternoon, when the date for the awarding of prizes and marks will be set. A big banquet will be held at the new club house at Chester creek, in the nature of a house-warming. Then the official marks will be made public, and the trophies awarded to the winners.

One of the features of the tournament was the senational somersault on skis by John Rudd, a local man. For some years Rudd has been working to perfect his feat, and yesterday he appeared in it for the first time in public. The first trial was entirely successful. He turned, while in the air, landed squarely on his skis, wobbled a little and proceeded down the hill amidst the cheers of the spectators. He made another trial later, alighted on his feet again, but fell as he was proceeding down the hill. The feat is one of the most difficult ever seen in Duluth, and it will be a big attraction for the national tournament.

An unpleasant incident, following the tournament, is deeply regretted by members of the Ski club. The stages, which carried the people to and from the street cars, had agreed with President Evens of the club that the price each way was to be 10 cents. Some of the stages held up the people on the return trip for 25 cents, and occasioned no little indignation. The charge was exorbitant, and the Ski club will prevent a repetition of the fraud by furnishing their own stages for the national tournament next month, and charging a fair price for the ride.

A Cure for Misery.

"I have found a cure for the misery malaria poison produces," says R. M. James, of Louellen, S. C. "It's called Electric Bitters, and comes in 50-cent bottles. It breaks up a case of chills or a bilious attack in almost no time; and it puts yellow jaundice clean out of commission." This great tonic medicine and blood purifier gives quick relief in all stomach, liver and kidney complaints and the misery of lame back. Sold under guarantee at all drug stores.

WALL'S

FAMILY LIQUOR STORE,

310 WEST SUPERIOR ST.

The confessions of a giant have been discredited. Sten Wahlstrom said he was a wrestler. He wasn't. He couldn't see himself as others saw him. He boasted of wrestling ability, he grew chesty, placed money on himself, went out before a crowd and was made to look like a big sheep tackling a fierce little wolf. Not that Danielson is little, but there's basis for comparison on weights.

Martin Johnson called the turn when he said Wahlstrom didn't have the wind. He might have added that he didn't have the muscle, the head, the wrestling ability, or the class. Beef is his sole asset and that's been transferred to the liability side of the account.

Wahlstrom took too much on himself in tackling Danielson in a handicap match. Danielson knows something of the wrestling game. Wahlstrom didn't know much. Beef might prevent a fall, but it would never in the world gain one. Because he had a lot of weight, Wahlstrom thought he could wrestle and experience of the kind he received Saturday night sometimes comes high.

It's back to the candy counter for Wahlstrom. When he first broke into the ranks and told of his ability, pictures were conjured up of Gotch shaking in his shoes and the "Russian Lion" turning tail in mad flight to the land of vodka and massacres. It was conceded that if a man weighing 332 pounds had wrestling ability, he might be counted dangerous. It took Andrew Danielson about two minutes to prove that weight and wrestling ability both haven't room for existence in the atmosphere displayed by Sten Wahlstrom and the pictures of a new wrestling champion from Duluth have been dispelled as is the morning fog by the first rays of a midsummer sun.

* * *

With nature's forces conspiring to prevent the preparation of a slide, man rose superior to obstacles yesterday and the first tournament of the season of 1908 was successfully held by the Duluth Ski club.

The present winter season is one in which Duluth will have full opportunity to display its allegiance to winter sports. The hockey teams demand support, the rinks, which will come to the big Northwestern bonspiel next week require entertainment and hospitality and the success of the annual tournament of the National Ski association next month is imperative to prove to the people of the Northwest that Duluth is not so wrapped up in business that its citizens can give no time to the relaxation of the mind and the upbuilding of the health and body.

Prior to last year, the National Ski tournament was held at Ishpeming, Mich., each year. Last year Ashland secured it and thus converted it into a transient attraction, for which the cities of the Northwest might bid. Duluth's request that the 1908 tournament be given to this city was acceded to with hardly a murmur.

It is up to Duluth to make good. Hospitality was assured the visiting riders and enthusiasts, and hospitality must be given. The men who have charge of the tournament are the members of the Duluth Ski club, but everything cannot be left to them. They are acting as agents for the city. They need support, financial and moral. Be it said that a good crowd turned out for the tournament yesterday and there is little likelihood of Duluth falling down on the financial side.

* * *

Joe Thomas, whom Stanley Ketchell showed up as a misfit in the middleweight class, has announced his intention of tackling the heavies. More trouble for Tommy Burns.

* * *

The golf season in California is open, but there's nothing to deter the enthusiasts from driving a ball around on the Duluth links if they so wish.

AVERAGES COME VIA NEW YORK

Dr. Glass Accommodating to Fans of Northern League.

Through an innovation, the American Sports Publishing company, publishers of Spalding's athletic books, has this year issued an Official Baseball Record, which is an advance of "Spalding's Official Baseball Guide," which will come out in April as usual. Instead of waiting for the regular issue of the guide in the spring, for the publication of averages and records of the year, they will be issued Jan. 1 in the future.

Thus, through their publication by a company in New York, the fans of the Northern Copper Country league are given the pleasure of reading the averages of the men in their league four months after the close of the league season by paying 10 cents for a book, or by the sporting editors tediously digging the figures out of the book, which is sent to them, gratis.

The averages as published in Spalding's book give Kurke, the Houghton catcher a record of .334 in batting for twenty-three games, and leads the league. Other .300 hitters are Zeider, Winnipeg, .314; Cox, Winnipeg, .304; McCormick, Duluth, .306; Solbraa, Houghton, .308; Rognas, Calumet, .381; Kaiser, Calumet, .305; Corrigan, Calumet, .308. Kurke is only a fair hitter, and his average appears unusually high to Duluth fans. He was sold to South Bend, in the Central league, on the strength of his average. He will not hit .384 next year, and will do well if he hits .280. Glass' average is not wrong. Neither is it padded. But official scorers must have made slips somewhere.

WAHLSTROM A FROST.

Danielson Throws Him Once and He Gives Up.

Sten Wahlstrom was a frost in the wrestling match at the West end, Saturday night, when Andrew Danielson threw him once in twelve minutes, and Wahlstrom quit fifteen minutes later. Wahlstrom was to have thrown Danielson three times in an hour. He didn't have the wind to stick it out, nor the wrestling ability to throw the lighter man.

Stops itching instantly. Cures piles, eczema, salt rheum, tetter, itch, hives, herpes, scabies—Doan's Ointment. At any drug store.

Many Entries Being Received for the Curling Event.

Skating Rink Closed for Making of Curling Ice.

Next Monday, the fifteenth annual bonspiel of the Northwestern Curling association will be held at the curling rink here and about fifty rinks from all over the Northwest and Canada will compete in the seven events. The Duluth club has practically completed all arrangements for the big meet. Invitations have been issued to all of the clubs, who would be likely to send rinks to Duluth, entries are being received, the program has been laid out and the curlers will do everything to make the bonspiel of 1908 the biggest in the history of the association.

The skating rink of the club was closed Saturday night for two weeks and the new ice, which will be formed this week, will be turned over to the curlers next week, giving more opportunity to play off the several events, but would be the case, were only the regular space used. Great care has been exercised in making ice at the skating rink this year, in anticipation of the need for it at the bonspiel, and the ice there is almost as good as that in the curling rink. Given a week, in which to form a new surface, the rinks in the skating part will be just as good as the other rinks.

The bonspiel will open next Monday and close the following Saturday night. The first game will be called Monday morning at 10 a. m. and from then play will continue, morning, afternoon and evening, until all events are completed. The committees in charge of the bonspiel are: Executive and finance, A. H. Smith, H. Hurdon, W. Craig; reception, Alex Macrae, Ron Smith, S. Cleveland; entertainment, G. F. Smith, J. M. Oldham, W. G. Hall, J. C. Tresise; transportation, H. Hurdon; ice committee, W. Craig, Joseph Catlin, Ron Smith; manager of bonspiel, H. H. Blackwood.

The events are as follows:

First event—Duluth Curling club trophy—Four rink prizes, divided into four units each, open to all rinks affiliating with regularly organized curling associations, either in the United States or Canada. To be competed for annually.

Second event—St. Paul Jobbers' trophy—Four rink prizes divided into four units each, open to all rinks affiliating with regularly organized curling associations, either in the United States or Canada. To be competed for annually.

Third event—Minneapolis Curling club prize—Four rink prizes divided into four units each, open to all rinks affiliating with regularly organized curling associations in the United States or Canada. To be competed for annually. Special prize—Four Tam O'Shanters for the rink beaten by the largest score in the bonspiel.

Fourth event—Canadian Soo trophy—Four rink prizes, divided into four units each, open to all rinks affiliating with regularly organized curling associations in the United States or Canada. To be competed for annually.

Fifth event—Duluth Merchants' prizes—Four rink prizes, divided into four units each, the play to be restricted by only allowing such rinks to enter as shall have been defeated in the first draws (including preliminaries in at least two of the first, second and third events).

Sixth event—International trophy—Solid silver cup, to be held one year by winners, and four gold lapel buttons. Second prize of silver lapel buttons. All Canadian rinks entered to play against an equal number of American rinks, and winners in first stage shall play down for the prizes. Twelve ends to be played in each stage. If won by Americans, all American rinks to play down for prizes.

Championship or grand average—Four solid gold diamond set cuff buttons. Championship to be based on actual number of games won (not including forfeits) in the four open competitions, the first, second, third and fourth events.

The general rules are about the same as those which governed the other bonspiels of the association. The local curlers, with a view to entertaining the visitors, are arranging for a ski exhibition on one of the days of the bonspiel. A hockey game will also probably be played, and other entertainment features will be provided.

Will Play Hockey.

The Northern Hardware hockey team and the Columbias of Superior will meet tonight on the open rink at Thirty-fourth avenue west in a game for the championship of the Head of the Lakes. It will undoubtedly be the best exhibition of hockey for the year in Duluth, and a good crowd is expected. The ice is in fine condition, and the players on their mettle.

EXPLOSION OF NATURAL GAS WRECKS A HOTEL.

Joplin, Mo., Jan. 13.—An explosion of natural gas in the basement of the big Olivia apartment hotel here yesterday killed Marvin Reynolds, aged 20, night clerk, seriously injured several other persons and caused $8,000 damages to property.

A suite of five rooms, occupied by John E. Stevens, a wealthy mine owner, and his wife, was completely wrecked and both occupants were severly injured. Mrs. Stevens was rescued from a burning pile of wreckage, severly cut and bruised. Her hair was burned from her head. She is in a precarious condition and will die. O. F. Bendallo, owner of the hotel, J. C. Barrand, Marry Bishop, guests, suffered burns in their efforts to resue Mrs. Stevens.

TUNNEL COMPLETED

New York, Jan. 13.—After three years of continuous work, day and night, the Pennsylvania railroad's tunnel, under Manhattan, has been completed. The final blast was fired at 5 p. m. Saturday, sixty feet under Sixth avenue and Thirty-second street. It cleared the last obstacle to the completion of the tunnel. Much work remains in the tunnels under the East river, in the Long Island City yard approaches, and in the Jersey approach to the Hudson leads.

OVERCOAT

If you order your Overcoat here you get **quality**, both **inside** and **out** a garment that will wear and become you while you wear it.

TALK

is cheap, but we "make good" our talk, for we absolutely guarantee every garment made here. Remember a **Made to Order** at the price of a **ready made.**

MORRISON—Tailor

8 LAKE AVENUE SOUTH.

EXCITEMENT AT BERLIN

Monster Demonstration of Socialists Occurs at the Capital.

Berlin, Jan. 13.—The determination of the Socialists to secure direct universal suffrage, combined with their indignation against Von Buelow's curt declaration refusing their demand, gave rise yesterday to an unusual scene and a monster popular demonstration, accompanied by disorders in the streets of the Prusian capital in which 40,000 organized Socialists participated with 30,000 sympathizers from time to time actively joined in the demonstrations. One of the most remarkable features of the uprising was the number of women who participated, and they appeared even more earnest in their activities than the men. The authorities took the sternest measures to prevent disorders and the strictest precautions to protect the assembly and any other public buildings and Prince Von Buelow's residence against the outburst of fury. Groups in the streets were dispersed in the most vigorous manner, and collisions between processions of manifestatnts and the police resulted in the injury of a considerable number of the demonstrators, but so far as is known no fatalities occurred in this city. The police refrained from making arrests, except in cases of extreme violence.

The movement extends through Prussia, where the Socialists are exceptionally numerous. Reports received from other cities, however, do not indicate that the demonstrations here were accompanied by violence.

BATTLESHIP FLEET REACHES RIO JANEIRO.

Rio Janeiro, Jan. 13.—The American fleet of sixteen battleships entered the port of Rio de Janeiro at 3 o'clock yesterday afternoon, after a passage from Port of Spain, Trinidad, more than 8,000 miles, unmarred by serious accident, replete with interesting incidents, and ending with a royal welcome from the thousands that had gathered to greet the visitors.

LA GRIPPE

SOME INTERESTING INFORMATION REGARDING THE DISEASE

WHAT IS THE GRIP? WHAT IS ITS EFFECT?

These questions are best answered by several eminent medical men in published interviews. The most important points emphasized by the famous doctors are these:

Grip is highly infectious.

Grip stimulates other diseases.

Grip has an extraordinary effect on the mental functions.

Grip picks out the weak points in a person's constitution.

The victims of the grip are adults who perish from pneumonia or bronchitis and the aged who sink from heart exhaustion.

Children while prone to the disease, enjoy comparative immunity from its complications and dangers.

Grip shows a decided tendency to relapses, a feature to which the indirect faculty of the disease is in a great measure due.

Alcoholic stimulants are not only unnecessary but positively harmful.

An attack of the grip seems to render the individual more liable to contract the disease from future exposure.

The attack comes on with lightninglike speed. A person in apparently perfect health is suddenly overcome by a feeling of discomfort. He feels chilly or shakes with the rigor worthy of an ague. His head aches. There are pains in his eyeballs and other symptoms characteristic of the disease soon follow.

CAN GRIP BE PREVENTED?

Sir William Broadbent, an eminent English physician, relates his experience in preventing the disease as follows: "From the first invasion of influenza (grip) I have found that the best remedy was quinine. I have had opportunities of obtaining extraordinary evidence of its protective power. In a large public school near London, the girls and the mistresses took their morning dose of quinine, but the servants were forgotten. The result was that scarcely a girl or mistress suffered, while the servants were all down with influenza (grip)". As a preventive, take two grains of the bi-sulphate of quinine after breakfast each day.

GREAT PHYSICAL AND MENTAL AGONY

"Before we can sympathize with others, we must have suffered ourselves." No one can realize the suffering attendant upon an attack of the grip, unless he has had the actual experience. There is probably no disease that causes so much physical and mental agony, or which so successfully defies medical aid. All danger from the grip, however, may be avoided by the prompt use of Chamberlain's Cough Remedy. Among the tens of thousands who have used this remedy, not one case has ever been reported that has resulted in pneumonia or that has not recovered.

THREAT OF GRIP AND ITS DANGERS

"The increased mortality of the last three weeks from lung affections following attacks of grip, emphasizes more than ever the necessity for nursing an initiatory cold.

The Herald, always anxious concerning the public health, has repeatedly called attention to the dangers of undue exposure during inclement weather, and now reiterates the injunction with still more earnestness in view of present conditions.

Most of the fatal cases of pneumonia at this time of the year are due to the lack of timely treatment of what appears to be a simple attack of bronchial catarrh. The taking of the stitch in time is at the bottom of all questions of prevention of other more serious ones lying in wait for solution.

It is well to take into account in such connection that February and March are generally considered the most fatal months for pneumonia, especially when influenza is prevailing even in mild epidemic form.

Thus far we have escaped a visitation of a virulent form of the latter malady, but there is abundance of time and opportunity for the development of a severe epidemic, with the usual aftermath of alarming mortality.

The effective treatment of an ordinary 'cold is a matter of a day or two against a possible subsequent sickness for weeks.

The indications of a severe attack of influenza are headache, chilliness, general muscular pains, fever, sore throat, cough and systematic lassitude. When these show themselves no time is to be lost and the patient should give up work at once and promptly place himself under proper medical care."—New York Herald.

Bad Attack of the Grip

COMPLETELY KNOCKED OUT

"Some weeks ago during the severe winter weather both my wife and myself contracted severe colds which speedily developed into the worst kind of the grip with all its miserable symptoms," says Mr. J. S. Egleston of Maple Landing, Iowa. "Knees and joints aching, muscles sore, head stopped up, eyes and nose running, with alternate spells of chills and fever. We began using Chamberlain's Cough Remedy, aiding the same with a double dose of Chamberlain's Stomach and Liver Tablets, and by its liberal use soon completely knocked out the grip."

DON'TS

WHEN YOU HAVE THE GRIP

Don't kiss the children.
Don't delay going to bed.
Don't attempt to walk the attack down.
Don't take a cold or even a hot bath.
Don't use any alcoholic stimulants.
Don't eat a heavy meal.
Don't associate with the family.
Don't forget to take Chamberlain's Cough Remedy.
Don't let your bowels become constipated.
Don't leave your bed until the worst is over.
Do this and the grip is shorn of nearly all of its terrors.

CHAMBERLAIN'S COUGH REMEDY

This well known remedy has been on the market for one-third of a century. Starting from a small beginning it has grown in favor and popularity until the demand for it often requires shipments in carload lots. It is now on sale at almost every drug store and most country cross road stores in the United States. There is no question as to its merits; in fact, the enormous sale on it has been brought about to a large extent by the personal recommendations of people who have been cured by it. When you use a remedy for a cough or cold and find it far superior to any other that you have ever tried, it is natural that you should tell your friends of your good fortune. It has become the mothers' favorite for coughs, colds and croup, as they found that it can always be depended upon and that it contains no opium or other harmful drugs. During these years in which we have been making, selling and using this preparation we have never known of a single case of a cold resulting in pneumonia when Chamberlain's Cough Remedy was used, which leads us to believe that it is a certain, preventive of that disease. The fact that it can be depended upon in every case has crowned it with the success it enjoys.

DANGERS FROM GRIP

An attack of grip seldom results fatally, but it is the indirect cause of many deaths. If it does not result in pneumonia, which is frequently the case, it leaves its victim with a cough which lingers on long after every other symptom of the disease has vanished. The system is thus left in a weakened condition and is susceptible to almost every other disease. The grip can be greatly lessened in its severity if Chamberlain's Cough Remedy is used, and any tendency toward pneumonia is promptly checked. There is no medicine which has met with greater success in the treatment of this disease. It cures the cough and leaves the system in a natural and healthy condition.

Stubborn Attack of Grip

Cured By Chamberlain's Cough Remedy.

Colonel Cornelius P. Cole, a well known and much respected citizen of Appanoose county, Iowa, now past seventy years of age, who came to Iowa with his wife over fifty years ago, says, "Myself and wife were both soundly cured of severe and stubborn attacks of grip last winter by using Chamberlain's Cough Remedy. It is a wonderful remedy and we never wish to be without it." The greatest danger of the grip is of it resulting in pneumonia. We have never known this to occur in any case when Chamberlain's Cough Remedy was used, and this is certainly a remarkable record, as many millions of bottles have been sold and used since the first epidemic of grip occurred.

HOW TO CURE THE GRIP

Rest, warmth and quiet are the three sovereign remedies for this disease, and the best preventives of its secondary complications. Go to bed and remain in bed until well on the way toward recovery. Two or three days in bed when you first contract the disease is better than two or three weeks later on. Also take a double dose of Chamberlain's Cough Remedy to begin with and then the regular dose every hour. If it should nauseate, discontinue it until the nausea subsides and then take it in smaller doses or less frequently. Before going to bed take two of Chamberlain's Stomach and Liver Tablets and bathe the feet in water as warm as can be comfortably borne. If the attack is a severe one take suphate of quinine in doses of two grains each, every four hours, for a few days. It will help up the vitality and enable the system to withstand the attack.

Severe Attack of Grip

Cured By One Bottle of Chamberlain's Cough Remedy.

"When I had an attack of the grip last winter (the second one) I actually cured myself with one bottle of Chamberlain's Cough Remedy," says Frank W. Perry, Editor of the Enterprise, Shortsville, N. Y. "This is the honest truth. I at times kept from coughing myself to pieces by taking a teaspoonful of this remedy, and when the coughing spell would come on at night I would take a dose and it seemed that in the briefest interval the cough would pass off and I would go to sleep perfectly free from cough and its accompanying pains. To say that the remedy acted as a most agreeable surprise is putting it very mildly. I had no idea that it would or could knock out the grip, simply because I had never tried it for such a purpose, but it did, and it seemed with the second attack of coughing the remedy caused it to not only be of less duration, but the pains were far less severe, and I had not used the contents of one bottle before Mr. Grip had bid me adieu."

GRIP CURED AS IF BY MAGIC

"In the winter of 1898 and 1899 I was taken down with a severe attack of what is called the grip," says F. L. Hewett, a prominent druggist of Winfield, Ill. "The only medicine I used was two bottles of Chamberlain's Cough Remedy. It broke up the cold and stopped the coughing like magic, and I have never since been troubled with grip." Chamberlain's Cough Remedy can always be depended upon to break up a severe cold and ward off any threatened attack of pneumonia. It is pleasant to take, too, which makes it the most desirable and one of the most popular preparations in use for these ailments.

A WELL FOUNDED RUMOR

Have you heard the rumor current,
That there is a cure for grip?
One that's harmless, sure and pleasant
Why then suffer from the grip?
Chamberlain's! yes, that's the name,
A remedy of world-wide fame;
Druggists all will say the same,
That 'twill surely cure the grip.

MANUFACTURES IN COMMERCE

Of United States—Exports Aggregated $750,000,000 in Last Year.

Washington, Jan. 13.—Exports of manufactures from the United States aggregated more than $750,000,000 in value in the calendar year 1907. Eleven months' figures supplied by the bureau of statistics of the department of commerce and labor show exports of manufactures aggregating over $700,000,000, a monthly average during those eleven months of $64,000,000, thus justifying the statement that the December figures, not yet available, will bring the total for the year above the $750,000,000 line.

This means that the exports of manufactures have averaged more than $2,000,000 a day during the entire year, including every day in the calendar year. It was only beginning with the year 1899 that the exports of manufactures reached as much as $1,000,000 per day, basing the statement upon the average of the year, while prior to 1899 they had never reached as much as $500,000 a day. On only three occasions during the past year did the value of manufactures exported fall below $60,000,000 for a single month. In the month of June they exceeded $70,000,000, or as much for that single month as those of the entire year 1870 and considerably more than in any twelve months' period prior to that year. The value of manufactures exported in 1907 will approximate $770,000,000 against $311,000,000 in 1897, $149,000,000 in 1887, $144,000,000 in 1877, $59,000,000 in 1867, and $41,000,000 in 1857, the figures of these earlier periods being those of fiscal years.

Thus it may be said in a word, that the manufactures exported in 1907 averaged more than $2,000,000 a day, against less than $1,000,000 a day in 1897, and that the value of these exports in the single month of June was more than in the entire year of 1870. The share which manufactures which form of the total exports in the eleven months of 1907 for which statistics are available is 41.7 per cent, which slightly exceeds the share which manufactures formed of the exports in any earlier year.

Manufactures imported in 1907 aggregated about $650,000,000 against approximately $770,000,000 value of manufactures exported, thus indicating that the exportation of manufactures now exceeds the importation of manufactures by about $120,000,000 per annum. Prior to the fiscal year 1897 manufactures imported always exceeded in value those exported.

HAS BAD FALL.

C. A. Ruprecht Fall Over Cliff While in Pursuit of Wolf.

C. A. Ruprecht nearly lost his life on a wolf-hunting trip up the north shore, from which he returned Saturday night. J. E. Keon accompanied him. The former fell from a rock a distance of forty feet, but by some strange chance no bones were broken, and the man escaped with nothing more serious than numerous cuts and bruises.

The hunters saw many wolf signs, but did not succed in downing many of the animals. The morning they started for home a wolf was seen a short distance from camp. Mr. Ruprecht fired at it, and thought he hit the animal, which darted into the woods. The man followed the tracks through the brush, and suddenly slipped on a rock at the top of a small precipice and went tumbling to the bottom. His fall was broken by trees and brush, and Mr. Ruprecht is of the opinion that only this fact saved him from serious injury.

It Does the Business.

Mr. E. E. Chamberlain, of Clinton, Maine, says of Bucklen's Arnica Salve: "It does the business; I have used it for piles and it cured them. Used it for chapped hands and it cured them. Applied it to an old sore and it healed it without leaving a scar behind." 25c at all drug stores.

CROOKSTON POSTOFFICE HAD PROSPEROUS YEAR.

Crookston, Minn., Jan. 13.—(Special to The Herald.)—The report of Postmaster Elias Steenerson show the receipts of the Crookston postoffice to have been $20,489.65 for the past year, a gain over the previous year. The gain would have been much greater this year but for the fact that collections were so much better that hundreds of letters, which would otherwise have been written, were not necessary in order to make collections.

GOOD BLOOD

NATURE'S PROTECTION AGAINST DISEASE

The preservation of health and prevention against disease is almost entirely dependent upon pure, healthy blood; every organ, tissue, nerve and sinew of the body draws on this vital fluid for nourishment and strength. Poisons, humors and germs from various sources often get into the blood, and then this great life-stream becomes a source of infection and disease, instead of a nourishing, health-sustaining fluid. Heredity is likewise an important factor, regulating the quality of the blood. Some persons are born with tainted blood from diseased ancestry, and Scrofula in one of its numerous forms is sure to crop out some time in life. Not only poisons in the blood are responsible for disease, but when the circulation is run down and becomes poor and weak in quality, then we see the effect in a general bad condition of health, such as weakness, sallow complexions, boils, and various skin eruptions. All blood troubles require a tonic and blood purifier, and none other equals S. S. S. It goes down to the very foundation of the trouble, and removes every particle of the poison or impurity from the blood. And not only does S. S. S. antidote the poisons, humors and germs, but it possesses health-giving, tonic properties, which build up and strengthen weak, impoverished blood, and fortifies the system against disease. S. S. S. permanently cures Rheumatism, Catarrh, Sores and Ulcers, Scrofula, Eczema, Tetter, and all other skin diseases and disorders. Book on the blood and any medical advice free.

NEWS OF THE NORTHWEST

TAKES SHOT AT ROBBERS

Nervy La Salle Citizen Foils Attempt to Rob Bank.

Fires on Gang With Trusty Rifle Scaring Burglars Away.

Madella, Minn., Jan. 13.—(Special to The Herald.)—The attempt to rob the bank at La Salle was made early yesterday morning, and resulted in the breaking of the doors to the building and the destruction by some explosive of the outer door of the vault.

Mrs. C. J. Sanderson, living about a quarter of a mile distant, who enanced to be up, heard the explosion and saw the flash. Mr. Sanderson seized his rifle and rushed at once to the bank, where he exchanged several shots with the robbers. Other citizens were aroused, and it became so warm about the bank that the robbers fled.

NO POLICE NEEDED

In Park Rapids to Enforce the Lid Regulations.

Park Rapids, Minn., Jan. 13.—(Special to The Herald.)—Park Rapids is probably the only "wet" town of its size in Minnesota, where the services of a day policeman are superfluous and where the mayor has the active support of the saloonkeepers in enforcing the Minnesota laws to a letter. Park Rapids has eight saloons. They are closed every night at 11 o'clock and remain closed untill 5 o'clock next morning. Also from Saturday night at 11 o'clock until Monday morning until 5 o'clock not a drop is sold, and bootleggers in Park Rapids are despised worse than horse thieves in Montana—and that's the limit. Mayor Winship has placed each proprietor of the respective saloons upon their honor as men to enforce the laws, and he says this far his confidence has not been misplaced in Park Rapids. Each party has consented that a breach means loss of license.

ACCUSED ADMITS FOLLY.

Minneapolis Girl, Charged With Crime, Doing Repentance Stunt.

Minneapolis, Minn., Jan. 13.—(Special to The Herald.)—Begging for mercy that she may lead a better life, Miss Augusta Fahrm, in a letter to Olaf O. Searle, secretary of A. E. Johnson Steamship company in Minneapolis, confesses to having appropriated funds of that concern while acting as its cashier.

Friday Miss Fahrm was arraigned in the Hennepin county court on the charge of grand larceny, and pleading not guilty, was taken to the county jail, where she now occupies a cell.

Miss Fahrm's confession is in her own handwriting and in her own way, without suggestion from any one. Accompanying the exposure of her methods is a two-page itemized account of what she did with the money, the idea being conveyed that the funds were used largely in behalf of her friends and relatives, some $461 being spent for Christmas presents alone.

After her arrest, the officers, with members of the A. E. Johnson firm, went through her belongings. She was dressed so plainly that it was thought ready cash might be found stowed away in her room.

In one of her grips a loaded revolver and a bottle of whisky were found, but no money. Letters were also found from a woman friend in Omaha with whom she appears to have been intimate. In one of these letters, written Dec. 20, the writer refers to the "impending trouble" with the Johnson firm and says:

"I wish that I might help you out of your present difficulty, but I don't see how I can."

BELTRAMI COUNTY BOARD CONCLUDES BUSY SESSION.

Bemidji, Minn., Jan. 13.—(Special to The Herald.)—The board of county commissioners has completed its work for the present and adjourned until Tuesday, Jan. 28.

Doran Bros. were given the contract for the plubing work to be done in the courthouse, jail and poor farm.

W. A. Otterstad of Turtle River was appointed appraiser of state lands.

John A. Thoren of Solway was appointed supervisor of assessments for the coming year.

The appointment of assessors for unorganized territory was as follows: First, Second and Third districts, John Gilstad; Fourth district, Arthur Brose; Fifth district, C. G. Stenmon; Sixth district, Ole Clementson; Seventh district, B. A. Arneson.

The petition for a new school district, presented by citizens of Redby, was approved.

The committee appointed to look after the burial of deceased soldiers (under section 1843 of the revised statutes) was as follows: First commissioner's district, J. M. Barrett, Bemidji; Second district, W. D. Hayden, Blackduck; Third district, Iver Myhre, Spaulding; Fourth district, C. O. Glidden, Bemidji; Fifth district, Benjamin Carter, Tenstrike.

The plat of the Chautauqua Beach association was accepted.

REMARRIED AFTER YEARS.

Minneapolis, Minn., Jana. 13.—After having been separated for forty years, the man living in New York, where he has succeeded in business, while the woman taught music in Chicago, Benjamin Ackley and Ellen A. Millwood have for the second time became man and wife, both ceremonies being performed in Minneapolis.

FATAL ICE YACHTING.

Freshman Run Down at Madison While Skating and Killed.

Madison, Wis., Jan. 13.—Frank Pardy of Chicago, a freshman student in the college of agriculture of the Wisconsin university, was run down by an ice yacht while skating on Lake Mendota Saturday afternoon, and so badly injured that he died the same night. The yacht was being operated by three members of the Chi Psi fraternity, and also contained three young women, who were enjoying a spin on the ice.

HANS STRATE BURIED.

Clay County Mourns Loss of Old-Time County Treasurer.

Moorhead, Minn., Jan. 13.—(Special to The Herald.)—Moorhead and Clay counties paid tribute, Saturday afternoon, to Hans P. Strate, for twenty years county treasurer, who died Thursday after a long illness.

Hans P. Strate was born in Norway, Aug. 4, 1847, and was consequently in his 61st year. He came to America early in life, and resided for some time in Dakota county, this state, and later in Grant county. He came to Moorhead late in the seventies, and was employed for a number of years as wheat buyer at Elevator A for the Moorhead roller mills, which position he held until his appointment as county treasurer, Feb. 27, 1885.

He is survived by a widow and five children: Thomas H. Strate, who is in the employ of the Chicago, Milwaukee & St. Paul railway as a civil engineer; Miss Clara Strate, a student at the University of Minnesota; Miss Bessie Strate of the Moorhead National bank; Miss Ida Strate and Edwin Strate.

PULPWOOD SUPPLY.

Authority Says That British Columbia Must Furnish It.

Appleton, Wis., Jan. 13.—Georfe F. Hardy of New York, recognized as one of the leading consulting pulpwood experts in this country, declares that British Columbia is destined to be the home of the world's greatest pulpwood industry. While here Mr. Hardy said:

"The pulpwood industry, when developed in British Columbia, will practically have no limitations, owing to the vast abundance of raw material like fir and spruce. The natural market for this product will be Australia, and the Orient."

FAKE GRAIN DEAL

Lands Principals in Jail on Embezzlement Charge.

Fessden, N. D., Jan. 13.—Daniel Bich and G. J. Miller have been arrested at Harvey and lodged in the county jail here, charged with embezzlement of $51.45 from the Gackle Grain company, at Harvey. Daniel Bich is a farmer, near Harvey, and G. J. Miller is grain buyer for the Gackle Grain company, and it is charged that Miller gave a grain check for $51.45 to Bich when no grain was in fact delivered by Bich.

PANSIES ARE BLOOMING IN BLEAK NORTH DAKOTA.

Bismarck, N. D., Jan. 13.—That pansies are blooming in North Dakota this winter is shown by the following, received by a local paper from J. W. Foley, Sr., of Medabra, N. D.: I enclose some pansies and a sprig of carnation, pulled in the garden of J. H. Ferris, Jan. 5, 1908. The beds were covered with excelsior last fall, and the flowers have bloomed under that.

Do You Enjoy Your Meals?

One of the Most Important Questions to Consider in the Search for Happiness and Health.

The burning question to you is, "Are you getting out of life all the pleasure and the health you are entitled to?" If not, why not?

No matter whether every organ and member of your body is in a sound state of health and strength, if your stomach is in any way disordered, you are not going to be "yourself." You are going to be a worried, out-of-sorts, nervous or sullen individual, whose actions will reflect your condition inside, and people will naturally avoid you.

The world wants to smile and be cheerful, and unless you are cheerful and smile, at least, occasionally, you will have few friends, fewer opportunities, no success, and you will go down in defeat—defeated by dyspepsia and a bad stomach.

A good and thorough digestion has a quick, wonderful reaction upon the brain. You must have noticed it many times for the brain and stomach are as intimately connected as a needle and its thread, one can hardly be used to advantage without the other. If your stomach is slow and lazy in digesting your food, it will produce at once a slow, lazy and cloudy influence upon your brain. Mark it! If your stomach has absolutely quit work, and fermentation is poisoning your vitals as a result, surely your brain is going to be sluggish and correspondingly depressed. No one need tell you that.

But why continue to suffer all the miseries and torments that a disordered stomach brings you?

If your stomach can not digest your food, what will? Where's the relief? Where's the cure?

Stuart's Dyspepsia Tablets are the relief and the cure. Why? Because, as all stomach troubles arise from indigestion, and because one ingredient of Stuart's Dyspepsia Tablets is able to **thoroughly and completely digest 3,000 grains** of any kind of food, doesn't it stand to reason that these little Dyspepsia Tablets are going to digest all the food and whatever food you put into your stomach? Science nowadays can digest food without having to use the stomach for it. And Stuart's Dyspepsia Tablets are the result of this scientific discovery. They digest and digest thoroughly and well, anything and everything you eeat.

So, if your stomach refuses to work or can't work, and you suffer from eructations, bloat, brash, fermentation, irritation, indigestion, or dyspepsia of whatever form, just take one or two of Stuart's Dyspepsia Tablets, and see the difference. It doesn't cost you much to prove it. Then you can eat all you want, what you want, whenever you want, if you use these tablets, and you can look the whole world in the face with a beaming eye and you will have a cheerful spirit, a pleasant face, a vigorous body and a clear mind and memory and everything will look and taste delicious to you. That's life.

Get a package of Stuart's Dyspepsia Tablets at any drug store on earth for 50c a package.

Send us your name and address today and we will at once send you by mail a sample package free. Address F. A. Stuart Co., 150 Stuart Bldg., Marshall, Mich.

DEMAND MONEY OR MORE WORK

Two Discharged Miners Give Mining Captain Big Scare.

Crystal Falls, Mich., Jan. 13.—(Special to The Herald.)—A couple of miners, employed at the Mansfield mine near here, have been sent to the county jail for thirty days for threatening the life of Capt. Rowe, who told them there would be no employment until spring, and that the miners would not be paid until one of the officials returned from town with the money. The men became furious and demanded immediate payment, which was out of the question.

The two men held the captain in the office, threatening to do all kinds of things to him and calling him names until the sheriff arrived to protect him.

He had telephoned to this city for the sheriff, and Mr. Senisba went at once to the scene.

A warrant was sworn out later for the two fellows and they were arraigned and pleaded guilty. They went to jail for thirty days each.

LIQUOR FIGHT WARM.

Detective, Gathering Evidence, Twice Arrested at Iron River.

Iron River, Wis., Jan. 13.—(Special to The Herald.)—The campaign against the liquor element here is getting red-hot. Detective Stratton, who did such good work in Ashland in ferreting out violators of the law, has run up against severa snags since he opened his campaign here. He has already been arrested twice and will have a hearing Wednesday. It is charged that Stratton, in getting evidence against the saloons for selling liquor to minors, bough liquor at saloons, and gave it to the minors.

The fight is becoming vicious. Two boys, sons of an Iron River widow, procured evidence, and were arrested, one on the charge of vagrancy, the other for grand larceny.

Five saloonkeepers have been arrested, and three of them, John A. McDonald, Fred Strege and Charles Matin, were taken to Bayfield for examination.

OLD CONDUCTER DEAD.

Punched Tickets on Milwaukee Road for Thirty Years.

Milwaukee, Wis., Jan. 13.—George W. Kendall, one of the oldest conductors in point of service of the Chicago, Milwaukee & St. Paul railway, died Saturday afternoon at 1:30 o'clock of heart disease in Chicago.

Mr. Kendall was born at Newark, Ohio, Nov. 5, 1851, and was therefore in his fifty-seventh year. His first employment was with the Pittsburg, Fort Wayne & Chicago railroad. About thirty years ago he became connected with the Chicago, Milwaukee & St. Paul company, with which he remained until the end. He was passenger conductor for many years on the run from Chicago to Marion, Iowa, and through this long period of service became well known to thousands of travelers.

SUPERIOR MAN SEEKING

To Locate Son Who Left Home Six Years Ago.

Minot, N. D., Jan. 13.—(Special to The Herald.)—Tottering under the weight of his 67 years, and almost ready to pass away, Mr. McHale of Superior, Wis., has written the Minot police to locate his son, who worked in the Magic City last fall.

The elder McHale is in poor health, and his only wish is to see his son before he dies. He says that his son left home six years ago, and that he has not seen him since. He has learned that the boy worked with a railroad crew in Minot last summer and fall, and he has asked the Minot police to help locate the boy.

Young McHale is well known by the Minot police, but they do not know his present whereabouts. The last that was seen of him was last fall, and it is not known whether he went East or West. It is said that the boy changed his name to McCloud.

BROTHER AND SISTER

About to Wed, Learn of Relationship at Altar.

Englewood, S. D., Jan. 13.—Albert Jackson and Miss Minnie Burton discovered, just before the day set for their marriage, that they were brother and sister, and they have gone to Northern Minnesota to make a search for their mother, whom they have not seen since they were little children.

Jackson is a miner, and has been in the Black Hills for several years. Miss Burton came to the Hills six or seven months ago as a book agent. The young woman sold the young miner some books. Jackson fell in love with her, contrived to see her frequently, and a few weeks ago asked her to marry him. She consented, and they set a day for the nuptials.

CHILD FATALLY BURNED.

Gladstone, Mich., Jan 13.—Her dress catching fire while playing near a kitchen stove, Anna, a 4-year-old daughter of Omer Nadon of South Gladstone, met a horrible death. She had been left alone in the house, and when her parents returned the child was discovered, the clothing having been completely burned.

RABBIT HUNTING POPULAR.

Crookston, Minn., Jan. 13.—(Special to The Herald.)—Rabbit hunting is the chief sport indulged in by the local sportsmen. Register of Deeds Stair, Secretary Moore of the Twenty-Five Thousand Commercial club and John Kimball hunted at Maple Lake Sunday and bagged thirty-seven jack rabbits.

FIRE AT WARROAD.

Warroad, Minn., Jan. 13.—(Special to The Herald.)—Fire that broke out about 2 a.m. in the saloon building occupied by Syver Johnson adjoining Dr. Parker's drug store entirely destroyed the former and badly damaged the drug store, part of its roof collapsing and the goods being injured more or less. The loss approximates $3,000. This is the third time Dr. Parker has sustained a fire loss here.

HER ROMANCE ENDED.

Milwaukee, Wis., Jan. 13.—(Special to The Herald.)—The romance of Mrs. Myrah Stewart, wife of C. L. Stewart, retired Minneapolis lumberman, has come to a sudden end. The young bartender, "Hal" White, with whom she eloped about three weeks ago, has apparently deserted her and gone back to Minneapolis. Mr. Stewart has also given up his efforts at reconcillation, and is now in Chicago. Deserted by the husband she wronged, as well as her faithless lover, Mrs. Stewart now finds herself penniless in the city. She said, Thursday night, that she was trying to raise money from her relatives in the West.

WISCONSIN IN BRIEF

Chippewa Falls—The Wisconsin Central has sent notices to its operators stating that after Feb. 1 their salaries would be cut about 5 per cent. As a result of the proposed cut, a number of operators along the line have resigned, and more are planning to do so. It is said that the cut is the result of the new eight-hour law which went into effect Jan. 1.

Eau Claire—Miss Jessie Daggett, accused of attempting to poison the family of J. Joern of Fall Creek, has been committed to the Industrial school for girls at Milwaukee. Miss Daggett is 19 years of age and was adopted by Mr. and Mrs. Joern five years ago. At a recent examination she was found by the doctors to be of sound mind.

Oshkosh—Charles Christinsen, familiarly known as "Charley, the little shoemaker," was found dead in bed. Death was due to apoplexy of the heart. The deceased was 62 years of age, and was an uncle of N. P. Carlistiansen, an attorney of this city.

Madison—By a decision of the railroad commission the rates on pulpwood have been adjusted and substantially reduced throughout the state.

Milwaukee—An interesting romance that began between teacher and pupil in the west division high school, and culminated in marriage the day before Christmas in Stockton, Kan., was revealed when Miss Lillian Snorthill, for eight years instructor in mathematics in the high school, announced to C. G. Pearse and C. E. McLenegan her marriage to C. A. Mann, a former pupil of hers.

Madison—Mellville Pierce of Baraboo, a brakeman on the Northwestern road, fell from a boxcar and fractured his skull. He was removed to the city hospital where he died.

MINNESOTA IN BRIEF

Little Falls—Word has been received of the death of Simon Blair, Sr., formerly of this city, which occurred recently at Sand Point, Idaho, where he has been the past three years residing with a daughter.

Stillwater—Warden Wolfer of the state prison has announced that the prices for binder twine at the prison for the ensuing season have been made up, and that they will be 1 cent per pound less than in 1907 for all grades.

Spring Valley—David McCutcheon, aged 84 years, died here after a short illness. Interment was at Beldenville, his old home. Mr. McCutcheon was a veteran of the Civil war and a member of the local post G. A. R. He had lived here several years and was very active for one of his years.

Red Lake Falls—Theodore Zaiser, aged 23 years, son of William Zazer of this city, died at his home. His death was caused by a cold, which he took about a year ago and which developed into consumption.

Minneapolis—A. D. Thompson has been elected president of the Minneapolis Retail Druggists' association at its annual meeting. F. W. Klenert was elected vice president; E. L. Storms, secretary; J. W. Thompson, treasurer; Thomas Voegeli, Stewart Gamble, Charles H. Kuhn, John F. Danek and A. J. Kline were elected to the executive committee.

St. Cloud — Fortunate Zaczkowski, aged 80 years, died at his home in Torah Friday, after a short illness, due to old age and complications. He leaves five children, Mrs. Gerhard Drunsing of this city, Mrs. Weal of Torah, Mrs. Anton Roschhiusl, also of that village, Fortunate of Canada, and James and Thomas of Roscoe.

Hawley—The total amount of mail matter handled by the rural carriers on the four routes going out of Hawley for the last quarter of 1907 was as follows: Total pieces handled, 60,133; money order applications, 196; value of postage on mail collected, $165.37; stamps sold on routes, $147.17; number of registered letters, 50.

Deer River—The strike situation at the M. & R. shops remains about the same as when the machinists walked out a month ago. The works are running with a short crew and only one striker has returned to work.

St. Cloud—In the will of John Koetter, late of the village of Richmond, just filed for probate, the largest bequest is one of $800 which goes to St. John's Abbey for the use of the Order of St. Benedict.

DAKOTAS IN BRIEF

Bismarck, N. D. — The committee of the bar association, which has been taking testimony here in the Miller-Patterson disbarment cases, preferred by E. G. Patterson has completed its work. In due time their conclusions will be submitted to the supreme court for such action as their investigation may warrant.

Fargo, N. D.—Pugilist Frank Dunn of Minneapolis was knocked out in one round in police court, when Judge Ryan gave him a thirty day jail sentence on a charge of vagrancy.

Miller, S. D.—George Hardwick, who disappeared last July, returned here to see a baby daughter that had come into the family and immediately after he was arrested on a charge of illegally selling liquor.

Minot, N. D.—M. O. Hall of Mohall has received a commission from the American Society of Equity, which has headquarters in Indianapolis to assist in the passage of the federal grain inspection bill, which is pending before the national congress.

Fargo, N. D.—Frank Lynch of Casselton has purchased the old Cass county courthouse for $1,725. His bid was the highest tendered the board of county commissioners for the courthouse annex. He must tear the building down and take it away by June 20, 1908.

Bismarck, N. D.—F. T. Bennett of La Moure filed articles of incorporation for the La Moure State bank, capital $15,000. This will make the third bank in La Moure and indicates that the town is on a substantial basis.

Grand Forks, N. D.—Hans Lothoft, a young man, 24 years old, who was brought here from Adams a few days ago to be treated for heart trouble, passed away at a local hospital.

Larimore, N. D.—The annual meeting of the Larimore Commercial club has been held and the following officers elected: President, Anthony Stonehouse; vice president, N. N. Fuller; treasurer, G. L. Sande; secretary, Thomas H. Pugh.

Grand Forks, N. D.—An action to secure a divorce has been instituted in the district court by Ida L. Crist against George Crist. It is set forth that the couple were married on June 6, 1904, and in December of 1906 the defendant deserted the plaintiff and has contributed nothing towards her support since that time.

Dogden—P. W. Walker, who has long been ailing with lung trouble, died, Jan. 5. Mr. Walker was well known throughout the state as a business man. At the time of his death he was conducting a restaurant, fruit and confectionery store.

Fargo, N. D. — The Republican state central committee will meet in Fargo, Jan. 22. This has been decided by Chairman Hanna, after a consultation with other members of the committee.

PENINSULA BRIEFS

Calumet—Mrs. George Harmer suffered painful injuries when she slipped and fell the length of the cellar stairs at her home. She was picked up by members of the family and a doctor called. He advised her removal to the hospital where it was discovered that she had broken several ribs and was injured internally to a slight extent.

Houghton — On Saturday, Jan. 25, the former Michigan people residing in Southern California will hold their third annual picnic at East Lake park, Los Angeles.

Hancock—Preparations are now being made by the members of Hancock lodge, Knights of Pythias for a grand masquerade ball to be given at Germania hall, on Friday evening, Feb. 7.

Lake Linden—Old Hickory camp, 2460, Modern Woodmen, has installed the following officers: Venerable consul, Thomas Dunstan; worthy advisor, Thomas Wareham; excellent banker, William Nicholls; clerk, Jacob Grabenstein; escort, Alex. McDonald; watchman, Edward Vine; sentry, William J. Bennetts, physician, Dr. P. D. Bourland; manager, three years, F. E. Wivian.

Calumet — Township Treasurer George Martin is charging 4 per cent extra on all tax collections. This will net the township something like $1,600 on outstanding taxes, as there is about $40,000 still due.

Hancock—The grocery business which has been conducted by F. F. Wagner & Co., in the former Hendrickson store, for the past year or so, has been disposed of to Anton Weddell, formerly a member of the firm of Wendell & Schulte.

Houghton—Sheriff August Beck has returned from Duluth, having in custody John Heikala, who is wanted as a witness in the case against Gertie Forrester, charged with assault with intent to kill, and who is to be tried at the February term of circuit court.

Crystal Falls—Owing to the taxes being paid early and very completely this year, the city council now feels that the worst is passed and orders will be issued for all claims and they will be paid in cash at the treasurer's office.

Ontonagon—Dan Ross, aged 31, son of Mr. and Mrs. Duncan Ross of Ontonagon, died, at Miles City, Mont., Wednesday. Mr. Ross was in the employ of the Chicago, Milwaukee & St. Paul railroad and was a member of the bridge construction crew on the Pacific coast extension.

Houghton—A meeting of the creditors of the South Range pharmacy, which recently went into bankruptcy, was held Saturday. L. N. Legris has been appointed trustee.

Hancock—The first announcement of a candidacy for nomination for office at the coming spring election in Hancock, is made by Walfrid S. Hendrickson, a bookkeepere at the Superior bank, who seeks the nomination for city treasurer on the Republican ticket.

NATIONAL BISCUIT COMPANY

SENT TO JAIL IN BUNCHES OF 40

Many Saloonkeepers Arrested at Spokane for Violatiog Law.

Spokane, Wash., Jan. 13.—Saloonkeepers of Spokane are serving 20-day sentences to the city jail in bunches of forty.

When they decided to keep open on Sunday, in violation of the order of Mayor C. Herbert Moore, 147 of them were promptly arrested. Then they refused to pay the fines of $25 each and demanded imprisonment. No jail would hold the crowd, so it was decided to put them behind the bars in relays of forty or the reabouts.

Moore was elected on a so-called rational reform ticket. He wanted the saloons closed at midnight and on Sundays. He also wanted boxes removed and certain other objectionable featur s done away with. Half the saloons are run on the free-and-easy plan, many of them having so-called concerts and some vaudeville performances. Meo.e put these highly remunerative places out of business by ordering every one to stop the music and the moving pictures, threatening that every man or woman in the place would be arrested if women were allowed there. Several of the big variety houses were ordered closed.

This order was startling enough to the saloon men, but when Moore told his police to order every immoral woman out of town by Feb. 1 on pain of arrest, and sent official notices to the landlords of buildings used for immoral purpos s that he would have them arrested under the state law, which imposes a heavy penalty for leasing premises for such purposes, absolute consternation reigned.

PRAYER RESTORES SIGHT.

Parents of Lad Believe Woman "Healer" Performed a Miracle.

Cleveland, Jan. 13.—Max Scholzhosen, 10 years old, blind for six months, can see again, thanks, his parents say, to Mrs. Sarah Fanner, noted for her cures by prayer. Max was hit by a baseball last summer and a film formed over his eyes. His parents took him to specialists but they held out no hope.

PROSECUTION BRIEFLY DESCRIBES KILLING OF WHITE BY HARRY K. THAW

(Continued from Page 1.)

have to deal with, has been defined by the legislature of New York. That law is wiser than we are. We must obey it, and live under the law. That law says that the only person excused from criminal responsibility is he who is so deficient of reason that he does not know the nature or quality of his act, and that the act is wrong.

With this definition, and this definition alone of the law I ask you to judge of all the acts of this defendant the night of June 25, 1906, which is the night on which he killed Stanford White."

Conversation Was Sane.

Mr. Garvan dwelt at length upon the conversation Thaw had on the roof garden with James Clinch Smith, a brother-in-law of Stanford White. The conversation, he declared, was entirely sane, and was indulged in just a few moments before the killing. Eight subjects, from Wall streeet to ocean travels, were discussed in a normal way.

Mrs. Evelyn Thaw listened to the prosecutor's discussion of the actual details of the tragedy with tense, drawn features. Josiah Thaw, the brother, and Mrs. George L. Carnegie, a sister, completed the usual family group. Thaw sat with eyes fixed upon the prosecutor, his head resting upon his right hand.

After describing the killing of White, Mr. Garvan declared, in conclusion, that judged by any court, the prosecution believed the homicide could be explained as a "premeditated, deliberate and cowardly murder."

First Witness Called.

W. H. Volkening, a draughtsman, was the first witness called. His diagram of the scene of the killing, which the prosecution used throughout the first trial, was introduced in evidence today. A year ago this witness was not cross-examined. Today Mr. Littleton of the defense questioned him at length as to all the physical details of Madison Square garden at the time of the drawing.

No motion to exclude witnesses was made today, and young Mrs. Thaw and the other members of the defendant's family listened to the evidence for the first time.

TARKINGTON'S DOUBLE,

Not Author Who Kicked Fat Policeman, Say Friends.

Chicago, Jan. 13.—Inasmuch as Booth Tarkington is to deliver an address here at the annual banquet of the Indiana society, friends of the author hastened to assure the public that Tarkington has a "double." It is said this double is responsible for all the eccentricities attributed to the author, who, it is asserted, is as gentle as a dove. It was the "double," they say, who, in Indianapolis, Dec. 26 last, kicked several thick and wide policemen in the stomach and otherwise disported himself.

TWO DEATHS IN TWO DAYS.

Mrs. George Martin's Mother and Sister Are Called.

To receive the news of her mother's death one day and the death of her sister the next was the experience of Mrs. George Martin of 415 East First street.

Mrs. Martin's mother, Mrs. Swenson, died Friday at her home in Lindstrom, Minn., after a siege of the grip. On the following day Mrs. Martin's sister, Miss passed away. Death was caused by pneumonia.

Besides Mrs. Martin, Mrs. Swenson is survived by three sons, J. A. Swenson of St. Paul, Oscar Swenson of Port Arthur and Henry Swenson of Lindstrom, Minn.

ON THE IRON RANGES

EIGHT MEN HAVE VERY CLOSE CALL

They Narrowly Escape Being Caught by a Sliding Bank.

Eveleth, Minn., Jan. 13.—(Special to The Herald.)—Eight men, including John Gord, one of the oldest engineers at the local mines, narrowly escaped death Saturday, when a side of a bank caved down where they were working.

The section that fell down had been blasted, but did not fall, as it was frozen. The shovel moved ahead and scooped up as much as was found free. The shovel was placed about twelve feet from the bank, when, without warning, the ground that was supposed to be frozen fell forward, covering the space between the shovel and the bank to a height of twenty feet with sand, incidentally burying the engine with dirt and hurling the engineer over to the free side of the steam shovel. The track crew escaped without injury.

The shovel was freed by the placing of a force of men at work digging it out.

Joe Marjeinia, the young Austrian who was killed in the No. 2 shaft of the Spruce Saturday, had been in this country only three months. The funeral took place this morning.

MAY OUTSIDERS THERE.

Wedding of Brainerd Man and Eveleth Woman, Largely Attended.

Eveleth, Minn., Jan. 13.—(Special to The Herald.)—The wedding of Edward Levant and Miss Anna Buchman, last night, in Vail hall, was largely attended. The ceremony was performed by Rev. Mr. Weiner of Eveleth. Many guests were present from out of town. Among the out of town guests were: Hibbing, Mr. and Mrs. Greenblatt, Mitchel, M. and N. Niles, Blond Helstein, Karmage and Lindeke; from Virginia were Mr. and Mrs. Helstein, J., M. and H. Shandling, S. and B. Millvatz, Mesberg and Sarsosky; Chisholm, Mr. and Mrs. Lewis, Shapiro, Rubloff and Messrs. Buchman and Tuhlberg; Duluth, Miss Dick, A. and R. Mark, Mendelson, Buchman and Mr. and Mrs. R. Buchman, Kernes, Lavick, Robins, Cashmere, Kantor and Katzke; Superior, Mr. and Mrs. Bloom, Katron, Salosberg and Miss Ida and Nellie Mark; St. Paul, Mr. and Mrs. Marcus; Aurora, Mr. Weyenberg and Weiner; Brainerd, Mr. and Mrs. Solosky; Chicago, Miss Robbins.

After a short wedding trip the newly wedded couple will make their home in Brainerd, Minn., where the groom is engaged in business. The bridal party was composed of Misses Pauline Rablnovitz and Anna Mark, Harry Levant and Harry Levant and Harry Buchman.

CARS TAKING BATH.

Caboose and Two Boxcars Plunge Into Lake at Two Harbors.

Two Harbors, Minn., Jan. 13.—(Special to The Herald.)—A wreck in the Iron Range yards here Saturday resulted in the demolishing of one caboose and a box car and badly damaging two other box cars.

The train, in charge of Conductor Morrison and Engineer Truman, was about to leave for Duluth, and stopped at the Duluth siding and uncoupled the engine to pick up additional cars. The brakes on the cars were not set strong enough to hold them, and starting, they ran down the hill past the passenger station and towards the city power station on the lake shore, where they ran over the coal trestle, the caboose and two cars going into the lake and two cars remaining on the trestle. The caboose was completely submerged except the roof and cupola. No one was injured.

LOGGERS WANT SNOW.

Substantial Fall of Beautiful Would Help Operations.

Two Harbors, Minn., Jan. 13.—(Special to The Herald.)—The Iron Range road has put on an additional log train to do the switching at the various logging spurs between here and Allen Junction. The crew will stop at Allen Junction nights.

The loggers and tie and pulp contractors are greatly in need of a few inches of snow for their roads and to make hauling better. There will be a decided increase in the shipment of forest products as soon as some is had.

The Iron Range has put on another work train in the gravel service between Britton pit and this place, which will increase the gravel shipments for raising the ore yards to 150 carloads or more per day.

J. W. Pickering is relieving Thomas Holden at the Duluth siding for a few weeks.

DEATH FOLLOWS WEDDING.

Eveleth, Minn., Jan. 133. — (Special to The Herald.)—Mrs. Sweatman, who was recently married, died, early yesterday morning. She had been ill about two weeks.

"COFFEE" COUGH.

Woman Feared Consumption, But Specialist Said Cough Came From Coffee.

Quite a relief to learn your cough, which everyone said was simply consumption, is really caused by reflex irritation from coffee drinking.

You can quit the coffee, but consumption is hard to "shake."

A Wisconsin woman coughed so hard and so much she and her friends thought sure she had consumption, but a specialist in lung diseases found her lungs were all right—the cough came from coffee. She writes:

"I had a very bad cough that refused to yield to medicine. After five months doctoring with my home doctor and fearing consumption, I consulted a specialist who examined my lungs thoroughly. He said they were all right, but I must quit drinking coffee as that was probably the cause of it. I was very nervous, also.

"He suggested I drink Postum, and gave me no medicine,only said he would write to my home doctor. I came home glad in one way and sorry in another. I thought it was hard to give up coffee, for I did not care for breakfast without it.

"The doctor's letter micarried and I got no medicine for two weeks, but I left off coffee and began to use Postum, and my cough began to get better. I steadily improved in other ways—digestion got all right and I was not nervous.

"A short time ago I went to a picnic where they served only coffee and I drank some, but found my great love for it was entirely gone.

"I would have been glad to have had a cup of Postum, for the coffee I drank seemed like I had swallowed a stone, besides I did not sleep that night. Nothing would induce me to go back to coffee again." Name given by Postum company, Battle Creek, Mich. Get the famous little booklet, "The Road to Wellville," in packages. "There's a Reason."

HIBBING SKI CLUB

Has Commenced Work on New Slide for Season.

Hibbing, Minn., Jan. 13.—(Special to The Herald.)—The Hibbing Ski club will have a new slide for this season, and work upon it has already been commenced.

The trestle will be built from the top of the big "dump' at the Mahoning mine and the course will run to the valley just west of town. The new trestle will be less than a mile from town, which will be a big convenience when compared with the trestle at Maple mountain nearly five miles away.

The new ground gives all of the advantages desired for ski running, and it is thought the track will be faster than at the mountain, where speed was lost in the run between the bottom of the trestle and the jump.

Martin Imbertson, president of the local carb, with other members, took the matter of the new location up with W. C. Agnew, superintendent of the Mahoning mine, and he readily agreed to give the club anything it wanted, and will help the good work along in other ways.

SECOND CHARITY BALL

To be Given by Hibbing Elks, Promises to be Success.

Hibbing, Min., Jan. 13.—(Special to The Herald.)—The second annual charity ball to be given in Close's hall Friday evening, Jan. 31, by the Hibbing lodge of Elks, promises to be even more successful than the initial event a year ago.

La Brosse's orchestra of Duluth will furnish the music. The following committees are working for the success of the ball:

Arrangements—George O'Sullivan, William Brown and E. L. La Chance.

Floor—D. D. McEachin, A. W. O'Hearn, G. N. Butchart, T. J. Godfrey, Archie McFayden, Dr. P. R. Thomas, William Ulrich.

Reception—J. A. Healy, L. E. Hamilton, H. G. Burnham, L. G. Sicard, William Wearne, H. R. Welrick, O. A. Groff and V. L. Power.

HAS SMALL DEBT.

Swedish Lutheran Church of Eveleth in Good Shape.

Eveleth, Minn., an. 13.—(Special to The Herald.)—The treasurer's report of the Swedish Lutheran church, presented at the annual meeting, shows that there remains a debt of only $200 to be paid on the church. Ephraim Johnson was elected secretary for the ensuing year. Ed Smith and E. Johnson were elected trustees for three years and Ferdinand Klang trustee for two years. Mr. Swan Anderson was chosen deacon to serve for three years. E. John and C. R. Johnson were chosen to represent the church at the meeting of the Superior district that is to be held in Virginia Jan. 20-22. Frank Carlson was elected delegate to the annual meeting of the Minnesota conference, to be held in the Twin Cities in February. Charles Anderson was chosen as alternate.

BURGLARS ARE BUSY.

Calumet Infested, Robbery of Hardware Store Being Latest.

Calumet, Mich., Jan. 13.—(Special to The Herald.)—A series of daring robberies are taking place in Calumet. The latest one was reported Saturday, when the proprietors of the Larium Hardware company opened for business. The burglar entered the store through a plate-glass window in the rear door of the building. It was a daring affair, as the flats above the store are all occupied with tenants. No cash was secured, but a great deal of fine cutlery, skates, shotguns and shells are missing.

TO WED WINONA GIRL.

Eveleth, Minn., Jan. 13.—(Special to The Herald.)—H. C. Barton of the Eveleth pharmacy left for Winona, Minn., yesterday. Where, Jan. 16, he will marry Miss Lou Weston of that place. Following the marriage the couple will take a trip to Chicago.

COLERAINE COMMERCIAL CLUB IS ORGANIZED.

Coleraine, Minn., Jan. 13.—(Special to The Herald.)—At a special meeting of the business men and other citizens of Coleraine in the high school auditorium, the organization of a commercial club was perfected. A constitution and by-laws were adopted. Permanent officers were elected by ballot as follows: President, George E. O'Conner; vice president, N. D. Kean; secretary, A. S. McCullough; treasurer, G. S. Bolton; directors, D. D. Greer, J. A. Vandyke, N. D. Kean, E. G. Engels, A. Peterson.

PURSUED BY WOLVES.

Three Two Harbors Boys Seek Refuge in Tree.

Two Harbors, Minn., Jan. 13—(Special to The Herald.)—Four wolves were brought to the county auditor's office here Saturday, and $80 bounty paid on them. The animals seem to be coming closer to town in search of things to eat, the lack of snow preventing them getting deer. Saturday morning three young boys who went out to snare rabbits near the dumpling grounds, a mile from town, were chased and treed by three wolves. Their cries frightened the wolves away and the boys hurried to town. A man shortly afterwards went to the place and killed one of the wolves and could have secured another of them but had no more cartridges.

HEIKELA IS FINED.

Man Arrested on Mesaba Range, Faces Calumet Court.

Calumet, Mich., Jan. 13.—(Special to The Herald.)—An echo of the Forrester shooting case at Lake View, has just arisen through the arrest of John Heikela on the Mesaba range by Sheriff August Beck. Heikela was brought before Justice Jackola Saturday afternoon and pleaded guilty to the charge of carrying concealed weapons. He was fined $25 and costs, which he paid.

Sheriff Beck has been looking for Heikela ever since the shooting affray at the Lake View resort when Gertrude Forrester is alleged to have shot a young Finn through the mouth. Heikela was supposed to be the principal witness in the case, and his disappearance from Calumet following the arrest of the woman Forrester, hampered the prosecution somewhat. His arrest, subsequent fine and the knowledge that he can be secured at any time now to testify at the coming term of circuit court may simplify matters.

COUNTY MUST PAY BACK PORTIONS OF LICENSES.

Grand Rapids, Minn., Jan. 13.—(Special to The Herald.)—By a ruling made by Judge McClenehan in the mandamus proceedings instituted by Henry Finley, a Big Fork saloonkeeper, the county board of Itasca must repay to him a portion of the county license previously withheld. As a result of the ruling, the board will have to take similar action in several other pending cases of the same sort.

Finley had secured his liquor license from the county before the village of Big Fork was organized, and as the village was incorporated before his county license expired, he demanded the return of that part covered by the unexpired time. In the meantime he had taken out and paid for a village license. The board repaid only a part, holding back enough to cover the time elapsing between the organization of the village and the actual taking out of the village license. By Judge McClenehan's order the board must return to Finley that portion of the license money withheld.

HIS FAMILY STARVING.

Finlander Leaves Them in Dire Straits at Aurora.

Aurora, Minn., Jan. 13.—(Special to The Herald.)—There is intense indignation here against Jack Pehkenon, a Finlander, who appears to have deliberately deserted his family leaving them to starve. Marshal Knutl found Mrs. Pehkonen in her home over Matt Copula's in a half-starved condition, with no food nor money in the house. She has a six-teen-month-old baby. Mr. Knutl supplied the mother and child with food and heat and will look after their wants until the husband is found. He is supposed to be at the Adriatic.

HOLMES SUCCEEDS GLEASON.

New Chief of Ely Department and Other Officers Elected.

Ely, Minn., Jan. 13.—(Special to The Herald.)—The fire department and the Relief association have held their annual meetings.

The reports from the secretary and treasurer of each organization were satisfactory and duly accepted. Both are in a splendid financial condition.

The fire departments elected officers as follows: Chief, George Holmes; first assistant chief, Louis Elsenach; second assistant chief, Richard Hodge; treasurer, L. J. White; captain Cart No. 1, Frank Wagner; captain Cart No. 2, Charles Quigley.

For the Relief association Louis Elsenach was elected president, George Holmes vice president and Lewis White treasurer. The election of a secretary for each department was deferred until the next meeting.

The former chief, M. E. Gleason, and Secretary Harry A. Chinn could not be induced to hold office again. Both have been of great service to the department and their resignations are regretted by the fire department and citizens in general.

MANY ARE VACCINATED.

Eveleth, Minn., Jan. 13. — (Special to The Herald.)—As a result of the determined action on the part of the school board to prevent a smallpox epidemic, several hundred children were vaccinated during the past week. The vaccination was not forced, but was largely induced by the offer of free vaccination. At the Mare hospital 405 were vaccinated during the week, while the Fabiola did similar service for 250.

The same action has been taken regarding the Gilbert dwellers.

RANGES IN BRIEF

Biwabik—President F. S. Colvin of the Commercial club has named F. B. Myers and N. B. Shank as delegates to the Federation of Commercial clubs to meet in St. Paul this week.

Hibbing—The Odd Fellows and the Rebekahs of this city will hold a joint installation at Rogalsky's hall Monday evening. The routine work will be followed by a supper and dance.

McKinley—The entire night shift at the Elba mine has been laid off, and not told when it will be again put on. This threw some seventy-five men out of work. The McKinley mine continues to operate night and day on stripping.

Virginia—Three Republic Iron & Steel properties here hauve closed down within the past week, the Franklin, Victoria and the Union, the last named closing down Saturday. No particular reason is given, but it is rumored that it is the intention of the company to strip the Union and Franklin.

Biwabik—An agitation has been started to induce the Iron Range road to put on a business men's train, leaving Duluth at 5:30 or thereabouts and making but few stops between Duluth and Eveleth.

Two Harbors—While endeavoring to start up a gasoline engine which he was repairing at Basset station, thirty-one miles north of here, William Porger got the sleeve of his coat caught in a wheel of the engine, throwing him violently to the floor and around the wheel to the ceiling. He was carried clear around the shafting and badly bruised.

Aurora—The Modern Woodmen of America, Aurora lodge, No. 10125, will give a masquerade ball on Friday night, Jan. 24, in the Knights of Pythias hall.

Hibbing—The Merchants' & Miners' bank has elected the following officers: J. K. Killorin, president; Gust Carlson, vice president; A. W. O'Hearn, cashier; A. L. Egge, assistant cashier; board of directors, J. F. Killorin, R. M. Sellwood, Gust Carlson, Martin Hughes, P. H. Nelson, Thomas York, G. A. Wellner and W. C. Barrett.

DIRECTORY OF AMUSEMENTS

LYCEUM—Maude Fealy in "The Stronger Sex."
METROPOLITAN—Burlesque.

Green Room Gossip.

Maude Fealy in "The Stronger Sex" will be the attraction at the Lyceum tonight. Miss Fealy, the young Denver actress, was seen here last year in "The Illusions of Beatrice." Her play this year is one of the London successes.

* * *

"The Rollicking Girl," a big musical comedy, will be seen at the Lyceum Friday and Saturday of this week.

* * *

Mrs. Patrick Campbell will be a Lyceum booking during the latter part of January.

* * *

The Sam Devere company has begun a merry week at the Metropolitan, presenting two burlesques, "Mr. Planet of Mars" and "The Belle of Boston," and a lengthy vaudeville bill. In the company are Phil Ott, Nettie Nelson, Al Stedman, Simonds and Warde, Ali, Hunter and Ali, Jacobs and West and the La Velle sisters. There will be a bargain matinee tomorrow.

NEWBERRY WITHDRAWS.

Detroit, Mich., Jan. 13.—It was announced here this morning through Congressman Denby that Assistant Secretary of the Navy Truman Newberry has withdrawn his candidacy for delegate-at-large to the Republican national convention.

HALL TO BE TRIED.

Portland, Or., Jan. 13.—John H. Hall, a former United States attorney; Winlock W. Stelwer and others, charged with illegally financing government land in Wheeler county, Or., in connection with what is known as the Butte Creek Land, Live Stock & Lumber company, will be tried today before Judge W. H. Hunt, in the federal court.

With great care, by a new process,

Dr. Price's Delicious Flavoring Extracts

produces flavorings of rare excellence.

RAILROADS

THE REPORT IS DENIED

Rainy Lake Official Says Road Has Not Been Sold.

T. F. Cole Knows Nothing of Purchase of Wisconsin Central.

"I know nothing whatever about it," said Thomas F. Cole, president of the Oliver Mining company, when asked, this morning, in regard to the report of the purchase by the United States Steel corporation of the Wisconsin Central and Duluth, Rainy Lake & Winnipeg railroads. He declined to discuss the question further.

D. O. Anderson, secretary of the Duluth, Rainey Lake & Winnipeg, emphatically denied that there was any truth to the report that the Rainy Lake line had been or was going to be purchased by the Steel corporation.

"I cannot understand where all these reports are originating," said Mr. Anderson. "They have us sold to a different line every week. There must be somebody behind them that is trying to maliciously make trouble for us."

The report stated that the Steel corporation had practically closed negotiations for the purchase of the Wisconsin Central, for the purpose of transporting ore from Duluth to its new plant at Gary, Ind., and also that it had an option for the purchase of the Rainy Lake road, from Virginia to the border, giving it a direct line from Chicago to Winnipeg via Duluth.

Business Getting Better.

H. M. Pearce, freight traffic manager of the Omaha road, is in the city today. All the outside freight men who have been in Duluth within the last few days seem to be of the opinion that railroad business will pick up rapidly, and think that traffic will be quite heavy from now on, although they hardly expect it will reach the normal inside of several weeks. A decided improvement in the situation has been noted since the first of the month.

Steamship Line Possible.

It is believed that the Chicago, Milwaukee & St. Paul railroad will be compelled to establish a steamship line to connect the Pacific coast terminus of the road with the Orient, in order to successfully compete with the Hill trunk lines and steamships between Seattle and Japan and China.

ANTI-CHRIST WILL RULE

Pastor Says "The Lawless One" May Already be Living.

Predicts an Early Close to the Present Dispensation.

"Scriptural signs that this present dispensation is drawing to a close" was the subject preached on, last night, by Rev. Dr. Campbell Coyle pastor of the First Presbyterian church, to a crowded church, in which practically every pew was filled. This was his seventh sermon on the "Second Coming of Christ."

Dr. Coyle spoke, in brief, as follows:

"Now learn the parable of the fig tree; when his branch is yet tender, and putteth forth leaves, ye know that summer is nigh; so likewise ye, when ye shall see all these things, know that it is near, even at the doors.

"Here is our authority for approximating as to our Lord's second coming. The whole concensus of our Master's teaching is against setting a time for Him to return to this earth, but on the other hand, the whole concensus of His teaching is that it is not only our privilege, but our duty, to approximate the time of His return. Setting a date for the advent to take place is one thing; approximating as to that date on the authority of Jesus Christ Himself is a very different thing. The former is to be deprecated as speaking where God has not spoken, thus declaring oneself wiser than God; the latter is the duty of the disciples of Jesus, for why would He give them any signs at all if it were not His will for them to consider those signs and arrive at definite conclusions? Men and women, upon the authority of these words of Jesus which I have taken for my text, I say two things with very calm and thoughtful emphasis: First, I do not know just the exact time of my Lord's return, but, second, I know as truly as I know that I am standing here that His return is very near, that it is even at the doors. And I know this because, without a single exception, all those signs which are spoken of in the Bible as heralds of the second advent are appearing on the horizon at the present time. If only one of the signs of the second advent of Christ were in view or if only two were on the horizon, there would be no urgent evidence that any great crisis were drawing on. But there is a convergence of testimony, and when all the Bible signs of the end of the age are coming into view at the same time, it seems to me we must conclude that this dispensation is hastening to its close.

Spirit of Expectancy.

"Before I give the strict interpretation of the Bible itself I want to say a word in regard to the spirit of expectancy that is abroad today and is being manifect by all true disciples in all branches of the church of Christ. Since Christ left this world, never has this spirit of expectancy been so deep, widespread and sane as it is just now. And that, too, on the part of people eminent, not only for their piety, but also for their scholarship. Our most trustworthy testimony on his matter must come from those who are in close communion with God, and not from the learned especially. Eight years ago in a conversation I had with D. L. Moody on our Lord's second coming, he remarked to me with very calm emphasis that he thought, perhaps, he might live to see that sublime event. As he was then 62 years of age, you can judge for yourselves how near he thought the coming to be. At a great missionary conference in China ten years ago, J. Hudson Taylor, founder of the China Inland mission, prophesied that in a short time there would break out in Western Europe one of the greatest spiritual revivals since the Pentacost. The world all knows about the Welsh revival. He said furthermore, that before the fires of this revival had died away, one of the bloodiest wars of history would take place between Russia and some very much smaller nation. We are now familiar with the Japanese-Russian war. Then he added, that the next great event of history would be the second advent of Christ.

"As to the Scriptures; in the twenty-fourth chapter of Mathew, we find a most remarkable conversation recorded between Jesus and His disciples, their question and his answer concerning His second coming, part of which is my text," and here Dr. Coyle read from this part of the Bible.

"Let me call your attention," continued Dr. Coyle, "to the world-wide witness of the Gospel. This Gospel of the Kingdom said Jesus, shall be preached as a witness unto all nations, and then shall the end come. The gospel has been preached to all nations then, according to Jesus Christ. He authorizes us to believe that when His gospel has been proclaimed unto all nations as a witness, we are to regard it as a sign that His second coming is at hand. Christ's followers might easily have imagined that He would return in their time, because they had no adequate idea of what the world might mean.

Lawlessness.

"Another marked sign of our time is the rapidly growing spirit of lawlessness so very manifest on every hand. You will do well to read the Second chapter of Paul's second letter to the Thessolonians, the Eight verse, 'And then shall the Wicked be revealed whom the Lord shall consume with the spirit of His mouth, and shall destroy with the brightness of His coming.' Note these things: First, Wicked is printed in the Bible with capital W, showing that something out of the ordinary is meant; second, it is printed entirely in enlarged letters in the original Greek and means literally the Lawless One. That is to say, when Jesus returns to this earth it will be at a time of deep and widespread lawlessness, so much so that it will be headed up in the Lawless One, or anti-Christ, who is to be slain by the sudden brightness of the Lord's appearing. There are two stages in the coming of Christ. First, a coming down in the sky and a pausing yonder, while all the dead saints are raised and the living ones are changed and caught up to meet Him in the air, there to remain as bridegroom and bride for a period of seven years as the Bible teaches. Then during the seven years will take place what is known as the Tribulation, the worst the world has ever known, because the true church and the Holy Spirit have withdrawn and left the world to sin and the unhindered devil. Then when lawlessness is at its very height, and incarnated in the living person, called anti-Christ, who may be alive now for aught we know, Jesus will descend from the skies with His bride, and His feet will rest in that day upon the Mount of Olives, and suddenly the Bridegroom will become the warrior and the bride His army and anti-Christ will be completely overwhelmed and destroyed."

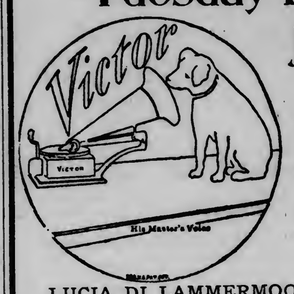
MATCH MONOPOLY CANCELLED.

Caracas, Venezuela, Jan. 13, via Port of Spain, Trinidad.—An executive decree issued today annuls the existing match monopoly, and puts an end to the concession of the National Match company. This company was capitalized at $1,000,000, and the shares were held mostly in England.

Complete Housefurnishers BAYHA & CO Second Ave. W. and First St.

Victor Concert

Tuesday Afternoon, January 14, at 3 o'Clock.



We have selected the best VICTOR RECORDS from the three operas — CARMEN, IL TROVATORE and LUCIA DI LAMMERMOOR—the three great operas that have just been given at the Lyceum theater, and so much enjoyed.

We cordially invite you all to attend. Come and hear what a magnificent reproducer of Grand Opera the VICTOR really is.

Every home should contain an instrument of this kind and when purchasing you surely want the best. Once heard—there can be no doubt in your mind as to the Victor being the best.

MR. MAGNER WILL SPEAK

Will Appear Before the Meeting of State Commercial Club.

Believed Proposed Federation Will Result in Many Benefits.

President W. E. Magner of the Duluth Commercial club will deliver the response to the address of welcome at the meeting of commercial clubs of the state at Minneapolis, next Thursday, called for the purpose of organizing a federation of commercial clubs in Minnesota. Governor Johnson will be among the speakers, and it is expected that James J. Hill also will make an address. Secretary H. V. Eva of the local club and other members will attend with Mr. Magner.

Sixty-eight clubs already have responded to the invitation to have delegates at the meeting, and it is expected that about 200 men will be in attendance. The federation is considered an assured thing, and it probably will begin active operations at once to boom Minnesota, expending most of its energies at first in advertising the farming lands of the state, and bringing the attention of the outside world to the agricultural and other advantages of the state.

All the leading towns of Minnesota are showing a good deal of interest in the federation movement, and it is expected the organization will be of considerable benefit. It is a well-known fact that the advertising of Minnesota's manifold advantages as a place of residence has been sadly neglected, and it is believed a campaign rightly and energetically conducted will mean good results. The federation will give attention to all matters of general interest to the state. It is argued that if all the clubs work as a unit in matters of this kind much more can be accomplished than if each acts independently of the other, as has been the custom in the past.

Nearly all our little ills come through inactive bowels. Those days that you lose because you don't feel right—*Cascarets* will save them all.

In the old days, physic was dreadful—calomel, castor oil, salts or cathartics.

And they were worse than they seemed, for they irritated the stomach and bowels.

They acted much as pepper acts in the nostrils. They flooded the bowels with fluids.

But those fluids were digestive juices. And a waste today means a lack tomorrow.

You secured relief, but you were actually worse off than without it.

It's different with Cascarets.

Their effect is the same as that of laxative foods, or of exercise. They stimulate the bowels to natural action.

No griping, no irritation. They act as a bowel tonic.

The old way, too, was to take large doses of physic. People waited until the bowels were clogged.

The new way is to take one Cascaret when you need it. Carry the box in your pocket or purse.

Ward off the troubles instantly.

The modern plan is to keep at your best. The old way wasted too many good hours.

Cascarets are candy tablets. They are sold by all druggists, but never in bulk. Be sure you get the genuine, with CCC on every tablet. The price is 50c, 25c and

TEN CENTS PER BOX 792

WHEAT HAS A DECLINE

Longs Dump Big Lines Storms Cause Wire Trouble.

Flax is Weak During the Session in Duluth.

Duluth Board of Trade, Jan. 13.—Sleet storms in the East played havoc with telegraph wires last night and today and as a result, wire service on the Duluth board of trade was restricted and it was impossible to secure much of the usual satistical information and gossip.

At the opening, in the absence of cables and other outside news, there was heavy selling of wheat by longs, which continued in a measure throughout the session, the closing prices showing a decline of a point and more from Saturday, in most of the American markets.

The world's shipments, primary receipts and shipments, cable news and the closing prices in the New York market were not received.

Liverpool closed unchanged to ⅜d lower.

The May option closed 1¼c lower in Duluth, 1-⅛c lower in Chicago, 1c off in Minneapolis and ¾c lower in Winnipeg. The July option closed 1-4c lower in Duluth, unchanged in Chicago, ⅞c lower in Minneapolis and ⅝c lower in Winnipeg.

May corn closed ¼c lower in Chicago and ¼d to ⅜d lower in Liverpool. May oats closed ⅛-¼c lower in Chicago.

Car receipts at Duluth were 81 against 23 last year, and at Minneapolis 534 against 416 last year, making a total for the Northwest of 615 against 439 last year.

It was a selling market during the entire session in Duluth. Longs began dumping their holdings at the opening and offerings continued liberal until the close. May wheat opened ⅜c lower at $1.12⅜, advanced to $1.12½, declined to $1.11¾, rallied to $1.11⅞, went off to $1.11½ and closed at that price, a loss of 1¼c from Saturday. July wheat was inactive and closed 1¼c lower than Saturday, at $1.12.

Durum wheat closed ¾c lower and cash spring wheat was selling on a basis of 3c under May for No. 1 northern.

Flax was easy all day and prices slid off until the close. May flax opened ¼c lower at $1.20½, went off to $1.18, rallied to $1.18⅝, declined to $1.18¼ and closed at that price, a loss of 2⅝c from Saturday. July flax was inactive and closed at $1.18¾, a loss of 2⅝c from Saturday.

Oats closed 1c lower and other coarse grains unchanged.

Following were the closing prices:

Wheat—No. 1 hard, on track, $1.10; to arrive, No. 1 northern, $1.08½; No. 2 northern, $1.06; on track, No. 1 northern, $1.08½; No. 2 northern, $1.06; May, $1.11½; uly, $1.12; No. 1 northern, in store, $1.07½; No. 2 northern, in store, $1.05; durum, on track, No. 1, 90c; No. 2, 88c; May durum, 93c; uly durum, 94c. Flax, to arrive, $1.14½; flax, on track, $1.14½; May, $1.18¼; uly, $1.19⅝.

Oats, to arrive, 48c; oats, on track, 48c; rye, 74-78c; barley, 65-95c.

Cars inspected: Wheat, 81, last year, 23; oats, 12; barley, 1; flax, 28, last year, 13.

Receipts: Wheat, 60,100; oats, 40,712; rye, 1,323; barley, 5,081; flax, 21,695.

Shipments: Wheat, 705; oats, 4,518; barley, 6,453; rye, 839; flax, 15,521.

THE CHICAGO MARKET.

Wheat Opens Firm, But Weakens on Selling by Commission Houses.

Chicago, Jan. 13.—Wheat today opened firm on strong cables, but weakened on selling by commission houses. May opened unchanged to ⅛@¼c higher at $1.05⅝ to $1.05¾@⅞, sold at $1.05⅞@1.06 and then declined to $1.04⅞. May corn opened ⅛@¼c lower at 59⅝@¾c and sold at 60⅛c. Local receipts were 720 cars, with 7 of contract grade.

May oats opened a shade lower at 53¾c and sold at 53½c.

May provisions opened quiet. Pork was off 2½c to 7½c at $13.30 to $13.35. Lard was 5c lower at $8. Ribs 7½c lower at $7.15.

Close: Wheat—May, $1.04½@⅝; July, 98⅝c; September, 95⅝c. Corn—May, 60c, July, 58⅞c; September, 58½c. Oats—May, 51⅞c; May, old, 53⅝c; July, 45¼c; July, old, 46⅞@⅞c; September, 39⅝c. Pork—January, $12.80; May, $13.32½. Lard—January, $7.72½; May, $7.97½. Ribs—January, $6.80; May, $5.12½. Rye—Cash, 84@85c. Barley—Cash, 87c@$1.05. Timothy—March, $4.25. Clover—March, $17.25.

Liverpool Grain.

Liverpool, Jan. 13.—Closing: Wheat—spot firm, No. 3 red, western winter, 7s 11½d; futures steady; March, 8s 11¼d; May, 8s ¾d. Corn—spot steady; prime mixed American new, 5s 6½d; prime mixed American, 1d 7½d; futures quiet; January, 5s 5½d; March, 5s 4⅞d.

Duluth Car Inspection.

Wheat—No. 1 northern, 5; No. 2 northern, 8; No. 3 spring, 5; No. 4 spring, 1; rejected, 1; no grade, 1; winter, 4; Western red, 3; No. 1 durum, 27; No. 2 durum, 20; No. 3 durum, 4; total of durum, 51; mixed, 2; total of all wheat, 81; last year, 23.

Flax—No. 1 27; no grade, 1; total of flax, 28; last year, 13.

Oats, 12; barley, 1.

Total of all cars, 122. Cars on track today, 186.

Minneapolis Wheat.

Minneapolis, Minn., Jan. 13.—May wheat had a sharp break to $1.10¾ early after opening at $1.11¾@1.12. Later it rallied, but touched $1.10⅝ for low point on another break, finally closing on a recovery to $1.11¼ for May and $1.12⅜ for July. The cash market felt the effect only moderately and was in better condition than the option. No. 1 Northern still held at ½c over May. No. 2 was a little easier at 1½@2c under May.

Minneapolis Flour.

Minneapolis, Jan. 13.—Millers put down the price of patent flour 10 cents a barrel to $5.60@5.70 for firsts and $5.50@5.60 for seconds. Clears were unchanged at $4.30@4.40 for firsts and $3.50@3.60 for seconds.

THE PRODUCE MARKETS.

The general produce market is higher today. Butter is up and grape-fruit and lemons are stronger. The potato market is also firm.

Lower grades of beef are scarce and, as the demand is strong at the present time, the market for that sort of cattle is strong.

The following quotations were furnished by the secretary of the Duluth produce exchange:

BUTTER.

TREED BY A TIGRESS.

Madras Mail: I was patrolling the jungle paths between two of my chowkies, accompanied by my jemadar, and on approaching an exceptionally thick patch we were startled by hearing a tiger roar almost at our feet. I coughed pretty loudly to let him know that we were near, but judging by the growls he was disposed to dispute the right of way.

As we were unarmed swift retreat was the only way to escape the danger. I soon found a tree, up which I "shinned" till some twenty feet from the ground, but on looking round for my jemadar I found he was making frantic efforts to climb one, but slipped to the bottom after each endeavor. So I called him to my perch, and had just hauled him up when a fine tigress emerged from the jungle, followed by two small cubs.

She passed under our tree and sauntered into the thicket, but reappeared a few minutes later, without the cubs, and remained watching us for some time, apparently considering if it was worth while to claw us off our perches. After some embarrassing moments productive of the bluest of funks she disappeared, and my jemadar, who had been dumb while the interview lasted, found his voice and gave tongue in the most agonizing yells to the rest of our party, who were close behind, to come to our assistance.

No one, however, appeared, and it is well they did not, as the tigress would probably have attacked them. After remaining in the tree for an hour or so we descended and saw no more of our unwelcome visitor.

STOCKS ARE IRREGULAR

Prices Moved Vigorously Upward on an Active Demand Early.

Large Offerings Caused Heavy Tone and the Market Declined.

New York, July 13.—Quotations for stocks showed moderate advances over Saturday for the active issues, the hesitating of the loan market restraining influences. Louisville & Nashville rose 3 points, American Locomotive 1½, Norfolk & Western 1⅜, Northern Pacific and Southern Railway preferred 1¼, Baltimore & Ohio, Cleveland and St. Louis and American Smelting 1, and New York Central and American Sugar and Virginia Chemical large fractions.

The market moved vigorously upward on an active demand for a time after the first hour, then reacted again. The demand was varied and practically all of the prominent stocks were quoted a point or more above Saturday's closing.

The large offerings of stocks for sale discouraged attempts to bid up prices, and the traders took the selling side. Prices receded to the neighborhood of Saturday's close, and in cases below. Bonds were irregular, Erie, Soo Railway and Rock Island bonds were under pressure.

The undertone continued heavy but sales were small and there were few important changes from the level of prices.

Quotations furnished by Gay & Sturgis, brokers, 328 West Superior street:

New York Money.

New York, Jan. 13.—Close: Prime mercantile paper, 6¾ to 7½ per cent; sterling exchange soft with actual business in bankers' bills at $4.85.40@4.85.50 for demand, and at $4.81.30@4.81.35 for 60-day bills. Commercial bills, $4.81¼. Bar silver, 56⅝c; Mexican dollars, 44c; government bonds, easy; railroad bonds, irregular.

St. Paul Livestock.

St. Paul, Minn., Jan. 13.—Cattle — Receipts, 400; steady; steers, $3.50@5.75; cows and heifers, $2.25@3.75; calves, $1.50@6; stockers, $2@2.75; feeders, $2.25@3.75. Hogs, receipts, 4.50; 10@15c lower; range, $4@4.15; bulk, $4.05@4.10. Sheep—Receipts, 500; dull and weak; $4.75@6; lambs, $5.25@6.85.

Chicago Livestock.

Chicago, Jan. 13.—Cattle: Receipts, 40,000; market mostly 10c lower; beeves, $3.60@6.35; cows and heifers, $1.30@4.60; Texans, $3.10@3.90; calves, $5.50@8.00; Westerners, $3.70@4.50; stockers and feeders, $2.25@4.15. Hogs: Receipts, about 74,000; market 5c lower; light, $4.00@4.32½; mixed, $4.10@4.35; heavy, $4.05@4.35; rough, $4.05@4.15; pigs, $3.40@5.15; bulk of sales, $4.20@4.30. Sheep: Receipts, about 25,000; market steady to 10c higher; natives, $3.50@5.70; Westerns, $3.50@5.75; yearlings, $5.00@6.00; lambs, $5.50@7.40.

The Cotton Market.

New York, Jan. 13.—The cotton market opened firm at an advance of 9@15 points with March selling above 11c for the first time since early last month. Trading was active with bullish factors including a firm cable and bullish news. There was heavy realizing at the advance and during the middle of the morning prices reacted several points from the top.

If it is absurd to ask you whether you ever receive a telegram and forget to open it; and equally as absurd to ask you whether you read The Herald want ads., why, you'll do!

NO FUN TO PLAYERS.

Baseball as Much Fun as Moving Pianos, Says Clark Griffith.

A question often heard in the fans' buzz of talk at ball games, is this:

"I wonder if those fellows playing the game get any fun out of it, or if they look upon it as a work?"

Plenty of cocksure chaps in stand and bleachers don't even put this proposition in the form of a question. They take it for granted, being crazy over the game themselves, that all players of the national game in the professional ranks must be wild over ball playing and that they'd a little bit rather play ball than eat.

"I s'pose it isn't the snapsky or anything like that," these cocksure ones frame it up, "this thing of copping the coin, and big coin, at that, just for having fun. Work hard, don't they? Just dance around on the nice, sweet smelling grass for an hour and a half or so of afternoons, and the guy with the pay envelope does the rest. Horrible hard on 'em, hey?"

But these offhand ones don't know. The simple fact is that parhaps a majority of the men who have been playing the professional game for as long as ten years become so tired of baseball that particularly at this waning stage of the season they actually dread the hour when they are due to put on their uniforms, says the New York Sun.

In an expansive moment, not long ago, Muggsy McGraw told a group of cronies that he'd never really cared a great deal for the game, even when he was one of thee most successful players in the country.

"The game of ball always took too much out of me, even back in the kid days when I played hooky to bat 'em around on the lots," was his way of putting it. "The game always hashed my nerves and unstrung me so that I wasn't fit to be seen or heard for some time even after a scrub, skinned lot game.

"The trouble with me is that I never could play any old kind of a game without getting all het up over it. When as a tyke I played marbles or shinny I was just as anxious to win, and probably just as Mulliganish and scrappy, as they call it, as I've ever been since in a professional game of ball.

"No game, in fact, was ever any good to me that I couldn't win. Now, that may not be a hit-making thing for a ball player or manager of a ball club to say in these polite milk and watery days when the knockers seem to take it as a crime when a man wants to win, but I'm not conversing for the purpose of making a hit, but merely to state a truth. In managing or playing, the game of ball is only endurable to me when I'm out in front and winning. I don't care a bag of peanuts for the rest of the game. Results for mine, and results don't mean anything else to me than winning from the other crowd.

"That's fun, if anything in connection with the game of ball can be called fun. Getting licked isn't any fun—not for me. As a manager or member of a tail-end club I'd become nutty inside of two months, I honestly believe."

Clark Griffith is another of the managers who look with an expression of sullen surprise when the mere suggestion is made that a ball player can actually get any fun out of the game.

"Fun, eh?" he said to a group down in Atlantic City, one recent Sunday when the Yankees were playing a series with the Athletics in Philadelphia. "Well, it's about the same kind of fun for me as carrying the hod or moving pianos would be, and you can dope that out for yourself.

"I can't figure out where the fans get the idea that it's fun for ball players to mooch out on a hot, sticky, sunsoaked lot every afternoon and sweat and grunt around for a couple of hours at the same old game that most of them have been playing ever since or before they began to shave.

"You can take it from me, if the average man had a date to play five or six games of casino or blind man's buff or prisoner's base or puss in the corner every summer afternoon, out in the open, with thousands of howling critics looking on who think they know more about the game than the players themselves, he'd mighty soon forget all about the funny part of that stuff.

"Playing ball is the hardest work I know anything about, and this doesn't mean, either, that I haven't done a heap of hard work in my life besides playing ball. I'm not speaking now, either, of managing a team—just playing the game.

"Of course the young chaps just nudging into swift company pick a little enjoyment out of the thing at the start off, but I know plenty even of the young ones in the game nowadays who hate the sight of the 'bus that takes 'em to the grounds.

"The sameness of the game of ball is bound to get on a player's nerves sooner or later. Added to this sameness is the chance every player has of making a mistake, and the hoots and jeers of the crowd.

"Playing the game of ball every day, month in and month out, is drudgery and strain enough, but managing a bunch is——!" And the manager of the Highlanders gave utterance to the word that Gen. Sherman employed to express his idea of war.

Other well known players in the big leagues express themselves in very much the same way when the fun question is put to them outright. Cy Young, the veteran Boston American pitcher, is ordinarily one of the most taciturn of men, but he recently expressed himself in pretty round terms about the fun element of baseball, so far as the players are concerned.

"I'd sooner take a pick and trot out in the sun for a couple of hours every afternoon and chop away at asphalt," was the way he expressed it. "I think most of the old time pitchers have the same way of feeling about it, even if they don't bulge to the front and say so.

'A pitcher is liable to have the distaste of the game grow upon him even more than the other players. The best pitcher on earth never knows how he's going to perform when his day to go in and work comes around.

"He may feel all right and work out all right before the game, and yet go in and get slaughtered in the very first inning, and then get dragged out and chased to the bench with the whole mob howling at him. The dread of all this keeps a lot of pitchers awake nights, as their days to go in and work draw along.

"I'd a heap rather work at some corner of the game when I'd be used every day than go through the strain of figuring on whether I would be in shape to make good when my working days swing along.

"But I can't see where the fans get that notion about the 'fun' of it for the player of any corner of the game. Ball playing is toil, and it's more often thankless toil than not. You can put me on record as to that part of it."

Bill Coughlin, the captain of the Detroits, dwelt upon the thanklessness of the ball player's job in some observations he gave utterance to not long ago.

"Most of the work of the player," he said, "is done on the road, in the cities of the opposition, where the fans are naturally ag'in him and disposed to pick on and jeer at him at every stage of the route. There's no exaggerating the effect of this terrible strain.

"Ball players try, of course, to harden themselves against the taunts of the opposition fans, but few of them ever become really used to it, though they're, of course, obliged to gulp it down. There can't be any pleasure in doing anything in which you're liable to be hooted at for the slightest mischance ,and that's the reason why so many seasoned ball players have no more real zest in the game than you could expect a dog catcher to have in his work—for you're to remember that most people who watch the dog catcher at work are ag'in him and on the side of the dog."

George Davis of the Sox, who, according to some authorities, has been playing the game ever since the Black Hawk war, is another of those who frankly admit that while habit is so strong with him that he can't keep out of the harness, the game of ball itself has been a drag upon him for a good many years now.

"It's just treadmill work, when all's told," was Davis' way of putting it. "Same old thing yesterday, today, tomorrow, forever. It's like walking in a circle.

"Why do I keep on playing the game, then? Well, why does a man keep on doing anything? Because, I suppose, most of us are fellows who can do just the one thing and we don't know of any way to get out.

"The queer part of it, though, is that nobody pretends that it's fun to be a shoe clerk, for instance, whereas it appears to be the common notion that the funniest thing on earth that you possibly can do is to play professional ball for a living. What's the answer?"

The veteran of them all, old Jim McGuire, whose success as manager of the Boston Americans is so agreeable to the New York fans, expresses very different views as to the game.

"I sure do enjoy playing ball," he said out of hand. "It may be that I'm childish or simple minded or something, but I'm bound to say I've never got over my early enjoyment in going out on the lot and indulging in a game of ball.

"Nope, the game never got on my nerves a little bit, and, by the way, I can easily remember the time when ball players weren't supposed to have such fine ladyish attachments as nerves, but I guess we won't talk about that part of it.

"Lack of variety? Why, I've never seen two ball games just alike in all the time I've been playing, and I'm not nudging out to the firing line and sayng how many games of ball I have played in, either, but they've been a few. There's always the chance for a new situation in the game of ball as there is in the game of billiards; and even if there weren't there's plenty of fun and exhilaration and sport or whatever you choose to call it in the old game to entertain and amuse me from the beginning of the season to the end of it.

"I enjoy the whole seance, from the warmup stuff before the game to the trek back to the hotel bound 'bus. I like to win, but I never could see the sense of the grouch thing when it's not a win.

"I am only speaking of and for myself—remember that. There are, I know, plenty of players—good players and good fellows, too—who are sick and tired of the game. But I can't enter into their feeling of weariness for the reason that, as I say, I probably can understand it, for I'd just as leave go on playing the game for twelve months in the year.

"This is just the difference between liking your work and not liking it, and it just happens that I'm one of the fellows who do like theirs."

You may know more about real estate hereabouts in half an hour from now—if you spend that time reading the ads.—than anybody else who has not read the latest ads.

Notice of Annual Meeting of Stockholders of Duluth, Rainy Lake & Winnipeg Railway Company.

NOTICE IS HEREBY GIVEN, That the annual meeting of the stockholders of the Duluth, Rainy Lake & Winnipeg Railway Company will convene at 709 Lonsdale Bldg., in the city of Duluth, Minnesota, on Wednesday, the 5th day of February, 1908, at ten o'clock A. M., for the purpose of electing a Board of Directors for said company for the ensuing year, and transacting any and all other business that may come before the meeting at said time.

Dated January 6th, 1908.

DAVID O. ANDERSON, Secretary.

Duluth Evening Herald—Jan. 6-13-20-27, 1908.

Notice of Annual Meeting of Stockholders of Minnesota Land & Construction Company.

NOTICE IS HEREBY GIVEN, That the annual meeting of the stockholders of the Minnesota Land & Construction Company will be held at No. 709 Lonsdale, Bldg., in the city of Duluth, Minnesota, on Wednesday, the 5th day of February, 1908, at the hour of ten o'clock in the forenoon, for the purpose of electing a Board of Directors for said company for the ensuing year, and transacting any and all other business that may come before the meeting at said time.

Ballaklava is one of the richest mines in the United States and will sell at $40 or $50 a share. Nothing can stop it now. It needs no support from brokers, for it is past the development stage.

After this I will give more attention to National. We put this stock on the market at $1 per share.

I have spent hundreds of dollars in advertising the purchase of Butte & Ballaklava for the reason that I wanted the whole country to know that my office brought this particular stock to their attention.

It has built up my brokerage business so that my office is now one of the best in the city.

Butte & Ballaklava has made good and all that has been said about the rich strikes at the mine is true. I personally sent a man out to measure the veins of ore and he has reported to me that everything is correct as given out by the management. He tells me that it is a bonanza mine. They should begin shipments inside of four months.

MOSQUITOES IN TREES.

Rev. H. Mould in Times of India: A short time ago as I was going around the Colaba cemetery, which is my charge, I noticed what is after all a very common sight in India; a small "pipli" growing out of a hole in the trunk of a tree, karunja. I pulled it out and found the hole quite a foot deep, and containing some inches of water at the bottom, which was, however, out of sight. Mosquitoes also came out of the hole. I had the hole stopped up with earth.

The next few days I kept my eyes open and found several other trees containing water, but one in particular confirmed by conjecture that I had found another favorite breeding place of the wily mosquitoes. This was also a karunja tree, a branch of which had been lopped off. In the stump was a shallow cavity filled with clear water, in which was quite a number of very lively mosquito larvae. I drew the attention of Col. Gubbins, R. A. M. C., to the matter, and he at once gave orders to the assistant surgeon in charge of the Colaba mosquito brigade, to examine all the trees, and they very soon brought in reports of a large number in which they had discovered water containing larvae.

I myself found many trees with small and innocent looking cavities in the stumps of lopped brnches, not a few of which proved to be several inches deep, some quite eighteen inches and all containing water. The discovery, I was surprised to hear, was apparently quite a new one, and no one appears to have suspected that mosquito larvae were to be found in trees, although it is obvious that wherever water can lodge there the mosquito can breed. Trees of which the wood decays rapidly, such as the karunja, the gold mohur, the horseradish tree, etc., are those in which holes are most likely to be found.

Some years ago, riding through the jungles of Meywar, just about the time the gorgeous dak burst into flower, I noticed alongside the road a huge mahava tree with a bamboo ladder some fifteen feet long, leading up to the first great fork. As I was wondering why it was there I saw a man go up with a small lota on a long string, which he lowered into the trunk of the tree, and which he drew up again full of water to drink. He told me the water was good and was perennial. I mention this to show to what depths holes in trees may go and the length of time water may remain in them.

D. E. H., Jan. 13, 1908.

A Dividend of 26 Per Cent

Sit down and figure: If you pay $18.50 for a share in our stock that is worth fully $25, you'll receive an immediate dividend of $6.50, which is equal to 35 per cent of the par value or 26 per cent of the investment. We refer to The Columbia's real $25 Overcoat, which is a

ORDER FOR HEARING PROOF OF WILL.
State of Minnesota, County of St. Louis. —ss.
In Probate Court, Special Term, December 30, 1907.
In the Matter of the Estate of Peter Gilley, Deceased.
Whereas, An instrument in writing, purporting to be the Last Will and Testament of Peter Gilley, deceased, late of said County, has been delivered to this Court;
And Whereas, Lyda Gilley has filed therewith her petition, representing, among other things, that said Peter Gilley died in said county on the 29th day of November, 1907, testate, and that said petitioner is the executrix named in said Last Will and Testament, and praying that the said instrument may be admitted to probate, and that letters testamentary be issued thereon to Lyda Gilley.
It Is Ordered, That the proofs of said instrument, and the said petition, be heard before this Court at the Probate Office in the City of Duluth in said County, on Monday, the 27th day of January, A. D. 1908, at 10 o'clock in the forenoon, when all persons interested may appear for or contest the probate of said instrument;
And It Is Further Ordered, That notice of the time and place of said hearing be given to all persons interested, by publishing this order once in each week for three successive weeks prior to said day of hearing, in The Duluth Evening Herald, a daily newspaper printed and published at Duluth, in said County, and that a copy of this order be served upon the County Treasurer of St. Louis County not less than ten days prior to said day of hearing.
Dated at Duluth, Minnesota, this 30th day of December, A. D., 1907.
By the Court,
J. B. MIDDLECOFF,
Judge of Probate.
(Seal Probate Court, St. Louis Co. Minn.)
Duluth Evening Herald, Dec. 30, '07. Jan. 6, 13, '08.

ORDER FOR HEARING ON PETITION FOR ADMINISTRATION.
State of Minnesota, County of St. Louis. —In Probate Court.
In the Matter of the Estate of Matt Mattson, alias Matt Uhl, Decedent.
The Petition of Maria Mattson having been filed in this court, representing, among other things, that Matt Mattson or Matt Uhl, then being a resident of the County of St. Louis, State of Minnesota, died intestate, in the County of St. Louis, State of Minnesota, on the 15th day of September, 1907; leaving estate in the County of St. Louis, State of Minnesota, and that said petitioner is the widow of said decedent, and praying that letters of administration of the estate of said decedent be granted to Charles J. Eklund of Biwabik, Minn.
It is Ordered, That said petition be heard before this court, at the Probate Court Rooms in the Court House, in Duluth in said County on Monday the 10th day of February, 1908, at ten o'clock, A. M., and all persons interested in said hearing and in said matter are hereby cited and required at said time and place to show cause, if any there be, why said petition should not be granted.
Ordered Further, that this order be served by publication in The Duluth Evening Herald according to law, and that a copy of this order be served on the County Treasurer of St. Louis County not less than ten days prior to said day of hearing.
Dated at Duluth, Minn., January 13th, 1908.
By the Court,
J. B. MIDDLECOFF,
Judge of Probate.
(Seal, Probate Court, St. Louis County, Minn.)
Duluth Evening Herald, Jan. 13, 20 and 27, 1908.

San Francisco Chronicle: Countess Meherenc de St. Pierre of St. Brienc, province of Brittany, in France, has returned from a lonely three months' trip that took her 1,600 miles beyond civilization in the far northern districts of British America. She went forth accompanied by only two Indian guides and penetrated to the Sixtieth parallel, riding astride, tramping, paddling in light canoes, floating down treacherous, rock-picketed rapids in clumsy native barges and for one period of two weeks seeing no human being except her two Indian servants.
"The Indians in that region are very superstitious, very ungrateful, very independent, but very honest. I invited a chief to have luncheon with me. He refused. To eat in company with a woman would degrade him; he would lose caste with his tribe. In another part of the country I had some Indians and their squaws along on an expedition. But the Indians would not permit me to shoot any game. One of the traditions of the tribe, left by some old medicine man long since dead, was that if a woman were ever permitted to shoot moose or elk game would become scarce and the squaws would become powerful and master of the men. I offered them $10 for every shot I might make, but money was no inducement.
"All up through that wild, rich country, everywhere, I saw Indians. I never saw a man who would do any manual work without having his hands as a woman. The squaws prepare the skins and fashion the moccasins, but the men do the hunting and boating. Each sex does its own work."

NEW ENGINE IS NEEDED

West Duluth Steamer is Antiquated, Says Chief Black.

Fire Hall Should Also be Sold and New One Built.

The fire engine now in use at the West Duluth fire department is only fit for scrap iron, is the statement of Chief Black in his annual report to the board of fire commissioners. It is too ancient for use in any modernly equipped fire department. It's day of usefulness has almost past.
He also says in his report that the building now used by fire company No. 8 is not adapted to the purpose of a fire hall. It has an extra story not in use and is not arranged conveniently for the purposes of the fire department. Mr. Black thinks it should be sold and a new one built that would meet all the requirements of the company. It is on a well-located property and Chief Black believes it could be sold for a good price, the money to be used to help out on the cost of building a new fire hall.

SUDDEN CALL.

Charles Bulking Drops Dead After Leaving Street Car.

Death summoned Charles Bulking of West Duluth, suddenly, yesterday afternoon.
Mr. Bulking had been up town to see a physician and on his return to West Duluth left the car and walked to the corner of Sixty-fifth avenue west and Gosnold street, where he staggered and fell. He was taken into a nearby house in an unconscious condition and died before the ambulance, which had been summoned, arrived.
Mr. Bulking was a man of 50 years and had been working at Midway on a farm for some time. The cause of his death is not certain, but it is thought he had been suffering with pneumonia.
The body was taken to Durkan & Crawford's undertaking rooms.

R. D. Haven Speaks.

R. D. Haven, Republican candidate for mayor, County Attorney John Norton, Sheriff W. J. Bates, Alderman J. J. Moe, J. E. Foubister, candidate for alderman in the Eighth ward, L. A. Barnes and A. T. Park addressed the meeting of the West Duluth Republican club Saturday evening.

Endorse Mr. Tessman.

The West Duluth Democratic club met Saturday evening. The meeting was well attended by about fifty West Duluth Democrats. Emil Tessman was not present, but was represented by his manager, William Smith. The club endorsed Mr. Tessman as the Democratic candidate for mayor.

West Duluth Briefs.

The West Duluth council, No. 255, Royal league, will install its officers tomorrow night at the West Duluth Commercial club's rooms. There will be refreshments and dancing after the ceremony.
The following officers will be installed: Past archon, E. S. Olson; archon, Dr. F. L. Smith; vice archon, Neil Buckley; scribe, Dr. W. J. Works; treasurer, L. R. Clark; collector, A. E. Swanson; prelate, Rev. W. J. Lawrie; orator, F. B. Hall; guide, N. P. Wilmer; warder, F. Schubisky; sentry, L. Simpson.
Mr. and Mrs. Joseph Olson became the parents of twins, a boy and a girl, yesterday.
Martin Christensen, 9 North Fifty-seventh avenue west, left this morning for a week's business trip to Grand Rapids, Bovey and other range towns.
William Brayden, Fifty-first avenue west, returned last night from the Twin Cities, where he has visited since before Christmas.
Fram lodge, No. 5, Sons of Norway, will install officers tonight at Gilley's hall. The lodge has been very successful in the year, and its members are looking for a bright future in the way of increasing their membership. A large attendance is expected at the installation tonight.
Mr. and Mrs. Carl Ericson of Aurora, Minn., are visiting friends in West Duluth.
Edward Lauermann left this afternoon for Minneapolis, where he will make his future home.
The funeral of Eliason Carston, who died Wednesday, took place this afternoon, at 2 o'clock, from the Swedish Methodist church. The burial was at the Oneota cemetery.
The 6-year-old daughter, Elvira, of Mr. and Mrs. William Nygard of Monger postoffice, died, yesterday morning, of diphtheria, at 512 Nicolett street, where she was taken Saturday to obtain medical attendance. The funeral took place yesterday afternoon and the interment was at the Oneota cemetery.
Miss Ella Stage left today for the Twin Cities, where she will visit.
Miss Alice Bailey, who has been visiting her parents at 1220 Fifty-fifth avenue west, left this morning, for Minneapolis.
J. W. Russel of New Duluth was in West Duluth, this morning, on business.
George Jolleymore of Pine City, visited in West Duluth, Sunday.
The Ladies' Aid society of the Plymouth Congregational church will meet tomorrow afternoon at 2:30 o'clock, at the home of Mrs. C. S. Weaver, 215 North Fifty-eighth avenue west.
Evelyn Blanchard has taken the position of clerk with Schreiner Bros. & Molten at Two Harbors.
Coal, Coke and Match Blox—W. A. Pond Fuel Co., 411 Central avenue. Bell 'phone, 3062-L; Zenith, 3052.

Family Under Quarantine Pack Up Things and Steal Away.

Even Take Bed Clothes From Room of Diphtheria Patient.

One of the most flagrant violations of the quarantine, which has come to the health department for a long while, was brought to their notice Saturday, when it was discovered that a Mr. and Mrs. Bennison had broken their quarantine at No. 2, Bridgeman & Russell flats, had taken all of their household belongings, including most of the furniture and clothing in the room, occupied by Miss Wilson, a roomer who is down with diphtheria, and had moved to another building.
Miss Wilson was taken ill last Thursday and the health department notified. The flat was quarantined, but when health department officials called at the place Saturday afternoon, they found that Mr. and Mrs. Bennison and their two children had gone, taking everything in the flat with them. They had even entered the patient's room, taken all of the furniture with the exception of the bed, and even some of the bed clothes, not needed by the patient. Fortunately, Miss Wilson was attended by a friend, and their action did not inconvenience her greatly.
A hunt was immediately begun for the violators of the quarantine, and they were discovered in the Osborne buiding, holding out in new rooms. They had hunted rooms, evidently, as soon as they were placed under quarantine and had laid ther plans well. As soon as they were discovered, they were pled under quarantine again and held until this morning, when their clothes were disinfected, and they were brought up on the carpet at the office of the health commissioner. Mrs. Bennison claimed she had fumigated the clothing and furniture herself and did not think she had to notify the health department before moving.
The rooms in the Osborne building will be thoroughly fumigated, together with the clothing of all members of the family, and their quarantine will be lifted this afternoon. Just what action will be taken in the matter by the health department has not yet been decided. A number of people were brought into contact with the furniture and clothing, but as the contact was not close, the health department officials are hoping that the rash action of the quarantine violators will bring no serious results.
People do not seem to understand the retrictions of the quarantine and there is too much breaking of it to suit the health department officials. Example may be made of some of the violators and people placed under quarantine in the future may know that they cannot fit the law to their own whims.

For a mild, easy action of the bowels, a single dose of Doan's Regulets is enough. Treatment cures habitual constipation. 25 cents a box. Ask your druggist for them.

AN OLD SETTLER PASSES AWAY

Mrs. Bengta Hanson, 88 Years Old, Dies at Hermantown.

Mrs. Bengta Hanson, a pioneer resident of Duluth, died this morning at Hermantown. She was 88 years old. Mrs. Hanson came to Duluth thirty-one years ago, and has lived in this vicinity ever since. Cause of death was given as old age. She was well known among the old settlers, and had many friends.
The deceased was the wife of Peter Hanson, and her only child is Mrs. J. Engvall, a resident of Duluth. Funeral arrangements have not yet been completed, but there will be an announcement later.

Take De Witt's Kidney and Bladder Pills. They promptly relieve backache and weak back. Sold by all druggists.

CHIEF TELLS NEEDS OF FIRE DEPARTMENT

Need of New Hall on Hillside is Again Urged.

Two Lives Lost in Fires During the Year.

RECOMMENDATIONS OF CHIEF BLACK.

Building of new fire house at Sixth street and Fourth avenue east.
Replacing of house No. 6 at Lakeside.
Selling of house No. 8 at West Duluth and erection of new building.
Building of stables for house No. 2 at West end.
Purchase of 4,000 feet of hose.
Employment of telephone operators.
Replacing of West Duluth steamer.

Chief Black's annual report, which was submitted to the fire commissioners today shows that during 1907, the loss by fire in Duluth was $258,157 on property insured at $994,950. The loss is the greatest for seven years, with the exception of last year, when several big fires swelled the total to over $1,000,000. Considering the size of Duluth and the value of the property assailed by fire, the record is an exceptionally good one. The losses for seven years were: 1901, $186,429.49; 1902, $48,002.15; 1903, $116,127.09; 1904, $177,189.45; 1905, $117,953.81; 1906, $1,134,-412.13.
Two lives were lost in fires during the year, they being children, who were suffocated this fall during fires in their homes. Five firemen were injured, none of them seriously.
The recommendations of the chief have nearly all been made at different ttimes previously. The need of a house at Fourth avenue east and Sixth street was impressed last year by the disastrous fire at the Franklin school. The West Duluth and Lakeside houses are not adapted to the needs of the companies and he strongly urges that new houses be provided. The West Duluth steamer, he characterizes as a heap of scrap iron and asks that it be replaced. He points to the large number of telephone alarms as evidence of the need for tlephone operators. The report shows that the department now has 17,150 feet of hose, of which 2,900 feet are reliable. The purchase of 4,000 feet more is recommended. The buildings and apparatus of the department are valued at $100,342.25.
There was a total of 336 alarms during the year, of which 245 were telephoned and 68 by box. There were 21 false alarms and 22 were from chimney fires. Other causes of fire were: Electric wires, 10; boys and matches, 6; grass fires, 7; hot ashes, 6; lamps, 6; hot stove pipes, 6; ranges, 10; sparks from chimneys, 18; sparks from locomotives, 8; unknown, 87; defective chimneys, 9.
The report includes a recommendation from Electrician Huff that high potential wires be placed underground. He says: "I stand practically alone in my opinion of the great danger both as to fire and life, in permitting the running of extra high potential overhead wires through the streets, avenues and alleys of the city, and would strongly recommend that such wires be placed underground."

BAD FEELING RESULTED

Methods Used in Nominating Haven Having Their Effect.

Many Republicans Claim He is Not Choice of Party.

Is Alderman R. D. Haven the choice of the Republican party for mayor?
Mr. Haven is finding, in his campaign for mayor, that the methods used in securing his nomination are coming home to roost, and the secret caucus in the city hall, at which he was declared the official choice of the party for mayor, has resulted in making many enemies for him.
Old-time Republicans who had voted the straight ticket for years, were barred from the meeting, which was held behind closed doors, and nothing was learned of the proceedings except the bare announcement that Mr. Haven had been nominated.
At the public mass meeting, held prior to the star chamber session, Alderman Haven's name was scarcely mentioned. C. S. Wilson, Watson S. Moore, Frank A. Brewer, Dr. J. A. McCuen and other prominent Republicans were urged as candidates of the party, but Mr. Haven was not figured among the possibilities. The committee of forty was then decided upon.
At the first ballot taken in the star chamber session of the committee, the newspaper men listening outside the door understood that Dr. McCuen had been nominated, but another ballot was taken, and after a deadlock for several ballots, Alderman Haven was declared the choice of the Republican party for mayor. This fact was announced to crowd of old-time Republicans waiting outside the door to hear who they might be expected to vote for at the election.
These high-handed methods are having their effect, and the Haven workers are finding that they did not help Mr. Haven's cause. There is also a well-defined sentiment that Mr. Haven comes far from being the choice of the Republican party, and that if those present at the mass meeting had had their say he would never have been given the nomination.

* * *

Charles E. Adams, the attorney and candidate for the office of county attorney against John H. Norton, has been selected as campaign manager for Mr. Haven, and M. J. Mullin will act as treasurer of the campaign committee.

Kodol is the best remedy known today for dyspepsia, indigestion and all troubles arising from a disordered stomach. It is pleasant, prompt and thorough. Sold by all druggists.

REAL SINEWS OF WAR.

To achieve a perfect power is the dream of every war chemist of today. So writes William George in the Technical World Magazine.
For upon this uncertain stuff does the destiny of nations depend, in spite of Hague conferences and the amiable platitudes of peace envoys. Great Britain has her cordite and lyddite; France puts her trust in poison-reeking melinite; Japan has her Shimonose power. In short, every war office has its own formula, but all are based on a "nitro-compound" like gun-cotton. This is a high explosive almost entirely smokeless, and enormously more powerful than ordinary gunpowder, long since relegated to the limbo of other days, just as gas has been superseded by electric light in the more peaceful walks of life.
Unfortunately, the compound cannot be relled upon. The absolute requisite is stability—the ensuring that the powder will endure without change any heat or climatic variation. An unstable explosive—the terror of every warship afloat, which stocks tons of it—looks like any other in the laboratory, and will shoot as well as the best, provided it be used before it has time to burn itself up. The trouble is that no chemist on earth knows when spontaneous combustion will take place through decomposition with the powder itself. Hence many terrible disasters of recent years in all navies.

RUNS WILD IN WOODS

Jack Ward Leaves Home to Escape Imaginary Enemies

Brother Heads Large Force of Searchers Near Zim.

Somewhere in the woods about the town of Zim, Jack Ward, an insane man, is either running aimlessly about with the idea that he is being pursued by somebody with murderous intent or, exhausted by his efforts to escape an imaginary evil, he has lain down and succumbed to the exposure.
Frank Ward, a brother of the unfortunate man, with a large crew of men from his tie camp, is searching the woods in the hope of either finding Ward alive, or else find his body to give it a decent burial.
The details as regards Ward's case are rather meager.
Probate Judge Middlecoff received a letter this morning from Judge McGillvery of the municipal court at Eveleth, stating that Jack Ward of Zim had been reported insane, and had disappeared in the woods adjacent to that place and that his brother, Frank Ward, had taken the men from his camps and started the search. Judge Middlecoff was requested to notify the sheriff not to send a deputy to Zim until Ward has been found.
The information against the unfortunate man has been filed by the brother, Frank Ward. According to the information Jack Ward is a Finlander and has been a resident of St. Louis county ever since 1892. He has been missing from home since the morning of Jan. 10.

Everybody's HEARD OF WHITE LILY SOAP. Everybody uses it. Do you?

MR. GRAYBOY.

New York Sun: "I feel young," said Mr. Grayboy, "and I like to think I still look young, but now and then I get a little reminder.
"On the elevated the other night a man who had been sitting in a seat three seats distant from where I was standing got up to go out. Now, standing in the other direction from this seat, but only two seats distant from it, reading a newspaper, was a young man who could easily have got to it before I could, but he made no move for it. He just continued standing where he was and went on reading his paper.
"And then, of course, I knew that he was leaving that seat for me, and I knew why. But I was tired, and so I looked at him and bowed and smiled a little in acknowledgment of his courtesy, and he bowed and smiled a little in return and then I took the seat.
"Coming across the street one morning I heard a man singing out to me cheerfully: 'Come on there, old man, come on,' and looking up I saw a young truck driver holding up his team so that he wouldn't run over me.
"You know what he would have said if I had been a young man? It would have been: 'Hey, there!' and then it would have been up to me to jump or get run over; but he was showing to me the consideration due to age.
"And in this case my cherished illusion was doubly dented, for did not the necessity of the truckman's calling show to me that I had been absentminded when he spoke, not watchful and on the alert as I ought to have been in such a place? And what the truckman thought of me was shown by what he said.
"Very kind of him, though; it surely was, and the people who thus remind me of my age are all prompted by the kindest intentions, but really I wish people wouldn't be so polite."

A little discontent may be the harbinger of content itself. If your discontent makes you hustle—and advertise while you hustle—this will prove to be true in your case.

CHIEF JUSTICE START TAKES A DECIDED STAND AGAINST THE PARDON OF RICH WRONG-DOERS

Objects Strongly to Clemency for Dr. Jacob Force.

Petition for Pardon of the Female Kidnaper Refused.

Case of Peter Mathias is Continued for One Week.

St. Paul, Jan. 14.—(Special to The Herald.)—The possibility of a pardon for Dr. Jacob F. Force, the convicted Minneapolis life insurance president, does not seem at all favorable. Chief Justice Start dashed the hopes of those present in his behalf at the meeting of the board of pardons yesterday, when he said:

"One of the matters that sends the iron into the soul of the poor man is that the rich are enabled to escape punishment for their misdeeds. In this case you do not doubt the guilt of the petitioner, but because he was a good citizen, a public-spirited man, bore a good reputation, surrounded by everything that would appeal to the highest manhood and having committed a crime, it should be condoned. But when a man not blessed with such an environment commits a wrong, he must be made to suffer the full penalty."

Governor Johnson and Attorney General Young, the other two members of the board, were understood to be favorable to a full pardon for Dr. Force.

Following this statement the application for a pardon was continued for one week. In the meantime the friends of Dr. Force will continue their efforts in his behalf. Dr. Force is the Northwestern Life Insurance official who was sent to Stillwater for three years and a half for misappropriation of the company's funds.

A large number of prominent Mill City residents and business men appeared before the board in the interest of Dr. Force.

Heard Fifteen Cases.

The board in all heard fifteen cases, but did not take final action in any of them. There were thirty-five applications to be considered, and these, with the others taken under consideration, were continued over to next Tuesday.

A flat refusal was made to the petition for a pardon for Mrs. Annie O. Jarmuzek, the Minneapolis kidnaper. The petition was made by the woman's father, who said that his daughter did not know what she was doing.

Agreeing to await an examination to be made by physicians to be selected by the board, the case of Henry Nelson, a "lifer" at Stillwater was continued. It was shown that he has consumption and will not live long. Nelson was first sentenced to be hanged and then had the sentence commuted to life imprisonment. This Chief Justice Start thought was enough. His accomplices have since died in prison.

Mathias Case Continued.

The case of Peter Nielsen Mathias.

BRAZILIANS GRATIFIED

With the Visit of Battleship Fleet at Rio Janeiro.

Pleasing Reception Tendered by President of Republic.

Rio de Janeiro, Jan. 14.—The first of the many official functions to be given in honor of the visiting American naval officers, during their stay, took place yesterday. The first event was to visit the Brazilian minister of marine, Admiral Alencar, and this was followed by a reception by the president of the republic, Dr. Penna, and a banquet by the American ambassador, Irving D. Dudley. Dr. Penna cordially welcomed the visitors to Brazil. The ambassador's function was a brilliant affair.

In the afternoon the officers went out to Petropolis, the home of the diplomatic corps, twenty-two miles distant from the capital. They were accompanied by many high Brazilian officials and representatives of the various legations. At the railroad station of this suburb they were received by the private secretary of Mr. Dudley, and joined shortly afterward by the ambassador himself. The party then proceeded to the residence of the president.

Mr. Dudley presented Admiral Ira Thomas to the president, and then introduced each officer in turn. Replying to an address made by Mr. Thomas, Dr. Penna said:

Extremely Gratified.

"I am extremely gratified at the presence here of the officers commanding

(Continued on page 11, fifth column.)

GUESS I WON'T WORK SAYS $60,000 GIRL

Chicago, Jan. 14.—"I guess I won't work any more," remarked Miss Rose Strantz as she resigned her position yesterday as telephone operator at the Palmer House.

Then she told Manager Vierbuchen that she had inherited $60,000 left by an uncle in the Far West and had received the first installment of the money. She invited her friends to a theater, and after the show she gave them a ten-course dinner.

REDUCTION OF RATES

Charged by Pullman Company, Asked by Minnesota Shippers.

Petition Presented by Loftus to Interstate Commission.

FROM THE HERALD WASHINGTON BUREAU.

Washington, Jan. 14.—(Special to The Herald.)—George S. Loftus of St. Paul, accompanied by Senator La Follette, filed with the interstate commerce commissioners yesterday a petition asking for a reduction of 25 per cent in the lower berth rates of the Pullman company and fixing the rates for upper berths at one-half of the lower berth rates. The reduction is asked on all interstate business throughout the country. Mr. Loftus represents the Minnesota Shippers' association, which started the private car investigation two years ago, and in this prosecution he has had the advice and the support of Senator La Follette.

Some months ago complaint was made against the Pullman company, in

(Continued on page 11, fourth column.)

MADE MAN OUT OF AN IMBECILE

Remarkable Development of Boy Abnormal in Every Way.

New York, Jan. 14.—Speechless for sixteen years, Gustav Laut has in ten months learned to talk fluently. During the same period he has developed from an abnormal, undeveloped, almost imbecile boy, into an alert, active, ambitious person; he has grown four inches in height, permanent teeth have come to him against all the beliefs of the dental profession, and he now gives promise of becoming a healthy, normal man. His development is the result of experiments by Prof. Charles Morris Campbell of Albany, N. Y., an instructor in music, who treated the boy according to theories of his own—theories which he believes will cure the deaf and even the blind as well as the dumb, and put an end to imbecility.

All Habits Were Infantile.

When the boy first came to his notice Prof. Campbell said all of his habits were infantile and he was abnormal in every way. His body was undeveloped, as was his brain. Prof. Campbell began by causing the boy to wiggle one of his toes, an operation which required several weeks. Gradually the principle was extended, muscles were stimulated, and with their stimulation came a response from lungs and heart, and other vital organs. Circulation was quickened and finally came the power to speak. The boy has developed ambitions and says he is determined to go through college as soon as he can make up for lost time.

Prof. Campbell brought Laut to New York for the purpose of demonstrating to Columbia college professors his theory of scientific development of the abnormal.

TAFT THE CHOICE

Of Half of the Members of House as Presidential Candidate.

Washington, Jan. 14.—(Special to The Herald.)—As a result of a poll of the Republican members of the house of representatives, made by the Washington Post, it is found that Taft is the choice of one-half of the members as a candidate for the presidency.

BAIL REFUSED SCHMITZ.

San Francisco, Jan. 14.—Superior Judge Frank H. Dunne yesterday refused to admit to bail Former Mayor Eugene E. Schmitz, whose conviction upon the charge of extortion was reversed last Wednesday by the appellate court, which declared that he was illegally convicted.

ROBBERS CRACK SAFE.

St. Joseph, Mo., Jan. 14.—A special to the News Press from Wymore, Neb., says: Robbers cracked the safe of the State bank last night and secured $200. The robbers escaped.

FRIGHTFUL CONFLAGRATION IN OPERA HOUSE CAUSES THE LOSS OF 150 LIVES AT BOYERTOWN, PA.

THE TWELVE MEMBERS OF THE JURY WHO WILL DECIDE FATE OF HARRY THAW

MANY CASES OF RABIES

Causing Some Excitement in the City of New York.

New York, Jan. 14.—Rabies, according to a statement made by Health Commissioner Darling yesterday, is reaching the proportions of an epidemic in this city. There were twenty-nine cases reported last month. Last year the number of deaths from the disease was twenty-seven. As a measure of restriction the health department has made, and will enforce, a regulation requiring owners of dogs captured in the streets to pay a fee of $3 if they wish their dogs released. Dr. Darling complains of the large measure of liberty allowed dog owners, tending, he claims, to promote the spread of rabies. Dogs may be allowed by their possessors to go about without leashes and unattended, and there is practically no way of punishing the owners. Even the licenses for the animals cannot be revoked without expensive legal process.

TROUBLE IN JAP CABINET

Two Ministers Resign Owing to Budget Difficulties.

Tokio, Jan. 14.—A cabinet crisis is imminent. After a conference of the cabinet ministers, this morning, Marquis Saionji, the prime minister, visited the emperor at the palace this afternoon, and was quickly followed by Prince Ito.

An important member of the cabinet, who has just been seen by the Associated Press correspondent, declined to deny the rumor of the resignation of two members, and possibly of the entire cabinet.

It is understood differences exist over the budget, which are irreconcilable, Premier Saonji is still at the palace.

7:25 p. m.—Yoshiro Sakatani, minister of finance, and Isaburo Yamagata, minister of communications, have resigned from the cabinet. Their resignations have been accepted. The resignation of Marquis Saionji, the prime minister, has been refused.

INSANE PATIENT FATALLY BURNED

Miss Lucy Anderson's Clothes Take Fire From Stove.

Peoria, Ill., Jan. 14.—Miss Lucy Anderson, for three years an inmate of the Bartonsville insane asylum, died last night in the asylum hospital of burns received four hours earlier. She was burned from her feet to her shoulders, and all the aid the physicians could give was futile.

Miss Anderson was passing the wood stove, which furnished heat for the occupants of the tuberculosis tent colony, when her clothing took fire. A physician rushed to the woman's aid, and threw a blanket around her. In pain and fright she tore loose from him and ran from the tent to the open air. The burning woman frantically ran among the cottages, eluding all the nurses and attendants, who attempted to stop her, until finally she was stopped by another physician, who extinguished the flames.

BLAME IT ONTO THE WEATHER.

EIGHTY MEN ARE FINED 1 CENT EACH

New York, Jan. 14.—Fines of 1 cent each were imposed by Magistrate Walsh yesterday on eighty push cart men, arraigned before him in the Essex Market court. The strictly nominal amount of the fines, the magistrate explained, was in consideration of the hard times. Most of the prisoners were mechanics, it was learned, who had taken up peddling because of inability to get work at their trades.

WORK LAID OUT BY BEDE

Wants Lake Superior Set Apart as a Separate Lighthouse District.

Also Trying to Have Marine Hospital Established at Duluth.

Washington, Jan. 14.—Representative J. Adam Bede has a good bit of work laid out for this session of congress, provided the speaker permits bills to come up to which that work may apply. In the first place, he wants Lake Superior set apart as a separate lighthouse district. It is now a part of the district of which Detroit is the center, and Mr. Bede thinks that the importance of this greatest of the lakes is sufficient to warrant congress in giving it a separate status in this respect, with Duluth as the headquarters. Senator Nelson has already introduced a bill providing for the creation of three new lighthouse districts, but that bill has Lake Superior especially in mind. It is the judgment of Mr. Nelson that it will be easier to secure the legislation if other sections of the country are taken into account. He and Bede will work together in this matter.

Marine Hospital.

In the next place, Mr. Bede wants a marine hospital established at Duluth, and already he has set up the pins for it. Of course, legislation will be necessary, and success will depend on whether it is the purpose of the speaker to permit any legislation of this character during the present session.

(Continued on page 11, fourth column.)

EX-GOV. VAN SANT SAID TO BE READY

To Accept Nomination for Third Term If Republicans Desire.

St. Paul, Jan. 14.—(Special to The Herald.)—Samuel R. Van Sant, twice governor of Minnesota, is willing, under certain conditions, to once more become a candidate for that office on the Republican ticket.

For years the former leader has devoted much of his time to private business, making his headquarters in Minneapolis. Occasionally he has been heard on political questions of the moment, contending that he is out of office, but not out of politics.

"I have had many high honors from the grand old party, the highest that the state can confer upon any man, and I am not looking for glory, nor do I seek office again," is the position the former governor takes.

Mr. Van Sant says no man has a right to ignore the call of the party, and if that call happens to make a noise like "Van Sant," he is not going to be the one to shun his duty.

His Friends Interested.

It has come to his ears that the four years of Democratic rule in Minnesota has fanned the slumbering ardor of his friends into a flame. Should this take place, and a formal demand be made upon him as the proper person to swing Minnesota back into the Republican states, he will peel off his coat and go after the enemy.

The governor has no scruples regarding the third term bogey. He believes that the country at large would show wisdom in keeping Theodore Roosevelt in the White House until 1912. And if such a thing is true of the national ticket, the same theory should be applicable to a state ticket, he thinks.

Governor and Mrs. Van Sant closed their apartments at the Hampshire Arms, Minneapolis, yesterday, and started for a trip South, their ultimate destination probably being Havana.

TO INCREASE COST

Of Crookston Public Building, Object of Bill by Steenerson.

Washington, D. C., Jan. 14.—(Special to The Herald.)—Representative Steenerson, has introduced a bill providing for increasing the limit of the cost of the public buildings at Crookston, Minn., to $90,000.

Gas Tank Explodes During Entertainment by Sunday School.

Whole Interior a Seething Furnace in Very Few Minutes.

The Floors Collapse and Many Victims Doubtless Consumed.

Boyertown, Pa., Jan. 14.—When daylight dawned today, the full extent of last night's fire, when the Rhoades Opera house burned, was fully apparent. The list of dead is placed at 150 and the injured at seventy-five. Exactly how many were killed may never be known, for among the victims were a number of visitors, who may have no relatives to trace their untimely fate. The list of known dead follows: Mrs. John Becker and two children, Dr. Charles Mayer and daughter, child of Rev. A. L. Weber, Lulu Fegley, Miss Elma Engle, Mrs. Ira Shober, Mrs. Richard Turner, Mrs. Daniel Krause, Robert Lapish, Mrs. George Ronnine, Mr. and Mrs. Herbert Gottschall, Herbert Gottschall, Henry Brinder, Blanche and Mabel Kochel, Ellen Gottschall, Mabel Graff, Mrs. J. J. Becker and three children, Lottie Graves and sister, John Graves, Charles Moyer and daughter, Daniel Krause, Morris Anderson and two children, James Anderson, wife and two children, Charles Maurer, Stella Kulp, Carrie Weand, Florence Weand, Edna Boyer, Keeley Boyer, Mamie, Tols, Mrs. Maggie Lefevre, Mrs. Mary Leinbach, Laura Grim, Mrs. Adam Moyer, David Gable, Franklin Leidy, Anna Leidy, Esther Cullen, Lottie Bowman, Ella Johnson, Anna Zeigler, John Fritz, Cora Fritz, Mrs. John Glaze, Mrs. Reuben Hoffman and daughter and Mrs. Johnson.

House a Blazing Furnace.

It is estimated that there were 400 persons in the play house when the explosion of the gas tank occurred. The tank was being used in connection with pictures. An amateur performance of the "Scottish Reformation," for the benefit of St. John's Lutheran Sunday school, was being produced. Instantly the explosion occurred some one yelled "Fire," and in less time than it takes to tell it the center of the opera house was a blazing furnace. The rapidity with which the flames spread was caused by the upsetting of the coal oil lamps used as the footlights by some of the persons on the stage, who endeavored to allay the frightened children and quiet the audience. But even the men seemed to lose all control of themselves, and fought with the women and children, who composed the greater part of the audience, to gain the street. In this manner many women and children, who might otherwise have escaped the flames, were forced back and trampled upon. Particularly was

THE FAMILY PHYSICIAN

Of the Thaws Called to Testify by the Defense.

Opening by Littleton Shows Insanity to be the Plea.

New York, Jan. 14.—John T. Deemer, the Thaw family physician, was the first witness called at the Thaw trial today.

After the prosecution had ended its presentation of its side of the case Martin W. Littleton for the defense made the opening plea for the prisoner. His promise of new evidence was sensational and held the attention of all in the courtroom. District Attorney Jerome, seemingly taken by surprise, seated himself in the witness chair, the better to hear the outline of the new defense. Mr. Littleton promised to forge a chain of circumstances and to produce a line of testimony which will prove Harry Thaw insane at the time of the homicide. Evidence of hereditary insanity and of strange unusual acts of Thaw, not even hinted at during the first trial, was told of by Mr. Littleton, who said that physicians and nurses who had attended Thaw were hurrying here from Europe; that teachers of the defendant in childhood would be on hand to give their impressions of "the wild-eyed, distant boy." In conclusion, Mr. Littleton challenged the district attorney to produce a single reputable physician who would say Thaw was not insane at the time he killed the noted architect. Mr. Littleton's speech fairly bristled with surprises. He startled the courtroom by declaring that when Evelyn Nesbit had told him her story in Paris in 1903 Thaw "drenched himself with a poison" and would have died but for the heroic work of three physicians, who labored over him all of one night.

RAILROADS

TRAINS TO FOND DU LAC

Railway Commission is Giving Hearing Regarding Change in Service.

Proposal to Discontinue Daily Train is Violently Opposed.

A hearing in the matter of the application of the Northern Pacific Railway company for a modification of the passenger service between Duluth and Fond du Lac is being held at the Spalding this afternoon before the state railway and warehouse commission. A. M. Cleland, general passenger agent of the Northern Pacific, is in attendance at the hearing.

The proposal of the Northern Pacific to take off one of the trains between Duluth and Fond du Lac has met with violent opposition locally, and residents of the river town, and people of Duluth who have interests there, will not allow the change to be made if they can help it. The following communication was submitted to the commission this afternoon:

"To the Hon. Railway and Warehouse Commission of the State of Minnesota:

"Gentlemen—About a year ago upon the application of the residents of the suburbs involved and other interested parties, your honorable body formally required of the said Northern Pacific Railway company to re-establish its passenger service between Duluth and the suburbs of New Duluth and Fond du Lac. The order of your honorable body in the premises was made after a full hearing in which it developed:

"First. That the railway company, in addition to the partial grant of sovereignty which every public service corporation must have and which brings with it well known reciprocal obligations to the public, obtained valuable concessions in the shape of land grants and otherwise which are even at this late day a valuable source of prestige and income.

"Second. That there was locally granted to the railway company extensive terminal rights in Duluth and vicinity which are now worth millions of dollars and are at the present time practically impossible of duplication for any competitive railway system. Also that the line of the road between West Duluth junction and Fond du Lac, along the shores of the St. Louis bay and river, is an important part of such local terminal system, the sale or other absolute disposition of which the railway company, through its representative then present, refused to consider.

"Third. That the general net earnings of the Northern Pacific company were so extensive that they allowed it to pay exorbitant annual dividends of 7 per cent upon its capital stock, in addition to its fixed charges, to appropriate generous funds for renewals and maintenance to set aside each year for "betterments" the sum of $3,000,000 and, in addition to all this, to accumulate a great and growing surplus which now aggregates in the neighborhood of $30,000,000 and is currently reported to form an anticipated subject of another Wall street "melon cutting" operation.

"Fourth. That the local earnings of this branch of the road, freight and passenger, were amply remunerative to yield a substantial net return.

"Fifth. That the railway company was requested by your honorable body to furnish it and the undersigned with a written detailed statement, month for month, of the earnings and expenses (freight and passenger) of its branch herein involved for the period of one year immediately preceding the date of such hearing, but, so far as the undersigned are aware, such statement was never furnished.

"Sixth. That the railway company, in return for its franchise and other privileges which it enjoys at the hands of the public, was obligated to furnish such public a reasonable service, freight and passenger, and that the permanent re-establishment of its morning and evening passenger service of said branch road (theretofore discontinued during the winter months) were essential to such reasonable service to the public.

"Railways are constituted and are granted the privileges and powers which are essential to the proper development of their economic purpose in the expectation that they will give the public an adequate return in both freight and passenger service. The reasonableness of any particular demand upon the railway for such services, freight and passenger, must, of course, to some extent depend upon the special surrounding circumstances. Notwithstanding this, however, when the railway company receives at the public hand and retains certain privileges and powers essential to its operation, there is a minimum of service due from it in return which, so long as it continues to exercise its franchise, is incumbent upon it whether its earnings are remunerative or not. For can it, as a common carrier, select certain traffic, which may be attractive and remunerative, and discriminate against or refuse to handle other traffic less desirable the peculiar surrounding conditions may even compel it at times to handle it at a loss. Its aggregate return can alone be made ultimately determining. The ultimate greatly enhanced value of its local rights and franchise mut be taken into consideration. These several propositions are no longer open to doubt. If the railway company wishes to escape this absolute bligation, it can surrender its franchises. If it should do so in the present case, your honorable body can be amply assured that there are other railway interests prepared to step in the breach, to compensate the Northern Pacific Railway company for the reasonable value of the local franchises and terminal rights in question and to furnish the reasonable service that your honorable body has heretofore commanded and the situation demands.

"Since the order was made by your honorable body permanently re-establishing the present passenger service of the said branch of said company there has been no change in local conditions which would warrant a return to the unsatisfactory, unreasonable, inadequate and burdensome service which the railroad company during the winter months of the year had theretofore imposed upon the public. On the contrary, certain local developments in that territory, to-wit: The definite location of a great branch manufacturing plant of the United States Steel corporation in the territory involved and the practical initiation of such enterprise, have definitely fixed a great future for this territory have already added substantially to its population and freight producing capacity and have made the conditions of the present service, which your honorable body has already declared to be reasonably demanded in the premises, more imperative than ever. Respectfully submitted,

"W. G. JOERNS,
"JOHN V. BRIGHAM,
"A. C. VOLK,

TAKE ELEVATOR.

OPEN SATURDAY EVENINGS TILL 10:30.

TIME EXTENDED.

Baltimore & Ohio May Yet Get Chicago Transfer Company.

Chicago, Jan. 14.—One month more has been granted to the Baltimore & Ohio Railroad company in which to raise $1,625,000 and buy the 65,000 shares in the Chicago Terminal Transfer company held by the minority stockholders. This decision was reached at the adjourned meeting of stockholders in the terminal company yesterday. Another adjournment was accordingly taken to Feb. 11.

If the Baltimore & Ohio management is unable to raise the money the minority interests may carry out their threat and attack the legality of the company's lease. Under it the Baltimore & Ohio pays $160,000 per year for the use of the Grand Central station. The minority stockholders claim it is inadequate.

The possession of the Terminal Transfer company property has been one of the points of controversy between the Morgan-Hill and the Harriman interests. The company is now in the hands of a receiver, with judgments and costs aggregating $19,000,000 standing against it. The minority stockholders claim it is easily worth $27,000,000 and would bring that sum if sold at auction were it not for the Baltimore & Ohio leases. This would mean an equity of $8,000,000 or $26 a share.

NEW RATE LAWS.

Contest On in Alabama Between State and the Railroads.

Montgomery, Ala., Jan. 14.—The contest between the state and the railroads over the new rate laws did not advance further, yesterday, in the United States court than the fixing of hours and dates for the hearing of arguments, which will begin today.

It was agreed that the opening argument, this morning, would be delivered by Former Congressman Sidney J. Bowie. Former United States Senator John C. Spooner will deliver his argument well down the line of speakers, possibly on the last day.

The settlement of the issue raised by the attorneys for the state in validity of the supplemental rate bills will advance the case to the main issue—whether or not the new rates are confiscatory as alleged by the railroads. The state's attorneys ask in their motion that a temporary injunction or restaining order be dismissed pending an investigation on the merits of the case.

A Good Record.

T. E. Blanche, general agent of the Northern Pacific, has received another report on the "pink" train service to the West. This report shows that more than half the fast freight trains which leave St. Paul for Seattle are arriving at their destination ahead of time, which is considered remarkable, especially so for this season of the year.

What's in a name? There is assurance of quality in Hunt's Perfect Baking Powder and Extracts that means purity and satisfaction always.

WANT DAMAGES FOR CONVERSION

The trial of J. D. Campbell and others against the Shell Lake Boat company was begun in Judge Ensign's room this morning. Mr. Campbell and his associates are said to have purchased an engine for a gasoline motor boat from the defendant company. When the engine arrived the Shell Lake Boat company, it is claimed, refused to turn it over to the plaintiffs unless the latter would pay costs, amounting to a sum in excess of the alleged agreed price. Mr .Campbell and the others started suit for $900 damages for alleged conversion of property. H. B. Fryberger represents the plaintiffs and Alexander Marshall represents the boat company.

NO CHANGES TO BE MADE

Officers and Directors of National Banks Will be Re-Elected.

Indications Point to a Most Prosperous Year in 1908.

Practically no changes will be made in the personnel of the officers and directors of the First National and the City National banks, at the election to be held at 4 o'clock this afternoon. Some few changes in the personnel may be made, but with a few exceptions all of the directors and officers of both institutions will be re-elected to their present positions.

It was announced at the City National bank that Joseph Sellwood, president; A. H. Comstock, vice president; W. I. Prince, cashier, and H. S. Macgregor, assistant cashier, would be re-elected, as well as the following directors: Joseph Sellwood, A. H. Comstock, A. M. Chisholm, John Panton, Alexander McDougall, John F. Killorin, William I. Prince, Michael H. Kelley, Henry Turrish, Richard M. Sellwood and R. J. MacLeod.

A. L. Ordean, president; J. H. Dight, cashier; W. S. Bishop, assistant cashier; W. J. Johnson, second assistant cashier, will be re-elected to their present positions in the First National bank.

With one or two possible changes, the following directors will be re-elected: A. M. Marshall, A. D. Thomson, L. Mendenhall, A. B. Wolvin, Frederick Weyerhaeuser, John H. Barker, A. C. Jones, F. A. Patrick, Louis W. Hill and W. F. Fitch.

W. I. Prince, cashier of the City National bank, said that the past year had been a most prosperous one. The bank has done exceedingly well, and at the present time business showed indications of a most healthful recupration from the strain imposed by certain manipulations in the stock market. He predicted that 1908 would show a most healthy business tone.

The policy of the directors of the City National bank will be to increase undivided profits and surplus, rather than increase the dividends. This has been the policy of the bank in the past.

An Insidious Danger.

One of the worst features of kidney trouble is that it is an isidious disease and before the victim realizes his danger he may have a fatal malady. Take Foley's Kdney Cure at the first sign of trouble as it corrects irregularities and prevents Bright's disease and diabetes. Sold by all druggists.

"THE INDUSTRIAL WORKERS OF THE WORLD"

Will hold an organization meeting Wednesday evening (Jan. 15th), at Odd Fellows' hall. Miss E. G. Flynn and others will speak. Admission free. (This invitation applies to those who are willing to do their own thinking.)

FESTIVAL IS SPOILED

Judge Windom's court room looked like a council chamber of ancient Athens, this morning, if facial appearances only are considered. The classic robes, contures, sandals and other characteristic articles of wearing apparel of the Hellenes of the times of Socrates were missing and well-worn clothing of American workmanship substituted, but the faces were unquestionably Grecian of the modern type.

There were eighteen of them, all of Duluth's Greek colony, all gathered in for indulging in a very prosaic game of cards. No more the games of brawn and athletic prowess for the celebration of Grecian festivals. The goddess of fortune was called in to assist in the merry-making and a squad of blue-coated officers put the goddess to flight and took charge of those who worshipped at her shrine at the early hour of 3:30 a. m., today.

A squad, headed by Sergeant Gillon, and consisting of Officers L. Johnson, Barber, Connor, Gleason and Roberg, entered a lodging house on the second floor of the building at 305 West Superior street. They found George Mantiacos and seventeen guests engaged, so they say, in the American game of poker. The officers broke up the game, lined up the Grecian army, and marched their men to the police station. Some put up bail for the remaining hours, others had to spend the time in the cell room, but all were on hand this morning to plead not guilty to the charge of gambling.

"I only play once a year on New Year's and then I get pinched," said Apostolas Apostolakas, with a wry face.

"Can't a person celebrate New Year's as he wants to in his own house, without a bunch of policemen breaking in?" queried Mike O'Neill, who is undoubtedly not as Irish as his name would appear to indicate.

Jimmy George and Steve Muchicas are young and just over. They were learning the game and didn't have the ball.

"Poly kola, nit," said Gust Vrionis, working in the only good American word he knew.

They were all coached up to plead not guilty, a lawyer will be engaged and they will fight the case. They will be heard this afternoon.

The men arrested, besides Mantiacos are: Gust Calas, Anthony Morris, Peter Calhicas, James Baros, Apostolos Apostolakas, James George, George Saror, Gust Brionis, Peter Palla, George Nibi, John Demas, George Vlahos, Steve Muchicas, Dan Nick, Mike O'Neill, Tony Paulos and George Demetrus.

Reductions Extraordinary!

This is our Yearly Shop Riddance of Winter Wearables. and Duluth's lone sale where high quality and low price meet on a common plane.

We have just directed the main force of our attention toward the disposal of Tailored Suits, then came the Evening Dresses, and incidentally many lines of Waists and Skirts; each in its turn, meeting with signal and tremendous success. The subject of our vengeance this week is heavier wear. Consequently the prices on Fur Pieces, Fur-lined and Fur-trimmed Coats have been slashed to the quick.

Prudent women, alert to present advantages, are fast "snatching the plums." They belong to you as much as anyone and its "up to you" to see that you get your share.

Reductions run from 25 per cent to more than 50 per cent off the former prices.

NO TRUTH IN CHARGES

A. P. Lindbeck Says There Was No Repeating From Idaho Hotel.

"If the other charges of illegal voting which have been made in sensational newspaper reports are not based on any better grounds than the one against the four of us who voted from the Idaho hotel, they will fall pretty flat," said A. P. Lindbeck, one of the four men who registered from the hotel in question.

"One paper said the police were unable to find the Idaho hotel. I can show it to them easily enough. It is across from the Lenox, and is owned by the Ribenacks. There were four of us voted from there, A. Olson, W. Pearson, O. Sullivan and myself. I was born in St. Louis county and have lived here all my life. I have been a regular boarder at the hotel for several months, and if I didn't have a right to vote, there was nobody in Duluth that had. The other three men have also lived there for years past, and I know they are citizens.

"The charge that we repeated is a lie. I don't know where they got that, but that was the first and only time I ever voted in my life."

Olson also stated that he had lived in the precinct for the last seven years, and Pearson claims to have lived in the precinct for five years. Both of them are American born citizens. Olson and Pearson are employed on the docks and Lindbeck has been working for one of the packing companies.

All three most emphatically deny repeating in the Second precinct of the Third ward as was charged.

WARD MEETING EVERY NIGHT

The Tessman Campaign Will be Couducted in Energetic Manner.

The Tessman workers have started on the last round of the campaign. Election is but three weeks from today and strenuous campaign methods will be necessary. The forces will be directed from the headquarters in the St. Louis hotel, and, though there will be no shouting, there will nevertheless be work of the most telling kind.

Last night the Democratic committee of the Second ward held a meeting and endorsed Emil Tessman for mayor and George L. Bloedel for alderman in that ward.

Every night at the Democratic headquarters in the St. Louis hotel, there will be a ward meeting. Tonight the Fifth ward Democrats will meet. Tomorrow night, another ward will hold its session and so on until election, a meeting will be held each evening, when Tessman workers will report and lay out the plans of future campaign.

Home Baking

And home-made preserves. Lundmark-Franson Co. Both 'phones 97.

MANY LICENSES ARE ISSUED

For licenses of all kinds, the sum of $191,484.50 was received by the city during the year which closed Jan. 1, as shown by the annual report of City Clerk H. W. Cheadle, which was presented to the council last night. The fees received by the clerk in issuing the licenses total $1,699.05.

A perusal of the different items is interesting. There were 181 saloon licenses issued, at $1,000 each; 148 hacks and drays brought in $564.75, and twenty-four pool, billiard and bowling alley licenses netted $144.40. There are twenty-three plumbers' licenses, bringing in $107.05. Twenty-six employment offices for men brought in $2,226.97, and three for women, $30.

Other licenses and the amounts received are: Two exhibitions, $25; three circuses, $350; five shooting galleries, $115; four auctioneers, $383.33; ten pawnbrokers, $1,032.25; 1,782 male dogs, $1,782; 110 female dogs, $550; 256 peddlers and hawkers, $2,010; three meat peddlers, $30; eleven theaters, $505; eleven fortune tellers, $583; six house movers, $60; 135 fireworks, $33.75; one merry-go-round, $10; sixty-eight automobiles.

D. E. H., Jan. 14, 1908.

All the advertised January cut prices of the Columbia Stores remain in force during this month unless it is expressly stated that they are for a day or two only, although we reerve the right to pull special prices off certain articles when we want to.

Every suit and coat for man or boy is now subject to a heavy rebate, so is all underwear and all our men's trousers.

As promised, we are putting out a number of extra specials during the course of the big sale, which are each and every one well worth going after if you have the cash. Among them are men's shirts at 35c, some odd Hanan shoes at $3.85, a lot of Columbia $3.50 shoes at $2.85, boys' $3.50 athletic sweaters at $2.25 and children's $1 angora tams at 19 cents.

Tomorrow

We will add another good Extra Special consisting of

Underwear To be closed out at ---------- **63c**

This 63-cent Underwear Special is for tomorrow, and while they last. There are 270 Undershirts and Drawers in medium and heavy weights—among them Jersey ribbed Worsteds, Merinos and Woolens, and about eighty

Wright's Health Wool Fleeced

Undegarments of the best quality which we usually sell for $1.50, and some other stores for $2.00. In the whole 63-cent lot is not a single garment worth less than a dollar —from that up to two dollars. They are the last of lots which we do not intend to carry next season, and to close them out thoroly and quickly, we say:

A Drastic Measure—Fur Coats Cut ½

We are overstocked. Fur Coats haven't moved as they should. Weather has been too mild, as you all know. But it will be cold yet. And a fur coat is good for a number of winters.

Tomorrow morning, we put all Ladies' Fur Coats, Caracul and Furette Coats on sale at just half of original prices. (It's an unusual opportunity.) Choose from select astrakhan, near seal, krimmer, Russian pony, French coney, etc., worth regularly $29.00, $35.00, $43.00, $45.00, $50.00 up to $75.00 at EXACTLY HALF.

At 8:30 Thursday Morning

We will place on sale about 2,500 pieces in Ladies' Fine Leather Handbags—most of them combination styles, with card case, purse and mirror. Offered to you at just about half their real value—in four lots, **75c, 98c, $1.25 and $1.50.**

Panton & White Co.

HORSE SCANDAL IN NEW YORK

New York, Jan. 14.—As a result of Friday's fire, in which the Parker building was practically destroyed and four men lost their lives, the Merchants' association has asked Mayor McClellan to order an investigation of the hose used by the fire department, and the methods used to test it. An unusually large amount of hose burst under the high pressure put on it during the fire, when attempts were being made to force water well up into the tall building. What amounts to almost a scandal has developed in the matter. It is said that more than 7 per cent of the lengths of hose put into use at the fire burst. The association, quoting a report recently made by a committee of the Underwriters' association, says that the ordinary tests for hose, which is purchased under specifications which call for hose to withstand a pressure of 300 pounds, under a four-year guarantee, have not been made of late years. It is also stated that a very large percentage of the hose now in use by the department is more than seven years old.

BECKHAM THREE VOTES SHORT.

Louisville, Ky., Jan. 14.—A telephone message from Frankfort says the result of the ballot for United States senator in the house and senate today leaves Former Governor Beckham three votes short of election.

20% Reduction Sale

It is very gratifying to see how the men are taking advantage of this sale. If the orders continue to come in as fast as they have the past week this sale will only last a very short time longer.

FEARS ARE ON THE WANE

East Enders Are Recovering From the Burglar Scare.

Workman Held on Suspicion by Crafty East End Man.

The East end burglars have evidently picked up and gone, satisfied with the result of their three days' operations of two weeks ago. Two weeks ago tonight, they pulled off their first job. The following Thursday night was their last appearance, and before the alarm had been sounded to the police, they were undoubtedly far away hitting the trail for some "fence," where they could plant their goods. The burglaries have been reported to the police of other cities and the detection of the men by that means is about the only hope remaining.

East enders, however, have not altogether quieted down after the scare the burglaries and numerous attempted burglaries gave them. They are still sleeping with firearms within reach and an eye open for marauders. They fear the awakening some morning to the realization that their silver, furs and other valuables have taken flight during the night.

Their fears are increased by prowlers, who are working in the neighborhood, it is said, despite the danger of a shot from an irate householder, or the arrival of a policeman. There have been several reports of fictitious gas meter readers, whom, they fear, look for the layout of the house, with a view to pulling off a future "job." Just what the fake meter reader's game is, nobody knows, but he has visited several houses.

The police are also on the lookout for persistent beggars, who have been visiting East end homes. They call at the back door, take refusals from the servants sullenly and in some cases with a show of antagonism, and in one case, at least, a man, well dressed, it is said, forced himself into a house against efforts to bar his way, secured something to eat in the kitchen, and left again.

An amusing incident grew out of the popular fear of burglars in the East end Sunday. A resident of East First street sent in a hurry-up call to the police, saying a burglar was at his house. The patrol wagon, with several bluecoats, was sent on a run, and the police had visions of the capture of one of the gang. When they arrived at the scene, they found a crestfallen employe of the local electric company detained in the home.

The man had been at work on a job in the next house and had broken something during the week. He was compelled to repair the damage on his own time and chose Sunday. He supposed he had the right house, when he knocked at the back door, but the girl, who answered, told him there was nothing to be repaired there. He pushed past her, thinking she didn't know anything about it, and bounded up the stairs. When he reached the second floor, he discovered his mistake and retreated.

He found the right house on his second attempt, did the work and when he left again, the occupant of the house next door called him in the house and detained him until the officers arrived. The mistake was discovered, the young man turned loose, and the joke is on the captor.

Eat anything you want, don't starve yourself, fearing it won't agree, for Hollister's Rocky Mountain Tea cleans the bowels and stomach, and makes digestion easy. 35 cents, Tea or Tablets. Ask your druggist.

Saturday Ends It.

This is positively the last week of the half-price sale. A large stock of new pictures arrived today and will be included. Engels' Art store, 9 East Superior street.

Tickets on sale at Chamberlain & Taylor's and Y. M. C. A.

FIRST MAN UP GETS THE COIN

Charlie Olson thought it was a shame to take the money last night, it was so easy. He thinks so yet, but his reasons are different. He lifted a watch and $20 from his bed partner, Barney Carlson, and drew sixty days for his fun.

Barney rushed into the police station with blood in his eye this morning and excitedly asked if Charlie Olson were in. Sure enough, Charlie had been taken in about midnight, with a beautiful load of wet goods in his person. Barney told his story and the drunk charge was dismissed. Instead, Olson was arraigned for petty larceny.

He pleaded not guilty, but Carlson's story and the fact that he had Carlson's watch and $10 on his person when arrested convicted him. He and Carlson secured a room together last night and retired. Olson worked the old, old trick of the Bowery. While Barney was sleeping the sleep of the just and unsuspicious, Olson arose, took the watch and money and bade his friend a silent farewell.

That was early in the evening. The prosperity was too much for him, and he acquired a jag on Carlson's coin. Barney recovered $10 and his watch and gleefully departed, while Olson went up on the hill.

* * *

Detective James Walsh is a sure enough success as a plain clothes man. Twice in a week, testimonials of the fact have been given unconsciously by habitues of the Bowery. His beaming face, displaying generosity and good fellowship, disarms the suspicious law-breaker at first glance and they walk into his arms. As a rule, the street beggar can scent an officer twelve blocks away through brick walls. How they acquire the faculty is a mystery, but they usually get away with their trade. Detective Walsh isn't an ordinary officer, for there their scent fails.

Pat Doyle touched Walsh for the price of a meal a few days ago. He is serving fifteen days. Last night William Halberg and Berger Hanson thought he looked easy and tried to make a touch. They drew lodging in the police station over night and they'll get ten days free bed and board, with some work thrown in, at the county jail.

* * *

Ernest Skoog, Nick Martin and James Kelly are patrons of the police lodging house. They got away with it for about a week, but the patience of the officers finally gave out and they were arraigned as vags this morning. They drew $15 and costs, or twenty days each. Five plain drunks got away with the minimum fine.

Thousands Are Sick

With the grip, colds, fevers, rheumatism, neuralgia. Many might be well if they had only taken Hood's Sarsaparilla, the great blood purifier and health-regulating medicine. It is a wonderful preventive as well as cure. Keep it in your house and take it.

Never Without Hood's—"I have taken Hood's Sarsaparilla for indigestion, and recommend it to others for that complaint. It is an excellent medicine and I keep it on hand." A. S. HEATH, Adams Centre, N. Y.

Kidney Trouble—"I had kidney trouble. A friend recommended Hood's Sarsaparilla. I tried one bottle and found I was better, took three more and recovered." BENJ. LEVINE, 80 Village Street, Boston, Mass.

Jaundice – "I had a severe case of jaundice and fell from 145 to 90 lbs. in weight. A friend advised taking Hood's Sarsaparilla and when I had taken three bottles was up and on my feet." JOSEPH LEWIS, 19 Alpine Street, Boston, Mass.

Hood's Sarsaparilla is sold everywhere. In the usual liquid, or in tablet form called **Sarsatabs.** 100 Doses One Dollar. Prepared only by C. I. Hood Co., Lowell, Mass.

THE STOCKS ARE STRONG

The Copper Market Has a More Favorable Tone.

Good Reports From Cananea and Butte & Ballaklava.

Copper stocks enjoyed a good advance during the session, today. The tone at the opening showed an improvement and the bulges continued until the close.

North Butte advanced steadily from $46.50 to the close, which was $47.75 bid and $47.87½ asked. Amalgamated opened at $52.25, advanced to $53.62½ and closed at $53.62½ bid.

Greene-Cananea opened at $7.25, advanced to $7.37½ and closed at $7.25 bid and $7.37½ asked. Butte Coalition opened at $16.25, advanced to $16.87½ and closed at $16.50 bid and $16.87½ asked. Calumet & Arizona opened at $107.50, advanced to $109.50 and closed at $109.50 bid and $110 asked. Aanconda opened at $32.50, advanced to $333.37½ and closed at $33.37½ bid.

Superior & Pittsburg sold at $12.12½, advanced to $12.37½ and closed at $12.25 bid and $12.37½ asked. Globe sold at $7.62½ and $7.50, and closed at $7.50 bid and $7.62½ asked; Denn-Arizona at $4.37½ and $4.50, and closed at $4.37½ bid and $4.50 asked; Calumet & Sonora at $6.87½ and closed at $6.75 bid and $7 asked; Butte & Superior at $1.50 and closed at $1.50 bid and $1.62½ asked. Butte-Ballaklava sold at $6.75.

Black Mountain sold at $6.75 and closed at $6.75 bid and $6.87½ asked.

* * *

A meeting of the directors of the Butte & Superior Copper company was to have been held here today, but it was postponed to Feb. 18.

* * *

There is a possibility that production at the Greene-Cananea will be resumed on or before May 1, when this company will be in position to supply a monthly output of 5,000,000 pounds.

During the past three months the energies of the company have been bent in the direction of broadening the developments at the Cananea Central and Cananea Duluth, and improving the smelting and transportation facilities, thanks to which better results may be looked forward to from every department when ore shipments are again resumed.

The feature of recent operations is to be found in the favorable developmnts on the Cananea Duluth tract, where the new shaft is bottomed in ore assaying 15 per cent copper and twenty-five ounces of silver per ton. This development in a practically virgin territory is of exceptional importance, and tends to confirm the opinion of those who have consistently maintained that a better average yield would follow the commencement of ore shipments from this property and the Cananea Central, both of which are now provided with direct rail communications and in every way equipped to supply a total of 1,000 tons of ore daily.

The Capote shaft is being permitted to fill with water, the purpose being to quench a fire that has been smoldering in one of the levels the past two years. It is expected that this trouble will be permanently eliminated by the time the company resumes production.

The task of rebuilding the smelting plant will be completed next month, when the requirements in this direction will leave nothing to be desired. Compared with the former plant the new one is expected to be oprated at an enormous saving.

The Greene-Cananea now employs about 800 men, which number is soon to be gradually increased. The fact is scarcely appreciated that its patented mineral lands comprise about sixty square miles, in addition to the surface rights of a tract of over 600 square miles, without doubt the largest holding of any mining company in existence.

* * *

"The showings of the Butte-Ballaklava property at the 500-foot level have been far better than we expected," said J. A. Perceival, secretary of the company, who returned yesterday from Butte, "and we have every reason to expect still better showings at the lower levels, as this is characteristic of the Butte camp.

"We have crosscut the Old Joe and Edith May veins and are new workings in the Speculator and Sioux Chief veins. You must bear in mind that the veins run very close together, and it takes but a very short time to crosscut from one to another. This explains the announcement in quick succession of several important strikes at the property.

"When I left Butte the crosscut in the Sioux Chief vein had penetrated the vein 3½ feet, and the showing was even better than in the Edith May. We think that the Sioux Chief is going to be the richest vein we have at the present depth. They were eight feet in the Speculator vein when I left and the breast of the working was still in the ore. The ore in the Speculator at the present depth is not as rich as in the Edith May or the Sioux Chief, but it is an excellent grade of commercial ore, and with greater depth we expect that it will be the most valuable vein on the property. The Old Joe vein, which is 28½ feet wide at the point where the crosscut passed through, has thoroughly mineralized, and at a depth of 200 feet more we shall have, we fully expect, good commercial ore and lots of it. Our total surface measurement of the veins that apex on the Butte-Ballaklava ground, and which have been intersected by crosscuts, is 3,600 feet. The work of drifting on the Edith May vein is in progress.

"We are installing an electric air compressor and pump, and as soon as they are in place we shall resume sinking in both shafts. At the 700 level we shall again run crosscuts and begin stoping and shipping ore. We epect to begin shipping about April 1. R. B. Dear, president of the Butte-Ballaklava company, is spending all of his time at the mine and is in full charge of the property.

"Our company is in excellent shape, and is amply prepared to continue developments and put the property on a paying basis."

"Fitwell" CLOTHING
112 WEST SUPERIOR STREET.

WHEN IN TOWN, GO TO
BROWN'S

Nicely equipped Billiard and Pool Hall, and the only Bowling Alleys in town. **Two Places.** Central Billiard Hall, 312½ West Superior street. M. Canfield, Mgr. Billiard Hall; Sam Olsón, Mgr. Bowling Alley.

CITY BRIEFS

Music at the Spalding Cafes.

Flaaten's orchestra will play Saturday, Sunday and Wednesday evenings during the dinner hour.

Methods Too Strenuous.

William Knife and Edward Kelley were brought down from Chisholm yesterday to serve a ten-day term in the county jail for disorderly conduct. They were sentenced by Judge Freeman, who found them guilty of engaging in a "rough house" in the saloon of a man named Roth.

Public Affairs Committee.

The public affairs committee will hold a meeting at the Commercial club this evening. Several matters of importance are scheduled to come up for consideration.

Scandinavian Meetings.

The prayer meetings will be continued this week at the Swedish Mission church, corner of Twenty-first avenue west and Second street.

Cut to the Quick.

The prices on fur and fur trimmed wearables at the Gidding store have been subjected to most relentless cuts. * * *

A Special Demonstration.

Madame Westbrook of Chicago is holding a special exploitation sale and fitting of the Gassard front laced corsets at the Gidding store, this week. * * *

Case Settled and Dismissed.

The civil action brought by Ernest Ellitt against the Northern Pacific company has been dismissed from the district court on stipulation of the parties, based on a settlement. Elliott was represented by S. A. Anderson of St. Paul.

Knights of Pythias Initiate.

North Star lodge, No. 35, Knights of Pythias, will gather at Castle hall, this evening, to work in the first and second ranks. There is quite a large class of candidates to be initiated in the two ranks. One week from tonight the lodge will work in the third degree. It is expected that there will be many visiting knights present from range lodges.

New Water System.

Plans are being made for the supplying of the buildings of the county poor farm with water by connection with the mains of the hillside district. City Engineer McGilvray is now making surveys, with a view to recommending the most available plan, which will probably be by connection with the Duluth Heights mains. The water will also be delivered by gravity. The poor farm is at present supplied by means of a well having no connection with the buildings.

Slip on Walk.

While en route to his home near Nineteenth avenue east and Dingwall street last night about 7 o'clock, W. F. Hankin, an employe of a Superior street store, fell on the sidewalk at the corner of Eighteenth avenue east and Dingwall street and suffered a fracture of the leg. He was removed to St. Luke's hospital.

Nonegenarian Dead.

Mrs. Helena Rohe, aged 92 years, died yesterday afternoon at the home of her neice, Mrs. Frank Kilgore, 122 East Eighth street. She had lived in Duluth for about fifteen years and up to a few days ago made her home with another neice, Mrs. Osterloh, who died last week. The funeral will be held tomorrow morning from the German Catholic church, with interment in Calvary cemetery.

Funeral at Hermantown.

The funeral of Mrs. George Ingta Hanson, who died yesterday at Hermantown, will be held tomorrow afternoon from the residence at 2 o'clock. Rev. Carl Solomenson will officiate and interment will be in the Lutheran cemetery at Hermantown. Mrs. Hanson was 88 years of age and is survived by her husband and a daughter, Mrs. J. Engvall.

Choir Practice.

The choir of St. Luke's Episcopal church will hereafter hold practice on Friday night, instead of Wednesday nights as formerly.

Most Women Know This.

There are no White Sale Bargains to match those at Duluth's greatest white sale. Come to Gray-Tallant company's and see.

Superior People Wed.

Thomas H. Turner and Laura Witte, both of Superior, were married this afternoon by Probate Judge J. D. Middlecoff.

Ladies' Aid Society.

The Ladies' Aid Society of the First Baptist church will hold a special meeting at the home of Mrs. W. B. Patton tomorrow afternoon.

See for Yourself.

You can form no accurate idea by simply reading our ads—five minutes spent at Duluth's Greatest White Sale will tell you why the knowing ones buy at Gray-Tallant company's.

Board Will Approve Bonds.

A special meeting of the board of county commissioners will be held tomorrow for the purpose of accepting the bonds to be furnished on the various contracts for county printing and supplies. The board will also award the contract for the printed envelopes and stationery for the several county officers. This contract was not awarded at the annual meeting of the board.

PERSONAL

Deputy Grand Chancellor J. H. Davis will go to Ely tomorrow to conduct the instalation of officers of Ely lodge, Knights of Pythias, tomorrow evening.

During the long, dreary winter months mothers become tired, worn out, can't eat, sleep or work. Hollister's Rocky Mountain Tea is the greatest blessing for mothers. Make them happy and well. 35 cents, Tea or Tablets. Ask your druggist.

Selected real estate mortgages for sale. W. M. Prindle & Co.

Silberstein & Bondy Company.

One lot of val laces at 2c per yard.

Remnants of lace at much less than cost, some of the finest things are to be found among these.

All fancy buttons will be sold at one-third and one-half off.

THE WHITE SALE CONTINUES

PATTISON TO GO OUT?

Rumor That Denn's Manager is to Quit, Unconfirmed.

Rumors regarding the retirement of B. M. Pattison as general manager of the Shattuck-Arizona and Denn-Arizona mining properties at Bisbee, and the appointment of A. S. Parnell, formerly manager of the Calumet & Arizona, as his successor, have been heard of late, but today, when interviewed regarding the report, Martin Pattison of this city, a prominent director in both companies, and father of B. M. Pattison, only smiled, and said he did not know his son was to retire and that Parnell was to go in.

Asked if he would be aware of such a change in the affairs of the Denn and Shattuck companies, Mr. Pattison replied that he would. He declared, however, that as far as he knew, his son had not resigned nor were the directors considering the appointment of Parnell in the event the younger Pattison did step out.

These rumors have been flying around Bisbee lately. Some point to a split between the Pattison-Shattuck faction and the Guthrie-Bardon-Chisholm faction of the board of directors as the reason for the projected change.

Farther than what is given above, Martin Pattison would say nothing regarding the future work at Denn and Shattuck.

A. M. Chisholm, another local director of the companies, is out of the city and could not be interviewed on the matter today.

Rumors from Bisbee are to the effect that the Hill interests, with which Bardon and Chisholm are supposed to be identified, are in control of both companies.

Outsiders Here.

There are several outside railroad men in the city today. Among them are George H. MacRae, assistant general passenger agent of the Omaha; Fred Lyons of the Rock Island; A. M. Cleland, general passenger agent of the Northern Pacific; G. A. Mitchell, his assistant; General Manager Gilbert, also of the Northern Pacific, and W. E. Witherspoon, representing the Minneapolis & St. Louis road. The Northern Pacific men are here in connection with the hearing in regard to the Fond du Lac train service. They maintain there is a deficit of about $700 a month with the Fond du Lac branch, and ask that the train making two trips a day be dono away with.

Resting Quietly.

Douglas A. Petre, who is critically ill at St. Mary's hospital, is reported as resting easily this afternoon. He still has a chance of recovery.

"The Organization of the Whiteside Exploration, Mining & Milling Company,"

To be incorporated under the laws of Arizona, Capitalization, $500,000; shares, par value, $1.00 each, fully paid and non-assessable, with non-personal liability, will take place at the Company's Office, Room 9, Mesaba Block, Duluth, Minnesota, on January 29th, 1908.

The properties of this Company consists of: Eight (8) full claims, 600 feet by 1,500 feet each, located in the Southwestern part of New Mexico, Socorra County, in the Wilcox Mining District. These properties lie in the "foot hills" of the Mogollon (Mug-a-own) mountains, which carry the "Mother Lode" of that Country, and are situated between "Little-Dry" and "Sacatone" Creeks.

The work already done on these properties consists of: One (1) incline shaft (123 feet), with 30 feet of drifting and cross-cutting, at the bottom, and at the 70-foot level, one (1) vertical shaft down 100 feet, 1 tunnel in "blowout" near surface, and tunnel in dyke, 25 feet.

This organization is no "fake" scheme to get money from the public, or to turn over a "Bonded Mine" for an inflated value, but, is a

Valid Business Proposition, Undertaken By Conservative, Practical Mining Men,

For the development of properties, which they believe, contains valuable Gold Ore, and, in such quantities as will insure large returns on the money invested in prospecting and working these properties.

The surface deposits, the rock formations and the mineralization to depths already attained, the specimens taken and assayed, and the opinions of experts, all tend to show that Pay Gold is there.

Richard Whiteside, (whose reputation is unquestioned), after spending large sums of money on these properties, is sufficiently assured of results to take stock for his, and his son's interests in these properties, and in order to get parties interested in the Company, there will be a few "Interests" sold, at a Pre-Organization price, on the basis of **5c per share,** as there was a small allotment of the pre-organization interests, and as the largest part of that is already subscribed for, we would advise anybody wishing to get in, with the Organizers, to send in their order at once, or call at the Office for same.

Parties who are interested, and would like to know full particulars, can learn and see same, by calling or addressing the Company's Office,

Room 9 Mesaba Block. Zenith Phone 1849—X.

26 Pianola PIANOS

On the Battleship Squadron

Admiral Evans' great fleet, now on its way to the Pacific coast, carries twenty-six Pianola Pianos.

They were purchased from the Aeolian company with funds raised by men and officers for amusement purposes.

The notable unanimity with which these various committees selected the Pianola Piano **from among its many imitators** is equally a tribute to the instrument itself and to the good judgment of the men on this committee who were experts in the fine point of **mechanical construction.**

The Pianola Piano and Pianola rank as **The Standard** instrument of their class the world over.

The Themodist and Metrostyle are of vital importance and yet are wholly unknown to imitators.

Pianola $215 and $300.
Pianola Piano $500 up.

Purchasable by moderate monthly payments.

INSURANCE MEN ANGRY

The School Board Takes Business Away From Them.

Special Meeting is Called to Rescind Committee's Action.

Although the members of the board of education thought last night that they had disposed of the fire insurance problem until next spring, they found it necessary late yesterday afternoon, to hold a special meeting and rescind the action of the committee on administration and finance, which had awarded the insurance on the Franklin and Madison schools to some forty-one different agencies in town.

The forty-one agencies are naturally angry now.

But the members of the school board only did what was right, and while regretting the annoyance they caused the forty-one, cannot see that they could justly have done different.

The root of the trouble lay in the instructions given to the committee on administration and finance at the last meeting of the school board, held last Friday. The matter of the insurance on the two schools, which have just gone into commission, was referred to the committee with power to act, but no mention was made in this motion to give the business to the "big five" agencies, which the board last spring decided were entitled to all school business. The members of the board did not think about it—they thought that the committee would give the "big five" the business, without special instructions to do so. But then came the trouble, because the committee did not give the insurance to the "big five."

Last Saturday, the day following the school board session, Capt. D. E. Stevens, J. J. LeTourneau and L. A. Barnes, members of the committee on administration and finance, met to dispose of the insurance. Two members, Capt. Stevens and Mr. Barnes, wanted to let every agency in the city except the "big five" and those in which Mr. Barnes is interested, in West Duluth, write some of the insurance. Mr. LeTourneau, feeling that the committee would be going against the wishes of the school board as a whole, as shown by the action last spring, in doing this, opposed such a move, but it was two against one and he lost.

Accordingly, the clerk of the board was instructed to give thirty-nine agencies policies of $1,000 each, one agency a $900 policy, and one a $719.29 policy, and this was done. Yesterday, as a special meeting of the board held in President Codding's office, the board rescinded the committee's action, ordered the policies cancelled and the insurance placed with the "big five" agencies.

When the members of the board heard of the committee's action of a week ago, they asked the president to call yesterday's special session. There were present yesterday President Codding and Directors Le Tourneau, Campbell, Barnes, Brewer and Cobb. Capt. Stevens being absent, Mr. Barnes was the only director present who wanted the insurance placed with the forty-one agencies outside of the big five. He argued for the upholding of the action of his committee in the matter, but the other members of the board felt that such a course would be in direct opposition to the policy of the board as decided after the insurance arguments of last spring. So the insurance was taken away from the forty-five and awarded to the "big five."

The agents who for a week have been enjoying some of the school board's business feel very much put out over the fact that it has been taken away from them.

"I feel as if we had been made monkeys of," said one of the "forty-one" today. "We are treated like a lot of children. The board gives us a tiny piece of candy and then takes it away from us, just to see us cry, I guess."

The insurance on the new Madison school and contents amounts to $21,900 and on the restored Franklin building and its contents, $18,719.29.

Prior to last spring the insurance on the public schools of the city was carried exclusively through the Manley-McLennan agency, but such a commotion was raised that the board finally distributed the business as follows: One-third to Manley-McLennan and one-sixth to J. A. Stephenson, Clark-Hepworth company, Little & Nolte and Mendenhall & Hoopes. These concerns comprise the "big five." The Manley-McLennan people were given the best of it because the board felt under obligations, that concern having been responsible for the securing of lower rates on the schools.

American Ships Slow.

It is but natural that Americans should feel regret that we have been taking such slight part in the advancement of ship building, and have allowed the English builders to turn out such record breaking ships as the Lusitania and the Mauretania proved to be. It is also only natural for a sickly man or woman to want Hostetter's Stomach Bitters first of all, because past experience has proven that it is not only safe and reliable but when taken promptly at the first sign of distress, immediate relief is assured. It is therefore a wise plan to always keep a bottle handy for some member of the family is apt to need it when least expected. It cures poor appetite, insomnia, headache, bloating, heartburn, vomiting, dyspepsia, indigestion, colds and malaria. Try a bottle, also ask for our 1908 Almanac. It is free and worth having.

SWAMP LANDS GO TO THE STATE

Important Decision Takes Them Out of Forestry Reserve.

The state's claim to the swamp lands in the Chippewa Indian reservation is valid, according to a ruling of Secretary of the Interior James R. Garfield. This is an important decision, for it will result in Minnesota getting control of 187,000 acres of land, a great amount of which is scattered throughout the territory that was set off for a forestry reserve. Instead of being tied up in the reserve, the land and timber will be sold by the state, and the land eventually improved.

The decision is taken to mean that the forestry reserve idea has been abandoned, so far as Minnesota is concerned. While Minnesota people generally favored forestry reserve in such sections as were unsuited for agriculture, it has been argued all along that much of the land set off by the government for a reserve was good for farming purposes, and this fact has occasioned much severe criticism.

NEW POSTMASTER.

Washington, Jan. 14.—(Special to The Herald.)—Joseph Moloney has been appointed postmaster at Williams, Beltrami county, vice W H. Dure resigned.

Complete Housefurnishers BAYHA & CO Second Ave. W. and First St.

OPEN SHOP SPREADING

Steam Boiler Workers May be Involved in the Struggle.

W. E. McEwen Prepares Reply to Answer of Civic Committee.

The movement for the open shop has spread to the boiler companies, and it was announced this morning by the managements of three steam boiler manufacturing concerns in Duluth and Superior that every institution of the kind in the two cities would hereafter be conducted on the open shop basis. Something over 200 men are affected. They have taken no action as yet, but will hold a meeting next Saturday to consider the matter, and it is said to be probable that a strike will be ordered.

The National Boiler works and the Northwestern Boiler works of Superior are standing with Duluth on the proposition, and both of these institutions have declared for the open shop, and have refused to sign agreements with the employes. It is customary for the boilermakers and their employers to sign agreements the first of every year. This year the companies refused to sign, and let it be understood that they would no longer recognize the union, so far as any agreement as to wages and working conditions was concerned. The employers say they will not follow the example of contractors in the building trades, however, and lock out the men if they refuse to forswear allegiance to the union.

It will be optional with the men whether they quit work or not, but if they remain, it will be without a working agreement. In other words, if they quit, it will be a strike, and not a lock-out. It will not be known what the prevailing sentiment among the men is until after the meeting.

Some are understood to favor working along without any agreement until the employers make an effort to reduce wages, or take some other step that does not meet with approval, when they say it will be time enough to call a strike.

President O'Sullivan of the national sheet metal workers' organization, who arrived in the city early yesterday morning, brought promises of financial support for members of the union in Duluth, who are now locked out. There is some curiosity expressed among local labor leaders as to the significance of the open shop declaration in the boilermaking shops of Superior, and they are wondering if it heralds a general movement for the open shop in the city aoross the bay.

* * *

Messrs. A. H. Comstock, chairman, and Dwight E. Woodbridge, secretary Citizens' association—Gentlemen: I have carefully read your open letter as published in The Herald, which was an answer to mine of an earlier issue, and in reply thereto permit me to state that it is for the public to judge whether or not there is a violation of contract involved in the present lockout.

I still adhere to my former allegation that there was a breach of contract by the employers. Your letter conveys the implied admission of a violation of agreement. By an interpretation now for the first time given to the terms of the contract with the electrical workers' and sheet metal workers' unions you attempt not to deny, but to justify your position in abrogating them.

You quote Article VI of the contract of the Electrical Workers as follows:

"No non-union men shall be employed when a satisfactory union man is available."

Then you assert: "Union men refused to work and were, therefore unavailable." This is a mere play on definition of words, but I shall take your interpretation of this paragraph, and shall ask you if this is the truth? Did union electricians first refuse to work? Did not most of the employing electricians lay off their men and post "open shop" notices in their shops, thus themselves violating the provisions of the contract to which you refer?

The rule governing the sheet metal workers, like that of the electrical workers, was subject to but on interpretation until this trouble came up. Now you, who played no part in affecting the settlement of last May, when the contract was made, take upon yourselves to offer an excuse for forcing the employers to disregard their contracts.

You, however, mentioned only such contract with building trades unions as are by hair-splitting distinctions, in your opinion, capable of other than one interpretation. You fail to say anything about the contracts of the employers with the plumbers' and steamfitters' unions. You did not quote Rule No. 1 of the plumbers' contract, which reads: "No shop shall employ any but union men having a clear working card of the U. A." The letters "U. A." are understood by the members of the trade to mean the United Association of Journeymen Plumbers and Gas Fitters.

The contract with the Steamfitters' union, article iv., reads: "All persons signing this agreement agree to hire none but members in good standing in the Steamfitters' union." Neither did you quote this provision. Why did you omit it?

You may say that the Builders' exchange had nothing to do with the making of the contracts with these unions, but that offers no excuse for their violation by the parties who made them.

The fact is, that either you or the men interested in your movement forced the employers to violate their agreements with the unions under threats that they would be given no contract until they declared for the "open shop." Under your use of the boycott, a weapon you pretend to abhor, you have forced a number of peace-loving employers of labor to wage a war against their workingmen if you contradict this, we are in a position to furnish the proof.

I am not complaining so much about the methods to which you resort to win your battle, but when you are fighting under false colors you ought to be exposed. You are against labor's kind of boycotts, but you are for your kind of boycotts.

You assert in your letter that I am making untrue statements relative to the situation for the purpose of unfairly influencing the public. It is easy to question the veracity of an opponent. Sometimes it is the only argument one has to advance. If I desired to respond in a retaliatory manner I might say with truth, that many charges are being made against the Duluth unions as to their methods and practices, which are not founded upon facts.

In rather well guarded language you deny having any relations with the National Association of Manufacturers. You know best to what extent you are connected with that organization. We can only draw our own conclusions from the presence of Mr. Drew, the duly accepted representative of the National Association of Manufacturers, in this city.

He was the man that did most of the talking to the Builders' exchange and the Real Estate exchange. As the result of his speech the meeting at the Commercial club declared for the "open shop," and your committee was then appointed. Contractors have informed me that there was a possibility for a settlement of our trouble prior to the time when Mr. Drew came to Duluth. However, I don't blame you for being ashamed of any connection you might be charged with having with this labor crushing organization.

In your conclusion you say that you believe in "the 'open shop' and equal rights for all, and the best interests of the city require that the principle be maintained." You style yourselves a citizens' committee, and yet there are more than 5,000 citizens in Duluth affiliated with labor organizations. These hold for the union shop and "equal rights for all." We do not believe that you are alone more capable of securing equal rights for all than we are alone. The peaceful and prosperous relations of capital and labor can only be effected by mutual understandings between them. I would respectfully refer you to the recent Cooper Union speech by Secretary of War W. H. Taft.

You charge us with paralyzing industry in Duluth because we do not capitulate on your terms. Your assertion is an indication that we are a factor that should be reckoned with, and we have a right to expect it.

The truly loyal citizens of Duluth surely should not desire to prolong a war that can be productive of nothing but disaster to every interest involved. Somewhere on the industrial field there ought to be a meeting ground between the contentions of capital and the claims of labor, where honorable men with righteous motives can adjust all misunderstandings.

We stand for peace, not war. Our one hope is that you will yet see the wisdom of dealing with the representatives of union labor in a manner becoming twentieth century employers. Yours very truly,

W. E. McEWEN.

Duluth, Jan. 14, 1907.

Omega Oil

RHEUMATISM

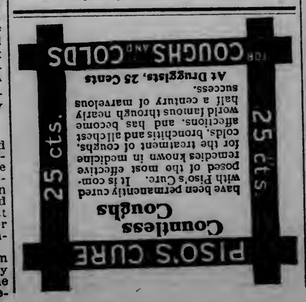
Many people think Rheumatism can't be cured by external treatment, but that is a mistake. Omega Oil has cured many cases, and those who are getting no benefit from internal remedies should try the Oil.

Simple Remedy for La Grippe.

La grippe coughs are dangerous as they frequently develop into pneumonia. Foley's Honey and Tar not only stops the cough, but heals and strengthens the lungs so that no serious results need be feared. The genuine Foley's Honey and Tar contains no harmful drugs and is in a yellow package. Refuse substitutes. Sold by all druggists.

PREVENTED SUICIDE.

Shell Lake, Wis., Jan. 14.—H. Steinhurst of Chicago tried to commit suicide at the county jail. He made a noose of a belt he was wearing, but fellow-prisoners discovered him before he was strangled to death. He was under arrest for assaulting D. O. Brewers of Minong, Wis.



Hay's Hair Health

Never Fails to RESTORE GRAY or FADED HAIR to its NATURAL COLOR and BEAUTY

No matter how long it has been gray or faded. Promotes a luxuriant growth of healthy hair. Stops its falling out, **and positively removes Dandruff.** Keeps hair soft and glossy. Refuse all substitutes. 2½ times as much in $1.00 as 50c size.

IS NOT A DYE.

QUARANTINE CONTINUED

City Council Refuses to Trust Entirely to Vaccination.

Health Commissioner Instructed to Continue the Present Regulations.

WHAT THE COUNCIL DID.

Passed resolution calling upon Dr. Murray to continue quarantine for smallpox as in the past.

Decided to close up deal for securing of Tischer Creek park property.

Took no action on question of revoking saloon license of John Carlson, 507 West Superior street.

Extended limit of district covered by smoke ordinance to Fifth avenue east.

Application of T. Nusbaum for transferring of saloon license refused.

Received surrender of franchise for street car line to New Duluth from A. C. Volk.

Expressed hope that Northern Pacific Railway company will continue train to Fond du Lac.

That Duluth's peculiar circumstances and large transient population would not permit of experimental measures in dealing with contagious diseases and that strict quarantine and vaccination together are better than vaccination alone in handling smallpox, was the decision of the city council last night, when a three-weeks' consideration of the question of formulating smallpox regulations more rigid than those of the state board of health was brought to a close by passing Alderman Wilson's ordinance calling upon Health Commissioner Murray to continue the present quarantine.

There was some discussion last night, but the matter had been so thoroughly covered that there was no warmth to it. The point of discussion was the taking from the health commissioner of his discretionary powers in dealing with contagious diseases. The sentiment of the aldermen was undoubtedly for the ordinance, but there was some doubt as to whether the council should put the health commissioner under strict rules. Alderman McEwen argued against it, as did Aldermen Getchell and Filiatrault. Alderman Wilson said his only desire was to continue with the same quarantine used in Duluth in the past.

Dr. Murray explained that under the present quarantine system, as used in Duluth, when a house is quarantined the well members of the family are permitted to go out or remain in altogether. If they wish to go out, they are vaccinated, their clothing fumigated and they are turned loose, but they may not return to the house and leave again during the quarantine period, without having had their clothes fumigated again before they leave. He said the quarantine was nearly altogether a question of honor with the people in the house and the only way it could be made otherwise would be by a shot-gun quarantine, placing guards at each house. The aldermen fought shy of the shot gun quarantine, and Alderman Wilson's ordinance was amended so as to provide that Dr. Murray's rules, which must be filed with the city clerk, will be substantially the same as those now in force.

Such being the understanding, the ordinance was passed, Alderman Filiatrault's being the only dissenting voice.

• • •

On request of the officers of the Duluth Curling club, an ordinance amending the smoke ordinance was introduced, providing for the extending of the limits to Fifth avenue east. Messrs. Hurdon and Smith, in their communication to the council, claimed that the soot was giving them trouble in maintaining their ice.

• • •

On motion of Alderman Foubister, a resolution protesting against the withdrawal of the trains between Duluth and Fond du Lac by the Northern Pacific Railway company was passed, and the state warehouse and railway commission called upon to prevent it.

• • •

City Comptroller McCormick was notified to report to the council whether he had been able to collect from the Zenith Telephone company the amount due the city on account of a percentage of the gross earnings.

• • •

The board of fire commissioners was authorized, as soon as there is money enough in the permanent improvement fund to provide for it, to select an approximate site for the location of the fire hall in the vicinity of Fifth avenue east and Seventh street, and to advertise for proposals for the sale of a site to the city.

• • •

When the question of revoking the license of John Carlson was brought up, Attorney Alexander Marshall presented the case of Mr. Carlson. He said that six men were allowed in the saloon by the bartender, to wait for Mr. Carlson, with whom they had left packs and some money the previous evening. He said no drinks were sold in the place, and to support his case, presented a memorandum by Judge Wilkinson in passing on the case, which said that the violation was purely technical, and the minimum fine would be imposed. Mr. Carlson's previous good character was testified to, and Alderman Moore said he would not push the revocation, and it was dropped.

• • •

A petition was presented for the improvement of Twentieth avenue east from Superior street to Fourth street, with a 26-foot roadway. It was referred to the board of public works.

• • •

City Comptroller McCormick presented a bill from Mrs. May B. Edmondson, formerly Miss E. May Bondy, for $181.74. Mrs. Edmondson, then Miss Bondy, acted as clerk of municipal court No. 2 in West Duluth from March 1 to May 15, 1895, at the rate of $41.66 per month. She claims $104.15 principal and interest amounting to $77.59. It was referred to the committee on claims.

• • •

It was held by the council that the transferring of a hotel license to a saloon license would be improper, and T. Nusbaum, who held a license at the Rialto hotel in West Duluth, was turned down on his request for a transfer to 17 North Fifty-fifth avenue west. The committee reported the objections to the transfer, and the council backed them up to a man.

• • •

A communication was received by A. C. Volk, in which he said that since all rights of his franchise of March 23, 1903, had been restored to him by the council amendment recently passed, he would live up to his agreement with the city and waive all rights and privileges under the franchise.

Many persons suffer with weak stomach and more or less illness because they fail to understand the simple and healthful plan of a breakfast somewhat like the following:

A little fruit.
A dish of Grape-Nuts and cream.
One or two soft eggs.
A Cup of Postum Food Coffee and perhaps a piece of hard toast.

A man says, "I couldn't go on that until noon."

One or two days' trial will teach him a big volume of facts and make him feel "fit as a lord." There is a deep underlying and scientific reason. The best argument, however, is the actual experience with such breakfasts.

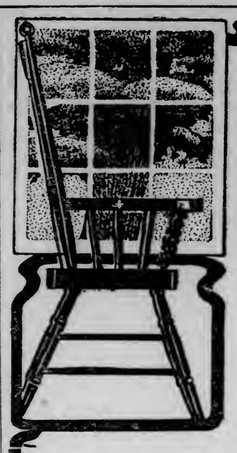
BRILLIANT BRIDAL PARTY.

Friends Who Will Stand Up With Miss Vanderbilt.

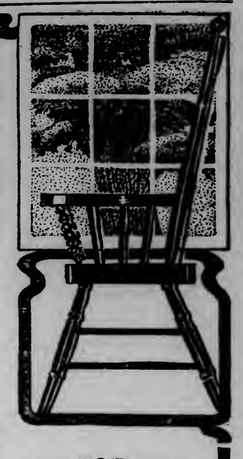
New York, Jan. 14.—It is announced that Miss Gladys Vanderbilt, when she marries Count Laszio Szechenyi, will be assisted by two bridesmaids, Miss Ruth Vanderbilt Twombly, daughter of Mr. and Mrs. McK. Twombly, and Miss Dorothy Whitney, daughter of the late William C. Whitney, and sister of Harry Payne Whitney, who married Miss Gertrude Vanderbilt, sister of Miss Gladys. Miss Flora Whitney, the little daughter of Mr. and Mrs. Harry Payne Whitney, will act as flower girl. Details of the costumes of the attendants have not yet been decided upon.

REAR ADMIRAL EVANS ILL WITH RHEUMATISM.

Rio Janeiro, Jan. 14.—The fact that Rear Admiral Evans, the commander of the fleet, is ill is cause for the deepest regret. The Brazilian officials deplore this the more, as they wished especially to make this visit the occasion for marked attentions to the Americans, but Admiral Evans is suffering from rheumatism and it is feared he will not be able to be present at the fetes, and without his presence these must lose something of their character.



LAST WEEK OF KELLY'S GREAT ALTERATION SALE!



If you need Furniture or Housefurnishings we urge you to buy now. Hundreds of people have taken advantage of the reduced prices that prevail throughout this great store. ALL CARS LEAD TO KELLY'S — 226-28 WEST SUPERIOR STREET.

WILL CLOSE PARK DEAL

Chester A. Congdon Will Donate Land Along Tischer's Creek.

In Return He Asks Vacation of Certain Streets.

By a resolution calling upon the mayor, city clerk and city attorney to close a deal for park lands along Tischer creek in East Duluth with Chester A. Congdon and the East Duluth Land company, the proposed new park along the little stream at Thirty-third avenue east becomes a probability. The only string on the deal now is the question of disposing of the sewage which is discharged into the creek at Woodland. It is proposed to run the sewage through a septic tank and it may be that the city will be forced to install the septic tank at its own expense.

The question of a park at Tischer creek was first broached to the council last March, when Mr. Congdon asked that certain lands in that vicinity be condemned for park purposes. Mr. Congdon is the president and largest stockholder in the East Duluth company and he and the company agreed to donate such lands owned by them and condemned for park purposes, to the city. Mr. Congdon likewise agreeing to pay the amount awarded to other owners of lands, and donate that land to the city also. The award made to owners exclusive of Mr. Congdon and the East Duluth was $4,960.58. Including the appraised value of the land owned by him and the East Duluth company, Mr. Congdon's outlay is $10,320.58.

Under the agreement, he was to pay the money after the city had vacated the existing plat of East Duluth and consented to a new platting. In a letter last night, Mr. Congdon agrees to pay the money immediately, if the council will agree to vacate the plat.

The proposed park extends from the boulevard on the north to Dingwall street, to be known in the future as Greysolon road, on the south, the land extending for a distance of about 200 feet on each side of the creek. The plans call for a driveway on either side of the creek, along the entire length of the park. In the contract to be made between the city and Mr. Congdon, he agrees to turn the land over to the city, retaining only the right to construct a concrete dam in the creek at a point near Greysolon road, and to run a pipe line from the dam and reservoir to the grounds of his house, now under construction on London road, to furnish water for a fountain.

Mr. Congdon's letter and the contract were accompanied by a petition from practically all of the property holders in East Duluth and the First addition to East Duluth, requesting the city to vacate certain avenues, the object being to replat the whole district in conformity with the topography of the land. Since East Duluth was first platted, Lake street, from the easterly side of Superior or Thirtieth avenue has been vacated to the east side of the plat, and the following avenues have been vacated below London road: Thirty-first, Thirty-third, Thirty-fourth, Thirty-fifth, Thirty-,sixth, Thirty-seventh Thirty-eighth, Thirty-ninth and Fortieth avenues east.

The petition asks that the city vacate the following: Vermillion, from London road to Jefferson street; St. Marie, or Thirty-first, from London road to Branch street; Michigan, or Thirty-second, from Dingwall street to Superior street, and from Superior street to west side of the plat; St. Claire, or Thirty-fourth, from London road to Superior street; Huron, or Thirty-fifth from London road to Superior street; Ontario, or Thirty-seventh, from London road to Superior stret; St. Lawrence, from London road to Jefferson street; all alleys in the First addition to East Duluth.

The petition is made that East Duluth, the first addition to East Duluth and five acres of land lying to the east may be replatted. It is pointed out that the roadway on either side of Tischer creek, in the new park, will do away with the necessity of some of the avenues, while others are in deep gorges and upon heights where they will never be improved.

The new arrangement of the plat, as set forth in the letter to the council, provides that London road and all the streets parallel to it will remain the same on the plat as they are now. Thirtieth, Thirty-second, Thirty-third, Thirty-sixth and Thirty-eighth avenues will remain the same; Thirty-first, Thirty-fourth, Thirty-fifth and Thirty-seventh avenues will be omitted; a new avenue will be laid out between Thirty-third and Thirty-sixth, to be known as Thirty-fifth and a space wide enough for another avenue will be laid out on the plat at another point.

A letter from President House of the Duluth & Iron Range railroad was also submitted, in which he promises that, if the replatting is made, the railway company, at its own expense, will place crossings under the track at Thirtieth, Thirty-second and the east side of block Thirty-one, where the railroad crosses the proposed new street. Through this, people going to Lester Park and Lakeside would be able to follow Greysolon road and cross the D. & I. R. tracks at three points, without crossing at grade.

In the contract, it is agreed that no lots will be disturbed in the replatting except those owned by the signers of the petition and other lot numbers and locations will remain the same, unless the owners choose to agree to the replatting and the arrangement is such then that their lots are included.

It was pointed out by the aldermen from the First ward that the proposed changes are in the nature of an improvement of that district of the city and, though there may be some selfish interest in Mr. Congdon's proposition to the city, he is also showing commendable public spirit in donating the park land to the city and assisting in the improvement of the park. The proposed replatting will enhance the value of the lots in East Duluth and the first addition, but it will also improve the city and the council will place no obstacles in the way of it.

The replatting will provide for the changing of the name of Dingwall street to Greysolon road, and Branch street to Greysolon Place.

"SAVING THE COUNTRY."

Elk River Star-News: Now that the holiday season is over and the fact that the country has got to be saved stares the public in the face, the politicians are getting on their working clothes, and from now on there will be something doing all down the line.

This observation is altogether timely and absolutely correct. The politicians are getting their working clothes on. What are the people doing?

For this is the time when the people as well as the politicians should get their working clothes on, and insist upon taking as active a part in politics as those who make it a business.

It is unpleasantly true that the people of this country have been inclined to sit back too much and complain of results to which their negligence contributed.

For instance, the people criticise bitterly the inertness of the United States senate, and protest that it is ruled by the "interests" whose success means harm to the people. And yet, if these same critics had watched more carefully the selection of the state legislatures that elect the senators, they could have had almost any kind of senators they wanted.

Again, party members criticise the action of conventions, and forget that they themselves failed to attend the caucus at which delegates were selected.

The process of nominating presidential candidates will be begun shortly. The first step is the selection of delegates to county conventions. Upon the character of these delegates depends the character of the nominations. If the politicians select the local delegates, that means that they will select the delegates to the state and district conventions, and that in these conventions they will pick the delegates to the national conventions. And that, in the end, means that they will pick out the presidential candidates.

"Of course the country has got to be saved," adds the Star-News, "and who more competent to do it than the politicians?"

This is only Editor Darc's satirical humor. The politicians are competent only to take care of their own interests, and they can be depended upon to do it if they have their own way.

The politicians have been given ample chances to save the country in the past, when they had pretty nearly everything in their own hands because most men voted the party tickets straight anyway. But they didn't save it, not to any noticeable extent. Instead they got the county tangled up in a nasty mess of special privileges to which the possessors cling now most tenaciously, whining pitifully if anybody proposes to take them away. Also, they got the public interests all snarled up in the meshes of a machine in the national congress where the "interests" have had things pretty much their own way.

There is much to be done this year. There are legislatures to elect, congressmen to elect, and a president to be nominated and elected. In view of the way in which the politicians have managed these matters in the past, it seems impossible that the people will let them "save the country" this year. The people will undoubtedly take a hand in the game themselves.

THE SMALLPOX QUARANTINE.

The city council is to be congratulated on the wisdom of its decision to provide a smallpox quarantine in Duluth, regardless of the new rule of the state board of health practically abolishing the quarantine on this disease in Minnesota.

The arguments made in behalf of the state board have not appealed to very many citizens of Duluth, so far as The Herald has been able to discover. As near as the average citizen could make out, the position of the board is that the smallpox quarantine has been ineffective, and that it ought, therefore, to be made less rigid than it has been. It was not proposed to abolish it altogether, but to make its rules less stringent, and to substitute vaccination, in a large measure, for quarantine as a protection against smallpox.

The reasoning that because a quarantine had not been effective it should be partially abolished is hard to follow. Ordinarily one would expect that if a quarantine had partially failed in its purpose, it would be made more rigid.

Duluth, however, is to continue the quarantine, no matter what the rest of the state does, and in the opinion of The Herald this action is wise and will prove popular. There is no quarrel with vaccination, any more than there is with the use of anti-toxin in treating diphtheria; but the people of Duluth would not feel secure if they knew that the attempt to control smallpox by quarantine were to be abandoned.

MARK TWAIN IN BUSINESS.

Mark Twain—whom some people and the baptismal records know as Samuel Langhorn Clemens—has had his name patented as the title of brands of liquor and cigars, and there is much to-do over the fear that the venerable but always youthful humorist is going to drop literature for the cigar and whisky business.

Mr. Clemens' agents have secured patents on the use of his name as an advertising device for liquor and cigars, but they have stated that his only idea is to forestall its use in that way by covetous manufacturers and distillers after his death.

In order to get the patent, and to maintain the exclusive right to its use, his agents are going to put out a few cigars and a little whisky. They are not going to sell much of either, but they say that it will be good whisky and good cigars that bear his name. They explain that it is necessary to do this in order to secure the patent and keep it, and to prevent others from using it.

This may be the law, but it does not square very well with the well known habit of manufacturers of buying up patents on improved machinery and squelching them to prevent competition with their own. This is a common practice, and one that has no doubt held manufacturing progress back not a little. Many an inventor has toiled over an improvement, sold it to a manufacturer, and died without seeing his idea in use, because his improvement over the machines then in use was so great that to put it on the market would involve a ruinous retirement of their existing facilities for manufacture.

The cases may not be parallel, but if it is necessary for Mark Twain to sell a little whisky and a few cigars in order to protect his patent on the use of his name for advertising purposes, it ought to be necessary for holders of manufacturing patents to do the same thing. If it is, and they do not do it, what is to prevent somebody going over the patent records, picking out the good things that are being neglected, and getting out new patents on them on the ground that the old ones are being neglected, and that this constitutes a wrong to society which it is not good public policy to permit?

At any rate, Mark Twain has taken out the patents referred to, and doubtless the "Mark Twain" whisky and the "Mark Twain" perfecto will shortly be on the market. As there is more than one kind of whisky, perhaps there will be an "Innocents Abroad" Scotch, a "Roughing It" bourbon, a "Huckleberry Finn" rye and a "Tom Sawyer" blend.

If the idea really is, as stated by Mark Twain's agents, to prevent others from using his name for advertising purposes, most people will sympathize with him. There may be some who relish such fame as is attached to the use of their names on brands of whisky or cigars, but to most such use of their names would seem one of the penalties of greatness, to be avoided as earnestly as possible. Very likely the law will prevent such a use of one's name during life, and while many will care little how their names are used after death, the great American humorist has pointed out a way of heading off the ambitious dealers in the means of dissipation even after death.

THE RAILROADS ARE WILLING.

From the developments at the hearing on the complaint against the Duluth railroads for providing free storage for Twin City jobbing houses, it appears that the railroads will be very glad to cease the practice if they can be assured that it will also be stopped at other ports on Lake Michigan and Lake Superior.

It ought to be easy to accommodate them. That is one of the things the interstate commerce commission was created for: to see that the railroads treat all patrons and all sections alike.

The testimony introduced at the hearing here yesterday and today went to show that the criticisms of the Duluth Commercial club and others are justified. It appears that this free storage privilege has been so grossly abused that it has been possible for jobbers in the Twin Cities to escape paying taxes on their goods, and even to avoid the expense of providing their own warehouses if they desired. They could have a shipment of goods brought by lake to Duluth, left in the railroad warehouse here, and shipped out direct to customers in Duluth territory. Thus the Twin City jobbers were given a valuable advantage, and the railroads, in many cases, lost freight charges that would have accrued had the jobbers been compelled to take their goods to their Twin City warehouses for distribution from that point.

If the railroads are willing to stop the practice here providing it is stopped at other points, the duty of the interstate commerce commission seems plain. It should issue an order prohibiting the practice everywhere. It should do this in the interests of fair play to all the jobbers, and in order that the goods may pay their just taxes in this and other states.

THE PEOPLE AND RAILROADS.

B. F. Yoakum of the Rock Island railroad contributes to the current issue of the Saturday Evening Post an article on "What the People Owe the Railroads." He starts upon the assumption that there has been too much talk about what the railroads owe the people, and too little consideration of the other side of the question.

It is an ingenious, an interesting and a plausible article, to hardly a word of which can exception be taken. It is perfectly true that the nation and the people do owe the railroads a great deal; possibly it is also true that they have not appreciated their debt to the railroads as much as they should. Certainly, too, no harm can be done by reminding the people that they owe something to the railroads.

However, the obvious reflection that will come to every unprejudiced reader of this article is this: Haven't the railroads been pretty apt at collecting in tangible cash everything the people owe them?

Mr. Yoakum says that the construction of railroads increases land values. True, but this is automatically reciprocal: the increased use of the land produced by railroad construction increases the amount of business the land will yield to the railroads.

Mr. Yoakum says that the construction of railroads causes an increase of the population of the territory tapped. True; but this, too, is automatically reciprocal: the growth of population created by the coming of a railroad increases the available traffic for the railroad and enlarges its earnings.

Mr. Yoakum says that the railroads develop the country. Again he speaks truth, and again is it true that the development of the country in every way adds to the earnings of the railroads.

As a matter of fact, Mr. Yoakum's arguments simply go to show how closely allied are the interests of the railroads and the people. When the people are prosperous the railroads are making money; when idle land is peopled and produces wealth, its settlers profit and so do the railroads.

Mr. Yoakum says that the railroads should be treated fairly, and beyond doubt they should be so treated. All that the people ask is that the railroads treat them fairly, too. The ideal relationship between railroads and people would be to have both prospering and contented: the railroads furnishing the best possible service at the lowest cost consistent with proper maintenance and fair profits. It is wrong to be unfair to the railroads, because when they are harmed the people are harmed.

But it is viciously wrong to permit the railroads to deal unfairly with the people, because in this case the people are harmed, the railroads profit little, and the proceeds of greed and unfair treatment are usually reaped by small cliques of conspiring railroad brigands who deal in Wall street with railroads as gambling tools.

Mr. Yoakum complains that unfair railroad legislation has been passed in certain states. That was a wrong thing to do, but not surprising in view of the arrogant manner in which railroads have manipulated state legislation in their own interests for so many years. It was a natural, if regrettable, result of an inevitable reaction. It will stop when the relationship between railroads and people settles down to a basis that is fair to both.

HOTEL GOSSIP.

F. T. Goodwin, at the St. Louis, has just returned from California, where he was the guest of a friend who owns an ostrich farm. You have heard of the voracious appetites of the birds with the beautiful feathers, but Mr. Goodwin tells some stories of their prowess in the digestive line that makes one closely scrutinize his features to make sure one has the right meaning.

"My friend was intending to build a barn," he began. "He ordered a lot of nails, some bolts and some iron braces for the joists. The barn was on one end of the ranch. The material, beside the lumber was left there until the carpenters came out from the city. Well, finally the carpenters arrived, early one morning. Soon the foreman came back to the house, while we were at breakfast, and wanted to know where the nails and bolts and things were. My host and the foreman very nearly had a serious argument over the matter. Finally he got his hat and started out to prove the foreman one of those persons whom the president has consigned to the Ananais club. But he didn't have anything on the honest but poor carpenter. The ostriches had broken into the kegs and eaten all the nails, swallowed all the bolts and braces, as well as nibbled at some of the lumber.

"One time a friend of my host came out from Redding, the nearest town to the ranch. He tied his horse with a small lead weight. He had slipped the strap through a post, leaving the weight to prevent the hitching strap from pulling through. When the three of us returned from an inspection of the ranch we found the horse and one of the largest ostriches engaged in a pulling match, through the hole in the hitching post. The ostrich had swallowed the small sized weight bodily. We cut the strap and kept the ostrich there a prisoner for two days as an example to the rest of the flock. Finally the bird pulled the weight out of its throat.

"One day Mrs. Olerich, that's the wife of my host, started to clean house. She moved everything out on the front porch. On Mr. Olerich's desk was a big pot of glue. One of the ostriches swallowed this pot and the muscus membrane of its long and willowly throat became glued together. It began to gasp for breath and we had to pour tepid water down its gullet until the adhesive walls of its throat became relaxed. Then the astrich went around at the back of the house and in some manner swallowed some graham flour. Then we had to begin our administration all over again. We had to give the bird cod liver oil to soften up the glucose matter, caused by the mixing of the flour and water. Then we tried up the ostrich for safe keeping. "There are many forms of gentle diversion on an ostrich farm."

* * *

One of the members of Miss Maude Fealy's company was telling a story of an occurrence that happened when the company was playing one of the towns on the Pacific coast. It seems that the Westerners are very chivalrous. They hate to see a woman mistreated. In the second act of Miss Fealy's play her stage husband raises his hand as if to strike her. Now, Miss Fealy is a little woman, a woman whom you wouldn't like to see struck. At the juncture when it loo s as if the near villain is going to slip one over, Miss Fealy pulls a revolver, and the irate stage husband forgets all about the right swing. It was at this exciting point, out West, so the member of the company says, when a gallant husky rose up in his enthusiasm, and announced to the world at large, and to Miss Fealy in particular: "Great, little Wesh; line. If that there galoot tries to hit yer, why, just pull that trigger; and if you want any help, Bill Westaway is here fer to see fair play."

Miss Fealy is supposed to get the calcium after the big scene, but that night, according to report, she rather unequally divided it with impetuous Bill Westaway. An attache of the theater later informed Bill that the scrap wasn't on the square. It seemed a shame to disillusion such an ardent defender of woman's rights as Bill proved to be.

* * *

Down in New York, according to the information brought here by Earl Conover, who is at the Lenox, Charles E. Hughes is not only proving a regular political cut-up down in the Empire State, but he has the added distinction of starting a tonsorial wave of enthusiasm. This isn't a marcel wave; rather it is distinctly Hughesiske in its form and endeavor. Many of the Hughes supporters are affecting the frontal foliage worn by the governor, says Mr. Conover. They are wearing whiskers of the flowing variety, just like the governor wears.

Wouldn't it be simple to prevent ballot-box stuffing, if every Hughesite would wear a long and flowing beard? How difficult it would be to get repeaters, for the cleavage between the different political camps would be marked by a thin red line of whisker. Every one could almost have his vote registered before he went into the voting booth.

Mr. Conover says that they are actually affecting the Hughes style of whiskers down in New York. There are some of the more radical politicians, for it would take a most radical politician to affect the governor's hirsute adornment. The Hughes supporters will look like the prophets and wise men of old, as they file into the convention hall, with their badges of consorial support and fealty.

Aside from all joking, though, Mr. Conover says the Hughes boom is gaining great headway in the Empire state.

THE WEATHER.

All the adjectives useful in describing fine winter weather have long ago been exhausted by everybody. There seems to be no end to it. This morning again was clear, fine and splendid, though last night it looked ever so much like snow. The weather man says there will be snow flurries tonight and possibly tomorrow, too, and that it will be warmer tonight and cooler tomorrow afternoon. Last night's lowest temperature was 12 degs. and yesterday's highest was 26 degs.

A year ago today it was cold and windy.

The sun rose this morning at 7:50 and sets tonight at 4:44, making 8 hours and 54 minutes of sunlight.

Says Mr. Richardson of conditions: "Barometric depressions overlie New England states, Saskatchewan and Nevada, snow or rain falling as a result in the Ohio valley and Pacific coast states during the past twenty-four hours. A rise in pressure from the Mississippi valley eastward to the Atlantic coast is attended by colder weather over most of that section, the center of the high barometer being over Louisiana. The temperature is rising in the extreme northwest because of falling pressures there. The outlook favors snow flurries in this locality tonight and possibly Wednesday."

Following were last night's lowest temperatures:

Abilene	28	Medicine Hat	20
Asheville	24	Memphis	28
Bismarck	14	Miles City	18
Boston	30	Milwaukee	16
Buffalo	18	Minnedosa	12
Cairo	24	Modena	34
Calgary	24	Montgomery	34
Charleston	34	Moorhead	14
Chicago	20	New Orleans	32
Cincinnati	26	New York	30
Concordia	22	Norfolk	38
Davenport	16	North Platte	18
Denver	18	Oklahoma	26
Detroit	26	Omaha	22
Devils Lake	16	Phoenix	48
Dodge	22	Pierre	16
Duluth	12	Pittsburg	22
Edmonton	14	Port Arthur	8
El Paso	38	Portland, Or.	40
Escanaba	22	Rapid City	20
Galveston	42	Regina	10
Grand Haven	26	St. Louis	20
Green Bay	16	St. Paul	16
Havre	16	San Antonio	40
Helena	24	San Francisco	50
Houghton	22	Santa Fe	20
Huron	12	Sault Ste. Marie	10
Jacksonville	36	Shreveport	30
Kamloops	30	Spokane	30
Kansas City	24	Swift Current	14
Knoxville	30	Washington	30
La Crosse	18	Wichita	24
Lander	8	Williston	14
Little Rock	38	Winnemucca	34
Los Angeles	52	Winnipeg	10
Marquette	20	Yellowstone	20

Department of Agriculture, Weather Bureau, Duluth, Jan. 14.—Local forecast for twenty-four hours ending at 7 p. m. Wednesday: Duluth, Superior and vicinity, including the Mesaba and Vermilion Iron Ranges — Snow flurries tonight and possibly Wednesday. Warmer tonight with lowest temperatures 15 degs. to 20 degs. above zero. Colder Wednesday afternoon. Fresh to brisk southerly winds shifting to westerly Wednesday.

H. W. RICHARDSON,
Local Forecaster.

Chicago, Jan. 14.—Forecasts until 7 p. m. Wednesday: Wisconsin — Increasing cloudiness with probably snow in north portion tonight or Wednesday. Warmer tonight. Colder in west portion Wednesday.

Minnesota: Snow flurries tonight with warmer in east portion. Wednesday generally fair and colder.

Not a Sectional Matter.

Washington Herald: Says the Montgomery Advertiser:

"The Washington Herald suggests Governor Johnson of Minnesota as the proper running mate for Mr. Bryan. We have no objections to offer to Governor Johnson—quite the reverse, in fact—but is it necessary to give the whole thing to the West?"

Really, we think that makes very little difference. If Johnson is the man for the place, and is full grown in his of thinking, where he hails from. The fact that he lives in Minnesota is merely incidental and should cut no figure at all. He would do just as well if he hailed from New York, South Dakota or Alabama. A man's a man for a' that.

This is a big country, and it is learning to know itself a great deal better than it did forty years ago. California is closer to Washington city now than Montgomery was a half century ago. The railroads, the telegraph, the long-distance 'phone, and the fast mails make us a much more closely united family than we were then. The brotherhood of the state is more nearly a truth now than it used to be. New York can very well afford to give it all to the West, so far as that goes, if giving it all to the West assures the right men at the head of this government. The rule works the other way, too. Sectional lines are not logically part and parcel of the presidential problem today. What difference should it make to this country—in sense and reason—that Senator Culberson hails from Texas, instead of Massachusetts, or Ohio, or New York, when we come to view him as a presidential possibility?

Johnson is all right, the very man for the vice presidential nomination. The location of his home has nothing, really, to do with it. Washington will be his home when he is elected, if he should ever be, and Washington is the nation's capital.

Pointed Paragraphs.

Chicago News: The good die young—especially good resolutions.

All love isn't blind; some of it is only near sighted.

A man may be as good as his word and still not be a saint.

Sometimes a wise man poses as a fool for financial reasons.

How small a doctor's pills are when compared with his bills!

The more money a man has the less he is willing to admit he has.

There's many a slip between the engagement ring and the wedding ring.

No man has half the influence that he expects his wife to believe he has.

It is easier to apologize for what you didn't do than for what you did wrong.

A mother never enjoys a visit away from home unless she can worry about the children.

One of the important duties of the elevator man in an apartment house is to see that the children are brought up properly.

Didn't Help Him.

Harper's: It is seldom that anyone thinks of laughing at a funeral, but an incident happened in Providence not long ago that caused a smile.

The regular minister was sick, and a preacher from a nearby town was asked to take charge of the services, and he arrived at the last moment, a total stranger in the town. When he started to speak he launched into an eloquent eulogy of the deceased, as was his custom, and was just beginning to pay a glowing tribute to the departed one when it suddenly dawned upon him that he did not know whether it was a man or a woman.

Stooping down, he whispered in the ear of an old man who sat beside him. "Was the deceased a brother or a sister?"

The old man was a trifle deaf, so the minister repeated the question.

"No, no," said the man. "Only a friend, that's all!"

Panic Causes.

Providence Journal: The causes of the American panic were as various as the sources of the American Constitution.

Stick.

Syracuse Post Standard: In descending from the water wagon don't hurry. It may ride easier if you once get accustomed to it.

TWENTY YEARS AGO.

Taken From the Columns of The Herald of This Date, 1888.

***The storms which have raged furiously west and south of Duluth for days have at last reached this city. Business in the city was almost at a standstill yesterday morning, the street cars were able to run only after constant clearings of the tracks and trains on all railroads into the city were hopelessly stalled. The unprecedented amount of snow that has fallen thus far during the winter, and the high winds of the past day or two have combined to make this the worst snow blockade known to railroad men in the history of Duluth.

***Capt. James Sullivan, than whom no sailorman is better known or more highly respected on Lake Superior, has been appointed master of the favorite Ontonagon and Duluth steamer, the City of Fremont. Capt. Sullivan has been in charge of the staunch little propeller R. G. Stewart for several years.

***The following real estate transfers have been recorded:

E. C. Chatfield to Samuel F. Boyce, undivided two-thirteenths of lots 15 and 16, block 10, Central division, $2,500.

J. A. Dewey to J. Munroe Smith, undivided one-quarter of lot 9, West Second street, First division, $1,500.

George E. Brett to David Ogilvie, undivided half of lots 413 and 415, block 78, Second division, $2,050.

***The Hall Iron Mining company, just incorporated, owns a valuable property on the line of the Duluth & Iron Range extension and will set a crew of men at work clearing at once.

***Mrs. B. J. Sawyer is visiting friends in the city.

***Miss Mabel Andrews of Minneapolis is visiting Mr. and Mrs. G. A. Elder.

***M. M. Gasser of St. Paul, who has bought out F. J. Marsh of the Opera grocery, is expected in the city tonight to complete arrangements.

***A literary society has been organized at Oenota by Mrs. Merritt, Miss Randall, Miss Gordon and others.

***It is proposed to form a construction company with a capital stock of $300,000 or $500,000, with Governor Hubbard as president, to build the Duluth, Red Wing & Southern road, of which amount $50,000 is to be raised in Red Wing.

***A new line has been surveyed from Sioux City to a connection with Duluth via the Manitoba.

***Old timers in Duluth will remember James W. Raymond, who was at one time associated with Peter Dean. He went to Bismarck, where he became a bank president and territorial treasurer, turning over to his successor a few days ago $300,000 in cash.

MINNESOTA OPINIONS.

Waseca Herald: The bill introduced by Senator Aldrich in the senate will, if adopted, inure to the benefit of Wall street gamblers. The bills thus issued will be "credit money," based upon credit paper—bonds, stocks, etc.—not upon gold, silver or other tangible property. It will be heaping credit upon credit to enable the gamblers of Wall street to continue their raids upon the people. The bill should be defeated.

Wadena Pioneer Journal: Men who have stood for what is right and square for many years, who know the sentiment of the people and will represent it, are the best ones to send as delegates, in our judgment.

Sandstone Courier: Bede's Budget has at last been revived. We have not learned whether J. Adam started this paper to give himself support at the Head of the Lakes, or whether it is to give himself recreation during his idle hours at the nation's capitol.

Ortonville Herald-Star: While the "interests" were fighting all kinds of sumptuary legislation a few days ago, some real sumptuous legislation seems to have crept in by the back way when no one was looking.

Sauk Rapids Sentinel-Free Press: The re-election of Speaker Joseph Cannon to the second most powerful office in the country by a unanimous vote of a Republican party caucus is the best Democratic argument in the world

New Ulm Review: The trouble with the supreme court judges in Minnesota is that they have too often been selected with regard, not so much to their profound knowledge of the law, as to their ability to get votes, geographical location very frequently cutting more figure than the temperament and erudition generally considered as attributes to a place on the bench. Moreover, they have been chosen not unfrequently in conventions that were scandalous because of their corruption and disregard of fitness for position. Do you expect to gather grapes from thorns or figs from thistles?

Anoka Union: It makes an editor bite his lips with anger when he reads a list of many of those who want to be delegates to the national Republican convention.

Sauk Center Herald: The movement to make Governor Johnson a presidential candidate seems to be gathering momentum as the days go by. The Democratic party could go farther and fare much worse than to choose Minnesota's vigorous young executive for its leader in the next presidential campaign.

Cannon Falls Beacon: The Alexandria Post News says the Republican newspapers are wasting time talking of a number of gentlemen for governor who for various reasons are not available, when there are plenty of the right kind. The Beacon pleads guilty to the indictment, and if the Post News will just mention one of the right kind we will stop our foolishness and get down to business.

Alexandria Post News: Hennepin county Republicans cannot expect to reinstate themselves in the good graces of the party in this state by selecting Thomas H. Shevlin as a delegate-at-large to the Republican national convention. The much shorter course to accomplish this difficult feat would be to endorse for that position William Henry Eustis, whose party work has been constructive rather than destructive.

Slumming on Fifth Avenue.

Life: Last week several rich families were visited and a number of cases of distress temporarily relieved.

A Newport branch has also been established. Those who, on account of their position and great wealth, cannot go out of their own set, will be visited hereafter regularly by intelligent people, who will talk to them on simple subjects. A nature study class has also been organized; the great beauty and hitherto unsuspected charms of our common wild flower (such as the daisy, golden rod and dandelion) will be taught, in contrast to the orchid, hothouse violet, etc. It is hoped in this manner to open up new fields of interest.

Bread and milk courses will also be a feature of the work. Instead of the ordinary dinners accompanied by a monkey and a Hungarian orchestra, during which in the open season the mortality has been so great, nothing but bread and milk will be allowed.

It is expected also that the game of craps will be provocative of a better standard of morality. Instead of Wall street, stock rigging, railroad merging, rebating, and, indeed, all the forms of the higher grafting, it will be shown that craps can be played with real interest and profit.

The main difficulty in this grand work is the fact that these people are almost universally ignorant of the conditions which surround them. Not coming in contact with a better class, they have no means of knowing how badly off they are. Once they are made to see this, however, a new awakening comes.

It is a mistake, of course, to give them too much help. The main plan of this work is to get them to help themselves.

The impossibility of reaching them by ordinary methods becomes daily more apparent. The children are especially pathetic. It is, indeed, difficult to imagine them as they grow up, developing into anything but high class criminals.

While there is life, however, there is always hope.

Johnson or Some One Like Him.

Rochester Union and Advertiser: Many of the leading Democrats who have commented upon Gov. Johnson's interview in the World have taken occasion to say that the man who wrote that summary is the man to lead the Democratic party to victory next fall. This is a matter for the party to determine; but at least it is perfectly certain that the candidate must be a man who believes in that doctrine no less earnestly than Governor Johnson does.

Johnson.

New York Evening Post: One does not even have to agree with Governor Johnson that the tariff is the paramount issue to feel pleased that there is a Democratic candidate who has some other paramount issue than his own renomination.

SMILING LINES.

Philadelphia Press: "But is there really any difference between 'insurance' and 'assurance,' "

"Yes, there is a difference; one is what the agent has and the other is what he persists in trying to sell you."

Baltimore American: "His wife made him."

"I might have known that as soon as I looked at him."

"Why?"

"Because he looked it. She used to work in a department store on misfits."

Chicago Tribune: Adam was naming the animals.

"What are you going to call this one?" asked Eve, pointing to the striped little specimen that came next.

"I am not going to call it at all," said Adam, holding his nose. "Send it away!"

That is why the skunk is known by so many different names.

Philadelphia Press: "Yes," said the political boss, "we'll have to give Crookley the nomination."

"But," protested the unsophisticated one, "why not Goodley? He's better able to fill the office."

"Perhaps, but Crookley is better able to get it."

Washington Star: "Politics must be a very trying profession."

"Woman, know," answered Senator Sorghum, "that it is no different in politics from what it is in private life. Your friends all speak well of you and your enemies knock."

Philadelphia Press: "I suppose," said the talkative man, "a good many of your patrons find it cheaper to move than pay rent."

"Very many," replied the real estate agent, "and we often find it cheaper to keep them moving rather than make the repairs they ask for."

Chicago Tribune: Mrs. Highmus — I suppose at some time in your life you struggled with the Nibelungenlied?

Mrs. Gaswell—O, yes. I had an awful siege of that in '93. I had to take all kinds of nasty medicines before I got it out of my system.

Cleveland Plain Dealer: "Why is Dingle growing that absurd beard?"

"I understand he is getting even with his wife for using his razor to pry the cover off a cold cream jar."

The Tariff and Democracy.

Philadelphia Record: If the country wants the tariff revised, it must elect a Democratic president and house of representatives. For the presidency it is already considering Governor Johnson, and in reply to the questions of the New York World, he says:

"The trust problem is still to be solved; but while searching for a complete remedy, we can at least withdraw from their grasp the special privileges they have enjoyed under a high protective tariff.

"It must be apparent that our present tariff, while mainly responsible for the existence of the trusts, is in addition a tax upon the masses for the benefit of the few.

"The farming of taxes in France before the Revolution was no more iniquitous than is our present tariff system."

Governor Johnson is evidently a Democrat, but in his state even the Republicans want tariff reduction, and the most conspicuous exponent of the "standpat" policy, who even suggested that it might be a good thing, if the tariff were touched at all, to raise it, was defeated in his latest effort to return to congress. All through the Northwest and in New England, Republicans are moving in the same direction, and there is some indication of a similar movement in Ohio, long a fortress of high protectionism.

Mark Twain and the Book Agent.

Washington Post: "Mark Twain is the most interesting character in American literature today and has made more money out of it than any other author," said A. S. Swanson, representative of one of the great publishing houses. "He lives just around the corner from our place, and so we see him very often. He is never so happy as when telling a story, and is often seen doing so in a group of congenial spirits. He was telling me that recently he went into the sales department of our house, and being attracted by a particular book, asked the price.

"'Four dollars,' said the clerk.

"'Well, now,' said Mr. Clemens, 'I am a newspaper writer. Don't I get a discount for that?'

"'Certainly,' replied the obliging clerk.

"'I am also a magazine writer. Do I get something off for that?'

"'Yes,' said the clerk, 'you get a discount for that.'

"'I am also an author. Don't I come in on the author's discount?'

"'Yes, sir; you get the author's discount.'

"'In addition,' said Mr. Clemens, 'I am a stockholder in this house. Does that entitle me to something off?'

"'Yes, sir,' the clerk returned.

"'Now,' continued Mr. Clemens, 'I would like to state that I am Samuel Clemens. Does that fact entitle me to another rake-off?'

"'It does,' said the clerk after a moment's hesitation.

"'That's good,' replied the author; 'now how much do I owe you?'

"'We owe you eighty cents,' said the clerk."

NEWS OF THE NORTHWEST

YOUNG GIRL LOSES LIFE

Falls From Heavily Loaded Sled on St. Croix River.

At Stillwater and is Run Over, Back Being Broken.

Stillwater, Minn., Jan. 14. — (Special to The Herald.)—Gretchen Kruger, a school girl of 13 years, was instantly killed yesterday afternoon by being run over by a pair of sleds loaded with mill edgings. Her back was broken and she did not speak after the accident.

In company with two other girls after school hours she went to skate on the St. Croix, along the race course. James Leslie was going up the lake with three sleds, each loaded with three cords of edgings that he was hauling with four horses to the state prison.

The girls climbed upon the tongue of the second sled that was fastened to the front one. The Gruger girl fell off and both the rear sleds passed over her. Leslie did not know the girls were riding. He stopped his team when the other girls shouted and was horrified when told of the tragedy.

THREATEN POLISH PRIEST.

Anonymous Letter Writer Objects to Money Being Collected.

St. Paul, Minn., Jan. 14.—(Special to The Herald.)—Rev. A. D. Major, priest of St. Adelbert's Catholic church, has received annonymous letters, in which his life is threatened if he does not cease collecting the usual contributions from members of the parish for the support of the church. There is no clue to the identity of the writer. The letters are written in Polish. The parish has a membership of about 2,600.

HIS SKULL FRACTURED.

Lake Angeline Miner Struck on Head by Rock.

Ishpeming, Mich., Jan. 14.—(Special to The Herald.)—William Wale, a miner employed at the Lake Angeline mine, is in a dangerous condition at the Ishpeming hospital, his skull having been fractured. An operation was performed, but there is doubt of his recovery.

He was working in the shaft of the mine when a boy on the level above dropped a rock weighing about twelve pounds. It struck the miner on the on the head, knocking him unconscious. Subsequent examination at the hospital showed that his skull was fractured. Whether the boy dropped the rock accidentally or maliciously, will probably be developed if Wale dies.

FOR RHODES SCHOLARSHIP.

Examination of Minnesota Candidates Jan. 21 and 22.

Minneapolis, Minn., Jan. 14.—(Special to The Herald.)—Applicants for the Rhodes scholarship at Oxford university, England, which falls vacant this year, will be examined Jan. 21 and 22, unless they have already qualified. The examinations will be held in the president's office at the University of Minnesota, and any unmarried student in any Minnesota college is eligible.

The schedule has been received by President Cyrus Northrop, chairman of the Minnesota committee, and calls for examination in Latin translation and prose and arithmetic on the first day, and Greek translation and grammar, Latin grammar and algebra or geometry the second day. All are two-hour examinations except those in Latin and Greek grammar, for each of which one hour is allowed.

Four applicants, Leifur Magnusson, Lucius Arnold Frye, Roscoe Sanford and Theodore Buenger, have already qualified. All are graduates of the University of Minnesota. The choice of the winning candidate from among these four and the others who pass next week will be made by a committee consisting of the heads of the colleges and universities of this state. Selection is based on qualities of scholarship, athletics, leadership and morality.

WHOLE TRAIN DITCHED.

Great Northern West Bound Passenger Has Close Call.

Fargo, N. D., Jan. 14.—(Special to The Herald.)—Flying along at the rate of forty miles an hour, the Great Northern west bound passenger No. 3 jumped the rails at a point about one mile east of Ross, N. D., yesterday morning, all the cars and the engine leaving the track. No one was hurt outside of a few minor bumps and bruises.

It appears that the rails spread immediately under the drivers of the engine, the forward trucks still being on the track. The mail and baggage cars turned over, but the passenger cars remained upright.

No More PILES

No Matter How Bad Your Case Is Or How Long You Have Had It Pyramid Pile Cure Can Cure It.

Free Package Sent to Prove It.

Half of the suffering and torture of piles has never been told. Whether your particular case of piles is almost too excruciating for any mortal to bear, or if you are fearfully tantalized by unreachable itching and bleeding or whether you have only a moderate case of piles, there is positive relief and quick, too, in Pyramid Pile Cure.

After using the trial you will hurry to your nearest druggist and get a 50-cent box of Pyramid Pile Cure, now admitted by htousands to be one of the most wonderful reliefs and cures for Piles ever known.

Instant relief can be gotten by using the marvelous Pyramid Pile Cure. It immediately reduces all congestion and swelling, heals all sores, ulcers and irritated parts. It renders an operation absolutely unnecessary.

Send your name and address today for free trial package to Pyramid Drug company, 138 Pyramid building, Marshall, Mich.

PROMINENT MEN OF MINOT SUED

Father and Two Sons Defendants in Unusual Suit.

Grand Forks, N. D., Jan. 14.—(Special to The Herald.)—Unless the case is settled out of court the rather unusual spectacle of an aggrieved husband suing a father and two sons for alienating the affections of the plaintiff's wife will be presented in the district court here, at no distant date. Interest in the proceedings is heightened by the fact that the defendants are prominent in the business world of Minot. Nels Larson of Larimore is suing Paul H. Rolse and the latter's two sons, Paul H. Rolse and Eddy Roise, for $25,000 damages, claiming they alienated the affections of his wife to such an extent she instituted divorce proceedings and Aug. 7, last secured a divorce.

The complaint sets forth that Nels Nelson had been married to Minnie Nelson for the last ten years, and up to April 15, 1906, had been living happily together as man and wife. About this time, the plaintiff claims, the defendants gained the affections of Mrs. Nelson, and persuaded her to leave her home and go to Sioux Falls, S. D. Later she started an action for divorce, and Nelson claims that the Roise's are responsible for this also.

COLLEGE OF MINES

Secures Eveleth Man as Instructor of Mathematics and Physics.

Houghton, Mich., Jan. 14.—(Special to The Herald.)—The second week at the College of Mines after the holiday vacation finds the students hard at work in all departments.

The corps of instruction of the department of mathematics and physics has been strengthened by the addition of a new instructor. W. D. Harris, who takes the position, is a graduate of Charleton college and the University of Nebraska, from both of which he has taken degrees. He has recently been in the employ of the United States Steel corporation at Eveleth, Minn.

George Anderson of Detroit, who has recently been with the Calumet & Montana Mining company at Baker, Idaho, has returned and is taking up special work in the department of metallurgy.

Fred Norcross of Menominee has resumed his studies at college. Norcross has during the past three months been employed as coach of the victorious University of Oregon football team, champions of the Far Northwest.

BUHL ENJOYED IT.

Musical Entertainment by Murphy Family Made Hit.

Buhl, Minn., Jan. 14.—(Special to The Herald.)—Friday night at Cronberg's hall a large and appreciative audience listened for two hours to the finest musical entertainment that has ever been given in Buhl. It was given by the Murphy family. Miss Verna Murphy, first violinist, made a hit. The manner in which she rendered "Mazurka de Concert," by Musin, and "Mota Pertepuo," by Bohn, would do a credit to the leading violinists of this country, and was greatly appreciated by the audience. Little Evelyn Murphy is also a wonder. She took the house by storm when she sang "Just a Cousin of Mine," and had to respond to repeated encores. Mrs. Murphy has a charming voice and the manner with which she sang "Spanish Gypsy," by Watson, showed what is possible in the female voice from years of study and training. The cornet and trombone solos furnished by the Murphy boys were very fine and a notable feature of their performance was the leading of the orchestra by Little Evelyn. Mr. Murphy is to be complimented for bringing such an aggregation of musical artists to this place.

CAPT. HUET DEAD.

Long Time Resident of Grand Forks Passes Away.

Grand Forks, N. D., Jan. 14. — (Special to The Herald.)—Capt. John W. R. Huet, for the past quarter of a century a resident of Grand Forks died Monday, after an illness of but a few hours duration.

The deceased was born in England in 1836, coming to the United States about thirty years ago. He was in the British army, and it was there he gained the title of captain. Twenty-five years ago Capt. Huet arrived in Grand Forks and since then has resided here continually. During that time he has been engaged in the jewelry business, being a watchmaker by trade, and up to the time of his death, operated a shop on South Third street. Mrs. Huet and one son, Harry Huet, now at the Berkley divinity school in Middleton, Conn., survive him.

YOUTHFUL MURDERER SMILES ON WAY TO PENITENTIARY.

Grand Forks, N. D., Jan. 14.—James O'Brien, slayer of Arthur Le Claire, the Great Northern fireman, passed through Grand Forks Sunday afternoon on his way from Pembina to Bismarck, where he will serve a life term in the state penitentiary.

O'Brien arrived here over the North-Pacific and was taken to the Great Northern southbound train in a hack. With him was Sheriff Roadhouse and State's Attorney Brynjolfson.

There was no hostile demonstration, but scores of people visited the Great Northern train to see the 16-year-old slayer.

O'Brien smiled at this and joked with the people he knew.

He had some acquaintances among the railway men who run from Grand Forks to Neche.

MANY FARGO GATHERINGS.

Fargo, N. D., Jan. 14.—With six big conventions on this week, Fargoans are busily engaged taking care of the visitors. The big meeting is the Tri-State Grain and Stock Growers' convention, the largest gathering of practical farmers in the United States, which began today. The other five are the Statt Veterinarians, the North Dakota Live Stock association, the State Horticultural society, the North Dakota Poultry association and the North Dakota Independent Grain Shippers.

The Tri-State meet and the poultry show continue for four days, while the other meetings are for two days.

MINNESOTA IN BRIEF

Brainerd—Mrs. Gust Johnson of Deerwood, who was brought to this city Thursday for treatment, died Thursday night of blood poison. She had been sick only four days. Mrs. Johnson leaves a husband and five small children, the oldest being about 11 years of age and the youngest sixteen months.

Fosston—Albert Kaiser has been receiving considerable favorable mention during the past week in connection with the selection of delegates from this congressional district to the Republican national convention.

Moorhead—In the United States court Judge Amidon has rendered judgment for the Fargo Plumbing & Heating company against the city of Moorhead for $4,510.64, being the adjudication of the Price bill which the city council claim to have been contracted without proper authority.

Sebeka—The creamery at this place has been leased by the Milton Dairy company of St. Paul and will be opened March 1, 1908. The company is to pay $100 per year rent and to pay the taxes, and has leased it for one year, with the privilege of leasing it for three years.

Gary—The First Bank of Gary has incorporated as a state bank and is named First State Bank of Gary. The stockholders are W. H. Matthews, Ada; Norman Manson, Fertile, and D. C. James of Gary. Capital stock is $10,000.

Erskine—Victor Barlund, who lives on a farm near here, has been busy burning the dead grass off his meadows and maintains that this is an excellent time to do this as the fire will not destroy the grass roots on account of the frost in the ground.

Crookston—Ed Hanson, who has been in Chicago the past two years, where he has a good position as candy maker, is visiting friends in this city.

Bemidji—The members of the Bemidji fire department will give their annual masuerade ball at the city opera house on the night of Feb. 21.

St. Vincent—Marshal Heard has arrested the supposed partner of Edward Ross, who was arrested Sunday for burglary, and took him to Hallock jail. The man had a stick of dynamite, a revolver, several gold watches and maps and $150 in cash.

Royalton—The Commercitl club has elected the following officers: President, J. H. Russell; vice president, T. H. Sparrow; secretary, H. J. Schwartz; treasurer, C. H. Rhoda, I. W. Buck and R. K. Carnes were elected delegates to the meeting of Commercial clubs to be held in St. Paul Jan. 16 and 17.

Faribault—With the opening of spring arrangements will be made to place a drill on the farm of E. J. Leary, where iron ore has been found. Negotiations are in progress with a steel company to install a plant, if it is found there is ore enough to warrant doing so.

St. Paul—Owing to the death of Mrs. Frank G. O'Brien, the reception announced by the Territorial Pioneer Women's club at the old state capitol, St. Paul, Thursday has been given up. Mrs. O'Brien was the vice president of the club and one of its most beloved and respected members.

DAKOTAS IN BRIEF

Bismarck, N. D.—Valuable coal and clay deposits have been discovered on the farm of John Yegen southeast of this city that promises to revolutionize the brick making and similar industries in this locality.

Fargo, N. D.—Johnson, Anderson & Johnson, contractors, have broken ground for an office and warehouse for the company on the Northern Pacific right of way on lower Front street. A one-story and a basement brick building, 33 by 90 feet, will be constructed.

Bismarck, N. D.—Saturday the firm of French & Welch became a corporation under the style of the French & Welch Hardware company of Bismarck, capital stock $50,000. This change of basis in no way affects the ownership of the business.

Minot, N. D.—Former County Treasurer J. C. Mitchell of Kenmare is at work at the court house securing data in the support of the contention of the citizens of Kenmare that Ward county should be divided.

Dickinson, N. D.—J. B. Stoddard, the well known rancher and stockman of Dickinson, was arrested by Deputy United States Marshal Stout on the charge of fencing government land. Mr. Stoddard was taken before a United States court commissioner and gave bond for his appearance at the next term of federal court.

Montpelier, N. D.—Will Ford was forced to have nine horses afflicted with glanders killed. The board of appraisers valued the animals at $1,375. Ford has lost nineteen horses since the disease appeared at his farm.

Grand Forks, N. D.—Fire broke out in a caboose standing on the Great Northern track at Kitson avenue and Fifth street. The fire, which was caused by an overheated stove, was soon extinguished by the Fourth street department before much damage resulted.

Reynolds, N. D.—Arne P. Haugen, representative of the Seventh district, died Sunday evening at his home, following an illness of a number of days. Mr. Haugen leaves a wife and three children.

Fargo, N. D.—The annual convention of the Tri-State Grain Growers' association is being held in Fargo this week. There is a large attendance.

WISCONSIN IN BRIEF

Washburn—The eating of canned meats came near killing the entire family of Gus Branston of this city. It was thought for a time that some deaths would occur from poisoning. The timely arrival of physicians was all that saved the lives of three children.

Chippewa Falls—A meeting of the Wisconsin Central operators will be held at Abbotsford and a committee will be appointed to confer with the road's officials on the question of a wage reduction which has been ordered. A strike will likely result unless the order is rescinded or modified.

Washburn—Henry Kitzrow of Iron River had a thrilling encounter with a lynx while hunting. He fired at the animal but the ugly brute only became enraged and attacked him. After a prolonged struggle, Kitzrow managed to discharge another shot and succeeded in killing the animal.

Madison—A heavy snow storm, accompanied by a stiff wind, prevailed here nearly all Sunday, badly impeding railroad trains, street cars and other traffic, and interfering with telegraph and telephone service. About six inches of snow fell.

Milwaukee—Gustav L. Martini, founder of Martini's confectionery and bakery at 443 East Water street, died in Berlin, Germany, Sunday at the age of 68 years. He had lived in Germany for the last six years. Death was due to a paralytic stroke.

Grand Rapids—The Nekoosa paper mill, which was shut down a few weeks ago, has resumed operations. The causes attributed were a shortage of pulp wood, and the holiday shut down.

WEATHER INDICATIONS

How Ship Captains are Warned of Coming Storms. Signals That Every Mariner Heeds.

The United States Weather Bureau renders valuable services to seamen by giving warning of the approach of storms. Their coming is indicated by danger signals, and careful captains are well prepared before the gale reaches them. It costs the government thousands of dollars every year to maintain this service, but it saves millions in lives and property.

The most wonderful system of danger signals is the network of nerves in the human body. These sensitive wires signal danger from any part of the system the moment it threatens. The careful man heeds the warnings and avoids physical shipwreck by promptly resorting to Beecham's Pills.

Here are some of the signals to watch for: Heartburn, Sour Eructations, Coated Tongue, Foul Breath, Cold Hands and Feet, Yellow Skin, Pimples on the face, Indigestion, Constipation, Dizziness or Sick Headache. For any of these signals, take Beecham's Pills, and you will escape many ill winds and soon have smooth sailing.

AN ARREST IN NEW ULM MURDER CASE EXPECTED.

New Ulm, Minn., Jan. 14.—An arrest will probably be made some time this week for the murder of Christian Walther. The suspect is said to be a New Ulm man who has been more or less a character on the streets and in public resorts. The state is concealing its plans and will not outline the evidence which it has gathered in the case.

It is expected Walther's body will be kept at the morgue and that the coroner's jury will not be formally discharged until the arrest is made.

MAY BE BURGLARS.

Walhalla, N. D., Jan. 14.—(Special to The Herald.)—State's Attorney Brynjolfson of Pembina county, has gone to St Paul armed with requisition papers that will be presented to Governor Johnson for the extradition of a couple of men under arrest at Hallock, Minn., who are supposed to be the burglars who raided the depot and jewelry store here, recently.

PENINSULA BRIEFS

Negaunee—The Cleveland-Cliffs Iron company's crew is making good headway with work on the channel for the east branch of the Escanaba river at Gwinn, near the Smith mine. The track connecting the spur with the main line of the Marquette & Southeastern road is in position, and the movement of the dirt will be started this week.

Ishpeming—Andrew Gellin, one of the city's oldest and best known Scandinavian residents, died Sunday. He was 56 years old and leaves a widow and five children.

Marquette—The funeral of Joe Mack, a saloonkeeper, who died Friday night, was held Monday from St. Peter's cathedral at 9 o'clock. The interment was in Holy Cross cemetery. The Ancient Order of Hibernians, of which the deceased was a charter member, attended the funeral in a body.

Houghton—V. M. Ortiz of Mexico City has arrived at the Michigan College of Mines to enter as a student. He is the third Mexican now on the roll.

Houghton—C. H. Frimodig has received word that his wife's mother, Mrs. Phipps, of Holly, this state, is dead. Mrs. Frimodig was at her mother's bedside when the end came.

Marquette—Ore dock No. 1, the southernmost of the South Shore ore docks and the oldest one in the harbor, is being torn down. The old dock saw more than a quarter of a century of service. It was built in 1881 and was only abandoned about a year ago.

Hancock—At the annual meeting of the stockholders of the Superior Savings bank to be held at the banking house this week, directors will be elected for the ensuing year, and the question of changing the institution from a state to a national bank will be voted on.

Calumet—The Calumet lodge of Elks is planning on having a big time at the meeting to be held Wednesday night. One of the features of the evening will be the initiation of a class of twenty candidates, and when this work is completed a social session will follow.

Houghton—January, so far, has been one of the best and mildest months for the winter season that has been experienced in this district for many years. This is the verdict of several of those who are among the oldest residents of the town, and have spent a large number of winters in the Copper country.

YOU ARE THE BEST JUDGE

of your own tastes. No advertising can deceive you on that point. Of this we are glad, for those who have enjoyed the invigorating goodness of

FITGER'S BEER

are firm in their determination to have the best. And its fine flavor is not all—as a liquid its nourishment is equaled only by milk, and unlike milk, its purity is unquestioned.

Drink it with your meals for a month. The meals will be more enjoyable, and you will notice a great improvement in your physical condition.

FITGER BREWING CO.
DULUTH ···· MINN.

CONCERNING WOMAN.

The popular conception of Patience on a monument is a fussy, fretful individual compared with H. Pierce, who is the man who sells you tickets to attend the Lyceum theater. He especially likes to sell tickets to women. He thinks then that one has such a good opportunity to study human nature. The storm and stress of feminine dismay at spending three dollars for tickets, surges about him making no visible impression. He states the price and then waits inexorably, and the fact that the white sales are all on and that everything else in town is half price doesn't affect him in the least. He acts exactly as if he didn't care a cent whether he sold the tickets or not.

Two charming creatures were buying tickets yesterday. How it ever happened that they should themselves be buying theater tickets nobody could decipher. But nevertheless they were:

"How much are seats in the family circle?" inquired one who was short but capable looking.

"I just as soon sit in the family circle to hear music," said the tall slender one who had a row of six soft looking puffs just beneath her hat brim.

"But this isn't music," said the short one.

Somewhere between remarks one and three, Mr. Pierce had said "A dollar." Nobody heard him so he might just as well not have said it. But he is a firm believer in duty.

"How much did you say?" inquired the short one.

"Why don't we sit down stairs at the back of the parquet, anyway," inquired the tall one.

"Why, I suppose we might," said the short one. "Oh, dear! I just hate buying my own theater tickets anyway," she said petulantly.

"So do I," said the tall one. "But I'm just crazy to see Maude Fealy. I guess we better sit in the parquet, though, don't you think so?"

"Well, I suppose so, but I'd like to go to the peanut gallery as far as the price is concerned. You know they have the loveliest embroideries on sale and for 15 cents a yard. I got the sweetest pattern you ever saw to put on--"

Mr. Pierce coughed discreetly.

"Oh, but let's decide. Women are always taking too much time at the box office. How much did you say the seats were at the back of the parquet?" said the short one.

"I do hope they are not too far under the gallery. It chokes me to sit under the gallery," said the kind of blonde one.

"Yes, I know," said the short one. "We'll get them near the front of the back."

"I just love the front row of the dress circle," said the blonde one. There's such a lot of room for your feet."

"My feet don't need so much," said the short one.

Mr. Pierce had interjected "a dollar" at frequent intervals, but nobody paid any attention to him.

"Well, let's decide."

Mr. Pierce had decided long ago and had the tickets wrapped up in a little envelope.

"Don't you show us a picture of where they are any more?" inquired the short one.

"Sure," said Mr. Pierce. "I've just sent the photographer in to take a picture of them for you. He'll have the negative developed and the proof here in just a moment," and he glanced at his watch.

The short one dimpled prettily to show that she knew a joke when she saw it. "You used to, though," she said. "And it was fearfully confusing. You used to murmur the fifth row from the back on the left, and then point out something that looked to me like the tenth row from the front on the right. But still its kind of comforting to know that the seats are there. How much of this change do you get," she inquired from the blonde one.

"Well, I gave you five dollars," said the blonde one in a worried tone.

"And I had a two-dollar bill," said the short one.

To add to the confusion, the man who sold the tickets pushed through the little opening a paper pad and pencil.

"What's this for?" inquired the short one.

"To figure it out," said Mr. Pierce.

The short one laughed again pleasantly. Mr. Pierce sighed again patiently.

Then they left. "Now wait just a minute," said the short one, as they halted on the steps, "till I see where they are."

PALESTINE ASSEMBLY

Members Will Entertain at First of Season's Dances.

The members of Palestine Assembly will be hosts at the first party of the season Friday evening, Jan. 24, the affair to be given at the dancing hall of the Masonic temple. LaBrosse's orchestra will play and card tables will be provided for the guests who do not care to dance. The series of dances given by the Assembly last year were among the most delightful of the winter's dances. The committees are: Executive, Andrew C. Volk, Hugh F. McClearn, J. W. Kreitter, A. J. Ahrens and C. R. Pattinson; reception, C. A. Bronson, John G. Ross, Stanley R. Holden, H. L. Dresser and A. D. Goodman; floor, William H. Hoyt, Frank E. Church, John E. MacGregor, Delbert E. Case, Guy A. Eaton and N. F. Russell.

PRIMROSE BANQUET.

Fifth Annual Affair to Be Given at Y. W. C. A. Rooms.

The date for the annual primrose banquet of the Young Women's Christian association was decided upon at this morning's board meeting. The banquet will take place this year, Wednesday evening, Feb. 5, at the association rooms, and the details will be arranged by the committees in charge.

Routine business of the board was the only other feature of the evening.

Tickets For Concert.

A limited number of tickets for the annual concert of the High School Musical society may be secured from Mr. Bronson or Mr. Joyce at the office of the board of education. The concert this year has been carefully arranged and the principals and chorus have practiced faithfully and a program of interest and merit is assured. There is no charge for admission, but tickets must be secured from the members of the society or from the office.

Matinee Musicale.

The regular meeting of the Matinee Musicale was held yesterday afternoon at Steinway hall and one of the series of program of classical music was presented, arranged by Mrs. C. H. Munger and Mrs. G. H. Stone. There was much interest in the appearance before the club of the quartet consisting of Mrs. Marie Geist Erd, 'cello, Miss Senta Erd and Mrs. E. F. Burg, violins, and Mrs. O. L. Mather, viola. In the numbers presented by them "Largo," by Handel, and a Boccherini "Minuet" creditable work was done and the quartet was well received by the members. Master Leo Schmeid played a Prelude and Fugue No. 2 by Bach and responded to an enthusiastic encore. The vocal numbers of the afternoon were given by Miss Florence Hyland, Miss Mary S. Bradshaw and Miss Thiers.

Committee Meeting.

An important meeting of the arts and crafts committee of the Women's Council will be held Tuesday afternoon of next week in room 7 of the Washington school. The meeting will be held to arrange for the opening of the Art school under the auspices of the Council. It is hoped to have the school ready for classes by April 1.

Dancing Parties.

The members of the Bachelors' club will entertain at a dancing party Saturday evening of this week at the old Masonic Temple dancing hall.

* * *

The members of the Ionic Dancing club will entertain at a dancing party Friday evening at the Masonic Temple.

Union Meeting.

The Ladies' Union of Pilgrim Congregational church will meet tomorrow afternoon at 3 o'clock in the church parlors. The report for the past year will be given and the plans for the ensuing year discussed.

* * *

The Ladies' Aid society of the First Christian church will meet tomorrow afternoon at 2:30 o'clock with Mrs. G. R. Spearin of 921 East Seventh street.

Personal Mention.

Mr. and Mrs. Leroy Salsich were the guests today of Mr. and Mrs. S. L. Frazer. Mrs. Salsich will be the guest of her parents for several weeks, while Mr. Salsich is on a business trip with his father through the Northwest.

* * *

A group of Duluth people who are spending the winter together at Santa Barbara, Cal., are Mr. and Mrs. W. R. Stone, Mrs. J. B. Culver, Miss Culver and Mrs. Cullyford.

* * *

Mrs. Parker Paine of 1720 East Superior street, has as her guest, her sister, Miss Vida Barrager of New York.

* * *

Mrs. A. L. Ordean has as her guest, her sister, Miss Harter of Canton, Ohio.

* * *

Mr. and Mrs. George Spencer and Mrs. Heber Hartley have returned form a visit in New York.

Demonstrating and Fitting
THE Gossard CORSETS
"They Lace In Front"

These corsets are a consequence of hygienic rules, fashion requirements and natural beauty lines; in short, are a happy blending of art and ease.

The strong points which distinguish them from the ordinary back-laced corsets are: 1st, they positively do not break over the hips. 2nd, they will retain their shape until worn out. 3rd, they make short waists a full inch longer. 4th, reduces abdomen, giving round, full back.

The greatest money-saving event in House Furnishings is the French & Bassett discount sale. The hundreds of people who have taken advantage of this great event this year are the best testimonials to that fact. A real saving and a big saving on every article. No goods exchanged during this sale.

What Retail Markets Offer.

Indian River oranges, 65 cents a dozen.
Dried apricots, 40 cents a pound.
Prunes, 10 to 25 cents a pound.
Cocoanuts, 1 cent each.
Rutabagas, 20 cents a peck.
Spare ribs.
Lobsters.

"Is there anything new in the market, this morning?" yawned the marketer through half opened eyes.

"Nothing, that I know of," said the market man as he ducked behind the counter to hide the yawning cavity which was threatening to swallow him.

"Is there anything cheap, then?" inquired the marketer with tears of weariness swimming unshed in languid eyes.

"Nothing that I know of," gaped the market man, not trying to hide it.

"Well how much are dried apricots?" inquired the marketer.

"Forty cents a pound," said the market man, waking up a little.

"What!" inquired the marketer, alert and unbelieving.

"That's what," said the market man.

"For goodsess' sake," said the marketer.

DIRECTORY OF AMUSEMENTS

WHERE TO GO TONIGHT.

METROPOLITAN—Burlesque.

MAUDE FEALY

Pleases Fairly Large Audience in "The Stronger Sex."

Miss Maude Fealy, the most youthful star on the American stage, delighted a fairly large audience at the Lyceum, last night, by the simplicity, the artistic finish, and the directness of her work as the American wife, who was not as simple as she looked, in the "Stronger Sex." Miss Fealy has most of the attributes that go to make up a star. She has more than some machine made stars. Miss Fealy has won her place honestly by conscientious work, and to this hard work she brings the pleasing presence of a flexible, well modulated voice, an attractive personality, poise, and the ability to make the most of every opportunity given her.

"The Stronger Sex" is not the most interesting play seen here this year. Indeed, in less capable hands than Miss Fealy's and those of the capable supporting company, that the star has been surrounded with, the play would drag at times. It is one of those plays that depend upon good acting to bring out the salient points and the subtile meaning of the lines. It may be justly said that Miss Fealy and her support made the most of the opportunities afforded.

In the part of the young American wife, who marries a titled Englishman, with the firm conviction that he loves her, but who comes to a sudden knowledge of his sordid reason for marrying her upon the eve of their bridal tour, through an overheard conversation between her husband and the young English girl he really loves, Miss Fealy brings conviction, realism and a through understanding of the requirements of the role. Her emotion at the discovery of the base motives for her husband's marrying her; her climax at the close of the second act, when she defies the brutish impulse of her husband at the point of a revolver; her quiet comedy; and the simple little pathetic touches, make the role of Mary Warren stand out with cameo-like clearness, and give a picture of a woman fighting for self respect and honesty, against the love that lays stifled at the bottom of her heart, which is drawn with simple, but firm and masterly strokes.

Mr. Richie Ling, in the role of the breezy cousin from Texas, who amuses the English by his frankness, gave a performance that stamped him as an actor of ability. Mr. Ling possesses a smile, among his other attributes, that is infectious, and his rendition of the part of a man who wins respect and admiration by his simple manliness and straightforwardness, in a class of society where these qualities are not always practised is convincing and well acted.

Brandon Hurst, as the Englishman, who married for money, only to learn to appreciate the womanly qualities of his wife, was more convincing in the cadish part of the part. It might be said that the reformation of the part is so sudden that it hardly gives Mr. Hurst sufficient time to impress the audience with his sincerity. Florence Robinson as the matronly English woman, who hides a warm heart under a blunt, sarcastic exterior, was delicious. Miss Robinson's comedy was spontaneous and natural and her work not overdone. The rest of the cast was adequate for the slight demand made upon it.

AUDIENCE PLEASED.

The Bijou Has Another Good Bill This Week.

The Bijou has another good bill this week, and the audiences yesterday and last night were well pleased with it. The feature o fthe performance comes at the clos with the Sidonians in a comedy skit that really is good.

Hayes and Suits, eccentric dancers and lightning change artists, made good, and "The Bowery Bud," as presented by Lotte Meanery and company, made a hit. A good monologue is given by Eddie Powers, and Golden and Hughes have a funny skit which they call "Sister's Visit to the City." Miss Hughes has a very fine array of gowns, and has the reputation of being the most shapely woman in vaudeville.

Isadore Silver was greeted with loud applause yesterday when he made his first appearance for several months with an illustrated song. He sings one of Charles K. Harris' musical hits, "Yesterday." The slides are very pretty, and Mr. Silver's singing is always welcome at the Bijou. The moving pictures are exceptionally good.

THE BURLESQUERS.

Sam Devere's Company Pleasing Audiences at the Met.

There are many commendable things about the Sam Devere show, which is at the Metropolitan all this week. In the first place, the vaudeville acts are about the best that have been given at the "Met" this season. And in the second place, the Devere folks have a bunch of chorus girls who are good looking.

In the olio, there are five acts, and all of them are good. The La Velle sisters are dancers and good ones too. They execute some intricate steps and give an imitation of a baseball game that is very funny.

Jule Jacobs and Dot West sing and talk a little, and Ali, Hunter & Ali contribute one of the best nondescript knockabout acts that has ever been given at the Metropolitan. Their comedy is the best ever, particularly their burlesque boxing contests.

Phil Ott, Nettie Nelson and Al Stedman, assisted by the Devere ponies—the same being good looking girls—have an amusing act called "Nearly a Doctor" and Ted Simonds and Dorothy Warde give a conversational act.

"Mr. Planet of Mars" is the opening skit and "The Belle of Boston" the afterpiece. Mathew Ott wrote both of them and Al Stedman wrote some of the music. They serve to introduce the entire company, including the good-looking chorus, in some merry nonsense.

NEW DULUTH MAN

To Visit Parents First Time in Twenty Years.

New Duluth, Minn., Jan. 14.—(Special to The Herald.)—Mr. and Mrs. William Millen left for Toronto, Can., Monday, to visit with Mr. Millen's parents for about a month. Mr. Millen has not been home since his marriage, over twenty years ago. They will visit relatives in Toronto and near there before returning to New Duluth.

MAIL CARRIER DEAD.

Exposure and Other Hardships Too Much for Johnson.

Grand Marais, Minn., Jan. 6.—(Special Correspondence.)—Peter Johnson, who had the mail contract between here and the Canadian boundary, is dead, largely as the result of the exposure and other hardships connected with the trip. He had been covering the distance, about forty miles, three times a week.

DANCER WEDS IN ST. PAUL.

Premier Danseuse of Italian Opera Company Becomes Bride.

St. Paul, Jan. 14.—Miss Katie Korchusz, known on the stage as Katie Steffens, premiere danseuse of the Italian Grand Opera company, was married at the courthouse yesterday by Court Commissioner Henry Gallisk, to Robert Gordohn, concert master of the company's orchestra. Both of the parties are Germans, and the bridegroom could not speak English. When they applied for the marriage license, the bride's age was given at 22, and the groom's as 24. They came, of course, from New York. They had first become acquainted, it was said, about two months ago.

The pair were accompanied by two comely members of the ballet, Miss Anita McClusky and Stella Cooney, also of New York.

PROMINENT EAU CLAIRE MAN IS SUMMONED.

Eau Claire, Wis., Jan. 14.—Francis W. Woodward, aged 77 years, one of Eau Claire's foremost citizens for about forty years, died Monday at his home in this city. He was one of the incorporators and president of the Eau Claire Chilled Plow company. He was also for many years president of the Bank of Eau Claire, its first president and was at its head up to the year 1885; and was one of the incorporators of the Eau Claire Street Railway company; and he had large agricultural interests in Minnesota and elsewhere.

The Pure Food Law.

Secretary Wilson says: "One of the objects of the law is to inform the consumer of the presence of certain harmful drugs in medicines." The law requires that the amount of chloroform, opium, morphine, and other habit forming drugs be stated on the label of each bottle. The manufacturers of Chamberlain's Cough Remedy have always claimed that their remedy did not contain any of these drugs, and the truth of this claim is now fully proven, as no mention of them is on the label. This remedy is not only one of the safest, but one of the best in use for coughs and colds. Its value has been proven beyond question during the many years it has been in general use. For sale by all druggists.

COLUMBUS MEN FINED.

Columbus, Ohio, Jan. 14.—The supreme court today sentenced Former Supreme Court Clerk Lawson E. Emerson to ten days in jail and State Senator Austin of Toledo to ten days in jail and $100 fine, in connection with the charge of securing the latter's certificate to practice law in this state without proper examination.

Scalp treatment at Knauf Sisters, over Gidding's annex.

GIRLS AS USHERS.

Chicago, Jan. 14.—Girls as theater ushers made their initial bow to Chicago last night. The innovation was inaugurated at the international theater, and the audience seemed well pleased. Eight comely maidens showed the patrons to their seats and, the management declared, performed the work as well as male ushers could do it.

HEARING IS COMPLETED

The Interstate Commerce Commission Finishes Taking of Testimony.

Methods of Railroads in Granting Free Storage Exposed.

The taking of testimony for the interstate commerce commission, on the complaint brought by the Commercial club against the railroads, which grant free storage facilities at the Head of the Lakes for outside interests, was completed yesterday afternoon, and Mr. Marble, who represented the commission, has left for the East. The hearing was held in the federal court rooms.

There may not be a decision relative to the matter for several months, but the general opinion seems to be that when it does come it will be favorable to Duluth, and consequently favorable to Chicago, Milwaukee, Gladstone, Mich., and other towns situated the same as Duluth in regard to lake and rail travel. It is understood the railroads are willing to abolish the practice of free storage, if they can be given positive assurance that all the lines interested will live up to any agreement to this effect.

Only three witnesses were sworn by the Commercial club. The testimony of W. E. Magner of the D. G. Cutler company and C. F. Rowe of the Marshall-Wells Hardware company was reviewed in yesterday's Herald. Following Mr. Rowe, F. O. Davison, traffic manager of the Kelly-How-Thompson Hardware company, took the stand. His testimony did not differ materially from that of the other two. H. M. Pearce, freight traffic manager for the Omaha road, took the stand in behalf of the railroads, and testified regarding the free storage matter.

Mr. Davison said that the free storage proposition affected only certain departments of the hardware business, such as wire and nails. He asserted that his company had had to retire from certain territory so far as the wire and nail trade was concerned, because of the fact that free storage on these commodities was granted Twin City houses by the railroads with warehouses at the Head of the Lakes.

He testified that local houses had the same privilege of free storage as the Twin City people, and others at outside points, but that the difficulty of forecasting the amount of the season's business was such that there invariably was a considerable surplus in the railroad warehouses at the end of the season, upon which storage charges had to be paid, and that because of this fact, and the further fact that goods could be more conveniently handled for shipment in the company's own house, his company did not take advantage of conditions in this respect to any great extent.

He agreed with the others that the free storage proposition was a great detriment to Duluth, and said it should by all means be abolished. In explanation of the storage charge on goods left at the end of the season, he said storage had to be paid on all goods which were not shipped out of Duluth by the end of the season, over the rails of the company doing the storing.

The testimony of Mr. Pearce was entirely of a technical nature, and consisted largely of a reading of the tariff sheets of different railroads invoived in the free storage practice. Several tariff sheets of roads doing a similar business at Chicago, Milwaukee, Gladstone, Mich., Manitowoc, Wis., and other lake ports, were introduced, showing that free storage was granted at those points by companies named, as well as by the Omaha, Great Northern and Northern Pacific at Duluth. It is these three companies against which the Duluth complaint was entered.

If the commission makes a ruling that free storage of the kind in question shall be abolished, it is understood that practically every railroad in the West will be glad of it, for then they can discontinue the practice with certain knowledge that competitors are doing the same thing. The petitioners will submit their case by brief to the commission within fifteen days, and the railroads will have ten days in which to reply.

Disturbed the Congregation.

The person who disturbed the congregation last Sunday by continually coughing is requested to buy a bottle of Foley's Honey and Tar.

THE SOUL OF A HOTEL

How One Manager with High Ideals Made his House Famous.

HINTS FOR PARTICULAR PEOPLE

To people who appreciate good food, and that means most people, the kitchen of their favorite restaurant or hotel is an object of much interest. Too often the place where food is prepared and the methods pursued there will not bear close inspection, and one often feels that "ignorance is bliss" in this instance at least. It is a relief to know that the kitchens of many modern hotels are models of cleanliness and hygiene.

In one of the great hotels for which New York is famous, the St. Regis, perfection in the kitchen has been carried to the superlative. It is a favorite expression of Mr. R. M. Haan, who presides so well over the destinies of the Hotel St. Regis, that "The Soul of a Hotel is the Kitchen. If that is wrong, all is wrong." A visit to the series of great white halls in which the tempting edibles are prepared will convince the most exacting that "The Soul" of this hotel is right and rightly managed. Lined with white tiling, floored with white marble, fitted with glass and porcelain receptacles for all kinds of food, every object is spick and span from the great soup kettles to the cook's apron. In this wondrously wholesome kitchen the ventilation is so perfect that dust and disagreeable odors are unknown. Add to this the fact that only the best of everything in the way of edibles is provided for use in this perfect kitchen and that the chef and his numerous assistants are masters in the art of cookery, one can readily see why dining at the St. Regis is so enjoyable and so healthful withal.

Not only is "the soul" of the St. Regis right, but everything is right even to the charges, which are the same as those of other hotels of the first class.

ROSS CASE WILL BE TRIED FIRST

Criminal Calendar Will be Taken Up Wednesday Morning.

Unless something unforseen occurs to change the present plans, the trial of the criminal cases on the January calendar of the district court will begin tomorrow morning.

The first criminal case for trial is that of the state against James Ross, who is charged with grand larceny in the second degree. Ross is accused of stealing $70 from a companion while the latter was occupying the same room with him in a Bowery lodging house.

The second case for trial is that of the state against Pazzuzo, who is indicted for assault in the second degree. "Doc" Bradford, who is charged with grand larceny, will be the third person to be placed on trial.

EXPRESS BUSINESS GOOD.

Bemidji, Minn., Jan. 14.—(Special to The Herald.)—H. G. Page, local agent for the Northern Express company, says express business in this city has been very good during the past year. The business of 1907, as compared with that of 1906, shows an increase each month of the year with the exception of December. For some reason the express business of December, 1907, was not as heavy as that of 1906.

ABSURD, SAYS LEAVITT.

Paris, Jan. 14.—W. H. Leavitt yesterday characterized as absurd the reports that divorce proceedings by his wife were in contemplation. Mr. Leavitt received a letter today from his wife, Mrs. Leavitt, and the children, who, accompanied by Mrs. W. J. Bryan, are going to Cairo to spend the winter for the benefit of the children's health. They will return to Paris and join Mr. Leavitt in April.

SPORTS OF THE DAY

FAST FIELD FOR RACES

Seven Pacers Will Start for the Henderson Cup.

Local Horsemen Offer to Import Opponent for Little Jim.

In the third race for the Henderson cup, which will be held this afternoon on the ice track at the foot of Twentieth avenue west, seven of the fastest horses at the Head of the Lakes will compete. They are Captain C, Kitty B, Tomango, C. F., Ole Boy, Dr. D. and Maggie Medium. It is the fastest field ever to be lined up on an ice field in Duluth and the horsemen expect good sport.

The race today is the last trial event and horses, which have not won a race, will not be allowed to compete in the future events. The new horses entered have marks of speed and Maggie Medium is a promising green pacer. Bumble Bee, owned by L. P. Totman, and Belle Patch, owned by Dr. McKay, will start next week.

The horsemen have definitely decided to keep out Little Jim, the Hibbing horse, now owned by Frank Frerker. They still stick to the claim that it is an attempt of Hibbing sportsmen to break into the sport in Duluth.

Now they offer to import a horse from Michigan to go against Little Jim for a money consideration. They agree to put their own horses against the little pacer also, but lay special stress on the horse from Michigan. There are undoubtedly pacers in Duluth, which can give Little Jim a good run for the money, but the owners are evidently wary of Frerker's pacer and intend to bring somebody in from outside, of whose ability to defeat Little Jim there is little doubt.

Mr. Frerker will probably take up their proposition, as he has every confidence in his horse.

PLAY GAMES IN THREE EVENTS

Large Crowd Watches Interesting Play at Curling Rink.

Matches were played last night at the Duluth Curling club in all three competitions the Manley-McLennan, Herald and St. Louis trophies. Five trophy matches were played and all were interesting for the spectators.

In the Manley-McLennan event, J. M. Oldham defeated T. F. McGilvray, and G. F. Smith defeated Joseph Catlin. In The Herald trophy play, A. H. Smith and J. T. Pugh triumphed over C. B. Brewer and C. E. West, respectively. In the St. Louis trophy play, Rev. Wurtele defeated Rev. Knowles.

The members of the rinks and the scores follow:

Manley-McLennan Trophy.

W. N. Hart,	W. Newcomb,
J. G. Ross,	P. H. Seymour,

ASK REVISION OF RESERVES

Minor Leaguers Say Clubs Have No Title to Players.

Cincinnati, Jan. 14.—The following notice is addressed to the officers of the national commission by the National Association of Minor Leagues, and in part is as follows:

"We desire to call attention officially to the national association finel 'reserve' list is on Oct. 17, 1907. This list contains the names of a great number of players as being reserved by various National Association clubs, to whom such clubs have absolutely no title whatever. It pertains to players who have been purchased or drafted by major league clubs. "In some instances many thousands of dollars are involved, and it is for that reason that we call your attention to this matter at this time, so that the subject may be properly and intelligently considered and such action be taken with respect thereto, as may be deemed advisable.

"We recommend that an examination of this matter be made at once, and if it is found that the title of the players referred to has passed from the National Association clubs carrying them on their reservation lists to the major league clubs, as indicated, as no doubt will be the case in almost every instance, that all of such names, together with such others as may be found in the same class be at once stricken from said National Association 'final reserve.'"

BAT SCORES KNOCKOUT

Nelson Lays Jack Clifford Cold at Ogden, Utah.

Ogden, Utah, Jan. 14.—Battling Nelson of Chicago scored a clean knockout over Jack Clifford of Grass Valley, Cal., at the Grand theater here, putting Clifford to the floor for many seconds over the count in the fifth round of a scheduled twenty round go. Clifford broke a bone in his left wrist in the first round.

Nelson, head down and fists busy, kept coming every second of the five busy rounds, and finally, in the midst of a hot rally near the ropes, put over a short right upper cut that caught Clifford flush on the point of his jaw. The California boy went down flat on his back, his head hitting the floor with great force and it was two or three minutes before he regained consciousness.

COLUMBIAS WIN TWO OF THREE

Create Tie in Bowling League by Defeating Big Duluth.

The Columbia bowling team last evening won two out of three games from the Big Duluth, creating a tie for fourth place. John Pickelman of the Big Duluth secured high score of 253 with a 30 handicap and also high average with 220. The Oak Hall will play the Baltimores Wednesday night.

FORFEIT GAME TO NORTHERNS

Superior Hockey Team Refuses to Play Off Tie.

Owing to the refusal of the Columbias to play off the tie, the game between the Columbia Hockey team of Superior, and the Northerns, was declared forfeited to the latter team.

Under this year's rules, when the score is tied at the call of time, the two teams shall play until one or the other scores. The score at half time last evening was 2 to 1 in favor of Superior, but the Northerns scored once in the last half, and when time was called the score stood 2 to 2. The Superior men refused to play off the tie, and Referee McLennan declared the game forfeited to Duluth by the score of 3 to 2.

The game was a fast and very hotly contested affair and was witnessed by the largest crowd that has seen a hockey match in Duluth this year. The play of the Superior team was a surprise and they nearly caught the Northerns unawares.

Following was the lineup:

Columbias—		Northerns—
Helmer	goal	Fenton
Charles	point	Furnl
Olson	cover	E. Cummings
Grenman	rover	Winter
Johnson	center	Dietz
Randall	left wing	A. Cummings
Dunlap	right wing	Cargill and Steinback

Michigan to Withdraw.

Ann Arbor, Mich., Jan. 4.—The board of control of athletics last night decided to withdraw the University of Michigan at once from the Western conference.

MILLIONS IN MINES.

Belief of Unfortunate Man Who Has Gone Crazy About Prospects.

Bemidji, Minn., Jan. 14.—(Special to The Herald.)—Gust Eklund, a resident of Inex, near Blackduck, was brought to Bemidji, Monday, by J. A. Dade, mayor of Blackduck, to be examined as to his sanity.

Up to two years ago, and ten years previous to that time, Eklund had lived at Nome, Alaska, where he had some mining claims. While the examination was being conducted, Eklund referred to these claims and assured the board that there were "millions in it" so to speak, and his prospects for becoming immensely wealthy were very good, although his property has not yet been developed.

Eklund says that he has been running up against "fakes" and he has been getting the worst of it for some time.

His geenral talk was quite irrational and the board decided that he should be committed to the asylum at Fergus Falls.

Eklund has already been an inmate of the Rochester asylum, from which place he was released some years ago.

GLEAMS in the SPORTING FOG.

While the Pacific Coast and O. & P. leagues are pressing the claims of their contenders for honors as the most versatile ball player in the game today, the Northern-Copper Country league might get in a word for Roy Newcombe, playing manager of the Calumet team last year and a member of the Lake Linden team in 1906. Perhaps Newcombe has more right to the honor than either of the men claiming it now through the papers.

Walter Nagle, the Pacific Coast league exponent of baseball versatility, is a pitcher on the Los Angeles team, which won the championship of the league. He played in sixty-nine games of nearly 200 played and worked in every position, infield and outfield, with the exception of catcher. His batting average for the season was .244.

John Breckenridge of the Akron team of the Ohio and Pennsylvania league is also a pitcher, with a record of sixteen games won and seven lost for the season. He played infield and outfield, besides pitching, and took part in forty-six games, including one which he caught. His batting average was .281 and grand fielding average .964.

Roy Newcombe's record for the season of 1907 is more remarkable than that of either of the men mentioned. He took his regular turn in the box, with Calumet carrying but three pitchers at times and playing every day with several double-headers near the end of the season. When not pitching, Newcombe played other positions on the team and worked in eighty-three games during the season, out of only about 100 played by his team. He played first base for a long time at one period and second base also. He played in the outfield and the records show that he caught two games at the local grounds during the season. His batting average was .269 and fielding average .944, both remarkable, considering the fact that a pitcher isn't supposed to be sluger, nor a star in an infield position.

Newcombe is a marvel in vitality. Sunday, June 23, Newcombe pitched a double-header on the local grounds, losing the first game in fourteen innings and returnig to win the second in nine innings. Three days before, he had pitched a game and the two intervening days were put in at first base.

When Newcombe was with Lake Linden, he showed the same versatility. He is a good pitcher and shines in any of the other positions. He is hardly fast enough for second base, but his play is creditable. On first he is all that could be desired and in the outfield, his work is sure. At the bat, he is dangerous for any pitcher as his record shows. Newcombe has been drafted by South Bend in the Central league this year, and his all-around ability will not be brought out as it was last year, when Calumet was short of men all through the season.

* * *

Just why the Duluth horsemen should seek to bar Little Jim, Frank Frerker's pacer, from the races on the ice isn't clear. They say they resent attempts of Hibbing horsemen to force themselves into the game in Duluth. Mr. Frerker certainly isn't a Hibbing horseman and he should not be discriminated against, any more than should any local man, who buys a horse out of the city. All the good speeders are prized by their Duluth owners and they should certainly give new owners a chance to increase the field.

There's no sense in playing the pork in such a case. Little Jim is a good little pacer. He has some black marks on his record, but it isn't his fault. He did his level best regardless of what name he carried and his successes were disconcerting to his rivals. Mr. Frerker isn't to blame if some of Little Jim's owners were unscrupulous. The horse is a good racer, will probably be reinstated and there is no law against him making the purchase if he so pleases.

If the horse owners see the light and allow Little Jim on the track, there will be some racing. Tomango, Ole Boy, Capt. C., and Kitty Birchwood must needs chip the ice to put the former Hibbing horse in the rear. It will be good sport and petty jealousies shouldn't stand in the way of it.

* * *

Chief War Eagle and John Rooney, "the giant gripman" met in Chicago the other night. It was easy for Rooney, who won from the aborigine, after the red man had secured first fall. War Eagle didn't show anything near the form he did in his match with Gotch, and there were cries of "Fake." When a Hibernian and an Indian get to framing up a deal, trust Poor Lo to be on the bottom of the heap. Rooney needs the rep.

TO WITHDRAW FROM CUBA

Taft Believes United States Should Vacate In 1909.

Washington, Jan. 14.—As far as he can, Secretary Taft has committed the government to a promise to withdraw completely from Cuba in the beginning of spring in 1909. This pledge is contained in a letter from Secretary of War Taft to the president, transmitting the report of Governor Magoon for the past year.

After remarking that the report from the governor shows the conditions in Cuba to be encouraging, Secretary Taft says:

"It was hoped by some that the census might be completed in September last. I did not think, and I am not surprised to learn, that the census has not yet been completed, and probably will not be until April or May. This will postpone the local elections until June, the presidential election until December, and the installation of the president and congress and the turning over of the island until about March or April of 1909. This is in compliance with our promise when we assumed temporary control of Cuba, and it seems to me that we ought to allow nothing to interfere with carrying out our promise. There are important interests that would be glad to delay our stay there for years, but good faith and good judgment require us to leave at the time appointed.

STIRS WRATH OF ALDERMEN

Chief Black's Bill for Gasoline Causes Caustic Resolution.

The members of the city council think that the city should not be compelled to pay $4 a day for renting Chief Black's automobile to entertain visitors to the city, and when a bill for $212 was presented last night for rental on such occasions, the councilmen rose up and jumped all over it. They turned the requisition down without turning a hair, their sentiments being expressed in the following report of the committee:

"Your committee on purchasing and supplies, to whom was referred requisition of the board of fire commissioners, in the sum of $212, for the use of the automobile owned by Chief of the Fire Department John T. Black, would respectfully report that this is apparently the historical machine which the council has passed several resolutions about—being first asked to purchase gasoline for the machine, which was also refused.

"Your committee is of the opinion that this is merely another way to get the city to pay a portion of the cost of the operation of the machine, especially as it covers items of service, which have no connection with the fire department. We consider it surprising that this bill should be transmitted to the council, especially in view of the fact that the city has furnished storage and care of the machine, for which the other automobile owners pay a garage of $25 per month.—S. F. Staples, J. E. Foubister, Joseph Shartell, committee."

The Lesson of the Eagle and the Weasel

The familiar story goes that once, when an eagle pounced upon a weasel and soared with it high into the air, the weasel fastened its fangs deep into the eagle's breast and commenced to draw its life-blood. The eagle tried to shake the weasel off, but the weasel hung on until the eagle fell lifeless to the ground.

There is a moral in this for every sufferer from coughs or colds. *Don't let your cough hang on*—for every day it weakens your lungs and gradually wears down your system until serious lung troubles develop.

DR. D. JAYNE'S EXPECTORANT

is the oldest and most reliable cough remedy known. For 77 years it has been successful in relieving and curing Coughs, Colds, Bronchitis, Pleurisy, Inflammation of the Lungs, Croup and Whooping Cough. It is sold by all druggists in $1.00, 50c. and 25c. bottles. Get it for your cough today.

THREE BOMBS EXPLODE

In New York Tenement House, Injuring Ten People.

New York, Jan. 14.—Ten persons were injured by an explosion, last night, of three dynamite bombs, which practically wrecked a six story tenement building on East Sixty-fourth street.

The injured were removed to Flower hospital.

The dynamite bombs were placed in the cellar of the tenement and exploded one after another in quick succession. The explosion threw the occupants of the tenement into a panic and there was much excitement among the patients and nurses of Flower hospital, which is only a short distance away. The police believe the bombs were exploded by members of the "Black Hand."

Lame Shoulder Cured.

Lame shoulder is usually caused by rheumatism of the muscles and quickly yields to a few applications of Chamberlain's Pain Balm. Mrs. F. H. McElwee of Boistown, New Brunswick, writes: "Having been troubled for some time with a pain in my left shoulder, I decided to give Chamberlain's Pain Balm a trial, with the result that I got prompt relief." For sale by all druggists.

BRIEF TELEGRAMS.

The supreme court of the United States upheld the anti-liquor law of Kansas by affirming the decisions of the supreme court of that state in a number of cases, including that of Fritz Durlen of Shawnee county, convicted of violating the law.

William Q. O'Brien, until recently chairman of the Indiana Democratic committee, has accepted the appointment as treasurer of the Democratic national committee.

The Rev. Canon William S. Chase, rector of Christ Episcopal church, Brooklyn, was Monday found guilty of contempt of court by Justice Mancan of the New York state supreme court. The justice announced that in view of the fact that the accused was a rector and as the court had no desire to humiliate him, sentence would be suspended.

Samuel N. Proudfit of Iowa, first assistant attorney in the office of the attorney general of the interior department, has been appointed assistant commissioner of the general land office.

That an employe of the general land office cannot acquire public lands under existing law was held by the supreme court of the United States in the case of William A. Prosser vs. L. Finn. The case has been pending in the courts and the interior department for twenty days.

Representative Adolph A. Sabath of Illinois, a native of Bohemia, and a bachelor, has introduced a bill to provide a 25 per cent tax upon all dowries, gifts or advances of property made in consideration of or contemplation of marriage by citizens or subjects of the United States of America to persons other than citizens or subjects of the United States of America.

HOUGHTON POULTRY SHOW.

Houghton, Mich., Jan. 14.—(Special to The Herald.)—The poultry show opened this morning in the Amphidrome with a large number of entries and keen interest in the affair. There are about 600 birds entered. The judging will be made today and this will draw a large number of people to the Amphidrome. Many of the exhibits indicate that the chicken fanciers in this section have some very high bred stock.

BABY'S VOICE Is the joy of the household, for without it no happiness can be complete. How sweet the picture of mother and babe, angels smile at and commend the thoughts of the aspirations of the mother bending over the cradle. The ordeal through which the expectant mother must pass, however, is so full of danger and suffering that she looks forward to the hour when she shall feel the exquisite thrill of motherhood with indescribable dread and fear. Every woman should know that the danger, pain and horror of child-birth can be entirely avoided by the use of **MOTHER'S FRIEND**, a scientific liniment for external use only, which toughens and renders pliable all the parts, and assists nature in its sublime work. By its aid thousands of women have passed the great crisis in perfect safety and without pain. Sold at $1.00 per bottle by druggists. Our book of priceless value to all women sent free. Address

BRADFIELD REGULATOR CO., Atlanta, Ga.

CHARGES OF TAMPERING

With Jury Causes Dismissal of Wood Case by Court.

Two of the Jurors Under Arrest, Charged With Contempt.

St. Paul, Jan. 14.—The crowning sensation in the trial of the Woods brothers, et al, charged with misusing the mails, came yesterday afternoon when upon motion of United States District Attorney Charles E. Houpt, Judge Page Morris dismissed the suit in order that proceedings might be started over again.

In his motion the district attorney intimated plainly that attempts had been made to tamper with two members of the jury.

The motion of the district attorney was supported by an affidavit made by Lawrence Ritchey, of the secret service, and another by George A. Hammond.

After granting the motion to dismiss the case Judge Morris directed the clerk to issue an order citing Sherman Smith of Minneapolis, and E. C. Benedict and Lyman Batchellor, the two jurors, alleged to have been tampered with, to appear before him and show cause why they should not be punished for contempt of court.

When court opened at 2 o'clock, there was a motion on the part of Paul Ewert, assistant district attorney, that there be a recess for a half hour. This was taken to indicate that there was something important in the air, and this supposition proved to be correct.

Court Hears Petition.

At 2:45, court was again convened, and Charles C. Houpt, district attorney read the petition and affidavits to the court.

One of the affidavits was by Postoffice Inspector William Ketchum, and the other was by Lawrence Ritchey, an employe of the secret service department of the treasury department. In his affidavit, Mr. Ketchum alleged that on Dec. 28, he saw Smith, Batchelor and Benedict in the lobby of the Metropolitan theater. This was at about 5:30. Later in the evening, he saw them come out of the opera house together. They then proceeded to the Ryan hotel, and remained in conversation in one of the hotel parlors until about 12 o'clock that night.

"I stood within about eight feet of them," says the petitioner, "and while the conversation was so low that I could only get an occasional part of it, I heard the name 'Wood' mentioned distinctly.

"On Dec. 31, at about 5:30, I was standing in the Sixth street entrance of the postoffice, and I saw Smith, Batchellor and Benedict in the lobby of the Euclid hotel, across the street. They conversed there for about an hour."

Ritchey says that he was detailed by the treasury department to come here and report to the district attorney and remain on duty here during the progress of the trial.

Ritchey's Affidavit.

In his affidavit, he says that on last Thursday he saw Smith, Batchellor and Benedict seated at a table in the cafe of the Euclid hotel. He went in and took a seat at the table beside them. He heard Batchellor and Smith talking about the defendant jurors sitting in the case.

Smith is alleged to have pointed to Batchellor and remarked, "There is you," and then pointing to Benedict, he said, "There is you, and followed this by naming four other jurors, after which he said, "That is six of them that are all right."

Mr. Houpt addressed the court and said that he did not feel that the government ought to go on with its case. "It is," he said, "the only wish of the government that when the case is concluded, it will be submitted to a jury whose minds are not poisoned by any outside influence."

Judge Morris said that the charge was a serious one, and that it ought to be investigated, and suggested that counsel of both sides hold a conversation to determine what course they intended to pursue.

The attorneys, John Lind, Judge Lusc of Superior, John E. Stryker, for the defendants, and Mr. Houpt and Mr. Ewert, for the government, retired to the marshal's office and returned in a few minutes.

Mr. Lind addressed the court and said:

"This is the most deplorable and unprecedented situation which has ever come before a court during my experience. We have come to the conclusion, your honor, that whether the charges are true or untrue, it would be impossible for the defendants to have a fair trial with this jury. I regret that a statement of this character should ever have to be made in a federal court or in any other court."

The court announced his position. He said in part:

"If any of the jurors are guilty of any improper conduct there can be no fair trial. I see no other course to pursue than to have the parties cited for contempt, that the jury be withdrawn and that the case be dismissed.

"In view of the investigation which is to be made, the jurors, those who are innocent, will be prejudiced for one side or the other, as they would not wish to be under a cloud, and so I cannot see how the ends of public justice can be carried out by this jury."

The three accused men were arraigned yesterday afternoon and pleaded not guilty. They will appear Tuesday to answer to the charge of contempt of court.

Lyman G. Bachellor of Madelia and E. C. Benedict of Sabin, Clay county, were placed under bonds in the sum of $5,000 each to answer a charge of contempt. Mr. Smith offered Ell Warner of McGill & Warner as surety, while Charles L. Haas and Eli S. Warner became surety for E. C. Benedict. Charles L. Haas qualified as surety for Bachellor. The bonds were approved by Court Commissioner Spencer.

AN UNIQUE GATHERING

Will be International Congress on Tuberculosis, Next September.

All States and Many Foreign Countries to be Represented.

Washington, Jan. 14. — Widespread interest is being taken in this country and abroad in the international congress on tuberculosis which is to be held in Washington next September under the auspices of the National Association for the Study and Prevention of Tuberculosis. The gathering will be unique in several respects. It will be the first congress of the sort to be held in this country, and it will differ from the earlier congresses in giving greater prominence to the non-medical aspects of the campaign against the white plague. The outlook will cover the anti-tuberculosis movement as a whole, and emphasis will be laid upon the humanitarian and social factors of the problem as well as upon the medical, surgical and pathological aspects of it.

A central committee was appointed for each state and for each of the countries abroad at the beginning of the preparations for the congress. A number of these have organized and have formulated definite plans for the representation of their respective states or countries in the congress and in the exhibition that will be held in connection with it. The activity of the local committee has been preceded in nearly every instance by official action by the governor of the state authorizing the participation of the various departments of state government in the undertaking. This has been done by the governors of twenty-nine states, and other executives have signified their intention of taking up the matter at an early date. The federal government is arranging to take part also, seven of the nine departments having expressed a desire to be represented.

Many Interested.

Some idea of the extent of the interest shown in the United States in the congress is to be gained from the fact that over 600 persons, in different sections of the country, are serving on the state committees. The members of the Minnesota committee are: Dr. H. M. Bracken, state board of health, St. Paul; Mrs. G. H. Christian, Minneapolis; W. H. Dunwoody, Minneapolis; Dr. C. L. Greene, St. Paul; Dr. C. H. Mayo, Rochester; Dr. F. F. Westbrook, Minneapolis; Dr. J. B. Wilson, Rochester.

The central committee of arrangements for the congress has invited the state committees to promote the coordination and co-operation of all the organizations of the states interested in the crusade against tuberculsis; to secure appropriations for state and local exhibits and contributions to the maintenance fund of the congress; to secure members of the congress; to enlist the interest and co-operation of state and local officials; to secure state and municipal exhibits for the congress; to make reports to the secretary general on the status of the fight against tuberculosis in the state, etc.; to welcome the co-operation of the National Federation of Woman's clubs through the state committees.

Activity of State Committees.

Each of the state committees is working out its plans in its own way. The New York committee, for instance, is arranging for the preparation of an exhibit, and for the collection of information from a wide range of sources, medical, surgical, bacteriological, pathological, industrial and economic, in regard to the prevalence of the disease and the possibilities of its prevention. The Illinois committee is enlisting the active interest of all the departments of state and local government. The Wisconsin committee plans to raise a fund of $5,000 to defray the cost of an exhibition that will represent the anti-tuberculosis activities of the state. The Pennsylvania committee has started a vigorous membership campaign, and the committee for Maine is beginning at home by the organization of a state association for the study and prevention of tuberculosis. Still another committee, that for Maryland, has reported to the secretary general of the congress its intention to compile and publish a digest of the local laws on the subject; a historical review of the anti-tuberculosis movement in the state, and a directory of all activities, public or private, that are trying to solve any phase of the tuberculosis problem.

Foreign Representation.

Forty-six of the foreign countries are identified with the congress and will be represented in the gathering. The members of the national committees of these countries include scientists, investigators, hygienists, and dignitaries of high rank.

Since the organization of the international congress on tuberculosis about seventeen years ago, the gatherings have been held every taree years, the previous meetings having taken place in Germany, France, Russia, Austria, Italy and England. The American congress will have the distinction of being the first at which the Spanish speaking countries will have a prominent part, and it will be the first at which Spanish will be one of the official languages. The other languages are German, French and English. The Central and South American countries will be well represented in the congress, and the national committees for those countries have organized and include men who are actively identified with the anti-tuberculosis movement.

Eminent Speakers.

In connection with the congress a series of public lectures will be given by some of the most eminent of the foreign investigators. This list of speakers includes Dr. K. W. Philip of Edinburgh, founder of the first tuberculosis dispensary.

Dr. Theodore Williams of London.

Dr. Arthur Newsholme, health officer of Brighton, Eng., director of King Edward's sanitarium.

Dr. C. H. Spronck of Utrecht, Holland.

Dr. Turban of Davos-Platz, Switzerland, the originator of the scheme generally followed at present for the classification of tuberculosis.

Dr. Gottholdt Panwitz of Berlin, secretary-general of the International Conference on Tuberculosis. Dr. Emil von Behring of Marburg, the originator of the diphtheria antitoxin.

Dr. Calmette, director of the Pasteur Institute at Lisle, France.

Dr. Letulle of Paris, secretary-general of the last International Congress on Tuberculosis.

Dr. S. Kitasato of Tokio, Japan, director of the Imperial Institute for the Research of Infectious Diseases.

SECURES TARDY JUSTICE.

Captor of Sitting Bull Finally Rewarded by Government.

Rosebud, S. D., Jan. 14.—Edward H. Allison, who brought Sitting Bull into a camp of federal troops and made possible the negotiations which ended the wars between the Sioux Indians and the government, has at last been done tardy justice. He lives here, and though a native of New England, has been married to two wives who were both full-blooded daughters of the Sioux. By his first marriage and adoption into the tribe, he became a brother of the famous Chief Gall.

Allison came to the Far West in 1866 and enlisted in the army. In the fighting following the Custer campaign, Allison's services were described officially by Gen. Sheridan as "beyond estimation." After years of the most difficult and dangerous service as scout, guide and interpreter, he was put in charge of the attempt to bring old Sitting Bull into camp. Allison accomplished the task.

As an aged man, Allison found himself without recognition as a member of the Sioux tribe, unable to get his allotment of lands on the Rosebud reservation, in Tripp county, S. D., which is soon to be opened. He set about to make his record clear, and sent to Senator Gamble a mass of letters and credentials from army officers, of which any man might well be proud. As a result, Senator Gamble was able to have the interior department place Allison's name on the roll of the Sioux tribe, and when Tripp county lands are opened, he will come in for an allotment of 640 acres of pasture, or 320 acres of agricultural lands.

Allison is the author of a history of the Sioux wars, which has been widely accepted as one of the most accurate works on the subject.

BOY CUTS OFF NOSE.

Enterprising Surgeon Sews Member on and It Works All Right.

Chippewa Falls, Wis., Jan. 14.—A little son of Boyd Webber, living at Red Cedar, near here, has a brand new nose.

The little boy was carrying a cup of tea. He fell, and a sharp edge of the cup cut his nose off as sharply as if it had been done with a knife.

Thus bereft of his nose, the little boy grabbed the dissevered member and called for his mother. Mother arrived and a doctor was summoned.

The physician was a man of resource. He calmly placed the nose in position, slightly reduced, sewed it on, and now the boy is as happy as a youth with a new top.

It works all right, and no one would know that he had ever parted with it even for a moment.

NOTICE OF EXPIRATION OF REDEMPTION.—

Office of the County Auditor,
County of St. Louis, State of Minnesota.
To Henry H. Bell:

You are hereby notified that all the pieces or parcels of land situated in St. Louis County, and state of Minnesota, hereinafter described, are now assessed in your name; that on the 1st day of May, 1903, at a sale of land pursuant to the real estate tax judgment duly given and made in and by the District Court in and for the said county of St. Louis on the 21st day of March, 1903, in proceedings to enforce the payment of taxes delinquent upon real estate for the year 1891, for the said county of St. Louis, each of the pieces or parcels of land hereinafter described was duly offered for sale, and no one bidding for any piece or parcel so offered, the amount for which the same was subject to be sold, to-wit: The amount of $1.14 for the piece or parcel described as the undivided half of the northeast quarter of the southeast quarter of section 26, township 52, range 21, according to the Government survey thereof; the amount of $1.27 for the piece or parcel described as the undivided half of the southwest quarter of section 26, township 52, range 21, according to the Government survey thereof; each of said pieces or parcels was duly bid in for the state of Minnesota for said amount, for which it was so subject to be sold; that thereafter and on the 13th day of November, 1907, none of said pieces or parcels of land having then been redeemed from said sale, and all of said pieces or parcels of land having then become the absolute property of the state of Minnesota, each of said pieces or parcels was separately sold and conveyed at public sale by the county auditor of said St. Louis County, and in accordance with the provisions of the statute in such case made and provided for sums as follows: Said undivided half of the northeast quarter of the southeast quarter of section 26, township 52, range 21, according to the Government survey thereof for $14.40, duly paid to the county treasurer of said county; said undivided half of the southwest quarter of section 26, township 52, range 21, according to the Government survey thereof, for $58.19, duly paid to the county treasurer of said county; that the amount required to redeem each of said pieces or parcels of land from said last mentioned tax sale, exclusive of the costs to accrue upon this notice, is the sum for which said piece or parcel of land was so sold at said last mentioned sale, and interest at the rate of one per cent a month from said 13th day of November, 1907, to the day such redemption is made, and that the tax certificate on each of said pieces or parcels of land, executed and delivered by said county auditor on said last mentioned sale, has been presented to me at my office, by the holder thereof, and that the time for the redemption of each of said pieces or parcels of land from said sale will expire sixty days after the service of this notice and proof thereof has been filed in my office.

WITNESS my hand and official seal, this 23d day of December, 1907.

O. HALDEN,
County Auditor of St. Louis County, Minnesota.
(Seal County Auditor, St. Louis County, Minn.)
Duluth Evening Herald, Dec.-31-1907-Jan-7-14-1908.

NATURE
AND A WOMAN'S WORK

LYDIA E. PINKHAM

Nature and a woman's work combined have produced the grandest remedy for woman's ills that the world has ever known.

In the good old-fashioned days of our grandmothers they relied upon the roots and herbs of the field to cure disease and mitigate suffering.

The Indians on our Western Plains to-day can produce roots and herbs for every ailment, and cure diseases that baffle the most skilled physicians who have spent years in the study of drugs.

From the roots and herbs of the field Lydia E. Pinkham more than thirty years ago gave to the women of the world a remedy for their peculiar ills, more potent and efficacious than any combination of drugs.

Lydia E. Pinkham's Vegetable Compound is now recognized as the standard remedy for woman's ills.

Mrs. Bertha Muff, of 515 N.C. St., Louisiana, Mo., writes:

"Complete restoration to health means so much to me that for the sake of other suffering women I am willing to make my troubles public.

"For twelve years I had been suffering with the worst forms of female ills. During that time I had eleven different physicians without help. No tongue can tell what I suffered, and at times I could hardly walk. About two years ago I wrote Mrs. Pinkham for advice. I followed it, and can truly say that Lydia E. Pinkham's Vegetable Compound and Mrs. Pinkham's advice restored health and strength. It is worth mountains of gold to suffering women."

What Lydia E. Pinkham's Vegetable Compound did for Mrs. Muff, it will do for other suffering women.

No one thing will give so much enjoyment, to so many people, for so long a time at so little cost, as a

SLENDER BEAUTY.

The beauty of a slender form is the desire of every woman. If you are too stout, there is a simple home remedy which you can procure at any drug store for a small cost, and it will rapidly and harmlessly reduce your flesh, purify the blood, improve the complexion and prevent the formation of wrinkles. Get one-half ounce Marmola, one-half ounce Fluid Extract Cascara Aromatic, three and one-half ounces Syrup Simplex. Mix these together at home if you wish and take one teaspoonful after meals and at bedtime.

NEWS OF THE IRON RANGES

LAST YEAR SAW MUCH BUILDING

In Chisholm, the Total Being Over $350,000.

Chisholm, Minn., Jan. 14. — (Special to The Herald.)—Last year was a record breaker in Chisholm in the amount of building operations, the total expenditure in that line probably exceeding the figures reported in any other range town for the period. An estimate places the amount expended in building at $332,320. Added to this should be $330,000 or $40,000 spent in sewers, sidewalks and street work which will bring the grand total to $350,000 or more. Among the large expenditures were: High school building, $80,000; First National bank building, $25,000; R. S. O'Neill hotel, $20,000; Oliver Mining company, twenty-five buildings, Monroe location, $25,000; village hall, $25,500; Lawrence Kovach building, $13,000; village filter plant, $15,000; Sapero & Sons building, $12,000; Shenango Iron Mining company, office and other buildings, $1,200; Oliver Mining company, office building, Monroe location, $5,000. Other buildings as follows: Henry Tomfohr, building and repairs, $3,500; C. R. Johnson, building, $3,000; Matt Matzelic, building, $2,500; Ed Webb, dwelling, Shenango location, $4,000; Sol. Rubloff, building, $2,500; A. Bergeron, building and repairs, $2,200; Henry Fugere, building and repairs, $2,000; James Dowling, building and repairs, $2,400; John McDonald, building and repairs, $3,200; Karon Bros., building and repairs, $4,700; Mr. Pessata, building and repairs, $3,000; Joseph Perovich, addition and repairs, $1,500; J. J. Hayes, addition and repairs, $1,200; M. Auda, addition and repairs, $1,200; W. A. Masters, dwelling, $1,500; Ben LeDoux, addition, $1,000; E. J. Casey, addition, $1,000; John Schweiger, dwelling, Pearce mine, $3,500; Frank Bodinawitz, addition and repairs, $1,000; Martin Connors, dwelling, $1,600; J. H. McDonald, two dwellings, $1,400; John Anselmo, dwelling, ..1,800; John Turja, building, ..3,200; Electric Light company, addition, $1,000; M. Talus, dwelling, $1,200; William Jacobson, dwelling, $650; John Winquist, addition, $700; D. C. Hackett, dwelling, $950; C. Taylor, addition, $400; Edward Ahonen, building and repairs, $600; Jacob Skala, dwelling, $600; unknown, 15 dwellings, $7,300; unknown, 10 dwellings, $6,000; unknown, 12 dwellings, $5,700; repairs and additions, $9,220.

BIWABIK WELL LIGHTED.

New Electric Lighting Plant in Successful Operation.

Biwabik, Minn., Jan. 14.—(Special to The Herald.)—The contract with the Biwabik Mining company to furnish electric lights for the city, is in operation, the new plant having been successfully started a few days ago, it gives complete satisfaction. The town is well lighted. The Biwabik company is also furnishing the village with its water supply.

BIWABIK LODGE K. OF P.

Holds Largely Attended Installation Exercises---Banquet Follows.

Biwabik, Minn., Jan. 14.—(Special to The Herald.)—With Past Chancellor Commander F. S. Colvin of the local K. of P. lodge as the installing officer, the newly elected officers were duly installed Saturday night in the presence of many Biwabik and Aurora members. A banquet at which there were many notable addresses on Pythianism, followed the installation; T. E. Grau of Duluth, the new county humane officer, a member of the Aurora lodge, being an honored guest. The following officers of the Biwabik lodge were installed: H. H. Salmon, chancellor commander; F. S. Colvin, vice chancellor; I. R. Gillpatrick, prelate; E. A. Koen, master of wor; K. S. Johnson, keeper of records and seal; F. S. Date, master of exchequer; Frank Thomas, inside guard; Don C. Anderson, outside guard.

LEAP YEAR CLUB.

Young Men of Eveleth Alive to Amenities of the Year.

Eveleth, Minn., Jan. 14.—(Special to The Herald.)—A number of young men have organized a Leap Year club at a meeting held at Dr. Johnson's residence. Officers are to be elected at a future date. These are credited with having been the first to join the club: E. H. Hatch, J. P. McCormick, H. Grisivold, J. McCarter, Dr. Johnson, W. G. Sutherland, C. B. Hoel, J. W. Hanselman, E. K. Medlar, W. G. Tryor, Verne Fulton, W. K. Bauman, A. E. Bawden, G. H. Murray, H. Tirruff, J. E. Serauff, O. E. Owens, G. H. Gary, C. H. Moore, Leo Shapiro, S. T Johnson, Earl Playman, Richard Blight, Charles Mueller, J. H. McGinnis, J. G. Pasternecki.

FOOL THEIR FRIENDS.

James Dowling and Miss Spence Have an Early Wedding.

Eveleth, Minn., Jan. 14.—(Special to The Herald.)—James Dowling of Chisholm, was married to Miss Jessie Spence of Eveleth yesterday about 6 a. m. The ceremony was performed by Father Hugh Floyd of St. Patrick's church. The cause of this early marriage was the desire of the couple to surprise their friends and leave before the latter were aware of what had taken place. Their destination was the Twin Cities. After their honeymoon, Mr. and Mrs. Dowling will be at home in Chisholm, where Mr. Dowling conducts a furniture and undertaking establishment.

Miss Spence is well known here, having accompanied her father, Uncle David Spence recently on his celebrated first vacation in forty years to Detroit, Mich. Mr. Dowling was associated with his brother, P. E. Dowling in installing the waterworks that is now in operation in Eveleth.

JOHN WARD DISAPPEARS.

Wanders Into the Woods and May Have Lost Himself.

Eveleth, Minn., Jan. 14.—(Special to The Herald.)—Frank Ward, a farmer living near Zim has been consulting Attorney McGilvary to secure the proper papers to have his brother John examined as to his sanity. The latter has been acting queerly since he returned from harvesting.

While out in Grand Forks, Ward was held up for $450 and some valuables. At the end of the week he suddenly disappeared from his brother's farm and has not been heard from since. His friends believe that he has wandered off into the woods. While waiting for the papers a thorough search of the woods will be made for the missing man.

ELY HIGH SCHOOL BAND AND DIRECTOR JOHN KINSMAN.

COMES TO DULUTH.

Former Tower Chief of Police Will Reside Here.

Tower, Minn., Jan. 14.—(Special to The Herald.)—W. H. Oppel, one of the oldest settlers of Tower, departed for Duluth, yesterday, where he intends to remain permanently. Mr. Oppel was, for about twenty years, employed here in the general store of C. H. Oppel & Sons, which was closed out a couple of years ago. Since then he has faithfully served the city of Tower as chief of police. He intends to move his family to Duluth as soon as he is able to find a suitable home to accommodate them.

MANY BIRDS EXHIBITED.

Two Harbors, Minn., Jan. 14.—(Special to The Herald.)—About 200 chickens are on exhibition at the second annual poultry show of the Lake County Poultry association, which began here yesterday. Twenty birds belonging to Duluth men are in the exhibition. G. D. Holden of Owatonna is doing the judging. The first day's attendance was quite large, and there is a good-sized attendance today.

EVELETH BRIEFS.

Eveleth, Minn., Jan. 14.—(Special to The Herald.)—Owing to the inability of Superintendent Hearding to attend the Commercial club's meeting in St. Paul tomorrow and Thursday, it is possible that President G. A. Whitman of the First National bank will go.

The activity at the Adams stripping makes it impossible for Superintendent Hearding to get away at this time.

The Enterprise Piano club met at the home of Mrs. J. Murphy recently. Games were played and a short musical program was given. Those present, were: Ring Payne, Celia Murphy, Irene Campbell, Donald Cerveny, Gail Davey, Aileen Corbett, Evelyn Morrill, Edith Williams, Hazel Goard, Venneta Powell, Inez Davey, Florence Shapiro, Sarah McDonald, Ruth Trevarrow and Florence Robb. The club's officers are Ruth Jesmore, president; Hazel Goard, secretary and Miss Sheehy, teacher.

PILES CURED IN 6 TO 14 DAYS.
PAZO OINTMENT is guaranteed to cure any case of Itching, Blind, Bleeding or Protruding Piles in 6 to 14 days or money refunded. 50c

PASSED FOUR SCORE.

Solomon G. Krake Dies at Home of Daughter in Proctor.

Proctor, Minn., Jan. 14.—(Special to The Herald.)—The death of Solomon G. Krake, aged 81, occurred Saturday at the home of his daughter, Mrs. E. S. Davis, on the West side. Mr. Karke has been failing for the past two months, and his death was not unexpected. Previous to his arrival here to make his home with his daughter, he lived in Waupaca, Wis., where he made his home for many years. His remains were taken to Waupaca Sunday for interment.

LIFE'S JOURNEY

Is Burdensome to Many in Duluth

Life's journey is a heavy burden,

With a constantly aching back.

With urinary disorders, diabetes,

With any kidney ill.

Doan's Kidney Pills relieve and cure.

Here is Duluth proof that this is so:

Mrs. Agnes McKay, formerly of 125 Nineteenth avenue, Duluth, Minn., says: "Though it is fully six years since I first recommended Doan's Kidney Pills in a testimonial, I have just as much faith in that remedy today as ever. I do not like to be published in the paper, as a rule, but Doan's Kidney Pills are such a reliable remedy that I would like every sufferer from kidney complaint to know it. The symptoms of this trouble are many and varied. In many cases the headaches and bearing down pains in the small of the back were quickly banished, and my system was invigorated and toned up. I have not had the slightest return of my old trouble since."

For sale by all dealers. Price, 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

REDUCTION OF RATES

(Continued from Page 1.)

regard to rates in the Northwest. A hearing was held at St. Paul at which time the representatives of the company refused to produce their books or answer questions. This resulted in a postponement of the hearing. In the meantime the Shippers' association broadened its inquiry with the result of the filing of the petition yesterday.

The petition shows that the Pullman company has invested $28,000,000, while it is capitalized for $125,000,000 and its net earnings are approximately 20 per cent per annum in addition to an enormous surplus; that each car at the estimate of the cost of the car paid for itself, every two years; that the porters testified that one-third of their wages is paid by the public and not by the company; that from 1899 to 1907 the net earnings of the company was $51,665,848

The petition further says because of the rates charged and the abnormal revenue resulting the Pullman company is so powerful that it now controls the sleeping car business of the United States and is so arrogant that it denies the right and power of the government to inquire into its earnings or regarding its business; that the concern as now operated is a burden on the traveling public; that it compels railroads unable to manage and maintain their own equipments to submit to extortionate demands and has become a menace to the transportation interests and to the public welfare generally and is intolerable.

WORK LAID OUT BY BEDE

(Continued from Page 1.)

Should the speaker permit the passage of a public building bill, Mr. Bede will see that Duluth is taken care of, in accordance with plans with which that city is already familiar.

Another matter in which the Duluth member is interested is the drainage of state swamp lands by the general government, and he is now preparing a bill looking to that end. Representative Steenerson is similarly interested, and the two will co-operate.

There is a good deal of demand for an agricultural experiment sation in the northeastern part of the Eighth district, and the people in and around Cloquet will raise the money to purchase 1,000 to 1,200 acres of land near that city for such purposes, provided the government will consent to make the sale, the land in question being controlled by the government. Mr. Bede is following this question up with the Indian office and the secretary of the interior.

Opening Townhips.

Still another is the opening of certain townships in Koochiching county. This matter, Mr. Bede says, will come to a head as soon as the urgent deficiency appropriation bill can be got out of the way. That bill will provide for the continuation of Eli Warner in the office of surveyor general for a term of months long enough to permit a final completion of his work.

In the drawing of rooms in the new house office building, the Duluth gentleman came out very well. He was the fifteenth man to make a selection, and picked out a fourth-story room with a southern exposure. "It overlooks Anacistia and St. Elizabeth's hospital for the insane," says Mr. Bede, "but that will tend to steady my nerves a bit, and thus will be all to the good."

FRIGHTFUL CONFLAGRATION

(Continued from Page 1.)

this the case of those who were caught on the stairways. Pandemonium reigned, and the mad scramble for the exits was simply indescribable. The weaker ones were brushed aside and in many instances trampled to death. Scores of persons on the second floor, seeing the awful jam on the stairways, risked their lives by jumping from the windows. In this way several were so badly injured that they died before reaching any of the numerous temporary hospitals.

Nearly Every Family Afflicted.

Boyertown is a town of about 2,500 persons and there is scarcely a house in the little town that has not been afflicted by last night's visitation of fire. Reuben W. Stover, one of those who escaped the flames, in speaking of the fire, today, said:

"When the explosion occurred there were at least thirty boys and girls on the stage, while many more were behind the scenes. Without warning there was a terrific explosion which seemed to shake the entire building. Immediately there was a wild rush for the exits. The people on the stage bumped over the footlights into the audience. Everybody seemed to have lost control of themselves. The flames first consumed the scenery and came toward the crowd like a great wave of fire and suffocating smoke, dropping men, women and children in its path. The flames did the rest. It was a pitiful sight and I will carry the recollection as long as I live. Once the crowd began to file its way to the doors, no power on earth could have saved all the lives, but had the men not lost control of themselves, the loss of life would have been very small."

Fire Under Control.

The fire was not brought under control until early this morning after assistance had arrived from Reading and Pottstown.

Physicians and nurses were sent to Boyertown from Reading and aided materially in alleviating the sufferings of the injured who had leaped from the windows in their mad rush to escape the flames.

Early today about fifty members of the state constabulary, which is stationed in this district, came over from Reading on a special train. The work of removing the bodies from the debris was unusually tedious and hazardous. When the rush was at its height, the floor gave way, precipitating many persons to the basement and the bodies of those will be buried beneath the charred timbers and tons of brick from the ruined walls.

BRAZILLIANS GRATIFIED

(Continued from Page 1.)

the powerful fleet sent to these waters by the friendly nation of the north, a nation to which we are united by bonds of strong friendship. I congratulate you upon your ability as navigators, and express my admiration. You have arrived punctually at your destination in spite of the great difficulties presented by your undertaking. You are cordially welcomed here and I trust that your stay in Brazil will be happy."

In response Admiral Thomas made a short speech of thanks.

Upon leaving the residence of Dr. Penna, the officers were driven to the home of Mr. Dudley. The banquet was superb.

The entire house and grounds were illuminated by venetian lamps and colored electric lights. Within the salons were ablaze with graceful illumination and colored flowers. The tables were laid in two of the salons and united by an arc of flowers. They were decorated with cut glass, beautiful silverware and more flowers. Among those present were all the admirals, the commanding officers of each battleship, the Brazilian minister of marine, the Brazilian minister of war, the chief of the naval staff, an official representing the minister of foreign affairs, Baron de Rio Branco, and a number of deputies and senators.

CHIEF JUSTICE START

(Continued from Page 1.)

now under sentence of death for the alleged murder of Johann Johannsen in Beltrami county was continued until next Tuesday.

The case of Livingston Quackenbush, sentenced from LeSueur county for accepting and receiving deposits after he knew his bank was insolvent was argued and some hope given of a commutation of sentence. It was continued with others until next Tuesday. Another application continued was that of Phil S. Sherry, sent from Swift county, in 1900, for life, for murder in the second degree.

The plea of Andrew Wold, sent from Wilkin county in 1899 for life, for murder was denied. All the other cases were continued.

MOB WILL DEMAND EMPLOYMENT OF CITY.

Chicago, Jan. 14.—A dispatch to the Record-Herald from St. Louis, Mo., says: James Eads How, better known as the St. Louis "millionaire tramp," will lead an army of 5,000 unemployed to the city hall today, for whom he will demand work from Mayor Wells. How will ask the mayor to have the city council appropriate $20,000 for public improvements, that in this way work may be provided for the men in whom he has interested himself. He asks that part of the money be used for a municipal lodging house and for the erection at once of a temporary shelter for the unemployed, where meals can be obtained free of charge.

Church Can Help in War Against Consumption

Whatever relieves suffering belongs to Christianity. The terrible ravages of consumption can be checked through concerted action. People should realize the necessity for supporting the societies engaged in the humane warfare against the dread scourge, and to awaken them to this need there is no more feasible way than for the churches to direct their generous enthusiasm toward the humane work.

Consumption is a most insidious disease, often securing a firm hold before the victim is at all conscious of danger. No precaution to guard against the deadly germ should be overlooked.

Neglect of an ordinary cough has been known to result in consumption. To break up a cold quickly and cure any cough that is curable, there is nothing so effective as the mixture of two ounces of glycerine with eight ounces of whisky and a half ounce of Virgin Oil of Pine. Use in teaspoonful doses every four hours. Five ounces of tincture Cinhona compound can be used instead of whisky with the same effect.

The ingredients are inexpensive and can be purchased without trouble at any drug store. To avoid substitution of some inferior pine product for the Virgin Oil of Pine, it is better to purchase each separately and mix them at home.

The genuine Virgin Oil of Pine is put up for dispensing, only in half-ounce vials, each vial securely sealed in a round wooden case with an engraved wrapper showing plainly the name—Virgin Oil of Pine compound pure, guaranteed under the Food and Drugs Act of June 30, 1906, Serial No. 451, prepared only by Loach Chemical company, Cincinnati, Ohio. Be sure to get the genuine, as the oil sold in bulk and cheap imitations put out to resemble Virgin Oil of Pine in name and style of package are ineffective, being largely composed of a distillation of pine needles, or leaves, instead of from the pine tree proper.

These pine needle oils are not intended for internal use, and when taken internally usually cause nausea. Their use is mainly confined to the manufacture of soap and similar purposes.

Don't Take the Risk.

When you have a bad cough or cold do not let it drag along until it becomes chornic bronchitis or develops into an attack of penumonia, but give it the attention it deserves and get rid of it. Take Chamberlain's Cough Remedy and you are sure of prompt relief. From a small beginning the sale and use of this preparation has extended to all parts of the United States and to many foreign countries. Its many remarkable cures of coughs and colds have won for it this wide reputation and extensive one. Sold by all druggists.

LOFTUS BOOMS LA FOLLETTE

Says Wisconsin Senator Will Have the Minnesota Delegation.

Washington, Jan. 14.—(Special to The Herald.)—"Minnesota will send a delegation to the Republican national convention pledged to the support of Senator La Follette. He is the only candidate, up to the present time, who has developed enough strength for himself to perfect an organization in our state," said George S. Loftus of St. Paul at the Ebbitt house, yesterday. Mr. Loftus is commissioner of the Minnesota Shippers' association. "If President Roosevelt were a candidate, the Minnesota delegation would be for his nomination," continued Mr. Loftus. "Our people are for his policies. They are not against a third term for him; they are against a third term by proxy. In the Northwest the people want to know where every candidate stands upon the question in which they are interested. They desire a leader, not a "Me Too" or a reactionary candidate, so they are for La Follette. They realize that the principles, which were ridiculed when first advocated by Senator La Follette, are accepted as sound doctrine, to which other leaders of the party are hastening to subscribe their allegiance. The Shippers' association took the initiative in forming a state organization to secure the Minnesota delegates for him. That organization has been perfected, and extends to every county in the state. We will have a delegate docket not only for delegates at large, but we will have a delegate ticket in every congressional district."

DULUTH WOMAN BRINGS SUIT

At Cleveland Over Property Left by Her Foster Mother.

Cleveland, Ohio, Jan. 14.—(Special to The Herald.)—Did Mrs. Elizabeth Morris, who died Sept. 30, leaving a $30,000 estate, forget that she owned a large lot on Detroit avenue, northwest, and a house in Duluth, Minn? She did not mention them in her will, though she named the other items of her property in detail.

The matter will be settled when the suit of Mrs. Claudia Collings of Duluth, adopted daughter, filed yesterday, comes to trial. Mrs. Collings says Frank Davis, Mrs. Morris' administrator, avers the estate has interest in the two properties. Mrs. Collings, who lives in the Duluth house, asks that Davis' claim be nullified. She says she is the real owner and is Mrs. Morris' sole heir. Davis has enough to pay the various bequests without including this additional property, she says.

Mrs. Morris left money to friends throughout the country, the Salvation Army, the Home For Friendless Girls, the Industrial home and the First Congregational church. The rest she requested should be spent at the rate of $10 a month on coal and flour for worthy poor.

TEACHERS SCARCE.

Three Thousand Children in Chicago Are Without Instructors.

Chicago, Jan. 14.—The situation caused by scarcity of teachers in the Chicago public schools reached a climax yesterday.

In seventy-three rooms, chiefly in elementary schools, the officials found it impossible to provide teachers and had to dismiss the pupils for the day. More than 3,000 school children spent the day at their homes or on the streets.

Altogether more than 140 vacancies were reported. Almost half of these were filled through the assignment of substitutes or by school principals who took charge of the "disabled" rooms.

Most Women Know This.

There are no White Sale Bargains to match those at Duluth's Greatest White Sale. Come to Gray-Tallant company's and see.

MANY MOURNED MRS. L. M. LANGE

Estimable Woman, Wife of G. A. R. Man, Called to Reward.

Cass Lake, Jan. 14.—(Special to The Herald.)—The funeral of Mrs. L. M. Lange, who died early Sunday morning, was held Monday, and was one of the largest ever held in Cass Lake. Mrs. Lange was 50 years old and was one of the most admirable and lovable of women. She is survived by a husband and son, a most promising young man. Her husband, L. M. Lange, is one of the best known members of the G. A. R. in Minnesota. He held the office of state commander during the year of 1892 and won the admiration and esteem of every member in the state for the admirable manner in which he executed the duties of his office. Mr. Lange was also at that time prominently mentioned as a candidate for the office of national commander, but owing to important business relations he would not consider himself a candidate. Previous to coming to Cass Lake he held the office of register of the Marshall land office and was also judge of probate of Cass county in 1905 and was re-elected in 1907.

Mrs. Lange had been suffering for several years from consumption of the bowels, and although her condition was known to be serious it was not thought that death would call her so soon. The funeral was held from the residence at 3 p. m. and the remains were escorted to the Cass Lake cemetery by the Masons and Eastern Star, of which she was a most valuable member.

ITCHING HUMOR ON LITTLE BOY

His Hands were a Solid Mass, and Disease Spread All Over His Body —In Four Days the Child was Entirely Cured—Mother Strongly

RECOMMENDS CUTICURA SOAP AND OINTMENT

"One day we noticed that our little boy was all broken out with itching sores. We first noticed it on his little hands. His hands were not as bad then, and we didn't think anything serious would result. But the next day we heard of the Cuticura Remedies being so good for itching sores, etc., that I thought I would get them. By this time the disease had spread all over his body, and his hands were nothing but a solid mass of this itching disease. I went to the drug store and purchased a box of Cuticura Soap and one box of Cuticura Ointment, and that night I stripped my little boy and took the Cuticura Soap and lukewarm water and washed him well. Then I dried him with a soft bath towel, and took the Cuticura Ointment and rubbed him thoroughly with it. I did this every evening before I put him to bed and in three or four nights he was entirely cured. You have my permission to publish this because anybody who suffered as my baby did ought to know of the Cuticura Remedies. I will surely and gladly recommend the Cuticura Remedies, for they are a godsend to all suffering with skin diseases. Mrs. Frank Donahue, 208 Fremont St., Kokomo, Ind., Sept. 16, 1907."

PIMPLES

And Blackheads Prevented and Cured by Cuticura.

Gently smear the face with Cuticura Ointment, the great Skin Cure, but do not rub. Wash off the Ointment in five minutes with Cuticura Soap and hot water and continue to bathe the face freely for some minutes. Repeat morning and evening. At other times use hot water and Cuticura Soap for bathing the face as often as agreeable.

Complete External and Internal Treatment for Every Humor of Infants, Children, and Adults consists of Cuticura Soap (25c.) to Cleanse the Skin, Cuticura Ointment (50c.) to Heal the Skin, and Cuticura Resolvent (50c.), (or in the form of Chocolate Coated Pills 25c. per vial of 60) to Purify the Blood. Sold throughout the world. Potter Drug & Chem. Corp., Sole Props., Boston, Mass.

Mailed Free, Cuticura Book on Skin Diseases.

WHEAT IS A LITTLE OFF

In Duluth and Minneapolis—Firm Elsewhere in America.

Flax Has a Stronger Tone in Local Market.

Duluth Board of Trade, Jan. 14.—Wheat was a little irregular within a narrow range today and closed so. Duluth and Minneapolis were a trifle off from yesterday at the close, but the other markets were a little stronger.

Sterms still had the telegraph communications to New York badly tied up. The closing prices were not received from New York, and other outside news was meager.

World's shipments of wheat last year were 8,848,000 bus, and world's shipments focorn were 2,228,000 bus.

The visible supply of wheat decreased 600,000 bus, and Bradstreet's reported an increase of 2,086,000 bus in the world's visible supply of wheat.

An interesting piece of bullish news came from Montreal today, being to the effect that the railways reported that on Jan. 11 the grain elevators in the Canadian Northwest contained 6,500,000 bushels of wheat against 19,000,000 bushels for the same time a year ago.

Liverpool closed ¾d lower, Paris ¾@1c lower and Antwerp unchanged.

The May option closed ⅛c lower in Duluth, ⅛-¼c higher in Chicago, ⅛c off in Minneapolis and ⅛c higher in Winnipeg. The July option closed ⅛c lower in Duluth, ⅜c higher in Chicago, ⅛-¼c lower in Minneapolis and ⅛c higher in Winnipeg.

May corn closed 1⅛c higher in Chicago and ⅛d lower in Liverpool. May oats closed ⅜-¾c higher in Chicago.

Car receipts at Duluth were 136 against 65 last year, and at Minneapolis 285 against 146 last year, making a total for the Northwest of 421 against 211 last year. Chicago received 26 against 60 last year. Winnipeg received 240 against 86 last year.

Primary receipts of wheat were 1,205,000 bus, last year 486,000 bus. Shipments 261,000 bus, last year 214,000 bus.

Primary receipts of corn were 1,128,000 bus, last year 830,000 bus. Shipments 535,000 bus, last year 322,000 bus.

Wheat trading was rather light during the session of the Duluth market. May wheat opened ¼c lower at $1.11¼, advanced to $1.11½, declined to $1.11¼, rallied to $1.11½ and closed at $1.11⅜, a loss of ⅛c from yesterday. July wheat was inactive and closed ⅛c lower than yesterday at $1.11⅞.

Durum wheat closed ⅝c lower and cash spring wheat was selling on a basis of 3c under May for No. 1 northern.

Flax was stronger today, although the volume of trading in the seed was light here. May flax opened ⅛c lower at $1.18, went off to $1.17¾, rallied to $1.19 and closed at $1.18⅞, a gain of ¾c over yesterday. July flax opened unchanged at $1.19⅞ and advanced to $1.21, closing at $1.20⅞, a gain of 1c over yesterday.

Oats closed ⅛c higher and other coarse grains unchanged.

Following were the closing prices:

Wheat—No. 1 hard on track, $1.09⅞. To arrive: No. 1 northern, $1.08¾; No. 2 northern, $1.05⅞. On track: No. 1 northern, $1.08⅞; No. 2 northern, $1.05⅞; May, $1.11⅜; July, $1.11⅞; No. 1 northern in store, $1.07⅞; No. 2 northern in store, $1.04⅞; durum on track, No. 1, 89⅝c; No. 2, 87⅝c; May durum 92⅝c; July durum, 93⅝c. Flax to arrive, $1.14⅞; flax on track, $1.14⅞; May, $1.18⅞; July, $1.20⅞. Oats to arrive, 48⅛c; oats on track, 48⅛c; rye, 74-75c; barley, 65-85c.

Cars inspected: Wheat, 136; last year, 65; oats, 19; barley, 2; flax, 31; last year, 10.

Receipts: Wheat, 80,126; oats, 20,527; rye, 1,255; barley, 7,564; flax, 23,710.

Shipments: Barley, 1,342.

THE CHICAGO MARKET.

Wheat Weak on Liverpool Dullness and Large Northwest Receipts.

Chicago, Jan. 14.—There was only a moderate trade in wheat today, and the market was inclined to be weak. Liverpool was off about 1d, and that, with larger receipts in the Northwest, were the bearish influences. May opened ⅛@⅜c lower to a shade higher at $1.04¼ to $1.04⅝ and held within that range. Minneapolis, Duluth and Chicago reported receipts of 447 cars against 380 cars last week and 271 cars one years ago.

The market rallied about the end of the first hour, along with corn, May selling up to $1.05⅛. Later it reacted on selling brought out by a liberal increase in world's visible supply. The close was steady, with May ⅛@¼c higher, at $1.04¾.

The corn market opened weak on lower cables, but rallied on buying brought out by forecasts of warmer weather. May opened ⅛c to ¼c lower at 59¾c to 59⅞, and sold up to 60½@¼c. Local receipts were 779 cars, with 5 of contract grade.

The market continued strong the remainder of the session on good demand by cash houses. The high point for May was 60⅞c. The close was strong, wi n May up ⅝c at 60⅝c.

Oats were very dull but the market was firm. May opened unchanged at 53⅝c and sold up to 54c. Local receipts were 173 cars.

Provisions were fairly active and strong on a 5c to 10c advance in the market for live hogs. May pork opened 12½c to 17½c higher at $13.45 to $13.50 and sold at $13.57½. Lard was 5c higher at $8.02½. Pigs were 7½c higher at $7.20.

Close: Wheat—May, $1.04¾; July, 99c; September, 95⅝c. Corn—May, 60⅝c; July, 59⅝c; September, 59⅛c. Oats—May, 53⅞@½c; May, old, 54¼@⅜c; July, 46c; July, old, 47½c; September, 39¾c. Pork—January, $13.10; May, $13.62½. Lard—January, $7.87½; May, $8.12½@8.15. Ribs—January, $6.95; May, $7.27½@7.30. Rye—Cash, 84@85c. Barley—Cash, 85c@$1.04. Timothy—March, $4.75. Clover—March, $17.25. Cash wheat—No. 2 red, $1.01@1.02¾; No. 3 red, $1.00@1.01½; No. 2 hard, $1.01@1.07¾; No. 3 hard, 98c@$1.05; No. 3 spring, $1.05@1.12. Corn—No. 2, nothing doing; No. 3, 55½c.

Copper Gossip.

Boston to Gay & Sturgis: The Osceola dividend was passed today.

* * *

Boston to Gay & Sturgis: At the annual meeting of the Utah Copper company, Jan. 24, the stockholders will be requested to act upon an amendment of certificates of incorporation increasing capital stock from $6,600,000 to an authorized capital of $7,500,000, all of increased stock to be common, and also to consider question of authorizing the issue of $1,500,000 par value convertible bonds to be secured by a second mortgage on all companys property.

Boston to Gay & Sturgis: The markets today were active and strong enough to satisfy any bull. About 2 p. m. the market ran off under the lead of Amalgamated, which became very heavy under 50. The bear element thought they saw the end of the movement, and began to put out a little in the last half hour, which witnessed a severe chastisement to the lot.

Of course the market is not going to have many days in succession like today, but the trend is all towards betterment. The success of the Vanderbilt issue of equipment bonds shows that money is becoming available.

Locally the smaller lake stocks were the favorites, and were in active demand. Atlantic and Isle Royale especially were strong, and range continued its slow but sure improvement. The Cole-Ryan stocks were rather neglected, but will probably go with Amalgamated if it continues strong, as we think it will. On a pronounced spurt tomorrow, would sell for a turn.

Midway Horse Market.

Minnesota Transfer, St. Paul, Minn., Jan. 14.—Barrett & Zimmerman report: Market very quiet, receipts light. Farmers are holding their horses for such high prices that it is impossible for dealers to buy them, the price on the farm being higher than the price on come down in the country, as neither dealer or consumer can afford to pay the farmer what he asks for them. Following low values rule.

Drafters, extra	$175@225
Drafters, choice	125@175
Drafters, common to good	65@125
Farm mares and horses, extra	165@195
Farm mares and horses, choice	125@165
Farm mares, common to good	65@125
Delivery, choice	125@190
Drivers and saddlers	125@215

St. Paul Livestock.

St. Paul, Jan. 14.—Cattle—Receipts, 1,800; warket weak to 25c lower in some cases; quotations unchanged. Hogs—Receipts, 6,800; market active at 15@20c higher; range, $4.20@4.30; bulk of sales, $4.20@4.25. Sheep—Receipts, 1,500; market dull and weak; quotations unchanged.

Chicago Livestock.

Chicago, Jan. 14. — Cattle — Receipts about 3,500; market steady; beeves, $3.60@6.30; cows and heifers, $1.30@4.60; Texans, $3.15@4; western, $3.75@4.60; stockers and feeders, $2.15@4.20. Hogs—Receipts about 30,000; market 3@10c higher. Lights, $4.10@4.40; mixed, $4.15@4.45; heavy, $4.15@4.45; rough, $4.15@4.20; pigs, $3.50@4.25; bulk of sales, $4.25@4.40. Sheep—Receipts, about 12,000; market steady; native, $3.50@7.50; western, $3.50@5.70; yearlings, $3@6; lambs, $5.50@7.40; western, $5.50@7.45.

Treasury Balances.

Washington, Jan. 14.—Today's statement of the treasury balances: Available cash balance, $264,671,148; gold coin and bullion, $43,164,473; gold certificates, $50,304,440.

The Cotton Market.

New York, Jan. 14.—The cotton market opened steady with a decline of 3@4 points which was just about as due on the cables. Trading was very quiet.

PLANS MADE

Chicago, Jan. 14.—The speaker's stand at the Republican convention next June will be located at the south end of the Coliseum. The delegates will sit immediately in front of this stand; behind them will come the alternates, and the spectators will be allowed to occupy the space remaining.

This plan was agreed upon by a committee composed of Harry S. New, chairman of the National Republican committee; Powell Clayton and E. E. Hart, members of the committee, at a conference yesterday.

According to the architect, this will give the building a seating capacity of 11,250 people, with good acoustics.

LIPTON HAS NOT YET CHALLENGED.

New York, Jan. 14.—The Associated Press has received the following cablegram from Sir Thomas Lipton:

"Salve, Island of Ceylon, Jan. 14.—Associated Press, New York: Untrue; have not challenged. Too early. Size of boat no object. LIPTON."

ZOLA STATUE DEDICATED.

Paris, Jan. 14.—The statue of Emile Zola, recently erected in the Place Dauphine, was dedicated yesterday with interesting ceremonies. The date for the dedication was approximately chosen, it being the tenth anniversary of the day in which Zola's open letter to the president of the republic, entitled "J'accuse," appeared.

The statue was begun by Constantin Meunier and finished by Alexandre Charpentier, after the death of Meunier.

The pedestal upon which the statue stands bears several handsome bas-reliefs, the principal one representing the scene in the Cour d'Assises at the time of the sensational Dreyfus hearing.

TOO LATE TO CLASSIFY

One Cent a Word Each Insertion—No Advertisement Less Than 15 Cents.

WHY LOOK OLD WHEN OUR FACIAL virbatory treatment cleanses the skin, stimulates the circulation, building tissues and muscles, producing the rosy appearance of youth. Miss Horrigan, over Gidding's store.

SUPERIOR NEWS

HARRIS ON STAND.

Tells Story of Fight in Which Neumann Was Killed.

This morning at the trial of William Winlock, the negro charged with the murder of Albert Neumann, who was shot on Nov. 27, William Harris, the negro, who was in dispute with Winlock at the time of the shooting, took the stand as a witness in the case.

He testified that Neumann was standing facing him, and with his back to Winlock, when he was shot, and, as the bullet entered the back of the murdered man, he claimed that he, Harris, couldn't possibly have done the fatal shooting.

In the rest of his testimony he repated the statements made by the other witnesses of yesterday in regard to the story of the fight between himself and Winlock. He said the dispute arose over a game of cards.

HID SON FROM OFFICERS.

Superior Woman Concealed Her Boy Under the Floor.

With the help of his mother, Joseph Schultz, an escaped prisoner from the state reformatory at Green Bay, Wis., very nearly eluded the police yesterday when they went to the Schultz home to take the young man in custody for the Green Bay officials.

Schultz, who is claimed to have slipped by the guard Jan. 8 last, came straight home, arriving in Superior two days ago. The police were on the lookout for him, and yesterday started to search the house at 1918 Eighteenth street. Members of the family denied that the young man wanted was in the house and the officers had practically given up hope of effecting a capture when, by chance, they lifted the rug in one of the bedrooms. The floor showed signs of having been cut with a saw recently and an investigation resulted in the finding of a trap door leading to the basement. One of the officers explored the passage and found Schultz crouching in a remote corner. He surrendered without any opposition and was taken to the police station to await the coming of the reformatory officers. He was sent up for eighteen months on a plea of guilty to the charge of highway robbery. The police will get the $25 reward offered for the young man's recapture.

Mayor Files Veto.

Mayor Linley has filed with the city clerk his veto of the ordnance creating the position of weighmaster under the jurisdiction of the police department. The mayor claims that under the city charter no officer can be appointed as provided for by the measure. Another ordinance is said to have been prepared to meet the situation. This will provide for the abolishment of city weighmaster and create the office of inspector and weigher, the position to be filled by executive appointment.

Warrant Issued for Brewer.

A warrant has been issued for the arrest of J. A. Klinkert, president of the Klinkert Brewing & Malting company, who is charged with selling liquor without a license. The brewer is claimed to have sold a keg of beer direct to a consumer last Sunday. The arrest will be made to make a test case of the alleged right of the brewers to sell beer on Sunday. One of the employes of the brewery was arrested recently on a similar charge and his case is pending in the circuit court.

Chicken Thief Sentenced.

Arthur Burnette, aged 28 years, who pleaded guilty to the theft of half a dozen chickens from a coop in the rear of 1208 Third street, was sentenced by Judge Smith yesterday afternoon to a term of one year in the state reformatory. Burnette claimed he was drunk when he took the chickens and claimed that if the opportunity were afforded he would make restitution to the owner of the chickens. The police found Burnette eating one of the chickens last Sunday. He had sold the remainder of the fowls at various places about the city.

BURGLARS ROB EARLE.

New York, Jan. 14.—When a caretaker visited the residence of Frederick Pinney Earle, the artist, at Monroe, Orange county, yesterday, he discovered that burglars had paid the place a visit, stealing or ruining pictures, china, rugs and bric-a-brac valued at more than $25,000. Mr. Earle left about three months ago for Italy, following domestic complications which gained wide publicity at the time.

FINLANDER IS HORRIBLY CUT

Two Fellow Countrymen Mutilate Him With Knife and Flee.

Cass Lake, Minn., Jan. 14.—(Special to The Herald.)—One of the most dastardly and horrible acts ever committed in Cass county took place near a logging camp at Schley this morning when two Finlanders cut a fellow countryman in a frightful manner. They slashed his face right and left with sharp knives and cut out part of his tongue. Then they fled, pursued by an angry mob that at last accounts had not effected their capture.

The injured man, whose name is not known, and who is in no condition to communicate with the surgeons, is at a local hospital in a critical condition. The cause for the savage butchery is not known.

HEARING IS CONTINUED

Two Jurors and Smith Appear Before Judge Morris.

St. Paul, Jan. 14.—(Special to The Herald.)—Lyman G. Bachellor of Madelia and E. C. Benebict of Sabina, Clay county, the jurors accused of being approached by Sherman Smith of Minneapolis, and who are alleged to have discussed with him the case of the government against the Wood brothers, et al, which resulted in the action being dismissed by Judge Morris yesterday afternoon appeared before Judge Morris in the federal district court today, together with Mr. Smith to answer to a summons citing them to appear and show cause why they should not be punished for contempt of court.

On motion of Charles C. Houpt, district attorney, the cases were continued to next Friday in order to allow the government to have certain witnesses present for the hearing. In the meantime they have been allowed to go under bond, the bonds furnished last evening being continuing ones.

Appear With Counsel.

When they appeared in court this morning they were represented by George W. Armstrong and F. W. Booth of Minneapolis, while J. R. Haycraft of Madelia acted as special counsel for Mr. Bachellor.

Mr. Houpt, on behalf of the government, asked that the hearing be postponed. He stated that some of the witnesses lived outside of the jurisdiction of this district court and that it would be impossible to have them here before Friday.

Mr. Armstrong of defendant's counsel, asked the district attorney if he had reference to George A. Hammond.

Mr. Houpt said he had. Mr. Hammond is the government witness, who stated in an affidavit that Mr. Smith had approached him in regard to refusing to testify against the defendants in the Woods case. He resides at Nelson, B. C. He was at one time the president of the Coe Commission company and his testimony, given early in the trial, was, perhaps, as damaging to the defendants as any given in behalf of the prosecution.

REDUCTION

Of Minnesota Forest Reserve Provided in Bill by Clapp.

Washington, Jan. 14.—(Special to The Herald.)—Senator Clapp today introduced a bill providing for the reduction of the forest reserve in Northern Minnesota. Should this bill be enacted it would eliminate some 50,000 acres of forest reserve in Minnesota and restore it to the public domain. The forest reserve sought to be restored to the public domain by Senator Clapp's bill lies northeast and south of Cass Lake.

OPERATIONS ARE HELD UP

Every employment agent in Duluth is on the point of praying for snow. Until the arrival of the beautiful white stuff the labor situation will suffer from dullness. The pulp wood cutters cannot haul the wood to the market, while many of the roads in the logging districts have worn out under the scarcity of snow.

Logging operations everywhere are suffering from the lack of snow. The movement of pulpwood especially is suffering from this cause. Employment men say that until the arrival of snow they can hire but few men. A heavy snow, they predict, would change conditions so that men would be in brisk demand.

A logger said that water was being carried three miles at one camp in the northern part of the state, for the purpose of making roads for the hauling of logs. This is a fair example of the conditions throughout the logging centers. Operations will have to be slackened until weather conditions are such that the accumulated logs can be hauled.

Vast piles of pulp wood are accumulating at the cuttings, according to the report that was brought to the city this morning. The weather man has promised snow for Wednesday and if he keeps his promise it is probable that the employment offices will be besieged with orders for men. At the present men are being turned away daily.

JACKS CHASE FLEEING PIG

A big wagon, drawn by four horses, passed slowly up Michigan street today. It was filled with squealing pigs. As the wagon passed Fifth avenue, going west, one of the more ambitious of the pigs squeezed through a hole in the rear of the crating and dropped, squealing to the street.

The team was stopped, in command to the shouts of warning that came from pedestrians, and the rustic started back after the long-backed specimen. The chase was soon reinforced by lumberjacks and other men who were passing in and out of the employment offices. But if the odds were against the pig, it proved equal to the occasion.

It couldn't have been a pedigreed hog; it was of a long, rakish style of architecture, and covered ground more after the manner of a grey hound. Emitting squeals and wheezy grunts, it dodged the outstretched arms of lumberjacks and continued east on Michigan street.

Finally a flank movement was executed on the hog, and it was driven to bay up against a big signboard, with a crowd of men forming a cordon of pursuers, through which the long-nosed pig could not escape. The hog was grabbed by the hind leg and thrown. Then the puffing driver came up and, assisted by a lumberjack, carried the noisy brute back to the wagon.

SCALDED TO DEATH.

Marquette, Mich., Jan. 14.—(Special to The Herald.)—Descending the Pickands-Mather company's Brotherton mine at Wakefield, Gogebic iron range, Stephen Laine was scalded to death by steam escaping from a bursted pipe. Other miners in the skip with him were badly burned.

NON-UNION PIPE

Causes Strike of 200 Workmen on Brewery in Chicago.

Chicago, Jan. 14.—All work was stopped yesterday on the buildings of the Independent Brewery company, when the non-union mechanics were told to leave the place.

A strike originated because non-union pipe was being placed by steamfitters, not in accordance with the trades' rules of the Associated Building trades, plasterers, sheet metal workers, machinists and boilermakers left the job because they could not sanction the piping of the brewery for union bear with non-union pipe. Two hundred men are affected.

BEQUEATHED $1,000,000

But it is Doubtful What the Estate Will be Worth.

New York, Jan. 14.—Confident that his inventions and investments will net millions to his estate, Walter T. Griffin, ex-United States consul to Limoges, France, who died in Brooklyn yesterday, left a will dated three days before his death, in which he made bequests of over $1,000,000 to relatives and friends and large benefits to charitable and philanthropic enterprises. Mr. Griffin's chief interests were in a concern known as the Peat Chemical company, which is incorporated under New York laws, with a capital stock of $20,000,000. Attorneys for the estate say its value is problematical. Contingent upon its development or retrogression, it may, they say, be worth all the way from $20,000 to $2,000,000.

SUES PUBLISHERS.

New York, Jan. 14.—Edwin S. Wallace former consul of the United States at Jerusalem, has begun suit against D. Appleton & Co., publishers of Appleton's Magazine, for $50,000 damages for an alleged libel. Mr. Wallace alleges that in an article on Jerusalem appearing in the magazine he was libelled. The company answers that it published the article in good faith, believing it to be true.

STREET CARS.

NOTICE TO THE PUBLIC.

This company operates a street railway line in the city of Duluth between Third avenue east and the end of Rice's Point, and another street railway line in the city of Superior between Twenty-first street and the end of Connor's Point. These lines are separated by the waters of St. Louis bay, and are operated as two distinct and separate lines.

The fare for a continuous ride in one direction between any two points on either one of these lines is 5c.

The public is hereby notified that this company does not, by undertaking to carry any passenger, or by accepting fare for such carriage, assume any responsibility beyond that of carrying such passenger safely between points on the above mentioned lines.

This company is not responsible for close connections, nor safe transportation, between the above mentioned lines by any ferryboat or other means of transportation. While the employes of this company have been instructed to keep themselves posted and give upon request all the information they can as to the probability of connections being made with other transportation lines, the company has no better means of foreseeing unexpected interruptions in the service of such lines, nor of telling how long such interruptions will continue, than the public has, and, therefore, cannot be responsible for notice of such interruptions.

ERA OF ROAD BUILDING

County Will Have Miles of New Highway This Year.

St. Louis county seems to be on the verge of one of the greatest road building movements that the county has ever experienced since its organization.

Not only has the county board by a generous levy provided a large amount of money to take care of the new road petitions and for the maintenance of the roads already established, but the state drainage commission, which will, this year construct forty miles of ditches within the county, will also build forty miles of good roads along the ditches, without cost to taxpayers in general.

The county board's levy for roads this year was $115,000 an increase of nearly $20,000 over the levy for last year. It is believed that with this amount of money tremendous headway will be made during the coming summer and fall in the opening up of new highways in districts that have been settlingg up with the past few years, and a great deal will be done in the way of improvement of some of the old roads.

The state will spend in the neighborhood of $50,000 on the three ditches to be constructed this year, this amount to also cover the cost of the road-making along the ditches. The drainage commission, through its engineer, George A. Ralph, claims that the forty miles of roads to be thus constructed will be, when completed, good highways suitable for wagons, automobiles or bicycles. The material for the roads will be taken by the dredges from the ditch excavations. It is claimed that there will be enough material taken out of the ditches to build the road about four feet above the level of the surrounding swamp land. The big ditches will form splendid drains and it is anticipated that the roads along the banks will become suited to use very quickly. The greatest obstacle that has hitherto been encountered in the county in road building across swamps has been to get adequate drainage. The big ditches are intended to carry off the water from the swamp tracts and it is anticipated that the ground will dry out rapidly.

If the state drainage commission can provide forty miles of road through swamp lands, besides the ditches, for $50,000 or a little less, it is believed, that the county, with its large road fund, will do an equally large amount of road work this year.

Although no steps have yet been taken toward that end, it is probable that the county will legalize the roads along the ditches. This will have to be done to provide for the maintenance of the roads after they are constructed.

Special Announcement Regarding the National Pure Food and Drug Law.

We are pleased to announce that Foley's Honey and Tar for coughs, colds and lung troubles is not affected by the National Pure Food and Drug law as it contains no opiates or other harmful drugs, and we recommend it as a safe remedy for children and adults. Sold by all druggists.

DAMAGE CASES STILL ON TRIAL

The damage case of John Mattala against the Shagwa Iron company is still on trial in Judge Cant's room. The trial is not likely to be completed today. Testimony is being introduced by the defense. Mattala demands about $30,000 damages for injuries claimed to have been received by the negligence of the company through its employes. He is claimed to be permanently injured.

The damage case of Olson against the street railway company is still on trial in Judge Dibell's room. The case is not likely to go to the jury before tomorrow.

JURY HOLDS LEASE VOID

Carl Erickson sued Frank Filonowich for $1,500 damages for an alleged breach of contract concerning a lease of a saloon and hotel building in the town of Aurora.

After hearing both sides of the story, the jury last evening decided that Erickson was entitled to nothing, so a verdict was returned in favor of Filonowich.

According to the testimony, Erickson secured a lease on the defendant's store and saloon building, including all the furniture, fixtures, etc., for about $175 per month.

Filonowich claims that he does not read or write English, that the papers were handled by his small daughter. He alleges that when he signed the lease he supposed he was signing a receipt for $25. Filonowich further claims that as soon as he found out what he had signed he refused to turn the property over to Erickson, but re-leased it to another party.

W. G. Bonham represented Erickson and Judge D. H. Lawrence of Two Harbors represented Filonowich.

The case was tried before Judge Ensign.

ORDER FOR HEARING ON PETITION FOR ADMINISTRATION.

State of Minnesota, County of St. Louis.
In Probate Court.
In the Matter of the Estate of Albert Hawk, Deceased.

THE PETITION of James L. Crawford having been filed in this court, representing, among other things, that Albert Hawk, then being a resident of the County of St. Louis, State of Minnesota, died intestate, in the County of St. Louis, State of Minnesota, on the 11th day of December, 1907, leaving estate in the County of St. Louis, State of Minnesota, and that said petitioner is a creditor of said decedent, and praying that letters of administration of the estate of said decedent be granted to August Hammer, of Duluth, Minn.

IT IS ORDERED, That said petition be heard before this court, at the Probate Court Rooms in the Court House, in Duluth, in said County, on Monday, the 10th day of February, 1908, at ten o'clock, A. M., and all persons interested in said hearing and in said matter are hereby cited and required at said time and place to show cause, if any there be, why said petition should not be granted.

ORDERED FURTHER, That this order be served by publication in the Duluth Evening Herald according to law, and that a copy of this order be served on the County Treasurer of St. Louis County not less than ten days prior to said day of hearing.

Dated at Duluth, Minn., January, 13th, 1908.

By the Court,
J. B. MIDDLECOFF,
Judge of Probate.
(Seal, Probate Court, St. Louis County, Minn.)
ANDREW NELSON,
Attorney for Petitioner,
309 First National Bank Building, Duluth, Minn.
Duluth Evening Herald, Jan. 14, 21 and 28, 1908.

FURNACE TO BE RELINED

West Duluth Plant Will be Closed for Repairs.

The Work is Not Expected to Take Long.

The Zenith Furnace company in West Duluth expects to close its blast furnace the latter part of this month or the first of next, in order to put in a new lining, as the old one is nearly burned out.

This is the first time the furnace has been relined in nearly two years. The inside covering of such a furnace becomes thin, every so often, from the great heat it is exposed to, and this, of course, necessitates a closing down for repairs.

It is thought that the contemplated repairs on the furnace will not take long and very few men will be laid on while it is shut down, as most of the present force employed will be needed on the work of taking out the old lining and putting in the new one.

As soon as the work is completed, the furnace will continue to turn out pig iron as usual.

USE WEST DULUTH RINK.

Duluth Club Members Given Privileges of Western Club's Ice.

The Western Curling club has extended the privilege of skating at the rink in West Duluth to the members of the Duluth Curling club during the bonspiel, which starts in Duluth next Monday. While the bonspiel is on, all of the skating ice at the Duluth rink will be turned over to the curlers, but the Western club has extended an invitation to the Duluth members to use the West Duluth rink. Music will be provided at least two night during the week.

GOOD SCORES MADE.

Members of New Gun Club Have Luck With Pigeons.

Sunday afternoon the Zenith Gun club of West Duluth held its first regular shoot since its organization a week ago. Some of the scores made by its members in breaking clay pigeons would do credit to an old organization.

Out of a possible fifty birds the following scores were made:

Hugo Jacoby	43
O. C. Genrich	42
D. G. McLeod	42
Arthur Jacoby	38
H. Blesner	37
Fred C. Harris	37
Walter Jacoby	35
Lynden Lynch	34
C. E. Keiley	32
E. W. Lynch	32
H. Lawrence	28
M. Harris	26

Back From Honeymoon.

Mr. and Mrs. Harry Weiss, who were married on Dec. 22, have returned from their wedding trip and are now in their new home, 5404 Grand avenue, West Duluth. On their trip they visited St. Paul, Minneapolis, Chicago, Cleveland and New York. Mr. Weiss in speaking of their trip, said he was pleasantly surprised to find The Duluth Evening Herald on sale, one day after publication, in all the Eastern cities they visited, and was delighted to be able to keep in touch with Duluth affairs while away.

In Chicago Mr. Weiss closed a contract for the remodeling of the West Duluth Elco theater, of which he is proprietor, the work to be completed within sixty days. Mr. Weiss says he is going to put on a vaudeville show in the latter part of March to take the place of the present moving picture attractions.

West Duluth Briefs.

James Haburt of Sixtieth avenue west, returned yesterday from the Southwest, where he has been for the past eight months.

Mrs. Ella O'Brien, 5621 Grand avenue, left last evening for Chicago, where she will visit her mother and rest up after her late illness. When she fully recovers, she intends to go to Goldfield, Nev., to visit her brother there.

Mrs. J. C. Hunter, formerly of Forty-ninth avenue west, died Saturday at her home in Royalton, Minn. Mr. and Mrs. Hunter moved from West Duluth to Royalton early last fall.

George Hunter left last night for Royalton to attend the funeral of his sister-in-law, which took place this afternoon.

The Duluth Chapter, No. 59, R. A. M., will meet in West Duluth, this evening at 7:30 o'clock.

R. J. Hand is ill with the grip at 5711 Wadena street.

Invitations have been issued by the young ladies of the O. M. M. club for a Leap Year party, to be held in Wade's hall on Jan. 28. The following are on the arrangement committee: Misses Delia Foucault, Laura McCormick, Julia Doyle and Nan Dormedy.

The Norden Sick Benefit society held its annual election of officers last evening. The following officers were elected: M. T. Carlson, president; John Lind, vice president; C. F. Wedan, secretary; A. J. Lindgren, vice secretary; John Olin, treasurer; auditing committee, Goodwin Oleson, Oliver Johnson, Ciderholm; sick committee, J. H. Erickson, Nels Johnson, August Klang, Charles Anderson, Goodwin Oleson, John Bergholt; custodian, Victor Carlson.

O. Eustron of Geneva, Minn., is visiting his father, Capt. H. Eustron at 406 North Fifty-eighth avenue west.

The Ladies' Guild of the Holy Apostles' church will meet tomorrow afternoon at 2:30 o'clock at the home of Mrs. J. A. Scott, 5803 Olney street.

The ladies of the St. Agnes' Guild of the Holy Apostles' church will meet Thursday evening at 8 o'clock with Mrs. Norman Skaftue, Fifty-ninth avenue west and Ramsey street.

West Duluth council, No. 255, Royal league, will install officers tonight in its new rooms in the Western State Bank building. There will be refreshments and dancing after the installation ccremony.

Diamond lodge, Knights of Pythias, last night held its annual installation of officers at the Columbia hall. There was a banquet and dancing after the installation ceremonies. The following officers were installed: Chancelor commander, S. L. Pierce; vice chancelor commander, F. P. Amo; master of work, John Morgan; keeper of records and seals and master of finance, Thomas A. Pinto; master of exchequer, A. Kennedy; master-at-arms, L. S. Larson; inner guard, C. R. Hoar; outer guard, John Yergan; trustee, C. R. Hoar.

Registered at the Phillips hotel are: Robert A. Logan of Pittsburg, Pa., and Emil Peimmerville of Marquette, Mich.

The Lady Hibernians will install their officers Thursday night at Gilley's hall.

Girl wanted for general housework. Apply 232 North Sixty-third avenue west.

The Beneficent Degree of West Duluth, Council No. 4, Modern Samaritans, held the annual election of officers last night at their regular meeting. The installation of officers will take place next Monday evening.

J. H. Erickson has returned to West Duluth from Stillwater, Minn., where he attended the funeral of his sister, Mrs. August Anderson.

Louis Ramstead of Fifty-fifth avenue fest and Wisdom street left this morning on a pleasure trip to Cuba and Florida, where he will spend the rest of the winter.

Thursday evening there will be a joint installation of officers by the A. O. H. and the Ladies' auxiliary in Gilley's hall.

J. A. Terry has returned to West Duluth from Henning, Minn., where he was called by the illness of his son.

West Duluth Tent No. 2 met last evening in the Great Eastern hall to complete arrangements for their installation of officers to take place Jan. 27.

Coal, Coke and Match Blox—W. A. Pond Fuel Co., 411 Central avenue. Bell 'phone, 3062-L; Zenith, 3052.

AX DRIVEN INTO SKULL

Elias Matson Brutally Murdered in Bed at Chisholm.

Formerly of Superior, and Jealousy Given as Motive.

Chisholm, Minn., Jan. 14.—(Special to The Herald.)—As brutal a murder as was ever committed in this section of Minnesota was revealed to Chief of Police Madden early this morning, when he was called to the lodgings over a saloon occupied by Elias Matson and wife, who came here recently from Superior Wis. Matson was dead, with a double-bitted ax sunk into his skull. The woman said she made the horrible discovery about 4 o'clock. She claimed not to have heard the attack, and to have known nothing of the foul crime until she made the astounding discovery that her husband had been slain as he lay in bed beside her.

Suspects Arrested.

The woman was placed under arrest and the chief of police immediately arrested three men against whom suspicion was directed. Deputy Coroner W. R. Smith, this afternoon, is conducting an inquest and until this is completed the story of the revolting crime will not be known.

The authorities incline to the theory that jealousy prompted the crime and Chief of Police Madden believes that one of the men under arrest is the guilty party. Whether the woman figured in the crime is yet to be learned.

Matson and the woman are said to have been married in Superior eight years ago and to have been known in the tenderloin district of the Wisconsin town. A current report has it that the dead man had no visible means of support and his associations in the redlight district are supposed to have furnished him a livelihood until the recent closing of the restricted district in the Wisconsin city forced him and the woman to leave. The men arrested on suspicion are also said to hail from Superior. Matson was about 40 years of age and little is learned here respecting his family connections.

WEST END

GIRLS' CLUB IN WEST END

Vestry Rooms at St. Luke's Fitted Up for the Purpose.

Classes in Domestic Science and Sewing to be Organized.

The carpenters and other workmen who have been busy for some little time in the vestry rooms of St. Luke's Episcopal church, preparing them for the girls' club work which is to be instituted in that section of the city under the direction of the parish and a number of uptown ladies who have interested themselves, have completed their labors and there will be a formal opening at the church tomorrow evening.

Since the gymnasium classes were organized in St. Luke's parish, the girls' club idea has been worked up by members, the rector, Rev. R. J. Mooney, those who started the athletic work, and members of the Twentieth Century club.

The West end girls took to athletics as provided at St. Luke's church, and the success of the girls' club feature seems assured already. Those who have the work in charge feel that there are great opportunities to help young girls in the West end, and they propose to do so along the most approved lines.

Classes in domestic science, sewing and other branches will be organized and placed in charge of competent persons.

Many West enders are planning to attend the opening reception tomorrow evening. An interesting program will be given, and the whole affair will be in charge of members of the Duluth Gymnasium club and the Twentieth Century club.

West End Shortrails.

Dr. Braden is back at his office again after a siege of the grip.

Rev. J. W. Robinson, formerly pastor of Grace M. E. church but now located in Minneapolis, has returned to that city after spending several days with friends in the West end.

P. George Hanson has recovered from an illness which confined him to his home for two weeks.

Mrs. Le Bru of 2718 West Fourth street has been visiting friends and relatives at Chisholm for the past week.

Mrs. William Chapman of 2821 Twenty-eighth avenue west, is able to be around again after an illness of two weeks.

Contractor Nord is building a house at West Duluth for David Adams, and has the contract for the erection of another for Mr. Adams at 2712 West Fourth street.

Miss Lou Potter of the United States block, who has been visiting friends and relatives at Glindon, Minn., for the past three weeks, is expected home this week.

Haughrud and Newbron, doing business as the Central Butter & Egg company, have dissolved partnership. Haugsrud Bros. will continue it, and Mr. Newbron will engage in some other line in the West end.

The Epworth League Sewing Circle of the First Norwegian-Danish M. E. church was entertained at the church last evening by Mrs. Edward Thorstad.

The Ladies' Aid society of the First Norwegian-Danish Methodist church will meet Thursday afternoon with Mrs. August Telakson of Twenty-sixth avenue west and Second street.

Charles Baxter and family of 2617 West Fourth street leave today for an extended European trip.

Mrs. J. A. Broman was operated on today at St. Luke's hospital.

Arthur Osterberg of North Dakota is visiting his brother, Dr. Osterberg. Mr. Osterberg is an attorney and while here will look over the West end with an idea of locating if conditions are suitable.

Joint services are being conducted this week by the First Swedish Baptist church of the West end, Bethel Swedish Baptist church of the East end and the West Duluth Swedish Baptist church. Tonight and tomorrow night the services are in the East end church and the rest of the week they will be held at the West Duluth church.

The annual meeting of the Young People's society of Bethany Swedish Lutheran church will be held Thursday evening at the church. An interesting program will be given and refreshments will be served.

The funeral of Helmar Johnson, the 3-weeks-old son of Mr. and Mrs. Erick Johnson of 11 Restormel street, is being held this afternoon at Forward's undertaking rooms. The interment takes place at the Lutheran cemetery.

The Adams School Alumni association will meet this evening at the school. After the business meeting there will be a program of musical numbers and recitations.

Get the habit. Go to the Star theater tonight. New show every Sunday and Thursday. Ed A. Nelson.

The funeral of Carl, the 2-year-old son of Mr. and Mrs. Charles Gabrielson of 505½ Garfield avenue, was held this afternoon at Forward's undertaking rooms. Interment takes place at Park Hill cemetery.

The funeral of Gladys, the 2-year-old daughter of Mr. and Mrs. Carl Peterson was held yesterday afternoon at the residence, 2219 West Tenth street. The interment took place at the Lutheran cemetery.

The funeral of Albin, the 9-year-old son of Mr. and Mrs. Elof Carlson of 324 Seventeenth avenue west, will be held tomorrow afternoon at Forward's undertaking rooms.

HEAVY FIRE LOSS.

Noonan, N. D., Jan. 14.—The Noonan Mercantile company's store here was destroyed by fire, with a loss of about $20,000. The loss is only partially covered by insurance. The origin of the blaze is not known.

Wrong Shoes

Artemus Ward once remarked, "There is one thing to be said in favor of tight shoes—they make a man forget all his other troubles."

It isn't always the "size" of a shoe that causes a misfit. It's the make of the shoe, the material, the shape of it.

Your feet are "traveling companions" that carry you everywhere you want to go. They are valuable servants and expect to be treated well.

Easy, glove-fitting shoes are the greatest comfort your feet can have.

These are the only kind of shoes we sell. No matter what kind of foot you have, we'll fit it.

Crushed feet are neither useful nor ornamental, but they are painful.

We are not shoe sellers, only—we are feet fitters as well.
